Any Fiscal Notes received from state agencies and political subdivisions are attached following the Legislative Fiscal Analyst Estimate.

LB 73 seeks to adjust provisions related to the Nebraska Racetrack Gaming Act. Originally, 25% of the gambling tax revenue collected is distributed back to the county in which the tax was collected. In counties where the tax is collected within the bounds of a city or village, half of the 25% is given to the city or town. Under LB 73, 10% of the 25% would be given to the county agricultural society in the county in which the tax was collected.

The Nebraska Racing Commission estimates minimal costs to implement LB 73. The \$500 estimate given by the Racing Commission is due to a foreseen increase in postage needed. There is no basis to disagree with this estimate.

The impact to counties and political subdivisions will be more significant. There's no way to estimate an exact revenue loss, but there will be a 10% reduction in the revenue received by political subdivisions. In counties with licensed horseracing tracks located within the bounds of a city or village, the revenue loss will also be seen for the city or town. Lancaster County, for example, would see a 5% reduction, with the City of Lincoln receiving the other 5% revenue loss.

LB 73 would become operative January 1, 2022.
