This bill, as amended, would change civil forfeiture provisions as prescribed. It would require reporting to the Auditor of Public Accounts and the Legislature regarding civil forfeiture proceedings.

The Nebraska State Patrol states that AM2920 prohibits law enforcement agencies from transferring or referring any money or property to a federal law enforcement authority or other federal agency by any means unless the money or property seized exceeds twenty-five thousand dollars in currency or value. The State Patrol estimates that approximately 32% of the funds deposited in the Public Safety Cash Fund have historically consisted of amounts less than \$25,000 that are obtained through its participation in federally related intergovernmental joint taskforces. The State Patrol estimates this will result in a reduction of cash fund revenue to this fund in the amount of approximately \$260,000.

The State Patrol estimates that if Public Safety Cash Fund revenues are significantly reduced they will have a shortfall in cash funds to pay for projects that are currently planned beginning at some point in FY18. The State Patrol estimates that the reduction in these revenues will result in the need to increase its General Funds budget for FY18 in the amount of approximately \$150,000. The Patrol states that there will also be shortfalls in subsequent budget years that will exceed this amount, as the remaining balance in the Public Safety Cash Fund becomes fully expended. The Patrol will have the opportunity to submit a request for additional resources in the budget process.

The fiscal analyst understands that when money is forfeited at the state level, one half of the money goes to the schools. The other half goes to the county drug fund, and the Patrol generally does not receive any of these funds.

See the Patrol's response attached for additional details not included in this fiscal note.

The Supreme Court states that this bill will impact district court workload, but since district court operating expenses are primarily a county expense, the Supreme Court does not expect any significant impact to their budget. The Supreme Court states that this bill will also impact judicial branch education, but any additional education can be completed with existing staff and funding.

Explanation of Estimate:

AM2920 prohibits law enforcement agencies from transferring or referring any money or property to a federal law enforcement authority or other federal agency by any means unless the (1) the money or property seized exceeds twenty-five thousand dollars in currency or value, (2) the money or property is physically seized by a federal agent who is employed by the federal government, or (3) the person from whom the money or property was seized is the subject of a federal prosecution or the facts and circumstances surrounding the money or property seized are the subject of a federal prosecution. The State Patrol estimates that approximately 32% of the funds deposited in the Public Safety Cash Fund have historically consisted of amounts less than \$25,000 that are obtained through its participation in federally related intergovernmental joint taskforces. The State Patrol estimates this will result in a reduction of revenue to this fund in the amount of approximately \$260,000. It is important to note that the Public Safety Cash Fund is an important funding source for the State Patrol. Some of the types of expenditures that occur from this fund include the following: (1) a portion of the rent for the new crime laboratory, (2) funding of out-of-state travel and training for Agency personnel, (3) various types of information technology equipment and software, (4) various types of law enforcement related equipment. Note that all of these expenditures are not currently a part of the Agency's General Funds budget. The State Patrol estimates that if revenues are significantly reduced the Agency will have a shortfall in cash funds to pay for projects and expenditures that are currently planned beginning at some point in fiscal year 2017-18. The State Patrol estimates that the reduction in these revenues will result in the need to increase its General Funds budget for fiscal year 17-18 in the amount of approximately \$150,000. There will also be shortfalls in subsequent budget years that will exceed this amount, as the remaining balance in the Cash Fund becomes fully expended and will no longer be available for these Agency expenditures.

Explanation of Estimate:

LB1106, as amended by AM2840 & AM2920, continues the fiscal impact of the bill as introduced. As stated in an earlier fiscal note, any impact, for example, due to additional hearings, although difficult to determine, would affect district court, which is primarily funded through each county. Therefore, any fiscal impact to the Supreme Court, although changes may be required in the court's case management computer system, should not be significant. Additional judicial branch education can be completed with existing staff and funding.
