LB94 increases the amount of funds offered to banks and other financial institutions as deposits from \$5 million to \$15 million. The Nebraska Investment Council (NIC) indicates that the initial workload required can be absorbed with existing resources. The NIC also indicates that a potential longer term fiscal impact would have to be evaluated as more information is available.

Explanation of Estimate:

For fiscal years 2017-2019, Council staff does not feel there is a fiscal impact to the agency. The initial workload required can be absorbed with existing resources. While there is a possible long-term fiscal impact from LB 94, it will depend upon the complexity of the program structure and growth of the assets within the program.
