<p>Notes: 11/27/23 Kyle Brown            Arrived on site. Met with customer and gained access to generator and ATS's. Took pictures and documented data tags. Performed inspection on unit. Found batteries were over 3 years old and out of spec due to age. No other issues found. all fluid levels checked before running the unit up to temperature. Took readings when unit was running. Shut down and returned to auto. Cleaned up and departed site.</p> <p>Battery: 2x 4d (10/2019) Recommend replacing due to age.</p>

## REPORT OF INSPECTION

Inspection Report No. 237  
Conferred With \_\_\_\_\_

Inspection Contract No. 2024-015  
Phone No. \_\_\_\_\_

REPORT TO Norfolk Reg Center BUILDING OR LOCATION \_\_\_\_\_  
STREET 1700 W. Victoria Lane INSPECTOR S. Trapp  
CITY & STATE Norfolk, VA DATE 1-31-24

### Owner's Section (To be answered by Owner or Occupant)

- A. Explain any occupancy hazard changes since the previous inspection. NONE
  - B. Describe fire protection modifications made since last inspection. NONE
  - C. Describe any fires since last inspection. NONE
  - D. When was the system piping last checked for stoppage, corrosion or foreign material? 2022
  - E. When was the dry-piping system last checked for proper pitch? NA
  - F. Are dry valves adequately protected from freezing? \_\_\_\_\_
- Signature [Signature] Title \_\_\_\_\_ Date 1-31-23

### Inspector's Section (All responses reference current inspection) NA = NOT APPLICABLE

- 1. General
  - a. Is the building occupied?  Yes  No Is occupancy same as previous inspection?  yes  no  NA
  - b. Are all systems in service?  Yes  No
  - c. Is there a minimum of 18 in. (457 mm) clearance between the top of the storage and the sprinkler deflectors?  Yes  No
  - d. Does all electrical heat tape appear to be satisfactory?  Yes  No  NA
  - e. Does the hand hose on the sprinkler system(s) appear to be satisfactory?  Yes  No  NA
- 2. Control Valves (See Item 15.)
  - a. Are all sprinkler system control valves and all other valves in the appropriate open or closed position?  Yes  No
  - b. Are all control valves in the open position locked, sealed or equipped with a tamper switch?  Yes  No
- 3. Water Supplies (See Item 16.)
  - a. Was a water flow test of main drain made at the sprinkler riser(s)?  Yes  No
- 4. Tanks, Pumps, Fire Department Connections
  - a. Are fire pumps, gravity tanks, reservoirs and pressure tanks in good condition and properly maintained?  Yes  No  NA
  - b. Are fire department connections in satisfactory condition, couplings free, caps in place, and check valves tight?  Yes  No  NA
  - Are they accessible and visible?  Yes  No  NA
- 5. Wet Systems
  - a. Are cold weather valves (O.S. & Y.) in the appropriate open or closed position?  Yes  No  NA
  - b. Have antifreeze system solutions been tested?  Yes  No  NA
  - c. Were the antifreeze test results satisfactory?  Yes  No  NA
  - d. In areas protected by wet system(s), does the building appear to be properly heated in all areas, including blind attics and perimeter areas where accessible?  Yes  No  NA Do all exterior openings appear to be protected against freezing?  Yes  No  NA
- 6. Dry Systems (See Items 11 to 13.)
  - a. Are dry valve(s) in service?  Yes  No  NA
  - b. Are the air pressures and priming water levels in accordance with the manufacturer's instructions?  Yes  No  NA
  - c. Has the operation of the air or nitrogen supplies been tested?  Yes  No  NA Are they in service?  Yes  No  NA
  - d. Were low points drained during this inspection?  Yes  No  NA
  - e. Did quick-opening devices operate satisfactorily?  Yes  No  NA
  - f. Did the dry valve(s) trip properly during the trip pressure test?  Yes  No  NA
  - g. Did the heating equipment in the dry-pipe valve room(s) operate at the time of inspection?  Yes  No  NA
- 7. Special Systems (See Item 14.)
  - a. Did the deluge or pre-action valves operate properly during testing?  Yes  No  NA
  - b. Did the heat-responsive devices operate properly during testing?  Yes  No  NA
  - c. Did the supervisory devices operate during testing?  Yes  No  NA
- 8. Alarms
  - a. Did water motor(s) and gong(s) test satisfactorily?  Yes  No  NA
  - b. Did electric alarm(s) test satisfactorily?  Yes  No  NA
  - c. Did supervisory alarm service test satisfactorily?  Yes  No  NA

"Flow Switch" Time: \_\_\_\_\_ min \_\_\_\_\_ sec. see How sheet
- 9. Sprinklers
  - a. Are all sprinklers free from corrosion, loading or obstruction to spray discharge?  Yes  No
  - b. Are sprinklers less than 50 years old? (Older sprinklers require sample testing)  Yes  No
  - c. Are quick response and residential sprinklers less than 20 years old? (Older sprinklers require sample testing)  Yes  No
  - d. Is stock of spare sprinklers available?  Yes  No
  - e. Does the exterior condition of sprinkler system appear to be satisfactory?  Yes  No
  - f. Are sprinklers of proper temperature ratings for their locations?  Yes  No

Are all new additions and building changes property protected?  yes  no  NA

- e. Did quick-opening devices operate satisfactorily?  Yes  No  NA
- f. Did the dry valve(s) trip properly during the trip pressure test?  Yes  No  NA
- g. Did the heating equipment in the dry-pipe valve room(s) operate at the time of inspection?  Yes  No  NA
7. Special Systems (See Item 14.)
- a. Did the deluge or pre-action valves operate properly during testing?  Yes  No  NA
- b. Did the heat-responsive devices operate properly during testing?  Yes  No  NA
- c. Did the supervisory devices operate during testing?  Yes  No  NA
8. Alarms
- a. Did water motor(s) and gong(s) test satisfactorily?  Yes  No  NA
- b. Did electric alarm(s) test satisfactorily?  Yes  No  NA
- c. Did supervisory alarm service test satisfactorily?  Yes  No  NA
- "Flow Switch"  
Time: 0 min 58 sec.
9. Sprinklers
- a. Are all sprinklers free from corrosion, loading or obstruction to spray discharge?  Yes  No
- b. Are sprinklers less than 50 years old? (Older sprinklers require sample testing)  Yes  No
- c. Are quick response and residential sprinklers less than 20 years old? (Older sprinklers require sample testing)  Yes  No
- d. Is stock of spare sprinklers available?  Yes  No
- e. Does the exterior condition of sprinkler system appear to be satisfactory?  Yes  No
- f. Are sprinklers of proper temperature ratings for their locations?  Yes  No
- Are all new additions and building changes property protected?  yes  no  NA

DW24-016  
 System No. or Description if multiple systems  
Norfolk Heating Plant

Inspection Report  
 No. 891

11. Date dry-pipe valve trip tested (control valve partially open) NA (See Trip Test Table which follows.)  
 12. Date dry-pipe valve trip tested (control valve fully open) NA (See Trip Test Table which follows.)  
 13. Date quick-opening device tested NA (See Trip Test Table which follows.)

DRY PIPE OPERATING TEST	DRY VALVE				TRIP TEST TABLE				C.O.D.			
	MAKE		MODEL		SERIAL NO.		MAKE		MODEL		SERIAL NO.	
	Time to Trip Thru Test Pipe		Water Pressure		Air Pressure		Trip Point Air Pressure		Time Water Reached Test Outlet		Alarm Operated Properly	
	MIN	SEC	PSI	PSI	PSI	PSI	MIN	SEC	YES	NO		
Without Q.O.D.												
With Q.O.D.												

14. Date deluge or preaction valve tested NA (See Trip Test Table which follows.)

DELUGE & PREACTION VALVES	TRIP TEST TABLE								
	Operation <input type="checkbox"/> PNEUMATIC <input type="checkbox"/> ELECTRIC <input type="checkbox"/> HYDRAULIC								
	Piping Supervised <input type="checkbox"/> YES <input type="checkbox"/> NO				Detecting media supervised <input type="checkbox"/> YES <input type="checkbox"/> NO				
	Does valve operate from the manual trip and/or remote control stations <input type="checkbox"/> YES <input type="checkbox"/> NO								
	Is there an accessible facility in each circuit for testing <input type="checkbox"/> YES <input type="checkbox"/> NO				Method of testing-circuits				
MAKE		MODEL		Does each circuit operate supervision loss alarm		Does each circuit operate valve release		Maximum time to operate release	
				YES NO		YES NO		YES NO	

15. See Control Valve Maintenance Table.

Control Valve Maintenance Table							Explain Abnormal Condition
Control Valves	Number	Type	Open	Secured	Closed	Signs	
City Connection Control Valve	1	P.V.	YES	YES	NO	YES	
Tank Control Valves							
Pump Control Valves							
Sectional Control Valves							
System Control Valves	2	BTY	YES	YES	NO	YES	DRY
Other Control Valves							

16. Water Flow Test at Sprinkler Riser  
 Water Supply Source:

Water Supply Source:	Date	City	Tank	Static Pressure	Residual (Flow) Pressure
		Test Pipe Location	Size of Test Pipe		
Last Water Flow Test	1-25-23			70	60
This Water Flow Test	1-31-24	Riser	2"	65	55

17. Explain any "No" answers and comments: None

18. Adjustments or corrections made during this inspection: None

19. Although these comments are not the result of an engineering review, the following desirable improvements are recommended:  
None

## Fire Alarm Inspection- NFPA 72 (2013)

This testing was performed in accordance with applicable NFPA 72 Standards.

Midwest Alarm Services provides many services to our community. If you would like quarterly, semi-annual or annual testing/inspection, the inspection coordinator can reach out and offer inspections on a time and material basis. Signing an Inspection Agreement with Midwest Alarm Services has many benefits. Not only do you save money, but our inspection coordinator will work with you to ensure your Fire System stays in code as well as has proper documentation sent to the local jurisdiction for compliance. If you need an estimate or have questions about our services, please reach out to our operations manager.

Midwest Alarm Services provides many services to our community. If you would like quarterly, semi-annual or annual testing/inspection, the inspection coordinator can reach out and offer inspections on a time and material basis. Signing an Inspection Agreement with Midwest Alarm Services has many benefits. Not only do you save money, but our inspection coordinator will work with you to ensure your Fire System stays in code as well as has proper documentation sent to the local jurisdiction for compliance. If you need an estimate or have questions about our services, please reach out to our operations manager.

Midwest Alarm Services provides many services to our community. If you would like quarterly, semi-annual or annual testing/inspection, the inspection coordinator can reach out and offer inspections on a time and material basis. Signing an Inspection Agreement with Midwest Alarm Services has many benefits. Not only do you save money, but our inspection coordinator will work with you to ensure your Fire System stays in code as well as has proper documentation sent to the local jurisdiction for compliance. If you need an estimate or have questions about our services, please reach out to our operations manager.

The Inspection & Testing section lists all of the items inspected in your building. Items are grouped by Passed or Failed/Other. Items are listed by Category. Each item includes the services performed, and the time & date at which testing occurred.

Device Type	Location	Service	Time	Date
<b><i>Passed</i></b>				
<b>Building- Wet Pipe, Building-</b>				
Waterflow Switch	1st South Laundry	Semi-Annual	7:36:45 AM	03/29/2023
Drain	1st South Laundry	Semi-Annual	7:37:17 AM	03/29/2023
Fire Dep't Connection	Ground South Outside	Semi-Annual	7:37:04 AM	03/29/2023
Control Valve	1st South Laundry	Semi-Annual	7:37:34 AM	03/29/2023
<b><i>Untested</i></b>				
<b>Building- Wet Pipe, Building-</b>				
Gauge	1st South Laundry			
Piping	1st South Laundry			
Check Valve	1st South Laundry			

# Wet Pipe Fire Sprinkler Systems

Generated by: *BuildingReports.com*

Building: Beatrice State Development Cottage #413	Building-, Building-
---	----------------------

*This section lists out all the devices and components that have been associated with a Wet Pipe System and provides details as to type of component, pressure readings, response time, etc. If a component has an OK checkbox that is checked, then that component was actually tested. However, for Pass/Fail test results, see the Inspection and Testing section.*

# Inventory & Warranty Report

Generated by: [BuildingReports.com](http://BuildingReports.com)

## Building: Beatrice State Development Cottage #415

*The Inventory & Warranty Report lists each of the devices and items that are included in your Inspection Report. A complete inventory count by device type and category is provided. Items installed within the last 90 days, within the last year, and devices installed for two years or more are grouped together for easy reference.*

Device or Type	Category	% of Inventory	Quantity
Check Valve	Valve	14.29%	1
Control Valve	Valve	14.29%	1
Drain	Device	14.29%	1
Fire Dep't Connection	Hose	14.29%	1
Gauge	Device	14.29%	1
Piping	Sprinkler	14.29%	1
Waterflow Switch	Alarm	14.29%	1

Device Type	Qty	Model #	Type	Description	Install Date
<b><i>In Service - 3 Years to 5 Years</i></b>					
<b>Building– Wet Pipe</b>					
Check Valve	1		Grooved		01/23/2020
Control Valve	1		Butterfly	Main Control	01/23/2020
Drain	1		Main		01/23/2020
Gauge	1				01/23/2020
Piping	1		Steel		01/23/2020
Waterflow Switch	1		Vane	Alarm	01/23/2020
<b>Building– Wet Pipe, Building–</b>					
Fire Dep't Connection	1		Siamese		01/23/2020

# Notes & Recommendations

Generated by: BuildingReports.com

## Building: Beatrice State Development Cottage #415

The Notes & Recommendations Report details additional inspection notes made by the Inspectors during the course of the building inspection. Notes are grouped by SystemID.

Note	Device Type	Location	Comment	ScanID
<b><i>Building- Wet Pipe</i></b>				
1	Check Valve	1st Laundry	Check valve moves freely at this time	68041401
2	Gauge	1st Laundry	1 gage replaced on this date	68041399
3	Piping	1st Laundry	No sign of corrosion or blockage at this time	68041400

# Sprinkler Inspection Certificate

*For*

Beatrice State Development  
Cottage #416  
3052 Peterson Street  
Beatrice, Nebraska 68310

Tested to NFPA 25 Standards

*This Inspection was performed in accordance with applicable NFPA Standards. The subsequent pages of this report provide performance measurements, listed ranges of acceptable results, and complete documentation of the inspection. Whenever discrepancies exist between acceptable performance standards and actual test results, notes and/or recommended solutions have been proposed or provided for immediate review and approval.*

# Wet Pipe Fire Sprinkler Systems

Generated by: *BuildingReports.com*

Building: Beatrice State Development Cottage #420	Building-, Building-
---	----------------------

*This section lists out all the devices and components that have been associated with a Wet Pipe System and provides details as to type of component, pressure readings, response time, etc. If a component has an OK checkbox that is checked, then that component was actually tested. However, for Pass/Fail test results, see the Inspection and Testing section.*

# Sprinkler Inspection Certificate

*For*

Beatrice State Development  
Cottage #424  
715 Solar Dr.  
Beatrice, Nebraska 68310

Tested to NFPA 25 Standards

*This Inspection was performed in accordance with applicable NFPA Standards. The subsequent pages of this report provide performance measurements, listed ranges of acceptable results, and complete documentation of the inspection. Whenever discrepancies exist between acceptable performance standards and actual test results, notes and/or recommended solutions have been proposed or provided for immediate review and approval.*

*Quarterly Inspection*  
*Inspection Date*  
*Jun 14, 2023*

# Wet Pipe Fire Sprinkler Systems

Generated by: *BuildingReports.com*

Building: Beatrice State Development Cottage #424	Building-, Building-
---	----------------------

*This section lists out all the devices and components that have been associated with a Wet Pipe System and provides details as to type of component, pressure readings, response time, etc. If a component has an OK checkbox that is checked, then that component was actually tested. However, for Pass/Fail test results, see the Inspection and Testing section.*

## Fire Alarm Inspection- NFPA 72 (2013)

This testing was performed in accordance with applicable NFPA 72 Standards.

Midwest Alarm Services provides many services to our community. If you would like quarterly, semi-annual or annual testing/inspection, the inspection coordinator can reach out and offer inspections on a time and material basis. Signing an Inspection Agreement with Midwest Alarm Services has many benefits. Not only do you save money, but our inspection coordinator will work with you to ensure your Fire System stays in code as well as has proper documentation sent to the local jurisdiction for compliance. If you need an estimate or have questions about our services, please reach out to our operations manager.

Gary Hesman

Fire Extinguisher	41	41 (100%)	37 (90%)	4 (10%)

## Fire Extinguisher Report

This testing was performed in accordance with applicable NFPA 72 Standards.

Midwest Alarm Services provides many services to our community. If you would like quarterly, semi-annual or annual testing/inspection, the inspection coordinator can reach out and offer inspections on a time and material basis. Signing an Inspection Agreement with Midwest Alarm Services has many benefits. Not only do you save money, but our inspection coordinator will work with you to ensure your Fire System stays in code as well as has proper documentation sent to the local jurisdiction for compliance. If you need an estimate or have questions about our services, please reach out to our operations manager.

Program

Description

1. **Name/Identification of each Unit with brief description of the unit to include type of population served in the unit.**
2. **Total bed capacity per unit.**
3. **Population per unit as of 10/31/2024**

The Beatrice State Developmental Center is divided into two separate Intermediate Care Facilities (ICFs) and has 14 dedicated homes.

**Solar Cottages ICF (long term care):** BSDC is a 24-hour state and federally funded residential treatment facility dedicated to the provision of specialized psychological, medical and developmental supports to people with intellectual and developmental disabilities. **Solar Cottages consists of 10 homes** within the ICF: 753 Solar, 743 Solar, 723 Solar, 715 Solar, 3052 Peterson, 3054 Peterson, 3056 Peterson, 3060 Peterson, 3070 State and 3071 State.

## STATE FACILITY USE AGREEMENT 14 - ADDENDUM 4

This State Facility Use Agreement - Addendum 4, hereinafter this "Addendum," between the **Department of Administrative Services, State Building Division**, as "Owner," and the **Department of Health & Human Services**, as "Tenant Agency," for space located at:

**BEATRICE STATE DEVELOPMENT CENTER  
3000 LINCOLN STREET  
BEATRICE, NE 68310**

WHEREAS, Owner and Tenant Agency entered into the original Agreement, effective **July 1, 2015** and ending **June 30, 2017**; renewed by Addendum 1 effective July 1, 2017 and ending June 30, 2019; renewed by Addendum 2 effective July 1, 2019 and ending June 30, 2021; renewed by Addendum 3 effective July 1, 2021 and ending June 30, 2023; and

WHEREAS, Owner and Tenant Agency desire to renew the Term of this Lease for two (2) years; and

WHEREAS, Owner and Tenant Agency agree to the rental rate provided herein; and

WHEREAS, Owner and Tenant Agency agree to the following terms and conditions; and

NOW THEREFORE, in consideration of the mutual covenants contained herein, the parties amend this Agreement as follows:

1. As to Section 2. **TERM** of the original Agreement, it shall be deleted in its entirety and the following inserted in its place:

**TERM.** The term of this Agreement, hereinafter "Term" shall be effective on **July 1, 2023**, and shall terminate on **June 30, 2025**, unless sooner terminated as hereinafter provided.

2. As to Section 3. **RENT** of the original Agreement, it shall be deleted in its entirety and the following inserted in its place:

**RENT.** Tenant Agency shall pay Owner rent in equal monthly installments payable on the first day of each month throughout the Term of this Agreement. The rent and building renewal assessment fee (Neb Rev Stat § 81-188.01, also known as LB530), hereinafter collectively "Rent," is shown in the following schedule:

July 1, 2023 - June 30, 2025				
	Total Square Feet	PSF	Annual Rent	Monthly Payment
Base Rent	551,585	\$5.89	\$3,248,835.65	\$270,736.30
Renewal Assessment Fee	551,585	\$1.23	\$678,449.55	\$56,537.46
<b>TOTAL:</b>	551,585		\$3,927,285.20	\$327,273.77

Please provide one (1) **Rent Business Unit #**: 25980141.524600

Please provide one (1) **Building Renewal Assessment Fee Business Unit #**: 25980141.524900  
which does not involve federal funds.

**3. ENTIRE AGREEMENT.** This Addendum constitutes the entire and integrated agreement between Owner and Tenant Agency relating to the subject matter of this Addendum and supersedes all prior understandings, agreements, or representations, between the Parties, written or oral, to the extent they relate in any way to the subjects of this Agreement. All other terms and conditions of the original Agreement not addressed herein, shall remain the same and are hereby ratified and confirmed.

**IN WITNESS WHEREOF**, the Parties have executed this Agreement on the date(s) and year(s) below written.

<b>W-0186</b>	<b>A. ACTION(S) THAT WILL BE TAKEN TO CORRECT THIS DEFICIENCY - ALONG WITH A DESCRIPTION OF HOW THE ACTION WILL CORRECT OR IMPROVE THE PROCESSES THAT LEAD TO THE CITED DEFICIENCY:</b>	
	Observations revealed that the facility failed to have staff in sufficient number to ensure and provide the interactions/supervision necessary for Client 4 to engage in purposeful and functional activities as identified in the ISP and to implement the Adaptive Equipment habilitation program specific to the wearing of prescription eyeglasses. The insufficient staff also affected the following clients and implementation of their ISP at this home: Client 9, Client 10, Client 11, Client 12, Client 13 and Client 14.	3/15/2024
	Management is aware of the staffing numbers and levels at each of the facility homes. BSDC continues to recruit for new staffing to fill vacancies utilizing a digital campaign, local newspaper and radio advertisements, referrals from friends/relatives working at BSDC, hiring events and flyers that are distributed during community events. Seven (six direct care and one LPN) new employees started on February 12, 2024, to fill shift vacancies. Three more vacancies will be filled on February 26, 2024. Management has also requested of Executive Leadership the authorization to submit contractes for additional temporary agency staff to assist with filling the vacancies to be able to provide the interactions/supervision and active treatment.	3/15/2024
	<b>B. THE PROCEDURE FOR IMPLEMENTING THE CORRECTIVE ACTION(S):</b>

Solar Cottages  
3052,3054,3056,3060 Pet Blv 753,743,723,715 Sol Dr  
Beatrice, NE 68310

Dear Ms. Urbaschek:

An unannounced visit was made to Solar Cottages on January 22, 2024-February 1, 2024, by representatives of this Department. The purpose of the visit was to investigate a complaint on non-compliance with regulatory requirements received by our office.

The following are the general allegation(s) of non-compliance and conclusions:

**ALLEGATION:**

The facility failed to implement client ISP protocols to prevent falls.

**FINDINGS:**

Observation, record review, and interview revealed the facility had systems and policies in place to address implementation of ISP fall risk protocols. Record review and interview confirmed the facility had systems and policies in place to address staff neglect of client safety and ISP implementation. Investigation evidence confirmed the facility had implemented safeguards to protect clients and prevent reoccurrence of incidents. At the time of the onsite investigation the facility was in compliance with the regulations as they related to the allegation.

These findings are related to regulations under the Licensure Unit's regulatory authority. Since each division has unique statutory and regulatory obligations and guidelines, it may be possible that your facility will receive additional findings from other divisions who have also participated in the investigation/assessment of these same or similar allegations.

Sincerely,

Mark Luger - Program Manager II

Beatrice, NE 68310

Dear Ms. Urbaschek:

### IMPORTANT NOTICE – PLEASE READ CAREFULLY

On January 22, 2024–February 1, 2024, DHHS representatives conducted surveys to determine whether your facility was in compliance with Federal Condition of Participation requirements, State Licensure regulations, and Life Safety Code Requirements for Intermediate Care Facilities for Individuals with Intellectual Disabilities. Enclosed you will find the CMS-2567's documenting the results of that survey. All references to regulatory requirements contained in this letter are found in Title 42, Code of Federal Regulations and 175 NAC Chapter 17 Regulations Governing Licensure of Intermediate Care Facilities for Individuals with Intellectual Disabilities.

### PLAN OF CORRECTION (POC)

A POC for each deficiency cited must be submitted to [DHHS.DDBHFacilities@nebraska.gov](mailto:DHHS.DDBHFacilities@nebraska.gov) **NO LATER THAN 10 calendar days after receipt of the CMS-2567's**. Failure to submit an acceptable POC timely may result in the imposition of Disciplinary Action.

### **An acceptable POC must include:**

- The plan of correcting the specific deficiency. The plan should address the processes that lead to the deficiencies cited;
- The procedure for implementing the acceptable plan of correction for the specific deficiency cited;
- The monitoring procedure to ensure that the plan of correction is effective and that specific deficiency cited remains corrected and/or in compliance with the regulatory requirements;
- The title of the person responsible for implementing the acceptable plan of correction;
- **PROVIDE THE DATE WHEN CORRECTION ACTION WILL BE COMPLETED.** Correction

Page 2  
February 9, 2024

dates should be no later than forty-five calendar days from the exit date of the survey or **March 17, 2024**.

**NOTE:** Remember to attach copies of any auditing tools; education; revised or new policies/processes.

**SIGNATURE ON FIRST PAGE OF THE 2567's:** The first page must be signed by the provider/supplier representative and faxed to 402-742-2326.

We will notify you whether your plan of correction is or is not acceptable via email. Subsequently, if your plan of correction is **not accepted**, you must submit an addendum to your plan of correction within ten (10) calendar days of the notification.

We thank you and your staff for your cooperation and assistance during the survey. If you have any questions regarding this correspondence, please contact this office.

Sincerely,

A handwritten signature in black ink that reads "Mark Luger". The signature is written in a cursive style with a large, stylized initial "M".

Dawn Urbaschek, Administrator  
Solar Cottages  
3052,3054,3056,3060 Pet Blv 753,743,723,715 Sol Dr  
Beatrice, NE 68310

Dear Ms. Urbaschek:

An unannounced visit was made to Solar Cottages on July 22- 25, 2024, by representatives of this Department. The purpose of the visit was to investigate a complaint on non-compliance with regulatory requirements received by our office.

The following are the general allegation(s) of non-compliance and conclusions:

**ALLEGATION:**

1. The facility fails to protect clients from clients with adverse behaviors.
2. The facility fails to protect clients from staff abuse.
3. The facility fails to have systems in place to protect clients from staff verbal abuse.

**FINDINGS:**

1. At the time of the onsite investigation the facility was in compliance with the regulations as they related to the allegation of peer-to-peer adverse behaviors. The facility's system to address and prevent such behaviors was operational and affective. No peer-to-peer adverse behaviors were observed at the time of the complaint investigation.
2. Based on observation, record review, and interview the facility had systems and policies in place to address, respond to and prevent incidents of staff to client abuse, neglect, and mistreatment. Record review and interviews revealed the facility investigated allegations of staff to client abuse and took action to implement safeguards. At the time of the onsite investigation the facility was in compliance with the regulations as they related to the allegation.
3. Based on observation, record review, and interview the facility had systems and policies in place to address, respond to and prevent incidents of staff to client abuse, neglect, and mistreatment. Record review and interviews revealed the facility investigated allegations of staff to client abuse and took action to implement safeguards. At the time of the onsite investigation the facility was in compliance with the regulations as they related to the allegation.

These findings are related to regulations under the Licensure Unit's regulatory authority. Since each division has unique statutory and regulatory obligations and guidelines, it may be possible that your facility will receive additional findings from other divisions who have also participated in the investigation/assessment of these same or similar allegations.

Sincerely,

A handwritten signature in cursive script that reads "Mark Luger".

# Fire Marshal Reports

# NEBRASKA

Good Life. Great Safety.

STATE FIRE MARSHAL AGENCY

To: Health Care Facilities

From: Doug Hohbein  
Assistant State Fire Marshal

Re: Evidence of Corrective Action for Plan of Correction

After the recent Life Safety Code survey conducted at your facility, a Plan of Correction (POC) for deficiencies cited must be prepared and sent to DHHS. Part of the POC approval process for the State Fire Marshal's Office is to receive evidence showing that all corrective actions outlined in your POC have been completed or are in the process of being completed. Examples could be, but are not limited to:

- Verifiable photos or videos (before/after, showing room number or location)
- New policies and procedures
- Attendance sign in sheets for drills or education
- Invoices, receipts or work orders
- System test reports
- Audit forms

Please provide the requested information in a single submittal when possible. Deficiencies are not required to be corrected prior to the submittal, but some form of documentation identifying the proposed corrective action for each citation is necessary.

You can upload documentation with your POC in the ePOC portal, send it with the POC you send to DHHS or email it to me at [sfm.LSCdocumentation@nebraska.gov](mailto:sfm.LSCdocumentation@nebraska.gov).

Feel free to contact me at [doug.hohbein@nebraska.gov](mailto:doug.hohbein@nebraska.gov) or 402-471-9478 if you have questions. Please note that this document is requesting evidence of corrective action only. Your POC must be submitted as you have always done, either through ePOC or directly to DHHS.

K-S353, K-S500, KS321,		
<b>K 0353</b>	<b>A. ACTION(S) THAT WILL BE TAKEN TO CORRECT THIS DEFICIENCY - ALONG WITH A DESCRIPTION OF HOW THE ACTION WILL CORRECT OR IMPROVE THE PROCESSES THAT LEAD TO THE CITED DEFICIENCY:</b>	
	Documentation review on 1/29/24 revealed the facility failed to provide at least a year of inspection reports for the sprinkler system, only the annual report was provided, dated 9/26/23. Staff A confirmed only one report was available to review in the book located in the laundry room in these homes: 715 Solar, 723 Solar, 753 Solar, 3052 Peterson, 3056 Peterson and 3060 Peterson.	2/14/2024
	<b>B. THE PROCEDURE FOR IMPLEMENTING THE CORRECTIVE ACTION(S):</b>	
	Maintenance was contacted immediately after the Fire Marshal completed the review and was provided notification that the sprinkler system reports were not in the books located in the laundry room of the identified homes: 715 Solar, 723 Solar, 753 Solar, 3052 Peterson, 3056 Peterson and 3060 Peterson. Maintenance has returned the Sprinkler Inspection Certificates for 2023 back to the books located in the laundry room for all Solar Cottage ICF Homes.	2/14/2024
	<b>C. THE MONITORING OR TRACKING PROCEDURE(S) TO ENSURE THE FACILITY IS EFFECTIVE IN CORRECTING THE DEFICIENCY AND TO ENSURE THE FACILITY REMAINS IN COMPLIANCE WITH THIS DEFICIENCY:</b>	
	The Facility Maintenance Manager will be the responsible position to monitor and ensure compliance.	2/14/2024
	<b>D. THE TITLE OF THE PERSON RESPONSIBLE FOR ENSURING THE FACILITY REMAINS IN COMPLIANCE WITH THE CITED DEFICIENCY: (Do not put the staff names).</b>	
	The Facility Maintenance Manager will be the responsible position to monitor and ensure compliance.	2/14/2024

K 0500	<b>A. ACTION(S) THAT WILL BE TAKEN TO CORRECT THIS DEFICIENCY - ALONG WITH A DESCRIPTION OF HOW THE ACTION WILL CORRECT OR IMPROVE THE PROCESSES THAT LEAD TO THE CITED DEFICIENCY:</b>	
	Documentation review on 1/29/24 revealed, the facility failed to have a cleaning schedule for cleaning inside the back of dryers or the vents. Staff A confirmed no schedule was provided for the cleaning of the dryer venting or back of dryers at the following homes: 715 Solar, 723 Solar, 753 Solar, 3052 Peterson, 3056 Peterson and 3060 Peterson.	2/14/2024
	<b>B. THE PROCEDURE FOR IMPLEMENTING THE CORRECTIVE ACTION(S):</b>	
	Maintenance was contacted immediately after the Fire Marshal completed the review and was provided notification that the facility failed to have a cleaning schedule for cleaning the back of dryers or the vents for the following homes identified: 715 Solar, 723 Solar, 753 Solar, 3052 Peterson, 3056 Peterson and 3060 Peterson. Maintenance provided the documentation that a cleaning schedule is completed for the cleaning of the back of dryers and vents and have placed their completed work orders in the boxes at all Solar Cottage ICF homes.	2/14/2024
	<b>C. THE MONITORING OR TRACKING PROCEDURE(S) TO ENSURE THE FACILITY IS EFFECTIVE IN CORRECTING THE DEFICIENCY AND TO ENSURE THE FACILITY REMAINS IN COMPLIANCE WITH THIS DEFICIENCY:</b>	
	The Facility Maintenance Manager will be the responsible position to monitor and ensure compliance.	2/14/2024
	<b>D. THE TITLE OF THE PERSON RESPONSIBLE FOR ENSURING THE FACILITY REMAINS IN COMPLIANCE WITH THE CITED DEFICIENCY: (Do not put the staff names).</b>	
	The Facility Maintenance Manager will be the responsible position to monitor and ensure compliance.	2/14/2024
K 0500	<b>A. ACTION(S) THAT WILL BE TAKEN TO CORRECT THIS DEFICIENCY - ALONG WITH A DESCRIPTION OF HOW THE ACTION WILL CORRECT OR IMPROVE THE PROCESSES THAT LEAD TO THE CITED DEFICIENCY:</b>	
715 Solar	During observation on 1/29/24, it was revealed that an oxygen concentrator was being utilized in Room 25 on the home 715 Solar and no warning signage was posted. Staff A confirmed the lack of oxygen signage.	1/29/2024
	<b>B. THE PROCEDURE FOR IMPLEMENTING THE CORRECTIVE ACTION(S):</b>	
	The Safety Coordinator immediately contacted the Respiratory Therapist after the Fire Marshal completed the review. Signage was immediately posted on the day of the review for Room #25 on the home of 715 Solar.	1/29/2024

	<b>C. THE MONITORING OR TRACKING PROCEDURE(S) TO ENSURE THE FACILITY IS EFFECTIVE IN CORRECTING THE DEFICIENCY AND TO ENSURE THE FACILITY REMAINS IN COMPLIANCE WITH THIS DEFICIENCY:</b>	
	The Facility Maintenance Manager is the responsible position to monitor and ensure compliance.	1/29/2024
	<b>D. THE TITLE OF THE PERSON RESPONSIBLE FOR ENSURING THE FACILITY REMAINS IN COMPLIANCE WITH THE CITED DEFICIENCY: (Do not put the staff names).</b>	
	The Facility Maintenance Manager is the responsible position to monitor and ensure compliance.	1/29/2024
<b>K 0321</b>	<b>A. ACTION(S) THAT WILL BE TAKEN TO CORRECT THIS DEFICIENCY - ALONG WITH A DESCRIPTION OF HOW THE ACTION WILL CORRECT OR IMPROVE THE PROCESSES THAT LEAD TO THE CITED DEFICIENCY:</b>	
<i>3052 Peterson</i>	Observations on 1/29/24 revealed the door to the laundry room equipped with a self-closing device was obstructed with a bag of ice melt. Staff A confirmed the door was obstructed.	1/29/2024
	<b>B. THE PROCEDURE FOR IMPLEMENTING THE CORRECTIVE ACTION(S):</b>	
	The Safety Coordinator immediately removed the bag of ice melt obstructing the door to the laundry room and moved it to the Mechanical Room. Removal of the bag of ice melt allowed the door to the laundry room to close and latch within the door frame.	1/29/2024
	<b>C. THE MONITORING OR TRACKING PROCEDURE(S) TO ENSURE THE FACILITY IS EFFECTIVE IN CORRECTING THE DEFICIENCY AND TO ENSURE THE FACILITY REMAINS IN COMPLIANCE WITH THIS DEFICIENCY:</b>	
	The Facility Maintenance Manager is the responsible position to monitor and ensure compliance.	1/29/2024
	<b>D. THE TITLE OF THE PERSON RESPONSIBLE FOR ENSURING THE FACILITY REMAINS IN COMPLIANCE WITH THE CITED DEFICIENCY: (Do not put the staff names).</b>	
	The Facility Maintenance Manager is the responsible position to monitor and ensure compliance.	1/29/2024

K 0321	<b>A. ACTION(S) THAT WILL BE TAKEN TO CORRECT THIS DEFICIENCY - ALONG WITH A DESCRIPTION OF HOW THE ACTION WILL CORRECT OR IMPROVE THE PROCESSES THAT LEAD TO THE CITED DEFICIENCY:</b>	
3056 Peterson	Observations on 1/29/24 revealed resident room #5 (listed incorrectly on the 2567 as room 8), was used as a storage room, and a self-closing device was not provided for the door. Staff A confirmed resident room #5 was used for storage.	1/29/2024
	<b>B. THE PROCEDURE FOR IMPLEMENTING THE CORRECTIVE ACTION(S):</b>	
	The Safety Coordinator immediately notified ICF staff after the Fire Marshal completed the review. For Room #5, all items in this room were immediately removed per the ICF/DD Home Manager and staff have been instructed to keep the room empty.	1/29/2024
	<b>C. THE MONITORING OR TRACKING PROCEDURE(S) TO ENSURE THE FACILITY IS EFFECTIVE IN CORRECTING THE DEFICIENCY AND TO ENSURE THE FACILITY REMAINS IN COMPLIANCE WITH THIS DEFICIENCY:</b>

March 22, 2024

Mark Luger – Program Manager II  
DHHS Public Health Licensure Unit  
Office of DD and Behavioral Health  
PO Box 94669  
Lincoln, NE 68509-4669

Dear Mr. Luger,

Beatrice State Developmental Center (BSDC) received your letter dated March 14, 2024, regarding the results of your office's survey to determine whether 400 State Building was in compliance with federal Condition of Participation requirements. In response, BSDC wishes to record objections to certain of the cited deficiencies, but is also submitting a plan of correction which you will find enclosed.

Specifically, BSDC records the following objections:

Cited Tag W102 - BSDC objects to the finding that the facility's governing body failed to ensure compliance with the condition of participation of active treatment services, in that BSDC relies on records and evaluations of all patients admitted to BSDC and the opinion of licensed clinicians that admittees are in need of active treatment. BSDC objects to surveyors finding patients not to need active treatment in contradiction of clinical determinations made by licensed clinicians acting within their scope of practice.

Cited Tag W104 - BSDC objects to the finding that the facility's governing body failed to ensure when Client 3 and Client 4 were admitted to the facility that these individuals had assessed developmental deficits and needs which required the provision of continuous active treatment services, supports, structure, and resources. BSDC relies on records and evaluations of all patients admitted to BSDC and the opinion of licensed clinicians that admittees are in need of active treatment. BSDC objects to surveyors finding patients not to need active treatment in contradiction of clinical determinations made by licensed clinicians acting within their scope of practice.

Cited Tag W195 - BSDC objects to the finding that the Condition of Participation (CoP) of Active Treatment Services was not met as the facility failed to ensure only clients requiring Active Treatment were admitted to the ICF/IID, in that BSDC relies on records and evaluations of all patients admitted to BSDC and the opinion of licensed clinicians that admittees are in need of active treatment. BSDC objects to surveyors finding patients not to need active treatment in contradiction of clinical determinations made by licensed clinicians acting within their scope of practice.

Cited Tag W197 - BSDC objects to the finding that the facility failed to ensure 1 of 3 clients in the sample (Client 3) and 1 client added to the sample (Client 4) had developmental needs/deficits requiring continuous active treatment services, in that BSDC relies on records and evaluations of all patients admitted to BSDC and the opinion of licensed clinicians that admittees are in need of active treatment. BSDC objects to surveyors finding patients not to need

active treatment in contradiction of clinical determinations made by licensed clinicians acting within their scope of practice.

Thank you for your consideration of these recorded objections and the plan of correction enclosed herewith.

Sincerely,

Corina Harrison  
Facility Operating Officer  
Beatrice State Developmental Center  
400 State Building  
Beatrice, NE 68310

### PROVIDER'S PLAN OF CORRECTION

(EACH CORRECTIVE ACTION SHOULD BE CROSS-REFERENCED TO THE APPROPRIATE DEFICIENCY)

COMPLETION DATE

CITED TAG #

CITED TAG #	(EACH CORRECTIVE ACTION SHOULD BE CROSS-REFERENCED TO THE APPROPRIATE DEFICIENCY)	COMPLETION DATE
	<b>A. ACTION(S) THAT WILL BE TAKEN TO CORRECT THIS DEFICIENCY - ALONG WITH A DESCRIPTION OF HOW THE ACTION WILL CORRECT OR IMPROVE THE PROCESSES THAT LEAD TO THE CITED DEFICIENCY:</b>	
W 102	<i>Based on observations, record reviews and interviews, the facility's Governing Body failed to exercise general operational direction, over-sight, and management of the facility to ensure compliance with the Condition of Participation of Active Treatment Services.</i>	
	All admissions to the Beatrice State Developmental Center (BSDC) follow the facility's policy "Admissions, Transfers, Discharge and ICF Consolidation" and conduct Pre-Admission evaluations which include review of current and valid assessments of functional development, behavioral, social, medical, health, nutrition, and background information to determine if the client is eligible for placement at an ICF/IID.	4/17/2024
	The DHHS Executive Medical Officer reviews all referrals prior to admission to the Beatrice State Developmental Center. The DHHS Executive Medical Officer will determine if the referrals to BSDC are appropriate for ICF/IID Level of Care.	4/17/2024
	At the time of admission, all referrals to the Beatrice State Developmental Center for services have been determined by clinicians to meet eligibility for DD Services and meet ICF/IID level of care requirements. Upon admission, additional on-site assessments and evaluations are completed to determine an individual's strengths and active treatment needs. All admissions to BSDC are determined by clinicians and DHHS Executive Medical Officer to be in need of active treatment services as required under 42 C.F.R. § 483.440(b).	4/17/2024
	<b>B. THE PROCEDURE FOR IMPLEMENTING THE CORRECTIVE ACTION(S):</b>	
	The DHHS Executive Medical Officer reviews all referrals prior to admission to the Beatrice State Developmental Center. The DHHS Executive Medical Officer will determine if the referrals to BSDC are appropriate for ICF/IID Level of Care.	4/17/2024
	As stated in the policy: ICFs will admit, transfer and discharge individuals in compliance with applicable Title XIX regulations.	4/17/2024
	<ul style="list-style-type: none"> <li><b>Admission:</b> Means an individual has met the criteria for ICF/Developmental Disabilities (DD) level of care and they been accepted into the facility <u>or have been court ordered to the facility</u>.</li> </ul>	4/17/2024

	o <u>Individuals admitted to the facility</u> will be assessed to determine if they need and benefit from active treatment (developmental deficits).	4/17/2024
	▪ Should they not have developmental deficits, the facility will document such, and <u>will ensure continuation of Instrumental ADLs to prepare the individual for transition</u> while collaborating with others to support the individual to return to a less restrictive environment as soon as possible.	4/17/2024
	For Client 3 and Client 4, along with other clients residing in State Building ICF, the facility will review current individuals' deficits that require the structure, support and resources that services of an ICF/IID level of care can provide and ensure those deficits have appropriate habilitation to address. The facility will ensure that active treatment is provided to address deficits identified so that individual maintains and attains needed skills for highest level of independence.	4/17/2024
	<b>C. THE MONITORING OR TRACKING PROCEDURE(S) TO ENSURE THE FACILITY IS EFFECTIVE IN CORRECTING THE DEFICIENCY AND TO ENSURE THE FACILITY REMAINS IN COMPLIANCE WITH THIS DEFICIENCY:</b>	
	The ICF/IID provides active treatment services by focusing on instrumental (Independent) ADLS with primary focus of on-site employment opportunities, managing finances, shopping, and meal preparation, housekeeping and home maintenance, communication with others and managing medications. In addition, patients benefit from active treatment in the areas of self-direction and capacity for independent living, which are areas of major life activity in which Client 3 and 4 have been assessed to have substantial functional limitations as part of the clinical determination that both clients have intellectual disability or a related condition as that term is defined under 42 C.F.R. § 435.1010. Both Client 3 and Client 4 are assessed and require habilitation/active treatment to acquire the skills and behaviors needed to function in society so that Client 3 and Client 4 do not pose threat of harm to themselves or others and are able to cope with their personal needs and demands of their environment. Both client 3 and 4 need and are receiving active treatment to ensure their acquisition of the behaviors necessary for them to function with as much self determination and independence as possible given their behavioral limitations, as required under 42 C.F.R. § 483.440(a)(1)(i), and to prevent or decelerate regression or loss of current optimal functional status as required under 42 C.F.R. § 483.440(a)(1)(ii). The instrumental ADLs assist in preparation of ultimately returning to a community provider while working diligently with other providers to find alternative placement.	4/17/2024
	<b>D. THE TITLE OF THE PERSON RESPONSIBLE FOR ENSURING THE FACILITY REMAINS IN COMPLIANCE WITH THE CITED DEFICIENCY: (Do not put the staff names).</b>	
	The ICF Facility Administrator will be the responsible position for monitoring to ensure compliance.	4/17/2024

W 104	<b>A. ACTION(S) THAT WILL BE TAKEN TO CORRECT THIS DEFICIENCY - ALONG WITH A DESCRIPTION OF HOW THE ACTION WILL CORRECT OR IMPROVE THE PROCESSES THAT LEAD TO THE CITED DEFICIENCY:</b>	
	<i>A. Governing Body failed to ensure when Client 3 and Client 4 were admitted to the facility that these individuals had assessed developmental deficits and needs which required the provision of continuous active treatment services, supports, structure, and resources.</i>	
	All admissions to the Beatrice State Developmental Center (BSDC) follow the facility's policy "Admissions, Transfers, Discharge and ICF Consolidation" and conduct Pre-Admission evaluations which include review of current and valid assessments of functional development, behavioral, social, medical, health, nutrition, and background information to determine if the client is eligible for placement at an ICF/IID.	4/17/2024
	The DHHS Executive Medical Officer reviews all referrals prior to admission to the Beatrice State Developmental Center. The DHHS Executive Medical Officer will determine if the referrals to BSDC are appropriate for ICF/IID Level of Care.	4/17/2024
	At the time of admission, all referrals to the Beatrice State Developmental Center for services have been determined by clinicians to meet eligibility for DD Services and meet ICF/IID level of care requirements. Upon admission, additional on-site assessments and evaluations are completed to determine an individual's strengths and active treatment needs. 	<p>e.</p> <p><b>*Surface of arm rests, head rest and seat of dark brown leather recliner in Bedroom 19 was worn:</b> Home Manager verified an email to QDDP on 3/12/24 to replace the chair.</p> <p><b>* Baseboard underneath the window in Bedroom 19 was missing:</b> Home Manager verified on 3/19/24 the baseboard on the wall has been replaced.</p>	4/17/2024

	<p><b>*Bathroom between bedrooms 28 and 25 had sink not clean with toothpaste residue:</b> Home Manager verified on 3/19/24 the sink has been cleaned and no toothpaste is present.</p> <p><b>*Bathroom between bedrooms 28 and 25 had no papertowels or hand towels:</b> This individual does not share a bathroom with another individual. This individual that utilizes this bathroom has a history of flushing inappropriate items down the toilet, causing substantial property damage; engaging in sensory seeking behaviors that escalate into self-injury; and obsessive-compulsive behaviors &amp; agitation regarding hygiene and clothing.</p> <p><b><i>The individual's safety plan reads that there are bathroom alarms on both doors to alert staff when I enter my bathroom so they can provide visual supervision.</i></b></p> <p><u>Restricted/Limited access to Toilet Paper and Paper Towels:</u>  <u>Up to 15 sheets of Toilet Paper will be provided during elimination.</u>  <i>*If more are needed, staff will provide upon request.</i>  <i>*Staff will ensure that I flush after every second request.</i></p> <p><u>3 Paper Towels will be provided after handwashing.</u>  <i>*If more are needed, staff will provide upon request.</i>  <i>*Staff will ensure I throw paper towels in the proper receptacle that is not in my room/bathroom.</i></p> <p>* Bathtub has chips and cracks on surface, was not clean as base and sides had orange, brown and dark gray streaks: Home Manager verified have reached out to Housekeeping for products to remove stains from bathtub base and sides on 3/19/24. A work order was submitted to the Maintenance Department on 2/27/24 for the chips and cracks to repair or replace the tub.</p> <p>*Sinks had hard water marks (blue/white color), toothpaste streaks and gray debris: Home Manager verified that the sinks have been cleaned and have reached out to Housekeeping for products to remove the hard water stains on 3/19/24.</p>	4/17/2024
	<p>g.</p> <p><b>*Kitchen dish rack:</b> the black dish rack was removed and a new one ordered. Home Manager verified on 3/19/24 the black dish rack was removed and a new one ordered.</p> <p><b>*Interior of microwave had colored splatter marks:</b> Home Manager verified on 3/19/24 that the microwave has been cleaned.</p> <p><b>*Interior of toaster:</b> Home Manager verified on 3/19/24 the toaster has been removed and a new one ordered.</p> <p><b>*Refrigerator drawers:</b> Home Manager verified a work order was submitted on 3/19/24 to obtain and replace the two bottom plastic drawers.</p>	4/17/2024
<b>3070 State (412)</b>		
	<p>a. <b>Bedroom 25 had a strong urine odor and soiled briefs were in a garbage can in the bathroom:</b> Home Manager verified on 3/19/24 the bathroom has been checked and no soiled briefs are in the bathroom trash can.</p>	3/19/2024

	<p><b>b.</b></p> <p><b>*Bathroom between bedrooms 19 and 22 had a shower drain covered in orange slime like substance and slightly rusted:</b> Home Manager verified on 3/19/24 the shower drain was replaced and completed in the bathroom between bedroom 19 and 22.</p> <p><b>* Ceiling above shower had peeling paint:</b> Home Manager verified on 3/19/24 a Maintenance Work Order was sent to repair the peeling paint.</p> <p><b>*Two water sprinklers had missing circular metal casings:</b> Home Manager verified on 3/19/24 that the two water sprinkler heads now have the circular metal casings and do not have exposed pipes or sensors.</p>	4/17/2024
	<p><b>c. Bathroom between bedrooms 28 &amp; 25 and bedrooms 2 &amp; 5 had toilets not clean:</b> Home Manager verified on 3/19/24 that they have reached out to Housekeeping for products to remove the stains from the toilets due to unsuccessful attempts to clean.</p>	4/17/2024
	<b>402 State</b>	
	<p><b>a. Upholstered seats to wooden chairs in kitchen are worn and torn:</b> Home Manager verified on 3/19/24 an In-House Work Order was sent to remove the kitchen chairs and and replace with new chairs ordered from McKesson.</p>	4/17/2024
	<p><b>b. Hood area over stove/oven was open, dark brown and greasy to the touch and Wires hung down from the open hood:</b> Home Manager verified on 3/18/24 an email was sent to the Safety Coordinator to look at and adjust the hanging wires due to relating to the Fire Monitor Prevention System.</p>	3/22/2024
	<p><b>c. Strong odor of mildew detected upon opening door of washing machine:</b> Home Manager verified on 3/19/24 have emailed Housekeeping for any product to remove the odor and mildew from the washer seals.</p>	4/17/2024
	<b>404 State</b>	
	<p><b>a. Resistance mechanism on oven door malfunctioned:</b> Home Manager verified a Maintenance Work order was submitted on 2/28/24 to have the resistance mechanism repaired on the stove. Completed on 3/5/24.</p>	3/5/2024
	<b>408 State</b>	
	<p><b>a. Interior of oven contained black and brown debris:</b> Home Manager verified a Maintenance Work order was submitted on 3/8/24.</p>	4/17/2024
	<p><b>b. Drawer located at base of oven crooked and difficult to open:</b> Home Manager verified a Maintenance Work Order was submitted on 3/8/24 and the drawer now is within the track and easier to open as noted on 3/19/24.</p>	3/19/2024
	<p><b>c. Strong odor of mildew detected upon opening door of washing machine:</b> Home Manager verified on 3/19/24 have emailed Housekeeping for any product to remove the odor and mildew from the washer seals.</p>	4/17/2024
	<b>B. THE PROCEDURE FOR IMPLEMENTING THE CORRECTIVE ACTION(S):</b>	
	<p>Work Orders have been submitted to the Beatrice State Developmental Center (BSDC) Maintenance Department and In-House Work Orders have been submitted to Facility Management to make needed repairs and/or replacements for issues identified during the recent survey at State Building ICF/IID (3104 State - living units 402, 404, 408) and 3070 &amp; 3071 State Avenue to ensure the living units are maintained in a manner that is safe, clean, and functional to receive clients.</p>	4/17/2024

	<b>C. THE MONITORING OR TRACKING PROCEDURE(S) TO ENSURE THE FACILITY IS EFFECTIVE IN CORRECTING THE DEFICIENCY AND TO ENSURE THE FACILITY REMAINS IN COMPLIANCE WITH THIS DEFICIENCY:</b>	
	Through consultation and environmental observations, ICF Management will ensure needed repairs and/or replacements identified are completed and that the living units are maintained in a manner that is safe, clean and functional to receive clients.	4/17/2024
	<b>D. THE TITLE OF THE PERSON RESPONSIBLE FOR ENSURING THE FACILITY REMAINS IN COMPLIANCE WITH THE CITED DEFICIENCY: (Do not put the staff names).</b>	
	The ICF Facility Administrator will be the responsible position for monitoring to ensure compliance.	4/17/2024
<b>W 195</b>	<b>A. ACTION(S) THAT WILL BE TAKEN TO CORRECT THIS DEFICIENCY - ALONG WITH A DESCRIPTION OF HOW THE ACTION WILL CORRECT OR IMPROVE THE PROCESSES THAT LEAD TO THE CITED DEFICIENCY:</b>	
	<i>Based on observations, interviews and record review, the Condition of Participation (CoP) of Active Treatment Services was not met as the facility failed to ensure only clients requiring Active Treatment were admitted to the ICF/IID. Observations, interviews, and record review identified Client 3 and Client 4 were able to function independently, with staff supervision provided due to behaviors and court ordered requirements.</i>	
	<i>Observations revealed Client 3</i> actively and independently participated in their environment and required little to no staff interventions related to daily living and developmental skills. The Developmental Disability Court-Ordered Custody and Treatment Plan (submitted 8/17/23) identified Client 3 was placed on Developmental Disabilities Court-Ordered Custody Act (DDCOCA) due to presenting a likely threat of harm to others, as evidence by their history of sexually inappropriate behavior, aggression and previous elopement attempts. Terms and Conditions to provide custody and treatment in the least restrictive alternative identified BSDC had a placement available in it's Crisis Stabilization Unit and its staff would be trained ensuring staff assigned to Client 3 understood "the severity of the risk (Client 3) posed to the community and the critical need for constant, close supervision." Recommendation for Treatment and Safety in the DDCOCA Treatment Plan mirrored the conditions listed in the Placement Order by the District Court of Lancaster County.	4/17/2024
	The ICF Administrator confirmed Client 3 had many skills but at the time they were to be placed at the facility it was difficult to determine what skills Client 3 had due to their refusal behavior.	4/17/2024

	<p><i>Observations revealed Client 4</i> actively and independently participated in their environment and daily routine requiring little to no staff interventions related to active treatment daily living and developmental skills. Observations revealed that Client 4 had 1:1 supervision 24 hours per day. Review of a letter titled "Developmental Disability Court-Ordered Custody and Treatment Plan" (dated 6/9/23, signed by a Psychologist for DHHS-DD) to the Douglas County Court revealed that Client 4 was under court custody due to arson. The letter identified that based on the continued Mild Intellectual Disability diagnosis that Client 4 continued to be eligible for services through DHHS-DD. Due to concerns about Client 4's mental health instability and medication changes prior to the arson incident, it was recommended that Client 4 receive intensive mental health services and medication evaluation in a state-operated inpatient setting before transitioning to community-based services.</p>	4/17/2024
	<p>The ICF Facility Administrator confirmed Client 4 was admitted to the facility due to a placement order by the District Court of Douglas County due to an incident of arson.</p>	4/17/2024
	<p><b>B. THE PROCEDURE FOR IMPLEMENTING THE CORRECTIVE ACTION(S):</b></p>	
	<p>The DHHS Executive Medical Officer reviews all referrals prior to admission to the Beatrice State Developmental Center. The DHHS Executive Medical Officer will determine if the referrals to BSDC are appropriate for ICF/IID Level of Care.</p>	4/17/2024
	<p>At the time of admission, all referrals to the Beatrice State Developmental Center for services have been determined by clinicians to meet eligibility for DD Services and meet ICF/IID level of care requirements. Upon admission, additional on-site assessments and evaluations are completed to determine an individual's strengths and active treatment needs. All admissions to BSDC are determined by clinicians and DHHS Executive Medical Officer to be in need of active treatment services as required under 42 C.F.R. § 483.440(b).</p>	4/17/2024
	<p>The BSDC Crisis Stabilization and Community Reintegration program was implemented in May 2017 to address a critical gap in serving the adult population participating in the Medicaid Home and Community Based Services for the Developmental Disabilities Waiver programs. Placement is temporary and may last between 30 and 180 days with individualized plans of care but can vary dependent upon the individual being supported. This is a period of intense treatment, stabilization (medical and/or behavioral) and habilitation (skills for preparation to return to the community) with continued transition supports with reintegration into the community. The facility will ensure that active treatment is provided to address deficits identified so that individual maintains and attains needed skills for highest level of independence.</p>	4/17/2024

	<p>The ICF/IID provides active treatment services by focusing on instrumental (Independent) ADLS with primary focus of on-site employment opportunities, managing finances, shopping, and meal preparation, housekeeping and home maintenance, communication with others and managing medications. In addition, patients benefit from active treatment in the areas of self-direction and capacity for independent living, which are areas of major life activity in which Client 3 and 4 have been assessed to have substantial functional limitations as part of the clinical determination that both clients have intellectual disability or a related condition as that term is defined under 42 C.F.R. § 435.1010. Both Client 3 and Client 4 are assessed and require habilitation/active treatment to acquire the skills and behaviors needed to function in society so that Client 3 and Client 4 do not pose threat of harm to themselves or others and are able to cope with their personal needs and demands of their environment. Both client 3 and 4 need and are receiving active treatment to ensure their acquisition of the behaviors necessary for them to function with as much self determination and independence as possible given their behavioral limitations, as required under 42 C.F.R. § 483.440(a)(1)(i), and to prevent or decelerate regression or loss of current optimal functional status as required under 42 C.F.R. § 483.440(a)(1)(ii). The instrumental ADLs assist in preparation of ultimately returning to a community provider while working diligently with other providers to find alternative placement.</p>	<p>4/17/2024</p>
<p><b>C. THE MONITORING OR TRACKING PROCEDURE(S) TO ENSURE THE FACILITY IS EFFECTIVE IN CORRECTING THE DEFICIENCY AND TO ENSURE THE FACILITY REMAINS IN COMPLIANCE WITH THIS DEFICIENCY:</b></p>		
	<p>For Client 3 and Client 4, along with other clients residing in State Building ICF, the facility will review current individuals' deficits that require the structure, support and resources that services of an ICF/IID level of care can provide and ensure those deficits have appropriate habilitation to address.</p>	<p>4/17/2024</p>
<p><b>D. THE TITLE OF THE PERSON RESPONSIBLE FOR ENSURING THE FACILITY REMAINS IN COMPLIANCE WITH THE CITED DEFICIENCY: (Do not put the staff names).</b></p>		
	<p>The ICF Facility Administrator will be the responsible position for monitoring to ensure compliance.</p>	<p>4/17/2024</p>
<p><b>W 197</b></p> <p><b>A. ACTION(S) THAT WILL BE TAKEN TO CORRECT THIS DEFICIENCY - ALONG WITH A DESCRIPTION OF HOW THE ACTION WILL CORRECT OR IMPROVE THE PROCESSES THAT LEAD TO THE CITED DEFICIENCY:</b></p>		
	<p><i>Based on observations, interviews and record reviews, the facility failed to ensure 1 of 3 clients in the sample (Client 3) and 1 client added to the sample (Client 4) had developmental needs/deficits requiring continuous active treatment services.</i></p>	

	<p>The BSDC Crisis Stabilization and Community Reintegration program was implemented in May 2017 to address a critical gap in serving the adult population participating in the Medicaid Home and Community Based Services for the Developmental Disabilities Waiver programs. Placement is temporary and may last between 30 and 180 days with individualized plans of care but can vary dependent upon the individual being supported. This is a period of intense treatment, stabilization (medical and/or behavioral) and habilitation (skills for preparation to return to the community) with continued transition supports with reintegration into the community.</p>	<p>4/17/2024</p>
	<p>The DHHS Executive Medical Officer will review all referrals prior to admission to the Beatrice State Developmental Center (BSDC). The DHHS Executive Medical Officer will determine if the referrals to BSDC are appropriate for ICF/IID Level of Care.</p>	<p>4/17/2024</p>
	<p>At the time of admission, all referrals to the Beatrice State Developmental Center for services have been determined by clinicians to meet eligibility for DD Services and meet ICF/IID level of care requirements. Upon admission, additional on-site assessments and evaluations are completed to determine an individual's strengths and active treatment needs. The Instrumental ADLs assist in preparation of ultimately returning to a community provider while working diligently to find alternative placement.</p>	4/17/2024
	<p><b>C. THE MONITORING OR TRACKING PROCEDURE(S) TO ENSURE THE FACILITY IS EFFECTIVE IN CORRECTING THE DEFICIENCY AND TO ENSURE THE FACILITY REMAINS IN COMPLIANCE WITH THIS DEFICIENCY:</b></p>	
	<p>For all future admissions to the Beatrice State Developmental Center, the facility will follow the policy "Admissions, Transfers, Discharge and ICF Consolidation" and conduct Pre-Admission evaluations which will include review of current and valid assessments of functional development, behavioral, social, medical, health, nutrition, and background information to determine if the client is eligible for placement at an ICF/IID. The ICF Administrator will discuss with the Facility Administrator the findings of the pre-admission review to ensure the client meets level of care requirements.</p>	4/17/2024
	<p>The DHHS Executive Medical Officer will review all referrals prior to admission to the Beatrice State Developmental Center (BSDC). The DHHS Executive Medical Officer will determine if the referrals to BSDC are appropriate for ICF/IID Level of Care.</p>	4/17/2024
	<p><b>D. THE TITLE OF THE PERSON RESPONSIBLE FOR ENSURING THE FACILITY REMAINS IN COMPLIANCE WITH THE CITED DEFICIENCY: (Do not put the staff names).</b></p>	
	<p>The ICF Facility Administrator will be the responsible position for monitoring to ensure compliance.</p>	4/17/2024
<p><b>W 249</b></p>	<p><b>A. ACTION(S) THAT WILL BE TAKEN TO CORRECT THIS DEFICIENCY - ALONG WITH A DESCRIPTION OF HOW THE ACTION WILL CORRECT OR IMPROVE THE PROCESSES THAT LEAD TO THE CITED DEFICIENCY:</b></p>	

	<i>Based on observation, record review and interviews the facility failed to ensure training programs and protocol strategies for Client 1 were consistently implemented in accordance with the Client's Individual Support Plan (ISP).</i>	
	For Client 1, the ISP identified a dining protocol and strategies to address the client's dysphagia and hyponatremia. The IDT reviewed and approved new dining strategies and diet texture changes as identified on the Dining Card.	4/17/2024
	<b>B. THE PROCEDURE FOR IMPLEMENTING THE CORRECTIVE ACTION(S):</b>	
	Through observations, QIDP confirmed that Client 1 did not have sufficient fluid to last an entire meal and that staff adjusting or providing additional fluids when Client 1 coughed while eating, failed to follow Client 1's ISP and dietary protocol strategies. The IDT met on 3/1/2024 to review the dining protocol and strategies to address the dysphagia and hyponatremia to ensure that Client 1 has adequate fluids available during meals. Client 1's Dining Card was updated to reflect fluids at mealtime. All 400 State Building ICF staff will be in-serviced on the revised dining protocols and strategies.	4/17/2024
	For all other individuals residing within the State Building ICF, all staff will be re-in-serviced on mealtime protocols and strategies as outlined in the Individual Support Plan (ISP).	4/17/2024
	<b>C. THE MONITORING OR TRACKING PROCEDURE(S) TO ENSURE THE FACILITY IS EFFECTIVE IN CORRECTING THE DEFICIENCY AND TO ENSURE THE FACILITY REMAINS IN COMPLIANCE WITH THIS DEFICIENCY:</b>	
	A monitoring system will be developed to ensure implementation of mealtime protocols and strategies to be completed by the Compliance Specialists, QDDPs, Home Managers and DTSSs.	4/17/2024
	<b>D. THE TITLE OF THE PERSON RESPONSIBLE FOR ENSURING THE FACILITY REMAINS IN COMPLIANCE WITH THE CITED DEFICIENCY: (Do not put the staff names).</b>	
	The ICF Facility Administrator will be the responsible position for monitoring to ensure compliance.	4/17/2024
<b>W 473</b>	<b>A. ACTION(S) THAT WILL BE TAKEN TO CORRECT THIS DEFICIENCY - ALONG WITH A DESCRIPTION OF HOW THE ACTION WILL CORRECT OR IMPROVE THE PROCESSES THAT LEAD TO THE CITED DEFICIENCY:</b>	
	<i>Based on observation, interview and record review, the facility failed to ensure that foods provided to 1 of 2 living units (3070 State) by the Social Center delivery were stored and served at the appropriate food safe temperature.</i>	

	During environmental observation on 2/28/24 at 3:13 PM, on 3070 State Avenue, three plastic hot food containers containing peas and carrots, ground steak, and potatoes were in the oven which was not turned on. Home Manager B verified that food prepared in the Carstens Café was delivered between 1:30-2:00 PM every Tuesday, Wednesday and Thursday and that staff and clients delivering the food were responsible for ensuring the oven was turned on to keep foods hot. Home Manager B confirmed the hot food containers had been sitting in a cold oven for an hour and fifteen minutes up to an hour and forty-five minutes. According to Home Manager B, the hot items were not safe to serve clients.	4/17/2024
	<b>B. THE PROCEDURE FOR IMPLEMENTING THE CORRECTIVE ACTION(S):</b>	
	During environmental observation on 2/28/24 at 3:13 PM, on 3070 State Avenue, three plastic hot food containers containing peas and carrots, ground steak, and potatoes were in the oven which was not turned on. Home Manager B verified that food prepared in the Carstens Café was delivered between 1:30-2:00 PM every Tuesday, Wednesday and Thursday and that staff and clients delivering the food were responsible for ensuring the oven was turned on to keep foods hot. Home Manager B confirmed the hot food containers had been sitting in a cold oven for an hour and fifteen minutes up to an hour and forty-five minutes. According to Home Manager B, the hot items were not safe to serve clients.	4/17/2024
	The Active Treatment Program Manager was notified on this date of the oven not being turned on and food containers in the cold oven. All food delivery bags have now been marked to state <b><i>“turn on ovens and set temperature to 170 degrees”</i></b> . An email was sent by Home Manager to all 400 State Building ICF staff encouraging staff and individuals delivering food to the homes to take their time and to turn the oven on to 170 degrees to ensure hot food containers maintain the appropriate temperature.	4/17/2024
	<b>C. THE MONITORING OR TRACKING PROCEDURE(S) TO ENSURE THE FACILITY IS EFFECTIVE IN CORRECTING THE DEFICIENCY AND TO ENSURE THE FACILITY REMAINS IN COMPLIANCE WITH THIS DEFICIENCY:</b>	
	A monitoring system will be developed to ensure that food items delivered to the homes are maintained at the appropriate temperature for consumption by the Active Treatment Program Manager conducting weekly spot checks by assisting with food deliveries.	4/17/2024
	<b>D. THE TITLE OF THE PERSON RESPONSIBLE FOR ENSURING THE FACILITY REMAINS IN COMPLIANCE WITH THE CITED DEFICIENCY: (Do not put the staff names).</b>	
	The ICF Facility Administrator will be the responsible position for monitoring to ensure compliance.	4/17/2024

W 104	<p>Continued From page 1</p> <p>ensure: (A) 1 of 3 clients in the sample (Client 3) and one client added to the sample (Client 4) had developmental deficits requiring active treatment and (B) the environment was clean and well-maintained. This failure had the potential to affect all clients living at the facility. The facility census was 11 at the time of the survey.</p> <p>Findings:</p> <p>A) The Governing Body failed to ensure when Client 3 and Client 4 were admitted to the facility that these clients had assessed developmental deficits and needs which required the provision of continuous active treatment services, supports, structure, and resources. Observations, record reviews, and interviews confirmed Client 3 and Client 4 received services to maintain their verified independence and skills. (Refer to W197)</p> <p>B) Review of the document titled "Environment Audit Guide" (no date) provided by the Administrator on 3/4/25 identified that the facility staff were to ensure client bedrooms and bathrooms were kept clean, showers/tubs were to absent of mold and substances, were odor free, mattresses were to be clean and comfortable, storage was to be available and appropriate to store client belongings, furniture used by clients was to be maintained in good condition, soiled linens and client personal items were to be clean, and kitchen appliances and dishes were to be clean and in good condition.</p> <p>Observations and interviews conducted on 2/28/24 starting at 2:00pm with Home Managers A and B revealed the following facility failures to ensure a clean and well-maintained environment.</p>	W 104

W 104	Continued From page 2  1) 3071 (411) a) Bedroom 2 had no window drapery to providing privacy. The closet was cluttered and unorganized as boxes, clear storage tubs, a manual wheelchair, sleeping bag, and other miscellaneous items were stacked on top of each other. A stack of 3 foam fall mats sat on the floor next to the client's bed but was unclean as the cloth covering was stained a gray color, had large water marks (6" by 8"), ripped exposing the foam, and had snags and tears in the cloth fabric which were frayed. The white plastic mattress protector was ripped and shredded. This resulted in the plastic covering hanging down between the bed-frame and mattress which allowed a box of facial tissues and purple nitrile gloves to fall between the mattress and the torn holes.  b) The bathroom between bedrooms 2 and 5 had no paper towels or hand towels for clients to use to after completing hand washing. Both sinks had blue toothpaste streaks and gray debris in the sink bowls.  c) The south living room had a blue recliner which had rip and tears to the fabric on the seat and footrest which exposed the foam cushioning. The finish on the wooden arm rests on both sides were worn to the base making them no longer a cleanable surface.  d) The bathroom between bedrooms 8 and 11 (office) had no paper towels or hand towels for clients to use to after completing hand washing. The white shower curtain had orange and gray slime like matter across the bottom 4 to 5 inches and streaked in the middle. The bathtub had a gray colored stain on the base and sides of the	W 104

W 104	<p>Continued From page 3</p> <p>tub and more orange slime substances in the corners.</p> <p>e) The surface of the arm rests, head rest and seat of the dark brown leather recliner located in bedroom 19 was worn through the leather making it a light reddish-tan color and torn in small sections. The base board underneath the window in bedroom 19 was missing and exposed the drywall which was cracked creating a small hole.</p> <p>f) The bathroom between bedrooms 28 and 25 had a sink that was not clean as it had toothpaste residue and gray splatter marks in the sink bowl. There were no paper towels or hand towels for clients to use to after completing hand washing. The bathtub had chips and cracks on the surface. The tub was not clean as the base and sides had orange, brown, and dark gray streaks, and splatter marks. The sinks had hard water marks (blue-white color), blue toothpaste streaks and gray debris in the sink bowls.</p> <p>g) Kitchen. The black dish drying rack had white and orange colored substance in the silverware drain, on the sides, and bottom side of the rack. Client drinking cups were left drying in the unclean dish drain. The interior roof and sides of the microwave had brown, yellow, and rusted colored splatter marks. The interior of the toaster was not clean as brown and black colored food debris was on the bottom tray. The refrigerator was missing a bottom plastic crisper drawer. The second crisper drawer which held cheese slices and cream cheese was cracked and the handle/lip was broken creating a jagged and sharp edge.</p> <p>2) 3070 (412)</p>	W 104

W 197	Continued From page 13 placement order identified Client 3 was currently in the Lancaster County jail and was to be "placed in the custody" of the Nebraska Department Health and Human Services for treatment pursuant to the Developmental Disabilities Court-Ordered Custody Act. Client 3 was to reside at the Beatrice State Developmental Center (BSDC) with the following conditions: (f.1.) Client 3 will have at least 2:1 sole staffing at all times. (f.2.) When outside of the home, staff are to be within six feet of Client 3 (f.3.) Alarms on all home doors and window to alert staff to elopement attempts. (f.4.) Client 3 is to avoid areas with children, such as public parks. (f.5.) Client 3 is to have no access to fire starting materials. (f.6.) The Facility is to develop a safety plan for elopement and coordinate with the Beatrice Police Department. (f.7.) Client 3 is to take medication as prescribed, with the facility taking step to assure medications are taken timely. (f.8.) Client 3 is to have no access to communication devices, including cell phones, internet, social media, tablets, computers. Supervised land line phone calls to designated parties are allowed. (f.9.) Searches for contraband of Client 3's person, possession and room are allowed. (f.10.) Client 3 is to have no access to physical money. (f.11.) Client 3 is to have limited community integration services including not being allowed to enter indoor shopping center or mall. (f.12.) The facility is to ensure deletion of Client 3's Facebook account and other social medial accounts.	W 197

W 197	<p>Continued From page 14</p> <p>(f.13.) Should Client 3 elope, the facility is to notify the Lincoln Police Department and the Beatrice Police Department.</p> <p>g) Developmental Disability Court-Ordered Custody and Treatment Plan (submitted 8/17/23) identified Client 3 was place on Developmental Disabilities Court-Ordered Custody Act (DDCOCA) due to presenting a likely threat of harm to others, as evidence by their history of sexually inappropriate behavior, aggression and previous elopement attempts. Incidents leading to the DDCOCA began on 8/9/21 when Client 3 eloped from their DD placement, resulted in a missing person's report being filed. When Client 3 was found, they went to jail in Lincoln on felony charges including grand theft auto and property damage over \$5000. After being released, Client 3 committed 1st degree sexual assault of a child and theft/unlawful property of \$5000 or more.</p> <p>-Terms and Conditions to provide custody and treatment in the least restrictive alternative identified BSDC had a residential placement available in its Crisis Stabilization Unit and its staff would be trained ensuring staff assigned to Client 3 understood "the severity of the risk [Client 3] posed to the community and the critical need for constant, close supervision".</p> <p>-Recommendations for Treatment and Safety in the DDCOC Treatment Plan mirrored the conditions listed in the Placement Order by the District Court of Lancaster County.</p> <p>3) The following interviews with Client 3 and facility staff confirmed Client 3 was independent and capable of demonstrating daily living and developmental skills resulting in the client not needing the provision of active treatment services at the ICFIID facility.</p>	W 197

W 197	<p>Continued From page 15</p> <p>a) Interview on 2/29/24 at 3:55pm (in the presence of Staff B and Staff Q), Client 3 confirmed they were independent in toileting, eating/drinking, communication, dressing, bathing and grooming. Client 3 reported they did have a program for tooth brushing but that was only because they "had bad teeth." Client 3 reported they could read, write, and tell time. Client 3 also revealed they had graduated from high school and wanted to get out of the facility to take care of their mom, uncle and daughter. Client 3 reported they were at the facility because of a court order as they had stolen cars. Client 3 reported that they were not "learning anything here" and were "just killing time".</p> <p>b) Interview with Staff C on 2/29/24 at 12:30pm confirmed Client 3 was independent in toileting, eating/drinking, communication, bathing, dressing and could read and write. Staff C reported Client 3 was took pride in the way they look and was always neat and clean. According to Staff C, Client 3 could probably take care of themselves if it wasn't for their behaviors (verbal and physical aggression, elopement and car theft.) Staff C stated Client 3 preferred male staff and would at times refuse direction from female staff. Staff C reported they believed that Client 3 had some computer skills as they had at least one social media account. When asked why Client 3 was at the facility, Staff C reported Client 3 was court ordered to be at the facility due to aggression and car theft.</p> <p>c) Interview on 2/29/24 at 2:50pm with Staff D confirmed Client 3 was independent in toileting, eating/drinking, bathing, communication, dressing and grooming. W 197	<p>Continued From page 16</p> <p>program for brushing teeth due to poor dental care. Staff D reported Client 3 could read, write, tell time, and had basic cooking skills. Staff D described Client 3 as a "master manipulator" who had been court ordered to the facility for aggression, stealing cars and a history of involvement with law enforcement. According to Staff D, Client 3 often refused direction from female staff and preferred to work with male staff. According to Staff D, Client 3 learned very quickly and could understand complex activities such as playing the card game "Spades". Staff D reported Client 3 could shuffle and deal the cards, knew how to correctly bid based on the cards in their hand, strategically played in response to other cards played, kept track of the tricks taken by their team and could keep a written running score of the game.</p> <p>d) Interview on 2/29/24 at 2:00pm, Staff B described that Client 3 had their own outdoor frisbee-golf game which the client would independently (weather permitting) set up a course throughout the BSDC campus premises and then independently throw the frisbee discs at the targets and keep score for the client and staff. Staff B reported that Client 3 was capable and independent to cook foods (hamburgers, hot dogs, chicken, etc.) on the outdoor grill.</p> <p>e) Interview on 2/28/24 at 7:25am during observations, Staff J confirmed Client 3 was able to independently communicate, eat, prepare/cook breakfast and lunch meals, dress, shower, personal hygiene tasks, and do laundry. Client 3 required 1:1 staffing 24/7.</p> <p>f) Interview on 2/29/24 at 1:50pm with Client 3's Qualified Intellectual Disabilities Professional</p>	W 197

W 197	<p>Continued From page 18 in the facility van.</p> <p>g) Interview on 2/29/24 at 4:15pm, the facility Administrator confirmed Client 3 came to the facility by way of a Placement Order by the District Court of Lancaster County. This order placed Client 3, who had been in the county jail, in the custody of the Department of Health and Human Services (DHHS) specifically for placement at the facility. The Administrator confirmed Client 3 had many skills but at the time they were to be placed at the facility it was difficult to determine what skills Client 3 had due to their refusal behavior. According to the Administrator, the facility had been identified by DHHS to be the best placement for Client 3. When asked if Client 3 had developmental deficits that required Active Treatment, the Administrator stated the facility was required to serve Client 3 under the court order.</p> <p>B) Client 4</p> <p>1) Observations on 2/26/24 (from 4:25pm to 6:20pm), 2/27/24 (from 11:20am to 12:15pm, 1:10pm to 1:45pm, and 4:38pm to 5:36pm), 2/28/24 (from 7:25am to 8:38am and 10:55am to 11:28am) revealed Client 4 actively and independently participated in their environment and daily routine requiring little to no staff interventions related to active treatment daily living and developmental skills. Observations further revealed that Client 4 had 1:1 supervision 24-hours per day. These observations identified Client 4 independently:</p> <p>a) Possessed and demonstrated basic developmental skills of eating, drinking, maintain privacy (given their rights restrictions), toileting,</p>	W 197

W 197	Continued From page 19 and personal hygiene. b) Demonstrated the ability to dress and complete grooming tasks. Client 4 tied and re-tied their tennis shoes. Client 4 dressed according to weather conditions and vocational tasks by choosing to wear outerwear (windbreaker jacket, coat, and coveralls). Client 4 reported to staff that they wanted to look good for work and their daily tasks. Client 4 reported to the surveyor that their Special Olympics' basketball jersey was clean and hung up for an upcoming game. Client 4 addressed grooming by requesting that staff make an appointment on 2/28/24 for a haircut with the facility's campus beauty shop and then described how the client wanted their hair cut and what hair-clippers to use. c) Demonstrated skills in setting the table, meal preparations, used the microwave, oven, after meal clean-up, and loading/unloading dishwasher. Client 4 prepared their lunch meals and snacks during vocational services. Client 4 verbally described their ability to participate in and complete tasks to making meals collard greens, mashed potatoes, salads, "barbecuing" hamburgers and chicken, and using the microwave to make eggs and sausage for breakfast. d) Verbally communicated clearly with direct support staff regarding their wants and needs and independent abilities. (d.1.) In interviews during these observations, Client 4 conversed about current events, their activity and work schedule, medical appointments, Special Olympic basketball team's game schedule, treatment and supports provided by the facility, and meals. (d.2.) Client 4 communicated past-history placement, community living, jail time, placement at the State's Regional Center, and time in their	W 197

W 249	<p>Continued From page 36</p> <p>Staff G again provided Client 1 with 15ml of fluid to drink. Staff G then provided another tablespoon of rice casserole to the client's plate, Client 1 ate two bites of food and coughed one time. Staff G provided another 15ml of fluid which the client drank.</p> <p>Staff G then said to Staff H and Staff I that Client 1's fluids were "not going to last the full meal" because Client 1 had drunk 45ml of fluid after only 6 bites of food. Staff G and Staff I then reviewed Client 1's dining card and verified the client was to get only 90ml of fluid at the meal and agreed the fluids would not last the entirety of the meal as the client had about three-fourths (3/4) of their food yet to eat. Staff G continued three more sessions to provide 15ml. of fluid after Client 1 ate 2 bites of food which completed the 90ml of fluid allotted for the meal. During the three sessions Client 1 coughed twice while eating the rice casserole. Staff H then told Staff G that if Client 1 wanted more liquids staff could not restrict the client's rights. Staff H then retrieved the Almond milk from the refrigerator, refilled the 4-ounce juice glass, and repeated that if Client 1 wanted or needed fluids they could have more. Staff G then continued to give Client 1 15ml. of fluid (Almond milk) at a time, but after every 4 to 7 bites of food or after the client coughed while eating.</p> <p>Interview on 2/26/24 at 5:40pm, Staff G confirmed Client 1 had a 1500ml fluid restriction and at meals was to get 90ml of fluid. Staff G reported Client 1 was to get 15-30ml of fluid after every 1-2 bites, but the drink to bite ratio was not sufficient to ensure the client had enough fluid to last the entire meal. Staff G verified they provided extra fluids during the supper meal as Client 1</p>	W 249

W 249	<p>Continued From page 37</p> <p>was coughing and making gag like sounds while eating.</p> <p>E) Observations on 2/27/24 at 11:44am, revealed Staff P provided Client 1 with 1 tablespoon of ground meat sandwich and pea salad onto the client's paper plate. Staff P poured flavored water into a medication cup to measure 15ml then poured the fluid from the medication cup into the client's nosy cup. After 2 bites of food, Staff P prompted Client 1 to take a drink. Client 1 then took 3 more bites of food and Staff P provided the client's second 15ml of fluid. Staff P and Staff J then switched client assignments; Staff J took over Client 1's supervision. Staff J then assisted Client 1 to the restroom. Once back at the dining table, Staff J placed a tablespoon of food onto Client 1's plate, after 3 bites Staff J provided the client with 15ml of fluid. Staff J continued to provide 15ml of fluid after every 2-3 bites for two more sessions during which Client 1 occasionally coughed. Observations at 12:10pm revealed that Client 1 still had about half of their meal left in the lunch container and with 15ml fluids left to drink.</p> <p>At 12:20pm, Licensed Practical Nurse (LPN-A) arrived and sat at the dining table with Client 1 and Staff J. When Staff J measured Client 1's final 15ml of fluid, LPN-A told Staff J that Client 1 could have up to 30ml of fluids per session. Staff J replied that Client 1 had already had 75ml of fluid and only had 15ml of their 90ml left. LPN-A then directed Staff J to give the client 30ml of fluid, to which Staff J did. Client 1 then ate 4 bites of food, Staff J provided 15ml of fluid for two more sessions. This resulted in Client 1 having 135ml of fluid for the meal (45ml. over allotted amount). Client 1 then reported to Staff J they were done eating even though they still had food</p>	W 249

W 249	Continued From page 39  g-tube had been discontinued and not replaced after the client pulled the g-tube out in October 2023. RN-A confirmed Client 1's current fluid intake was still based on the plan when the client had for their g-tube. RN-A was not aware if Client 1 had been assessed by nursing or dietary regarding the change in the clients g-tube status or if a fluid balance assessment had been completed.  H) In an interview on 3/1/24 at 10:46am, Qualified Intellectual Disabilities Professional (QIDP) A confirmed that Client 1's diet card dated 2/14/24 was current as per the client's new orders which were reflected in the 2/23/24 Quarterly ISP meeting. QIDP-A verified that staff were to be providing Client 1 with 15ml of fluid after every 2 bites of food during meals and snacks. During meals Client 1 received 90ml of fluid and at snacks 60ml of fluid. After describing the observations in which Client 1 did not have sufficient fluid to last the entire meal and that staff adjusted or provided additional fluids when Client 1 coughed while eating, QIDP-A confirmed staff failed to follow the clients ISP and dietary protocol strategies by providing additional fluids. QIDP- A confirmed that Client 1 not having enough fluids throughout the meals or snacks was a "huge problem" because that didn't meet the client's dietary risks of coughing and aspirating. QIDP-A then stated that the IDT "set staff up to fail" by not reassessing Client 1's fluid balance and restorative eating after the client's g-tube was discontinued in October 2023.	W 249

Any deficiency statement ending with an asterisk (\*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.

March 14, 2024

Dawn Urbaschek  
400 State Building  
3104, 3070, 3071 State Ave  
Beatrice, NE 68310

Dear Ms. Urbaschek:

On February 26, 2024–March 4, 2024, DHHS representatives conducted surveys to determine whether your facility was in compliance with Federal Condition of Participation requirements, State Licensure regulations, and Life Safety Code Requirements for Intermediate Care Facilities for Individuals with Intellectual Disabilities. Enclosed you will find the CMS-2567's documenting the results of that survey. All references to regulatory requirements contained in this letter are found in Title 42, Code of Federal Regulations and 175 NAC Chapter 17 Regulations Governing Licensure of Intermediate Care Facilities for Individuals with Intellectual Disabilities.

### **PLAN OF CORRECTION (POC)**

A POC for each deficiency cited must be submitted to [DHHS.DDBHFacilities@nebraska.gov](mailto:DHHS.DDBHFacilities@nebraska.gov) **NO LATER THAN 10 calendar days after receipt of the CMS-2567's**. Failure to submit an acceptable POC timely may result in the imposition of Disciplinary Action.

### **An acceptable POC must include:**

- The plan of correcting the specific deficiency. The plan should address the processes that lead to the deficiencies cited;
- The procedure for implementing the acceptable plan of correction for the specific deficiency cited;
- The monitoring procedure to ensure that the plan of correction is effective and that specific deficiency cited remains corrected and/or in compliance with the regulatory requirements;
- The title of the person responsible for implementing the acceptable plan of correction;
- **PROVIDE THE DATE WHEN CORRECTION ACTION WILL BE COMPLETED.** Correction

Page 2 of 2;

dates should be no later than forty-five calendar days from the exit date of the survey or **April 18, 2024**.

**NOTE:** Remember to attach copies of any auditing tools; education; revised or new policies/processes.

**SIGNATURE ON FIRST PAGE OF THE 2567's:** The first page must be signed by the provider/supplier representative and faxed to 402-742-2326.

We will notify you whether your plan of correction is or is not acceptable via email. Subsequently, if your plan of correction is **not accepted**, you must submit an addendum to your plan of correction within ten (10) calendar days of the notification.

We thank you and your staff for your cooperation and assistance during the survey. If you have any questions regarding this correspondence, please contact this office.

Sincerely,

A handwritten signature in black ink that reads "Mark Luger". The signature is written in a cursive style with a large, stylized initial "M".

Good Life. Great Mission.

DEPT. OF HEALTH AND HUMAN SERVICES

Jim Pillen, Governor

March 14, 2024

Dawn Urbaschek, Administrator  
400 State Building  
3104, 3070, 3071 State Avenue  
Beatrice, NE 68310

Dear Ms. Urbaschek:

On February 26 – March 4, 2024, Representatives of the Department conducted a survey to determine whether your facility, 400 State Building, was in compliance with Federal Condition of Participation requirements, State Licensure regulations, and Emergency Preparedness regulations for ICF/IID. Your facility was found to be out of compliance with the following Medicare Conditions of Participation. Enclosed you will find the CMS-2567 documenting the results of that survey.

- **CFR 483.440 – Condition of Participation: Active Treatment Services**
- **CFR 483.410 – Condition of Participation: Governing Body and Management**

Unless compliance with these conditions is achieved by **April 28, 2024**, we will recommend to the Centers for Medicare and Medicaid Services (CMS) Regional Office that your Medicare participation be terminated. The termination process provides an opportunity to make corrections and when compliance is achieved, you should notify this office immediately with a statement or documentation that indicates corrective action has been accomplished and the problems have been resolved.

A revisit will be conducted within **45** calendar days of the survey if a credible allegation of compliance is received. If compliance has not been achieved at the revisit, the CMS Regional Office will inform you of the termination of Medicare participation and of your appeal rights.

The following options are available to you when responding to the deficiencies:

- Accept deficiencies stated on CMS-2567 and submit an acceptable plan of correction;
- Record objections to the cited deficiencies and submit an acceptable plan of correction; or
- Record objections to the cited deficiencies on the CMS-2567, do not submit a plan of correction, and provide convincing arguments and documented evidence that the deficiencies are invalid. If this action is taken and the deficiencies are found to be valid, termination of the agency provider agreement could result due to failure to submit an acceptable plan of correction.

To be acceptable, the plan of correction must include:

- A step-by-step description of the methods used to correct each deficiency cited;
- Information which assures the intent of the regulation, as evidenced by the examples, is corrected;

Helping People Live Better Lives

Page 2 of 2:

- How the facility will identify other individuals who have the potential to be affected by the same deficiency, and how the facility will act to protect individuals in similar situations;
- What measures will be put into place or systemic changes made to ensure that the deficiency will not recur;
- The person, by position, not name, responsible for monitoring the correction of the deficiency to prevent recurrence;
- A realistic date by which each deficiency will be corrected;
- A copy of the first page of the CMS 2567 signed and dated by the Administrator.

Please submit your plan of correction to this office by **March 24, 2024**.

If your plan of correction is acceptable, we will notify you and will conduct a revisit to determine if compliance with the Conditions of Participation has been achieved.

We thank you and your staff for your cooperation and assistance at the time of the survey. If you have any questions regarding this correspondence, please contact this office.

Sincerely,

Mark Luger – Program Manager II

April 1, 2024

Ms. Dawn Urbaschek, Administrator,  
400 State Building  
3104, 3070, 3071 State Ave  
Beatrice, NE 68310

Dear Ms. Urbaschek:

The Department of Health and Human Services, Division of Public Health, has completed a review of your Plan of Correction (POC) dated March 22, 2024, as it applied to the Recertification Survey on March 4, 2024, conducted at your facility. The POC submitted by your facility **has not been** accepted and was rejected for the following reasons:

1. W 102 B: THE PROCEDURE FOR IMPLEMENTING THE CORRECTIVE ACTION(S):
  - Individuals admitted to the facility should be assessed prior to coming to the facility to determine if they need and would benefit from active treatment. An individual being admitted to the facility needs to be appropriate for services whether or not a court order is in place.
  - Clients 3 and 4 were not in need of active treatment at the time of admission based on the initial assessments, and neither client was receiving active treatment at the time of the survey. Please address what the facility has specifically done to correct the deficient practice as it relates to Clients 3 and 4.
2. W 102 C: THE MONITORING OR TRACKING PROCEDURE TO ENSURE THE FACILITY IS EFFECTIVE IN CORRECTING THE DEFICIENCY AND TO ENSURE THE FACILITY REMAINS IN COMPLIANCE WITH THIS DEFICIENCY:
  - The POC does not address the monitoring or tracking procedures addressing changes made that all clients meet the criteria of active treatment and are receiving active treatment.
  - The information provided is disputing the reasons why Clients 3 and 4 should be at the facility but needs to address the monitoring or tracking procedures related to the correction of the deficient practice.
3. W 104 B: THE PROCEDURE FOR IMPLEMENTING THE CORRECTIVE ACTIONS(S):
  - Individuals admitted to the facility should be assessed prior to coming to the facility to determine if they need and would benefit from active treatment. An individual being admitted to the facility needs to be appropriate for services whether or not a court order is in place.
4. W 104 C: THE MONITORING OR TRACKING PROCEDURE TO ENSURE THE FACILITY IS EFFECTIVE IN CORRECTING THE DEFICIENCY AND TO ENSURE THE FACILITY REMAINS IN COMPLIANCE WITH THIS DEFICIENCY:

- The POC does not address the monitoring or tracking procedures addressing changes made that all clients meet the criteria of active treatment and are receiving active treatment.
  - The information provided is disputing the reasons why Clients 3 and 4 should be at the facility but needs to address the monitoring or tracking procedures related to the correction of the deficient practice.
5. W 104: The POC related to the environmental concerns is acceptable.
6. W 195 B: THE PROCEDURE FOR IMPLEMENTING THE CORRECTIVE ACTION(S):
- The deficient practice related to this regulation cited that Clients 3 and 4 were not receiving active treatment and did not meet the need for Intermediate Care Facility (ICF) services related to active treatment as the clients functioned independently with staff supervision. Since Clients 3 and 4 did not meet the need for active treatment, the clients are not appropriate for placement in the ICF. The POC needs to address this placement concern related to Clients 3 and 4. Please address what the facility has specifically done to correct the deficient practice as it relates to Clients 3 and 4. The rest of the POC for this section is acceptable.
7. W 195 C: THE MONITORING OR TRACKING PROCEDURE TO ENSURE THE FACILITY IS EFFECTIVE IN CORRECTING THE DEFICIENCY AND TO ENSURE THE FACILITY REMAINS IN COMPLIANCE WITH THIS DEFICIENCY:
- The POC also needs to address how the facility is going to ensure monitoring and tracking of all clients being admitted to the facility are in need of active treatment.
8. W 197 B: THE PROCEDURE FOR IMPLEMENTING THE CORRECTIVE ACTION(S):
- The deficient practice related to this regulation cited that Client 3 was not receiving active treatment and did not meet the need for ICF services related to active treatment as the client functioned independently with staff supervision. Since Client 3 did not meet the need for active treatment, the client is not appropriate for placement in the ICF. The POC needs to address this placement concern related to Client 3. Please address what the facility has specifically done to correct the deficient practice as it relates to Client 3.
  - The deficient practice related to this regulation cited that Client 4 was not receiving active treatment and did not meet the need for ICF services related to active treatment as the client functioned independently with staff supervision. Since Client 4 did not meet the need for active treatment, the client is not appropriate for placement in the ICF. The POC needs to address this placement concern related to Client 4. Please address what the facility has specifically done to correct the deficient practice as it relates to Client 4.

It is your responsibility to ensure you have the resources with the sufficient knowledge to correct and maintain compliance with the regulations. An acceptable POC is a requirement for your facility to maintain certification. You will need to have an acceptable POC submitted to this office **within 5 days of receipt of this notification**. To be acceptable, your POC must address the above identified issues and include:

1. Action(s) that will be taken to correct the deficiency for individuals identified to have been affected and/or other individuals that have the potential to be affected by the deficient practice;

2. The procedure for implementing the corrective action(s) put into place or systemic changes made to ensure the deficient practice will not reoccur for individuals identified and others potentially affected;
3. How the facility will monitor its corrective actions/performance to ensure that the deficient practice is being corrected and will not recur, (i.e. what will be put into place to monitor the continued effectiveness of the systemic change to ensure that solutions are permanent);
4. Identify person(s) by position, not individual name, who will be responsible for monitoring and ensuring that compliance is achieved and continues;
5. A realistic date by which each deficiency will be corrected.

Please email your revised POC to the department at [DHHS.DDBHFacilities@Nebraska.gov](mailto:DHHS.DDBHFacilities@Nebraska.gov)

Thank you for your prompt assistance in this matter.  
Sincerely,

Mark Luger - Program Manager II

Nebraska State Office Building -1<sup>st</sup> Floor  
P.O. Box 94986  
301 Centennial Mall  
Lincoln, NE 68509-4986

Dear Mr. Luger:

At this time, the BSDC Facility Administrator, BSDC ICF Area Administrator, BSDC Quality Control Supervisor, DHHS Attorney, Administrators of Community Based Services, Service Coordination and Clinical Administrator are meeting weekly to discuss; working on creation of a plan to present to the court for the discharge of Client 3 from the 400 State Building ICF at the Beatrice State Developmental Center.

The Beatrice State Developmental Center ICF Management is meeting weekly to monitor and track the progress while actively working toward determining alternative placement that will best fit the needs and requirements for Client 3's discharge from the 400 State Building ICF.

The date in which we can change placement of Client 3 is subject to the court order. While working diligently to find alternative placement for Client 3, ultimately discharge from BSDC is subject to the court's approval. Discharging Client 3 anywhere else at this time without the court's approval will subject DHHS-BSDC to contempt of court proceedings, as well as potential civil liability in regard to Client 3's health and safety.

In reference to the Beatrice State Developmental Center – 400 State Building ICF revised plan of correction submitted on 4/5/2024 and the acceptance received on 4/9/2024 from your office, we are respectively requesting for an extension for the discharge of Client 3 from the previous date of May 3, 2024 to July 3, 2024.

*Dawn Urbaschek*

Dawn Urbaschek, ICF Administrator  
Beatrice State Developmental Center

	<p><b>C. THE MONITORING OR TRACKING PROCEDURE(S) TO ENSURE THE FACILITY IS EFFECTIVE IN CORRECTING THE DEFICIENCY AND TO ENSURE THE FACILITY REMAINS IN COMPLIANCE WITH THIS DEFICIENCY:</b></p>	

	<p>The ICF/IID provides active treatment services by focusing on instrumental (Independent) ADLS with primary focus of on-site employment opportunities, managing finances, shopping, and meal preparation, housekeeping and home maintenance, communication with others and managing medications. In addition, patients benefit from active treatment in the areas of self-direction and capacity for independent living, which are areas of major life activity in which Client 3 and 4 have been assessed to have substantial functional limitations as part of the clinical determination that both clients have intellectual disability or a related condition as that term is defined under 42 C.F.R. § 435.1010. Both Client 3 and Client 4 are assessed and require habilitation/active treatment to acquire the skills and behaviors needed to function in society so that Client 3 and Client 4 do not pose threat of harm to themselves or others and are able to cope with their personal needs and demands of their environment. Both client 3 and 4 need and are receiving active treatment to ensure their acquisition of the behaviors necessary for them to function with as much self determination and independence as possible given their behavioral limitations, as required under 42 C.F.R. § 483.440(a)(1)(i), and to prevent or decelerate regression or loss of current optimal functional status as required under 42 C.F.R. § 483.440(a)(1)(ii). The instrumental ADLs assist in preparation of ultimately returning to a community provider while working diligently with other providers to find alternative placement.</p>	<p>4/17/2024</p>
	<p>At the time of admission, all referrals to the Beatrice State Developmental Center for services have been determined by clinicians to meet eligibility for DD services and meet ICF/IID level of care requirements. Upon admission, additional on-site assessments and evaluations are completed to determine an individual's strengths and active treatment needs. All admissions to BSDC are determined by clinicians and DHHS Executive Medical Officer to be in need of active treatment services as required under 42 C.F.R. § 483.440(b).</p>	<p>4/17/2024</p>
	<p>Both Client 3 and Client 4 were assessed and required habilitation/active treatment to acquire the skills and behaviors needed to function in society so that Client 3 and Client 4 do not pose threat of harm to themselves or others and are able to cope with their personal needs and demands of their environment. Both client 3 and 4 need and are receiving active treatment to ensure their acquisition of the behaviors necessary for them to function with as much self-determination and independence as possible given their behavioral limitations, as required under 42 C.F.R. § 483.440(a)(1)(i), and to prevent or decelerate regression or loss of current optimal functional status as required under 42 C.F.R. § 483.440(a)(1)(ii). The instrumental ADLs assist in preparation of ultimately returning to a community provider while working diligently with other providers to find alternative placement.</p>	<p>4/17/2024</p>

	<p>Monitoring and tracking will occur through the following to ensure all clients meet the criteria of active treatment and benefit from active treatment:</p> <ul style="list-style-type: none"> <li>- Bi-Weekly Collaborative Team Meetings will document in <b>meeting minutes</b> that will be saved summary of discussions on individuals, potential admission, status, and steps/actions taking as follows: <ul style="list-style-type: none"> <li>* Current individuals residing at the State ICF, review summary of individuals program plans and current needs to ensure appropriateness for services at the State ICF. Should an individual have changes identified in which they may no longer need or benefit from active treatment, referrals and transition planning to discharge will be started.</li> <li>* For potential admission of an individual, team will review and discuss individuals needs, developmental deficits, if they will benefit from active treatment, and the appropriateness for services at the State ICF.</li> <li>* If there is awareness of a potential court order of an individual to the State ICF and information is available for review, the team will review and based on information available, the team will provide recommendations of the appropriateness of the admission to the State ICF. If individual is believed to not meet identified needs, information will be shared to the court to not recommend placement at the ICF.</li> </ul> </li> <li>- IDT will monitor and track at least quarterly individuals progress towards goals and if they continue to benefit from active treatment.</li> </ul>	4/17/2024
	Client 4 has been discharged from the State Building ICF at the Beatrice State Developmental Center effective 4/1/2024.	4/1/2024
	For Client 3, ICF Administration (Facility Administrator, Area Administrator, and Quality Control Supervisor) will meet weekly to monitor and track progress toward discharging Client 3.	5/3/2024
	<b>D. THE TITLE OF THE PERSON RESPONSIBLE FOR ENSURING THE FACILITY REMAINS IN COMPLIANCE WITH THE CITED DEFICIENCY: (Do not put the staff names).</b>	
	The ICF Facility Administrator will be the responsible position for monitoring to ensure compliance.	4/17/2024

	<p><b>1. 3071 State (411)</b></p>	

	<p>a.</p> <p><b>*Bedroom 2 had no window drapery to provide privacy:</b> Home Manager verified window drapery was provided to provide privacy and was completed on 3/5/24.</p> <p><b>* Cluttered Closet:</b> Home Manager verified an email sent to QDDP to reach out to Guardian to remove personal items that are not needed. Asked for Guardian to complete by 3/29/24.</p> <p><b>* White plastic mattress cover:</b> Home Manager verified on 3/19/24 that the mattress cover has been replaced and items under the mattress have been removed.</p> <p><b>* Stack of 3 foam mats:</b> Home Manager verified on 3/19/24 that the 3 foam mats cloth covering was replaced.</p>	4/17/2024
	<p>b. <b>Bathroom between bedrooms 2 and 5 had no paper towels or hand towels:</b> Home Manager verified on 3/19/24 that paper towels were placed in the bathroom and no toothpaste was present in the sinks as they were cleaned.</p>	3/19/2024
	<p>c. <b>South living room blue recliner:</b> Home Manager verified an email was sent to the QDDP on 3/12/24 to reach out to the Guardian to either get a new recliner due to fabric on seat and footrest which exposed the foam cushion and wooden arm rests that are worn making them no longer a cleanable surface or a chair cover.</p>	4/17/2024
	<p>d.</p> <p><b>*Bathroom between bedrooms 8 and 11 had no paper towels or hand towels:</b> Home Manager verified on 3/19/24 papertowels were placed in the bathroom.</p> <p><b>*White shower curtain had orange and gray slime matter:</b> Home Manager verified on 3/19/24 the shower curtain was replaced.</p> <p><b>*Bathtub had gray colored stain on base and sides and orange slime substance in the corners:</b> Home Manager verified on 3/19/24 have reached out to Housekeeping for products to get stains out the bathtubs, including the corners.</p>	4/17/2024
	<p>e.</p> <p><b>*Surface of arm rests, head rest and seat of dark brown leather recliner in Bedroom 19 was worn:</b> Home Manager verified an email to QDDP on 3/12/24 to replace the chair.</p> <p><b>* Baseboard underneath the window in Bedroom 19 was missing:</b> Home Manager verified on 3/19/24 the baseboard on the wall has been replaced.</p>	4/17/2024

	<p><b>*Bathroom between bedrooms 28 and 25 had sink not clean with toothpaste residue:</b> Home Manager verified on 3/19/24 the sink has been cleaned and no toothpaste is present.</p> <p><b>*Bathroom between bedrooms 28 and 25 had no papertowels or hand towels:</b> This individual does not share a bathroom with another individual. This individual that utilizes this bathroom has a history of flushing inappropriate items down the toilet, causing substantial property damage; engaging in sensory seeking behaviors that escalate into self-injury; and obsessive-compulsive behaviors &amp; agitation regarding hygiene and clothing.</p> <p><i>The individual's safety plan reads that there are bathroom alarms on both doors to alert staff when I enter my bathroom so they can provide visual supervision.</i></p> <p><u>Restricted/Limited access to Toilet Paper and Paper Towels:</u>  <u>Up to 15 sheets of Toilet Paper will be provided during elimination.</u>  <i>*If more are needed, staff will provide upon request.</i>  <i>*Staff will ensure that I flush after every second request.</i></p> <p><u>3 Paper Towels will be provided after handwashing.</u>  <i>*If more are needed, staff will provide upon request.</i>  <i>*Staff will ensure I throw paper towels in the proper receptacle that is not in my room/bathroom.</i></p> <p>* Bathtub has chips and cracks on surface, was not clean as base and sides hasd orange, brown and dark gray streaks: Home Manager verified have reached out to Housekeeping for products to remove stains from bathtub base and sides on 3/19/24. A work order was submitted to the Maintenance Department on 2/27/24 for the chips and cracks to repair or replace the tub.</p> <p>*Sinks had hard water marks (blue/white color), toothpaste streaks and gray debris: Home Manager verified that the sinks have been cleaned and have reached out to Housekeeping for products to remove the hard water stains on 3/19/24.</p>	4/17/2024
	<p>g.</p> <p><b>*Kitchen dish rack:</b> the black dish rack was removed and a new one ordered. Home Manager verified on 3/19/24 the black dish rack was removed and a new one ordered.</p> <p><b>*Interior of microwave had colored splatter marks:</b> Home Manager verified on 3/19/24 that the microwave has been cleaned.</p> <p><b>*Interior of toaster:</b> Home Manager verified on 3/19/24 the toaster has been removed and a new one ordered.</p> <p><b>*Refrigerator drawers:</b> Home Manager verified a work order was submitted on 3/19/24 to obtain and replace the two bottom plastic drawers.</p>	4/17/2024
<b>3070 State (412)</b>		
	<p>a. <b>Bedroom 25 had a strong urine odor and soiled briefs were in a garbage can in the bathroom:</b> Home Manager verified on 3/19/24 the bathroom has been checked and no soiled briefs are in the bathroom trash can.</p>	3/19/2024

	<p><b>b.</b></p> <p><b>*Bathroom between bedrooms 19 and 22 had a shower drain covered in orange slime like substance and slightly rusted:</b> Home Manager verified on 3/19/24 the shower drain was replaced and completed in the bathroom between bedroom 19 and 22.</p> <p><b>* Ceiling above shower had peeling paint:</b> Home Manager verified on 3/19/24 a Maintenance Work Order was sent to repair the peeling paint.</p> <p><b>*Two water sprinklers had missing circular metal casings:</b> Home Manager verified on 3/19/24 that the two water sprinkler heads now have the circular metal casings and do not have exposed pipes or sensors.</p>	4/17/2024
	<p><b>c. Bathroom between bedrooms 28 &amp; 25 and bedrooms 2 &amp; 5 had toilets not clean:</b> Home Manager verified on 3/19/24 that they have reached out to Housekeeping for products to remove the stains from the toilets due to unsuccessful attempts to clean.</p>	4/17/2024
	<b>402 State</b>	
	<p><b>a. Upholstered seats to wooden chairs in kitchen are worn and torn:</b> Home Manager verified on 3/19/24 an In-House Work Order was sent to remove the kitchen chairs and and replace with new chairs ordered from McKesson.</p>	4/17/2024
	<p><b>b. Hood area over stove/oven was open, dark brown and greasy to the touch and Wires hung down from the open hood:</b> Home Manager verified on 3/18/24 an email was sent to the Safety Coordinator to look at and adjust the hanging wires due to relating to the Fire Monitor Prevention System.</p>	3/22/2024
	<p><b>c. Strong odor of mildew detected upon opening door of washing machine:</b> Home Manager verified on 3/19/24 have emailed Housekeeping for any product to remove the odor and mildew from the washer seals.</p>	4/17/2024
	<b>404 State</b>	
	<p><b>a. Resistance mechanism on oven door malfunctioned:</b> Home Manager verified a Maintenance Work order was submitted on 2/28/24 to have the resistance mechanism repaired on the stove. Completed on 3/5/24.</p>	3/5/2024
	<b>408 State</b>	
	<p><b>a. Interior of oven contained black and brown debris:</b> Home Manager verified a Maintenance Work order was submitted on 3/8/24.</p>	4/17/2024
	<p><b>b. Drawer located at base of oven crooked and difficult to open:</b> Home Manager verified a Maintenance Work Order was submitted on 3/8/24 and the drawer now is within the track and easier to open as noted on 3/19/24.</p>	3/19/2024
	<p><b>c. Strong odor of mildew detected upon opening door of washing machine:</b> Home Manager verified on 3/19/24 have emailed Housekeeping for any product to remove the odor and mildew from the washer seals.</p>	4/17/2024
	<b>B. THE PROCEDURE FOR IMPLEMENTING THE CORRECTIVE ACTION(S):</b>	
	<p>Work Orders have been submitted to the Beatrice State Developmental Center (BSDC) Maintenance Department and In-House Work Orders have been submitted to Facility Management to make needed repairs and/or replacements for issues identified during the recent survey at State Building ICF/IID (3104 State - living units 402, 404, 408) and 3070 &amp; 3071 State Avenue to ensure the living units are maintained in a manner that is safe, clean, and functional to receive clients.</p>	4/17/2024

	<b>C. THE MONITORING OR TRACKING PROCEDURE(S) TO ENSURE THE FACILITY IS EFFECTIVE IN CORRECTING THE DEFICIENCY AND TO ENSURE THE FACILITY REMAINS IN COMPLIANCE WITH THIS DEFICIENCY:</b>	
	Through consultation and environmental observations, ICF Management will ensure needed repairs and/or replacements identified are completed and that the living units are maintained in a manner that is safe, clean and functional to receive clients.	4/17/2024
	<b>D. THE TITLE OF THE PERSON RESPONSIBLE FOR ENSURING THE FACILITY REMAINS IN COMPLIANCE WITH THE CITED DEFICIENCY: (Do not put the staff names).</b>	
	The ICF Facility Administrator will be the responsible position for monitoring to ensure compliance.	4/17/2024
<b>W 195</b>	<b>A. ACTION(S) THAT WILL BE TAKEN TO CORRECT THIS DEFICIENCY - ALONG WITH A DESCRIPTION OF HOW THE ACTION WILL CORRECT OR IMPROVE THE PROCESSES THAT LEAD TO THE CITED DEFICIENCY:</b>	
	<i>Based on observations, interviews and record review, the Condition of Participation (CoP) of Active Treatment Services was not met as the facility failed to ensure only clients requiring Active Treatment were admitted to the ICF/IID. Observations, interviews, and record review identified Client 3 and Client 4 were able to function independently, with staff supervision provided due to behaviors and court ordered requirements.</i>	
	<i>Observations revealed Client 3</i> actively and independently participated in their environment and required little to no staff interventions related to daily living and developmental skills. The Developmental Disability Court-Ordered Custody and Treatment Plan (submitted 8/17/23) identified Client 3 was placed on Developmental Disabilities Court-Ordered Custody Act (DDCOCA) due to presenting a likely threat of harm to others, as evidence by their history of sexually inappropriate behavior, aggression and previous elopement attempts. Terms and Conditions to provide custody and treatment in the least restrictive alternative identified BSDC had a placement available in it's Crisis Stabilization Unit and its staff would be trained ensuring staff assigned to Client 3 understood "the severity of the risk (Client 3) posed to the community and the critical need for constant, close supervision." Recommendation for Treatment and Safety in the DDCOCA Treatment Plan mirrored the conditions listed in the Placement Order by the District Court of Lancaster County.	4/17/2024
	The ICF Administrator confirmed Client 3 had many skills but at the time they were to be placed at the facility it was difficult to determine what skills Client 3 had due to their refusal behavior.	4/17/2024

	<p><i>Observations revealed Client 4</i> actively and independently participated in their environment and daily routine requiring little to no staff interventions related to active treatment daily living and developmental skills. Observations revealed that Client 4 had 1:1 supervision 24 hours per day. Review of a letter titled “Developmental Disability Court-Ordered Custody and Treatment Plan” (dated 6/9/23, signed by a Psychologist for DHHS-DD) to the Douglas County Court revealed that Client 4 was under court custody due to arson. The letter identified that based on the continued Mild Intellectual Disability diagnosis that Client 4 continued to be eligible for services through DHHS-DD. Due to concerns about Client 4’s mental health instability and medication changes prior to the arson incident, it was recommended that Client 4 receive intensive mental health services and medication evaluation in a state-operated inpatient setting before transitioning to community-based services.</p>	4/17/2024
	<p>The ICF Facility Administrator confirmed Client 4 was admitted to the facility due to a placement order by the District Court of Douglas County due to an incident of arson.</p>	4/17/2024
	<p>Beatrice State Developmental Center through collaborative efforts of BSDC leadership and clinical community services, are holding bi-weekly collaborative meetings to discuss both current individuals residing at the State ICF Crisis Stabilization Unit and any potential admissions, if known, to BSDC State ICF. The meetings will include the following members: BSDC Facility Administrator, BSDC Area Administrator, BSDC Quality Control Supervisor, DHHS attorney, and Administrators of community based services with Service Coordination and Clinical Administrator.</p> <p>For current individuals residing at the State ICF, will provide ongoing review of the individuals program plans and current needs to ensure appropriateness for services at the State ICF. Should an individual have changes identified in which they may no longer need or benefit from active treatment, referrals and transition planning to discharge will be started.</p> <p>For potential admissions, the team will review and discuss individuals needs, developmental deficits, if they will benefit from active treatment, and the appropriateness for services at the State ICF.</p> <p>If there is awareness of a potential court order to the State ICF and information is available for review, the team will review and based on information available, the team will provide recommendations of the appropriateness of the admission to the State ICF. If individual is believed to not meet identified needs, information will be shared to the court to not recommend placement at the ICF.</p> <p>This should correct or improve appropriate admissions since there will be additional discussions and reviews of individuals.</p>	4/17/2024
	<p><b>B. THE PROCEDURE FOR IMPLEMENTING THE CORRECTIVE ACTION(S):</b></p>	

	<p>The DHHS Executive Medical Officer reviews all referrals prior to admission to the Beatrice State Developmental Center. The DHHS Executive Medical Officer will determine if the referrals to BSDC are appropriate for ICF/IID Level of Care.</p>	<p>4/17/2024</p>
	<p>At the time of admission, all referrals to the Beatrice State Developmental Center for services have been determined by clinicians to meet eligibility for DD Services and meet ICF/IID level of care requirements. Upon admission, additional on-site assessments and evaluations are completed to determine an individual's strengths and active treatment needs. All admissions to BSDC are determined by clinicians and DHHS Executive Medical Officer to be in need of active treatment services as required under 42 C.F.R. § 483.440(b).</p>	<p>4/17/2024</p>
	<p>The BSDC Crisis Stabilization and Community Reintegration program was implemented in May 2017 to address a critical gap in serving the adult population participating in the Medicaid Home and Community Based Services for the Developmental Disabilities Waiver programs. Placement is temporary and may last between 30 and 180 days with individualized plans of care but can vary dependent upon the individual being supported. This is a period of intense treatment, stabilization (medical and/or behavioral) and habilitation (skills for preparation to return to the community) with continued transition supports with reintegration into the community. The facility will ensure that active treatment is provided to address deficits identified so that individual maintains and attains needed skills for highest level of independence.</p>	<p>4/17/2024</p>
	<p>The ICF/IID provides active treatment services by focusing on instrumental (Independent) ADLS with primary focus of on-site employment opportunities, managing finances, shopping, and meal preparation, housekeeping and home maintenance, communication with others and managing medications. In addition, patients benefit from active treatment in the areas of self-direction and capacity for independent living, which are areas of major life activity in which Client 3 and 4 have been assessed to have substantial functional limitations as part of the clinical determination that both clients have intellectual disability or a related condition as that term is defined under 42 C.F.R. § 435.1010. Both Client 3 and Client 4 are assessed and require habilitation/active treatment to acquire the skills and behaviors needed to function in society so that Client 3 and Client 4 do not pose threat of harm to themselves or others and are able to cope with their personal needs and demands of their environment. Both client 3 and 4 need and are receiving active treatment to ensure their acquisition of the behaviors necessary for them to function with as much self determination and independence as possible given their behavioral limitations, as required under 42 C.F.R. § 483.440(a)(1)(i), and to prevent or decelerate regression or loss of current optimal functional status as required under 42 C.F.R. § 483.440(a)(1)(ii). The instrumental ADLS assist in preparation of ultimately returning to a community provider while working diligently with other providers to find alternative placement.</p>	<p>4/17/2024</p>

	<p>Beatrice State Developmental Center through collaborative efforts of BSDC leadership and clinical community services, are holding bi-weekly collaborative meetings to discuss both current individuals residing at the State ICF Crisis Stabilization Unit and any potential admissions, if known, to BSDC State ICF. The meetings will include the following members: BSDC Facility Administrator, BSDC Area Administrator, BSDC Quality Control Supervisor, DHHS attorney, and Administrators of community based services with Service Coordination and Clinical Administrator.</p> <p>For current individuals residing at the State ICF, will provide ongoing review of the individuals program plans and current needs to ensure appropriateness for services at the State ICF. Should an individual have changes identified in which they may no longer need or benefit from active treatment, referrals and transition planning to discharge will be started.</p> <p>For potential admissions, the team will review and discuss individuals needs, developmental deficits, if they will benefit from active treatment, and the appropriateness for services at the State ICF.</p> <p>If there is awareness of a potential court order to the State ICF and information is available for review, the team will review and based on information available, the team will provide recommendations of the appropriateness of the admission to the State ICF. If individual is believed to not meet identified needs, information will be shared to the court to not recommend placement at the ICF.</p> <p>This should correct or improve appropriate admissions since there will be additional discussions and reviews of individuals.</p>	4/17/2024
	<p>ICF Management will meet weekly to monitor and track progress while actively working toward Client 3 being discharged from the State Building ICF at the Beatrice State Developmental Center within 30 days.</p>	5/3/2024
	<p>Client 4 has been discharged from the State Building ICF at the Beatrice State Developmental Center effective 4/1/2024.</p>	4/1/2024
	<p>For all other clients residing in State Building ICF, the facility will review current individuals' deficits that require the structure, support and resources that services of an ICF/IID level of care can provide and ensure those deficits have appropriate habilitation to address.</p>	4/17/2024
	<p><b>C. THE MONITORING OR TRACKING PROCEDURE(S) TO ENSURE THE FACILITY IS EFFECTIVE IN CORRECTING THE DEFICIENCY AND TO ENSURE THE FACILITY REMAINS IN COMPLIANCE WITH THIS DEFICIENCY:</b></p>	
	<p>At the time of admission, all referrals to the Beatrice State Developmental Center for services have been determined by clinicians to meet eligibility for DD services and meet ICF/IID level of care requirements. Upon admission, additional on-site assessments and evaluations are completed to determine an individual's strengths and active treatment needs. 	Client 4 has been discharged from the State Building ICF at the Beatrice State Developmental Center effective 4/1/2024.	4/1/2024
	For Client 3, ICF Administration (Facility Administrator, Area Administrator, and Quality Control Supervisor) will meet weekly to monitor and track progress toward discharging Client 3.	5/3/2024
	<b>D. THE TITLE OF THE PERSON RESPONSIBLE FOR ENSURING THE FACILITY REMAINS IN COMPLIANCE WITH THE CITED DEFICIENCY: (Do not put the staff names).</b>	
	The ICF Facility Administrator will be the responsible position for monitoring to ensure compliance.	4/17/2024
<b>W 249</b>	<b>A. ACTION(S) THAT WILL BE TAKEN TO CORRECT THIS DEFICIENCY - ALONG WITH A DESCRIPTION OF HOW THE ACTION WILL CORRECT OR IMPROVE THE PROCESSES THAT LEAD TO THE CITED DEFICIENCY:</b>	
	<i>Based on observation, record review and interviews the facility failed to ensure training programs and protocol strategies for Client 1 were consistently implemented in accordance with the Client's Individual Support Plan (ISP).</i>	
	For Client 1, the ISP identified a dining protocol and strategies to address the client's dysphagia and hyponatremia. The IDT reviewed and approved new dining strategies and diet texture changes as identified on the Dining Card.	4/17/2024

	<b>B. THE PROCEDURE FOR IMPLEMENTING THE CORRECTIVE ACTION(S):</b>	
	Through observations, QIDP confirmed that Client 1 did not have sufficient fluid to last an entire meal and that staff adjusting or providing additional fluids when Client 1 coughed while eating, failed to follow Client 1's ISP and dietary protocol strategies. The IDT met on 3/1/2024 to review the dining protocol and strategies to address the dysphagia and hyponatremia to ensure that Client 1 has adequate fluids available during meals. Client 1's Dining Card was updated to reflect fluids at mealtime. All 400 State Building ICF staff will be in-serviced on the revised dining protocols and strategies.	4/17/2024
	For all other individuals residing within the State Building ICF, all staff will be re-in-serviced on mealtime protocols and strategies as outlined in the Individual Support Plan (ISP).	4/17/2024
	<b>C. THE MONITORING OR TRACKING PROCEDURE(S) TO ENSURE THE FACILITY IS EFFECTIVE IN CORRECTING THE DEFICIENCY AND TO ENSURE THE FACILITY REMAINS IN COMPLIANCE WITH THIS DEFICIENCY:</b>	
	A monitoring system will be developed to ensure implementation of mealtime protocols and strategies to be completed by the Compliance Specialists, QDDPs, Home Managers and DTSSs.	4/17/2024
	<b>D. THE TITLE OF THE PERSON RESPONSIBLE FOR ENSURING THE FACILITY REMAINS IN COMPLIANCE WITH THE CITED DEFICIENCY: (Do not put the staff names).</b>	
	The ICF Facility Administrator will be the responsible position for monitoring to ensure compliance.	4/17/2024
<b>W 473</b>	<b>A. ACTION(S) THAT WILL BE TAKEN TO CORRECT THIS DEFICIENCY - ALONG WITH A DESCRIPTION OF HOW THE ACTION WILL CORRECT OR IMPROVE THE PROCESSES THAT LEAD TO THE CITED DEFICIENCY:</b>	
	<i>Based on observation, interview and record review, the facility failed to ensure that foods provided to 1 of 2 living units (3070 State) by the Social Center delivery were stored and served at the appropriate food safe temperature.</i>	
	During environmental observation on 2/28/24 at 3:13 PM, on 3070 State Avenue, three plastic hot food containers containing peas and carrots, ground steak, and potatoes were in the oven which was not turned on. Home Manager B verified that food prepared in the Carstens Café was delivered between 1:30-2:00 PM every Tuesday, Wednesday and Thursday and that staff and clients delivering the food were responsible for ensuring the oven was turned on to keep foods hot. Home Manager B confirmed the hot food containers had been sitting in a cold oven for an hour and fifteen minutes up to an hour and forty-five minutes. According to Home Manager B, the hot items were not safe to serve clients.	4/17/2024
	<b>B. THE PROCEDURE FOR IMPLEMENTING THE CORRECTIVE ACTION(S):</b>	

	During environmental observation on 2/28/24 at 3:13 PM, on 3070 State Avenue, three plastic hot food containers containing peas and carrots, ground steak, and potatoes were in the oven which was not turned on. Home Manager B verified that food prepared in the Carstens Café was delivered between 1:30-2:00 PM every Tuesday, Wednesday and Thursday and that staff and clients delivering the food were responsible for ensuring the oven was turned on to keep foods hot. Home Manager B confirmed the hot food containers had been sitting in a cold oven for an hour and fifteen minutes up to an hour and forty-five minutes. According to Home Manager B, the hot items were not safe to serve clients.	4/17/2024
	The Active Treatment Program Manager was notified on this date of the oven not being turned on and food containers in the cold oven. All food delivery bags have now been marked to state <b><i>“turn on ovens and set temperature to 170 degrees”</i></b> . An email was sent by Home Manager to all 400 State Building ICF staff encouraging staff and individuals delivering food to the homes to take their time and to turn the oven on to 170 degrees to ensure hot food containers maintain the appropriate temperature.	4/17/2024
	<b>C. THE MONITORING OR TRACKING PROCEDURE(S) TO ENSURE THE FACILITY IS EFFECTIVE IN CORRECTING THE DEFICIENCY AND TO ENSURE THE FACILITY REMAINS IN COMPLIANCE WITH THIS DEFICIENCY:</b>	
	A monitoring system will be developed to ensure that food items delivered to the homes are maintained at the appropriate temperature for consumption by the Active Treatment Program Manager conducting weekly spot checks by assisting with food deliveries.	4/17/2024
	<b>D. THE TITLE OF THE PERSON RESPONSIBLE FOR ENSURING THE FACILITY REMAINS IN COMPLIANCE WITH THE CITED DEFICIENCY: (Do not put the staff names).</b>	
	The ICF Facility Administrator will be the responsible position for monitoring to ensure compliance.	4/17/2024

Dawn Urbaschek, Administrator  
400 State Building  
3104, 3070, 3071 State Ave  
Beatrice, NE 68310

Dear Ms. Urbaschek:

After reviewing the findings of the onsite revisit survey conducted for your Intermediate Care Facility For Intellectually Disabled on May 30, 2024 by a representative of this Department, we are pleased to inform you that your facility is in substantial compliance.

The enclosed form indicates the survey results. Please retain for your files.

If you have any questions, please contact this office.

Sincerely,

Mark Luger - Program Manager II  
DHHS Public Health - Licensure Unit  
Office of DD and Behavioral Health  
PO Box 94669, Lincoln, NE 68509-4669

{W 000}	<b>INITIAL COMMENTS</b>  A representative of the DHHS, Division of Public Health, conducted a Revisit on 5/30/24 to the 3/4/24 Recertification Survey. This revisit was to assess compliance with Appendix J regulations for Intermediate Care Facilities for Individuals with Intellectual Disabilities. All previously cited deficiencies, include the Conditions of Participation for Governing Body and Active Treatment, were corrected at the time of this Revisit. The facility census was 3 at the time of the Recertification revisit.	{W 000}			
LABORATORY DIRECTOR'S OR PROVIDER/SUPPLIER REPRESENTATIVE'S SIGNATURE			TITLE	(X6) DATE	

Any deficiency statement ending with an asterisk (\*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.

The doors weren't closing because the return springs were unhooked, I re-attached them. I lubricated the hinges and latch mechanisms for good measure. I tested the doors and they are closing and latching now.

**NOTES**

3/20/2024 9:51 AM - Steven Robertson Wrote: The door is not latching because it has a door opener that wasn't installed correctly - the push bar has the latch locked in the retracted position because there is no solenoid operated latch plate, so if the door is latched and the opener activated it would be pushing against the latch and wouldn't open. We are contacting a contractor to correct the issue.

The door closer was seized up. That room has had a leak in the past and water had run down and corroded the closer and mounting hardware making it difficult to remove them. We removed the bad closer, tightened all hardware, lubricated the hinges and lockset, and installed and adjusted a new closer. Terry Brown assisted for training.

Caulked hole in ceiling that was requested. While I had the tube of caulking open, I proceeded to fill in other places that I thought needed done. The caulking used was 3M fire barrier sealant. I also rechecked fire extinguisher and signed tag on fire extinguisher that I had not signed off on originally. I contacted Mike Balderson to check on the work and the fire extinguisher tag. All work and corrections he approved.

**NOTES**

### PROVIDER'S PLAN OF CORRECTION

(EACH CORRECTIVE ACTION SHOULD BE CROSS-REFERENCED TO THE APPROPRIATE DEFICIENCY)

COMPLETION DATE

CITED TAG #	(EACH CORRECTIVE ACTION SHOULD BE CROSS-REFERENCED TO THE APPROPRIATE DEFICIENCY)	COMPLETION DATE
<b>Bldg. 3 200 Sheridan Building</b>		
<b>K 000</b>	<b>A. ACTION(S) THAT WILL BE TAKEN TO CORRECT THIS DEFICIENCY - ALONG WITH A DESCRIPTION OF HOW THE ACTION WILL CORRECT OR IMPROVE THE PROCESSES THAT LEAD TO THE CITED DEFICIENCY:</b>	
	200 Sheridan was found not to be in compliance with the requirements for participation in Medicare/Medicaid at 42 CFR483.470 Life Safety from Fire and the related National Fire Protection Association (NFPA) Standard 101-2012	7/30/2024
	<b>B. THE PROCEDURE FOR IMPLEMENTING THE CORRECTIVE ACTION(S):</b>	
	It is anticipated that with the correction of K0200 (ensuring the east and west exit lights in the Activity Center were lowered and clearly visible) and the correction of K0363 (ensuring that the corridor door with self-closing device will latch within the doorframe of the Activity Center) that the facility meets the requirements for participation in Medicare/Medicaid at 42 CFR 83.470 Life Safety from Fire and the related National Fire Protection Association (NFPA) Standard 101-2012.	7/30/2024
	<b>C. THE MONITORING OR TRACKING PROCEDURE(S) TO ENSURE THE FACILITY IS EFFECTIVE IN CORRECTING THE DEFICIENCY AND TO ENSURE THE FACILITY REMAINS IN COMPLIANCE WITH THIS DEFICIENCY:</b>	
	The Facility Maintenance Manager will be the responsible position to monitor and ensure compliance.	7/30/2024
	<b>D. THE TITLE OF THE PERSON RESPONSIBLE FOR ENSURING THE FACILITY REMAINS IN COMPLIANCE WITH THE CITED DEFICIENCY: (Do not put the staff names).</b>	
	The Facility Maintenance Manager will be the responsible position to monitor and ensure compliance.	7/30/2024

<b>K0200</b>	<b>A. ACTION(S) THAT WILL BE TAKEN TO CORRECT THIS DEFICIENCY - ALONG WITH A DESCRIPTION OF HOW THE ACTION WILL CORRECT OR IMPROVE THE PROCESSES THAT LEAD TO THE CITED DEFICIENCY:</b>	
	<b>Observation on 4-12-2024 revealed:</b>	
	Based on observation on 4/12/2024, the facility failed to assure the east and west exit signs in the Activity Center were visible.	7/29/2024
	<b>B. THE PROCEDURE FOR IMPLEMENTING THE CORRECTIVE ACTION(S):</b>	
	Maintenance Work Order #26421 was submitted on 7/25/2024 to the Maintenance Department to lower the east and west exit lights in the Activity Center to ensure that they are clearly visible for staff and individuals served. On July 29, 2024 Maintenance notified that the east and west exit lights in the Activity Center have been lowered and are in direct line of sight.	7/29/2024
	<b>C. THE MONITORING OR TRACKING PROCEDURE(S) TO ENSURE THE FACILITY IS EFFECTIVE IN CORRECTING THE DEFICIENCY AND TO ENSURE THE FACILITY REMAINS IN COMPLIANCE WITH THIS DEFICIENCY:</b>	
	The Facility Maintenance Manager is the responsible position to monitor and ensure compliance.	7/29/2024

<b>K0363</b>	<b>A. ACTION(S) THAT WILL BE TAKEN TO CORRECT THIS DEFICIENCY - ALONG WITH A DESCRIPTION OF HOW THE ACTION WILL CORRECT OR IMPROVE THE PROCESSES THAT LEAD TO THE CITED DEFICIENCY:</b>	
	Based on observation on 4/12/2024, the facility failed to assure the corridor door with self closing device to the Activity Center would latch within the doorframe when closed.	7/30/2024
	<b>B. THE PROCEDURE FOR IMPLEMENTING THE CORRECTIVE ACTION(S):</b>	

	<p>Maintenance Work Order #26422 was submitted on 7/25/2024 to the Maintenance Department to repair the corridor door with with closing device to the Activity Center to assure the door will latch within the doorframe when closed. Maintenance noted that on April 12, 2024 the Safety Coorinator notified the Maintenance Department that the corridor door to the Activity Center was not closing and latching within the doorframe. During this time period, the building was having air pressure balance issues. The building pressure issues have been resolved and no longer occurs. The door was rechecked on July 30, 2024 and it closes and latches within the doorframe.</p>	7/30/2024

Kyle,

We will have the inspection complete on Friday August 16<sup>th</sup>. I will begin working on the report Monday. If there are no unforeseen hiccups, I could have it completed and emailed to you by Wednesday August 21<sup>st</sup>. Let me know how else I can help.

Thank you,  
Jason

**Subject:** Question

Part of the plan of correction is being able to provide documentation and a list of all fire rated doors. When the inspection is completed, will we get a list that day or will we have to wait? If we have to wait, HOW long? Sorry, I know I am bombarding you, but I am trying figure out what "completion" date I can put on the form.

<https://stateofnebraska.corrigo.com/CP30/follow-link?FollowLinkId=1&ActionId=6&WoKey=hmmf9k5km31r8ko18ghjz9q8or>

**Completion Notes:**

On April 12th, 2024 the Safety Director (Mike Balderson) notified us that the Fire Marshal had found West Wing Room 208, the Activity Center's west hall entry door, was not closing and latching. I checked the door and it was latching perfectly, however during that time period we were having building air pressure balance issues, basically the air handler was bringing in too much outside air due to a flaw in it's free cooling programming. It only happened when the building was calling for cooling and the outside air temperature was below 65 degrees. When it happened air pressure would push against the doors and keep some from latching, especially doors near outside exit/entry doors and this door is right across the hall from one, so our thought was they checked it during a time of high building pressure. The building pressure issue has been resolved and no longer occurs. I checked the door on Tuesday, July 30th, 2024 and it is closing and latching perfectly.

## Fire Alarm Inspection- NFPA 72 (2013)

This testing was performed in accordance with applicable NFPA 72 Standards.

Midwest Alarm Services provides many services to our community. If you would like quarterly, semi-annual or annual testing/inspection, the inspection coordinator can reach out and offer inspections on a time and material basis. Signing an Inspection Agreement with Midwest Alarm Services has many benefits. Not only do you save money, but our inspection coordinator will work with you to ensure your Fire System stays in code as well as has proper documentation sent to the local jurisdiction for compliance. If you need an estimate or have questions about our services, please reach out to our operations manager.

If you would like quarterly, semi-annual or annual testing/inspection, the inspection coordinator can reach out and offer inspections on a time and material basis. Signing an Inspection Agreement with Midwest Alarm Services has many benefits. Not only do you save money, but our inspection coordinator will work with you to ensure your Fire System stays in code as well as has proper documentation sent to the local jurisdiction for compliance. If you need an estimate or have questions about our services, please reach out to our operations manager.

## Comments

Number	COMMENT	IMAGE
1	Annual Fire Extinguisher Inspection. No issues.	

**Tech connected. Lives protected.**

## **Conclusion**

We appreciate the opportunity to provide this inspection report. We are confident in the accuracy of the contents of this report. Should you require any additional services, or have questions regarding the contents of this report, please do not hesitate to contact your Midwest Alarm Services representative at 308-389-3981.

### **Life Safety Solutions Experts Since 1950**

For more than 70 years, Midwest Alarm Services has been providing the best, innovative fire, security and technology solutions for homes and businesses. As a systems integrator, we can design, install, maintain, monitor and service a wide variety of equipment and software. We take the time to understand your needs and customized solutions to fit your needs and budget. To learn more about our company and the services we provide, please visit:

## Fire Alarm Inspection- NFPA 72 (2013)

This testing was performed in accordance with applicable NFPA 72 Standards.

Midwest Alarm Services provides many services to our community. If you would like quarterly, semi-annual or annual testing/inspection, the inspection coordinator can reach out and offer inspections on a time and material basis. Signing an Inspection Agreement with Midwest Alarm Services has many benefits. Not only do you save money, but our inspection coordinator will work with you to ensure your Fire System stays in code as well as has proper documentation sent to the local jurisdiction for compliance. If you need an estimate or have questions about our services, please reach out to our operations manager.

Midwest Alarm Services provides many services to our community. If you would like quarterly, semi-annual or annual testing/inspection, the inspection coordinator can reach out and offer inspections on a time and material basis. Signing an Inspection Agreement with Midwest Alarm Services has many benefits. Not only do you save money, but our inspection coordinator will work with you to ensure your Fire System stays in code as well as has proper documentation sent to the local jurisdiction for compliance. If you need an estimate or have questions about our services, please reach out to our operations manager.

## Fire Alarm Inspection- NFPA 72 (2013)

This testing was performed in accordance with applicable NFPA 72 Standards.

Midwest Alarm Services provides many services to our community. If you would like quarterly, semi-annual or annual testing/inspection, the inspection coordinator can reach out and offer inspections on a time and material basis. Signing an Inspection Agreement with Midwest Alarm Services has many benefits. Not only do you save money, but our inspection coordinator will work with you to ensure your Fire System stays in code as well as has proper documentation sent to the local jurisdiction for compliance. If you need an estimate or have questions about our services, please reach out to our operations manager.

# Service & Inspection Report 1

## Specification

Type/Make/Model	Guardian / G300-A
-----------------	-------------------

## General Information

Manufacturer	GSSI
Control Head Type	Heat Detectors
Cylinder Size	-
HST Date	05/22/2031
Best Time for Gas Shutdown	-
Repairs Required - No Longer Serviceable	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>

## System Layout

Number of Plenum Nozzles:	-
Number of Duct Nozzles:	-
Number of Surface Nozzles:	2
Number of Detectors	2
Type and Temp of Detectors	Electronic Heat Detectors
Remote Pull Station	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
Reset Relay	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
Fire Alarm Connection	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
ETL	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
Washdown Connection	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
Gas	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
Electrical	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
Fuel Shut-Off	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>

## System Inspection

1. Check general system design	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
2a. Check pressure gauge	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
2b. Gauge pressure (psi)	100
3. All lead and wire seals are intact	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
4. There are no visible signs that system(s) has fired or been tampered with. If so, check & report.	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
5a. Replace/check cartridge	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
5b. Cartridge weight	-
5c. Cartridge date	-
6. Check all piping and conduit; must be immobilized with proper hangers and brackets	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
7. Check positioning of all nozzles	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
8. Check action on self-closing caps	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
9. Replace all protective covers on nozzles	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
10. System operated manually	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
11. System operated automatically by cutting terminal link	N/A
12. Test proper operation of gas valve(s)	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
13. Test proper operation of micro switch (electric shutdown, washdown)	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
14. Check operation of multiple systems, all tripped	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
15. Replace and seal all safety pins in manual & remote releases	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
16. Fuel shut-off is in "ON" position	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
17. Check exhaust fan for operating order	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
18. Clean system cylinder & component parts	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
19. Fan warning sign on hood	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
20. Distributor emergency phone number on system	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
21. Inspection & servicing tag are on system	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>

22. Personnel has been instructed on manual operation of system(s)	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
23. Hand portable extinguishers serviced	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
24. Pin removed, tension set, system armed	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
25. Canopy/ Duct Const	-

### Deficiencies

System is free of deficiencies and functions as required?	Yes

## Fire Alarm Inspection- NFPA 72 (2013)

This testing was performed in accordance with applicable NFPA 72 Standards.

Midwest Alarm Services provides many services to our community. If you would like quarterly, semi-annual or annual testing/inspection, the inspection coordinator can reach out and offer inspections on a time and material basis. Signing an Inspection Agreement with Midwest Alarm Services has many benefits. Not only do you save money, but our inspection coordinator will work with you to ensure your Fire System stays in code as well as has proper documentation sent to the local jurisdiction for compliance. If you need an estimate or have questions about our services, please reach out to our operations manager.

# Service & Inspection Report 1

## Specification

Type/Make/Model	Guardian / G300-A
-----------------	-------------------

## General Information

Manufacturer	GSSI
Control Head Type	Heat Detectors
Cylinder Size	-
HST Date	05/22/2031
Best Time for Gas Shutdown	-
Repairs Required - No Longer Serviceable	YES <input type="checkbox"/> NO <input checked="" type="checkbox"/> N/A <input type="checkbox"/>

## System Layout

Number of Plenum Nozzles:	-
Number of Duct Nozzles:	-
Number of Surface Nozzles:	2
Number of Detectors	2
Type and Temp of Detectors	Electronic Heat Detectors
Remote Pull Station	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
Reset Relay	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
Fire Alarm Connection	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
ETL	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
Washdown Connection	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
Gas	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
Electrical	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
Fuel Shut-Off	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>

## System Inspection

1. Check general system design	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
2a. Check pressure gauge	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
2b. Gauge pressure (psi)	100
3. All lead and wire seals are intact	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
4. There are no visible signs that system(s) has fired or been tampered with. If so, check & report.	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
5a. Replace/check cartridge	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
5b. Cartridge weight	-
5c. Cartridge date	-
6. Check all piping and conduit; must be immobilized with proper hangers and brackets	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
7. Check positioning of all nozzles	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
8. Check action on self-closing caps	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
9. Replace all protective covers on nozzles	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
10. System operated manually	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
11. System operated automatically by cutting terminal link	N/A
12. Test proper operation of gas valve(s)	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
13. Test proper operation of micro switch (electric shutdown, washdown)	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
14. Check operation of multiple systems, all tripped	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
15. Replace and seal all safety pins in manual & remote releases	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
16. Fuel shut-off is in "ON" position	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
17. Check exhaust fan for operating order	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
18. Clean system cylinder & component parts	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
19. Fan warning sign on hood	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
20. Distributor emergency phone number on system	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
21. Inspection & servicing tag are on system	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>

22. Personnel has been instructed on manual operation of system(s)	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
23. Hand portable extinguishers serviced	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
24. Pin removed, tension set, system armed	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
25. Canopy/ Duct Const	-

### Deficiencies

System is free of deficiencies and functions as required?	Yes

Midwest Alarm Services provides many services to our community. If you would like quarterly, semi-annual or annual testing/inspection, the inspection coordinator can reach out and offer inspections on a time and material basis. Signing an Inspection Agreement with Midwest Alarm Services has many benefits. Not only do you save money, but our inspection coordinator will work with you to ensure your Fire System stays in code as well as has proper documentation sent to the local jurisdiction for compliance. If you need an estimate or have questions about our services, please reach out to our operations manager.

# Service & Inspection Report 1

## Specification

Type/Make/Model	Guardian / G300-A
-----------------	-------------------

## General Information

Manufacturer	GSSI
Control Head Type	Heat Detectors
Cylinder Size	-
HST Date	05/22/2031
Best Time for Gas Shutdown	-
Repairs Required - No Longer Serviceable	YES <input type="checkbox"/> NO <input checked="" type="checkbox"/> N/A <input type="checkbox"/>

## System Layout

Number of Plenum Nozzles:	-
Number of Duct Nozzles:	-
Number of Surface Nozzles:	2
Number of Detectors	2
Type and Temp of Detectors	Electronic Heat Detectors
Remote Pull Station	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
Reset Relay	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
Fire Alarm Connection	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
ETL	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
Washdown Connection	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
Gas	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
Electrical	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
Fuel Shut-Off	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>

## System Inspection

1. Check general system design	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
2a. Check pressure gauge	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
2b. Gauge pressure (psi)	100
3. All lead and wire seals are intact	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
4. There are no visible signs that system(s) has fired or been tampered with. If so, check & report.	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
5a. Replace/check cartridge	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
5b. Cartridge weight	-
5c. Cartridge date	-
6. Check all piping and conduit; must be immobilized with proper hangers and brackets	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
7. Check positioning of all nozzles	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
8. Check action on self-closing caps	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
9. Replace all protective covers on nozzles	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
10. System operated manually	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
11. System operated automatically by cutting terminal link	N/A
12. Test proper operation of gas valve(s)	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
13. Test proper operation of micro switch (electric shutdown, washdown)	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
14. Check operation of multiple systems, all tripped	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
15. Replace and seal all safety pins in manual & remote releases	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
16. Fuel shut-off is in "ON" position	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
17. Check exhaust fan for operating order	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
18. Clean system cylinder & component parts	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
19. Fan warning sign on hood	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
20. Distributor emergency phone number on system	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
21. Inspection & servicing tag are on system	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>

22. Personnel has been instructed on manual operation of system(s)	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
23. Hand portable extinguishers serviced	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
24. Pin removed, tension set, system armed	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
25. Canopy/ Duct Const	-

### Deficiencies

System is free of deficiencies and functions as required?	Yes

## Fire Alarm Inspection- NFPA 72 (2013)

This testing was performed in accordance with applicable NFPA 72 Standards.

Midwest Alarm Services provides many services to our community. If you would like quarterly, semi-annual or annual testing/inspection, the inspection coordinator can reach out and offer inspections on a time and material basis. Signing an Inspection Agreement with Midwest Alarm Services has many benefits. Not only do you save money, but our inspection coordinator will work with you to ensure your Fire System stays in code as well as has proper documentation sent to the local jurisdiction for compliance. If you need an estimate or have questions about our services, please reach out to our operations manager.

## Fire Alarm Inspection- NFPA 72 (2013)

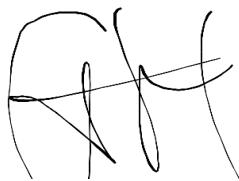

This testing was performed in accordance with applicable NFPA 72 Standards.

Midwest Alarm Services provides many services to our community. If you would like quarterly, semi-annual or annual testing/inspection, the inspection coordinator can reach out and offer inspections on a time and material basis. Signing an Inspection Agreement with Midwest Alarm Services has many benefits. Not only do you save money, but our inspection coordinator will work with you to ensure your Fire System stays in code as well as has proper documentation sent to the local jurisdiction for compliance. If you need an estimate or have questions about our services, please reach out to our operations manager.

## Fire Alarm Inspection- NFPA 72 (2013)

This testing was performed in accordance with applicable NFPA 72 Standards.

Midwest Alarm Services provides many services to our community. If you would like quarterly, semi-annual or annual testing/inspection, the inspection coordinator can reach out and offer inspections on a time and material basis. Signing an Inspection Agreement with Midwest Alarm Services has many benefits. Not only do you save money, but our inspection coordinator will work with you to ensure your Fire System stays in code as well as has proper documentation sent to the local jurisdiction for compliance. If you need an estimate or have questions about our services, please reach out to our operations manager.

## Fire Alarm Inspection- NFPA 72 (2013)

This testing was performed in accordance with applicable NFPA 72 Standards.

Midwest Alarm Services provides many services to our community. If you would like quarterly, semi-annual or annual testing/inspection, the inspection coordinator can reach out and offer inspections on a time and material basis. Signing an Inspection Agreement with Midwest Alarm Services has many benefits. Not only do you save money, but our inspection coordinator will work with you to ensure your Fire System stays in code as well as has proper documentation sent to the local jurisdiction for compliance. If you need an estimate or have questions about our services, please reach out to our operations manager.

# Service & Inspection Report 1

## Specification

Type/Make/Model	Guardian / G300-A
-----------------	-------------------

## General Information

Manufacturer	GSSI
Control Head Type	Heat Detectors
Cylinder Size	-
HST Date	05/22/2031
Best Time for Gas Shutdown	-
Repairs Required - No Longer Serviceable	YES <input type="checkbox"/> NO <input checked="" type="checkbox"/> N/A <input type="checkbox"/>

## System Layout

Number of Plenum Nozzles:	-
Number of Duct Nozzles:	-
Number of Surface Nozzles:	2
Number of Detectors	2
Type and Temp of Detectors	Electronic Heat Detectors
Remote Pull Station	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
Reset Relay	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
Fire Alarm Connection	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
ETL	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
Washdown Connection	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
Gas	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
Electrical	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
Fuel Shut-Off	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>

## System Inspection

1. Check general system design	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
2a. Check pressure gauge	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
2b. Gauge pressure (psi)	100
3. All lead and wire seals are intact	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
4. There are no visible signs that system(s) has fired or been tampered with. If so, check & report.	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
5a. Replace/check cartridge	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
5b. Cartridge weight	-
5c. Cartridge date	-
6. Check all piping and conduit; must be immobilized with proper hangers and brackets	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
7. Check positioning of all nozzles	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
8. Check action on self-closing caps	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
9. Replace all protective covers on nozzles	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
10. System operated manually	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
11. System operated automatically by cutting terminal link	N/A
12. Test proper operation of gas valve(s)	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
13. Test proper operation of micro switch (electric shutdown, washdown)	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
14. Check operation of multiple systems, all tripped	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
15. Replace and seal all safety pins in manual & remote releases	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
16. Fuel shut-off is in "ON" position	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
17. Check exhaust fan for operating order	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
18. Clean system cylinder & component parts	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
19. Fan warning sign on hood	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
20. Distributor emergency phone number on system	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
21. Inspection & servicing tag are on system	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>

22. Personnel has been instructed on manual operation of system(s)	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
23. Hand portable extinguishers serviced	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
24. Pin removed, tension set, system armed	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>

# Notes & Recommendations

Generated by: BuildingReports.com

## Building: Beatrice State Development D Building

The Notes & Recommendations Report details additional inspection notes made by the Inspectors during the course of the building inspection. Notes are grouped by SystemID.

Note	Device Type	Location	Comment	ScanID
<b><i>Building- Wet Pipe, Building-</i></b>				
1	Check Valve	Basement East Mechanical		68041421
	Valve moves freely at this time			
2	Gauge	Basement East Mechanical		68041423
	5 gages replaced on this date			
3	Piping	Basement East Mechanical		68041422
	No sign of corrosion or blockage at this time			

# Sprinkler Inspection Certificate

*For*

Beatrice State Development D  
Building  
941 Sheridan Dr.  
Beatrice, Nebraska 68310

Tested to NFPA 25 Standards

*This Inspection was performed in accordance with applicable NFPA Standards. The subsequent pages of this report provide performance measurements, listed ranges of acceptable results, and complete documentation of the inspection. Whenever discrepancies exist between acceptable performance standards and actual test results, notes and/or recommended solutions have been proposed or provided for immediate review and approval.*

*Semi-Annual Inspection*

*Inspection Date*

*Mar 28, 2023*

## Building: Beatrice State Development D Building

The Notes & Recommendations Report details additional inspection notes made by the Inspectors during the course of the building inspection. Notes are grouped by SystemID.

Note	Device Type	Location	Comment	ScanID
<b><i>Building- Wet Pipe, Building-</i></b>				
1	Check Valve	Basement East Mechanical		68041421
	Valve moves freely at this time			
2	Gauge	Basement East Mechanical		68041423
	5 gages replaced on this date			
3	Piping	Basement East Mechanical		68041422
	No sign of corrosion or blockage at this time			

# Sprinkler Inspection Certificate

*For*

Beatrice State Development D  
Building  
941 Sheridan Dr.  
Beatrice, Nebraska 68310

Tested to NFPA 25 Standards

*This Inspection was performed in accordance with applicable NFPA Standards. The subsequent pages of this report provide performance measurements, listed ranges of acceptable results, and complete documentation of the inspection. Whenever discrepancies exist between acceptable performance standards and actual test results, notes and/or recommended solutions have been proposed or provided for immediate review and approval.*

*Semi-Annual Inspection*

*Inspection Date*

*Mar 28, 2023*

Midwest Alarm Services provides many services to our community. If you would like quarterly, semi-annual or annual testing/inspection, the inspection coordinator can reach out and offer inspections on a time and material basis. Signing an Inspection Agreement with Midwest Alarm Services has many benefits. Not only do you save money, but our inspection coordinator will work with you to ensure your Fire System stays in code as well as has proper documentation sent to the local jurisdiction for compliance. If you need an estimate or have questions about our services, please reach out to our operations manager.

# Service & Inspection Report 1

## Specification

Type/Make/Model	Guardian / G300-A
-----------------	-------------------

## General Information

Manufacturer	GSSI
Control Head Type	-
Cylinder Size	-
HST Date	05/22/2023
Best Time for Gas Shutdown	-
Repairs Required - No Longer Serviceable	YES <input type="checkbox"/> NO <input checked="" type="checkbox"/> N/A <input type="checkbox"/>

## System Layout

Number of Plenum Nozzles:	-
Number of Duct Nozzles:	-
Number of Surface Nozzles:	2
Number of Detectors	2
Type and Temp of Detectors	Electronic Heat Detectors
Remote Pull Station	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
Reset Relay	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
Fire Alarm Connection	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
ETL	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
Washdown Connection	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
Gas	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
Electrical	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
Fuel Shut-Off	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>

## System Inspection

1. Check general system design	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
2a. Check pressure gauge	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
2b. Gauge pressure (psi)	100
3. All lead and wire seals are intact	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
4. There are no visible signs that system(s) has fired or been tampered with. If so, check & report.	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
5a. Replace/check cartridge	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
5b. Cartridge weight	-
5c. Cartridge date	-
6. Check all piping and conduit; must be immobilized with proper hangers and brackets	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
7. Check positioning of all nozzles	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
8. Check action on self-closing caps	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
9. Replace all protective covers on nozzles	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
10. System operated manually	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
11. System operated automatically by cutting terminal link	N/A
12. Test proper operation of gas valve(s)	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
13. Test proper operation of micro switch (electric shutdown, washdown)	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
14. Check operation of multiple systems, all tripped	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
15. Replace and seal all safety pins in manual & remote releases	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
16. Fuel shut-off is in "ON" position	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
17. Check exhaust fan for operating order	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
18. Clean system cylinder & component parts	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
19. Fan warning sign on hood	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
20. Distributor emergency phone number on system	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
21. Inspection & servicing tag are on system	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>

22. Personnel has been instructed on manual operation of system(s)	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
23. Hand portable extinguishers serviced	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
24. Pin removed, tension set, system armed	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
25. Canopy/ Duct Const	-

## Fire Alarm Inspection- NFPA 72 (2013)

This testing was performed in accordance with applicable NFPA 72 Standards.

Midwest Alarm Services provides many services to our community. If you would like quarterly, semi-annual or annual testing/inspection, the inspection coordinator can reach out and offer inspections on a time and material basis. Signing an Inspection Agreement with Midwest Alarm Services has many benefits. Not only do you save money, but our inspection coordinator will work with you to ensure your Fire System stays in code as well as has proper documentation sent to the local jurisdiction for compliance. If you need an estimate or have questions about our services, please reach out to our operations manager.

## Kitchen Report

This testing was performed in accordance with applicable NFPA 72 Standards.

Midwest Alarm Services provides many services to our community. If you would like quarterly, semi-annual or annual testing/inspection, the inspection coordinator can reach out and offer inspections on a time and material basis. Signing an Inspection Agreement with Midwest Alarm Services has many benefits. Not only do you save money, but our inspection coordinator will work with you to ensure your Fire System stays in code as well as has proper documentation sent to the local jurisdiction for compliance. If you need an estimate or have questions about our services, please reach out to our operations manager.

# Service & Inspection Report 1

## Specification

Type/Make/Model	Guardian / G300-A
-----------------	-------------------

## General Information

Manufacturer	GSSI
Control Head Type	-
Cylinder Size	-
HST Date	05/22/2023
Best Time for Gas Shutdown	-
Repairs Required - No Longer Serviceable	YES <input type="checkbox"/> NO <input checked="" type="checkbox"/> N/A <input type="checkbox"/>

## System Layout

Number of Plenum Nozzles:	-
Number of Duct Nozzles:	-
Number of Surface Nozzles:	2
Number of Detectors	2
Type and Temp of Detectors	Electronic Heat Detectors
Remote Pull Station	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
Reset Relay	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
Fire Alarm Connection	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
ETL	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
Washdown Connection	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
Gas	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
Electrical	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
Fuel Shut-Off	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>

## System Inspection

1. Check general system design	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
2a. Check pressure gauge	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
2b. Gauge pressure (psi)	100
3. All lead and wire seals are intact	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
4. There are no visible signs that system(s) has fired or been tampered with. If so, check & report.	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
5a. Replace/check cartridge	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
5b. Cartridge weight	-
5c. Cartridge date	-
6. Check all piping and conduit; must be immobilized with proper hangers and brackets	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
7. Check positioning of all nozzles	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
8. Check action on self-closing caps	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
9. Replace all protective covers on nozzles	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
10. System operated manually	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
11. System operated automatically by cutting terminal link	N/A
12. Test proper operation of gas valve(s)	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
13. Test proper operation of micro switch (electric shutdown, washdown)	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
14. Check operation of multiple systems, all tripped	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
15. Replace and seal all safety pins in manual & remote releases	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
16. Fuel shut-off is in "ON" position	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
17. Check exhaust fan for operating order	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
18. Clean system cylinder & component parts	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
19. Fan warning sign on hood	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
20. Distributor emergency phone number on system	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
21. Inspection & servicing tag are on system	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>

22. Personnel has been instructed on manual operation of system(s)	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
23. Hand portable extinguishers serviced	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
24. Pin removed, tension set, system armed	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
25. Canopy/ Duct Const	-

### Deficiencies

System is free of deficiencies and functions as required?	Yes
Parts Required:	-

### Result

	● Passed

## TESTING SUMMARY

EQUIPMENT TYPE	TOTAL	TESTED	PASSED	FAILED
Communicator	1	1 (100%)	1 (100%)	0 (0%)
Alarm Initiated Device	126	126 (100%)	126 (100%)	0 (0%)
Alarm Notification Appliance	21	21 (100%)	21 (100%)	0 (0%)
Annunciator	1	1 (100%)	1 (100%)	0 (0%)
Auxiliary Device	5	5 (100%)	5 (100%)	0 (0%)
Auxiliary Power Supply	0	0 (0%)	0 (0%)	0 (0%)
Control Unit	1	1 (100%)	1 (100%)	0 (0%)
Supervising Station Monitoring	1	1 (100%)	1 (100%)	0 (0%)
Supervisory Signal Device	4	4 (100%)	4 (100%)	0 (0%)

## Fire Alarm Inspection- NFPA 72 (2013)

This testing was performed in accordance with applicable NFPA 72 Standards.

Midwest Alarm Services provides many services to our community. If you would like quarterly, semi-annual or annual testing/inspection, the inspection coordinator can reach out and offer inspections on a time and material basis. Signing an Inspection Agreement with Midwest Alarm Services has many benefits. Not only do you save money, but our inspection coordinator will work with you to ensure your Fire System stays in code as well as has proper documentation sent to the local jurisdiction for compliance. If you need an estimate or have questions about our services, please reach out to our operations manager.

Gary Hesman

## Fire Extinguisher Report

This testing was performed in accordance with applicable NFPA 72 Standards.

Midwest Alarm Services provides many services to our community. If you would like quarterly, semi-annual or annual testing/inspection, the inspection coordinator can reach out and offer inspections on a time and material basis. Signing an Inspection Agreement with Midwest Alarm Services has many benefits. Not only do you save money, but our inspection coordinator will work with you to ensure your Fire System stays in code as well as has proper documentation sent to the local jurisdiction for compliance. If you need an estimate or have questions about our services, please reach out to our operations manager.

## Fire Alarm Inspection- NFPA 72 (2013)

This testing was performed in accordance with applicable NFPA 72 Standards.

Midwest Alarm Services provides many services to our community. If you would like quarterly, semi-annual or annual testing/inspection, the inspection coordinator can reach out and offer inspections on a time and material basis. Signing an Inspection Agreement with Midwest Alarm Services has many benefits. Not only do you save money, but our inspection coordinator will work with you to ensure your Fire System stays in code as well as has proper documentation sent to the local jurisdiction for compliance. If you need an estimate or have questions about our services, please reach out to our operations manager.

# Service & Inspection Report 1

## Specification

Type/Make/Model	Guardian / G300-A
-----------------	-------------------

## General Information

Manufacturer	GSSI
Control Head Type	-
Cylinder Size	-
HST Date	05/23/2031
Best Time for Gas Shutdown	-
Repairs Required - No Longer Serviceable	YES <input type="checkbox"/> NO <input checked="" type="checkbox"/> N/A <input type="checkbox"/>

## System Layout

Number of Plenum Nozzles:	-
Number of Duct Nozzles:	-
Number of Surface Nozzles:	2
Number of Detectors	2
Type and Temp of Detectors	Electronic Heat Detectors
Remote Pull Station	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
Reset Relay	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
Fire Alarm Connection	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
ETL	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
Washdown Connection	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
Gas	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
Electrical	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
Fuel Shut-Off	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>

## System Inspection

1. Check general system design	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
2a. Check pressure gauge	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
2b. Gauge pressure (psi)	100
3. All lead and wire seals are intact	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
4. There are no visible signs that system(s) has fired or been tampered with. If so, check & report.	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
5a. Replace/check cartridge	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
5b. Cartridge weight	-
5c. Cartridge date	-
6. Check all piping and conduit; must be immobilized with proper hangers and brackets	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
7. Check positioning of all nozzles	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
8. Check action on self-closing caps	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
9. Replace all protective covers on nozzles	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
10. System operated manually	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
11. System operated automatically by cutting terminal link	N/A
12. Test proper operation of gas valve(s)	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
13. Test proper operation of micro switch (electric shutdown, washdown)	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
14. Check operation of multiple systems, all tripped	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
15. Replace and seal all safety pins in manual & remote releases	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
16. Fuel shut-off is in "ON" position	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
17. Check exhaust fan for operating order	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
18. Clean system cylinder & component parts	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
19. Fan warning sign on hood	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
20. Distributor emergency phone number on system	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
21. Inspection & servicing tag are on system	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>

22. Personnel has been instructed on manual operation of system(s)	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
23. Hand portable extinguishers serviced	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
24. Pin removed, tension set, system armed	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
25. Canopy/ Duct Const	-

### Deficiencies

System is free of deficiencies and functions as required?	Yes
Parts Required:	-

## **Conclusion**

We appreciate the opportunity to provide this inspection report. We are confident in the accuracy of the contents of this report. Should you require any additional services, or have questions regarding the contents of this report, please do not hesitate to contact your Midwest Alarm Services representative at 308-389-3981.

### **Life Safety Solutions Experts Since 1950**

For more than 70 years, Midwest Alarm Services has been providing the best, innovative fire, security and technology solutions for homes and businesses. As a systems integrator, we can design, install, maintain, monitor and service a wide variety of equipment and software. We take the time to understand your needs and customized solutions to fit your needs and budget. To learn more about our company and the services we provide, please visit:

# Notes & Recommendations

Generated by: BuildingReports.com

## Building: Beatrice State Development L Building

The Notes & Recommendations Report details additional inspection notes made by the Inspectors during the course of the building inspection. Notes are grouped by SystemID.

Note	Device Type	Location	Comment	ScanID
<b><i>Building- Wet Pipe, Floors-1st</i></b>				
1	Check Valve	2nd Inner Mechanical		68041442
	Check valve moves freely			
2	Gauge	2nd Inner Mechanical		68041441
	3 gages replaced on this date			
3	Piping	2nd Inner Mechanical		68041440
	No sign of blockage or corrosion at this time			

# Sprinkler Inspection Certificate

*For*

Beatrice State Development  
Laundry/Warehouse  
3363 Goldenrod Dr.  
Beatrice, Nebraska 68310

Tested to NFPA 25 Standards

*This Inspection was performed in accordance with applicable NFPA Standards. The subsequent pages of this report provide performance measurements, listed ranges of acceptable results, and complete documentation of the inspection. Whenever discrepancies exist between acceptable performance standards and actual test results, notes and/or recommended solutions have been proposed or provided for immediate review and approval.*

## Fire Extinguisher Report

This testing was performed in accordance with applicable NFPA 72 Standards.

Midwest Alarm Services provides many services to our community. If you would like quarterly, semi-annual or annual testing/inspection, the inspection coordinator can reach out and offer inspections on a time and material basis. Signing an Inspection Agreement with Midwest Alarm Services has many benefits. Not only do you save money, but our inspection coordinator will work with you to ensure your Fire System stays in code as well as has proper documentation sent to the local jurisdiction for compliance. If you need an estimate or have questions about our services, please reach out to our operations manager.

## Fire Alarm Inspection- NFPA 72 (2013)

This testing was performed in accordance with applicable NFPA 72 Standards.

Midwest Alarm Services provides many services to our community. If you would like quarterly, semi-annual or annual testing/inspection, the inspection coordinator can reach out and offer inspections on a time and material basis. Signing an Inspection Agreement with Midwest Alarm Services has many benefits. Not only do you save money, but our inspection coordinator will work with you to ensure your Fire System stays in code as well as has proper documentation sent to the local jurisdiction for compliance. If you need an estimate or have questions about our services, please reach out to our operations manager.

1	Fire Alarm Inspection. No issues.	

**Tech connected. Lives protected.**

## **Conclusion**

We appreciate the opportunity to provide this inspection report. We are confident in the accuracy of the contents of this report. Should you require any additional services, or have questions regarding the contents of this report, please do not hesitate to contact your Midwest Alarm Services representative at 308-389-3981.

## **Life Safety Solutions Experts Since 1950**

For more than 70 years, Midwest Alarm Services has been providing the best, innovative fire, security and technology solutions for homes and businesses. As a systems integrator, we can design, install, maintain, monitor and service a wide variety of equipment and software. We take the time to understand your needs and customize solutions to fit your needs and budget. To learn more about our company and the services we provide, please visit:

## Fire Alarm Inspection- NFPA 72 (2013)

This testing was performed in accordance with applicable NFPA 72 Standards.

Midwest Alarm Services provides many services to our community. If you would like quarterly, semi-annual or annual testing/inspection, the inspection coordinator can reach out and offer inspections on a time and material basis. Signing an Inspection Agreement with Midwest Alarm Services has many benefits. Not only do you save money, but our inspection coordinator will work with you to ensure your Fire System stays in code as well as has proper documentation sent to the local jurisdiction for compliance. If you need an estimate or have questions about our services, please reach out to our operations manager.

## TESTING SUMMARY

EQUIPMENT TYPE	TOTAL	TESTED	PASSED	FAILED
Fire Extinguisher	4	4 (100%)	3 (75%)	1 (25%)

## Fire Extinguisher Report

This testing was performed in accordance with applicable NFPA 72 Standards.

Midwest Alarm Services provides many services to our community. If you would like quarterly, semi-annual or annual testing/inspection, the inspection coordinator can reach out and offer inspections on a time and material basis. Signing an Inspection Agreement with Midwest Alarm Services has many benefits. Not only do you save money, but our inspection coordinator will work with you to ensure your Fire System stays in code as well as has proper documentation sent to the local jurisdiction for compliance. If you need an estimate or have questions about our services, please reach out to our operations manager.

## Fire Alarm Inspection- NFPA 72 (2013)

This testing was performed in accordance with applicable NFPA 72 Standards.

Midwest Alarm Services provides many services to our community. If you would like quarterly, semi-annual or annual testing/inspection, the inspection coordinator can reach out and offer inspections on a time and material basis. Signing an Inspection Agreement with Midwest Alarm Services has many benefits. Not only do you save money, but our inspection coordinator will work with you to ensure your Fire System stays in code as well as has proper documentation sent to the local jurisdiction for compliance. If you need an estimate or have questions about our services, please reach out to our operations manager.

Dawn Urbaschek, Administrator  
400 State Building  
3104, 3070, 3071 State Ave  
Beatrice, NE 68310

Dear Ms. Urbaschek:

After reviewing the findings of the onsite revisit survey conducted for your Center for the Developmentally Disabled on December 7, 2022 by a representative of this Department, we are pleased to inform you that your facility is in substantial compliance.

The enclosed form indicates the survey results. Please retain for your files.

The surveyor wishes to thank you and your staff for the courtesy and sending the information to our office. If you have any questions, please contact this office.

Sincerely,

Mark Luger - Program Manager II

DEPT. OF HEALTH AND HUMAN SERVICES

Jim Pillen Governor

March 16, 2023

Dawn Urbaschek  
400 State Building  
3104, 3070, 3071 State Ave  
Beatrice, NE 68310

Dear Ms. Urbaschek:

### IMPORTANT NOTICE – PLEASE READ CAREFULLY

On March 6-9, 2023, DHHS representatives conducted surveys to determine whether your facility was in compliance with Federal Condition of Participation requirements, State Licensure regulations, and Life Safety Code Requirements for Intermediate Care Facilities for Individuals with Intellectual Disabilities. Enclosed you will find the CMS-2567's documenting the results of that survey. All references to regulatory requirements contained in this letter are found in Title 42, Code of Federal Regulations and 175 NAC Chapter 17 Regulations Governing Licensure of Intermediate Care Facilities for Individuals with Intellectual Disabilities.

### PLAN OF CORRECTION (POC)

A POC for each deficiency cited must be submitted to [DHHS.DDBHFacilities@nebraska.gov](mailto:DHHS.DDBHFacilities@nebraska.gov) **NO LATER THAN 10 calendar days after receipt of the CMS-2567's**. Failure to submit an acceptable POC timely may result in the imposition of Disciplinary Action.

### **An acceptable POC must include:**

- The plan of correcting the specific deficiency. The plan should address the processes that lead to the deficiencies cited;
- The procedure for implementing the acceptable plan of correction for the specific deficiency cited;
- The monitoring procedure to ensure that the plan of correction is effective and that specific deficiency cited remains corrected and/or in compliance with the regulatory requirements;
- The title of the person responsible for implementing the acceptable plan of correction;

- **PROVIDE THE DATE WHEN CORRECTION ACTION WILL BE COMPLETED.** Correction dates should be no later than forty-five calendar days from the exit date of the survey or **April 23, 2023.**

**NOTE:** Remember to attach copies of any auditing tools; education; revised or new policies/processes.

**SIGNATURE ON FIRST PAGE OF THE 2567's:** The first page must be signed by the provider/supplier representative and faxed to 402-742-2326.

Page 2  
March 16, 2023

We will notify you whether your plan of correction is or is not acceptable via email. Subsequently, if your plan of correction is **not accepted, you must submit an addendum to your plan of correction within ten (10) calendar days of the notification.**

We thank you and your staff for your cooperation and assistance during the survey. If you have any questions regarding this correspondence, please contact this office.

Sincerely,

A handwritten signature in black ink that reads "Mark Luger". The signature is written in a cursive style with a large, prominent "M" and "L".

Dear Ms. Urbaschek:

After reviewing the findings of the onsite revisit survey conducted for your Intermediate Care Facility For Intellectually Disabled on May 31, 2023 by representatives of this Department, we are pleased to inform you that your facility is in substantial compliance.

The enclosed form indicates the survey results. Please retain for your files.

The surveyor wishes to thank you and your staff for the courtesy during the revisit survey. If you have any questions, please contact this office.

Sincerely,

Ms. Dawn Urbaschek, Administrator  
400 State Building  
3104, 3070, 3071 State Ave  
Beatrice, NE 68310

Dear Ms. Urbaschek:

An unannounced visit was made to 400 State Building on May 31, 2023, by representatives of this Department. The purpose of the visit was to investigate a complaint on non-compliance with regulatory requirements received by our office.

The following are the general allegation of non-compliance and conclusions:

**ALLEGATION:**

The facility fails to ensure clients are supervised as identified in the individual person plan.

**FINDINGS:**

At the time of the onsite investigation the facility failed to ensure clients were supervised as written in their individual person plan. The facility took appropriate action with retraining staff and completing an internal investigation.

These findings are related to regulations under the Licensure Unit's regulatory authority. Since each division has unique statutory and regulatory obligations and guidelines, it may be possible that your facility will receive additional findings from other divisions who have also participated in the investigation/assessment of these same or similar allegations.

Sincerely,

Mark Luger - Program Manager II

## TESTING SUMMARY

EQUIPMENT TYPE	TOTAL	TESTED	PASSED	FAILED
Fire Extinguisher	3	3 (100%)	3 (100%)	0 (0%)

## Fire Extinguisher Report

This testing was performed in accordance with applicable NFPA 72 Standards.

Midwest Alarm Services provides many services to our community. If you would like quarterly, semi-annual or annual testing/inspection, the inspection coordinator can reach out and offer inspections on a time and material basis. Signing an Inspection Agreement with Midwest Alarm Services has many benefits. Not only do you save money, but our inspection coordinator will work with you to ensure your Fire System stays in code as well as has proper documentation sent to the local jurisdiction for compliance. If you need an estimate or have questions about our services, please reach out to our operations manager.

Gary Hesman  
Operations Manager  
308-389-3981

<p><i>The Notes &amp; Recommendations Report details additional inspection notes made by the Inspectors during the course of the building inspection. Notes are grouped by SystemID.</i></p>				
Note	Device Type	Location	Comment	ScanID
<b><i>Building- Dry Pipe, Zone-Attic</i></b>				
1	Check Valve	Basement Inner Mechanical North		68041482
	Check valve moves freely			
2	Gauge	Basement Inner Mechanical North		68041484
	5 gages replaced on this date			
3	Piping	Basement Inner Mechanical North		68041483
	Free of corrosion at this time			
4	Drain	2nd North Office	Passed	68606388
	Was drained on this date			
<b><i>Building- Wet Pipe, Building-</i></b>				
5	Check Valve	Basement Inner Mechanical South		68041479
	Did not inspect due to possibility of not seating getting quote to replace			
6	Gauge	Basement Inner Mechanical South		68041481
	1 gage replaced			
7	Piping	Basement Inner Mechanical South		68041480
	No sign of corrosion at this time			

# Sprinkler Inspection Certificate

*For*

Beatrice State Development West  
Wing  
834 Sheridan  
Beatrice, Nebraska 68310

Tested to NFPA 25 Standards

*This Inspection was performed in accordance with applicable NFPA Standards. The subsequent pages of this report provide performance measurements, listed ranges of acceptable results, and complete documentation of the inspection. Whenever discrepancies exist between acceptable performance standards and actual test results, notes and/or recommended solutions have been proposed or provided for immediate review and approval.*

*Quarterly Inspection*  
*Inspection Date*  
*Jun 12, 2023*

# Inventory & Warranty Report

Generated by: [BuildingReports.com](http://BuildingReports.com)

## Building: Beatrice State Development West Wing

*The Inventory & Warranty Report lists each of the devices and items that are included in your Inspection Report. A complete inventory count by device type and category is provided. Items installed within the last 90 days, within the last year, and devices installed for two years or more are grouped together for easy reference.*

Device or Type	Category	% of Inventory	Quantity
Check Valve	Valve	7.14%	2
Control Valve	Valve	17.86%	5
Drain	Device	10.71%	3
Dry Pipe Valve	Valve	3.57%	1
Fire Dep't Connection	Hose	7.14%	2
Gauge	Device	7.14%	2
Isolation Valve	Valve	10.71%	3
Piping	Sprinkler	7.14%	2
Post Indicator Valve	Valve	7.14%	2
Pressure Switch	Alarm	7.14%	2
Waterflow Switch	Alarm	14.29%	4

Device Type	Qty	Model #	Type	Description	Install Date
-------------	-----	---------	------	-------------	--------------
