LB 886 requires that Nebraskans who have a health care insurance plan and receive services from a network provider will not be charged any other rates than those negotiated by the health insurer. The bill also states that providers/facilities cannot hold itself out as a network provider through advertising, displaying of the insurer’s logo or any other means unless the provider is actually a network provider.

The Department of Insurance does not anticipate a fiscal impact. If the bill should result in additional duties for enforcement activities, the Department can absorb these duties with existing resources.
