LB 830 amends statute to remove language dictating monthly salary for several state agencies including:

- The Supreme Court
- Legislative Members
- The Liquor Control Commission
- The Board of Educational Lands and Funds
- The Public Service Commission
- The Department of Veteran's Affairs
- The Board of Parole
- The Governor
- The Attorney General
- The State Auditor
- The State Treasurer
- The Lieutenant Governor
- The Secretary of State

It also eliminates the requirement for the Director of Administrative Services to notify county clerks of amounts each county owes to the Department of Health and Human Services for county patients at state facilities on June 30 of each year.

Also, It allows federal facilities under the control of the Military Department of the State of Nebraska to receive funds under the Deferred Building Renewal Act.

This bill will have a fiscal impact. Based on the updated information regarding a mandatory change to bi-weekly payroll, 3 agencies have indicated they will need to hire an additional payroll team member. There is no basis to disagree with these estimates.

Explanation of Estimate:

If LB 830 is written to allow Agencies, Commissions, and Boards flexibility to process payroll, it would have no fiscal impact for the Board.

If the Board was required to process payroll on a bi-weekly basis, it would entail processing payroll an additional fourteen pay periods per year. LB 830 could require an estimated increase in staff time of 122.50 hours a year, an additional 8.75 hours each pay period to review, reconcile, process, and certify payroll.

**Explanation of Estimate:**

LB 830 provides flexibility around payroll processing, allowing all State agencies to be paid on the same schedule. Most payrolls are processed biweekly. This change provides more efficient payroll processing, while allowing all public servants to receive a biweekly paycheck. Any conversion of payrolls from monthly to biweekly will be completed with existing funding. Further, payrolls on the same schedule will result in time savings for setting up payroll processing in a new software.

LB 830 also eliminates the requirement, under Neb. Rev. Stat. § 83-380, for the Director of Administrative Services to notify county clerks of amounts each county owes to the Department of Health and Human Services for county patients at State facilities on June 30 of each year. In practice, counties receive monthly invoices from DHHS. This additional notice of June balances from DAS is redundant and cause confusion at the county level. There is marginal cost savings in the form of print, envelope and postage cost associated with the annual notice.

Finally, LB 830 allows DAS to utilize Building Renewal Allocation Funds (Tobacco Settlement Funds) for required maintenance to federal facilities under the control of the Military Department. There is no State Accounting budget impact to this change.

LB 830 does not have a fiscal impact on Administrative Services.

**Explanation of Estimate:**

LB 830 changes provisions regarding payment of salaries for certain constitutional offices from monthly to equal installments. The bill itself does not require the Commission to make changes to its payroll process. However, during the January 12, 2026 meeting related to the State’s project to transition all payroll processing to the Workday system, it was made clear that if LB 830 passes, the new system would be built to accommodate only biweekly payroll. As a result, all state agencies would be required to transition to biweekly payroll processing.

While we acknowledge that there may be some efficiencies gained in the new Workday system, for agencies currently operating under a monthly payroll system, we have not been shown that those efficiencies would offset the additional resources required to process payroll twice per month instead of once. The State has only recently held its kickoff meeting to announce the transition to the Workday payroll system, and we do not yet have sufficient information to make a full assessment.

The Commission does not currently have a full-time, dedicated payroll staff position; however, such a position would likely be necessary under a biweekly payroll structure. A more complete understanding of the Workday system will be required to make this determination. At this time, we are not requesting any increased appropriation for additional payroll staffing resources, but such a request may become necessary as the project progresses and additional information becomes available. Any such position would be allocated across all agency programs and funded through a combination of General Funds and Cash Funds.

**Explanation of Estimate:**

It appears that the intent of this legislation would be to shift our agency from a monthly payroll process to a biweekly payroll process. Our existing accounting staff do not have the time or resources available to accommodate the year-long transition from monthly to biweekly, nor to process payroll twice as often. As such, it is expected that an additional part time Accountant II would be needed with an estimated cost of \$49,000 per year ongoing for salaries, benefits, supplies, and technology costs.

<b>TOTAL FUNDS</b>	<b>115,000</b>		<b>100,000</b>	

**Explanation of Estimate:**

Section 1, related to Supreme Court justice salaries, is the only portion of LB830, as introduced, with a direct impact. Based on the current statutory salary amount, equal installments would not be possible without some means to adjust final payments.

Assuming the intent of LB830 is to remove a barrier to moving to one payroll period for all of State government, it is estimated that implementing a biweekly payroll would require additional staff time on a short-term basis to make the transition and one FTE on an on-going basis to work with a new timekeeping and payroll system. Estimated General Fund impact FY27: \$115,000, FY28: \$100,000.

Although LB830, as introduced, does not create the following impact, there will be an impact on Judicial Branch employees. Judicial Branch employees are currently paid on a monthly basis. A paycheck is received at the end of the pay period with no time gap. Changing to a biweekly pay period with a lag in time from the end of the pay period to when a paycheck is received, depending on how and when this change would be implemented, the short-term impact of that lag on Judicial Branch employees could be approximately \$4.8 million. Although salaries would not change, the estimate reflects the amount of wages that may not be available to employees until the next paycheck.
