No appropriation shall be made in excess of the recommendation contained in such budget, unless by three-fifths vote of the Legislature, and such excess so approved by three-fifths vote shall not be subject to veto by the Governor."

Section 81-302, of the Compiled Statutes of Nebraska for 1929 provides that "in case of a change of administration, the outgoing Governor shall deliver the budget to the legislature previous to the close of his term, and the incoming Governor shall have fifteen days in which to review the budget as prepared and delivered by his predecessor, and may send to the Legislature a supplementary budget message, making suggestions of any changes which he deems wise, and the constitutional requirement for a three-fifths vote to increase the items and recommendations contained in the budget shall relate to the supplemental message of the Governor."

In accordance with the foregoing constitutional and statutory provisions, I am transmitting herewith my budget recommendations to your honorable body, and my worthy successor will later submit to you his recommendations, in accordance with the provisions of the statute.

In the preparation of this budget I have kept in mind, as I have heretofore in the preparation of budgets, not only the needs of the various expending agencies, but also the ability of the taxpayers to pay for those needs. Six years ago my worthy predecessor called attention to the fact that, added to our other adversities, we had, in 1934, just preceding his message, the worst drought in the history of the state. I call your attention to the fact that we have had six

additional years of drought of quite general character since the condition referred to by Governor Bryan.

Farm income, our main and almost exclusive source of revenue, has declined by more than fifty per cent in the past ten years. Our population has declined and the valuation of property for assessment purposes has declined.

The ability of people to pay taxes is best measured by income and by assessed valuation of property. As a result of reassessment of real property in 1940, we have seen a decline of 6.1% in the valuation of all property. In the preparation of this budget, I have felt that total expenditures should be reduced in a percentage equal to the overall reduction in assessed valuation of all property for taxation purposes. In this we found many cases where reductions were not possible because of constitutional or statutory provisions. Accordingly, I made a reduction of 7% where possible in order to obtain a net reduction in the total of property tax appropriations in proportion to the reduction in the assessed valuation of the state.

BOARD OF CONTROL

During the past six years we have, by taking advantage of all available federal funds together with appropriated state funds, expended \$2,501,894.00 for improvements, mainly for mental hospital ward buildings. These expenditures were made not alone for the purpose of providing safe housing facilities but also to relieve the waiting list of those confined and cared for in counties at a cost greater than that for which they can be cared for by the state. Because of these increased facilities and the resultant increase in population, amounting to 1,348 additional patients by the beginning of the next biennium, an increase in maintenance of institutions under the Board of Control is recommended.

EDUCATION

In keeping with the policy of this budget, I recommend a 7% reduction in maintenance fund of the University and the four normal schools.

I eliminated an item of \$94,000.00 for aid to normal training in high schools as heretofore appropriated to the Superintendent of Public Instruction. I am advised by educational authorities that Nebraska is one of the few states which still make appropriations to high schools for normal training. My study convinces me that there is no reason for a continuation of this policy. Normal training is provided through four state normal schools and the state university.

I believe that this sum can be used more efficiently by allocating it to these institutions which are specifically provided with facilities for doing this kind of educational work. In this budget I have, accordingly, allocated the item of \$94,000.00, appropriated to the State Superintendent of Public Instruction in 1939, to the Four Normal Schools and the State University. Certain it is, too, that from a geographic standpoint, this arrangement will provide more equitable distribution of educational advantages.

I have not recommended any appropriation for payment of tuition for children living in Army posts and attending public schools. I do not consider this a state responsibility. I consider it a responsibility either of the federal government or of the local community in which the Army posts are located. I think that each community where a post is located derives in federal money, directly or indirectly, a substantial advantage. It is my belief that these advantages they accept should carry also the responsibility that goes with them.

DEPARTMENT OF ROADS AND IRRIGATION

This budget contemplates a continuation of the present sources of revenue at the same rates for financing our highway program. The increase in the budget for the Bureau of Irrigation is occasioned by the expansion of the irrigated area in Nebraska by the building of new projects requiring an additional office to be located at St. Paul for the administration of the irrigation laws.

GAME, FORESTATION AND PARKS COMMISSION

Six years ago I recommended to the legislature that the maintenance of state parks be financed entirely from property tax. This recommendation was adopted by the legislature of 1935. Since that time, according to members of the Game, Forestation and Parks Commission, there are increased needs and burdens which have accrued to the parks division of the service so that larger appropriations are being requested for maintenance. Then, too, there are requests for additional parks such as Fort Kearney and others. I can visualize this becoming a considerable financial burden to the state.

Two years ago the Legislature raised the license fees for hunting and fishing from \$1.00 to \$1.50. This provides additional revenue for this department and I think it is entirely appropriate to spend out of this increased fund what is necessary to maintain the parks

of the state. Therefore, in my budget I have omitted any item for maintenance of parks from property tax funds. This budget proposes that the maintenance of parks as well as all other activities under this commission be financed by proceeds from fishing and hunting

licenses. I recommend the repeal of Section 37-212, C. S. of N., 1929, as amended in 1935.

EXECUTIVE DEPARTMENT

Your Governor's mansion is an adequate and comfortable home for the Governor and his family, provided it is properly maintained and operated so that it does not prove to be too great a financial burden to the occupants.

Therefore, I make the following recommendations which only an outgoing Governor would feel free to make:

1. The responsibility of the physical maintenance of the mansion and grounds be given to the custodian of the capitol.
2. An increase from \$3,200 to \$5,740 for the maintenance of the Governor's mansion. There are two reasons for this increase: First, the unwarranted and excessive cut of almost one-third made for the Governor's mansion by the legislature two years ago; and second, I have estimated \$750 as the amount necessary to repaint the mansion, which is badly needed for its preservation.

I have recommended an increase from \$4,272.61 to \$5,000 in the maintenance of the Governor's office. My experience in the office convinces me that the increased responsibility of the office makes this increase necessary.

ATTORNEY GENERAL

My recommendations for this department represent a reduction of approximately \$23,000 below the appropriation made two years ago.

During the past two biennial periods, appropriations made for this department showed considerable increases over the previous bienniums, during a time when general reductions were being effected. For the general administration of the office, exclusive of the item for interstate irrigation litigation, I have recommended the same amount as for the 1935-1937 biennium, allowing for salary difference prior to Supreme Court decision.

CUSTODIANSHIP OF CAPITOL

An increase of \$8,332.33 has been recommended for the maintenance of the capitol. This increase is made necessary because of diminishing receipts from the old capitol building levy which in previous years have gone for maintenance of the capitol.

SOCIAL SECURITY

Attention is called to the fact that the law providing for the use of one cent of gasoline tax for state assistance will expire July 1, 1941. This budget is based upon the assumption that this law will be re-enacted and continued for the coming biennium. This budget contemplates collection of revenue for state assistance from the present, four sources: beer and liquor taxes, one cent of gasoline tax, the per capita tax of \$2.00 on those between the ages of 21 and 50 and estate taxes.

PLANNING BOARD

I recommended the discontinuance of this activity, and therefore recommend no appropriation.

LEGISLATIVE COUNCIL

I recommended the discontinuance of this activity, and therefore recommend no appropriation.

HISTORICAL SOCIETY

This budget shows an increase in the amount of \$8,550.00 recommended for the State Historical Society. This recommendation is made for the reason that I think the amounts previously recommended have been so small and the work of the Historical Society has so grown that in my judgment the amounts recommended are seriously needed to the end that a record of Nebraska's history be properly maintained for its educational value to present and future generations.

DEPARTMENT OF AGRICULTURE

Two years ago the legislature passed a bill providing for egg inspection. However, through error an appropriation was not made for its administration. This budget includes \$10,000.00 for making effective the law passed two years ago.

DEPARTMENT OF HEALTH

I have recommended an appropriation of \$5,000.00 for the installation of a master filing system, the necessity for which is due to present emergency condition in world affairs and defense activities in this nation which have created tremendous demands for copies of birth certificates.

PUBLICATION OF GOVERNORS' MESSAGES

It is my understanding that the University of Nebraska is sponsor-

ing a WPA project costing \$30,000 in federal funds for the purpose of making a permanent record of certain historical documents, including the publication of the addresses of the Governors of Nebraska. It appears that the good which can be realized from this project will largely be lost without the publication of these records and I have, therefore, recommended \$3,000.00 for the publication of the Governors' messages.

CONCLUSION

In general there are two classes of taxes—those derived from property and those derived from fees, licenses, etc.

I hope this legislature does not attempt to delude the public as did the last, which attempted to show by making the low estimates of appropriations from fees and other cash sources, that reductions in appropriations had been made where no such reductions existed. For example, I quote from a report of the Director of Research of the Legislative Council: "There was a reduction of \$4,419,840.13 in appropriations made by the 1939 Legislature under those made by the Legislature of 1937."

The real facts are that reductions in appropriations were made by the last Legislature in the amount of \$1,581,144.01.

The only way to give the taxpayer a reduction in taxes other than property taxes is by actually reducing the rate of assessment of the gas tax, the insurance tax, game and fish licenses, the auto registration, etc., rather than merely inserting a figure that in no way influences either collection or expenditure. Let us be honest with the public. The budget message I submit shows no reductions except in property tax. I have made a reduction in property tax recommendations in line with the reduction in assessed valuation for 1940. I hope this legislature can find ways to reduce my budget. To go beyond my budget means an increased burden on property, or in lieu thereof, a new form of taxation. May I say, frankly, I am opposed to either. I do believe that he who advocates a greater appropriation than that which I have submitted in effect advocates a new form of tax such as a state income tax or a general sales tax. I am opposed to both. I am likewise opposed to levying a heavier burden on property taxes.

The people of Nebraska are proud of the fact that we have during the past six years resolutely avoided the adoption of an income tax or a general sales tax, and have likewise succeeded in maintaining the state property tax levy at a consistently low rate.

In preparing this budget I have found it necessary to depart from my knowledge of needs and have been guided rather by my

knowledge of the reduced ability of the taxpayers to pay. In this I have used as a measuring stick the reduction in assessed valuation of property made in 1940.

As required by Section 81-313, Compiled Statutes of Nebraska, 1929, I am submitting bills for appropriations as recommended in this budget.

Respectfully submitted,

FAREWELL MESSAGE OF GOVERNOR R. L. COCHRAN

To the Members of the Fifty-Fifth Session
of the Legislature of Nebraska
January 9th, 1941

Mr. President and Members of the Legislature of Nebraska:

The Constitution of the State of Nebraska contemplates the submission of budget recommendations by the retiring Governor. This was submitted on January 8th, 1941. Under our Constitution the chief executive is also required to present to the Legislature a review of activities during the past two years, conditions at the present time and recommendations for the future. In view of the fact that the past two years have seen but a continuation of the conditions of the previous four years, my observations and recommendations are conditioned by this entire six year period.

There is every indication that my worthy successor will be confronted by much the same conditions that confronted me and he will face much the same problems that I faced.

He will be met by the same pressure groups and perhaps new ones, however improbable that may seem. I am sure, too, that veteran members of the Legislature are most familiar with the process of pressure and the new members will not long escape the close and cordial attention of those whose interests in their own eyes transcend all other considerations. Each group will favor economical government until it comes to the particular cause this group represents. May I predict, Mr. Governor, and members of the Legislature, that representatives of the educational field who ask you for greater appropriations will applaud any economies you may accomplish in reducing expenditures for other purposes. May I predict, too, that those seeking more for old age assistance will think nobly of your efforts in reducing public expenditures for highways and other agencies. It follows, too, that those who would speed up the highway building program will give you just credit for effecting economies in the assistance program and in other state activities.

The odd thing about all of this is that, for instance, those who most ardently advocate a reduction in highway expenditures will perhaps be the first asking for a highway project.

I am describing a condition and not a theory. I merely cite this to you to counsel you that as you consider the question of appropriations, which is the most important function of the Legislature, you will find, and must keep in mind, that everyone is for lower appropriations, lower taxes, except for his own pet activity. We cannot change human nature but we can be guided by it.

I have submitted a budget to this honorable legislative body in which I have attempted to appraise as a whole the needs of the people and the ability of our people to pay for those needs.

We must think in terms of majority instead of minority interest. We must think in terms not only of the state's needs but also in terms of our ability to supply those needs. We must think, too, of the decline in physical valuation of property for assessment purposes from three and one-third billion dollars in 1921 to one billion, nine hundred million dollars in 1940. We must think in terms of the reduction in farm income of more than 50% during the past ten years. We must think in terms of our dependence, to a considerable extent, during the past seven years on the federal government. A realistic view forces us to conclude that had we not had the benefits of this federal policy, our decline in population would have reached into the hundreds of thousands instead of a mere sixty-four thousand.

As your Governor for the past six years, I bring these things to your minds as a proper review of the past, as a possible guide to the future.

In making appropriations for state needs, whether it be for the state university, normal schools, charitable and penal institutions, state assistance, highways or any other purpose, the sound judgment of our people would have us determine appropriations on this basis of what we can afford. They would not have us fix our appropriations on the basis of the standards of other states, with vastly larger resources. Rather would our people have us make appropriations on the basis of Nebraska's resources.

Planning Board

This board was established by an act of the Legislature four years ago, one of its purposes being to study and report on the building needs for the next ten years. At that time we had in mind the construction and maintenance of additional buildings for education purposes and for charitable and penal institutions. I think this board has done a splendid job along the lines of reporting on these needs and of improving the maintenance of existing buildings. Since 1937, when this law was passed, we have had four additional years of drouth. Frankly, gentlemen, it is now a question in my mind not of whether we can build and maintain additional buildings but whether we can maintain existing buildings. If more buildings are constructed, it will be necessary to increase the property tax burden. The only alternative, in my judgment, would be to depart from our time-tested and may I say time-honored system of avoiding new forms of taxes and at the same time achieving reductions in the property tax burden. Has anything happened to warrant our departure from this policy? I do not think so. The farmers who cannot build new barns or even paint their old ones would have to pay for any new buildings and their future maintenance.

The report of the board on a building program will be valuable in assisting future legislatures to determine priority of construction in the event that our income and our physical valuation of property return to a level where the people can afford not only new construction but even more important to maintain additional buildings. Certain it is that the big problem of today is to maintain existing buildings. Let us not forget that during our more prosperous years we had fewer state buildings to maintain than now.

This board has rendered an outstanding service in their survey of Nebraska resources and also in their survey of the educational needs of Nebraska. This latter survey, covering higher education as well as secondary education was found necessary by the board so that they could intelligently report on a ten-year building program for institutions of higher learning. In arriving at their conclusions with reference to building needs, the board thought exclusively of needs. I am thinking, too, of ability to pay for those needs. I be-

lieve that the board has done its work well. I believe, too, that it should be discontinued as a state activity and recommend the repeal of the law creating the board.

Improvements at State Charitable and Penal Institutions

Because of the improvements made during the past six years not only has congestion been decreased in the state mental hospitals, but also the list of those held in counties awaiting admittance has been practically eliminated.

Six years ago when I became Governor, the total number of patients in state mental hospitals was 4,957. The total number today is 5,638. At the end of this biennium, within the next six months an additional capacity of 667 will be available. This means that during the six years of which I speak the capacity of our state mental hospitals has been increased by the grand total of 1,348 beds.

In addition this construction program has also made it possible to give proper facilities for 356 patients who previously had been sleeping on floors, in basement rooms and in other places not suitable for occupancy.

This has been not alone a humanitarian program. It has been a program of sound economics. It has been a program under which the taxpayers as a whole save by spending money. The savings result by providing facilities at state institutions at greatly reduced per patient cost under the cost of holding patients in the counties in private institutions, or county jails. Briefly, it is a building program which not alone improves living conditions and treatment of the patients but will reduce the total burden of the taxpayer as well, considering state and county taxes as a whole.

I do not wish to imply that all construction work necessary for the institutions under the State Board of Control has been accomplished. I merely wish to say that in my budget because of present economic conditions in the state I have limited my recommendations to actual emergencies such as provisions for sewage disposal at the Beatrice Feeble-Minded Institution and for a new boiler at the Norfolk institution.

In addition, attention is called to improved methods of treatment at state mental hospitals. Attention is also called to greatly improved purchasing methods with tests made of commodities purchased.

The population at the penal institutions has declined very considerably during recent years. The number of inmates at the men's reformatory is 194 at present, being less than one-half of the peak

number of 426. The population of the penitentiary is 150 less than the peak number of 981.

With the facilities now available of the Genoa state farm, it is suggested that study and consideration be given to elimination of the reformatory for men. It is estimated that \$50,000.00 per biennium could be saved by such an elimination.

Consolidation of the schools for the blind and the deaf is also a matter for consideration, perhaps to be accomplished sometime in the future.

Social Security

We are expending now \$8,000,000.00 per year for old age assistance, aid to dependent and crippled children and to the blind. The state revenue supporting these activities comes from beer and liquor taxes, the \$2.00 head tax for those between 21 and 50 years of age, from estate taxes and from one cent gasoline tax. The law applying one cent of gasoline tax to state assistance expires under its own provisions on July 1st, 1941. I recommend the re-enactment of this law.

The principle of applying the provisions of the Social Security law having to do with retirement pay has been a matter of public discussion as to its application to public employees. I think the principle is sound and that eventually the state should make provision for retirement pay of state employees. The facts are that one state agency, the Board of Regents of the University, has already announced such a program for their teaching staff. To me it is inequitable and unjust for the state to pick one class for retirement pay to the neglect of all others and particularly when the group so preferred represents the highest income brackets. I do not believe that any administrative agency should establish such a policy without authorization from the Legislature. I do believe that if and when such a policy is established by legislative action, first consideration should be given to the low-salaried employees rather than to those whose employment at higher salaries over a long period of years should make it possible for them to provide for security in old age.

State Treasury

The prevailing overdraft in the general fund of the state treasury started approximately three years ago and was caused by three things:

1. In 1937, the Legislature allocated revenue from beer and liquor taxes to the state assistance fund. Previously such revenue had been allocated to the general fund of the state

treasury. The amount so transferred by the Legislature in 1937 from the general fund to the state assistance fund was approximately \$1,300,000.00. The Legislature made no provision to replenish the general fund and consequently this large deficiency resulting from this transfer to the state assistance fund had to be absorbed out of property tax collections accruing to the general fund.

2. The Legislature of 1937 in the appropriation bill appropriated unexpended balances instead of allowing such unexpended balances to revert to the general fund, as had been the practice throughout the history of the state.
3. Due to greatly reduced crop production as a result of drouth during these years, tax delinquencies have increased materially.

Despite these handicaps in maintaining a general fund balance, collections have been made of taxes which have accrued to the general fund to the extent that for the fiscal year July 1st, 1939 to July 1st, 1940, the revenue which accrued to the state general fund totaled \$6,232,830.86, whereas the expenditures from this fund for the same period totaled \$5,697,152.67, the receipts for the year exceeding the expenditures by \$535,678.19. In the month of December, 1938, the net general fund overdraft reached \$1,042,737.26, its largest amount. By July 1st, 1940, the overdraft had been wiped out, with a small balance remaining. Owing to the usual slackening off of tax collections during the last six months of the year, the net general fund overdraft amounted to \$192,971.17 on December 31, 1940. However, it is expected that with receipts in January, 1941, the overdraft will entirely disappear.

Fortunately a provision of the statute enacted in 1915 authorizes the state treasurer to carry as cash items out of any balances in the treasury, state warrants drawn against the fund in which there are inadequate receipts to meet the same. Because of this provision and the fact that there were ample proceeds in other funds in the office of the state treasurer, it has not been necessary to register warrants or pay interest on any sums whatsoever because of the general fund overdraft.

Board of Educational Lands and Funds

As chairman of this board, I am happy to report that the affairs of this board are in the best condition that they have been for many years. This was made possible by elimination of the office of Commissioner of Public Lands and Buildings and as a result of the Board of Educational Lands and Funds actually assuming complete control of the matters entrusted to it.

On September 19, 1939, the board reorganized its staff and selected a chief clerk to be in charge of the entire office, under the direction of the board. At the same time the number of the staff was reduced. By this arrangement, there was at all times one person in charge of the office responsible to the board.

The efficiencies resulting from this become most abvious by the following:

First, in 1940, every acre of school land subject to lease was placed under lease for the first time in the history of the state.

Second, a number of small isolated tracts consisting of a few acres here and there, on which the state had received no rental for years, have been favorably disposed of.

Third, collections from July, 1939, to July, 1940, were increased in excess of \$125,000.00, over the previous year. The collections during the last half of 1940 amount to more than the collections for a full year back in the boom years of 1917 and 1918, even though there is considerably less land now due to the fact much has been deeded since that time.

Fourth, in the past two years the expense of operating the office has been greatly reduced.

The past several years have been difficult years in which to invest money. Due to the loose system which prevailed prior to the time when the board had complete control as a board, large delinquencies in lease rental and sales contract collections grew to approximately \$1,500,000.00. It is our opinion that at least one-third of this amount can be collected with proper legal procedure. It is further the opinion of the board that a full time field man should be retained by the board to supervise leasing of school lands, collection of rentals and permanent fund investments.

Taxation

In 1939, I called the attention of the Legislature to the fact that the intangible tax law passed in 1921 was in the light of experience almost a failure. I emphasized in my message to the Legislature the need for putting teeth into this law which would provide for its effective operation by placing tens of millions of dollars of intangible property that is now escaping taxation on the taxrolls. I give one example to show the extent to which intangible property escapes taxation.

During the past year, an estate filed for probate in a Nebraska county was valued at between \$900,000 and \$1,000,000. A large part of this estate was invested in securities. The amount returned

for taxation in 1940 was \$100.00 in cash and \$11,000.00 in stocks. The estate was filed for probate prior to December 1st of the year in which the assessment was made and as a result, the county assessor of that particular county checked the assets with the tax return and added approximately \$16,000.00 in cash to the original return and more than \$600,000.00 in stocks and bonds, the tax accruing to the county as a result of his action totaling nearly \$5,000.00. Here is a typical case where almost \$600,000 owned by one individual had been escaping taxation for years.

Two years ago I recommended, too, that a study be made to determine and enact a method to place personal property on the tax rolls on a basis of equality with real property to the end that property of all kinds be taxed on a more equitable basis.

The Legislature of 1939 failed to act on either one of these recommendations. The Legislative Council during the past nearly two years likewise failed to deal positively with either of these problems of such great importance to the taxpayers.

I again recommend to this body definite action along the same line as I recommended two years ago. This becomes even more of a problem now in the light of the reduction in the assessed valuation of real estate in Nebraska which took place in 1940 and the resultant greater difficulty in raising revenue for state and local purposes.

Highways

Our pay-as-we-go plan for highways permits us either to expand our program at any legislative session or to contract it. We have 3,887 miles of paved road, 3,718 miles of gravel road and 413 miles of unsurfaced roads in the state and federal highway system. Your attention is invited to the fact that of the total miles of paved roads amounting to 3,887 miles, 2,215 miles have been paved during the last six years. In other words, during the period I have served as your Governor, approximately 60% of our present paved roads have been constructed. All highways in Nebraska having a daily traffic of 500 or more vehicles have been paved except approximately 76 miles.

It should be of interest to you to know that during this biennium approximately two million dollars of federal aid for highways went unused because of inability to match these funds.

I recommend that we should discontinue one of two practices, either that of reducing state revenue for highways or that of taking over more county highways for state construction and maintenance.

The State Highway Department has made a survey showing highway use and distribution of revenue collected from highway users.

I recommend that you give this study careful consideration so that highway users shall pay for the use of the highways, builded and maintained by the state, in proportion to the use thereof.

Irrigation

I recommend to this legislative body that legislation be enacted to give every possible assistance to the development of irrigation and the conservation of our water resources. I will mention one act specifically which has to do with pump irrigation.

At the present moment it seems necessary that a state law be passed granting a similar measure of state control over pump irrigation as is now granted by law over stream irrigation.

This appears to be necessary as a condition precedent to receiving any federal financing on long term basis at low rates of interest for the development of pump irrigation.

Any needed legislation to advance what has been accomplished over a period of years with reference to the development of the Republican River Valley should have the earnest and considerate attention of this body. This includes the ratification of a compact which it is expected will be submitted by the commissioners of the three states, Colorado, Kansas and Nebraska, during your session.

Irrigation from streams in Nebraska has had an important part in the development of several sections of our state. The principal section is that area adjacent to the North Platte and Platte Rivers lying between the Wyoming-Nebraska line and Kearney. For the most part this area was developed under the protection of our state Constitution and state laws which set up the principle that first in use of water was first in right. In other words, the person or group who constructed an irrigation project in accordance with the laws of the state and made a continuous use of water each year established a prior right over those who came after with similar developments. The statutes of Nebraska clearly define the methods of administration by the state to guarantee that these rights not be violated.

Each session of the Legislature makes appropriations to the Department of Roads and Irrigation for the purpose of administering the irrigation laws of this state in accordance with priority of rights. For many years we have seen these rights in effect violated by court action. We have seen in effect water being taken away from a senior appropriator and given to a junior appropriator through injunction process—all in violation of our state Constitution and of our irrigation statutes.

I would call your attention to the fact that this invasion by the judiciary of administrative functions always comes during the irriga-

tion season at a time when the need for orderly administration is most pressing and important. The record of the past shows that these temporary injunctions have been granted in every case where asked for. The record of the past shows, too, that the cases are never brought to trial. As soon as the emergency is over, during which the water has been diverted from the rightful user to one not entitled to the water, the case is dismissed and court action is suspended. Next year a similar emergency arises and a similar practice is followed and the judiciary again lends itself to this tacit agreement for the defeat of the laws of this state.

Almost \$200,000 has been appropriated to protect the water appropriators of Nebraska as against the claims of Wyoming and Colorado. My budget recommendation is for the expenditure of \$30,000 during the next biennium to continue this defense of our citizens' rights. Yet, we find while fighting against the invasion of priority rights on the part of other states, we permit the invasion of those rights within our own state by judicial nullification of law by injunction.

This situation is intolerable and demands action at this session of the Legislature to correct it. I recommend that it be corrected by one of the two following methods:

First, the passage of legislation providing that no judge can issue an injunction except by requiring the posting of a bond in an amount sufficient to protect senior appropriators against damages that may be determined upon trial, and the amount of such bond to be computed upon the basis of a reasonable valuation of each acre foot of water diverted as a result of the injunction. It is further recommended that legislation be passed requiring a hearing on such injunction be held within twenty-four hours after application is made for such injunction.

Or, second—provision by legislation that only District Judges can hear such injunction cases, and that the boundaries of the judicial districts be so changed that all the irrigated territory affected by the watershed I have discussed will fall within the boundaries of but one judicial district.

I believe that my first recommendation is the better but certain it is that one of these two should be provided by legislation during this session.

Insurance Department

The past six years saw the culmination of the promotion stage of the insurance business in Nebraska. Like other business, there had to be a reaction to unsound promotion and a cleaning up of those companies which failed to achieve a stable financial basis. During

these six years, companies have been reinsured, have been dissolved by court order and mergers have been effected with minimum loss to policyholders as far as Nebraska companies are concerned. And, during this six year period no general remedial legislation of the insurance code was effected but at this time the experience gained has crystallized around a few changes that were to have been considered by the last Legislature, but failed to have their attention.

The general insurance situation as it affects Nebraska policyholders is one for which satisfaction may be expressed. Since 1913, changes in the insurance business have been such that some basic remedial legislation is necessary, particularly in the field of casualty underwriting which was of very small volume in 1913 when the insurance code was enacted, but which has since grown to a considerable volume.

While the public looks upon the department as having wide discretionary power and sometimes questions are raised why greater control has not been exercised by the state, the fact remains that the department's authority is limited by statute and court decisions. It is entirely possible that the general administration of insurance in Nebraska might be enhanced and carried on more efficiently with the passage of legislation under which the department would be given more authority and be less subject to restrictions now imposed upon the part of the courts.

Department of Banking

In the six years just ended, only eight going state banks have been placed in receivership, and in three of the last four of these, the Department of Banking has been able to pay all claims of depositors in full. The 1933 revision of the banking laws, providing for liquidation of failed banks by the department as statutory receiver, has resulted in substantial savings to the depositors in the banks that have failed since that time. Including the banks that closed in 1933 and 1934, the department has liquidated about one hundred banks under the 1933 law, and that law has satisfactorily met every test to which it has been subjected with reference to banks closed since it came into effect.

However, the record of all bank receiverships in this state during the past six years is not as desirable as it should be. In 1935 the retiring superintendent of the Banking Department remained the judicial receiver of about 250 state banks which had closed prior to the 1933 change in the law—some of them many, many years prior to 1933. Believing all depositors in failed banks were entitled to equal protection under the law, we tried every means at our disposal, including court action, to require the closing up of those old judicial receiverships, or their transfer to the Department of Banking, but the

Supreme Court, in the Hoskins State Bank case, held that the Legislature had not authorized the department to act as judicial receiver, and the judicial receiver above mentioned, I am advised, still maintains an office in Lincoln with a full-time attorney and at least two other full-time employees. For six years now the depositors of those banks in judicial receivership have been burdened with the expense of salaries of this receiver and his employees, bond premiums, rent, and other items that could have been saved entirely, or considerably reduced, had those old receiverships been turned over to the Banking Department. The depositors are unable to understand this situation and to realize that under the present laws the Governor and the Banking Department have no control over these old judicial receiverships, and they continually complain to us about the delay and expense and small returns to them. I recommend that the Legislature, at an early date, give consideration to the adoption of appropriate measures to end this confusion and waste.

Merit System Changes

During the past few years, merit system laws have been passed in connection with state-federal agencies—unemployment insurance, employment service and state assistance. In most respects these laws have been satisfactory. However, we have had experience that shows need for amendments to our law permitting the discharge of undesirable employees. My theory is that appointment on so-called merit without a continuous exhibition of such merit does not make for efficiency. I can see, too, the danger that in the future the tail may wag the dog. These changes should be made only after consultation with and in collaboration with the federal agencies with which these agencies work.

Legislative Council

I recommend the repeal of the law providing for the Legislative Council. The records disclose that it has not undertaken a study of or stated a position on subjects worthy of its attention such as amendments to the intangible tax law, or amendments needed to improve the method of making assessments of personal property, or of the educational survey submitted by the State Planning Board.

The record likewise discloses that where recommendations were made by the Legislative Council for legislation to the 1939 session, the Legislature paid little or no attention to such recommendations.

I cannot see in its action thus far anything to justify its continuance.

Maintenance of Constitutional Government

Section 6 of Article IV of the Constitution of Nebraska provides

that: "The supreme executive power shall be vested in the Governor, who shall take care that the laws be faithfully executed and the affairs of the state efficiently and economically administered."

This provision is entirely consistent with the sound and fundamental concept of division of power between the executive, legislative and judicial branches which characterizes our democratic form of government. It is vital that this separation of powers and functions be maintained. At least, it is necessary that, if any changes are made, they be made by the people with full knowledge as the provisions for amending our Constitution require, and not indirectly through legislative action.

I call your attention to the fact that there is a tendency to invade the power and functions of the chief executive by legislative enactments setting up administrative agencies over which the chief executive has limited authority to discharge the responsibility given him by the Constitution. There has been manifested, also, a tendency on the part of the Legislature to create legislative agencies with functions purely administrative in character.

This is clearly in conflict with the Constitution and cannot but have harmful consequences. Our form of government requires that responsibility for the conduct of public affairs be clearly fixed and properly balanced between the three branches of government in order that public officials be held properly accountable. Responsibility contemplates the necessary authority for the discharge of responsibility.

Constitutional Amendments

I recommend the submission by this body of a constitutional amendment providing for appointment by the Governor of the attorney general. Certain it is that the Governor being charged with the responsibility that he is under our Constitution and our statutes is entitled to a legal advisor of his own choosing.

I also recommend the submission of a constitutional amendment providing for appointment by the Governor of members of the State Railway Commission. The work of this department is largely of a technical nature and can be best administered by those with the proper background of training and experience. Selection by appointment would provide greater assurance of obtaining properly qualified members.

In both of these cases I think that provision should be made for confirmation of the Governor's appointments by the Legislature.

Conclusion

In this message it has been my purpose to give you whatever

benefit there can be derived from my observations and conclusions based upon my three terms as your Governor. Because of this experience, during a period of stress unequalled in our state's history, no one recognizes more than I the seriousness of the problems which confront you, as they have confronted us during the past six years.

I am happy to see among you many with whom it has been my privilege to work in previous sessions. In leaving the office of Governor, may I express to you my appreciation for your cooperation that has prevailed and the courtesies you have extended me.

Let me say too, that I leave the office of Governor with the happy feeling that my successor is worthy of the trust, confidence and responsibility reposed in him. I have known him in an official way when he was a member of the State Senate and I occupied an administrative position. Our associations at that time, my close association with him in many other ways, and my knowledge of his talents all impress me with the thought that he will give a full measure of devotion to the duties of the office of Governor. I bespeak for him your cooperation and support in the interest of all Nebraska.

Respectfully submitted,

(Signed) R. L. Cochran,
Governor.

The Speaker then presented Dwight Griswold, Governor of Nebraska, who delivered the following:

INAUGURAL MESSAGE OF DWIGHT GRISWOLD

Mr. President, and Members of the Senate:

Before commencing my address, I wish to pay my respect to my distinguished predecessor, Governor R. L. Cochran, and also to his very fine wife. It so happens that Mrs. Griswold and I have been friends of Roy and Aileen for many years, not just acquaintances, but really close personal friends. In the course of vacation trips we took together more than ten years ago, there was often much discussion, half humorous and half serious, of the time when we would each be Governor. It therefore is rather unusual that today's ceremony should be taking place. Mrs. Griswold desires that I especially pay her respects to Mrs. Cochran for the very gracious manner in

which she helped to make easy, our move into the executive mansion; and to you, Roy, I wish to say that you should look back with a great deal of pride to the work you have done in this state **and for this state**, not only during the six years when you served as Governor, but also during the twelve preceding when you were State Engineer. You certainly cannot go into any community in Nebraska without seeing some constructive work in which you have had a part, and I know you will look back with great pleasure and pride to your period of service.

In assuming the office of governor I am indeed conscious of the heavy responsibility which rests upon me. I realize that the acts of my administration will affect the welfare of people for years to come, and that thought should **and does** make me think seriously. I know that I will have the co-operation and help of you who are members of the legislature; I trust that I may receive the further support of the people of Nebraska, and I pray that I will have Divine Guidance to assist me.

Our constitution and long standing custom require that at this time I should express publicly to the members of the Legislature, and to the people of the state, my plans for the next two years, and I appreciate the opportunity, at this early date, to express to you some of my ideas. I say to you candidly, however, that I have a very light legislative program to present. In my campaign I did not suggest a "cure-all" which would solve all the problems that are facing the people of Nebraska. In fact, I do not believe that many of our problems can be solved by legislation. I proposed during that campaign, and I propose now, to use the power and prestige of my office to give to the people of this state an honest, decent, and economical administration. That is the big responsibility that rests upon me.

Capable Department Heads

As a first step in establishing that kind of an administration, I have requested a number of outstanding and capable people to take positions under me, and I do indeed feel fortunate in having been able to draft into the public service those who are accepting these responsibilities. Many of them are making real sacrifices in order to assist in making the state government of Nebraska, one of which all its citizens can be proud.

I am going to depend upon these people greatly for advice and assistance, and so far as is possible, each department head will actually be the chief executive of that particular department. It will be his special responsibility, and mine will be only of a general nature. The program which I have set up for my administration is one of action on the part of these executive departments, rather than one

which calls for much additional legislation. The big job that needs to be done in Nebraska is to select the state's employees on the basis of ability and then have them do a full day's work for the pay which they receive. This does not require any legislation.

Light Legislative Program

I said that I have a very light legislative program to present to you. I feel that we who are now responsible for legislation in Nebraska may well receive credit for what we do not do, as much as for the things that we do. In other words, one of our big problems in this session of the legislature may be to **keep off** the statute books a number of acts which would be a detriment to the people of Nebraska.

We should enact just as little legislation as possible. The Nebraska statutes are already encumbered with laws that are obsolete and unenforceable. It is not just a matter of making needless changes or cluttering up the statute books. I believe that the habit of passing new laws has an even worse effect, in that it causes the people to feel that they have access to a never ending source of relief by getting the legislature to pass some new act. This habit of placing reliance upon legislation destroys the initiative of the individual and develops a citizenship which is entirely too dependent upon the state. In case of doubt, my suggestion is **"Vote No."**

I urge you to make this legislative session a short one and I think if that is done, you will receive more credit from the people than for anything else that you may do. In furtherance of that desire, I suggest that you introduce very few bills. Many times some change in the statutes, which you desire, can be brought up as an amendment to a bill which has already been introduced. By doing it that way, you will not clog the committees and you will speed legislative action. In case of doubt, my second suggestion is **"don't introduce it."**

Under our constitution, the governor must approve or veto all acts of the legislature. You may, therefore, wish to know my attitude in advance. In order to expedite your work and help in making the legislative session short, I will therefore, at this time, express my views on a few of the major problems before the people of Nebraska.

Serious Tax Problem.

It will be necessary that you enact an appropriation bill, and in this I know you will be guided by the desires of the people of Nebraska, who have gone through drouths and depressions and who are simply not able to have additional burdens added to their tax load. There are many things that we as individuals would like to do—if we could afford them. There are many things which we as a state would like to do—if we could afford them.

Nebraska is faced with a serious problem so far as taxation is concerned. Ten years ago the assessed valuation of this state was approximately three billion dollars. Today it is about two billion dollars. During that ten year period, however, the demands upon our state government have increased tremendously. It is only logical that these demands should increase because the people themselves are more in need of help than they were. We are, therefore, caught in a vise. On one side we see our taxable wealth decreasing; on the other side we see the demands of government increasing.

Economy is a term with a twofold meaning. In the realm of government, we often find there are services which can be discontinued and the expense thereby saved, or we find that the expense of carrying on some certain governmental operation can be reduced. That kind of economy results in a direct saving to the taxpayer. But there is also another meaning of the word which involves the spending of certain governmental funds in order to bring about a greater saving to the state or to the citizens in some other manner. We must think of economy in both of these lights, and it is our duty to decide what activities our state government should engage in and how much money they should be allotted. We cannot, of course, cut expenditures indefinitely.

I feel that the recent election was a referendum on a policy of increased spending and new taxes for Nebraska. My opponent in the recent campaign was candid and honest in saying that he felt Nebraska should spend more money and find some way of raising it through taxation. My stand was in opposition to that policy and the result I believe should be considered as a referendum on that issue.

I know that there will be requests to this legislature that some new form or several new forms of taxation be adopted in this state. There will be proof that the present system of taxation is unfair.

Most pleas will be that the new tax money will be a replacement of that which is now being levied. I think, however, that each one of us who has recently been a candidate for public office knows very well that the real pressure today is from those who want additional funds to be spent out of the public treasury and my honest judgment is that if new forms of taxation are adopted in Nebraska during the next few years, the money will be spent as an addition to the present appropriations and it will not be used as a replacement of present taxes. Other nearby states have adopted new tax forms for replacement purposes, and in each of them they find today that it has become an additional tax.

Until a limit is definitely reached in regard to public expenditures, I feel we should continue our present tax system. I realize that for each one of us in public office it looks very attractive to

adopt some sort of painless tax and promise relief to those who have to pay taxes which are really painful. My own personal popularity might be enhanced by this kind of a change. However, my judgment is that painful taxation is the most effective way of holding down the expenditure of public funds. There is probably more waste in those departments of our state government financed by painless taxes than there is in those departments where the money is raised through the property tax levy.

The amount of property tax money collected by the state government is a very small percentage of the whole, and if any appreciable reduction is to be made in the amount of property tax, it must come about through a reduction in the amount paid for the support of local government. I feel that every governing unit, large or small, should operate under a budget plan and there should be proper publicity regarding all expenditures. It might be possible also to combine some school districts or counties. It will be up to the local people to decide whether or not they approve of this, but the law should permit it to be tried, when efficiency and economy will result.

Boards and Commissions

Legislation will be presented to establish a group of commissions and boards to take over the executive responsibility of several of the major departments of our state government. There is talk of a highway commission to operate the state highway department, an irrigation commission to have charge of irrigation, a health board to take over public health activities, and a livestock sanitary board to take over that activity. There may be others as well.

I suppose this should make no difference to me as an individual because it is likely that the bills will provide that the governor appoint the members of these various commissions. My opinion is, however, that the commission plan for handling executive responsibilities is not the best. It is often said that if a commission with overlapping terms is appointed, it will remove "politics." I doubt the truth of that assertion. My experience has been that you can have as much "politics" on the inside of a commission as you can have when some activity is under the direct control of the governor.

As long as the executive departments of our state government are under the direct control of the governor, the people know exactly who is responsible and they can make a change in that control at any biennial election. Let a commission have charge and the people do not know who to blame or who to credit. Under commission control, there is usually some "power behind," but the public does not know who or what it is. Taking a governmental activity "out of politics" often means simply removing the control from the public view.

When we consider the administration of state government through commissions, it might be well to read the recommendation of former Gov. Neville in his outgoing message in 1919. It will be remembered that up to the time of Gov. Neville, practically all of the executive functions were handled through various state commissions, and after his experience of two years, Gov. Neville said, "The board system is not only expensive and inefficient, but in addition divides authority and responsibility. It is at present impossible (said Gov. Neville in 1919) to handle the state's affairs in the efficient manner that would be demanded by any businessman in the conduct of his private transactions, and the thing most needed is a centralized responsibility for the discharge of the trust assumed by men who are elected by the people to serve as public officers."

I realize that the argument between commission control and direct control is two-sided and my suggestion today is that you leave matters alone for the present, and I assure you that I will at some later date, make recommendations as to how our state government can best be administered. But please do not change a system merely because you may not approve of the manner in which it has been administered.

I plan to consolidate the highway patrol and the state sheriff's office. The statutes themselves provide for this, and I believe it should be carried out. The highway patrol has, on the whole, done very effective work and I believe they should be so organized that they can be more effectively used to prevent or solve crimes or assist in catching major criminals whenever emergencies exist. We do not, of course, want them to do work that local police officers should do, but a co-operative system should be established so that all police officers, local and state, will be working together.

The Merit System

I am a believer in a merit system for the selection of state employees. In fact, shortly after I was elected, I talked with the director of the present merit system in Nebraska and asked if he could give examinations to those wishing stenographic, and other subordinate positions with the state government. It seems that no such examination can be given under our present law.

I feel that those taking positions in governmental work should be chosen because they have ability to do the job. However, I am positive that a system is wrong which freezes people in positions so that they cannot be discharged or disciplined by their superiors. Some system of punishment and reward must be in effect if good work is to be accomplished and if executives are to have any authority. It is very proper to provide tests for applicants. It is also proper to provide, for instance, that not more than 60 percent, or some such

percentage, of those in subordinate positions shall belong to one political party, but no system can be called a merit system which assures retention in a job regardless of the quality of work done. I believe it also violates the provisions of Sec. 1, Art. IV of our state constitution, which gives the appointing power full authority to discharge.

State Guards

I am not prepared, as yet, to recommend what should be done in regard to organizing state guards. I understand that this is being urged by the national administration, so that they can take the place of the national guard which is now in active service. At an early opportunity, I will go over this matter with the adjutant general of this state and with the federal authorities. I have no fear of sabotage on any large scale in Nebraska, as I am confident of the loyalty of our citizens. I do not anticipate any trouble which will cause us to need a state guard. However, we may have catastrophes of one kind or another, and it might be well to have some organization which can function. I will report to you later my view in this connection.

Old Age Pensions

Under modern industrial conditions, old age pensions are necessary. Men and women of advanced ages are simply unable to get jobs like they formerly could. I feel that the old age pension laws must be established on a more permanent basis, and in some cases, the pension payment should be increased. Better administration will help but the state of Nebraska has been hard hit by drouth and depression and we are simply unable to raise more money for the purpose of paying increased pensions. We do not have access to the large incomes prevailing in many states.

If people are dependent upon individual states, it will mean that the size of the pension will go up and down in different administrations and be dependent upon the prevailing economic conditions in that state. This does not tend toward a feeling of security and is not the result which is desired. I trust that congress will give a great deal of attention to this particular problem. I recommend that they adjust some of their other social security programs and give their major attention to the solution of the old age problem. People grow old and unable to work, through no fault of their own.

Develop Industry

Everything possible should be done to develop the growth of industry in Nebraska, both what we today call "defense industry" and what by comparison may be called "peace industry." We have always

been known as an agricultural state and in comparison with others, we deserve that reputation. However, Nebraska industry is tremendously important and those who travel over the state are often surprised to find in some of the smaller communities a factory or industry which is furnishing much employment and many of them are virtually keeping these agricultural communities alive. Industry should be decentralized and more of it should be developed in the West, and even in the small towns and agricultural communities. A very fine type of labor will there be found and in many cases an industry can be developed which furnishes employment to men in the winter, while during the summer months, they can do agricultural work.

In Nebraska, our major industries are those which process the raw materials which are produced by agriculture, and it is likely that our future development will be largely along that same line. Not many years ago, it required 75 percent of our population to feed the nation; today, we are rapidly approaching the time when 25 percent can feed us. That fact presents a real challenge to us and to the entire agricultural west.

Farm crops, however, are being discovered, which when properly processed, are needed in industry. Agricultural chemistry is finding new ways of using the things which the Nebraska farmer can raise. Much research along this line has already been done, but much more is needed. Several of our state agencies are qualified and equipped to make further study along this line, and it should be carried out in order that our progress may be accelerated.

Agriculture

Nebraska, however, will continue to be primarily an agricultural state and farm prosperity is our great need today. The income from the farm maintains both the farm and urban population. Agriculture merits the most sympathetic consideration and the most intelligent encouragement.

Nebraska has the rich soil that is required for the production of bountiful crops, but the experience of older countries teaches us that we must conserve that soil. Crop diversification should be further extended and we need more livestock upon the farms of eastern and southern Nebraska.

We have also learned in recent years that we must have water to mix with our soil if we are to have prosperity. Drouth is not a new experience to this state, but its severity and its prolongation have added to our concern. We should conserve the available waste and flood water in the streams, and we should also encourage pump irrigation wherever it is feasible. If legislation is necessary to accomplish this purpose, I recommend that it be enacted.

River irrigation in recent years has developed into a fight between various sections for the limited supply of water that has been available. Perhaps more rainfall and more storage water is the only adequate solution. Established rights must be recognized and there should be a fair and honest administration of the law. We must all recognize the fact that in dry years, it will be impossible to please all.

Electric power is a by-product of water conservation, with the revenue derived from its sale aiding in defraying the expense of irrigation. Cheap electricity is a real blessing and we trust that here in Nebraska, if there has been any unnecessary cost in the construction or purchase of our public power plants, the excess will be charged off by the federal authorities, so that the people of this state will not be called upon to pay excessive charges.

In recent years there has been an increase in rural electrification which merits every encouragement. Electrification of our farms and ranches makes life more worthwhile. It is indispensable to the welfare of the women as it lifts the drudgery and grind from their shoulders. Rural electrification, if the rates are reasonable, is also an economic benefit to the farm, stopping much of the fire hazard and being useful in many ways.

Relief Administration

I wish very much that the federal government would turn over to the state of Nebraska the sum of money which they are now spending for assistance and relief in all of their different activities and then permit the state of Nebraska to handle this problem as it sees fit. I am convinced that the best solution of the so-called relief problem is to have it handled through local agencies. It would certainly cost much less to administer and while there might be mistakes and some inefficiency, yet I do believe they would be tremendously reduced as compared to the present situation.

I have lived among people who need relief, and who now receive relief, and I realize that a continuation of some such program is absolutely essential. But we need one program — not two dozen programs. Today we have two entirely separate old age pension laws, we have unemployment compensation, an employment service; we have WPA, PWA, NYA, CCC camps, FSA grants, rehabilitation loans, farm parity payments, aid for dependent children, mothers' pensions, aid for the blind, surplus commodity distribution and direct relief—all agencies for getting financial assistance from some branch of government to the people who need it.

My own opinion is that relief should be handled by some local agency in each county, with the people of that county paying part of the cost, and with the people also being fully advised as to just

what is being done and how much money is being spent. That would bring some control to the local unit of government and would be the best possible check upon the efficiency of the administration. Certainly, the people of Nebraska, as I know them, do not want to see any neighbor suffer and if they have a share in the responsibility, they will see that people are properly cared for. At the same time, relief would be administered much more efficiently and much more economically than it is at present. I believe in having intelligent personnel handle this work and the waste and over-lapping should be stopped. We in Nebraska will be glad to be an experiment station and take over the administration of all relief work. Personally, I am confident we could do more for the recipients and turn back to the federal treasury a very fine balance.

Change in State Government

A quarter of a century ago the state government of Nebraska was a rather simple affair. We raised a small amount of money and we spent it largely to take care of our educational institutions and the institutions in which we care for our unfortunates. Today our state government is far different. We are spending millions of dollars each year for the building of highways, for benefits to aged and dependent citizens, and for a wide variety of other new purposes.

There is another change in our state government. A large percentage of the money which goes through our state Treasury today is money which comes to us from the federal government. It is really our money, furnished by the people through the payment of federal taxes or through the purchase of bonds. National authorities control its expenditure, however. A large number of the employees in this State Capitol are really federal employees. In other words, the state of Nebraska is no longer a purely state government—it is now a federal agency on a tremendously large scale. It is a change, the result of which in the long run, I am inclined to fear.

If our form of government is to continue to exist in this nation, I believe it necessary that it be continued approximately in its present form. One of the most important differences between our government and others is in the division of authority between the central or federal government and the local or state governments. I feel that this division of authority should continue, and that it should exist in fact as well as in form. There has been entirely too much tendency on the part of the federal government in recent years (and for more than eight years too) to centralize authority in Washington. We see it taking place right here in our own state capitol, with the federal government telling us how we shall operate our assistance program, our highway program, our health and other programs.

Nebraska, as a state, has certain rights which the federal government should respect and I expect to maintain to the utmost of my ability the integrity of those rights.

Government on Trial

Many today feel that our system of government is soon to go on trial. In the national field, the relative importance of government has been so increased and, by this same token, the stature of the individual has been so decreased that it is doubtful if we can ever recover the former balance between them. Candidly, I fear the result of this change, but I hope that political leaders will be developed of such breadth and with such outstanding wisdom that they will lead us aright.

Some feel also that state government is not as important as it once was, and by comparison with our federal government, this is true. We may find, however, in the coming years that the people themselves may once again take charge of their government, and since the people are much closer to their state activities than they are to the federal, they may use the state as a guide. It is up to us as citizens of Nebraska to keep our state government upon a sound and solvent basis and the day may come when we will be a beacon light, shining clear in a dark sky and leading the entire nation to sanity and solvency. Certainly this kind of leadership must come from the middle west.

The Legislature

The people of Nebraska are to be congratulated because of the quality of this legislature. I say this, not as idle flattery, but from the background of my political experience, I feel that I know whereof I speak. We may disagree at times, yet I assure you that I will always respect your views, and I trust that you will have reason to always respect mine. Real and respectful friends can afford to disagree occasionally.

I am sure that a spirit of co-operation on both sides will prevail. Your responsibilities and mine come from the same source, the people. Our duty is to the same group, the people. There should be a division of powers between the legislative and Executive branches of government, but when intelligent co-operation prevails, much better results can be accomplished. I will advise you further throughout the session in regard to specific matters, and at all times, I will want to have the benefit of your counsel and advice. This message today has stated my views, only in order to assist in speeding up your legislative program.

In closing, I wish to pay tribute to the hard working, thrifty,

and intelligent people of Nebraska. In 1942 this state will celebrate the Diamond Anniversary of its statehood. In that 75 years there has been built here a splendid civilization through hard labor, thrift, far-sighted vision, and careful planning. The people of Nebraska have been ambitious and energetic and they have always been willing to make sacrifices for the benefit of their fellow citizens and especially for the benefit of future generations. Throughout the decade just closed, we of Nebraska have been called upon to endure many hardships which have tested our qualities of courage and faith. We have completed that ten year trial with a stronger character than we had when we entered it.

We oftentimes protest because of the adversities which come to us. This is true of individuals, of communities, states, and nations. All of us today would enjoy better economic conditions and easier living, and yet we cannot read history or biography without coming to the conclusion that it is hardships which develop real character and real manhood, and it is easy living which develops the softness that can ruin the individual or the nation.

One reason that the middlewest has furnished so much leadership to this nation is that it is close to the pioneering age and in this section of the country there has thus been developed through adversity, the type of citizenship and leadership which the entire nation needs, both in its economic life and in its political life.

We in Nebraska still believe that there are no shortcuts to prosperity or recovery. We believe that a surplus of food or of public funds is a distinct asset. We believe that debts are a liability which in fairness should not be passed down to future generations. We believe that we should pay as we go.

But we do need encouragement and plans for the future. Certainly in this state we are looking forward to better times. The bitter years and adversities through which we have gone have developed us and prepared us for better days yet to come. Through intelligent planning we are going to make Nebraska a better state and a more prosperous state than it has ever been. With the lessons of the past before us, we are going to produce finer and more intelligent young men and women. We are going to do our part in making the United States a greater nation.

RESOLUTIONS

LEGISLATIVE RESOLUTION NO.2. Legislative Policy

Introduced by Daniel Garber

WHEREAS, expansion of government in the State of Nebraska has been a highly controversial subject under normal conditions for decades, and now after eleven successive years of economic depression and disaster combined with habitual drought and crop failure, expansion of government is burdensome extravagance not only upon the taxpayers but also upon the housing capacity of this colossal state house, and

WHEREAS, reports of the Research Department of the Legislative Council disclose that more than 45% of the total gross annual agricultural income in Nebraska over a period of years is absorbed

by taxes, and the general welfare of Nebraska is jeopardized by these tragic conditions, NOW THEREFORE,

BE IT RESOLVED, by the Nebraska Legislature in the 55th session here and now convened that this Legislature is unalterably opposed to creation and establishment by law of new commissions, new bureaus, new boards, new offices or new agencies of government, and hereby declares and adopts this position as a legislative policy.

MESSAGE FROM GOVERNOR

Inauguration Ceremonies at Washington

January 14, 1941.

To the President and Members of the Legislature

Gentlemen:

The committee in charge of the presidential inauguration to

be held on January 20 has invited me to be present to represent the State of Nebraska. Due to the press of official business it will be impossible for me to attend and I have so informed them.

They report that as I am unable to attend, they will be pleased to have the Lieutenant Governor represent this state but that no one else can be substituted. I believe that it might be well for you to make provision for at least part of his traveling expenses so that Nebraska will be represented "among those present." I felt that this information should be submitted to you.

Respectfully submitted,
(Signed) Dwight Griswold
Governor

At 11:00 a. m. the Chair declared the Legislature at ease.

At 11:30 a. m. the Speaker called the Legislature to order.

SELECT COMMITTEE REPORTS

Inauguration Ceremonies at Washington

Mr. President: Your committee appointed to interview the Governor to ascertain his wishes and recommendations concerning Nebraska's representation at the inauguration ceremonies at Washington, begs to report as follows:

That the Governor on account of his working on his budget and other duties requiring his presence at Lincoln, can not attend the Washington ceremonies.

That either the Governor or the next succeeding state officer,—in this state the Lieutenant Governor, can be representative of the state.

Governor Griswold recommended that it would perhaps be well for Lieutenant Governor Johnson to attend the inauguration as Nebraska's representative and suggested that it might be well for the Legislature to make provisions for at least part of his traveling expenses.

(Signed) Wm. J. Norman, Chairman
Geo. T. Sullivan
Harry E. Gantz

MOTION—To Accept Report

Mr. President: I move this report be accepted. Norman

The motion prevailed.

Committee on Election Contest

Mr. President: Your Special Committee on the Election Contest between Peter P. Gutoski, Contestant, and George W. Bevins, Incumbent, for membership herein from the Eighth Legislative District, submits the following report:

Your Committee has held numerous hearings at which both Contestant and Incumbent were fully heard. By the official count of votes submitted, the Incumbent received 7752 votes, and the Contestant received 7750 votes. There was no charge of fraud or dishonesty by either party.

Your Committee has received valuable assistance and cooperation from the office of the Attorney General. Your Committee was advised that this Legislature has the authority to procure and recount the official ballots.

This Legislature has arbitrary power to declare the election of either the Contestant or the Incumbent, but it is the carefully considered opinion of your Committee that this power should not be arbitrarily exercised; that in justice, not only to Contestant and incumbent, but to the electors of the Eighth Legislative District, the ballots should be recounted in the presence of Contestant and Incumbent, or their duly chosen representatives.

Your Committee recognizes that in the usual count of election ballots honest errors occur; that in this case such errors may readily change the result of the election.

Your Committee therefore recommends that this Legislature order a recount of the ballots cast for this office.

(Signed) Mekota, Chairman

MOTION—To Adopt Report

Mr. President: I move that the report of the Special Legislative Election Committee be adopted. (Signed) Mekota

The motion prevailed.

MOTION—To Refer to Same Committee

Mr. President: I move that the matter of the election contest for the Eighth Legislative District be referred again to the special committee, with authority to take such further action and such further proceedings as may be necessary to determine the contest.

(Signed) Crosby

The motion prevailed.

At his request Mr. Peterson was excused from the session on Thursday, January 16, 1941.

Rules

Wednesday, January 22, 1941.

Mr. President: Your Committee on Rules, to whom was referred the motion of Senator Mischke, adopted January 20, 1941, pertaining to the creation of a calendar committee, recommends that standing committees undertake to select for early consideration by the Legislature bills of general public interest and avoid reporting on bills of special or limited interest until the bills of general public interest are disposed of.

Your Committee recommends against the creation of a calendar committee until and unless it appears that the general file has become so congested as to interfere with effective legislation. Such congestion can and should be avoided by the care exercised by standing committees in their selection of bills for consideration by the Legislature.

(Signed) Mekota, Chairman

MOTION—To Accept Report

REPORT—Committee to Wait on Governor

The committee returned with the Governor, who delivered the following:

BUDGET MESSAGE OF DWIGHT GRISWOLD, GOVERNOR

**Delivered to the Fifty-fifth Session of the Legislature
of Nebraska, January 28, 1941**

Mr. President, Mr. Speaker, and Members of the Senate:

In my Inaugural Message presented on January 9, I expressed my confidence that in the enactment of an Appropriation Bill you would be "guided by the desires of the people of Nebraska who have gone through drouths and depressions and who are simply not able to have additional burdens added to their tax load."

Economy is certainly necessary and both the Legislative and the Executive Departments of our Government would be entitled to severe criticism if they did not follow that policy. Even though we may believe in economy, however, it is, of course, necessary that certain funds be appropriated, and I might again quote from my earlier message when I said, "It is our duty to decide what activities our State Government should engage in and how much money they should be allotted. We cannot, of course, cut expenditures indefinitely."

As my expression of that policy, I am now presenting to your honorable body my recommendations as to the budget which you should adopt for the coming biennium. The special comments which follow are made only in regard to a few items in this budget which are materially changed from the sums recommended in the budget submitted on January 8, by the outgoing Governor, R. L. Cochran.

Legislature

It is recommended in this budget that the legislature receive the appropriations that it has requested. I am rather doubtful if the Legislative Council accomplishes enough to warrant the ex-

pense. I am also doubtful if it is necessary for the Clerk of the Legislature to be on duty for all of the twenty-four months in the biennium, but you should be better advised upon these matters than I.

Superintendent of Public Instruction

I am recommending that the \$94,000.00 for "aid to Normal Training" be replaced in the budget, it being the same amount that was appropriated two years ago. You may further investigate and wish to decrease this amount. However, in many of the smaller high schools this aid is very necessary if they are to continue this type of instruction, for which there is yet a great demand.

Department of Public Health

There is being recommended an increased appropriation for the Department of Health due to the large volume of work that has been added to the Department by the demand for birth certificates, and the burden that has been placed upon the testing laboratory. The Government has compelled each draftee to have a blood test before he can be inducted into the service. I am recommending the purchase of an efficient filing system for the Division of Vital Statistics, so that all certificates can be readily filed and be made easily accessible. Investigation shows that at least 40 percent of the citizens of the State have no birth certificates. Anyone wishing to enter the defense service will only be employed when they can produce and furnish such a certificate. Further study by your Appropriations Committee may disclose that the increases that have been recommended in the Department of Health are even yet not sufficient to carry on the added duties of this office.

Tax Commissioner

I am recommending an increase of \$1,000.00 in the maintenance of this office. My judgment is that Nebraska budgets have never been properly drawn. The person in charge should actually visit each State institution and personally study and view its needs. This will require additional funds for traveling expense and this increase is intended for that purpose.

Military Department

Some of the State's military officers have not been on the pay roll since November 1st, and none of the enlisted men since January 6th. Therefore, I have recommended the appropriation of the unexpended balance in the "Salaries", which will reduce the amount necessary for salaries in the coming biennium by the amount of these unex-

pendent balances, and also reduce the amount of "Support" to \$100,000.00. The officers and enlisted men are inducted for at least one year into the Federal service. This year will include the period in which they regularly have their summer training which is the major item of State expense. By the time the Legislature adjourns, we may have additional information as to our needs along this line.

Game, Forestation and Parks Commission

There is recommended for the maintenance of State parks the sum of \$30,000.00 from the General Fund, which is the same amount as was appropriated two years ago. It surely is not fair for this to be paid out of the hunting and fishing permits.

Nebraska State Medical Association

The appropriation of \$1,500.00 is recommended for the purchase of serum for Infantile Paralysis. I feel that this is a very worthy cause.

State Sheriff

No appropriation is recommended from the General Property (Tax) Fund for the maintenance of the State Sheriff's office. I recommend this office and the Highway Patrol be combined and the necessary funds be appropriated from the fees which are now available for the Highway Patrol. I trust the necessary legislation will be enacted to make this possible, thereby providing for a better coordination of our law enforcement activities.

University of Nebraska

It is recommended that the University of Nebraska have available for its maintenance the same amount of money that they received two years ago. In view of the fact that the enrollment has decreased 329 from what it was a year ago, and with the prospect that it will witness another decrease in the coming year, this recommended appropriation is in reality an increase for the maintenance of the University.

I trust that if the enrollment falls off to such an extent that the University Regents find it possible to save some of this appropriation, they will do so. Although the University maintenance fund appropriated from the General (Tax) Fund has been reduced to \$2,771,500.00, I have compensated for this reduction by making possible the use of the sum of \$83,041.98, which sum the University now carries in the special cash fund. This money came from General Property Tax and was turned over to the University many years ago for the operation of their processing of hog serum. With the repeal of this law the money was retained in the University Cash Fund and

now it is made available for maintenance use. It is recommended that the University Hospital be given the same appropriation as two years ago in order that the hospital may be operated at full bed capacity.

I am also recommending that the "Highway Laboratory Testing Fund", of approximately \$75,800.00, which has accumulated as a result of the activity carried on by the Engineering College, be released to the Board of Regents for the purchase of property, the construction of buildings and/or remodeling of buildings which they already own.

State Normals

There has not been sufficient time to make a study of the needs of the four State Teachers Colleges. I am, therefore, submitting the budget recommendations as submitted by Governor Cochran, with one exception. I am reducing the amount of each Normal School \$16,000.00, the increase which was allocated for normal training, as I have previously in this message recommended \$94,000.00 for normal training in the State Superintendent's office.

I am removing the Normal School Dormitory's "Cash Funds", as they are not a part of the functional expense of the institutions. These funds are derived from the rent charged the students occupying the dormitories and such funds are used to retire the revenue bonds.

Department of Roads and Irrigation

This department has grown to such an extent that it is now one of the largest expending agencies in the State Government. It is impossible in the brief time which has been available for the new State Engineer or for myself to properly study into the needs or possibilities in that department. Under our present tax structure we will fail by a wide margin to match the Federal Aid which is available for this year. I am very hopeful that we can save considerable money in the maintenance of our highways so that more contracts can be let and more roads built. It is my desire that this, as well as other departments, be operated with minimum cost, consistent with good service. All money which is saved in salaries can be used to match federal money and make more roads available for the public.

If any change in our tax structure is made so that gasoline tax funds are used for other purposes, it will seriously cripple the road building program in Nebraska.

Bureau of Irrigation

This budget provides for an increase of \$12,000.00 in the appropri-

ation for the Bureau of Irrigation, \$8,000.00 of this to be for salaries and wages and \$4,000.00 for maintenance. Pending legislation will require some additional personnel and considerable investigation and study, requiring special talent. The problem of surface waters and underground waters must be given detailed study, the problems of the Republican River Valley, the suggested agreements between the various irrigation districts, and the agreements between the different States, all these require numerous conferences and additional expense.

Irrigation is one of the outstanding interests of this State, and we must plan to spend more money in connection with its administration.

Salary Increases

I recommend that you provide for increases in two salaries which are now fixed by Statute. One of these is for the Director of Insurance. He carries a tremendous responsibility under our laws and we can only be sure of retaining a capable man in this position if he is properly paid. It is my opinion that the Director should receive the same salary as is received by the Director of Banking, which is \$4,500.00 per year.

I also recommend that you provide for an increase in the salary of the Governor's Secretary. With the additional business now being handled through the Governor's office, I feel it is in the interest of good Government that he should be better paid, and I recommend that he receive a salary of \$300.00 per month.

Tax Administration

During my term of office, I shall make every effort to collect all taxes on a fair and equitable basis. There is undoubtedly a necessity for some legislative changes, making more effective the administration of the intangible tax law. I also am inclined to feel that our whole system of assessment of personal property is out of date, and a serious study should be made in the direction of making it more fair and more effective. Other States have been experimenting along these lines and I recommend a study of their procedure and the results accomplished.

Unexpended Balances

I have recommended that wherever possible all unexpended balances arising out of general property tax funds as of June 30, 1941, be re-appropriated for the coming biennium. Since this money has already been levied for and collected through taxation, I do not feel that it is just and equitable to again levy a tax for the same purpose and permit these unexpended balances to revert to the General Fund.

I have recommended in some places that cash fees and licenses in excess of the requirements of the department lapse to the General Fund.

General Fund Deficit

Your attention is also called to the now-existing deficit in the General Fund of the State of Nebraska. Official records show that on December 31, 1940, this deficit in the State Treasury amounted to \$192,871.17. The present administration and the present Legislature is not, of course, responsible for the existence of this deficiency, but it does constitute a problem which we must solve and I am, therefore, calling it to your attention.

Summary

The total amount recommended from Property Tax Funds is \$10,910,154.57, and the amount from Federal and Cash Funds \$46,518,427.67, of which \$1,039,069.88 is the estimated proceeds from collections of Insane Tax levied in counties, as provided for in S. F. 241, Laws of Nebraska, 1935.

Conclusion

I wish to close my remarks by admitting very candidly that the time has been insufficient for me to make a proper study of the needs of the different units of our State Government, and the requirements of the various institutions which the State supports. I am making these recommendations on the basis of the available information, however, and I submit them to you with the suggestion that you change them wherever you feel that savings can be made or economies effected. There will be many of these items which I am sure you will wish to reduce. There will undoubtedly be some which you feel should be increased. My desire is that we approach this problem in a spirit of fairness to both the taxpayer and to the department or institution involved.

As required by Section 81-313, Compiled Statutes of Nebraska, 1929, I am submitting bills for appropriations as recommended in this budget.

Respectfully submitted,
Dwight Griswold
Governor

RESOLUTIONS

LEGISLATIVE RESOLUTION NO. 3.

Memorializing the Secretary of Agriculture of the United States to reconsider and revise the Sugar Beet Acreage Allotment for the State of Nebraska

Introduced by Murphy of Scotts Bluff, Mueller of Buffalo, Howard of McPherson, Carlson of Phelps, Raecke of Merrick, Blome of Cheyenne.

PREAMBLE

WHEREAS, the normal sugar beet acreage of Nebraska has been reduced by weather and low supply of irrigation water, and

WHEREAS, the sugar beet acreage of Nebraska for 1940 was far below the ten year average and the lowest in the history of the state, and

WHEREAS, the sugar beet acreage allotment made by the secretary of agriculture of the United States and the state of Nebraska for the year 1941 was based solely upon the sugar beet acreage in Nebraska in 1940, and

WHEREAS, such allotment is unfair and will be disastrous to the future of the beet industry in the state of Nebraska, and

WHEREAS, such allotment is a severe blow to the livestock feeding industry in the state of Nebraska, NOW, THEREFORE

BE IT RESOLVED BY THE LEGISLATURE OF NEBRASKA IN FIFTY-FIFTH REGULAR SESSION ASSEMBLED:

1. That this legislature respectfully petitions, memorializes and urges the secretary of agriculture of the United States to take such measures as will correct the objections recited in the preamble of the resolution; and that a much larger sugar beet acreage allotment be allowed for the state of Nebraska for the year 1941.

2. That this resolution be spread at large upon the journal of the legislature; and that the clerk of this legislature is hereby ordered and directed forthwith to forward a copy of this resolution, properly authenticated and engrossed, to the secretary of agriculture of the United States, and to each of the United States senators and congressmen representing the state of Nebraska in the congress to the end that representatives in the government and in the congress of the United States may be advised that this legislature considers as imperative a reconsideration and revision of the sugar beet acreage allotment for the state of Nebraska for the year 1941.

REPORT—Clerk of Legislature

January 26, 1941

To the President and Members of the

Legislature of Nebraska

Gentlemen:

A report of the expenditures for the 1939 regular and the 1940 special session of the Legislature and ad interim activities is submitted herewith. As in the previous report, I do not wish to detail duties performed during the interim. I do wish to mention the more important matters which have received attention by the clerk's office.

At the close of the regular and the special session, the journal clerk and engrossing clerk were retained to assist in the clerk's office; and a custodian was provided by the Legislature.

To compile the Session Laws it was necessary, after each session, to arrange the acts consistent with the Compiled Statutes, prepare "running titles", check each law and list the sections of the Statutes, Supplement or Session Laws that had been affected by the legislation passed in the last session, and prepare the general index in conformity with the index of the Compiled Statutes.

The Legislative Journal was proofed for the permanent volume and indexed. In addition to the general index, it contains a chronology of all bills introduced, showing the date and page of the Journal, for the progress and disposition of each bill. The general index was improved by including therein listings as appearing in the Session Laws and also a subject matter index of bills introduced and not passed, which formerly had been omitted.

A digest, covering the Introduction of Bills in other state legislatures and Congress, was prepared pursuant to motion adopted by the Legislative Council. A copy of the Digest and recommendations in connection therewith is submitted with this report to become a part of the records of the Legislature.

Pursuant to Legislative Resolutions No. 41 and No. 42, adopted by the Fifty-third Session, the Clerk, as custodian of legislative furniture (a) equipped quarters assigned to the Legislative Council; (b) furnished said quarters with regular and proper janitor service, as well as other rooms and quarters definitely assigned to the Legislature; (c) took complete control of all furniture and equipment of the legislative quarters so assigned; and (d) prepared, as directed, an inventory itemized and indexed, of the property, including furniture and equipment, assigned to or belonging to the Legislature of Nebraska. The report is on file in the office of the Legislative Council and the office of the Clerk of the Legislature.

During the interim the different legislative rooms have been used for various meetings of state departments for public lettings, public examinations, committee meetings and the like, and several hundred scheduled meetings have been held in the various rooms, in addition to many meetings not scheduled.

All records of previous unicameral sessions and activities of the Clerk's office are on file.

Respectfully submitted,

(Signed) Hugo F. Srb,
Clerk of the Legislature.

MESSAGE FROM THE GOVERNOR

Nebraska Advisory Defense Committee

January 31, 1941

To the President and Members of the Legislature

Gentlemen:

I am enclosing herewith three copies of

"A bill for an Act relating to national and state defense; to provide for the establishment of the "Nebraska advisory defense committee" and of other committees of defense; to prescribe the powers and duties thereof; and to declare an emergency."

In connection with this bill, I am writing this brief message in order that it may be called to your special attention. I feel that if Nebraska is to cooperate efficiently with the federal government in its national defense program, some advisory committee such as this

bill provides for is necessary. It will give to the state an agency through which the federal government can function and gather information regarding Nebraska's resources and possibilities from the standpoint of national defense.

It is my belief that such a committee can be of great benefit in assisting us to have defense contracts allotted to residents of this state, and I trust that it will be introduced and promptly passed with whatever amendments you feel will make it more effective.

Respectfully submitted,

(Signed) Dwight Griswold
Governor

RESOLUTIONS

LEGISLATIVE RESOLUTION NO. 6. Mr. Gantz moved that the resolution be adopted.

The motion prevailed.

LEGISLATIVE RESOLUTION NO. 7. Corn for Drouth-stricken Areas.

Memorializing the Secretary of Agriculture of the United States to take such steps as are necessary to provide corn for drouth stricken farmers in the interests of Nebraska well-being and American defense.

Introduced by Mueller of Buffalo, Van Diest of Loup, Asimus of Holt, Mischke of Knox, Carlson of Phelps, Knezacek of Valley, Neubauer of Harlan, Garber of Webster, Murphy of Scotts Bluff.

Preamble

WHEREAS, National Defense is now the main objective of every American, and

WHEREAS, Nebraska is the most nearly one hundred percent agricultural state in the Union and accordingly its contribution to national defense must be made through the production of food, grain and meat products, and

WHEREAS, the ravages of several successive years of drouth have placed our farmers in a desperate plight, forcing them to dispose of their cattle and hogs in ever increasing numbers because of the lack of corn and other feedstuffs to care for them, thus bringing loss to them, their families, the business communities which depend upon them, and to the nation at large, and

WHEREAS, there exists in the stocks of the Ever-Normal Granary sufficient supplies of corn to relieve the feed situation in Nebraska, and permit our farmers to become self-sustaining and to make their contribution by producing meat animals in the quantity necessary for national defense, NOW THEREFORE,

BE IT RESOLVED BY THE LEGISLATURE OF NEBRASKA IN FIFTY-FIFTH REGULAR SESSION ASSEMBLED:

1. That this legislature respectfully petitions, memorializes and urges the secretary of agriculture of the United States to take such measures as are necessary to release from the stocks of the Ever-Normal Granary such supplies of corn as may be necessary to relieve adequately the feed shortage in Nebraska and to keep the pledge made by the department of agriculture in its N.C.R. leaflet 401, dated

November, 1939, entitled "Here's Our Farm Program for 1940" in which it stated:

"Farmers can look upon the record corn carryover in 1939 as an accomplishment in building an Ever-Normal Granary. If foreign demand requires larger supplies or if crop failure comes, the Ever-Normal Granary will meet the situation."

2. That this resolution be spread at large upon the journal of the legislature; and that the clerk of this legislature is hereby ordered and directed forthwith to forward a copy of this resolution, properly authenticated and engrossed, to the secretary of agriculture of the United States, and to each of the United States senators and Congressmen representing the state of Nebraska in the congress to the end that representatives in the government and in the congress of the United States may be advised that this legislature considers as imperative to the national defense and to the well-being of the farmers of Nebraska the release to Nebraska farmers of adequate amounts of the stocks of corn now held in the Ever-Normal Granary.

LEGISLATIVE RESOLUTION NO. 8. Abraham Lincoln

Introduced by John Adams, Jr. of Douglas

Preamble

WHEREAS, today is the one hundred and thirty-third anniversary of the birth of Abraham Lincoln, and

WHEREAS, it is fitting and proper that at this time of grave threat to the peace and security of the United States of America we are reminded again of the man who brought our nation through one of the gravest periods in its history, NOW THEREFORE

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF NEBRASKA IN FIFTY-FIFTH REGULAR SESSION ASSEMBLED:

1. That we pause for a moment in our deliberations and renew our faith and resolution in our great country and listen again to our nation's creed as simply and eternally expressed by Abraham Lincoln in his inaugural address on March 4, 1865:

"Fondly do we hope, fervently do we pray, that this

mighty scourge of war may soon pass away. Yet, if God wills that it continue until the wealth piled by the bondsman's two hundred fifty years of unrequited toil shall be sunk, and until every drop of blood drawn by the lash shall be paid by another drawn with the sword, as was said three thousand years ago, so still it must be said, that 'the judgments of the Lord are true and righteous altogether.'

"With malice towards none, with charity for all, with firmness in the right, as God gives us to see the right, let us finish the work we are in, to bind up the nation's wounds, to care for him who shall have borne the battle, and for his widow and orphans, to do all which may achieve and cherish a just and lasting peace among ourselves and with all nations."

Mr. Howard moved that the resolution be adopted.

The motion prevailed.

At the request of the Reverend Chambers the Legislature paused for one minute in silent prayer.

SELECT COMMITTEE REPORT**Intergovernmental Cooperation**

Report of Delegates of the Nebraska Legislature in the
Assembly of the Council of State Governments
Held in the Mayflower Hotel, Washington, D. C.
January 21, 22, and 23, 1941

Your delegates, Garber and Metzger, beg leave to submit the following report of this most illuminating and interesting convention:

The assembly of the Council of State Governments is a voluntary governmental agency serving the states for the purposes of advertising and protecting their mutual interest. This assembly or convention is the medium through which many federal, state, and inter-state problems have been resolved and is the forum for the consideration of the increasing number of problems which overlap state boundaries; questions of national defense, water supplies and pollution, highway safety, interstate truck regulations, conflicting taxes, inter-state trade barriers, liquor control, relief, social security and the pursuit of criminals.

This 1941 Assembly considered the topics of relief, taxes, law enforcement, trade barriers, purely in the light of total war preparation and total home defense. Governor Stassen of Minnesota, Governor Lehman of New York City, Atty. General Jackson, Governor O'Connor of Maryland, William S. Knudsen, Sidney Hillman, Paul McNutt, Sec. of Navy Frank Knox, and Congresswoman Jeannette Rankin of Montana were the most prominent speakers of the program which lasted for three days and two evenings.

War preparation and national security were discussed in terms of cantonments, aviation fields, expanded manufacturing plants and new units, and schools to develop skilled labor. War preparation was the fundamental theme, the argument and the findings of this convention. The future will gradually unfold a colossal program which will steadily and rapidly engulf the entire United States. The not far distant future will see every unit of government operating on a war basis with attendant war restrictions and regulations.

Momentous political, economic and social disturbances unparalleled in all the history of the world engulf the United States as also all other nations. The most tremendous issues of all history are rapidly rising through the foam of swiftly changing historical events. Civilization is not only challenged but threatened and imperiled. The most pertinent and obstinate question confronting America is "On what basis will peaceful pursuits be resumed when this war cloud passes?"

This report would be very incomplete not to state that Governor and Mrs. R. L. Cochran were registered at the Mayflower Hotel. Governor Cochran is one of the original promoters of the Assembly of the Council of State of State Governments and is at this date a prominent and influential member. He extended every courtesy and consideration to the Nebraska Delegates. Governor Cochran generously and graciously made them beneficiaries of his acquaintance and placed your Delegation in most favorable position at this convention.

THE FIFTH GENERAL ASSEMBLY
of
THE COUNCIL OF STATE GOVERNMENTS

Mayflower Hotel
Washington, D. C.
January 21-23, 1941

A BRIEF REVIEW

Tuesday Morning Session

Convening of Assembly. Hon. Edgar A. Brown, member of the South Carolina Senate and Chairman of the Board of the Council of State Governments presided. Roll call showed that 308 delegates from 46 states were in attendance, also about 20 State Governors.

The importance of all levels of government participating in the defense program was the keynote of this Fifth General Assembly. All of the speakers urged a maximum participation of state and local governments in the advancement of the total defense program, and particularly the handling by the states and local governments of the governmental and service problems growing out of the industrial and military concentration incident to the defense program. Those present agreed with Mr. William S. Knudsen when he said: "If we are willing to spend a little sweat for a year or so, then we may save a little blood later on."

Governor Harold E. Stassen, Governor of Minnesota and President of the Council of State Governments, delivered the President's address, in which he pointed out three responsibilities of those representing the governments of the States:

"First, and foremost as States of the Union, we must give united support regardless of geographical location or partisanship to the established foreign policy of the Federal Government.

"Second, we must make every possible cooperative contribution to the effective and rapid building and production of the means of national defense.

"Third, we must maintain strong and efficient State governments as one of the safeguards of the future liberty of our people in face of the inevitable great concentration of Federal executive power necessitated by the emergency."

He emphasized the part played by the Council of State Governments in forwarding the national defense program. In conclusion, he stressed the fact that all steps that maintain the standing and respect of State governments will not only contribute to the strength of the Union, but will also constitute added safeguards to the liberty of the individual citizens of the Union.

Governor Herbert H. Lehman of New York in his address on "The States and the Present Emergency," asserted that our security both in a military and economic sense was threatened more than at any time in the past and that the big job facing us today is to make certain that all the industrial and labor resources of the respective states are made available to the Federal Government.

The States and localities are anxious to cooperate in the development of any plans necessary for protection of the civilian population Governor Lehman said, but expressed it as his view that they cannot act effectively without direction from Federal authorities in such matters as construction of air raid shelters, the devising of methods of fire fighting and evacuation. On the other hand, certain precautionary measures for civilian populations can and should be taken by the States and cities on their own initiative; for example, State guards can be organized and plans for emergency mobilization of police units can be adopted.

In his address entitled "Program for the Future," Hon. Ellwood J. Turner, member of the Pennsylvania General Assembly and retiring Chairman of the Board of Managers of the Council of State Governments, described the specific accomplishments of the Council of State Governments, and its cooperation commissions during the past year, such as the work that has been done to forward the National Defense Program, to bring about the removal of interstate trade barriers, and to develop a more practical program of relief. Other points covered in Mr. Turner's address are listed on the statement, entitled "Program of the Council of State Governments for the Coming Year, 1940-1941." In the course of his address he said:

"The great need of the moment, our obligation as individuals and as representatives of the 48 state governments, is to do our share

—and more than our share—in expediting interstate and federal-state cooperation for purposes of national defense. Your Commissions on Interstate Cooperation and their parent agency, the Council of State Governments, can render no greater service to the states and to the nation than to assist in the organization and administration of a 'total defense' program."

During the course of the morning session the Chairman appointed the standing committees naming Garber on credentials committee.

Tuesday Afternoon Session

General Session on Relief and Taxation. The General Assembly reconvened at 2:00 P. M., with Hon. Leverett Saltonstall, Governor of Massachusetts, presiding. The statement of the Special Committee on Relief was presented by Hon. Arthur I. Burgess, Member of the Massachusetts General Court. Recommendations made in his statement were incorporated in the final report of the Committee on Relief and adopted at the closing session of the General Assembly. A copy of this report is attached.

After Mr. Burgess described the establishment of the Committee, the work which it has been doing, and its general recommendations, the General Assembly heard the specific sections of the report discussed by Eager of New Hampshire; Hill of Minnesota; Russell of Pennsylvania; Wadsworth of New York; Biddinger of Indiana; Lanier of Georgia; Alsup of Texas, and Hoehler of the American Public Welfare Association.

At the conclusion of the session on Relief, Mr. Simeon E. Leland, Director of the Federal Reserve Bank of Chicago, and former Chairman of the Illinois Tax Commission, read the statement of the Special Committee on Taxation. In his report he outlined the work which the Council of State Governments and previous General Assemblies had carried on in this field. He said:

"If I correctly read the record of the Council of State Governments, I think I see in it a desire to coordinate the fiscal systems of national, state and local governments, and to harmonize the policies of the state and local units with those of the Federal government, rather than to divorce them.

* * * *

"The Tax Committee, it seems to me, is on the right course. What is called for is a national inquiry of wide scope to develop plans and procedures, supplemented by conferences between Federal,

State and Local financial offices, so that the need and the means for integrating practices can be more fully realized. The Council and all of its committees are ready to carry their share of the burden, and more."

A resolution implementing the Tax Committee's suggestions is included in this report.

At the conclusion of Mr. Leland's address, the following participated in the discussion: Edmonds of Pennsylvania, Jones of Ohio, Long of Massachusetts, and Lepawsky of the Federation of Tax Administrators.

Tuesday Evening Dinner Session

Hon. Burnet R. Maybank, Governor of South Carolina presiding. Governor Maybank introduced Governor Herbert R. O'Connor of Maryland who spoke on the subject of "Law Enforcement Problems of National Defense." During the course of his address he described in detail the work of the conference which was held on this subject in Washington last August. The Governor then stated:

"I have attended a great many conferences, both official and otherwise, and it is no exaggeration to say that those in attendance at this Federal-State Conference last August exhibited an earnestness and singleness of purpose unsurpassed by the membership of any other conference within my experience. The unanimous adoption of the various section reports furnished conclusive evidence of the determination of the States and the Federal Government to coordinate their respective functions in regard to National Defense, and to present to all the enemies of America, within or without, a solid and, I believe, unbreakable front.

* * * * *

"The Drafting Committee of the Conference prepared and recommended for passage to the forty-eight-odd states whose legislatures are meeting this year, model acts dealing with organization of state guards, the control of explosives, interstate protection of public property, and the prevention of sabotage, and these acts have been forwarded to the various states for such action as their respective legislatures may deem proper."

At the conclusion of Governor O'Connor's address, the Chairman introduced Solicitor-General Francis Biddle who read Attorney General Jackson's address. The Attorney General described what the Department of Justice is doing to combat both military and economic "fifth columns" in this country, and outlined the work of the De-

partment of Justice in preventing sabotage and in controlling foreign propaganda here. He said in conclusion:

"Freedom of speech, freedom of press, freedom of assembly—these are the democratic weapons. Danger for democracy lies not so much into totalitarian propaganda as in our failure to answer it. Already that answer is being made. It fills the columns of our free press, it thunders from our free radio. It is not the synthetic product of a central propaganda bureau, but the strong spontaneous expression of free Americans in all walks of life. It is an answer that will pervade all America because it springs from America."

Wednesday Morning Session

General Session on Defense. Hon. Frank M. Dixon, Governor of Alabama, presided and introduced Hon. William S. Knudsen, Chief, Production Division, Advisory Commission to the Council of National Defense. Mr. Knudsen described the organization of the Advisory Commission of the Council of National Defense and the manner in which the national defense program was put under way. He emphasized the enormous coordination of effort that must go into production of all defense items after a contract is let. Real work starts after the contract is out, and the first requisite in the defense program was to get tools—not only machine tools—but fixtures and dies which must go into machine tools in order to produce armament on a mass production basis. He pointed out that we are still in that stage to a great extent, and described preliminary speeding up by the Defense Commission by the use of letters of intent, which protect the manufacturer in expenditures he may be called upon to make, up until the time of the signing of the actual contract. He stated that the tooling process has gone forward rapidly and that in another three months or so mass production will be under way on many lines.

Mr. Knudsen emphasized to the delegates the Defense Commission's hope to spread the work around the country by subcontracts to the greatest possible extent and the necessity for classifying and tabulating equipment found all over the country, in order that these facilities may be offered to prime contractors when the Defense Commission has a contract to offer. He stated:

"There is where you gentlemen come in. * * * In your particular case, there are surveys of tools needed, and the point is that these surveys, through your mediation and help, be made available to the prime contractors. * * * The goal that I hope to reach is for each prime manufacturer to be concerned with a percentage of subcontracts on his job; the larger that percentage gets, the more the program is going to spread and the more pieces we are going to get in

the end. We are not going to get it in the next six months, but we are going to get it next year."

Governor Dixon then introduced Mr. Isador Lubin, Special Counsel to Mr. Hillman in the office of Production Management, who discussed "Labor supply and Training in Defense." Mr. Lubin described the function of the Division of Labor of the Advisory Commission as the job of seeing to it that the seventeen billion dollars worth of goods needed in the defense program are produced as effectively and efficiently as labor can possibly do it. He pointed out that the combined outstanding order for airplanes, airplane engines, parts and accessories, necessitated the employment of 230,000 people and that to keep up with commitments the industry must step up its labor supply to 450,000 before August of this year. Every shipyard in the nation is booked full to capacity, and every way is being used on orders either from the Navy or from the Maritime Commission.

He pointed out the effective work which the Conciliation Service of the Defense Commission had done in warding off threatened strikes and drew the parallel between 1916-17 and the present time, stating that "at no time in American history has labor been more cooperative when the country was in peril than at this time."

Stressing the part to be played by the states, Mr. Lubin said:

"I feel very definitely that one of the key pins of the defense program, at least as far as labor is concerned, is the U. S. Employment Service and the state employment services. I think one of the most vital contributions that the states can make to the defense program is to see to it that these employment services in your states are kept at the highest pitch of efficiency, that they operate twenty-four hours a day if the occasion demands, and that their personnel are continuously keyed up to the importance of the part that they are playing in the program."

The third speaker on the morning session was Hon. Paul V. McNutt, Federal Security Administrator. He discussed the questions having to do with health, welfare, and total defense. He pointed out the tremendous problems of public health involved in serving both civilians and the expanding military forces of the country, as well as the need of increased scientific knowledge of medical problems relating to defense, both military and industrial. He pointed out how much better prepared the government was to deal with community problems arising from military and industrial concentrations needed in defense than it was in 1916. Concluding his address he stated:

"In the three-way partnership which makes up our American system of government, our local, State, and Federal units stand to-

gether and work together for this common end. Our present effort to integrate health, welfare, and defense is important not only for the great contribution it can and must make to individual strength and national unity. It is equally important as a demonstration that our kind of government—cooperative democracy—can meet and master its own necessities. We are all partners in this joint enterprise—the great enterprise of serving a united people as a single integrated Nation, as a union of sovereign States, and as a vast network of local communities, of factories and farms, of families and human lives.”

Wednesday Afternoon Session

General Session on Defense. Senator Henry Parkman, Jr., Member of the Massachusetts Commission on Interstate Cooperation, presided. First speaker in the afternoon was Hon. Charles E. Merriam, member of the National Resources Planning Board, who discussed, “Planning for Defense of Democracy.” He stressed particularly the necessity for mobilization for national morale. Dr. Merriam ridiculed complaints that democracies could not act with decisiveness, and pointed out that decisionism in any government, be it of democratic or autocratic form, rests not on arbitrariness but on cooperation soundly organized for action.

In discussing America's role in the present world crisis, he said:

“America will work out a program, built upon national unity, which will raise the volume of national production and at the same time raise the standards of living in accordance with the principles of social justice. Our vast national resources, our dynamic energy, our inventiveness and resourcefulness, our organizing ability, our huge economy, with its rich powers of expansion, make this a possibility. America will maintain its free society, industrial and political, streamlined to meet the changing conditions of modern life.”

Following Dr. Merriam, Hon. Daniel W. Hoan, Associate Director, Division of State and Local Cooperation of the Advisory Commission to the Council of National Defense, discussed “The Part of the States and Cities in the Defense Program.” He emphasized that preparation for our national defense requires cooperative effort with unity of purpose throughout the country. He reviewed the work of the Division of State and Local Cooperation, and characterized its method of operation as the essence of the democratic way:

“The Division gives no orders; the people themselves, through their representatives in the State capitol or the town hall, solve their own problems, using the Division's personnel as a channel for information concerning Federal plans and policies and for technical advice in various fields.”

Among the delegates taking part in the discussion of Dr. Merriam's and Mr. Hoan's addresses were:

Carey of California

George of Maryland

Kiser of Washington

Sengle of Connecticut

Wallerstein of Virginia

Wednesday Evening Dinner Session

Governor Harold E. Stassen, President of the Council of State Governments, presided at the state dinner and read a letter from President Roosevelt, in which the Chief Executive pointed out that "now as never before the utmost cooperation of all levels of government is necessary to provide the nation with total defense."

Governor Stassen introduced Hon. Frank Knox, Secretary of the Navy, who was speaker of the evening. Secretary Knox declared that the preservation of liberty and the future of our form of government are now at stake. He said in part:

"In this task of supporting President Roosevelt in this crucial hour, there should be and there must be a spirit of national unity which sweeps aside all vestige of personal feelings, of partisan differences, of sectional hatreds and of class distinctions. If we, as a nation united, embrace the high aims and purposes of the hour, we shall all succeed together. Likewise, if we fail, we shall all go down together. We must not fail."

Secretary Knox concluded his address as follows:

"Almost literally, America stands at the crossroads. Whether we like it or not, the preservation of the sacred fire of liberty has become our responsibility. We can discharge this responsibility right now by an all-out program for production of supplies and munitions for the use of those who are actually fighting the battles for human liberty in Europe and Asia, and for our own defense. Or, we can shilly-shally and talk and debate and conjure up idle forces that have no basis in fact until those who are fighting are overwhelmed and then, we must take up the burden and fight ourselves, lest the sacred fires of liberty entrusted to our care shall go out. Or, we can adopt still a third choice and fail to help now and refuse to fight later, and then, spend everything we have and that we can produce to build a wall around the United States and live within that wall,

armed to the teeth, completely surrounded by totalitarian powers intent upon our final subjugation.

"These are the three roads, and the only three roads, that converge at the point where we stand tonight. In such an hour, if we are worthy of what we have, if we are wise as the trustees of the institutions we have inherited, and finally, if we are merely shrewd and give way only to selfish considerations, we will implement, without delay, President Roosevelt's noble declaration: 'In the face of great perils never before encountered, our strong purpose is to protect and to perpetuate the integrity of democracy. We do not retreat. We are not content to stand still. As Americans, we go forward, in the service of our country, by the will of God.'"

Thursday Morning Session

General Session on Trade Barriers. Hon. Edgar A. Brown, Chairman of the Board of Managers of the Council of State Governments, presiding. Senator Robert C. Hendrickson, of New Jersey vigorously attacked the growing Balkanization of this country through the erection of barriers to interstate trade by the states themselves, and pointed out that the campaign which the Council of State Governments has waged on them during the past biennium has already had beneficial results. He pointed out that much remains to be done, and said, in conclusion:

"If we are to move from plurality toward unity from *ex uno plura* to *epluribus unum* we must continue, to the end, in the destruction of these legal-economic frontiers within America.

"If we are to maintain a common defense on the home front in this crucial hour when 'National Defense' is the key note of every public utterance, and preserve free government for posterity, all interstate trade barriers of every nature and description, must yield to that 'more perfect union.'"

In a statement which he was unable to deliver because of illness, Congressman Hatton W. Sumners warned the delegates that:

"It must be borne in mind, as a practical matter, that there is a natural law, universal in its operation, which will not permit power to do a thing to remain where that power is not properly exercised. There is no more important task for the state governments, from the standpoint of their self preservation as the responsible agencies of democratic government—and the only ones which we have or can have in our system for general governmental purposes—than to demonstrate their ability, acting individually and in cooperation with each other to remove the abuses arising from what are known as Interstate Trade Barriers."

Vigorous discussion of the situation in regard to trade barriers took place. Among the discussants were Brown of Pennsylvania, Ostertag of New York, Van der Vries of Illinois, Bolens of Wisconsin, York of Texas, and Rankin of North Carolina.

This Assembly of the Council of State Governments is endowed with potential possibilities of unlimited merit in this great field of interstate mutual interest if operated and administered by the Representatives of the States as a deliberate body.

LEGISLATIVE RESOLUTION NO. 10. George Washington

Introduced by Elmer C. Rakow of Antelope

Preamble

WHEREAS, the United States of America is today celebrating the two hundred and ninth anniversary of the birthday of that exalted patriot, Christian statesman, and true American, George Washington, and

WHEREAS, we owe to him the finest example of courage, devotion and service to his country, NOW THEREFORE

BE IT RESOLVED BY THE LEGISLATURE OF NEBRASKA IN FIFTY-FIFTH REGULAR SESSION ASSEMBLED:

That this legislature pay tribute to the memory of the Father of our Country in the immortal words of Oliver Wendell Holmes:

“Welcome to the day returning,
Dearer still as ages flow,
While the torch of Faith is burning,
Long as Freedom's altars glow!
See the hero whom it gave us
Slumbering on a mother's breast;
For the arm he stretched to save us
Be its morn forever blest!

Vain is empire's mad temptation!
Not for him an earthly crown!
He whose sword has freed a nation
Strike the offered scepter down.
See the throneless conqueror seated,
Ruler by a people's choice;
See the patriot's task completed;
Hear the Father's dying voice:

‘By the name that you inherit,
By the sufferings you recall,
Cherish the fraternal spirit;
Love your country first of all!
Listen not to idle questions
If its hands may be untied;
Doubt a patriot whose suggestions
Strive a nation to divide.

Father! we, whose ears have tingled
With the discord notes of shame;
We, whose sires their blood have mingled
In the battle's thunder-flame,—
Gathering, while this holy morning
Lights the land from sea to sea,
Hear thy counsel, heed thy warning;
Trust us while we honor thee.’ ”

Mr. Rakow moved that the resolution be adopted.

The motion prevailed.

The Legislature paused for a minute in silent prayer.

George Washington's Birthday

We meet again on this day to pay homage to the memory of a great man, an American hero, George Washington. We are met to testify our regard for him whose name is intimately associated with whatever belongs most essentially to the prosperity, the liberty, the free institutions, and the renown of our country. I approach my task with humbleness. Well do I know that on this occasion, I can tell you nothing about George Washington that you do not already know. I can add nothing to the solemnity of this hour.

Our forefathers left the nations of the old world that they might have the right to think and speak their own thoughts, live their own lives, and worship God according to the dictates of their own conscience. In that fateful hour when the clock of destiny was striking twelve, when the gates of empires were lifted from their hinges, and the streams of history turned into new channels, there arose great leaders whose names stand out in the history of our life as a nation.

No name of that period is more revered or respected than is the name of George Washington—soldier, statesman—a rare unison. Out of the suffering and tears, out of the blood and sacrifice, a

new nation was born, to be distinguished forever by two outstanding ideals: LIBERTY, which was TRUE LIBERTY and EQUALITY which was not merely a sounding note of a political campaign; and those ideals were dedicated by that new nation to the proposition that all men are created equal. These principles were immortalized in those words sacred to all loyal Americans, "ALL MEN ARE CREATED EQUAL, AND HAVE THE RIGHT TO LIFE, LIBERTY, AND THE PURSUIT OF HAPPINESS."

George Washington's life was full and complete. There is nothing in it for which we need apologize, nothing which must be hidden. He was very human. We may well love his memory as a man, not alone the fiery general, nor the cold austere statesman, the stately social figure, but Washington, the fun-loving lad, the gay cavalier, the generous warmhearted friend, the planter and harvester of seeds.

Washington was a man of peace as well as a man of war. I like to think of the words he wrote and spoke, after that great conflict which made us a free and independent nation, words which show his underlying nature as a man of peace. Through this mirror of his thoughts we see a vivid picture, not only of the revered and stately leader, as president in a critical time in our nation's history, but the man who was content to be a home lover, a simple planter. Someone has well said "that his whole life was a succession of planting and sowing and reaping; planting effort; sowing ideas and reaping independence and good government.

Turning the pages of current events we have but to look across the sea and find that only in recent months has the tide of foreign affairs changed the history of the world—people of nation after nation have bowed their heads in forcible and bloody surrender of that great ideal and principle of Human Liberty. Our own nation is at this moment, as we meet in legislative deliberations, in the midst of warlike preparations, that that yoke of tyranny and subjection may not be placed around the necks of the American people, and the liberty which we enjoy, wrought at so great a price through the wise and courageous leadership of men like Washington, may not be torn from us. That heritage of free government, of liberty, equality before the law, is yours and mine. We should hold it most dear and not only protect it but respect it.

We talk a lot of Americanism. But that favorite term today is somewhat shallow in the application it makes to the popular mind. Naturalization papers do not make an American. The immigrant needs more than language study and a parrotlike knowledge of our constitution to make him a true American. Free birth does not make

an American. The homeborn needs more than the soft inheritance of the rights of free citizenship. Pledging allegiance to our flag does not make us Americans. If America is not to become a decayed and fallen nation of the forgotten past, as other nations have become, we must bring to the forefront in our everyday lives our undying faith in our nation's principles, and by a solidarity of action and united front, regardless of political expediency, meet the dangers of the moment and remove them for all time to come. If our nation remains the embodiment of civil liberty and democratic ideals nothing can destroy us as a nation. If we live up to the ideals of the fathers of our country, we need not fear for the future. That flag is something far more than a mere symbol; it expresses the will of a free people, and proclaims to all the world that they are supreme, and that they acknowledge no earthly sovereign other than themselves.

Recently on a trip to Mount Vernon I was impressed by an inscription there carved—a short history of Washington's life—and to my mind it is the greatest epitaph ever written to the memory of any man:

Washington, the brave, the wise, the good,
Supreme in war, in council, and in peace;

Valliant without ambition, discreet without fear,
Confident without presumption.
In disaster, calm; in success, moderate; in all himself.
The hero, the patriot, the Christian.
The father of nations, the friend of mankind,
Who, when he had won all, renounced all,
And sought in the bosom of his family and of nature, retirement;
And in the hope of religion, immortality.

The greatest tribute ever paid to the memory of George Washington was spoken by Abraham Lincoln, our martyred president, to whose memory we have also this month paid tribute. He said, simply:

"This is the 110th anniversary of the birth of Washington. We are met to celebrate this day. Washington is the mightiest name on earth—long since mightiest in the cause of civil liberty. On that name no eulogy is expected. It cannot be. To add brightness to the sun, or glory to the name of Washington, is alike impossible. Let none attempt it. In solemn awe, pronounce the name, and in its naked, deathless splendor, leave it shining on."

MESSAGE FROM THE GOVERNOR

Introduction of New Bills

February 21, 1941.

Hon. Frank Sorrell, Chairman,

Committee on Government,

Unicameral Legislature.

Dear Senator:

I am herewith transmitting to you two amendatory bills which have for their intent and purpose the amending of the original legislation which did not place the following two agencies of government under any one of the civic code offices:

- (1) Engineers and Architects.
- (2) Embalmers, Undertakers and Funeral Directors.

The bill relative to the Engineers and Architects is an amendatory bill which gives the Director of Health and the Governor the necessary control and jurisdiction over the profession involved. This seems necessary to make the administration of the profession fit in with the accepted precedent for the administration under the Civil Administrative Code.

At the present time, the law sets it up as a separate department, over which no administrative code or the Governor has any authority. The Attorney General has issued an opinion to this effect, and said that we had no authority to receive their monies or to sign the necessary vouchers for their expenses.

The bill involving the Embalmers, Undertakers and Funeral Directors has essentially the same idea in mind; that is, one of placing some necessary control and jurisdiction over the profession. Under the present law we do accept their monies and deposit them with the State Treasurer, but there is no provision for signing their vouchers nor is there any power under the law to have control or jurisdiction over this board either by the Department of Health or the Governor.

These bills are the suggestion of the Tax Commissioner, the Auditor of Public Accounts, the Department of Health, the Attorney General, and the Governor. The Attorney General has pointed out in his opinion that there is a grave question arises as to whether the Department of Health, the Auditor, or the Tax Commissioner, have proper authority in passing upon any vouchers from these two agencies.

It is my request that the Government Committee introduce these two bills, and I feel that they are necessary to correct the functioning of these two agencies so that they can be properly checked as provided by the Constitution.

Respectfully submitted,
(Signed) Dwight Griswold
Governor

MESSAGE FROM THE GOVERNOR

Trade School Bill

February 26, 1941

To the President, the Speaker and Members of the Legislature
Gentlemen:

I desire to call your particular attention to certain facts surrounding L. B. No. 148, known as the Trade School Bill. This bill provides that the Board of Control shall release the former Milford Soldiers' Home property to the Board of Vocational Education for development as a trade school. This would mean that the Board of Vocational Education would then have charge of this property and this school. This Board has never functioned in such a manner and up to the present has only supervised vocational education on a cooperative basis with other schools, etc.

Candidly, I am afraid of the administrative system created by L. B. No. 148. I have talked with all three members of the Board of Vocational Education and they tell me that none of them were called by the legislative committee to appear before the committee to testify in regard to this bill. I feel that this should be done and

that the committee should go carefully into the administrative features. I am not opposed to a trade school in Nebraska, but I feel that it is my duty to make sure that all expenditures shall return the greatest value.

I would suggest that L. B. No. 148 be referred back to a committee for a careful study of its administrative features.

Respectfully submitted,

(Signed) Dwight Griswold.

Approved by the Governor

February 26, 1941.

To the President, the Speaker and Members of the Legislature

Gentlemen:

I am directed by Governor Dwight Griswold to inform your honorable body that he has this day approved the following bill:

L. B. No. 132.

Respectfully submitted,

(Signed) Val Peterson
Secretary to the Governor.

1. Amend the bill, pages 2 and 3 by striking all of sections 1, 2, 3, 4 and 5 thereon and by inserting in lieu thereof the following:

"Section 1. There is hereby created the **Nebraska brand inspection area** which shall consist of all of that part of the state of Nebraska lying within the following counties: Arthur, Banner, Blaine, Box Butte, Boyd, Brown, Chase, Cherry, Cheyenne, Custer, Dawes, Dawson, Deuel, Dundy, Frontier, Garden, Garfield, Grant, Hayes, Hitchcock, Holt, Hooker, Keith, Keya Paha, Kimball, Lincoln, Logan, Loup, McPherson, Morrill, Perkins, Red Willow, Rock, Scotts Bluff, Sheridan, Sioux, Thomas, Wheeler.

All of the members of such committee appointed by the secretary of state shall be active and practical cattle men engaged in the cattle business in the brand area provided for in section 1 of this act. Only such persons appointed shall be eligible to serve on such committee who are actual owners of cattle within such brand inspection area, who actually reside in the brand area, who are owners of brands duly recorded in the office of the secretary of state and whose principal business and occupation is the raising of cattle within such brand inspection area.

Sec. 3. When this act becomes effective, the secretary of state, who is designated as the chairman of the committee, shall appoint four members of the committee. One member shall hold office for a period of one year; one member shall hold office for a period of two years, one member shall hold office for a period of three years; and one member shall hold office for a period of four years from the effective date of this act. At the expiration of the term of any member of the committee, the secretary of state shall appoint a successor of the member, whose term is for a period of four years. Any of such appointees may be removed from such office upon the affirmative vote of three of the appointed committee members. In event of a vacancy on the committee, the secretary of state shall fill such vacancy by appointing a member to serve during the unexpired term of the member whose office has become vacant. The action

of a majority of the members of the committee shall be deemed the action of the committee. No appointed person may act as a member of the committee while he holds any elective or appointive state or federal office.

Sec. 4. The committee shall employ a secretary who shall keep a record of all proceedings, transactions, communications and official acts of the committee, who shall be custodian of all records of the committee and who shall perform such other duties as the committee may require. The secretary shall call a meeting at the direction of the secretary of state or upon the written request of two or more members of the committee. The committee shall employ such other employees as may be necessary properly to carry out the provisions of this act and shall also be authorized to fix the salaries of such employees as may be employed by it and to make such expenditures as are necessary properly to carry out the provisions of this act. The committee shall select and designate a place within the brand inspection area where the committee shall keep and maintain an office and where all records of the committee shall be kept.

Sec. 5. Each appointed member of the committee and each committee employee who collects or who is the custodian of any funds shall furnish a suitable bond. The amount of the bond in each case shall be designated by the secretary of state.

Sec. 6. The appointed members of the committee shall receive five dollars for each day they actually work as members of this committee: **Provided**, at no time shall any member of the committee draw more than five days' pay in any one month. All members of the committee shall be paid their actual and necessary traveling expenses in attending meetings of the committee or in performing any other duties that are prescribed in this act.

Sec. 7. The committee shall have the power and authority to pass rules and regulations relating to the administration of but not inconsistent with the provisions of this act.

Sec. 8. Any livestock market, whether within or without the borders of the state of Nebraska, that maintains brand inspection under the supervision of the Nebraska brand committee and under such rules and regulations as are specified by the United States department of agriculture, may be designated by the committee as an open market.

Sec. 9. If any owner, shipper, person, persons, firm, motor carrier, railroad company or other carrier or corporation or their agent or agents or their servant or servants, move, drive, ship or

transport in any manner any cattle from any point within the brand area to any point outside the brand area, such cattle shall first have a brand inspection as provided by the **Nebraska brand committee**: **Provided**, if the line designating the brand area divides any ranch or farm, written permission may be given, at the discretion of the **Nebraska brand committee**, to owners of cattle on such ranch or farm to move the cattle in and out of the brand area without inspection.

Sec. 10. If cattle are shipped to an open market, no brand inspection is required at point of loading. If cattle are billed to an open market, it shall be unlawful for the railroad company, motor carrier or any other carrier transporting the cattle to allow the owner, shipper or party in charge to change billing or transport the cattle across the Nebraska state line to a point other than the open market designated in section 9 of this act, unless the carrier secures from the **Nebraska brand committee** a certificate of the brand or brands.

Sec. 11. Before any owner or operator of any motor vehicle that carries any livestock or any portions thereof crosses the Nebraska state line into another state, the quadruplicate bill of lading required by Sec. 60-701, C. S. Supp., 1939, as now existing or as hereafter amended, shall be approved in writing by the sheriff or deputy sheriff of the county in which such shipment originates or by a brand inspector of the **Nebraska stock growers' association**. Any owner or operator of any motor vehicle, that carries any livestock or portions thereof, who violates any provisions of this section shall be deemed guilty of a misdemeanor, and upon conviction thereof, shall be fined not less than one hundred dollars nor more than five hundred dollars or shall be imprisoned in the county jail not less than sixty days nor more than six months, or both.

Sec. 12. It shall be the duty of the **Nebraska brand committee** to charge and collect a fee of ten cents per head on all branded cattle inspected in accordance with the provisions of this act. The owner or seller of cattle so inspected shall be held responsible for the inspection fee. All fees collected by the **Nebraska brand committee** shall be deposited in the Nebraska state treasury in a fund to be known as the **Nebraska brand fund**. All moneys in the fund, if and when appropriated by the legislature, shall be used by the **Nebraska brand committee** in the administration and enforcement of this act. Any unexpended balance that remains in the fund at the end of any biennium shall, when reappropriated by the legislature, be available for the uses and purposes of the fund for the succeeding biennium. The fund shall be paid out only upon the proper vouchers approved by the secretary of state, upon warrants issued by the auditor of public accounts and countersigned by the state treasurer as provided by law.

Sec. 13. If any animal, inspected under the provisions of this act, bears recorded brand or brands other than the brand or brands of the shipper or seller, then the shipper or seller shall be required to establish his ownership to such animal by exhibiting to the brand inspector a bill of sale to such animal or by other satisfactory evidence of ownership. If the shipper or seller fails to establish ownership of any animal that carries a recorded brand, the animal may be sold: **Provided**, the brand inspector shall notify the selling agent of the shipper to impound the proceeds of the sale of such animal, and it shall be the duty of the seller or selling agent who sells such animal to hold the proceeds of the sale of such animal until such time as the **Nebraska brand committee** orders them or it to pay such money over to the shipper or seller or to the **Nebraska brand committee**. The shipper or seller of such animal shall be required to establish ownership to such animal with a recorded brand within sixty days after sale thereof by producing proof to the **Nebraska brand committee**, or its duly authorized agent, such as a bill of sale that conveys such animal to the shipper or by producing other satisfactory evidence of title thereto. If such shipper establishes ownership to such animal, the **Nebraska brand committee** shall order the person, firm, association or corporation acting as selling agent of such animal to pay the sale price thereof to such shipper. If such shipper shall fail to establish ownership within the time prescribed herein, such animal shall be considered to be an estray; and the **Nebraska brand committee** shall order the person, firm, association or corporation that acts as selling agent to pay the sale price of such animal over to the **Nebraska brand committee**; and it shall be the duty of such selling agent forthwith to pay the sale price of such estray to the **Nebraska brand committee**. All funds that the **Nebraska brand committee** receives from the sale of any estray, shall be placed in a separate fund known as the **estray fund**. Such funds shall be kept by the **Nebraska brand committee** for a period of one year, during which time the **Nebraska brand committee** shall endeavor to determine the true owner of such estray. If proof is made as to the ownership of such estray, the committee shall pay over to the true owner thereof the sale price of such estray, after it deducts such expenses as may be incurred at point of selling: **Provided**, any person, who has in good faith kept and fed any such animal, has the right to make a claim to the **Nebraska brand committee** for the expense of keeping and feeding such estray; and **provided further**, claims shall be made in the manner prescribed by the **Nebraska brand committee**. If the ownership of any estray, that carries a recorded brand, shall not be established within one year from the time of sale thereof, the net proceeds of the sale of such estray shall be paid by the **Nebraska brand committee** into the county school fund of the county in which the estray originated. The **Nebraska brand committee** shall, on January first of each year, file with the auditor of public accounts

an itemized and verified statement of all moneys received from the sale of estray cattle together with the disposition thereof.

Sec. 14. No cattle shall be sold at any livestock sales ring within the brand area of the state of Nebraska until all brands on all such cattle are first inspected by the **Nebraska brand committee**.

Sec. 15. All brand inspections provided for in this act shall be made during daylight hours.

Sec. 16. Any person, who falsely makes or forges any brand inspection certificate or any permit provided for in this act, shall, be deemed guilty of a felony, and upon conviction thereof, shall be imprisoned in the penitentiary for not less than one year nor more than seven years.

Sec. 17. Sec. 18. Any person or persons, firm or corporation or their agent or agents who sell, or offer for sale or slaughter to any butcher, packer or vendor engaged in the slaughter of cattle within the brand area, shall first secure a certificate of brand inspection from the **Nebraska brand committee**. The certificate shall accompany the cattle and shall be retained by the butcher, packer or vendor engaged in the slaughter of cattle, as a permanent record.

Sec. 19. It shall be unlawful for any butcher, packer or vendor engaged in the slaughter of cattle within the brand area to kill or otherwise dispose of any cattle, until a certificate of brand inspection from the **Nebraska brand committee** is filed and is made a part of his permanent records. All such certificates of brand inspection shall, upon demand, be displayed to any law enforcement officer or to the **Nebraska brand committee** at any time.

Sec. 20. Any person, persons, firms, railroad company or other carrier or corporation, that violates any provision of this act, or that makes, forges or uses any false or fraudulent certificate of inspection shall be deemed guilty of a misdemeanor, and, upon conviction thereof, shall be fined not more than five hundred dollars, or shall be imprisoned in the county jail not to exceed one year, or both.

Sec. 21. If any division, section, subsection, sentence, clause, phrase or requirement of this act is for any reason held to be un-

constitutional, such decision shall not affect the validity of the remaining portions thereof. The legislature hereby declares that it would have passed this act, and each division, section, subsection, sentence, clause, phrase or requirement thereof irrespective of the fact that any one or more divisions, sections, subsections, sentences, clauses, phrases or requirements be declared unconstitutional.

Sec. 22. That Secs. 54-709 and 54-710, C. S. Supp., 1939, are hereby repealed.

Standing Committee amendments to L. B. No. 213:

1. Amend the bill, pages 2 to 18 inclusive, by striking all of Sections 1 to 20 inclusive thereon and by inserting in lieu thereof the following:

"Section 1. That Sec. 39-2101, C. S. Supp., 1939, be amended to read as follows:

39-2101. Whenever used in this Act act the word "county" or "counties" shall be construed to include municipal corporations as well; and to include any commission or authority which may be established in the state of Nebraska as a whole or any county thereof; and whenever the governing body of any county is specifically directed or empowered to perform a given act or function it shall be deemed a grant or direction for the corresponding governing body of a city, or village, or any commission or authority which may be established within the state of Nebraska or any county thereof, as the case may be, to do likewise. Any county in the State state of Nebraska may build or construct or aid in the construction or complete construction of any highway, wagon, vehicle or automobile bridge within the state of Nebraska and any adjoining state across any river, navigable or non-navigable stream, forming a boundary line between any county within the state of Nebraska and any other state of the United States.

Sec. 2. That Sec. 39-2107, C. S. Supp., 1939, be amended to read as follows:

39-2107. Any county in the state of Nebraska is hereby authorized to provide funds for the purposes of this Act act by the issuance of revenue bonds of such counties,— the principal and interest of which shall be payable solely from the special funds herein provided therefor,—and as to which, as shall be recited therein, the county shall not incur any indebtedness of any kind or nature, and to support which the county shall not pledge its credit, nor its taxing power, nor any part thereof. Such revenue bonds shall bear interest at not more than six per centum per annum, payable semi-annually and shall mature in not more than twenty thirty years from their date or dates and may be redeemable at the option of the county issuing the same at not more than the par value thereof plus a premium of five per centum, under such terms and conditions as the governing body of the county may fix prior to the issuance of such bonds. The governing body of the county shall provide the form of such bonds including coupons to be attached thereto to evidence interest payments which bonds shall be signed by the Chairman of the Board of County Commissioners chairman of the board of county commissioners of the county and countersigned and registered by the County Clerk county clerk under the seal of the county, which coupons shall bear the facsimile signature of said Chairman chairman and of the County Clerk county clerk, and shall fix the

denomination or denominations of such bonds and the place of the payment of the principal and interest thereof which may be at the office of the County Treasurer county treasurer or any bank or trust company in the state of Nebraska, or in the city of New York, State state of New York. All bonds authorized by this Act act shall be and shall have and are hereby declared to have all the qualities and incidents of negotiable instruments under the "negotiable instrument" law of the State state, without, however, constituting the revenue bonds herein authorized an indebtedness of the county issuing same and such bonds shall be exempt from all taxation, state and municipal. Such bonds shall be legal investments of banks, savings banks and trust companies, of trustees and of the trustees of the sinking fund of municipalities and counties, and shall be acceptable as security for the deposit of public moneys in the same manner and to the same extent as any other negotiable bonds of any county of the state of Nebraska. The governing body of the county may provide for the registration of such bonds in the name of the owner as to the principal alone or as to both principal and interest. Such bonds may be sold in such manner as the governing body of the county may determine to be for the best interests of the county shall be offered on the open market and sold to the highest bidder, taking into consideration the financial responsibility of the purchaser and the terms and conditions of the purchase, and the availability of the proceeds of the bonds when required for payment of the costs. The proceeds of such bonds shall be deposited with such depositories as the governing body of the county shall approve and shall be secured in such manner and to such extent as the governing body of the county shall require, and shall be used solely for the payment of the costs of the bridge and costs incident thereto, as provided for in this Act, and shall be drawn upon over the signature of the Chairman of the Board of County Commissioners of the County and the County Clerk and County Treasurer thereof, and under such further restrictions, if any, as the governing body of the county may provide act. The governing body of the county shall have the right to purchase for retirement and cancellation any of such bonds that may be outstanding at the market price, but not exceeding one hundred and five and accrued interest, nor exceeding the price, if any, at which the same shall in the same year be redeemable, but all bonds redeemed or purchased out of the funds provided by the sale of bridge bonds, provided for in this Act act, shall forthwith be cancelled and shall not again be issued. Prior to the preparation of definitive bonds, the governing body of the county may under like restrictions issue temporary bonds with or without coupons, exchangeable for definitive bonds upon the issuance of the latter. The governing body of the county may enter into an agreement with any competent bank or trust company as trustee for the holders of such bonds, setting forth the

duties of the county in respect to the construction, maintenance and operation and insurance of any such bridge, the conservation and application of all funds, the insurance of moneys on hand or on deposit, and the rights and remedies of said trustee and the holders of such bonds, and restricting the individual right of action of bondholders as is customary in trust agreements respecting bonds of corporations. Said trust agreement may contain such provisions for protecting and enforcing the rights and remedies of the trustee and approval by the original bond purchasers of the appointment of consulting engineers and of the security given by the bridge contractors and by any bank or trust company in which the proceeds of bonds or bridge tolls shall be deposited, and may provide that no contract for construction or purchase shall be made without the approval of the consulting engineers. Said trust agreement may further contain provisions and covenants that all or any deposited money shall be secured as may be therein provided, by surety company bonds or otherwise, except as therein provided or shall be regulated as therein provided, and that insurance upon the bridge and all property connected therewith, and also use and occupancy insurance shall be carried to the extent and under the conditions therein provided. No election and no vote of electors shall be required upon the question of acquiring or constructing any bridges or issuing revenue bonds as authorized by this Act act, for the acquisition or construction of any bridge, if the governing body of the County county shall determine by vote of a majority of its members to dispense with such election or vote of electors as to such question. The bonds authorized by this Section section may at the option of the governing body of such county be supported by mortgage or by deed of trust covering such bridge or bridges.

Sec. 3. The governing body of any county is hereby authorized to provide by resolution for the issuance of bridge revenue refunding bonds of such county for the purpose of refunding any bridge revenue bonds or any other indebtedness of said bridge of the county which have heretofore been issued or may hereafter be issued under the provisions of Chapter 39, Article 21, C. S. Supp., 1939, and may then be outstanding. The issuance of such bridge revenue refunding bonds, the maturities and other details thereof, the rights of the holders thereof, and the duties of the county in respect to the same, shall be governed by the provisions of Chapter 39, Article 21, C. S. Supp., 1939, in so far as the same may be applicable, and by the following provisions: (a) No bridge revenue refunding bonds shall be delivered, except in the amount necessary to provide sufficient funds for the payment of any indebtedness of said bridge and for the payment of matured bridge revenue bonds or bridge revenue bonds maturing or redeemable, including any redemption premium thereon. (b) The rates of tolls to be charged for the use

of the bridge or bridges acquired from the proceeds of the bridge revenue bonds to be refunded, shall be so fixed and adjusted as to provide a fund sufficient to pay the interest on and the principal of such bridge revenue refunding bonds as the same shall become due, and to provide an additional fund to pay the cost of maintaining, repairing and operating such bridge or bridges. Any such tolls shall be continued until such bridge revenue refunding bonds and the interest thereon shall be paid or provision made for their payment.

Sec. 4. Through the exercise of the powers conferred by this act the governor of the state of Nebraska or any governing body of any county may by resolution create a bridge commission. Upon the passage of such resolution the governing body of such county shall appoint three persons who shall constitute the bridge commission of such county which shall be a public body corporate and politic under the manner of said bridge commission shall have the power to contract, to sue and be sued and to adopt a seal and alter same at pleasure, but shall not have power to pledge the credit or taxing power of the county. The said commission shall consist of three members of well known and successful business qualifications. The said commissioners shall immediately enter upon their duties and hold office until the expiration of two, four and six years respectively from the date or dates of their appointments. The term of each shall be designated by the governing body of the county, but their successors shall be appointed for the term of six years, excepting that any person appointed to fill a vacancy shall serve only for the unexpired term and any commissioner shall be eligible for reappointment. Not more than two of such commissioners shall be members of the same political party. The commissioners before entering upon their duties shall take, subscribe and file an oath of office as required by law. Such commission shall elect the chairman and vice chairman from its members and a secretary and treasurer who need not be a member of such commission. The members of the commission shall serve without compensation but shall be paid their actual expenses while engaged in performing the duties of their office and fees on a per diem basis not to exceed four dollars a day for each meeting attended on the specific call by the chairman. The commission shall fix the compensation of the secretary and treasurer in its discretion. The commission shall have power to establish by-laws, rules and regulations for its own government and to make and enter into all contracts or agreements necessary or incidental to the performance of its duties and the execution of its powers under this act. The commission may employ engineering, architectural and construction experts and inspectors and attorneys, and such other employees as may be necessary in its opinion and fix their compensation, all of whom shall do such work as the commission shall direct. All salaries and compensation shall be obligations against and paid solely from funds provided under the authority

of this act. The office, records, books and accounts of the bridge commission shall always be maintained in the county which the commission represents. Such commission may be charged by the governing body of the county with the purchase of existing bridges, the construction of new bridges or the operation, maintenance, repair, renewal, reconstruction, replacement, extension or enlargement of existing bridges, or bridges hereafter constructed or purchased. In the exercise of the power conferred by this act it is specifically provided that such commission may be created by the governor of the state of Nebraska or the governing body of any county, city or village within the state of Nebraska.

Sec. 5. Any commission may exercise the powers in this act granted in the method herein provided or in any other method in whole or in part as herein provided. The powers herein conferred are to be exercised without any restriction or limitation and these powers are supplementary and additional to powers which have been or may hereafter be conferred upon any county and are not a limitation to or in any way a restriction upon said county. The powers herein granted are in nowise a limitation upon, and the county is specifically authorized to put into effect any right or power which may be necessary for the proper conduct of its authority.

Sec. 6. The sections, provisions and parts thereof of this act are separable and are not matters of mutual essential inducement. It is the intention of the legislature to confer the whole or any part of the powers herein provided for, and if any of the sections or provisions, or parts hereof, are for any reason illegal, it is the intention of the legislature that the remaining sections and provisions or parts thereof shall remain in full force and effect.

Sec. 7. That said original Secs. 39-2101 and 39-2107, C. S. Supp., 1939, are hereby repealed.

Sec. 8. Whereas, an emergency exists, this act shall be in full force and take effect, from and after its passage and approval, according to law."

MESSAGE FROM GOVERNOR

March 1, 1941.

To the President, the Speaker, and Members of the Legislature
Gentlemen:

I desire to call your attention to a situation surrounding L. B. No. 81. This bill was introduced by Senator Otto Kotouc, Jr., and I am sure will fill a useful purpose. I wish to point out, however, that in L. B. No. 15, which was passed on the same date as was L. B. No. 81, you refer to the chief officer of the State Banking Department as "the director of banking," while in L. B. No. 81 you refer to him as "superintendent of banks."

The more recent enactments in our statutes designate the head of the Banking Department as "the director of banking," and I am, therefore, suggesting that you make a request for the return of L. B. No. 81 and that it be amended by substituting in both the title and in Section 1 the words "director of banking" for the words "superintendent of banks."

You may find, in fact, that there are many other sections of our statutes which should be amended to make this same change and it might be worthwhile, even at this late date to have it done.

I will be pleased to give my approval to L. B. No. 81, but I did feel that this discrepancy should be called to your attention.

Respectfully submitted,

(Signed) Dwight Griswold
Governor of Nebraska.

To the Speaker and Members of the Legislature

Gentlemen:

This is to advise that I have today signed Legislative Bill No. 22 which provides for the issuance of delayed birth certificates.

This legislation will immediately permit the Bureau of Vital Statistics to break the log-jam which has held up issuance of birth certificates in several thousand cases.

Your attention is called, however, to the fact that this bill does not adequately provide for the issuance of delayed birth certificates in cases of adopted children of whom there must be several thousand in the State of Nebraska, and I believe the legislature should consider the advisability of introducing further legislation to cover adopted children's cases in order that they may be given the same protection which you have already provided for the rest of the citizens in Nebraska.

Respectfully submitted,

(Signed) Wm. Edw. Johnson
Acting Governor.

MESSAGE FROM THE GOVERNOR

Legislative Bill No. 234

March 14, 1941

To the President, the Speaker and Members of the Legislature

Gentlemen:

I have before me L. B. No. 234 and find some defects in the form in which it is drawn. In the enrolled bill in line 5 of section 1 before the word "food" there should be inserted the words "through the". Without the addition of these two words the section is not in proper form.

In section 2 line 5, I would suggest that there be an amendment to show that the "distribution of commodities" which is authorized is to be "through the food stamp plan, etc." As the section is drawn, this might give county boards authority to carry on the distribution of bulk commodities, and this would involve a division of authority between the State Board of Control and the various county boards. I understand that this section is not intended to give this authority to the county boards, but I feel that the wording needs some amendment.

Section 3 is also poorly worded. The last two lines in the enrolled bill really having no meaning whatsoever. I suggest that

this bill be recalled from the Governor's office, properly amended, and then again passed.

Respectfully submitted,

(Signed) Dwight Griswold
Governor

MESSAGE FROM GOVERNOR

Veto L. B. No. 29

March 14, 1941.

To the President, the Speaker and Members of the Legislature

Gentlemen:

I am returning without my signature L. B. No. 29. My judgment is that the demand and need today is for changes in the law which will cause a better collection of taxes rather than to make it easier to postpone or evade the payment of those taxes. L. B. No. 29 is another one of those acts which invite the non-payment, or at least the delayed payment, of the obligation of the citizen to his government.

The history of this act is that a number of years ago, all real estate taxes were due in the spring and if not paid by October 1st, the fact was advertised and it was possible for tax certificates to be sold, with a penalty being inflicted upon the delinquent taxpayer.

In order to ease the burden of the taxpayer, it was provided by the Legislature in 1933 that taxes could be paid in two install-

ments, thus giving the property owner the benefit of several months additional time in the payment of one-half of his tax.

There might be some objection to the present law inasmuch as the second half of the real estate tax begins to draw interest September 1st, and if not paid, the tax certificates are advertised for sale in October.

If it be thought that one month is too short a time, then I would state that the provisions of L. B. No. 29 provide for thirteen months delay in this advertising, which is certainly too long a time. It might be well to delay this advertising for a month or two, but I do not believe that it should be delayed for twelve additional months.

If L. B. No. 29 is enacted, it would provide that if the second half of the 1940 real estate taxes is not paid it would not be advertised until October of 1942.

For the above reasons, I am declining to sign this bill.

Respectfully submitted,

(Signed) Dwight Griswold
Governor.

MESSAGE FROM GOVERNOR

Emergency Clause

March 19, 1941

To the President, the Speaker and Members of the Legislature
Gentlemen:

I notice that most of the bills passed by you carry the "emergency clause." I feel that this should not be done unless there is truly an emergency, even though there are sufficient votes for the bill to pass in that form.

Under ordinary conditions the people are entitled to due notice before a new law takes effect, and I am taking this opportunity to call this condition to your attention.

I realize that in some cases the emergency clause is needed, but more often it should be stricken from the bill.

Respectfully submitted,

(Signed) Dwight Griswold

MESSAGE FROM THE GOVERNOR

Veto L. B. No. 39

March 21, 1941.

To the President, the Speaker and Members of the Legislature

Gentlemen:

I am returning without my signature Legislative Bill No. 39. This bill was urged in order to meet the demand from one certain precinct in this state, but when the law is amended it affects the situation in all precincts and in all sections of Nebraska.

I feel that it is wrong to permit any precinct to bond itself up to eight per cent of the actual value of the property to aid in building highways. The bill provides for a seventy per cent vote in favor of the issuance of such bonds, but we must remember that a minority is entitled to protection also, and it is sometimes easy to get a large percentage majority when the property is held by only a few people.

Respectfully submitted,

(Signed) Dwight Griswold
Governor.

REPUBLICAN RIVER COMPACT

The States of Colorado, Kansas and Nebraska hereinafter designated as Colorado, Kansas and Nebraska, respectively, desiring to remove any and all causes, present or future, which might lead to controversies with respect to use of the waters of the Republican

River Basin, and being actuated by considerations of interstate comity, and by a desire to effectuate an equitable division of the waters of the Republican River Basin and the efficient beneficial consumptive uses thereof, and in consideration of the mutual advantages resulting therefrom within their respective boundaries, and pursuant to Acts of their respective Legislatures, have resolved to conclude a compact for the attainment of these purposes, and to that end, through their respective Governors, have named as their respective commissioners for the negotiating of such a compact:

M. C. Hinderlider, for the State of Colorado

The Republican River and tributaries thereof within the Basin, as hereinabove defined, are not navigable, and all uses of water of a consumptive nature, as hereinafter defined, wherever such uses may occur within the Basin, shall constitute paramount uses.

ARTICLE II.

The term "Virgin Water Supply", as herein used, is defined to be the water supply within the Basin undepleted by the activities of man.

The term "Beneficial Consumptive Use" is herein defined to be that use by which the natural water supply of a drainage basin is consumed by the activities of man, and shall include water consumed by evaporation from reservoirs, canals, ditches and irrigation areas.

Beneficial consumptive use shall be the basis and measure of the right to divert and use the natural waters of the Basin, by the citizens, agencies, associations and corporations of the signatory states, and upon this principle the following allocations of water herein made are predicated.

ARTICLE III.

There is hereby allocated to Colorado for use annually a total of fifty-four thousand one hundred (54,100) acre feet of water. This total is to be derived from the sources and in the amounts hereinafter described, and is subject to such quantities being physically available from those sources:

In addition thereto there is hereby allocated to Colorado for use annually the entire water supply of the Frenchman and Red Willow Creek drainage basins in Colorado.

There is hereby allocated to Kansas for use annually a total of one hundred ninety thousand three hundred (190,300) acre feet of water. This total is to be derived from the sources and in the amounts hereinafter described and is subject to such quantities being physically available from those sources:

And in addition thereto there is hereby allocated to Kansas for use annually the entire water supply originating in the Basin below the Nebraska-Kansas state line.

There is hereby allocated to Nebraska for use annually a total of two hundred thirty-four thousand five hundred (234,500) acre feet of water. This total is to be derived from the sources and in the amounts hereinafter described and is subject to such quantities being physically available from those sources:

North Fork of the Republican River drainage basin in Colorado, 11,000 acre feet;
Frenchman River drainage basin in Nebraska, 52,800 acre feet;
Rock Creek drainage basin, 4,400 acre feet;

The North Fork of the Republican River in Nebraska and the main stem of the Republican River between the Colorado-Nebraska state line and the Nebraska-Kansas state line, and from the small tributaries thereof, 132,000 acre feet.

The use of the waters hereinabove allocated shall be subject to the laws of the state to which the allocations are made. No state shall have the right to dictate the method of distribution or place of use of the waters herein allocated to another state.

ARTICLE IV.

The specific allocations in acre feet made to each signatory state by Article III are derived from the computed average annual virgin water supply originating in the following designated drainage basins in the amounts shown:

North Fork of the Republican River drainage basin in Colorado, 44,700 acre feet;
Arikaree River drainage basin, 19,610 acre feet;

Should the future computed virgin water supply of any source vary more than ten (10) per cent from the virgin water supply as hereinabove set forth, the allocations herein made from such source shall be increased or decreased in the relative proportions that the future computed virgin water supply of such source bears to the computed virgin water supply used herein.

ARTICLE V.

The judgment and all provisions thereof in the case of Adelbert A. Weiland, as State Engineer of the State of Colorado, et al, v. The Pioneer Irrigation Company, decided June 5, 1922, and reported in 259 U. The water decrees heretofore adjudicated to said Pioneer Canal by the District Court of Colorado in the amount of fifty (50) cubic feet per second of time is included in and is a part of the total amounts of water hereinbefore allocated to the States of Colorado and Nebraska.

ARTICLE VI.

A lower signatory state, its citizens, agencies, associations and corporations, shall have the right to construct or participate in the future construction and use of any storage reservoir or diversion works in an upper state for the purpose of regulating water herein allocated to such lower state, provided that such right is subject to the rights of the upper state, its citizens, agencies, associations and corporations, to control, regulate and use the waters herein allocated to it.

ARTICLE VII.

A lower signatory state, its citizens, agencies, associations and corporations, shall have the right to acquire in an upper state by purchase, or through exercise of the power of eminent domain, such

ARTICLE VIII.

Should any facilities be constructed in an upper state under the provisions of Article VI, such construction and the operation of such facilities shall be subject to the laws of such upper state.

Any repairs to or replacements of such facilities shall also be made in accordance with the laws of such upper state.

ARTICLE IX.

It shall be the duty of the three signatory states to administer this compact through the official in each state who is now or may hereafter be charged with the duty of administering the public water supplies, and to collect and correlate through such officials the data necessary for the proper administration of the provisions of this compact.

ARTICLE X.

The physical and other conditions peculiar to the Republican River Basin constitute the basis for this compact, and none of the signatory states hereby concedes that this compact establishes any general principle or precedent with respect to any other interstate stream.

ARTICLE XI.

This compact shall become operative when ratified by the Legislatures of each of the signatory states and consented to by the Congress of the United States. LEGISLATIVE BILL NO. 393. Placed on General File with amendments.

Standing Committee amendments to L. B. No. 393:

1. Amend the bill, page 2, by striking all of sections 1, 2 and 3 thereon and by inserting in lieu thereof the following:

“Section 1. That Section 16-302, Compiled Statutes of Nebraska, 1929, be amended to read as follows:

16-302. At the annual election held in April, 1907, a mayor, treasurer, clerk, police magistrate and water commissioner in cities not owning their own lighting plant, shall be elected by a plurality of votes for the term of two years and biennially thereafter. The council shall consist of two members for each ward, who shall be qualified electors of said city. Each councilman, before entering upon the duties of his office, shall be required to give bond to the city, with two or more good and sufficient sureties or some responsible surety company; if by two sureties they shall each justify that he is worth, at least, two thousand dollars over and above all debts and exemptions. Such bonds shall be in the sum of one thousand dollars, and shall be conditioned for the faithful discharge of the duties of the councilman giving the same, and shall be further conditioned that if the said councilman shall vote for any expenditure or appropriation of money or creation of any liability in excess of the amount allowed by law, such councilman, and the sureties signing said bond, shall be liable thereon. Said bond shall be filed with the city clerk and approved by the mayor and any liability sought to be incurred, or debt created in excess of the amount limited or authorized by law shall be taken and held by every court of the state as the joint and several liability and obligation of the councilman voting for and the mayor approving the same, and not the debt, liability or obligation of the city; and voting for, or approving of such liability, obligation or debt shall be conclusive evidence of malfeasance in office for which such councilman or mayor may be removed from office. Each councilman shall be a resident of the ward from which he is elected. All councilmen's terms of office shall commence the first Tuesday succeeding the day of election upon which day they shall assemble and organize a city council and their term of office shall be for two years, provided, at the election held in April, 1907, one councilman shall be elected from each ward for the term of two years, and an election shall be held in April of each year thereafter only for the election of councilmen; and any vacancy in the office of councilmen shall be filled at any such election: **Provided, further,** no elective officer of the city shall hold any county office nor shall he be appointed to any office created by the council, except as provided in **Section 16-313, Compiled Statutes of Nebraska, 1929, as amended by section 3, legislative bill No. 393, fifty-fifth session, Nebraska state legislature, 1941, and, if and when appointed by the local governing**

body as disbursing officer for municipally owned public utilities, the city clerk for performing the additional duties enjoined upon him by such appointment, shall receive additional compensation for so doing, as provided in Section 16-306, Compiled Statutes of Nebraska, 1929, as amended by section 2, legislative bill No. 393, fifty-fifth session, Nebraska state legislature, 1941; and the acceptance of any county office by any such elective city officer shall be a vacation of the city office so held prior to such acceptance: Provided, ; and provided further, that in any city which may hereafter become a city of the first class any councilman, whose term shall extend by reason of his prior election under the provisions governing cities of the second class, through another year, shall hold his office as a councilman from the ward in which he is a resident, as if he were elected under the foregoing provisions of this article.

The foregoing amounts shall be construed as limitations and not as fixed salaries; and other officers and employes of the city except the police judge, shall receive such compensation as the mayor and council shall fix by ordinance at the time of their employment.

Sec. 3. That Section 16-313, Compiled Statutes of Nebraska, 1929, be amended to read as follows:

16-313. The city clerk shall have the custody of all laws and ordinances, and shall keep a correct journal of the proceedings of the council; he shall also keep a record of all outstanding bonds against the city, showing the number and amount of each, for and to whom said bonds were issued; and when any bonds are purchased,

MESSAGE FROM GOVERNOR

L. B. No. 85—1939

(L. B. No. 503—1941)

March 28, 1941

To the President, the Speaker and Members of the Legislature:
Gentlemen:

It appears that in drafting Legislative Bill No. 85, Fifty-third

Session, Nebraska State Legislature, 1939, Chapter 2, Laws of Nebraska, 1939, Sec. 8-1,140, C. S. Supp., 1939, which purported to relieve stockholders in banking corporations of double liability, in keeping with the repeal of the constitutional amendment providing for such double liability, that while Sec. 8-140, *supra* was amended to conform with the constitutional amendment that Section 8-154, Compiled Statutes of Nebraska, 1929, treating with the same subject, was ignored.

Apparently Section 8-154 C. S. 1929 was regarded repealed by implication, but the Attorney General in his opinion of March 27, 1941, has indicated that there is a matter of doubt as to the authenticity of this section now remaining in the statutes and suggests that it be expressly repealed and put an end to such doubt.

I feel that this is of such importance that I am submitting a bill for the repeal of the above mentioned section and wish that its passage be expedited.

Respectfully submitted,

(Signed) Dwight Griswold
Governor

MESSAGE FROM THE GOVERNOR

Veto L. B. No. 150

April 2, 1941

To the President, the Speaker and Members of the Legislature

Gentlemen:

I am returning without my signature Legislative Bill No. 150.

The intention of this bill is to protect beaver. In my judgment, the beaver is the greatest enemy that trees have, and I feel that in the State of Nebraska it is far more important to protect the trees than it is to protect the beaver.

I have been along many streams in this state and have seen hundreds of stumps which were made by beaver, and I prefer that they be preserved in some other state.

Under the present law, without this amendment, the control of beaver is in the hands of the landowner—he can protect them or not, as he sees fit—and I feel that his judgment is better than that of a far-away commission.

Respectfully submitted,

(Signed) Dwight Griswold
Governor

MESSAGE FROM THE GOVERNOR

Appropriation for Camp Robinson

April 2, 1941

To the President, the Speaker and Members of the Legislature

Gentlemen:

There are several thousand Nebraska men in different organizations of the 35th Division at Camp Robinson, Arkansas. These men are members of the National Guard or selectees who are serving during the national emergency. They come from almost every community in the state and from all walks of life and we know they will conduct themselves creditably and that the entire state will be proud of their record.

Life in the Army is different, as we all well realize. The government will take care of the physical wants of the men, but there are other requirements which are just as necessary. Recreation and entertainment are necessities for soldiers, and I feel that Nebraska must do its part in making available some of the things that our boys need. Fathers, mothers, and friends of these men certainly desire that this be done.

I understand that in the Nebraska organizations at Camp Robinson there is a shortage of athletic and recreational equipment, and I am, therefore, recommending to your honorable body that you make available by resolution not to exceed \$4,000.00 out of the unexpended

balance previously appropriated for the maintenance of the National Guard. This sum to be spent under the direction of the Adjutant General to purchase such athletic or recreational equipment as he deems advisable.

Respectfully submitted.

MESSAGE FROM THE GOVERNOR

Congressional Districts

April 7, 1941

To the President, the Speaker and Members of the Legislature

Gentlemen:

On March 31, 1941, I sent to your honorable body a message enclosing a copy of the certificate received from the Clerk of the House of Representatives giving official information that Nebraska would, in the future, have but four representatives in the lower house of Congress. I am, therefore, recommending that there be introduced a bill or bills providing for a redistricting of the state into four congressional districts.

I further recommend that the state be divided into six districts for the election of judges of the Supreme Court and regents of the state university.

Respectfully submitted,

(Signed) Dwight Griswold
Governor.

SELECT COMMITTEE REPORTS

Congressional Districts

Majority Report

Mr. President: Your special committee appointed on March 12, 1941, for the purpose of apportioning the representatives from the state of Nebraska to the Congress of the United States into four districts of representatives to the Congress of the United States begs leave to report as follows:

1. Sensitive to the command embodied in the resolution creating this special committee, public hearings have been held and all persons interested in this apportionment have been given ample opportunity to be heard and have been heard.

2. Based on the evidence deduced at the public hearings, the undersigned, constituting a majority of your select committee, has prepared a legislative bill to amend Sec. 5-101, C. S. Supp., 1939, the relevant statute section relating to the apportionment of representatives from the state of Nebraska to the Congress of the United States, which bill is incorporated in and made a part of this report and which will be introduced contemporaneously with the filing of the report.

3. A minority of the committee do not concur in the conclusions reached by the majority of the committee, the undersigned, and will ask leave to file a minority report which your committee believes should be received so that both the majority and minority views on the matter of this apportionment may be available for the information of the body of the legislature.

4. Your special committee has completed its work and ought to be discharged forthwith.

Dated April 4, 1941.

Minority Report

Mr. President: The undersigned members of your special committee appointed for the purpose of apportioning the representatives from the state of Nebraska to the Congress of the United States into four districts, except to the majority report filed herein for the following reasons:

(1) The map proposed by the majority of the committee members fails to follow the well defined and used lines of motor and rail transportation.

(2) The proposal is unfair to the population of the present Fourth Congressional District in that it takes therefrom approximately 177,000 of population while leaving intact the present Second and Third Congressional Districts and leaves the present First Congressional District intact except for Cass County.

(3) The proposed redistricting map will set back and retard the proposed Republican Valley development and the general development of irrigation in southwest Nebraska by placing the east end of the Republican Valley in a different congressional district than that in which the proposed Republican Valley dam will be located and in dividing the territory to be irrigated under the Tri-County irrigation system. In this connection we call attention to the fact that there is only one Chamber of Commerce in Nebraska covering any considerable area of the state and primarily interested in the development of that section, to-wit, the South Platte Chamber of Commerce, the territory of which is divided by the proposed redistricting map, destroying and dividing interests, acquaintanceships and contacts which have been formed over a considerable period of years.

(4) There are no substantial north and south highways in the proposed Fourth Congressional District whereby communication between the various parts of the district can be maintained to the extent that such communication could be maintained if the state was divided by a line running from east to west.

(5) Under the proposed map the population of Hall and Buffalo counties is not treated fairly and is put into a district with which it has no common interest and is separated from the territory with which it does have a common interest both by reason of rail communication, location along the Platte River and irrigation.

(6) The proposed map does not keep in one district one of Nebraska's great industries, to-wit, the raising and feeding of cattle.

The map attached hereto as a part of this report is suggested as a division which overcomes the objections above set forth and more nearly satisfies all the interests of Nebraska without regard to politics or the interests of present or potential congressmen.

Dated April 4, 1941.

(Signed) E. M. Neubauer
Tony Asimus

Mr. Neubauer requested that the Legislative Journal list the districts and counties rather than print the map submitted, which lists are as follows:

LEGISLATIVE BILL NO. 183. Placed on General File with amendments.

Standing Committee amendments to L. B. No. 183:

1. Strike all of the bill after the enacting clause and substitute in lieu thereof the following:

"Section 1. Any political subdivision which on the effective date of this act had outstanding any unpaid judgments or registered warrants drawn against any fund or funds which were general obligations of such political subdivision, may during the years 1941 and 1942, both inclusive, refinance such indebtedness by issuing bonds and selling or exchanging the same on the basis of dollar for dollar as herein provided. It is the intention of the legislature that sections 1 to 6, inclusive, of this act shall be construed as supplemental to and cumulative with and in no wise a limitation of the powers granted to municipalities mentioned in sections 7 to 11, inclusive, of this act.

Sec. 2. Such funding bonds shall not exceed the amount unpaid on the judgment and registered warrants with accrued interest and shall bear interest at less than the rate of interest on the indebtedness funded and in no event shall the rate of interest exceed five per cent per annum.

Sec. 3. The governing body shall by ordinance or resolution entered in the minutes of their proceedings direct that public notice be given stating the amount of the indebtedness to be funded, the rate of interest it bears, and the same is to be taken up and paid off by means of funding bonds bearing interest not to exceed the rate herein specified and stating the date on which and the place where electors may file protests to such action. Such notice shall be signed by the secretary or clerk or officer of the political subdivision serving in such capacity and shall be published two consecutive weeks in at least one legal newspaper of general circulation within the subdivision and shall be posted on or in the building in which regular meetings of the governing body are held.

Sec. 4. If twenty per cent of the electors voting at the last general election shall file a protest within thirty days from the last date of publication, then in that event the question of whether the political subdivision shall issue funding bonds may be voted on at an election to be held within sixty days thereafter and said bonds shall be issued if a majority of the voters voting on the issue are in favor thereof. If a sufficient protest has not been filed within the time stated then and thereafter the governing body may issue and sell or issue and exchange the bonds herein authorized.

Sec. 5. Said funding bonds shall be negotiable and shall be redeemable and retired serially if not exceeding twenty years and shall have interest coupons attached payable annually or semiannually.

Sec. 6. It shall be the duty of the proper officers of such political subdivision to cause to be annually levied and collected a tax on all the taxable property located therein sufficient in amount to pay the principal and interest on the bonds as the same becomes due.

Sec. 7. Any city of the first class having a population of more than five thousand and less than twenty-five thousand inhabitants, city of the second class or village in the state of Nebraska, on the affirmative vote of a majority of all of the members of its local governing body, is hereby authorized and empowered to borrow money for the purpose of paying final judgments against such city or village, as the case may be, together with accrued interest thereon and to redeem outstanding warrants of the municipality, excepting from the provisions hereof warrants drawn against the fund or funds created by the annual estimate and annual appropriation bill made in the year 1940 and subsequent levy. Money so borrowed may be used for the payment of judgments or the redemption of warrants as herein provided together with accrued interest thereon, but for no other purpose whatsoever. As a means of borrowing money as herein authorized the municipality shall execute and deliver its negotiable promissory note or notes for the amount of the loan, and the amount so borrowed may draw interest at a rate not to exceed four per cent per annum payable semiannually. The note or notes shall also provide that all payment of interest and principal shall be endorsed on the back of the note.

Sec. 8. Any indebtedness incurred by borrowing money as authorized by section 7 hereof shall be paid in its entirety within a period of five years from the date of the loan, and not less than one-fifth of the principal sum together with accrued interest shall be paid each year following the date of the loan until the entire amount is paid, and the note or notes given shall so provide.

Sec. 9. Any municipality before borrowing money as by this act empowered shall, as a condition precedent to the exercise of said power, publish at least once in a legal newspaper published in or of general circulation in such city or village: (a) A statement of the total amount of unpaid final judgments against such city or village exclusive of interest and costs thereon; (b) the total amount of outstanding warrants of such city or village exclusive of interest thereon, and excluding therefrom warrants drawn against any fund or funds created by the 1940 municipal levy or subsequent levies; (c) a statement of the total indebtedness of the municipality not included in subdivisions (a) and (b) of this section and not evidenced by outstanding bonds of the city or village.

Sec. 10. Any city or village that borrows money, as by sections 7 to 11, inclusive, of this act authorized, shall annually provide funds for the payment and discharge of such obligation by appropriating therefor in its annual estimate and annual appropriation bill to pay and discharge such obligation within the time and as required by the terms and provisions of sections 7 to 11, inclusive, of this act.

Sec. 11. The power and authority of a municipality to borrow money as authorized by sections 7 to 11, inclusive, of this act shall terminate, cease and expire on the thirty-first day of December, 1941: **Provided**, the provisions of sections 7 to 11, inclusive, of this act shall be construed as cumulative with and supplemental to existing charter powers of said municipalities on the same subject.

Sec. 12. If any clause, sentence, paragraph, or part of this act shall, for any reason, be adjudged by any court of competent jurisdiction to be invalid, such judgment shall not affect, impair or invalidate the remainder of this act, but shall be confined in its operation to the clause, sentence, paragraph, or any part thereof, directly involved in the controversy in which such judgment has been rendered.

Sec. 13. That Article 11, Chapter 11, C. S. Supp., 1939, is hereby repealed.

Sec. 14. Whereas, an emergency exists, this act shall be in full force and take effect, from and after its passage and approval, according to law."

2. Strike all of the title after the word "ACT" in line 2 therein and substitute in lieu thereof the following:

"relating to revenue; to authorize the governing body of any political subdivision to fund its general indebtedness; to authorize the issuance of funding bonds not to exceed an amount lawfully owing and unpaid upon its registered warrants and judgments plus accrued interest; to provide for the maximum rate of interest the bonds shall bear; to provide the manner in which such bonds shall be issued; to provide for the levy of an annual tax for the payment of interest and principal on such bonds; to authorize and empower any city of the first class having a population of more than five thousand and less than twenty-five thousand inhabitants, city of the second class or village in the state of Nebraska to borrow money with which to pay judgments against their respective municipalities and accrued interest thereon and to redeem outstanding warrants of such city or village, as the case may be; to issue the municipality's promissory note or notes therefor; to provide for the repayment of money so borrowed; to prescribe terms, provisions, conditions and limitations upon the exercise of the power so to borrow; to provide that the provisions of sections 7 to 11, inclusive of this act shall be construed

as supplemental to and cumulative with existing charter powers of said municipalities on the same subject; to provide that sections 1 to 6, inclusive, of this act shall not be construed as a limitation on the powers conferred upon municipalities in sections 7 to 11, inclusive, therein; to repeal Article 11, Chapter 11, C. S. Supp., 1939; and to declare an emergency.”.

section 10, legislative bill No. 470, fifty-fifth session, Nebraska state legislature, 1941, and, in addition thereto shall affix his license number to each invoice of sale of refund tax gasoline that he may issue under the provisions of this act.

Sec. 5. The administrator shall prescribe the form of distributor's license to be used under this act. If any licensee hereunder violates any provisions of this act, is prosecuted for such violation and is found guilty thereof, the trial court, as part of the judgment of conviction, may, if circumstances warrant, order the revocation or suspension of the license of the licensee, so found guilty, for a period of time not exceeding one year; and in such case the court shall forthwith transmit to the administrator a certified copy of such judgment of conviction. Upon receipt of the certified copy of the judgment of conviction, the administrator shall cancel the license for the period of time that the court directs in the judgment. When the administrator cancels any distributor's license in the manner this section directs, then all books containing invoices of refund held by such distributor licensee, shall be accounted for and surrendered to the administrator.

Sec. 6. No refund of the tax shall be granted on any motor vehicle fuel to any person, claimant, firm, corporation, or otherwise, unless such motor vehicle fuel has been purchased from or used by a licensed distributor as provided in this act. The administrator is hereby prohibited from approving any claim for the payment of any refund tax gasoline on any motor vehicle fuel that is not purchased from a licensed distributor of refund tax gasoline.

Sec. 7. **Subdivision 1.** All refund tax gasoline shall be delivered by distributor only to the premises of the applicant for refund: **Provided**, that a barrel, tank or other container, properly labeled as provided in section 2 of this act, may be filled by the distributor off the premises of the permittee, if such container also bears the name of the permittee. the invoice has been dyed or chemically treated, if required by the administrator; and the amount of such other motor vehicle fuels, if any, purchased for use or usable for the purpose of generating power for the propulsion of motor vehicles, regardless of whether a refund of the tax may be due or claimed under the provisions of this act; and the manner of delivery. The invoice of refund shall show thereon such other information as the administrator may require. No refund shall be allowed unless the seller or licensee, at the time of any such delivery and not thereafter, executed such an invoice of refund.

Subdivision 2. The distributor selling refund tax motor vehicle fuel, or the licensee, in issuing invoices of refund to the user or purchaser of such motor vehicle fuel, shall make such invoices in triplicate, the original of which shall be delivered to the user or purchaser of such motor vehicle fuel for attachment to his application for refund as a part thereof; the first duplicate original shall be retained by the distributor or licensee for a period of two years, at the place or business designated in the distributor's license, in the same manner and subject to the same examination as required that other records of motor vehicle fuels be kept; and the second duplicate original shall be forwarded to the office of the administrator for his files.

Subdivision 3. Each invoice of refund issued by distributor or licensee shall be issued at the time of delivery by the distributor, licensee or his employee, and shall also be signed by the user or purchaser of such motor vehicle fuel, or by his duly authorized agent. The licensee or employee of licensee shall not sign for the purchaser when issuing the invoice of refund. Double face carbon shall be used in making up the serially numbered triplicate invoices. In filling out the invoice, distributor or his agent shall record the number of tax refund gas gallons purchased in words not figures.

Sec. 8. After a claimant purchases or acquires for use motor vehicle fuel upon which a refund of the tax may be due, he may file with the administrator an affidavit on such forms as may be prescribed by the administrator: **Provided**, the claimant shall not file more than four claims annually; **and provided further**, no claim shall be allowed after six months have elapsed from the time of the purchase. The affidavit shall include a statement as to the source or place of business or the acquisition of such motor vehicle fuel used solely for agricultural purposes; that the information stated in the attached original copy of the invoice of refund is true and correct, and the manner in which said motor vehicle fuel was used, and that no part of said motor vehicle fuel was used in propelling motor vehicles over the highways of this state and that the motor vehicle fuel for which refund is claimed was used solely for agricultural purposes as defined in section 3 of this act: **Provided**, application for refund shall in no event be considered or allowed upon a total quantity of less than forty gallons of refund tax gasoline.

The affidavit shall be accompanied by the original copy of the invoice or refund above referred to, and the administrator may require other affidavits in such form and time as he may deem advisable or refer the same to a field representative for investigation; and if he finds that all refund tax gasoline is consumed at the time claims are filed and that such claims are just and that the taxes claimed have actually been paid, then he shall within sixty days transmit all claims approved by him to the auditor of public accounts who shall forthwith draw his warrant against the gasoline tax fund in the state treasury upon the presentation of proper vouchers for each claim for reimbursement; and the state treasurer shall pay said warrants out of moneys in said fund without specific appropriation: **Provided**, no warrant shall be paid by the state treasurer after twelve months from the date thereof, and if such warrant is not presented within twelve months from the date thereof, claimant shall forfeit his right to the refund. No refund of the tax shall be allowed on motor vehicle fuel used in any registered or licensed motor vehicle or in any motor vehicle operated or intended to be operated in whole or in part upon any of the highways, roads or streets in the state or if such motor vehicle is not used solely for agricultural purposes.

Sec. 9. When the administrator has issued license to any person desiring to sell or distribute motor vehicle fuel upon which a refund of the tax is authorized, or upon which a claim is to be filed for a refund of the tax, the administrator shall issue to such licensee and distributor, a book or books, of blank invoices of refund, which invoices shall be serially numbered, and an original and two duplicates of each invoice shall be made. The administrator shall keep accurate records of the number of books of invoices of refund issued and furnished to each licensee, and the licensee shall, at all times, account for all such books of invoices of refund received by him. Any invoices of refund, mutilated or unusable, must be returned to the administrator by the distributor or licensee; and any unused invoice of refund lost or destroyed must be reported to the administrator by such licensee. The administrator shall not issue any additional books of invoices of refund to a distributor or licensee until such licensee has made proper accounting for each invoice of refund theretofore issued to him. The book of invoices of refund issued to a licensee are not transferable or assignable by such licensee unless such transfer or assignment is authorized by the administrator; and failure by such licensee to make proper accounting for all invoices or exemption issued to him by the administrator shall be cause for the revocation of his license. The invoices of refund required by this act shall be furnished, free of cost, by the administrator to the licensee or distributor. No forms of invoice of refund shall be used by the distributor of tax refund motor vehicle fuel other than those issued and furnished to him by the administrator.

Sec. 10. The administrator shall make rules and regulations

for the keeping of records of the sale, distribution and use of refund motor vehicle fuel as provided herein; and such records shall be kept by distributors, dealers and service station operators who are licensed to deal in tax refund motor vehicle fund.

GENERAL FILE (Continued)

LEGISLATIVE BILL NO. 470. Mr. Mekota offered the following amendments, which were adopted:

Strike all of said bill after the enacting clause, and all amendments thereto, and insert in lieu thereof the following:

"Section 1. Subdivision 1. When used in this act: the word **state** means **state of Nebraska**. Subdivision 2. The word **administrator** means the chief of the bureau of motor fuels who is the titular head of the division of motor fuels in the department of agriculture and inspection, as now established, or the successor to his duties and functions. Subdivision 3. The words **motor vehicles** or **motor vehicle fuels** are construed as defined in Sec. 66-401, C. S. Supp., 1939, as now existing or as hereafter amended. Subdivision 4. The word **distributor** means persons or agencies that sell and have paid the excise tax for any one purchase upon fifty gallons or more of motor vehicle fuels obtained from **dealers**, as defined in Sec. 66-401, C. S. Supp., 1939, as now existing or as hereafter amended, and retailers or both for purposes of resale at retail to consumers or users of motor vehicle fuels to be used solely for agricultural purposes; and if dealers be also distributors, that portion of their ordinary business transactions carried on as distributors shall be governed, controlled and amenable to the duties imposed by this act.

Sec. 2. **Subdivision 1.** The chief of the bureau of motor fuels shall administer and enforce the provisions of this act. He may call to his aid when necessary any member of the Nebraska safety patrol, any police officer, any county attorney or the attorney general. The administrator or his assistants, are empowered to stop and inspect motor vehicles, to inspect premises and temporarily to impound motor vehicles or motor vehicle fuels, when the same is necessary to administer the provisions of this act. **Subdivision 2.** a. Administrator. The administrator may, from time to time, make and promulgate such reasonable rules and regulations, not inconsistent with this act, as are necessary for its prompt and effective enforcement. The administrator shall have power to make rules and regulations concerning the nature and use of identifying chemicals which may be used for the purpose of identifying refund tax gasoline, and the distributor shall, in accordance with the rules and regulations of the administrator, mix identifying chemicals in all refund tax gasoline at the time of sale or purchase, which identifying chemicals shall be furnished by the administrator, without cost to distributors; and it shall be unlawful for anyone to use such refund tax gasoline or motor vehicle fuels in any motor vehicle operated or intended to be operated upon any public streets or highways of the state or for a purpose other than for an agricultural purpose as in this act defined. b. Container. All refund tax gasoline shall be placed, when delivered by distributor to purchaser, in a special storage container and each container must be labeled **refund tax gasoline** in large legible letters. c. Suspension of permit. The administrator is empowered to suspend the permit granted to any person, firm or corporation under this act at any time he suspects such person, firm or corporation violates any of the provisions thereof. d. Permit. Every person who desires to be eligible to receive gasoline tax refunds and who desires to be classified for that purpose as a purchaser and claimant as defined in paragraph (f) of subdivision 2 of this section, shall, before making any claim for a refund, make application under oath upon a form prescribed by the administrator, for such classification and for a permit to obtain such refunds. The application for classification and permit shall contain the name of the applicant, his address, his occupation, the uses to which the applicant intends to put such gasoline or motor fuel upon which he will claim refund, the make, horse power, and other mechanical description of machinery in which the same is to be used, and such other information as may be deemed necessary by the administrator who shall make a charge of one dollar for the issuing of the permit; and fund so derived shall be used for the cost of administration of this act. Provided, however, that in the event the fees collected by the administrator for the issuance of permits and licenses under this act are not sufficient to pay the costs of the efficient administration of this act, the said administrator is hereby directed to ascertain from time to time the estimated

amounts by which the cost of the efficient administration of the act exceeds the receipts from permit and license fees, and thereafter to deduct upon a pro rata basis the cost of administration from all refunds allowable under the act. Upon investigation by the administrator, if the statements contained in the application shall be found to be true, the administrator shall thereupon issue to said applicant a permit which shall be valid during the current calendar year, unless cancelled as hereinafter provided. The permit so issued shall contain a number to be given to each applicant and shall be in such form as may be prescribed by said administrator. e. Revocation of permit. If any purchaser or claimant, as defined in paragraph (f) of subdivision 2 of this section, for refund makes any false statement on any of the reports required by the administrator, or upon any application for a permit or upon any affidavit of claim for a refund, or if any recipient of a permit to obtain gasoline tax refunds uses refund tax gasoline as provided in this act in any motor vehicle upon the highways of the state of Nebraska, the administrator shall forthwith cancel recipient's permit to obtain refunds; and the recipient shall not be issued a new permit for one year from the date of such cancellation. f. Refund. Every recipient of a permit as described in paragraph (d) of subdivision 2 of this section shall hereinafter be referred to as **purchaser and claimant**, if he has paid for any one purchase the excise tax to a distributor upon forty or more gallons of gasoline or motor vehicle fuel, which gasoline or motor vehicle fuel was or is to be used solely and exclusively by such person for agricultural purposes in the state; and, as such purchaser and claimant, he shall be entitled to a refund equal to the amount of tax so paid, less the amount allocated to the state assistance fund, if any, upon compliance with the provisions of this act, and not otherwise: **Provided**, no refund shall be made to anyone other than the actual purchaser of such refund tax gasoline or motor vehicle fuel; **and provided further**, no purchaser and claimant shall be entitled to a refund unless the dealer shall have paid into the state treasury the motor vehicle fuel tax thereon.

Sec. 3. Subdivision 1. Any distributor desiring to sell motor vehicle fuel on which a refund of the tax is authorized by this act, shall, before making such sale, make application to the administrator, upon forms prescribed by the administrator and containing such information as the administrator may require, for a license to sell such refund tax motor vehicle fuel; except any person, firm, copartnership, company, agency, association, or corporation that holds an importing dealer's license in accord with Sec. 66-403, C. S. Supp., 1939, shall be permitted to handle refund tax gas without being required to obtain any further license or permit; and it shall be unlawful for any person to sell any motor vehicle fuel upon which a refund tax will be made, or is intended to be made, without first having obtained from the administrator a license to sell such motor vehicle fuel. **Subdivision 2.**

A separate application shall be made to the administrator by such distributor for each place of business from which refund tax motor vehicle fuel is to be distributed by such distributor; and the administrator shall issue a separate license for each such place of business. The administrator shall examine each application for license received by him, and, if found in due form, and if within the discretion of the administrator the applicant is entitled to such license, the same shall be issued. Specimen signatures of every distributor, truck drivers and other employees authorized to act as agents for distributor shall accompany application for distributor's license to sell refund tax gasoline. **Subdivision 3.** When such application is approved by the administrator, the applicant for license as a distributor shall be required to file oath with the administrator that he will faithfully perform and comply with the statute making provisions for the sale and distribution of motor vehicle fuel subject to a refund of motor vehicle fuel taxes. **Subdivision 4.** Each license issued hereunder shall remain in full force and effect until the first day of March following its date of issue, and annually on the first day of March, each applicant, person, or dealer, desiring to sell motor vehicle fuel upon which a refund of the tax is authorized must obtain from the administrator a license, or a renewal of his existing license, to sell such motor vehicle fuel as herein provided. Any license issued hereunder is not transferable unless such transfer is authorized by the administrator. **Subdivision 5.** Any person, as distributor, who sells motor vehicle fuel upon which a refund of the tax may be authorized, or is claimed, under the provisions of this act, without having obtained a license, as provided for under this act, shall be deemed guilty of a misdemeanor, and, upon conviction thereof, shall be fined in any sum not to exceed five hundred dollars or shall be imprisoned in the county jail not to exceed six months, or may be both so fined and imprisoned, and the trial court, as part of the judgment of conviction, may order the revocation of the license of the distributor, so found guilty, for a period of time not exceeding one year; and in such case the court shall forthwith transmit to the administrator a certified copy of such judgment of conviction. Upon receipt of the certified copy of the judgment of conviction, the administrator shall cancel the license for the period of time that the court directs in the judgment. When the administrator cancels any distributor's license in the manner this section directs, then all books containing invoices of refund held by such distributor licensee, shall be accounted for and surrendered to the administrator.

Sec. 4. Any person licensed as distributor under the provisions of this act shall be required to maintain the records prescribed in section 9, legislative bill No. 470, fifty-fifth session, Nebraska state legislature, 1941, and, in addition thereto shall affix his license number to each invoice of sale of refund tax gasoline that he may issue under the provisions of this act.

Sec. 5. No refund of the tax shall be granted on any motor vehicle fuel to any person, claimant, firm, corporation, or otherwise, unless such motor vehicle fuel has been purchased from or used by a licensed distributor as provided in this act. The administrator is hereby prohibited from approving any claim for the payment of any refund tax gasoline on any motor vehicle fuel that is not purchased from a licensed distributor of refund tax gasoline.

Sec. 6. **Subdivision 1.** All refund tax gasoline shall be delivered by distributor only to the premises of the applicant for refund: **Provided**, that a barrel, tank or other container, properly labeled as provided in section 2 of this act, may be filled by the distributor off the premises of the permittee, if such container also bears the name of the recipient of a permit to obtain gasoline tax refunds. Upon each delivery of motor vehicle fuel upon which a refund of the tax may be claimed, an invoice of refund shall be made out at the time of such delivery, which invoice shall contain a serial number, not to be repeated through any one calendar year and which invoice of refund shall state: The name of the distributor (printed or rubber stamped) selling the refund tax gasoline and his license number; the number of the permit of the purchaser; the number of gallons of motor vehicle fuel thus purchased and delivered; the date on which purchase was made; the purpose for which such motor vehicle fuel will be used or is intended to be used; the price paid for such motor vehicle fuel and the date and place of delivery; the name of the purchaser or user; the name of the agent or employee actually making the purchase, if any; the seller and place of business of seller; a statement showing that the motor vehicle fuel on the invoice has been dyed or chemically treated; and the amount of such other motor vehicle fuels, if any, purchased for use or usable for the purpose of generating power for the propulsion of motor vehicles, regardless of whether a refund of the tax may be due or claimed under the provisions of this act; and the manner of delivery. The invoice of refund shall show thereon such other information as the administrator may require. No refund shall be allowed unless the seller or licensed distributor, at the time of any such delivery and not thereafter, executed such an invoice of refund. **Subdivision 2.** The licensed distributor selling refund tax motor vehicle fuel, or the licensee, in issuing invoices of refund to the user or purchaser of such motor vehicle fuel, shall make such invoices in triplicate, the original of which shall be delivered to the user or purchaser of such motor vehicle fuel for attachment to his application for refund as a part thereof; the first duplicate original shall be retained by the distributor or licensee for a period of two years, at the place or business designated in the distributor's license, in the same manner and subject to the same examination as required that other records of motor vehicle fuels be kept; and the second duplicate original shall be forwarded to the office of

the administrator for his files. **Subdivision 3.** Each invoice of refund issued by distributor or licensee shall be issued at the time of delivery by the distributor, licensee or his employee, and shall also be signed by the purchaser and claimant of such motor vehicle fuel, or by his duly authorized agent. The licensee or employee of licensee shall not sign for the purchaser when issuing the invoice of refund. Double face carbon shall be used in making up the serially numbered triplicate invoices. In filling out the invoice, distributor or his agent shall record the number of tax refund gas gallons purchased in words not figures.

Sec. 7. After a purchaser and claimant purchases or acquires for use motor vehicle fuel upon which a refund of the tax may be due, he may file with the administrator an affidavit of claim, hereinafter called **claim**, on such forms as may be prescribed by the administrator: **Provided**, the claimant shall not file more than four claims annually; **and provided further**, no claim shall be allowed after six months have elapsed from the time of the purchase. The claim shall include a statement as to the source or place of business or the acquisition of such motor vehicle fuel used solely for agricultural purpose; that the information stated in the attached original copy of the invoice of refund is true and correct, and the manner in which said motor vehicle fuel was used, and that no part of said motor vehicle fuel was used in propelling motor vehicles over the highways of this state and that the motor vehicle fuel for which refund is claimed was used solely for agricultural purposes as defined in this act: **Provided**, claims for refund shall in no event be considered or allowed upon a total quantity of less than forty gallons of refund tax gasoline. The claim shall be accompanied by the original copy of the invoice or refund above referred to, and the administrator may require other affidavits in addition to the claim in such form and time as he may deem advisable or refer the same to a field representative for investigation; and if he finds that all refund tax gasoline is consumed at the time claims are filed and that such claims are just and that the motor vehicle fuel taxes against which gasoline tax refunds are claimed have actually been paid, then he shall within sixty days transmit all claims approved by him to the auditor of public accounts who shall forthwith draw his warrant against the gasoline tax fund in the state treasury upon the presentation of proper vouchers for each claim for reimbursement; and the state treasurer shall pay said warrants out of moneys in said fund without specific appropriation: **Provided**, no warrant shall be paid by the state treasurer after twelve months from the date thereof, and if such warrant is not presented within twelve months from the date thereof, claimant shall forfeit his right to the refund. No claim for gasoline tax refund shall be allowed on motor vehicle fuel used in any registered or licensed motor vehicle or in any motor vehicle operated or intended

to be operated in whole or in part upon any of the highways, roads or streets in the state or if such motor vehicle is not used solely for agricultural purposes.

Sec. 8. The administrator shall issue free of cost to each licensee and distributor, a book or books, of blank invoices of refund required by this act. The administrator shall keep accurate records of the number of books of invoices of refund issued and furnished to each licensee, and the licensee shall, at all times, account for all such books of invoices of refund received by him. Any invoices of refund, mutilated or unusable, must be returned to the administrator by the distributor or licensee; and any unused invoice of refund lost or destroyed must be reported to the administrator by such licensee. The administrator shall not issue any additional books of invoices of refund to a licensed distributor until such licensed distributor has made proper accounting for each invoice of refund theretofore issued to him. The book of invoices of refund issued to a licensed distributor are not transferable or assignable by such licensed distributor unless such transfer or assignment is authorized by the administrator; and failure by such licensed distributor to make proper accounting for all invoices or exemption issued to him by the administrator shall be cause for the revocation of his license. No forms of invoice of refund shall be used by the licensed distributor of tax refund motor vehicle fuel other than those issued and furnished to him by the administrator.

Sec. 9. The administrator shall make rules and regulations for the keeping of records of the sale, distribution and use of refund motor vehicle fuel as provided herein; and such records shall be kept by distributors, dealers and service station operators who are licensed to deal in tax refund motor vehicle fuel.

Sec. 10. That Sec. 66-411 (A), C. S. Supp., 1939, be amended to read as follows:

Upon receipt of the certified copy of the judgment of conviction, the administrator shall cancel the license for the period of time that the court directs in the judgment. When the administrator cancels any distributor's license in the manner this section directs, then all books containing invoices of refund held by such distributor licensee, shall be accounted for and surrendered to the administrator. Upon conviction in any court within this state of operating upon the public highways thereof any motor vehicle by using therein refund tax gasoline, the trial judge shall suspend the operator's driver's license of such convicted person for a period of time not less than twelve months.

The legislature hereby declares that it would have passed this act, and each division, section, subsection, sentence, clause, phrase, or requirement thereof irrespective of the fact that any one or more divisions, sections, subsections, sentences, clauses, phrases or requirements be declared unconstitutional.

Sec. 14. This act shall in no manner affect pending actions, either civil or criminal, founded on or growing out of any statute hereby repealed. MESSAGE FROM THE GOVERNOR

Veto L. B. No. 135

April 25, 1941

To the President, the Speaker and Members of the Legislature

Gentlemen:

I am returning without my signature Legislative Bill No. 135.

This bill would provide a means by which, through a simple majority vote, cities of the second class could become cities of the first class, and cities of the first class could become cities of the second class. At the present time, the law provides that these matters shall be decided by the taking of a proper census.

I am vetoing this bill because I feel that the tendency today is universally toward more expensive government and I do not feel that Nebraska should do anything to further this trend. What we need is more simple and more economical government rather than more complex and more expensive government.

It may be said in behalf of this bill that if the people desire their government to be of a higher class, they should have that authority, but a realistic view certainly proves that often a majority might vote for something which in the long run is not for the best interest of the community.

The classification of cities has always been a legislative function and I feel that this power should remain in the hands of the legislature rather than be thrown into the whirlpool of local politics. The worst thing that can happen to a city is to have it divided over local issues, and the operation of this law could easily make for hard feelings in many communities in the state.

The backing for this bill comes from the City of Chadron, and it is a very hard bill for me to veto because a great many of my old-time and highly respected friends are anxious for its passage. Official duty must be separated from personal friendships, however, and I feel that this precedent should not be established and this change in our statutes should not be made.

The legislature is making a fine record in the interest of economy and it is my belief that Legislative Bill No. 135 should not be permitted to operate otherwise. A city of the first class is a more expensive government than is that of a city of the second class, and one of our primary duties as public officials is to protect the interest of the taxpayer.

Respectfully submitted,

(Signed) Dwight Griswold
Governor.

Recapitulation

Property Tax	\$11,281,672.16

Federal	15,600,614.71
Estate & Per Capita Tax.....	2,318,353.82

Total	\$56,849,719.55

The Committee on Appropriations in submitting the amendments to the appropriations bill submitted by the Governor have put in a great deal of time in trying to arrive at the proper amounts which we thought should be appropriated to the different political subdivisions of our state government.

By dividing the Committee up into three subcommittees, namely; a Subcommittee to go into the needs of the Board of Control and State Institutions, a University Subcommittee to go into the needs of the University and our State Normals and the State Superintendent, and the Capitol Subcommittee who went into the needs of the different departments of our state, we have found that by going to these different departments and sitting down with the department heads, we were more able to get a true picture of the needs of these different departments.

Due to the short time which we have to bring out this bill, it is a physical impossibility to be able to analyze these needs properly, but we believe we have a much better picture of the needs than we have ever had before, due to this plan.

In arriving at these figures we have taken into consideration the requests of the different departments, also the recommendations of former Governor Cochran and Governor Griswold. The Committee thought it was necessary to increase the Governor's recommendations in some of these departments due to the increased cost of living and the steadily increasing labor costs.

The Subcommittee on the Capitol departments not only examined carefully the budget messages of former Governor Cochran and of Governor Griswold, and the requests of the various officers and administration departments, but in addition thereto the Subcommittee personally visited and inspected such offices and departments.

In some cases the Committee recommended reduction and in other cases increases. Where the increases have been made, they are largely due to increased work in the offices, requiring additional help to better handle the work made necessary by law. In some cases new equipment is needed.

The expense of maintaining the labor department has heretofore been borne by money from property taxes. A change is being made to provide that this expense shall be borne by money from the compensation court fund, there being sufficient funds available and being collected in that fund to take care of this.

The matter of maintaining and repairing the state capitol has had serious consideration. The terrace around the capitol is badly in need of repairs. This condition has existed for a good while and it is necessary to provide some funds at this time to help remedy the situation.

It is also necessary to install some new equipment for the electrical system in the state house.

A visit by the Subcommittee on the Charitable and Penal Institutions was made to each of the charitable and penal institutions of the state, and the recommendations for the charitable and penal institutions under the Board of Control was based upon the need of the institution from said examination, as well as from all available facts and figures of the operations of the Board of Control during the present and past bienniums. Population at each of the charitable and penal institutions was given consideration in determining the amounts.

It will be noted from the amount of money recommended by the Appropriations Committee to be appropriated to the Board of Control for charitable and penal institutions during the next biennium is larger than the appropriation of two years ago in a small amount. This increase was felt necessary by reason of the fact that there has been and will be an increase in the cost of supplies and for the further reason that it will be necessary that some wages be increased in order to retain the employees, this being particularly true of the lower paid employees.

The Subcommittee calls to the attention of the Appropriations Committee and the Legislature that there are four new ward buildings at our three insane institutions and one new ward building at our institution for Feeble Minded at Beatrice, which buildings have been constructed during the past two bienniums. An examination of these institutions by the Subcommittee revealed that the space made available per patient in the new wards is based upon recommendations of the American Psychiatric Association, which space per patient in the new buildings is considerable in excess in the amount of space given to each inmate in the rest of the buildings at these institutions. The population at all four of these institutions is increasing very rapidly by reason of which additional space is needed and required. It is felt by the Subcommittee that many more patients could be put in the new buildings mentioned thereby making room available for many more new patients.

The Subcommittee recommended the closing of the Nebraska Industrial Home at Milford. This recommendation is made for the reason that the average inmate population at this institution during the present biennium has been 20 or less adults and the cost per month per patient at this institution is \$55.90 and for the further reason that maternity homes are maintained particularly in Lincoln and Omaha as well as other out-state cities which are caring for the needs of the type of inmate kept at this institution other than those upon relief or assistance. The Committee found that all of the inmates admitted during the past 15 months came from homes which were receiving assistance or relief of some kind and it was the con-

clusion of the Subcommittee that the unwed mothers who have available means are not using this institution, but are going to private hospitals or maternity homes. The Subcommittee feels that if the exact number of unwed mothers in the state per biennium, was known that the number would amount to 2,500 or 3,000. The Subcommittee on Educational institutions has informed this Committee that proper arrangements have been made for the proper care and treatment of the inmates of this institution at the University Hospital. By reason of which the same care can be had at a considerable reduction in expense. The Subcommittee recommends the closing of the institution above mentioned.

The Subcommittee wishes to call attention to the fact that the penal institutions of the state of Nebraska, consist of the State Penitentiary, which is divided into two sections, the trustee section and the non-trustee section; the Reformatory for Men; the Boy's Industrial School at Kearney; the Genoa State Farm; Girl's Training School at Geneva and the Women's Reformatory at York. So far as the penal institutions for men are concerned, the state is in reality maintaining four institutions for five different groups of male prisoners. The population at the Reformatory for Men, the Industrial School at Kearney is declining rapidly. This is also true at the Penitentiary. In order that any institution may be operated and maintained economically, it is necessary that the population be maintained in a number that the pro rata administrative cost is at a minimum. This is not true at the Industrial School for Boys at Kearney nor at the Reformatory for Men. As an example the per capita cost per month at the Reformatory for Men is approximately \$31.20, while the per capita cost at the Penitentiary is approximately \$22.07. This is caused by reason of the fact that the administrative overhead is reduced by the number of inmates at the Penitentiary. The Subcommittee has called these facts to your attention and by reason of which recommends that should the population at these institutions remain of approximately the same population, which they now are, or further decline, that one or more of the penal institutions of the state should be closed and their functions combined, in the interests of economy.

The Subcommittee feels after a thorough and complete investigation of the institutions and the facts and figures considered as above mentioned that the institutions as a whole are being economically operated and maintained and that the intentions and purposes of the creation of the institutions in the state of Nebraska, are being carried out as well as can be expected. It was felt that all possible economy has been practiced by the Board of Control and the employees of the institution as near as possible in conformity with good business.

The Subcommittee of the Appropriations Committee assigned to view the needs of the educational institutions has made a careful

study of the University of Nebraska and the four State Teachers Colleges with reference to their financial requirements for the ensuing biennium. The recommendations herewith submitted are presented to the legislature stating the amount of tax funds that will be required to continue the education program on a basis, that in our opinion, the taxpayers desire to provide for the youth of this state. We have been mindful of the importance of a constructive and progressive policy in the support of education, and the wishes to the taxpayer to provide within reasonable limits for the future educational welfare of our citizenship. We have been mindful also of lowered property valuations and the burden on the taxpayers to support the University and the normal schools. We believe the people of Nebraska recognize the importance of providing educational privileges that will adequately equip those students that should meet the requirements of an intelligent citizenship.

State University: The committee is recommending the same appropriation for the general appropriation for the University of Nebraska that was appropriated two years ago. In the appropriation for 1939 the amount of \$9,000 was included for study of potato diseases, and \$12,885 for soil conservation administration. Provision for the continuance of these activities will be made by the University and necessary amounts supplied by the general appropriation funds.

The Engineering building on the campus is crowded and the building is in poor condition. During the past several years the College of Engineering has conducted a research and testing laboratory for the Board of Control and the Highway Department and also laboratory testing for adjoining states. Funds from these sources have accumulated to the amount of \$75,500 for charges in connection with the testing laboratory. The committee is recommending these funds be used for the purchase of the Bancroft school. The value of the property is estimated at \$300,000 and is conveniently located for addition to the University property.

Agriculture is the basic industry of Nebraska and the University College of Agriculture has an important relationship to provide training to those students who are preparing to fill those positions in agricultural vocations. An expanding development in the College of Agriculture is in the Home Economic department and Dietetics. About 400 women students are at present enrolled in those courses and are greatly handicapped with crowded class room and over lapping laboratory facilities. The laboratory is overcrowded and was originally intended to serve about one-third of the number of students as at present enrolled. After making a careful survey of this situation, the committee is recommending the use of the hog serum fund amounting to \$83,000, and an additional appropriation of \$77,000 for a new Home Economics Building.

In order to make the required amount available for this building and at the same time keep the amount of tax funds as low as seems practical, we are suggesting an appropriation of \$194,000 for Agriculture Extension, which is a decrease of \$14,400 from two years ago, and \$52,452.00 for soil survey which is \$3,948.00 less than was appropriated for the present biennium.

The committee recommends an increase of \$20,000 for the College of Medicine at Omaha for the purpose of opening an additional ward at the University Hospital. In our opinion this is advisable in that it will relieve the counties of caring for these patients and also provide instructional training for the students in the College of Medicine.

We feel that the Chancellor and Board of Regents are doing a fine job in working towards the endowment of our University especially in the seeking of endowment funds for the construction of buildings.

The four State Teachers colleges have received careful study by your committee. These colleges have been recognized rightly as affording the opportunity for students with limited financial means to acquire an education. We should properly call to your attention the tax funds for the normal schools which have been reduced about 37% in the last eight years. During this time the enrollment has increased. The committee feels these colleges have suffered in their instructional functions to an extent that has gone beyond sound educational policy. For the general maintenance of the Teachers Colleges we are recommending a small increase of two per cent which amounts to \$19,961.00.

Your committee considered carefully the need for repair of buildings at the Teachers Colleges. We are making certain recommendations on the basis that it is false economy to permit necessary repairs be longer delayed and the amounts approved in this report seem most necessary.

The amounts for general plant maintenance are the same for the four institutions as was appropriated for the present biennium.

For the Chadron normal, we recommend \$3,200 for a driveway and \$2,000 to repair one of the large boilers.

We request an appropriation for the Kearney normal of \$10,000 to replace plumbing and repair shower baths and roofs.

Peru: We recommend an amount of \$13,500 for a new roof on the gymnasium. This expense is necessary in our judgment by reason of the present unsafe condition of the building.

We recommend the repair of the swimming pool at Wayne which is resulting in serious damage to the building. The amounts for special repairs at Wayne are \$4,500 for the repair of the swimming pool, and \$5,500 for repair of toilets and plumbing.

RESOLUTIONS

LEGISLATIVE RESOLUTION NO. 21. Republican Valley Flood Control

Introduced by Garber of Webster, Neubauer of Harlan,
Carmody of Hitchcock

Preamble

WHEREAS, the Congress of the United States, by the adoption of acts pertaining to flood control and reclamation has recognized responsibility on the part of the federal government to control the destructive flood waters of the basins of the Mississippi and Missouri rivers; has declared this to be a national problem, and has heretofore authorized the expenditure of federal funds in considerable amounts in the area for the improvement of conditions resulting from floods and droughts, and

WHEREAS, the Republican River Valley drainage area in Nebraska, settled by people who are and have been making every effort to better their condition in the face of adverse circumstances beyond their control, comprises many hundreds of thousands of acres of valuable land which has been greatly damaged by floods and drought, and

WHEREAS, the Republican Valley in Nebraska, a part of the great drainage area of the Missouri and Mississippi rivers, has thus far received but scant federal recognition and reclamation, and

WHEREAS, as a result of the 1935 and 1940 floods in that valley, over one hundred persons lost their lives, the property loss was tremendous, and much of the vital and valuable land in the valley has been imperiled and made subject to repeated damage from flood waters, while, on the other hand, many thousands of acres in the area are in urgent need of the waste waters of the river for irrigation, the above conditions having combined to make agriculture unprofitable in the southwestern section of Nebraska, caused relief loads which counties are unable to bear, causing population losses which mean reduced land values and tax yields, and

WHEREAS, United States army engineers have assured residents of the upper Republican River Valley that they could set up a plan of flood control which would give protection to Kansas City and other points on the Missouri and Mississippi rivers as well as farm and urban property in the upper valley, by means of the constructive and comprehensive federal program for the protection of life and property from destructive floods and drought within the drainage area of the Republican river, including its tributaries, being admittedly a national

problem, which said program is needed for the control, conservation, development and beneficial use of the water and land resources of said area, NOW THEREFORE

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF NEBRASKA IN FIFTY-FIFTH REGULAR SESSION ASSEMBLED:

1. That the Congress of the United States be and it is hereby requested and urged to cause to be made full, complete and comprehensive survey and investigation into the claims of the residents of the Republican River Valley in Nebraska for flood control and reclamation therein, including the storing, preservation and distribution of the waste and flood water of said river and its tributaries for beneficial uses; and that the development of the irrigation program for the Republican River Valley be paralleled by flood control for said valley.

2. That the Congress of the United States be and it is hereby urged to make early appropriation of said funds to insure the inauguration and continuation of internal improvement projects within said valley, and that the proper federal agencies be empowered and directed to give early and careful consideration to the feasibility and advisability of constructing and maintaining dams in said area in Nebraska, including the various tributaries of the Republican river, for the said purpose of flood control, conservation and other beneficial use of the water, including that of irrigation.

3. That a copy of this resolution be spread at large upon the Journal of the legislature, and that the clerk of the legislature be directed forthwith to forward a copy of this resolution, properly authenticated and suitably engrossed to the President of the United States, the Vice President of the United States, to each congressman and senator from the state of Nebraska, to the chief of the army engineers, Washington, D. C., to the Mississippi Valley Flood Association, to the National Rivers and Harbors Congress and to the National Reclamation Association to the end that each of these federal officials and agencies may know and recognize that the problem of the Republican Valley flood control is serious and that without flood control from which can flow irrigation and soil conservation, this area may become entirely destitute.

Mr. Garber moved that the rules be suspended and that Legislative Resolution No. 21 be adopted.

The motion prevailed with 32 ayes, no nays, 11 not voting.

Legislative Bill No. 341.

MESSAGE FROM THE GOVERNOR

Veto L. B. No. 130

April 29, 1941

To the President, the Speaker and Members of the Legislature

Gentlemen:

I am returning without my signature Legislative Bill No. 130. I am vetoing this bill because I feel that the time must come when we will reward those who pay their taxes on time rather than to continue to reward those who fail to do so. Living as I have in a strictly agricultural community, I realize as well as anyone that this state has been undergoing a depression. However, it seems to me that when we pass legislation we must adopt a long-time view of the matter and think, not only of the immediate present, but rather of the many years yet to come.

Many have urged me to sign Legislative Bill No. 130 because it would mean the collection of many taxes during the period ending July 1, 1942. I believe that it would accomplish that immediate purpose. We have, however, had several tax moratoriums, and have

gotten to the point where the people expect another one to be provided, and if this bill becomes a law, I am confident that beginning July 1, 1942, there will be very little tax money collected, as the people will expect the 1943 legislature to provide for another moratorium.

It is somewhat like a person getting the habit of using opiates. When they are deprived of this stimulant, that very fact creates a condition which makes it almost necessary that it again be administered. A circle is formed to which there is no end, and it appears to me that if we desire to stop this condition we had better stop right now. Many people have told me that they realize L. B. No. 130 is bad legislation but they would like to have it put into effect for one additional period. That is exactly the same argument that was presented to the legislature previously, and I feel that it is the same argument which will be presented to the legislature in 1943 if this bill becomes a law.

The argument favoring this bill tells of the plight of Nebraska farmers. The fact is that the farmers are not the people who have urged this measure on me. It appears that most of those interested in this legislation have taken property back under foreclosure or are interested in doing that in the future. This bill would permit them to settle their taxes with only a partial payment and it would be of no benefit whatsoever to the farmer, who is losing his property.

After all, it must be admitted that the real burden to the property owner is the amount of tax levied and not the interest on that tax. This bill only proposes to lower the amount of interest to be paid, and it does not reduce the principal. I feel that if we are willing to look ahead for a few years, we will all realize that this legislation is not proper and in the long run will not be for the best interests of the people of this state.

Respectfully submitted,

(Signed) Dwight Griswold
Governor

MESSAGE FROM THE GOVERNOR

Work Projects Administration in Nebraska

May 1, 1941.

To the President, the Speaker and Members of the Legislature

Gentlemen:

During 1935 and 1936 the Bureau of Child Welfare, and since 1937, the Board of Control have been the official sponsors of the Statewide Recreation Program which is a project conducted by the Work Projects Administration.

This project assists the local communities in providing supervised recreational opportunities for children and adults. During the past year this project employed approximately 675 persons in 153 separate communities in the State of Nebraska. Over a million persons in the State participated in the Recreation Program last year. The total cost of the project was \$674,124.00. Of this amount, the Federal Government through the Works Projects Administration furnished \$538,124.00 and the local co-sponsors (usually the City Council of the various towns) furnished approximately \$136,000.00.

In April of this year the Board of Control submitted to the Work Projects Administration a new project proposal to continue the Recreation Project for the ensuing year. The new project was to provide employment for 730 persons for one year and calls for an expenditure of \$103,000.00.

Operating Procedure No. G-1 of the Work Projects Administration, Section 6, provides that "projects shall be sponsored by a Federal Department, a State, political subdivision thereof, or a legally constituted public agency of the State or political subdivision and those types of agencies or bodies specifically authorized as eligible sponsors by the current Emergency Relief Appropriation Act. The sponsoring agencies shall have the legal authority to engage in the work embraced in the project in the area covered by the application."

In Section 7 of the same procedure, the regulations state that "A sponsoring agency is considered to have legal authority to perform an act if it derives such authority from a constitutional source, by legislative action, or by virtue of delegation from other public agencies."

When the Washington Office of the Work Projects Administration was reviewing the new project proposal, they raised the question as to whether or not the laws of Nebraska gave the Board of Control the authority to sponsor a recreation project. They asked that a ruling be secured from the Nebraska Attorney General's Office indicating whether or not the Board of Control under the laws of Nebraska has authority to sponsor such a project. This matter was discussed with the Attorney General's Office and it is the opinion of the Attorney General's Office that the Board of Control is not authorized to conduct or sponsor recreation activities under the existing laws. It is also the opinion of the Attorney General's Office that under

existing statutes there is no department in the State of Nebraska who now has legal authority to sponsor such an activity. Therefore, if the State of Nebraska is to be in a position to take advantage of such WPA projects as the Statewide Recreation Program, it will be necessary for the legislature to enact appropriate legislation which will enable the State or Department thereof to conduct such an activity.

In view of the Federal regulation relative to requirements for eligible sponsorship of Statewide projects, it is felt that some of the other programs which are now sponsored by the various State Departments will be in jeopardy unless suitable legislation is passed which will give the State or department, or agency of the State the authority to sponsor such activities. Some of the Statewide projects now in operation which may be affected by the regulations relative to the authority of sponsors to conduct the activities are:

- (1) The Public School Library Project which is sponsored by the State Department of Public Instruction. The purpose of the project is to provide library services to the public schools. At the present time this project employs 119 workers and operates in 52 schools in Nebraska. The present project proposal calls for the expenditure of \$262,372 of Federal funds and \$88,600 of local co-sponsor's funds.
- (2) The Public Library Service Project which is sponsored by the Nebraska Public Library Commission. The purpose of this project is to augment the services performed by existing public libraries and to extend library services to those areas which do not now receive such services. The present project provides for the employment of 125 persons and calls for a total expenditure of \$275,173.00 of which \$208,017 is to be provided by Federal funds and \$67,156.00 is to be provided by the local co-sponsors.
- (3) The Statewide Sewing Project which produces clothing for needy persons in Nebraska and which is sponsored by the State Board of Control. During the past year, this project employed an average of 1500 workers. The project operates in 60 counties in Nebraska. During the past year this project produced over a million garments. Under the present project proposal, the Federal Government is to provide \$1,128,014.00 and the local co-sponsors are to provide \$374,416.00.
- (4) The Statewide Cleaning and Renovating Projects which are sponsored by the State Superintendent of Public Instruction and the State Public Library Commission. The purpose of this project is to clean and renovate and repair the interior of schools, libraries, and other public buildings which have been allowed to deteriorate because of lack of funds for

proper maintenance. Seven hundred and fifty workers are employed on this project. Since the beginning of this project 150 public buildings have been cleaned or renovated. The present project is written for an expenditure of \$893,170.00 of Federal funds and \$186,740.00 of local co-sponsors funds.

- (5) The Commodity and Stamp Distribution Project which is sponsored by the State Board of Control. The purpose of the project is to distribute surplus commodities to needy persons and public agencies throughout the State of Nebraska. The project employs 256 persons and operates in 52 counties in the State. The present project proposal provides for an expenditure of \$234,270.00 of Federal funds and \$159,040.00 of funds provided by the local co-sponsors.
- (6) The Statewide Matron Service and School Lunch Project which is sponsored by the State Superintendent of Public Instruction. The workers on this project prepare and serve school lunches to children in the public schools. At the present time, it operates in 120 Nebraska schools. The present project is written to provide for an expenditure of \$343,538.00 of Federal funds and an expenditure of \$115,280.00 of local co-sponsor's funds.
- (7) The Housekeeping Aide Project which is sponsored by the Board of Control. This project furnishes free home assistance in general housework, care of children, and simple home care of the sick to needy persons where the home maker is incapacitated to perform these duties. This project employs 337 persons. The project proposal provides for an expenditure of \$224,280.00 of Federal funds and \$75,610.00 of local co-sponsor's funds.

During the ensuing year the following records projects now in process of formation will require the sponsorship of a State Department, since they are designed to provide a uniform type of service to local, county, and city governments.

- (1) A Statewide project to prepare reference indexes for County Clerks, County Judges, Clerks of District Courts, City Clerks, and other local officials. This project will provide for the employment of approximately 150 persons at a total estimated expenditure of \$205,000.00 of Federal funds.
- (2) A Statewide project to install cumulative pupil personnel records and cumulative teachers' service records in Nebraska public schools. This project will provide for the employment of approximately 100 persons at a total estimated expenditure of \$120,000.00 of Federal funds.

- (3) A Statewide project to prepare new records of real property administration; such as, deed and mortgage indexes, tax records, property identification maps, etc. for Registers of Deeds, County Clerks, and County Treasurers. This project will provide for the employment of approximately 75 persons at a total estimated expenditure of \$100,000.00.

The function of the official Statewide sponsors mentioned in this report is to cooperate and advise with the Work Projects Administration in the planning, developing, and operating of various programs. Each Statewide project is divided into local operating units, and some local public agency such as the city, county, library, or public school acts as the co-sponsor of the various local units. In most instances the local co-sponsor furnishes the sponsor's share of the cost of the project as provided in the project proposal.

During the calendar year of 1940, Nebraska received \$2,277,226.50 from the Federal Government to provide the services rendered by the Statewide projects sponsored by the State Departments previously mentioned.

In order to make certain that the State of Nebraska will be in a position to take advantage of any of these programs which the citizens feel would be of value to them, I am submitting herewith a proposed bill which has been approved by the Attorney General and by the officials of the Work Projects Administration. I recommend that it be enacted into law. There is no additional expense to the state involved in its passage.

Respectfully submitted,

(Signed) Dwight Griswold
Governor

Legislative Bill No. 375

GENERAL FILE

Speaker Howard presiding

LEGISLATIVE BILL NO. 282.

Insert the following clause following line 39, at end of Section 3. "No licensee shall enter into any contract of loan under this act under which the borrower agrees to make any payment of principal more than twenty-one months from the date of making such contract on loans of three hundred dollars or less, or more than twenty-five months from the date of making such contract on loans in excess of three hundred dollars, and every such contract shall provide for repayment of the amount lent in substantially equal installments, either of principal or of principal and charges in the aggregate, at approximately equal periodic intervals of time; provided, however, that charges may be received at the rate contracted for in the loan contract until the loan is fully paid".

Explanation of Vote

Introduced by Wm. A. Metzger of Otoe

Preamble

WHEREAS, certain residents of Lincoln owning property abutting upon and adjacent to Fifteenth Street and between K and O Streets, in the City of Lincoln, Nebraska, have allowed their properties to become run down and neglected because of the popular misconception that the state of Nebraska is going to purchase some or all of those properties, and

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF NEBRASKA IN FIFTY-FIFTH REGULAR SESSION ASSEMBLED:

1. That this legislature respectfully petitions, memorializes and urges the city of Lincoln through the members of the city council and zoning board thereof to enact such zoning ordinances as will correct the objections recited in the preamble of this resolution; and that the zoning ordinances of the city of Lincoln be so revised that the owners of such run down and neglected properties be compelled to keep up their properties so as to be a credit to the city of Lincoln and to the beautiful capitol building and grounds of the state of Nebraska.

2. That this resolution be spread at large upon the journal of this legislature and that the clerk of this legislature is hereby ordered and directed forthwith to forward a copy of this resolution, properly authenticated and suitably engrossed, to the mayor of the city of Lincoln as presiding officer of the city council of the city of Lincoln, and to the zoning board of the city of Lincoln, to the end that the proper officers of the city of Lincoln may be advised that this legislature considers as imperative remedial legislation by the city of Lincoln, to revise the zoning ordinances of the city of Lincoln as outlined herein.

Report of Special Committee

For Investigating the Permanent School

Funds of the State of Nebraska

To the Fifty-fifth Session of the Nebraska Legislature:

Pursuant to Legislative Resolution No. 12, adopted March 7th, 1941, your Committee has investigated the administration of the State's Educational Lands and Permanent Trust Funds. The subject is so vast and so complicated, and the time and facilities at the disposal of the Committee have been so circumscribed that no exhaustive investigation has been possible. The Committee has made use of records and materials supplied by the Governor, the Auditor of Public Accounts, the State Treasurer, the Board of Educational Lands and Funds, and of the report on **The Administration of State School Lands and Public Trust Funds**, prepared by the Nebraska Legislative Council. Four open hearings were held, at which testimony was presented, in addition to numerous informal conferences with interested parties. Conscious of its limitations, however, your Committee submits herewith its report, together with the supporting documentary evidence.

Statement of Lands and Funds

The State's lands and public trust funds are administered by the Board of Educational Lands and Funds. These properties may be roughly classified as follows: (1) Permanent land endowment of 1,633,412 acres, and an equity in some 61,000 acres which are under sale contract but not fully paid for; (2) Permanent trust funds, represented by bonds and uninvested cash, derived primarily, so far as the educational funds are concerned, from the early sale of lands; and (3) Current, or temporary trust funds, representing the income derived from the lands and investments.

The temporary trust funds are distributed semi-annually to the public schools and educational institutions, hence do not figure in the permanent assets of the State. The "book" value of the permanent endowments, on December 31st, 1940, was as follows:

Table No. 1

Leased lands (1,633,412 acres).....	\$ 6,373,116.22
Equity in sales contracts.....	695,911.20

Bonds	13,722,055.57
Uninvested Cash	614,890.99
Total	<u>\$21,405,973.98</u>

The bonds, totaling \$13,722,055.57, are held for the various endowment funds as follows:

Table No. 2

Trust Funds Invested (Bonds)

Agricultural College Endowment.....\$	637,550.00
Bessey Memorial	5,000.00
Normal School Endowment.....	81,450.00
Permanent School Endowment.....	10,872,582.44
Permanent University	282,040.00
Soldiers Relief	1,843,433.13
Total	<u>\$13,722,055.57</u>

The actual value of these endowments is problematical. The study made by the Legislative Council suggests that the true value of the leased lands is somewhat greater than the appraised value. On the other hand, some of the bonds held are of questionable value. The Legislative Council report further suggests that the State has suffered substantial losses in the handling of its leased lands, but your Committee has made no independent investigation of this matter, confining its consideration to the bond investments and cash accounts.

Investment Losses

The records disclose that there have been considerable losses in the handling of these trust funds. In at least one notable case, during the latter part of the Nineteenth Century, a heavy loss resulted from misappropriation of funds. In another case, that of the Whitney Irrigation District, the State, in conformity with a Federal court order, charged off \$39,024.00 in principal, and all accrued interest, due to the bankruptcy of the issuing authority. Some of the bonds now held have declined in value, and hence represent losses which have not been adjusted or charged off. Still other losses have resulted from questionable administrative practices. The exact extent to which the trust funds have suffered has never been definitely established, and the State, despite its constitutional mandate to make good all such losses, has never made restitution.

On the surface, the bond accounts do not present an unfavorable appearance. The Auditor's report shows that, as of December 31st,

1940, the total delinquent principal on these bonds was only \$151,260.00, and the delinquent interest amounted to \$30,795.33. In dealing with nearly \$14,000,000.00 worth of bonds, these delinquencies do not seem at all excessive. It is the opinion of the Committee, however, that the situation is much less favorable than these figures would indicate, since it seems to have been the practice to refund bonds as they become delinquent. This extends the time of payment, and prevents unsafe or worthless bonds from showing on the record as being delinquent. Sometimes this seems to have been done primarily for the purpose of preventing the record from showing delinquencies. Refunding is resorted to not only to take care of the principal, but of the interest as well. For example, bonds to the amount of \$103,750.00 which were issued in payment of delinquent interest, are now carried in the temporary funds as "cash".

The bonds now held bear interest at rates varying from one-half of one per cent to six per cent. Contrary to generally accepted practice, the bonds of the most doubtful value often carry the lowest interest rate. Bonds may have been issued years ago, to bear interest at the rate of five per cent or six per cent, but if, at maturity, the municipality is unable to pay, they are refunded, often at a rate as low as one-half per cent.

The Committee did not attempt to list all questionable administrative practices, or to catalogue all of the worthless or depreciated bonds now held. A few examples may be cited, however, by way of illustration.

North River Irrigation District. Between May 25th, 1920, and July 20th, 1923, the Board of Educational Lands purchased bonds of the North River Irrigation District in Garden County totaling \$145,000.00 at six per cent interest. On June 10th, 1930, the entire issue was refunded, the first series to become due January 1st, 1931. On November 12th, 1935, the Board again permitted the refunding of the entire issue, plus \$37,000.00 delinquent interest, at the rate of two per cent. The irrigation district now owes the State \$205,513.71 in principal and interest on this original issue. A report by the State Auditor on the financial affairs of the district offers little hope that anything can be realized on these bonds.

Short Line Irrigation District. The State now holds, for its permanent trust funds, \$55,000.00 in bonds of the Short Line Irrigation District, in Morrill County, bearing one-half per cent interest, and \$16,993.00 in bonds of the same district, at the same interest rate, for its temporary trust funds. It likewise holds \$12,000.00 one-half per cent bonds of Drainage District No. 1, in Lincoln County, for the temporary school fund.

Village of Spencer. Between 1923 and 1931, the State bought,

for its several trust funds, Spencer bonds totaling \$166,849.47, at interest rates varying from 4.15 per cent to 7 per cent. Today, the State holds Spencer refunding bonds amounting to \$200,880.95, at one-half per cent for the first ten years, and one per cent for the next ten years, representing the principal and accrued interest on the original issues. The financial conditions of the City is such that little return can be expected. Some of the bonds were bought after it should have been obvious that payment was unlikely.

Village of Newport, Rock County. The State holds \$13,000.00 of Newport bonds at $5\frac{1}{2}$ per cent, and \$175,000.00 at $2\frac{1}{2}$ per cent in the Permanent School Fund, and \$1,000.00 at $2\frac{1}{2}$ per cent in the Temporary School Fund.

Village of Scotia, Greeley County. The State holds \$4,000.00 in 4 per cent bonds in the Permanent School Fund, \$500.00 in 4 per cent bonds in the Temporary School Fund, and \$500.00 in 4 per cent bonds in the Temporary Soldiers' Relief Fund.

The law requires that the principal, or permanent investment funds be kept intact, and that the income from these funds be distributed to the public schools and institutions of higher education. Thus where bonds are held in the temporary trust funds, it would appear that the Board of Educational Lands and Funds has permitted some of the governmental units to pay interest on their bonds merely by issuing more bonds, and these at an abnormally low rate of interest. Why this practice has been followed is a question that should, perhaps, receive further attention.

Village of Wynot. Purchase of refunding Light and Powers Bonds of an unspecified amount was authorized September 14th, 1927, at a premium of \$420.00, apparently 4.2 per cent. The Minutes of the Board do not show either the amount of bonds purchased, or from whom purchased. The State now holds \$9,000.00 of these bonds, with approximately \$1,968.75 interest due. Because of the low assessed value of property in the village, and the high rate of tax delinquency, the possibility of making any substantial collection on these bonds is very remote, and the Auditor's recommendation is that they be charged off and declared a loss.

Village of Bloomington. On July 11th, 1928, the Board of Educational Lands and Funds authorized three purchases, as follows: \$18,700.00 of Village of Bloomington District Paving Bonds; \$14,000.00 of Village of Bloomington Intersection Paving Bonds; and an unspecified amount of Village of Bloomington Intersection Bonds. On the first purchase, a premium of 2.7 per cent, or \$498.75 was paid; on the second, a premium of \$541.25, or about 4 per cent; and no premium is mentioned in connection with the third purchase. The record does not disclose from whom the purchases were made. The

State now holds \$19,200.00 of these bonds, all of which are delinquent, with approximate interest due of \$4,379.50, making a total obligation of \$23,579.50. Practically no paving assessments are being paid. A study of the population, assessed valuation, and tax delinquency, coupled with the fact that there is an overlapping school district debt of \$27,000.00 suggests that little return can be expected from these bonds, and the Auditor recommends that they be charged off.

Village of Magnet. On October 30th, 1922, purchase of two bond issues was authorized: Village of Magnet Electric Light and Electric Transmission bonds, \$11,000.00; and Village of Magnet Refunding Water bonds, \$2,500.00. A premium of \$210.00, or slightly less than 2 per cent was paid on the first purchase, and no premium on the second. The record does not disclose from whom these purchases were made. The State now holds \$13,500.00 of these bonds, or all the original issue, part of which are delinquent, and interest due amounts to approximately \$4,687.50, or a total obligation of \$18,187.50. The population of the village is only one hundred and fifty-two (152), and the assessed valuation \$74,660.00, with tax delinquency very high, in many cases amounting to more than the value of the property. It seems highly improbable that these bonds will be paid, and the State Auditor recommends that they be charged off.

Normal School Dormitory Bonds. In the late 1930's, the State purchased Normal School Dormitory bonds in the amount of \$564,000.00, at 3 per cent interest. At that time, there were outstanding \$216,000.00 in bonds of an earlier dormitory issue of \$728,000.00, but held by private investors. In September, 1940, the Board of Education for State Normal Schools proposed to refund the bonds held by the State at 2½ per cent, which the Board of Educational Lands and Funds rejected. Later, however, the balance outstanding on the two issues was refunded as one issue, at 2½ per cent, with a bond brokerage company acting as intermediary in the transaction. The Normal School Board paid the bond company \$2,964.50 for its services. The Board of Educational Lands and Funds finally agreed to accept the refunded 2½ per cent bonds, but by that time all but \$503,000.00 worth had been disposed of. Separate interest coupons were printed for the first two years, bearing 2 per cent and one-half per cent, respectively. The one-half per cent coupons were detached by the bond company, and retained as commission.

Your Committee finds the conduct of the bond company in this transaction to have been regular. It was employed by a state agency, and charged a commission for its services, as it would have charged any other client. It is not readily apparent, however, why the Board of Educational Lands and Funds could not have dealt directly with the Normal School Board, and saved the \$5,030.00 paid in commissions. It is true that the Normal School Board profited to the extent of

\$36,000.00 in the reduction of interest, and the bonds now held are better secured than the ones refunded, since the two issues were combined and the major portion of the earlier issue had already been retired. Nevertheless, the \$564,000.00 issue was considered safe enough to justify direct refunding. Therefore, the necessity for employing the bond company as an intermediary in the transaction is not apparent to the Committee.

Findings and Recommendations

The foregoing list of depreciated bonds and questionable transactions is not exhaustive, by any means. We have merely described the ones which came to our attention and were investigated by us. A complete check would, no doubt, reveal many more of a similar nature. Substantial revenues have been derived from these funds, but many losses have been sustained, and commissions have been paid to bond brokers when they might have been saved to the State.

The Committee recognizes that the blame for losses should not be attributed solely to the Board of Educational Lands and Funds. Any investing agency, whether private or governmental, will make errors of judgment, and will suffer losses therefrom. Furthermore, the Board cannot be held accountable for the general economic conditions which have, in recent years, forced interest rates down and made a certain amount of delinquency and refunding at a lower rate inevitable. Nevertheless, the information which has been presented to the Committee is such as to suggest that an *ex officio* board is not a suitable agency for the direct administration of the State's lands and trust funds. Its members are apt to be absorbed primarily in the duties of their regular offices. They are not likely to have the highly specialized knowledge which is needed, or the time to acquire such knowledge. Under those circumstances, despite the high character and good intentions of individual members, the Board's records are apt to be incomplete, its responsibility diffused, and its business methods inadequate. Your Committee is pleased to report, however, that the present Board has shown a renewed interest in the State's trust funds, and that a marked improvement has been made in the Board's system of record keeping and general office administration. With the increased funds provided for the Board in the present appropriations bill, it is hoped that further improvements can be made.

In light of the foregoing considerations, your Committee recommends that:

1. The Legislature, pursuant to its mandate in the State Constitution, make immediate provision for reimbursing the trust funds for the losses which they have suffered, in so far as such losses can be determined.

2. The Board of Educational Lands and Funds be instructed to institute proceedings through the Attorney General, on all bonds that are of questionable value, in order that the State's interest may be protected, and further that the Legislature consider the desirability of enacting additional measures providing for methods of liquidating such bonds.

3. Legislation be enacted to provide for the employment of a qualified person to advise and assist the Board of Educational Lands and Funds in the purchase of bonds, the leasing of lands, and all matters relating to the administration thereof.

4. The Board of Educational Lands and Funds be instructed to complete the reappraisal and classification of school lands as authorized in Sec. 72-204, C. S. Supp., 1939.

5. The practice of refunding bonds, and including delinquent interest with principal, for the purpose of effecting a technical reduction of delinquency, be immediately discontinued; and

6. That the practice of carrying bonds issued to cover delinquent interest or principal as "cash" in the trust funds, be discontinued.

LEGISLATIVE BILL NO. 482. Mr. Asimus offered the following amendments:

1. Amend the bill by striking all of the text of said bill after the enacting clause and by inserting in lieu thereof the following:

"Section 1. There is hereby levied and imposed an excise tax of five cents per gallon on all users of motor fuels not subject to the motor vehicle fuel tax laws of the state of Nebraska upon the use of such fuels by the owner of any motor vehicle, as defined by the laws

of this state, or the agent of such owner, hereinafter called the user, only when such fuels are used for the generation of power to propel such motor vehicles upon the public highways of the state: **Provided**, that no tax is hereby imposed upon any fuels that are used by the United States of America or its agencies.

Sec. 2. Motor fuels, subject to tax under the provisions of this act, shall not be subject to any tax levied under the provisions of Secs. 66-405, 66-411 and 66-416, C. S. Supp., 1939, as amended.

Sec. 3. It shall be unlawful for any user of fuels, not subject to the motor vehicle fuel tax laws of this state, to use or consume such fuels unless such user holds an uncanceled license issued by the chief of the division of motor fuels, department of agriculture and inspection, hereinafter called the "administrator". To procure such license, such user shall file with the administrator an application under oath and in such form as may be required by the administrator. Said application shall give the name and address of the applicant, the name and address of the owner, if application be made by an agent, the maker's name and description of the vehicle or vehicles in which such fuel is to be used, the nature of the operations in which such fuel is to be used and such other information as may be required by the administrator for the administration of this act. Concurrently, each applicant shall file with the administrator a bond: (1) In the amount of five hundred dollars on a form to be approved by the administrator, and (2) with a surety company approved by the administrator as surety thereon, and (3) upon which said owner, or his agent, shall be the principal obligor and the state of Nebraska shall be the obligee, and (4) conditioned upon the prompt filing of true reports and the payment by such owner, or his agent, of any and all taxes which are now or which hereafter may be levied or imposed by the state of Nebraska, together with any and all penalties and interest thereon, and generally upon faithful compliance with the provisions of this act.

Sec. 4. For the purpose of determining the amount of tax herein imposed, each user shall file a report with the administrator, not later than the fifteenth of each month. Said report shall be in a form prescribed by the administrator and shall be sworn to by the user, and shall include the total gallonage of fuels, not subject to the motor vehicle fuel tax laws of the state of Nebraska, used to propel motor vehicles upon the public highways of the state during the next preceding calendar month, and, shall pay to the administrator the full amount of the fuel tax as computed at the rate provided in section 1 of this act. If no such fuels were used, the report will so state.

Sec. 5. If any user shall submit a false report or shall fail refuse or neglect to file the monthly report required by this act or

to pay the full amount of the tax as required by this act, the administrator may forthwith cancel the license of said user. The administrator shall have the power to cancel any license upon the written request of the holder and the surrender of the license and upon assurance that all the requirements of this act have been met by the licensee. If there is no claim against the licensee at the end of sixty days after the license has been cancelled and surrendered, the bond likewise shall be cancelled and surrendered.

Sec. 6. Any person, partnership, corporation or association that shall hereafter engage in the retailing of motor vehicle fuel, not otherwise subject to the tax laws of the state of Nebraska, shall first make application to the administrator, conforming to the requirements of said administrator, for a dealer's permit to retail such motor vehicle fuel. Upon receipt of such application, the administrator shall issue a permit to the applicant authorizing the dealer to sell at retail motor vehicle fuel, not subject to the tax laws of the state of Nebraska, to any holder of user's license, as provided in this act, and to nonresident motor vehicle operators holding temporary users' licenses as authorized by this act: **Provided**, the provisions of this act shall not be held to apply to the retailing of such fuel by such dealer for use other than the propulsion of motor vehicles over the public highways of this state. All such dealers shall file a report with the administrator, not later than the fifteenth day of each month. The report shall be on a form prescribed by the administrator and shall be sworn to by the dealer and shall include the total gallonage of fuels, not subject to the tax laws of this state, sold by said dealer for use in the propulsion of motor vehicles on the public highways of this state during the next preceding calendar month. If no such fuel is sold by said dealer, the report shall so state.

Sec. 7. All persons operating a motor vehicle on the public highways propelled by a fuel, not subject to the tax laws of this state and from states other than Nebraska, and not holding a user's license as herein provided, and entering Nebraska shall secure from the port of entry where entrance into Nebraska is made, a temporary user's license and duplicate receipts to be supplied by the administrator. Whenever such person shall purchase or acquire any motor vehicle fuel, not subject to the tax laws of this state, he shall execute and deliver to the dealer of such fuel one of the receipts furnished him, retaining the duplicate thereof. The dealer shall include all such receipts in his monthly report to the administrator. Upon leaving this state, the nonresident operator shall account to the port of entry of his departure for all motor vehicle fuel, not subject to the tax laws of the state of Nebraska, purchased or acquired by him while within this state and shall surrender his receipts and shall pay the amount of the tax due on such motor vehicle fuel so purchased or acquired

in this state: **Provided**, any nonresident operator, as herein defined, may secure a user's license by complying with the provisions of this act.

Sec. 8. Any person, who violates the provisions of this act, shall be deemed guilty of a misdemeanor, and, upon conviction thereof, shall be fined in any sum not less than five dollars nor more than one hundred dollars.

Sec. 9. Any user who shall fail, refuse or neglect to file monthly reports on or before the time fixed in this act for the filing thereof, or who shall fail, refuse or neglect to submit the data outlined in section 5 of this act in such monthly report, or who shall fail, refuse or neglect to pay the amount of tax due at the time stipulated by this act, shall be assessed and required to pay a penalty of fifty per cent of the amount of the delinquent tax and such penalty shall accrue immediately, and such tax and penalty shall bear interest at the rate of one per cent per month until paid: **Provided**, that a minimum penalty of twenty-five dollars may be assessed for the violation of any of the provisions of this act regardless of the amount of taxes, if any, due the state.

Sec. 10. Whenever user shall fail, refuse or neglect to make and file any report for any calendar month as required by this act, or shall file an incorrect or fraudulent report, the administrator shall determine after investigation the number of gallons of fuel with respect to which the user has incurred liability under this act for any particular month or months, and fix the amounts of taxes and penalties payable by the user under this act. In any action or proceeding for the collection of the fuel tax and penalties or interest thereon imposed in connection therewith, the assessment, by the administrator, of the amount of tax due and the interest or penalties, or both, due to the state of Nebraska shall constitute **prima facie** evidence of the claim of the state and the burden of proof shall be upon the user to show the assessment to be incorrect and contrary to law.

Section 11. Each user shall maintain and keep, for a period of two years, such records of fuels bought or used within this state by such user, together with invoices, bills of lading and other pertinent records and papers as may be required by the administrator for the administration of this act.

Sec. 12. All sums received by the administrator under this act shall be remitted by him to the state treasurer who shall allocate and distribute such moneys in the same manner and in the same proportions that the revenues arising from the motor vehicle fuel tax imposed by the laws of this state are allocated and distributed, except that no part thereof shall be allocated to or used for any purpose

other than the construction, repair and maintenance of the public highways of this state.

Sec. 13. That Article 11, Chapter 60, C. S. Supp., 1939, is hereby repealed.

Sec. 14. Whereas, an emergency exists; this act shall be in full force and take effect, from and after its passage and approval, according to law.”.

2. Amend the bill, page 1, title, by striking all of said title after the word “ACT” in line 2 therein and by inserting in lieu thereof the following:

“relating to motor vehicles; to levy an excise tax upon the use, within the state of Nebraska, of any motor fuel not subject to the motor vehicle fuel tax laws of this state; to prescribe the manner and time of paying such tax and the duties of officials and other respecting such payments and collection; to provide for the licensing of users; to provide for the allocation of moneys received in payment of the tax; to provide a penalty for the violation thereof; to repeal Article 11, Chapter 60, C. S. Supp., 1939 and to declare an emergency.”

Mr. Asimus asked that the consideration of L. B. No. 482 be made Special Order for Monday, May 12, 1941 at 11:00 a. m.

No objection was offered and the President so ordered.

MESSAGE FROM THE GOVERNOR

Legislative Bill No. 389

May 9, 1941

To the President, the Speaker and Members of the Legislature
Gentlemen:

The Department of Banking has called my attention to serious defects in our statutes relating to installment investment companies. Under recent date, I challenged the attention of your Committee on Banking and Insurance to this subject. The Department of Banking deems the problem so important that your specific attention is called to its existence even though it is late in the session.

Some time ago, you decided that Legislative Bill No. 282 should be considered and it appears that through it, you will cure many of the defects in our present “small loan” law. Legislative Bill No. 389 covering the similar subject of installment investment companies should have been “raised” at the same time and I suggest that this

now be done. I do this in spite of the fact that in general it appears inadvisable to start now to consider additional bills.

I am informed that appropriate legislation has been prepared which has the approval of the Department of Banking. Its enactment at this session would in my judgment be definitely in the public's interest. I submit herewith a copy of the proposed amendments. It is my understanding there is no controversy over this matter and the enactment of Legislative Bill No. 389 in this amended form should consume but little time.

Respectfully submitted,

(Signed) Dwight Griswold
Governor.

MOTION—To Reconsider Action

Mr. President: I move that the Legislature reconsider its action by which L. B. No. 389 was indefinitely postponed. (Signed) Howard

Mr. Murphy moved that L. B. No. 389 be placed at the head of General File.

The motion prevailed with 34 ayes, no nays, 9 not voting.

LEGISLATIVE BILL NO. 389. Mr. Peterson offered the following amendments:

1. Strike all of the bill after the enacting clause and substitute in lieu thereof the following:

"Section 1. (a) The term **department**, as used herein, shall mean the department of banking, state of Nebraska. (b) The term **industrial loan and investment company** shall mean any corporation organized under this act and any corporation which shall have been incorporated under the laws of this state and which, at the effective date of this act, holds a certificate of approval from the department of banking as an installment investment company, as defined in Article 51, Chapter 81, Compiled Statutes of Nebraska, 1929, and in Article 51, Chapter 81, C. S. Supp., 1939. (c) Whenever the term, or its plural, **installment investment company** appears in Secs. 8-701, 8-702 and 81-5440, C. S. Supp., 1939, as now existing or as hereafter amended, it shall be construed to mean **industrial loan and investment company**, or its plural.

Sec. 2. Any number of persons, not less than five, the majority of whom are bona fide residents of this state, may be associated and incorporated as an industrial loan and investment company, subject to the conditions and limitations of this act, by filing articles of incorporation and complying with the provisions hereof.

Sec. 3. **Subdivision 1.** Every industrial loan and investment company, hereafter organized, prior to the commencement of any business except its own organization, shall: (a) File its articles of incorporation in the office of the secretary of state and in the office of the county clerk in the county of its principal place of business and pay the filing fees therefor in the amount required of other corporations; (b) pay to the department a fee for investigation of the application in the sum of fifty dollars. If the department deems it necessary to conduct an examination to determine the financial condition of the applicant, the applicant shall also pay the actual cost of said examination; (c) file an application with the department in writing under oath and in the form prescribed by the department, which application shall show, (1) the name and address of the applicant and the name and place of residence of each of the incorporators and of each director, (2) the amount of applicant's capital and surplus which shall be not less than that required for a bank organized under the laws of Nebraska in the same community, or one hundred thousand dollars whichever is the lesser, (3) the par value of the stock, (4) the applicant's place of transacting business, (5) copy of articles of incorporation and by-laws of the applicant, (6) a complete and detailed statement of the proposed plan of business, (7) such other information as the department may require. **Subdivision 2.** Any corporation, which, on the effective date of this act, holds a certificate of approval from the department as an installment investment company shall be issued a license to conduct its business in accordance with this act as an industrial loan and investment company, notwithstanding the fact that its capital stock is less than required by this act: **Provided,** any such company whose stock is less than required by this act shall not borrow money or issue certificates of indebtedness therefor in excess of ten times the amount of the paid up capital stock and surplus of such company.

Sec. 4. The department shall investigate the facts set forth in application, shall set a date for hearing said application, not less than four weeks nor more than six weeks from the date of filing of said application and shall publish a notice in a legal newspaper published in or of general circulation in the county where said applicant intends to transact its business once each week for three consecutive weeks. The notice shall set forth the filing of the application and the date and place of hearing thereon, at which time and place any interested party or its representatives may appear and be heard in favor of or in opposition to the approval of the applica-

tion. Within ten days from the conclusion of such hearing, the department, if it shall find: (a) That not less than two-thirds of the capital stock is owned by bona fide residents of this state; (b) that the proposed board of directors and management possesses financial responsibility, experience, character and general fitness for successful management of the institution; (c) that the convenience and advantage of the community in which the business of the applicant is to be conducted will be served thereby; (d) that the applicant has capital and surplus in the amounts required by this act, either in cash or in securities of a value equal to cash; and (e) that all conditions of this act have been complied with; —shall issue and deliver to the applicant a license to conduct its business at the place indicated as an industrial loan and investment company.

Sec. 5. No commission or fee shall be paid to any person, association or corporation for selling the capital stock of an industrial loan and investment company and the department shall refuse to issue a license where it finds that commissions or fees have been paid or have been contracted to be paid by it, or by anyone in its behalf for securing subscriptions to or for selling stock therein. If the department, after issuing a license, shall find that the applicant or anyone on its behalf has paid any commission or fee for selling the capital stock, or any part thereof, it shall cancel the license formerly issued to the applicant.

Sec. 6. Corporations organized or licensed under this act shall have all of the powers conferred by the laws of this state upon general corporations, except as by this act specifically limited and in addition the powers by this act specifically conferred upon industrial loan and investment companies.

Sec. 7. Every licensee under this act shall keep and use in its business such books, records and accounts as will enable the department to determine whether the licensee is complying with the laws of the state and with the lawful rules and regulations of the department. Every licensee shall preserve such books, accounts and records, including the cards used in any card system, for at least two years after making the final entry on any loan recorded therein. Each licensee shall annually on or before the fifteenth day of March file with the department a report of its earnings and operations for the preceding calendar year and its assets and liabilities at the end of said year and giving such other relevant information as the department may reasonably require. Such report shall be made under oath and shall be in the form prescribed by the department.

Sec. 8. No industrial loan and investment company shall accept deposits or in anywise obligate itself to maintain checking accounts or otherwise engage in the business of banking. No industrial loan

and investment company shall accept any trusts or act as guardian, administrator or executor in any other fiduciary capacity. No industrial loan and investment company shall make any loan to any one person or corporation primarily in excess of ten percent of its combined capital and surplus.

Sec. 9. Corporations organized under this act may borrow money and issue therefor certificates of indebtedness repayable at fixed future dates and pay interest on such certificates of indebtedness but not exceeding four per cent per annum. Such certificates of indebtedness shall not be prepaid before maturity thereof except as may be specifically authorized by the department or permitted under specific rules and regulations promulgated by the department to meet special contingencies. Certificates of indebtedness shall be in such form as the department by general rule shall prescribe not inconsistent with the provisions of this act and no other or different form shall be used. If upon presentation of a certificate of indebtedness for payment on or after the maturity date the issuer without just cause fails to make payment thereof, the department may take possession of its business and affairs and may liquidate the same.

Sec. 10. No industrial loan and investment company licensed under this act shall at any time permit its indebtedness to exceed in the aggregate ten times the amount of its paid up capital and surplus.

Sec. 11. The department shall have general supervision and control of industrial loan and investment companies and of the enforcement of this act. The department is hereby authorized and empowered to make, promulgate, and enforce rules and regulations pertaining thereto.

Sec. 12. If the application is approved and a license is issued to the applicant, the licensee shall procure and keep in force such surety bonds for the faithful performance of their duties by such officers and employees as shall have control or custody of cash or securities in such sum and with such conditions as the department shall direct.

Sec. 13. The department shall examine each industrial loan and investment company licensed under this act at least annually and may make such special examinations as the department may from time to time deem necessary. The department and its duly designated representatives shall have free access to the offices and places of business, books, accounts, papers, records, files, safes and vaults used in conducting or in connection with the business of the licensee. The department and all persons duly designated by it shall have authority to require the attendance of witnesses and to

examine under oath any and all persons whose testimony it may require relative to the business of the licensee, or relative to the subject matter of any examination, investigation, or hearing.

Sec. 14. Any industrial loan and investment company licensed under this act may semiannually declare a dividend on its stock out of net profits, after all bad debts required by the directors and the department, or either, have been charged off and the amount of the surplus on hand at the beginning of the dividend period is kept intact, but shall before the declaration of such dividend carry an amount equal to five per cent of its gross income during the dividend period to its surplus fund until or unless such surplus fund shall equal the paid up capital stock.

Sec. 15. Whenever it shall appear to the department from any examination or report provided for by the laws of this state that the capital stock of any industrial loan and investment company is impaired or that such industrial loan and investment company is conducting its business in an unsafe or unauthorized manner or is endangering the interests of the holders of its certificates of indebtedness or upon failure of such industrial loan and investment company to make any of the reports required by the laws of this state or if the officers or employees of any industrial loan and investment company shall refuse to submit its books, papers and affairs to the inspection of any examiner or if any officer thereof shall refuse to be examined under oath touching the affairs of any such industrial loan and investment company or if from any examination or report provided for by law the department shall have reason to conclude that such industrial loan and investment company shall neglect or refuse to observe any lawful order of the department, the department may forthwith take possession of the property and business of such industrial loan and investment company and shall thereafter conduct the affairs of such industrial loan and investment company and shall retain possession of all moneys, rights, credits, assets and property of every description belonging to such industrial loan and investment company and may retain such possession for a sufficient time to make an examination of its affairs and disposition thereof as provided by law. The department shall retain possession of the property and business of such industrial loan and investment company until it is found entitled to resume business or until its affairs be liquidated as provided by law.

Sec. 16. That Article 51, Chapter 81, Compiled Statutes of Nebraska, 1929, is hereby repealed; and that Article 51, Chapter 81, C. S. Supp., 1939, is hereby repealed.

Sec. 17. Whereas, an emergency exists, this act shall be in full force and take effect, from and after its passage and approval, according to law."

RESOLUTIONS**LEGISLATIVE RESOLUTION NO. 28. National Defense Projects**

Memorializing the Congress of the United States to Locate National Defense Program Projects in Nebraska

Introduced by Howard of McPherson, Gantz of Box Butte, Tvrdik of Douglas, Callan of Gage, Murphy of Scotts Bluff

Preamble

WHEREAS, the United States of America is now engaged in a program of preparation for national defense, which program requires the construction of cantonments for the training of men, the construction of factories for the manufacture of munitions, equipment and supplies, and for the storage and distribution thereof, and

WHEREAS, by far the greater number of the cantonments, factories, and other defense projects have been located along the seaboard and in the southern portion of the United States, and

WHEREAS, many thousands of men have left Nebraska to work in such factories and many thousands more have been taken from the state for military service, and

WHEREAS, this drain of men from the state is bringing about adverse economic conditions, particularly in the smaller towns and cities and in the rural areas, and

WHEREAS, Nebraska is traversed by transcontinental trunk line railroads, and by transcontinental federal highways, and by pipe lines for oil and gas, and has a large supply of electric power, and

WHEREAS, Nebraska has a fine, healthful climate, and an inexhaustible supply of pure water, and

WHEREAS, Nebraska is located in the center of the United States, and military projects located in Nebraska would be less vulnerable to military attack than those located on or near the seaboard, and

WHEREAS, by reason of the foregoing facts, Nebraska is ideally situated for the location of cantonments, factories, and other military projects, and

WHEREAS, the location of such projects in the agricultural section of the state will enable Nebraska men and boys to stay in the state and will relieve the adverse economic condition being brought about in such areas by the migration from the state to areas where such projects are now being established, and will further relieve the deplorable condition brought about by the seven years' drought through which this portion of the state has just passed, NOW THEREFORE

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF NEBRASKA IN FIFTY-FIFTH REGULAR SESSION ASSEMBLED:

1. That the President of the United States be and hereby is requested to locate in Nebraska such projects forming a part of the defense program as shall be determined most suitable for this region and will stop the migration from the state that is now taking place.

2. That a copy of this resolution be spread at large upon the Journal of the legislature; and that the clerk of the legislature be directed forthwith to forward a copy of this resolution, properly authenticated and suitably engrossed, to the President of the United States, to the Vice President of the United States, to each congressman and senator from the state of Nebraska, to the Secretary of War, to the Secretary of the Navy, and to the Council of National Defense to the end that the state of Nebraska may be fairly and justly treated in the location of national defense program projects.

Every such licensee shall, however, pay to the director of banking within thirty days after the effective date of this act, the sum of one hundred dollars as an initial investigation fee. The director of banking shall before March 1, 1942 investigate all licensees under said prior act and shall renew upon that date only the licenses of those applicants who meet the qualifications set forth elsewhere in this act. Not more than one place of business shall be maintained under the same license, but more than one license may be issued to the same licensee upon compliance with all of the provisions of the law governing the issuance of an original license, for each such new license."

"The director of banking shall revoke no license issued here under unless he shall first serve upon the licensee a written notice which states in general the ground therefor, together with the time and place of hearing which shall not be less than ten days from the giving of such notice to licensee by registered mail. If the director of banking shall revoke or suspend a license issued pursuant to this act, after notice and hearing, he shall forthwith enter an order to that effect and prepare a written record which shall include a transcript of the evidence, the findings with respect thereto, the order, and the reasons supporting the revocation or suspension, and shall forthwith serve upon the licensee a copy thereof. Subdivision 6. In addition to any other remedy he may have, any licensee and any person considering himself aggrieved by any action of the director of banking hereunder may, within thirty days from the entry of the order complained of, or within sixty days of the action complained of, if there is no order, take an appeal to the district court of Lancaster

county, Nebraska, by serving upon the director of banking a written notice of such appeal, a demand in writing for a certified transcript of all the papers on file in his office affecting or relating to such order or action and the payment of the fee therefor, which said appeal shall be prosecuted and perfected in the same manner as appeals are now taken from the action of the auditor of public accounts in the disallowance of claims. The court shall hear the appeal de novo as in equity and without a jury and shall render judgment and apportion costs as may be equitable. The decision of the director of banking shall remain in full force until reversed by final judgment of the court unless the operation of said order shall be suspended pending said appeal upon proper order of the court. In such appeal, the record, transcript, evidence, findings and order of the director of banking shall be admissible as evidence, and the burden of proof as to the findings of the director of banking shall be upon the party bringing the action. Subdivision 7. The director of banking shall, upon ten days' notice to the licensee stating the contemplated action and in general the grounds therefor, and upon reasonable opportunity to be heard, order any licensee to desist from any practice which he shall find does not conform to the requirements set forth in this act or in legislative bill No. 282, fifty-fifth session, Nebraska state legislature, 1941, or the lawful rules and regulations of the director of banking thereunder."

Communication—Secretary of State

Investigation and Audit

May 12, 1941

Members of the Legislature
Senator R. M. Howard
Nebraska State Legislature

Dear Senator Howard:

It is my desire, as the present Secretary of State that the Legislature make available an appropriation to make an investigation and audit of the books and records of the Secretary of State's office from May 31, 1938 to January 9, 1941.

The reason for this request is that it appears that the Legislature should make a special effort to have a complete audit made of the books and records from May 31, 1938 to January 1941.

The present State Auditor was requested to make an audit of this office prior to January ninth and while an audit has been in the process for the last four months, I am satisfied that the present auditor does not have sufficient funds or time to make a detailed audit, as is necessary to meet the requirements. Of recent date information has reached this office to the effect that there are those who wish the filing of an audit of this office to be withheld until a later date.

To carry out the intention of the law and to make a complete detailed audit of the books and records of this office, I request that

the Legislature appoint a committee to investigate and make such an audit.

Very truly yours,

(Signed) Frank Marsh
Secretary of State

LEGISLATIVE BILL NO. 282. Mr. Mekota offered the following amendments:

1. Strike all of legislative bill No. 282, with all amendments adopted thereto, after the enacting clause and substitute in lieu thereof the following:

"Section 1. The word "person", when used in this act, means individuals, copartnerships, associations, banks, trust companies, trusts, corporations and all other legal entities. The word "department", when used in this act, means the department of banking of the state of Nebraska. The word "license", when used in this act, means permit. It is not the intention of the legislature that any revenue arising hereunder shall inure to any school fund of the state of Nebraska or any of its governmental subdivisions.

Sec. 2. That Section 45-101, Compiled Statutes of Nebraska, 1929, be amended to read as follows:

45-101. Any rate of interest which may be agreed upon, not exceeding ten **nine** dollars per year upon one hundred dollars, shall be valid upon any loan or forbearance of money, goods, or things in

action; which rate of interest so agreed upon may be taken yearly, or for any shorter period, or in advance, if so expressly agreed: **Provided**, the limitation on the rate of interest herein fixed, shall not apply to loans made by licensed moneylenders that operate under the provisions of legislative bill No. 282, fifty-fifth session, Nebraska state legislature, 1941.

Sec. 3. That Sec. 45-102, C. S. Supp., 1939, be amended to read as follows:

45-102. Interest upon the loan or forbearance of money, goods, or things in action shall be at the rate of six dollars per year upon one hundred dollars, unless a greater rate, not exceeding nine per cent per annum, be contracted for by the parties: **Provided**, the limitations on the rate of interest herein fixed, shall not apply to loans made by licensed moneylenders that operate under the provisions of legislative bill No. 282, fifty-fifth session Nebraska state legislature, 1941.

Sec. 4. It shall be unlawful for any person to engage or continue in the business of making loans or to make a loan on plain, endorsed or guaranteed notes or due bills, or otherwise, or upon the mortgage or pledge of chattels or real or personal property of any kind, or of purchasing or making loans on salaries or wage earnings or of furnishing guaranty or security in connection with any loan or purchase at a greater rate of interest, discount or consideration than nine per centum per year: **Provided**, that any person may after procuring a license from the department engage or continue in the business of making loans of money and charge, contract for and receive the maximum for interest and other charges in accordance with the authorization and requirements of this act; and **provided further**, that no person, firm, partnership, association or corporation within this state shall be exempt from the operation of the usury law of this state except such as hold a license as provided in this act, and make loans of money strictly in accordance with all of the provisions of this act.

Sec. 5. **Subdivision 1.** Any person, who desires to obtain an original license to engage in the business of lending money under the terms and conditions of this act, shall apply therefor under oath, on forms prescribed by the department, to the department and shall pay an original license fee in the sum of one hundred dollars, and, if the application is approved, a license as herein provided shall be issued. **Subdivision 2.** Every person who has a license under Section 45-112 to 45-123, both inclusive, Compiled Statutes of Nebraska, 1929, and under Secs. 45-124 to 45-127, both inclusive, C. S. Supp., 1939, in force when this act becomes effective, shall be considered to have a license under this act until March 1, 1942 unless sooner revoked. Every such licensee shall, however, pay to the department,

within thirty days after the effective date of this act, the sum of one hundred dollars as an initial investigation fee. **Subdivision 3.** The department shall before March 1, 1942 investigate all licensees under said prior act and shall renew as of that date only the licenses of those applicants who meet the qualifications set forth in this act. Not more than one place of business shall be maintained under the same license, but more than one license may be issued to the same licensee upon compliance with all of the provisions of the law governing the issuance of an original license, for each such new license.

Sec. 6. For the annual renewal of an original license to lend money under the provisions of this act, the fee shall be fifty dollars: **Provided**, no publication of the notice of filing application for the annual renewal license shall be required as in the case of filing an application for an original license. The money paid under the terms of this act to the department for original licenses, for renewal licenses, for investigation fees, for examination fees or from any other source shall be credited to and kept in the "loan act fund", established under section 27 of this act.

Sec. 7. No license shall be granted to any person unless and until such applicant therefor shall file with the department a designation in writing that appoints the county clerk of the county where the business of applicant is to be conducted, to act as applicant's agent, upon whom all judicial and other process or legal notices directed to such applicant may be served; and service upon the agent, so designated, shall be equivalent to personal service on the applicant or licensee.

Sec. 8. The department may revoke any license so issued, if the licensee shall knowingly violate any of the provisions of this act or any rule or regulation lawfully made by the department under and within the authority of this act; or if the licensee has failed to pay the original license fee, or the annual renewal license fee, or to maintain in effect the required bond; or if any fact or condition exists which, if it had existed at the time of the original application for such license, clearly would have warranted the department in refusing originally to issue such license. Whenever, for any cause, such license is revoked, the department shall not issue another license to the licensee, unless the department is otherwise ordered by a court of competent jurisdiction to do so. The department shall revoke no license issued hereunder unless it shall first serve upon the licensee a written notice which states in general the grounds therefor, together with the time and place of hearing which shall not be less than ten days from the giving of such notice to licensee by registered mail. If the department shall revoke or suspend a license issued pursuant to this act, after such notice and hearing, or deny an ap-

plication for license, it shall forthwith enter an order to that effect. At the request of the party aggrieved, the department shall prepare a written record which shall include a transcript of the evidence, the findings with respect thereto, the order, and the reasons supporting the revocation or suspension, or denial of license and shall deliver to the licensee a copy thereof in person or by registered mail.

Sec. 9. In addition to any other remedy he may have, any licensee and any person considering himself aggrieved by any action of the department hereunder may, within thirty days from the entry of the order complained of, take an appeal to the district court of Lancaster county, Nebraska, by serving upon the director of banking a written notice of such appeal and a demand in writing for a certified transcript of all the papers on file in his office affecting or relating to such order and the payment of the fee therefor; and said appeal shall be prosecuted and perfected in the same manner as appeals are now taken from the action of the auditor of public accounts in the disallowance of claims. The court shall hear the appeal *de novo* as in equity and without a jury and shall render judgment and apportion costs as may be equitable. The decision of the department shall remain in full force until reversed by final judgment of the court unless the operation of said order shall be suspended pending said appeal upon proper order of the court. In such appeal, the record, transcript, evidence, findings and order of the director of banking shall be admissible as evidence, and the burden of proof to reverse the findings of the department shall be upon the party taking the appeal.

Sec. 10. The department shall, upon ten days' notice to the licensee stating the contemplated action and in general the grounds therefor, and upon reasonable opportunity to be heard, order any licensee to desist from any practice which it shall find does not conform to the requirements set forth in this act, or the lawful rules and regulations of the department thereunder.

Sec. 11. Every application for an original license under this act, shall be filed not less than thirty days prior to the date of hearing thereon. Notice of the filing of the application shall be published by the department three successive weeks in a legal newspaper published in or of general circulation in the county where the applicant proposes to operate the business of lending money. The expense of the publication shall be paid by the applicant. Written protest against the issuance of the license may be filed with the department by any person not less than five days before the date set for hearing. The department in its discretion may grant a continuance. The director of banking shall have the power to reject any application for license after hearing. The director of banking shall, within his discretion, make examination and inspection concerning the propriety of the is-

suance of a license to any applicant. The cost of such examination and inspection shall be borne by the applicant.

Sec. 12. Upon the filing of such application, the payment of the licensee fee and the approval of the required bond, the director of banking shall investigate the facts, and, if he shall find (a) that the experience, character and general fitness of the applicant, and of the members thereof if the applicant be a copartnership or association, and of the officers and directors thereof if the applicant be a corporation, are such as to warrant belief that the business will be operated honestly, fairly, and efficiently within the purposes of this act, and (b) that allowing such applicant to engage in business will promote the convenience and advantage of the community in which the business of the applicant is to be conducted, the department shall issue and deliver an original license to the applicant to make loans at the location specified in said application, in accordance with the provisions of this act, which license shall remain in full force and effect until March first next thereafter and from year to year thereafter, if and when renewed, under the provisions of this act, until it is surrendered by the licensee or revoked as hereinafter provided. The department shall approve or deny every application for license hereunder within sixty days from the filing thereof, if such filing is accompanied by the required fees and the approved bond.

Sec. 13. The payment in money, credit, goods, or things in action, as consideration for any sale or assignment of, or order for, the payment of wages, salary, commission or other compensation for services, whether earned or to be earned, shall, for the purposes of regulation under this act, be deemed a loan secured by such assignment, and the amount by which the assigned compensation exceeds the amount of the consideration actually paid, shall, for the purposes of regulation under this act, be deemed interest or charges upon the loan from the date of payment to the date the compensation is payable. Such transaction shall be governed by and be subject to the provisions of this act.

Sec. 14. Any person, firm or individual members thereof, partnership or individual members thereof, association or individual members thereof, or corporation or officers thereof who by any devise, subterfuge or pretense whatsoever shall engage in or continue any of the kinds of business or enterprise mentioned in this section without having obtained the license herein required with intent to evade the provisions of this act shall be deemed guilty of a misdemeanor and, upon conviction thereof, shall be fined in any sum not less than one hundred dollars or not more than one thousand dollars, or shall be imprisoned in the county jail for not less than ninety days or not more than one year, or both. Violation of this section in connection with any indebtedness, however acquired, shall render such indebtedness void and uncollectible.

Sec. 15. Any licensee hereunder may contract for, collect, or receive interest or charges, upon any loan, which loan may be repayable in installments as may be agreed upon between the parties, not in excess of the following: (a) Interest at the rate of ten per cent per annum, computed on unpaid balances of the loan: **Provided**, such interest shall not be paid, deducted, or received in advance. (b) A service charge of one-tenth of the amount received and retained by the borrower, which service charge shall not be paid, received or deducted in advance, but may be made payable in pro rata installments together with the regular payments on the loan, and which service charge shall be deemed to have been earned in full at the expiration of twelve months from the date of such loan, and which shall be pro rated if the loan is paid or renewed within said twelve month period. Said service charge shall be deemed to be earned one-twelfth each month: **Provided**, a service charge shall not be contracted for, charged, collected or received more than once in any twelve month period on any renewal, extension or transfer of any loan unless the service charge of said loan which is being renewed, extended or transferred, is pro rated according to the period of the loan and the charge for any unexpired period is credited to the borrower; **and provided further**, that where loans are made for a period of less than twelve months, the service charge shall be pro rated according to the period for which said loan is made. In the event that a loan is made for a longer period than twelve months, an additional service charge may be made at the end of twelve months on the unpaid balance, in the same manner and at the same rate as though a new loan was being made.

Sec. 16. It shall not be lawful for any lender to divide or split up applications for loans or to divide or split up loans under any pretext whatsoever, so as to require or exact any other or greater charges than prescribed herein. A licensee hereunder shall not be entitled to any charge whatsoever unless a loan is actually made. If interest or charges for any loan in excess of those hereinbefore prescribed shall be contracted for, collected or received by any licensee, the said licensee shall thereupon lose all of his right to collect or receive any sum whatsoever on said indebtedness.

Sec. 17. Notwithstanding the provisions of section 16, legislative bill No. 282, fifty-fifth session, Nebraska state legislature, 1941, a licensee may require a borrower to insure tangible personal property of a kind usually requiring insurance protection when offered as security for a loan under this act against any substantial risk of loss, damage, or destruction, for an amount and term and upon conditions which are reasonable and appropriate considering the nature of the property and the amount, maturity and other circumstances of the loan, and the licensee may be protected by a mortgage clause as the licensee's interest may appear. No other insurance shall be re-

quired as a condition precedent to the making of a loan. The premium on the personal property insurance shall not exceed the premium fixed pursuant to law or by current applicable manual of a recognized standard insurance rating bureau. The licensee shall not require the purchasing of insurance from the licensee as a condition precedent to the making of the loan and shall not decline existing insurance where such existing insurance is provided by an insurance company duly licensed by this state. The licensee shall, at the time the loan is made, give to the borrower, or if more than one, to one of them a statement concerning any insurance procured by or through the licensee, which shall include the amount of any premium which the borrower has paid or is obligated to pay, the amount, the expiration date of the policy, and a concise description of the risks insured. If a borrower procures insurance by or through a licensee, the licensee shall deliver to the borrower within fifteen days after the making of the loan an executed copy of the insurance policy or certificate of insurance.

Sec. 18. No such person, firm, partnership, corporation or association so licensed shall receive any chattel mortgage or assignment of salary or wages signed in blank but all blank spaces shall be filled in with ink or typewritten or printed with the proper names and amounts showing the name of the person, firm, partnership, corporation or association by whom the person making the conveyance or assignment is employed. No assignment or order for wages shall be valid which contains an amount in excess of the sum borrowed together with the interest and charges as provided herein. No licensee shall take a power of attorney or any instrument signed by an attorney-in-fact and not personally, or any instrument signed in which blanks are left to be filled after execution. No assignment of or order for wages to secure a loan or advancement shall be valid when made by a married man or woman unless the written consent of the wife or husband to the making of said loan is attached thereto. Every person, firm, partnership, corporation or association licensed as herein provided shall, at the time any loan is made, give to the borrower, or if there are two or more borrowers to one of them a copy of the note or other evidence of indebtedness. The licensee shall give to the borrower a receipt for each payment on principal or charges, and such receipt shall specify the amount applied to each principal, interest and service charge.

Sec. 19. Every licensee shall permit payment to be made in advance in any amount on any contract of loan at any time, but the licensee may apply such payment first to all charges in full at the agreed rate up to the date of such payment. No licensee shall enter into any contract of loan under this act under which the borrower agrees to make any payment of principal more than twenty-one months from the date of making such contract on loans of three hundred dollars

or less, or more than twenty-five months from the date of making such contract on loans in excess of three hundred dollars, and every such contract shall provide for repayment of the amount lent in substantially equal installments, either of principal or of principal and charges in the aggregate, at approximately equal periodic intervals of time: **Provided**, that charges may be received at the rate contracted for in the loan contract until the loan is fully paid.

Sec. 20. No licensee shall use or take any form of note or other evidence of indebtedness which has not been filed with and approved by the department. Every such form shall contain a legend as follows:

'The amount received and retained by the borrower is \$.....
The total charges hereon, if the note is paid according to its terms, are: Interest \$..... computed at per cent per annum on unpaid balances. Service charge \$....., computed at..... per cent of the amount received and retained by the borrower.

Total of all charges \$..... This note may be paid at any time before maturity by payment of the unpaid principal, interest to date of payment and service charge pro rated to date of payment.'

The note shall contain such other provisions, not inconsistent with this act, as may be required by the rules and regulations of the department.

Sec. 21. No licensee or other person, firm, partnership, association or corporation subject to this act shall advertise, print, display, publish, distribute or broadcast or cause or permit to be advertised, printed, displayed, published, distributed or broadcast, in any manner whatsoever any statement or representation with regard to the rates, terms, or conditions for the lending of money, credit, goods or things in action which is false, misleading or deceptive. The department may order any licensee to desist from any conduct which he shall find to be a violation of the foregoing provisions. The department may require that rates of charge, if stated by a licensee, be stated fully and clearly in such manner as he may deem necessary to prevent misunderstanding thereof by prospective borrowers.

Sec. 22. No licensee shall take a lien upon real estate as security for any loan made under this act, except such lien as is created by law upon the recording of a judgment.

Sec. 23. No license shall conduct the business of making loans under this act within any office, room or place of business in which any other business is solicited or engaged in, or in association or conjunction therewith, except as may be authorized in writing by the

director of banking for the department upon his finding that the character of such other business is such that the granting of such authority would not facilitate evasions of this act or of the rules and regulations lawfully made hereunder: **Provided**, that banks, trust companies, savings banks and building and loan associations may become licensees hereunder and make loans upon the terms and security prescribed in this act, from their usual places of business.

Sec. 24. The department is hereby authorized and empowered to make such general rules and regulations and specific rulings, demands and findings as may be necessary for the proper conduct of the business licensed under this act and the enforcement of this act in addition hereto and not inconsistent herewith.

Sec. 25. Immediately upon the taking effect of this act, all records, accounts, books, documents, proceeds and assets in the possession of or under the control of the secretary of state used or useful in the administration or enforcement of the provisions of the statutes repealed by this act shall be delivered to and taken possession of by the director of banking for the department of banking for his uses and purposes in administering and enforcing the act. All duties heretofore enjoined upon or exercised by the secretary of state with respect to the statutes relating to interest and chattel loans, not specifically terminated by this act shall be performed by the director of banking; and all title, contracts, agreements, actions or causes of action owned or held by the secretary of state arising out of the sections of the statutes hereby repealed or pertaining to interest or chattel loans, are hereby transferred to and invested in the director of banking for the department of banking, state of Nebraska, which is hereby made and constituted successor to said secretary of state with reference to the administration of the laws pertaining to interest and chattel loans. All such actions pending in the name of or against the secretary of state shall be continued in the name of the director of banking, department of banking, state of Nebraska.

Sec. 26. Subdivision 1. The department is hereby charged with the duty of inspecting the business, records and accounts of all persons that lend money subject to the provisions of this act. The department is hereby empowered to inspect and investigate the business, records and accounts of all persons in the public business of lending money contrary to the provisions of this act, and who do not have a license under this act. The director of banking is hereby empowered to appoint examiners who shall, under his direction, investigate the loans and business and examine the books and records of licensees semiannually, and more often when the director of banking shall so determine. The expenses of the department of banking, incurred in the examination of the books and records of licensees under this act

and fully to administer the provisions of the law during each calendar year, shall be charged semiannually to each licensee by the department as soon as reasonably possible after June thirtieth and December thirty-first of each year, in proportion to the number of days required to examine and supervise the books and records of the respective licensees. **Subdivision 2.** Each licensee shall annually on or before the fifteenth day of February of each year file with the department a report of its earnings and operations for the preceding calendar year and its assets and liabilities at the end of said year and giving such other relevant information as the department may reasonably require. Such report shall be made under oath and shall be in the form prescribed by the department.

Sec. 27. All original license fees and annual renewal fees shall be collected by the department and deposited with the state treasurer in and shall be credited to the "loan act fund", department of banking, state of Nebraska, which, during any biennium, shall be used exclusively for the administration and enforcement of this act, if and when specifically appropriated by the legislature for that purpose. All investigation and examination fees, collected by or paid to the department of banking under any of the provisions of this act, shall likewise be deposited and credited to the "loan act fund" and shall be available for the uses and purposes of said fund.

Sec. 28. Any person, firm, partnership, corporation or association or officer or employee thereof violating any of the provisions of this act shall be deemed guilty of a misdemeanor, and, upon conviction thereof, shall be fined not less than one hundred dollars nor more than one thousand dollars or shall be imprisoned in the county jail for not less than thirty days nor more than six months, or both. Any contract of loan, in the making or collection of which any act is done which constitutes a misdemeanor under this section, shall be void and the lender shall have no right to collect or receive any principal, interest, or charges, whatsoever.

Sec. 29. Any person convicted of making a false statement to secure a loan shall be deemed guilty of a misdemeanor, and, upon conviction thereof, shall pay a fine of not more than twenty-five dollars or shall be imprisoned in the county jail not exceeding ten days: **Provided**, such punishment shall not be exacted where such a loan is made after the money lender is aware of the falsity of the statement.

Sec. 30. That Sec. 45-124, C. S. Supp., 1939, be amended to read as follows:

45-124. Any person, firm, partnership, corporation, or association licensed to make chattel or other loans in this state, shall, in addition to the record required to be kept by them, as provided in

Mr. President: I move that the following letters be made a part of the Journal of today, to show that in the opinion of the Attorney General and State Auditor it is not necessary that the General Appropriation L. LETTER—Auditor of Public Accounts

April 22, 1941

Hon. John Callan,

State House.

Dear John:

When I came back to town this morning I found your notation on my desk with reference to money appropriated by specific bills and whether or not the money should be included in the Appropriation Bill. As this money has already been appropriated and set up on our books. I would say that this should not be included in the Appropriation Bill.

Very respectfully,

(Signed) Ray C. Johnson
State Auditor

LETTER—Attorney General

May 1, 1941

Senator Harry Gantz

Senator William A. Metzger

Lincoln, Nebraska

Gentlemen:

Legislative Bill No. 168

You state that Legislative Bill No. 168, passed by the legislature, appropriates \$20,000.00 for tuition for children of enlisted army and navy men, and inquire as to whether it is now necessary to include this \$20,000.00 in the general appropriation bill, Legislative Bill No. 222, to insure use of the money appropriated.

It appears that Legislative Bill No. 168 is complete in itself and is sufficient to appropriate the sum of \$20,000.00 for the purposes referred to. There is no provision in the constitution, statutes, nor rules of the legislature, which require anything further to be done by the legislature in order to make the money available. If the legislature desires to again refer to this appropriation in Legislative Bill No. 222, there is no legal reason why the proposed amendment, attached to your letter of inquiry, may not be adopted.

Respectfully submitted,

Walter R. Johnson, Attorney General

(Signed) H. Emerson Kokjer
Assistant Attorney General

SELECT COMMITTEE REPORT

Supplementary Report of
Special Committee For Investigating the
Permanent School Funds of the State of Nebraska

Lincoln, Nebraska

May 10th, 1941

TO THE FIFTY-FIFTH SESSION OF THE
NEBRASKA LEGISLATURE:

On May 7th, 1941, your Committee submitted a report of its findings (Legislative Journal, Eighty-seventh Day). In that report, brief reference was made to a misappropriation of trust funds which occurred in the latter part of the nineteenth century. This incident is commonly referred to as the Joseph S. Bartley defalcation, and because of interest expressed therein, the Committee submits herewith, as a supplement to its original report, a summary of its findings in the Bartley case.

Bartley Defalcation

Joseph S. Bartley was State Treasurer of Nebraska from January 13th, 1893 to January 7th, 1897. When he left office, he was charged with being short in his accounts, which resulted in nearly ten years of litigation of one kind or another. Bartley was arrested, tried, convicted, and sentenced to prison for twenty years. His conviction was affirmed by the State Supreme Court, and later reaffirmed, but he was pardoned after having served something over four years.

On February 17th, 1897, Governor Silas A. Holcomb sent a message to the State Legislature, in which he stated that the newly inaugurated State Treasurer, J. B. Meserve, had reported to him, under date of January 30th, 1897, that Bartley's shortage totaled \$691,571.26, of which \$489,687.21 belonged to the several educational trust funds, and the remainder of \$201,884.05 to the State's General Fund. 1) The shortages in the educational funds were itemized as follows:

Permanent School Fund.....	\$389,956.01
Permanent University Fund.....	19,775.93
Agricultural College Endowment.....	61,955.15
Normal School Endowment.....	18,000.12
Total.....	<hr/> \$489,687.21

In the same message, the Governor stated that Mr. Bartley had, subsequent to the Treasurer's report, paid into the State Treasury a total of \$153,809.13, thereby reducing the total shortage to \$537,762.13, and that in the educational trust funds to \$335,878.08.1) Apparently, all of the money recovered had been applied to the shortage in the trust funds.

1): Journal of House of Representatives, 1897, p. 460.

The State, through its Attorney General, immediately began an attempt to recover these funds and others, from Mr. Bartley and his bondsmen, and from banks which had been designated as depositories by Bartley, but these efforts seem to have met with little success.

On August 1st, 1903, some six and a half years after Bartley's arrest, the Nebraska State Journal carried an account of the efforts being made by the State to collect from the bondsmen. The total amount of the State's claim, at this time, was given as \$650,000.00, which apparently included claims against unsound banks in which money had been deposited, as well as the direct shortages which had been originally attributed to Bartley. This account also indicated that an unsuccessful effort had been made in the Legislature during its 1903 session to secure the adoption of a resolution directing the Attorney General to drop the suits, that the bondsmen had made an offer to compromise the suits, but the offer had been rejected as unsatisfactory, and some of the original bondsmen had been relieved of responsibility by death or incapacity, by court decision, or by agreement with the State.

It is possible that some small sums were recovered after the message of Governor Holcomb, referred to above. At any rate, on January 3rd, 1907, ten years after the opening of the case, Governor John H. Mickey, in his outgoing address to the Legislature, fixed the total of the shortage in the educational funds at a figure slightly lower than that indicated by Governor Holcomb.²⁾ Governor Mickey referred to a recent decision of the Nebraska Supreme Court which had apparently barred further action against the bondsmen, and hence made further recovery impossible. Then, after calling attention to the constitutional provision that all losses in the permanent trust funds shall be supplied by the State, the Governor called upon the Legislature to make a special appropriation, or to provide for a special levy, to reimburse the educational funds.¹⁾ The shortages in these funds, at this time, were itemized by the Governor as follows:

Permanent School Fund.....	\$259,842.87
Permanent University Fund.....	9,775.93
Agricultural College Endowment.....	43,368.61
Normal Endowment Fund.....	12,600.09
Total.....	<u>\$325,578.50</u>

No mention is made, anywhere, of inclusion of interest in arriving at the amount due, hence it may be assumed that the figures

1): Ibid.

2): Message, in Senate Journal, 1907, pp. 87-88

given above represented the losses in principal of the several funds, as nearly as they could be determined at that time.

In accordance with Governor Mickey's message, a bill was introduced into the State Senate, on January 15th, 1907, providing for the restoration of the losses sustained by the educational trust funds.²⁾ This measure passed the Senate, and in the House was placed on General File by the Committee on Revenue and Taxation, but was then indefinitely postponed.³⁾

Within the limits of the time available, search has been made of the statutes, of court decisions, the records of the State Auditor and State Treasurer, of newspaper files, and of the publications and records of the State Historical Society. As yet, such research has not discovered any evidence that the State has ever restored any part of these losses, or that Mr. Bartley or his bondsmen made any payments subsequent to the message of Governor Mickey fixing the total of the shortages in the educational funds at \$325,578.50.

On January 7th, 1903, the State Supreme Court held that the bank through which a warrant for \$201,884.05 had been collected, and on which Bartley was convicted, was not liable for this loss. This finding rested on the ground that the bank was an innocent intermediary, acting at the direction of a state agent, and without guilty intent.⁴⁾

The State's suit against the Bartley bondsmen was tried in the District Court for Douglas County, and was decided against the State.

On June 3rd, 1904, appeal was taken to the State Supreme Court. The case was continued several times, but on December 6th, 1905, the Court decided against the State by quashing the bill of exceptions, on the ground that it had not been filed in the manner provided by statute. On January 6th, 1906, the State filed a motion for a rehearing, and on June 20th, 1906, the Court sustained its previous decision, holding that the bill of exceptions had not been properly identified and certified.¹⁾

In closing the report upon this case, the testimony of Dr. Addison E. Sheldon may be cited. Dr. Sheldon was a member of the Nebraska House of Representatives in 1897, when the Bartley shortages were first exposed, is now Superintendent of the Nebraska State Historical Society, and has written widely on the history of the State. In 1931, Dr. Sheldon says: "After his pardon, Mr. Bartley was for many years active in the management of silver mines in Colorado, from which it

was reported he hoped to realize enough money to pay off his shortage. As none of this shortage was ever paid, the presumption was that his hopes of a fortune in silver mines, like those of many others, were unrealized."2) In 1936, Dr. Sheldon says in another work, "The story of the pursuit of the stolen school money and prosecution of the defaulting State Treasurer forms a drama in itself. It covers six years of litigation against bondsmen and the final failure to recover anything upon the bond."3)

RESOLUTIONS

LEGISLATIVE RESOLUTION NO. 31. Aid to Britain

Memorializing the President and the Congress of the United States to Disregard the Petition Signed on May 17, 1941, by One Hundred Eighty-six Members of the University of Nebraska Instructional Staff and Administration Division to Deliver Aid to Britain by Means "Not Necessarily Short of War" as Not Voicing the Public Opinion of the State of Nebraska on Delivering Aid to Britain

Introduced by Don Hanna of Cherry

Preamble

WHEREAS, on the front page in black headlines in the Sunday Journal-Star of Lincoln, Nebraska under date of May 18, 1941, it is reported that one hundred eighty-six members of the instructional staff and the administration division of the university of Nebraska, Lincoln, Nebraska, have signed and forwarded to the president of the United States and to the members of congress representing Nebraska, a petition urging them to "deliver aid to Britain by every means at the disposal of our nation not necessarily short of war", and

WHEREAS, the signatories on said petition represent merely the conclusions reached by a few academic minds and fine-spun theorists who are not the spokesmen or the leaders of the state of Nebraska and whose views on most public questions are visionary and impracticable, by reason of the rarefied atmosphere in which these signing professors live and have their being, and

WHEREAS, there may be danger that the petition of the university of Nebraska professors addressed to the president and the members of congress will erroneously be construed in Washington to reflect the popular attitude of the masses of the people of the state of Nebraska, and

WHEREAS, the members of this legislature come from every corner of the state and from every walk of life therein and are truly representative of the sentiments of Nebraska citizenry on the question of delivering aid to Britain, NOW THEREFORE

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF NEBRASKA IN FIFTY-FIFTH REGULAR SESSION ASSEMBLED:

1. That the untimely and inadvised petition signed by the instructional staff and the administration division of the university of

Nebraska as described in the preamble of this resolution, and its forwarding to the president and the congress of the United States be deplored.

2. That this legislature is unalterably opposed to any change in the status quo of our nation and that we earnestly petition that aid to Britain be confined "only to acts short of war".

3. That a copy of this resolution be spread at large upon the journal of this legislature; that the clerk of this legislature be directed forthwith to forward copies of this resolution, properly authenticated and suitably engrossed to the following: a. To the president of the United States; b. to the vice president of the United States as the president of the senate of the United States; c. to the members of congress from the state of Nebraska in the congress of the United States; d. to the chancellor of the university of Nebraska, Lincoln, Nebraska, for his information.

MESSAGE FROM THE GOVERNOR

Veto L. B. No. 301

May 17, 1941

To the President, the Speaker and Members of the Legislature
Gentlemen:

I am returning without by signature Legislative Bill No. 301. I am vetoing this bill for the same reason that I vetoed Legislative Bill No. 135. They are both based on the theory that we should not simplify or reduce the cost of our government even though there is a decline in population.

It would seem that there is no more reason for a county to retain the office of Clerk of the District Court if its population declines below 8,000 than it is to provide that all counties of over 6,000, or some such figure, should establish this office. This bill in effect establishes several new offices, because, without it, these offices will be abolished.

I realize that the duties devolving upon the Clerk of the District Court will have to be carried on by the County Clerk if the former office ceases to exist, but the combination of the two will result in considerable saving, and it is toward that end that we should all be working.

It might be said, in connection with this bill, as it was in connection with Legislative Bill No. 135, that the matter is being placed in the hands of the voters and they will be permitted to decide. The duty of making that decision, however, has been in the hands of the legislature since our state government was formed, and I feel that it should so remain there.

Respectfully submitted,

(Signed) Dwight Griswold
Governor.

LEGISLATIVE RESOLUTION NO. 32. Purchase of Cattle by United States

Memorializing the United States Price Control Adminis-

trator Leon Henderson, Head of Purchasing Department for the Army, Colonel Logan and Secretary of Agriculture, Claude R. Wickard, all of Washington, D. C., to Require Purchasing Departments of Army, Navy and other Federal Agencies to Purchase more Weighty Steers and fewer Handyweight Steers

Introduced by Murphy of Scotts Bluff, Metzger of Cass, Hanna of Cherry, Howard of McPherson, Tvrdik of Douglas, Van Diest of Loup, Weborg of Cuming

Preamble

WHEREAS, Claude R. Wickard, secretary of agriculture of the United States of America, on or about May 5, 1941, appealed to the livestock farmers of the nation to market greater numbers of beef cattle, and

WHEREAS, livestock farmers of Nebraska and neighboring states patriotically responded to said appeal, and

WHEREAS, the response of the livestock farmers to the secretary's appeal resulted in sharply expanded receipts at the seven principal markets on May 12, 1941, and subsequent market days, and

WHEREAS, livestock farmers since responding to the secretary's appeal have been forced to sell weighty steers below the depressed market which dates back to January 20, 1941, for a price that has lost livestock farmers money on seventy-five per cent of the cattle sold by them since May 5, 1941, because the packers contend that the purchasing departments of the army, navy and other federal agencies have refused to buy the weighty steer carcasses, but are in the market for only handyweight steers weighing from eight hundred fifty to one thousand fifty pounds, which sell readily, and

WHEREAS, further expansion of the market, pursuant to the secretary's appeal, is certain to extend the break in prices payable to livestock farmers, and

WHEREAS, livestock farmers have been losing money and further reductions in price will be serious to them, and

WHEREAS, cattle feeders of Nebraska and of neighboring states can not be expected to have confidence in this beef market which has continued to show loss from week to week since January 20, 1941, with the cost of producing beef constantly increasing because of increased prices of corn plus increased labor cost, and

WHEREAS, every part of the defense program is operating on a higher rate, except the producers of food products,—labor has higher

wages, the manufacturer and processor are practically guaranteed a reasonable rate, but the livestock farmer in the last four months has had not only his margin of profit eliminated but is today at a point where the cattle he markets loses him money, NOW THEREFORE

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF NEBRASKA IN FIFTY-FIFTH REGULAR SESSION ASSEMBLED:

1. That it is the sense of this legislature that price control administrator Leon Henderson, acting in concert with other federal governmental agencies in Washington, including the purchasing departments of the army and navy, take such steps without delay as will result in the purchasing departments of the army and navy and other federal agencies purchasing greater numbers of weighty cattle carcasses from the seven principal markets in Nebraska and surrounding states.

2. That a copy of this resolution be spread at large upon the journal of this legislature; that the clerk of this legislature be directed forthwith to forward copies of this resolution, properly authenticated and suitably engrossed to the following persons: Nebraska senators and congressmen; Iowa senators and congressmen; secretary of agriculture Claude R. Wickard; governor of the state of Iowa; secretary of agriculture, state of Iowa; Leon Henderson, price control administrator and to Colonel Logan, purchasing department for the army in Washington,—to the end that the parties to whom copies of this resolution are sent may know that the livestock farmers must, without delay, be permitted to sell their weighty beef cattle in the markets where the purchasing departments of the army, navy or other federal agencies will purchase the same.

1. Amend the bill, pages 2, 3, and 4 by striking all of sections 1 and 2 thereon and by inserting in lieu thereof the following:

Section 1. That Sec. 79-2101, C. S. Supp., 1939, as amended by section 1, legislative bill No. 80, fifty-fifth session, Nebraska state legislature, 1941, be amended to read as follows:

79-2101. When children of school age, who have not yet completed the eighth grade reside with their parents or guardians more than one and one-half miles from the school house in their own district, and nearer to the school house in an adjoining district, the distance to be measured by the shortest route possible upon section lines or traveled roads open to the public, such children may have school privileges in the adjoining district instead of in the district of their residence, under the following conditions, to-wit: The parent or guardian of such children shall, not later than the second Monday in July, notify the county superintendent of each district affected using such form of notice as the state superintendent shall prescribe, which notice shall state the distance, as herein provided, and shall be attested by the signature of one legal voter and taxpayer of the district in which the children or wards reside, and the signature of a majority of the members of the school board of the district in which such children desire school privileges, in addition to the signature of such parent or guardian; and the county superintendent shall notify the director of each district to transfer such person together with such children or wards, to such adjoining district for school purposes for the year next ensuing and it shall be the duty of the county superintendent to see that the children or wards are enumerated in the adjoining district and not in the district of their resi-

dence. The county superintendent shall notify the county clerk of the transfer, and the county clerk shall be empowered, and it is hereby made his duty, within fifteen days from the receipt of the notice of transfer unless it be recalled at the request of the parent or guardian of such children in the meantime, to place the school taxes, except for the payment of special levies for building purposes or existing bonds or interest on the same, of the parents or guardians and of the real estate on which they reside, not exceeding a quarter section of land for the year next ensuing, in the adjoining district instead of in the district of their residence, basing such school taxation upon the levy for school purposes in the adjoining district, and the assessed valuation of the property of such parents or guardians, and the real estate as determined by the proper officers, and the taxes shall be collected as provided by law for the other taxes: **Provided**, that the provisions of this section shall never be construed, **except with the written permisison of the owner or owners in fee simple of the real estate involved in the transfer**, to permit or allow the transfer of a child or children from or to a city or village school district, however classified, located wholly or partly within the boundaries of any city or village; **and provided further**, that, upon receipt of the notice of transfer, the county superintendent shall, if possible, also notify the owner or owners or the authorized agent or representative of the owner or owners in fee simple of the real estate involved in the transfer, if the parent or guardian of such child or children to be transferred is a tenant on the land involved in the transfer; **and provided further**, the name of the fee simple owner shall be determined by the records in the office of the county clerk or register of deeds, as the case is; **and provided further**, that when such transfer involves the transfer of children from a school district located in one county to a school district located in another county, the county superintendent of each such county shall notify the county clerk of the county in which said county superintendent has jurisdiction of each transfer granted, using such forms of notice as the state superintendent shall prescribe. The county clerk of the county to which the transfer for school purposes is made shall certify to the county clerk of the county in which the applicant for such transfer resides the number of mills of school taxes when voted in the district to which the transfer is made. It shall then be the duty of the county clerk of the county in which the applicant resides to levy, within fifteen days after the receipt of the certificate of transfer unless it be recalled at the request of the parent or guardian of such children in the meantime, under the authority of the county board of said county, upon all taxable property belonging to such applicant, real or personal, situated on lands thus transferred, an amount equal to and not exceeding the number of mills of school taxes being voted in the district to which said transfer is made. All such tax moneys derived from such levy shall be collected by the county treasurer of

the county in which the property to be taxed is located and shall be paid by him to the county treasurer of the county to which transfer has been made. A proper receipt for such taxes shall be executed and drawn to the favor of the county treasurer from whom such taxes are received. Said receipt shall set forth the purpose of said taxes and shall designate the school district entitled to receive all such taxes. The county treasurer of the county to which transfer was made shall place said taxes to the credit of the district: **Provided**, when such transfer shall have been made the children shall enjoy school privileges in the adjoining district for only one year, unless the parent or guardian of such children shall give notice in writing to the county superintendent not less than fifteen days before each annual meeting, asking that the transfer be continued for one year, using such form of notice as the state superintendent shall prescribe, which notice shall state that such parent or guardian has children of school age, who have not yet completed the eighth grade. Upon failure to give such notice to the county superintendent the county superintendent shall notify the county clerk who shall thereupon re-transfer and the taxes of the parent or guardian and the real estate shall again be placed in the district of their residence: **Provided**, that the provisions of this act shall not apply to a consolidated district in which adequate transportation facilities are furnished by such consolidated district; **and provided further**, the parents or guardians of the pupils so transferred shall have the right to vote in the district to which such pupils are transferred on all school matters except that of issuing bonds and levying a tax for building purposes. No parent or guardian of the pupils so transferred shall be eligible to hold office on the school board of the district to which the transfer was made.

Sec. 2. That said original Sec. 79-2101, C .S. Supp., 1939, as amended by section 1, legislative bill No. 80, fifty-fifth session, Nebraska state legislature, 1941, is hereby repealed.

MESSAGE FROM GOVERNOR

Legislative Bill No. 470

May 21, 1941

To the President, the Speaker and Members of the Legislature
Gentlemen:

This will inform your honorable body that I have today signed
Legislative Bill No. 470.

I am signing this bill with some fear as to its effect on the future development of our highway program. I surely favor the purpose of this act, but the experience of other states has shown that it is very difficult to administer fairly. These other states have discovered that in all too many cases, gasoline upon which no tax was being paid was being used in automobiles on the highways, and if this occurs in Nebraska, it will seriously deplete our highway funds when there is still a great need for them.

Farm leaders in Nebraska who have supported this legislation have assured me that they will assist in seeing that it is honestly administered, and those in charge of the Act under this administration will make every effort to see that its provisions are carried out honestly and efficiently. If it is found that this is impossible, I will advise the 1943 Legislature of that fact; and I believe the only recourse then possible will be to repeal the law.

Respectfully submitted,

(Signed) Dwight Griswold
Governor.

A constitutional majority having voted in the affirmative, the bill was declared passed and the title agreed to.

Explanation of Vote

Mr. President: I vote for L. B. No. 282 not because I approve it but solely because it improves the present law. The new rate schedule is neither honest nor justified by conditions. It is deceptive and, applied beyond small installment loans inadequately secured, constitutes an unwarranted license to evade the usury laws.

(Signed) C. Petrus Peterson

Mr. President: In explanation of my vote for L. B. No. 282, I concur in the statement of Senator Peterson and state again that the amendment offered by Senator Murphy substantially reducing the interest rates set out in the bill should have been adopted as it offers a much more fair rate structure than that contained in the bill as passed. (Signed) Matzke
