AM183 amends LB102 to allow for county facilities other than the county courthouse to be used for storage of surveyor records, makes harmonizing changes missed in the introduced bill, & eliminates ambiguous language. AM183 also resolves a possible unconstitutional delegation of legislative authority to Congress, instead charging the Nebraska GIS Council with authority relating to adoption of coordinate systems to be used by land surveyors in conducting their work.

LB102 makes changes to the Nebraska Plane Coordinate System Act & Land Surveyors Registration Act. Fees, duties, procedures, & penalties are changed or added. In addition, terms & definitions are changed or added.

Section 30 adds the ability for an individual to practice or offer to practice the profession of land surveying through an organization if the criteria for organizational practice established by the Board of Examiners for Land Surveyors are met & a certificate of authorization is issued by the Board to the organization. The fee established by the Board for the certificate of authorization is not to exceed \$300 per year with the renewal fee not to exceed \$200 per year.

EXPENDITURES/REVENUE:

The Board of Examiners for Land Surveyors states that the current fee for LLC registration is \$25. For FY2024-25, the Board estimates that they would add 100 companies registering with the fee remaining at \$25. This would add \$2,500 in revenue with operating expenses of \$2,500 offsetting this increase to revenue. For FY2025-26, the Board estimates some growth with an estimated 104 companies registering with the fee remaining at \$25. This would add \$2,600 in revenue with operating expenses of \$2,600 offsetting this increase to revenue.

Explanation of Estimate:

This fiscal note is based upon LB102, as amended.

Currently the fee for LLC registration is set at \$25. The current total of companies paying the fee annually is 24. This bill would add approximately 100 companies to this same requirement for equality amongst all businesses registered to provide surveying services in Nebraska. The additional revenue would directly offset the operating expenses for administration. I would assume that there would be potential growth in the land surveying profession which could increase the number of surveying companies registering to conduct business in Nebraska. History has shown there to be attrition that offsets new companies or new owners that purchase existing companies which keeps the total number of registered companies consistent each year.
