Monthly Medicaid Expansion Report LB814 (2023)

April 2025

LB814 (2023) § 90(9) & § 98

Medicaid Expansion Programs 249 (Administration) and 349 (Aid)

The Department of Health and Human Services, Division of Medicaid and Long-Term Care (MLTC) provides the following update regarding Medicaid Expansion for the calendar month of March 2025:

Details on enrollment for March 2025 are below:

Medicaid Expansion - Monthly Enrollment	
March 2025	67,581

For the latest program expenditures, please refer to the Expansion Aid table below:

Program 349 Expansion Aid SFY 24-25		
	Appropriations	Expenditures
General Funds	$78,293,639	$33,641,123
Federal Funds (estimated)	$1,007,241,148	$478,626,261
TOTAL:	$1,085,534,797	$512,267,384

In June 2021, MLTC announced that all Nebraskans eligible for Medicaid Expansion will receive equal coverage for benefits such as dental services, vision care, and over-the-counter medications, effective October 1, 2021. Nebraska also withdrew its application for the Section 1115 Heritage Health Adult demonstration program, which would have allowed Nebraskans with "Basic" benefits through Medicaid Expansion to qualify for "Prime" benefits by actively participating in their healthcare and community engagement activities.

Capitation rates are issued to the managed care plans to provide coverage for expansion beneficiaries and are set in a routine manner similar to all other Medicaid members.
