LB 665 provides regulatory powers to local authorities related to the operation of electric foot scooters and shared scooters in their jurisdictions. The bill allows local authorities to promulgate and assess penalties for moving or parking violations involving electric foot scooters and shared scooters. It also allows local authorities to establish fees to provide for the reasonable cost of administering scooter-share programs. Local authorities may require scooter-share operators to submit fleet and ride activity data through an automated interface.

The bill has no fiscal impact for any state agency. The bill may result in a workload increase and fiscal impact for local authorities which opt to regulate the operation of electric foot scooter and shared scooter programs. If penalties are assessed pursuant to the bill, there will be an increase in revenue for local authorities which will accrue to the public schools. If fees are established for operators of shared scooter programs, then revenue may be raised to offset the cost to local entities to regulate the operation of shared scooter programs and to collect data on scooter usage.
