

NEBRASKA **STRONG**

2023
ANNUAL REPORT
Nebraska Department of
ECONOMIC DEVELOPMENT

NEBRASKA
Good Life. Great Opportunity.

ABOUT US

Since 1967, the Nebraska Department of Economic Development (DED) has been focused on growing and diversifying the state's economic base, pursuing a good life with great opportunities on behalf of the people of Nebraska. As the state's lead economic development agency, the vision to grow Nebraska is what inspires us each and every day.

ABOUT THIS REPORT

We endeavor to be efficient, effective and customer focused as we operate programs and administer State funding for economic development. This document fulfills our promise to our Governor, the Nebraska State Legislature and the taxpayers we serve to remain transparent, accountable and proactive in the way we report program data and expenditures. Questions about this report? Contact us using the information provided.

HOW TO CONTACT US

We want you to know more about our mission, programs and achievements on behalf of the citizens of Nebraska! For additional information about our agency and what we do – including our entire portfolio of legislative programs and a library of our previous annual reports – visit:

MESSAGE FROM DIRECTOR K.C. Belitz

Governor Pillen, Members of the State Legislature and Fellow Nebraskans:

The Nebraska Department of Economic Development (DED) presents this Legislative Annual Report in fulfillment of the agency’s statutory reporting obligations. DED’s public servants take pride in making a difference for our neighbors, hometowns, and state. Our team worked tremendously hard in 2023 to wisely manage the funds entrusted to our care.

DED is supporting business development by investing in innovative startups and supporting enterprising small businesses. Our department is serving Nebraska’s homegrown businesses and working alongside municipal governments to support the expansion of existing companies. Additionally, DED is actively recruiting new investment to our communities. These efforts have contributed to Nebraska’s continued economic strength. Our state ranked sixth nationally for year-over-year GDP growth in 2023.

DED’s internship and workforce initiatives are connecting Nebraskans to great-paying career opportunities. These programs are helping to grow Nebraska’s workforce. As of May 2024, the state had more filled jobs than ever before. During 2023, manufacturing employment reached its highest point since 2002, construction employment set an all-time high, and employment in the leisure/hospitality industry likewise increased to a record high.

As Nebraska’s communities work to develop affordable homes, DED has stepped up our housing investment. In State fiscal year 2020, DED awarded \$17 million for affordable housing. In fiscal year 2023, we awarded \$117 million. These funds are helping to construct high-quality housing that families can afford.

Through community development programs, DED is investing in the creation and enhancement of parks, cultural centers, and other public gathering places. These projects elevate local quality of life and help draw new residents and tourists to Nebraska. In May 2024, *U.S. News* ranked Nebraska #3 in its annual list of the Best States in America—providing further evidence of the Good Life our state has to offer.

DED is grateful to work alongside fantastic partners to grow Nebraska. We’re thankful for the strong relationships we enjoy with local governments, chambers of commerce, economic development organizations, utility providers, housing agencies, and educational institutions. Together, we’re elevating the trajectory of our state.

Sincerely,

K.C. Belitz
Director

PART 1:
THE NEBRASKA BUSINESS INNOVATION ACT

From ag robotics to logistics technology, Nebraska startups are at the forefront of inventive product breakthroughs. The ingenuity of the state’s entrepreneurs is helping to create jobs and draw investment to the Good Life.

The Business Innovation Act (BIA) of 2011 authorized a suite of grant and investment programs for Nebraska-based startups and small businesses. BIA programs are a valuable tool for the State to support high-potential, high-tech small businesses at every stage of growth. In Fiscal Year 2022-2023, DED received 129 requests for funding under BIA programs, totaling a combined \$23,177,178. DED ultimately awarded \$12,403,408 as detailed in the tables below. DED administers the following BIA programs:

Microenterprise Assistance Program

The Microenterprise Assistance Program awards funding to nonprofits in Nebraska that specialize in providing technical assistance and loans to small businesses. DED received five applications for funding in FY 2022-2023 requesting a total of \$3,250,000. All applicants sought funding for Microenterprise Lending Assistance. DED awarded funds to all five applicant organizations in the combined amount of \$1,477,000 (Table 1.1).

Nebraska Seed Investment Program

The Nebraska Seed Investment Program is an equity investment program that supports early-stage startups in their commercialization of a product, service, or technology. DED contracts with Invest

Nebraska, a nonprofit 501(c)3 venture capital firm, to operate the program. Invest Nebraska conducts due diligence on all applicants and places and holds the equity investments made through the program.

In FY 2022-2023, DED and Invest Nebraska received 23 requests for seed funding in the amount of \$10,100,000. Of these requests, \$4,764,200 of investments were made to 22 applicants (Table 1.2).

Nebraska Innovation Fund Prototype Grant Program

The Nebraska Innovation Fund Prototype Grant Program assists companies with initial product development. Applicants must show the proposed product has high-growth potential and must demonstrate that it innovatively answers a market need.

In FY 2022-2023, DED received 71 requests for funding through the program totaling \$7,229,183. The Department awarded \$4,353,773 of prototype grants to 55 applicants (Table 1.3).

Seed Investments Help Company Headed by Former Huskers Land on TIME 100 List

After finishing their Husker football careers and graduating from the University of Nebraska-Lincoln, Blake Lawrence and Adi Kunalic co-founded Opendorse in 2012. The Lincoln-based company's marketing platform helps collegiate athletes broker name, image, and likeness (NIL) deals. In June 2023, Opendorse was recognized as one of TIME's 100 Most Influential Companies. DED has supported Opendorse's growth with Seed Investment awards in August 2017, May 2019, and August 2022.

Gering Company Grows Irrigation Business with Support of BIA Awards

Idem Irrigation of Gering has developed an innovative sprinkler head to help farmers optimize water usage. In August 2023, the company raised a half-million dollars of seed funding to support its growth, including funds from the State Small Business Credit Initiative. In September 2023, Idem Irrigation was named as a semi-finalist of the American Farm Bureau Federation's Ag

Innovation Challenge. The contest showcases rural entrepreneurs who are developing creative solutions for the challenges farmers and ranchers face. Idem Irrigation is a virtual resident of the Combine incubator program at Nebraska Innovation Campus. DED has provided Academic R&D and prototype funding through the Business Innovation Act to support the Western Nebraska startup.

Prototype Award Propels Growth of Powerline Inspection Startup in Kearney

In July 2023, Fast Forward celebrated its grand opening in Kearney. The Nebraska startup is automating the inspection of powerlines, helping to prevent fires and power outages by identifying problems with electrical components before they fail. After successfully piloting its technology in 2022, the company has commercialized the solution it offers and has expanded to projects in 8 states. DED supported Fast Forward's prototype development through the Nebraska Innovation Fund.

"By doing the inspection more frequently, we can catch issues before they cause an outage and directly prevent the wildfire potential altogether. Cost to implement and lack of technology has been the main challenge in preventing this level of automation. With the assistance of DED, we've been able to create an effective solution and are now scaling nationally. We are super appreciative to have the State of Nebraska's support!"

— Dusty Birge, Fast Forward CEO

Nebraska Academic R&D Grant Program

The Nebraska Academic R&D Grant Program supports companies who engage with an institution of higher education in Nebraska on activities that lead to new or improved products. These activities include applied research, the licensure of intellectual property, or use of core facilities.

R&D awards are available during two phases. Phase I grants are typically awarded to first-time recipients and often support proof-of-concept activities. Phase II grants are awarded to companies who have successfully completed the first phase, and typically represent technical assistance for product design and development. For FY 2022-2023, DED received 16 applications for Academic R&D grants requesting \$2,078,135. The Department issued 14 awards totaling \$1,510,634 (Table 1.4).

Table 1.4 Nebraska Academic R&D Grant Program Awards, FY 2022-2023

Award Type (Phase I,II)	Recipient	Award	Location	Special Fund
Phase I	CellGro Technologies	\$100,000	Lincoln

Phase I	Wood Duck Technologies Inc DBA Sunlight	\$17,100	Lincoln	
Phase I	MicroMGx Inc	\$58,000	Lincoln	Value-Added Ag
Total		\$1,510,634		

The Business Innovation Act of 2011 specifically authorizes funds to encourage value-added agriculture (increasing the worth of ag products through innovative processing and practices). Companies funded through the Value-added Agriculture Program are listed in the BIA program award tables. In FY 2022-2023, DED awarded \$2,534,900 through the Value-added Agriculture Program.

The Unicameral passed legislation in 2017 to create the Bioscience Innovation Program under the BIA. The program supports small enterprises in the bioscience sector by providing financial assistance for research and development of products such as biofuels, biotechnologies, and biopharmaceuticals. Recipients of Bioscience Innovation Program funds are indicated in the BIA program award tables. In FY 2022-2023, DED awarded \$75,000 through the Bioscience Innovation Program.

In 2022, the Nebraska Legislature authorized DED to give preference to Business Innovation Act projects in “economic redevelopment areas.” The Unicameral prioritized these areas for funding due to their above-average unemployment and poverty rates. Recipients awarded in economic development areas are noted in the BIA program award tables. In FY 2022-2023, DED awarded \$325,000 to projects in economic redevelopment areas.

Nebraska Small Business Innovation Research/Small Business Tech Transfer (SBIR/STTR) Grant Program

funding to turn their research into commercially viable innovations.

\$519,860. The agency issued SBIR/STTR grants to all applicants in the combined award amount of \$297,801 (Table 1.5).

The Nebraska SBIR/STTR Grant Program supports companies applying for or making use of funding through the federal Small Business Innovation Research/Small Business Technology Transfer initiative. Awards are available in three phases:

In FY 2022-2023, DED received 14 applications for funding totaling

- ▶ Phase 0 grants provide financial assistance to small businesses applying for federal SBIR/STTR funds.
- ▶ Phase I grants are state matching funds available to Nebraska small businesses who have won federal SBIR/STTR grants to research the feasibility of a proposed product or service.
- ▶ Phase II grants are state matching funds available to Nebraska small businesses who have successfully completed Phase I feasibility research and have received additional federal SBIR/STTR

Table 1.5 Nebraska SBIR/STTR Grant Program Awards, FY 2022-2023

Total		\$297,801		

PART 2: THE NEBRASKA OPERATIONAL ASSISTANCE PROGRAM

Turning a promising idea into a profitable business is a major challenge. Through the Nebraska Operational Assistance Program, the State helps provide the strategic guidance, access to capital, and other resources entrepreneurs need to succeed.

The Nebraska Operational Assistance Program was established in 2007 to serve as a support network for high-potential startups. DED collaborates with Invest Nebraska to strengthen the State's venture capital ecosystem. Invest Nebraska—a nonprofit 501(c)3—specializes in advising and investing in early-stage companies. It is governed by a 12-member volunteer board. Invest Nebraska's leadership team and board members have wide-ranging expertise in fields such as finance, management, intellectual property law, ag tech, private equity, entrepreneurship, university research, and commercialization.

Since 2012, Invest Nebraska has invested \$46,054,622 in Nebras-

ka-based startups through 271 unique fundraising rounds. Private investors have supplemented this investment with an additional \$266,245,970. Invest Nebraska's investments have taken the form of loans, convertible debt, SAFE notes, and equity. Companies receiving investment from Invest Nebraska have gone on to create 1,044 new jobs post-investment, paying an average of \$67,690. Companies in Invest Nebraska's portfolio have also filed 600 patent applications and been awarded 283 patents.

Preparing companies to raise funding requires a wide array of opportunities. Since 2012, Invest Nebraska has engaged over 1,991

entrepreneurs to discuss their new ventures; provided operational assistance to 2,289 businesses; and reviewed 1,377 business pitches, business models, and business plans.

In 2023, Invest Nebraska:

- ▶ Reviewed 133 business plans, business pitches, and business models.
- ▶ Engaged 183 entrepreneurs.
- ▶ Provided \$11,059,580 in financial assistance to 50 Nebraska early-stage businesses.
- ▶ Provided operational assistance to 294 businesses.

Spotlight Investment: Sentinel Fertigation

In September 2023, Sentinel Fertigation announced raising \$2.5 million of seed funding, co-led by Homegrown Capital, Grit Road Partners, and Invest Nebraska. Sentinel also received funding from Proven Ventures, Nebraska Angels, AgVentures Alliance, Black Hills Regional Angel Fund, Breakthrough 307, AgLaunch Innovation Fund I, and Agri-Inject.

Sentinel Founder & CEO Jackson Stansell launched the ag tech startup as a graduate student at the University of Nebraska-Lincoln. Sentinel Fertigation offers real-time, imagery-based fertigation recommendations directly to users throughout the growing season. The company's data-driven

guidance is saving farmers money by helping them to avoid over-applying fertilizer. At the same time, Sentinel's customers achieve increased yields by supplying crops with the optimal amount of nutrients they need to grow.

PART 3:
THE CIVIC AND COMMUNITY CENTER FINANCING FUND

Nebraska's welcoming communities are great places to put down roots, raise a family, and do business. They're the reason why Nebraska is known as the Good Life. Through the Civic and Community Center Financing Fund (CCCFF) the State supports municipalities as they develop superb facilities to enhance the quality of life for their residents.

The Nebraska Department of Economic Development makes CCCFF awards to help municipalities develop cultural centers, recreation centers, auditoriums, libraries, and other inviting spaces for communities to gather and play. CCCFF also supports the redevelopment of historic buildings and districts.

Municipalities and tribal governments may apply for CCCFF funds on an annual basis. CCCFF is funded through a turnback of 30% of state sales tax generated by arenas and nearby retailers. DED plans the timing of award cycles to coincide with anticipated sufficient funds available for award, as well as the construction season. The CCCFF committee will hold an annual award cycle if the fund balance is sufficient, while also taking into consideration the amount of unpaid funds designated to committed projects.

CCCFF grants can account for up to 50% of a project's total costs.

Recipients must match grant funds at least equally from other sources (1:1 local cost-share). Under the authorizing statutes, in-kind matching funds can account for no more than one-half of the required local cost-share.

Per statute, the cities of Omaha and Lincoln and certain facilities in Kearney and Ralston are ineligible since each has received assistance under the Convention Center Facility Financing Assistance Act or the Sports Arena Facility Financial Assistance Act, respectively.

2023 Application Cycle

DED received 47 letters of intent and 42 applications for award during the 2023 CCCFF program cycle. Applicants requested \$16.5 million in aid, supplemented by \$93.3 million in local matching funds. Based on the total aid available, DED awarded 17 of the applications at the total requested amount, and made one partial

award for the remaining available funds. As further detailed in Table 3.1, the 18 awarded applications had more than \$19.6 million in combined local cash match.¹

Per statute, cash match must account for no less than 50% of the total required match in an awarded project.²

Unless otherwise denoted and described in the individual project narratives that follow, all applications were awarded their full requested amount of CCCFF aid.

¹The information in this report reflects the information supplied by each applicant and may not reflect budget-related changes experienced by the local jurisdiction receiving the award. As presented here, the Matching Funds and Project Budget reflect the applicant's response within the respective section of their application.

²Any in-kind match is proposed at the time of application and must be supported by adequate documentation prior to award closeout.

Table 3.1 Civic and Community Center Financing Funds, Awards, FY 2022-2023

Municipality	Award Type	Amount Awarded	Cash Match	In-Kind Match	Project Budget
City of Alliance	Planning	\$15,000.00	\$30,500.00	\$0	\$45,500.00

Total		\$4,269,020.87	\$19,636,312.24	\$360,613.26	\$24,558,767.00

*The City of Blair's award was less than their requested amount of funding (\$562,000). See the project's narrative description in the following section for more info.

2023 CCCFF Awarded Projects, Narrative Descriptions

- ▶ **The City of Alliance** received a \$15,000 grant to plan upgrades to the recreation center located within Alliance City Hall. The city anticipates expanding the center's offerings to include activities such as pickleball, roller skating, wrestling, and volleyball. Additionally, the project will make the recreation center accessible to people with mobility limitations.
- ▶ **The City of Arapahoe** received an award of \$15,000 to study expanding the Crystal Theatre into the adjacent Senior Center building. To complete this project, a portion of the wall dividing the two buildings would have to be demolished. Then, the entire facility would be evaluated for ADA compliance with additional recommendations from the architect to bring the building up to all current building codes. With these improvements, the city aspires to provide a safe and enjoyable experience to theatre patrons while utilizing their downtown space effectively.
- ▶ **The City of Bassett** received \$562,000 for construction of the Rock County Community Center, located within the Rock County Fairgrounds. The 12,000-square-foot facility will contain city offices, a kitchen, storage, restrooms, concession stand, meeting room, and recreation area. Building the community center will provide space for the community and surrounding region to host large group gatherings, educational classes, youth activities, and sports. The CCCFF award will only be used

for the eligible portion of the facility.

- ▶ **The City of Blair** received \$269,179.37 to support construction of Generations Park; this reflects less than their initial requested amount. The new park will be nearly seven acres and is in a rapidly growing neighborhood in northwestern Blair that is not currently served by a municipal park. It will be situated next to the city's newest public elementary school and its recently completed Blair Public Library. Features planned for Generations Park include a splash pad, pickleball courts, picnic shelter, playground equipment, and restrooms. Due to insufficient available aid, DED was unable to award the full requested amount of \$562,000.
- ▶ **The Village of Bruning** received \$215,341.50 to renovate its existing playground in the village park located at the corner of Main Street and East Railway, adjacent to the downtown business district. The park's existing amenities include a playground, a basketball court, and restrooms that are all over a quarter century old. The project will update amenities by removing unsafe equipment, installing new equipment and mulch, and constructing ADA-accessible restrooms and a splash pad.
- ▶ **The City of Curtis** has a municipal pool that is over 60 years old. It requires thousands of dollars each year to keep the pool operating at satisfactory levels. The city received a CCCFF award of \$7,500 to help fund a study to come up with options for the future of the pool facility before it degrades

to the point of being unusable.

- ▶ **The City of Falls City** received \$15,000 to plan a community wellness/recreation center. In particular, the city is considering a project to renovate and expand an existing city-owned building and connect it to the nearby Prichard Auditorium—a 2,000 seat gymnasium. The proposed site for the new facility is centrally located, within a short walk of the downtown area and schools.
- ▶ **The City of Gibbon** received \$150,000 to renovate an existing city-owned structure to create space for a community center. This project will provide accessible space to host a myriad of events such as graduation receptions, senior activities, career fairs, small wedding receptions, tourism activities, and educational opportunities. The facility neighbors Gibbon Public Schools and the city-owned baseball/softball field complex. It's located along one of Gibbon's main roads, providing direct access from Interstate 80.
- ▶ **The City of Imperial** received \$562,000 for a city square improvement project at the north end of the downtown business district. The city is removing a deteriorating parking lot and replacing it with parking more suitable for the area. Additionally, the project will provide ADA accessibility and includes a portable ice rink, walking pathways, electric vehicle chargers, raised bandstand, fire pit with seating, bike racks, shaded patio seating, park benches, kids zone, public restrooms, underground sprinkler systems, and landscaping.

Improvements to Johnson Park in Norfolk. Norfolk received a CCCFF planning and construction award for the project in 2019 and 2020, respectively.

► **The City of McCook** received a \$562,000 construction grant to support replacement of its swimming pool. The former pool was deemed unsafe and closed in 2022. It was sorely missed by community residents and visitors after shutting down. In November 2022, McCook voters approved a twenty-year bond issue supported by a new half-cent sales tax for new swimming pool and ballpark facilities. Construction of the new swimming pool is expected to be complete in the summer of 2024.

► **The Village of Pender** received \$15,000 to hire a firm to survey, plan, and provide schematic designs for a renovation/expansion of the existing House Memorial Library.

► **The Village of Pickrell** received \$165,000 to add an additional 3,000 square feet to the existing Village Hall that also houses the Pickrell Fire District. The existing building houses several garage bays for fire equipment/trucks and has a small room that doubles as the village's only indoor public meeting space. The two-floor addition will include a 1,600-square-foot ground floor to serve as a general-purpose community hall and a 1,400-square-foot basement designed for a fitness center.

► **The City of Sargent** received \$7,500 to assist with a pool feasibility study to determine needed improvements. The city's pool—which it has maintained for 60+ years—is used for swimming lessons, aerobics, sports conditioning, and private parties.

► **The Village of Shelton** received \$7,500 for a feasibility study

of its village-owned-and-operated public swimming pool that was constructed in 1958. The study will determine pool improvements needed to maintain this venue for the community.

► **The City of Waverly** received \$562,000 to convert a baseball field in Wayne Park into a new aquatic facility. The facility will serve one of Nebraska's fastest-growing communities; fulfill a need for ADA-compliant and accessible recreation facilities; and supplement the health, wellness, and recreation opportunities available to Waverly residents.

► **The City of Wayne** received \$562,000 for the Prairie Park Project, which is repurposing an old lagoon site. The completed, 26-acre project will provide amenities to enhance park and recreation access. These include trail expansions; camper pads with electrical, water, and sewer hookups; an outdoor amphitheater; sport fields; and a four-acre lake that will provide fishing and kayaking access.

► **The City of West Point** received \$15,000 for a study to build a three-court recreation center next to the city's current pool construction. The facility would be adjacent to the all-inclusive city park and the Donald E. Nielsen Community Center.

► **The City of Wood River** received \$562,000 to repurpose the south half of the former Good Samaritan nursing home building as an expanded public library, food pantry, and reinforced storm shelter to improve public safety. A new

senior center is also part of the total project (known as Legacy Station), but it is not being funded through the CCCFF award.

CCCFF Financial Information

The time of performance for a CCCFF award is 24 months. Disbursement of aid for CCCFF awards is made over two payments. The initial payment is an advance and is initiated by DED upon execution of the funding agreement and any special conditions of the award required of the successful applicant. The initial payment thus typically occurs within the same fiscal year as the award. The second payment, however, is made on a reimbursement basis and is initiated by the recipient's submission of a payment request and documentation accounting for eligible costs. In some instances, projects may not receive their full awarded amount. In such cases, the recipient and DED work together to identify any eligible costs and a notification of any deobligated funds is issued. In very limited circumstances, if eligible costs cannot be identified, the recipient may be required to return all or part of their initial advance. In all cases, local matching requirements established in the authorizing statutes must be met.

Tables 3.2-3.5 provide detailed data on CCCFF program financials for the 2022-2023 Fiscal Year, as well as projected expenditures in FY 2023-2024. Tables 3.3a and 3.3b show the actual aid expenditures by year of award.

Factors Affecting Future CCCFF Program Years

CCCFF revenues have continued to increase since the severe decline caused by the pandemic. In the

next two years, the balance of the fund should once again support awards for the full legislative authority. Available aid in the 2023 and 2024 Application Cycles was near pre-pandemic levels. While the amount of aid available to award was less than DED's legislative authority for CCCFF in both program years, the thresholds set

in statute for increasing maximum amounts for construction grants was met in 2023 and retained in 2024.

During the 2022 legislative session, LB927 incorporated the use of Creative Districts into CCCFF for fiscal year 2023-2024. This

corresponds with the 2024 CCCFF application cycle; accordingly, DED will coordinate with the Nebraska Arts Council for those awards.

DED is not currently aware of any upcoming legislation that will impact the 2025 CCCFF application cycle.

Table 3.2 CCCFF Revenue Generated for the Fund: FY 22-23, 21-22, 20-21, 19-20, and 18-19

	FY 2022-2023	FY 2021-2022	FY 2020-2021	FY 2019-2020	FY 2018-2019
Interest Earned	\$94,447.66	\$52,953.71	\$55,144.60	\$97,805.71	\$114,495.04
Cancelled Funds	\$8,439.88	\$0.00	\$0.00	\$0.00	\$0.00
Sales Tax Revenue Generated	\$4,544,756.26	\$2,650,194.65	\$3,261,936.08	\$4,204,992.11	\$3,713,415.35
Operating Transfers Out	-\$348,097.85	-\$343,900.00	-\$343,900.00	-\$343,900.00	-\$1,035,578.74
Total Receipts By Fiscal Year	\$4,299,545.95	\$2,359,248.36	\$2,973,180.68	\$3,958,897.82	\$2,792,331.65

Table 3.3a CCCFF Actual Expenditures, FY 2022-2023, Summary by Expense Type

Operating (Non-Aid)	\$64,378.49
Aid	\$2,556,975.68
Total Actual Expenditures	\$2,621,354.17

Table 3.3b CCCFF Actual Expenditures, FY 2022-2023, Aid Summary by Award Year

2023 Awards, Initial Advance	\$1,636,420.75
2022 Awards, Final Reimbursement	\$7,500.00
2021 Awards, Final Reimbursement	\$29,063.75
2020 Awards, Final Reimbursement	\$436,000.00
2019 Awards, Final Reimbursement	\$447,991.18

Aid	\$12,654,229.00
Total Budgeted Expenditures (Including Encumbrances)	\$12,840,413.00

Table 3.5 CCCFF Projected Expenditures for FY 2023-2024

Operating (Non-Aid)	\$120,157.00
Aid	\$9,051,265.00
Total Projected Expenses	\$9,171,422.00

CCCFF Non-Selected Projects, 2023

Each year, CCCFF is a highly competitive program. DED received many outstanding applications for award during the program’s 2023 Application Cycle. A review committee scrupulously scored all applications using the statutory review criteria, selecting awardees based on each applicant’s potential to benefit their community’s economic and civic vitality. As with prior application cycles, the requested amount of funding exceeded the amount available for award (see Table 3.6 for a list of non-selected applications).

The CCCFF committee values creativity, resourcefulness, and collaborative local leadership in communities’ development planning. While the non-selected projects listed in Table 3.6 scored lower than awarded projects, the committee encourages applicants to continue strengthening public-private partnerships and prioritizing community development projects. All applications are reviewed for compliance with the statutory thresholds for project location, project ownership, project operation, local match, and—where the project involves a historic property—documentation of approval from the State Historic

Preservation Officer (SHPO).

Projects with a higher level of local matching funds are preferred over those with a lower level of matching funds. At least fifty percent of the local match must be in cash.

In accordance with statute, applications for planning projects are scored for financial support; assistance from the fund shall be matched at least equally from local sources.

Applications for capital construction projects are scored for five criteria, set in statute, as described below.

1. **Retention Impact:** Funding decisions by DED are based on the likelihood of the project retaining existing residents in the community where the project is located; developing, sustaining, and fostering community connections; and enhancing the potential for economic growth in a manner that will sustain the quality of life and promote long-term economic development.
2. **New Resident Impact:** Funding decisions by DED are based on the likelihood of the project attracting new

residents to the community where the project is located.

3. **Visitor Impact:** Funding decisions by DED are based on the likelihood of the project enhancing or creating an attraction that would increase the potential of visitors to the community where the project is located.
4. **Readiness and Local Public Support:** Funding decisions by DED are based on the fiscal, economic, and operational capacity of the applicant—and of any political subdivision that owns the eligible facility jointly with the applicant—to finance and manage the project, and to operate the eligible facility.
5. **Project Planning:** In making funding decisions, DED gives preference to projects with completed technical assistance and feasibility studies over those with no prior planning.

The narratives on pages 26-31 provide the CCCFF review committee’s scoring rationale for applicants not selected to receive funding during the 2023 Application Cycle.

Table 3.6 CCCFF Non-Select Projects, 2023 Program Year

Municipality	Category	Amount Requested	Cash Match	In-Kind Match	Total Project Budget
City of Alma	Historic Building: Cultural Center	\$562,000.00	\$617,277.54	\$0	\$1,179,277.54
City of Beatrice	Recreation Center: Park	\$166,385.00	\$166,385.00	\$0	\$332,770.00

City of West Point	Recreation Center: Aquatic Center	\$562,000.00	\$6,495,000.00	\$0	\$7,057,000.00
Total		\$11,919,759.00	\$73,649,268.09	\$275,000.00	\$85,844,027.09

CCCFF Non-Select Project Narrative Descriptions, Application Year 2023

► **The City of Alma** sought funding to renovate the city auditorium located in downtown Alma on Main Street. The city has owned and operated the auditorium since 1943. Proposed enhancements included ensuring ADA accessibility and compliance, improving lighting and acoustics, and replacing damaged windows and doors.

Reason for non-selection: Compared to awarded projects, the application was not as strong in the areas of retention impact and visitor impact. The review committee noted a desire for a stronger case of how this renovation project would keep people in the community. Additionally, per CCCFF guidelines, historic buildings require a SHPO letter determining National Register eligibility and whether the proposed project will adversely impact the historic building. This letter was not included in the application

► **The City of Beatrice** applied for funds to assist with improvements at Hannibal Park—a softball complex with seven fields. Proposed improvements included relocating Field #5, new backstops for Fields #4 and #5, a new scoreboard for Field #1, installing a trail between Fields #4 and #5, and improvements to the common area between Fields #1, #2, and #3.

Reason for non-selection: The review committee wanted to see more targeted data on field usage and the potential for increased tournament activity. The committee also desired more compelling narrative on the specific ways the project would impact the community, new

residents, and visitors. Additionally, the amount of secured funds on hand was less than for awarded projects.

► **The Village of Belden** applied for funds to support an improvement project at the local swimming pool. The proposed project included an ADA-compliant bathhouse, a rewired electrical system, a new filtration system, a new piping system, joint and main drain work, and a new finish for the pool.

Reason for non-selection: The review committee wanted more project- and community-specific narrative to explain how the project would impact retention, benefit new residents, and impact visitors. The committee also desired more evidence of public input and local support. Additionally, per CCCFF guidelines, historic buildings require a SHPO letter determining National Register eligibility and whether the proposed project will adversely impact the historic building. This letter was not included in the application.

► **The City of Bennington** sought funds to support initial construction of the 50-acre Neumeyer Farm Park & Athletic Complex. The proposed project would complete the first phase of the project, consisting of 10 acres. Phase one of the project involved creation of a large athletic field for youth soccer and football teams of all ages and skill levels. Phase one also included development of parking, accessible walking trails, and multi-purpose greenspaces.

Reason for non-selection: Compared to awarded projects, the application was not as competitive in the areas of new resident and retention impact. Reviewers were

also concerned about the long-term viability of the project given the application’s comments about the difficulties of maintaining existing parks.

► **The Village of Callaway** requested funds to demolish the existing pool facilities at Morgan Park and construct a new facility at the same location.

Reason for non-selection: Compared to awarded projects, the application was not as competitive in the areas of new resident, visitor, and retention impact. The review committee expressed a desire for more detailed discussion on the project’s impact in these areas.

► **The Village of Dunbar** requested funds to renovate and revitalize the community building located at 105 East Nebraska Street, within the Village’s former fire hall. Proposed enhancements consisted of exterior façade improvements, interior renovations for the walls of the facility, and remodeled restrooms.

Reason for non-selection: Compared to awarded projects, the application was not as competitive in the areas of new resident and visitor impact. More clearly describing the multiple uses for the facility would have strengthened the application. Additionally, per CCCFF guidelines, historic buildings require a SHPO letter determining National Register eligibility and whether the proposed project will adversely impact the historic building. This letter was not included in the application.

► **The Village of Elk Creek** requested funds to construct a new 2,400-square-foot, ADA-compliant community center on Ash Street.

Top and bottom photos: Johnson Park Improvements, Norfolk.

Reason for non-selection: Compared to awarded projects, the application was not as competitive in the areas of visitor impact, readiness and local support, and project planning. The committee wanted more specific narrative describing how the facility would be used, data on increased capacity, and evidence of differentiation from other area community centers. Additionally, the amount of secured funds on hand was less than for awarded projects.

- ▶ **The Village of Elsie** requested funds to install playground equipment at City Park on the west edge of town.

Reason for non-selection: In all areas of the application, the committee deemed the narrative responses to be too broad in scope. The committee desired more detail such as how the proposal would increase park utilization or how its equipment would be maintained.

- ▶ **The City of Fremont** requested funds to support the expansion and renovation of Keene Memorial Library. Proposed activities were to add meeting room spaces, install a fiber optic network, update the HVAC system, and create a dedicated computer lab.

Reason for non-selection: The application scored average in the areas of retention impact, new resident impact, and visitor impact. It could have been strengthened by providing more specific data, such as tracking out-of-town visitors and providing examples of limited attendance at events due to cramped space. Additionally, per CCCFF guidelines, historic buildings require a SHPO letter determining National Register eligibility and whether the proposed project will adversely impact the historic building. This letter was not included in the application.

- ▶ **The City of Gothenburg** requested funds to construct the Gothenburg Impact Center. The proposed building would include a civic center to be used by the community for conferences, meetings, and events. It would also include a sports training center, a healthy families center, and an early learning center.

Reason for non-selection: Compared to awarded projects, the application was not as competitive in the area of visitor impact. Describing how the project would appeal to new residents—and more clarity about its multiple uses—would have strengthened the application. Additionally, while there is an extensive funding plan in place, the amount of secured funds on hand was less than for awarded projects.

- ▶ **The City of Gretna** applied for CCCFF funds to plan a new site and building to house the municipality's city hall functions and library services.

Reason for non-selection: The city's application for planning funds did not meet the threshold for scoring. The City of Gretna received a planning grant during the 2022 program cycle for the Gretna Public Library. Under the program's authorizing statutes, a municipality may receive only one grant per category (planning or construction) in a two-year period.

- ▶ **The Village of Kenesaw** requested funds for a new building to house city offices and a community center. The proposed building would be located downtown near the business district.

Reason for non-selection: Compared to awarded projects, the application was not as competitive in the areas of retention impact, new resident impact, or visitor impact. The review committee would have appreciated more specifics, such as examples of activities at the new facility and description of how the facility would differ from options in surrounding communities. Adding a facility maintenance sustainability plan also would have strengthened the application.

- ▶ **The Village of Lawrence** sought funds to construct a new community/fitness center to replace the current American Legion Post 45 Hall in downtown Lawrence.

Reason for non-selection: Compared to awarded projects, the application wasn't as competitive

in the areas of retention impact and new resident impact. The review committee wanted more detail regarding how the facility would provide benefit in these areas. Additionally, per CCCFF guidelines, historic buildings require a SHPO letter determining National Register eligibility and whether the proposed project will adversely impact the historic building. This letter was not included in the application.

- ▶ **The City of Lyons** sought funds to repair two historic buildings owned by the city in the downtown area. The city also requested funds to build a structure at the park to provide better access to restrooms and concessions. Additionally, the city proposed to construct a nearby storm shelter with an adjacent pavilion to be used for picnics and other community gatherings.

Reason for non-selection: Compared to awarded projects, the application wasn't as competitive in the area of retention impact. The review committee would have liked more details on the referenced historic building repairs. Additionally, per CCCFF guidelines, historic buildings require a SHPO letter determining National Register eligibility and whether the proposed project will adversely impact the historic building. This letter was not included in the application.

- ▶ **The Village of Nemaha** requested funds to construct a new, 3,400-square-foot community center at 407 1st Street.

Reason for non-selection: Compared to awarded projects, the application wasn't as competitive in the areas of visitor impact and

new resident impact. The committee wanted more specifics in these areas, such as clarifying the benefits of the center to school-aged children and providing details about how visitors might use the center.

- ▶ **The City of North Platte** requested funds to revitalize and expand Cody Park Pool, create a water park at Cody Pool, and relocate a skate park to Cody Park.

Reason for non-selection: While the application scored above average in all five categories, the committee wanted more details of how the expansion/revitalization was prioritized through the planning process. Additionally, per CCCFF guidelines, historic buildings require a SHPO letter determining National Register eligibility and whether the proposed project will adversely impact the historic building. This letter was not included in the application.

- ▶ **The City of Papillion** requested funds to assist Sarpy County Historical Society with the relocation and construction of a new, larger, and modern museum campus in the heart of Sarpy County near Highway 370 and South 90th Street. The proposed museum campus would offer more exhibits and interactive displays, allow for expanded educational programs, and provide much-needed space for archival storage.

Reason for non-selection: Compared to awarded projects, the application wasn't as competitive in the areas of retention impact and new resident impact. The committee desired more information about how the museum might add a desirable amenity for residents

Pickrell received a CCCFF construction award for the project in 2023.

and potential residents, along with details about educational/entertainment programs that may be attractive to current and new residents. Moreover, awarded projects had more secured funds on hand.

- ▶ **The City of Peru** sought funds for site preparation and construction of new modular playground equipment in Sid Brown Memorial Park.

Reason for non-selection: Compared to awarded projects, the application wasn't as competitive in the areas of visitor impact and new resident impact. The review committee desired more detail in those areas. For example, the application could have been strengthened by providing community data of young families likely to utilize the playground or examples of ways to promote the playground to visitors.

- ▶ **The Village of Potter** requested funds to renovate its 1917 theatre, which currently serves as a community civic center. The project would renovate the interior and exterior of the existing hall and construct an annex to provide barrier-free bathrooms and a kitchen.

Reason for non-selection: The committee would have liked more specific narrative responses in all five categories. Also, the amount of secured funds on hand was less than those of awarded projects. Additionally, per CCCFF guidelines, historic buildings require a SHPO letter determining National Register eligibility and whether the proposed project will adversely impact the historic building. This letter was not included in the application.

- ▶ **The City of Seward** requested funds to support construction of a community-based wellness center. The project is located on the north edge of the city, near the Seward Middle School. Through construction and operation of the Seward Wellness Center, the city intends to provide year-round fitness, recreation, and education opportunities for all residents; meet additional needs for before and after school childcare programs; and provide facilities and opportunities for indoor competitive sports.

Reason for non-selection: Compared to awarded projects, the application wasn't as competitive in the areas of visitor impact and new resident impact. The committee wanted more specifics in those areas, such as discussion of unique facility features and narrative of how the facility's programs would differ from those available at other wellness centers in the area.

- ▶ **The City of South Sioux City** requested funds to help Siouxland Tennis Association attach a metal frame building to its existing facility to provide space for three additional indoor tennis courts.

Reason for non-selection: The application had average scores in all categories, except for readiness/local public support for which it received an above-average score. The committee desired more details on the impact of the expansion, e.g., projections for increased facility utilization and economic impact numbers. Additionally, including more discussion of the planning process may have improved scoring.

- ▶ **The Village of Staplehurst** requested funds for the Staplehurst Rec Center—a joint effort between the village and Our Redeemer Lutheran Church and School (ORLC). The multi-purpose facility would include a basketball court with bleachers on one side of the court. Plans are for the center to be attached to the newly built school building (preschool through 8th grade) owned and operated by ORLC. The Village would own the center, and ORLC would manage, maintain, and operate it with a 99-year lease.

Reason for non-selection: Compared to awarded projects, the application wasn't as competitive in readiness and local support. Additional clarification on the separation of the school and community activities, building access, and facility operational capacity may have strengthened scores. Additionally, per CCCFF guidelines, historic buildings require a SHPO letter determining National Register eligibility and whether the proposed project will adversely impact the historic building. This letter was not included in the application.

- ▶ **Village of Walthill** requested funding for a 5,500-square-foot, pre-engineered steel building that would include community space, restrooms, a kitchen, mechanical room, and storage.

Reason for non-selection: Compared to awarded projects, the application wasn't as competitive in the areas of retention impact

and visitor impact. The narrative responses were too broad in scope and did not fully address the respective criteria.

- ▶ **The City of West Point** requested funds for a municipal pool to replace the existing pool which was built in 1985. The proposed pool would have zero-depth entry and provide opportunities for swimming lessons, swim team practices, and aerobics classes.

It would also have amenities such as diving boards, slides, a basketball hoop, a movable volleyball net, and play structures.

Reason for non-selection: The application received an average score in four of the five areas (it scored highly on planning). The committee wanted more specifics on those areas, such as planned activities and

operational management details. Additionally, the application may have scored better by including info on how the pool would differ from others in the area and details of planning study results.

Architectural rendering of the Callaway Pool project. Callaway received a CCCFF planning award for the project in 2022.

PART 4:
THE NEBRASKA AFFORDABLE HOUSING TRUST FUND

DED endeavors to create opportunities for all families to enjoy the Good Life, whatever their level of income. Through the Nebraska Affordable Housing Trust Fund (NAHTF), the Department provides financial assistance to help communities develop homes priced within reach of families with low to moderate incomes. NAHTF was established in 1996 through the Nebraska Affordable Housing Act. It is funded with a portion of the Nebraska Documentary Stamp Tax.

DED serves as an investor in NAHTF projects, seeking to award applicants who demonstrate the strongest ability to use state resources to develop affordable homes. DED also partners with award winners to provide input into project design and to address any challenges that arise during project implementation.

NAHTFs are available to units of local government; public housing

authorities; community action agencies; and community-based, neighborhood-based, or reservation-based nonprofits and for-profit entities working in conjunction with one of the aforementioned eligible applicants. Awards support a range of activities including new home or rental construction, rehabilitation of housing units, and homeowner down payment assistance.

The awards may also be used for support activities performed in tandem with NAHTF-funded housing development.

NAHTF funds are awarded for projects that benefit households at or below 120% of the area median income.

NAHTF Financial Information, Calendar Year 2023

In 2023, revenue deposits from the documentary stamp tax to the NAHTF totaled \$14,571,019.74. Additionally, the fund earned interest of \$906,175.85.

DED received 70 applications for NAHTF assistance in calendar year 2023, totaling \$41,920,245. Twenty-three applicants were selected for award, in the combined amount of \$12,750,000. Table 4.1 displays information on award recipients, and Table 4.2 lists non-selected applicants.

Appropriated funds expended by the Department totaled \$13,499,535.06. All available funds were contracted to projects for the program year. The year-end

NAHTF balance as of December 31, 2023, was \$36,651,055.91. The Department's current estimated budget for administration of the NAHTF (spending authority for July 1, 2023-June 30, 2024) is \$990,497.78; the budget for aid during the same timeframe is \$39,464,964.50.

NAHTF Awards and Outcomes, Calendar Year 2023

DED awarded \$12,750,000 to 23 applicants in the 2023 NAHTF Program Year. These awards will make a tremendous impact across the state.

► Supporting the development of 264 housing units across Nebraska, with a combined \$24,484,829 in project costs.

- Generating \$2,354,400 in local cash match funds and \$42.3 million in community investment. These sums are evidence of the program's importance as a catalyst for local action to address housing needs.
- Leveraging \$9,380,429 in other funding.
- Creating an estimated 142 jobs in construction, the skilled trades and other related fields.

Table 4.1 provides detailed data on NAHTF awards for the calendar year.

NAHTF Supports Development of Affordable Housing in Blair

On April 18, 2024, DED teammates joined with Habitat for Humanity Omaha staff and community partners to celebrate a groundbreaking in Blair. The ceremony marked the start of a new housing subdivision in the West Valley Development. The development will provide 30 new single-family units, five of which are funded through the Nebraska Affordable Housing Trust Fund (NAHTF).

Groundbreaking to celebrate the start of a new subdivision in Blair.

Hastings Transforms Old Garage into New Housing with Help from NAHTF Award

On April 25, 2024, the DED team joined leaders in Hastings to celebrate the ribbon cutting of Garage Flats. The housing project used Nebraska Affordable Housing Trust Funds to convert an old garage into two modern rental units. On a neighboring lot, the community has developed two additional rental housing units with financial assistance from local Rural Workforce Housing Funds.

The Garage Flats housing project in Hastings.

Leaders in Bertrand Use NAHTF Award to Develop Housing, Grow Their Community

One leader's initiative has energized activity in Bertrand to build housing and spark growth in the community. LaDonna Bennett is a lifelong resident of the Bertrand area in Phelps County. She began working as the Clerk/Treasurer for the Village of Bertrand in 1984 and now serves as executive director of the community's housing authority.

Five or six years ago, LaDonna and the Housing Authority Board became concerned about the growing waitlist of applicants for the town's income-qualified, one-bedroom apartments. "People wanted to move here, like schoolteachers, but there was no place to live," she said. LaDonna reached out to Sharon Hueftle of the South Central Economic Development District (SCEDD) to discuss what could be done. That phone call was a catalyst for housing initiatives that are transforming Bertrand.

Sharon and her team at SCEDD worked with LaDonna and the Housing Authority Board to submit a NAHTF application through the Nebraska Affordable Housing Trust Fund program. The application outlined plans to construct five new two-bedroom apartments in the community. Around that same time, LaDonna learned that Phelps County expected significant job growth as a result of successful business attraction. It was a welcome development, but one that intensified the need for more housing.

It was encouraging, then, when leaders in Bertrand received word from the Nebraska Department of Economic Development that their application had been approved for \$525,000 of NAHTF funds (2022 program

year). "As you can imagine, we were all very, very excited to learn of the award," LaDonna said. "It inspired community members to form a new group, the Bertrand Community Builders, to make additional investments in housing. When they saw we had won the grant, they began talking, looking around town, and seeing what else they could do."

The housing projects are bringing in more young families, said LaDonna, which benefits the local school system. Attracting new residents also infuses fresh vision as Bertrand looks to the future. "Young people have good ideas. Maybe they're not the same ideas we older people have," she joked, "but they're good ideas."

Envisioning, planning, and implementing new housing projects involves the coordinated efforts of community partners. LaDonna credited SCEDD for their hard work on the application. She thanked the Phelps County Development Corporation for providing assistance to buy land for the housing project. She also emphasized the great work done by the Village of Bertrand's board to support the apartments being funded through the NAHTF award.

The community's hard work culminated in a ribbon-cutting celebration on May 23, 2024. Governor Jim Pillen was on hand to help the Village of Bertrand celebrate its new housing five-plex. The project is proof of what can be accomplished in rural communities when leaders take action to tackle the housing crunch.

Gov. Pillen takes part in a ribbon-cutting ceremony to help the community of Bertrand celebrate new housing developed with support from the NAHTF.

NAHTF Non-Selected Projects, Calendar Year 2023

For NAHTF funding requests under the 2023 Annual Cycle, DED first examined all applications to determine they met threshold criteria (e.g., eligible applicant, eligible activities, etc.) before scoring proposals based on the following selection criteria:

Housing Development Proposals (455 points possible)*:

- ▶ Project Design (100 points possible)
- ▶ Need and Impact (100 points possible)
- ▶ Legislative Priorities, e.g. projects in an Enterprise or Opportunity zone (10 points possible)
- ▶ Capacity and Collaboration (50 points possible)
- ▶ Disaster Recovery (5 points possible)
- ▶ Affordability Period (10 points possible)
- ▶ New Units Created (30 points possible)
- ▶ Matching Funds (50 points possible)
- ▶ Preservation of Units (50 points possible)
- ▶ Project Financing (50 points possible)

**Not every housing development project was eligible for the 455 possible points. For example, housing rehab projects could not receive new unit points.*

For housing projects in the 2023 Annual Cycle, all applications receiving a score of 280 or higher were funded in Congressional District 1; all applications in Congressional District 2 receiving a score of 320 or higher were funded; and all applications receiving a score of 323 or higher were funded in Congressional District 3. Additionally, DED awarded program discretionary funds to two other applicants in Congressional District 3—the City of Minden and Southwest Nebraska Community Betterment Corporation.

For nonprofit technical assistance projects, no applications in Congressional District 1 met the minimum scoring threshold. No applications for technical assistance were received from entities in Congressional District 2. All eligible technical assistance applications in Congressional District 3 were funded.

In all, 23 projects received funding out of 70 total applications. Table 4.2 provides information on non-select projects for the 2023 calendar year.

Total				\$27,961,245	\$3,976,484

Per the requirements of the Nebraska Affordable Housing Act and NAHTF regulations, DED allocated at least 30% of NAHTF monies to each of Nebraska's three U.S. Congressional Districts, reflecting 90% of the estimated NAHTF allocation. The remaining 10% of the NAHTF allocation was invested in housing projects within U.S. Congressional District 3. A breakdown of program funding by district is displayed in Table 4.3.

Table 4.3 NAHTF Funding by Congressional District, Calendar Year 2023

District	Amount Awarded	Percentage of Funds Awarded
Congressional District 1	\$3,825,000	30%
Congressional District 2	\$3,825,000	30%
Congressional District 3	\$5,100,000	40%
Total	\$12,750,000	100%

Village of Clearwater Earns NAHTF Award for Construction of Beautiful New Duplex

In April 2024, the Nebraska Commission on Housing and Homelessness honored the Village of Clearwater with a 2024 Nebraska Affordable Housing Trust Fund Award. The annual NAHTF awards presentation was established in 2018 to recognize organizations and projects that leverage Nebraska Affordable Housing Trust Funds to create high-quality, affordable housing.

The Village of Clearwater used NAHTF funds to collaborate with Stearns Construction on the construction of a beautiful new duplex. In August 2023, the community held a ribbon-cutting ceremony to celebrate completion of the project. Both units have since been sold.

Above: A duplex in Clearwater developed with the support of a NAHTF award.

Left: Clearwater is recognized with a 2024 Nebraska Affordable Housing Trust Fund Award.

PART 5:
THE RURAL WORKFORCE HOUSING FUND

The availability of attractive, affordable homes is a major selling point for a community when seeking to welcome new families and recruit business investment. The Rural Workforce Housing Fund (RWHF) was established in 2017 through the Rural Workforce Housing Investment Act. DED administers the RWHF to support the development of affordable housing in counties with populations under 100,000.

On a competitive basis, DED provides RWHF awards to non-profit development organizations, who invest the funding to develop high-quality, affordable housing. RWHF applicants must supply a match to be eligible for award, and they often partner with local businesses and financial institutions to raise the local match.

Many awardees use the RWHF dollars to create revolving loan funds. These funds are used to finance the construction of homes for working families. Upon sale of the homes, the money is repaid to the fund so

that it can be loaned again. This creates an ongoing funding instrument for housing development.

RWHF – 2020 Program Year

Given the tremendous success of the initial RWHF funding cycle in 2018, the Unicameral allocated an additional \$10 million to the fund in 2020. During 2021, DED awarded these funds to 17 recipients who contributed a total of \$10.7 million in local match. As of the end of 2023, the RWHF 2020 Program Year had resulted in the construction of 158 housing units with an-

other 289 in progress. RWHF 2020 Program Year recipients invested a combined \$13.49 million of award and match into housing projects during 2023. These investments are displayed in Table 5.1.

Note that data provided in Tables 5.1 and 5.2 are only for those RWHF awardees who made new investments in 2023. Historic data for RWHF recipients is provided in DED’s previous annual reports to the Nebraska Legislature, which are available at opportunity.nebraska.gov/programs/plans-reports.

RWHF Supports Housing Construction in Scottsbluff

Using Rural Workforce Housing Funds awarded by DED, Twin Cities Development completed an 8-unit townhome project built by Mesner Development and located on Circle Drive in Scottsbluff.

Table 5.1 Rural Workforce Housing Fund, Investments in 2023 by Recipients of RWHF (2020 Program Year)

Awardee	Project Area	RWHF Investment	Match Amount

Total		\$7,687,827	\$5,803,491

RWHF – 2022 Program Year

In 2022, the Nebraska Legislature approved a general fund allocation of \$29,555,112 to the Rural Workforce Housing Fund. In May 2023, DED awarded \$22,805,000 of these funds to 27 non-profit

housing organizations. DED then awarded the remaining \$6,750,112 to 10 recipients in January 2024. Over the two rounds of funding for the RWHF 2022 Program Year, awardees contributed \$13.98 million in matching funds. RWHF 2022 Program Year recipients

invested \$3.48 million of award and match into housing projects during 2023 (see Table 5.2). As of the end of 2023, 60 housing units were in progress using funds from RWHF in the 2022 Program Year.

Table 5.2 Rural Workforce Housing Fund, Investments in 2023 by Recipients of RWHF (2022 Program Year)

Awardee	Project Area	RWHF Investment	Match Amount

Greater Fremont Development Council	Fremont	\$420,000	\$25,000
McCook Economic Development Corporation	McCook, Red Willow County	\$702,000	\$193,950
NeighborWorks Northeast Nebraska	Norfolk	\$0	\$300,000
Southeast Nebraska Affordable Housing Council	Nebraska City, Falls City, and Henderson	\$360,640	\$283,360
Twin Cities Development	Kimball, Morrill, and Scottsbluff counties	\$0	\$442,000
Total		\$1,932,640	\$1,544,310

Multiple RWHF Awards Help South Central Economic Development District Invest in Area Housing

The City of Wood River, JET Development, and South Central Economic Development District, Inc. (SCEDD) have worked together on the completion of two new rental homes. Development of the two-bedroom, one-bath homes was financed through SCEDD’s Rural Workforce Housing Fund and the Nebraska Investment Finance Authority. SCEDD has been the recipient of three Rural Workforce Housing Fund awards: in 2017, 2020, and 2022.

“Rural Workforce Housing Funds, loaned at 2% for one-year construction loans for new spec homes or rehab of older homes, have been very beneficial in decreasing construction costs for our contractors. Decreased costs equate to lowered risk and increased profits, making contractors more willing to embark on these projects.”

– Sharon Hueftle, SCEDD Executive Director

Milford Repurposes Former Assisted Living Facility into Attractive Housing with RWHF Award

On June 8, 2023, the City of Milford, Seward County Chamber & Development Partnership, and Hoppe Development celebrated the completion of First Street Flats. This conversion project transformed the former site of the Crestview Care Center, bringing 21 new rental units to Milford. Seward County Chamber and Development Partnership were the recipients of a 2020 Nebraska Rural Workforce Housing Fund (RWHF) award and RWHF matching funds provided by the Nebraska Investment Finance Authority. They provided a secure workforce housing loan to Hoppe Development, who also used conventional financing through Horizon Bank and Jones Bank to bring the project to fruition.

“Seward County has benefited greatly from the Rural Workforce Housing Fund. Once all four initial RWHF projects are completed, we’ll have leveraged \$1.26 million of RWHF into \$15.7 million of investment and 91 new housing units in Milford, Seward, and Utica.”

– Jonathan Jank, President & CEO for the Seward County Chamber & Development Partnership

Bancroft Builds Housing for Local Teachers with Support of RWHF Award

On July 10, 2023, Cuming County Economic Development (CCED) and the community of Bancroft celebrated completion of a two-bedroom, two-bath duplex. DED awarded Rural Workforce Housing Funds to CCED, and one of the organization’s first investments assisted with the project, which was supported by numerous local partners. Bancroft-Rosalie Public Schools committed to buy the duplex to attract and retain talented teachers.

PART 6:
THE MIDDLE INCOME WORKFORCE HOUSING FUND

Nebraska’s urban counties have seen impressive growth in recent years. They’ve built major data centers; expanded university campuses; and attracted investments from manufacturers, food processors, insurers, and financial service companies. The Middle Income Workforce Housing Investment Fund (MWHF) is helping meet the demand for housing as Nebraska’s metro areas rapidly generate new jobs.

In 2020, Nebraska enacted the Middle Income Workforce Housing Investment Act, which created the MWHF. DED administers the fund to help nonprofits develop affordable homes in older or underserved urban neighborhoods with a demonstrated need for housing. Awards are available for housing projects in Lancaster County and in (or adjacent to) qualified census tracts in Douglas and Sarpy counties.

In the 2020 Program Year, DED awarded over \$9.6 million from the MWHF to 10 recipients. Each

awardee supplied a match equal to the award amount. The Nebraska Investment Finance Authority (NIFA) provided \$5 million to support MWHF recipients in raising their required match.

In the 2022 Program Year, DED awarded \$19.25 million of MWHFs through two funding cycles. Recipients supplied at least 50% match (or 50 cents for every dollar of funds awarded). In the first round, announced in June 2023, DED awarded \$7.5 million to three recipients. In February 2024, DED an-

nounced the second round of 2022 Program Year funding, awarding \$11.75 million to four recipients.

In calendar year 2023, 40 housing units were completed with financial assistance from the MWHF and 23 additional units were in progress. During 2023, MWHF recipients invested \$16.31 million of combined MWHF awards and match. Details are displayed in Table 6.1 and Table 6.2 below.

Table 6.1 Middle Income Workforce Housing Fund, Investments by 2020 Program Year Recipients in 2023

Awardee	Project Area	MWHF Investment	Match Investment
75 North	Omaha	\$1,000,000	\$1,000,000
Habitat for Humanity of Omaha	Omaha	\$880,177	\$0

Southside Redevelopment Corporation, dba Canopy South	Omaha	\$357,000	\$160,000
Spark Capital	Omaha	\$91,982	\$91,981
Total		\$5,280,653	\$4,018,114

Table 6.2 Middle Income Workforce Housing Fund, Investments by 2022 Program Year Recipients in 2023

Awardee	Project Area	MWHF Investment	Match Investment
Habitat for Humanity of Omaha	Omaha	\$4,454,790	\$2,558,391
Total		\$4,454,790	\$2,558,391

With Support from the MWHF, Habitat for Humanity Creates Affordable Opportunities for Home Ownership in North Omaha

During 2023, twelve families moved into beautiful new homes in the Bluestem Prairie community of North Omaha. The three-to-five-bedroom homes were developed by Habitat for Humanity of Omaha on lots that had been vacant since 2006. Habitat for Humanity is developing about 85 homes in Bluestem Prairie, which is north of Sorensen Parkway near 52nd Street. These affordable homes will provide families with an opportunity to achieve the dream of home ownership. DED is supporting the project with \$5 million through the Middle Income Workforce Housing Fund.

Holy Name Housing Carries Out Its Mission to Build Quality, Affordable Housing with MWHF Funds

For more than 40 years, Holy Name Housing Corporation has been strengthening neighborhoods in Omaha by providing high-quality housing options. DED has invested in Holy Name Housing Corporation’s projects through the Middle Income Workforce Housing Fund, Nebraska Affordable Housing Trust Fund, and Qualified Census Tract Affordable Housing Program.

“The Middle Income Workforce Housing Fund program has been an exciting new resource for Holy Name Housing Corporation. This funding has enabled us to demonstrate that the market for beautiful, newly constructed homes for sale in North Omaha is strong.”

– Matthew Cavanaugh, Executive Director of Holy Name Housing Corporation

PART 7:
THE CUSTOMIZED JOB TRAINING PROGRAM

Given the rapid pace of technological innovation, the most adaptable companies are best positioned to succeed. The Customized Job Training (CJT) Program provides funds to help businesses in Nebraska train their employees in the use of new equipment and technologies. By helping to develop a highly skilled, tech-savvy workforce, DED is keeping Nebraska on the leading edge of technological change.

CJT grants provide financial assistance for employee training initiatives that create or retain quality jobs in Nebraska. The program gives preference to projects resulting in increased investment and employment in the state. Eligible activities within the CJT program include on-the-job training, classroom instruction, educational costs such as tuition and fees, and costs of training materials.

CJT awards must be used to train full-time, permanent, in-state employees who are not involved in administrative support, management, or facility maintenance. Businesses have one to three years to complete training for employees under CJT. All CJT grant recipients must maintain their employee baseline as of the time of application for at least two years.

CJT Active Grants, 2023 Program Year

Five CJT contracts were active during the 2023 program year, representing \$5,032,000 in awards. Combined, these contracts have supported the training of 1,336 new employees and the retention of 10 additional employees. As of June 2024, expenditures for these five contracts totaled \$4,460,145. Table 7.1 displays data for each of the contracts.

Table 7.1 Customized Job Training Active Contracts, 2023 Program Year

Business Name	Award	Expenditures to Date	New Employees Trained	Existing Employees Trained	Training Period Start Date	Training Period End Date
Malco Products	\$20,000.00	\$19,999.84	10	0	1/29/2019	1/29/2022
Lincoln Premium Poultry	\$4,400,000.00	\$4,349,888.22	800	0	6/1/2019	6/1/2022
Staska Pharmaceuticals, Inc.	\$32,000.00	\$10,940.23	16	0	6/1/2020	6/1/2023
Graepel North America, Inc.	\$80,000.00	\$79,317.00	10	10	5/1/2022	4/30/2024
Amazon	\$500,000.00	\$ 0	500	0	1/11/2023	2/11/2025
Total	\$5,032,000.00	\$4,460,145.29	1,336	10		

CJT Closed Grants, 2023 Program Year

As shown in Table 7.2, one CJT contract was closed during the 2023 program year. This award, to PetSource by Scoular, resulted in 60 new employees being trained from 2020 through 2022.

Table 7.2 Customized Job Training Closed Contract, 2023 Program Year

Business Name	Award	Expenditures to Date	New Employees Trained	Existing Employees Trained	Training Period Start Date	Training Period End Date
Petsource by Scoular	\$120,000.00	\$96,000.00	60	0	6/29/2020	6/28/2021
Total	\$120,000.00	\$96,000.00	60	0		

DED Strengthens Workforce, Supports Growth of German Manufacturer in Metro Omaha

Before moving from Germany to Nebraska in 2006 to establish Graepel North America, Mark Zumdohme wouldn't have been able to find the state on a map. Multiple business expansions later, he earned recognition as Nebraska's "Diplomat of the Year" for helping other companies chart their course to the state. In August 2023, Governor Jim Pillen honored Mark—now CEO of Graepel North America—with the award.

Mark Zumdohme (center) and the Graepel team host Nebraska Governor Jim Pillen (third from right) on a visit to their manufacturing facility. (photo courtesy of Mark Zumdohme)

DED's consistency in exceeding Graepel's expectations of customer service initially attracted the company to Nebraska. The agency has continued to offer strong support as the company has expanded in metro Omaha. This has included helping Graepel find a shovel-ready site for its existing facility, providing easy-to-access incentives to support construction, and awarding funds to strengthen the company's workforce through the Customized Job Training Program.

"We've been very blessed to have ongoing support from the State of Nebraska throughout our journey," Mark said. "DED helped us along the way every time we grew or needed to make a connection with suppliers, business partners, or attorneys. I have always been able to get help—DED has been a great resource."

From an initial workforce of one, Graepel has grown to a team of 70. "The quality of the people we have is very, very good," Mark said. "They have a lot of loyalty. They're hard-working people. They have an extremely good work ethic, which has helped us grow."

PART 8:
THE ACCREDITED JOB TRAINING PROGRAM

DED is supporting the state's businesses as they equip employees with advanced skills. By gaining skills through training, workers boost their earnings potential. In turn, companies benefit from having highly capable people who can meet the multifaceted challenges of the modern workplace.

The Accredited Job Training Program provides grants for Nebraska employers who are creating net new jobs or increasing wages for existing employees who are receiving skilled job training.

The program assists employers with the costs of skilled job training for new and existing employees.

Eligible costs include, but are not limited to:

- ▶ Tuition and fees
- ▶ Books and classroom materials for the trainee
- ▶ Reasonable costs of instructors who are not employed with the business
- ▶ Other reasonable costs associated with the job training provided

Eligible applicants are Nebraska employers who are creating net new jobs or increasing the wages of their existing employees due to the training they are receiving. Employers must provide a 50% match per trainee, of the total amount awarded.

Accredited Job Training Program, Award Information

DED received three applications for the Accredited Job Training Program in fiscal year 2022-2023 and awarded funds to one applicant—Heartwell Renewables, LLC. The company is a joint venture between affiliates of The Love's Family Companies and Cargill to produce renewable diesel in Hastings. Cargill will source and provide the feedstock required for fuel production.

Once the fuel is produced, Musket, a division of Love's, will transport and market the fuel across the United States.

With its Accredited Job Training Program award, Heartwell Renewables is partnering with Central Community College (CCC) to deliver process operation training for its 40 initial employees. The training is taking place over six to eight months at CCC's Hastings Campus. Each Heartwell employee is taking six different courses, which amounts to approximately 735 contact hours of training. Further information about the award is displayed in Table 8.1 below.

Table 8.1 Accredited Job Training Program Award Information, Fiscal Year 2022-2023

Award Recipient	Amount of Job Training Grants Awarded	Total Number of Net New Jobs to be Trained	Average Wage of Net New Jobs
Heartwell Renewables, LLC (Contract Period: 6/30/2023 – 12/31/2024)	\$160,000	40	\$27/hr.

DED did not make any administrative expenditures for the Accredited Job Training Program in fiscal year 2022-2023.

The Nebraska Legislature has not provided DED with spending authority to make awards through the Accredited Job Training Program beyond the 2022-2023 fiscal year.

Heartwell Renewables celebrates its groundbreaking in Hastings alongside state and local leaders.

PART 9:
INTERN NEBRASKA (InternNE)

The State’s workforce development strategy begins with recruiting in our own backyard. DED is creating pathways for Nebraska’s students to stay in-state after they graduate and launch careers here. To do this, the agency supports internships that offer students valuable experience in growing, high-wage career fields. The goal is for students to get plugged into a Nebraska workplace, develop mentoring relationships with local leaders, and make connections in the community years before they finish school. That way, upon graduation, students already have strong vocational ties to Nebraska and a vision of how they can make an impact as civic leaders in our state.

Interns with Boyd Jones help promote InternNE Powered by Aksarben during an event at the College World Series in Omaha.

The Intern Nebraska Grant Program (InternNE) provides financial assistance to employers to make it easier and more cost-effective for them to create internships. Legislation passed during 2022 significantly expanded Intern Nebraska and allocated \$20 million for it. During fiscal year 2022-2023, DED created program guidelines for the enhanced internship program. With the revamped program being

developed, no Intern Nebraska grants were awarded during FY 2022-2023.

In the fall of 2022, DED sent out an RFP, seeking a Nebraska-based nonprofit to promote the redesigned Intern Nebraska Program. In March 2023, DED contracted with the Aksarben Foundation to:

- ▶ Help educate and support employers to create elevated internship experiences.
- ▶ Provide marketing support and communications to employers.
- ▶ Provide targeted marketing support to students to raise awareness about internships across the state.
- ▶ Hire Regional Coordinators to provide encouragement and guidance to employers and communities in setting up peer network support events and designing programming that better connects students to employers and communities.

On May 25, 2023, Governor Pillen announced the collaboration between DED and the Aksarben Foundation at the annual Aksarben stakeholders meeting in La Vista. The partnership—InternNE, Powered by Aksarben—aims to better train and retain young Nebraskans to bolster the state’s skilled workforce.

On October 1, 2023, DED opened applications for the first round of funding under Intern Nebraska Powered by Aksarben. The agency received 139 applications,

requesting \$4.4 million of funding to support 820 internships. Details of these awards will be reported in DED’s 2024 annual report to the Legislature, which will overview activity for Intern Nebraska Powered by Aksarben in fiscal year 2023-2024.

Through Intern Nebraska, businesses are eligible to apply for funding for tuition reimbursement, transportation costs, internship housing, and recruitment or admin costs. Businesses with fewer than 50 Full-Time Equivalent employees (FTEs)

can also apply for wage reimbursement. During the 2024 legislative session, the Unicameral expanded eligibility for this benefit. As of July 1, 2024, businesses with up to 150 FTEs will be eligible for wage reimbursement.

“Investing in the next generation of Nebraska talent is one of the smartest bets we can make. Kids who grow up in Nebraska are taught a strong work ethic, they are well-educated, and they value civic engagement. Through InternNE, we are upping our in-state recruiting efforts of these high-potential leaders. Our business-led model equips employers to design clear pathways connecting students to rewarding careers in Nebraska.”

– Sandra Reding, President of the Aksarben Foundation

Governor Jim Pillen (center); Sandra Reding, President of Aksarben Foundation (left); and Leslie Andersen, Aksarben Foundation Governor (right) at the 2023 Annual Aksarben Stakeholders’ Meeting.

PART 10:
THE SITE AND BUILDING DEVELOPMENT FUND

Through the Site and Building Development Fund (SBDF), DED helps Nebraska’s communities prepare the places and spaces needed to support business growth. Having industry-ready facilities strengthens recruitment and retention of high-wage job creators. SBDF gives communities a competitive advantage when seeking to attract investment—whether from a new venture or existing company looking to expand.

The Site and Building Development Fund was established in Nebraska through legislation passed in 2011. Its purpose is to assist communities in readying industrial sites and facilities to create conditions favorable to growth. DED competitively awards SBDF grants to local governments and nonprofits, such as economic development organizations. Grants can be used to

acquire land, to buy or construct buildings, to renovate existing structures, or to develop land for industrial use. SBDF grants can also be used for planning, design, and engineering costs. SBDF grants require a dollar-for-dollar match from all recipients.

DED awarded \$4,935,000 of SBDF funds for 19 projects with a start

date in calendar year 2023, as displayed in Table 10.1. Of these funds, 91% were awarded to applicants in nonmetropolitan areas (counties with a population under 100,000), and 9% were awarded to support projects in metropolitan areas (counties with a population of 100,000 or more).

Table 10.1 Site and Building Development Fund Awards, Calendar Year 2023

Eligible Applicant	Benefiting Business	County	Award
City of Aurora	Kiner Enterprises, LLC (common ownership with Kiner, Inc.)	Hamilton	\$200,000
City of Beatrice	Accuma Corporation	Gage	\$150,000
City of David City	Ag Processing Inc (AGP)	Butler	\$100,000
City of Gothenburg	JWC Gburg, LLC	Dawson	\$2,500,000
City of Minden	Minden Mining, LLC	Kearney	\$20,000
City of Norfolk	Milk Specialties Company	Madison	\$300,000
City of South Sioux City	GWD, Ltd. (Gerkin Windows & Doors)	Dakota	\$250,000
City of South Sioux City	Scratch and Peck LLC (Scratch and Peck Feeds)	Dakota	\$150,000
Economic Development Council of Buffalo County, Inc.	Airport Road Rentals, LLC (common ownership with Delux Manufacturing Co.)	Buffalo	\$50,000
Economic Development Council of Buffalo County, Inc.	Rovar Park, LLC (common ownership with ELF Enterprises, Inc.)	Buffalo	\$150,000
Lincoln Chamber Economic Development Corporation	General Dynamics Ordinance and Tactical Systems, Inc.	Lancaster	\$100,000
Lincoln Chamber Economic Development Corporation	Communication Systems Solutions, Inc. (CSS)	Lancaster	\$100,000

Eligible Applicant	Benefiting Business	County	Award
McCook Economic Development Corporation	Performance Plus of Colorado, LLC	Red Willow	\$200,000
Merrick County Development Corp.	Covenant Development, LLC (common ownership with SKM Turnkey Construction)	Merrick	\$40,000
Merrick County Development Corp.	Central Nebraska Fabrication, LLC	Merrick	\$50,000
Omaha Development Council, Inc.	North End Teleservices, LLC	Douglas	\$250,000
Thayer County Economic Development Alliance, Inc.	Free Day Farms, LLC (affiliated with Free Day Popcorn Company, LLC)	Thayer	\$50,000
York County Development Corporation	Klute, Inc.	York	\$200,000
York County Development Corporation	Petersen Bros., Inc. (common ownership with LivFarms)	Fillmore	\$75,000
Total			\$4,935,000

NOTE: An SBDF award of \$250,000 to the Greater Fremont Development Council in 2019 was not included in previous DED reports. The award benefited Ready Tech Go, Inc., dba RTG Medical.

Gothenburg Recruits Major Fertilizer Facility with Help from SBDF Award

In June 2023, Governor Jim Pillen joined the community of Gothenburg to celebrate the announcement of a \$750-million liquid fertilizer production facility. Known as The Meadowlark Project, the facility is being developed by Nebraska-based startup JWC Gburg, LLC. The company expects to create 50 full-time jobs at the new plant. Recruitment of the project was spearheaded by Gothenburg Improvement Corporation with key support from NPPD, Dawson Public Power District, Central Nebraska Public Power and Irrigation District, Central Platte NRD, the City of Gothenburg, and state agencies. DED committed Site and Building Development Funds to help secure the project’s investment in Nebraska.

Gerkin Windows and Doors Recognized as “Business of the Year” for SBDF-Supported Expansion

In August 2023, the Nebraska Diplomats honored Gerkin Windows and Doors (GWD) of South Sioux City as Business of the Year. The company, which has been in business for 90+ years, is working on an expansion to add 100,000 square feet of operational space. The \$14 million project will create approximately 30 jobs. DED invested \$250,000 of Site and Building Development Funds to support the expansion.

From Left to Right: Nebraska Diplomats President Desiree Wineland; Scott Andersen of GWD; Steve Schneider of GWD; Governor Jim Pillen

Gerkin Windows and Doors has established itself as an innovator in the design and manufacturing capability of insulated windows and doors. Through stringent product testing and innovative design, the company has evolved its products as market and consumer needs change. Its window and door products are sold throughout North America by professional building material distributors and dealers.

David City Uses SBDF Award to Support New Soy Crush Facility

In May 2023, Governor Jim Pillen joined Ag Processing Inc (AGP) to celebrate the groundbreaking of its soy crush facility in David City. The plant will have capacity to process over 50 million bushels of soybeans annually and is scheduled to open in 2025. DED awarded \$100,000 of Site and Building Development Funds to David City to assist with the AGP project.
