Introduction

The Nebraska Department of Health and Human Services, Division of Children and Family Services, believes it is important to understand the quality of the service being provided to the stakeholders involved in the child welfare and juvenile justice systems. In accordance with the Legislation and per our desire to hear from those receiving our services, the Division of Children and Family Services (CFS) administered a customer satisfaction survey to the following stakeholders to measure their satisfaction with the support and services provided by CFS;

- a) Parents**
- b) Foster Children**
- c) Foster parents**
- d) Judges**
- e) Guardian ad litem**
- f) Attorneys representing parents**
- g) Service providers**

Background

The Division of Children and Family Services (DCFS) began conducting surveys with parents in March 2005, with foster parents in April 2007 and with youth in YRTC in July 2007.

Up until June of 2009, the Nebraska Continuous Quality Improvement (CQI) team reviewed the Customer Satisfaction Survey questionnaires that were used throughout the state to solicit stakeholder input, primarily from the youth in the Youth Rehabilitation Center's (YRTC's). In 2010, CFS made a decision to change the survey questions and methodology of the survey process and we enlisted the support of University of Nebraska Medical Center (UNMC) to perform outbound telephone interviews. The survey recipients were expanded to include all youth ages 12 and older who were receiving services from DCFS. The questions used during the second phase and methodology are similar to the steps taken for this survey.

In 2012, The Department was required by LB1160 to annually survey children, parents, foster parents, judges, guardian's ad litem, attorneys representing parents and service providers involved in the child welfare system to monitor satisfaction with:

- (a) Adequacy of communication by the case manager,
- (b) Response by the department, any lead agency or the pilot project to requests and problems,
- (c) Transportation issues,
- (d) Medical and psychological services for children and parents,
- (e) Visitation schedules,
- (f) Payments,
- (g) Support services to foster parents,
- (h) Adequacy of information about foster children provided to foster parents, and
- (i) The case manager's fulfillment of his or her responsibilities.

In 2014, The Department hired the University of Nebraska - Lincoln Bureau of Sociological Research (UN-L) to perform outbound telephone interviews.

Methodology

The LB1160 surveys consisted of Likert scale questions to measure the respondent's satisfaction with regards to the categories listed above. Every survey, regardless of recipient, contained the same seven questions. The foster parents, judges, attorneys, and service provider survey contained additional questions regarding payment for services to service providers, supportive services to foster families, and whether foster parents are provided with adequate information regarding the children placed in their care.

Survey Questions/Categories

Please note the word case manager is used in the questions to refer to both the CFS Specialist and the Contractor Service Coordinators/Family Preservation Specialists.

Common Questions in all Surveys:

1. The case manager keeps me informed.
2. The case manager resolves problems in a timely manner.
3. The case manager effectively resolves transportation issues.
4. Adequate medical services are made available.
5. Adequate behavioral health services are made available.
6. The case manager schedules adequate parenting-time visitation plans for children with their family.
7. The case manager adequately fulfills his/her job responsibilities.

Additional questions for Foster parents, Judges, Attorneys and Service Providers:

- 1) Payment for services is made in a timely manner to service providers.
- 2) The case manager provides supportive services to foster families.
- 3) Foster parents are provided with adequate information regarding the foster children under their care.

Responses Scale:

All questions used the following Likert scale (1=never, 2=rarely, 3=sometimes, 4=often, 5=always).

The surveys for parents, foster parents and foster children were administered by an outbound telephone firm through a contract with the University of Nebraska-Lincoln (UN-L). The survey recipients were randomly selected from a list of active wards of the State. The department anticipated completing 350 surveys for each of the three groups.

The Department administered the surveys for the Judges, Attorneys, Service Providers and Guardian ad litem through a web-based program. There were 71 survey invitations sent to Judges with 9 responses, 68 invites to Providers with 19 responses and 35 attorneys responded to 335 invites that were sent out.

Summary of Statewide Survey Results

Below is a summary of the Customer Satisfaction Surveys conducted throughout the State in June and July 2018. The "Refuse", "Don't Know" and "N/A" Responses were removed from the analysis because these responses are considered to be non-responsive. The telephone surveys collected responses from 350 youth, 350 parents, and 355 foster parents for a total of 1055 phone surveys. The web-based surveys received responses from 9 judges, 19 providers, and 35 attorneys for a total of 63 web-based surveys. Due to the size of sample returned by those who responded who were judges, providers and attorneys; for reporting and tabulation purposes we grouped them as one group. Overall there were 95 responses to the survey.

The results indicate for all areas across the state, the average score rated a 3 or above on a 5 point Likert scale. The scale is 1= never; 2 = rarely; 3 = sometimes; 4 = often; and 5 = always.
