b. On page 39, after line 2 insert the following:

(12) The Legislature finds that underfunding of the medical assistance program under the Medical Assistance Act has resulted in a growing financial chasm between the amount of money a service provider is reimbursed under the program and the actual cost of providing care. Combined with workforce shortages, the continued ability of long-term care providers to serve beneficiaries of the medical assistance program is increasingly at risk. The Legislature also recognizes that aging Nebraskans have made contributions throughout their lifetimes to the state and country and deserve to receive the care they need in recognition of this service.

(13) If federal funding is approved under this section, on or before December 31, 2020, the department shall study and report to the Appropriations Committee of the Legislature on statewide access to long-term care. The department shall contract with an independent entity with proven expertise in (a) data analysis and projections of future trends, (b) community planning, (c) innovative practices and best practices in long-term care services, and (d) the development of a long-term care sustainability plan. The department and contracted entity shall study the needs of Nebraska's aging population for facility-based and home and community-based long-term care services in close proximity to familial and social support systems and shall make reasonable recommendations, supported by data, on changes to the policy and funding of long-term care services under the Medical Assistance Act.

(14) The department and the contracted entity shall:

(a) Review and summarize existing data sources;

(b) Provide the committee with a detailed analysis and projection of
Nebraska's demographic trends by age and availability of informal long-term care support systems;

(c) Provide the committee with a detailed analysis of the current and projected future needs of aging Nebraskans and current gaps in facility-based and home and community-based long-term care services in all areas of the state and factors contributing to such gaps;

(d) Provide the committee with a detailed analysis of state regulations and processes that impede the flexibility for nursing facilities to provide home and community-based long-term care services when there is an identified community need;

(e) Provide the committee with a detailed analysis of the financial stability of long-term care providers that accept participants in the medical assistance program, especially nursing facilities, and contributing factors;

(f) Make recommendations to the committee for increased regulatory flexibility to allow a skilled nursing facility to provide home and community-based long-term care services to meet community needs and for strategic consolidation of facilities and services to use long-term care workforce resources more effectively;

(g) Identify changes to reimbursement under the medical assistance program to sustain access to long-term care services across the state; and

(h) Create a financially sustainable five-year plan for ensuring that aging Nebraskans continue to have access to long-term care services they need in close proximity to their familial and social support systems.

(15) A status update on the report shall be delivered electronically to the Appropriations Committee of the Legislature by December 31, 2019. The final report shall be delivered electronically to the Appropriations Committee of the Legislature by December 1, 2020.

(16) It is the intent of the Legislature that the Division of
Medicaid and Long-Term Care of the Department of Health and Human Services shall request approval from the Secretary of the United States Department of Health and Human Services to use $87,500 of Nebraska's Nursing Facility Penalty Cash Fund under section 1919(h)(3)(C)(ii)(IV) (ff) of the federal Social Security Act as the federal match to carry out the study described in this section. Such funds shall be used to research demographic trends, project current and future service needs, and provide recommendations for continued statewide access to long-term care services, including nursing facility care, for medicaid recipients.
