## Fire Alarm Inspection- NFPA 72 (2013)

This testing was performed in accordance with applicable NFPA 72 Standards.

Midwest Alarm Services provides many services to our community. If you would like quarterly, semi-annual or annual testing/inspection, the inspection coordinator can reach out and offer inspections on a time and material basis. Signing an Inspection Agreement with Midwest Alarm Services has many benefits. Not only do you save money, but our inspection coordinator will work with you to ensure your Fire System stays in code as well as has proper documentation sent to the local jurisdiction for compliance. If you need an estimate or have questions about our services, please reach out to our operations manager.

Gary Hesman  
Operations Manager

Fire Extinguisher	21	20 (95%)	19 (90%)	1 (5%)

## Fire Extinguisher Report

This testing was performed in accordance with applicable NFPA 72 Standards.

Midwest Alarm Services provides many services to our community. If you would like quarterly, semi-annual or annual testing/inspection, the inspection coordinator can reach out and offer inspections on a time and material basis. Signing an Inspection Agreement with Midwest Alarm Services has many benefits. Not only do you save money, but our inspection coordinator will work with you to ensure your Fire System stays in code as well as has proper documentation sent to the local jurisdiction for compliance. If you need an estimate or have questions about our services, please reach out to our operations manager.

## Fire Extinguisher Report

This testing was performed in accordance with applicable NFPA 72 Standards.

Midwest Alarm Services provides many services to our community. If you would like quarterly, semi-annual or annual testing/inspection, the inspection coordinator can reach out and offer inspections on a time and material basis. Signing an Inspection Agreement with Midwest Alarm Services has many benefits. Not only do you save money, but our inspection coordinator will work with you to ensure your Fire System stays in code as well as has proper documentation sent to the local jurisdiction for compliance. If you need an estimate or have questions about our services, please reach out to our operations manager.

## Fire Alarm Inspection- NFPA 72 (2013)

This testing was performed in accordance with applicable NFPA 72 Standards.

Midwest Alarm Services provides many services to our community. If you would like quarterly, semi-annual or annual testing/inspection, the inspection coordinator can reach out and offer inspections on a time and material basis. Signing an Inspection Agreement with Midwest Alarm Services has many benefits. Not only do you save money, but our inspection coordinator will work with you to ensure your Fire System stays in code as well as has proper documentation sent to the local jurisdiction for compliance. If you need an estimate or have questions about our services, please reach out to our operations manager.

DHHS Public Health – Licensure Unit  
Office of DD and Behavioral Health  
P.O. Box 94986  
301 Centennial Mall South  
Lincoln, NE 68509-4986

Dear Mr. Luger,

Please accept this letter as a request to **re-license the 10 beds at 3070 State Avenue** in the 400 State ICF. The 10 unlicensed beds have remained with the 400 State ICF during the renovations of 3070 State Avenue. The renovations are now complete, and the Beatrice State Developmental Center has received an occupancy permit from the State Fire Marshal office indicating that an inspection has been completed of this home. Adding the re-licensed 10 beds will increase the number of licensed beds in the 400 State ICF from 48 back to 58.

We would like this request to become official effective May 22, 2023.

If you have any questions, please do not hesitate to contact me at [dawn.urbaschek@nebraska.gov](mailto:dawn.urbaschek@nebraska.gov) or 402.239.0993.

## Fire Marshal Surveys

February 14, 2023

Dawn Urbaschek, Administrator  
Solar Cottages  
3052,3054,3056,3060 Pet Blv 753,743,723,715 Sol Dr  
Beatrice, NE 68310

Dear Ms. Urbaschek:

## IMPORTANT NOTICE – PLEASE READ CAREFULLY

On January 23-31, 2023, DHHS representatives conducted surveys to determine whether your facility was in compliance with Federal Condition of Participation requirements, State Licensure regulations, and Life Safety Code Requirements for Intermediate Care Facilities for Individuals with Intellectual Disabilities. Enclosed you will find the CMS-2567's documenting the results of that survey. All references to regulatory requirements contained in this letter are found in Title 42, Code of Federal Regulations and 175 NAC Chapter 17 Regulations Governing Licensure of Intermediate Care Facilities for Individuals with Intellectual Disabilities.

### PLAN OF CORRECTION (POC)

A POC for each deficiency cited must be submitted to [DHHS.DDBHFacilities@nebraska.gov](mailto:DHHS.DDBHFacilities@nebraska.gov) **NO LATER THAN 10 calendar days after receipt of the CMS-2567's**. Failure to submit an acceptable POC timely may result in the imposition of Disciplinary Action.

#### **An acceptable POC must include:**

- The plan of correcting the specific deficiency. The plan should address the processes that lead to the deficiencies cited;
- The procedure for implementing the acceptable plan of correction for the specific deficiency cited;
- The monitoring procedure to ensure that the plan of correction is effective and that specific deficiency cited remains corrected and/or in compliance with the regulatory requirements;
- The title of the person responsible for implementing the acceptable plan of correction;
- **PROVIDE THE DATE WHEN CORRECTION ACTION WILL BE COMPLETED.** Correction dates should be no later than forty-five calendar days from the exit date of the survey or **March 17, 2023**.

**NOTE:** Remember to attach copies of any auditing tools; education; revised or new policies/processes.

**SIGNATURE ON FIRST PAGE OF THE 2567's:** The first page must be signed by the provider/supplier representative and faxed to 402-742-2326.

Page 2  
February 3, 2023

We will notify you whether your plan of correction is or is not acceptable via email. Subsequently, if your plan of correction is **not accepted, you must submit an addendum to your plan of correction within ten (10) calendar days of the notification.**

We thank you and your staff for your cooperation and assistance during the survey. If you have any questions regarding this correspondence, please contact this office.

Sincerely,

A handwritten signature in black ink that reads "Mark Luger". The signature is written in a cursive style with a large initial "M" and a long, sweeping underline.

STATE FIRE MARSHAL AGENCY

Wm. Ricketts, Governor

To: Health Care Facilities

From: Doug Hohbein  
Assistant State Fire Marshal

Re: Evidence of Corrective Action for Plan of Correction

After this Life Safety Code survey, you are required to prepare a Plan of Correction (POC) for deficiencies cited. In order to approve your POC and send you a Certificate of Occupancy you need to provide evidence showing that all corrective actions outlined in your POC have been completed or are in the process of being completed. Examples could be, but are not limited to:

- Verifiable photos or videos (before/after, showing room number or location)
- New policies and procedures
- Attendance sign in sheets for drills or education
- Invoices, receipts or work orders
- System test reports
- Audit forms

Please provide the requested information as soon as possible, but not later than the correction date. Documentation for all deficiencies should be provided in a single submittal. Deficiencies are not required to be corrected prior to the submittal, but some form of documentation identifying the proposed corrective action for each citation is necessary.

You can upload documentation with your POC in the ePOC portal, send it with the POC you send to DHHS or email it to me at [sfm.LSCdocumentation@nebraska.gov](mailto:sfm.LSCdocumentation@nebraska.gov).

Feel free to contact me at [doug.hohbein@nebraska.gov](mailto:doug.hohbein@nebraska.gov) or 402-471-9478 if you have questions.

K 000	INITIAL COMMENTS  42 CFR 483.470 The facility must meet the applicable provisions of the 2012 Edition of the Life Safety Code of the National Fire Protection Association. This facility is governed by Chapter 33, Existing Residential Board and Care Occupancies of the 2012 Edition of the National Fire Protection Association [NFPA], Chapter 101: Life Safety Code.  Solar Cottage, 3060 is a two story building of Type V construction that was built in 1970 and is fully sprinkled.  The facility has 10 certified beds. At the time of the survey the census was 6 residents.  Solar Cottage, 3060 was found to be not in compliance with the requirements for participation in Medicare/Medicaid at 42 CFR 483.470, Life Safety from Fire, and the related National Fire Protection Association (NFPA) Standard 101 - 2012 edition. Fire Marshal deficiency work order. Removed lockset from the door - the lockset was very dirty and sticky, apparently some inappropriate lubricant had been used on it in the past. I cleaned up the lockset and applied the proper lubricant, it's an older lockset and the return spring was weak and they are no longer available, however I found one in our used inventory and replaced it. The latch assembly spring was also weak so i replaced assembly. Reinstalled and tested. working fine now.

Pete Ricketts, Governor

Dear Ms. Urbaschek:

An unannounced visit was made to Solar Cottages on December 12-21, 2022, by a representative of this Department. The purpose of the visit was to investigate a complaint on non-compliance with regulatory requirements received by our office.

The following are the general allegation(s) of non-compliance and conclusions:

**ALLEGATION:**

The facility fails to have systems in place to protect clients from injuries of an unknown origin.

The facility fails to have systems in place to protect clients from clients with adverse behaviors.

The facility fails to protect and provide interventions to protect the clients' skin integrity.

**FINDINGS:**

At the time of the onsite investigation the facility was in compliance with the regulations as they related to the allegation. There was no evidence the facility failed to protect clients from suspicious injuries, as the cause of injuries were investigated by the facility per their policies and system. Abuse by staff was not suspected and actions were taken by the facility, when necessary, to prevent recurrence.

Observation, record review, and interview revealed the facility had policies and systems in place to investigate, respond to, and address client to client incidents of adverse behaviors. At the time of the onsite survey investigation, the facility was found to be in compliance with the regulation.

At the time of the onsite investigation the facility was in compliance with the regulations as they related to the allegation. There was no evidence the facility failed to protect clients from injuries related to skin integrity, as none of the identified clients had a skin integrity related injury. Abuse by staff was not suspected and actions were taken by the facility, to monitor nightly cares on third shift.

These findings are related to regulations under the Licensure Unit's regulatory authority. Since each division has unique statutory and regulatory obligations and guidelines, it may be possible that your facility will receive additional findings from other divisions who have also participated in the investigation/assessment of these same or similar allegations.

Dear Ms. Urbaschek:

## IMPORTANT NOTICE – PLEASE READ CAREFULLY

On January 23-31, 2023, DHHS representatives conducted surveys to determine whether your facility was in compliance with Federal Condition of Participation requirements, State Licensure regulations, and Life Safety Code Requirements for Intermediate Care Facilities for Individuals with Intellectual Disabilities. Enclosed you will find the CMS-2567's documenting the results of that survey. All references to regulatory requirements contained in this letter are found in Title 42, Code of Federal Regulations and 175 NAC Chapter 17 Regulations Governing Licensure of Intermediate Care Facilities for Individuals with Intellectual Disabilities.

### PLAN OF CORRECTION (POC)

A POC for each deficiency cited must be submitted to [DHHS.DDBHFacilities@nebraska.gov](mailto:DHHS.DDBHFacilities@nebraska.gov) **NO LATER THAN 10 calendar days after receipt of the CMS-2567's**. Failure to submit an acceptable POC timely may result in the imposition of Disciplinary Action.

#### **An acceptable POC must include:**

- The plan of correcting the specific deficiency. The plan should address the processes that lead to the deficiencies cited;
- The procedure for implementing the acceptable plan of correction for the specific deficiency cited;
- The monitoring procedure to ensure that the plan of correction is effective and that specific deficiency cited remains corrected and/or in compliance with the regulatory requirements;
- The title of the person responsible for implementing the acceptable plan of correction;
- **PROVIDE THE DATE WHEN CORRECTION ACTION WILL BE COMPLETED.** Correction dates should be no later than forty-five calendar days from the exit date of the survey or **March 17, 2023**.

**NOTE:** Remember to attach copies of any auditing tools; education; revised or new policies/processes.

**SIGNATURE ON FIRST PAGE OF THE 2567's:** The first page must be signed by the provider/supplier representative and faxed to 402-742-2326.

Page 2  
February 3, 2023

We will notify you whether your plan of correction is or is not acceptable via email. Subsequently, if your plan of correction is **not accepted**, you must submit an addendum to your plan of correction within **ten (10) calendar days of the notification**.

We thank you and your staff for your cooperation and assistance during the survey. If you have any questions regarding this correspondence, please contact this office.

Sincerely,

Mark Luger - Program Manager II  
DHHS Public Health - Licensure Unit  
Office of DD and Behavioral Health  
PO Box 94669, Lincoln, NE 68509-4669  
Email: [mark.luger@nebraska.gov](mailto:mark.luger@nebraska.gov)

EID:4KQS11

1. Open the attached PDF form of the CMS-2567; print the first page, sign and date and fax to (402)742-2326. There is no need to mail any documents.
2. Use the attached "E-2567" for providing a response to the deficiencies. Please do not change the formatting of the document including the margins and column sizes.
3. Type each deficiency number cited in the column labeled "ID Prefix Tag". Type your plan of correction in the column labeled "Providers Plan of Correction". The required elements for an acceptable plan of correction are outlined in the attached letter.
4. Please copy and paste each element for each deficiency cited. If you need space for additional deficiencies please add lines. The space is unlimited.
5. Save the Health poc as an Excel document.
6. Attach the poc document in an email and send to [DHHS.DDBHfacilities@nebraska.gov](mailto:DHHS.DDBHfacilities@nebraska.gov). Please complete this form and submit within 10 calendar days of receipt of this email.

Your opinion is important to us and we would like your feedback regarding the survey process. Please complete an evaluation about this survey by clicking on the link below:

COMPLETION DATE

CITED TAG #	(EACH CORRECTIVE ACTION SHOULD BE CROSS-REFERENCED TO THE APPROPRIATE DEFICIENCY)	COMPLETION DATE
W-0209, W-0249, W-0259, W-0289		3/15/2023
<b>W 209</b>	<b>A. ACTION(S) THAT WILL BE TAKEN TO CORRECT THIS DEFICIENCY - ALONG WITH A DESCRIPTION OF HOW THE ACTION WILL CORRECT OR IMPROVE THE PROCESSES THAT LEAD TO THE CITED DEFICIENCY:</b>	
	For Client 3; QDDP-B will document the conversation that was held with the guardian prior to the annual ISP dated 4/13/22, which included the efforts to allow for their participation. QDDP-B will obtain a signature of approval for the annual ISP dated 4/13/22 from the guardian. QDDP-B will contact the Guardian and will provide information regarding our obligation to offer change in dates/times, participation by phone conference and other means to allow Guardian participation in the scheduled Individual Support Plan (ISP) meeting. In the future, should the Guardian decline to participate for any reason, the QDDP will reflect documentation as a rationale in the ISP as to why the Guardian's participation was unobtainable or inappropriate and obtain signature of approval.	3/15/2023
	QDDP-B and all facility QDDPs will be provided an in-service by the QDDP Quality Control Supervisor regarding family participation does not replace guardian participation.	3/15/2023
	<b>B. THE PROCEDURE FOR IMPLEMENTING THE CORRECTIVE ACTION(S):</b>	
	All individuals within Solar Cottages ICF will have a review of their annual Individual Support Plan to ensure the Guardian participated, or that there is documentation that their participation was unobtainable (offered a change in date/time, phone conference) or inappropriate. For those in which guardian attendance was not documented (signature sheet), or efforts to allow for participation was not documented in the ISP, the QDDP will obtain signature of approval.	3/15/2023
	All QDDPs will be provided an in-service regarding the requirement to provide alternatives for the Guardian and Individuals to allow for their participation as indicated in the facility policy titled "Individual Support Plans" (dated 6/17/22) identified in Section 5.2. Additionally, QDDP references include guidance for documentation of efforts made to obtain participation.	3/15/2023

	<b>C. THE MONITORING OR TRACKING PROCEDURE(S) TO ENSURE THE FACILITY IS EFFECTIVE IN CORRECTING THE DEFICIENCY AND TO ENSURE THE FACILITY REMAINS IN COMPLIANCE WITH THIS DEFICIENCY:</b>	
	Through Quality Improvement, random Individual Support Plan record reviews will include monitoring for Guardian participation or documentation of efforts to ensure participation.	3/15/2023
	<b>D. THE TITLE OF THE PERSON RESPONSIBLE FOR ENSURING THE FACILITY REMAINS IN COMPLIANCE WITH THE CITED DEFICIENCY: (Do not put the staff names).</b>	
	The ICF Administrator will be the responsible position for monitoring and to ensure compliance.	3/15/2023
<b>W 249</b>	<b>A. ACTION(S) THAT WILL BE TAKEN TO CORRECT THIS DEFICIENCY - ALONG WITH A DESCRIPTION OF HOW THE ACTION WILL CORRECT OR IMPROVE THE PROCESSES THAT LEAD TO THE CITED DEFICIENCY:</b>	
	For Client 2; Staff F, G, H, I, J and all other staff who support Client 2 will be re-in-serviced on the habilitation program "Communication (Visual Schedule)" and use of the I-Pad Air to communicate the daily schedule and use of the I-Pad as a visual aide to remind Client 2 of their upcoming schedule at home and in day services on 1st and 2nd shifts.	3/15/2023
	Staff F, G, H, I, J and all other staff who support Client 2 will be re-in-serviced as a reminder that the "Communication" program and I-Pad are used in conjunction with the Behavior Support Plan to address maladaptive behaviors and decrease anxiety resulting from Client 2's Alzheimer's/Dementia.	3/15/2023
	<b>B. THE PROCEDURE FOR IMPLEMENTING THE CORRECTIVE ACTION(S):</b>	
	For Client 2: Staff F, G, H, I and all other staff who support Client 2 will be re-in-serviced to read and follow the Dining Card with the revised date of 1/9/23 identifying that Client 2 has a modified and therapeutic diet which includes chopped foods with ground meat, regular thin liquids, low calorie and salty foods and limited amounts of high fat foods; mealtime adaptive needs include: built up handle on an infant spoon, plate guard, and a regular glass as tolerated with an alternative snorkel cup as needed. The Dining Card identifies two dining strategies for Client 2 to eat and drink at a slower rate, and if Client 2 is eating too fast, prompt Client 2 to slow down and take a drink.	3/15/2023
	For all other individuals residing within Solar Cottages ICF, the QDDPs will ensure adequate in-servicing is available to all staff members to ensure Individuals training programs are implemented as identified in the ISP and that Dining Cards are being utilized during meals.	3/15/2023
	<b>C. THE MONITORING OR TRACKING PROCEDURE(S) TO ENSURE THE FACILITY IS EFFECTIVE IN CORRECTING THE DEFICIENCY AND TO ENSURE THE FACILITY REMAINS IN COMPLIANCE WITH THIS DEFICIENCY:</b>	

	A monitoring system is in place, which includes random focused audits to ensure implementation of training programs as identified in the ISP and Dining Cards are being utilized during mealtimes.	3/15/2023
	<b>D. THE TITLE OF THE PERSON RESPONSIBLE FOR ENSURING THE FACILITY REMAINS IN COMPLIANCE WITH THE CITED DEFICIENCY: (Do not put the staff names).</b>	
	The ICF Administrator will be the responsible position for monitoring and to ensure compliance.	3/15/2023
	<b>A. ACTION(S) THAT WILL BE TAKEN TO CORRECT THIS DEFICIENCY - ALONG WITH A DESCRIPTION OF HOW THE ACTION WILL CORRECT OR IMPROVE THE PROCESSES THAT LEAD TO THE CITED DEFICIENCY:</b>	
W 259		
	For Clients 2, 3, 4, 5 and 6, the QDDP and IDT will review the Comprehensive Functional Assessment to ensure and provide evidence and documentation that the Speech-Language evaluation conducted years prior to the development of the current Individual Support Plan (ISP) accurately reflects the Clients' current strength and needs.	3/15/2023
	For Clients 2, 3, 4, 5 and 6, the QDDP and IDT will review and confirm with evidence/documentation verifying the information from the last Speech-Language assessment (2018- 2021) updates still accurately reflect strengths and needs and are relevant of current communication status.	3/15/2023
	The facility QDDPs will be provided an in-service by the QDDP Quality Supervisor regarding review and confirmation of evidence/documentation utilizing the Comprehensive Functional Assessment, specifically the Speech-Language Evaluation, and the requirement to include if the evaluation continues to accurately reflect the Client's current strengths and needs.	3/15/2023
	<b>B. THE PROCEDURE FOR IMPLEMENTING THE CORRECTIVE ACTION(S):</b>	
	The facility QDDPs will review current ISPs for all other individuals in the Solar Cottage ICF to identify if documentation reflects a review of the Speech-Language evaluation and if it continues to be relevant and reflect current communication strengths and needs. When documentation as stated is missing, the QDDP will meet with the IDT to review/discuss and update the ISP through the ISP meeting agenda.	3/15/2023

	<p>QDDP Quality Control Supervisor held a WebEx on 1/31/23 with Solar QDDPs to review required documentation for the ISP in regard to Speech-Language evaluations. The Quality Improvement team updated the Individual Support Plan-Program Monitoring audit form on 2.2.23 to include required components of the communication section. Additionally, the ISP template with guidance that is available for QDDP use in developing the annual ISP was updated to include guidance for inclusion of required component to reflect if the Speech-Language evaluation continues to accurately reflect strengths and needs and are relevant of current communication status. These updates with explanation were provided to the Solar QDDPs via email dated 2/3/23.</p>	3/15/2023
	<p><b>C. THE MONITORING OR TRACKING PROCEDURE(S) TO ENSURE THE FACILITY IS EFFECTIVE IN CORRECTING THE DEFICIENCY AND TO ENSURE THE FACILITY REMAINS IN COMPLIANCE WITH THIS DEFICIENCY:</b></p>	
	<p>A monitoring system will be implemented to ensure that all client functional assessments are reviewed and documented in the ISP.</p>	3/15/2023
	<p><b>D. THE TITLE OF THE PERSON RESPONSIBLE FOR ENSURING THE FACILITY REMAINS IN COMPLIANCE WITH THE CITED DEFICIENCY: (Do not put the staff names).</b></p>

W 209	Continued From page 1  Interview on 1/30/23 at 2:32pm, Qualified Intellectual Disabilities Professional (QIDP-B) confirmed Client 3's sister was the client's legal guardian. QIDP-B verified Client 3's guardian did not attend the 4/13/22 Annual ISP meeting or subsequent ISP meetings and had not signed the client's ISP identifying their approval of the IDT's decisions regarding the client's active treatment services and supports. QIDP-B confirmed they thought that it was acceptable and sufficient for Client 3's other siblings who attended the 4/13/22 ISP meeting to sign and approve the Annual ISP in the place of Client 3's guardian. QIDP-B confirmed Client 3's ISP had no evidence documenting a rationale as to why the client's guardian did not attend the ISP meetings or the efforts the facility took to ensure the guardian was able to participate in the client's ISP meetings.	W 209			
W 249	PROGRAM IMPLEMENTATION CFR(s): 483.440(d)(1)  As soon as the interdisciplinary team has formulated a client's individual program plan, each client must receive a continuous active treatment program consisting of needed interventions and services in sufficient number and frequency to support the achievement of the objectives identified in the individual program plan.  This STANDARD is not met as evidenced by:	W 249

W 249	<p>Continued From page 2</p> <p>Based on observation, record review, and interview the facility failed to ensure training programs and protocols for 1 of 6 sampled clients (Client 2) were consistently implemented in accordance with the client's Individual Support Plan (ISP). This failure had the potential to affect all clients living at the facility. The facility census was 61 at the time of the survey.</p> <p>Findings:</p> <p>Review of Client 2's ISP (dated 6/15/22) identified the following programs and protocols were not implemented as written in the ISP.</p> <p>a) Review of the program titled "Communication (Visual Schedule)" identified Client 2 was to utilize their I-pad Air to communicate their daily schedule to staff and use the device as a visual aide to reminder to the client of their upcoming schedule. The program was to be implemented when Client 2 left the home for day services on 1st shift and activities on 2nd shift. The program was to be used to communicate and assist Client 2 to follow their active treatment routine, leisure opportunities, and a behavior supports. The ISP identified the Communication program and I-pad were to be implemented in conjunction with the client's behavior support plan to address maladaptive behaviors and decrease anxiety resulting from the client's Alzheimer's/Dementia.</p> <p>Observations on 1/23/23 from 4:00pm to 5:15pm; 1/24/23 9:43am to 10:30am; 1/25/23 8:28am to 9:30am and 11:45am to 12:35pm revealed Staff F, G, H, I, and J failed to implement and prompt Client 2 to utilize their I-pad to communicate their visual schedule at home and day services.</p>	W 249

W 249	<p>Continued From page 3</p> <p>b) Review of Client 2's ISP the section titled "Nutritional" identified Client 2's staff supports, and strategies included assisting the client during intake of food and drinks as identified on the client's dining card. Client 2 had a modified and therapeutic diet which included chopped foods with ground meat, regular thin liquids, low calorie and salty foods, and limited amounts of high fat foods.</p> <p>Review of Client 2's dining card (revised date 1/9/23) identified Client 2 should be encouraged to eat at a slower rate and take sips of liquids throughout the meal. Client 2's mealtime adaptive equipment included a built-up handle on an infant spoon, a plate guard, and a regular glass as tolerated with alternate snorkel cup as needed.</p> <p>Review of Client 2's Nutritional Evaluation (dated 5/10/22) identified the chopped foods with ground meat modified diet due to Client 2's decreased nutritional skills. This assessment identified with the increase in Client 2's Dementia symptoms a decrease in eating and swallowing skills had occurred. This assessment also identified that Client 2's eating and drinking strategies included to eat at a slower pace and drink throughout the meal due to history of eating and swallowing issues.</p> <p>Observations on 1/23/23 from 4:00pm to 5:15pm revealed Client 2 ate their barbequed ground meat and green beans in consecutive and rapid bites. Client 2 took 3 to 5 quick consecutive bites, paused, then took more 2 to 4 more bites, paused, and took a deep breath, then took multiple drinks of their milk and water, and returned to eating at the same quickened pace.</p>	W 249

Good Morning, Administrator:

**RE: SOLAR COTTAGES 3052,3054,3056,3060 PET BLV 753,743,723,715 SOL DR BEATRICE, NE 68310-ICFDD14**

On March 31, 2023 we conducted an onsite revisit to verify that the facility had achieved and maintained compliance with the deficiencies cited at the January 31, 2023 survey. The attached CMS-2567 shows your facility was found to be in substantial compliance at this time.

IF a FEDERAL SURVEY - The Centers for Medicare and Medicaid Services (CMS) has been notified of the results of our revisit.

If you have any further questions, please feel free to contact Mark Luger DDBH Program Manger II at [mark.luger@nebraska.gov](mailto:mark.luger@nebraska.gov)

Dear Mr. Urbaschek:

After reviewing the findings of the onsite revisit survey conducted for your Center for the Developmentally Disabled on March 31, 2023 by a representative of this Department, we are pleased to inform you that your facility is in substantial compliance.

The enclosed form indicates the survey results. Please retain for your files.

The surveyor wishes to thank you and your staff for the courtesy and sending the information to our office. If you have any questions, please contact this office.

Sincerely,

A handwritten signature in cursive script that reads "Mark Luger".

Beatrice, NE 68310

Dear Mr. Urbaschek:

An unannounced visit was made to Solar Cottages on March 27-31, 2023, by representatives of this Department. The purpose of the visit was to investigate a complaint on non-compliance with regulatory requirements received by our office.

The following are the general allegation(s) of non-compliance and conclusions:

**ALLEGATION:**

The facility fails to have systems in place to protect clients from suspicious injuries of an unknown sources.

The facility fails to have systems are in place to protect clients from clients with adverse behaviors.

**FINDINGS:**

At the time of the onsite investigation the facility was in compliance with the regulations as they related to the allegation. The facility had an effective system in place to investigate, respond and address suspicious injuries of an unknown source should they occur. Investigations completed by the facility were found to be thorough, timely and appropriate. No suspicious injuries were observed at the time of the onsite complaint investigation.

At the time of the onsite investigation the facility was in compliance with the regulations as they related to the allegation. The facility had an effective system in place to prevent, respond and address incident of peer-to-peer adverse behaviors should it occur. No peer-to-peer adverse behaviors were observed during the complaint investigation.

These findings are related to regulations under the Licensure Unit's regulatory authority. Since each division has unique statutory and regulatory obligations and guidelines, it may be possible that your facility will receive additional findings from other divisions who have also participated in the investigation/assessment of these same or similar allegations.

Sincerely,

A handwritten signature in black ink that reads "Mark Luger". The signature is written in a cursive style with a large, stylized "M" and "L".

## Fire Marshal Surveys

# NEBRASKA

Good Life. Great Safety.

STATE FIRE MARSHAL AGENCY

To: Health Care Facilities

From: Doug Hohbein  
Assistant State Fire Marshal

Re: Evidence of Corrective Action for Plan of Correction

After this Life Safety Code survey, you are required to prepare a Plan of Correction (POC) for deficiencies cited. In order to approve your POC and send you a Certificate of Occupancy you need to provide evidence showing that all corrective actions outlined in your POC have been completed or are in the process of being completed. Examples could be, but are not limited to:

- Verifiable photos or videos (before/after, showing room number or location)
- New policies and procedures
- Attendance sign in sheets for drills or education
- Invoices, receipts or work orders
- System test reports
- Audit forms

Please provide the requested information as soon as possible, but not later than the correction date. Documentation for all deficiencies should be provided in a single submittal. Deficiencies are not required to be corrected prior to the submittal, but some form of documentation identifying the proposed corrective action for each citation is necessary.

You can upload documentation with your POC in the ePOC portal, send it with the POC you send to DHHS or email it to me at [sfm.LSCdocumentation@nebraska.gov](mailto:sfm.LSCdocumentation@nebraska.gov).

Feel free to contact me at [doug.hohbein@nebraska.gov](mailto:doug.hohbein@nebraska.gov) or 402-471-9478 if you have questions.

	The Facility Maintenance Manager is the responsible position to monitor and ensure compliance.	3/22/2023
<b>K0363</b>	<b>A. ACTION(S) THAT WILL BE TAKEN TO CORRECT THIS DEFICIENCY - ALONG WITH A DESCRIPTION OF HOW THE ACTION WILL CORRECT OR IMPROVE THE PROCESSES THAT LEAD TO THE CITED DEFICIENCY:</b>	
	Observation on 3/6/23 revealed the door to the Social Center failed to latch within the doorframe.	3/21/2023
	<b>B. THE PROCEDURE FOR IMPLEMENTING THE CORRECTIVE ACTION(S):</b>	

	Work Order #14283 was submitted to the Maintenance Department to repair the door to the Social Center so that it would have positive latch within the doorframe. Maintenance checked all door hardware for tightness, tightened loose fasteners and replaced stripped ones with oversized repair fasteners. It's a metal door and there were some dings from carts running into it, straightened them up. Adjusted hinges for proper door centering. Lubricated lock assembly. Tested, the door is latching fine now and will close and latch within the doorframe.	3/21/2023
	<b>C. THE MONITORING OR TRACKING PROCEDURE(S) TO ENSURE THE FACILITY IS EFFECTIVE IN CORRECTING THE DEFICIENCY AND TO ENSURE THE FACILITY REMAINS IN COMPLIANCE WITH THIS DEFICIENCY:</b>

Any deficiency statement ending with an asterisk (\*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.

# NEBRASKA

Good Life. Great Service.

**DEPT. OF ADMINISTRATIVE SERVICES**

To Whom it may Concern

We received the Fire marshal deficiency report on March 16<sup>th</sup>, 2023 for the 400 state for the BSDC in Beatrice Nebraska.

The following are the prefix tags and place where the deficiency happened. List are Items that we will have contractors come and fix the deficiency. Included will be the dates they will come out to look at the work requested.

1. K0353 for building 3071. Sprinkler head observed to have green corrosion on it. On Monday March 27<sup>th</sup>, 2023 Nifco mechanical will be out doing there inspections and will replace the head while they are here.
2. K0321 for 200 Sheridan (West wing) it was observed that the second floor mechanical room had a 24x24inch unsealed penetration in the ceiling. I Contacted Beatrice Mechanical and have them scheduled to come look at this to see what it will take to fix since there is a outside air damper up there. They are scheduled to look at this on March 23<sup>rd</sup>, 2023 and let me know what it will cost to fix and a date they could come to do the work.
3. K0321 for the Administration building it was observed that the following rooms were used as storage and needs door closures on the door Rooms 015, 016, 020, 051, 045, 060, 061, 062, 066, and 259. We only had 6 door closures on hand and have to order more and they should be in by March 31, 2023 and we will get them all installed within a week of receiving the door closures.
4. K0300 for the Carstens café building it was observed that there was no documentation on the inspection of the fire-extinguishing system or cleaning of the exhaust hood. I have attached the Inspection report for the Fire-extinguishing system and have contacted a cleaning company who will give me a quote for the cleaning on March 23, 2023 and I will look it over to see if it meets requirements and then set up a time the week of March 31<sup>st</sup> for them to come out and clean the hood.

Please let me know if any additional information is needed and I will be happy to send that to you

Checked all door hardware for tightness, tightened loose fasteners and replaced stripped ones with oversized repair fasteners. It's a metal door and there were some dings from carts running into it, straightened them up. Adjusted hinges for proper door centering. Lubricated lock assembly. Tested, the door is latching fine now.

**ACTIVITY LOG**

<b>ACTION</b>	<b>BY</b>	<b>AT</b>	<b>COMMENTS</b>
Completed	Steven Robertson	3/21/2023 9:21 AM	Checked all door hardware for tightness, tightened loose fasteners and replaced stripped ones with oversized repair fasteners. It's a metal door and there were some dings from carts running into it, straightened them up. Adjusted hinges for proper door centering. Lubricated lock assembly. Tested, the door is latching fine now.

**Kitchen Report**

This testing was performed in accordance with applicable NFPA 72 Standards.

Midwest Alarm Services provides many services to our community. If you would like quarterly, semi-annual or annual testing/inspection, the inspection coordinator can reach out and offer inspections on a time and material basis. Signing an Inspection Agreement with Midwest Alarm Services has many benefits. Not only do you save money, but our inspection coordinator will work with you to ensure your Fire System stays in code as well as has proper documentation sent to the local jurisdiction for compliance. If you need an estimate or have questions about our services, please reach out to our operations manager.

### INSPECTION

MASTER PRESSURE-REGULATING DEVICE	RESULTS YES/NO/NA
Supply pressure gauge PSI	72
System pressure gauge PSI	112

CONTROL VALVES	RESULTS YES/NO/NA
Control valves in normal open or closed position	Yes
Control valves properly locked or supervised	Yes
Control valves accessible	Yes
Control valves (PIV) provided with appropriate wrenches	Yes

Control valves free from external leaks	Yes
---	-----

<b>GAUGES</b>	<b>RESULTS YES/NO/NA</b>
Gauges appear to be in good condition	Yes

<b>ALARM VALVES/RISER CHECK</b>	<b>RESULTS YES/NO/NA</b>
Alarm valve free of physical damage	N/A
Alarm valve trim valves are in appropriate open or closed position	N/A
Alarm valve retarding chamber or alarm drain not leaking	N/A
Alarm valve gauges indicate normal supply water pressure	N/A

<b>FIRE DEPARTMENT CONNECTIONS</b>	<b>RESULTS YES/NO/NA</b>
FDC is visible	Yes
FDC is accessible	Yes
FDC swivels/couplings undamaged/rotate smoothly	Yes
FDC plugs/caps in place/undamaged	Yes
FDC gaskets in place and in good condition	Yes
FDC identification sign in place	Yes
FDC check valve not leaking	Yes
FDC automatic drain valve in place and operating properly	Yes
FDC clapper is in place and operating properly	Yes

<b>PRESSURE-REDUCING VALVE</b>	<b>RESULTS YES/NO/NA</b>
Pressure reducing control valves (PRV) indicate open	N/A
PRV not leaking	N/A
PRV in good condition	N/A
PRV handwheel installed and not broken	N/A

<b>SIGNAGE</b>	<b>RESULTS YES/NO/NA</b>
Hydraulic nameplate attached and legible	Yes
Control valve identification signs in place	Yes
System control valve sign indicates area served	Yes

<b>SPRINKLERS (VISIBLE FROM GROUND LEVEL)</b>	<b>RESULTS YES/NO/NA</b>
Sprinklers appear free of leakage	Yes
Sprinklers appear free of corrosion	Yes
Sprinklers appear free of foreign materials	Yes
Sprinklers appear free of paint	Yes
Sprinklers appear free of physical damage	Yes
Sprinklers appear properly oriented	Yes
Glass bulbs appear full of liquid	Yes
Spare sprinklers are of proper number (at least 6), type and temperature rating	Yes

Wrench available for each type of sprinkler	Yes
---	-----

<b>HANGERS/SEISMIC BRACING (FROM GROUND LEVEL)</b>	<b>RESULTS YES/NO/NA</b>
Hangers and seismic bracing appear undamaged and tightly attached	Yes

<b>PIPES AND FITTINGS (VISIBLE FROM GROUND LEVEL)</b>	<b>RESULTS YES/NO/NA</b>
Piping appears free of mechanical damage	Yes
Piping appears free of leakage	Yes
Piping appears free of external loading	Yes

<b>BACKFLOW</b>	<b>RESULTS YES/NO/NA</b>
Backflow prevention assembly valves are locked or electrically supervised in open position	Yes
Reduced pressure backflow prevention assembly not in continuous discharge	N/A

<b>TESTING</b>	<b>RESULTS YES/NO/NA</b>
Alarm device free from physical damage	Yes
Water flow alarm (other than vane type) tested and is operational	Yes
Test conducted with inspector's test connection	N/A
Time of alarm activation	47
A main drain test conducted downstream from backflow preventer	Yes
A main drain test conducted downstream from pressure reducing valve	N/A
Supervisory switch initiates distinct signal during first two hand wheel revolutions or before valve stem moved one-fifth from normal position on PIV or WPIV Valve	Yes
Signal restored only when valve returned to normal position	Yes
Control valves (including backflow or PIVs) operated through full range and returned to normal position	Yes
PIVs / WPIVs opened until spring or torsion felt in rod	Yes
PIVs / WPIVs / OS&Ys backed 1/4 turn from full	Yes
PRV control valves partial flow test conducted and adequate to unseat valve	N/A
Valve completely closed and reopened	Yes
ALARM PANEL CLEAR - Upon Leaving	Yes
SYSTEM RETURNED TO SERVICE	Yes

MAIN DRAIN TEST						
#	Location	Size Test Pipe	Static psi (before)	Residual psi	Return time to static pressure	Results differ more than 10 %?

<b>WET SYSTEM INFORMATION</b>			
<b>Unit #:</b>	30269	<b>Location:</b>	1st floor
<b>Make:</b>		<b>Model:</b>	
<b>System Notes:</b>			

**INSPECTION**

<b>MASTER PRESSURE-REGULATING DEVICE</b>	<b>RESULTS YES/NO/NA</b>
Supply pressure gauge PSI	90
System pressure gauge PSI	94

<b>CONTROL VALVES</b>	<b>RESULTS YES/NO/NA</b>
Control valves in normal open or closed position	Yes
Control valves properly locked or supervised	Yes
Control valves accessible	Yes
Control valves (PIV) provided with appropriate wrenches	Yes
Control valves free from external leaks	Yes

<b>GAUGES</b>	<b>RESULTS YES/NO/NA</b>
Gauges appear to be in good condition	Yes

<b>ALARM VALVES/RISER CHECK</b>	<b>RESULTS YES/NO/NA</b>
Alarm valve free of physical damage	N/A
Alarm valve trim valves are in appropriate open or closed position	N/A
Alarm valve retarding chamber or alarm drain not leaking	N/A
Alarm valve gauges indicate normal supply water pressure	N/A

<b>FIRE DEPARTMENT CONNECTIONS</b>	<b>RESULTS YES/NO/NA</b>
FDC is visible	Yes
FDC is accessible	Yes
FDC swivels/couplings undamaged/rotate smoothly	Yes
FDC plugs/caps in place/undamaged	Yes
FDC gaskets in place and in good condition	Yes
FDC identification sign in place	Yes
FDC check valve not leaking	Yes
FDC automatic drain valve in place and operating properly	Yes
FDC clapper is in place and operating properly	Yes

<b>PRESSURE-REDUCING VALVE</b>	<b>RESULTS YES/NO/NA</b>
Pressure reducing control valves (PRV) indicate open	N/A
PRV not leaking	N/A
PRV in good condition	N/A
PRV handwheel installed and not broken	N/A

<b>SIGNAGE</b>	<b>RESULTS YES/NO/NA</b>
Hydraulic nameplate attached and legible	Yes
Control valve identification signs in place	Yes
System control valve sign indicates area served	Yes

<b>SPRINKLERS (VISIBLE FROM GROUND LEVEL)</b>	<b>RESULTS YES/NO/NA</b>
Sprinklers appear free of leakage	Yes
Sprinklers appear free of corrosion	Yes
Sprinklers appear free of foreign materials	Yes
Sprinklers appear free of paint	Yes
Sprinklers appear free of physical damage	Yes
Sprinklers appear properly oriented	Yes
Glass bulbs appear full of liquid	Yes
Spare sprinklers are of proper number (at least 6), type and temperature rating	Yes
Wrench available for each type of sprinkler	Yes

<b>HANGERS/SEISMIC BRACING (FROM GROUND LEVEL)</b>	<b>RESULTS YES/NO/NA</b>
Hangers and seismic bracing appear undamaged and tightly attached	Yes

<b>PIPES AND FITTINGS (VISIBLE FROM GROUND LEVEL)</b>	<b>RESULTS YES/NO/NA</b>
Piping appears free of mechanical damage	Yes
Piping appears free of leakage	Yes
Piping appears free of external loading	Yes

<b>BACKFLOW</b>	<b>RESULTS YES/NO/NA</b>
Backflow prevention assembly valves are locked or electrically supervised in open position	Yes
Reduced pressure backflow prevention assembly not in continuous discharge	N/A

<b>TESTING</b>	<b>RESULTS YES/NO/NA</b>
Alarm device free from physical damage	Yes
Water flow alarm (other than vane type) tested and is operational	Yes
Test conducted with inspector's test connection	Yes
Time of alarm activation	41
A main drain test conducted downstream from backflow preventer	Yes
A main drain test conducted downstream from pressure reducing valve	N/A
Supervisory switch initiates distinct signal during first two hand wheel revolutions or before valve stem moved one-fifth from normal position on PIV or WPIV Valve	Yes
Signal restored only when valve returned to normal position	Yes
Control valves (including backflow or PIVs) operated through full range and returned to normal position	Yes
PIVs / WPIVs opened until spring or torsion felt in rod	Yes
PIVs / WPIVs / OS&Ys backed 1/4 turn from full	Yes
PRV control valves partial flow test conducted and adequate to unseat valve	N/A

Valve completely closed and reopened	Yes
ALARM PANEL CLEAR - Upon Leaving	Yes
SYSTEM RETURNED TO SERVICE	Yes

MAIN DRAIN TEST						
#	Location	Size Test Pipe	Static psi (before)	Residual psi	Return time to static pressure	Results differ more than 10 %?
30269	1st floor	1 inch	94	65	0	yes

**INSPECTION**

MASTER PRESSURE-REGULATING DEVICE	RESULTS YES/NO/NA
Supply pressure gauge PSI	70
System pressure gauge PSI	80

CONTROL VALVES	RESULTS YES/NO/NA
Control valves in normal open or closed position	Yes
Control valves properly locked or supervised	Yes
Control valves accessible	Yes
Control valves (PIV) provided with appropriate wrenches	Yes
Control valves free from external leaks	Yes

GAUGES	RESULTS YES/NO/NA
Gauges appear to be in good condition	Yes

ALARM VALVES/RISER CHECK	RESULTS YES/NO/NA
Alarm valve free of physical damage	N/A
Alarm valve trim valves are in appropriate open or closed position	N/A
Alarm valve retarding chamber or alarm drain not leaking	N/A
Alarm valve gauges indicate normal supply water pressure	N/A

FIRE DEPARTMENT CONNECTIONS	RESULTS YES/NO/NA
FDC is visible	Yes
FDC is accessible	Yes
FDC swivels/couplings undamaged/rotate smoothly	Yes
FDC plugs/caps in place/undamaged	Yes
FDC gaskets in place and in good condition	Yes
FDC identification sign in place	Yes
FDC check valve not leaking	Yes
FDC automatic drain valve in place and operating properly	Yes
FDC clapper is in place and operating properly	Yes

PRESSURE-REDUCING VALVE	RESULTS YES/NO/NA
Pressure reducing control valves (PRV) indicate open	N/A
PRV not leaking	N/A
PRV in good condition	N/A
PRV handwheel installed and not broken	N/A

<b>SIGNAGE</b>	<b>RESULTS YES/NO/NA</b>

## ANNUAL INSPECTION, TESTING & MAINTENANCE

CUSTOMER & JOB INFORMATION	
<b>Company:</b> Youth Rehab & Treatment Center   10707	<b>Date:</b> 06-20-2024
<b>Location:</b> Bryant Creighton Building	<b>Job Number:</b> 34725682
<b>Location Address:</b> , Kearney Nebraska 68845	<b>Tech &amp; License # :</b> Otis Day NE Inspector/Tech
<b>Contact:</b> Richard Hancock	<b>Monitoring Co. &amp; Phone #:</b>

OWNER SECTION	RESULTS YES/NO/NA
Is the building occupied?	Yes
Has the occupancy classification and hazard of contents remained the same since the last inspection?	Yes
Are all fire protection systems in service?	Yes
Has the system remained in service without modification since the last inspection?	Yes
Was the system free of actuations or alarms since the last inspection?	Yes
Is all wet system piping protected from temperatures below 40°F?	Yes
Was the system free of actuations or alarms since the last inspection?	Yes
Date of last 5 year inspection?	09-13-2022
Prior inspection reports, logs and test data are available for review?	Yes
Plans of system onsite for review (located at the riser)	Yes
Copy of NFPA25 (located at the riser)	Yes
Was property free of fires since last inspection according to information furnished by owner or owner's representative? Explain fire in comments.	
<b>Comments:</b> Good

<b>HANGERS/SEISMIC BRACING (FROM GROUND LEVEL)</b>	<b>RESULTS YES/NO/NA</b>
Hangers and seismic bracing appear undamaged and tightly attached	Yes

<b>PIPES AND FITTINGS (VISIBLE FROM GROUND LEVEL)</b>	<b>RESULTS YES/NO/NA</b>
Piping appears free of mechanical damage	Yes
Piping appears free of leakage	Yes
Piping appears free of external loading	Yes

<b>BACKFLOW</b>	<b>RESULTS YES/NO/NA</b>
Backflow prevention assembly valves are locked or electrically supervised in open position	Yes
Reduced pressure backflow prevention assembly not in continuous discharge	N/A

<b>TESTING</b>	<b>RESULTS YES/NO/NA</b>
Alarm device free from physical damage	Yes
Water flow alarm (other than vane type) tested and is operational	Yes
Test conducted with inspector's test connection	Yes
Time of alarm activation	26
A main drain test conducted downstream from backflow preventer	Yes
A main drain test conducted downstream from pressure reducing valve	N/A
Supervisory switch initiates distinct signal during first two hand wheel revolutions or before valve stem moved one-fifth from normal position on PIV or WPIV Valve	Yes
Signal restored only when valve returned to normal position	Yes
Control valves (including backflow or PIVs) operated through full range and returned to normal position	Yes
PIVs / WPIVs opened until spring or torsion felt in rod	Yes
PIVs / WPIVs / OS&Ys backed 1/4 turn from full	Yes
PRV control valves partial flow test conducted and adequate to unseat valve	N/A
Valve completely closed and reopened	Yes
ALARM PANEL CLEAR - Upon Leaving	Yes
SYSTEM RETURNED TO SERVICE	Yes

<b>ALARM VALVES/RISER CHECK</b>	<b>RESULTS YES/NO/NA</b>
Alarm valve free of physical damage	N/A
Alarm valve trim valves are in appropriate open or closed position	N/A
Alarm valve retarding chamber or alarm drain not leaking	N/A
Alarm valve gauges indicate normal supply water pressure	N/A

<b>FIRE DEPARTMENT CONNECTIONS</b>	<b>RESULTS YES/NO/NA</b>
FDC is visible	Yes
FDC is accessible	Yes
FDC swivels/couplings undamaged/rotate smoothly	Yes
FDC plugs/caps in place/undamaged	Yes
FDC gaskets in place and in good condition	Yes
FDC identification sign in place	Yes
FDC check valve not leaking	Yes
FDC automatic drain valve in place and operating properly	Yes
FDC clapper is in place and operating properly	Yes

<b>PRESSURE-REDUCING VALVE</b>	<b>RESULTS YES/NO/NA</b>
Pressure reducing control valves (PRV) indicate open	N/A
PRV not leaking	N/A
PRV in good condition	N/A
PRV handwheel installed and not broken	N/A

<b>SIGNAGE</b>	<b>RESULTS YES/NO/NA</b>
Hydraulic nameplate attached and legible	Yes
Control valve identification signs in place	Yes
System control valve sign indicates area served	Yes

<b>SPRINKLERS (VISIBLE FROM GROUND LEVEL)</b>	<b>RESULTS YES/NO/NA</b>
Sprinklers appear free of leakage	Yes
Sprinklers appear free of corrosion	Yes
Sprinklers appear free of foreign materials	Yes
Sprinklers appear free of paint	Yes
Sprinklers appear free of physical damage	Yes
Sprinklers appear properly oriented	Yes
Glass bulbs appear full of liquid	Yes
Spare sprinklers are of proper number (at least 6), type and temperature rating	Yes
Wrench available for each type of sprinkler	Yes

<b>HANGERS/SEISMIC BRACING (FROM GROUND LEVEL)</b>	<b>RESULTS YES/NO/NA</b>
Hangers and seismic bracing appear undamaged and tightly attached	Yes

<b>PIPES AND FITTINGS (VISIBLE FROM GROUND LEVEL)</b>	<b>RESULTS YES/NO/NA</b>
Piping appears free of mechanical damage	Yes
Piping appears free of leakage	Yes
Piping appears free of external loading	Yes

<b>BACKFLOW</b>	<b>RESULTS YES/NO/NA</b>
Backflow prevention assembly valves are locked or electrically supervised in open position	Yes
Reduced pressure backflow prevention assembly not in continuous discharge	N/A

<b>TESTING</b>	<b>RESULTS YES/NO/NA</b>
Alarm device free from physical damage	Yes
Water flow alarm (other than vane type) tested and is operational	Yes
Test conducted with inspector's test connection	Yes
Time of alarm activation	23
A main drain test conducted downstream from backflow preventer	Yes
A main drain test conducted downstream from pressure reducing valve	N/A
Supervisory switch initiates distinct signal during first two hand wheel revolutions or before valve stem moved one-fifth from normal position on PIV or WPIV Valve	Yes
Signal restored only when valve returned to normal position	Yes
Control valves (including backflow or PIVs) operated through full range and returned to normal position	Yes
PIVs / WPIVs opened until spring or torsion felt in rod	Yes
PIVs / WPIVs / OS&Ys backed 1/4 turn from full	Yes
PRV control valves partial flow test conducted and adequate to unseat valve	N/A

Valve completely closed and reopened	Yes
ALARM PANEL CLEAR - Upon Leaving	Yes
SYSTEM RETURNED TO SERVICE	Yes

## ANNUAL INSPECTION, TESTING & MAINTENANCE

CUSTOMER & JOB INFORMATION	
<b>Company:</b> Youth Rehab & Treatment Center   10707	<b>Date:</b> 06-20-2024
<b>Location:</b> Boiler Plant	<b>Job Number:</b> 34725682
<b>Location Address:</b> ,	<b>Tech &amp; License # :</b> Otis Day NE Inspector/Tech
<b>Contact:</b> Richard Hancock	<b>Monitoring Co. &amp; Phone #:</b>

OWNER SECTION	RESULTS YES/NO/NA
Is the building occupied?	Yes
Has the occupancy classification and hazard of contents remained the same since the last inspection?	Yes
Are all fire protection systems in service?	Yes
Has the system remained in service without modification since the last inspection?	Yes
Was the system free of actuations or alarms since the last inspection?	Yes
Is all wet system piping protected from temperatures below 40°F?	Yes
Was the system free of actuations or alarms since the last inspection?	Yes
Date of last 5 year inspection?	09-13-2022
Prior inspection reports, logs and test data are available for review?	Yes
Plans of system onsite for review (located at the riser)	Yes
Copy of NFPA25 (located at the riser)	Yes
Was property free of fires since last inspection according to information furnished by owner or owner's representative? Explain fire in comments.	
<b>Comments:</b> Good

### INSPECTION

CONTROL VALVES	RESULTS YES/NO/NA
Control valves in normal open or closed position	Yes
Control valves properly locked or supervised	Yes
Control valves accessible	Yes
Control valves free from external leaks	Yes

TEST HEADER	RESULTS YES/NO/NA
Test Header is visible	Yes
Test Header is accessible	Yes

Test Header swivels/couplings undamaged/rotate smoothly	Yes
Test Header plugs/caps in place/undamaged	Yes

<b>PRESSURE CONTROL VALVE</b>	<b>RESULTS YES/NO/NA</b>
Pressure control valve (PRV) not leaking	N/A
Pressure control valve maintaining downstream pressure per design	N/A
Pressure control valve in good condition	N/A

<b>SIGNAGE</b>	<b>RESULTS YES/NO/NA</b>
Control valve identification signs in place	Yes
Control valve sign indicates area served	Yes
Test Header identification sign in place	Yes

<b>HANGERS/SEISMIC BRACING (FROM GROUND LEVEL)</b>	<b>RESULTS YES/NO/NA</b>
Hangers and seismic bracing appear undamaged and tightly attached (from ground level)	Yes

<b>PIPES AND FITTINGS (VISIBLE FROM GROUND LEVEL)</b>	<b>RESULTS YES/NO/NA</b>
Piping appears free of mechanical damage	Yes
Piping appears free of leakage	Yes
Piping appears free of corrosion	Yes
Piping appears properly aligned	Yes
Piping appears free of external loading	Yes

<b>BACKFLOW</b>	<b>RESULTS YES/NO/NA</b>
Backflow prevention assembly valves are locked or electrically supervised in open position	Yes
Reduced pressure backflow prevention assembly not in continuous discharge	N/A

<b>TESTING</b>	<b>RESULTS YES/NO/NA</b>
Fire pump assembly maintenance performed in accordance with mfg. recommendations	Yes
Flexible exhaust section inspected and in good condition	N/A
Manual starting means of electrically driven pumps operated	Yes
Antifreeze protection level tested	N/A
Electrical system safeties and alarms operated	Yes
Adequate heat is provided in pump room maintaining temperatures at 40°F or higher (prior to freezing weather)	Yes
Care taken to prevent water damage by verifying adequate drainage	Yes
Flow test conducted under minimum, rated, and peak fire pump flows	Yes
At churn, casing relief valve checked for operation and water discharge	No
At churn, pressure relief valve checked for proper operation	N/A
At churn, pressure control valve checked for proper operation	Yes
At each flow condition, pump speed recorded	Yes
At each flow condition, simultaneous readings of pump suction and discharge pressures and pump discharge flow recorded	Yes
Systems equipped with automatic transfer switch	Yes
Power failure condition simulated while pump operating at peak load	No
Transfer switch transfer of power to alternate power source verified	No
Pump maintenance of peak load performance verified	Yes
Power failure condition removed	No
Pump reconnected to normal power source after a time delay	No
Alarm conditions simulated	Yes
Local or remote alarm indicating devices (visual and audible) observed for operation	Yes
After water-flow portions of annual testing or fire protection system activations, suction screens inspected and cleared of debris or obstructions	Yes
Engine generator sets supplying emergency or standby power to fire pump assemblies tested in accordance with NFPA 110	Yes

## City Of Kearney

### Annual Water Quality Report For January 1 to December 31, 2022

This report is intended to provide you with important information about your drinking water and the efforts made by the City Of Kearney water system to provide safe drinking water.

**Para Clientes Que Hablan Español:** Este informe contiene información muy importante sobre el agua que usted bebe. Tradúzcalo ó hable con alguien que lo entienda bien.

For more information regarding this report, or to request a hard copy, contact:

**ANTON E JELINEK**  
308-233-3259

If you would like to observe the decision-making processes that affect drinking water quality, please attend the regularly scheduled meeting of the Village Board/City Council. If you would like to participate in the process, please contact the Village/City Clerk to arrange to be placed on the agenda of the meeting of the Village Board/City Council.

Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the EPA's Safe Drinking Water Hotline (800-426-4791).

#### Source Water Assessment Availability:

The Nebraska Department of Environment and Energy (NDEE) has completed the Source Water Assessment. Included in the assessment are a Wellhead Protection Area map, potential contaminant source inventory, and source water protection information. To view the Source Water Assessment or for more information please contact the person named above on this report or the NDEE at 402-471-3376 or go to <http://dee.ne.gov>.

In order to ensure that tap water is safe to drink, EPA prescribes regulations which limit the amount of certain contaminants in water provided by public water systems. FDA regulations establish limits for contaminants in bottled water which must provide the same protection for public health.

#### Sources of Drinking Water:

The sources of drinking water (both tap water and bottled water) include rivers, lakes, streams, ponds, reservoirs, springs, and groundwater wells. As water travels over the surface of the land or through the ground, it dissolves naturally occurring minerals and, in some cases, radioactive material, and can pick up substances resulting from the presence of animals or from human activity.

The source of water used by City Of Kearney is ground water under the direct influence of surface water.

#### Contaminants that may be present in source water include:

- \* Microbial contaminants, such as viruses and bacteria, which may come from sewage treatment plants, septic systems, agricultural livestock operations and wildlife.
- \* Inorganic contaminants, such as salts and metals, which can be naturally occurring or result from urban storm water runoff, industrial, or domestic wastewater discharges, oil and gas production, mining, or farming.
- \* Pesticides and herbicides, which may come from a variety of sources such as agriculture, urban storm water runoff, and residential uses.
- \* Organic chemical contaminants, including synthetic and volatile organic chemicals, which are by-products of industrial processes and petroleum production, and can also come from gas stations, urban storm water runoff, and septic systems.
- \* Radioactive contaminants, which can be naturally occurring or be the result of oil and gas production and mining activities.

#### Drinking Water Health Notes:

Some people may be more vulnerable to contaminants in drinking water than the general population. Immunocompromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. EPA/CDC guidelines on appropriate means to lessen the risk of infection by *Cryptosporidium* and other microbial contaminants are available from the Safe Drinking Water Hotline (800-426-4791).

If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. All Community water systems are responsible for providing high quality drinking water but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have you water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline (800-426-4791), at <http://www.epa.gov/safewater/lead> or at the NDEE Drinking Water Division (402-471-1009).

The City Of Kearney is required to test for the following contaminants: Cadmium, Bacteria, Anthracy, Arsenic, Asbestos, Barium, Beryllium, Cadmium, Chromium, Copper, Cyanide, Fluoride, Lead, Mercury, Nickel, Nitrate, Nitrite, Selenium, Sodium, Thallium, Atrichlor, Atrazine, Benz(a)pyrene, Carbazole, Chlorane, Dalapon, D(2-ethylhexyl)adipate, Dichloroacopropane, Dinosol, Di(2-ethylhexyl)-phthalate, Diquat, 2,4-D, Endrin, Ethylene dibromide, Glyphosate, Heptachlor, Heptachlor epoxide, Hexachlorobenzene, Hexachlorocyclopentadiene, Lindane, Methoxychlor, Oxamyl (Vydate), Pentachlorophenol, Picloram, Polychlorinated biphenyls, Simazine, Toxaphene, Dioxin, Silver, Benzene, Carbon Tetrachloride, o-Dichloro-benzene, Para-Dichlorobenzene, 1,2-Dichloroethane, 1,1-Dichloroethylene, Cis-1,2-Dichloroethylene, Trans-1,2-Dichloroethylene, Dichloromethane, 1,2-Dichloropropane, Ethylbenzene, Monochlorobenzene, 1,2,4-Trichloro-benzene, 1,1,1-Trichloroethane, 1,1,2-Trichloroethane, Trichloroethylene, Vinyl Chloride, Styrene, Tetrachloroethylene, Toluene, Xylene (total), Gross Alpha (minus Uranium & Radium 226 plus Radium 228 Sulfate, Chloroform, Bromodichloromethane, Chlorodibromomethane, Bromoform, Chlorobenzene, m-Dichlorobenzene, 1,1-Dichloropropane, 1,1-Dichloroethane, 1,1,2,2-Tetrachloroethane, 1,2-Dichloropropane, Chloromethane, Bromomethane, 1,2,3-Trichloropropane, 1,1,1,2-Tetra-chloroethane, Chloroethane, 2,2-Dichloropropane, o-Chlorotoluene, p-Chlorotoluene, Bromobenzene, 1,3-Dichloropropane, Aldrin, Butachlor, Carbarf, Dicamba, Dieldrin, 3-Hydroxycarbuturan, Methomyl, Metolachlor, Methidazin, Propachlor.

#### How to Read the Water Quality Data Table:

The EPA and State Drinking Water Program establish the safe drinking water regulations that limit the amount of contaminants allowed in drinking water. The table shows the concentrations of detected substances in comparison to the regulatory limits. Substances not detected are not included in the table. The state requires monitoring of certain contaminants less than once per year because the concentrations of these contaminants do not change frequently. Therefore, some of this data may be older than one year. **MCL (Maximum Contaminant Level)** – The highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology. **MCLG (Maximum Contaminant Level Goal)** – The level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety. **AL (Action Level)** – The concentration of a contaminant which, if exceeded triggers treatment or other requirements which a water system must follow. **MREDL (Maximum Residual Disinfectant Level)** – The highest level of a disinfectant allowed in drinking water. **M/A** – Not applicable.

#### Units in the Table:

- ND** – Not detectable.
- ppm (parts per million)** – One ppm corresponds to 1 gallon of concentrate in 1 million gallons of water.
- mg/L (milligrams per liter)** – Equivalent to ppm.
- ppb (parts per billion)** – One ppb corresponds to 1 gallon of concentrate in 1 billion gallons of water.
- ug/L (micrograms per liter)** – Equivalent to ppb.
- PCIL (picocuries per liter)** – Radioactivity concentration unit.
- RAA (Running Annual Average)** – An ongoing annual average calculation of data from the most recent four quarters.
- LRAA (Locational Running Annual Average)** – An ongoing annual average calculation of data from the most recent four quarters at each sampling location.
- 90<sup>th</sup> Percentile** – Represents the highest value found out of 90% of the samples taken in a representative group. If the 90<sup>th</sup> percentile is greater than the action level, it will trigger a treatment or other requirements that a water system must follow.
- TT (Treatment Technique)** – A required process intended to reduce the level of a contaminant in drinking water.

**TEST RESULTS**

Microbiological	Highest No. of Positive Samples	MCL	MCLG	Likely Source of Contamination	Violations Present		
No Detected Results were Found in the Calendar Year of 2022							
<b>Lead and Copper</b>	<b>Monitoring Period</b>	<b>90<sup>th</sup> Percentile</b>	<b>Range</b>	<b>Unit</b>	<b>AL</b>	<b>Sites Over AL</b>	<b>Likely Source of Contamination</b>
COPPER, FREE	2019 - 2021	0.337	0.0065 - 0.573	ppm	1.3	0	Erosion of natural deposits; Leaching from wood preservatives; Corrosion of household plumbing.
LEAD	2019 - 2021	2.78	0 - 4.24	ppb	15	0	Erosion of natural deposits; Leaching from wood preservatives; Corrosion of household plumbing.
<b>Regulated Contaminants</b>	<b>Collection Date</b>	<b>Highest Value</b>	<b>Range</b>	<b>Unit</b>	<b>MCL</b>	<b>MCLG</b>	<b>Likely Source of Contamination</b>
ARSENIC	8/29/2022	4.51	3.95 - 4.51	ppb	10	0	Erosion of natural deposits; runoff from orchards; runoff from glass and electronics production wastes.
BARIUM	1/3/2022	0.17	0.17	ppm	2	2	Discharge from drilling wastes; Discharge from metal refineries; Erosion of natural deposits.
CHROMIUM	1/3/2022	3.73	3.73	ppb	100	100	Discharge from steel and pulp mills; Erosion of natural deposits.
FLUORIDE	1/3/2022	0.484	0.484	ppm	4	4	Erosion of natural deposits; water additive which promotes strong teeth; Fertilizer discharge.
NITRATE-NITRITE	3/14/2022	1.44	1.06 - 1.44	ppm	10	10	Runoff from fertilizer use; Leaching from septic tanks; sewage; Erosion of natural deposits
<b>Disinfection Byproducts</b>	<b>Monitoring Period</b>	<b>Highest RAA</b>	<b>Range</b>	<b>Unit</b>	<b>MCL</b>	<b>MCLG</b>	<b>Likely Source of Contamination</b>
TOTAL HALOACETIC ACIDS (HAAs)	1/1/2022 - 12/31/2022	9.89688	6.34 - 15.5	ppb	60	0	By-product of drinking water disinfection.
THM	10/1/2021 - 9/30/2022	37.31875	22.6 - 73.6	ppb	80	0	By-product of drinking water disinfection.
<b>Radiological Contaminants</b>	<b>Collection Date</b>	<b>Highest Value</b>	<b>Range</b>	<b>Unit</b>	<b>MCL</b>	<b>MCLG</b>	<b>Likely Source of Contamination</b>
COMBINED RADIUM (-226 & -228)	4/9/2018	0.999	0.999	pCi/L	5	0	Erosion of natural deposits
COMBINED URANIUM	10/24/2022	16.1	3.83 - 16.1	pCi/l	0	0	Erosion of natural deposits
GROSS ALPHA, EXCL. RADON & U	5/2/2022	0.7	0 - 0.7	pCi/L	15	0	Erosion of natural deposits
GROSS ALPHA, INCL. RADON & U	10/24/2022	24.5	0 - 24.5	pCi/L	15	0	Erosion of natural deposits
RADIUM-226	4/9/2018	0.999	0.999	pCi/L	0	0	Erosion of natural deposits.
<b>Unregulated Water Quality Data</b>	<b>Collection Date</b>	<b>Highest Value</b>	<b>Range</b>	<b>Unit</b>	<b>Secondary MCL</b>		
SULFATE	1/3/2022	12.9	12.9	mg/L	250		
During the 2022 calendar year, we had the below noted violation(s) of drinking water regulations.							
<b>Violation Type</b>	<b>Category</b>	<b>Analyte</b>	<b>Compliance Period</b>				
No Violations Occurred in the Calendar Year of 2022							

The City Of Kearney has taken the following actions to return to compliance with the Nebraska Safe Drinking Water Act:  
 There are no actions required stayed in compliance.

**Additional Required Health Effects Language:**  
 Certain minerals are radioactive and may emit a form of radiation known as alpha radiation. Some people who drink water containing alpha emitters in excess of the MCL over many years may have an increased risk of getting cancer.

There are no additional required health effects violation notices.

Suppression Questionnaire

Is system connected to Main Fire Alarm System?  Yes  No  N/A

Is the protected room properly sealed?  Yes  No  N/A

Is there a door sweep?  Yes  No  N/A

Do the trouble signals operate correctly from releasing panel and sub panels (if any)?  Yes  No  N/A

Did alarm signals operate correctly for releasing panel and associated devices when tested?  Yes  No  N/A

Is all wiring installed correctly, terminated and in a serviceable working order?  Yes  No  N/A

Are all switches, indicators, meters, and gauges in good working order both physically and functionally?  Pass  Fail  N/A

Do all shutdown function relays and devices work as intended? Air handlers, fans, dampers, computer systems.  Yes  No  N/A

Will system operate on batteries for 24 hours in standby and 5 minutes in alarm?  Yes  No  N/A

Food Temp - Recorded on Daily Production Records - checked a number of months - very consistent

Received by: [Signature] Inspected by: [Signature]

After our Food Establishment Inspection Report on 03/22/24, there were 5 deficiencies discovered (3 Priority, 2 Core).

The following actions were taken to address these concerns:

1. The mounted can opener was deep cleaned.
2. Corrections were made and staff training provided in regard to appropriate sanitation chemical concentration levels in wash buckets.
3. Thermometer, Receiving, and Discard logs brought up to date by supervisor.
4. Floor fans were cleaned.
5. Maintenance was notified of mold on refrigeration walls in downstairs pantry.

  
James Orme, Food Service Director

# Automatic Sprinkler Systems Monthly Inspection

This form covers a 1-year period.

Year: 2022 System: LC/W  
 Location: 1st FLOOR

1. Confirm valves are open. If valves are locked, note "yes" in this block. If any are not locked, relock and note "relocked" in this block.
2. Inspect alarm valves to assure no leakage from retard chamber or alarm drains and no physical damage. Confirm that trim valves are in appropriate closed or open position.
3. Assure there is proper number and type of sprinklers and a sprinkler wrench.
4. Check for physical damage and that electrical connections are secure.
5. Record pressure readings in psi (bar). A loss of more than 10% should be investigated.
6. Record any notes about the system that the inspector believes to be significant. Place a number in this block and number the corresponding note at the end of the inspection form.

Y = Satisfactory N = Unsatisfactory (explain below)

## City of Kearney

### Annual Water Quality Report For January 1 to December 31, 2023

This report is intended to provide you with important information about your drinking water and the efforts made by the City of Kearney water system to provide safe drinking water.

**Para Clientes Que Hablan Español:** Este informe contiene información muy importante sobre el agua que usted bebe. Tradúzcalo ó hable con alguien que lo entienda bien.

For more information regarding this report, or to request a hard copy, contact:

**SARAH E SAWIN**  
308-233-3238

If you would like to observe the decision-making processes that affect drinking water quality, please attend the regularly scheduled meeting of the Village Board/City Council. If you would like to participate in the process, please contact the Village/City Clerk to arrange to be placed on the agenda of the meeting of the Village Board/City Council.

Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the EPA's Safe Drinking Water Hotline (800-426-4791).

#### **Source Water Assessment Availability:**

The Nebraska Department of Environment and Energy (NDEE) has completed the Source Water Assessment. Included in the assessment are a Wellhead Protection Area map, potential contaminant source inventory, and source water protection information. To view the Source Water Assessment or for more information please contact the person named above on this report or the NDEE at 402-471-3376 or go to <http://dee.ne.gov>.

In order to ensure that tap water is safe to drink, EPA prescribes regulations which limit the amount of certain contaminants in water provided by public water systems. FDA regulations establish limits for contaminants in bottled water which must provide the same protection for public health.

#### **Sources of Drinking Water:**

The sources of drinking water (both tap water and bottled water) include rivers, lakes, streams, ponds, reservoirs, springs, and groundwater wells. As water travels over the surface of the land or through the ground, it dissolves naturally occurring minerals and, in some cases, radioactive material, and can pick up substances resulting from the presence of animals or from human activity.

The source of water used by City of Kearney is ground water under the direct influence of surface water.

#### **Contaminants that may be present in source water include:**

\* Microbial contaminants, such as viruses and bacteria, which may come from sewage treatment plants, septic systems, agricultural livestock operations and wildlife.

\* Inorganic contaminants, such as salts and metals, which can be naturally occurring or result from urban storm water runoff, industrial, or domestic wastewater discharges, oil and gas production, mining, or farming.

\* Pesticides and herbicides, which may come from a variety of sources such as agriculture, urban storm water runoff, and residential uses.

\* Organic chemical contaminants, including synthetic and volatile organic chemicals, which are by-products of industrial processes and petroleum production, and can also come from gas stations, urban storm water runoff, and septic systems.

\* Radioactive contaminants, which can be naturally occurring or be the result of oil and gas production and mining activities.

#### **Drinking Water Health Notes:**

Some people may be more vulnerable to contaminants in drinking water than the general population. Immunocompromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. EPA/CDC guidelines on appropriate means to lessen the risk of infection by *Cryptosporidium* and other microbial contaminants are available from the Safe Drinking Water Hotline (800-426-4791).

If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. All Community water systems are responsible for providing high quality drinking water but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline (800-426-4791), at <http://www.epa.gov/safewater/lead> or at the NDEE Drinking Water Division (402-471-1009).

The City of Kearney is required to test for the following contaminants: Coliform Bacteria, Antimony, Arsenic, Asbestos, Barium, Beryllium, Cadmium, Chromium, Copper, Cyanide, Fluoride, Lead, Mercury, Nickel, Nitrate, Nitrite, Selenium, Sodium, Thallium, Alachlor, Atrazine, Benzo(a)pyrene, Carbofuran, Chlordane, Dalapon, Di(2-ethylhexyl)adipate, Dibromochloropropane, Dinoseb, Di(2-ethylhexyl)- phthalate, Diquat, 2,4-D, Endothal, Endrin, Ethylene dibromide, Glyphosate, Heptachlor, Heptachlor epoxide, Hexachlorobenzene, Hexachlorocyclopentadiene, Lindane, Methoxychlor, Oxamyl (Vydate), Pentachlorophenol, Picloram, Polychlorinated biphenyls, Simazine, Toxaphene, Dioxin, Silvex, Benzene, Carbon Tetrachloride, o-Dichloro- benzene, Para-Dichlorobenzene, 1,2-Dichloroethane, 1,1-Dichloroethylene, Cis-1,2,- Dichloroethylene, Trans-1,2-Dichloroethylene, Dichloromethane, 1,2-Dichloropropane, Ethylbenzene, Monochlorobenzene, 1,2,4-Trichloro- benzene, 1,1,1-Trichloroethane, 1,1,2-Trichloroethane, Trichloroethylene, Vinyl Chloride, Styrene, Tetrachloroethylene, Toluene, Xylenes (total), Gross Alpha (minus Uranium & Radium 226), Radium 226 plus Radium 228, Sulfate, Chloroform, Bromodichloromethane, Chlorodibromomethane, Bromoform, Chlorobenzene, m-Dichlorobenzene, 1,1-Dichloropropene, 1,1-Dichloroethane, 1,1,1,2,2-Tetrachloroethane, 1,2-Dichloropropane, Chloroform, Bromomethane, 1,2,3-Trichloropropane, 1,1,1,2-Tetra- chloroethane, Chloroethane, 2,2-Dichloropropane, o-Chlorotoluene, p-Chlorotoluene, Bromobenzene, 1,3-Dichloropropene, Aldrin, Butachlor, Carbaryl, Dicamba, Dieldrin, 3-Hydroxycarbofuran, Methomyl, Metolachlor, Metribuzin, Propachlor.

#### **How to Read the Water Quality Data Table:**

The EPA and State Drinking Water Program establish the safe drinking water regulations that limit the amount of contaminants allowed in drinking water. The table shows the concentrations of detected substances in comparison to the regulatory limits. Substances not detected are not included in the table. The state requires monitoring of certain contaminants less than once per year because the concentrations of these contaminants do not change frequently. Therefore, some of this data may be older than one year.

**MCL (Maximum Contaminant Level)** – The highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology.

**MCLG (Maximum Contaminant Level Goal)** – The level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety.

**AL (Action Level)** – The concentration of a contaminant which, if exceeded triggers treatment or other requirements which a water system must follow.

**MRDL (Maximum Residual Disinfectant Level)** – The highest level of a disinfectant allowed in drinking water.

**N/A** – Not applicable.

#### **Units in the Table:**

**ND** – Not detectable.

**ppm (parts per million)** – One ppm corresponds to 1 gallon of concentrate in 1 million gallons of water.

**mg/L (milligrams per liter)** – Equivalent to ppm.

**ppb (parts per billion)** – One ppb corresponds to 1 gallon of concentrate in 1 billion gallons of water.

**ug/L (micrograms per liter)** – Equivalent to ppb.

**pCi/L (Picocuries per liter)** – Radioactivity concentration unit.

**RAA (Running Annual Average)** – An ongoing annual average calculation of data from the most recent four quarters.

**LRAA (Locational Running Annual Average)** – An ongoing annual average calculation of data from the most recent four quarters at each sampling location.

**90<sup>th</sup> Percentile** – Represents the highest value found out of 90% of the samples taken in a representative group. If the 90<sup>th</sup> percentile is greater than the action level, it will trigger a treatment or other requirements that a water system must follow.

**TT (Treatment Technique)** – A required process intended to reduce the level of a contaminant in drinking water.

Microbiological	Highest Number of Positive Samples			MCL		MCLG	Likely Source of Contamination	Violations Present
COLIFORM (TCR)	In the month of August, 2 sample(s) were positive			Treatment Technique Trigger		0	Naturally present in the environment	Yes
Lead and Copper	Monitoring Period	90 <sup>th</sup> Percentile	Range	Unit	AL	Sites Over AL	Likely Source of Contamination	
COPPER, FREE	2019 - 2021	0.337	0.0065 - 0.573	ppm	1.3	0	Erosion of natural deposits; Leaching from wood preservatives; Corrosion of household plumbing.	
LEAD	2019 - 2021	2.78	0 - 4.24	ppb	15	0	Erosion of natural deposits; Leaching from wood preservatives; Corrosion of household plumbing.	
Regulated Contaminants	Collection Date	Highest Value	Range	Unit	MCL	MCLG	Likely Source of Contamination	
ARSENIC	8/7/2023	4.7	4.7	ppb	10	0	Erosion of natural deposits; runoff from orchards; runoff from glass and electronics production wastes.	
BARIUM	1/3/2022	0.17	0.17	ppm	2	2	Discharge from drilling wastes; Discharge from metal refineries; Erosion of natural deposits.	
CHROMIUM	1/3/2022	3.73	3.73	ppb	100	100	Discharge from steel and pulp mills; Erosion of natural deposits.	
FLUORIDE	1/3/2022	0.484	0.484	ppm	4	4	Erosion of natural deposits; water additive which promotes strong teeth; Fertilizer discharge.	
NITRATE-NITRITE	2/27/2023	1.3	0.861 - 1.3	ppm	10	10	Runoff from fertilizer use; Leaching from septic tanks, sewage; Erosion of natural deposits	
URANIUM MASS	3/20/2023	19.9	6.2 - 19.9	ug/L	30	0	Erosion of natural deposits	
Disinfection Byproducts	Monitoring Period	Highest RAA	Range	Unit	MCL	MCLG	Likely Source of Contamination	
TOTAL HALOACETIC ACIDS (HAA5)	4/1/2022 - 3/31/2023	9.09188	1.3 - 15.5	ppb	60	0	By-product of drinking water disinfection.	
TTHM	4/1/2022 - 3/31/2023	29.58375	8.24 - 52.1	ppb	80	0	By-product of drinking water disinfection.	
Radiological Contaminants	Collection Date	Highest Value	Range	Unit	MCL	MCLG	Likely Source of Contamination	
COMBINED RADIUM (-226 & -228)	4/17/2023	1.587	1.587	pCi/L	5	0	Erosion of natural deposits	
COMBINED URANIUM	4/17/2023	21.1	5.48 - 21.1	pCi/l		0	Erosion of natural deposits	
GROSS ALPHA, EXCL. RADON & U	2/6/2023	4.3	0 - 4.3	pCi/L	15	0	Erosion of natural deposits	
GROSS ALPHA, INCL. RADON & U	2/6/2023	21.3	2.74 - 21.3	pCi/L	15	0	Erosion of natural deposits	
RADIUM-226	4/17/2023	0.828	0.828	pCi/L		0	Erosion of natural deposits.	
RADIUM-228	4/17/2023	0.759	0.759	pCi/L		0	Erosion of natural deposits	
Unregulated Water Quality Data	Collection Date	Highest Value	Range	Unit	Secondary MCL			
SULFATE	1/3/2022	12.9	12.9	mg/L	250			

During the 2023 calendar year, we had the below noted violation(s) of drinking water regulations.

Violation Type	Category	Analyte	Compliance Period
No Violations Occurred in the Calendar Year of 2023			

**The City of Kearney has taken the following actions to return to compliance with the Nebraska Safe Drinking Water Act:**

There are no actions required stayed in compliance.

**Additional Required Health Effects Language:**

Certain minerals are radioactive and may emit a form of radiation known as alpha radiation. Some people who drink water containing alpha emitters in excess of the MCL over many years may have an increased risk of getting cancer.

There are no additional required health effects violation notices.

**COMMISSION ON ACCREDITATION FOR CORRECTIONS**

## WATER SUPPLY SYSTEMS

### ANNUAL FLOW TESTS

Date: 11/3/23 Inspector: Lowell Mittels System: \_\_\_\_\_

Location: Hastings Regional Center

Conduct 2-in (51-mm) main drain test for gravity tanks and pressure tanks.

Static pressure: \_\_\_\_\_ psi (bar)

Full flow pressure: \_\_\_\_\_ psi (bar)

Ground level tanks and underground tanks: Annual test is accomplished during fire pump full flow tests.

#### Water Distribution Systems

Annual test is accomplished during fire hydrant annual tests. For each test, record the following:

Residual Hydrant Location: 4

Flow Hydrant Location: 14

Static pressure (residual hydrant): 50 psi (bar)

Residual pressure (residual hydrant): 29 psi (bar)

Pitot pressure (flow hydrant): 20 psi (bar)

Nozzle Size (flow hydrant): 2 1/2 in. (mm)

Nozzle coefficient (flow hydrant): 0.9 other \_\_\_\_\_

Available water flow: 754 gpm (L/min) at 20 psi (bar)

Firm ID: 01-32 Inspector Code: 25  
 Facility Codes: \_\_\_\_\_ Inspection Date: 3-26-24

**Good Retail Practices**

Good Retail Practices are preventative measures to control the addition of pathogens, chemicals, and physical objects into foods.

Safe Food and Water		C	R	Proper Use of Utensils		C	R
28	Pasteurized <b>eggs</b> used where required			41	In-use utensils; properly stored		
29	Water & ice from approved source			42	Utensils, equipment, & linens; properly stored, dried & handled		
30	Variance obtained for specialized processing methods			43	Single-use & single-service articles; properly stored & used		
Food Temperature Control				44	Gloves used properly		
31	Proper cooling methods used; adequate equipment for temperature control			Utensils, Equipment, and Vending			
32	Plant food properly cooked for hot holding			45	Food & non-food contact surfaces cleanable, properly designed, constructed & used		
33	Approved <b>thawing</b> methods used			46	Warewashing facilities; installed, maintained, & used; test strips		
34	Thermometers provided & accurate			47	Non-food contact surfaces clean		
Food Identification				Physical Facilities			
35	Food properly labeled; original container			48	Hot & cold water available; adequate pressure		
Prevention of Food Contamination				49	Plumbing installed, proper backflow devices		
36	Insects, rodents, & animals not present; no unauthorized persons			50	Sewage & waste water properly disposed		
37	Contamination prevented during food preparation, storage, & display			51	Toilet facilities; properly constructed, supplied & cleaned		
38	Personal cleanliness; hair restraints			52	Garbage & refuse properly disposed, facilities maintained		
39	Wiping cloths; stored in sanitizing solution and properly used			53	Physical facilities installed, maintained, & clean		
40	Washing fruits & vegetables washed prior to use			54	Adequate ventilation & lighting; designated areas used		

P or PF	Item #	Code Reference	*HACCP Check* Violation Description/Remarks/Corrections
			- Food Temp Records on Daily Production Records - signed & monthly - Breakfast, Lunch, Dinner - very consistent
			- Receiving logs - current in Binder, prior in Record Box
			- Dish Machine temp - current in Binder, prior in Record Box
			- Sanitizer logs - current (Jan-March) in Binder, prior months in Record box
			- Drains/discharges - current in Binder (Jan-March) prior months in Record box
			- Cooling logs - current in Binder (Jan-March) prior months in Record Box
			- Thermometer Calibrations - current in Binder (3-11-24) prior months in Record box
		(Missing Feb)	- Food Safety Checklist - Aug-Dec in Record box - <u>Jan</u>
			- Refrigeration logs - current posted, prior months in Record
			Hand restraints - current refrigeration logs posted
			Dishwasher temp 163, 3 Sanitizer buckets labeled conc. OK

Unless otherwise stated, violations cited in this report shall be corrected within the period noted: Priority (P) items within 3 days, Priority Foundation (PF) items within 10 days (§8-405.11) or 90 days for core items (§8-406.11).

# GENERATOR COMMISSIONING CHECKLIST

## NEBRASKA GENERATOR SERVICE LLC

### A. PRE-JOB PLANNING

1. Ensure you have the necessary paperwork from Service Supervisor and parts prior to beginning job
2. Contact site contact prior to leaving to go to job site

### B. ON SITE/ SITE PREPAREDNESS

1. Check in with appropriate site personnel (Electrical/General Contractor)
2. Perform a site walk through
3. Perform Job Safety Assessment (JSA) and evaluate PPE requirements
4. Review Install Requirements Manual located on Quick Serve On-Line
5. Lock Out/Tag Out Procedures followed

### C. STARTING BATTERY(S)

1. Install and note the proper size and quantity of required battery(s)
2. Check battery electrolyte level in the starting battery system
3. Insure battery is isolated from floor in suitable container or tray
4. Insure correct polarity and connections - ECM Controlled engines require ECM energized 1st before switched B+ or accessory supply voltage from Genset control to ECM. (Activate E-Stop or Follow Procedures specific to controller in use)

### D. EQUIPMENT PREPAREDNESS

1. Verify that all fluid levels including oil, coolant, diesel or gaseous fuel supply is adequate.
2. Verify there is adequate room ventilation
3. Determine location of the service disconnect
4. Verify generator and transfer switch(s) power and grounding/bonding and identify where.
5. Insure Battery readiness
6. Shipping blocks removed and correct vibration isolators installed
7. Power supply to block heaters and battery chargers available and de-energized
8. Adequate clearance of fire protection equipment in relation to exhaust system
9. Insure all control interconnect wiring is terminated and/or isolated

### E. ELECTRICAL CONNECTIONS - POWER & CONTROL

1. Check Battery charger DC Wiring to battery or starter terminals
2. Verify AC Connection to battery charger
3. Verify the battery charger settings are correct as per site requirements
4. Verify the engine water jacket heater wired to normal power
5. Verify adequate voltage supply to water jacket heater

6. Verify the heater is operational
7. Verify the oil sump heater is operational
8. Verify control panel heater(s) is operational
9. Verify alternator heater(s) is operational
10. Visual check of fuel solenoid valve wired to run circuit/switched battery
11. Visually inspect generator output connections for desired voltage and note volts
12. Determine generator neutral in use\* mandatory entry required
13. Control wiring terminated as required
14. Inspect for proper connections at generator breaker(s) to transfer switch(s)
15. Remote annunciation wiring terminated
16. Record the battery float voltage, and breaker size.
17. Record the jacket water heater voltage, wattage, and quantity of heaters.

### F. MOUNTING & ALIGNMENT

1. Verify all connections secured and supported
2. Verify that the generator frame skid is secured to level surface
3. Verify oil drainage clearance
4. Verify water available nearby
5. Verify courtesy power nearby
6. Angular Alignment (where required)
7. Axial Alignment (where required)
8. Verify flexible connections exist as needed such as: fuel, exhaust, electrical, and radiator cooling

### G. EXHAUST SYSTEM

1. Verify exhaust flex connections are correctly installed and secured
2. Verify seamless tubing is appropriate type per installation
3. Inspect exhaust condensation trap
4. Verify muffler and rain caps correct type and is free to move
5. Verify adequate exhaust piping size (visual)
6. Inspect that elbows are of long radius design (visual)
7. Verify that thimbles are present at Wall/Ceiling penetrations (visual)

### H. COOLING SYSTEM

1. Verify coolant properties and add as need. Record the coolant added, DCA concentration, and freeze point per gallon or unit.
2. Inspect all hoses, clamps, etc.
3. Verify proper duct and damper sizing for exhaust, intake, and combustion
4. Verify damper and louver operations

### I. LUBRICATION AND FILTRATION

1. Check crankcase level, add as needed. Record oil added.
2. Check crankcase ventilation system
3. Check Air Cleaner, Adapters, and Clamps
4. Check Filters
5. Verify No Fluid Leaks

# GENERATOR COMMISIONING CHECKLIST

## **J. FUEL AND SPEED GOVERNING SYSTEMS**

1. Visually inspect governor linkage movement/clearance

### **GASEOUS SYSTEMS**

1. Verify manual shutoff valve is installed and turned off
2. Verify primary gas pressure regulator is installed
3. Verify dry fuel strainer is installed
4. Verify fuel solenoid valve is installed
5. Bleed Fuel System
6. Visually inspect spark ignited ignition system
7. Visually inspect the fuel mixer and trim valve settings

### **DIESEL SYSTEMS**

1. Visually inspect day tank piping
2. Inspect and test operation of day tank fuel transfer pump(s)
3. Inspect and test operation of day tank controls, switches, ETC
4. Inspect and test operation of base tank
5. Inspect and test operation of Base Tank Floats, Senders, ETC
6. Inspect and test operation of Other Fuel Tank
7. Inspect and test operation of all tank accessories installed including vents
8. Bleed and prime fuel system

## **K. MISC ENGINE ITEMS**

1. Inspect drive belts (Fan, Alternator, ETC)
2. Insure all drain valves are closed
3. Connect laptop with InPower and take capture file (where applicable)

## **L. AUTOMATIC TRANSFER SWITCHES**

1. Control wiring terminated (Remote start, Elevator/Motor load controls, Remote test, ETC)
2. Correct wiring to normal/utility, Load and emergency/generator
3. Correct voltage and current rating for connected sources
4. Visual Check of main contacts
5. Clear of debris and metal chips
6. Cabinet free of installation debris
7. Conduit Sealed
8. Service disconnects for normal and emergency power connections
9. Prepare transfer switch for operation
10. Connect laptop with InPower and take capture file (where applicable)

## **M. MAIN BREAKER OFF/OPEN**

1. Start generator set with local run selector switch
2. Record oil pressure
3. Verify operation of rain cap and exhaust
4. Record coolant temperature
5. Record battery charge rate
6. Record fuel pressure (where applicable)
7. Record operating frequency/hertz
8. Record engine speed
9. Record output voltage L-L/L-N
10. Record engine stability
11. Record voltage stability
12. Note any unusual noises/vibrations

## **N. MAIN BREAKER ON/CLOSED- WITH ATS MOTOR DISABLED**

1. Re-Start generator with local run selector switch
2. Verify Genset rotation matches utility at ATS
3. Verify Genset voltage and utility voltage match
4. Verify Genset frequency (.03-.10 offset for In-phase or closed transition), record Hertz
5. Verify sources come in-phase/in-synch in acceptable time frame

## **O. SOURCE/BUILDING MAINS FAILURE TEST/ LOSS OF SOURCE 1**

1. Verify Lube Oil Level
2. Verify no fluid leaks from previous unit r
3. Verify unit in 'Remote/ Auto'
4. Verify unit Breakers On/ Closed
5. Open/ Trip Utility Service feed to ATS
6. Unit Started OK
7. Within Acceptable Time Limits per Application
8. Load Transferred OK
9. Engine/ Generator Assumed Load OK
10. Governor, Carburetor, Pump Adjustments
11. Voltage Regulator Adjustments

## **P. RECORD LOADED OPERATIONAL VALUES**

Record loaded operation values for the below (as applicable):

Oil Pressure	Coolant Pressure	Load PF	Oil
Temperature	Blowby Flow	Load KW	Coolant
Temperature	LTA Temperature	Load KVA	
Battery Voltage	Genset Voltage A/B/C	Load KVAR	
Engine Speed	Genset Frequency/Hertz	Fuel Pressure	
Exhaust Temp	Current A/B/C		

1. Restore Source 1
2. Perform Loss of Source 2 (optional)
3. Test with Local Test Switch
4. All Functions/ Timers Operated OK
5. Retransfer Loads OK
6. Engine Cooldown OK

## **Q. SITE PRE-DEPARTURE VERIFICATION**

1. All applied energy source lock out devices removed
2. All controls and components in AUTO/REMOTE
3. All GENSET breakers ON/CLOSED (except power operated paralleling breakers)
4. Battery Charger operational/ breaker ON
5. Component heaters enabled/ breaker ON
6. Site Cleanup
7. Nebraska Generator Service Sticker applied
8. Unit locked
9. **Customer notified of completion and site departure**

# Hastings Fire & Rescue

Occupancy: **Hastings Regional Center**  
Occupancy ID: **2NDW4200**  
Address: **4200 W 2nd ST Hastings NE**

Form: Generic

Inspection Type: **Annual**

Inspection Date: **1/18/2024**

Time In: **09:00**

Authorized Date: **01/19/2024**

By: **Murphy, Anthony (3186)**

Time Out: **12:00**

By: **Murphy, Anthony (3186)**

## Inspection Description:

This inspection of your occupancy is being conducted in accordance with the Fire Codes of the City of Hastings. This inspection does not certify that the occupancy or building is in total compliance with the International Fire Code and the International Building Code as adopted by the City of Hastings or the Life Safety Code as adopted by the State Fire Marshal.

## Inspection Topics:

### General Comments

Other violations or comments

Any other violations or comments not already contained in checklist.

**Status:** Deficient-please correct

**Notes:** 1. Please provide signage for fire sprinkler valve rooms, per IFC 901.4.6.2. Possible examples provided below, provided letters having a minimum height of 2 inches with a minimum stroke of 3/8 inch

Other violations or comments

Any other violations or comments not already contained in checklist.

**Status:** Recommended

**Notes:** 2. Please provide occupant load signs for storm shelters. For 155 sq. ft. rooms at an occupant load factor of 5, Max occupant load for storm shelter is 31 (155/5=31). ICC 500 Chapter 5, residential shelters

Other violations or comments

Any other violations or comments not already contained in checklist.

**Status:** Deficient-please correct

**Notes:** 3. Please provide signage for fire alarm control panel rooms, per IFC 509.1 Possible examples provided below

Other violations or comments.

Any other violations or comments not already contained in checklist.

**Status:** Deficient-please correct

**Notes:** 4. For fire alarm and/or signaling systems, the circuit disconnecting means shall have a red marking. 10.6.5.2.4 The red marking shall not damage the overcurrent protective devices or obscure the manufacturer's markings. 10.6.5.4 Where a circuit breaker is the disconnecting means, an approved breaker locking device shall be installed

5. Please provide copies of the annual fire hydrant flow test and maintenance and verify color-coding. Note: a permit is required to remove private hydrants from service. 2018 IFC 105.6.39, 108

**Additional Time Spent on Inspection:**

Category	Start Date / Time	End Date / Time
----------	-------------------	-----------------

**Notes:** No Additional time recorded

**Total Additional Time: 0 minutes**

**Inspection Time: 180 minutes**

**Total Time: 180 minutes**

**Summary:**

**Overall Result:** Correction Notice Issued

**Inspector Notes:**

**Closing Notes:**

Persons who shall violate a provision of this Code or shall fail to comply with any of the requirements thereof or who shall erect, install, alter, repair or do work in violation of the approved construction documents or directive of the Fire Code Official, or of a permit or certificate used under provisions of this Code, shall be guilty of a misdemeanor punishable by a fine of not more than \$100.00. Each day that a violation continues after due notice has been served shall be deemed a separate offense. In all cases of violation of each of the chapters, articles or sections of this Code or of any other ordinance of this City where a fine is imposed upon any persons found guilty of the violation thereof, such person so found guilty shall pay the costs of prosecution and, in default of payment thereof, shall be adjudged to stand committed to the county jail until such fine and costs are paid. Each judgment finding a person guilty under any chapter, article or section of this Code or of any ordinance of this City shall specify in terms that the person found guilty stand committed until such fine and costs are paid, secured or satisfied, or unless the prisoner is sooner discharged by the due process of law. Appeals to any decision made by the Fire Code Official may be made by filing an appeal found here: <https://cityofhastings.portal.iworq.net/HASTINGS/new-permit/601/1137>

## WATER SUPPLY SYSTEMS

### ANNUAL FLOW TESTS

Date: 12/2/22 Inspector: Lowell Mitteis System: \_\_\_\_\_

Location: Regional center

---

Conduct 2-in (51-mm) main drain test for gravity tanks and pressure tanks.

Static pressure: \_\_\_\_\_ psi (bar)

Full flow pressure: \_\_\_\_\_ psi (bar)

Ground level tanks and underground tanks: Annual test is accomplished during fire pump full flow tests.

---

#### Water Distribution Systems

Annual test is accomplished during fire hydrant annual tests. For each test, record the following:

Residual Hydrant Location: 4

Flow Hydrant Location: 14

Static pressure (residual hydrant): 48 psi (bar)

Residual pressure (residual hydrant): 29 psi (bar)

Pitot pressure (flow hydrant): 23 psi (bar)

Nozzle Size (flow hydrant): 2 1/2 in. (mm)

Nozzle coefficient (flow hydrant): 0.9; other \_\_\_\_\_

Available water flow: 805 gpm (L/min) at 23 psi (bar)

---

## Nebraska State Fire Marshal Inspection Report

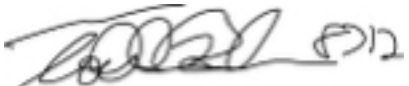

Facility Name	Hastings YRTC - Program Bldg
Address	4200 W 2nd St, Hastings, NE
ZIP	68901
Facility Phone Number	
Inspector Name	Todd Brehm
Inspector Badge#	8712
Inspector Agency	Nebraska State Fire Marshal
Inspector Email	todd.Brehm@nebraska.gov
Inspector Phone Number	402-276-3879
Number of Visits	1
Date of Inspection	2023-04-20
Inspection Type	Initial
Status	Pass
Complete Corrections By	
Occupant Load	
Fee Card	N/A
Fee Sheet/Facility ID Number	
Code Reviews	

Inspectors and Operator Staff Involved			
Lead Inspector	Badge #	Agency	Phone Number
Todd Brehm	8712	Nebraska State Fire Marshal	402-276-3879

This facility was inspected and found to meet applicable requirements of the Fire and Life Safety Code and/or Fire Systems Installation Standards at the time of inspection; the facility is approved for occupancy.

Any modifications or changes made to this facility after the date of approval may void this approval

If you have questions on this Order, contact Todd Brehm by phone at 402-276-3879 or by Email at [todd.Brehm@nebraska.gov](mailto:todd.Brehm@nebraska.gov)

Inspector Comments / Notes	The facility is approved for occupancy at the time off inspection.
Report completed by Deputy	Todd Brehm 8712
Date Signed	2023-04-20
Signature

Contact person/number :  
 Initial inspection : 5-4-22  
 Revisit inspection :  
 Hours of operation :  
 Plan review numbers :

The North Dorm of the facility is classified as a use Condition V – Contained. The residents are unable to move free from an occupied space without the staff to release each door from all sleeping rooms, activity spaces and other occupied area within the smoke compartment to another smoke compartment.

1. The Fire Alarm system shall have manual pull stations installed. NFPA 101, 22.3.4.2.1

The facility shall have at least one manual pull station for the fire alarm system located in a staff location, provided that both of the following criteria are met:

- a. The staff location is attended when the building is occupied.
- b. The staff attendant has direct supervision of the sleeping area.

2. Portable fire extinguishers shall be provided. Access to portable fire extinguishers shall be permitted to be locked. Portable fire extinguishers shall be permitted to be located at staff locations only. NFPA 101, 22.3.5.4

All items must be corrected to comply with the laws of the State of Nebraska and with rules and regulations adopted by the State Fire Marshal as mandated by section 81-502 to 81-541.01

It is the duty of the owner or person in charge of the above-named facility to immediately take measures to bring the facility into compliance with state regulations. **ALL CORRECTIONS SHALL BE MADE AND ALL ITEMS CORRECTED ON OR BEFORE.** \_\_\_\_\_

If you have questions on this Order, contact: Deputy State Fire Marshal Todd Brehm #8712 by phone at 402-395-2164 or by Email at [todd.brehm@nebraska.gov](mailto:todd.brehm@nebraska.gov)

# Hood Fire Suppression System Inspection Report

**Location Code:** HUXEKIB

**Contact:** Daniel Browitt

**Contact Address:** 4200 W. 2nd St.  
Hastings, NE 68901

**Phone:** (402) 462-1971

**Email:** daniel.browitt@nebraska.gov

**Property Evaluated:** Hastings Regional Center (Health Care)  
4200 W. 2nd St.  
Hastings, NE 68901

**Description:** Hood (Range Hood Inspection)

**Company:** Hastings Office

**Address:** 1239 North Minnesota Ave. , PO Box  
1467

Hastings, NE 68902

**Company Phone:** 800-274-0888

**Inspector:** Matt Goff  
NE State Inspectors License #L71

**Date of Work:** 1/9/2024

**Frequency:** Semi-Annual

---

## Deficiency Summary

**Status:** Open

**Severity:** Non-Critical

Question-10

10. All fusible links replaced?

Due next inspection

---

## General Comments

There are no general comments for this submission

Hastings Office

## Fire Alarm System - NFPA 72 (2013) Lincoln

This inspection was conducted in accordance with NFPA 72 Standards and the codes established by the local Authorities Having Jurisdiction for the site inspected. NFPA 72 provides established guidelines for the testing of fire alarm systems, including fire detection, emergency communication and signaling. If your city has mandated it, we will upload your inspection report to the local compliance engine. If you have any questions regarding this report or require additional services. Please contact our Inspection Team at 402-970-1509 or [MWLNInspections@mw-as.com](mailto:MWLNInspections@mw-as.com).

## Control Unit 1

### Location

Location	1st / Maintenance room
----------	------------------------

### Specification

Type/Make/Model	Simplex / 4100
-----------------	----------------

### Software Firmware

Revision Number	-
Onsite Location Of Documentation	-

### Primary Power

Nominal Voltage	-
Amps	-

### Overcurrent Protection

Type	-
Amps	-
Location	-
Disconnecting Means Location	-

### Visual/ Functional

Control Unit	Tested visually and functionally
Lamps/LEDs/LCDs	Tested visually and functionally
Fuses	Tested visually
Trouble Signal	Tested visually and functionally
Disconnect Switch	Tested visually
Ground-Fault Monitoring	Tested visually

### Batteries

Battery Date	12/12/2021
Battery Type	Sealed Lead Acid
Nominal Voltage	13.9 / 13.9
Amps/Hour Rating	100AH
Standby Mode (hrs)	24
Alarm Mode (mins)	5

### Visual/ Functional

Load Voltage	Tested visually
Charge Test	Tested visually
Discharge Test	Tested visually
Battery Condition	Tested visually

# Facility AUDIT FINDINGS

## Summary of Audit Findings

The OAS automatically populates the number and list of Standards exceeded, the number of Standards met, and the number and list of Standards not met.

Auditor Note: In general, no standards should be found to be "Not Applicable" or "NA." A compliance determination must be made for each standard. In rare instances where an auditor determines that a standard is not applicable, the auditor should select "Meets Standard" and include a comprehensive discussion as to why the standard is not applicable to the facility being audited.

### Number of standards exceeded:

3

- 115.311 - Zero tolerance of sexual abuse and sexual harassment; PREA coordinator
- 115.313 - Supervision and monitoring
- 115.383 - Ongoing medical and mental health care for sexual abuse victims and abusers

### Number of standards met:

40

### Number of standards not met:

0

On 11/01/2023 your boiler/pressure vessel, NE08730, located at Lancaster County Juvenile, 1200 Radcliff St, Lincoln, was inspected by Levi Nelson with Cincinnati Insurance Company. During that inspection, the below items were noted as not meeting the requirements of the Nebraska Boiler Inspection Act and **shall be corrected within 30 days from the date of this letter.**

**Condition:**

Unit undergoing repairs

**Requirement:**

This unit is undergoing repairs at this time. A current Certificate of Inspection cannot be issue until all repairs are completed. If the repairs are not going to be completed and the unit is going to be replaced, scrapped or placed out of service (gas, fuel and water disconnected) please notify the Chief Boiler Inspector.

When the items listed have been corrected, **please sign and date the letter and return to the Boiler Inspection Division via email to [sfm.boilers@nebraska.gov](mailto:sfm.boilers@nebraska.gov).** If there is documentation required for any of the items listed above, it shall be attached to this signed letter when it is sent back to this office. A re-inspection of the unit may be required by the Chief Boiler Inspector.

**Date Completed**

**Signature of Owner/User**

**Repair Company Name & Signature**

On 11/01/2023 your boiler/pressure vessel, NE08727, located at Lancaster County Juvenile, 1200 Radcliff St, Lincoln, was inspected by Levi Nelson with Cincinnati Insurance Company. During that inspection, the below items were noted as not meeting the requirements of the Nebraska Boiler Inspection Act and **shall be corrected within 30 days from the date of this letter.**

**Condition:**

Burner/Pilot - Adjustments Needed

**Requirement:**

The burner or pilot appears to be out of adjustment or burning improperly. Have the burner or pilot settings and control checked by a boiler technician to ensure proper setpoints and operation in accordance with the burner manufacturer's installation and operation manual.

When the items listed have been corrected, **please sign and date the letter and return to the Boiler Inspection Division via email to [sfm.boilers@nebraska.gov](mailto:sfm.boilers@nebraska.gov).** If there is documentation required for any of the items listed above, it shall be attached to this signed letter when it is sent back to this office. A re-inspection of the unit may be required by the Chief Boiler Inspector.

REPORT TO South Services Center DATE 1-23-23  
ADDRESS 1000 Robert R. S. - Lincoln, NE 68212 TECHNICIAN J.W. Adams

**Owners Section** (To be answered by owner or occupant)

A. Describe any fire protection modifications or occupancy hazard changes since previous inspection.

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

B. When was the last 5 year done? 2017

**Inspector's Section** (All responses reference current inspection)

	Yes	N.A.‡	No*
<b>1. GENERAL</b>			
a. Is the building occupied?	✓	[grid]	
b. Are all systems in service?	✓	[grid]	
c. Is there a minimum of 18 in. (457mm) clearance between the top of the storage and the sprinkler deflector?	✓	[grid]	
d. In areas protected by wet system, does the building appear to be properly heated in all areas, including blind attics and perimeter areas, where accessible? Do all exterior openings appear to be protected against freezing?	✓	[grid]	
e. Does the hand hose on the sprinkler system appear to be satisfactory?	✓	[grid]	
<b>2. CONTROL VALVES</b> (See Item 14)			
a. Are all sprinkler system control valves and all other valves in the appropriate open or closed position?	✓	[grid]	
b. Are all control valves in the open position and locked, sealed or equipped with a tamper switch?	✓	[grid]	
<b>3. WATER SUPPLIES</b> (See Item 15)			
a. Was a water flow test of main drain made at the sprinkler riser?	✓	[grid]	
<b>4. TANKS, PUMPS, FIRE DEPARTMENT CONNECTIONS</b>			
a. Are fire pumps, gravity tanks, reservoirs and pressure tanks in good condition and properly maintained?	✓	[grid]	
b. Are fire department connections in satisfactory condition, couplings free, caps in place, and check valves tight? Are they accessible and visible?	✓	[grid]	
<b>5. WET SYSTEMS</b> (See Item 13)			
a. Are cold weather valves (O.S.&Y.) in the appropriate open or closed position?	✓	[grid]	
b. Have antifreeze system solutions been tested?	✓	[grid]	
c. Were the antifreeze test results satisfactory?	✓	[grid]	
<b>6. DRY SYSTEMS</b> (See Items 10 to 14)			
a. Is the dry valve in service?	✓	[grid]	
b. Are the air pressure and priming water level in accordance with the manufacturer's instructions?	✓	[grid]	
c. Has the operation of the air or nitrogen supply been tested? Is it in service?	✓	[grid]	
d. Were low points drained during this inspection?	✓	[grid]	
e. Did quick-opening devices operate satisfactorily?	✓	[grid]	
f. Did the dry valve trip properly during the trip pressure test?	✓	[grid]	
g. Did the heating equipment in the dry-pipe valve room operate at the time of inspection?	✓	[grid]	
<b>7. SPECIAL SYSTEMS</b> (See Item 16)			
a. Did the deluge or pre-action valves operate properly during testing?	✓	[grid]	
b. Did the heat-responsive devices operate properly during testing?	✓	[grid]	
c. Did the supervisory devices operate during testing?	✓	[grid]	
<b>8. ALARMS</b>			
a. Did water motor and gong test satisfactorily?	✓	[grid]	
b. Did electric alarm test satisfactorily?	✓	[grid]	
c. Did supervisory alarm service test satisfactorily?	✓	[grid]	
<b>9. SPRINKLERS</b>			
a. Are all sprinklers free from corrosion, loading or obstruction to spray discharge?	✓	[grid]	
b. Are all sprinklers less than 50 years old, including quick response less than 20 years old?	✓	[grid]	
c. Is stock of spare sprinklers available?	✓	[grid]	
d. Does the exterior condition of sprinkler system appear to be satisfactory?	✓	[grid]	
e. Temperature. Are sprinklers of proper temperature ratings for their locations?	✓	[grid]	

\*Explain "No" Answers on Page 2 ‡Not applicable

16. 5 Year IPI, Gauges, FDC Check Valve, Comments  
 a. When was the system installed. 2001  
 b. When was the Last 5 year done. 2002  
 c. When is the Next 5 year due. 2007  
 d. Comments \_\_\_\_\_

Auxiliary Equipment No.? \_\_\_\_\_ Type \_\_\_\_\_ Location \_\_\_\_\_ Test Result? \_\_\_\_\_

17. Explain any "No" answers and comments: \_\_\_\_\_  
 \_\_\_\_\_  
 \_\_\_\_\_

18a. Is the fire sprinkler system monitored by 24 HR monitoring?  Yes  No

18b. This fire sprinkler system is required to have 24 HR monitoring. Failure to monitor the fire sprinkler system can ultimately lead to substantial loss. Initial here to acknowledge: \_\_\_\_\_

Although these comments are not the result of an engineering review, the following desirable improvements are recommended:  
 \_\_\_\_\_  
 \_\_\_\_\_

## Fire Alarm System - NFPA 72 (2013) Lincoln

This inspection was conducted in accordance with NFPA 72 Standards and the codes established by the local Authorities Having Jurisdiction for the site inspected. NFPA 72 provides established guidelines for the testing of fire alarm systems, including fire detection, emergency communication and signaling. If your city has mandated it, we will upload your inspection report to the local compliance engine. If you have any questions regarding this report or require additional services. Please contact our Inspection Team at 402-970-1509 or [MWLNInspections@mw-as.com](mailto:MWLNIInspections@mw-as.com).

## Fire Alarm System - NFPA 72 (2013) Lincoln

This inspection was conducted in accordance with NFPA 72 Standards and the codes established by the local Authorities Having Jurisdiction for the site inspected. NFPA 72 provides established guidelines for the testing of fire alarm systems, including fire detection, emergency communication and signaling. If your city has mandated it, we will upload your inspection report to the local compliance engine. If you have any questions regarding this report or require additional services. Please contact our Inspection Team at 402-970-1509 or [MWLNInspections@mw-as.com](mailto:MWLNInspections@mw-as.com).

## Fire Alarm System - NFPA 72 (2013) Lincoln

This inspection was conducted in accordance with NFPA 72 Standards and the codes established by the local Authorities Having Jurisdiction for the site inspected. NFPA 72 provides established guidelines for the testing of fire alarm systems, including fire detection, emergency communication and signaling. If your city has mandated it, we will upload your inspection report to the local compliance engine. If you have any questions regarding this report or require additional services. Please contact our Inspection Team at 402-970-1509 or [MWLNInspections@mw-as.com](mailto:MWLNInspections@mw-as.com).

## Fire Alarm System - NFPA 72 (2013) Lincoln

This inspection was conducted in accordance with NFPA 72 Standards and the codes established by the local Authorities Having Jurisdiction for the site inspected. NFPA 72 provides established guidelines for the testing of fire alarm systems, including fire detection, emergency communication and signaling. If your city has mandated it, we will upload your inspection report to the local compliance engine. If you have any questions regarding this report or require additional services. Please contact our Inspection Team at 402-970-1509 or [MWLNInspections@mw-as.com](mailto:MWLNInspections@mw-as.com).

## Fire Alarm System - NFPA 72 (2013) Lincoln

This inspection was conducted in accordance with NFPA 72 Standards and the codes established by the local Authorities Having Jurisdiction for the site inspected. NFPA 72 provides established guidelines for the testing of fire alarm systems, including fire detection, emergency communication and signaling. If your city has mandated it, we will upload your inspection report to the local compliance engine. If you have any questions regarding this report or require additional services. Please contact our Inspection Team at 402-970-1509 or [MWLNInspections@mw-as.com](mailto:MWLNInspections@mw-as.com).

## Fire Alarm System - NFPA 72 (2013) Lincoln

This inspection was conducted in accordance with NFPA 72 Standards and the codes established by the local Authorities Having Jurisdiction for the site inspected. NFPA 72 provides established guidelines for the testing of fire alarm systems, including fire detection, emergency communication and signaling. If your city has mandated it, we will upload your inspection report to the local compliance engine. If you have any questions regarding this report or require additional services. Please contact our Inspection Team at 402-970-1509 or [MWLNInspections@mw-as.com](mailto:MWLNInspections@mw-as.com).

## Comments

Number	COMMENT	IMAGE
1	Fire panel went into alarm but sent a fire trouble, not an alarm. Must send an alarm. We did get a fire alarm restore.	

Tech connected. Lives protected.

## Conclusion

We appreciate the opportunity to provide this inspection report. We are confident in the accuracy of the contents of this report. Should you require any additional services, or have questions regarding the contents of this report, please do not hesitate to contact your Midwest Alarm Services representative at 515-288-4000.

# DISCREPANCY REPORT

Generated by: BuildingReports.com

The Discrepancy Report consolidates each discrepancy listed within the various Testing sections of your Inspection. Discrepancies are listed by Category, and grouped by device type. The description of the problem is provided and where appropriate, code references are listed for your convenience. Any item that was inspected that is subject to a recall or part of a manufacturer's replacement/upgrade program is included.

**Building:** Family Life

## Items listed for Recall or Replacement/Upgrade

Device Type	Manufacturer	Model Number	Date	Qty
-------------	--------------	--------------	------	-----

No items found during this inspection.

## Discrepancies

ScanID	Location	Problem	Reference
--------	----------	---------	-----------

### BUILDING- SERVICE MAIN, BUILDING-

#### Control Valve

59341104	Basement East Mechanical Laundry	Supervisory switch does not	
59341105	Basement East Mechanical Laundry	Supervisory switch does not	

\*These 2 items are in the process of being addressed week of Nov 25th by Nifco\*  
11.22.2024 DB

# PROPOSED SOLUTIONS REPORT

Generated by: BuildingReports.com

The Proposed Solution Report provides a solution for each discrepancy listed on the Discrepancy Report. Provide a check mark where indicated to approve repairs listed within the report. Items listed as T/M are available for repair on a Time and Materials basis.

**Building:** Family Life

**Control Panel:** n/a

ScanID	Location	Solution	Model #	Cost	Fix
<b>BUILDING- SERVICE MAIN, BUILDING-</b>					
<b>Control Valve</b>

## Kinney-Brown, Carleen

---

**From:** Popple, Mitchell  
**Sent:** Monday, February 5, 2024 11:43 AM  
**To:** LaBouchardiere, Mark  
**Cc:** Kinney-Brown, Carleen; Kinney, JoAnn; Fortner, Shaylee  
**Subject:** Whitehall NDEE Audit and Response  
**Attachments:** Food Establishment Evaluation (WH24).pdf; Food Evaluation Corrective Action Reply Form (WH24).pdf; 20240205114145904.pdf

Mark,

on 1.24.24 Suzanne Polzkill came and completed our annual Food Establishment Evaluation. We had a total of 3 deficiencies. I have attached the evaluation, corrective action reply form, and the HACCP recordkeeping requirements. The first deficiency was due to the dishwashing machine needing to be replaced in the kitchen. Due to having no dishwasher, all utensils used have to be sanitized at the end of the day and cannot be done so in the Whitehall kitchen because they sinks do not have an air gap. To fix we will be using plastic utensils and clam shells to serve the youth with. Utensils and pitchers used in the making of each meal will be taken to LRC and sanitized daily. The second deficiency was due to the contact paper in the cabinets being damaged. I have placed a work order to have all contact paper replaced in the kitchen. The third deficiency was due to the milk fridge and sharps drawer not being clean. Anne sent me when those items should be cleaned on a weekly basis and will retrain her staff to ensure compliance with the cleaning schedule. Over all I believe this is our best NDEE audit yet.

Thank you,

**Mitchell Popple** | Facility Administrator

Administrator  
Morton School  
2311 N 60th St Bldg 4  
Lincoln, NE 68507

Dear Administrator,

On June 7, 2024, the State Board of Education voted to grant approval to Morton School for the school year 2024-25. The decision was based upon a review of the Assurance Statement and other information indicating compliance with Title 92, Nebraska Administrative Code, Chapter 18 (Rule 18), *Interim-Program Schools in County Detention Homes, Institutions, and Juvenile Emergency Shelters*.

We thank you for the cooperation you have extended to us and wish you well as you continue to provide educational opportunities for the young people in your school.

Sincerely,

Decua Jean-Baptiste Ed. D.

**CHILD CARE FACILITY EVALUATION**

PO Box 98922 • Lincoln, NE 68509 • (402) 471-0903

Facility: Whitchell

Person Interviewed: Mitchell Popple

Address: 5845 Huntington Ave

Title: Facility Administrator

Facility ID: \_\_\_\_\_

Number of children at time of inspection: 12

Type of Inspection:  Initial  Routine  Follow up  Amendment  Consultation

**Unsatisfactory items are circled and must be corrected**

**General Facility**

- 1) Floors, walls, ceiling and attached equipment are in good repair.
2. Facility is clean and sanitary.
- 3) Furniture and toys are in good repair and clean.
4. Windows are screened if used for ventilation.
5. Maintained to prevent entrance/harborage of pests.
6. Adequate heating, ventilation and lighting in all rooms.
7. Electrical outlets capped or safety outlets installed/used.
8. Indoor/outdoor garbage storage is covered, clean and emptied at suitable intervals.
9. Personal items (blankets, toothbrushes, hair brushes, drinking containers) are adequately labeled and stored for children/staff.
10. Chemicals used:
  - a. Sanitizer bleach
  - b. Disinfectant bleach
11. Locked storage for chemicals/cleaning supplies/poisons.
12. Chemicals/poisons/cleaning supplies are properly labeled.
13. Locked storage for medications.

- e. Handwashing sink within close proximity to changing area.
- f. Proper handwashing done after diapering for child and adult.

**Restrooms**

- 18) Restrooms are clean and in good repair, well lighted and ventilated, fully enclosed. Doors that open into a food service or cafeteria eating area must be tight-fitting and self-closing.
19. Toilets
  - a. One toilet per 15 children (two years and over) – Child Care Center (CCC).
  - b. One toilet per six children – Residential Child Caring Agency (RCCA).
  - c. Clean, operable and in good repair.
  - d. Toilet paper must be in holder and tissue available. Must be easily accessible/reachable.
20. Sinks
  - a. One handwashing sink per 15 children – CCC
  - b. One handwashing sink per 6 children – RCCA
  - c. Soap, hot and cold water available.
  - d. Hot water temperature is 100-120 degrees F.
  - e. Single service towels accessible to children.
  - f. Suitable height or steady platform/steps provided.
21. Children and adults wash hands after toileting.

**Infant/Toddler Care**

14. Separate water source for handwashing and food/bottle preparation.
15. Cribs are sanitized daily if used by different children or weekly if individual use.
16. Breast milk properly labeled and stored.
17. Diapering:
  - a. Designated diaper changing surface.
  - b. Changing surface clean, in good repair and a non-absorbant material with no cracks or tears.
  - c. Cleaned and disinfected between each use.
  - d. Soiled diaper storage and disposal is covered and waterproof.

**Water Supply and Plumbing**

22. Water supply source
  - a. Municipal/Public Water Supply
  - b. OR Private; meets State Public Water Supply Standards.  
Last tested: \_\_\_\_\_
23. Drinking water fountains have mouth guards and sufficient pressure OR individual or disposable cups with sanitary dispensing and disposal units.
24. Local plumbing codes followed with proper backflow protection and no cross-connections.
25. Adequate hot water: 100-120 degrees F 101-118°F.

**Continued on page 2**

**CHILD CARE FACILITY EVALUATION**

PO Box 98922 • Lincoln, NE 68509 • (402) 471-0903

Facility: Whitehall

Facility ID: \_\_\_\_\_

**Unsatisfactory items are circled and must be corrected**

**Continued from page 1**

**Sewage/Wastewater**

- 26. When a municipal sewage system is not available, the licensee must:
  - a. Collect, treat and dispose of sewage and all liquid waste with a sewage system that conforms to local ordinances; or
  - b. Where local ordinances do not exist, sewage disposal systems must comply with the regulations.

**Grounds**

- 30. Outdoor play area fenced for under school age children.
- 31. Fence in good condition.
- 32. Grounds clean, hazard- and rodent-free, free of animal waste and properly drained, no standing water.
- 33. Indoor/outdoor play equipment is safe and in good repair.
- 34. Wading pools must be drained and disinfected between each use. Inaccessible to children when not in use.

**Napping/Sleeping**

- 27. Cots/mats are waterproof, at least one inch thick and 45 inches long and in good repair. No tears, etc.
- 28. Three feet of space between cots/mats.
- 29. Cots/mats must be disinfected daily if used by different children or weekly if individual use.

**Remarks and recommendations**

1- Throughout facility, patch/paint any spots where paint has chipped & wall is exposed. Must be smooth & cleanable! Several windows throughout facility have cracks and need to be re-sealed. (where window meets wall)

18- All doors opening into food prep or service areas must be self-closing.

3- Torn couches (are in process of replacement).

27- Repair/replace torn mattresses.

Generally, floors beneath eating areas in CCCs must be smooth & non-absorbent (not carpeted) - inspector did not observe cleanliness issues in dining areas. When renovations are planned, contact NDEE for plan review!

**FOOD EVALUATION CORRECTIVE ACTION REPLY FORM**

Return 3/7/23

In the facility you operate, critical violations were identified that were not corrected at the time of the inspection. To protect the health and safety of the public, the Nebraska Department of Health and Human Services requests immediate attention to all critical violations. You must: make the corrective actions, document the corrective actions on this form, and return this form, along with any supporting documentation to the Department.

Please Type or Print Clearly

Facility Name: <u>Whitehall</u>	Permit Number:
Facility Address: Street/PO/Route: <u>5845 Huntington Ave</u>	
City: <u>Lincoln</u>	State: <u>NE</u> ZIP: <u>68507</u>

Food Facility Manager	Contact Number
<u>Anne Regelean</u>	<u>402.479.5445</u>
Facility Manager/Director/Superintendent (print and sign name)	Contact Number
<u>Mitchell Popple</u> <u>ML Popple</u>	<u>402.525.3130</u>

Description of corrective action to critical violations that place the facility into compliance must be provided (use additional pages if necessary and provide any and all supporting documentation):

Item #50 - Spoke with maintenance and confirmed that the cottages do have sewage back fill prevention systems in place.

Item #20 - Attached to this response form is the policy provided by Anne Regelean pertaining to food temps.

Item #46 - Anne Regelean has ordered a irreversible registering temperature indicator and new chlorine testing strips. They will be delivered to the kitchen as soon as she receives them.

Work orders have been placed to paint cabinets in cottages 1 and 2. Touch up paint in all cottages. Fix doors to be self-closing in pantry areas.

### INFECTION CONTROL

#### D. Food Preparations and Service.

##### STANDARD:

Food preparation and serving procedures shall comply with standard health regulations, including the Nebraska Food Code.

##### PROCEDURES:

1. Raw, unprocessed fruits and vegetables are thoroughly washed under running water before use.
2. Food from broken packages, swollen or leaking cans or food with an abnormal appearance or odor is not served.
3. Food is served with sanitized tongs, scoops, forks, spoons, spatulas or other suitable implements so as to avoid manual contact of unpackaged foods.
4. Plastic gloves are worn when handling foods or wrapping dinnerware.
5. Individual portions of food once served are not served again.
6. Prepared food is transported to other areas in covered containers.
7. Thermometers are used to check temperatures of foods on the serving lines. Hot foods are held at a minimum of 140 degrees F. Cold foods are kept below 40 degrees F
8. All foods will be temped before meal service begins.
9. Food items will be disposed of or placed in the refrigerator immediately following meal service.  
No perishable items will sit out longer than 2 hours.
8. Single service articles are discarded after one use.
9. Patients on isolation shall have all food delivered on disposable utensils and dishes. Disposable dishes should be discarded on the nursing unit.
10. Plasticware that has lost its glaze or is shipped or cracked is disposed of immediately.
11. Cooked foods should not be cut on the same boards used for preparing raw foods.
12. Separate cutting boards are provided for meat, poultry, fish and raw fruits and vegetables, except said board is made of nonabsorbent material that can be cleaned and sanitized.

	In Compliance	Not In Compliance	Not Applicable	Not Observed
--	---------------	-------------------	----------------	--------------

**005. Standards of Operation and Care**

The following requirements are applicable to all licenses

**005.01 Responsibilities of the Licensee**

Each license holder is responsible for the total operation of his or her or its agency or agencies. The responsibilities under the license include:

(A) Monitoring and implementing policies to assure the appropriate administration and management of the residential child-caring agency including a written policy mandating zero tolerance toward all forms of physical abuse, sexual abuse and sexual harassment and outlining the residential child-caring agency's approach to preventing, detecting, and responding to such conduct;

(B) Ensuring the residential child-caring agency's compliance with all applicable state statutes and regulations;

(C) Notifying the Department immediately of any issue of financial instability;

(D) Designating an executive director who is responsible for the day to day management and defining the responsibilities of the executive director;

(E) Ensuring the physical, mental, and psychosocial needs of all children cared for by the residential child-caring agency are met in accordance with each child's individualized needs; and

(F) Ensuring the reporting of suspected abuse or neglect as required by Neb. Rev. Stat. §§ 28-372 and 28-711.

**005.02 Employee and Volunteer Requirements**

The licensee must maintain a sufficient number of staff with the required training and skills necessary to supervise and meet the needs of children in the care of the licensee. The licensee must verify the credentials, education, experience, and training of staff prior to staff assuming job responsibilities and caring for children and must have procedures for verifying that such requirements are met on an ongoing basis.

**005.02(A) Employee Qualifications**

All staff and volunteers must be of good moral character and not engage in or have a history of behaviors injurious to or which may endanger the health or morals of children and meet the required qualifications. Staff employed as an executive director, program director, direct care staff supervisor, or direct care staff prior to the effective date of this chapter are deemed to be in compliance with education and experience requirements for initial qualifications.

**005.02(B) Executive Director** - *Nash*

The executive director must meet one of the following education and experience requirements:

(i) Have a master's degree in social work, counseling, business, public administration, education, or a related human service; or

(ii) Have a bachelor's degree and five years of experience in social work, counseling, business, public administration, education, or a related human service.

# Regulations Compliance Review Licensing

## Residential Child Caring Agency Cover Sheet 391 NAC Chapter 7

### 005.02(C) Program Director - *Popple*

If the executive director is not on site or is on site but not providing direct oversight of the day to day operations of the program then the licensee must employ a program director who:

(i) Has a master's degree in social work, counseling, business, public administration, education, or a related human service; or

(ii) Has a bachelor's degree and three years of experience in social work, counseling, business, public administration, education, or a related human service.

### 005.02(D) Direct Care Staff Supervisor -

A direct care staff supervisor, if other than the executive director or program director, must:

(i) Have a master's degree in social work, counseling, or a related human service; or

(ii) Have a bachelor's degree in social work, counseling, or a related human service with two years of experience in a human service related field;

### 005.02(E) Direct Care Staff

Each direct care staff must:

(i) Be at least 21 years of age; and

(ii) Have a high school diploma or a high school equivalency diploma.

### 005.02(F) Criminal History Record Checks

Prior to having any contact with children or families, and not less than once during each five year period, the applicant must complete a fingerprint based national criminal history record check for each staff member and volunteer age 18 or older. If the residential child-caring agency is located in a private home a fingerprint based national criminal history record check must also be completed for each household member age 18 and older. The criminal history record check must be conducted through the Nebraska State Patrol. If an individual has lived outside the state of Nebraska during the preceding five years, the must also obtain documentation of a criminal history record check from the United States jurisdictions of residence. Except for minor traffic violations, the applicant or licensee must notify the Department and request a criminal history record check within five working days any time applicant or licensee becomes aware of convictions, regarding applicant or licensee, staff, or volunteers. If the residential child-caring agency is located in a private home such notification must also be made for household members. Licensees and individuals employed prior to the effective date of this chapter will not be disqualified based upon previous criminal history. Such persons can be disqualified based on criminal history occurring after the effective date of this chapter. Applicants and licensees may not have owners that have convictions that would disqualify them to be a licensee, staff member or household member.

*Turner - 3/11/24*  
*Baldridge -*  
*Starks -*  
*Dale -*  
*Molzer -*

### 005.02(G) Registry Checks

The applicant or licensee must complete a pre-employment registry check, and not less than once during each five year period, on each staff member, volunteer, and each household member who resides at a location where the licensee will provide services, appropriate to the age of the individual. If an individual has lived outside the state of Nebraska as an adult then the applicant or licensee must obtain pre-employment registry check from the United States jurisdictions where the individual resided in the preceding five years. Any individual who is listed as a perpetrator on any of the registries must not be a staff, volunteer, or household member. The following registries must be checked:

*Sixelo - 5/6/21*  
*Miles - ED*

(i) Nebraska Child Abuse and Neglect Central Registry, if the individual is age 13 or older;

(ii) Nebraska Adult Protective Services (APS) Central Registry if the individual is age 18 or older; and

(iii) State Patrol Sex Offender Registry, if the individual is age 18 or older.

Regulations Compliance Review Licensing

Residential Child Caring Agency Cover Sheet 391 NAC Chapter 7

(iv) Equivalent registries in (i) through (iii) in other states and United States jurisdictions must be checked for individuals who have lived outside of the state of Nebraska as an adult.

**005.02(H) Individual Under Investigation for Child Abuse or Neglect of a Child or Vulnerable Adult**

Any individual who is under investigation for abuse, neglect, or sexual abuse of a child or vulnerable adult must not be left alone with children until the investigation is completed and the findings are determined.

**005.03 Records**

Records of all employees, volunteers, and household members must be kept during the period an individual is employed, used, or by the residential child-caring agency or resides at the residential child-caring agency and for a minimum of two years after the separation of the employee or volunteer or the household member leaves the residential child-caring agency. A current record for each staff person, volunteer, or household member must be maintained at the facility where the employee or volunteer is assigned or resides or be made available upon request by the Department.

**005.03(A) Employee Records**

Each record for an employee must include documentation of all of the following:

- (i) Name;
- (ii) Address and telephone number;
- (iii) Results of registry checks;
- (iv) Results of criminal history record check;
- (v) Date of assuming job responsibilities;
- (vi) Pre-service training;
- (vii) Statement that the employee has read and understands this chapter;
- (viii) Education;
- (ix) Social security number;
- (x) Date of hire and termination;
- (xi) Job title and job description;
- (xii) In-service training;
- (xiii) Annual performance evaluation; *APB, JB, MM, JT, ES SC-None review*
- (xiv) Any disciplinary action taken or work improvement plans;
- (xv) Current driver's license if employee transports children; and
- (xvi) Vehicle insurance if employee transports children in own vehicle.

**005.03(B) Volunteer Records**

Each record for a volunteer must include the documentation required in 391 NAC 7-005.03(A)(i) through (iv) and of the following:

- (i) Start date;
- (ii) A written schedule that includes the hours and days of the week the individual serves as a volunteer; and
- (iii) Training completed on the residential child-caring agency's policies and procedures.

**005.03(C) Household Member Records**

Each record for a household member must the documentation required in 391 NAC 7-005.03(A)(i) through (iv).

**Regulations Compliance Review Licensing**

**Residential Child Caring Agency Cover Sheet 391 NAC Chapter 7**

**005.04 Employee Training**

Written documentation of the completion of all training must be available at the facility where the staff is working for the Department to review and must include:

- (1) Name of the employee;
- (2) Name of the training;
- (3) Date the training was completed; and
- (4) Number of hours each training took to complete.

**005.04(A) Pre-Service Training**

Staff must have completed 30 hours of pre-service training prior to having direct responsibility for care and services to children which must include:

- (i) Job duties and responsibilities;
- (ii) Policies and procedures specific to job duties;
- (iii) Residential child-caring agency policies and procedures;
- (iv) Child rights;
- (v) The residential child-caring agency's policy mandating zero tolerance toward all forms of abuse including sexual abuse and sexual harassment;
- (vi) How to establish appropriate boundaries and avoid inappropriate relationships with children;
- (vii) Confidentiality of children's records and children's medical information;
- (viii) Child service plans;
- (ix) Universal precautions for infection control practices including hand washing techniques, personal hygiene, and disposal of infectious material;
- (x) Information on any physical and mental special care needs of the children;
- (xi) Information on statutes regarding abuse and neglect reporting procedures;
- (xii) Disaster preparedness plans including fire evacuation and tornado shelter plans;
- (xiii) Crisis management; and
- (xiv) Trauma informed care.

**005.04(B) Ongoing Training**

Each direct care staff must obtain 20 clock hours of training annually directly related to the skills necessary to care for children in out-of-home placement.

**005.04(C) Activities Counted as Training**

Training activities must be directly related to the skills necessary to care for children and may be counted on an hour-for-hour basis. Study of written material may be counted as one training hour per 50 pages of written material.

**005.04(D) Cardiopulmonary Resuscitation and First Aid Training**

To qualify as acceptable cardiopulmonary resuscitation and first aid training the training must be obtained from an entity that has been approved by the Nebraska Board of Emergency Services. The cardiopulmonary resuscitation card and documentation of first aid training must be available upon request.

**005.04(E) Training of Volunteers**

Prior to assuming their duties, all volunteers must be trained on the policies and procedures of the residential child-caring agency.

**Regulations Compliance Review Licensing**

**Residential Child Caring Agency Cover Sheet 391 NAC Chapter 7**

**005.05 Staff-to-Child Ratio**

The Department will only consider staff who are in the same room or within reasonable hearing distance of children when determining if staff-to-child ratio is met. At least one direct care staff person must be on duty for every six children in care at all times. At least one staff member with current cardiopulmonary resuscitation certification and first aid training must be on duty at all times.

**005.05(A) Volunteer**

A volunteer must be directly supervised by staff when working with children and cannot be counted in ratio.

**005.05(B) Alternative Compliance**

The Department, may in its discretion, approve such request for an alternative compliance to allow one direct care staff person on duty for every 10 children in care between the hours of 12:00 a.m. until 6:00 a.m. for a period not to exceed one year. A licensee may request renewal of an approved request by submitting updated information. A licensee wanting to have such alternative compliance must submit a request for this alternative compliance to the Department which must include:

- (i) A detailed description of the licensee's plan to meet the physical, behavioral, and emotional needs of all children and to ensure the safety of all children and staff; and
- (ii) A detailed plan to provide additional staff in the event of escalated behavior on the part of a child(ren) in placement or any emergency situation.

**005.05(C) Supervision**

Adequate supervision must be provided to children at all times. The licensee must have and implement written policies and procedures to ensure adequate supervision is provided. Such policies and procedures must include:

- (i) Anticipating and planning for behaviors and conflicts among the child population;
- (ii) Knowing the whereabouts of all children at all times when children are in care, on or off the premises;
- (iii) Being alert, attentive, and responsive to the needs of all children;
- (iv) Protecting and ensuring the safety of all children in care; and
- (v) Reporting all incidents to of violence toward staff or children in placement to the Department within one working day.

**005.06 The Child's Rights**

The licensee must establish and implement a Bill of Rights that will be equally applicable to all children. The licensee must protect and promote these rights and afford children the opportunity to exercise their rights. The child and parent or legal guardian must be given a copy of the Bill of Rights before the licensee provides services to the child. The Bill of Rights must address that each child has the right to:

- (A) Receive services provided by the licensee;
- (B) Participate in the planning of the child's care and receive instruction and education regarding the plan;
- (C) Request information regarding the child's care;
- (D) Receive services without discrimination as to race, color, creed, age, or national origin;
- (E) Have contact with family, friends, and other persons significant to the child;
- (F) Exercise religious beliefs or cultural traditions;

**Regulations Compliance Review Licensing**

**Residential Child Caring Agency Cover Sheet 391 NAC Chapter 7**

(G) Access educational services;	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(H) Be accepted for services only if the licensee has the ability to provide safe and professional care;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(I) Personal privacy and confidentiality of all records, communications, personal information, grievances and complaints, except as otherwise provided by law;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(J) Receive policies and procedures for admission, discharge, and termination of services at the time of admission;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(K) Voice complaints or grievances, including to outside agencies, and suggest changes in services or staff without fear of reprisal or discrimination and be informed of the resolution;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(L) Be free from verbal, physical, psychological, sexual abuse or harassment and to be treated with dignity;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(M) Expect all efforts will be made to ensure continuity and quality of care;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(N) Have the child's person and property treated with respect;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(O) Be informed, in advance, about the care to be furnished, and any changes in the care to be furnished;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(P) Be free from chemical and mechanical restraints except as part of the child's individual treatment plan; and	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(Q) Have the opportunity to participate in community activities appropriate to age and cultural heritage, and interests.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

**005.07 Complaint Process**

The licensee must allow staff, children, parents, guardians, and others to submit complaints or grievances to the licensee. Written policies and procedures must be established and implemented by licensee to address and document complaints or grievances received and include:

(A) A procedure for submission of complaints that is made available to staff, children, parents, guardians, and others;	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(B) Time frames and procedures for review, investigation of complaints and provision of responses to address complaints. Children must be provided multiple internal ways to privately report sexual abuse, retaliation by other children or staff, and staff neglect which may have contributed to such incidents;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(C) A description of how information from complaints and responses is used to improve the quality of care and services for children; and	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(D) A method to ensure that the telephone number of the Nebraska Child Abuse and Neglect Hotline and the child's parent, guardian, or other legal custodian is readily available to children, employees and others who wish to lodge complaints.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

**005.08 Program Description**

The licensee must ensure that a written description of the facility and type of services provided is available to staff, children, parents, guardians or their designees, and members of the public and includes:

(A) Ownership;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(B) The goals and objectives of the licensee;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(C) The description of the children to be served, including age, gender, care needs, and any other relevant characteristics;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(D) The composition of staff and their qualifications;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

**Regulations Compliance Review Licensing**

**Residential Child Caring Agency Cover Sheet 391 NAC Chapter 7**

(E) The job responsibilities of staff;	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(F) The discipline model for children in care; and	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(G) How the program will address:	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(i) Academic and vocational education;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(ii) Use of a library;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(iii) Money management training;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(iv) Religious instruction, according to the child's own faith or that of the child's parents;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(v) Nutrition and dietary education;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(vi) Recreation; and	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(vii) Community contacts.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

**005.09 Quality Assurance and Improvement**

The licensee must develop and implement a written quality assurance and improvement plan with input from staff, children, parents, guardians and other community partners. The plan must be reviewed and updated annually and describe:

(A) How feedback will be utilized to improve services; and	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(B) Methodology for monitoring, evaluating, and improving services.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

**005.10 Admission Policy and Procedure Requirements**

Acceptance of a child must be based on the licensee's assessment of the licensee's ability to meet the identified needs of the child. The licensee must establish and implement written policies and procedures for admission of a child to the facility. The policies must address how the licensee will:

(A) Assess and address the immediate needs of a child including the severity of the needs and the need for supervision of the child;	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(B) Review admission information and makes admission decisions, including which staff are responsible;	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(C) Assess its ability to meet the needs of the child based upon staff, facility, service, program structure, and available community services;	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(D) Identify special health care needs which the licensee is not able to meet;	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(E) Obtain written information for a child's record to include:	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(i) Full name;	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(ii) Date of birth;	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(iii) Date of admission;	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(iv) A referral from the licensed child-placing agency, when applicable;	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(v) Legal custodian;	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(vi) Consent of the legal custodian for placement or a copy of the approved Interstate Compact on the Placement of Children (ICPC) agreement;	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(vii) Written documentation of complete medical and dental examinations current within the past year;	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(viii) Consent from the legal custodian for medical, dental, vision and emergency treatment;	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(ix) Medical needs, medications, and allergies, including food allergies and dietary restrictions;	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

**Regulations Compliance Review Licensing**

**Residential Child Caring Agency Cover Sheet 391 NAC Chapter 7**

(x) A list of persons with whom the child may have contact; and	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(xi) An inventory of personal items to be updated as the inventory changes; and	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(F) Orient the child to the facility which includes: <i>(3 of 6 hrwe)</i>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(i) A tour;	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(ii) Introduction to staff;	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(iii) Description of rules and discipline policies;	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(iv) Discussion of tasks and behaviors the child is expected to perform;	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(v) Discussion regarding personal possessions the child is permitted to have; and	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(vi) Providing information which describes the licensee's zero tolerance policy of sexual abuse and sexual harassment and how to report incidents or suspicions.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

**005.11 Child Record**

The licensee must maintain a record for each child in care. Each record must contain the information required by 391 NAC 7-005.10(E) and the following:	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(A) Current educational information including: grade reports, scholastic achievement, and social adjustment;	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(B) Medical, dental, and vision records including: examinations, immunizations, illnesses, and follow-up treatments;	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(C) Psychological or psychiatric testing, examination, and follow-up treatment, if obtained;	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(D) Visits to the child and contacts with child's own family and services provided or arranged; and	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(E) Written service delivery or case plan for the child which must include documentation that meets the requirements in 391 NAC 7-005.12(F).	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

**005.12 Child's Care**

All children receiving care must have:	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(A) Complete medical and dental examinations annually;	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(B) Complete vision exam every other year;	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(C) Immediate medical, dental, and vision care when an emergency arises;	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(D) All required immunizations;	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(E) Necessary treatment for any physical or mental health care needs; and	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(F) A written service delivery or case plan for each child which must:	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(i) Be completed within thirty (30) days of admission; and	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(ii) Be updated quarterly while the child is in care and address:	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(1) Health care;	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(2) Education or vocational planning;	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(3) Permanency objective;	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(4) Discharge planning; and	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(5) Have written reports of the child's progress toward achieving the goals sent at least monthly to the child's parent or guardian.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

**005.13 Toiletries**

Each child in care must be provided individual:	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
---	-------------------------------------	--------------------------	--------------------------	--------------------------

**Regulations Compliance Review Licensing**

**Residential Child Caring Agency Cover Sheet 391 NAC Chapter 7**

(A) Body soap;	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(B) Shampoo;	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(C) Towels; and	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(D) Washcloths.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

**005.14 Discipline**

The licensee must have written policies and procedure that establish how and when the licensee will discipline children. The licensee must:

(A) Use discipline only as a learning process in which certain specified consequences are the result of unacceptable behavior;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(B) Use discipline models which encourage children to achieve service plan goals;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(C) Incorporate discipline in the child's daily programming model;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(D) Apply discipline in a consistent manner;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(E) Provide positive reinforcement and reward; and	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(F) Allow natural consequences to occur.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

**005.15 Child Behavior that Cannot be Disciplined**

Children must not be disciplined for:

(A) Toileting accidents, including bed wetting;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(B) Refusal to take medication; or	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(C) Refusal to eat.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

**005.16 Prohibited Actions**

Children must not be subjected to:

(A) Spanking;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(B) Slapping;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(C) Pinching;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(D) Punching;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(E) Shaking;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(F) Striking with any object;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(G) Placing soap, hot sauce, or other unpleasant food or non-food items in a child's mouth;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(H) Handling roughly;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(I) Biting;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(J) Denial of food;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(K) Extensive time-out;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(L) Derogatory remarks about the child or the child's family;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(M) Abusive or profane language;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(N) Yelling or screaming;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(O) Threats of physical punishment;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(P) Mechanical or chemical restraints except as a physician ordered part of the child's individual treatment plan;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(Q) Denial or reduction of family contact or visitation; or	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

**Regulations Compliance Review Licensing**

**Residential Child Caring Agency Cover Sheet 391 NAC Chapter 7**

(R) Imposition of discipline by one child upon another.

**005.17 Prohibited Language, Materials, and Actions**

Children must not be exposed to:

(A) Profanity;

(B) Sexually explicit material;

(C) Acts of violence toward a person or animal; or

(D) Acts of discrimination.

**005.18 Transportation**

When transportation is provided by the licensee the following requirements must be met:

(A) Any individual who transports children must possess a current and valid driver's license;

(B) Smoking is not permitted in any vehicle used to transport children;

(C) No vehicle may be used to transport more passengers than the seating capacity of the vehicle, as indicated by the manufacturer, allows;

(D) Staff-to-child ratio must be maintained;

(E) Any vehicle used to transport children must:

(i) Be operable and properly maintained;

(ii) Be clean and free of hazards;

(iii) Be registered;

(iv) Be insured;

(v) Be equipped with a first aid kit; and

(vi) Have doors locked at all times when in motion;

(F) Children being transported must:

(i) Not be left alone in a vehicle at any time if under 14 years of age;

(ii) Be adequately supervised at all times;

(iii) Be properly secured in an appropriate restraint system;

(iv) When required by law, be in car seats that:

(1) Meet federal standards;

(2) Are the correct type for the child's age and developmental level; and

(3) Are properly secured; and

(v) Be school age or older when transported in buses over 10,000 pounds that are not equipped with restraint systems.

**005.19 Transportation Policies and Procedures**

The licensee must have written policies and procedures that establish and implement how children will be transported in compliance with this chapter and must include:

(A) Emergency procedures in the event a child becomes ill, the vehicle breaks down or is involved in an accident, or other emergencies; and

(B) How it will address the presence or absence of other passengers besides staff and children in the vehicle.

**Regulations Compliance Review Licensing**

**Residential Child Caring Agency Cover Sheet 391 NAC Chapter 7**

**005.20 Medication**

When the licensee utilizes licensed health care professionals for whom medication administration is included in the scope of practice, the licensee must ensure the medications are properly administered in accordance with prevailing professional standards. When the licensee utilizes persons other than a licensed health care professional to provide medications the licensee must follow the requirements of the Medication Aide Act and 172 NAC 95 and 96. Only staff authorized by the executive director of the residential child-caring agency may have access to medications. Children must receive prescription medication only as legally prescribed by a healthcare practitioner and in accordance with the prescription.

**005.20(A) Medication Record Keeping**

A written record of medication administration must kept separately for each child and be available for review by the Department. For any prescription or non-prescription medication provided to a child the record must include the:

- (i) Name of the child;
- (ii) Name of the medication;
- (iii) Name of prescriber;
- (iv) Amount or dosage;
- (v) Route the medication is provided;
- (vi) Time medication is provided;
- (vii) Name of staff person responsible for providing the medication;
- (viii) Any drug allergies; and
- (ix) If the medication is not administered, the reason for the lack of administration.

**005.20(B) Medication Errors**

Medication errors must be clearly documented and reported to the child's parent or legal guardian and any individual responsible for monitoring medication administration for the child.

**005.20(C) Storage of Medication**

Prescription and non-prescription medications must be stored in the following manner:

- (i) All non-emergency prescription and non-prescription medications must be kept in locked storage at all times children are in care;
- (ii) All emergency prescription and non-prescription medications must be inaccessible to children and supervision must be provided to ensure children do not have access;
- (iii) Separate locked storage must be provided for medications requiring refrigeration;
- (iv) All medications must be kept in the original container and all prescription medication must have a prescription label; and
- (v) All prescription medications must be returned to the parent or guardian or a dispensing pharmacy when no longer needed. All non-prescription medication must be returned to the parent or guardian or disposed of when no longer needed.

**005.20(D) Expired and Unused Medication**

Expired and unused medications must be handled in the following manner:

- (i) Any expired medication must not be given to the child and must be disposed of properly and a written record kept of the date the medication was disposed, by what method, and by whom;

Regulations Compliance Review Licensing

Residential Child Caring Agency Cover Sheet 391 NAC Chapter 7

(ii) Any unused medication, provided directly by the parent or guardian, which has not expired must be returned to the parent or guardian or disposed of in an appropriate manner as directed by the parent or guardian. A record must be kept of the date the medication was disposed, by what method, and by whom; and [checkboxes]

(iii) Any unused medication, not provided directly by the parent or guardian, must be disposed of properly and a record kept of the date the medication was disposed, by what method, and by whom. [checkboxes]

005.21 Food Service

Meals and snacks must be appropriate for the age and development of the child, address children's food allergies and intolerance; and meet established United States Department of Agriculture requirements regarding food groups and serving sizes. [checkboxes]

005.21(A) Menus

Menus must be approved by a registered dietician. Menus must be: [checkboxes]

(i) Modified to accommodate special diets and texture adaptations as needed by the child; and [checkboxes]

(ii) Available to child, parent or legal guardian, and the Department. [checkboxes]

005.21(B) Food Safety

The licensee must meet and maintain sanitation and environmental requirements at all times and be in compliance with the Nebraska Food Code. [checkboxes]

005.22 Emergency Preparedness

The licensee must meet and maintain the following emergency preparedness requirements. [checkboxes]

005.22(A) Telephone

A working, non-coin operated telephone must be available at the facility at all times. Emergency telephone numbers, including fire, rescue, police (or 911) and Poison Control, must be prominently posted. [checkboxes]

005.22(B) Fire and Tornado Drills

Fire and tornado drills must be practiced with the children and staff. Written documentation of drills, including dates conducted, must be kept and available for review by the Department: [checkboxes]

(i) Fire drills must be completed a minimum of once per month. At least one fire drill per year must be practiced during sleeping hours. [checkboxes]

(ii) Tornado drills must be completed a minimum of four times per year during the months of March through September. At least one tornado drill per year must be practiced during sleeping hours. [checkboxes]

005.22(C) Fire and Tornado Safety Diagrams

Fire and tornado safety diagrams must: [checkboxes]

(i) Show the layout of the facility and the surrounding area; [checkboxes]

(ii) Be prominently posted and visible in each room where care is provided; Knight/PLC [checkboxes]

(iii) Include how the evacuation of children with special needs will be conducted; [checkboxes]

(iv) Include fire evacuation routes; and [checkboxes]

(v) Include tornado safety locations.

**005.22(D) Disaster Preparedness**

The licensee must have and implement written plans and procedures which must address and delineate how, during a disaster, the licensee will:

(i) Maintain the proper identification of each child to ensure that care coincides with the child's needs;

(ii) Move children to points of safety or provide other means of protection when all or part of the building is damaged or uninhabitable due to natural or other disaster;

(iii) Protect children during the threat of exposure to the ingestion, absorption, or inhalation of hazardous substances or chemicals;

(iv) Provide food, water, medicine, medical supplies and other necessary items for care; and

(v) Provide comfort, safety, and well-being of children in the event of 24 or more consecutive hours of:

(1) Electrical or gas outage;

(2) Heating, cooling, or sewer system failure; or

(3) Loss or contamination of water supply.

**005.22(E) Notification to the Department of Emergencies**

The licensee must document and notify the Department of Health and Human Services, Division of Public Health, Office of Children's Services Licensing or its successor within 24 hours or next business day of the following occurrences:

(i) The death of a child;

(ii) Any incident that involves staff assaulting a child;

(iii) Any incident that involves children assaulting staff that requires medical treatment by a licensed health care facility;

(iv) Any allegation of sexual abuse involving a child; and

(v) An emergency or disaster that results in significant damage which impacts the ability to provide care for children at the licensed location.

**005.22(F) First Aid Kit**

A first aid kit must be available at the facility and inaccessible to children. If any poisons or medications are stored in the kit, the kit must be kept in locked storage.

**005.23 Environmental Maintenance and Safety**

The licensee must provide a safe and hazard-free environment to protect the health and safety of children in care, including:

(1) Any building and area where children are present must be kept free of exposed lead-based paint surfaces that are flaking, peeling, or chipped;

\* (2) Rooms, walls, floors, and ceilings must be kept clean, dry, in good repair, and free of odor resulting from sewage, mold, mildew, or other environmental or biological hazards or unsanitary conditions; *(Basements have mildew - not used)*

(3) Heating, ventilation, and lighting in all rooms used for children must be operable and suitable;

(4) The entrance, harborage, or breeding of rodents, flies and all other insects and vermin must be prevented. All doors opening to the outside must be self-closing (except sliding doors) and all windows used for ventilation and all opening to the outside must be screened;

**Regulations Compliance Review Licensing**

**Residential Child Caring Agency Cover Sheet 391 NAC Chapter 7**

- (5) All garbage and rubbish must be disposed of in a manner that minimizes odor and the transmission of infectious diseases, and prevents the attraction of rodents, flies, and all other insects and vermin. This includes:
 

	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
--	--------------------------	-------------------------------------	--------------------------	--------------------------
- (i) All outdoor and indoor containers used for disposal of food, bodily fluids, or other odorous materials must be watertight, have tight fitting covers, and be insect and vermin proof; *(Killing)*

	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
--	--------------------------	-------------------------------------	--------------------------	--------------------------
- (ii) Keeping all garbage and rubbish containers clean; and
 

	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
--	-------------------------------------	--------------------------	--------------------------	--------------------------
- (iii) Not burning garbage at the facility;
 

	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
--	--------------------------	--------------------------	-------------------------------------	--------------------------
- (6) Carpeting is prohibited in a bathroom, except for removable, washable, and non shag throw rugs;
 

	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
--	-------------------------------------	--------------------------	--------------------------	--------------------------
- (7) Carpeting is prohibited in the food preparation or storage area;
 

	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
--	-------------------------------------	--------------------------	--------------------------	--------------------------
- (8) Walls must be smooth and made of easily cleanable construction;
 

	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
--	-------------------------------------	--------------------------	--------------------------	--------------------------
- (9) A process for routine and preventative maintenance of equipment, fixtures, furnishings, and toys so they are kept clean, safe, in good repair, and available to meet the intended use must be developed and followed. This includes ensuring no sharp edges, rust, or loose parts;
 

	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
--	-------------------------------------	--------------------------	--------------------------	--------------------------
- (10) Furniture and equipment must be arranged so as not to interfere with exits;
 

	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
--	-------------------------------------	--------------------------	--------------------------	--------------------------
- (11) All poisonous or toxic materials must be kept in locked storage at all times;
 

	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
--	-------------------------------------	--------------------------	--------------------------	--------------------------
- (12) Cleaning agents must be inaccessible to children under age ten;
 

	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
--	-------------------------------------	--------------------------	--------------------------	--------------------------
- (13) All firearms, other potentially hazardous weapons, weapon accessories, and ammunition must not be at the facility;
 

	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
--	--------------------------	--------------------------	-------------------------------------	--------------------------
- (14) Electrical outlets within reach of children under age six must be covered with safety caps, ground fault interrupters, or have safety outlets installed;
 

	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
--	-------------------------------------	--------------------------	--------------------------	--------------------------
- (15) Shared use of the following items is prohibited:
 

	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
--	-------------------------------------	--------------------------	--------------------------	--------------------------

  - (a) Disposable towelettes;
 

	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
--	-------------------------------------	--------------------------	--------------------------	--------------------------
  - (b) Drinking containers, cups, or glasses;
 

	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
--	-------------------------------------	--------------------------	--------------------------	--------------------------
  - (c) Personal care items such as toothbrushes, shampoo, conditioner, deodorant, and razors;
 

	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
--	-------------------------------------	--------------------------	--------------------------	--------------------------
  - (d) Hair brushes and combs; and
 

	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
--	-------------------------------------	--------------------------	--------------------------	--------------------------
  - (e) Towels and washcloths; and
 

	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
--	-------------------------------------	--------------------------	--------------------------	--------------------------
- (16) Deep freezers that cannot be opened from the inside must be locked or stored in a locked room.
 

	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
--	--------------------------	--------------------------	-------------------------------------	--------------------------

**005.23(A) Smoking and Use of Electronic Cigarettes**

Smoking anywhere indoors is prohibited at all times. Use of electronic cigarettes anywhere indoors is prohibited at all times.
 

	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
--	--------------------------	--------------------------	-------------------------------------	--------------------------

**005.23(B) Alcohol and Controlled Substances**

The unlawful use or possession of alcohol is prohibited. The unlawful use or possession of controlled substances, as defined by the Uniform Controlled Substance Act, is prohibited.
 

	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
--	--------------------------	--------------------------	-------------------------------------	--------------------------

**005.23(C) Animals and Pets**

Any animal or pet at the facility must not negatively affect the children. The licensee must:
 

	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
--	--------------------------	--------------------------	-------------------------------------	--------------------------

- (i) Complete all vaccinations as recommended by the licensed veterinarian that include, at a minimum, current vaccination for rabies for dogs, cats and ferrets;
 

	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
--	--------------------------	--------------------------	-------------------------------------	--------------------------

**Regulations Compliance Review Licensing**

**Residential Child Caring Agency Cover Sheet 391 NAC Chapter 7**

- (ii) Have provision of pet care necessary to prevent the acquisition and spread of fleas, ticks and other parasites;
- (iii) Ensure that no animals are allowed in the food preparation, food storage, or serving areas during food preparation and serving times; and
- (iv) Comply with any state or local law or ordinance relating to the care and ownership responsibilities of pets or specific breeds identified by those laws or ordinances.

**005.24 Specific Service Requirements and Provisions**

In addition to the requirements in 391 NAC 7-005.01 to 005.23(S) the licensee must establish and implement written policies and procedures to meet the requirements listed for each service it provides as prescribed in 391 NAC 7-005.24.

**005.24(A) Pregnant and Parenting Child Service**

If services are provided to pregnant and parenting children the following requirements must be met:

**005.24(A)(i) General Requirements**

The licensee must:

- (1) Have a written plan for infant and toddler safety including a plan for an infant or toddler whose mother is unable or unwilling to provide care;
- (2) Provide a complete written description of its program to the child, parent, guardian or legal custodian, and the Department;
- (3) Develop a training plan to ensure that staff working with pregnant and parenting children develop skills and knowledge regarding pregnancy, infant and child care;
- (4) Provide bedrooms separate from children in other programs; and
- (5) Have at least two direct-care staff providing care to children at all times and count infants and toddlers in ratio and capacity as follows:
  - (a) An infant or toddler is not counted in the ratio when the licensee is not responsible for care of the infant or toddler;
  - (b) An infant or toddler must be counted in the ratio when the licensee is responsible for the care of the infant or toddler; and
  - (c) An infant or toddler must always be counted in the capacity number.

**005.24(A)(ii) Health Care Services**

The licensee must have the following:

- (1) There must be a written plan for all deliveries to take place in a licensed hospital;
- (2) Medical care and services:
  - (a) Each child must receive the services of a healthcare practitioner on a regular and continuing basis throughout pregnancy, delivery, and post-delivery checkups; and
  - (b) The program must provide for consultation from a physician who must be available in an emergency; and
- (3) Medical record for a pregnant or parenting child must include:
  - (a) A completed medical consent form;
  - (b) The name of the health care provider;
  - (c) A schedule of appointments;

**Regulations Compliance Review Licensing**

**Residential Child Caring Agency Cover Sheet 391 NAC Chapter 7**

- (d) The expected date of delivery; and
- (e) Documentation of any special needs or problems related to pregnancy.

**005.24(A)(iii) Case Service Plan**

A written case service plan for each child in care must be developed within one month after the child's admission and involve the child, staff, and other individuals who must legally be involved in the planning for the child and include:

- (1) Preparation for delivery of the infant;
- (2) Plans regarding postnatal after discharge from the hospital;
- (3) Decision making in relation to the day to day care of the infant;
- (4) Counseling for the father when appropriate;
- (5) Counseling for the families of the child;
- (6) Employment or education planning;
- (7) Counseling regarding legal rights and obligations in relation to parenthood;
- (8) Preparation for parenthood and family life for mothers choosing to parent their infants;
- (9) Adoption counseling provided by a licensed child-placing agency approved to provide adoption services for those mothers interested in or planning to relinquish parental rights to their infants;
- (10) Socialization and support opportunities for single parents; and
- (11) Discharge plans that include information regarding postnatal care.

**005.24(A)(iv) Relinquishment of an Infant**

At the request of the child, staff must arrange for referral to a licensed child-placing agency which provides adoption services.

**005.24(B) Serving Both Children and Adults**

When a licensee provides care to both adults and children the children must be separated from adults by sight and sound at all times care is being provided. Licensee must have and implement written policies and procedures to ensure such separation is maintained at all times.

**005.24(C) Independent and Transitional Living Service**

A licensee providing independent and transitional living services to children must:

- (i) Within 30 days of placement develop a written service delivery or case plan which meets the requirements in 391 NAC 7-005.10(E) and the following documentation:
- (1) Money management and consumer awareness;
- (2) Food management;
- (3) Personal appearance;
- (4) Health;
- (5) Housekeeping;
- (6) Job seeking skills;
- (7) Job maintenance skills;
- (8) Emergency and safety skills;
- (9) Interpersonal skills;
- (10) Legal resources;

Regulations Compliance Review Licensing

Residential Child Caring Agency Cover Sheet 391 NAC Chapter 7

(11) Leisure activities; and	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
(12) Housing;	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
(ii) Supervise the child. Supervision must include the following:	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(1) Ensuring participation in an educational, vocational, or work program;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(2) Establishing a curfew based upon the individual needs of the child;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(3) Protecting the child from harm while at the facility; and	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(4) Having daily face-to-face contact with the child; and	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(iii) Maintain staffing to ensure the safety and supervision needs of all children are met at all times.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

**005.25 Drug Testing**

Written permission from the child's legal guardian must be obtained prior to testing a child. The licensee must have and implement written policies and procedures which must include:	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(A) Circumstances under which drug testing will occur;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(B) The types of materials and "kits" to be used;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(C) Who will be authorized to perform any part of the testing process;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(D) How the process will be initiated with the child;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(E) How the child will be observed;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(F) How the sample will be obtained;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(G) When the sample will be obtained;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(H) How the sample will be tested;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(I) How the licensee will prevent tampering or manipulation through each of the following means:	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(i) Substitution;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(ii) Use of additives; and	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(iii) Cleansing or detoxification procedures;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(J) What will be the response to a positive test;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(K) The documentation that will be completed; and	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(L) Who will be notified of the test and the results.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

**005.26 Search of a Child and Possessions**

Written permission from the child's legal guardian must be obtained prior to staff performing a search. The licensee must have and implement written policies and procedures which must include:	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(A) Circumstances under which a search of the child and their possessions will be conducted;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(B) Searches must never be done to punish or harass a child;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(C) Who will be conducting the search. At least one staff must observe the search conducted by another staff;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(D) How the search process will be initiated with the child. The child must be given the opportunity to hand over any contraband in their possession prior to a search being initiated;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(E) The response to finding a child in possession of contraband;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

**Regulations Compliance Review Licensing**

**Residential Child Caring Agency Cover Sheet 391 NAC Chapter 7**

- (F) Who will be notified of the search and the result;
- (G) Arrangements for transfer or disposition of any contraband found on the child or the child's possessions;
- (H) The requirements for searches of children and possessions as found in 391 NAC 7-005.27 and 005.28; and
- (I) Documentation that will be completed.

**005.27 Person Searches**

- Strip searches and body cavity searches are prohibited. A search of a child's person must be conducted in the following manner:
- (A) A child may be asked to remove their exterior garments such as sweaters, sweatshirts, jackets, belts, and shoes;
  - (B) The physical contact part of any search must be done through the child's clothing and only by staff of the same gender as the child;
  - (C) The staff shall make no skin to skin contact with the child;
  - (D) The staff shall make no contact with the erogenous zones of the child's body. Erogenous zones include the genital and buttocks areas of both genders and the chest area of females; and
  - (E) Only a reasonable amount of pressure may be applied to any area of the body.

**005.28 Search of Child's Possessions**

- A search of a child's possessions must be done in the following manner:
- (A) The possessions of a child must be handled with care and respect; and
  - (B) Upon the conclusion of a search the child's items must be restored to their original place and order.

**005.29 Physical Restraint and Room Confinement**

- If the licensee uses physical restraint or room confinement the licensee must:
- (1) Use a Department approved crisis intervention model;
  - (2) Comply with all state and federal laws and regulations;
  - (3) Use physical restraint or room confinement only as part of the child's individual treatment plan;
  - (4) Use physical restraint or room confinement only in emergency circumstances to ensure the immediate physical safety of the child, staff member, or others;
  - (5) Use physical restraint or room confinement only after less restrictive deceleration and de-escalation interventions have been determined to be ineffective;
  - (6) Be limited to the least amount of time necessary to address the situation and restore safety;
  - (7) Ensure the behavioral conditions for removal of disciplinary restrictions are specified each time that restraint or room confinement is imposed;
  - (8) Ensure that the child is notified, in terms the child can understand, of the criteria to be met before restraint or room confinement can end;
  - (9) Use only staff trained in the implementation of the crisis intervention model;
  - (10) Not allow children to restrain or impose room confinement on another child; and
  - (11) Have, maintain, and implement written policies and procedures to ensure compliance with.

**005.29(A) Use Prohibited**

The following restraint and room confinement practices are prohibited and include use:	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
(i) As a form of punishment or discipline;	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
(ii) For the convenience of staff;	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
(iii) As a substitute for care and treatment;	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
(iv) Of pain compliance techniques;	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
(v) Of chemical and mechanical restraints, except for a drug or medication ordered by a physician as part of the child's individual treatment plan;	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
(vi) Of techniques which cause hyperextension of any part of the body (pushing or pulling of any part of the body beyond normal limits);	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
(vii) Of joint or skin torsion;	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
(viii) Of pressure or intensity of pressure on any part of the body not authorized by the physical restraint model;	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
(ix) Of any type of choke hold; and	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
(x) Of any maneuver that involves choking, punching, hitting, poking, pinching, scratching or shoving.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

**005.29(B) Notification**

The licensee must notify the Department whenever any staff engages in prohibited restraint or room confinement practices.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
---	--------------------------	--------------------------	-------------------------------------	--------------------------

**005.29(C) Written Authorization Required**

The licensee using restraint or room confinement must obtain prior written authorization from the child's guardian giving informed consent related to its potential use.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
--	--------------------------	--------------------------	-------------------------------------	--------------------------

**005.29(D) Child's Multi-Disciplinary Team Convened**

The child's multi-disciplinary team must be convened within 24 hours of the imposition of the restraint or room confinement to develop alternative effective deceleration and de-escalation techniques.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
---	--------------------------	--------------------------	-------------------------------------	--------------------------

**005.29(E) Incident Report**

A written incident report must be completed within 24 hours from the time the restraint or room confinement began and made available to all multi-disciplinary team members and the Department and include:	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
(i) The name of the child placed in restraint or room confinement;	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
(ii) Description of less restrictive intervention techniques used and why they were ineffective;	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
(iii) The reason for the restraint or room confinement;	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
(iv) Type of restraint used;	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
(v) The date and times the restraint or room confinement began and ended;	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
(vi) The name(s) of staff who restrained the child or assigned the child to room confinement;	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
(vii) The assessments and monitoring provided while the child was in restraint or room confinement and immediately after the child was released from restraint or removed from room confinement;	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
(viii) A statement of the behavioral conditions that the child was required to meet in order to be released from restraint or removed from room confinement;	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

**Regulations Compliance Review Licensing**

**Residential Child Caring Agency Cover Sheet 391 NAC Chapter 7**

(ix) A summary of the debriefing that was conducted;	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
(x) The frequency and types of restraints or room confinement used, over time, for the individual;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(xi) Any injuries sustained by the staff or child;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(xii) Any medical care needed by the child or staff as a result of the use of restraint or room confinement;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(xiii) Documentation of internal review; and	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(xiv) Any other actual or planned follow-up actions.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

**005.29(F) Staff Training** - *Staff are trained in crisis management*

Staff may not use restraints or room confinement until the staff has successfully completed training in the use of such. Training on the use of restraints and room confinement must:

(1) Be comprehensive and competency based meeting all requirements of the crisis intervention model being implemented by the licensee. Comprehensive based training in the use of physical restraint or room confinement must involve repeated and on-going skill development, conditioned learned responses, rehearsals and practices;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(2) Provide physical restraint or room confinement training only by certified trainers from the organization that developed the crisis intervention model selected by the licensee;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(3) Be provided regularly and include safe and appropriate use of restraints or room confinement as well as refresher courses in alternative non-intrusive behavior modification techniques; and	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(4) Not combine components of various models for use as a licensee's identified single model except required competency in cardiopulmonary resuscitation and first aid.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

**005.29(F)(i) Training Record**

Written documentation of certification and re-certification training for each staff which must be available to the multi-disciplinary team members and Department staff and include:

(1) The name of the person trained;	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(2) Date(s) of training;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(3) Source;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(4) Content; and	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(5) Length of each training.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

**005.29(G) Internal Review**

Any licensee using room confinement or physical restraint must have a performance improvement program designed to continuously investigate, analyze, monitor, assess, and track the licensee's use of room confinement and restraint practices and to specifically address injuries or death related to the use of room confinement and restraints and must include the review of:

(i) Training proficiency;	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
(ii) Environmental triggers;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(iii) Systems issues;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(iv) Each use of restraint or room confinement;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(v) Notification of family and need for medical care;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(vi) Administrative and program policy and procedure;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(vii) Incident debriefing and follow up; and	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

(viii) Aggregate data.

**006. Physical Plant Standards**

All buildings, including all detached buildings, for the purpose of providing care to children must meet the following physical plant standards.

**006.01 Water Supply**

Have an accessible, adequate, safe, and potable supply of water for drinking, food preparation, hand washing, bathing, and laundry which is maintained and meets the following requirements:

(A) If drinking water is obtained from a source other than a public water supply system, the water must not contain contaminants that exceed the maximum contaminant levels set for nitrate, or total coliform for public water supply systems in 179 NAC 2-002, and 179 NAC 3 or the lead action level set in 179 NAC 12. The licensee must report to the Department the results of all tests that show the water contains contaminants that exceed a maximum contaminant or action level. The water supply must be tested annually and the tests results must be available for review upon request. If the water supply does not meet nitrate, total coliform bacteria and lead standards until the contaminants are lowered to acceptable levels the licensee must:

(i) Obtain water from a source approved by the Department; or

(ii) Purchase water from a commercial source.

(B) Provide drinking water by sanitary drinking fountains or individual or disposable cups;

(C) Drinking fountains must have mouth guards with water issuing under sufficient pressure;

(D) Provide sanitary dispensing and disposal unit for paper cups;

(E) Provide running water under pressure;

(F) Each hot water storage tank must have a working pressure and temperature relief valve;

(G) Provide adequate cold water and adequate water heating facilities so that a sufficient amount of hot water, maintained between 100 and 120 degrees of Fahrenheit, is available for general cleaning bathing, bathing, as well as washing and sanitizing utensils; and

(H) Provide soap for hand washing.

**006.02 Sewer Requirements**

A sanitary and functioning sewage system must be maintained and either connect to a municipal sewage system or comply with the requirements set by the Nebraska Department of Environmental Quality for the operation and maintenance of an onsite wastewater system.

**006.03 Ventilation**

Kitchen, bathrooms, and services rooms must have ventilation by window or mechanical means through a vent leading directly to the outside.

**006.04 Heating and Cooling System**

All occupied buildings must have a functioning heating and cooling system with clean filters which maintains building temperature at not less than 65 degrees Fahrenheit and not more than 85 degrees Fahrenheit.

**006.05 Lighting**

All occupied buildings must have adequate lighting in every room, hallway, interior and exterior stairway, interior and exterior doorway, porch, ramp, and fire escape.

**Regulations Compliance Review Licensing**

**Residential Child Caring Agency Cover Sheet 391 NAC Chapter 7**

**006.06 Laundry**

There must be separate areas for storage of soiled linen and clean linen. Laundry services may be provided by contract or on-site. Areas dedicated to laundry must include:

(A) An operable non-coin washer and dryer at a ratio of one washer and one dryer per every six children, and *(Alt. Comp.)*

(B) Laundry detergent, including specific detergent for children with allergies.

**006.07 Child Living Areas**

A garage, barn, shed, travel trailer, fifth wheel trailer, recreational vehicle, portable classrooms, or similar structure must not be used as a child living area. Living areas must be:

(1) Furnished with beds, chairs, sofas, tables, and storage items that are comfortable and reflective of individual needs and intended use of the area; and

(2) Have Fire Marshal approval for use.

**006.07(A) Privacy Rooms**

Rooms must be available to allow privacy for interviewing a child or parents and for a child to visit relatives or guests.

**006.07(B) Activity Rooms**

There must be a minimum of 50 square feet of space for each child for individual or group activities.

**006.07(C) Leisure and Recreation**

Space used for leisure and recreation must be separate from the child's bedroom and dining, meeting, and studying areas.

**006.07(D) Bedrooms**

Bedrooms must:

(i) Be designated to provide separation of males and females;

(ii) Allow for sleeping;

(iii) Afford privacy;

(iv) Provide access to belongings;

(v) Provide adequate storage for belongings;

(vi) Accommodate the care provided to the child;

(vii) Be approved by the Fire Marshal;

(viii) Not be shared by more than four children;

(ix) Contain:

(1) A minimum of 100 square feet of usable floor space for a private room; or

(2) A minimum of 70 square feet per child if the room is shared or 40 square feet per child of bedroom space for shared bedrooms in emergency shelter care; and

(3) A ceiling height of at least seven feet.

**006.07(E) Bed Requirements**

Each child must have his or her own separate bed frame that is at least two inches off the floor and which has a mattress and bedding. The licensee must ensure a complete change of bedding is provided at least once a week or more frequently when soiled. The bed must:

Regulations Compliance Review Licensing

Residential Child Caring Agency Cover Sheet 391 NAC Chapter 7

- (i) Be adequate in width and length for the child's height and weight;
- (ii) Be in good condition; and
- (iii) Be spaced no closer to another bed than 36 inches laterally or end-to-end.

006.07(F) Bunk Beds

Bunk beds may be used, if age and developmentally appropriate to the child, and must be constructed of safe, stable materials and have a sturdy ladder for access to the top bunk.

006.07(G) Bathrooms

One operable toilet, sink, tub, or shower for every six children in care must be available. Toilets must be on the same floor as children's sleeping areas and sinks must be on a one to one ratio with toilets. Bathrooms must:

- (i) Be able to be unlocked from the outside;
- (ii) Not be accessed through another child's or staff's bedroom;
- (iii) Not open directly into a room which food, drink, or utensils are handled or stored;
- (iv) Be kept clean, in good repair, well lighted and well ventilated; *Caulk, deep cleaning*
- (v) Be located in an area that is enclosed and provides for privacy;
- (vi) Be adequately supplied with toilet paper; and
- (vii) Have slip-resistant surfaces in tubs and showers.

006.08 Staff Bedroom and Bathroom

When staff live in or sleep at the residential child-caring agency, there must be at least one room adequately furnished and a private bath area reserved for staff. Staff rooms must be located in the same building as the children's sleeping rooms when counted in the staff-to-child ratio.

006.09 Outdoor Areas

Any outdoor area used by children must be equipped and situated in such a manner as to encourage activity and assure the safety of children and must:

- (A) Have 50 square feet of area per child;
- (B) Be equipped with age and developmentally appropriate play equipment; and
- (C) Have no standing or stagnant water or sewage present.

006.10 Educational Services

If the licensee maintains a school at the residential child-caring agency, the buildings and equipment must meet the requirements of the Nebraska Department of Education for an approved or accredited school. *Rule 18*

006.11 Fire Safety

The licensee must maintain fire safety approval at all times. *6/15/22*

006.12 Sanitation and Environmental Safety

The licensee must maintain sanitation and environmental requirements at all times. *1/24/24*

# Fire Alarm and Life Safety System Inspection Certificate

*For*

White Hall Bldg 1  
5800 Leighton Ave  
Lincoln, NE 68507

Tested to NFPA 72 Standards

*This Inspection was performed in accordance with applicable NFPA Standards. The subsequent pages of this report provide performance measurements, listed ranges of acceptable results, and complete documentation of the inspection. Whenever discrepancies exist between acceptable performance standards and actual test results, notes and/or recommended solutions have been proposed or provided for immediate review and approval.*

**Payment Options:** Online remittance of fees is preferred. Online payments can be remitted via the website at <https://sfm.nebraska.gov/fees>. A convenience fee of \$1.75 for e-checks and 2.49% for credit card payments will apply. For the transaction item, select "**Code Inspection Fees.**"

If paying by check or money order, send payment along with this fee sheet to the State Fire Marshal, 246 S. 14th Street Lincoln, NE 68508.

**Certificate of Occupancy:** Upon receipt of payment of inspection fees and issuance of an Order of Approval, a Certificate of Occupancy will be sent to the email address provided on this form or as listed on the online payment request. If no e-mail address is provided, the certificate will be mailed to the facility address noted above.

**If fees have not been received within 30 days of approval, an order of disapproval may be issued. If an order of disapproval is issued, another inspection will be required and an additional fee will be assessed.**
