- 1 A BILL FOR AN ACT relating to the Nebraska Workers' Compensation Act; to
- 2 amend section 48-101.01, Reissue Revised Statutes of Nebraska; to
- 3 define a term; to include health care workers within provisions
- 4 concerning mental injuries and mental illness; to harmonize
- 5 provisions; and to repeal the original section.
- 6 Be it enacted by the people of the State of Nebraska,

1 Section 1. Section 48-101.01, Reissue Revised Statutes of Nebraska,
2 is amended to read:

3 48-101.01 (1) The Legislature finds and declares:

4 (a) The occupations of first responders are recognized as stressful
5 occupations. Only our nation's combat soldiers endure more stress.
6 Similar to military personnel, first responders face unique and uniquely
7 dangerous risks in their sworn mission to keep the public safe. They rely
8 on each other for survival to protect the communities they serve;

9 (b) On any given day, first responders can be called on to make life
10 and death decisions, witness a young child dying with the child's grief-
11 stricken family, make a decision that will affect a community member for
12 the rest of such person's life, or be exposed to a myriad of communicable
13 diseases and known carcinogens;

14 (c) On any given day, first responders protect high-risk individuals
15 from themselves and protect the community from such individuals;

16 (d) First responders are constantly at significant risk of bodily
17 harm or physical assault while they perform their duties;

18 (e) Constant, cumulative exposure to horrific events make first
19 responders uniquely susceptible to the emotional and behavioral impacts
20 of job-related stressors;

21 (f) Trauma-related injuries can become overwhelming and manifest in
22 post-traumatic stress, which may result in substance use disorders and
23 even, tragically, suicide; and

24 (g) It is imperative for society to recognize occupational injuries
25 related to post-traumatic stress and to promptly seek diagnosis and
26 treatment without stigma. This includes recognizing that mental injury
27 and mental illness as a result of trauma is not disordered, but is a
28 normal and natural human response to trauma, the negative effects of
29 which can be ameliorated through diagnosis and effective treatment.

30 (2) Personal injury includes mental injuries and mental illness
31 unaccompanied by physical injury for an employee who is a first

1 responder, frontline state employee, ~~or~~ county correctional officer, or
2 health care worker if such employee:

3 (a) Establishes that the employee's employment conditions causing
4 the mental injury or mental illness were extraordinary and unusual in
5 comparison to the normal conditions of the particular employment; and

6 (b) Establishes, through a mental health professional, the medical
7 causation between the mental injury or mental illness and the employment
8 conditions by medical evidence.

9 (3) The employee bears the burden of establishing the matters
10 described in subsection (2) of this section by a preponderance of the
11 evidence.

12 (4) Until January 1, 2028, a first responder may establish prima
13 facie evidence of a personal injury that is a mental injury or mental
14 illness if the first responder:

15 (a) Presents evidence that the first responder underwent a mental
16 health examination by a mental health professional upon entry into such
17 service or subsequent to such entry and before the onset of the mental
18 injury or mental illness and such examination did not reveal the mental
19 injury or mental illness for which the first responder seeks
20 compensation;

21 (b) Presents testimony or an affidavit from a mental health
22 professional stating the first responder suffers from a mental injury or
23 mental illness caused by one or more events or series of events which
24 cumulatively produced the mental injury or mental illness which brought
25 about the need for medical attention and the interruption of employment;

26 (c) Presents evidence that such events or series of events arose out
27 of and in the course of the first responder's employment; and

28 (d) Presents evidence that, prior to the employment conditions which
29 caused the mental injury or mental illness, the first responder had
30 participated in resilience training and updated the training at least
31 annually thereafter.

1 (5) For purposes of this section, mental injuries and mental illness
2 arising out of and in the course of employment unaccompanied by physical
3 injury are not considered compensable if they result from any event or
4 series of events which are incidental to normal employer and employee
5 relations, including, but not limited to, personnel actions by the
6 employer such as disciplinary actions, work evaluations, transfers,
7 promotions, demotions, salary reviews, or terminations.

8 (6)(a) The Department of Health and Human Services shall reimburse a
9 first responder for the cost of annual resilience training not reimbursed
10 by the first responder's employer. The department shall pay reimbursement
11 at a rate determined by the Critical Incident Stress Management Program
12 under section 71-7104. Reimbursement shall be subject to the annual limit
13 set by such program under section 71-7104.

14 (b) To obtain reimbursement under this subsection, a first responder
15 shall submit an application to the Department of Health and Human
16 Services on a form and in a manner prescribed by the department.
