

LEGISLATURE OF NEBRASKA  
ONE HUNDRED SEVENTH LEGISLATURE  
SECOND SESSION

**LEGISLATIVE BILL 775**

Introduced by Brewer, 43; Gragert, 40.

Read first time January 05, 2022

Committee: Natural Resources

- 1 A BILL FOR AN ACT relating to the Integrated Solid Waste Management Act;
- 2 to amend section 13-2039, Reissue Revised Statutes of Nebraska; to
- 3 prohibit land disposal of wind turbine blades and their component
- 4 parts; and to repeal the original section.
- 5 Be it enacted by the people of the State of Nebraska,

1 Section 1. Section 13-2039, Reissue Revised Statutes of Nebraska, is  
2 amended to read:

3 13-2039 (1)(a) A landfill may accept yard waste without condition  
4 from December 1 through March 31 of each year.

5 (b) A landfill may accept yard waste year-round if such yard waste:

6 (i) Will be used for the production and recovery of methane gas for  
7 use as fuel (A) with the approval of the department and (B) at a landfill  
8 operating as a solid waste management facility with a permit issued  
9 pursuant to the department's rules and regulations; or

10 (ii) Has been separated at its source from other solid waste and  
11 will be used for the purpose of soil conditioning or composting.

12 (c) State and local governmental entities responsible for the  
13 maintenance of public lands shall give preference to the use of composted  
14 materials in all land maintenance activities. This section does not  
15 prohibit the use of yard waste as land cover or as soil-conditioning  
16 material.

17 (2) Land disposal of lead-acid batteries and waste oil is  
18 prohibited.

19 (3)(a) Land disposal of waste tires in any form is prohibited except  
20 tires that are nonrecyclable. For purposes of this subsection,  
21 nonrecyclable tire means a press-on solid tire, a solid pneumatic shaped  
22 tire, or a foam pneumatic tire.

23 (b) On and after September 1, 2003, placing or causing the placement  
24 or disposal of scrap tires in any form into the waters of the state is  
25 prohibited except as provided in section 13-2033.

26 (c) Tires are not considered disposed if they are (i) processed into  
27 crumb rubber form and reused or recycled in manufactured products such  
28 as, but not limited to, products used for schools, playgrounds, and  
29 residential, lawn, and garden applications, (ii) used as safety barriers  
30 for race courses for motorized vehicles, on the condition that the tires  
31 are bolted together and properly wrapped, and not in loose, compressed,

1 or baled form, (iii) used as tire-derived fuel, (iv) retreaded, (v)  
2 processed into chip or shred form and used as drainage media in landfill  
3 construction or septic drain fields, (vi) used as a raw material in  
4 steelmaking, or (vii) processed into shred form and used as an  
5 alternative daily cover in a landfill or for a civil engineering project  
6 if such project is designed and constructed in compliance with the  
7 Engineers and Architects Regulation Act and prior approval for such  
8 project is obtained from the department by the tire shredder and the end  
9 user, except that departmental approval is not necessary for a tire  
10 project involving three thousand five hundred or fewer passenger tire  
11 equivalents of waste tires if the department receives notification of the  
12 project not later than thirty days prior to any construction on such  
13 project. The notification shall contain the name and address of the tire  
14 shredder and end user, the location of the project, a description of the  
15 type of project, the number of passenger tire equivalents of waste tires  
16 to be used, and any additional information the council determines is  
17 necessary to accomplish the purposes of the Integrated Solid Waste  
18 Management Act.

19 A race sponsor using tires as safety barriers pursuant to  
20 subdivision (3)(c)(ii) of this section prior to October 1, 2006, shall  
21 file an approved tire disposal plan with the department on or before  
22 January 1, 2007. A race sponsor using tires as safety barriers on or  
23 after October 1, 2006, shall file an approved tire disposal plan with the  
24 department prior to the sponsor's first such use of tires. An approved  
25 tire disposal plan shall provide for the disposal of tires which cease to  
26 be used as safety barriers in accordance with subsection (3) of section  
27 13-2033, and any such race sponsor who ceases to use tires as safety  
28 barriers or whose facility ceases operation shall dispose of such tires  
29 in accordance with his or her approved tire disposal plan. Any  
30 modification to an approved tire disposal plan shall be submitted to and  
31 approved by the department prior to implementation of such modified plan.

1 An approved tire disposal plan shall continue in effect as long as such  
2 sponsor uses tires as safety barriers.

3 (4) Land disposal of discarded household appliances is prohibited.

4 (5) Land disposal of unregulated hazardous wastes, except household  
5 hazardous wastes, which are exempt from the regulations under the  
6 Environmental Protection Act is prohibited unless such disposal occurs at  
7 a licensed hazardous waste disposal facility.

8 (6) Land disposal of wind turbine blades and the component parts of  
9 wind turbine blades is prohibited.

10 (7) ~~(6)~~ For purposes of this section, land disposal shall include,  
11 but not be limited to, incineration at a landfill.

12 Sec. 2. Original section 13-2039, Reissue Revised Statutes of  
13 Nebraska, is repealed.
