1       Section 1. Section 39-1348, Reissue Revised Statutes of Nebraska, is  
2 amended to read:

3       39-1348 Before letting contracts for the construction,  
4 reconstruction, improvement, maintenance, or repair of roads, bridges,  
5 and their appurtenances, the department shall solicit bids as follows:

6       (1) For contracts with an estimated cost, as determined by the  
7 department, of greater than one hundred thousand dollars, the department  
8 shall advertise for sealed bids for not less than twenty days by  
9 publication of a notice thereof once a week for three consecutive weeks  
10 in the official county newspaper designated by the county board in the  
11 county where the work is to be done, and in such additional newspaper or  
12 newspapers as may appear necessary to the department in order to give  
13 notice of the receiving of bids. Such advertisement shall state the place  
14 where the plans and specifications for the work may be inspected and  
15 shall designate the time when the bids shall be filed and opened. If ÷  
16 Provided, that if through no fault of the department, publication of such  
17 notice fails to appear in any newspaper or newspapers in the manner  
18 hereinbefore provided in this subdivision, the department shall be deemed  
19 to have fulfilled the requirements of this subdivision; and section.

20       (2) For contracts with an estimated cost, as determined by the  
21 department, of one hundred thousand dollars or less, the department, in  
22 its sole discretion, shall either:

23           (a) Follow the procedures given in subdivision (1) of this section;  
24 or

25           (b) Request bids from at least three potential bidders for such  
26 work. If the department requests bids under this subdivision, it shall  
27 designate a time when the bids shall be opened. The department may award  
28 a contract pursuant to this subdivision if it receives at least one  
29 responsive bid.

30       Sec. 2. Section 39-1349, Reissue Revised Statutes of Nebraska, is  
31 amended to read:

1        39-1349 (1) Except as provided in subsection subsection (3) and (4)  
2    of this section, all contracts for the construction, reconstruction,  
3    improvement, maintenance, or repair of state highway system roads and  
4    bridges and their appurtenances shall be let by the department to the  
5    lowest responsible bidder. Bidders on such contracts must be prequalified  
6    to bid by the department except as provided in subsection (2) of section  
7    39-1351 who has been qualified by the department. The department may  
8    reject any or all bids and cause the work to be done as may be directed  
9    by the department. If the contractor has furnished the department all  
10   required records and reports, the department shall pay to the contractor  
11   interest at a rate three percentage points above the average annual  
12   Federal Reserve composite prime lending rate for the previous calendar  
13   year rounded to the nearest one-tenth of one percent on the amount  
14   retained and on the final payment due the contractor beginning sixty days  
15   after the work under the contract has been completed as evidenced by the  
16   completion date established in the department's letter of tentative  
17   acceptance or, when tentative acceptance has not been issued, beginning  
18   sixty days after completion of the work and running until the date when  
19   payment is tendered to the contractor.

20       (2) When the department is required by acts of Congress and rules  
21   and regulations made by an agent of the United States in pursuance of  
22   such acts to predetermine minimum wages to be paid laborers and mechanics  
23   employed on highway construction, the Director-State Engineer shall cause  
24   minimum rates of wages for such laborers and mechanics to be  
25   predetermined and set forth in contracts for such construction. The  
26   minimum rates shall be the scale of wages which the Director-State  
27   Engineer finds are paid and maintained by at least fifty percent of the  
28   contractors in performing highway work contracted with the department  
29   unless the Director-State Engineer further finds that such scale of wages  
30   so determined would unnecessarily increase the cost of such highway work  
31   to the state, in which event he or she shall reduce such determination to

1 such scale of wages as he or she finds is required to avoid such  
2 unnecessary increase in the cost of such highway work.

12 except as provided in subsection (2) of section 39-1351.

17 other aspects of the project to which such contract relates, including,  
18 but not limited to, preliminary engineering, environmental clearance,  
19 final design, and construction engineering, when the department  
20 determines that it is in the public interest to do so. Bidders on such  
21 contracts must be prequalified to bid by the department except as  
22 provided in subsection (2) of section 39-1351.
