Summary of purpose and/or changes:

LB593 amends Section 66-1226 to adopt modernized gasoline specifications of ASTM D4814-24b, which is the Standard Specification for Automotive Spark Ignition Engine Fuel. The bill changes reference to the American Society for Testing and Materials publication to reflect the newer acronym name of the organization, referred to now as ASTM International and adopts its publication addressing the new minimum T50 standard for Classes D and E fuels.

Section by section:

Sec. 1 Adopts by reference name and publication changes to section 66-1226 and adopts standards as changed effective on the effective date of this bill.

Sec. 2 Repealer.

Tom Brandt, Chairperson
