**FAREWELL ADDRESS OF GOVERNOR FRANK B. MORRISON
TO THE SEVENTY-SEVENTH SESSION OF THE
NEBRASKA LEGISLATURE**

January 4, 1967.

Mr. President, Mr. Speaker, and Senators of the Seventy-Seventh Session of the Legislature of the State of Nebraska:

I would like to take this opportunity of expressing my gratitude to you for this invitation to appear and deliver a farewell address on this occasion.

Life is the privilege of action. Government is the machinery set up by man to help make his action more meaningful. The purpose of it all is to improve the quality of human life. If we are to achieve this, man must constantly improve himself and his environment. Both man and his environment must grow and improve, or they will decay and deteriorate.

The one indispensable factor in growth is human attitude. Without desire, without motivation, without leadership—no system of government, no system of taxation, and no amount of government expenditure, will buy meaningful progress and meaningful growth.

History has recorded some of the most brilliant moments of human development in an absence of government expansion—and some of its most decadent periods have been recorded during the expansion of government into the lives of people. On the other hand, many of history's darkest moments, periods of anarchy and decay, have occurred when people failed to use government as an effective tool in human affairs.

One lesson we learn from history is that Government—properly controlled by the people, whose initiative and attitudes demand growth—can be helpful.

I firmly believe that state government with active leadership can and must stimulate progress.

Six years ago, when I first addressed the Legislature of the State of Nebraska as Chief Executive of this state, I said that our major challenge was that of growth, and that we must not fear the change that accompanies growth. The challenge of growth to which I referred embraced several parts: education, human resource development, state planning and industrial development, highway construction, tourism, agriculture, conservation, aeronautics, highway safety, government reorganization. Let me discuss with you how we met these challenges and how we must continue to grow in these and other areas.

The history of America has proved the wisdom of the use of all levels of government as an instrumentality in improving human effectiveness through the process of formal education. Partnership, or the joint role of the federal, state, and local government in public education, was established early in the history of this nation, with the primary role of leadership being vested in the states. During the past six years we have tremendously expanded both the facilities and the program of our state colleges and the University of Nebraska.

Two years ago we requested and received from the Legislature a vast new building program for the University and the state colleges, thus preparing them for increased growth and development. A new dental college building was authorized, as well as an extensive construction program at the College of Medicine. Working through the higher educational facilities act and other federal programs, we authorized a science complex for the University of Nebraska and have completed construction of a science building at Kearney State College which, today, is one of the finest facilities for science instruction in the entire country.

Our emphasis on education has resulted in rapid increases in college and university enrollment. The University of Nebraska is the fastest growing university in The Big Eight Conference. Further

attention to excellence in the expansion of scientific research is necessary. But even more important is emphasis on quality instruction and the dissemination of accumulated knowledge.

If it were possible to place ten per cent of the knowledge stored on the shelves in the various libraries at the University of Nebraska in the minds of our people, and apply that knowledge to the identification and solution of the problems of business, community development, agriculture, commerce, and environmental improvement, Nebraska could become by far the most progressive state in the union. Therefore, the motives of people along with the problem of communication and dissemination of knowledge, are the most important and necessary challenges of education.

If we are to improve our achievement in this area, it involves improved teaching and more of it, the continued expansion of the educational television system, which we have inaugurated, to include extensive programs of in-service teacher training, adult education, classroom technology and pre-school motivation.

We have inaugurated a system of technical services to explore bringing all colleges of the University into direct grips with local community problems. The role which the College of Agriculture has played through the extension service should be expanded in the direction of securing full participation of the business community and the political community, utilizing the knowledge, the expertise, and the assistance of the various disciplines of the university in achieving progress in all areas of human endeavor. The degree to which our knowledge is taken from the exclusive environs of the ivory tower of academic interest and put to work in industry and commerce will determine the rate of our progress.

The business community must, in increasing degree, make our educational institutions a part of their business operation, and the community and state political structure must take full advantage of this knowledge in planning future operations.

Allowing our educational plants of the primary, secondary and higher educational level to lie idle or only partly used during vacation periods is one of the greatest wastes of our society. We can and should explore the fuller utilization of these facilities through a quarterly system of education, expanded adult education, and vocational training programs. We cannot afford unused educational potential.

Looking to the future, I believe that the suggestion which I made early in my administration of a Board of Higher Education over the University of Nebraska, the state colleges, and eventually the University of Omaha, is absolutely essential to coordinate and accelerate the role of higher education and the cultural, economic,

and political life of the state. State subsidies to primary and secondary education and also junior colleges should be a part of the educational program in the near future.

My opposition to the general broadening of the tax base in the past has been largely based upon the absence of such a program. But now that the enactment of such taxes appears inevitable, the wise channeling of this revenue into our educational needs is the greatest challenge facing the incoming session of the Legislature.

If the state is to continue to exert leadership in the field of public education, there are many problems which can and should be solved by interstate compacts on education. In order to enable Nebraska to enter into such compacts, **I highly recommend that this session of the Legislature enact such legislation as is necessary to empower the Governor to enter into such compacts with other states as he may deem in the public interest**, looking to the solution of their common problems in this area.

Your present session will be confronted with many challenges in the fields of taxation and education. I believe that the failure of past sessions of the Legislature to fund the Nebraska Research Institute and to enact legislation to create a separate Department of Economic Development has hampered the progress of the state in both the area of research and in the acceleration of the flow of knowledge to the business community. I am in hopes that this session of the Legislature will do what previous sessions have failed to do in these two respects.

In the area of human resource development, we have made during the past six years extensive progress in the employment of the handicapped and in vocational rehabilitation. We are utilizing previously unused facilities at Kearney for the mentally retarded and have made considerable improvement in facilities in the educational program at the Beatrice State Home. We have made improvements in both facilities and construction at the other mental hospitals and inaugurated for the first time the penal complex system of administration at the penitentiary and reformatory. The program at the Boys' Industrial School has made significant progress.

With reference to institutional management and the administration of public welfare, our present reorganization has demonstrated distinct advantages over the former system. A tribute to Nebraska institutional management was paid Warden Sigler during the past year upon his election as President of the American Wardens Association.

I have been working with George Morris, the Director of Institutions, and Dr. Wittson, Dean of the College of Medicine at the University of Nebraska, on a program to further improve our

approach to mental health. Our abolishment of the Board of Control and the establishment of a Director of Institutions responsible to the Governor was definitely a step in the right direction. I am in hopes future administrations will continue this professional management and refuse, as we have done, to allow institutions to become involved in the political arena. Dr. Wittson, George Morris and I have agreed that our mental hospitals need to continue their movement away from the role of custodial care and permanent confinement, and move continually in the direction of being only one phase in a well integrated program of treating the emotionally disturbed and mentally ill. **To secure the maximum professional approach, both inside and outside the hospital, a program can and should be enacted which would entail the selection of a highly qualified psychiatrist and administrator as Director of Mental Health for the entire State of Nebraska. This Director of Mental Health would employ those doctors and others engaged in the healing art in all of our mental health programs, both inside and outside of the mental hospitals.** The entire program should be under the direction of this professional person who should serve as a member of the faculty of the University of Nebraska College of Medicine and as Director of the Nebraska Psychiatric Institute. This would insure the maximum degree of coordination of effort.

Our approach to the identification of mental limitations and our responsibility in the field of mental retardation have received much attention in recent years. The school at Cozad, the previously mentioned programs at Beatrice, the various private schools, programs for the mentally retarded in a few public schools, are but a beginning to meeting our eventual needs.

We have established and implemented the Interagency Committee on Mental Retardation, as well as a Citizens Committee on Mental Retardation. In order to further coordinate and accelerate our efforts in this area, additional attention must be given to this responsibility through the State Department of Education. **Special education can and must receive additional attention.**

We have implemented a Governor's Committee for Gifted Children, the Committee for Children and Youth, and established two new vocational training schools in the State of Nebraska as a result of legislation enacted two years ago. We believe that vocational training is an essential part of our educational program, but that we should guard against wildcat increase in the number of such institutions. We should strive to improve the ones we now have, together with a limited number of new institutions. We need expanded programs of vocational training and adult education supervised by the State Department of Education.

It is now definitely established that the state has a special role to perform in the area of state planning and industrial development.

We have instituted during the last four years a program of community development terminating in community betterment contests, which are attracting national attention. This program should be continued.

The Industrial Development Act passed by the 1961 Legislature has been a useful tool in Nebraska in accelerating industrial development. One hundred forty new industrial facilities have been established in Nebraska during the last four years. More than \$40 million in new industrial financing has been provided under the Industrial Development Act.

We have established a Trade Expansion Council, led a trade mission to Europe, held luncheons in New York, Chicago, and Detroit for industrial prospects.

Because of these programs, Nebraska is leading all of the Midwestern states in percentage of improvements in industrial growth, which is a major factor in Nebraska's population growth. The Midwest Research Institute of Kansas City in its recent report shows Nebraska to be the only one of the fifty states to be improving its relative position in population growth. This is a great tribute to Nebraska people and particularly their state government, which has achieved all of this while still remaining the most fiscally frugal state government in America and last among the fifty states in the amount of taxes levied for the support of state government. The stability of Nebraska state government has been a factor in this growth program. I hope you are determined to preserve it.

Highway construction in Nebraska has made considerable progress and I am happy to report that during the past six years we have advanced from near the bottom in interstate highway construction to become one of the leaders in the nation in the percentage of our program that has been completed.

Our chain of lakes program along the interstate should be continued and developed to make Nebraska's interstate highway one of the most attractive in all of America.

I am personally opposed to abandoning Nebraska's time-honored position of avoiding bonded indebtedness, in order to accelerate highway construction. Highways built today on a tight money market may be obsolete ten years from now while we are still paying for them. Areas of highway construction needs, in my opinion, should be met on a pay as you go basis.

Tourist promotion has been largely vested in the Game, Forestation and Parks Commission which, through the Nebraskaland Magazine, general advertising, and administration of the program in cooperation with the Governor's Office, has done a remarkable job.

Nebraska in recent years has come from nowhere in the area of tourist development to a position of national recognition. A tourist promotion program to Europe was undertaken. We are now represented in various travel and vacation shows and recreational exhibits throughout the country. We have implemented through the Governor's Office, in cooperation with the Game Commission, the Old West Trail, which we recommend be made a permanent part of the state's travel and promotion program. The Nebraska Game, Forestation and Parks Commission is recognized as a leader in its field not only in America, but in other countries, as evidenced by its Executive Director, Mel Steen, being selected as President of The International Association of Game, Fish, and Conservation Commissioners.

In the area of agriculture, our soil and water conservation program has been accelerated. We are now in the process of statewide soil and water planning. Warren Fairchild, Executive Director of the Nebraska Soil and Water Conservation Commission and Dan Jones, Director of Water Resources, have achieved national recognition in this field.

Pearle Finigan, as Director of Agriculture, has made a significant contribution in the field of ag research, castor beans are now a recognized state crop. We have implemented various weed control and disease control programs as authorized by recent legislation. In the area of industrial uses for crops, we believe that the Nebraska Freedom Meal, developed by the State Department of Agriculture Research, should become a major item of international trade against hunger in the world. We have developed an edible food wrapping for packaging goods, developed a starch ingredient for the manufacture of paper, but we believe that this program can never achieve its full potential until undertaken with the resources of the federal government, and we believe that the funds appropriated for this activity in the future should be appropriated to the Nebraska Research Institute.

The Nebraska Department of Aeronautics is recognized as a leader throughout America. We believe that retention of the former federal air bases and the revenue from the land thereon is essential to the continued vitality and development of our Department of Aeronautics. The Nebraska Pilot Training Program and airport development have made Nebraska a leader in this field. There is still much to be done in improving airport facilities and bringing new facilities throughout the state.

In the area of safety, the state can and must comply with the new Federal Safety Act. Provisions must be made for periodic reexamination of both motor vehicles and drivers. We believe that a Director of Safety should be appointed by the Governor to serve

as an assistant to the Governor and be responsible directly to the Governor, to coordinate all safety activities of the various state and private agencies.

In the area of government reorganization, we have inaugurated a study for consolidated communications, which is essential as an economy measure and for the improvement of efficiency and prevention of further fragmentation of Nebraska's growing responsibility. This session of the Legislature should authorize a consolidated state communications system.

In the area of state reorganization, we believe, as we did two years ago, that we should have a division of personnel administration. We believe that it is too early to assess the success of the Department of Administrative Services, but that further improvement can be made through increasing experience. The Department should be self-supporting and centralized accounting and data processing should not be an additional burden upon the other departments, but should be a money saving device. A careful watch over its administration should insure this result.

The state is in need of a consolidated system of transportation involving all departments making use of state-owned aircraft and automobiles. We need a centralized motor pool and centralized administration of transportation. Properly administered, I believe that this program could save the state additional revenue.

During the past year we have delayed the construction of a badly needed state office building for three reasons: (1) inflation has made previously appropriated moneys insufficient to complete the needed building; (2) negotiations have been pending with the City of Lincoln for financial assistance in the construction of the building; (3) there has been a difference of opinion on location of the building.

This session of the Legislature should authorize the completion and designate the location of this much needed facility.

The State Highway Department building at 14th and Burnham is under construction and the architectural contract has been let for the new building on the east campus at the University of Nebraska to accommodate the Health and Agriculture Departments' laboratory work.

Various reforms have been initiated in the Department of Banking, the Department of Insurance, and the Department of Motor Vehicles which are making these agencies particularly effective. Frank Barrett, Director of Insurance, has received national recognition in his election as President of the National Association of Insurance Commissioners.

All in all, while many needs are still unmet, history will record that few state governments in America have achieved so much progress with so little exacted from the taxpayer. There is no fiscal crisis in Nebraska. No state government in America is in a sounder position fiscally. Tax levies last year will largely be paid in 1967. While there is no emergency, there should be no delay in the enactment of such revenue measures as you and the incoming Governor shall decide.

Just this morning, the State Auditor has reported to me that our total cash balance of operating funds in state government is nearly \$50,000,000—to be exact, \$49,567,432.36—as contrasted with \$29,611,057.78 as of January 1, 1961, and that our invested trust funds amount to \$75,999,926.26 as contrasted with \$53,813,892.31 as of January 1, 1961, and that total cash balances now to the credit of the State of Nebraska amount to \$125,567,358.62. All of this has been accomplished without the benefit of either a sales or income tax.

Nebraska has no bonded indebtedness and is one of the few states in the union without bonded indebtedness. The state is fiscally sound and has had a state government operating on a pay as you go basis but dedicated to meeting public needs.

Throughout my administration, I have supported the concept of a non-partisan Legislature. I still believe that this approach toward state representation should be continued. My concern is that this Legislature cannot continue to function as a non-partisan body if its members engage in the intensity and bias of partisan political action.

In assessing the future, we can and must recognize that change for the sake of change has no merit. A change can be justified only if it embodies responsible movement in the direction of progress and solid growth.

This is our centennial year. Our civilization and our culture on this continent is a new one. Archaeologists tell us that on the land which is now Nebraska various cultures have existed over a period of more than eight thousand years, commencing with the Folsom Man some eight thousand years ago. History has witnessed a succession of various degrees of civilization by different types and different races. Some of these thrived for a period in excess of two thousand years and others were of short duration. Few made any lasting contribution to improving the quality of human life. The extent to which each civilization succeeded was determined by the degree of effectiveness each displayed in coping with the problems of nature, of man's environment and his success in solving the problems of man's relationship with man.

As we commence our second century of statehood, we can and must recognize that our civilization is in its infancy, but that the knowledge we have acquired and can acquire in the future in dealing with our environment, in guarding against the erosion of soil and water, conserving our natural resources, preventing the defilement and pollution of our land, our air, and our water, and enhancing rather than destroying the natural beauty of our environment, is an essential part of our task.

If we are to solve the problems of man's relationship with man, we must search for truth and better understanding. This involves the highest possible responsibility in the area of political action. The time is long since past when we can afford the circulation of untruth or unverified rumor as a motivating force in political action. All of our efforts, all of our institutions, all of our legislation, will come to naught unless nurtured in an atmosphere of responsibility and integrity.

Most of my remarks on this occasion have been confined to the role of government in our affairs, but I have spent little attention to discussing the people who constitute the government. There are among you many whose personal friendship has been an inspiration to me and whose contribution to this state I shall always cherish. I have frequently said that the greatest political challenge which man faces is the implementation of a creative human mind. Every step forward in human experience first commenced with an idea born in the mind of some man or woman. No government, no organization, and no group has ever given birth to an idea. Ideas spring from the individual human being. Our primary task is to create the environment which stimulates the individual to think, to give birth to creative ideas, and then provide the motivation to convert those ideas into the machinery which improves both the quality of man and his environment.

My hope and my prayer is, as it always has been, that all of us can cooperate in ushering in new chapters of progress by stimulating competition in man's capacity to create.

Nebraska needs—and America needs—men and women whose goals for creative action will not tolerate the sinister forces of divisiveness and destruction.

This is the last time I shall address you as your Governor. It has been for me a most stimulating experience and opportunity, and I hope that those who follow may lead this state to ever more exalted standards of achievement.

MOTION—Dictating Machines

Mr. President: I move that the Legislative Council check into the possibility of purchasing or renting dictating machines, and take action as soon as they deem desirable and report back to the Legislature.

The motion prevailed.

Referred to the Legislative Council.

UNANIMOUS CONSENT—Print in Journal

Mr. Burbach asked unanimous consent to have the following statement printed in the Legislative Journal.

No objections. So ordered.

This pertains to a request of any member of the Legislature or any one else of the Governors office pertaining to major revenue producing measures we make a real diligent attempt to get them introduced, and presented to this Body within the first ten Legislative days rather than the last ten Legislative days. I'm sure we all realize the need for haste and need for the maximum time of deliberation in these various measures. The main request I'm making would be that the people of Nebraska are alerted and that they make their request to either their Senator, the Clerk of the Legislature, the Governor or the Chairman of the Revenue Committee for a copy of the bill. As soon as the bill is printed a copy could be mailed to their constituents, they would then have an opportunity to study the various measures as they are introduced, visit with their associations, with their corporations or for their own personal use, then come to the Revenue Committee when the hearing is set to discuss their wants, their likes or dislikes, the merits or demerits of the proposed Legislation. In this way we can hasten the sending of these bills so the people have an opportunity to study them, hasten the final passage or whatever the case may be in this area. This would help if the people could be fully enlightened of what the provisions contain.

UNANIMOUS CONSENT—Committee Meeting

Mr. Warner asked unanimous consent to hold a meeting of the Executive Board of the Legislative Council at 10:15 a.m.

No objections. So ordered.

**INAUGURAL ADDRESS OF GOVERNOR
NORBERT T. TIEMANN**

Governor of the State of Nebraska

January 5, 1967

Mr. President,
Mr. Speaker,
Mr. Chief Justice and Associate Justices
of the Supreme Court,
Members of the 77th Session of the Legislature
of the State of Nebraska,
Ladies and Gentlemen:

This inauguration and this time are of great significance to me, to my administration and to the people of Nebraska. This is the point of beginning of our second century of statehood and will be the bench mark from which we will measure our success in meeting the problems now confronting our state.

This is a time of challenge and of opportunity in state government, not only in Nebraska but across the nation. After a generation of unparalleled expansion in the functions and activities of the federal government, we can now feel a new impetus toward finding local solutions for local problems. This is, in part, a protest against mistakes and inadequacies in the conception and management of past and present federal programs. But this thrust is not merely a reaction nor a political maneuver to discredit political opponents. It is a growing sense of the ability of a strong and well-administered state government to achieve state goals. It is an awareness of the increasing competition between states for the services of skillful people and the attention of progressive industries. It is, most importantly, a challenge to compete with the federal government for the responsibility of managing the resources of government and, ultimately, for the confidence and reliance of our people. I do not foresee a significant decrease in the powers or activities of the federal government. However, I do see the development of more responsive and more responsible state government as the only alternative to even greater federal management of state and local functions.

Let us look at our state, then, in this competitive situation, so that we can identify our strengths and recognize where we need to reinforce our positions.

We have, first of all, a strong and hardy population—people with diverse backgrounds and a heritage of hard and honest effort. We have a central geographic position which is suitable for the location of transportation industries and for the development of other industries with nationwide distribution systems. We have a balanced and stable agricultural industry which has the resources and technical capability to become the leader and the model for our country and the world. We have a proven educational system and a major university which can train our young people and provide scientific assistance to our industries. And we have a tradition of honest state government.

On the other hand, our population has declined in comparative terms. Our state highway system is inadequate. Our natural and human resources have not been fully appreciated or employed. We have a student explosion in our colleges and university and have not increased the size of our faculties sufficiently to give adequate instruction to these young people. We have made virtually no provision for the scientific research facility necessary to attract and support modern industry. And we have been neither imaginative nor aggressive in the operation of state government.

We have, on balance, the people and the tools to move Nebraska forward. Let us accept the challenge of our time.

Our first concern in meeting this challenge must be education. We need to review the structure of our educational system, particularly with regard to our colleges and universities, and to make such changes as are necessary to provide for the greatest possible use and coordination of available funds, facilities and staff. At the college and university level we must commit ourselves to paying competitive salaries to attract and retain quality faculties. We must provide time and support for scholarship, which is the basic tool of both teaching and research, so that we can reasonably expect our faculties to supply leaders in the marketplace of ideas. We must establish a research facility which can give technical assistance to our present industries, stimulate the broadening of our industrial base, and enlist scientific personnel to our faculties. Our goals in the area of research have been much too limited. We should be equipped to scan the horizons of scientific thought and should possess the capability to pursue various lines of scientific inquiry. The selection of research projects should be made on the basis of feasibility and soundness of conception by an independent institute outside of the state's political administration. This institute should be coordinated with our university but should be separately funded and should

have a separate, professional administrative staff. Research projects could then be placed with either public or private research facilities.

Additionally, we should undertake to establish a system of junior colleges and vocational technical schools to relieve the pressure of increased enrollment at our colleges and university and to provide trained manpower for present and future industries. There is clearly an immediate need for such a vocational technical school in Omaha's near north side to improve the employment opportunities of citizens in that area and to provide additional skilled workmen in the most industrialized part of the state.

In transportation, we need a program for upgrading our state highway system. Such a program will require a review of our long range planning, together with a careful examination of the highway study which will be presented to this legislature in the near future. A determination will be required on both the quantity and the quality of our highway needs and on the most appropriate means for financing our highway program. As I have often stated, I favor the issuance of highway revenue bonds to finance this program, and I recommend to the legislature that a constitutional amendment be placed on the ballot at the next general election which would permit the legislature to authorize the issuance of revenue bonds for highway purposes. I am confident that if the people of Nebraska are given an opportunity to express themselves on this issue, they will approve a program for the construction of a modern highway system.

In the area of highways we should also be aware of the requirements imposed by recent federal legislation with regard to both highway safety and highway beautification. We need to conform to this legislation to make our highways safer for our citizens and to preserve our state's right to participate in federal highway programs. We need also to make our position strongly felt in the federal government in those instances where proposed regulations on highway beautification are unrealistic or unduly restrictive of local commerce.

Also in the area of highways, we should recognize that our efforts to develop recreational areas and promote tourist attractions are directly dependent on our progress in improving our roads. Recreational areas are an immediate benefit to our citizens and should have priority over attractions for tourists from other states, but both of these programs are good and are of long range importance to the environment and economy of our state. Neither of these programs, however, can have any great success until we can provide adequate access roads to the parks, camp sites and monuments which we are developing and seek to promote.

Turning now to commerce we presently have a division of resources within our Department of Agriculture. This division performs several functions, some of which are only collaterally related to agriculture. This division should be raised to departmental status. The department, then, could provide the Governor with a direct arm for marshalling economic data and for implementing programs of rural and urban development. Our cities and towns have significant problems, but each of our communities can be strengthened if technical information and assistance is provided to supplement local initiative and leadership. The department should participate in state and regional planning to provide organization and focus for economic development. It should also encourage cooperation between local communities in establishing programs of wide geographic benefit.

One of Nebraska's major resources is water. Although the state appears to be blanketed with irrigation wells and canals, we are only on the threshold of significant water development. If effectively harnessed, Nebraska's water supply would be a prime factor in the state's agricultural and industrial expansion. We need, then, to establish a comprehensive state water plan and to reorganize our watershed districts on a hydrologic basis, rather than along county lines, so that we can identify and utilize our water resources economically and effectively for the benefit of all water users.

In our state institutions we have already begun to plan for a realignment of our administrative structure. Specifically, we expect to place our penal and correctional facilities under the supervision of a trained penologist and to place our facilities for the treatment of mental illness and mental retardation under the immediate direction of a professional psychiatrist. A single director head will continue to have responsibility for the overall administration of this department.

Great advances can be made and are being made in both penology and the fields of mental illness and mental retardation. Proposals have been made in other states, looking toward the rehabilitation of criminal offenders, which involve carefully supervised work release plans and basic revisions in the structure of parole boards. Increasing attention is being paid throughout the nation to the care and treatment of mentally ill persons and to the training of those people, particularly children, who are mentally retarded. We must place ourselves in a position to take advantage of gains in scientific knowledge and improvements in institutional procedure by providing adequate facilities and staff, again at competitive salary levels, for our state institutions. We must move beyond mere warehousing of our institutionalized citizens into a situation where we can return as many of these people as possible to productive useful life within a reasonable period of time. This

would clearly be an economy in human resources and ultimately in state expense.

In terms of the general administration of state government, we shall proceed with all the resources at our command to implement the programs of the Department of Administrative Services. This Department was established by a far-reaching and far-sighted act passed by the 1965 Session of the Legislature and is the key to sound fiscal administration. I recommend the strongest possible legislative support of this innovation in state government. I would also recommend that data processing, which is presently under the supervision of the accounting division of the Department of Administrative Services, be established as a separate division within the department. This organizational change will make the data processing division directly responsible to the director and should provide greater flexibility in applying computer techniques to the problems of government.

We also need to lay the groundwork for a state personnel system to standardize state hiring practices and pay grades. Great disparities now exist among the departments of government in both job classifications and rates of pay, and the requirements for state employment are various and uncertain. A state personnel office should be located in the Department of Administrative Services and should be responsible for the administration of qualification exams and the maintenance of comprehensive personnel records. In the interests of promoting competence in government and of attracting qualified personnel to state employment, a uniform system of job descriptions, qualifications and pay grades is essential immediately.

I anticipate many of the legislative proposals to be submitted during this session will require constitutional changes. The number of proposed amendments to our constitution has grown year by year. At this past election the number and complexity of proposals on the ballot precluded a careful consideration of each change. It, therefore, seems clear that a constitutional convention is both desirable and necessary, and I recommend to the Legislature that a proposition be placed on the ballot at the next general election calling for a state constitutional convention.

The proposals I have made will require an expenditure of funds and, will necessitate an increase in general fund appropriations. As all of us know, we have at the present time no basic source of general fund revenue. I recommend to the Legislature the enactment of a broad-base, low-rate combination sales and income tax to provide the revenues necessary to run the government of the State of Nebraska. We will supply to the Legislature such an act. We propose a sales tax on all retail sales of tangible personal

property at the rate of 2½%, with exemptions for prescription medicines, feed, seed, agricultural chemicals, livestock and certain other production items. We propose an income tax on the federal taxable income of all individuals at a rate no greater than 2% on the first \$1000, at a rate no greater than 3% on the second and third \$1000, at a rate no greater than 4% on the fourth through sixth \$1000, at a rate no greater than 5% on the seventh through tenth \$1000, and at a rate no greater than 6% on taxable income in excess of \$10,000. Each of these rates is a proposed maximum. Thus, the Legislature will have the necessary flexibility to adjust rates to meet appropriations. This act includes an income tax on the federal taxable income of corporations at the rate of 3%.

We have researched this act with great care. We have investigated the laws and rates of other states. We have sought out information on the revenues which we can expect from various rates of tax. And we will make available to the Legislature whatever information and assistance you may require and we can provide.

We need also to revise and repeal certain state laws governing the taxation of tangible and intangible personal property. I specifically recommend that the tax on household goods and the head tax be repealed and that the rate of tax on intangible personal property be reduced to a low level or eliminated, so that this tax does not continue to drive investment capital out of our state and discourage prospective new industries.

I further support a program of state aid to our school districts so that each area in our state may provide quality education for our children. I recommend to the Legislature that such a program of state aid be established in conjunction with our new tax system.

In addition, a reduction in personal property taxes will necessitate a system of replacement income to our counties and municipalities which have relied on this source of revenue. We further recommend a program of state aid to local governmental subdivisions to alleviate the acute fiscal plight of these areas.

In each of the areas of governmental concern which I have discussed, my administration will present to the Legislature possible or suggested approaches to our mutual problems and assist the Legislature in developing factual information on which decisions can be based. We also hope for your counsel in establishing and maintaining the various operations of state government.

The proposals which I have made call for a substantial investment in Nebraska and in ourselves. We pledge in return a sound, business-like administration and a policy of hiring qualified professionals to undertake the responsibilities of state government.

We will submit to the Legislature an executive budget which will be consistent with our proposals. The budget request of each of the departments of government will conform to the executive budget and will be supported by my office before the Legislature and to the people of Nebraska.

Our goals are greater opportunities for all Nebraskans, a stable and growing economic base, an equitable sharing of both the benefits and the responsibilities of government by all our citizens, and a significant place for Nebraska in the hierarchy of states.

I am honored and proud to be inaugurated today as the Governor of the great state of Nebraska.

Thank you.

WHEREAS, in memorable moments while soliciting fellow senators' support of legislation he favored, Senator Stromer's rhetoric reached historic proportions and his voice and delivery did likewise, frequently producing a fog-horn effect, best described as "Dirksenian" in quality, and

NINTH DAY

Legislative Chamber, Lincoln, Nebraska
Friday, January 13, 1967

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Everroad presiding.

Prayer was offered by the Chaplain.

Prayer

O Lord, Thou has brought us to this day in the new session. We feel somehow that while there are many bills to be considered, many issues to be decided, many voices to be heard, many conflicts to be resolved; there is also a new spirit—a willingness to cooperate, a desire to hear the other person's opinion, a belief that problems can be solved, a commitment to work toward the common good. This day, therefore, we pray that we may not be a part of the problems confronting us, but a part of their solution, through the power of Christ. Amen.

The roll was called and all members were present except Messrs. Batchelder, Kokes and Stromer, who were excused.

The Journal for the Eighth Day was approved.

ELEVENTH DAY

Legislative Chamber, Lincoln, Nebraska
Tuesday, January 17, 1967

Pursuant to adjournment, the Legislature met at 10:00 a.m., President Everroad presiding.

Prayer was offered by the Chaplain.

Prayer

We come in prayer to Thee, Lord Jesus, who never had to take back anything spoken, to correct anything said, or to apologize for any statement. Wilt Thou have pity upon our frailties and deliver us from pitying ourselves. Bless the members of this body as they think together and work together in this chamber, in committee rooms, and in their offices. Help them to stand up under the strains and the tensions of problems and decisions, of meetings and conferences, and the endless demands made upon them. Teach them how to relax and to take time to turn Thee for guidance and for grace, and thus discover the secret of power. In Thy name we ask it. Amen.

The roll was called and all members were present except Mr. Kokes, who was excused until 10:30 a.m.

LEGISLATIVE JOURNAL—SEVENTY-SEVENTH SESSION

TWELFTH DAY

Legislative Chamber, Lincoln, Nebraska
Wednesday, January 18, 1967

Pursuant to adjournment, the Legislature met at 10:00 a.m.,
Speaker Adamson presiding.

Prayer was offered by the Chaplain.

Prayer

O Thou great architect of the universe, whom, by the revelation of Jesus, we may address as our Father, help us to understand what this means. As we are now united in our praying, so may we be united this day in our working, that, as a team, we may be doing together the will of our Father, who is not a God of any one interest, or any one party, or any one section.

Open our eyes that we may discern what God is doing, in our ears that we may hear what God is saying. And then, O God, give us all we need to take due notice and to govern ourselves accordingly. We ask these things in the strong name of Jesus Christ our Lord. Amen.

The roll was called and all members were present except Messrs. Gerdes, Mahoney, E. Rasmussen and Whitney, who were excused.

The Journal for the Eleventh Day was approved.

LEGISLATIVE JOURNAL—SEVENTY-SEVENTH SESSION

THIRTEENTH DAY

Legislative Chamber, Lincoln, Nebraska
Thursday, January 19, 1967

Pursuant to adjournment, the Legislature met at 10:00 a.m.,
Speaker Adamson presiding.

The prayer was offered by the Chaplain.

Prayer

Our Father, before we become involved in the routine of this day—with our committees and hearings, our meetings and decisions, and the many interests which clamor for our attention and the people who want us to vote this way and that—we pause to seek thy help. Experienced in the ways of men, we know all too little of the ways of God.

Thou knowest us, each one, by name and by our need. Turn our wayward minds and hearts to Thee. Forgive the faults and failures of the past and set us free from them. Forgive our failure to apply to ourselves the standards of conduct we demand of others. Forgive our slowness to see the good in our fellows and to see the evil in ourselves.

In our differences may we be kind; in our agreements may we be humble, that thy will may be done in us, and through us in our common service. For Jesus' sake. Amen.

The roll was called and all members were present except Mr. E. Rasmussen, who was excused.

LEGISLATIVE JOURNAL—SEVENTY-SEVENTH SESSION

FOURTEENTH DAY

Legislative Chamber, Lincoln, Nebraska
Friday, January 20, 1967

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Everroad presiding.

Prayer was offered by the Chaplain.

Prayer

Our Father in heaven, we pray for the members of this body in their several responsibilities. Help them in their offices, in committees, and above all as they meet here in legislative session.

May they never forget that what is said and done here is not done in a corner, but always under thy scrutiny. May they feel the weight of their responsibilities before Thee, and remember the influence of a goal example, that all who come to this place may have a stronger faith in government of the people, by the people, for the people.

May the senators so speak and so act that all who wait upon them may be inspired, rather than disillusioned by what they see and hear and are asked to do. O Lord, make Thy self real to these men and women, that each may feel Thee sitting beside him, and hear Thy voice, and win Thine approval in all things. So help them, God, for Jesus' sake. Amen.

The roll was called and all members were present except Messrs. Bloom, Ely, Harsh and Mahoney, who were excused; Messrs. Pedersen and Wallwey, excused until 9:15 a.m., Mr. Proud, excused until 9:40 a.m. and Mr. Payne, excused until 10:00 a.m.

LEGISLATIVE JOURNAL—SEVENTY-SEVENTH SESSION

FIFTEENTH DAY

Legislative Chamber, Lincoln, Nebraska
Monday, January 23, 1967

Pursuant to adjournment, the Legislature met at 10:00 a.m., President Everroad presiding.

Prayer was offered by the Chaplain.

Prayer

Our Father, in the midst of the complicated situations of life in the unsolved problems of our state, deliver thy servants from any sense of futility. Let them feel the support and the prayers of the many citizens of this state who are sincerely interested in the best interest of all, and above all, the uplift of the everlasting arms.

Cause them to understand that God's power has never been obstructed by difficulties, nor His love limited by the confusion of human plans. May the very failures of man's best resources lead us to seek the resources of God.

Cleanse our hearts of selfishness. Grant that all questions immediately before us may be made so plain that we shall have no forebodings as we make our decisions nor vain regrets after they are made. For Jesus' sake. Amen.

The roll was called and all members were present except Messrs. Batchelder and Wallwey, who were excused and Mr. Stryker, who was excused until 10:45 a.m.

Our Father, as our heads are bowed in prayer, may our hearts be open to Thy Spirit, lest we say words with our hearts not in them and make Thee yawn at the emptiness of our petition, or make Thee angry at the insincerity of what we do. Give us faith to believe in prayer, and then Thy willingness to work in us that Thy will may be done among the nations and in our own land. We ask this in Jesus name. Amen.

LEGISLATIVE JOURNAL—SEVENTY-SEVENTH SESSION

EIGHTEENTH DAY

Legislative Chamber, Lincoln, Nebraska
Thursday, January 26, 1967

Pursuant to adjournment, the Legislature met at 10:00 a.m., President Everroad presiding.

Prayer was offered by the Chaplain.

Prayer

In the name of Jesus Christ, who was never in a hurry, we pray, O God, that Thou wilt slow us down, for we know that we live too fast. If we are to burn ourselves out, may it be in causes worth dying for. With all of eternity before us, make us take time to live—time to get acquainted with Thee, time to enjoy Thy blessings, time to know each other. Deliver us from wasting time and teach us how to use it wisely and well. We ask these things in the lovely name of Jesus. Amen.

The roll was called and all members were present.

LEGISLATIVE JOURNAL—SEVENTY-SEVENTH SESSION

NINETEENTH DAY

Legislative Chamber, Lincoln, Nebraska

Friday, January 27, 1967

Pursuant to adjournment, the Legislature met at 10:00 a.m., President Everroad presiding.

Prayer was offered by the Chaplain.

Prayer

Let us now rejoice, most gracious God, in the love Thou hast shown toward us, opening up to us a way whereby we might be delivered from our sin and foolishness. We have found out that we cannot do wrong and feel right. By our tolerance of some wrongs, we have come close to being intolerant of the right. Make us bold enough to confront the face of evil and of wrong, even when it bears our own image. May we see that in every choice we make, we are for Thee or against Thee. God, help us to keep our moral voting record straight. Through Jesus Christ our Lord. Amen.

The roll was called and all members were present except Messrs. Batchelder, Bloom, Klaver and Mahoney, who were excused.

The Journal for the Eighteenth Day was approved.

TWENTIETH DAY

Legislative Chamber, Lincoln, Nebraska
Monday, January 30, 1967

Pursuant to adjournment, the Legislature met at 10:00 a.m.,
Speaker Adamson presiding.

Prayer was offered by the Chaplain.

Prayer

O Thou Holy Spirit, who hast promised to lead us into all
truth, prepare our hearts and minds for the business of this day,
that we may behave with true courtesy and honor.

Compel us to be just and honest in our dealings. Let our mo-
tives be above suspicion. Let our word be our bond. Save us from
the fallacy of depending upon our personality, our ingenuity, or
position to solve our problems.

Since Thou hast the answers, make us willing to listen to Thee,
that we may vote on God's side, and that God's will may be done
in us. Through Christ our Lord. Amen.

Section 1. That section 66-423, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

66-423. The money of the Gasoline Tax Fund transferred to the various county treasurers shall be allocated each month as follows: (1) (a) To each city and incorporated village in such a county having a population of twenty-five hundred inhabitants or less, to be credited to the street fund, a sum equal to ten cents per person for each person in such city or incorporated village based on the most recent federal census; (b) to each city in such a county having a population of more than twenty-five hundred inhabitants and not more than twenty-five thousand inhabitants, to be credited to the street fund, a sum equal to fifteen cents per person for each person in such city based on the most recent federal census; (c) to each city in such a county having a population of more than twenty-five thousand inhabitants and not more than two hundred thousand inhabitants, to be credited to the street fund, a sum equal to forty per cent of the Gasoline Tax Fund allocated to such a county where such a city is situated by subdivision (4) of section 66-424.01; and (d) to each city in such a county having a population of more than two hundred thousand inhabitants, a sum equal to seventy-five per cent of the Gasoline Tax Fund

allocated to such a county where such a city is situated by subdivision (4) of section 66-424.01, to be credited to the street fund; *Provided*, that any city or village, except cities of the metropolitan class, mentioned in this subdivision may allocate all or any part of the Gasoline Tax Fund to pay the interest on and to retire any street intersection and state highway or federal aid routes construction or off-street parking bonds issued by such city or village; *Provided*, that cities of the primary class shall not use any such gas tax funds for payment of interest on or to retire any off-street parking facilities bonds; and (2) the remainder as follows: (a) Two-ninths shall be credited to the county bridge fund; *Provided*, if any portion thereof be not required for bridges, it shall be used to pay the interest on and to retire any outstanding county road or highway construction bonds of the county and the balance thereof if any shall be credited to the county road fund; (b) two-ninths shall be credited to either the county road fund or the county bridge fund, as the county board by resolution entered on its records may direct, with the privilege on the part of the county board at any time during the calendar year in which such money is received, to transfer all or any part thereof from one fund to the other as need may arise; and (c) the remaining five-ninths shall be credited to the county road fund, to be used by the county board for the purpose of maintaining, grading, graveling, regrading, claying, littering, oiling, or paving and no other purpose whatsoever; *and provided further*, that thirty-five per cent of the money so transferred shall be used by the county treasurer to pay the interest on and retire any existing or outstanding county highway construction bonds and the balance if any shall be credited to the county road fund.

Any county, city, or village which has heretofore or*

may hereafter issue bonds under the authority of this section shall levy ad valorem taxes upon all the taxable property in such county, city, or village issuing such bonds at such rate or rates within any applicable charter, statutory, or constitutional limitations as will provide funds which, together with Gasoline Tax Funds pledged to the payment of such bonds and any other money made available and used for that purpose, will be sufficient to pay the principal of and interest on such bonds as they severally mature.

All funds distributed under the provisions of this subdivision may be used exclusively for constructing or resurfacing dustless-surface street or road improvements *and off-street parking facilities*, and for the amortization of bonded indebtedness when created for such improvements, but not for maintenance or equipment purchases, *and such funds may be pledged for the payment of such indebtedness.*

LEGISLATIVE JOURNAL—SEVENTY-SEVENTH SESSION

TWENTY-FIRST DAY

Legislative Chamber, Lincoln, Nebraska

Tuesday, January 31, 1967

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Everroad presiding.

Prayer was offered by the Chaplain.

Prayer

Hear, O God, the earnest prayers of the senators gathered for this sacred moment of prayer, and deepen our feelings of unity and fellowship as we pray with them and for them. Give us wisdom to see that no good life comes without right discipline. Give us the grace to impose it upon ourselves, lest others do it for us. Help us to discipline our speech, that we may seek clarity rather than cleverness and sincerity instead of sarcasm. Help us to discipline our thinking and our actions, that in this place the world may see democracy at its best and us at our best for democracy and for Thee to use us. In the name of Christ, Thy Son. Amen.

The roll was called and all members were present except Messrs. Bloom, Holmquist and Matzke, who were excused and Mr. Knight, who was excused until 10:00 a.m.

Communication

January 31, 1967

Mr. Hugo F. Srb, Clerk
Nebraska State Legislature
Lincoln, Nebraska

Dear Sir:

You have requested my comments on the desirability or necessity of the frequently offered amendment "Amend the title to conform." As I have told you in conversation, it is my thought that this amendment serves no useful function and could well be eliminated in the future. As attorney for the committee on Enrollment and Review, one of my major responsibilities is to be certain that the title to each and every bill complies with the constitutional requirements. I review each title carefully whether or not the "Amend the title to conform." amendment has been adopted. If a change in the title is necessary, I make that change. If no amendment to the title is necessary, I am then forced to ignore the "Amend the title to conform." amendment. Though the time involved and the space required in the Journal are very slight for this amendment, I do suggest that its elimination would save the Legislature time and save unnecessary printing in the Legislative Journal.

These are, of course, only my views, but I know that they are shared with John J. Wilson.

Very truly yours,

(Signed) Emory P. Burnett, Attorney

TWENTY-THIRD DAY

Legislative Chamber, Lincoln, Nebraska
Thursday, February 2, 1967

Pursuant to adjournment, the Legislature met at 10:00 a.m., Speaker Adamson presiding.

Prayer was offered by the Chaplain.

Prayer

O God, our Father, history and experience have given us so many evidences of Thy guidance to nations and to individuals that we should not doubt thy power or thy willingness to direct us.

Give us the faith to believe that when God wants us to do or not to do any particular thing, God finds a way of letting us know it.

May we not make it more difficult for Thee to guide us, but be willing to be led of Thee, that Thy will may be done in us and through us for the good of our state and us all. This we ask in Jesus' name. Amen.

Standing Committee amendments to LB 97:

1. Amend the bill by striking sections 1 and 2 and inserting the following:

"Section 1. Whenever the state or any of its political subdivisions shall own property upon which there are any unpaid taxes or special assessments and any interests, penalties or costs relating to such taxes or special assessments, and the value of said property is less than the total of such taxes, special assessments, interests, penalties and costs, such property may be sold by the owner and title given as provided in this act.

Sec. 2. The governing body of the political subdivision owning property described in section 1 of this act and desiring to sell the same shall certify by official action to the county treasurer of the county in which the property is located, the legal description of the property and the street address of such property if within a city or village, that the value of the property is less than the totals of all taxes, special assessments and interest, penalties, and costs levied against such property, and that the owner desires that such property be sold.

Sec. 3. The county treasurer shall set a date of sale which shall be within two months of the date of the certification made pursuant to section 2 of this act and proceed, as provided in this act, to offer and sell such property to the highest bidder.

Sec. 4. The county treasurer shall, prior to the sale, cause to be printed in a legal newspaper published in the English language in said county at least once a week for three consecutive weeks an advertisement stating the owner of such property and that such property described by its legal description and if within a city or village by its street address in addition to its legal description, will be sold to the highest bidder on the date set for sale and that a title clear of all liens for taxes, or special assessments and interests, penalties, or costs thereon will be conveyed. If upon the date of sale no bid is made, the county treasurer shall continue such sale until a bid shall have been received; *Provided*, that the owner, at any time after the date for sale, may cause the selling of the property to be discontinued by notifying the county treasurer of such desire.

Sec. 5. Prior to advertising for sale, the county treasurer shall notify the state and all political subdivisions which have any interest in taxes or special assessments levied and assessed against said property of the proposed sale and the date of such sale.

Sec. 6. The state or any other political subdivision may purchase such property.

Sec. 7. Sec. 8. If after all proceeds have been distributed and there still remains unpaid any portion of taxes, interest and penalties and costs thereon, the county shall by official action cause all such taxes, interests, and penalties and costs, regardless of whether such are for the benefit of the state or any political subdivision, to be stricken from the records of the county. Such action shall forever release said property from such taxes, interest, penalties, and costs thereon.

SPEECH

Lincoln Bar Association

January 30, 1967

I should first make it clear that the comments to follow were first delivered at the Tax Clinics of the Nebraska State Bar Association in December, and no effort has been made to update, review or include many proposals for tax legislation or constitutional

changes affecting it which have been made public since that time. The title of these comments is "Tax Decisions." I should first express the caveat that any conclusions or interpretations drawn here reflect only my own personal opinion or interpretations and in no sense those of the Nebraska Supreme Court. Some of the tax decisions by the electorate last November and implications which are obvious from them will be discussed first.

Some of these decisions involved constitutional amendments, one involved a referendum, and some have not been subject to much comment before or since adoption. For a group of lawyers who are anticipating a probable income tax law—constitutional Amendment No. 8 permitting the Legislature to base any income tax upon the laws of the United States should perhaps be mentioned first.

Without attempting to get into the legislative field, it is quite obvious that such an amendment would permit, if the Legislature so desired, a much simplified administration and enforcement of any income tax and would certainly be of great benefit to lawyers, taxpayers and administrators familiar with the Federal income tax. This amendment could be used by the Legislature in many different fashions. The state income *tax* might be a *flat* percentage of the Federal income *tax*. This would automatically provide some elements of progressive rates reflected by the Federal tax. The new law might be a flat rate on taxable income, or it might provide graduated rates on taxable income, or a number of other obvious possibilities. But these are legislative matters. The great advantage to the State and to its citizens, and for the Legislature and lawyers particularly, will be the opportunity not only to shorten and simplify legislative provisions, but also to simplify and economize on administration and enforcement of any state income tax.

There has been much newspaper publicity of late as to the effects and ramifications of the new constitutional amendment which prohibits the State "from levying a property tax for state purposes." Attitudes expressed and proposals for legislation made by a multitude of persons make it abundantly clear that some newspapers, some senators, and the overwhelming majority of the public, are not entirely familiar with the constitutional provisions or the statutes which remain applicable with respect to the property tax, by or for whatever subdivision the tax is levied. Before proceeding, I should make it clear that I have no intention of trespassing into the legislative field, but I do feel that lawyers, more than any other professional group, have a responsibility to the State of Nebraska and to their own Senators to see that their Senators are advised with respect to constitutional and statutory problems in the present tax situation which may require or affect contemplated legislative action. There are very few lawyers in the Legislature,

and there are now a multitude of legal problems requiring action. As a result of the overall tax problems facing the State, many pressure groups and all sorts of interests are hard at work on the Senators, not only with respect to new taxes, such as sales and/or income taxes for state revenue, but also with respect to changes in the property tax itself.

There have been discussions of and proposals for such things as homestead exemptions for persons over 65; the elimination of all taxes on intangibles; exemptions from tangible personal property tax for: household goods, business inventories and equipment, livestock, machinery, and grain, among others.

There have also been several proposals calling for a bill to abolish the State Board of Equalization. Many County Boards are already asking whether they have to follow the reappraisal laws.

Some newspaper comments from other states, as well as even an occasional comment from Nebraska citizens seem to imply that the property tax has been abolished for all purposes in Nebraska. I therefore want to call attention to the constitutional provisions which are still in effect involving these matters, and to point out that some of the proposals are specifically prohibited by the Constitution while others are not.

Article VIII, section 1, dealing with revenue provides, among other things that "Taxes *shall* be levied *by valuation* uniformly and proportionately upon all *tangible* property and franchises * * *" and provides for different methods of valuing and taxing various types of motor vehicles. It authorizes the Legislature to prescribe *standards* and *methods* for determination of value of tangible property at uniform and proportionate values and authorizes constituting livestock a separate class of property. Section 10 authorizes the Legislature to substitute a basis other than valuation for taxes on grain and seed produced or handled in this state. With these exceptions, no other classifications of tangible property are permitted.

Section 2 of Article VIII exempts the property owned by certain persons and organizations from taxation and then concludes with: "No property shall be exempt from taxation except as provided in the Constitution." The general exemptions, of course, cover property of the State and its subdivisions, property owned and used exclusively by agricultural and horticultural societies and property owned and used exclusively for educational, religious or charitable purposes when such property is not owned or used for financial gain or profit to either the owner or user. These are the traditional so-called governmental and charitable exemptions.

This section of the constitution also now provides through various amendments, that certain specified types of property might be exempted. Household goods and personal effects; the increased value of land by reason of shade or ornamental trees planted along a highway, and the value of a home substantially contributed to for a veteran by the Veteran's Administration for a paraplegic veteran or multiple amputee, are the specifications.

Except for these specifically enumerated exemptions, *any property tax* on *tangible* property and franchises, whether by the State or any governmental subdivisions, must be by *valuation uniformly* and proportionately and no other exemptions are permitted. Neither does the Constitution permit classification of *tangible* real or personal property except various types of motor vehicles, livestock, grain and seed. Therefore, business inventories and equipment, manufacturers inventories, and livestock and machinery, all being tangible property, cannot be *exempted* from the property tax, which still remains, without a constitutional amendment. The exemption for homesteads of persons over 65 comes in the same category. Grain and seed apparently must still be taxed, but a basis other than valuation may be used. Livestock may be classified separately, but cannot be exempted. Household goods, under an amendment which has been in existence for 12 years, may be completely exempted any time the Legislature so desires.

The constitutional provisions with respect to intangible property taxes are somewhat different and will involve certain other problems, if the intangibles tax remains after the next legislative labors are over. Incidentally, distribution of intangible taxes has already been changed by statute so the State will not participate if an income tax becomes law. In any event, the levy of the intangibles tax is made by the state, and the intangibles tax is a property tax.

The old constitutional provision of Article VIII, section 1 as to intangibles provided that "Taxes uniform as to class *may* be levied by *valuation* upon all other property." It has been amended many times and the last provision before the November election was and still is: "Taxes uniform as to *class of property* or the *ownership* or *use* thereof *may* be levied by valuation or otherwise upon classes of intangible property as the Legislature may determine, and such intangible property held in trust or otherwise for the purpose of funding pension, profit-sharing or other employee benefit plans is exempt. In November life insurance was also specifically added to the exemptions for the intangibles tax.

Article VIII, section 1, of course, also authorizes taxes other than property taxes, such as income taxes, sales taxes, excise taxes, etc.

It will, therefore, be noted that the intangibles tax may be wholly eliminated by the Legislature if it wishes, under the present Constitution. I should state that there are some who feel that the prohibition against any exemptions except those provided by the Constitution require intangible property to be taxed and that complete elimination would constitute a prohibited exemption. I do not agree with that conclusion. Until the Constitution is further changed, if there is an intangible property tax, only pension and profit-sharing plans and life insurance may be completely exempted from it, except, of course, for property owned by those qualifying under general exemptions applying to all taxes.

It should perhaps be called to your attention at this point that the present *statutory* provisions with respect to the intangibles tax, strangely enough, start off with the provision: "Intangible property, *other than* notes secured by mortgages on real estate situated in this State, and other than the bonds of the United States, of this State, or of governmental subdivisions, shall be separately classified, listed, and taxed * * *."

As you all know, promissory notes are ordinarily taxable as intangibles. As a result, many of you have from time to time secured notes by mortgages on real estate in order to avoid the intangibles tax. You will note that the present *statute* makes no requirement as to whether it has to be a first, second, or third, or any other number of mortgages and, as most of you know, many notes for indebtedness having no relationship at all to real estate have been secured by mortgages on real estate merely to avoid the intangibles tax. I understand that there are probably many pieces of real estate—I shall not mention where—which are plastered with mortgages many times the value of the real estate simply for this purpose. This, however, is getting somewhat away from direct constitutional provisions.

One other matter dealing with the intangibles tax specifically should be mentioned. The new constitutional amendment says: "The State shall be prohibited from *levying* a property tax for *State purposes*."

Proposals have been made that portions of the probable new income and/or sales taxes should be allocated back by the State to the schools or other local subdivisions. If done, would this make them a state purpose, so as to affect the intangible *property* tax or other *property* taxes *levied* directly by the State, and prohibit them, even though distributed entirely to local subdivisions because such purposes were by that time state purposes?

One other specific constitutional matter should be mentioned here, and that is with respect to the proposals that the Legislature abolish or eliminate the State Board of Equalization. Fortunately

or unfortunately, this also involves a constitutional provision. Although the State Board of Equalization, as a state board, is itself provided for only by statute, section 77-501 et seq., Article IV, section 28 of the Constitution provides: "A Tax Commissioner shall be appointed by the Governor with the advice and consent of the Senate. He shall have jurisdiction over the administration of the revenue laws of the state, and, together with the Governor, Secretary of State, State Auditor and State Treasurer, shall have power to review and equalize assessments of property for taxation within the State. He shall have such other powers and perform such other duties as the Legislature may provide. His term of office and compensation shall be as provided by law." This constitutional provision will, of course, be binding until changed by amendment of the Constitution and regardless of what interim legislative stop-gaps or other proposals may be made.

This brings us to a consideration of the broad implications of the constitutional amendment adopted in November prohibiting the State from levying a property tax for state purposes and its effects. We have been referred to in all sorts of terms in other states. In general it has been called a "tax mess." All sorts of suggestions and proposals for new legislation in the property tax field, and its integration into the sales and income tax systems have been made. Again with no thought of intrusion into the legislative area other than to point up the practical problems, I propose some discussion.

Again I repeat, lawyers, more than any other professional class, it seems to me, have an obligation to advise and consult with their Senators as to the practical legal problems arising out of, or affecting proposed legislation. Every lawyer is familiar with the fact that taking the State out of the property tax field does not remove the property tax from Nebraska. I would estimate that on the average, a least in second class cities and larger, the state property tax levy constituted approximately 10% to 15% of the total property tax levy. The property tax levies of all taxing subdivisions of the state, other than the state levy for state purposes, at least presumably, remain in effect. For all legal and practical purposes—on a very rough average, over the state, 80% to 90% of the dollar amounts raised by the property tax will still be there. There have been many newspaper proposals and discussions primarily aimed at taking the State out of the property tax field even as an overseer and leaving all property tax functions exclusively and entirely to the counties. These are exemplified by certain editorial statements such as: "If the counties want to make a mess of their tax systems, then we doubt that the State should step in * * *. There are local matters of statewide concern in which the State has a legitimate interest but county valuations do not seem to be one of them."

Such statements, it seems to me, must be made without full knowledge of the problems of the ad valorem property tax and, in particular, of the constitutional and statutory provisions which are presently in effect in Nebraska.

First and foremost, the full power as to taxation, whether a property tax or otherwise, and whether by the State or any of its taxing subdivisions, is vested solely in the Legislature. Article VIII, section 1 of the Constitution provides: "The necessary revenue of the State and *its governmental subdivisions* shall be raised by taxation in such manner as the *Legislature* may direct."

All of the other property tax levying bodies are governmental subdivisions, authorized, created and governed by, and solely under the control of the Legislature. I hardly think it conceivable that the Legislature would even contemplate, or could or would, want to delegate complete responsibility for taxing legislation affecting them, to the subdivisions which will still be levying a property tax, whether counties or otherwise.

It should also be quite apparent that every citizen of the state ought to be, and each member of the Legislature is, vitally interested in the manner in which any tax system of the state operates throughout its 93 counties, whether it be a property tax, an income tax, a sales tax, excise tax or any other. Borrowing a current theological term—God is not dead—neither is the property tax in Nebraska dead. Only a small percentage of its take has entered into temporary purgatory.

It is quite obvious, and not just in Nebraska, that no one likes to pay taxes, but the primary source of complaint, and the primary source of difficulties and problems in any tax system arises from inequities. In an ad valorem property tax system, equity lies basically in equalization of assessments. While it perhaps has little to do with the problem, except in a practical way, I am advised that some 7 or 8 states who previously were entirely or virtually entirely out of the property tax field have returned to it, at least for purposes of supervision, because of inequities which resulted when they abandoned the responsibilities.

While the theory of an ad valorem tax is seemingly simple and precise and apparently equitable, in its broad terms all sorts of practical problems of equalization and administration inevitably are built into it. Under Nebraska law, even if there were no inter-county taxing subdivisions, there are many different taxing subdivisions within a single county. At least several of these are subject to mill levy limits set, of course, by the Legislature. These levy limits, expressed in mills, do not change or adjust because of changes in assessed valuations within the county. First

class cities, second class cities, townships (only 28 counties have townships, but those counties average approximately 20 townships per county), educational service units, just to name a few, have specific mill levy limits. A county mill levy limit is even set in the Constitution. Article VIII, section 5. Incidentally, the Constitution does not distinguish between counties which have townships and those which do not. In addition to these, many legislative statutory authorizations to taxing subdivisions, even where approved by the voters, may have a mill levy limit set by state statute.

Perhaps it is important to explain why a mill levy limit, with respect to taxing subdivisions, has any relation to the problem of equalization within a single county. If every property tax levying subdivision within a single county had no tax levy mill limit, but did have authority to raise whatever amount of money was necessary for its operations, and set its own mill levy accordingly, then the percentage of actual value at which all property in the county is assessed really makes no practical difference. Each taxing subdivision merely determines the amount of money needed; determines the total amount of assessed valuation of property in its district and mathematically computes a mill levy which will raise the necessary amount. If the overall valuation levels in the county decrease, the mill levy is increased and if the overall valuation level of property increases, the mill levy can be decreased, assuming, of course, a constant dollar requirement for the taxing subdivision.

If all taxing subdivisions were located in single counties and all had unlimited tax levies, there would conceivably be no inter-county equalization problems of any sort. Where levy limits are in effect, however, a completely different picture emerges, if the financial needs and requirements of any taxing subdivision cannot be met within the levy limit permitted by statute. So long as the financial requirements, even of taxing subdivisions subject to a mill levy limit can be met within the levy limits provided, then, of course, the same situation applies with respect to them as applies with respect to districts having no levy limits. However, where a taxing subdivision is already at or near its maximum mill levy, no increase in its levy may be made even though its budget may urgently require it, and the *dollar amount* which it receives from property taxes directly increases or decreases in proportion to the increase or decrease in the total assessed valuations of property in its taxing unit. Such a subdivision may even be faced with a situation where its tax income is reduced in amount at the same time its needs and requirements are substantially larger. Many smaller communities are already faced with problems of declining assessment values and declining property values. There are even some indications that property tax valuations in some taxing subdivisions are maintained at levels above actual value, simply to provide

sufficient funds to operate a taxing subdivision shackled by a mill levy limit. These situations already pose problems with respect to mill levy limits which are not in any sense affected by the State's removal from the property tax field.

It should also be pointed out that where the Legislature fixes or determines a mill levy limit applicable to various kinds of taxing subdivisions in all 93 counties of the State, it is very difficult to determine what is a proper and reasonable mill levy limit, assuming a limit is appropriate, if there is no uniformity of valuation as between counties.

There are also 93 different county assessors, some very well qualified and some not, and all subject to varying local pressures.

In the past few years, at least, various studies have shown a rather consistent variation in almost every county in the state, as between levels of assessment applied to urban property and levels of assessment applied to rural property in the same county.

There remains also the basic problem of equalization of value as to individual property in the same county.

As you are all aware, it has been the law for a long time that the mere fact that some other property of the same actual value as your own is assessed lower than yours, is no ground for reduction of your assessment, unless the value on which your assessment is based exceeds its actual value. In order to obtain a reduction in an assessment that is within the statutory limits of value, it must be established that most of the property other than yours, is systematically and regularly assessed at a lesser rate and that you are being discriminated against. In the absence of overall information as to the method and manner of assessment and figures in connection with it, as a practical matter, establishing those facts becomes a difficult and expensive thing to do.

The proposal to leave all equalization and assessment matters to the counties, and for the State to move out of the field entirely, also runs into statutory and practical problems with respect to the assessment of railroad property, airlines, and interstate bus companies, among others. Present statutes require their assessment by the State and presumably will now require apportionment only to state subdivisions, and not for state purposes. If counties were permitted to make their own assessments, without any overall supervision or control, at least mild chaos might result in such public utility assessments.

We come now to a matter which is quite generally recognized by lawyers and legislators, but is virtually unrecognized by the public generally, and that is the nature and extent of taxing sub-

divisions which cross county lines, and, therefore, involve property which may be assessed in two or more different counties. In such situations, substantial variations in county assessment levels obviously would create both legal problems and inequities. The first and most obvious type of multiple county taxing units is school districts. I am advised that Nebraska presently has 2,365 school districts, 10% of the national total, and that over 400 of these school districts presently extend across county lines. The proliferation of various taxing districts which extend across county lines has continued apace over the past decade or two. Taxing subdivisions other than school districts which may be included in this category are vocational service units and educational service units; conservation districts, irrigation districts, reclamation districts, drainage districts, watershed districts, libraries, rural fire protection districts and even cities and villages. I understand there are at least three or four cities and villages presently located in more than one county. In one of these, the main street is the dividing line between counties.

There is no way I know of under present law by which differences between general valuation assessment levels between two counties, wide enough to create inequities in assessment within a taxing subdivision which extends into both counties may be corrected except by the State Board of Equalization. There are no present statutory provisions (except in Lincoln and Omaha) which permit separate assessment valuations on the same property within the same county for two different taxing subdivisions. Under present statutes a taxpayer who lives in one county of an inter-county taxing district has no tax remedy even though his property is assessed at a much higher level than property in the same taxing subdivision located in another county so long as his property is assessed the same as other property in his own county. For example, he cannot receive a reduction for school district purposes only, and if his assessment is reduced to equalize his school district assessment which, unfortunately, may be a large part of his total property tax, other taxpayers in his own county, but not in the school district would very probably have strenuous objection. The question of who shall equalize multiple county property tax assessments and who shall supervise, if anyone, single county property tax assessments is, obviously, a matter for decision by the Legislature, subject to the constitutional requirements which are, of course, primary. Incidentally, Article VIII, section 6 requires that taxes for all municipal corporations "shall be uniform in respect to persons and property within the jurisdiction of the body imposing the same."

The present State Board of Equalization consists of 5 members. Four of those five are politically elected and engaged in full time

operation of their own offices and their regular duties have little or nothing directly to do with taxation. They would very probably be among the first to concede that they do not have the information nor background of continuity to give them even a reasonable opportunity to function efficiently as members of a statewide property equalization board. But the decision as to which individual or agency shall be responsible for inter-county equalization, as well as all others dealing with the property tax have already been circumscribed by the provisions of the Constitution, and if changed must be by action of the Legislature and the people.

We still have the ad valorem property tax with us in Nebraska with all of the same problems of equalization except that the problems of equalization between all 93 counties formerly faced because of the state property tax levy for state purposes is now reduced to much smaller terms and much smaller and possibly separated areas where multiple county taxing subdivisions exist. There remains exactly the same necessity for equalization within each county as there has always been. While the State of Nebraska as a political body has been taken out of the property tax field for state purposes, and its share of the financial income from the property tax has likewise been removed, the taxpayers of Nebraska are still subject to the ad valorem property tax for virtually all of its political subdivisions. The fact that the State, as a political unit, has now been forced into a broadened tax base, other than the property tax, has, I think, very probably spawned many of the proposals for changes in the property tax. They are aimed at integration of the property tax with whatever other taxes may come into being, in order to equalize the tax burden and equitably distribute the overall tax proceeds between the State and its subdivisions.

A great many, if not most of the proposals for changes in the property tax system will necessitate changes in the Nebraska Constitution. In the past, we have been noted for the number of constitutional amendments which have been presented to the voters, not only on tax matters, but on many other sections of the Constitution. Since 1950, Article VIII has been amended in one or more respects every two years with one exception, so that in 8 out of the last 9 elections, we have amended our constitutional provisions dealing with taxation and revenue. I don't know how 1962 was missed! Other Articles of the Constitution have also been amended numerous times, perhaps not so frequently.

I suggest that the time has come when piecemeal and patchwork amendments to the Constitution as to taxes no longer suffice. 14 Constitutional amendments at the last election were more than enough! Considering the possibility of multiple and perhaps conflicting constitutional amendments to be presented at the next

election, generated by multiple and conflicting legislative proposals for changes in the tax laws should make anyone shudder. The Constitution is the fundamental law of the State. While it must not be rigidly unchangeable, neither should it be subject to constant and repeated alteration to meet the desire of every special interest group.

The burden of my song and the ultimate reason for imposing this dissertation upon a group of lawyers is to suggest that if constitutional provisions with respect to the property tax or taxes generally are to be changed, those changes ought to be made as a complete single constitutional revision, broad enough and flexible enough to cover the field and eliminate, so far as possible, the necessity for constant and repeated constitutional patchwork. It seems apparent that Nebraska deserves constitutional tax provisions which do not require nibbling off, nor patching on at every election. The Legislature could do this either by a coordinated single constitutional amendment proposal encompassing the field, or could even provide for a constitutional convention which, incidentally, we have not had for almost 50 years.

The decision as to which of these methods is to be used, or whether either will be done, of course, lies with the Legislature and the people. It seems clear that the time has not only arrived, but has long since passed, for concerted unified decisions about taxes and constitutional provisions dealing with taxes in Nebraska.

The foregoing comments are based upon only hasty and limited research. I, therefore, make no claims for their utter accuracy, but I do assume personal responsibility for the general views and opinions expressed.

LEGISLATIVE JOURNAL—SEVENTY-SEVENTH SESSION

TWENTY-FIFTH DAY

Legislative Chamber, Lincoln, Nebraska
Monday, February 6, 1967

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Everroad presiding.

Prayer was offered by the Chaplain.

Prayer

Our heavenly Father, in this moment of prayer, when there is silence in this senate chamber, may there not be silence in Thy presence. May our prayers be heard.

May no short circuits be made by our lack of faith, our high professions joined to low attainments, our fine words hiding shabby thoughts, or friendly faces masking cold hearts.

Out of the same old needs, conscious of the same old faults, we pray on the same old terms for new mercies and new blessings. In the name of Christ our Lord. Amen.

The roll was called and all members were present except Mrs. Orme who was excused, and Mr. Carpenter, who was excused until 9:20 a.m.

February 2, 1967

Mr. R. C. Newell, Superintendent
Buildings and Grounds
Room 1408, State Capitol
Lincoln, Nebraska 68509

Dear Mr. Newell:

The Research Section of the Game, Forestation and Parks Commission, presently occupies a building at 713 North 17th Street, Lincoln. This building is leased from the University of Nebraska and the lessor has indicated that they will not extend the lease beyond 31 December, 1967.

The building has 2332 square feet of floor space, and is leased for \$.62 per square foot or \$1440.00 per year, plus the cost of utilities. Utility cost for calendar year 1965 was: Gas \$324.22, Electricity \$224.87 and Water \$43.88.

There is a building located at 3830 Adams, Lincoln, which would more adequately meet the needs of Research. This building offers 3000 square feet of floor space plus basement, or 6000 total square feet, and can be leased for \$.75 per square foot or \$4500.00 per year, plus the cost of utilities. The cost of utilities was obtained covering the same period, calendar year 1965, and were as follows: Gas \$208.50, Electricity \$96.84 and Water \$22.20.

We presently have 2100 square feet of storage leased from Ford Van Lines at \$1.00 per square foot. This lease can be cancelled and the material stored there can be stored in the basement of the building at 3830 Adams.

The 3830 Adams Street building would provide some relief for our presently overcrowded conditions on 9th floor of the Statehouse.

We respectfully request permission of the Legislature through your office to rent the building at 3830 Adams Street, effective 15 February, 1967.

Yours very truly,

Game, Forestation and Parks
Commission

February 9, 1967

Senator Elvin Adamson
Speaker, Nebraska Legislature
State Capitol Building
Lincoln, Nebraska

Dear Senator:

We want to bring to the attention of the Legislature the fact that we have joined with Maryland, Texas, and Colorado in an action to determine the constitutionality of that part of the 1966 amendments to the Fair Labor Standards Act which presumes to extend authority of the federal government in this area to certain employees of the state and its political subdivisions. The basis for our intervention in this action is that the effect of enforcement of the federal law appears to be an invasion of certain sovereign powers reserved to the states, and further effects would be:

1. To require the State of Nebraska, in the absence of an appropriation by the Legislature, and therefore in violation of its Constitution, to expend additional sums for wages and salaries of certain of its personnel.
2. To require the Legislature to make such an appropriation, and thereby circumscribe and control its legislative discretion.
3. To impose a substantial burden upon the State in the exercise of its governmental functions.
4. To nullify existing State laws, and the rules and regulations promulgated pursuant thereto, pertaining to the terms and conditions and employment of the employees of the State and its political subdivisions, to the extent that such employees may be covered by the federal Act.

The immediate reason for our intervention is the fact that the U. S. District Court for the District of Maryland has entered a restraining order covering all states which become parties to the action before February 10, preventing enforcement of the federal act in this state and protecting us from the payment of penalties if the act is finally determined to be constitutional.

All parties have agreed that this test case is to be expedited, with the defendant U. S. Department of Labor to file its brief on or before March 6, and the plaintiffs to file their brief on or before March 16. A final reply brief may then be filed by March 22.

We intend to cooperate in every way in order to obtain an early and final determination of the important issue here involved.

Very truly yours,

(Signed) Clarence A. H. Meyer
Attorney General

LEGISLATIVE JOURNAL—SEVENTY-SEVENTH SESSION

TWENTY-NINTH DAY

Legislative Chamber, Lincoln, Nebraska
Friday, February 10, 1967

Pursuant to adjournment, the Legislature met at 9:00 a.m.,
Speaker Adamson presiding.

Prayer was offered by the Chaplain.

Prayer

We thank Thee, Almighty God, for the rich heritage of this good land, for the evidences of Thy favor in the past, and for the Hand that hath made and preserved us a nation.

On this day we thank Thee for the inspiration that breathes in the memory of Abraham Lincoln, and we pray that something of the spirit that was his may be ours today. Like him, may we be more concerned that we are on Thy side, than that Thou art on ours. In our hearts may there be, as there was in his, "malice toward none and charity for all", that we may, together with Thy blessing and help, bind up the wounds of society. Through Jesus Christ our Lord. Amen.

The roll was called and all members were present except Messrs. Batchelder, Ely and Moylan, who were excused.

LEGISLATIVE JOURNAL—SEVENTY-SEVENTH SESSION

THIRTIETH DAY

Legislative Chamber, Lincoln, Nebraska
Monday, February 13, 1967

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Everroad presiding.

Prayer was offered by the Chaplain.

Prayer

Our Heavenly Father, when we have prayed for guidance and it comes, let us not think it strange if it be something we would not have thought of, for Thy thoughts are not our thoughts and our way is not Thine.

Make us eager to know Thy will and Thy way of dealing with situations, rather than devising our own plans and asking Thee to bless them.

Then shall we discover how much better is Thy way and how happy they are who walk in it. Through Jesus Christ our Lord. Amen.

The roll was called and all members were present except Messrs. Adamson and Nore, who were excused and Miss Reynolds, excused until 10:15 a.m.

Corrections for the Journal

LEGISLATIVE JOURNAL—SEVENTY-SEVENTH SESSION

THIRTY-FIRST DAY

Legislative Chamber, Lincoln, Nebraska
Tuesday, February 14, 1967

Pursuant to adjournment, the Legislature met at 9:00 a.m.,
Speaker Adamson presiding.

Prayer was offered by the Chaplain.

Prayer

In this, the day that the Lord hath made, help us, O God, to appreciate its beauty and to utilize its opportunities. Deliver us, we pray Thee, from the tyranny of trifles. May we give our best thought and attention to what is important, that we may accomplish something worthwhile. Teach us how to listen to the prompting of thy spirit, and thus save us from floundering and indecision that wastes time, subtracts from our peace, divides our efficiency, and multiplies our troubles. In the name of Jesus Christ our Lord. Amen.

The roll was called and all members were present.

Message—Attorney General's Opinion

February 10, 1967

Mr. Hugo Srb
Clerk of the Nebraska Legislature
State Capitol Building
Lincoln, Nebraska

Dear Mr. Srb:

I have been advised that the Legislature desires an opinion on that part of Section 7 of Article IV of our Constitution which provides that, "Within thirty days after the commencement of each regular session he (the Governor) shall present, by message, a complete itemized budget of the financial requirements of all departments, institutions and agencies of the state for the ensuing bien-nium."

The question submitted is whether the Legislature may grant an extension of time to the Governor. There is no question but that the Legislature may grant such an extension if it sees fit to do so. That requirement in the Constitution is simply a tool for the Legislature by which it can require the Governor to submit his recommendations for state expenditures.

The granting of an extension of time will have no effect on the constitutionality of the budget bill which is ultimately passed.

Very truly yours,

(Signed) Clarence A. H. Meyer
Attorney General

CAHM:dnej

Introduced by Henry F. Pedersen, Jr., Legislative District 4 and Richard F. Proud, Legislative District 12.

WHEREAS, the members of this legislative body are cognizant of the policy of the United States Government to assist underdeveloped nations in their struggles to establish governmental and economic stability, and to prevent intrusion into the affairs of these nations by aggressive governments controlled or influenced by international communism; and

WHEREAS, the members of this legislative body recognize that the United States as a nation has never engaged in organized conflict with other nations for the purpose of enslaving others, dominating and confiscating property, practicing genocide, destroying religions or customs, or in any way seeking by force to reduce the standards of persons or nations to permanent subservience to the United States; and

WHEREAS, the members hereof further affirm that the United States of America has the military power by troops, weaponry, equipment and capability to defend itself, other nations and to disrupt and destroy the potential of other nations' organized or unorganized war-making forces; and

WHEREAS, the members hereof further recognize that objectives and purposes must exist for governmental programs which include extended military operations of the United States throughout the world whether in defense of this nation or of other nations; and

WHEREAS, the members hereof are aware that nearly 6,000 Nebraskans have been inducted into the armed forces of our nation since January 1, 1963 and that 46 Nebraska servicemen have given their lives in Viet Nam since the commencement of hostilities in that conflict, and that further years of conflict in Viet Nam are proposed without defining what is the objective of the United States;

NOW, THEREFORE, BE IT RESOLVED BY THE NEBRASKA LEGISLATURE IN SEVENTY-SEVENTH SESSION ASSEMBLED:

1. That the Legislature hereby petitions the Congress of the United States and the President of this nation to use the full capabilities of this nation's economic and military forces possibly short of nuclear weapons to win this war in Viet Nam in the shortest time possible and with the least expenditure of human life, to use whatever weapons and tactics as are militarily sound to accomplish the removal of hostile forces from the nation of South Viet Nam, and to take whatever action necessary as military science and tactics, and sound logic, warrant to preserve the peace of this world and the prevention of the continuing growth of the military potential of aggressive communist nations,

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Everroad presiding.

Prayer

O Lord, in the midst of changing weather, changing events, and changing ideas, keep us steadfast to a high sense of values.

In the midst of great activity today we ask Thee to remind us often of Thine invisible presence, that out of confused issues may come simplicity of plan, out of fear may come confidence; out of hurry may come the willingness to wait, out of frustration, rest and power.

This we ask in Thine own name. Amen.

The Journal for the Thirty-first Day was approved.

February 14, 1967

Hon. Jerome Warner
Chairman Executive Board
Nebraska State Legislature
State Capitol
Lincoln, Nebraska 68509

RE: City of Lincoln, Nebraska State Office Building and Parking Facility Revenue Bonds

Dear Senator Warner:

At your request I am writing to make a progress report on the above proposal which generally involves the acquisition by the City of Lincoln of land north of the State Capitol, the construction thereon by the city of a state office building and related parking, a thirty-year lease with the State of Nebraska for the payment of the principal and interest of the bonds to be issued by the city, and the transfer of fee title thereafter to the State of Nebraska.

As you know, a presentation of this proposal was made on January 10 to Governor Tiemann and to the legislature on January 11. Thereafter, a more detailed presentation was made to the Executive Board of the Legislative Council. Since that time at your request we have written to our bond counsel requesting the preparation of the following three documents:

1. A proposed bill authorizing the city to construct such facility, issue revenue bonds, and lease to the State of Nebraska.
2. A proposed bill authorizing the State of Nebraska to acquire such a facility by a lease-purchase arrangement.
3. A proposed lease agreement between the city and the state whereby the state would for thirty years make payment annually of the principal and interest obligations of the city, and thereafter fee title to the entire facility would vest in the state.

We have informed our bond counsel of the interest of the legislature in the design and construction of a building and parking facility, and we have particularly called attention to present state laws on this subject which authorize some form of control by the state legislature. As soon as these documents are received from our bond counsel, we shall make them available to you for whatever action you determine appropriate.

Very truly yours,

(Signed) Ralph D. Nelson
City Attorney

UNANIMOUS CONSENT—Print in Journal

February 13, 1967

Honorable Elvin Adamson
Speaker, Nebraska Legislature
State Capitol
Lincoln, Nebraska

Dear Senator Adamson and Members of the Legislature:

I have approved the rental of office space by the Tax Commissioner's Office outside of the State Capitol. This office space will house additional functions of the Tax Commissioner's Office as well as some of the present operations. The Tax Commissioner's Office, as presently constituted, will not be moving from its present location.

The office space is located in the Pioneer Plaza Building, 1335 "L" Street, Lincoln, Nebraska. The area rented consists of the entire basement and first floor, some 10,041 square feet. Lease price is \$32,835.48 per year, payable in equal monthly installments. All utilities are furnished by the Lessor including janitorial services. Because of the confidential nature of the tax operations, the Lessor has agreed that all janitors must be approved by the Tax Commissioner and in the event that the Tax Commissioner desires to employ his own janitors, the base price will be reduced accordingly. The other standard lease provision which has been modified is that giving Lessor access to the premises as well as keys. Under the proposed lease, this will be conditioned upon an employee of the Tax Commissioner accompanying the Lessor.

The lease will contain a one-year renewal option to be exercised prior to December 15, 1967. This option provides that the base price would increase by 5% unless otherwise provided.

Pursuant to Section 72-701.08, the approval by motion of this undertaking is respectfully requested of the Seventy-Seventh Session of the Legislature of Nebraska.

Very truly yours,

(Signed) Norbert T. Tiemann, Governor

LEGISLATIVE JOURNAL—SEVENTY-SEVENTH SESSION

THIRTY-THIRD DAY

Legislative Chamber, Lincoln, Nebraska
Thursday, February 16, 1967

Pursuant to adjournment, the Legislature met at 9:00 a.m.,
Speaker Adamson presiding.

Prayer was offered by the Chaplain.

Prayer

O God, at this moment the senators of this state humbly employ
Thy help and guidance. Make it a sacred moment, a moment when
men and women are aware of their need of God, a moment when
answers come and guidance is given.

Often we pray for that which is already ours, neglected and
unused. Sometimes we pray for that which can never be ours, and
sometimes for that which we must do for ourselves.

How many times we never pray at all, and then work ourselves
to death to earn something that is ours for the asking.

Help us to understand that "faith without works is dead" and
that works without faith can never live. Amen.

The roll was called and all members were present except Mrs.
Orme and Miss Reynolds who were excused.

The Journal for the Thirty-second Day was approved.

Senator Richard D. Marvel
State Legislature
State Capitol
Lincoln, Nebraska

Dear Senator Marvel:

I am writing with regard to the bills which have been introduced in the present session involving state and local governmental

retirement systems. These proposed measures have been referred to the Budget Committee.

The Legislature's Retirement Systems Advisory Committee, as directed by statute, has engaged a consulting actuarial firm to analyze these bills, the changes they will make in existing retirement plans, and to make estimations of the costs involved.

I have just conferred with representatives of this firm and they indicated that they have started their analysis of these bills. They have indicated that the work on the bills proposing relatively minor changes in retirement plans will be completed by early April. The reports on the major retirement legislation should be ready by mid or late April. Approximately twenty bills are involved, and it takes time to prepare complete and accurate actuarial reports on them. I did want to report to you, however, that the work is under way.

Sincerely yours,

Explanation of Vote

Mr. President:

I believe the more we indicate publicly dissatisfaction, distrust, of handling the war in Vietnam, the more encouragement the enemy gains to resist negotiations; hoping for a revolt of Americans. This may be why they are so difficult to bring to the negotiation table. For international consumption, we need to indicate a consensus.

THIRTY-FOURTH DAY

Legislative Chamber, Lincoln, Nebraska
Friday, February 17, 1967

Pursuant to adjournment, the Legislature met at 9:00 a.m.,
President Everroad presiding.

Prayer was offered by the Chaplain.

Prayer

Our Father in heaven, today we pray for Thy gift of contentment, that we may not waste our time desiring more, but learn to use and enjoy what we have.

We may not know everything, but we may know Thee and Thy will. We need not be rich to be generous, nor have all wisdom to be understanding. Our influence may not be great, but it can be good. Our speech may not be eloquent, but it can be truthful and sincere. We cannot all have good looks, but we can have good conscience, and having that, we shall have peace of mind and need fear no man.

May we be kind to one another, tender-hearted, forgiving one another, even as Thou, for Christ's sake, hath forgiven us. Amen.

The roll was called and all members were present except Mrs. Orme, Miss Reynolds and Messrs. Hasebroock, Moylan, E. Rasmussen and Skarda, who were excused.

Corrections for the Journal

LEGISLATIVE JOURNAL—SEVENTY-SEVENTH SESSION

THIRTY-SEVENTH DAY

Legislative Chamber, Lincoln, Nebraska
Wednesday, February 22, 1967

Pursuant to adjournment, the Legislature met at 9:00 a.m.,
Speaker Adamson presiding.

Prayer was offered by the Chaplain.

Prayer

We recognize, our Father, as George Washington saw so clearly, that "no people can be bound to acknowledge and adore the invisible hand which conducts the affairs of men more than those of the United States. Every step by which they have advanced to the character of an independent nation seems to have been distinguished by some token of providential agency."

Believing that the hand that has brought us thus far will not forsake us now, but if we are willing will lead us on into further inspiration and service to all mankind, we would join our prayers this day with those of men and women all over the world who pray for order and peace.

We pray therefore for some evidence in what is said and done here that Thou hast been permitted a vote, and that these men and women have yielded their lives to Thee. In Jesus' name. Amen.

The roll was called and all members were present except Mr. Pedersen who was excused.

The Journal for the Thirty-sixth Day was approved.

Legislative Chamber, Lincoln, Nebraska
Thursday, February 23, 1967

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Everroad presiding.

Prayer was offered by the Chaplain.

Prayer

O Lord, let us never be afraid of a new idea or unreceptive to a new thought, lest we pull down the shades of our minds and exclude Thy holy light. When confronted by mystery, help us to remember that we do not have to explain all we know or understand all we believe. But give us the grace of humility and the spirit of the open mind, the courage to persist in face of difficulties, and a steady confidence in the power of truth.

Help us all to learn something this day, that we shall be wise at its close and more ready for our eternal home when we are one step nearer. Through Christ our Lord. Amen.

THIRTY-NINTH DAY

Legislative Chamber, Lincoln, Nebraska

Friday, February 24, 1967

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Everroad presiding.

Prayer was offered by the Chaplain.

Prayer

Our Father, we often feel weighted down by the problems confronting us. Convict us of our share of responsibility for the situation in which we find ourselves. May we confess our part in creating our dilemmas, lest we feel no obligation to solve them. Help us to quit waiting for the other fellow to change his ways, lest we never give Thee the chance Thou hast been waiting for to change us. This we ask in the name of Him who is the Truth. Amen.

The roll was called and all members were present except Messrs. Kremer, Payne and Viehmeyer who were excused.

LEGISLATIVE JOURNAL—SEVENTY-SEVENTH SESSION

FORTIETH DAY

Legislative Chamber, Lincoln, Nebraska
Monday, February 27, 1967

Pursuant to adjournment, the Legislature met at 9:00 a.m.,
Speaker Adamson presiding.

Prayer was offered by the Chaplain.

Prayer

O God, our Father, in these days when men freely judge and
condemn each other, remind us all of the great judgment before
which we must some day appear.

Thou knowest whether we have been voices or merely echoes,
whether we have done Thy will or our own, or worse still, have done
neither.

Teach us, O Lord, that only Thy "well done" will afford peace
and everlasting happiness.

May we strive for that rather than the approval of men, which
is but for a little while. Amen.

The roll was called and all members were present except Mr.
Proud, who was excused and Mr. Knight, excused until 9:50 a.m.

The Journal for the Thirty-ninth Day was approved.

Communications

Letter from Mr. Henry M. Jackson, Chairman of Committee on

FORTY-FIRST DAY

Legislative Chamber, Lincoln, Nebraska

Tuesday, February 28, 1967

Pursuant to adjournment, the Legislature met at 9:00 a.m., Speaker Adamson presiding.

Prayer was offered by the Chaplain.

Prayer

O God, the light of those who seek Thee, grant to our minds that illumination without which we walk in darkness and know not where we go.

Remember those who feel no need of Thee, who seem content with a careless unexamined life, whose hearts are unvisited by desires of better things. Leave them not to themselves, lest they go down to destruction.

Remember us, O Lord, who do not always remember Thee, and help us to accomplish our tasks without tension or strain, that we may do good work and merit Thy blessing. For Jesus' sake. Amen.

The roll was called and all members were present except Mr. Payne who was excused and Mr. E. Rasmussen who was excused until 10:30 a.m.

RESOLUTIONS

LEGISLATIVE RESOLUTION 18. Re: Bridge Between Interstate Highway 29 and U. S. Highways 77 and 73.

Introduced by Elmer Wallwey, 17th District; C. W. Holmquist, 16th District; Calista Cooper Hughes, 1st District; Rudolf C. Kokes,

41st District; Albert A. Kjar, 39th District; Arnold Ruhnke, 31st District and Bill K. Bloom, 20th District.

WHEREAS, on January 16, 1967, Congressman Robert V. Denney of the First Congressional District of Nebraska introduced H.R. 2388 in the House of Representatives to provide for an extension of Interstate Highway 29 from Sioux City, Iowa, across the Missouri River to United States Highways 77 and 73 in the area of South Sioux City, Nebraska; and

WHEREAS, Senators Carl T. Curtis and Roman Hruska of Nebraska and Senators Bourke Hickenlooper and Jack Miller of Iowa introduced a similar bill in the U. S. Senate on February 15, 1967; and

WHEREAS, the present bridge across the Missouri River between South Sioux City, Nebraska, and Sioux City, Iowa, which now carries the traffic of both U. S. Highway 77 and U. S. Highway 20, is more than 75 years old and is totally inadequate to carry the heavy traffic of today and the anticipated traffic of the future; and

WHEREAS, Interstate Highway 29, which runs north and south along the Iowa side of the Missouri River is a national highway, of which ninety per cent of the cost has been paid by federal taxpayers, and said highway should be accessible to the people of northeast Nebraska inasmuch as no north and south interstate highways are located in Nebraska; and

WHEREAS, the condition of the present bridge is a hazard to the heavy local traffic and the many motorists and tourists traveling coast to coast on U. S. Highway 20 and the many motorists traveling north and south on U. S. Highways 77 and 73; and

WHEREAS, there is a rapid growth in both the populations of South Sioux City, Nebraska, and Sioux City, Iowa; and

WHEREAS, current traffic counts show 21,520 cars per 24 hours on an average summer day at the south end of the existing bridge in South Sioux City, Nebraska, on basically a two lane street, which traffic count exceeds the traffic count on any two or four lane street or highway in the metropolitan Sioux City, Iowa, area; and

WHEREAS, one new industry which has recently located south of South Sioux City, Nebraska, on U. S. Highway 77 has engendered additional traffic estimated at 125 trucks and 700 cars each way every 24 hours, with much of this said additional traffic using the existing bridge; and

WHEREAS, several other new businesses, industries and dwelling complexes will open soon and will cause additional traffic on the existing bridge; and

WHEREAS, in addition to all applications and proposed legislation above mentioned, it has also been recently recommended by Chairman Jennings Randolph of the Senate Public Works Committee that Nebraska and Iowa officials submit a new application to the Federal Highway Administrator to add miles to the authorized Interstate Highway System of forty-one thousand miles on an emergency basis, the said additional mileage to come from an administrative reserve remaining after specific projects are completed within the present over-all system authorized by Congress.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN SEVENTY-SEVENTH SESSION ASSEMBLED:

1. That it does respectfully urge that the Congress of the United States at the earliest possible time approve a method or legislation which will bring about the additional mileage and the construction of the bridge on the Interstate Highway System between Interstate Highway 29 and U. S. Highways 77 and 73 in or near South Sioux City, Nebraska.

2. That the Clerk of the Legislature of the State of Nebraska transmit copies of this resolution to the United States Senators and Representatives from the State of Nebraska, to the Chairman of the Committees on Finance and on Commerce of the United States Senate, to the Chairman of the Committees on Ways and Means and of Public Works of the United States House of Representatives, to the Secretary of the Department of Transportation of the United States, to the Federal Highway Administrator of the United States, and to the Senate and House of Representatives of the State of Iowa.

LEGISLATIVE JOURNAL—SEVENTY-SEVENTH SESSION

FORTY-SECOND DAY

Legislative Chamber, Lincoln, Nebraska
Wednesday, March 1, 1967

Pursuant to adjournment, the Legislature met at 8:30 a.m., President Everroad presiding.

Prayer was offered by the Chaplain.

Prayer

God of all men, who gave to the founders of this State the resolve and courage to stand against hardness even at the cost of their lives, their fortunes, and their sacred honor, we thank Thee that through their vision and willingness to suffer we today enjoy this our precious heritage as Nebraskans. We confess that even while we have made some of the same sacrifices we have none the less wasted opportunities to safeguard that for which they pledged all, and that for which they gave so much.

In these days when so many men set themselves against others in their towns and cities, in this state keep us from self-righteousness, from judgments of others, from fear, and help us to be an example of freedom and of plenty, of concord and of good living for all others.

When we are tempted to be silent for our own sakes, open our mouths that we may show forth Thy praise; in speaking the truth, in saying what must be said, in standing for justice and love, in defending the rights of all men to life, liberty and the pursuit of happiness.

On this one hundredth anniversary of the birth of our state, help these men and women who are so close to the heart of this state's life, so to guide this state, which lies in the heart of America, that our hearts and the hearts of all others may be fastened upon those values which gave birth to this state, and which may continue to make us great; in the name of our God. Amen.

The roll was called and all members were present except Messrs. Skarda and Wallwey, who were excused and Mr. Gerdes who was excused until 9:00 a.m.

Hong Kong, March 2

Dear Hugo:

While in Manila I had this talk with one of their Senators:

I told him we had one house.

He asked how many men.

I told him we had two women in our house, and they called the leader Mr. Speaker.

Filipino said: "In Manila we also have women in house. They call leader Madam."

I asked him if they had sales tax. He said "No sales tax. Rob families in other ways."

Finally I asked him if sessions last long. The old politician replied. "Our sessions last many moons."

I told him "Nebraska session have only one Moon, but Charley see many session."

I asked him if he had any senators who were great talkers. His reply: "We have one who talk all time, first on one side fence, then on the other side. He is smart fella and who argue with him get caught like in bear trap."

"What is his name?" I ask. The reply: "Don't know real name but he call himself Terry Carpenter of Manila."

11 as provided in this act. Any such city shall have the

23 facilities, notice shall be given, by publication once
24 each week for not less than thirty days, inviting appli-

32 be exercised in the manner set forth in sections 76-701
33 to 76-724, Reissue Revised Statutes of Nebraska, 1943,
34 except as to properties specifically excluded by sec-

36 and as to which sections 19-701 to 19-707, Reissue Re-
37 vised Statutes of Nebraska, 1943, and amendments thereof,
38 are applicable.

2 Sec. 12. The mayor and city council may fix and
3 establish by resolution pursuant to the provisions of
4 this act the boundaries of a proposed district, which
5 boundaries shall include all the land in the district
6 which in the opinion of the mayor and city council will
7 be specially benefited thereby. Notice of the time and
8 place of a hearing before the city council on the crea-
9 tion of such district and of protests and objections to
10 the creation of the district as set forth in the notice
11 shall be given by publication one time each week for not
12 less than three weeks in a daily or weekly newspaper of

6 published, shall file with the city clerk within twenty
7 days of the first publication of the notice written ob-
8 jections to the formation of the district, such districts
9 shall not be formed. If objections are not filed as

14 at the hearing that the public health, welfare, convenience
15 or necessity requires the formation of such an off-street
16 parking district and facilities, then such district shall
17 be formed by ordinance. If the mayor and city council
18 find that the boundaries as set forth in the resolution
19 and notice include land which should not be included then

29 acquisition of property and construction of said off-
30 street parking facility. The total cost and expenses
31 shall include:

33 to be acquired;

34 (2) All costs and expenses in construction of
35 the off-street parking facility;

36 (3) All engineering expense; and

37 (4) The estimated expense of issuing and selling
38 bonds and all other expenses which the city would not
39 have except for the creation of said off-street parking
40 district.”.

3. Amend section 16 of the bill by adding a new sentence after the period in line 29 as follows:

“The special tax shall be a lien upon the property on which levied payable as provided in section 16-646, Reissue Revised Statutes of Nebraska, 1943.”.

4. Amend section 14 of the bill, line 8 by striking “within such district” and inserting “within the district, or by the collection of fees and charges for the use of said facility, or both.”.

5. Amend section 17 of the bill, line 13 by inserting after “bonds” the following: “and the mayor and city council may, in the ordinance place all or any part of the revenue from fees and charges on the use of the parking facility as security for such bonds”.

6. Amend the bill by striking sections 18 and 19 and inserting:

- 26 (6) The petition may consist of any number of
27 separate instruments; and
- 28 (7) When the petition is filed, the city clerk
29 shall check or cause it to be checked. If it is signed
30 by the requisite number of qualified signers, the clerk
31 shall make his certificate to that effect and present
32 the petition and certificate to the mayor and city
33 council.

Sec. 19. When such petition is presented to the
2 mayor and city council it shall be the duty of the mayor
3 and city council to proceed as provided in sections 12
4 and 13 of this act as upon the passage of a resolution
5 for the creation of an off-street parking district. The
6 same procedure for publication of notice and objections
7 to the creation of the district shall apply except that
8 written objections or protest against the creation of
9 the district must be signed by seventy-five per cent of
10 the owners of record title to land in the proposed dis-

RESOLUTIONS

LEGISLATIVE RESOLUTION 19. Re: Federal-Aid Highway Funds

Introduced by J. W. Burbach, 19th District; William R. Skarda, Jr., 7th District; Richard D. Marvel, 33rd District; Eugene T. Mahoney, 5th District and Terry Carpenter, 48th District.

Memorializing the President, the United States Congress and Secretary of the Department of Transportation to Maintain the Federal-Aid Highway Program at its 1966 Levels.

WHEREAS, the Bureau of Public Roads of the Department of Transportation in late November of 1966 advised all states of a cut in their authority to obligate Federal-Aid Highway Funds for fiscal 1967 as well as a retroactive prohibition on obligating any funds not yet obligated from previous apportionments as of June 30, 1966; and

WHEREAS, the recent release of \$175 million of the frozen funds would not benefit Nebraska inasmuch as said funds are slated to go to other states than Nebraska; and

WHEREAS, the State of Nebraska had a \$13,319,584 balance of Federal Funds apportioned to it, but not obligated as of June 30, 1966, and an additional apportionment of \$34,143,170 was made in October 1966, making a total of \$47,462,754, of which only \$25,690,000 is now available for obligation during this fiscal year, a reduction of \$21,772,754 or 45.9%; and

WHEREAS, improvements in Nebraska's highway program would be beneficial to the economic growth and development of Nebraska, and vital to our national defense program, curtailment of less essential programs should be considered; and

WHEREAS, the State of Nebraska has geared its highway planning and steadily increasing construction in reliance on the promises,

announced policies, budgets, statutes and urgings of the Federal government; and

WHEREAS, the Federal-Aid cut will severely curtail this state's efforts to achieve and develop its current program,

BE IT RESOLVED, that the Legislature of the State of Nebraska do respectfully urge that the Congress of the United States do at the earliest possible time devise and approve legislation which will restore all Federal-Aid Highway Funds to the levels in effect and contemplated in November 1966, prior to the cutback.

BE IT FURTHER RESOLVED, that the Secretary of State of the State of Nebraska transmit copies of this resolution to the President of the United States, to the Senators and Representatives from the State of Nebraska, to the Vice President, to the Chairmen of the Committees on Finance and on Commerce of the Senate, to the Speaker and Chairmen of the Ways and Means and Public Works Committees of the House of Representatives and to the Secretary of the Department of Transportation.

LEGISLATIVE JOURNAL—SEVENTY-SEVENTH SESSION

FORTY-FOURTH DAY

Legislative Chamber, Lincoln, Nebraska
Friday, March 3, 1967

Pursuant to adjournment, the Legislature met at 9:00 a.m.,
President Everroad presiding.

Prayer was offered by the Chaplain.

Prayer

Lord, we are ashamed that money and position speak to us more loudly than does the simple compassion of the human heart. Help us to care, as Thou dost care, for the little people who have no lobbyists, for the minority groups who so greatly need justice. May it be the glory of our government that not only the strong are heard, but also the weak; not only the powerful, but the helpless; not only those with influence, but also those who have nothing but a case and an appeal.

May we put our hearts into our work, that our work may get into our hearts. Amen.

The roll was called and all members were present except Mr. Moulton who was excused.

LEGISLATIVE JOURNAL—SEVENTY-SEVENTH SESSION

FORTY-SIXTH DAY

Legislative Chamber, Lincoln, Nebraska
Tuesday, March 7, 1967

Pursuant to adjournment, the Legislature met at 9:00 a.m.,
President Everroad presiding.

Prayer was offered by the Chaplain.

Prayer

Eternal God, who has made us and designed us for companionship with Thee, who has called us to walk with Thee and be not afraid, forgive us if fear, unworthy thought, or sin has prompted us to hide from Thee.

Save us from all sins of intellect, not only from the error and ignorance which belong to our frailty but from the pride that would make us think ourselves sufficient for our tasks.

Forgive us for thinking of prayer as a waste of time, and help us to see that without it our labors are wasted effort.

O God, help us, guide us, and use us for Thy glory and our good.
Amen.

The roll was called and all members were present except Mr. Viehmeyer, who was excused.

The Journal for the Forty-fifth Day was approved.

LEGISLATIVE JOURNAL—SEVENTY-SEVENTH SESSION

FORTY-SEVENTH DAY

Legislative Chamber, Lincoln, Nebraska
Wednesday, March 8, 1967

Pursuant to adjournment, the Legislature met at 9:00 a.m.,
President Everroad presiding.

Prayer was offered by the Chaplain.

Prayer

Lord Jesus, as we pray for the members of this body, its officers, and all those who share in its labors, we remember that Thou wert never in a hurry and never lost Thine inner peace even under pressure greater than we shall ever know.

But we are only human. We grow tired. We feel the strain of meeting deadlines, and we chafe under frustration. We need poise and peace of mind, and only Thou canst supply the deepest needs of tired bodies, jaded spirits, and frayed nerves.

Give to us Thy peace and refresh us in our weariness, that this may be a good day with much done and done well, that we may say with Thy servant Paul: "I can do all things through Christ who gives me strength." Amen.

The roll was called and all members were present except Mr. Proud who was excused.

LEGISLATIVE JOURNAL—SEVENTY-SEVENTH SESSION

FORTY-NINTH DAY

Legislative Chamber, Lincoln, Nebraska

Friday, March 10, 1967

Pursuant to adjournment, the Legislature met at 9:00 a.m., Speaker Adamson presiding.

Prayer was offered by the Chaplain.

Prayer

In this prayer, O God, we come to Thee as children to a loving Father. We pray that Thou wilt help our senators to face the problems that confront them, not alone by giving them wisdom greater than their own, but also by relieving their minds of all other anxieties.

May they now turn over to Thee, loved ones who need the healing touch of the Great Physician, with every confidence that Thou wilt hear our prayer of intercession, and as we do the work that is before us, that Thou wilt do Thy work of healing in those whom we love. May Thy help be so plain and practical in our family affairs that we shall come to believe strongly in the help that Thou dost offer in our State affairs. Deliver thy servants from personal worries, that they may be able to give themselves wholly to the challenge of this hour. In Jesus' name. Amen.

The roll was called and all members were present except Messrs. Batchelder, Pedersen and Skarda, who were excused and Mr. Brauer, who was excused until 10:00 a.m.

FIFTIETH DAY

Legislative Chamber, Lincoln, Nebraska
Monday, March 13, 1967

Pursuant to adjournment, the Legislature met at 9:00 a.m.,
President Everroad presiding.

Prayer was offered by the Chaplain.

Prayer

Stop us, O God, for a minute of prayer.

Stop our anxious minds from wandering, and our hearts from
desiring anything but to know Thy will.

Let us stand at attention before Thee and hear what Thou hast
to say to us. We believe that Thou canst tell us not only what to
do, but also how to do it. If it needs making up our minds, Thou
who didst make our minds can show us how to make them up. If it
needs changing our minds, Thou canst work that miracle, too.
Speak, O Lord, and make us hear. For Jesus' sake. Amen.

The roll was called and all members were present except Mr.
Nore, who was excused.

The Journal for the Forty-ninth Day was approved.

Committee—Escort Governor

The President appointed Miss Reynolds, Mrs. Hughes, Messrs. Syas, Klaver and Ruhnke to escort Governor Tiemann to the Chamber to deliver his Budget Message.

BUDGET MESSAGE OF GOVERNOR NORBERT T. TIEMANN TO THE LEGISLATURE OF NEBRASKA

March 13, 1967

Mr. President, Mr. Speaker, Senators of the Seventy-Seventh Session of the Nebraska State Legislature:

Today I come before you with the largest budget in this State's history. It is a budget which I am prepared to support and defend in these chambers and in townhalls throughout Nebraska. I am also prepared to support and defend the tax legislation necessary for its implementation.

The increases which I have recommended are not arbitrary. They are the product of long hours of effort by state agencies, and even longer hours of critique by members of my budget staff.

For the biennium, agency requests from the general fund total \$286.7 million. I have recommended general fund appropriations of

\$220.6 million, a \$65 million reduction. These budget requests have been closely scrutinized and carefully trimmed. Nevertheless, I am convinced that this is a budget which will move Nebraska in the right direction at the right pace.

A few weeks ago I indicated that my sales-income tax budget would be in the vicinity of \$80 million per year. I am pleased to be able to report to you that this figure can now be revised downward to approximately \$68.8 million. The budget will, of course, necessarily increase if the tax on intangibles, the head tax, and the tax on household goods are repealed. It will likewise increase upon approval of state aid to junior colleges and local school districts. Legislation on each of these subjects is now before you, and is deserving of your support. This legislation will not only eliminate a trio of unfair, unenforceable taxes, but will also provide needed property tax relief at the local level. The enactment of these measures will obviously affect the rate structure of LB 377. Nevertheless, if they are funded at a reasonable level, it may be possible for you to lower the sales tax rate of LB 377 to 2% effective July 1, 1968.

The emphasis of this budget has been carefully and deliberately delineated. Education, industrial development, agricultural research, and mental health are in the forefront. More specifically, the emphasis is as follows:

EDUCATION

University of Nebraska

We are justifiably proud of the athletic accomplishments of Nebraska's Cornhuskers. But is it not equally as important that we be able to continue to also take pride in the University's academic accomplishments? The educational world is as competitive as the business world, and in recent years Nebraska has not kept pace. Tax support for higher education in Kansas has increased 96% during the 1960's. In Colorado it has increased 113%, in Missouri 192% and in Nebraska 44%. Though it takes more than just dollars to build and maintain a quality educational institution, this kind of competitive disadvantage cannot be tolerated any longer. More than 200 faculty members have resigned from the University during the past two years. The majority of these have been associate and assistant professors—the intelligent, dynamic young men and women who should be the foundation of our educational system. These talented people must be retained if Nebraska's graduates are to enter the job market on an equal plane with graduates of other institutions.

The University of Nebraska ranks near the bottom of the Big Eight in salaries for associate and assistant professors. This budget grants significant salary increases to these two ranks. My goal is

to place Nebraska at the Big Eight salary median during the ensuing biennium, and near the top of the Big Eight during the 1969-71 biennium.

The University of Nebraska will have about 1,850 more students next fall than it has today. Another 1,400 will be added in September 1968. The total increase is equivalent to adding three or four private colleges to a state system in one biennium. This is necessarily disquieting to those of us involved in the budget process, and especially to our taxpayers. Much of the budgetary increase at the University of Nebraska can be explained by this factor alone. More students are interested in a University education than ever before, and fewer drop out. This phenomenon has proved to be an enigma for most of us. Our initial reaction is to say "Let's restrict enrollment and reduce taxes." But most of our students cannot afford to attend private schools or the public institutions of other states. This means that enrollment restrictions at our state University will deprive many deserving young people of a chance to ever obtain a college education. In a scientific era, such an alternative is intolerable. Surely we want more for our children than this. If so, we must be willing to sacrifice so that they can become productive members of our society. But they must sacrifice too. Students are the direct beneficiaries of our educational system. As such, they must be willing to bear a reasonable share of its cost. I have, therefore, recommended that resident tuition at the University of Nebraska be increased from \$260 per year to \$355 per year and non-resident tuition from \$786 to \$855 per year. Such action will increase tuition income by \$3.3 million during the next biennium.

At the present time, engineering research in Nebraska is virtually non-existent. Without this capability, we can neither hope to attract industries to this state nor properly service those that are already here. Approximately \$5 million is included in this budget for a new building which will serve as the first stage in the development of an engineering research center. Another \$600 thousand is added as "seed money" in a limited but notable effort to begin to provide engineering knowledge to Nebraska industry. Complementing this emphasis on scientific and industrial development are a \$4 million zoology-physiology laboratory, and a \$1.3 million computer complex. The University of Nebraska has pioneered in the use of computers for legal research. As legislators, your task will soon be made easier and, hopefully, your sessions shorter because of this activity.

Many of our small towns are in drastic need of medical services. To resolve this problem we must be able to, first, educate more doctors and, second, keep them here after they graduate. This bud-

get provides for approximately 35 new staff members at the College of Medicine, thereby making possible a significant increase in enrollment during the next biennium. As a followup, I am hopeful that the College of Medicine and local communities will continue to cooperate in a renewed effort directed at retaining more of these physicians in Nebraska.

I am recommending the funding of a substantial capital improvements program at the College of Medicine. Included are a hospital and clinic, a library, and a mental retardation unit. These structures will cost approximately \$14 million, with over \$10 million being contributed by the federal government. Omaha stands at the threshold of national prominence in the field of medicine. The building program which I have just described, coupled with similar expansion in nearby hospitals, will produce an area medical complex second to none.

During the next decade, the greatest potential for industrial development in Nebraska lies with agriculture. Farming is still the state's largest industry. Each breakthrough in agricultural technology thus adds millions of dollars to Nebraska's income. University of Nebraska agronomists have, for example, recently developed hybrid wheat. When made available for commercial production, this will have a tremendous impact on Nebraska's economy. Agricultural research redounds to the benefit of all of our citizens. For this reason, I am recommending significant increases in the research budgets of the plant and animal sciences. The latter is particularly important since Nebraska is making impressive strides in livestock production.

State Normal Board

Our worrisome enrollment increase at the University of Nebraska is matched by an equivalent at our four state colleges. These institutions will add approximately 1,600 students this fall and another 1,300 in September 1968.

Salaries at state colleges have fallen behind those of similar institutions in other states and our turnover rate is excessive. To curb this trend, I am recommending a two stage increase that is designed to place the average salary of our four colleges at the mean of a group of 43 comparable institutions by 1971.

Faculty members of the state colleges have been teaching an average of 650 credit hours per year. This is too many. In most of our society, size is an indication of efficiency; not so in the classroom. Heavy teaching loads lead to classes so large that rapport between instructor and student becomes impossible. This is the antithesis of academic excellence. I, therefore, recommend that teaching loads be reduced to 635 credit hours per year.

Once again I am asking that students bear their fair share of the increased financial burden. Resident tuition at the four state colleges will, in this budget, be increased from the present \$250 per year to \$320 per year. In essence, I am asking resident students to furnish about 40% of the cost of their education.

Board of Education

We dare not underestimate the importance of vocational training in Nebraska. Demographic trends indicate that our farm population will continue to decline. This should not, however, be cause for alarm. On the contrary, such a potential employment reserve should be a major attraction to industry. A more conscientious, hard-working coterie of people cannot be found anywhere. But these people, and the unemployed in our cities as well, must be trained. Few jobs are available for unskilled and semi-skilled workers. In contrast, we have a waiting list for graduates of our vocational training schools. It is essential, therefore, that programs at Milford and Sidney, along with the university curriculum at Curtis, be expanded. The number of students trained at these state institutions during the next biennium will probably number in the hundreds. This is a fine beginning, but it should be recognized as only a beginning. We must do much more in subsequent years.

Educational Television

Nebraska will soon complete an educational television network consisting of two originating and five satellite stations. For the first time, ETV coverage will almost blanket the state. Educational television is expensive, but a wiser investment could never be made, for this is an investment in the minds of our citizens, and particularly our children. Students from kindergarten to graduate college will benefit. So may those in our generation who can now observe live, unexpurgated versions of legislative debate in these hallowed chambers.

GENERAL GOVERNMENT

Economic Development

Just a few days ago, this Legislature took a major stride forward with the creation of a new Department of Economic Development. In response to your action, I have placed within this Department not only the Division of Resources, its predecessor, but also a new Industrial Research and Information Service. IRIS will have two major functions. First, it will be a contracting agency for industrial research, including Agresearch projects which have heretofore been administered by the Department of Agriculture. I would

hope that the Legislature would see fit to broaden this contractual capability much beyond agriculture. Secondly, IRIS will distribute and publicize the findings of industrially oriented research. This endeavor should benefit businesses throughout Nebraska.

I have also created a Division of Urban Affairs within this Department, with a \$200,000 budget for community development and local planning activities.

In the broader area of attracting industry to our state, I am doubling the Department's promotional budget. Even then, our effort scarcely compares with that of many of our competitors.

Administrative Services

The management potential of this new department is almost unlimited. Its budgetary, accounting, and data processing sections should be saving tax dollars every day of the week. This has not occurred, but it will occur, and soon. The Department should be able to tell the Legislature or the Governor whether the state has a surplus or a deficit of funds. This has not occurred, but it will occur, and soon.

I have begun to man this department with highly qualified, professional personnel. Such action is expensive in the short run, but inexpensive in the long run. Most businesses have learned that it is easy to be penny wise and dollar foolish. I intend to make sure that the state learns this same lesson.

Motor Vehicle Department

The federal Highway Safety Act requires that all states initiate certain safety programs at the earliest possible date. You now have before you several bills designed to bring Nebraska law into compliance with the Act. Among the most significant are proposals relating to driver re-examination and vehicle inspection. Perhaps Nebraska should have had such laws long ago. Highway fatalities can evoke no pride in ourselves, either as citizens or as drivers. Grim statistics on this subject have finally provoked federal legislation. Though safety laws will be costly to administer, we must do so vigorously and unhesitatingly. Incompetent drivers and unsafe vehicles have no place on the highways of Nebraska or any other state.

Safety Patrol

A substantial amount has been added to the budget of the Safety Patrol. This is essential if we are to have effective law enforcement on Nebraska highways. The interstate system now

spans 2/3 of our state; its traffic load continues to climb. By 1971 nearly all of this gigantic highway network will be finished, nationally and in Nebraska. In addition, many more miles of state and local roads will be hard-surfaced. Though these improvements inure to the benefit of all of us who travel, they likewise magnify the problems of law enforcement officials. I have, therefore, recommended that the Safety Patrol be authorized to employ 21 additional troopers, and have included sufficient funds to permit this agency to initiate 24 hour radio service.

Soil and Water Conservation

The small watershed program, a cooperative federal-state endeavor, has led to the construction of hundreds of small reservoirs in Nebraska. Some of these have become tourist attractions, but most have achieved popularity with our own citizens who like to boat, fish, swim, and camp. At the same time, these reservoirs can serve an even more important function in controlling floods. Just last year, Nebraskans suffered \$37,000,000 in flood damages; in 1964, damages reached \$70,000,000. These sums would have built hundreds of flood control structures.

This budget will permit the acceleration of small watershed development in Nebraska. Included are funds not only for the purchase of necessary land at reservoir sites, but also for upstream land treatment practices.

INSTITUTIONS

No part of this budget means more to me than the portion dealing with the Department of Institutions. It is here that the compassion, or lack of it, which you and I feel for our fellow man becomes self-evident. As you know, the Department of Institutions deals primarily with persons who, sometimes through no fault of their own, are not or cannot be accepted by society.

This department has now been separated into two divisions—one for corrections, the other for medical services. Both divisions are headed by professionals. In the Division of Corrections, I expect to use the director's unique capabilities to design and effectuate rehabilitation programs in all our correctional institutions. This is one of the prime functions of these institutions, but one which rarely receives sufficient emphasis. Toward this end, I have increased the correctional budget by nearly \$1,000,000. Most of this sum will be used to establish and improve training programs. For example, the state penitentiary will add programs in automobile mechanics and electricity. Part of these funds will be used to lower the inmate-counselor ratio at the Kearney Boys' Training School from 47:1 to 25:1.

This expanded rehabilitation-training effort should be accompanied by other complementary legislation. First, the State Parole Board should be manned by professionals in penology and auxiliary fields, not elected public officials. I will strongly support legislation to this effect. Second, the directors of our correctional institutions should be given authority to establish work release plans for selected inmates. I will likewise support carefully drafted legislation to this effect. Training programs coupled with a work release plan should substantially increase an inmate's chances for successful adaptation to society. This will not only benefit the inmate and his family, but will ultimately reduce the tax support required for correctional institutions.

Mental Health and Mental Retardation

I expect the director of the division of Medical Services to achieve closer coordination among the state medical institutions than has ever occurred in the past. I also expect him to provide the state with forceful and imaginative professional leadership. The latter has already been forthcoming and is reflected in this budget.

The division's long-range plan in mental health is composed of several stages. In the first stage, state mental hospitals will intensify patient care. This is costly, but necessary, if patients are to be returned to their homes at the earliest possible date. Though such a policy will ultimately permit the treatment of many more patients than is now the case, its short term effect is to increase the budget demands of these institutions.

The second stage involves the establishment of mental health clinics throughout Nebraska. We now have five; others will be needed as the shift in emphasis from in patient to out patient care continues. In the long run, such clinics will save our taxpayers millions of dollars. Had clinics of this type been available in Nebraska over the past 20 years, the patient load in our mental hospitals would be far lower than it is today. Most mental illnesses can be effectively treated on an out patient basis, at a fraction of the cost of hospitalization. In addition, patients would much rather be home with their families than in a hospital bed many miles away.

The third stage involves a reduction in in patient load and hospital staffing. This is the ultimate goal of a sound program in mental health, a goal that Nebraska can reach within a reasonable period of time.

During the next biennium, the Department of Institutions proposes to initiate the first, and to some extent the second, stage of this long-range plan. This will require a budget increase of several million dollars—an expenditure which I believe must be made.

Mental illness is a health problem of such magnitude that it can no longer be ignored. You and I have all known mentally ill persons. We owe them an opportunity to receive effective and dignified treatment at a minimum of personal expense and inconvenience.

The wage scale of ward aides at our state mental institutions is deplorable. These salaries now stand at \$220 per month. I am recommending that they be raised to \$242 during the first year of the ensuing biennium, and \$264 during the following year. Even the latter can scarcely be construed as little more than a subsistence wage.

A major portion of the institutions budget is to be devoted to mental retardation. For a first hand budgetary evaluation, I implore you to visit the Beatrice State Home. May I only say that the need there is unlimited; the self-satisfaction of assistance boundless.

CONCLUSION

The first 60 days of my administration and your legislative session have been hectic, sometimes frustrating, always challenging. The people of Nebraska have thrown down the gauntlet to you and to me. They expect value received for every dollar spent, and they are entitled to that expectation. I will do everything in my power to bring it to fruition.

But the public also expects performance. Nebraskans do not want a "do nothing" legislature or a "do nothing" Governor. They appreciate candor, and courage, and honesty. This is what you and I must offer as we pick up the gauntlet. There are legitimate needs to be met in the State of Nebraska. We have an obligation to meet those needs, irrespective of criticism. There are some who will object to budgetary increases, no matter how justifiable they might be. But to heed their hue and cry would be to abdicate our responsibilities as public servants. I am not willing to warehouse patients at our mental institutions. I am not willing to freeze the pay of ward aides at \$220 per month. I will not accept an economic development program that is only half effective. I will not support a restriction of enrollment at the University of Nebraska and our state colleges. I will not be seduced by talk of stop-gap tax measures and blue ribbon studies of Nebraska's needs. We know the needs of this state. Now let us meet them. I want Nebraska to progress, not retrogress, and I ask for your support in carrying out this task.

Respectfully submitted,

Keep us ready to help others at some cost to ourselves. Send us opportunities to do some good every day and to grow more like Thee. FIFTY-FIFTH DAY

Legislative Chamber, Lincoln, Nebraska
Monday, March 20, 1967

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Everroad presiding.

Prayer was offered by the Chaplain.

Prayer

Lord Jesus, as we seek Thy forgiveness during this Holy Week, wilt Thou forgive us for doing those things that make us uncomfortable and guilty when we pray. We say that we believe in God and yet we doubt God's promises. We say that in God we trust and yet we worry and try to manage our own affairs. We say that we love Thee, O Lord, and yet we do not obey Thee. We believe that Thou hast the answer to all our problems and yet we do not consult Thee. Forgive us, Lord, for our lack of faith and the willful pride which ignores the Way, the Truth and the Life. So wilt Thou now reach down and change the years within us that we may go forward with Thee triumphantly. Amen.

The roll was called and all members were present except Messrs. Adamson, Bloom, Fleming, Nore, Payne, R. Rasmussen and Miss Reynolds, who were excused.

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Everroad presiding.

Prayer was offered by the Chaplain.

Prayer

Loving Father, as we commemorate the events of this Holy Week and meditate upon the Passion of our Lord, we thank Thee for its many reminders to us that Thou art with us always and at all times. When our hearts are laden with loneliness and despair, we know that we have only to turn to Thee who art ever waiting to comfort and sustain us. When it seems that others do not understand us, and even oppose us, help us to find our strength in Thee and in Thy truth. Through the blows and bitter disappointments of life, keep us from wavering doubts and from going around in aimless circles. Keep us by faith steady as a star. In Thee we find the strength to meet life's burdens with a smile, so grant us now Thy peace as we labor this week. Amen.

UNANIMOUS CONSENT—Print in Journal

Mr. Carpenter asked unanimous consent to have the following letter printed in the Journal. No objections. So ordered.

March 21, 1967

Senator Elvin Adamson
Speaker
Nebraska State Legislature
State House
Lincoln, Nebraska

Dear Senator Adamson:

In order to avoid any misunderstanding as to my position relative to the sales tax rate in LB-377, would you please deliver the following remarks to the Legislature.

First, present cash flow projections indicate that a 2½% sales tax rate will be necessary to fund my budget during fiscal year 1967-68. As you know, the sales tax must bear most of the revenue burden during this period. Second, since both the sales and income tax portions of LB-377 will be in effect during fiscal year 1968-69, it may be possible to reduce the sales tax to 2% on July 1, 1968. There is, however, some risk in taking such a step. Future economic conditions are uncertain, and Nebraska has had no previous experience in administering a sales tax. I, therefore, recommend that the 2½% rate be retained for the entire biennium. However, I will ask the Tax Commissioner's office to make cash flow projections on a continuing basis. If there is a substantial surplus on hand in early 1968, and if projections at that time indicate that the sales tax rate could be lowered to 2% at the beginning of fiscal year 1968-69, I will call the Legislature into special session for that purpose.

Respectfully,

(Signed) Norbert T. Tiemann
Governor
State of Nebraska

LEGISLATIVE JOURNAL—SEVENTY-SEVENTH SESSION

FIFTY-SEVENTH DAY

Legislative Chamber, Lincoln, Nebraska
Wednesday, March 22, 1967

Pursuant to adjournment, the Legislature met at 8:00 a.m., President Everroad presiding.

Prayer was offered by the Chaplain.

Prayer

O Lord Jesus, who having loved Thine own, loved them to the end, who art the same yesterday, today and forever, hear our prayers as we contemplate the meaning of this Holy Week. Show us again Thy love, teach us humility, draw us near to Thee and to one another. For Thou who didst break the bread and give Thy body, turn away our eyes from beholding vanity, draw our wandering eyes to Thyself. For Thou who didst give the cup and give Thy life, write the new covenant within our hearts, "a new commandment I give to you that you love one another". Help us to remember this commandment and to live by it. Amen.

The roll was called and all members were present except Messrs. Brauer, Fleming, Nore and Payne, who were excused and Mrs. Orme who was excused until 8:40 a.m.

“(1) A tax is hereby imposed for each taxable year on the entire income of every resident individual of this state and on the income of every nonresident individual of this state which is derived from sources within this state. The tax shall be a flat percentage of, (a) for each resident individual, the taxpayer's adjusted federal income tax liability for the taxable year, and (b) for each nonresident individual, the taxpayer's adjusted federal income tax liability for the taxable year which is attributable to income derived from sources within this state.

The taxpayer's adjusted federal income tax liability shall be the amount of federal income tax for which the taxpayer would have been liable if such taxpayer had paid federal income tax based on federal taxable income as adjusted by the modifications provided in section 16 of this act without any allowance for credits against such tax permitted under the Internal Revenue Code.

The adjusted federal income tax liability of each nonresident individual taxpayer which is attributable to income derived from sources within this state shall be determined by multiplying his adjusted federal income tax liability by a fraction, the numerator of which is his taxable income derived from sources within this state as determined by section 33 of this act, and the denominator of which is his total federal taxable income, after first subtracting from each the amounts provided in subsection (1) of section 16 of this act; *Provided*, that if the above determination attributes more or less federal income tax than is reasonably attributable to income derived from sources within this state, the taxpayer may petition for, or the Tax Commissioner may require, the employment of any other method to attribute an amount of federal income tax which is reasonable and equitable in the circumstances.

The State Board of Equalization and Assessment shall set the rate of tax imposed by this subsection on or before November 15 of each year for the taxable year beginning during the subsequent calendar year. For any taxpayer whose fiscal year does not coincide with the calendar year, the rate initially set shall also apply for the period from January 1, 1968, to the last day of his then current fiscal year. In fixing the rate, the State Board of Equalization and Assessment shall:

(a) First determine the status of all fixed appropriations for the biennium, which appropriations must be

financed from receipts from any in lieu of tax payments, receipts from sales and use taxes, receipts from income and franchise taxes, and unappropriated miscellaneous receipts and fees to the General Fund, from a certified statement of all appropriations made by the most recent session of the Legislature, which statement the Director of Administrative Services shall prepare and furnish prior to the convening of such board;

(b) Take one half of the amount of appropriations determined pursuant to subdivision (a) of this subsection in setting the rate imposed by this subsection;

(c) If the Legislature shall meet during any year, the board shall add to the amount determined pursuant to subdivision (b) of this subsection, the appropriation for the legislative session, all miscellaneous claims, deficiency bills, and all emergency appropriations;

(d) From the total amount of the appropriation determined pursuant to subdivisions (a), (b), and (c) of this subsection, the board shall subtract the estimated receipts from any in lieu of tax payments, the estimated receipts from sales and use taxes, and the estimated unappropriated miscellaneous receipts and fees to the General Fund which will be received during the fiscal year which begins in the calendar year prior to the calendar year in which the rate set pursuant to this subsection becomes effective. The board shall also subtract any unappropriated surpluses in the General Fund, Miscellaneous Cash Fund, and unobligated cash funds; and

(e) Then set the rate of the tax so that the proceeds from the income and franchise taxes imposed by this act shall produce revenue to the State of Nebraska in an amount not less than three nor more than five per cent in excess of the amount remaining after the subtraction required in subdivision (d) of this subsection. If the rate so determined shall be other than a whole per cent, it shall be rounded to the next higher whole per cent.”

At the end of line 14 in standing committee amendment 67 (retyped bill, renumbered section 34, page 59, at the end of line 11) insert “For any taxpayer subject to this section whose fiscal year does not coincide with the calendar year, the rate initially set shall also apply for the period from January 1, 1968, to the last day of his then current fiscal year.”

Legislative Chamber, Lincoln, Nebraska
Tuesday, March 28, 1967

Pursuant to adjournment, the Legislature met at 9:00 a.m.,
President Everroad presiding.

Prayer was offered by the Chaplain.

Prayer

Grant us, Lord, the spirit to think and do such things as are right, that we who cannot do anything that is good without Thee, may by Thee be enabled to live according to Thy will. We thank Thee that in work and play, in joy and sorrow, Thou art the friend and companion of each of us. When we do wrong and grieve Thee, Thou art ready to forgive; when we do right Thou art glad. May no hatred or envy dwell in our hearts, but keep our hands from selfish deeds and our lips from unkind words. Teach us to bring cheer to any who suffer and to share freely with those who are in need. So may we help Thee, our Father, to bring peace, goodwill, and justice to others. Amen.

Senators of the Seventy-Seventh Session:

This is to inform your honorable body that on March 29, 1967 I approved LB 510. I will not approve the election of coverage by any department head pursuant to LB 510, however, until further notice. I am not opposed to the concept of unemployment insurance for state employees but I feel that implementation of such a system is premature at the present time for the following reasons:

1. LB 815, a bill currently in committee, will establish a state personnel system and will establish an objective examination system for determining the qualifications of applicants for positions in state Government. When the goals of that personnel system have been achieved, the state will be assured that only qualified employees will be hired.
2. I have recently formed a committee of private individuals which will sponsor a management study of the operations of some agencies of state government. Following a review of the results of this pilot study, I anticipate expanding the study to cover all aspects of state government. The implementation of the recommendations made by this study will raise the employment and operational efficiency of state government to a level considerably above that at which it now stands.

After the personnel system has been implemented and the recom-

mendations of the management study have become a part of the administration of state government, I will support implementation of LB 510.

Respectfully submitted,

(Signed) Norbert T. Tiemann

Prayer was offered by the Chaplain.

Prayer

Dear God, this morning we commit ourselves to Thee so that through that commitment we might be saved from the things which slowly destroy our innermost selves, from the petty peevishness which turns adulthood into childishness, from the fear of being ourselves; from making mountains out of mole hills; from anxiety about tomorrow which makes us sick today; from the walls which the mind builds between us and other people; from centering so much concern upon ourselves that we miss the joy of serving others. So help us to stand up and be counted for Thee this day, in the spirit of Christ. Amen.

The roll was called and all members were present except Messrs. Danner and Nore, who were excused.

RESOLUTIONS

LEGISLATIVE RESOLUTION 24. Re: Taxation of Corporations

Introduced by Terry Carpenter, 48th District.

WHEREAS, in 1964 Aksarben and other similar corporations were exempt from taxation as provided by the provisions of sections 77-202.01 to 77-202.07, Reissue Revised Statutes of Nebraska, 1943; and

WHEREAS, section 77-202.07, Reissue Revised Statutes of Nebraska, 1943, provides that the appeal from an order of the Tax Commissioner is restricted to the applicant for the exemption or the county in which the taxpayer resides; and

WHEREAS, all exemptions expire in 1968 unless an application is filed prior to January 1, 1968 and the exemption is again approved.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN SEVENTY-SEVENTH SESSION ASSEMBLED:

That the Tax Commissioner review the status of Aksarben and similar corporations prior to January 1, 1968, as to whether exemption from taxation shall be granted to such corporations if application is made by such taxpayers prior to January 1, 1968 as provided by law.

LEGISLATIVE RESOLUTION 25. Re: Adoption of H. R. 2885

Introduced by Arnold Ruhnke, 31st District; Elmer Wallwey, 17th District; Calista Cooper Hughes, 1st District; Albert A. Kjar, 39th District; Rudolf C. Kokes, 41st District; C. W. Holmquist, 16th District and Bill K. Bloom, 20th District.

WHEREAS, the Legislature of the State of Nebraska recognizes the danger to the motoring public at night of unlighted caboose cars, freight cars, passenger cars or any other type of railway cars at railroad crossings; and

WHEREAS, Legislative Bill 786 relating to the illumination of railroad cars was introduced at the Seventy-seventh Session, Nebraska State Legislature, 1967; and

WHEREAS, the constitutionality of Legislative Bill 786, Seventy-seventh Session, Nebraska State Legislature, 1967, if passed, would be questionable as to whether or not it creates an undue burden on interstate commerce in violation of the Commerce Clause of the Constitution of the United States; and

WHEREAS, H. R. 2885 relating to the illumination of railroad cars has been introduced in the 1st Session of the 90th Congress of the United States of America.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN SEVENTY-SEVENTH SESSION ASSEMBLED:

1. That the Nebraska State Legislature urges that H. R. 2885 relating to the illumination of railroad cars be adopted by the 90th Congress of the United States of America.

2. That copies of this resolution be promptly transmitted to the President and Vice President of the United States, Speaker of the House of Representatives of the United States, and to the members of Congress from Nebraska.

LEGISLATIVE RESOLUTION 26. Re: Study of Marketing of Meat by Chain Stores

Introduced by William M. Wylie, 40th District; Jerome Warner, 25th District; John E. Knight, 26th District; Terry Carpenter, 48th District; J. W. Burbach, 19th District; Richard L. Ely, 37th District; Eric Rasmussen, 32nd District; Rudolf C. Kokes, 41st District; Leslie Robinson, 36th District and Arnold Ruhnke, 31st District.

WHEREAS, while prices paid to ranchers for livestock have declined, retail prices charged for meat have increased; and

WHEREAS, the United States Department of Agriculture Market News Summary of January 17, 1967, shows that the spread between wholesale and retail prices on beef has gone from \$18.50 per one hundred pound carcass weight on November 6, 1965, to \$20.42 on November 12, 1966; on lamb from \$20.68 to \$26.98; and on pork from \$15.72 to \$20.59; and

WHEREAS, one independent survey indicates chain stores are now realizing gross profits in excess of \$31.00 per hundred weight or more than \$180.00 per 600 pound carcass; and

WHEREAS, studies made in independent surveys conducted by men of experience in the production, finishing, processing, distribution, and marketing of beef suggest that chain stores may be making excessive profits from the sale of meats at retail while others in the meat business, including ranchers, farmers, feeders and packers, are suffering from depressed prices for their production in the face of increased costs of doing business; and

WHEREAS, the number of independent retail outlets for meat has decreased drastically, so that chain stores are now marketing in excess of eighty per cent of the meat sold at retail level; and

WHEREAS, prices charged by chain stores for meat are substantially the same in all such chain stores; and

WHEREAS, the similarity of pricing and substantial monopoly of the retail sale of meat seems to result in excessive profits to chain food stores in the sale of meats at retail;

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN SEVENTY-SEVENTH SESSION ASSEMBLED:

1. That the Attorney General of the United States is hereby requested to conduct a study of the marketing of meat by chain food stores to determine whether or not there is collusion among the chain food stores in fixing prices, in establishing excessive markups in the retail prices of meat, in establishing a monopoly in the retail sale of meat, and of other practices which restrain trade in violation of the Sherman Anti-Trust Act.

2. That copies of this resolution be forwarded to the Attorney General of the United States, to the President of the United States Senate and Speaker of the United States House of Representatives, and to each of the Senators and members of the House of Representatives from Nebraska in Congress.

RESOLUTIONS

LEGISLATIVE RESOLUTION 25.

LR 25 was adopted with 28 ayes, 0 nays and 21 not voting.

LEGISLATIVE RESOLUTION 26.

Laid over until April 6, 1967 at the request of Mr. Wylie.

LEGISLATIVE RESOLUTION 27. Re: Apportionment of State Legislatures

Introduced by Terry Carpenter, 48th District and George Syas, 13th District.

WHEREAS, the Seventy-fifth Session of the Nebraska Legislature, 1965, adopted Legislative Resolution 14, which petitioned Congress to call a convention for the purpose of proposing an amendment to the United States Constitution providing that no provision of said Constitution shall restrict or limit any state in the apportionment of representation in its legislatures; and

WHEREAS, it is now contended that thirty-two of the thirty-four states required have so petitioned Congress, which number includes the action of the Seventy-fifth Session of the Nebraska Legislature, 1965; and

WHEREAS, the same Seventy-fifth Session of the Nebraska Legislature, 1965, enacted Legislative Bill 925, which apportioned the Legislature strictly on the basis of population, as decreed in decisions of the United States Supreme Court; and

WHEREAS, this plan of apportionment was subsequently approved by the United States District Court; and

WHEREAS, the rank and file of the citizens of Nebraska have accepted this new apportionment and have not indicated serious disagreement with it; and

WHEREAS, it has also been true throughout the other states in the Union that opposition to the apportionment of state legislatures solely on the basis of population has not come from the general ranks of the citizenry, but rather from parochial and minority groups.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN SEVENTY-SEVENTH SESSION ASSEMBLED:

1. That the view expressed in Legislative Resolution 14 adopted by the Seventy-fifth Session of the Nebraska Legislature, 1965, represents only the view of that Legislature, and does not represent the view of the present seventy-seventh Session of the Nebraska Legislature, 1967.

2. That this Seventy-seventh Session of the Nebraska Legislature, 1967, go on record as favoring the apportionment of state legislatures on the basis of population, based on the equal protection of the laws clause of the Fourteenth Amendment.

3. That copies of this Resolution be transmitted to the Speaker of the United States House of Representatives, the President of the United States Senate, the Secretary of State, and members

of the Nebraska delegation in the House of Representatives and the Senate.

SIXTY-THIRD DAY

Legislative Chamber, Lincoln, Nebraska

Tuesday, April 4, 1967

Pursuant to adjournment, the Legislature met at 9:00 a.m., Speaker Adamson presiding.

Prayer was offered by the Chaplain.

Prayer

Gracious God, in consuming efforts and in the press of our activities we often lose sight of Thee. So we turn to Thee at the beginning of day in this moment of silence because we forget Thee where we should have remembered Thee, because we shall need Thee again in the same places. So wilt Thou bless us with a new consciousness of Thy presence through which we may be aided in living a life of faith and goodness before Thee in the midst of our family, our friends, our colleagues, our people and our Lord. Amen.

The roll was called and all members were present except Messrs. Brauer, Budd, Danner, Ely, Mahoney, Nore, Robinson, Skarda and Swanson, who were excused and Mr. Moylan, who was excused until 11:00 a.m.

LEGISLATIVE JOURNAL—SEVENTY-SEVENTH SESSION

SIXTY-FOURTH DAY

Legislative Chamber, Lincoln, Nebraska
Wednesday, April 5, 1967

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Everroad presiding.

Prayer was offered by the Chaplain.

Prayer

Our Father, in this life where serving as a representative of the people requires so much of a human being, we ask for basic things: for the capacity to read between the lines, for the ability to hear the overtones of truth midst all the noise of falsehood, for the power to see through sham, for the determination to see it through when confronted by obstacles, for the grasp of feeling which binds us to people in need, for the metal of character which gives stability in every storm, and for the courage of our convictions which shall enable us to maintain and further some of those high ideals which first led us to believe we might serve the common good of all; in the name of Christ. Amen.

The roll was called and all members were present except Messrs. Brauer, Budd, Danner, Ely, Mahoney, Nore, Robinson, Skarda and Swanson, who were excused; Miss Reynolds who was excused at 9:30 a.m. for the remainder of the day; Mr. Bloom who was excused until 9:40 a.m., and Mr. Carstens who was excused until 10:30 a.m.

RESOLUTIONS

LEGISLATIVE RESOLUTION 29. Re: Equal Employment Opportunity Commission Rules

Introduced by Donald Elrod, 35th District.

WHEREAS, Section 48-1117, Revised Statutes Supplement 1965 requires that any rules made by the Equal Employment Opportunity Commission as to the issuance of subpoenas shall be approved by a constitutional majority of the elected members of the Nebraska State Legislature; and

WHEREAS, a copy of said rules to be approved are attached hereto.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN SEVENTY-SEVENTH SESSION ASSEMBLED:

That the Legislature approves Article V of the proposed rules to be promulgated by the Equal Employment Opportunity Commission as attached hereto.

ARTICLE V

Subpoenas; Depositions;

Oaths and Affirmations

Section 5.1. SUBPOENAS.

(1) **ISSUANCE OF SUBPOENA.** Upon written application served on the Chairman of the Commission, either personally or by registered or certified mail, the Chairman of the Commission shall issue a subpoena, on a form prescribed by the Commission, at the instance of the Commission, or the Commissioner or Hearing Examiner conducting a public hearing, or at the instance of any party to the proceedings, whenever necessary to compel the attendance of a witness or to require the production for examination of any books, payrolls, records, correspondence, documents, papers or other evidence in any investigation of an unfair employment practice charge or in any hearing before the Commission, or a member thereof, or a Hearing Examiner. Blank copies of the subpoena form may be obtained at the office of the Commission.

(2) **PETITION TO REVOKE SUBPOENA.**

(a) Within five (5) days (excluding Saturdays, Sundays and official State holidays) after the service of a subpoena on any person, including the Chairman or any Commissioner, requiring the attendance of said person as a witness at an investigation or hearing, or requiring the production of any evidence in his possession or under his control, such person may petition the Commission in writing, personally or by registered or certified mail, to revoke the subpoena. The Commission shall revoke such subpoena if, in its opinion, the attendance of the person subpoenaed or the evidence, the production of which is required does not relate to any matter under investigation or to any matter in question in such proceedings before the Commission, a Commissioner or a Hearing Examiner, or, if in its opinion, such subpoena does not describe with sufficient particularity the reasons requiring the attendance of a person as a witness, or the evidence, the production of which is required. If the Chairman or any Commissioner has been served with a subpoena and petitions the Commission to revoke such subpoena, then the Chairman or Commissioner so served shall not participate in the decision of the Commission with respect to such petition.

(b) If a petition to revoke a subpoena is properly served, the person on whom the subpoena has been served shall not be required to respond to such subpoena until the Commission has acted upon the petition.

(3) **ENFORCEMENT OF SUBPOENA.** In the event of failure or refusal of a person to obey a subpoena issued and served on him in accordance with the Act and these Rules and Regulations, the Commission, upon written request of the party who applied for such subpoena, shall proceed forthwith, in accordance with Section 48-1120, R. S. Supp., 1965, to petition a District Court having jurisdiction of the matter for an order requiring compliance with the subpoena; provided, however, that the Commission shall at least five (5) days before petitioning the Court, serve notice, personally or by registered or certified mail, upon the person who has failed or refused to obey the subpoena, stating the time when and the place where the petition is to be presented.

Section 5.2. WITNESS AND MILEAGE FEES.

Where a subpoena is applied for and issued at the instance of a party to the proceedings other than the Commission, then the cost of service and witness and mileage fee shall be borne by the party at whose instance it has been requested and issued. Where a subpoena is applied for and issued at the instance of the Commission, a member thereof or a Hearing Examiner, in pursuance of an investigation or the presentation of evidence relating to a pending complaint then the cost of such service and witness and mileage fees shall be borne by the Commission. Such witness and mileage fees shall be the same as are paid witnesses in the District Courts of the State of Nebraska.

Section 5.3. **DEPOSITIONS.** The testimony or deposition of any witness who resides outside the State of Nebraska, or who because of illness or any other reason is unable to testify in an investigation or in a hearing or the taking of evidence before the Commission or a Commissioner or a Hearing Examiner may be taken within or without the State of Nebraska in the same manner as provided for in civil cases under the applicable law or laws of the State of Nebraska, as now in effect or hereafter amended. The transcript of any such testimony or deposition, when duly authenticated and filed with the Commission in any investigation or review proceeding or trial de novo or with the Commissioner or Hearing Examiner conducting a public hearing, or with the Commissioner taking additional evidence, shall constitute a part of the official record of the case.

Section 5.4. **OATHS AND AFFIRMATIONS.** Any Commissioner or Hearing Examiner conducting a public hearing, and any Commissioner participating in a trial de novo or a review hearing or the taking of any testimony, may administer oaths or affirmations.

LEGISLATIVE JOURNAL—SEVENTY-SEVENTH SESSION

SIXTY-SIXTH DAY

Legislative Chamber, Lincoln, Nebraska

Friday, April 7, 1967

Pursuant to adjournment, the Legislature met at 9:00 a.m., Speaker Adamson presiding.

Prayer was offered by the Chaplain.

Prayer

Good God, words spill from our lips so casually on so many occasions, but when we appear before Thee silence seems much more comforting. It relieves us of the necessity of confession—until we know that even our silence speaks, speaks more thoroughly than all our words put together. What is it that disturbs us so much when we come into Thy presence? The fact that we so often compromise not mere principles but ourselves; the fact that what we've destroyed is not the idea of another or anything made by man but that within us which we call Thy own image. What we are really sorry for is not in anything specific we have done, but for what we have let ourselves become. So we ask Thee to keep our eyes open to wisdom and truth. Keep us mindful of who we are in Thy sight. And now we thank Thee for that gaiety of the soul which belongs to us through Christ who opened to us not only the mysteries of love but the joy of living in this wonderful world. Amen.

The roll was called and all members were present except Messrs. Batchelder, Gerdes, Mahoney, Nore, Pedersen and R. Rasmussen, who were excused.
