RESOLUTIONS

LEGISLATIVE RESOLUTION 33. Re: Nebraska's Water Supply.

Introduced by Harold B. Stryker, 17th District, Don Thompson, 33rd District, and Albert A. Kjar, 36th District.

WHEREAS, one of the greatest assets of Nebraska is the water in its streams, in its reservoirs and its ground water supplies; and

WHEREAS, the protection of the quality of these waters is of vital importance to the people of the state as well as its agricultural and livestock interests; and

WHEREAS, the quality of these waters may change as to its composition through increased use and re-use for irrigation and other purposes, and the effects of such use of water quality should be studied; and

WHEREAS, during recent years there has been a greatly increased use in the state of chemicals of various kinds and it is of vital importance to the state to determine whether the increased use of such chemicals is having or will have an adverse effect upon the purity or usability and re-use of the waters of the state; and

WHEREAS, among other chemicals there has been a greatly increased use of water soluble detergents and cleansing agents, some of which are of a slowly decomposable and degradable nature, the effect of which upon water supplies now and in the future is a matter which may concern agriculture, livestock and human consumption; and

WHEREAS, it is most desirable that a complete study of this whole problem of water quality and the effect of the extensive use of chemicals and water soluble detergents and cleansing agents in the state should be determined by the Legislature in the event legislative action seems desirable.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN SEVENTY-THIRD SESSION ASSEMBLED:

1. That the Legislative Council appoint a committee to study the quality of the state's waters and the effects of these various chemicals, including household detergents and cleansing agents, and to study the need for legislation to control the use and specifications of water soluble detergents and cleansing agents and any other chemical which may be determined to be a contaminator now or in the future of the water supplies of the state; that the committee coordinate the facilities and efforts of The University of Nebraska, the Department of Agriculture and Inspection, the

Department of Health, the Water Pollution Control Council and such other state agencies or private firms that are concerned in the problem of water contamination from any source and especially the problem of slowly decomposable detergents; that the committee make recommendations as to the need for the state to initiate a continuing study of the quality of its waters.

2. If the committee determines that such slowly decomposable detergents or cleansing agents or any other chemicals are a contaminator or are inimical to the health and welfare of the people of the state, or its agricultural production or livestock interests, it shall recommend to the next session of the Legislature proposed legislation to control the use of such chemicals that may be sold in Nebraska.

Referred to Legislative Council Executive Board.

All purchases and contracts to purchase shall be made in the name of the state. The Purchasing Agent shall also have the duty and authority, except where specific authority is otherwise conferred by law, to sell and dispose of personal property that is not needed by the state or its using agencies. All sales shall be made in the name of the state and the proceeds of such sales shall be deposited with the State Treasurer and credited to the~~

auditor account number of the using agency for which the property was originally purchased.

(2) The purchasing Agent shall make an annual detailed report to the Governor of his operations for the past fiscal year and such other reports to and as the Governor shall request from time to time. The proceedings of the Purchasing Agent shall be open to the citizens of the state. All records, contracts, orders, and schedules of the Purchasing Agent shall be open to the inspection of any citizen or interested person at all reasonable hours. The Purchasing Agent, in the performance of his duties, shall be subject to the provisions of all the laws of this state applicable to the expenditure of public money, not inconsistent with sections 81-145 to 81-162. *The Purchasing Agent shall have the power and duty to:*

The Purchasing Agent shall enlist the cooperation and assistance of the using agencies in the establishment, maintenance, and revision of uniform standards and specifications and shall encourage and foster the use of standard specifications in order that most efficient purchase of articles may be continuously accomplished; Provided, that all such standards and specifications shall be so drawn that it will be possible for three or more manufacturers or suppliers to submit competitive bids. If bids cannot be obtained from three bidders, then the standards and specifications of the article or articles upon which bids are sought shall be reviewed by the purchasing agent and the using agencies involved. If it then be determined by the purchasing agent, because of the special nature of the article or articles sought to be purchased or for any other reason, that the standards and specifications should remain as written, bids may be accepted from a fewer number of bidders than three with the approval of the Governor.

Sec. 7. That section 81-159, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

81-159. Each using agency shall, at the time, in the form and for the periods prescribed by the Purchasing Agent, present to him detailed requisition for all articles to be purchased. Such requisition shall be approved by the Tax Commissioner unless it shall appear that the free balance of any appropriation or authorization to spend is not sufficient to cover the charge proposed against it, in which event the requisition shall be rejected as to charges only and approved as to all others. The Purchasing Agent shall then arrange such schedules, or parts thereof, as are included in or covered by the approved requisition for purchase and contract, and for advertising them, in the manner best calculated to attract competition and advantageous price. He shall prescribe the terms and conditions for delivery, inspection, payment and all other details thereof. *then arrange such schedules as are included in or covered by the requisition for purchase and contract and for advertising them, in the manner best calculated to attract competition and advantageous price as set forth in this act. He shall prescribe the terms and conditions for delivery, inspections, and all other details thereof. Subsequent to the receipt of bids and prior to the awarding of any contract of purchase, the Purchasing Agent shall present the requisition to the*

Tax Commissioner with notation of the lowest and best bid. The Tax Commissioner shall check the amount of money necessary to defray the cost thereof against the appropriation of the using agency, indicating the appropriation or authorization to spend funds against which the proposed purchase will be charged. Such requisition shall be approved by the Tax Commissioner unless it shall appear that the free balance of any appropriation or authorization to spend is not sufficient to cover the charge proposed against it.

Sec. 8. That section 81-161, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

81-161. Contracts or orders for purchase shall be awarded to the bidder submitting the lowest and best bid as determined by the Purchasing Agent; *Provided*, the Purchasing Agent may reject any or all bids or waive any technicalities therein. *Except as otherwise provided in sections 1 to 14 of this act, all purchases shall be based on competitive bids, and award shall be made to the lowest responsible bidder, taking into consideration the best interests of the state, the quality of the articles proposed to be supplied, their conformity with specifications, the purposes for which required, and the times of delivery. In determining the lowest responsible bidder, in addition to price, the following elements shall be given consideration:*

(1) The ability, capacity and skill of the bidder to perform the contract or provide the service required;

(2) The character, integrity, reputation, judgment, experience and efficiency of the bidder;

(3) Whether the bidder can perform the contract within the time specified;

(4) The quality of performance of previous contracts or services;

(5) The previous and existing compliance by the bidder with laws relating to the contract or services; and

(6) Such other information as may be secured having a bearing on the decision to award the contract.

Sec. 9. *A minimum of ten days shall elapse between the time bids are advertised or called for and the time of their opening; Provided, that, as may be provided by rule or regulation promulgated by the Purchasing Agent, this requirement may be waived in case of emergency.*

Sec. 10. *Any or all bids may be rejected by the Purchasing Agent. The Purchasing Agent may reject the bid of any bidder*

who has failed to perform a previous contract with the state. In any case where competitive bids are required and all bids are rejected, and the proposed purchase is not abandoned, new bids shall be called for as in the first instance.

Sec. 11. That section 91-160, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

91-160. The Purchasing Agent may, by written order, permit purchases to be made, by any using agency directly with the vendor, whenever it shall appear to the satisfaction of such *the purchasing* agent that, because of the nature of the article, the price in connection therewith, the quantity to be purchased, the location of the using agency, the time of the use of the article or any other circumstance, the interests of the state will be served better by purchasing direct than through the office of the Purchasing Agent. Such permission shall be revocable; and shall be operative for a period not exceeding six months from the date of issue. Using agencies, receiving such permission, shall report their acts and expenditures, under such orders, to the Purchasing Agent in writing and furnish such agent with proper evidence that competition has been secured, at such time and covering such period as may be required by the Purchasing Agent.

Sec. 12. That section 91-153.01, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

91-153.01. Whenever any using agency shall have any personal property for which it no longer has any need or use, it shall notify the Purchasing Agent in writing, setting forth a description of the property and the approximate length of time that such property has been in the possession of the using agency. The Purchasing Agent shall appraise such property and send a bulletin to all other using agencies of the state, setting forth that he has such property for sale and that it can be bought at the appraised price. Such property shall not be sold until first offered to the using agencies as provided by this section, *unless such property is unusable.* If the Purchasing Agent shall fail to receive an offer from any using agency within thirty days, he may, after obtaining approval of the Governor, sell such property at public sale for cash to the highest bidder. *All sales shall be made in the name of the state and the proceeds of such sales shall be deposited with the State Treasurer and credited to the auditor account number of the using agency for which the property was originally purchased; Provided, that the cost of selling such surplus property, whether by sealed bid or public auction, shall be charged to the agency whose surplus property is being sold.*

Sec. 13. *The Purchasing Agent may, when he deems it advantageous to the interest of the state, and pursuant to appropriate rules or regulations, exchange or trade in the personal property mentioned in section 12 of this act in part or full payment for new personal property of a similar nature. In such event the property need not be offered for sale to other state agencies or disposed of at public sale as provided in section 12 of this act.*

Sec. 14. *Neither the Purchasing Agent, nor any employee under his direction, shall be financially interested, or have any beneficial personal interest, directly or indirectly, in the purchase of any articles, nor in any firm, partnership, corporation or association furnishing them. No such person shall receive or accept directly or indirectly from any person, firm or corporation submitting any bid or to whom a contract may be awarded, by rebate, gift or otherwise, any money or other thing of value whatsoever, or any promise, obligation or contract for future reward, or compensation. Any person who violates the provisions of this section shall be guilty of a felony, and, upon conviction thereof, shall be subject to a fine of five hundred dollars, or imprisonment in the Nebraska Penal and Correctional Complex for a period of one year, or to both such fine and imprisonment, and forfeiture of his office or position.*

Sec. 15. That original sections 81-145, 81-146, 81-148, 81-149, 81-153, 81-153.01, 81-154, 81-159, 81-160, and 81-161, Reissue Revised Statutes of Nebraska, 1943, and also sections 81-152, 81-157, 81-158, 81-159, 81-163, 81-170, and 81-172, Reissue Revised Statutes of Nebraska, 1943, are repealed.".

SPECIAL COMMITTEE REPORT

April 26, 1963

From: Nebraska Retirement Systems Advisory Committee

To: The Seventy-Third Nebraska Legislature

Subject: Report on Proposed Retirement Plans and Amendments to Existing Plans

The Nebraska Retirement Systems Advisory Committee is herewith submitting its final report to the Seventy-Third Session of the Nebraska Legislature on proposed retirement legislation. This report covers the following bills: LB 54, LB 563, LB 605, LB 639, and LB 727.

LB 54

Purpose of the Bill. This bill would add judges of the municipal courts to the Retirement Fund for Judges and would provide for an increase in court costs of one dollar for each "cause of action or proceeding in municipal court, including prosecutions for violation of state law or any city ordinance."

Cost to the State. The estimated annual cost would be in the neighborhood of $33,000, which would be payable by those involved in court proceedings.

Committee's Recommendation. The Committee recommends that the bill not be passed. The Committee thus is in agreement with the action of the Judiciary Committee of the Legislature which voted to indefinitely postpone the bill on April 23, 1963.

Reasons For Committee's Recommendation. The present judge's retirement plan is an unsound one. There is no relation between benefits and contributions, there is no provision for effective advance funding, and since benefits are based on final salary a small increase in salary can result in a large increase in the retirement liability. The Committee does not believe it would be wise policy to add more judges to such an unsound plan.

LB 563

Purpose of the Bill. This is enabling legislation to authorize the Board of Education of the State Normal Schools to establish a retirement system for employees of the state teachers colleges. It is virtually the same as the legislation passed in 1959 authorizing the Board of Regents to set up a plan for the University.

Cost to the State. The estimated annual cost to the state for academic employees would be $104,000.

Committee's Recommendation. The Committee recommends that the bill be passed.

Reasons For Committee's Recommendation. It is understood that if the bill passes the Normal Board would establish a retirement plan similar to that now in effect at the University, and that plan is actuarially sound in that benefits are paid for as they are earned and deficits for future service cannot develop. Also, as it would result in the removal of the employees of the teachers colleges from the state teacher retirement system this would be an actuarial benefit to the latter system.

LB 605

Purpose of the Bill. This bill would increase the retirement allowance for county judges in Classes 1 through 4, counties with populations of less than 16,000.

Cost to the State. It is estimated that average annual long-range cost would be approximately $100,000.

Committee's Recommendation. The Committee at this time is making no specific recommendation as to whether the bill should pass or not. It is true that there exists a discrimination in the present system in that Class 1 judges, except those with short service, pay a much larger percentage of the true cost than do other county judges. This discrimination would be materially lessened if county judges' salaries are raised as is proposed in LB 702. The Committee thus does not want to make a specific recommendation on passage until the fate of this measure is determined.

Recognizing the problems inherent in the present judges retirement system, the Committee does recommend that Section 24-703 be amended to provide that the fee of $1.00 taxed as costs in civil causes of action be extended to cover the costs in criminal actions as well. This money goes into the Nebraska Retirement Fund for Judges.

LB 639

Purpose of the Bill. This bill would make several changes in the retirement system for firemen and policemen in the City of Lincoln. It would, for example, change the pension from $135.00 per month to half the regular pay at the time of retirement. There is a provision for the payment of the pension to an individual after he is eligible for retirement whether or not he makes formal application and regardless of the cause of termination—death, resignation and discharge being specifically mentioned. In the case of death there is no hint as to who would receive the pension nor for how long. There are other provisions in this bill, which need not be detailed here, which are also difficult to analyze and determine the meaning because it is so poorly drafted. The consulting actuary to the system has not been able to interpret it.

Cost to the State. The cost, estimated to be $74,000 or more annually, would be borne by the City of Lincoln and would result in no cost to the state.

Committee's Recommendation. The Committee recommends that this bill not pass.

Reasons For Committee's Recommendation. As has been pointed out, the bill is so poorly drafted it is difficult to determine its fiscal impact on the City of Lincoln. The Mayor and City Council are opposed to the bill and the Committee does not feel that the State Legislature should make the suggested changes at this time. Differences of opinion over proposed changes in Lincoln's retirement system for firemen and policemen, those of the city officials on the one side and those of the people interested in this measure on the other, are basically a city problem and should not be fought out in the State Legislature.

The Committee does recommend that the city make a study of the situation, along with the persons interested in this bill, and attempt to work out something agreeable to all. The Committee feels that then it would be proper for them to come to the Legislature for the necessary legislation.

LB 727

Purpose of the Bill. This bill would create a pension system for policemen in cities of the first class.

Cost to the State. The costs would be borne by the first class cities and would not affect the state.

Committee's Recommendation. The Committee recommends that this bill not pass.

Reasons For Committee's Recommendation. This bill has the same infirmities as LB 639, much of the language being the same. In some ways the language of the bill is even more ambiguous and confusing. For example, some of the language could logically apply only to an existing system, yet the bill creates a new one. Not only is the bill poorly drafted but it would impose a considerable financial burden on first class cities because of the benefit provisions and because it would create a large past service liability.

As with LB 639, the Committee believes that the officials of the first class cities, and other interested persons, should make a study of the problem and come before the Legislature with a plan that is carefully worked out, sound, and one that they can afford. It is the Committee's understanding that the first time the officials of some first class cities knew about LB 727 was after it was introduced.

USNTC/PIO NEWS RELEASE 117-63 of 23 April 1963

Nebraskans of the Nebraska "Beef-State" Company are continuing their award-winning streak at the U. S. Naval Training Center, San Diego, California.

The "Beef-Staters" added the Seventh Week Award Star to their company banner April 23, 1963. In earning the top position in their battalion they achieved a score of 3.98 out of a possible 4.00, and will again enjoy the privilege of an afternoon free for an outing at picnic grounds in the San Diego countryside.

The Nebraskans also chalked up a score of 3.78 out of a possible 4.00 to receive top billing of their battalion in the seventh week written examination.

"If they maintain their present pace, the Nebraskans have a strong chance of receiving the highly coveted "Brigade" award at the end of their eighth week of training," states Company Commander Paul A. Collett, Boatswain's Mate First Class, USN. This means they may well be the Honor Company of the Battalion during their graduation parade, May 3," he adds.

The "All-State" company will depart San Diego for a two-week recruit leave with their families and friends May 10, before reporting to their next duty stations.

Communication

Mr. Skarda read the following communication and asked unanimous consent that it be printed in the Journal. No objections. So ordered.

April 26, 1963

William R. Skarda, Jr.
Senator of Nebraska
State Legislature
State Capitol Building
Lincoln 9, Nebraska

Dear Senator Skarda:

Although the State Health Department would not be responsible for the administration of L.B. 241 (relating to the compulsory medical treatment of narcotic addicts), I have obtained the following information by informal conversation with persons who would possibly be concerned with this matter.

The Federal Narcotic Bureau Enforcement Agent of Omaha, Mr. Lee Cox, believes that it would be highly unlikely that there would be more than ten addicts who might be ordered to take treatment under L.B. 241 in any given year. It is much more likely that there would be fewer than this number.

The present rate that can be charged by the State Hospital for such hospitalization, is $6.25 per day. The Superintendent of the State Hospital in Lincoln tells me that the usual period of treatment is from 90 to 180 days.

From this you can see that if a maximum of ten persons were treated for 180 days at $6.25 per day, the cost would be $11,250.00. Incidentally, the only part of this total which would be paid by the State through the Institutional Maintenance fund, would be for the treatment of addicts who have no known place of residence in the State of Nebraska. Ordinarily, for Nebraska residents the $6.25 per day is charged back to the County. The County Board would be liable for this cost only if the addict had no relatives from whom the County could collect the per diem cost.

Yours truly,

(Signed)

E. A. Rogers, M.D., M.P.H.
Director of Health

UNANIMOUS CONSENT—LB 347 on General File

Mr. Danner asked unanimous consent to consider LB 347 on General File, Monday, May 6. No objections. So ordered.

MOTION—Introduce Bill

Mr. President:

I move that the Committee on Revenue be permitted to introduce a bill providing a five per cent tax on lodging priced over

$2.00, and a three per cent tax on meals over $1.50. The purchaser would pay this tax - not the hotel, motel or restaurant owner.

Nebraska is a bridge state, and since we are endeavoring to promote tourism, it would seem wise if we attempted to extract monies from transient people who come into Nebraska. The argument made by some that no one will come into Nebraska because of a tax set-up of this nature is hollow, because all of our surrounding states have a similar sales tax.

This bill will also earmark part of the revenue from this tax. Related to this would be the governor's proposal regarding the Office of Tourism. Two hundred thousand dollars of revenue would be earmarked for tourist promotion. Two hundred and fifty thousand dollars would be earmarked for industrial promotion and development in the state. Five hundred thousand dollars would be earmarked for development and completion of access roads to recreational areas. The balance would go into the General Fund. It is estimated that this would bring in three and a quarter million dollars to the state.

(Signed) J. W. Burbach, Chairman,
Revenue Committee

Mr. Syas moved to reconsider the action.

LEGISLATIVE BILL 723. Placed on General File as amended.

Standing Committee amendments to LB 723:

Delete the Title of said Bill and all of its provisions in their entirety and in lieu thereof insert the following:

A BILL

FOR AN ACT to amend section 44-127, Reissue Revised Statutes of Nebraska, 1943, relating to insurance; to provide procedure, conditions and limitations for and in the liquidation of domestic insurance companies as prescribed; and to repeal the original section, and to declare an emergency.

Be it enacted by the people of State of Nebraska,

Section 1. That section 44-127, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

44-127. If, on a like application and order to show cause and after a full hearing, the court shall order the liquidation of the busi-

ness of such company, such liquidation shall be made by and under the direction of the Department of Insurance, which may deal with the property, records, effects and business of such company in the name of the department or in the name of the company, as the court may direct, and it shall be vested by operation of law with title to all the property effects, contracts, and rights of action of such company as of the date of the order so directing it to liquidate. The filing or recording of such order, in the office of the register of deeds in any county where property is located in the state, shall impart the same notice that a deed, bill of sale or other evidence of title, duly filed or recorded by such company, would have imparted.

Sec. 2. Within sixty days after the granting of the order of liquidation, or within such longer time as the court may direct, the liquidator shall cause notice to be published to the company's policyholders, creditors, shareholders, and all other persons interested in its assets. Such notice shall require claimants to file their claims with the liquidator, together with proofs thereof within six months after the date of first publication.

Sec. 3. Such notice shall be published in a legal newspaper of general circulation in the county in which the proceeding is pending, not less than once a week for four consecutive weeks. A verified proof of publication shall be filed with the Clerk of the Court.

Sec. 4. Within thirty days after the date of the first publication of notice, the liquidator shall send notice of liquidation and the time for the filing of claims to all persons who were policyholders on the date of the entry of such liquidation order, and to all creditors, shareholders, and other persons known to have an interest in the company's assets, by ordinary United States mail to the last known address of such persons, firms or corporations as shown by the records of the company. An affidavit of such mailing shall be filed with the Clerk of the Court which affidavit shall contain a statement that the provisions of this section have been complied with.

Sec. 5. Unless a claim is filed in the manner and within the time provided in section 2 of this act, it shall not be entitled to filing or allowance, and no action may be maintained thereon. In a liquidation, pursuant to the provisions of this act, of any domestic insurer which has issued policies insuring the lives of persons, the liquidator shall, within thirty days after the last day set for the filing of claims, make a list of the persons who have not filed proofs of claim with him and to whom, according to the records of said insurer, there are amounts owing under such poli-

cies, and he shall set opposite the name of each person the amount so owing to such person. Each person whose name shall appear upon said list shall be deemed to have duly filed, prior to the last day set for the filing of claims, a claim for the amount set opposite his name on said list.

Sec. 6. Claims founded upon unliquidated or undetermined demands must be filed within the time limit provided for the filing of claims, but claims founded upon such demands shall not share in any distribution to creditors of a company proceeded against until such claims have been definitely determined, proved and allowed.

Sec. 7. No judgment against any insured of such company taken after the date of the entry of the liquidation order shall be considered in the proceedings as evidence of liability, or of the amount to which the claimant is entitled.

Sec. 8. The Director of Insurance as liquidator or a representative appointed by him with the approval of the District Court shall have sole authority to pass upon and decide all claims filed in the liquidation. He shall have authority to hold hearings, to administer oaths, examine and cross-examine witnesses, receive documentary evidence and issue subpoena. Hearsay evidence shall, at his discretion, be admissible at such hearings, and nothing contained herein shall require the observing in any such hearing of formal rules of pleading or evidence. At the written request of the claimant a full stenographic record shall be made at the hearing of all testimony and rulings.

Sec. 9. Every person so subpoenaed anywhere within the state shall be obliged to attend as a witness at the place specified in the subpoena. He shall be entitled to the same fees and mileage, if claimed, as a witness in the district court, regardless of where he resides or was served in the state. The provisions of section 44-109 and 44-110 shall apply to persons subpoenaed pursuant to the provisions of this act.

Sec. 10. On all disputed claims the Director of Insurance as liquidator or his representative shall hold such hearings and make a final determination as to whether or not such a claim is to be allowed and the amount thereof, if any, which determination shall be a final order which may be reversed, vacated or modified by the district court which ordered the liquidation of such company. Such proceedings in district court may be had only upon the filing of a petition in error, and the claimant or any creditor, shareholder, or member of such company shall be a real party in interest for the purpose of prosecuting such proceedings in district court. The petition in error shall be filed with the said district

court within thirty days of the rendering of such determination, and there shall be filed with the petition in error a written undertaking with one or more sureties conditioned that the plaintiff in error will pay all costs, including the costs of any transcript and stenographic record, which have accrued, or may accrue on such proceedings in error. The filing of this undertaking shall be jurisdictional and the sufficiency of the sureties must be approved by the Clerk of the Court at the time of filing.

Sec. 11. Upon the filing of the petition in error a summons shall issue and be served upon the liquidator or his authorized representative. The summons shall notify the liquidator that a petition in error has been filed with respect to a claim, naming it, and shall be returnable on the second Monday after the filing of said petition. It shall state the day of the month on which it is returnable.

Section 12. The liquidator shall, upon written request, furnish an authenticated transcript of the proceedings containing said final determination and, if so requested, such stenographic record to any person filing such a petition in error. Such transcript and stenographic record, if any, shall be filed in the District Court within thirty days from the date upon which the petition in error was filed. The matter shall then proceed as in other error proceedings to the District Court.

Sec. 13. Unpaid charges due under the provisions of section 44-107.03 shall be allowed as an administrative expense in the liquidation.

Sec. 14. If any provision of this act or the application thereof to any person or circumstance is held unconstitutional, the remainder of the act or the application of such provisions to other persons or circumstances shall not be affected thereby.

Sec. 15. That original section 44-127, Reissue Revised Statutes of Nebraska, 1943, is repealed.

Sec. 16. Since an emergency exists, this act shall be in full force and take effect, from and after its passage and approval, according to law.

MOTIONS—Introduce Bills

Mr. President: I move that the Committee on Judiciary be permitted to introduce a bill relating to the recodification of the

Railway Commission. This bill will provide for eminent domain for pipe lines, which was to have been included in other bills on this subject of recodification.

The Committee on Judiciary voted to introduce this as a committee bill by a vote of six in favor and one opposed.

(Signed) Don McGinley, Chairman
Judiciary Committee

Permission to introduce the bill was granted with 31 ayes, 0 nays and 12 not voting.

Mr. President: I move that the Committee on Judiciary be permitted to introduce a bill relating to crimes and punishments. This bill has been requested by the Warden of the Penitentiary and the Director of the Department of Institutions. At the present time the minimum sentence for cattle stealing is three years in the penitentiary; whereas the minimum sentence for car theft is one year. The incompetency in these penalties does not make sense. The Department of Institutions believes that the minimum one-year sentence should apply for cattle stealing as well as car theft. The Department believes that for purposes of rehabilitation they can accomplish more with the cattle thief with a lighter minimum sentence than presently exists and that if the bill is passed these penalties will be more reasonably reconciled.

The Committee on Judiciary voted unanimously to introduce this as a committee bill.

(Signed) Don McGinley, Chairman
Judiciary Committee

Permission to introduce the bill was granted with 28 ayes, 0 nays and 15 not voting.

Mr. President: I move that the Committee on Judiciary be permitted to introduce a bill relating to natural gas. This bill will provide for the leasing of certain public facilities to individuals or corporations by cities of the second class and villages, and to declare an emergency.

MOTIONS—Introduce Bills

Mr. President: The Banking, Commerce and Insurance Committee request permission to introduce a new bill, relating to the Blue-Sky Law.

This bill would repeal a section of the Blue-Sky Law which is obsolete and such action has been taken in 40 other states. With the deletion of this section, companies such as Dow-Jones can get their stocks disseminated throughout the nation rather than merely in the eastern part of the country.

The Committee voted by a vote of 6 ayes and 1 absent and not voting to introduce this bill.

(Signed) Albert A. Kjar, Chairman
Banking, Commerce and Insurance Committee

Permission to introduce the bill was granted with 28 ayes, 0 nays and 15 not voting.

Mr. President: I move that the Committee on Budget be permitted to introduce a bill relating to the transfer of approximately $217,000 from the County Mentally Ill Reimbursement Fund to Auditor Account 500.

This reimbursement fund is a dormant fund and the source was appropriations from the General Fund. Original appropriations were back in the 1930's and the last appropriation was made into this fund by the Legislature in 1953.

The original purpose of the fund was to provide a revolving fund for counties to care for the excess number of mental patients who were unable to be admitted to the regular state mental hospitals.

This will leave approximately $125,000 remaining in this fund and there have been no disbursements from this in the last four to five years.

(Signed) Richard D. Marvel, Chairman
Budget Committee

Permission to introduce the bill was granted with 30 ayes, 0 nays and 13 not voting.

LEGISLATIVE BILL 793. Introduced by Committee on Budget, Richard D. Marvel, Legislative District 31, Chairman.

A BILL FOR AN ACT to amend section 83-329.01, Reissue Revised Statutes of Nebraska, 1943, relating to state institutions; to reduce the amount heretofore appropriated to the County Mentally Ill Reimbursement Fund as prescribed; to transfer to Auditor Account No. 500 all funds in excess of one hundred twenty-five thousand dollars in the County Mentally Ill Reimbursement Fund; to repeal the original section; and to declare an emergency.

LEGISLATIVE BILL 351. Placed on General File as amended.

Standing Committee amendments to LB 351:

1. Amend section 1 of the bill, line 6 by striking "five" and inserting "five *seven*", by striking line 9 and inserting "trustee, (2) a member *two members* of the system, (3) a *two*", line 10 by striking "member" and inserting "member *members*", line 20 by striking "a member" and inserting "a member *members*", line 21 by striking "a trustee" and inserting "a trustee *trustees*", and by striking lines 29 to 31 and inserting "fiscal years each ; *Provided,* of the first two such trustees appointed, one shall be appointed for a period of one year only."

2. Amend the bill by adding three new sections immediately after section 1 to be known as sections 2 to 4 and to read as follows:

"Sec. 2. That section 79-1048, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

79-1048. (1) Any member with ten or more years of creditable service who shall have become totally disabled for further performance of duty may be retired by the board. In the case of such retirement, the amount of annuity payable to the member shall be seventy-five per cent of the annuity earned to date of disability retirement; *Provided,* that payments for disability shall be reduced by the amount of any periodical payments to such employee under the Nebraska Workmen's Compensation Act. The board shall consider a member to be totally disabled when it shall have received an application by the member and a statement by at least two licensed and practicing physicians designated by the board certifying that the member is totally and presumably permanently disabled and unable to perform his duties as a consequence thereof.

(2) The disability benefit, referred to in subsection (1) of this section, shall begin to accrue from the thirty-first day of absence from service on account of disability, shall be payable during the time the member shall not receive any wages or compensation for services, and shall continue until the time any one of the following events first occurs: (a) When disability ceases; (b) the normal retirement date; *or* (c) the aggregate period for which disability payments shall have been made equals one half of the total period of creditable service of the member, not including the time during which the member has received disability benefits, or (d) the member has been found to be engaged in gainful employment from which he has received more than one hundred dollars per month.

The board may require periodical proof of disability and nonemployment or permissible employment, but not more frequently than semi-annually. Any member whose disability benefits shall cease because of such member having reached the normal retirement date shall upon such date be entitled to the retirement allowance without reduction for amounts paid on account of disability, but without credit for service during the period of disability.

Sec. 3. That section 79-1049, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

79-1049. A member, who has twenty-five years or more of creditable service and who shall sever his employment, may elect to leave his contributions in the system, in which event he shall receive a retirement allowance at normal retirement age equal to the credits earned to the date of such severance. Upon the severance of employment, except on account of retirement, a member shall be entitled to receive refunds as follows: (1) ~~If a member of the system less than ten years, an amount equal to the total contributions to the system by the member; (2) if a member of the system ten years or more, an~~ *An* amount equal to the accumulated contributions to the system by the member; and ~~(2)~~ *(2)* any contributions made to a previously existing system which were refundable under the terms of that system. Any member, receiving a refund of contributions, shall thereby forfeit and relinquish all accrued rights in the retirement system including all accumulated creditable service; *Provided,* that if any member, who has withdrawn his contributions as provided in this section, shall re-enter the service of the district within a period of five years from the date of withdrawal and again become a member of the system, he may restore all money previously received by him as a refund, including the regular interest for the period of his absence from the district's service, and he shall then again receive credit for service which he forfeited by the acceptance of such refund. Such restoration can be made in equal installments over a period of not to exceed two years from the date of re-employment.

Sec. 4. That section 79-1052, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

79-1052. The trustees shall annually estimate the total amount of annuities and refunds to be paid retired members during the ensuing fiscal year on account of prior service. They shall submit to the board of education, during the month of July in each year, the estimated amount required to cover such liabilities, taking into account any accumulated excesses or deficiencies on account of variations between estimated and actual payments for past service credits ~~and credits on account of the reduction of annuities for~~

prior services, provided for in section 79-1056. Upon the recommendation of the trustees, the board of education shall certify to the county clerk, before the county board of equalization shall make its levy in each year, the number of mills on the dollar upon the assessed value of all the taxable property in such district, except intangible property, which it deems necessary to be levied to provide for such prior service annuities less the amount of such credits, and refunds on account of prior service. It shall be the duty of the county board of equalization to make the levy demanded by the board of education in the same manner as other taxes are levied and collected. Such special levy shall not in any one year exceed two mills on the dollar upon the assessed value of all the taxable property in such district, except intangible property. The proceeds of such special mill levy shall be in addition to the aggregate school tax certified by the board of education for all other school purposes."

3. Amend the bill by renumbering original section 2 as section 5.

4. Amend renumbered section 5 of the bill, lines 12 and 13 by striking "not in excess of six thousand dollars" and insert "~~not in excess of six thousand dollars~~", lines 18 and 19 by striking "not in excess of six thousand dollars per annum" and inserting "~~not in excess of six thousand dollars per annum~~ *; Provided, that after September 1, 1963, all employees of the district shall contribute an amount equal to the membership contribution which shall be two and three-fourths per cent of salary covered by Social Security, and five per cent above that amount, and the contributions by the district shall be such amount as may be necessary to maintain the solvency of the system including refunds to the general fund provided by section 79-1059, as amended by this act, as determined annually by the board upon recommendation of the actuary and the trustees. After such date all employees shall be credited with a membership service annuity which shall be nine-tenths of one per cent of salary or wage covered by Social Security, and one and one half per cent of salary or wages above that amount; and provided further, that the retirement annuities of employees who have not retired prior to September 1, 1963, and who elected under the provisions of section 79-1041 not to become members of the system, shall not be less than they would have been had they remained under any preexisting system to date of retirement*", and by inserting after the period in line 34 the following: *"but there shall be deducted annually from the membership service annuity credit for each successive year the amount credited for that year under the state school retirement system, but not to exceed the amount credited for such membership service. Credits under the state school retirement system for service*

prior to September 1, 1951, shall not be offset against credits for membership service under the school employees retirement system".

5. Amend the bill by adding a new section immediately after renumbered section 5 to be known as section 6 and to read as follows:

"Sec. 6. That section 79-1059, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

79-1059. ~~The members and the district shall at all times maintain equal contributions to the trust fund. In order to maintain this equity,~~ the *The* school district shall pay into the system from the general fund an amount equal to any amounts required to be paid into the system by a member, except as provided in section ~~79-1056~~, and shall receive payment from the system for the general fund an amount equal to any refunds received by any member or his beneficiary on account of withdrawal from membership."

6. Amend the bill by striking original section 3 and inserting two new sections to be known as sections 7 and 8:

"Sec. 7. That original sections 79-1034, 79-1048, 79-1049, 79-1052, and 79-1059, Reissue Revised Statutes of Nebraska, 1943, and also sections 79-1054 and 79-1055, Reissue Revised Statutes of Nebraska, 1943, are repealed.

Sec. 8. Since an emergency exists, this act shall be in full force and take effect, from and after its passage and approval, according to law."

RESOLUTIONS

LEGISLATIVE RESOLUTION 40. Re: Higher Education in Nebraska

Introduced by Marvin E. Stromer, Legislative District 19, Richard D. Marvel, Legislative District 39 and Richard Lysinger, Legislative District 34.

WHEREAS, Nebraska mirrors America; its past, its hopes, and especially its dreams for the next generation. Education is central to those aspirations and the universities are the capstones of the educational system. The future of this modern age will reflect in every way the strength of our institutions of higher learning; and

WHEREAS, five, ten, twenty years from now, if our country is fortunate enough to avoid a war or another major catastrophe, Nebraska and the other states in the nation can expect to see a substantial increase in the demand for admission to universities and colleges. More and more high school graduates will be qualified to study academic or technical subjects; and a greater proportion of these young people will wish to "go on to college," not necessarily for four years but certainly for an extended period. In Nebraska, as elsewhere, three main factors are involved in the college upsurge. They are:

(1) An increasing number of young people of college age, due to high birth rates since the end of the war;

(2) An increasing percentage of high school graduates able to go to college full-time; and

(3) An increasing number of students attending college part-time while holding jobs outside their college work.

WHEREAS, here, then, are the critical elements of the problem of higher education facing the people of the State of Nebraska: How to develop for the next generation a system of universities and colleges which will provide

—diversified educational opportunities for people of varying abilities, interests and needs, nearly all of whom must be prepared to live a part of their lives as adults under the mounting demands of the 21st century;

—high quality educational programs which will really stretch the capacities of the gifted student and make increasing demands on the talents of the able;

—intellectually directed educational opportunities with standards of excellence in academic instruction and research which will attract to the state some of the top level faculty members, research professors, and educational leaders in the country, who will, once they work here, help the state increase its industrial and economic potential;

—geographically diversified educational opportunities which will provide for the needs of students, and of industry, too, in every part of the state.

All this must be accomplished at a reasonable and practical level of cost to the taxpayers of the State of Nebraska as well as to the students; and

WHEREAS, there is a need for inter-institutional coordination and statewide planning for higher education in Nebraska; and

WHEREAS, what one institution of higher education does has an impact on all the others within the state; and

WHEREAS, Nebraska lacks a statewide plan for higher education; and

WHEREAS, several states have already established a single board responsible for governing and coordinating all public higher education, and others are studying the need for such coordination; and

WHEREAS, in Nebraska the four teachers colleges and The University of Nebraska are under two separate governing boards.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN SEVENTY-THIRD SESSION ASSEMBLED:

1. That the Legislative Council appoint a committee to make a comprehensive and detailed study of the present system for governing and coordinating public higher education in Nebraska and of the desirability of establishing one board with the responsibility of governing and coordinating all public higher education in the state, and to report its findings together with its recommendations to the next regular session of the Legislature.

President Burney Presiding

Mr. Carpenter offered the following amendment:

1. Amend the bill by inserting two new sections immediately after section 1 to be known as sections 2 and 3 and to read as follows:

"Sec. 2. *If requested to do so at any time prior to 1972 by a city or village, the public power district or public power and irrigation district owning a distribution system in the city or village shall inform the city or village of the minimum price at which the district is permitted to sell the distribution system to the city or village under the district's agreement with its bondholders. Such minimum price shall give effect to the proportion of the bonds issued to acquire the property in said city or village that have been paid at the time of the determination of said price. The city or village shall reimburse the district for one half of any costs necessarily paid by the district to independent engineers to obtain the price under the bond agreement. At the request of the city or village, the district shall sell and convey the distribution system to the city or village for such minimum price, and the city or village shall contract to continue to purchase all of its power and energy requirements from the district at least until such time as the bonds issued to acquire such property would be retired had the city or village not purchased the distribution system, except, such energy as it may generate in its own generating stations or secures through contracts or renewals thereof at the time it acquires the property.*

The power district shall charge fair, reasonable, and nondiscriminatory rates so adjusted as, in a fair and equitable manner, to confer upon and distribute among its customers the benefits of a successful and efficient operation and conduct of the business of the district.

Sec. 3. That section 18-412, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

18-412. Supplemental to any existing law on the subject, and in lieu of the issuance of general obligation bonds, or the levy of taxes upon property, as by law provided, any city or village within the State of Nebraska may construct, purchase, or otherwise acquire, an electric light and power plant, distribution system, and transmission lines, and real and personal property needed or use-

ful in connection therewith, and pay the cost thereof by pledging and hypothecating the revenue and earnings of any electric light and power plant, distribution system, and transmission lines, owned or to be owned by such city or village. In the exercise of the authority granted in this section, any such city or village may issue and sell revenue bonds or debentures and enter into such contracts in connection therewith as may be proper and necessary. Such revenue bonds or debentures shall be a lien only upon the revenues and earnings of the electric light and power plant, distribution system, and transmission lines owned or to be owned by such city or village. No city or village shall pledge or hypothecate the revenue and earnings of any electric light and power plant, distribution system, or transmission lines, nor issue revenue bonds or debentures, as authorized by this section, until the proposition relating thereto has been submitted in the usual manner to the qualified electors of such city or village at a general or special election and approved by a majority of the electors voting on the proposition submitted: *Provided*, such proposition shall be submitted, whenever requested, within thirty days after a sufficient petition signed by the qualified electors of such city or village equal in number to twenty per cent of the vote cast at the last general municipal election held therein shall be filed with the municipal clerk. Three weeks' notice of the submission of the proposition shall be given by publication in some legal newspaper published and of general circulation in such city or village, or, if no newspaper is published therein then by posting in five or more public places therein. The requirement herein of a vote of the electors, however, shall not apply when a city or village seeks to pledge or hypothecate such revenue and earnings, or issue revenue bonds or debentures, solely for the maintenance, extension or enlargement of any electric light and power plant, distribution system, or transmission lines owned by such city or village.".

Message from the Governor

May 13, 1963

The President, the Speaker and
Members of the Legislature
State Capitol
Lincoln, Nebraska

Senators of the Seventy-third Session:

I return to you Legislative Bill 432 without my signature and inform you that I cannot, in good conscience, sign this bill and do hereby veto it for the following reasons:

1. In my opinion, this proposed legislation is ambiguous and unenforceable;
2. The bill violates and is contrary to the established and recognized public policy of this state.

The bill is ambiguous and unenforceable for the following reasons:

a. It provides that district and alternate district delegates to national conventions shall be "elected by the voters of the various congressional districts in the State." The bill fails to provide in what manner they shall be elected, the number of votes necessary for election and the time and place when the election shall be held.

b. The bill says "each of the various political parties" shall hold a delegate state convention for the purpose of electing delegates to the National Convention. This is ambiguous for the reason it does not state what constitutes a political party or what political paries it has reference to. Does it mean that any small party or faction or splinter group could hold a state convention and elect delegates to either the Republican or Democrat National Convention? Does it mean a political party can send delegates to the National Convention of a different political party? Suppose we have groups claiming to be political parties or recognized as political parties in various municipal elections—could such parties hold conventions in Nebraska and elect a group of delegates to the Republican or Democrat National Convention?

If this could happen, then the selection of the Nebraska delegation would be left to the National Party organization and completely demoralize political responsibility within the State of Nebraska.

(c) The bill states that the delegate convention shall be held not later than June first and the delegates to this convention shall be the same ones that are delegates to the state post-primary convention. The delegates to the post-primary convention are selected by the county convention which is held on the third Thursday after the Tuesday on which the state primary election is held. In presidential years the state primary is held on the first Tuesday after the second Monday in May. Suppose 1963 were a presidential year. The primary would be May 14. The county convention then would meet on May 30 which is the third Thursday after the primary. The deadline for the state convention is June 1. The delegates would not know who they were until the day before the state convention. It is also not clear whether the bill refers to the delegates to the state convention just elected or the delegates to the last state convention. This would lead to impossible confusion.

In my opinion, this bill further contravenes the established public policy of this state by attempting to divide delegates to national political conventions into two classes—one elected by the people and one not elected by the people but by a party convention. Insofar as it attempts to select at least a part of the delegates to a national convention by political conventions, it attempts to remove from the people a direct voice in the selection of their presidential

delegates. Historically, Nebraska has been a leader in the direct primary system in keeping government as close as possible to the people themselves and asking the public to assume responsibility for this direct selection of its own leadership. Insofar as this bill would remove the responsibility of the people for selecting presidential delegates, it moves contrary to the course of history and the development of democracy in our own state.

The presidency of the United States today is the most powerful and responsible office ever created in the entire history of the human race. Its effect upon the course of history and upon the lives of each of us is obvious.

I do not feel that we, as a people, can afford anything but the most intelligent, analytical and dedicated approach to the selection of those people who would nominate a person for this responsibility. Such legislation must be definite, concise, carefully and thoughtfully drawn and be in conformity with the established and accepted traditions of the people. Obviously, Legislative Bill 432 does not comply with these standards.

Respectfully,

(Signed) Frank B. Morrison

The motion prevailed.

May 13, 1963

Mr. Frank M. Woods, Director
Deartment of Public Welfare
State House
Lincoln, Nebraska

Dear Mr. Woods:

In the passage of LB 352, pertaining to hospitals in which you now have a responsibility of determining the minimum cost for each individual hospital, I wish to remind you of our understanding, which I conveyed to this Legislature - and I am sure was responsible in part for its passage; - that your department would issue rules and regulations immediately in the area of hospitals, that before any rate was set by your department you would require first a Certified Public Accountant's statement in detail, exempting rates of depreciation in capital investments necessary to operate the hospital before any determination would be made under the terms of LB 352.

If this is not your understanding, I would like to have you so advise me in what area we may be in disagreement. It seemed to me that this part of the bill, together with the bill as a whole, would put a great deal of responsibility on your department and yourself, and I am quite sure, with the fortitude which I am sure you have, we can solve many of the problems before they ever happen.

I presume you will immediately notify all counties of the contents of this bill, and when you can furnish them with the information necessary to comply with the intent and purpose of the bill.

Sincerely,

(Signed)
TERRY CARPENTER

"Sec. 36. No tractor or traction company shall be permitted to sell or dispose of any model or type of gas, gasoline, kerosene, distillate or other liquid fuel tractor engine in the State of Nebraska without first having said model tested and passed upon by a board of three competent engineers who are or shall be under the control of The University of Nebraska. Each and every tractor presented for testing, shall be a stock model and shall not be equipped with any special appliance or apparatus not regularly supplied to the trade. Any tractor not complying with the provisions of this section shall not be tested under sections 36 to 47 of this act, nor the result certified; *Provided,* that no official tractor tests shall be conducted during the months of December, January and February. Applications for the test of a tractor shall be made to the testing board of engineers and shall be accompanied by specifications of the tractor required by the board of engineers, and by the fee specified in section 40 of this act. If the application with specifications and fee is submitted during December, January, February, or at any other time when the test cannot be started at once, the commission, with the approval of the board of engineers, may issue a temporary permit for the sale of tractors of the model specified in the application for test, the date on which the temporary permit shall terminate to be fixed by the board of engineers. All temporary permits shall be conditioned upon such tractor as is covered thereby being tested at the earliest available date, and the tractor company to which a

temporary permit has been issued shall submit a tractor for test which conforms to the specifications filed with the application, which tractor shall be delivered for test at any time specified by the board of engineers. Upon failure so to do, all such fees deposited by said companies shall be forfeited to the State of Nebraska, and in addition such companies shall be liable to the penalties prescribed by section 45 of this act and shall never thereafter be issued any temporary permit whatever; *Provided,* that all sales of tractors upon which a temporary permit has been issued, shall be made subject to the final official test and approval of the model.

Sec. 37. Such tests shall consist of endurance, official rating of horsepower for continuous load, and consumption of fuel per hour or per acre of farm operations. The results of such tests shall be open at all times to public inspection.

Sec. 38. The University of Nebraska, after having duly tested any model of liquid fuel traction engine, shall certify the results to the commission. Prior to the issuing of a permit by the commission to any liquid fuel traction engine company to do business in the State of Nebraska, the official tests of the university shall be compared with the representations of the tractor company as to horsepower rating for not less than ten consecutive hours of continuous load, fuel used for developing such horsepower, and any other representation such company shall make, and in case any such representations shall be found false, the commission shall deny the company manufacturing or assembling such tractor the right to do business in the State of Nebraska, except as provided in section 41 of this act.

Sec. 39. The commission shall deny to any liquid fuel tractor company the right to do business in the State of Nebraska which shall be found, on complaint of two or more bona fide customers residing within the state, to fail to maintain an adequate service station, with full supply of replacement parts, within the confines of the state and within reasonable shipping distance of such customers.

Sec. 40. Application to The University of Nebraska for the testing of a tractor shall be accompanied by such fee as shall be prescribed by The Board of Regents of The University of Nebraska as a partial reimbursement for making the same. The board is empowered to establish and change, from time to time, as it determines advisable, a schedule of fees for such tractor tests. Payment shall also be made upon presentation of the proper statement for the cost of all fuel and oil consumed in making the test.

Sec. 41. The failure of any model of tractor to come up to the representations of the company manufacturing or assembling it, shall not prevent the company from placing on the market other models of tractors that do comply with specifications and ratings. Any model of tractor that fails, in the official test, to come up to the company's own specifications may be retested after alteration and remodeling. Each and every permit issued under sections 36 to 47 of this act shall specify the model or models included in such permit to sell.

Sec. 42. The report of the official tests required by section 36 of this act shall be posted in the Agricultural Engineering Department of The University of Nebraska and in such other places as may be designated by the university. The same shall be incorporated in the annual report of the commission.

Sec. 43. No tractor company shall use the results of such tests in such manner as would cause it to appear that The University of Nebraska intended to recommend the use of any given type or model of tractor in preference to any other type or model. It shall be unlawful for any tractor company operating in the State of Nebraska to publish extracts from such official tests for advertising purposes without publishing the entire report. For any violation of the foregoing provision the commission may, in its discretion, suspend or deny the right of any such company to do business in the state.

Sec. 44. Tractors shall be tested by The University of Nebraska in the order in which they are presented for such tests, and no discrimination shall be made for or against any tractor company in any manner whatsoever. Complaints against the violation of this provision shall be heard and adjudicated by the commission.

Sec. 45. Any gas, gasoline, kerosene, distillate or other liquid fuel tractor or traction company selling or offering for sale in the State of Nebraska, or any automobile, implement or other company or individual operating in behalf of such tractor company or on their own behalf, who shall sell or offer for sale in the state any model of liquid fuel tractor engine, without having in his possession a permit from the commission to sell such model of tractor as he is offering for sale, shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be punished by a fine of not less than one hundred dollars nor more than five hundred dollars for each offense, in the discretion of the court.

Sec. 46. The commission shall have full authority to enforce the provisions of sections 36 to 47 of this act, both by denial of a

permit to do business in the state and by due process of law to compel compliance therewith.

Sec. 47. The provisions of sections 36 to 47 of this act shall not apply to the following tractors:

(1) All tractors of less than ten horsepower, manufacturer's maximum engine power claim; and

(2) All truck-tractors which are designed primarily for drawing truck-trailers and semitrailers, and constructed so as to carry part of the weight and load of a truck-trailer or semitrailer.".

19. Amend page 48 of the bill, renumbered Article IV, section 8, line 4 by striking "rule or rules" and inserting "regulation or regulations".

20. Amend page 62 of the bill, renumbered Article IV, section 34 by striking "probably" and inserting "probable".

21. Amend pages 66 to 68 of the bill, renumbered Article V by striking sections 4 to 9.

22. Amend page 71 of the bill, renumbered Article VI by inserting eight new sections immediately after section 6 to be known as sections 7 to 14 and to read as follows:

"Sec. 7. Any telephone company, corporation, association, person or persons doing a public telephone business in the State of Nebraska shall take the calls or messages coming from any other telephone company, corporation, association, person or persons, and so switch and connect its wires that such telephone message from any point in Nebraska may be delivered to any subscriber served by its telephone exchange or switched through, so that any message may be passed on to another exchange over such trunk or toll lines as may be available and designated by the exchange or switching station where the call originated, regardless of the ownership of such lines. Such telephone company, corporation, person or persons shall also take calls from its subscribers and public pay stations, and pass such calls through its exchange toward destination, and over the lines and the route designated by the person making such telephone call if there be competing lines existing between such points; *Provided,* in case the person making such telephone call does not designate a route for such message, or that no competing lines exist between points of origination and destination, then the company may, by its operator at originating point, make such designation of route, but calls or messages must be switched through to destination if the point be reached by any connecting wires.

Sec. 8. Whenever in this state competing telephone plants or exchanges have, for any reason, been consolidated or one exchange absorbed by another so that the remaining exchange has a monopoly of or exclusive telephone business of any city or village, the company, corporation, association, person or persons operating such exclusive exchange or plant shall cause all toll or trunk lines formerly terminating in the eliminated exchange, to be placed on or connected to its exclusive exchange, and make and keep such connection in a good and efficient manner, and maintain an interchange of business with such trunk or toll lines the same as its own, in a fair and impartial manner, upon the terms set forth in sections 7 to 9 of this article; *Provided,* during the period intervening between the time when the first subscribers are taken from the eliminated exchange until the time all have been removed, if such period be more than thirty days, a temporary trunk line shall be established between the two exchanges so that calls may come into both exchanges from the trunk or toll lines of the exchange so absorbed or eliminated, and that calls from both exchanges may go out over the same.

Sec. 9. All rates for local telephone service and for intrastate long distance telephone service shall be prescribed by the commission. In determining the valuation of telephone property for the purpose of fixing fair and reasonable rates, the commission shall give consideration to such factors as may be just and reasonable.

Where two or more telephone companies jointly furnish such local or long distance service, the revenues from such jointly-furnished service shall be divided in such manner as may be agreed upon between the companies furnishing such service. In the event of inability to agree, any one of the companies jointly furnishing such local or long distance service may file an application with the commission requesting that the commission enter an order prescribing an equitable division of revenues from such jointly-furnished service. The order entered pursuant to such application may be appealed from by any party to the proceeding in the same manner as from other orders of the commission.

Sec. 10. Any telephone company, or manager thereof, failing or neglecting to comply with the provisions of sections 7 to 9 of this article, or who shall violate any of the provisions of said sections, shall, for each offense, upon conviction thereof be fined in any sum not less than one hundred dollars nor more than five hundred dollars.

Sec. 11. A telephone exchange, central office, and switchboard shall be maintained where there is an existing exchange by one or

more telephone companies operating more than ten exchanges, in every incorporated city or village in the State of Nebraska, and no existing exchange or central office shall be abandoned or discontinued by any company or removed to another city or village, except by the written consent of at least sixty per cent of the subscribers or patrons who had rental or exchange service contracts with said company at a date six months before the circulation of any such petition, and until said petition has been presented to the commission with the proper number of signers and upon a hearing the said commission issues a report, finding, decision or order permitting such discontinuance or abandonment.

Sec. 12. No person, firm, partnership, corporation, cooperative, or association shall offer telephone service or shall construct a new telephone line in or extend an existing telephone line into the territory of another telephone company without first making an application for and receiving from the commission a certificate of convenience and necessity, after due notice and hearing under the rules and regulations of the commission. Before granting a certificate of convenience and necessity, the commission must find that (1) the territory in which the applicant proposes to offer telephone service is not receiving reasonably adequate telephone service, (2) that the portion of the territory of another telephone company in which or into which the applicant proposes to construct new lines or extend its existing lines is not and will not within a reasonable time receive reasonably adequate telephone service from the telephone company already serving the territory, or (3) the telephone companies involved in the matter, will not create a duplication of facilities, and is in the interest of the public and the party or parties requiring telephone service.

Sec. 13. Any person, firm, partnership, corporation, cooperative, association, or mutual company operating an exchange offering telephone service in Nebraska shall file with the commission maps of the territory in Nebraska in which they are offering local exchange telephone service and shall file amended maps from time to time to continuously keep current the information shown on such maps. The style, size, and kind of maps, together with the information to be shown on such maps, shall be as required by rules and regulations to be prescribed by the commission for necessary administration of the commission's functions pertaining to telephone service. Such rules and regulations shall indicate the time and place for filing such maps and shall require that such maps be kept current.

Sec. 14. The commission may revoke or suspend the certificate of convenience of any violator of the provisions of section 13 of this article and any person, firm, partnership, corporation, cooperative, association or mutual company violating the provisions

of section 13 of this article shall be guilty of a misdemeanor and shall, upon conviction thereof, be punished by a fine of not less than ten dollars nor more than one hundred dollars, or by imprisonment for not less than thirty days nor more than six months, or by both such fine and imprisonment. The commission shall enforce the provisions of sections 13 and 14 of this article and it shall be the duty of the Attorney General, or of any county attorney, upon request of the commission, to assist in the prosecution of any violations of section 13 of this article.".

~~(7)~~ *(9)* Public owner shall mean (a) the state, (b) any agency or political subdivision thereof, (c) any municipal corporation, (d) any quasi-municipal corporation, or (e) any public authority which has an interest in any of the lands in and under which a condemner requires the right to underground storage. *;*

(10) Commercially recoverable native gas shall mean that native gas which would provide revenue in excess of direct operating expenses if produced;

57-602. Underground storage of natural gas *or liquefied petroleum gas or both* is found and declared to be in the public in-

Sec. 3. That section 57-603, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

57-603. Whenever any condemner shall require the right to underground storage in any of the lands within this state, such condemner may file an action to condemn and acquire such underground storage in and under the lands sought to be condemned, *including the amount of commercially recoverable native gas, if any, remaining in the reservoir,* together with such other rights or interests as may be necessary and proper to the full enjoyment thereof*; Provided, that any right of underground storage obtainable hereunder shall be without prejudice to the rights of the owners of the surface of such land or other interests therein as to all other uses thereof.*

Sec. 4. That section 57-605, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

57-605. If the county judge in the actions referred to in sections 57-603 and 57-604 determines, upon substantial evidence that underground storage of natural gas in the lands sought to be condemned is in the public interest and that the underground reservoir is suitable and practicable and if the underground reservoir sought to be condemned has been proved by condemner to be nonproductive of oil or gas in commercial quantities, under either primary or secondary recovery methods, and if the underground reservoir sought to be condemned is not then being used by anyone other than condemner for underground storage of natural gas or other hydrocarbons, then and in such event the underground reservoir, together with such other rights or interests as may be necessary and proper to the full enjoyment of the right of underground storage, shall be found by the county judge to be property subject to condemnation as the term property is defined in the eminent domain statutes; *Provided,* that any right of underground storage obtained hereunder shall be without prejudice to the rights of any condemnee to explore for, drill for, produce, process, treat, or market any oil, gas, or other minerals which might be contained in such lands above or below the underground reservoir. *Any condemner desiring to exercise the right of eminent domain as to any property for use for underground storage of natural gas or liquefied petroleum gas or both shall, as a condition precedent to the filing of its petition, obtain from the Oil and Gas Conservation*

Commission a certificate setting out findings of said commission (1) that the underground stratum or formation sought to be acquired is not capable of producing oil in paying quantities by any generally accepted method, (2) the field must have been producing natural gas or liquefied petroleum gas, or both, for at least ten years, (3) the condemner has acquired by purchase or other voluntary means at least sixty per cent of the ownership which has the right to grant the use of the underground stratum or formation sought to be acquired, computed in relation to the surface area overlying that part of the stratum or formation expected to be penetrated by displaced or injected gas, or that the volume of native gas originally in place in the underground stratum or formation sought to be acquired is forty per cent depleted, (4) that the underground stratum or formation sought to be acquired is suitable for the underground storage of natural gas or liquefied petroleum gas or both, (5) the amount of commercially recoverable native gas, if any, remaining therein, and (6) in the event any recoverable native gas is found to remain therein, that its use for such purposes is in the public interest because said stratum or formation has a greater value or utility as an underground reservoir for the storage of natural gas or liquefied petroleum gas or both than for the production of the remaining volumes of native gas; Provided, that such finding shall not of itself be a basis for compensation to be paid to the condemnee; and provided further, that if at the time of the condemner's filing with the commission, native gas from said underground reservoir is being used for the secondary recovery of oil, then gas in necessary and required amounts shall be furnished to the operator or operators of the secondary recovery operations at equivalent costs, for so long as oil is produced in paying quantities in the secondary recovery operations, but the amount of gas to be furnished hereunder shall not exceed the quantity of recoverable native gas found to exist in said reservoir at the time of its acquisition hereunder if such operator was or operators were at such time entitled to the whole thereof, but if it was or they were at such time entitled to less than the whole thereof, then not to exceed the quantity thereof to which such operator was or operators were then entitled. The commission shall issue no such certificate until after public hearing is had on application and upon reasonable notice to interested parties. The applicant is to be assessed and is to pay all the costs of said proceedings incurred with the commission. Any person having an interest in the property affected by a finding of the commission or the condemner may appeal from any issuance or denial of certificate or from any finding as to the amount of commercially recoverable native gas in the manner provided by section 57-913.

Sec. 5. That section 57-606, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

57-606. *Any right of underground storage obtained hereunder, except in an underground storage reservoir which is a mined cavern constructed by mining operations, shall be without prejudice to the rights of any condemnee to explore for, drill for, produce, process, treat, or market any oil, gas, or other minerals which might be contained in such lands above or below the underground reservoir.* Any additional cost and expense required to be incurred in order to protect the underground reservoir against pollution or escape of gas *or liquefied petroleum gas* therefrom by reason of boring or drilling above, into, or through such underground reservoir as provided for by section 57-605 *herein* shall be paid by the public utility then owning the right to underground storage therein; *Provided, no condemnee shall have the right to bore or drill into or through, or otherwise interfere with, an underground storage reservoir which is a mined cavern constructed by mining operations.*

Sec. 6. That section 57-607, Revised Statutes Supplement, 1961, be amended to read as follows:

57-607. Except as otherwise provided in sections 57-603 to 57-606, all proceedings in connection with the condemnation and acquisition of such underground storage and such other rights or interests as may be necessary and proper to the full enjoyment of such right shall be in accordance and compliance with sections 76-704 to 76-724, including full rights of appeal as to any finding or determination as to said underground reservoir sought to be condemned and acquired as well as to the amount of damages. *The condemner shall pay the severance tax due on all commercially recoverable native gas being acquired for underground storage purposes whether such acquisition is made voluntarily or under the provisions of this act. The tax shall be based on the current value of the gas and shall be paid to the State Treasurer on the volume of commercially recoverable native gas remaining in place at the time of acquisition as found by the Nebraska Oil and Gas Conservation Commission pursuant to section 57-605. The State Treasurer shall place the tax received in the Severance Tax Fund.*

Sec. 7. *All natural gas or liquefied petroleum gas which has previously been reduced to possession, and which is subsequently injected into an underground storage reservoir, shall at all times be deemed the property of the condemner, his heirs, successors or assigns; and in no event shall such natural gas or liquefied petroleum gas be subject to the right of the owner of the surface of said lands or of any mineral interest therein, under which said gas storage reservoir lies, or of any person other than the condemner, his heirs, successors and assigns, to produce, take, reduce to posses-*

sion, waste, or otherwise interfere with or exercise any control thereover; Provided, that the condemner, his heirs, successors and assigns, shall have no right to natural gas or liquefied petroleum gas in any stratum, or portion thereof, which has not been condemned under the provisions of this act, or otherwise purchased.

Sec. 8. *When the condemner shall have permanently abandoned the entire underground storage reservoir for storing natural gas or liquefied petroleum gas, title to that sand, formation, or stratum which had been appropriated under the terms of this act shall revert to the then owners of the land, mineral and royalty interests in proportion to their several ownerships.*

Sec. 9. That original sections 57-601, 57-602, 57-603, 57-605, and 57-606, Reissue Revised Statutes of Nebraska, 1943, and section 57-607, Revised Statutes Supplement, 1961, are repealed.

Sec. 10. Since an emergency exists, this act shall be in full force and take effect, from and after its passage and approval, according to law.".

~~(8)~~ *(10)* Person shall mean an individual, firm, corporation, partnership, association, trust or other legal entity, or any combination thereof;

~~(9)~~ *(11)* Property shall mean and include the land, the building, all improvements and structures thereon, and all easements, rights and appurtenances belonging thereto;

~~(10)~~ *(12)* To record shall mean to record in accordance with the provisions of sections 76-237 through 76-257, Reissue Revised Statutes of Nebraska, 1943, or other applicable recording statutes; and

(13) Common expense shall mean and include:

(a) All sums lawfully assessed against the apartment owner;

(b) Expense of administration, maintenance, repair or replacement of common elements; and

(c) Expenses agreed upon as common expenses by the association of coowners; and

~~(11)~~ *(14)* All pronouns used in this act shall include the male, female and neuter genders and include the singular or plural numbers, as the case may be.

Sec. 3. Whenever a sole owner or the coowners of a building expressly declare, through the recordation of a master deed, which shall set forth the particulars enumerated in section 9 of this act, their desire to submit their property to the regime established by this act, there shall thereby be established a horizontal *condominium* property regime.

Sec. 4. Once the property is submitted to the horizontal *condominium* property regime, an apartment in the building may be individually conveyed and encumbered and may be the subject of ownership, possession or sale and of all types of juridic acts inter vivos or mortis causa, as if it were solely and entirely independent of the other apartments in the building of which it forms a part, and the corresponding individual titles and interests shall be recordable; *Provided,* that the use and enjoyment of each apartment shall be subject to the following rules:

(1) Each apartment shall be devoted solely to the use assigned to it in the deed to which section 3 of this act refers;

(2) No tenant of an apartment may make any noise or cause any annoyance or do any act that may disturb the peace of the other coowners or tenants;

(3) The apartments shall not be used for purposes contrary to law, morals or normal behaviour;

(4) Each coowner shall carry out at his sole expense any works of modification, repair, cleaning, safety, and improvement of his apartment, without disturbing the legal use and enjoyment of the rights of the other coowners, or changing the exterior form of the facades, or painting the exterior walls, doors or windows

in colors or hues different from those of the whole; and *or which would jeopardize the soundness or safety of the property, reduce its value or impair any easement or access to or use of common elements; and*

(5) Every coowner or tenant shall strictly comply with the administration provisions set forth in the deed or in the by-laws referred to in section 15 of this act. Violations of these rules shall be grounds for an action for damages by the coowner or tenant aggrieved.

Sec. 5. Any apartment may be held and owned by more than one person as joint tenants, as tenants in common, or in any other real estate tenancy relationship recognized under the laws of this state.

Sec. 6. An apartment owner shall have the exclusive ownership of his apartment and shall have a common right to a share, with the other coowners, in the common elements of the property, equivalent to the percentage representing the value of the individual apartment, with relation to the value of the whole property. This percentage shall be computed by taking as a basis the value of the individual apartment in relation to the value of the property as a whole.

Such percentage shall be expressed at the time the horizontal *condominium* property regime is constituted, shall have a permanent character, and shall not be altered without the acquiescence of the coowners representing all the apartments of the building.

The said basic value, which shall be fixed for the sole purpose of this act and irrespectively of the actual value, shall not prevent each coowner from fixing a different circumstantial value to his apartment in all types of acts and contracts.

Sec. 7. The common elements, both general and limited, shall remain undivided and shall not be the object of an action for partition or division of the coownership. Any covenant to the contrary shall be void. *The rules of property against perpetuities and restricting unreasonable restraints on alienation shall not be applied to defeat any of the provisions of this act.*

Sec. 8. Each coowner may use the elements held in common in accordance with the purpose for which they are intended, without hindering or encroaching upon the lawful rights of the other coowners.

Sec. 9. The master deed creating and establishing the horizontal *condominium* property regime shall be executed by the owner or owners of the real property making up the regime and

shall be recorded in the office of the register of deeds in the county where such property is located. The master deed shall express the following particulars:

(1) The description of the land and the building, expressing their respective areas;

(2) The general description and number of each apartment, expressing its area, location and any other data necessary for its identification; and

(3) The description of the general common elements of the building, and, in proper cases, of the limited common elements restricted to a given number of apartments, expressing which are those apartments; and

(4) Value of the property and of each apartment, and, according to these basic values, the percentage appertaining to the coowners in the expenses of, and rights in, the elements held in common. *; and*

(5) The covenants, conditions and restrictions relating to the regime, which shall run with the land and bind all coowners, tenants of such owners, employees and any other persons who use the property, including the persons who acquire the interest of any coowner through foreclosure, enforcement of any lien or otherwise.

Sec. 10. *(1)* There shall be attached to the master deed, at the time it is filed for record, a full and exact copy of the plans of the building, which copy of plans shall be entered of record along with the master deed. Said plans shall show graphically all particulars of the building including, but not limited to, the dimensions, area and location of each apartment therein and the dimensions, area and location of common elements affording access to each apartment. Other common elements, both limited and general, shall be shown graphically insofar as possible and shall be described in detail in words and figures. Said plans shall be certified to by an engineer or architect authorized and licensed to practice his profession in this state.

(2) In interpreting the plans or other instruments affecting the property or apartment, the boundaries of the property or apartment constructed or reconstructed in substantial accordance with the plans shall be conclusively presumed to be the actual boundaries rather than the description expressed in the plans, regardless of the settling or lateral movement of the property.

Sec. 11. Each apartment in a building shall be designated, on the plans referred to in section 10 of this act, by letter or number

or other appropriate designation, and any conveyance, or other instrument affecting title to said apartment, which describes the apartment by using said letter or number followed by the words in ..... Horizontal *Condominium* Property Regime shall be deemed to contain a good and sufficient description for all purposes. Any conveyance of an individual apartment shall be deemed to also convey the undivided interest of the owner in the common elements, both general and limited, appertaining to said apartment without specifically or particularly referring to same.

Sec. 12. All the coowners or the sole owner of a building constituted into a horizontal property regime may waive this regime and regroup or merge the records of the individual apartments with the principal property; *Provided*, that the individual apartments are unencumbered, or if encumbered, that the creditors in whose behalf the encumbrances are recorded agree to accept as security the undividued portions of the property owned by the debtors. *Unless otherwise provided in the master deed or by-laws, the coowners may, by affirmative vote of at least three-fourths, elect to sell or otherwise dispose of the property, or to waive the condominium property regime; Provided, that the individual apartments are unencumbered, or if encumbered, that the creditors in whose behalf the encumbrances are recorded agree to accept as security the undivided portions of the property owned by the debtors. Upon waiver of the regime, the coowners shall own the property as tenants in common in accordance with their interests as determined by section 6 of this act.*

Any such action shall be binding upon all coowners and it shall thereupon be the duty of every coowner to execute and deliver such instruments and to perform all acts as may be necessary.

Sec. 13. The merger provided for in section 12 of this act shall in no way bar the subsequent constitution of the property into another horizontal *condominium* property regime whenever so desired and upon observance of the provisions of this act.

Sec. 14. The administration of every building constituted into horizontal *condominium* property shall be governed by by-laws which shall be inserted in or appended to and recorded with the master deed.

Sec. 15. The by-laws must necessarily provide for at least the following:

(1) Form of administration, indicating whether this shall be in charge of an administrator or of a board of administration, or otherwise, *including the number and method of selecting the board of administrators,* and specifying the powers, manner of removal, and, where proper, the compensation thereof;

(2) Method of calling or summoning the coowners to assemble *meetings of the association of coowners;* that a majority of at least fifty-one per cent *coowners* is required to adopt decisions; who is to preside over the meeting and who will keep the minute book wherein the resolutions shall be recorded;

(3) Care, upkeep and surveillance of the building and its general or limited common elements and services;

(4) Manner of collecting from the coowners for the payment of the common expenses; and

(5) Designation and dismissal of the personnel necessary for the works and the general or limited common services of the building.

The sole owner of the building, or, if there be more than one, the coowners representing two-thirds of the total value of the building, may at any time modify the system of administration, but each one of the particulars set forth in this section shall always be embodied in the by-laws. No such modification may be operative until it is embodied in a recorded instrument which shall be recorded in the same office and in the same manner as was the master deed and original by-laws of the Horizontal *Condominium* Property Regime involved.

Sec. 16. The administrator, or the board of administration *administrators,* or other form of administration specified in the by-laws, shall keep *or cause to be kept* a book with a detailed account, in chronological order, of the receipts and expenditures affecting the building and its administration and specifying the maintenance and repair expenses of the common elements and all other expenses incurred. Both said book and the vouchers accrediting the entries made thereupon shall be available for examination by all the coowners at convenient hours on working days that shall be set and announced for general knowledge.

Sec. 17. The coowners of the apartments are bound to contribute *pay* pro rata, in the percentages computed according to section 6 of this act, toward the expenses of administration and of maintenance and repair of the general common elements, and, in the proper case, of the limited common elements, of the building, and toward any other expense lawfully agreed upon.

If any coowner shall fail or refuse to make any payment of such common expenses when due, the amount therefor shall constitute a lien on the interest of the coowner in the property and upon the recording thereof, shall be a lien in preference over all other liens and encumbrances except assessments, liens and charges

for taxes past due and unpaid on the apartment and duly recorded mortgage and lien instruments.

No coowner may exempt himself from contributing *paying* toward such expenses by waiver of the use or enjoyment of the common elements or by abandonment of the apartment belonging to him.

Sec. 18. Upon the sale or conveyance of an apartment, all unpaid assessments against a coowner for his pro rata share in the expenses to which section 17 of this act refers shall first be paid out of the sales price or by the acquirer in preference over any other assessments or charges of whatever nature except the following:

(1) Assessments, liens, and charges for taxes past due and unpaid on the apartment; and

(2) Payments due under mortgage instruments of encumbrance duly recorded.

Sec. 19. The purchaser of an apartment shall be jointly and severally liable with the seller for the amounts owing by the latter under section 17 of this act up to the time of the conveyance, without prejudice to the purchaser's right to recover from the other party the amounts paid by him as such joint debtor.

Sec. 20. The coowners may, upon resolution of a majority, insure the building against risk, without prejudice to the right of each coowner to insure his apartment on his own account and for his own benefit. *The coowners shall, upon resolution of a majority, or if required by the master deed or by-laws, insure the property against risk, without prejudice to the right of each coowner to insure his apartment on his own account and for his own benefit. If the property is insured by the coowners, the policy shall be issued in the name of the board of administrators or as provided in the by-laws, in trust for the benefit of each coowner in accordance with the percentage interest of each as stated in the master deed. Premiums for such insurance shall be included in the common expenses.*

Sec. 21. In case of fire or any other disaster the insurance indemnity shall, except as provided in the next succeeding paragraph of this section, be applied to reconstruct the building.

Reconstruction shall not be compulsory where it comprises the whole or more than two-thirds of the building. In such case, and unless otherwise unanimously agreed upon by *three-fourths of* the coowners, the indemnity shall be delivered pro rata to the coowners entitled to it in accordance with provisions made in the by-laws or in accordance with a decision of three-fourths of the

coowners if there is no by-law provision. *within one hundred twenty days after such damage or destruction, the regime is waived, and the property shall be subject to a partition action and may be sold, and the proceeds, along with the insurance indemnity, if any, shall be delivered to the coowners in accordance with their interests as determined in the master deed.*

Should it be proper to proceed with the reconstruction, the provisions for such eventuality made in the by-laws shall be observed, or in lieu thereof, the decision of the council *association* of coowners shall prevail.

Sec. 22. Where the building is not insured or where the insurance indemnity is insufficient to cover the cost of reconstruction, the new building costs shall be paid by all the coowners directly affected by the damage, in proportion to the value of their respective apartments, or as may be provided by said by-laws; and if any one or more of those composing the minority shall refuse to make such payment, the majority may proceed with the reconstruction at the expense of all the coowners benefited thereby upon proper resolution setting forth the circumstances of the case and the cost of the works, with the intervention of the council *association* of coowners.

The provisions of this section may be changed by unanimous resolution of the parties concerned *association of coowners,* adopted subsequent to the date on which the fire or other disaster occurred.

Sec. 23. Taxes, assessments and other charges of this state, or of any political subdivision, or of any special improvement district, or of any other taxing or assessing authority shall be assessed against and collected on each individual apartment, each of which shall be carried on the tax books as a separate and distinct entity for that purpose, and not on the building or property as a whole. No forfeiture or sale of the building or property as a whole for delinquent taxes, assessments or charges shall ever divest or in anywise affect the title to an individual apartment so long as taxes, assessments and charges on said individual apartment are currently paid.".

Amend by inserting after Section 6 the following new Sections:

Sec. 7. As used in Sections 8 to 25 of this act, unless the context otherwise requires:

(a) "Business income" means income arising from transactions and activity in the regular course of the taxpayer's trade or business and includes income from tangible and intangible property if the acquisition, management, and disposition of the property con-

stitute integral parts of the taxpayer's regular trade or business operations.

(b) "Commercial domicile" means the principal place from which the trade or business of the taxpayer is directed or managed.

(c) "Compensation" means wages, salaries, commissions and any other form of remuneration paid to employees for personal services.

(d) "Non-business income" means all income other than business income.

(e) "Public utility" means any business entity which owns or operates for public use any plant, equipment, property, franchise, or license for the transmission of communications, transportation of goods or persons, or the production, storage, transmission, sale, delivery, or furnishing of electricity, water, steam, oil, oil products or gas.

(f) "Sales" means all gross receipts of the taxpayer not allocated under Sections 10 through 14 of this act.

(g) "State" means any state of the United States, the District of Columbia, the Commonwealth of Puerto Rico, any territory or possession of the United States, and any foreign or political subdivision thereof.

Sec. 8. Any taxpayer having income from business activity which is taxable both within and without this state shall allocate and apportion his federal taxable income, as adjusted in Sec. 6(a), as hereinafter provided in order to determine the amount thereof which is taxable in this state.

Sec. 9. For purposes of allocation and apportionment of income under this act, a taxpayer is taxable in another state if (1) in that state he is subject to a net income tax, a franchise tax measured by net income, a franchise tax for the privilege of doing business, or a corporate stock tax, or (2) that state has jurisdiction to subject the taxpayer to a net income tax regardless of whether, in fact, the state does or does not.

Sec. 10. Rents and royalties from real or tangible personal property, capital gains, interest, dividends, or patent or copyright royalties, to the extent that they constitute non-business income, shall be allocated as provided in Sections 11 through 14 of this act.

Sec. 11. (a) Net rents and royalties from real property located in this state are allocable to this state.

(b) Net rents and royalties from tangible personal property are allocable to this state:

(1) If and to the extent that the property is utilized in this state, or

(2) In their entirety if the taxpayer's commercial domicile is in this state and the taxpayer is not organized under the laws of or taxable in the state in which the property is utilized.

(c) The extent of utilization of tangible personal property in a state is determined by multiplying the rents and royalties by a fraction, the numerator of which is the number of days of physical location of the property in the state during the rental or royalty period in the taxable year and the denominator of which is the number of days of physical location of the property everywhere during all rental or royalty periods in the taxable year. If the physical location of the property during the rental or royalty period is unknown or unascertainable by the taxpayer, tangible personal property is utilized in the state in which the property was located at the time the rental or royalty payer obtained possession.

Sec. 12. (a) Capital gains and losses from sales of real property located in this state are allocable to this state.

(b) Capital gains and losses from sales of tangible personal property are allocable to this state if

(1) the property had a situs in this state at the time of sale, or

(2) the taxpayer's commercial domicile is in this state and the taxpayer is not taxable in the state in which the property had a situs.

(c) Capital gains and losses from sales of intangible personal property are allocable to this state if the taxpayer's commercial domicile is in this state.

Sec. 13. Interest and dividends are allocable to this state if the taxpayer's commercial domicile is in this state.

Sec. 14. (a) Patent and copyright royalties are allocable to this state:

(1) if and to the extent that the patent or copyright is utilized by the payer in this state, or

(2) if and to the extent that the patent or copyright is utilized by the payer in a state in which the taxpayer is not taxable and the taxpayer's commercial domicile is in this state.

(b) A patent is utilized in a state to the extent that it is employed in production, fabrication, manufacturing, or other processing in the state or to the extent that a patented product is produced in the state. If the basis of receipts from patent royalties does not permit allocation to states or if the accounting procedures do not reflect states of utilization, the patent is utilized in the state in which the taxpayer's commercial domicile is located.

(c) A copyright is utilized in a state to the extent that printing or other publication originates in the state. If the basis of receipts from copyright royalties does not permit allocation to states or if the accounting procedures do not reflect states of utilization, the copyright is utilized in the state in which the taxpayer's commercial domicile is located.

Sec. 15. All business income, except the business income of public utilities, shall be apportioned to this state by multiplying the income by a fraction, the numerator of which is the property factor plus the payroll factor plus the sales factor, and the denominator of which is three.

Sec. 16. The property factor is a fraction, the numerator of which is the average value of the taxpayer's real and tangible personal property owned or rented and used in this state during the tax period and the denominator of which is the average value of all the taxpayer's real and tangible personal property owned or rented and used during the tax period.

Sec. 17. Property owned by the taxpayer is valued at its original cost. Property rented by the taxpayer is valued at eight times the net annual rental rate. Net annual rental rate is the annual rental rate paid by the taxpayer less any annual rental rate received by the taxpayer from sub-rentals.

Sec. 18. The average value of property shall be determined by averaging the value at the beginning and ending of the tax period, but the State Tax Commissioner may require the averaging of monthly values during the tax period if reasonably required to reflect properly the average value of the taxpayer's property.

Sec. 19. The payroll factor is a fraction, the numerator of which is the total amount paid in this state during the tax period by the taxpayer for compensation, and the denominator of which is the total compensation paid everywhere during the tax period.

Sec. 20. Compensation is paid in the state if:

(a) the individual's service is performed entirely within the state, or

(b) the individual's service is performed both within and without the state, but the service performed without the state is incidental to the individual's service within the state, or

(c) some of the service is performed in the state and (1) the base of operations or, if there is no base of operations, the place from which the service is directed or controlled is in the state, or (2) the base of operations or the place from which the service is directed or controlled is not in any state in which some part of the service is performed, but the individual's residence is in this state.

Sec. 21. The sales factor is a fraction, the numerator of which is the total sales of the taxpayer in this state during the tax period, and the denominator of which is the total sales of the taxpayer everywhere during the tax period.

Sec. 22. Sales of tangible personal property are in this state if:

(a) the property is delivered or shipped to a purchaser, other than the United States government, within this state regardless of the f.o.b. point or other conditions of the sale; or

(b) the property is shipped from an office, store, warehouse, factory, or other place of storage in this state and (1) the purchaser is the United States government or (2) the taxpayer is not taxable in the state of the purchaser.

Sec. 23. Sales, other than sales of tangible personal property, are in this state if:

(a) the income-producing activity is performed in this state; or

(b) the income-producing activity is performed both in and outside this state and a greater proportion of the income-producing activity is performed in this state than in any other state, based on costs of performance.

Sec. 24. All business income of a public utility shall be apportioned to this state in accordance with Section 15 through 23, except that any corporation which owns, leases, operates over or uses rail, wire, pipe or pole lines, operational routes or property within and without this state, may elect upon returns filed with the Commission to have its business income apportioned to this state by multiplying such income by a fraction the numerator of which is the number of miles of rail, wire, pipe or pole lines or operational routes in this state controlled or used by the corporation, as owner, lessee or otherwise, and the denominator of which is the entire mileage of rail, wire, pipe or pole lines or operational

routes controlled or used by the corporation as owner, lessee or otherwise.

Sec. 25. If the allocation and apportionment provisions of this Act, contained in sections 7 through 24 do not fairly represent the extent of the taxpayer's business activity in this state, the taxpayer may petition the Tax Commissioner for, in respect to all or any part of the taxpayer's business activity, if reasonable:

(a) separate accounting;

(b) the exclusion of any one or more of the factors;

(c) the inclusion of one or more additional factors which will fairly represent the taxpayer's business activity in this state; or

(d) the employment of any other method to effectuate an equitable allocation and apportionment of the taxpayer's income.

LEGISLATIVE BILL 727. Placed on General File as amended.

Standing Committee amendments to LB 727:

1. Amend the bill by striking sections 1 to 7 and inserting the following:

"Section 1. Cities of the first class may provide a pension system for policemen as provided by the provisions of this act when the mayor and city council adopt the provisions of this act. No pension system shall be adopted until thirty days' notice of the adoption of the pension system shall have been given by the governing body by publication once each week for three successive weeks in some legal newspaper published and of general circulation in such city, or if no newspaper is published therein, then by posting in five or more public places therein. If, within thirty days after the last publication of such notice or posting thereof, a referendum petition signed by qualified electors of such city equal in number to at least twenty per cent of the vote cast at the last general municipal election held therein shall be filed with the municipal clerk, such pension system shall not be effective until the

proposition of adopting the pension system for policemen has been approved by a majority vote of the electors of such first-class city at any general or special election. If a majority of the voters voting on the proposition of a pension for policemen vote against such pension system, the pension system shall not be adopted. If no petitions are filed, the pension system shall become effective at the expiration of the thirty-day period.

Sec. 2. Subject to the provisions of section 1 of this act, every city of the first class may pension all policemen whenever such policemen shall (1) have first served in the paid police department for a period of twenty-one years, (2) have attained the age of sixty years, and (3) elect to retire from active service and go upon the retired list; *Provided,* no person, hereafter entering the employment of any such city as a member of its paid police department, shall be entitled to retire, elect to retire, or go upon the retired list until, after the completion of twenty-five years of service, he shall be sixty years of age. Such pension shall be paid by the city in the same manner as policemen upon the active list are paid and such pension shall be a straight life pension of one half of the regular pay as hereinafter defined; *Provided,* that a policeman who shall have completed twenty-five years of service and attained the age of fifty-five may elect to retire but then such pension shall be forty per cent of his regular pay as hereinafter defined; *and provided further,* that for each additional year of service after such policeman shall have become eligible to retire, such pension shall be increased one dollar and fifty cents per month, but not to exceed a total increase of seven dollars and fifty cents per month. Regular pay shall be defined as the average pay of such policeman for the five years preceding the date such policeman becomes eligible to retire or his death whichever is earlier.

Sec. 3. When any such policeman shall be eligible to retire, regardless of whether he may actually elect to do so, the pension to which he would have been entitled as provided in section 1 of this act shall in any event be payable upon his death from any cause to his widow, or upon her remarriage or death, to his minor child or children during said child or children's minority, or to him upon any other termination of his service as a member of said department whether by reason of resignation, discharge or otherwise.

Sec. 4. On or prior to the effective date of such retirement, but not thereafter, any such policeman may elect, by written notice filed with the city, to receive his pension as hereinbefore set forth, or he may elect to receive the actuarial equivalent of his straight life pension in a reduced pension payable throughout his life, and nominate a survivor beneficiary, having an insurable interest, in

accordance with the provisions of option A or B, as hereinafter set forth in this section. Said actuarial equivalent shall be computed upon the basis of the 1937 Standard Annuity Mortality Table and an interest computation of three per cent per annum, compounded annually.

Option A. Under option A, a retired policeman shall receive a reduced pension payable throughout his life and upon his death his said reduced pension shall be continued throughout the life of and paid to such person as he shall have nominated by written designation duly executed and filed with the city on or prior to the effective date of his retirement.

Option B. Under option B, a retired policeman shall receive a reduced pension payable throughout his life and upon his death one half of his said reduced pension shall be continued throughout the life of and paid to such person as he shall have nominated by written designation duly executed and filed with the city on or prior to the effective date of his retirement.

In the event a retired policeman and his survivor beneficiary, if any, die before the aggregate amount of pension payments received by the said retired policeman and his survivor beneficiary, if any, equals the total amount of contributions made to the retirement plan by the said retired policeman, without interest, the difference between the total amount of his contributions and the aggregate amount of pension payments received by the retired policeman and his survivor beneficiary, if any, shall be paid, in a single sum, to such person or persons as the retired policeman shall have nominated by his written designation duly executed or filed with the city. If there be no such designated person or persons surviving the retired policeman and his survivor beneficiary, if any, such difference, if any, shall be paid to his duly qualified personal representative; *Provided,* that if the difference is less than three hundred dollars, the city may pay same to such claimant or claimants as the city, in its discretion shall determine to be entitled to same.

Sec. 5. If any policeman hereafter entering the employment of any such city as a member of its paid police department, except those who shall have been formerly employed in such department who are now in military service, shall die other than in line of duty after becoming fifty-five years of age and before age sixty, and after serving in the paid police department of such city for at least twenty-one years, then a pension of at least twenty-five per cent of his regular pay as hereinbefore defined shall be paid to the widow or minor children of such deceased policeman as provided in section 3 of this act.

Sec. 6. In case of the death, while in the line of duty, of any such policeman or in case death is caused by or is the result of injuries received while in line of duty, then the maximum pension, as provided in section 2 of this act, shall be paid to the widow or minor children of such deceased policeman, as provided in section 3 of this act, subject, however, to deduction of the amounts paid under the Workmen's Compensation Act on account of such death, as provided in section 9 of this act.

Sec. 7. In case any such policeman shall become permanently and totally disabled from accident or other cause, while in the line of his duty, and said policeman because of such disability is unable to resume the duties he was performing at the time of his injury, such policeman shall forthwith be placed upon the roll of pensioned policemen, at the rate provided for retired policemen in section 2 of this act. In case of temporary total disability of a policeman received while in line of duty, he shall receive his salary during the continuance of such disability for a period not to exceed twelve months; *Provided,* if it shall be ascertained by the city council or other proper municipal authorities within twelve months that such disability has become permanent, then his salary shall cease and he shall be entitled to the benefits of the foregoing provisions with reference to pensions in case of total and permanent disability. All payments of pension or salary provided by this section shall be subject to deduction of amounts paid under the Workmen's Compensation Act, as provided in section 9 of this act.

Sec. 8. From and after the effective date of this act, every such policeman shall contribute to the city an amount equal to six per cent of his salary until such policeman reaches the age of sixty or retires, which amount may be deducted from the salary of every such policeman. Any policeman whose employment shall terminate, whether by discharge or otherwise, prior to the time he shall become entitled to a pension, and who shall have made contributions from his salary, as provided in this section, for a period of at least three years shall, upon demand, be reimbursed by the city for the amount of such contributions without interest.

Sec. 9. Notwithstanding any prior provisions of this act, no policeman shall be entitled during any period of disability to receive in full both his pension or salary, as provided in this act, and in addition benefits under the Workmen's Compensation Act. All Workmen's Compensation Act benefits shall be payable in full to such policeman or his dependents as provided in such act, but all amounts paid by the city or its insurer under said act to any disabled policeman entitled to receive a salary or pension during such disability, or to the widow or children of any deceased policeman,

shall be considered as payments on account of such salary or pension and shall be credited thereon. The remaining balance of such pension or salary, if any, shall be payable as otherwise provided in this act.".

Communication

May 8, 1963

SUBJECT:	Fireworks—Distributors and Jobbers License Different from Display License.
REQUESTED BY:	Joseph F. Divis, State Fire Marshal, State Capitol, Lincoln, Nebraska.
OPINION BY:	Clarence A. H. Meyer, Attorney General, Gerald S. Vitamvas, Deputy Attorney General.
QUESTION:	Does a license as a distributor of fireworks include the activities of a display license so that but one license need be issued?
CONCLUSION:	No.

ANALYSIS

L. B. 470, 1963 Legislature, provides for the regulation of fireworks. Section 1 defines certain terms as follows:

"Section 1. As used in this act, unless the context otherwise requires:

"(1) Distributor shall mean any person engaged in the business of making sales of fireworks at wholesale in this state either at retail or to any person engaged in the business of making sales of fireworks either as a jobber or as a retailer or both;

"(2) Jobber shall mean any person engaged in the business of making sales of fireworks at wholesale to any other person engaged in the business of making sales at retail;

"(3) Retailer shall mean any person engaged in the business of making sales of fireworks at retail to consumers or to persons other than distributors or jobbers;

"* * * * *."

Section 1 also defines permissible fireworks. In general it is made illegal to possess, sell or offer to sell any fireworks in this state except permissible fireworks. Section 8 does permit other than permissible fireworks to be possessed or discharged for purposes of public exhibition or display, and in other situations as stated therein. Section 8 in part requires:

"The provisions of section 2 of this act shall not apply to (1) any fireworks for purposes of public exhibitions or displays purchased from a licensed distributor or the holder of a display license to be issued by the State Fire Marshal upon payment of a fee of two hundred fifty dollars which license shall be good only for the calendar year in which issued and which shall not authorize the holder to sell or hold for sale any permissible fireworks as defined in section 1 of this act or any firecrackers of any description, whether soft shell or hard shell; * * *."

The term "display license" is not precisely defined. The holder of such a license is not permitted to sell permissible fireworks. He is permitted to possess, sell, offer for sale, bring into the state or discharge "any fireworks" for purposes of public exhibitions or displays. It is thus clear that, except for the limited purpose of dealing with fireworks for the purposes of public exhibitions or displays, the display license does not generally permit the holder thereof to act as a distributor, jobber or retailer.

The next question to be determined is whether a distributor's or jobber's license will permit the holder to do the same thing as the holder of a display license. We find no provision which would permit a jobber to sell fireworks of all kinds. A jobber is limited to the sale of permissible fireworks. To sell display fireworks, he would need a display license as well as his distributor's license. Section 8 of the act permits a distributor to deal with "any" fireworks, but it appears that a distributor is concerned only with the importing (Section 6) and the sale of fireworks. Under the provisions of Section 8 the holder of such a license could deal with display fireworks, but would not be authorized to contract to discharge such fireworks under such license. For this a display license would be needed. Nothing in this opinion should be construed to require the licensing of those organizations which purchase fireworks for purposes of public display and discharge same so long

as those fireworks are purchased from a licensed distributor or the holder of a display license.

Very truly yours,

CLARENCE A. H. MEYER

RESOLUTIONS

LEGISLATIVE RESOLUTION 45.

Mr. Thompson asked unanimous consent that the following communication be printed in the Journal. No objections. So ordered.

MILITARY DEPARTMENT OF NEBRASKA
Office of the Adjutant General
National Guard Center, Military Road
Lincoln 8, Nebraska

22 May 1963

Senator Don Thompson
State Capitol Bldg
Lincoln, Nebraska

Dear Senator Thompson:

The Adjutant General's Department approves the attached resolution. (LR 45).

Sincerely,

(Signed) H S SHERMAN
Major QMC Nebr. ARNG
Dept Comptroller

LR 45 was adopted with 37 ayes, 0 nays and 6 not voting.

MOTION—Report on Resolution

Mr. President: On March 7 Pearle Finigan, Director of Agriculture, requested this Legislature to appoint a committee to investigate the problem on the price of cattle and hogs. On March 22 this Legislature passed and sent the following resolution to the Governor of the State of Nebraska which was received by him at 4:00 PM on March 29:

WHEREAS, approximately eighty-five per cent of meat retailed is sold through multiple-owned stores.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN SEVENTY-THIRD SESSION ASSEMBLED:

1. That the Governor of Nebraska be requested to make inquiry immediately to try to solve the discrimination existing in the pricing of retail meat products under the authority of sections 81-119 and 81-201, Reissue Revised Statutes of Nebraska, 1943; *Provided, that if additional funds are needed, he ask this body for same.*

2. That a copy of this resolution, properly certified, be sent to Frank B. Morrison, Governor of Nebraska.

Now, Mr. President, I move that the Clerk be instructed to request the Governor of the State of Nebraska to report back to this body as soon as practicable the results of his study and investigation up to the present time. The prices of live stock continue to go down and the lack of any report on one of the most important problems in this state could be quite beneficial in alerting this body to the broad purposes and corrections that we might take in the area of the resolution.

(Signed) Terry Carpenter

The motion prevailed.

Message from the Governor

May 28, 1963

The President, the Speaker,
and Members of the Legislature
State Capitol
Lincoln, Nebraska

Senators of the Seventy-third Session:

I am returning Legislative Bill 586 without my signature and vetoed for the following reasons:

1. The bill discriminates between Lancaster County and Douglas County by providing the county commissioners in Lancaster

County shall be elected in the county at large, while in Douglas County from districts. I see no rational basis for this distinction.

2. This proposed legislation would divide Douglas County into five districts, with the commissioners being elected from districts instead of by the county at large, as at present. This would, in my opinion, make the official's primary loyalty to his district rather than to the county at large, which I do not believe is in the public interest. It would have a tendency to substitute divisiveness for unity. I believe that in a political campaign in metropolitan areas a candidate should campaign and become acquainted with the entire county and metropolitan areas and not just his section. The city of Omaha is rapidly growing; it has many zoning problems and many other problems which should be approached from the standpoint of the overall welfare of the county and city as a whole. There is only a small percentage of the population of Douglas County today which lives outside of metropolitan Omaha, and the zoning of this rural area in conformity with the best interests of the city and not in conformity with a district approach is essential to the proper growth of the metropolitan area. Omaha is an integral part of Nebraska and not something separate and apart from it. We must look forward to the time when practically all of Douglas County will be urban area. What kind of a city the city of Omaha is is of interest to all of us in Nebraska. Its economy, its culture, its beauty, its expansion, and all phases of its development vitally concern the entire state. I believe that the interest of the metropolitan area is best served by making its governing body elected from the county at large. Nomination by districts but election from the county at large insures a degree of unity which cannot be achieved if commissioners owed their entire loyalty and allegiance to segmented parts of the metropolitan area.

For these reasons I do not believe that the best interests of the city of Omaha or the State of Nebraska would be served by the enactment of Legislative Bill 586, and I respectfully request that you reconsider this proposed legislation in view of the foregoing serious objections to its enactment.

Respectfully,

(Signed) Frank B. Morrison
Governor

Message from the Governor

June 3, 1963

The President, the Speaker,
and Members of the Legislature

State Capitol
Lincoln, Nebraska

Senators of the Seventy-third Session:

Pursuant to Legislative Resolution 26, filed in the Governor's office of the State of Nebraska on the 29th day of March, 1963, you are advised that upon receipt of this resolution Mr. Pearle Finigan, Director of Agriculture of the State of Nebraska, was commissioned with the responsibility of making an investigation, report, and recommendation with reference to the problems presented in the resolution. Mr. Finigan has made a report and recommendation to the Governor as a result of such commission, a copy of which is hereunto attached, marked "Exhibit A" and by this reference made a part of the Governor's report to the Legislature.

In addition to the investigation conducted by Director Finigan, you are advised that I as Governor held personal conferences with the Honorable Orville Freeman, Secretary of Agriculture of the United States, and the Honorable Charles S. Murphy, Undersecretary, together with other personnel in the United States Department of Agriculture, with reference to the serious impact upon our economy caused by the decline in market prices of certain grades of livestock, particularly choice steers. As a result of these conferences, I received a report from the United States Department of Agriculture dated April 3, 1963, a copy of which report is hereunto attached, marked "Exhibit B" and by this reference made a part of the Governor's report to the Legislature. There was also submitted with this report a pamphlet published by the United States Department of Agriculture entitled "The Current and Prospective Cattle Situation," which publication is hereunto attached, marked "Exhibit C" and by this reference made a part of the Governor's report to the Legislature.

In addition to conferences with officials of the United States Department of Agriculture, I as Governor, together with Mr. Kelley of my staff, had a conference with Dr. Howard Otteson and his staff of the Department of Agricultural Economics of the University of Nebraska College of Agriculture.

In addition thereto, I as Governor conferred with representatives of the industry in Nebraska, together with representatives of farm groups, and have received a bulletin from the Nebraska Grange which contains some valuable information, which bulletin is entitled "Marketing and Transportation Situation" bearing date of May 11, 1963, which publication is marked "Exhibit D" and by this reference made a part of the Governor's report to the Legislature.

As a result of the foregoing information, I would like to report the following findings:

1. That during the latter part of 1962 there was a substantial increase in the prices of fed cattle, followed by a sharp decline. Prices of choice slaughter steers in Chicago rose from $25.25 per hundred pounds in June of 1962 to a high of $30.47 in late November. By mid-March, prices were slightly below $23.00 per hundred. The sharp run up and down since the summer of 1962 has raised many questions as to the reasons and what, if anything, should be done about them. Between June and November of 1962 the volume of steer beef produced was reduced some 22 percent as feeders built up their inventory of cattle on feed. From November to February, the volume of beef produced rose about 25 percent. The price changes we have had are not out of line with the magnitude of such a large shift in supplies. Prices of lower grade cattle, which were not subjected to such large changes in supply, have shown much smaller price movements than fed cattle. In addition, on the supply side, slaughter of hogs and broilers have shown substantial increases over a year, thus adding to the downward pressure on prices.

2. That the causes of the rise and fall of livestock prices are very complex, but are pretty well known. The rise and fall of livestock prices, like all other commodities, are affected by the law of supply and demand, and the factors involved in the current price fluctuation were as follows:

   a. Vast increase in the number of cattle on feed.

   b. Increase in competition from other types of meat.

   c. The dock strike and newspaper strike in New York.

   d. Some possibility of slight effect from import of lower grade animals. However, there is some question as to whether or not this affected the fat cattle market, as there was little or no import of fat cattle, but only of inferior grades, and the prices of inferior grades of cattle were rising during the period when imports were rising. Apparently the cause of the increased imports was the increase in the domestic price situation.

3. That the State of Nebraska does not have the resources to make any meaningful investigation of the cause in drop of meat prices which have not already been made by the United States Department of Agriculture, the University of Nebraska College of Agriculture, and the economic studies of the

various other research groups, including the farm organizations.

4. That there is a need for more frequent reports to the livestock industry and to feeders about the current livestock situation by the College of Agriculture of the University.

5. That the extent to which retail meat prices failed to reflect the drop in livestock prices is not accurately known and it is possible that investigation of this area by the State of Nebraska might be productive of valuable information.

It is therefore my recommendation, as Governor, that the State not appropriate a vast sum of money for research in the causes of the drop in livestock prices, for much of this work has been done by other agencies, but that a modest amount be appropriated for more frequent livestock reporting to feeders and to the industry by the Department of Agricultural Economics of the College of Agriculture of the University of Nebraska; and it is my further recommendation that in the event the Legislature feels there has been a serious lag in the reduction of meat to the consumer after decline in livestock prices, that a study be undertaken by the State to determine the cause of this lag and make recommendations as to what, if anything, the State might do to help remedy the situation.

As retailers gravitate together in larger units, the impact of their livestock buying in large quantities will have more and more effect on livestock prices. This trend is one which both the public and the producer must be prepared to face in the years ahead.

Respectfully submitted,

Message from the Governor

STATEMENT OF INTENT

To Members of the Legislature:

A bill has just been submitted to the Legislature which would amend Section 81-829.21 of the Laws of 1951, C315 #9, p. 1080.

The intent of the amendment is to broaden the immunity therein granted to certain professional people to include the performance of acts in a national emergency which are not authorized by their professional license.

In a national emergency, it is anticipated that physicians and surgeons would not always be available. In order to save life or alleviate suffering it may become necessary for a registered nurse to perform certain acts of medical or surgical skill, which are not covered by her license as a nurse, though the procedure is thoroughly familiar to her, due to her close work with the medical profession.

For the above reasons I believe the amendment is necessary, if limited to necessary non-licensed acts performed only during a national emergency.

(Signed) FRANK B. MORRISON
Governor of Nebraska

LEGISLATIVE RESOLUTION 48. Re: Personal Property prepared by State Association of County Assessors.

Introduced by Terry Carpenter, Legislative District 42.

WHEREAS, the schedule of values of personal property prepared by the State Association of County Assessors for use by the individual county assessors should be subject to review by the State Tax Commissioner.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN SEVENTY-THIRD SESSION ASSEMBLED:

1. That the State Tax Commissioner should, in his discretion and under his constitutional authority, review and revise any values of property arrived at by the State Association of County Assessors and contained in the association publication entitled "Nebraska Schedule of Values for Assessment for use by County and Assistant Assessors".

2. That the Clerk of the Legislature forward a copy of this resolution, suitably engrossed, to all county assessors of this state.

LEGISLATIVE RESOLUTION 49. Re: Study of Public Power in Nebraska

Introduced by: Harold B. Stryker, Legislative District 17, Don Thompson, Legislative District 33 and Arnold Ruhnke, Legislative District 22.

WHEREAS, the Legislative Council study of public power authorized by the Seventy-second Session of the Nebraska State Legislature, 1961, pin pointed many of the problems which prevent full realization of the benefits of public power to people of Nebraska, and

WHEREAS, this study resulted in the passage of Legislative Bill 220 at this session of the Legislature, may solve some of the problems at the retail level, and

WHEREAS, four bills were introduced hoping to solve the problems in the area of generation and transmission, and since none of the bills were enacted into law the problems still prevail, and

WHEREAS, the Seventy-third Session of the Nebraska State Legislature, 1963, enacted into law Legislative Bill 220, which established a Power Review Board, and since it is a new committee it is desirable that the Legislature keep in close touch with the committee to be made aware of the problems that arise.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN SEVENTY-THIRD SESSION ASSEMBLED:

1. That the Legislative Council appoint a committee of nine members to continue the study of public power in Nebraska, and report to the next regular session of the Legislature its recommendations with particular emphasis on generation and transmission and the necessity of meeting the fast growing need for additional power in the near future.

UNANIMOUS CONSENT—Add Co-introducers

Mr. Gottschalk asked unanimous consent to add the following names as co-introducers to LR 49: Messrs. Gottschalk, Erlewine, Gerdes, Kjar, Claussen and Mahoney. No objections. So ordered.

LEGISLATIVE RESOLUTION 49 was referred to the Executive Board of the Legislative Council.

LEGISLATIVE RESOLUTION 50. Re: Boundary Agreement between Nebraska and South Dakota.

Introduced by: George Syas, Legislative District 4, LeRoy Bahensky, Legislative District 29 and Hal Bridenbaugh, Legislative District 13.

WHEREAS, some public attention has recently been centered on a controversy with respect to fishing rights in the tail waters immediately below a dam, which dam extends across the Missouri River between the State of Nebraska and the State of South Dakota; and

WHEREAS, it has been reported that the Boundary Commission of the State of Nebraska proposes to enter into a boundary agreement with the Boundary Commission of the State of South Dakota, which would be submitted to the Legislatures of the two states and to the Congress of the United States for approval, and that such proposed agreement would include a provision controlling fishing and game rights along the boundaries of such states; and

WHEREAS, it is the feeling of the Legislature of the State of Nebraska that it is beyond the authority of the Boundary Commission of the State of Nebraska to negotiate fishing rights inasmuch as an act of this Legislature created such commission only "for the purpose of negotiating and entering into a compact or agreement between the states to establish a new boundary," and for the further reason that this Legislature in 1961 by amendment of section 81-805, Revised Statutes Supplement, 1961, specifically gave to the Nebraska Game, Forestation and Parks Commission the authority to "enter into agreements with other states bordering on the Missouri River providing for reciprocal recognition of licenses, permits, and laws of the agreeing states,"; and

WHEREAS, it is the feeling of this Legislature that it would not be appropriate to include in a boundary agreement any provision relating to hunting and fishing rights because of the difficulty of changing any such provisions in the event changes are desired in the future by either state.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN SEVENTY-THIRD SESSION ASSEMBLED:

1. That it is the sense of this Legislature that the Boundary Commission of the State of Nebraska should be advised forthwith that a boundary agreement seeking to regulate fishing rights, or containing provisions not related to establishing a boundary between the states, is totally unacceptable and would be rejected.

2. That the Clerk of the Legislature be directed to send copies of this resolution to the Boundary Commission of the State of Nebraska.

UNANIMOUS CONSENT—Add Co-introducers

Mr. Syas asked unanimous consent to add the following names as co-introducers to LR 50: Messrs. Payne, Stromer, Burbach, Brandt, Hasebroock, Kremer, Wylie and Mahoney. No objections. So ordered.

Governor Escorted

At 9:30 a.m., Mr. Thompson escorted Governor Frank B. Morrison to the rostrum where he delivered the following message:

Senators of the Seventy-third Session:

Present indications are that consolidation of farms and the exodus of farm population into the cities, most of which are outside of Nebraska will continue indefinitely unless we make a wholehearted united effort to reverse this trend. Nebraska will fail to hold our population and advance with her sister states unless we use every device at our command for increasing employment opportunities. At the present time our state does not have adequate machinery or appropriations to be competitive with the other states in attracting industry.

LB 767 was recommended by me as an effective tool to be used in expanding our economy. In your collective wisdom you discarded it. This does not relieve you of the responsibility of initiating action of your own. The people of Nebraska have the right to expect from this honorable body the highest degree of accomplishment. There is not a senator in this honorable body who believes that our present approach is adequate. The fact that our out migration continues to exceed our in-migration is irrefutable. For a small bureau in the Department of Agriculture to be charged with the industrial development of this state and the Game Commission to be charged with tourist promotion, when at the most, only 15% of the traveling public are interested in hunting and fishing is not a proper approach to our responsibilities.

I have taken note of the objections presented by various senators to the enactment of LB 767. Most of these objections have been to the language of the bill or to the motives of the Governor. These objections cannot be taken as a reason for failure to meet our obligations to the people of this state. A man's objection to the color of his wife's dress does not relieve him from the obligation to support her. This Legislature has the responsibility to provide this state with whatever machinery in its collective wisdom is necessary to insure its forward march. Your Governor has no pride of authorship and I hereby respectfully urge you through the proper committee to draft such legislation as, in your judgment, will provide the necessary tools to push forward our industrial development program in this highly competitive age.

We have a great heritage. Men down through the ages have made untold sacrifices that we might enjoy the advantages and face the opportunities which are ours today. There is no problem which confronts us which we cannot solve as a people of good will, stand-

ing together in a spirit of cooperation, and marching shoulder to shoulder in the direction of achievement.

There is before the Legislature other legislation to which I would like to specifically call your attention at this time. I have previously addressed myself to the problem of employment opportunities for our people and I would like now to mention developing the skills of our people to make them more effective in dealing with the problems of modern life. The great waste which exists in Nebraska today is not inefficiency or the cost of government as such, but lies rather in our failure to achieve the full potential of our people.

The accident rate upon our highways today has a cash loss to our people far exceeding the general fund cost of operating the state government. Most of these accidents could have been prevented. This does not take into consideration the moral and social aspects of the loss. A proper program of Driver Education can more than pay for itself in savings alone. The implementation of such a driver's program as you see fit to implement is a necessary part of our responsibility.

In the last five year period the number of Nebraska's teen-age drivers has increased ten per cent but our teen-age accidents have grown 53%. Last year we watched helplessly as 401 deaths and 14,000 injuries were recorded on the highways of Nebraska. The financial burden of this loss is incredible. A proper driver's education bill will be the most important tool in our hands to meet this situation. If there is any justification in this tragedy, it must rest in the incentive for your action in approving LB 478. No other single element shows so much promise for eventually producing a nation of safe drivers as proper driver's education legislation.

Without question, the greatest area of waste with which we are confronted today is our failure to bring the maximum amount of knowledge, training and skill to all of our people. Educational television will provide an equality of educational opportunities and give us the necessary machinery to bring the skills and talent of the gifted teachers to all of our children and adults in the most remote parts of the state. The value of such a program cannot be over-estimated. ETV will bring about improvement of instruction in grade and high schools of our state. Children in rural areas of the state will have the advantages and the same degree of excellence in instruction that exist in the cities. Results and experience over the past few years verify this. The people of this state have the right to demand that children in the small towns and rural areas have the same advantage and access to the same information as children in Omaha who are exposed to the instruc-

tion of the most gifted teachers in mathematics and science. Here, for the first time, is a means of reaching students in large numbers with quality and uniformity of instruction on a regular and continuing basis for very modest investment. Television will bring to the rural areas courses that are not now available to them. The same network system can be used to provide valuable in-service training for our teachers to improve their skill. For the first time there exists a means to bring the specialists of our teaching institutions directly to the teachers in their own classrooms. Here is proven device which is up to date in a rapidly changing society when new information is flooding in upon us. The schools now using ETV on limited coverage can attest to the importance of this instrumentality. Since the state ETV network is designed also to provide coverage to our twenty-one colleges and universities in Nebraska, the influence of our state's most gifted professors can be spread from campus to campus. In the field of adult education ETV network can be used in late afternoon and evening hours to improve the knowledge and skill of our population. It will make possible disseminating information to user farmers as a valuable tool in the hands of the extension agents.

Your honorable body has had the benefit of competent and professional study from both national consultants and Nebraska educators. You have testimony from national experts and authorities that Nebraska's state plan ranks with the best ETV plan in design, economy and arrangement. My contacts indicate that other states are looking jealously to Nebraska for leadership in this field. The people of this state have a right to expect us to nail down the availability of these channels for the use of our people. ETV affects our education, our culture, our economy, our well-being and your decision on this important matter will, in large degree, determine the direction of our movement in the years ahead.

In closing, let me say that I have confidence in the leadership of this body and your dedication to the interests of the people in this state and that you will not allow your historic responsibility to go unattended.

Respectfully submitted,

(Signed) Frank B. Morrison
GOVERNOR

Advanced to E and R for engrossment.

Mr. Ruhnke Presiding

LEGISLATIVE BILL 488. Mr. Stryker asked unanimous consent to strike the E and R amendments and offered the following specific amendments in lieu thereof:

1. Amend the bill by striking section 1 and all amendments thereto and inserting in lieu thereof the following:

"Section 1. (1) The right of an alien not residing within the United States or its territories to take either real or personal property or the proceeds thereof in this state by succession or testamentary disposition, upon the same terms and conditions as inhabitants and citizens of the United States, is dependent in each case:

(a) Upon the existence of a reciprocal right upon the part of citizens of the United States to take real and personal property and the proceeds thereof upon the same terms and conditions as inhabitants and citizens of the country of which such alien is an inhabitant;

(b) Upon the rights of citizens of the United States to receive by payment to them within the United States or its territories money originating from the estates of persons dying within such foreign country; and

(c) Upon proof that such nonresident alien heirs, distributees, devisees, or legatees may receive the benefit, use, or control of property or proceeds from estates of persons dying in this state without confiscation in whole or in part, by the governments of such foreign countries.

(2) The burden is upon such nonresident alien to establish the fact of existence of the reciprocal rights set forth in subsection (1) of this section.

(3) If such reciprocal rights are not found to exist, the property shall be delivered to the State Treasurer to be held for a period of five years from date of death during which time such nonresident alien may show that he has become eligible to receive such property. If at the end of such period of five years no showing of eligibility is made by such nonresident alien, his rights to such property or proceeds shall be barred.

(4) At any time within the one year following the date the rights of such nonresident alien has been barred, any other person other than an ineligible nonresident alien who, in the case of succession or testamentary disposition, would have been entitled to the property or proceeds by virtue of the laws of Nebraska governing intestate descent and distribution had the nonresident alien predeceased the decedent, may petition the district court of Lancaster County for payment or delivery of such property or proceeds to those entitled thereto.

(5) If no person has petitioned the district court of Lancaster County for payment or delivery of such property or proceeds within six years from the date of death of decedent, such property or proceeds shall be disposed of as escheated property.

(6) All property other than money delivered to the State Treasurer under this act may within one year after delivery be sold by him to the highest bidder at public sale in whatever city in the state affords in his judgment the most favorable market for the property involved. The State Treasurer may decline the highest bid and reoffer the property for sale if he considers the price bid insufficient. He need not offer any property for sale if, in his option, the probable cost of sale exceeds the value of the property. Any sale held under this section shall be preceded by a single publication of notice thereof at least three weeks in advance of sale in an English language newspaper of general circu-

lation in the county where the property is to be sold and the cost of such publication and other expenses of sale paid out of the proceeds of such sale. The purchaser at any sale conducted by the State Treasurer pursuant to this act shall receive title to the property purchased, free from all claims of the owner or prior holder thereof and of all persons claiming through or under them. The State Treasurer shall execute all documents necessary to complete the transfer of title.".

Introduced by Richard D. Marvel, 31st District.

WHEREAS, one main function of representative government is to distribute the resources so that the total dollars allocated to government will do more good for society than if they were left with the people to spend; and

WHEREAS, increased spending in all areas of society, the home, business, agriculture and government has created nationwide concern; and

WHEREAS, no comprehensive study has been conducted on a state level as to the present and future needs of Nebraska citizens in all areas of concern and how these needs may be adequately met within the economic framework of the state; and

WHEREAS, the function of practical and prudent spending should be of primary concern to both the taxpayers and government agencies, so that it can be geared to realistic progress.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN SEVENTY-THIRD SESSION ASSEMBLED:

1. That the Legislative Council appoint a committee of five members to study and explore all facets of this problem at the governmental level, local as well as state.

2. That the committee be authorized to ask assistance from private citizens representing major segments of the economy and recognized authorities in their particular field to counsel and advise the committee; that this group of people shall be selected from

every section of the state, representing agriculture, industry, labor, small business and the consumer interest; and operating at its own expense, with no expense to the State of Nebraska, study the economy of the state, the needs of the state and methods of meeting those needs within the ability of the people to pay.

3. That the committee report its findings with its recommendations to the next regular session of the Legislature.

Referred to the Legislative Council Executive Board.

Introduced by Arnold Ruhnke, 22nd District, Eugene T. Mahoney, 8th District, and William R. Skarda, 7th District.

WHEREAS, Nebraska voters have been electing members of the Legislature on a nonpartisan basis since 1935; and

WHEREAS, the leaders of the political parties have long been advocating a change to a partisan Legislature so as to exercise more control in the Legislature; and

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN SEVENTY-THIRD SESSION ASSEMBLED:

1. That we urge the citizens of the State of Nebraska before signing a petition to place upon the ballot the question of electing members of the Legislature on a partisan basis to consider whether they want members of the Legislature to be directly responsible to the people or to a political party.

Sec. 2. It is hereby found and declared that the practice or policy of discrimination against any person because of race, creed, color, national origin, or ancestry in regard to housing opportunities foments domestic strife and unrest, threatens the rights and privileges of the inhabitants of Nebraska and undermines the foundations of a free democratic state. It is further found and declared that the denial of equal housing opportunities because of such discrimination deprives large segments of the population of Nebraska of decent, safe and sound housing and compels many individuals to live in dwellings which are substandard, unhealthful, and overcrowded, resulting in racial segregation, juvenile delinquency and other evils, thereby threatening the peace, health, safety, and general welfare of the State of Nebraska and its inhabitants.

It is hereby declared to be the public policy of the State of Nebraska to secure equal housing opportunities to all regardless of their race, creed, color, national origin, or ancestry.

This act shall be deemed an exercise of the police power of the State of Nebraska for the protection of the peace, health, safety, and public welfare of the people of the State of Nebraska.

Sec. 3. It shall be an unfair housing practice:

(1) For any person having the right of ownership, or possession, or the right of transfer, rental, or lease of any housing: To refuse to transfer, rent, or lease, or otherwise to deny to or withhold from any person or persons such housing because of race, creed, color, national origin, or ancestry; to discriminate against any person because of race, creed, color, national origin, or ancestry in the terms, conditions, or privileges pertaining to any housing, or the transfer, rental, or lease thereof, or in the furnishing of facilities or services in connection therewith; to cause to be made any written or oral inquiry or record concerning the race, creed, color, national origin, or ancestry of a person seeking to purchase, rent, or lease any housing.

(2) For any real estate broker or real estate salesman: To refuse to sell, rent, or lease or to offer for sale, rental, or lease

any real property to any person because of the race, creed, color, national origin, or ancestry of such person or persons; to refuse to negotiate for the sale, rental, or lease of any real property to any person or group of persons because of the race, creed, color, national origin, or ancestry of such person or persons; to represent that real estate is not available for inspection, sale, rental, or lease when in fact it is so available, or otherwise deny or withhold any real property or any facilities of real property to or from any person or group of persons because of the race, creed, color, national origin, or ancestry of such person or group of persons; to discriminate against any person because of his race, creed, color, national origin, or ancestry in the terms, conditions, or privileges of the sale, rental, or lease of real property or in the furnishing of facilities or services in connection therewith; to print, circulate, or post or cause to be printed, circulated, or posted any advertisement or sign, or use any form of application for the purchase, rental, or lease of any real property, or to make any record or inquiry in connection with the prospective purchase, rental, or lease of any real property, which expresses directly or indirectly any limitation, specification, or discrimination as to race, creed, color, national origin or ancestry or any intent to make any such limitation, specification, or discrimination.

(3) For any person to whom application is made for financial assistance for the acquisition, construction, rehabilitation, repair, or maintenance of any housing to make or cause to be made any written or oral inquiry concerning the race, creed, color, national origin, or ancestry of prospective persons seeking such financial assistance or concerning the race, creed, color, national origin, or ancestry of prospective occupants or tenants of such housing, or to discriminate against any person or persons because of the race, creed, color, national origin or ancestry of such person or persons, or prospective occupants or tenants in the terms, conditions, or privileges relating to the obtaining or use of any such financial assistance.

(4) For any person to aid, abet, incite, compel, or coerce the doing of any act defined in this section as an unfair housing practice; or to obstruct or prevent any person from complying with the provisions of this article or any order issued thereunder or to attempt either directly or indirectly to commit any act defined in this section to be an unfair housing practice.

Sec. 4. The State Real Estate Commission may, upon its own motion, and shall, upon sworn complaint in writing of any person, investigate the actions of any real estate broker or any real estate salesman and shall have the power to revoke or suspend any license issued under sections 81-862 to 81-887, Reissue Revised Statutes of

Nebraska, 1943, and amendments thereto, whenever the broker or salesman is found guilty of an unfair housing practice. Sections 81-882 through 81-884.02, Reissue Revised Statutes of Nebraska, 1943, and amendments thereto, shall be applicable to such investigations and subsequent proceedings.

Sec. 5. Any person who shall willfully commit any unfair housing practice shall for each such offense be deemed guilty of a misdemeanor and upon conviction thereof shall be fined not less than twenty-five dollars nor more than one hundred dollars, or imprisoned for not less than thirty days.

(4) Transfer shall not include any transfer of property by will or by gift.

Sec. 8. Nothing contained in this act shall be construed to bar any religious or denominational institution or organization which is operated or supervised or controlled by or is operated in connection with a religious or denominational organization from limiting admission to or giving preference to persons of the same religion or denomination, or from making such selections of buyers, lessees, or tenants as are calculated by such organization or

denomination to promote the religious or denominational principles for which it is established or maintained.

Sec. 9. If any section in this act or any part of any section shall be declared invalid or unconstitutional, such declaration of invalidity shall not affect the validity of the remaining portions thereof.".

"Section 1. That section 15-1001, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

"15-1001. Every primary city shall pension all firemen and policemen whenever such firemen or policemen shall (1) have

first served in the paid fire or police department for a period of twenty-one years, (2) have attained the age of fifty-five years, and (3) elect to retire from active service and go upon the retired list; Provided, no person, hereafter entering the employment of any such city as a member of its paid fire and police department, shall be entitled to retire, elect to retire, or go upon the retired list until, after the completion of twenty-five years of service, he shall be ~~fifty-five~~ *sixty or fifty-five, as hereinafter provided,* years of age. Such pension shall be paid by the city in the same manner as firemen and policemen upon the active list are paid and such pension shall be a straight life pension of ~~one hundred thirty-five dollars per month~~ *fifty per cent of the regular pay of such fireman or policeman as hereinafter defined paid monthly; Provided, that a fireman or policeman who elects to retire having attained the age of fifty-five shall be paid a pension of forty per cent of his regular pay as hereinafter defined.* Provided, that for each additional year of service after such fireman or policeman shall have become eligible to retire, such pension shall be increased one dollar and fifty cents per month; but not to exceed a total increase of seven dollars and fifty cents per month. *Regular pay shall be defined as the average pay of such policeman or fireman for the five years preceding the date such policeman or fireman becomes eligible to retire or his death whichever is earlier.*"

Said actuarial equivalent shall be computed upon the basis of the 1937 Standard Annuity Mortality Table and an interest computation of three per cent per annum, compounded annually.

"Option A. Under option A, a retired policeman or fireman shall receive a reduced pension payable throughout his life and upon his death his said reduced pension shall be continued through-

If there be no such designated person or persons surviving the retired fireman or policeman and his survivor beneficiary, if any, such difference, if any, shall be paid to his duly qualified personal representative; Provided, that if the difference is less than three hundred dollars, the city may pay same to such claimant or claimants as the city, in its discretion shall determine to be entitled to same.

"(3) Any election or designation, permitted under the provisions of sections 15-1001 to 1015, may be made by a fireman or policeman after he is eligible to retire, or within one year prior thereto, or after he has served for at least twenty-four years and is at least forty-nine years of age.

"(2) The election shall apply (a) where such death occurs after such fireman or policeman is eligible to retire, or (b) where such death occurs after he becomes fifty years of age and has served at least twenty-five years in the paid fire or police department of such city."

(4) Amend the bill by striking Sec. 4 and adding the following:

"(2) The election, referred to in subsection (1) of this section, shall apply (a) where such disability occurs after such fireman or policeman is eligible to retire, or (b) where such disability occurs after he becomes fifty years of age and has served at least twenty-five years in the paid fire or police department of such city.

"(3) In case of the temporary total disability of a fireman or policeman received while in the line of duty, he shall receive his salary during the continuance of such disability for a period not to exceed twelve months; Provided, if it shall be ascertained by the city council or other proper municipal authorities within twelve months that such disability has become permanent, then his salary shall cease and he shall be entitled to the benefits of the provisions with reference to pensions in case of total and permanent disability contained in subsections (1) and (2) of this section. All payments of pension or salary provided by subsection (1), (2), or (3) of this section shall be subject to deduction of amounts paid under the Workmen's Compensation Act, as hereinafter provided in sections 15-1001 to 15-1015."

Article IV, Section 23 updates existing reporting requirements for state officers to fit the unicameral system.

Article IV, Section 26 provides for realistic language on bonding requirements for state officers handling public funds.

RESOLUTIONS

LEGISLATIVE RESOLUTION 54. Re: Retirement Systems

Introduced by Fern Hubbard Orme, Legislative District 20, Lloyd W. Stalder, Legislative District 11 and Dale Erlewine, Legislative District 37.

WHEREAS, various retirement systems have been established for employees and officers of the state, and changes in existing systems are presently under consideration; and

WHEREAS, retirement systems now in existence contain widely divergent provisions, sometimes for no logical reason; and

WHEREAS, the actuarial structure of some of the retirement systems now in existence has been questioned; and

WHEREAS, the present Legislature is considering the adoption of a statewide retirement system for state employees, which would exclude those already covered by an existing system; and

WHEREAS, the present method of investing the funds of the state retirement systems results in relatively low yields on these funds to the ultimate disadvantage of the retired employees.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN SEVENTY-THIRD SESSION ASSEMBLED:

1. That the Legislative Council appoint a committee to make a comprehensive and detailed study into the question of revisions of existing retirement systems, the question of systematic reduction of any unfunded liabilities, and the investment of retirement funds and report to the next regular session of the Legislature with its recommendations.

2. The report of the committee shall include the following:

(a) The feasibility and cost of including members of the school employees retirement system in any statewide retirement system which might be established;

(b) Suggestions for revision of the retirement system for judges and the safety patrol retirement system, including the feasibility and cost of including members of said systems in a statewide retirement system for state employees, while recognizing that retirement problems of judges and safety patrolmen are enough different from those of other public employees so that the details of provisions concerning them may not be the same as for other public employees;

(c) Suggestions for reducing existing unfunded liabilities of retirement systems on some systematic basis; and

(d) Recommendations for changes in the method of investing retirement funds to the end that a greater return may be had from them.

3. The committee shall have the authority to employ such actuarial and other assistance as will be necessary to conduct this study.

RESOLUTIONS

LEGISLATIVE RESOLUTION 58. Re: Taxation of intangible property.

Introduced by Kenneth L. Bowen, Legislative District 32, J. W. Burbach, Legislative District 14, and Don Thompson, Legislative District 33.

WHEREAS, there were bills introduced in this session of the Legislature which were attempting to make changes in the taxation of intangible property; and

WHEREAS, there was proposed a constitutional amendment in this session of the Legislature which would eliminate a tax on intangible property; and

WHEREAS, some intangible property is taxed, some intangible property is not taxed, and the intangible property subject to taxation is taxed at various rates; and

WHEREAS, there is a different method of taxing intangible property as to whether it is domestic or foreign.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN SEVENTY-THIRD SESSION ASSEMBLED:

1. That the Legislative Council appoint a committee to study the taxation of intangible property and to report to the next regular session of the Legislature with its recommendations a fair and equitable method of taxing of intangible property in this state.

Referred to the Executive Board of the Legislative Council.

UNANIMOUS CONSENT—Add Co-introducers

LEGISLATIVE RESOLUTION 59. Re: Study of racial discrimination in the hiring of applicants.

Introduced by Edward R. Danner, Legislative District 5.

Since there is a prevailing opinion of non-white and many white citizens that a substantial number of private employers in the state do practice racial discrimination in their hiring policy of applicants; and

WHEREAS, because of the refusal of employers to hire qualified applicants without regard to race, creed or color, this has a harmful effect on many families of a minority race; and

WHEREAS, it does appear that this discrimination in hiring practices is also noticeable relative to the state and the innumerable civil political subdivisions of state government, the absence of

minority citizens in this area and various departments of state is conspicuous; and

WHEREAS, the State of Nebraska does levy and collect taxes from all citizens, regardless of their race, creed or color; and

WHEREAS, these civil political subdivisions of government derive their authority from the Legislature to operate without the payment of taxes;

THEREFORE, it is the considered opinion of the minority that it is the duty and responsibility of the Governor and the Legislature to separately and jointly declare the policy of the sovereign State of Nebraska with respect to employment to be as follows:

"All citizens of this sovereign state shall have equal opportunity to seek and secure employment. Qualification shall be the prevailing factor without regard to race or color."

Further, it is the opinion of the minority race group to secure this objective the Legislature should act with a degree of speedy justice through Legislative action, especially with reference to state and civil political subdivisions of state government;

NOW THEREFORE be it resolved, known and established by the Governor and the Legislature, jointly and separately, a state Civil Rights Commission be appointed by the Governor, approved by the Legislature to study the problem of discrimination in employment, private, public and state.

If the Governor fails to appoint the Commission before the Legislature adjourns, then the Legislature shall make the appointment.

The Commission shall make a comprehensive study related to employment practices of employers of the State of Nebraska and civil political subdivisions of state government.

BE IT FURTHER RESOLVED that the Civil Rights Commission shall make recommendations to the Governor and the Legislature what, in their opinion, should be done through legislation to secure equal employment opportunities for all qualified citizens of the state without regard to religion, race or color.

IT IS THEREFORE KNOWN AND ACKNOWLEDGED THAT THE OBJECTIVES of a Civil Rights Commission are to present the Legislature and the Governor with factual information that they may be able to act intelligently and forthrightly.

BE IT FURTHER RESOLVED that the Legislature shall appropriate the necessary funds for the Commission to complete the study of hiring practices in the state- public and private.

The Commission shall have authority to inquire into all employer hiring practices including state and all civil political subdivisions of state.

The Commission shall have moral and necessary financial support of the Legislature.

The Legislature shall appoint an interim study committee on stand by basis. In the event the Governor's Committee on Civil Rights fails to act or function, the Legislative interim study committee shall proceed to make the study relative to employment and housing, and make recommendations to the next session of the Legislature for appropriate Legislation.

There shall not be less than seven members appointed to the Civil Rights Commission.

The Governor shall call the first meeting of the Commission. The Commission shall organize and elect a chairman and secretary.

The Commission shall make its own rules of procedure and conduct.

The above resolution, be it confirmed, performed and adopted by the Seventy-third Session of the Legislature.

LEGISLATIVE RESOLUTION 60. Re: Study of skills and abilities of personnel.

Introduced by the Budget Committee, Richard D. Marvel, Legislative District 31.

WHEREAS, the functions performed by the state government require the employment of persons possessing a wide variety of skills and abilities; and

WHEREAS, it is necessary that every position within the state service be accurately evaluated and classified, as an aid in the determination of the qualifications required and in the recruiting of employees; and

WHEREAS, a complete position classification program is vitally important in establishing pay scales based on skills required and duties performed, and in having uniformity in pay scales throughout the state service; and

WHEREAS, the State of Nebraska does not have a central personnel system or program, with a resulting lack of uniformity in pay scales and an absence of information with regard to the exact nature of the state's employees and its employee requirements; and

WHEREAS, something in excess of seventy-five per cent of the state's operating budget is payroll costs, and therefor a comprehensive personnel program and system is essential to effective financial controls.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN SEVENTY-THIRD SESSION ASSEMBLED:

1. That the Legislative Council appoint a committee to make a comprehensive personnel study which, if possible, could include a complete position classification program for the state service.

2. That the committee report to the next regular session of the Legislature the results of its study together with its recommendations.

3. That the Budget Committee take into consideration the appropriation of funds to enable the Legislative Council to employ personnel to assist in making such study.

Referred to the Executive Board of the Legislative Council.

Message from the Governor

June 19, 1963

To the President, the Speaker,
and Members of the Legislature:

This is to inform your honorable body that on June 18, 1963, I approved LB 407, and LB 652, and on June 19, 1963, I approved LB 775, LB 786, and LB 772.

I am permitting LB 633 to become a law without my signature. My reason for not approving this bill is that I feel it is too ambiguous and vague to be enforceable, but I feel that its validity will eventually be determined by the courts and not by the Governor.

Respectfully,

(Signed) Frank B. Morrison

REPORT ON LEGISLATIVE COUNCIL STUDY RESOLUTIONS

June 25, 1963

Report of the Executive Board of the Nebraska Legislative Council on proposed Studies for the 1963-1965 interim period.

According to Section 3 of Rule 15 of the Rules of the Nebraska Legislature, resolutions proposing that studies be made by the Legislative Council are to be referred to the Executive Board of the Legislative Council, which Board is to make recommendations that the proposed studies be made or rejected.

This Report includes those resolutions proposing studies introduced through the one hundred-sixteenth legislative day, June 24. It does not include LR 7, proposing a study of a vocational technical school, as this resolution was earlier acted upon by the Board and adopted subsequently by the Legislature.

It is not an easy task for the Executive Board to recommend which studies should be undertaken and which should not be. Certainly there is merit in all of the proposed studies. However, not all of them can be undertaken. In addition to limitations of staff and money, there is the problem of time-or the lack of it. Only about 15 months will elapse between the end of the present session and the time when these studies will have to be completed. So the Board must weigh such factors as the timeliness of the proposed study, whether it is a problem of state-wide interest and concern, could the study result in legislative action, and others.

Following are the recommendations of the Executive Board with regard to the resolutions introduced to date proposing studies by the Legislative Council:

Studies Recommended

1. **Legislative Resolution 28.** This resolution proposes a study of the administration and enforcement of the property tax in Nebraska, including the responsibilities of all state and local tax officials and how they are being carried out.

2. **Legislative Resolution 33.** This is a proposed study of the whole problem of the quality of the waters of the state and the effects of the extensive use of chemicals and water soluble detergents on these waters.

3. **Legislative Resolution 40.** Proposed here is a study of the present system for governing and coordinating public higher education in Nebraska and of the desirability of establishing one board with the responsibility of governing and coordinating all public higher education in the state.

4. **Legislative Resolution 43.** This resolution proposes a study of the use of educational television to furnish education in the schools of Nebraska, including a statewide survey to explore the feasibility and necessity of an educational television system to serve the needs of all educational interests in Nebraska, including elementary, secondary, and collegiate, and for the present and future.

5. **Legislative Resolution 46.** This is a proposed study of the Constitution of Nebraska, including the obsolete provisions therein, and of suggested changes to be made in it.

6. **Legislative Resolution 49.** This resolution proposes a continuation of the study of public power in Nebraska with particular emphasis on generation and transmission and the necessity of meeting the fast growing need for additional power in the near future.

7. **Legislative Resolution 56.** This is a proposed study of the legislative processes in Nebraska, including the rules of the legislature and all statutes and constitutional provisions pertaining to all aspects of said legislative processes, including, but not limited to, the drafting and introduction of bills, the consideration of bills, and the provision of expanded legislative research facilities.

8. **Legislative Resolution 57.** This resolution proposes a study of the traffic laws of the state to see if proper methods of safety are enforced, if violations are being prosecuted, and if penalties are adequate.

The Executive Board is recommending this resolution be adopted in an amended form. The reason is that another resolution, LR 63, has been introduced calling for a similar study. As amended, LR 57 will incorporate the intent of both resolutions and the Board will then recommend that LR 63 not be adopted. Both introducers have agreed to this. The amendments are as follows:

1. Amend the resolution by inserting after resolve number 1 the following:

"(2) That the study include a comparison of all the traffic legislative provisions of the Nebraska statutes with commonly accepted standards.

(3) That the committee utilize the facilities and services of the Department of Roads, the Department of Motor Vehicles, the Nebraska Safety Council, and the Governor's Traffic Safety Coordinating Committee."

2. Renumber original resolve number 2 as number 4.

9. **Legislative Resolution 58.** Proposed here is a study of the taxation of intangible property and of a fair and equitable method of taxing such property in Nebraska.

10. **Legislative Resolution 61.** This resolution proposes a study of the present mechanics and limitations in the laws governing the investment of public funds in Nebraska, including those of the many political subdivisions of the state.

As introduced, the resolution called for a regular committee of the Legislative Council to conduct the study. The Board is recommending the resolution with amendments however. The effect of them will be to direct the Executive Board to gather information on this subject during the interim and prepare a factual report to the Legislature for future legislative action. This will thus not require the establishment of a study committee. The amendments proposed by the Board to this Resolution are as follows:

1. Amend the resolution by striking resolve number 1 and inserting the following:

"1. That the Executive Board of the Legislative Council gather information on the present mechanics and limitations in the laws governing the investment of public funds."

2. Amend resolve number 2, line 2 by striking "committee" and inserting "Executive Board of the Legislative Council."

3. Amend the resolution by inserting a new resolve after resolve number 2 to read as follows:

"3. That the Executive Board of the Legislative Council prepare a factual report to the next regular session of the Legislature as a basis for proper legislative action."

4. Amend the resolution by renumbering original resolve numbers 3 and 4 as resolves 4 and 5 respectively.

11. **Legislative Resolution 62.** Proposes a study of the proper classification of roads for the state highway system, including a determination of how large the state highway system should be, a determination of criteria for roads and streets on the state highway system, and a determination of which highways should

be removed from or added to the state highway system through the application of the criteria developed.

12. **Legislative Resolution 64.** This resolution proposes a study of any problems that may be presented regarding employer hiring practices in the state, both public and private. The study committee would also be directed to maintain liaison with the Human Relations Commission that has been appointed by the Governor.

13. **Legislative Resolution 65.** Under this resolution a codification of the school laws of the state would be undertaken by the Executive Board of the Legislative Council. A study committee would not be created for this purpose. Rather, the Board would hire the necessary legal assistance to work on the codification. An appropriation of $5,000 is recommended for this purpose.

Studies Not Recommended

1. **Legislative Resolution 15.** This resolution proposed a study to investigate the absence of suitable machinery for the adjudication of labor disputes, including disputes with respect to representation, that may arise between groups of employees rendering governmental service in a proprietary capacity in publicly owned public utilities.

2. **Legislative Resolution 51.** Proposed a study as to the present and future needs of Nebraska citizens, and how the needs may be adequately met within the economic framework of the state.

Essentially, this resolution calls for a study of state spending in Nebraska, the provision of adequate public services within the ability of the people to pay for them. The Board is not recommending that such a study not be made, only that it should logically be made by the Legislative Council Budget Committee. There is no need for a separate Legislative Council committee for this purpose. The Executive Board has the authority to initiate studies on its own, and it has assigned this study to the Legislative Council Budget Committee. There is therefore no need for this resolution.

3. **Legislative Resolution 55.** This resolution proposed a study of the taxation of livestock in Nebraska and of finding a more equitable method for their valuation and taxation.

4. **Legislative Resolution 60.** This resolution proposed a comprehensive personnel study which, if possible, could include a complete position classification program.

The Executive Board is taking the same action with respect to this resolution as it took with the resolution proposing a study of state spending-assigning it to the Legislative Council Budget Committee. The idea for such a study was initially explored by the Budget Committee during this session of the Legislature, and it is the logical committee to undertake it during the interim period. There is thus no need for the adoption of this resolution.

5. **Legislative Resolution 63.** This resolution proposed a study of the traffic laws of the state. As was explained earlier, the intent of this resolution was included in LR 57 and thus there is no need to adopt this one.

Two further comments will conclude this report. First, the Board is making no recommendation with regard to LR 54, proposing a state retirement study, because it has not yet had the opportunity of discussing it with the introducer.

Finally, the two tax studies being recommended by the Board, LR 28 and LR 58, will be undertaken by the same committee-assuming the Legislature approves the Board's recommendations that the studies be made. A different member of the committee, however, would serve as chairman for each study.

Subject to such rules and regulations as the director shall prescribe, tax meter machines may be used when approved by the director to affix a suitable stamp or impression on each package of cigarettes. Before any wholesale dealer shall be issued a permit to affix stamps or cigarette tax meter impressions, he shall make application to the director on

a form provided by the Department of Agriculture and Inspection to engage in such activity and, if approval is given by the director, the dealer shall furnish a corporate surety bond, conditioned to faithfully comply with all the requirements of sections 77-2601 to 77-2615, in a sum not less than one thousand dollars. *Nothing in sections 77-2601 to 77-2615 shall prevent the department from affixing the stamps or meter impressions in lieu of the provisions of affixing stamps and meter impressions by wholesalers as determined by such rules and regulations adopted by the department.*

Sec. 2. That section 77-2608, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

77-2608. The director shall prepare and have suitable stamps for use on each kind of piece or package of cigarettes, except where cigarette tax meter impressions are affixed. Requisition for the preparation of such stamps shall be made through the office of the State Purchasing Agent as other state supplies are requisitioned, and the director and his bondsman shall be liable for the value of all such stamps delivered to him. The Auditor of Public Accounts shall audit annually or as often as the auditor deems advisable the records of the director with respect to the money received from the sale of stamps and as revenue from tax meter impressions for the purpose of determining the accuracy and correctness of the same. The director shall sell the stamps only to licensed wholesale dealers, as defined in section 77-2601, and he shall keep an accurate record of all stamps coming into and leaving his hands. Such stamps shall be sold and accounted for at the face value thereof, except that the director may, by regulation certified to the State Treasurer, authorize the sale thereof to wholesale dealers in this state or outside of this state at a discount not exceeding five per cent of such face value as a commission for affixing and cancelling such stamps; *Provided, that any wholesale dealer using a tax meter machine shall be entitled to the same discount as allowed wholesale dealer for affixing and cancelling the stamps.* The money received by the director from the sale of said stamps and as revenue from such tax meter impressions shall be deposited by him daily with the State Treasurer, who shall credit such money to the General Fund of the State of Nebraska.

Sec. 3. That original sections 77-2603 and 77-2608, Reissue Revised Statutes of Nebraska, 1943, are repealed.

SUPPLEMENTARY REPORTS ON RESOLUTIONS

June 28, 1963

Supplementary Report of the Executive Board of the Nebraska Legislative Council on Proposed Studies for the 1963-1965 Interim Period.

On June 25 the Executive Board issued a report on 18 Legislative resolutions proposing Legislative Council studies. A report on LR 54 was omitted because the Board had not had an opportunity to visit with the introducer. Since that date two additional study resolutions have been introduced. This supplementary report covers these three resolutions.

Study Recommended

1. **Legislative Resolution 66.** This resolution proposes a study in the area of flood control, with special emphasis to be placed on the initiation, planning, and starting of basin projects, including ways of providing more centralized leadership and responsibility for the initiating and planning of such programs and projects in entire river basins. It includes ways and means of coordinating the efforts of all state and federal agencies.

Studies Not Recommended

1. **Legislative Resolution 54.** This resolution proposes a comprehensive study into the question of revisions of existing retirement systems, the systematic reduction of unfunded liabilities, and the investment of retirement funds. It would include the feasibility of including members of the school employees retirement system, as well as those of the safety patrol and the judges retirement systems, in any statewide retirement system.

The Executive Board does not believe that much could be accomplished by such a study at this time. Retirement studies have been made for several years now, and much information is available. A recent report on unfunded liabilities is in the Council files. It is known what is needed here—more money to reduce these liabilities. It would also appear that a study of bringing existing separate plans into a statewide plan would be more fruitful after a general plan has been enacted and administered for a biennium.

2. **Legislative Resolution 67.** This resolution proposes further study of the problems of local communities in Nebraska, the provision of community self-help programs, and the possible simplification of many municipal statutory provisions.

The Board is of the opinion that this is an extremely broad and general area for study and that it is doubtful if much could be accomplished in a positive sense.

July 1, 1963

Supplementary Report of the Executive Board of the Nebraska Legislative Council on Proposed Studies for the 1963-1965 Interim Period.

On June 28th, 1963, the Executive Board issued a report on three Legislative Resolutions, one of them being **LR 54** which proposed a comprehensive study into the question of revisions of existing retirement systems, the systematic reduction of unfunded liabilities and the investment of retirement funds. In the June 28th report the Executive Board recommended that this particular study not be made.

Reconsideration of LR 54

In a meeting of the Executive Board of the Legislative Council on Monday, July 1, 1963 it reconsidered its former action of

not approving this study and agreed and recommends to the Legislature the following:

> "That the Executive Board be authorized to hire an actuary and that an appropriation of not to exceed $3,000.00 be made for a study to determine the amount of the unfunded liability of the existing retirement systems and the levy necessary to make these systems actuarilly sound over a period of 20 years. That the actuary also study the possibility of coordinating all of the existing retirement systems under one plan."

The Board further agreed that the $3,000 appropriation recommended for this study be added to the Legislative Council's budget for the 1963-1965 interim.

(Signed) Harold B. Stryker, Chairman
Executive Board
Nebraska Legislative Council

MOTION--Adopt Report

RESOLUTIONS

LEGISLATIVE RESOLUTION 69. Re: The validity of LB 811, LB 814, and LB 815.

Introduced by Terry Carpenter, 42nd District

WHEREAS, a recent decision of the Nebraska Supreme Court held the Installment Sales Act Invalid; and

WHEREAS, the economy of the State of Nebraska cannot function properly without some legally acceptable method of financing such installment sales; and

WHEREAS, on account of the apprehension of those people who buy and discount such paper, the unknown financial liability that exists in the recent decision of the Supreme Court holding the Installment Sales Act invalid, and the wide scope of those who must use this type of financing in order to survive financially in all facets of the business world, there is a desire to eliminate any

question as to the constitutionality of Legislative Bills 811, 814 and 815, Seventy-Third Session, Nebraska State Legislature, 1963.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN SEVENTY-THIRD SESSION ASSEMBLED:

1. That the Governor of the State of Nebraska and the Attorney General take whatever steps are necessary to request that the Supreme Court reconvene as soon as possible and to accept as an original action a case to determine the validity of said Legislative Bills: 811, 814 and 815 in order to determine the constitutionality and the limitation, if any, upon the maximum rates of interest under the police powers of the Constitution of the State of Nebraska that this Legislature can enact; and bearing in mind the extreme financial conditions that have arisen to render a decision as soon as practical and possible.

Attorney General's Opinions
(LB 811, LB 814 and LB 815)

July 15, 1963

Senator Arnold Ruhnke
Nebraska State Legislature
State Capitol
Lincoln, Nebraska

Dear Senator Ruhnke:

At your request we have examined L. B. 811 to ascertain whether this bill corrects the matters found by the Nebraska Supreme Court, in the recent case of Elder v. Doerr, 44 S. C. J. 483, to invalidate the 1959 Installment Sales Act. The only issue involved in that decision was whether or not the classification of property as set forth in the act, for the purpose of fixing interest rates, was in violation of Article III, Section 18 of the Nebraska Constitution. Automobiles were broken down into four classes based upon age and a different interest rate was allowed as for each class. As to all other property a still different rate was permitted. The Court held that there was no reasonable basis for such classification and held the act void as special legislation regulating interest on money, in violation of Article III, Section 18.

L. B. 811 has eliminated the classification of property contained in the 1959 Act so that the same rate will be applicable to all property. The bill has, therefore, removed the matter found by the recent Supreme Court decision to invalidate the 1959 Act.

We point out, however, that L. B. 811 is a law regulating interest and must be governed by the constitutional provisions and limitations imposed upon the Legislature in the enactment of any law regulating interest on money. Your attention is called to an opinion given this date to the Nebraska Legislature with reference to L. B. 814 wherein we discuss these constitutional limitations.

Whether or not the rate of interest provided by L. B. 811 is reasonable and proper is a question which we cannot answer. The opinion in Elder v. Doerr sets forth the purpose of the Installment Sales Act as follows:

"* * * * *.

"The purpose of the Nebraska Installment Sales Act is two-fold, first, to insure a reasonable return to money lenders on

installment sales contracts, where, admittedly, a reasonable return in all cases cannot be had within existing usury statutes and, second, to protect retail installment buyers from exorbitant gouging by greedy money lenders.' * * *.

"* * * * *."

A reasonable rate would be one fixed within the limits of the above stated purpose.

Respectfully submitted,

Attorney General

July 15, 1963

Senator William Moulton, Speaker
Nebraska State Legislature
State Capitol
Lincoln, Nebraska

Dear Senator Moulton:

Prior to discussing the specific provisions of L. B. 814, it may be useful to consider the general purpose of such an act together with the authority for its enactment. L. B. 814 is a usury law and the authority of the Legislature to enact legislation which limits the rate of interest which may be charged for the loan or forbearance of money is too well established to require any citation of authority. The power of the Legislature to enact such legislation does not, however, depend upon constitutional grant, but exists by virtue of the police power which a state may exercise for the protection of the public interests and the promotion of the general welfare. 55 Am. Jur. 325, Usury, Paragraph 4.

In the exercise of the police power a large discretion is vested in the Legislature and the courts will not interfere with its determination unless clearly arbitrary or unreasonable or if the law is not really designed to accomplish a legitimate public purpose. C. B. & Q. R. R. Co. v. Drainage Commissioners, 200 U. S. 561.

In State v. Drayton, 82 Neb. 254, 117 N. W. 768, the Nebraska Court stated the rule as follows:

"* * * * *.

"It is true that the ultimate question of the validity of a statutory enactment, by which this power is sought to be exercised, is with the courts, and they will not hesitate to discharge the duty of declaring an act void if clearly so convinced, but subject to the presumptions and limitations herein referred to. The rule upon this subject can, perhaps, be no more clearly expressed by us than by the following: 'Under the police power the state can interfere whenever the public interests demand it, and in this particular a large discretion is necessarily vested in the legislature to determine, not only what the interests of the public require, but what measures are necessary for the protection of such interests. But the character of police regulations, whether reasonable, impartial, and consistent with the constitution and the state policy, is a question for the courts, for the police power is too vague, indeterminate, and dangerous to be left without control, and hence the courts have ever interfered to correct an unreasonable exertion or a mistaken application of it; and, when the **legislature passes an act which plainly transcends the limits of the police power of the state, it is the duty of the judiciary to pronounce its invalidity and to nullify the legislative attempt to invade the citizen's right,** for to hold that every act of the general assembly passed under the guise of an exercise of the police power or sought to be defended upon that ground was beyond judicial control would render every guaranty of personal right found in the constitution of little or no value.' * * *.

"* * * * *." (Emphasis supplied.)

In considering whether any particular act is for the public welfare it is important to note whether the act benefits the public as a whole or merely a particular class or group. In Carolene Products Co. v. Banning, 131 Neb. 429, 268 N. W. 313, the Court said:

"* * * * *.

"* * *. '* * *. In some cases a proper exercise of the police power results in advantage to particular class of citizens and to the disadvantage of others. When that is the principal purpose of the measure, courts will look behind even the declared intent of legislatures, and relieve citizens against oppressive acts where the primary purpose is not to the protection of the public health, safety, or morals. **Yick Wo. v.**

Hopkins, 118 U. S. 356, 6 Sup. Ct. Rep. 1064, 30 L. Ed. 220, and cases cited in notes, p. 541.' * * *.

"* * * * *."

In the recent case of Elder v. Doerr, 44 S. C. J. 483, the opinion states:

"* * * * *.

"The purpose of the Nebraska Installment Sales Act is twofold, first, to insure a reasonable return to money lenders on installment sales contracts where, admittedly, a reasonable return in all cases cannot be had within existing usury statutes and, second, to protect retail installment buyers from exorbitant gouging by greedy money lenders. * * *.

"* * * * *."

The above stated purpose is the purpose involved in the enactment of any loan law and should be the guide in determining the reasonableness of the allowable rate of interest which may be charged.

We are not here concerned with the general law fixing the maximum rate of interest which may be charged on a loan or forbearance of money found in Section 45-101, R. R. S., 1943. This statute limits the maximum interest rate to nine per cent per annum simple interest, and is applicable to all persons or corporations alike. The statutes under consideration are those which give to certain lending institutions the right to contract for a greater rate of interest than that permitted by the general usury law. In this category we find at least five different acts relating to different types of organizations, with different allowable interest rates and different regulations applicable to each. See, Sections 8-418 to 8-433, Industrial Loan and Investment Companies; Sections 8-801 to 8-814, Banks; Section 8-319, Building and Loan Associations; Sections 21-1701 to 21-1753, Credit Unions; and Sections 45-114 to 45-158, Installment Loan Companies. With reference at least to several of these laws there appears to be little, if any difference in the class of borrowers or the type of loans involved, and in view of your request for an opinion relating to L. B. 814 we feel it appropriate to call to your attention a possible constitutional question involved in this legislation. We will not attempt in this opinion to undertake the impossible task of analyzing all of these laws but limit this particular discussion to the installment loan law, which has in the past withstood certain constitutional challenges.

The Nebraska Constitution prohibits the Legislature from passing any local or special laws regulating the interest on money or

granting to any corporation, association, or individual any special privilege, immunity or franchise whatever. Article III, Section 18.

In Althaus v. State, 99 Neb. 465, 156 N. W. 1038, there was involved an act of 1915 which set up a licensing system for certain money-lenders complying with its terms. Licensees were permitted to charge, in addition to the ten per cent permitted to all persons making loans, an additional charge of ten per cent of the money loaned as a "brokerage fee". This was attached as a violation of what is now Section 18, Article III, as setting up an unreasonable and arbitrary class of money-lender. The Supreme Court held the act to be constitutional and the classification reasonable. In doing so, the Court examined the background as to the need for the legislation. It acknowledged that:

"* * * * *.

"* * *. The rapacity of money-lenders who impounded chattels and wages to secure small loans to those in pecuniary distress had become intolerable. * * *."

It continued:

"* * *. The lawmakers recognized a class of borrowers from whom exorbitant rates of interest had been exacted under existing conditions and attempted to afford them some measure of protection. * * *.

"* * * * *."

See, also, Mack Investment Co. v. Dominy, 140 Neb. 709, 1 N. W. 2d 295.

It will be noted that the act in question in the Althaus case did not contain a limit on the amount that could be loaned under its provisions. It is clear from the discussion that the Court was considering it only as applying to the class of borrowers who made "small loans". Whether it may now be successfully contended that the Court did commit itself to an approval of the classification of something more than a "small loan" license by its approval of the classification therein involved is arguable.

Nitzel & Co. v. Nelson, 144 Neb. 662, 14 N. W. 2d 197, involved the 1941 legislation which actually reduced the previous authority and allowed nine per cent as a maximum interest rate with a permissible "brokerage fee" of ten per cent on any amount less than one thousand dollars for licensees. This act put a ceiling on and made it plainly a "small loan" act.

State ex rel. Beck v. Associates Discount Corp., 162 Neb. 683, 77 N. W. 2d 215, brought under attack the law of 1943 (Sections

45-114 to 45-158) wherein it was made permissible for a licensee to make loans not in excess of one thousand dollars and charge at the rate of thirty-six per cent on the first one hundred fifty dollars, thirty per cent on that part of any loan in excess of one hundred fifty dollars and not in excess of three hundred dollars, and nine per cent per annum on any remainder of the unpaid principal balance. In this case the Court cited and relied on Althaus v. State, **supra,** in upholding the constitutionality of the classification.

At this point, the judicial precedents stop. After the Associates Discount case the statute was amended to extend the loan limitation to three thousand dollars. No test of this extension has occurred.

L. B. 513, enacted by the Seventy-third Session of the Legislature of Nebraska and approved April 10, 1963, amended Section 45-137, and further extends the statutory authority. The loan limit remains at three thousand dollars, but a licensee is permitted to charge thirty per cent on the first three hundred dollars, twenty-four per cent on the next two hundred dollars, and eighteen per cent on the next five hundred dollars, and twelve per cent on the remainder.

Whether these progressive amendments still leave the installment loan law within the reasonable area which was found to exist in past court tests is a question which we cannot answer. As previously pointed out herein, a large discretion is allowed the Legislature in this regard, subject, however, to the limitation of reasonableness and proper classification. Only when these requirements have been violated will the courts hold the law invalid.

We do know, however, that the Supreme Court has sustained the Installment Loan Law where a limit was fixed on the amount of the loan and on the period of time for which a loan could be made. Also, the Court has approved the charging of a higher rate of interest on the lower brackets of the loan. The purpose of this method of charging interest is to cover the basic costs of making and collecting an installment loan and should bear a reasonable relationship to such costs.

All of the foregoing is by way of background to a consideration of the questions posed by L. B. 814 since we believe that a serious constitutional question is presented where the law authorizes different rates of interest and different regulations and restrictions to various lending institutions, on the same class of loans, on similar security, and to the same class of people, based upon the form of organization making the loan. As previously stated, Article III, Section 18, of the Nebraska Constitution prohibits the enactment of local or special laws regulating the interest on money or

granting to any corporation, association, or individual any special privilege, immunity or franchise whatever. The question presented is whether L. B. 814 can meet this test.

We turn to a consideration of the provisions of L. B. 814 as now amended. This bill is amendatory of Chapter 45, Article 8, R. R. S., 1943, which relates to installment loans by banks and trust companies. The Act, Sections 8-801 to 8-814, inclusive, now permits a bank or trust company, which registers under the law with the Department of Banking, to charge interest on installment loans in excess of the conventional usury rate, fixes the maximum amount of loan on which such charges may be made at three thousand dollars, limits the period of time within which such loans shall be repayable to thirty-six months, and provides numerous restrictions and regulations including penalties for violations of the Act.

Section 1 of L. B. 814 amends the Act so as to remove the limitation that loans under the Act may not exceed three thousand dollars and permits loans in any amount to be made at the rates therein set forth. New Section 3 amends the Act so as to remove the limitation requiring loans to be repayable within a period of thirty-six months, thus permitting such loans to be made for any length of time.

Section 2 of the bill increases the allowable interest rate from "eighteen per cent per annum on that part of the unpaid principal balance not in excess of one thousand dollars and not exceeding twelve per cent per annum in excess of one thousand dollars," to an allowable rate of "eighteen per cent per annum on that part of the unpaid principal balance not in excess of **twenty-five hundred dollars; not exceeding fifteen per cent on that part of the unpaid principal balance on any loan in excess of twenty-five hundred dollars and not in excess of thirty-five hundred dollars; not exceeding twelve per cent on that part of the unpaid principal balance on any loan in excess of thirty-five hundred dollars and not in excess of forty-five hundred dollars; and not exceeding nine per cent on that part of the unpaid principal on any loan in excess of forty-five hundred dollars,**".

Renumbered Section 4 changes the penalty for violation of the Act which now provides that a bank who violates the Act in the making or collection of a loan shall forfeit all charges on such loan and if any charges have been collected the borrower may recover the same plus a sum equal thereto. The amendment contained in the bill provides that a loan made in violation of the Act shall be void, and the borrower may recover in a civil action all interest, principal, and charges collected on the loan involved and fixes a

limitation of one year from the time the contract is paid within which such action may be brought.

Comparing these provisions with those of the Installment Loan Act, and without consideration of any other special acts relating to other types of organizations, we find that on lesser loans the installment loan companies may receive a greater rate of interest than allowed banks but on larger loans the banks are allowed the greater rate. Installment loan companies must make their loans repayable within thirty-six months but the time within which a bank loan is made repayable, even on loans of three thousand dollars or less, is unlimited. The same class of borrowers are involved in each case and we can conceive of no basis for considering this a reasonable classification.

It is our opinion that L. B. 814 is a special law regulating interest on money and further grants a special privilege and franchise, in violation of Article III, Section 18, of the Nebraska Constitution.

By this opinion we do not mean to imply that the Legislature is without authority to enact a law, other than a small loan law, fixing rates of interest on installment loans different than those allowable on straight loans under Section 45-101, but any such act must meet the constitutional requirements herein discussed.

Nebraska State Legislature

Dear Senator:

L. B. 815 is a statute of limitations relating to actions brought to recover payments made under "any invalid sales agreement." The bill provides:

"Section 1. No action shall be brought to recover any payments made under any invalid sales agreement unless such action is commenced within one year from the effective date of this act or within one year from the date of the last payment made under such invalid contract, whichever date is later."

First, we suggest that the bill be amended by inserting the word "installment" in Section 1, line 2, following the words "made under any invalid," so that this will read, "made under any invalid installment sales agreement."

We are informed that the primary purpose of this legislation, is to limit the time in which actions may be brought to recover payments made under existing invalid installment sales agreements and is therefore intended to operate retrospectively. Does this create any Constitutional objection? We think not.

The prohibition contained in Article I, Section 16 of the Nebraska Constitution against the enactment of any ex post facto law or law impairing the obligation of contracts is not applicable to a statute limiting the time in which any action may be brought, since such an act relates merely to the remedy afforded. The only requirement is that the time allowed be reasonable.

The earliest decision of the Nebraska Supreme Court on this question is found in Harbach v. Miller, 4 Neb. 31. In an action to recover real estate the statute of limitations, which had been decreased from 21 years to 10 years, was called into question. The court stated:

"The only restriction on the exercise of this power is, that the legislature cannot remove a bar or limitation which has already become complete, **and that no limitation shall be made to take effect on existing claims without allowing a reasonable time for parties to bring action before these claims are absolutely barred by a new enactment.**" (Emphasis supplied.)

Similarly in O'Brien v. Gaslin, 20 Neb. 347, 30 N. W. 274, the court specifically applied the statute of limitation to a pre-existing cause of action, after noting that the legislature "fixed a reasonable time in which to bring actions before the act took effect."

See also Whiffin v. Higginbotham, 80 Neb. 469, 114 N. W. 599; Wichelman v. Messner, 250 Minn. 8, 83 N. W. 2d 800; Heller's Estate, 246 Wis. 438, 13 N. W. 2d 594; Meyer v. City of Eufaula, Okla., 154 F. 2d 943; and United States v. Morena, 245 U. S. 392.

It appears that the time allowed by L. B. 815 for the commencement of such actions is reasonable and it is our opinion that the bill presents no constitutional problem.

Very truly yours,

Senator McGinley offered a motion that the committee recommend to the Legislature as follows: 1. That LBs 811, 814 and 815 should not pass; that these recommendations are made with the understanding that the Governor will call a special session of the Legislature to consider legislation in regard to a proper interest rate for lending purposes, the subjects of time sales contracts and time-sales differential and installment sales contracts and proper interest related thereto and related subjects in the banking and credit finance fields; 2. also, the subject of possibilities of legislation to correct the retroactive effects of the pertinent Supreme Court Decisions; 3. that the special session would be called approximately thirty days from the close of the 73rd Session and that the Committee to make the interim study shall be composed of seven members to be appointed by the Executive Board of the Legislative Council.

The McGinley motion was seconded by Senator Carpenter.
