Neutral:

Representing:

Summary of purpose and/or changes:

LB 452 would create a process for a county to leave a Nebraska planning and development region and enter an adjacent planning and development region. The process would include

- (1) a voluntary written agreement between the sending region and receiving region to resolve outstanding financial and legal obligations,
 - (2) review by the Department of Economic Development (DED) with any recommendations to the districts, and
 - (3) a designated effective date for both the boundary change and the written agreement. All development districts of both affected regions would have to consent to the change.
