

FIRST DAY—JANUARY 2, 1973

LEGISLATIVE JOURNAL

EIGHTY-THIRD LEGISLATURE
FIRST SESSION

FIRST DAY

Legislative Chamber, Lincoln, Nebraska
Tuesday, January 2, 1973

Pursuant to the provisions of Section 10, Article III of the Constitution of Nebraska, the Eighty-Third Legislature, First Session of the Legislature of Nebraska assembled in Legislative Hall of the Capitol Building at the hour of 12:00 o'clock (noon) on Tuesday, January 2, 1973, and was called to order by Speaker Hasebroock.

PRAYER

Prayer was given by Pastor Robert MacLennan.

Father, as we enter into this new year we are reminded that there is always a new beginning in life--we can begin again in our efforts to discover ways to make our homes, our cities and towns, and our state into a more humane place.

We ask that you would give to each one of us the courage to make the kinds of decisions which are important to the health and welfare of all peoples in this place.

In all of the issues give to us the ability to risk even our careers if it means that we have to make decisions which are right and creative. Make us into men who act out of our sense of justice, rather than out of expedience.

We pray to you, father, because we need the insights and the visions which you want to give to us--as we deal with the affairs of men, your primary concern. Amen.

FIRST SESSION****SECOND DAY**

Legislative Chamber, Lincoln, Nebraska
Wednesday, January 3, 1973

Pursuant to adjournment, the Legislature met at 10 a.m., Speaker Proud presiding.

PRAYER

Prayer was offered by the Rev. E. L. Jeambey, Associate Pastor, Westminster Presbyterian Church.

Eternal God—Our Heavenly Father:

May we be stimulated and motivated by that power which is far above our own this day and during this New Year.

We need wisdom, and as thou hast promised: "If any man lack wisdom let him ask of God, who giveth to all men liberally." (James 1:5)

Help us to understand that knowledge is not enough, and that the right application of knowledge—which is wisdom—is necessary.

Give us discerning minds, opened hearts, quickened spirits, and may we ever be commended for our fidelity to our leadership task.

Preserve us for friendly service to all mankind, and deliver us from the pitfalls that have caused godless nations to go into oblivion. Amen.

ROLL CALL

The roll was called and all members were present except Mr. F. Carstens who was excused for a short time.

LETTERS FROM ATTORNEY GENERAL

December 28, 1972

Mr. Vincent D. Brown
Clerk of the Legislature
Legislative Council
State Capitol
Lincoln, Nebraska 68509

Dear Mr. Brown:

This is in reply to your letter of December 7 in which you point out that the Legislative Council on December 5 passed a motion asking that in the future that whenever we prepare an opinion for an individual senator that a copy of it be provided to the Clerk for publication in the daily journal. We will do everything possible to comply with their request.

As the members know, we have in the past given legal advice to individual senators in an effort to be helpful. I regret that our efforts in this regard have caused some dissatisfaction and that it has been found necessary to lay down rules governing our future relationships. Much of the work of a lawyer involves giving of confidential advice for the guidance of individuals in conducting their affairs, and this office has been extremely careful in respecting the confidences which have been entrusted to us. We would soon lose all of our clients if this were not so. We have assumed that the public officers who are our clients and the recipients of our advice, will reveal that advice when it is in the public interest that this be done.

In studying the motion, and in reading the debates which preceded its adoption, there are a number of areas where questions remain, and so I will need the help of the Legislature in developing a future policy which will be satisfactory to all concerned. My past experience indicates that individual senators, and especially committee members, frequently are attempting to work out solutions or compromises in sensitive areas, and ask for our advice regarding approaches they could constitutionally use to effect a solution. If they cannot receive legal advice on this in confidence I doubt that they will come to us.

There are a number of other situations and gray areas, but be that as it may, we will operate under the motion. Copies of replies to formal requests for legal advice from individual senators will be filed with the Clerk of the Legislature at the time the answer is forwarded to the individual senator. Requests received other than by a formal, signed letter will only be answered orally, even though it may involve a complex legal matter on which we have found it necessary to prepare a memorandum.

SECOND DAY—JANUARY 3, 1973

37

For the benefit of new members, it may be well to call attention to certain policies which we have always followed. Unless requested by the entire legislature, we will not give an opinion as to the effect of a proposed constitutional amendment after the Legislature has taken final action to place it on the ballot. This policy was developed many years ago, apparently after a situation where an opinion of the Attorney General was used in an attempt to influence the vote on a proposed constitutional amendment. Also, we will not give an opinion to an individual senator on the constitutionality of or interpretation of a bill which has already become law. If there is a question as to its interpretation, we will be glad to work with the senator and the bill drafter in developing clarifying legislation.

Very truly yours,

(Signed) Clarence A. H. Meyer
Attorney General

FIRST SESSION****THIRD DAY**

Legislative Chamber, Lincoln, Nebraska
Thursday, January 4, 1973

Pursuant to adjournment, the Legislature met at 10:00 a.m., Speaker Proud presiding.

PRAYER

Prayer was offered by the Chaplain.

O Lord our God, if ever we needed Thy wisdom and Thy guidance, it is now—as our Legislature begins a new session, standing upon the threshold of a new year, fraught with so many dangerous opportunities.

Some old faces are gone from this chamber—and we remember them; other new faces have come—and we welcome them; many familiar faces have returned—and we are gladdened by them.

We are grateful that somehow our beloved State continues to go on with vitality, vigor and energized faith, and we pray that in this new year we together may move on to loftier heights and nobler achievements, for the good of the people in an invigorating climate of freedom, frankness, fortitude, and faithfulness—to what we believe, to one another, and to Thee. Amen.

RESOLUTIONS

LEGISLATIVE RESOLUTION 2.

Introduced by Orval Keyes, 3rd District.

WHEREAS, the United States Department of Agriculture has caused:

1. Stopping the funding for soil conservation practices through elimination of the Rural Environmental Assistance Program (REAP); and
2. The calling in of grain without resale privileges by the Commodity Credit Corporation to keep the price down and that forcing grain on the market does not lower the price of food to the consumer but only forces the price of grains to decline making it possible for the Communist countries of the world to live cheaper at the expense of the American farmer; and
3. The shutting off of the money available for loans for grain storage facilities;
4. Increasing and removing privileges of the quotas of meat import into the United States; and
5. Discontinuing emergency disaster loans by the Farmers Home Administration; and
6. Changing the loan program for Rural Electrification whereby rural areas will be faced with higher interest charges for electricity.

NOW THEREFORE BE IT RESOLVED by the members of the 83rd Legislature of Nebraska, First Session:

1. That the Legislature of the State of Nebraska wishes to go on record as opposing the aforementioned actions of the United States Department of Agriculture and to encourage the Congress of the United States to re-evaluate its programs in the interest of rural America;
2. That a copy of this resolution be sent to the President of the United States, the Secretary of Agriculture of the United States and to members of the Nebraska delegation in Congress.

RESOLUTIONS

LEGISLATIVE RESOLUTION 3.

Introduced by Maurice A. Kremer, 34th District.

WHEREAS, the National Water Commission, established in 1968 by the 90th Congress by the passage of P.L. 90-515, has recently distributed a draft report for review by the States and other natural resources interests pursuant to its assigned responsibilities of submitting a final report to the President and to Congress; and

WHEREAS, the National Water Commission has undoubtedly devoted much time and energy to the preparation of such a report; and

WHEREAS, the draft report contains much material and numerous recommendations, some of which seem improperly conclusive or unfounded in fact, such as the prediction of greatly reduced national needs for irrigated acreage by the year 2000, which was apparently based upon theoretical economic assumptions, or the recommendation that all costs of future federal irrigation projects should be recovered from the irrigators, without any recognition that irrigators are not the only class benefitting from irrigation projects; and

WHEREAS, the State of Nebraska has a great interest in the future development and protection of its natural resources and the final report of the National Water Commission may have extensive impact upon that future;

NOW THEREFORE BE IT RESOLVED by the members of the Eighty-Third Legislature of Nebraska, First Session, that the Legislature commends the National Water Commission for its time and energy devoted to the preparation of such an extensive report, but cautions the Commission to carefully reconsider their work, being certain that each statement is proper and leads to a valid conclusion based upon fact so that the Commission's ultimate recommendations are the best possible, and the Commission's final report may become a foundation for proper natural resources development and protection nationally;

BE IT FURTHER RESOLVED that copies of this resolution be sent to the President of the United States, the National Water Commission, and the Nebraska Congressional Delegation.

LEGISLATIVE RESOLUTION 4.

Introduced by Richard Maresh, 32nd District.

WHEREAS, on December 22, 1972, the Secretary of Agriculture advised all Agricultural Conservation and Stabilization Service State offices in the nation that the Rural Environmental Assistance Program would be terminated immediately; and

WHEREAS, the Nebraska Legislature has long recognized the impact of land and water conservation practices; and

WHEREAS, the Rural Environmental Assistance Program, through cost-sharing, has well illustrated the importance of governmental assistance for conservation of the soil and water resources on the farms and ranches of this nation, because the economic returns from such practices accrue more generally to the community than to the landowner; and

WHEREAS, the environmental usefulness of the program has been capably demonstrated by cost-sharing on practices that provide both water for fish and cover for wildlife and enhancement of recreation, and the value has further increased through recently instituted cost-sharing on feedlot pollution control; and

WHEREAS, the economic situation of rural America was well recognized during congressional hearings on the Rural Development Act of 1972; and

WHEREAS, Congress passed the Rural Development Act; and

WHEREAS, the recent announcement by the administration of the discontinuance of the Rural Environmental Assistance Program appears in direct violation of congressional desires on rural development;

NOW THEREFORE BE IT RESOLVED by members of the Eighty-Third Legislature of Nebraska, First Session assembled, that:

1. The Rural Environmental Assistance Program be reinstated immediately;

2. Funds for the program be continued on a realistic basis to provide for the continued federal cost-sharing for the application of conservation and water quality improvement practices; and

3. Copies of this resolution be sent to the President of the United States, the Secretary of Agriculture, and the members of the Nebraska congressional delegation as a means of transmitting to these distinguished gentlemen the very high priority that the members of the Nebraska Legislature establishes for the Rural Environmental Assistance Program in our State.

Monday, January 8, 1973

Pursuant to adjournment, the Legislature met at 10:00 a.m., President Marsh presiding.

PRAYER

Prayer was offered by the Chaplain.

Our Father, before we become involved in the routine of another day, we stop to seek Thy help. Experienced in the ways of men so well, we know all too little of the ways of God. But Thou knowest each one of us, by name and by need. Therefore turn our wayward minds and hearts to Thee. Forgive our faults and failures that we have committed in the past and set us free from them. Forgive our failure to apply to ourselves the standards of conduct we demand of others. Forgive our slowness to see the good in others or to see the evil in ourselves. In our differences may we be kind; in our agreements may we be humble, that Thy will may be done in us and through us in our beloved state. For Jesus' sake. Amen.

LETTER FROM NEBRASKA EDUCATIONAL
TELEVISION COMMISSION

January 4, 1973

Mr. George C. Gerdes
Executive Director
Legislative Council
State Capitol
Lincoln, Nebraska 68509

Dear Mr. Gerdes:

Pursuant to the action of the Legislature on December 5, 1972, wherein a motion by Senator Carpenter was adopted, the Nebraska Educational Television Commission submits this proposal for implementation of that action.

As contained in the attached letter (see Appendix A) of December 6, 1972, from Mr. Vincent D. Brown, Clerk of the Legislature, the motion was as follows:

"I move that the Educational Television Network be directed to televise and record all proceedings of the legislature in session; that at least thirty minutes of said proceedings be broadcast each day the legislature is in session; that the Educational Television Commission make available its legislative television programs to commercial television stations to permit said commercial television stations to obtain sponsorship for the same for viewing during prime time; that the Educational Television Network be directed to televise those public hearings held before legislative committees which they deem to be of importance to the public; that audio tapes of said legislative television programs be made available to all radio stations within the State of Nebraska."

Also as contained in Mr. Brown's letter was: "Another portion of the motion as an amendment offered by Senator Burbach and adopted by the Legislature provided that adequate lighting must be provided so as to reduce the intense glare of the lights."

To implement these actions certain basic assumptions must be made by the Nebraska Educational Television Commission:

1. The programs should be recorded in color. With virtually all television stations in Nebraska producing programs in color, to record the programs in monochrome would lessen the probability of their use. The capital equipment and annual operating dollar figures requested herein reflect the assumption that the programs will be recorded in color.

2. The second assumption is that some action will be taken by the Legislature to provide for permanent lighting necessary to produce programs in color. The amendment by Senator Burbach reflects this need. The Nebraska Educational Television Commission is aware of plans and

specifications drawn by Imero Fiorentino and Associates to provide for the lighting level necessary for color recording and at the same time diffusing the light to reduce the glare.

3. It is assumed by the Nebraska Educational Television Commission that all post-production distribution expenses will be borne by the using commercial television stations. The cost of making the duplicate copies of each program would be provided by the Commission, but the videotape stock, shipping charges, and other miscellaneous out-of-pocket costs would be paid by the using stations.

4. Any programs recorded would be available to Nebraska commercial radio and television stations. Since its inception in 1954 Nebraska ETV has made available all locally funded and produced programs to Nebraska commercial stations.

THE PROPOSAL—To provide the daily, continuous coverage of Legislative debate and committee hearings held in the Legislative Chamber, the Nebraska Educational Television Commission proposes to install a permanent color camera system in the Legislative Chamber. The pictures from these cameras and the sound from the existing public address system would be fed into a control room located in the Capitol Building where a director would select the appropriate camera to be fed into an audio and video cable to the Nebraska Educational Telecommunications Center at 1800 North 33rd Street. Two video recorders would be used to provide continuous recording of Legislative proceedings. During the Legislative day an assistant director would be taking notes to facilitate the later selection of scenes to be used in the editing of the daily program. Following adjournment, the program producer, working with the recording engineer would assemble a complete program to be aired on the network later that night.

Following the completion of the program editing, multiple copies of the program would be made for distribution to the Nebraska commercial television and radio stations. If the commercial stations preferred, each station could make a simultaneous off-air recording in their own stations at the time of broadcast on the Nebraska ETV Network.

To provide the daily thirty minute Legislative program, edited from recordings of the total proceedings of the Legislature, the following equipment and personnel would be required:

ALTERNATIVE PROPOSAL NO. 1

The Nebraska Educational Television Commission has \$160,000 contained in its budget request for 1973-74 to be used for local matching

funds in a proposed application to the Department of Health, Education and Welfare for the acquisition of a color mobile unit. Current HEW regulations allow up to a maximum of 75% federal funding of the broadcast television equipment contained in such units. The total cost of this unit is estimated to be approximately \$640,000.

If this application were funded by HEW the same level of service as contained in the basic proposal could be provided with the following additional equipment and personnel:

	<u>ITEM</u>	<u>USE</u>	<u>COST</u>	<u>AVAILABILITY</u>
A.	<u>CAPITAL EQUIPMENT</u>			
1.	Mobile unit	To provide coverage of Legislature and other Nebraska Programming	\$160,000 (see above)	Jan. 1, 1974

ALTERNATIVE PROPOSAL NO. 2

This alternative proposal would allow for increasing the current coverage of the Legislature from the present two days per week and the resultant sixty minute program to three days per week and two sixty minute programs.

With the acquisition of the color mobile unit as outlined in Alternative Proposal No. 1, the Nebraska Educational Television Commission would propose to devote two days per week in coverage of Legislative debate and one day per week in coverage of committee hearings. This coverage would then be edited into one sixty minute program of Legislative debate and one sixty minute program on committee hearings. This proposal would increase our Legislative coverage by 100%.

As contained in the basic proposal, copies of these programs would be made available to the Nebraska commercial stations.

To provide this coverage the following equipment and personnel would be required in addition to present personnel and equipment:

ITEM	USE	COST	AVAILABILITY
A. CAPITAL EQUIPMENT			
1. Mobile Unit	To provide coverage of Legislature and other Nebraska programming	\$160,000	Jan. 1, 1974 (if HEW responds prior to 9/1/73)
TOTAL CAPITAL EQUIPMENT		\$160,000	
B. ANNUAL OPERATING COSTS			
1. Salaries	Personnel: 1 Producer/Director 1 Assistant Director Employee Benefits	10,000 5,500 1,837	Dec. 1, 1973
TOTAL		\$17,337	
2. Tape Stock	To record program mat. 10 one hour @ \$170 20 audio tapes @ \$3	1,700 60	Jan. 1, 1974
TOTAL ADDITIONAL ANNUAL OPERATING COSTS		\$19,097	

From time to time various senators have requested facilities for the preparation of audio and film recordings to be sent to their local radio and television stations. The following two recommendations are submitted by the Nebraska Educational Television Commission in response to those requests.

RECOMMENDATION 1

Establishment of a Permanent Audio Recording Room

It is proposed that a room be made available for use as a permanent audio recording room under the maintenance and direction of the Nebraska ETV Commission.

Any room conveniently located near the Legislative Chamber and containing approximately 250 square feet is of an appropriate size to handle audio recording. Professional audio recording equipment would be permanently located in this room and a professional communications specialist would be available for an 8 hour period each day to operate the equipment, to interview or question senators on tape, and to counsel them in the best use of the radio medium. Senators would at their convenience come to the room and record on audio tape short statements, interview, comments. The audio reels would then be placed in shipping cartons by the specialist and mailed to radio stations of the senators' choosing.

The audio Recording Room and its equipment would be available as well to Nebraska radio station representatives for interviews and other programming with senators as instigated by the stations. The Room would further be used by the ETV Network producer for public affairs (Joel Fowler) to record segments for use on weekly legislative programs.

It is proposed that the costs of outfitting and equipping and manning the Room be borne by the State, with the costs of the audio tape, reel shipping carton and mailing to be assumed by the using senator. Typical cost to a senator for a 3 inch reel (3½ minutes) plus carton and mailing would be \$1.50. It is believed that this is a more equitable method of operation than having the State subsidize the total cost. Senators would need to establish schedule and length of use restrictions and other operational procedures equitable to all members.

COST:

-Audio Equipment, Including Recorders, Microphones, Control & Editing Equipment	\$ 7,500
-Initial Supply of Tapes & Reels	200
-Wall Sound Proofing & AC Wiring	200
	<hr/>
	\$ 7,900
 -Audio Communications Specialist, Incl. Employee Benefits/Per Year	 \$10,800
 TOTAL COST	 <hr/> \$18,700

(It is assumed that the State Superintendent of Building and Grounds would provide a desk, chairs, and other appropriate furniture without charge.)

RECOMMENDATION 2

Establishment of a Permanent TV Film Recording Room

With little additional cost, the same Room could be made to function as a TV Film – as well as Audio – Recording Room.

The room would be permanently equipped with professional TV film as well as audio recording equipment, and maintained and operated by the same individual who would be a combination Radio/Film Communications Specialist assigned to the ETV Commission. The specialist would again provide advice to senators as to the best use of the TV medium. Senators would be able at their convenience to come to the room and quickly record simultaneously on color sound film and audio tape, or separately on film short statements, interviews, comments. The color film would be delivered by the specialist to Station KOLN-TV in Lincoln where arrangements would be made, on behalf of the Nebraska broadcasters, for processing that same day. Processed film would then be placed in a shipping carton and mailed to the television station of the senator's choosing.

Similar time and other operational limitations would have to be developed. The film equipment would be available to the ETV public affairs producer for recording segments for use on ETV Network programming from the Legislature. The room would also be available to Nebraska commercial TV stations personnel for their special programming with senators.

It is proposed that color film equipment and TV communications specialist costs be borne by the State, with out-of-pocket costs for film stock, color processing and mailing reimbursed by the senators using this service. Typical cost to a senator for a 100 foot (3 minute) film segment sent to a TV station would be approximately \$20.00.

COST:

-Film Equipment, Including Camera, Control, Lighting	\$ 8,000
-Initial Film, Reel and Shipping Carton Supply	2,000
-Additional Wiring and Room Preparation	900
TOTAL ADDITIONAL COST	<u>\$10,900</u>

(Assumes salary for communications specialist as listed in Recommendation 1.)

We will be pleased to provide elaboration on these proposals and recommendations. We would appreciate the opportunity to meet with you to discuss the several aspects of the proposals.

Sincerely,

(Signed) Jack McBride
General Manager

Honorable Richard Proud
 Speaker 83rd Nebraska Legislature
 State Capitol
 1445 "K" Street
 Lincoln, Nebraska 68509

Dear Senator Proud:

In compliance with the Legislative motion as adopted by the Legislature on December 5, 1972, the Nebraska ETV Network is prepared to be at the Legislature each day it is in session, and fully cover the daily proceedings beginning Monday, January 8, 1973 (see attached letter).

At present we cover two Legislative days per week, and this results in a one-hour special Unicameral program seen each Sunday night on the Network. The new proposed daily coverage will result in a thirty-minute program presented each night over the Network facilities, and will replace the Sunday night review. Further, we are directed to provide each of the 54 radio stations in Nebraska with the audio portion of this coverage on a daily basis, and each of the nine commercial television stations with video-tape copies of our coverage on a daily basis.

Our purpose and goal is to serve the people of Nebraska, and to carry out the wishes of the Legislature to the best of our abilities.

To meet these increased demands we are prepared to employ all existing resources we have at our disposal, however, the complexities and significant amount of work involved necessitates certain additional expenses not covered in our current ETV budget.

This is to inform you that we stand ready to comply with the wishes of the Legislature in this and all instances.

Cordially,

(Signed) Ron Hull
Program Manager
Nebraska ETV Network

ATTORNEY GENERAL OPINION

January 5, 1973

Mr. Vincent D. Brown
Clerk of the Legislature
State Capitol Building
Lincoln, Nebraska 68509

Dear Mr. Brown:

Your letter states that the Legislature has directed you to request an opinion with reference to a situation which arises when a new Legislature is organizing itself, and its first order of business is to adopt rules for its guidance, which step is followed by a formal swearing in ceremony for newly elected and appointed members. The question raised is whether those new members can properly vote for adoption of rules. The answer is that the new members may vote on the adoption of rules under the procedures which were followed.

Section 32-4,100, R.R.S. 1943, provides:

"The county clerk or election commissioner, as the case may be, immediately following the completion of the canvass by the county canvassing board, shall transmit by mail, or otherwise, to

the Secretary of State a copy of the abstract of votes cast for members of the Legislature, and the Secretary of State shall make out and deliver a certificate of election to the person having the highest number of votes in each district."

In 1955, the Legislature provided that the State Board of Canvassers should also canvass the vote of members of the Legislature, but the section quoted above was not amended. However, this is not of great significance, because as a practical matter the Secretary of State must wait until all of the information is available to the Board of Canvassers before he can issue a certificate of election. The important consideration here is that the election process is completed as soon as that certificate of election is issued, and this takes place well before a new Legislature goes into session. There is no requirement that votes for members of the Legislature be canvassed by that body, such as in the case of executive state officers. (State ex rel. Caldwell v. Peterson, 153 Neb. 402, 45 N. W. 2d 122.)

The election process having been completed, the only further step to be taken is that, "members of the Legislature, before they enter upon their official duties shall take and subscribe to the following oath, ***." (Sec. 1, Article XV, Constitution of the State of Nebraska.) Each newly appointed member of the Legislature, and each newly-elected member did take and subscribe to the appropriate oath of office before the Secretary of State prior to the time that the Legislature went into session on January 2, 1973. They thereupon became entitled to claim that they were duly elected and qualified members of the Eighty-third Legislature of the State of Nebraska when it convened at 12:00 o'clock on January 2, 1973, and were qualified to vote on the rules which were adopted.

A better understanding of the basic considerations involved can be obtained by going back to the first session of our Legislature, when the law provided that at the time of the meeting "some person claiming to be elected a member shall call the house to which he belongs, to order, and the persons present claiming seats in that house as members shall elect a clerk for the time being." (R.S. 1866, Chap. XXXI.) The next statutory step was to "make a roll of the members who thus appear to be elected," and thereafter a committee of five was selected to "examine and report upon the credentials of those claiming to be elected members of their respective houses, and when such report is made, those reported as elected shall proceed to the permanent organization of their respective houses." Those laws still remain on the books, substantially unchanged. (Sec's. 50-101 & 50-102, R.R.S.)

In going back through a number of the old Legislative Journals, it appears that the practice usually followed was to first elect a temporary clerk, who checked the credentials of those claiming to be elected and call

the roll, after which someone moved to adopt temporary rules and perhaps to elect some other temporary officers. The committee on credentials was then appointed, and when their report was accepted, the formal swearing in ceremony took place, and the announcement was made that the Legislature was organized and ready for the transaction of business. Permanent officers were then chosen and the regular business of the Legislature went forward.

It was thought that helpful information might be obtained from the first session of our Unicameral Legislature since they were all newly elected, but they apparently overlooked the matter of adopting any rules either before or after the formal swearing in ceremony. In later sessions the matter was handled by early adoption of this motion: "I move that we adopt the rules of the last session until the further order of the Legislature."

The formal swearing in ceremony which follows temporary organization is simply a formal recognition of membership which flows from the constitutional mandate that the Legislature shall "be the judge of the election, returns, and qualifications of its members." It has no bearing on the right of those lawfully claiming to be newly-elected members to vote on matters which have preceded that ceremony. If it were otherwise, then completely new legislatures could never get organized because of the lack of the constitutionally required quorum.

Very truly yours,

(Signed) Clarence A. H. Meyer
Attorney General

Introduced by Loran Schmit, 23rd District.

WHEREAS, the forms and guide lines for acquisition of information from owners and operators of point sources of pollutant discharge as proposed by the Federal Environmental Protection Agency and the accompanying permit system as published in the Federal Register of Tuesday, December 5, 1972 would impose unrealistic and impractical demands upon all classes of agricultural producers; and

WHEREAS, the proposed regulations call for an estimate of the amount and or degree of toxicity of run off or discharge of any pollutants resulting from the use of commercial fertilizers and pesticides under any condition of rainfall, such estimate to be made by any persons engaged in any type of agriculture and which calls for a value judgment impossible to arrive at without a scientific analysis; and

WHEREAS, the proposed regulations would demand a value judgment on the part of any agricultural producer concerning the amount of discharge of any agricultural waste into any surface waters from any ditch or channel per operating day from one gallon per day and upwards; and

WHEREAS, the proposed regulations would demand voluminous estimates from agricultural producers concerning the type and amount of product grown or produced each year and each season of the year.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-THIRD LEGISLATURE, FIRST SESSION:

1. That the proposed regulations together with the permit and reporting system proposed for Agricultural Producers and as published in the Federal Register of December 5, 1972 and as herein aforementioned be opposed in total and in specific detail.

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Marsh presiding.

PRAYER

Prayer was offered by the Chaplain.

We know, our Father, that there is a time to speak and a time to keep silent. Help us to tell the one from the other. When we should speak, give us the courage of our convictions. When we should keep silent, restrain us from speaking, lest, in our desire to appear wise, we give ourselves away. Teach us the sacraments of silence, that we may use them to know ourselves, and, above all, to know thee, then shall we be wise. Through Jesus Christ our Lord. Amen.

SEVENTH DAY—JANUARY 15, 1973

LEGISLATIVE JOURNAL

EIGHTY-THIRD LEGISLATURE
FIRST SESSION

SEVENTH-DAY

Legislative Chamber, Lincoln, Nebraska
Monday, January 15, 1973

Pursuant to adjournment, the Legislature met at 10:00 a.m., President Marsh presiding.

PRAYER

Prayer was offered by Rev. E. L. Jeambey, Associate Pastor of Westminster Church.

Our Father and Our God: We acknowledge Thee, as the Creator and Sustainer of the universe and the Saviour of mankind.

We admit that in Thee we move and live and have our being, and without Thee we are nothing and can do nothing. Yet we are promised that with Thee, all things are possible.

We confess our limitations and weaknesses in the administration of human affairs, and realizing our inadequacies, we know that without divine help we become unprofitable servants.

Therefore we invoke Thy diving blessing to rest upon us as we proceed with our patriotic duties of the day.

We need wisdom because the problems are complex; we need inspiration from above because of the pressures from below; we need great convictions because the forces of evil are endeavoring to run a world on low standards and low ideals.

Be pleased to bless us and direct us in the deliberations and plans formulated this day, and we will ever be grateful, for we ask in the name of Jesus Christ our Lord, Amen.

Enclosure

January 10, 1973

Vincent D. Brown
 Clerk of the Legislature
 State Capitol
 Lincoln, Nebraska 68509

Dear Mr. Brown:

You have requested advice as to whether a state senator, maintaining a home away from home during the Legislative Session, may deduct an agreed upon sum as a per diem expense without further verifying every item of expense. It is noted that the senators receive no reimbursement for living expenses and receive reimbursement for mileage for only one round trip per session.

There is no provision in the Code for using a fixed sum for these expenses. Since the senators do not receive reimbursement for living expense while away from home they must maintain documentary evidence to support all expenditures for lodging, but the daily cost of their breakfast, lunch, dinner and other elements of such travel may be aggregated, if they are set forth for in reasonable categories (such as for meals, gasoline and oil, and cab fares).

The record keeping rules are set forth in the enclosed Publication 463.

The senators may use a standard mileage rate of 12 cents a mile for the first 15,000 miles of business automobile use and 9 cents a mile for each succeeding mile of business use.

Sincerely,

(Signed) Richard P. Vinal
District Director
Internal Revenue Service

LEGISLATIVE JOURNAL

EIGHTY-THIRD LEGISLATURE
FIRST SESSION

EIGHTH DAY

Legislative Chamber, Lincoln, Nebraska
Tuesday, January 16, 1973

Pursuant to adjournment, the Legislature met at 10:00 a.m., President Marsh presiding.

PRAYER

Prayer was offered by Rev. E. L. Jeambey.

The first prayer in the Continental Congress on Sept. 7, 1774 was offered by the Chaplain of the day, Dr. Edward L. Jeambey, Asst. Minister of the Westminster Presbyterian Church. A copy of the picture in the Carpenters' Hall was shown, and the following preliminary remarks.

"In Thatcher's Military Journal, under the date of December 1777, is found a note containing the identical "First Prayer in Congress", made by Rev. Jacob Duche, a gentleman of great eloquence."

"O Lord Our Heavenly Father, High and Mighty King of Kings, who dost from thy throne behold all the dwellers on earth, and reignest with power supreme and uncontrolled over all kingdoms, empires and governments: Look down in mercy, we beseech thee, on these American States, who have fled to thee from the rod of the oppressor, and have thrown themselves on thy gracious protection, desiring to be henceforth dependent on Thee. They have appealed for the righteousness of their cause to Thee. They now look up for that countenance and support which thou alone canst give: take them therefore Heavenly Father, under thy nurturing care. Give them wisdom in council, and valor in the field: defeat the malicious designs of our cruel adversaries: Convince them of the unrighteousness of their cause: and if they still persist in their sanguinary purposes, O, let the voice of thine own unerring Justice, sounding in their hearts, constrain them to drop their weapons of war from their unnerved hands in the day of battle. Be thou present, O God of Wisdom, and direct the councils of this honorable assembly: enable them to settle things

on the best and surest foundation that the scene of blood may be speedily closed, that order, harmony and peace may be effectually restored: and truth and justice, religion and piety, prevail amongst thy people. Preserve the health of their bodies and the vigor of their minds; shower down on them and the millions they here represent, such temporal blessings as thou seest expedient for them in the world, and crown them with everlasting glory in the world to come. All this we ask in the Name and through the merits of Jesus Christ, Thy Son, Our Savior. Amen.

ROLL CALL

The roll was called and all members were present except Messrs. Proud and Nore who were excused.

PRAYER

Prayer was offered by Rev. E. L. Jeambey.

Eternal God Our Heavenly Father:

Today we would pray for the "faith of our fathers". A faith that demanded the separation of Church and State, but with a conviction that God and the State should never be separated.

When we salute the flag and make a pledge of allegiance say: "I pledge allegiance to the Flag of the United States of America and to the Republic for which it stands, one nation, UNDER GOD, indivisible, with Liberty and Justice for all".

Help us, O God, to catch the spirit of our forefathers, and keep our state and nation secure, by recapturing the "Spirit of '76".

We pray in the name of the God we trust. Amen.

COMMUNICATIONS

January 15, 1973

Mr. Vincent D. Brown
Clerk of the Legislature
Legislative Council
State Capitol Building
Lincoln, Nebraska 68509

Dear Mr. Brown:

Pursuant to Section 39-1320.01 R.R.S. Nebraska 1943 I am submitting a report to the Legislature on the status of the Outdoor Advertising Control program of the Nebraska Department of Roads.

The subject statute requires that this report shall include information on the number of signs, displays or devices removed and the cost thereof Federal and matching funds expended or obligated, an estimate for the succeeding year, and such other information as the Legislature or the Legislative Council shall officially order the Department to provide.

I and the staff of the Nebraska Department of Roads stand ready to provide to the Legislature or the Legislative Council any additional information which might be desired on this program.

Sincerely,
DEPARTMENT OF ROADS

(Signed) Thomas D. Doyle
Director-State Engineer

GENERAL DESCRIPTION OF PROGRAM

On March 27, 1972 the Nebraska Unicameral passed Outdoor Advertising Control Bill LB 1181 with the emergency clause. This report summarizes the activity of the Department in the implementation of this act under Section 39-1320 of the Nebraska Statutes. It also provides an estimate of the program activity for calendar year 1973. This report is intended to provide a concise summary of the program, and specific documentation for all of these activities can be provided should they be desired.

Between the effective date of March 27 and December 31, 1972, 5,582 outdoor advertising signs were removed as a result of the Department of Roads Advertising Control program. Most of these signs were such that they were regarded as abandoned, badly deteriorated, or of generally nominal value.

The total cost to purchase and/or move these signs was \$74,342. Of this cost the State of Nebraska share was \$25,129 and Federal matching funds amounted to \$49,213.

For calendar 1973 it is estimated that a total expenditure for the sign removal program will be such as not to exceed \$500,000. Of this amount, \$125,000 would be State funds and \$375,000 will be Federal matching funds under the National Beautification Program. The following is a summary of amounts obligated at this time for work to be performed in calendar 1973.

Agreements for future purchase	1,558 signs
Total agreed future cost of these 1,558 signs	\$52,288
Agreed future purchase cost to State of Nebraska	\$13,072
Federal matching funds in purchase	\$39,216
Agreed labor cost to remove the above 1,558 signs	\$14,022
Labor cost to State of Nebraska to remove	\$ 3,505
Federal participation to remove	\$10,517

The balance of the estimated \$500,000 maximum expenditure would be expended under a controlled program which will consist of selecting specific areas throughout the State and specific sign types for acquisition and removal. This controlled program will provide necessary cost data for an expanded program during calendar years 1974 through 1976 which is the present completion date for removal of all outdoor advertising signs.

In this regard, it should be noted that a National Cost Schedule has been prepared and submitted to the states for use in removal of outdoor advertising signs and devices. However, Nebraska has some reservations as to whether this schedule is appropriate in our own particular case and feels that it is essential for our program to be evaluated on the basis of actual

experience rather than to rely totally upon any such national schedule of signs.

In closing, it should be noted that certain provisions in the Outdoor Advertising Control Statutes apparently require clarification. For example, we are not certain that present statutes adequately spell out the authority of the Department in establishing rules and regulations, especially relative to requiring of permit and permit fee schedules, and expect that the Nebraska Unicameral will be requested to consider clarification of such laws. This submission is expected to be made as soon as practicable.

It should be noted that the anticipated program for calendar year 1973 is dependent upon the availability of Federal matching funds. Should such funds become either unavailable or seriously restricted, the Department would curtail the outdoor advertising programs accordingly as provided for under Subsection (2) B. of 39-1320.01.

Requestes for additional information should be directed to the attention of Permits Officer, Byron R. Warlick, Nebraska Department of Roads, Telephone Extension 625 or 648.

ATTORNEY GENERAL OPINION

January 16, 1973

Senator Herbert J. Duis
Nebraska State Legislature
State Capitol Building
Lincoln, Nebraska 68509

Dear Senator:

You state that in L. B. 1513, Second Session, Eighty-Second Legislature, an appropriation was made to the University of Nebraska in the amount of \$100,000 for a "Life Science Building - Physical Planning." You also state that in visiting with the officials of the University you learned that this money was being held up because of L. B. 1323, 1969 Legislature. You then state that it is your earnest belief that the Department of Administrative Services should not hold up the money which would be used in the planning and you ask if this restraint can be placed by that department upon this fund appropriated in L. B. 1513.

In previous discussion with this office you indicated that you were interested in this program and that you desired our advice for the purpose of taking legislative action, if needed. We have reviewed L. B. 1513 as enacted by the 1972 Session of the Nebraska Legislature and find no basis for holding it other than a valid appropriation for the purpose specified.

The problem raised is that L. B. 1323, Laws 1969, Chapter 772, Page 2922, creates a Capital Facilities Planning Bureau in the General Services Division of the Department of Administrative Services. These sections are incorporated into the statutes as Section 81-1108.02 to 81-1108.09, R. R. S. 1943. Section 81-1108.06 provides in part:

“No state agency or department may contract for the planning, design, or construction of new facilities or major modification or repair of existing facilities unless the conditions of the contracts are approved in writing by the Governor;***.”

If, as construed by the Director of the Department of Administrative Services, these provisions were intended to be applicable to the Board of Regents of the University of Nebraska, then a part of the authority of the University of Nebraska would be subjected to the control of the Governor. However, Article VII, Section 10, Constitution of Nebraska, provides in part:

“The general government of the University of Nebraska shall, under the direction of the Legislature, be vested in a board of not less than six nor more than eight regents to be designated the Board of Regents of the University of Nebraska, who shall be elected from and by districts as herein provided.***.”

The question thus presented is not whether the Legislature can expand or contract the powers of the Board of Regents as this has been clearly established. See *State ex rel. Bushee v. Whitmore*, 85 Neb. 566, 123 N. W. 1051. The question is whether or not the exercise by the Board of Regents of their authority can be made subject to the control or approval of one of the executive officers of state government by the Legislature. We think not. In the case of *State v. Chase*, 175 Minn. 259, 220 N. W. 951, the Minnesota Supreme Court pointed out that when the people had declared by the Constitution that certain powers shall be possessed and duties performed by a particular officer or department, their exercise and discharge by any other officer or department, are forbidden by necessary and unavoidable implication. Every positive delegation of power to one officer or department implies a negation of its exercise by any other officer, department or person. If this were not true, the whole constitutional fabric might be undermined and destroyed. Under similar constitutional provisions to those of Nebraska, the Minnesota court stated that the whole power to govern the University was put in the Regents by the people so that no part of it could be put elsewhere except by the people themselves. In the case of *State ex rel. State Railway Commission v. Ramsey*, 151 Neb. 333, 37 N. W. 2d 502, the Legislature attempted to give the regulation of common carriers by air to the State Aeronautics Department. Our court held that the regulation of all common carriers was vested by the Constitution in the State Railway Commission and stated:

"The Legislature has no power to divest the State Railway Commission of its constitutional jurisdiction to regulate and control common carriers by air by transferring it to another body or jurisdiction.***."

This office has consistently taken this position with reference to those offices established by the Constitution. See Opinion No. 110, 1969-1970 Report of the Attorney General, Page 164.

The planning for the needs of the University are certainly a part of the constitutional authority, under the direction of the Legislature, of the Board of Regents of the University of Nebraska. This authority cannot be taken from the Board of Regents of the University and given to another department or agency of state government nor subjected to the control of another department or agency of the State of Nebraska by the Legislature. If this is to be done, it should be done by constitutional amendment. If Section 81-1108.06 is to be construed to apply to the Board of Regents of the University of Nebraska, then to that extent it would certainly be invalid. If, on the other hand, it is construed not to apply to the Board of Regents, then there is no authority in the Director of the Department of Administrative Services to attempt to withhold the expenditure of the appropriation authorized by the Legislature. In either event, amendatory legislation might be advisable to clearly delineate the extent of the authority granted in this section. We would be willing to work with you and the bill drafter in preparing the appropriate legislation.

Yours most sincerely,

CLARENCE A. H. MEYER
Attorney General

**EIGHTY-THIRD LEGISLATURE
FIRST SESSION**

TENTH DAY

Legislative Chamber, Lincoln, Nebraska
Thursday, January 18, 1973

Pursuant to adjournment, the Legislature met at 10:00 a.m., President Marsh presiding.

PRAYER

Prayer was offered by Rev. E. L. Jeambey.

Help us to keep our lives in tune with the divine will by open hearts and submissive minds. We realize that if our attitudes are right, the experiences of life, and the programs of our labors, will yield greater assets than liabilities.

Help us to keep well balanced and out of the overdrafts and not become bankrupt morally or politically.

Grant that we might realize that under divine direction our gains will exceed our losses; our blessings will be greater than our hardships, and our delights will be greater than our disappointments.

Be pleased to keep us from the anxiety that robs us of our efficiency, but help us not to become indifferent to the needs of humanity, and the problems that we face for solution.

May direction from above be ours today, and as a result of today's deliberations, conclusions shall be drawn, and programs developed that shall become widely beneficial.

In the name of Christ our Lord we pray. Amen.

O God, stop us for a minute of prayer. Stop our anxious minds from wandering, and our wearied spirits from desiring anything but to know Thy will. Let us stand at attention before Thee and hear what Thou hast to say to us. We believe that Thou canst tell us not only what to do, but also how to do it. MESSAGE FROM THE GOVERNOR

Mr. President, Mr. Speaker, Mr. Chief Justice and Associate Justices of the Supreme Court, Members of the 83rd Nebraska Legislature, Ladies and Gentlemen:

For the third time in as many years, I stand again at this podium to offer for Legislative consideration an Executive Budget specifically designed to meet the legitimate needs of Nebraska State Government and tailored to holding the line on the equivalent of state sales and income tax rates that were in effect in 1970.

The Executive Budget is presented in both Bill and Narrative Form for the first time to allow better understanding and discussion in both legislative and other forms. This is not offered as a document that represents perfection but is reasonable, workable, and is based on what I believe to be continued constructive progress.

I have no illusions that this budget will be accepted without alterations by due legislative process. But I do wish to stress that the suggested total appropriation of \$563,510,000 including General Fund increased appropriations of \$10,000,000 for operations, plus additional General Fund increased appropriations of \$11,000,000 which represents new authorizations approved last year by this body are the near maximums allowable. I charge you with the responsibility to limit your authorizations accordingly or forthrightly take the only other honest alternative which would be to force an increase in general state tax rates.

When Revenue Sharing was approved, I immediately directed that all such funds be placed in a special account from which only the Legislature could appropriate. I do recognize the constitutional separation of powers between our two branches of government. Later in this message you will learn of my concern over the generally misunderstood concepts in this area. The net Revenue Sharing monies of approximately \$31 million should be appropriated as follows, in my opinion: \$6 million to fund the Personal Property Tax Bill passed over my veto last session, plus \$4 million for high priority Capital Construction needs. The balance of \$21 million, then, I suggest, should not be disintegrated by the financing of a host of pet projects but rather should be conserved specifically for Real Estate Tax relief. To do otherwise, it seems to me, would be breaking faith with what the vast majority of Nebraskans anticipate and expect from such funds. This will not be possible unless all resist the temptation to consider Revenue Sharing as a bonanza that brings forth an opportunity for new spending sprees.

Please allow me to digress from strictly budgetary considerations for a few minutes to comment on the generally healthy conditions of the state.

The state of the State is excellent. Nebraskans have a right to be proud as never before of their accomplishments. Anyone not "bullish" on Nebraska is uninformed. We are showing a steady growth rate in population, economy, jobs, tourism, and last year set a new record in the establishment of new industries. We have reversed the previous

outmigration trend. Our number one industry, agriculture, is currently receiving relatively good prices for its products. With all of this good news, we are assured future progress and further expansion of "Nebraska and the Good Life."

But as I view my responsibilities, this is a time for me to cite not only the encouraging but some possible troublesome areas that require our collective attention and considerations in the months and years ahead.

Nebraska, with all its assets, is but one of 50 states in our great republic. We are locked into a federal system whose actions have a dramatic effect on our economic well-being, especially as they affect agriculture. I am deeply apprehensive about what appears to be the National Administration's long-range agriculture plans and how such considerations will affect Nebraska's family farms.

While all recognize 1972 as a good crop year, many of our food producers were severely handicapped by an unsatisfactory fall harvest season.

On November 16th last, I call for a federal declaration of an emergency area for certain counties thereby qualifying farmers, who could prove losses, low interest loans, among other considerations, as they plan their 1973 operations and expenses. As a result of my request, federal officials were able to establish a conceded farm loss of approximately \$50 million in Nebraska although they then dilly-dallied until the U.S.D.A., under instructions from Secretary Butz, had sufficient time to expedite his previously announced plans to "phase out" such historic agriculture emergency relief that was initiated 35 years ago. I suggest that a policy of loans to lockheed but not to farmers, is, at best, inconsistent.

The agricultural policies of the administration including sharp curtailment of R.E.A. loans, extension of liberalized beef import quotas, crippling of long standing farmers home and ASCS policies, abrupt decreases in 1973 crop assistance and acreage set aside programs, severe cutbacks in watershed, flood and water conservation assistance, and cancellation of the rural environmental assistance program, all add up to long-range agricultural planning that short changes the family farmer while banking on continued crop failures in the Soviet Union as opposed to the sound management of this nation's most precious economic asset...Our great food producing plant! And what might you do about this as members of the Legislature? You could join in expressing your opposition and concern in the form of a strongly worded resolution to the President and the Nebraska Congressional Delegation on all of these anti-rural America pronouncements. I urge your action accordingly.

Turning to another matter of concern to all, road building, we see more inconsistencies. The Federal Administration's impoundment of some five billion dollars of Highway Trust Funds, already collected and paid into the fund by special Highway User Taxes, and its detrimental effect on State Road Construction Programs remains of great concern to myself and all my fellow Governors. That five billion represents more than one year's total federal highway authorizations. The Governors have made our objections known in Washington.

As you may know, we have been kept closely advised by the State of Missouri in their thus far successful challenge, through the Federal Courts, of the administration's actions in this regard. The U.S. Supreme Court will eventually decide on an appeal by the Federal Government from a lower Federal Court's decision directing the administration to release all such funds. This month prominent elected Congressmen and U. S. Senators have intervened as a "Friend of the Court" on the side of the State of Missouri. Here again I suggest that a resolution of support to proper authority of the position I have taken would be in order from the Nebraska Legislature, including language to place us in opposition to the announced policy to divert parts of the fund to mass transit systems.

The Nebraska share of these impounded funds will reach an estimated \$30 million this year. With Nebraska currently receiving only 74 cents back for every dollar our citizens pay into the Federal Highway Trust Fund, and in consideration of the \$30 million withheld but legitimately due us, it would be foolhardy and the height of fiscal irresponsibility for Nebraska to now sink further into interest crippling bonded debt as a few vocal special interest groups and irresponsible spenders continue to demand. There seems to be a modern mania advanced by some that bonded debt is the "in" thing. I must remind you that for each dollar of bonded debt Nebraska assumes we must pay back an additional 63 cents because of interest and service charges. That is very expensive deficit financing under any economic manipulations. Please remember that well, as you listen to the pressure groups.

Fault me, as some of you have and will, for resisting bonded debt. At least you know and hopefully appreciate my position.

Let me set the record straight, once again! This state has not lost one penny in Federal Highway Funds because of your Governor's refusal to plunge Nebraska further into bonded debt. Nevertheless, I again specifically request that the Legislature authorize, but not attempt to direct, executive issuance of up to \$10 million in additional bonded debt, should some become necessary to finance an unanticipated construction emergency or to meet federal matching requirements.

Before returning to the state budget, there are some additional concerns with regard to the interlacing of federal and state funds that should be reflected upon. I wish to salute the President for finally taking measures to control overall skyrocketing spending. The dramatic steps now being taken, however, indicate lack of long-range fiscal planning. It should be pointed out that the shock treatment methods currently being employed make a mockery of previously announced prodigious programs, such as the commendable water pollution efforts. The yo-yo approach to fiscal management in Washington confounds those of us who attempt businesslike procedures in government.

The much heralded Federal Revenue Sharing Program announced by the President last October apparently turns out to be not additional federal dollars, as billed, but more likely a convenient vehicle for providing less total funding to the states. Since Revenue Sharing was proclaimed by the President from Independence Hall in Philadelphia, there has been a

steady withdrawal of federal funds from a host of programs that had been historically federally funded. Until the budget message of the President, we will not know the details of his plans. Suffice to say, let us proceed with caution in our state spending commitments. I can anticipate that the doors of the Capitol Building may be spinning merrily by those who will demand state funding to replace the loss of Federal dollars for a host of projects that will be described as "mandatory."

Let me urge caution before pursuing any massive spending programs, especially where present or anticipated federal funding is involved. This is a time for careful consideration of priorities. This is a time when pet projects, however laudable, must be reviewed with caution and as they affect the total budget and available revenues.

An important subject that will face this session of your honorable body will be the employment of state tax collections to provide real estate property tax relief. In my budget recommendations, you will find outlined possible plans to employ the majority of Nebraska's share of federal Revenue Sharing for such tax relief.

A committee of distinguished Nebraskans whom I have asked to help develop our administration's plan is considering the specifics which I will present to the Legislature.

Without going into detail at this time, I have the obligation to advise the Legislature that no plan for fair tax equity and equality will have my endorsement unless we level with the people and guarantee real, long-term relief which presupposes a reasonable and effective lid on school expenditures. From my knowledge of the measure being sponsored by the Legislative Committee on the subject, it meets none of the tests that I have outlined and is merely a warmed-over version of such legislation that I successfully vetoed in the last two sessions. They have steadfastly refused to publicly estimate total cost of their plan or give its impact on the sales and income tax rates. I cannot agree to any plan that ignores the interests of or fairness to the rent payers in Nebraska. I have noted with alarm the almost total indifference of legislative proposals regarding these Nebraskans. Rent credits are in effect in the States of Minnesota, Wisconsin, Vermont and California and are proposed in many others, including Colorado and Michigan.

I cannot agree to any bill that commits the state to doubling the state sales and income tax rates. A property tax relief proposal should not require an increase of more than 1 percent in the sales tax and a required matching contribution from the state income tax for total funding of the plan. Let me emphasize again that no tax increase is necessary unless you pass a Property Tax Relief Measure.

The specific budget recommendations that accompany this message outline in detail our suggestions for expenditures in Fiscal 1973-74. Please allow me to comment on some specific areas.

We have a fine University and higher education must continue to receive our monetary support.

The University Budget request to the Board of Regents for fiscal 1973-74 was over \$11,000,000 over this year's University expenditures for

a proposed total of \$106,500,000. The Regents took action that reduced the requested increase by \$2,400,000. We have, after careful review and consideration, reduced the request an additional \$2,700,000 and are recommending a total budget of \$101,300,000, including General Fund authorizations of \$50,800,000. That represents total funds net increase of 6.2% over last year's legislative funding approval for the University system, but is half of their original requested increase.

Our four state colleges have experienced rather substantial drops in both enrollment and credit hours taught from 12 to 14% respectively. In view of this, I am recommending an approximate 3.5% reduction from last year's total authorizations for the colleges.

Nebraska is nationally recognized for our overall leadership in mentally retarded programs. In community based programs, which we have expanded rapidly the past two years, we surely are among the state leaders. Using a combination of matching local, state, and federal funds, we have gone from \$2 million in fiscal 1970-71, doubled to \$4 million in 1971-72, and doubled once again to \$8 million during the current fiscal period.

Our budget recommendations for such programs call for a further 20% increase in state general fund contribution, raising from the current \$1 million to \$1,200,000 for fiscal 1973-74. Provided local and federal support continue to increase percentage wise as in the past, we could envision an expansion of some \$1,600,000 or up to a total of \$9,600,000 for our fine community base facilities for 1973-74.

While we have made significant progress in the treatment and training of the generally more severely retarded programs at the Beatrice State Home, including reduction of population from 2,200 to 1,300 residents in the last few years, we have not made what I feel to be enough advancement in professional staff and certainly no Nebraskan can be proud of the general living conditions in old buildings without facilities for normalization in living patterns or air conditioning.

We are therefore recommending, to assure a balanced program for all our mentally retarded, the beginning of a plan for modernization of the Beatrice facility which we hope will eventually be further reduced to a population of approximately 600 to 800 as the community based programs continue to expand. This program calls for general fund expenditures of \$2,150,000 for 1973-74, and projected possible further improvements of an additional four million in succeeding years.

It is our suggestion that we continue the administration's plan for gradual decentralization of the state's mental health services. We envision more localized state financed facilities stressing out-patient type clinics where practical and dedication to even better professional treatment.

The total budgets for the Regional Centers should remain approximately the same as last year but due to declining number of patients, the net result is that we will still be providing more dollar care behind each resident.

The Department of Institutions is carrying on an aggressive program for recruitment of more professional staff in all state facilities.

In regard to our correctional programs, we are in the process at this time of upgrading facilities at the outstate institutions at York, Geneva and Kearney.

During the past two years much progress has been made in the areas of community based treatment. I refer to work release, educational release, as well as furlough programs. Our Parole System has been upgraded. Today we have more inmates under parole supervision than we have in-house at our institutions. In addition, we have rapidly expanded our educational programs, basic skill training, and vocational rehabilitation program. These improved services are in line with recommendations of national penal organizations.

In the broad area of the Penal Reform Study, no one denies the need for upgrading the existing facilities at the penal complex and the reformatory. I shall provide you my suggestions on this subject at a later date.

During 1972 we were able to reduce the previous year's record death toll on our highways by seven even during further increases in our gross traffic volumes and miles traveled. In my opinion, this was accomplished only by a concentrated traffic safety effort primarily promoted by the news media which resulted in public awareness and better driving habits. In October, during the first days of Super Safety Day, we were 27 deaths ahead of 1971 record breaker pace. We were able to reduce this figure by some 35 between late October and December 31. We have much more to do. I suggest that the Legislature review irrefutable statistics that show an increase of 63% over the previous year in fatalities on roads affected when the night-time speed limit was increased from 60 to 65 MPH in 1971. I ask again that you pass legislation to reduce this night-time speed limit back to 60 MPH on such roads. I further request that you enact measures which would make mandatory revocation of driver's licenses for 30 days for anyone convicted of driving under the influence of alcoholic beverages or drugs, and enact other "Get Tough" legislation for better highway safety that will recommend in the form of bills. Among them will be mandatory blood testing for all drivers and pedestrians involved in fatalities, 30 day automatic loss of license for speeding in excess of 15 MPH in areas posted for 60 MPH or more, a habitual traffic offender statute, and mandatory reporting of all convictions for driving while intoxicated.

The needs of Nebraska's older persons are many and varied. However, a most especially pressing need...about which comparatively little is presently being done...is that for the services and assistance which will make it possible for the elderly to continue to lead independent lives in their own homes. To this end I have charged a task force of state administrators to help coordinate our efforts.

In our mobile society, much of the assistance which families formerly provided to parents and grandparents is just not possible. It is for this reason that state government intends to play an active and aggressive role in a federal-state-local partnership designed to make available at the local level such services as Homemaker Assistance, Specialized Transportation Services, Home Handyman Services, Home Health Care, and Special Group

Dining and In-Home Nutrition Services tailored to the needs of the elderly.

State agencies, such as the Commission on Aging, can do much to assist local communities and organizations to initiate such services, but local imagination, effort, and resources will also be required. I call on local leadership, therefore, to inventory their communities, their resources and the needs of their elderly population, and to begin to plan with us those undertakings which can make life more satisfying for our senior citizens.

You will note further expansion of Nebraska's top flight State Patrol and its important duties of not only highway safety but criminal and drug investigation efforts. We are suggesting an increase in State Patrol strength by 24 including necessary equipment to support same.

During recent months several cases of severe hardship have come to my attention, because families did not qualify for the Crippled Children Program or other welfare categorical programs. These cases usually involve the families of children suffering from conditions not currently covered and so expensive that they create a catastrophic situation for the family. In most instances a working father would be better off financially to quit work and thereby qualify for a host of welfare benefits.

I recommend that a fund of \$100,000 be set up to assist the counties in matching their funds in order to secure federal emergency assistance to help in such situations. This appropriation could result in \$100,000 county funds, \$100,000 state funds and \$200,000 federal funds for a total \$400,000 fund for the purpose. Rules and regulations would be set up to handle such cases by the Department of Public Welfare working in conjunction with the counties.

It is time that we face squarely and fairly an equitable Election Reform Bill in Nebraska. The expenditures of funds to seek elective office is becoming prohibitive. We all recognize some elections may be "bought". This is not right, so let's do something about it. Recognizing that this is an issue that is given great lip service, but little action, I will again present the Legislature a bill that I hope will be a basis for necessary corrective and constructive legislation, with enforcement teeth to make it meaningful.

Once again I call for the elimination of the so-called "Wyoming Clause" from the State Environmental Protection Act.

There has now been enough experience in other States with No-Fault Automobile Liability Insurance and I urge passage of a workable measure this session in hopes of reducing insurance costs to Nebraskans.

For many years we have struggled with the matter of the forced sale of school lands. I believe existing legislation not to be in the best long-range interests of the School Trust Fund and the future educational opportunities of Nebraska's school children. Because of my direction such sales are currently prevented by the courts. I respectively urge your consideration in changing present statutes.

Capital Punishment for certain types of murders will again receive my active support. I would anticipate that the sentiment for passage of such legislation is favorable. We must be cautious and seek expert legal approval of any measure passed as it will undoubtedly have to meet the constitutional test of the U.S. Supreme Court.

Governor Nelson Rockefeller of New York has had great experience in drug related problems. We should at least listen to his advice. He has recently conceded that one billion dollars have been wasted in New York with a host of popularly sold programs that have not been successful. Here is what the Governor said on January 3 to the New York Legislature:

“We have this choice:

Either we can go on as we have been, with little real hope of changing the present trend; or we must take those stern measures that, I have become convinced, common sense demands.

We must create an effective deterrent to the pushing of the broad spectrum of hard drugs.

In my opinion, society has no alternatives.”

Many drug pushers are a far worse threat to our society than most murders.

I suggest that the Legislature enact tougher mandatory long-term sentences for convicted hard drug criminal profiteers. For their favorite victims, the user turned pusher to support his enslavement, we should provide more incentives for voluntary rehabilitation and if refused we should provide prisons terms with good time only for cooperation with enforcement officials for prosecution of the professionals.

One of our problems, I believe, is that we spend too much time pampering and protecting those “Hooked Pushers” and not enough caring about their young victims of tomorrow and the next day . . . and it happens right here in Nebraska every day.

In closing, I assure you the cooperation of my office and all the code Departments of the Executive Branch. I repeat, especially for the information of you new Senators, that we have a “Wide Open Door Policy” in the Governor’s Office.

There will be differences as each of us view our responsibilities and obligations to the citizens of our Great State. Effective communication between the Legislature and the Executive can minimize misunderstandings.

Two years ago we set upon a goal to unify Nebraska for the common good. I feel that great strides have been made and that working together we can keep and improve upon that worthy objective.

With God’s help and blessing then, which we seek and so desperately need, let us continue to work together to further develop “Nebraska—The Good Life.”

The Committee escorted the Governor from the Chamber.

Section 1. The Legislature finds: (1) That it is necessary to provide the citizens of this state with greater and more convenient access to the processes of government, especially the legislative processes, in order that the citizen may more effectively carry out his constitutional right to petition the government; and, (2) that it is necessary to expand the scope of the work of the Legislative Council so that it can in a more comprehensive manner carry out its statutory duty to collect information concerning the government and general welfare of the state, to examine the effects of previously enacted statutes and recommend amendments thereto, and to gather information for committees of the Legislature and the Legislative Council.

Section 2. In order to carry out the provisions of Section 1, the Executive Board of the Legislative Council may, and at the direction of the Legislature or of the Legislative Council shall, establish not to exceed one office in each legislative district. RESOLUTIONS**LEGISLATIVE RESOLUTION 11.**

Introduced by Dennis L. Rasmussen, 41st District.

WHEREAS the State of Nebraska recognized that agriculture is the keystone for the economic life and well-being of the nation; and

WHEREAS the Rural Environmental Assistance Program has allowed the orderly and effective development of the agriculture and environmental aspects of the state's economy; and

WHEREAS the Farmers' Home Administration has provided farmers the measure of security needed for them to face the many natural disasters inherent in the agriculture community; and

WHEREAS the Rural Electrification Administration has been the driving force in providing the power to satisfy the needs of this nation's most precious economic assets. . . our great food producing plan. . . ; and

WHEREAS continuing such policies as providing hundreds of millions of dollars to bail out Lockheed Aircraft Corporation while denying such needed assistance to agriculture is, at best, inconsistent; and

WHEREAS there is currently under consideration plans to emasculate irrigation and water conservation practices and policies of the Federal government; and

WHEREAS the recently announced reductions in programs vital to the interests of rural America need careful review by Congress and the administration.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-THIRD LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the President and members of Nebraska's Congressional delegation be formally notified of Nebraska's deep concern and fear for the devastating effect that elimination or reduction that these federal programs will have on our state's and the national economy.

2. That the members of Nebraska's Congressional delegation be formally advised that it is the Legislature's desire that every effort be made to have these programs restored with utmost dispatch, possibly financed by the millions that will be saved when the Vietnam War is terminated.

3. That the members of Nebraska's Congressional delegation immediately seek to join forces with the delegations of other farm bloc states in a united effort to restore these programs and prevent further erosion of the agricultural economy.

4. That a copy of this resolution be sent to the President of the United States and each member of Nebraska's Washington delegation.

SEVENTEENTH DAY

Monday, January 29, 1973

Pursuant to adjournment the Legislature met at 10:00 a.m., President Marsh presiding.

PRAYER

Prayer was offered by Rev. George Stulac from Inter-Varsity Christian Fellowship of Lincoln.

O God, we are thankful to you that you have answered our prayers to end a war. Truly you are the Prince of Peace, and we praise you for your mercy shown to us. With thankfulness to you for the peace that we have, and with awareness that we are still far from thorough peace and justice in this world, we begin this day by looking first to you. We are aware that it is not in us to make a world of peace and justice. We confess this, and we ask your forgiveness through Christ. We praise you as the only One who is perfectly good and loving and righteous—perfectly holy. That is why our hope is in you rather than ourselves. That is why we ask you to be powerfully active in the world today—active in events around the world to strengthen our peace and to purify our imperfect justice; active in our lives to teach us and to guide us along paths of righteousness. We acknowledge our need for this from you, and we ask for this in the name of Jesus Christ. Amen.

EIGHTY-THIRD LEGISLATURE
FIRST SESSION

EIGHTEENTH DAY

Legislative Chamber, Lincoln, Nebraska
Tuesday, January 30, 1973

Pursuant to adjournment the Legislature met at 10:00 a.m., President Marsh presiding.

PRAYER

Prayer was offered by Rev. George Stulac from Inter-Varsity Christian Fellowship of Lincoln.

Our Father, we acknowledge you as our Father today. This is important to us because we need a Father such as you. We exercise authority in this world, but we too need to have someone in authority over us. We make decisions in this world which affect not only our own lives but also the lives of others. But it is often difficult to discern what the right decision would be. And yet you have declared in Scripture that all authority is from you and that you have a purpose in what we do with our authority. Somehow, therefore, you must be bound up in what we are doing, even when we don't recognize it. So we declare now our submission to your authority, and we do this with thankfulness. We ask you to fulfill in us the promises of your Fatherhood today— to assert your authority over us so that we can properly exercise our authority over others; and to teach us an accurate discernment of right and wrong so that we can make proper decisions today. You are the basis of all authority and you are the source of true wisdom. Therefore help us to be attentive to you today. In the name of Jesus Christ. Amen.

The roll was called and all members were present except Mr. Fellman who was excused until 10:15 a.m. and Mr. Kime and Mr. Goodrich who were excused.

COMMUNICATION

January 29, 1973

Senator Bill Skarda
Nebraska State Legislature
State Capitol
Lincoln, Nebraska

Dear Senator:

You request our opinion concerning the following questions:

“Could the Metropolitan Utilities District as an institution, give away property owned by them to a civic group for use as a park facility? Could the Metropolitan Utilities District lease such property to a civic group for the purpose I have previously stated? And finally, could the Metropolitan Utilities District donate such property to the City for use as a park facility?”

While it is our opinion that the Legislature could authorize proprietary districts, such as the metropolitan utility districts, to donate lands for public purposes, such legislation would have to be extremely carefully drawn to pass constitutional scrutiny.

The basic question here seems to be whether a public body can donate money or property to a nonpublic body, in furtherance of a public purpose. This question was answered affirmatively in *United Community Services v. The Omaha National Bank*, 162 Neb. 786, 77 N. W. 2d 576 (a copy of which is enclosed for your examination).

As the court held in the *United Community Services* case, however, the legislation authorizing the donation must relate to the whole of a given class of public bodies—not just to one member of a logical class. Thus, if the metropolitan utilities districts are to be given the power to make donations, so must all similar public bodies. Public power districts, for example, might be comparable to utilities districts on the question whether the districts should be permitted to make donations.

In the same manner, the donees should be defined in a manner satisfactory to Art. III, Sec. 18, Constitution of Nebraska, which prohibits special and local legislation. Villages have as much interest in the right to accept gifts as do other municipal and nonprofit corporations. See the *United Community Services* case, *supra*.

A given piece of land may be subject to legal restrictions which would prohibit donation, as where the land was condemned. Such problems probably cannot be cured by legislation. This one issue might, as a practical matter, render impossible most donations of the type you propose.

Further, any donation would have to be for a truly “public purpose,” and that term should be carefully defined in any legislation. A public park would possibly qualify as such purpose.

In summary of the above, it is our opinion that a metropolitan utilities district might be authorized, by statute, to donate land, for public park purposes, to a nonprofit or municipal corporation. Such legislation would

need to consider the problems noted above, and undoubtedly, other problems which we have not attempted exhaustively to suggest.

Yours very truly,

(Signed) CLARENCE A. H. MEYER

NINETEENTH DAY—JANUARY 31, 1973**LEGISLATIVE JOURNAL****EIGHTY-THIRD LEGISLATURE
FIRST SESSION****NINETEENTH DAY**

Legislative Chamber, Lincoln, Nebraska
Wednesday, January 31, 1973

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Marsh presiding.

PRAYER

Prayer was offered by Rev. George Stulac from Inter-Varsity Christian Fellowship of Lincoln.

Lord, when you lived and walked and spoke on this earth 2000 years ago, you gave such a revealing example of how we should live. When we would pursue personal greatness, you tell us that whoever would be great must be a servant. When we would protect our own rights, you tell us to give even more than people would take from us. When we would love those who support us and hate those who oppose us, you tell us to love our enemies as well as our friends. These seem to be such unnaturally high standards to set for human beings. But that reveals our sin—that they are unnatural standards for us. But you lived this kind of life even as you talked about it. So we look to you for forgiveness and for enabling. We acknowledge the rightness of your standards; help us to follow you today. We pray this with thankfulness for your love to us as we are, even as we seek to become more like you. Amen.

ROLL CALL

The roll was called and all members were present except Messrs. Keyes and Syas who were excused; Messrs. Goodrich and Snyder who were excused until 10:00 a.m. and Mr. DeCamp who was absent.

FIRST SESSION**

TWENTIETH DAY

Legislative Chamber, Lincoln, Nebraska
Thursday, February 1, 1973

Pursuant to adjournment, the Legislature met at 9:04 a.m., President Marsh presiding.

PRAYER

Prayer was offered by Rev. George Stulac from Inter-Varsity Christian Fellowship of Lincoln.

O God, there are many decisions to be made by us today. There will be decisions made here in this room by this group. We will also make countless decisions as individuals concerning the way we relate to people around us, how we spend our time, how we focus our attention and energies. Teach us to make these decisions by standards which are just. Grant us an accurate discernment of our own motives, and then teach us to choose alternatives of love rather than selfishness. We seek to live by faith today—faith that you are real and present and one to be obeyed in our decisions. Help us to see you and to hear you. We ask this in the name of Jesus Christ, that he might be better glorified in our lives. Amen.

MOTION—Rule Changes

Mr. Duis moved the adoption of the following rule change to Rule 7, Section 5, page 38 as referred to on page 234 of the Legislative Journal as follows:

A call of the Legislature may be made by any member in the manner following: "I move for a call of the Legislature". The presiding officer shall direct that the board be cleared and the members shall then vote on placing themselves under call. If a majority of the senators present and voting vote in favor of such a motion then the Legislature shall be deemed to be under call. Each member present shall indicate his presence upon the electric roll call system and shall remain in his seat during the call. After the Clerk shall note the names of the absentees, proceedings under the call may be suspended at any time by a majority vote of the

members then present, and when so suspended shall not again be ordered on the proposition pending, except by a majority vote of the members elected. If all absentees were to vote on one side of the question, and if their combined vote would be insufficient to change the result of the vote, the President shall declare the call raised.

Lieutenant Governor votes only when Legislature equally divided. (Rule 1, Sec. 14, page 4).

TWENTY-FIRST DAY—FEBRUARY 2, 1973**LEGISLATIVE JOURNAL****EIGHTY-THIRD LEGISLATURE
FIRST SESSION****TWENTY-FIRST DAY**

Legislative Chamber, Lincoln, Nebraska
Friday, February 2, 1973

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Marsh presiding.

PRAYER

Prayer was offered by Rev. George Stulac from Inter-Varsity Christian Fellowship of Lincoln.

Father, we seek to be men and women of God as well as to do the work you desire in this world. In the midst of our work today, make us individuals who experience a fuller realization of what you intend us to be as your creatures. We cripple ourselves with self-centeredness and insecurity. We ask you to free us today to love other people rather than fear them, to act in creativity and wisdom rather than give up in selfish indifference, and to obey your commandments rather than try to manage our own lives. But you have demonstrated that this newness of life comes through Jesus Christ; so we pray in his name. Amen.

ROLL CALL

The roll was called and all members were present except Messrs. Carpenter, F. Carstens, Kennedy, Keyes and Waldron, who were excused; and Mr. DeCamp who was absent until 10:00 a.m.

Legislative Chamber, Lincoln, Nebraska
Tuesday, February 6, 1973

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Marsh presiding.

PRAYER

Prayer was offered by the Chaplain.

Meet with us as we meet once more, O Lord our God, for we do need help. Even our small mistakes become obvious, and our proudest accomplishment but temporary . . .

Our little bills seem so trivial beside the great, breaking events of these times, and so uncertain in response to voices which urge: "do something about this," "do nothing about that" . . .

And those which complain: "Too little;" "Too much." "Too soon;" "Too late."

We do need help! Lobby within our hearts and minds, O God, for everything that is right, lest we give in to anything that is easy. Amen.

ROLL CALL

The roll was called and all members were present except Mr. Simpson who was excused and Mr. Snyder who was excused until he arrives.

LEGISLATIVE RESOLUTION 13.

Introduced by William H. Hasebroock, 18th District.

WHEREAS, the Federal Administration has impounded federal highway trust funds derived from special highway user taxes resulting in a seriously detrimental effect on state road construction programs; and

WHEREAS, the present and future revenues to the fund indicate a federal impoundment of some five billion dollars of highway trust funds; and

WHEREAS, said five billion dollars approximates one year's total federal highway authorizations, raising this year to an anticipated thirty million dollars of the impounded funds belonging to the State of Nebraska; and

WHEREAS, this matter remains of great concern to the people of the State of Nebraska and to the Legislature; and

WHEREAS, this Legislature wishes to be placed on record in support of the action taken by the State of Missouri in their, thus far, successful challenge of the Administration's actions in impounding these funds.

January 18, 1971

Senator Ernest Chambers
 Senator Wally Barnett
 Senator John DeCamp
 Nebraska State Legislature
 State Capitol
 Lincoln, Nebraska

Dear Senators:

You have asked for an opinion concerning the constitutionality of legislation requiring the election of city council members by districts in cities having home rule charters where such cities presently elect city council members at large. We would consider such legislation subject to attack on constitutional grounds, if it were limited to home rule cities.

In our opinion, any requirement of substituting at-large elections by elections from districts would be a matter of state-wide concern and hence a proper subject for legislation. However, limiting such districting requirements to home rule charter cities without making identical provision for cities of the same class operating without such charters would be questionable.

It would be well to state the principles which underlie these conclusions.

As you know, home rule charters are authorized by Article XI of the Constitution of the State of Nebraska, which states in part: that

“any city having a population of more than five thousand (5,000) inhabitants may frame a charter for its own government, consistent with and subject to the constitution and laws of this state. * * *”

Therefore, cities of the metropolitan, primary and first classes may become home rule cities.

The latter part of the quoted provision which states that the charter must be “consistent with and subject to the constitution and laws of this state” has been interpreted by our courts to mean that such cities have power over local concerns while the state continues in its paramount role over matters of state-wide concern. In a 1970 opinion, the Nebraska Supreme Court in *City of Millard v. City of Omaha*, 185 Neb. 617, 620, 177 N. W. 2d 576, reviewed the general proposition and case law in detail. The rule emerges that:

“* * *. where the legislature has enacted a law effecting municipal affairs, but which is also of state concern, the law takes precedence over any municipal action taken under the home rule charter. But where the legislative act deals with a strictly local

municipal concern, it can have no application to a city which has adopted a home rule charter. Whether or not an act of the legislature pertains to a matter of local or state-wide concern becomes a question for the courts when a conflict of authority arises. * * *

As a general proposition, matters pertaining to municipal elections are state affairs and pertinent legislation therefore is for the Legislature. Therefore a contest between two candidates for election in a home rule city was decided by state law, rather than by municipal ordinance, in *McMaster v. Wilkinson*, 145 Neb. 39, 15 N. W. 2d 348 (1944). This rests upon the legitimate concern of the state that the right to vote should be exercised in a manner consistent with constitutional principles. There exists no case in any jurisdiction, which has come to my attention, which has held that the state's legitimate interests extends to regulating the method and manner of exercising the franchise by requiring districting in municipalities. The argument can be made that if no untoward bars to voter participation exists and if every vote is counted equally then it should be a matter of local concern whether to district or not. The answer to that argument was stated in *Midwest Employers Council, Inc. v. City of Omaha*, 177 Neb. 877, 887-88, 131 N. W. 2d 609 (1964):

"This court in several opinions has stated that when the Legislature has enacted a law affecting municipal affairs, but which are also of statewide concern, such law takes precedence over any provisions in a home rule charter and the provisions of the charter must yield. * * *"

Of course the at-large election furnishes an area of state concern that in a municipality with a large population, some portions of the population may be benefited by electing their own representative from their own district who would be then charged to advance their particular interests. The state's concern in civil rights is apparent, and find express support in *Midwest Employers Council, Inc. v. City of Omaha*, supra, 177 Neb. 877, 887, insofar as fair employment practices. At-large elections have been critically mentioned in *Lucas v. Colorado General Assembly*, 377 U. S. 713, 731, 12 L. Ed. 2d 632, 644, 84 S. Ct. 1472 (1964) in which county apportionment was at issue:

"* * *. One of the most undesirable features of the existing apportionment scheme was the requirement that, in counties given more than one seat in either or both of the houses of the General Assembly, all legislators must be elected at large from the county as a whole. Thus, under the existing plan, each Denver voter was required to vote for eight senators and 17 representatives. Ballots were long and cumbersome, and an intelligent choice among candidates for seats in the legislature was

made quite difficult. No identifiable constituencies within the populous counties resulted, and the residents or those areas had no single member of the Senate or House elected specifically to represent them. Rather, each legislator elected from a multi-member county represented the county as a whole. * * *."

In a footnote at this point, the opinion pointed to the diverse interests which might well be contained in a single large entity:

"21. We do not intimate that apportionment schemes which provide for the at-large election of a number of legislators from a county, or any political subdivision, are constitutionally defective. Rather, we merely point out that there are certain aspects of electing legislators at large from a county as a whole that might well make the adoption of such a scheme undesirable to many voters residing in multimember counties."

Therefore there are strong reasons to anticipate that our Court would uphold such legislation as being of state-wide concern, but in advance as you know, the matter is always subject to doubt.

The matter of class legislation is a different matter. The rule states that a law must operate uniformly upon the class "within the relations or circumstances provided for." When examining home rule charter cities to discover if they are a class, keeping in mind the circumstances which give rise to this legislation, it becomes apparent that any vice inherent in at-large elections remains the same in cities of the same size regardless of whether they have charters or not. Legislation was declared unconstitutional in *Axberg v. City of Lincoln*, 141 Neb. 55, 2 N. W. 2d 613 (1942) which concerned firemen's pensions which was by its terms to apply only to "metropolitan cities and cities of the first class * * * except any city of the first class that has heretofore adopted a charter for its own government." The Supreme Court held that such legislation "applies to cities governed by home rule charters the same as other cities in the designated class."

Nor can the proposed legislation which we are discussing be saved by a provision which would limit its applicability to Nebraska municipalities which presently have home rule charters, i. e., Lincoln and Omaha. The reason for this is that the class would be frozen and operate nonuniformly on future members of the class.

You have by now anticipated from what has been stated, that a proper class might contain metropolitan and primary cities, as the amount of population is the most simply devised classification and, the two home rule cities fall within such a class. A classification containing metropolitan, primary and first class cities would also clearly pass muster.

In view of the above, it is our opinion that legislation can be framed to accomplish the objectives you describe.

Very truly yours,

CLARENCE A. H. MEYER

ATTORNEY GENERAL OPINIONS

February 6, 1973

Senator J. W. Burbach
Nebraska State Legislature
State Capitol
Lincoln, Nebraska

Dear Senator Burbach:

You have requested our opinion whether the "one-man, one-vote" rule would apply to the county officials advisory committee, as that body is proposed in legislation currently pending before the First Session of the 83rd Legislature. In our opinion, said rule would not apply to this body.

L. B. 19 provides for an Ad Valorem Advisory Committee to "consult with and advise the Tax Commissioner" on property tax matters, to make recommendations, and to make certain studies. The members are to be county board members and county assessors chosen by such officers within each of six districts in the state. No two members may be from the same county. Further, Section 4 of L. B. 132 would provide funds for the expenses of this committee.

An examination of L. B. 19 and L. B. 132 will reveal that this committee will have no real power. It can only advise, make recommendations, and conduct studies. The Tax Commissioner served by the Committee could ignore its advice, or he could follow the advice of a single member of the Committee.

In general, the apportionment rules apply to bodies which have significant powers (sometimes "legislative" powers, per se, are required). See Keane v. Golka (D.C. Neb.), 304 F. Supp. 331. We know of no case which holds that a mere advisory body, having no real powers, need be apportioned according to any particular formula or constitutional standard.

In our opinion, membership on the present body may be apportioned as the Legislature sees fit, even though that apportionment may involve both population imbalance and geographical discontinuity.

Yours very truly,

CLARENCE A. H. MEYER
Attorney General

February 7, 1973

Honorable John W. DeCamp
Member of the Legislature
Capitol Building
Lincoln, Nebraska

Dear Senator:

In your letter to this office you state that you are sponsoring a bill which, by constitutional amendment, would permit off-track wagering on horse races. You invite our attention to Article III, Section 24, Constitution of Nebraska, and suggest the possibility that by legislation the limitations of that constitutional provision can be avoided. You suggest specifically setting out in an act of the Legislature that "wagering parlors owned or leased by the race track are a part of the race track enclosure, even though said parlors may not be physically attached to the race track itself."

In general, Article III, Section 24 of the Nebraska Constitution prohibits the Legislature from authorizing any game of chance, lottery, or gift enterprise with certain exceptions. Prior to the amendment to this section in 1934 this language of the Constitution was held to prohibit parimutuel betting or any other kind of betting on horse races. See, *State v. Aksarben Exhibition Co.*, 118 Neb. 851, 226 N. W. 705. Parimutuel betting was authorized in 1934 by this language:

“***. Nothing in this section shall be construed to prohibit the enactment of laws providing for the licensing and regulation of wagering on the results of horse races by the parimutuel or certificate method, when conducted by licensees within the race track enclosure at licensed horse race meetings, ***.”

While the Legislature has the power and authority to define words used in any act, this power is limited and subject to a reasonable construction. It cannot be used to nullify and circumvent provisions of the Constitution by the simple expedient of defining terms used therein in an arbitrary, wrong and improper manner. *Moeller, McPherrin & Judd v.*

Smith, 127 Neb. 424, 255 N. W. 551. Attempting to authorize off-track parimutuel betting in the manner you propose by legislation rather than by constitutional amendment would, in our opinion, be clearly invalid.

Yours very truly,

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Marsh presiding.

PRAYER

Creator and Preserver of all life: author and sustainer of our individual lives: high and beyond us, yet nearer than we can think; whose will moves everywhere—whose hand encompasses all the affairs of earth—in whom we live and move and have our being: we invoke your Name and seek your Presence, O Lord our God, as we assemble now for another segment of service. Conscious we are that the actions of this Legislature are being judged by those who have entrusted these offices to us: even more conscious must we be to labor as men and women under Divine judgment. May we stand tall in the eyes of all who watch us here. Amen.

PRAYER

The prayer was given by Rev. Cecil Johnson from First Covenant Church, Lincoln.

O God, Creator of all things, we lift up our hearts in gratitude to you for this day's happiness; especially for our released presence of way for the sheer joy of living; for all sights and sounds around me; for friendship and good company; for work to perform and the skill to do it; for a time to relax when the day's work was done, and for health and a glad heart to enjoy it.

Let us always realize, O God, that life is a pilgrimage; that we have here no eternal city, but we seek one to come.

We thank you, O Lord, that you have put eternity in our hearts, so that no earthly things can ever satisfy us completely. So we offer our praise for the sure hope and promise of an endless life which is revealed to us by the excellent Good News about our Savior which is Christ Jesus. Amen.

LEGISLATIVE JOURNAL

EIGHTY-THIRD LEGISLATURE
FIRST SESSION

TWENTY-EIGHTH DAY

Legislative Chamber, Lincoln, Nebraska
Tuesday, February 13, 1973

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Marsh presiding.

PRAYER

Prayer was offered by Rabbi Myer S. Kripke, Beth El Synagogue, Omaha, Nebraska.

Our God and Father, our yearnings for a better future for thy children everywhere are brightened this day, as weapons are cast aside and prisoners of war strike off the bonds of the captured. Our hearts rise in thanksgiving.

Help us now to strike off the shackles of mistrust and meanness of spirit that impoverish the human mind, blur the human vision, and corrode the supports of all human striving.

Help us to turn the boldness of our restless American spirit and the fertility of our imagination "to bind up the nation's wounds", to bring justice and order to our country, and thus bring hope and resolution to our people.

Our problems and failures are many and vexing; help us to evoke from the depths of our being the energy and the will to banish failure and achieve solution to our problems.

Here in this heart of America and here in this House of the People of Nebraska, let all seek in their common brotherhood the good of the people; let us make the establishment of law the instrument of justice and truth, and the institution of sovereignty the guarantor of the rights of all citizens to life and learning, to security and advancement, to opportunity and to the invigorating and unhindered breath of freedom. Amen.

LEGISLATIVE JOURNAL

**EIGHTY-THIRD LEGISLATURE
FIRST SESSION**

TWENTY-NINTH DAY

Legislative Chamber, Lincoln, Nebraska
Wednesday, February 14, 1973

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Marsh presiding.

PRAYER

Prayer was offered by Rev. E. L. Jeambey, Associate Pastor of the Westminster Presbyterian Church.

Dear Lord and Father of us all:

We would be ungrateful beings if we did not acknowledge Thee as the source of all good, all supply, and the satisfier of the yearnings of the human heart.

We would dedicate ourselves today to the furtherance of those things that are in the will of God for the good of man.

We would think today in the terms of John Adams, the second president of these United States, who boldly urged the American people to promote knowledge and virtue; to support education and true religion, and to champion purity of manner and integrity of life.

We honor him today, he who stood over his congress and prayed "I pray heaven to bestow the best of blessings on this house and all that shall hereafter inhabit it. May none but honest and wise men ever rule under this roof. May this be our prayer today. Lord God of Hosts be with us yet,

Lest we forget! Lest we forget. Amen.

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Marsh presiding.

PRAYER

The prayer was offered by Rev. George M. Stulac from the Inter-Varsity Christian Fellowship, Lincoln.

O God, we acknowledge you as the only source of true life—not just existence as most of us experience it, but that quality of existence which you called “abundant life.” We confess that we are not whole people; we make our lives motivated too much by selfishness and fear. In faith that you are the source of true life, we pray that you would free us today to be whole people, able to act on the basis of honesty rather than prejudice and love rather than self-interest. We have the confidence to ask for this from you only in the name of Jesus Christ. Amen.

COMMUNICATION

February 12, 1973

Mr. Vincent D. Brown
Clerk of the Legislature
State Capitol
Lincoln, Nebraska 68509

Dear Mr. Brown:

President Nixon and Secretary Butz have asked us to reply to your letters with which you enclosed copies of Resolution No. 4 passed by the Nebraska Legislature concerning the Rural Environmental Assistance Program (REAP).

An overwhelming problem that we all face is that of inflationary pressures on the economy. As we all can appreciate, government spending is one of the main causes of inflation. The Administration has announced

that it intends to meet this national problem by restricting 1973 Federal budget outlays to \$250 billion.

In order to do that, it is necessary to trim many programs, as good as they are, and eliminate some of lower priority. It isn't that these lower priority programs aren't useful, but we must terminate some programs in order to meet the budget limitation and successfully counteract the critical problem of inflation. Given that choice, you eliminate those programs of lower priority in Agriculture and in all Departments. On this basis, funding for the REAP was terminated.

We have made considerable progress in the last four years in increasing farm income, which has been a major objective. Realized net farm income in 1972 has risen to \$18.9 billion, 28 percent higher than in 1968. The average net income per farm from farming in 1972 is 39 percent higher than in 1968. Those net income figures would be even higher were it not for the inflationary pressures that raised farm costs.

We will continue to concentrate on those programs that do enhance farm income—as well as accenting those programs and decisions that enable farmers to have more control over their own farm management decisions and to get more of their income from the marketplace.

Sincerely,

(Signed) Elvin J. Person
Acting Administrator

LEGISLATIVE RESOLUTION 11. Placed on General File as amended.
Standing Committee amendment to LR 11:

1. Strike the resolution as introduced and substitute the following language:

Introduced by Rasmussen, 41st District.

WHEREAS, the State of Nebraska is an agricultural state and the production of food and fiber is the keystone for the economic growth, health and welfare of the nation; and

WHEREAS, the Rural Environmental Assistance Program is of great economic significance and has provided for an orderly and effective development of agricultural and environmental controls to foster harmony between man and the soil; and

WHEREAS, this program, designed to preserve the natural resources so vital to the nation, was created by Congress for the benefit of future generations and is a sacred trust to the citizens of the nation and cannot be

arbitrarily broken; and

WHEREAS, this program, and other programs created by the Congress for limited assistance to qualified REA districts and those designed to foster irrigation and water conservation for the protection of the water resources, are now threatened by inconsistent, unsound and totally arbitrary budget cuts by the President which will rob future generations of the benefits of the trust established for them by the Congress for the protection of the natural resources of the nation; and

WHEREAS, the immediate effect of the proposed budget cut will leave existing uncompleted projects and will seriously damage the agricultural interests of Nebraska, the economy of the nation and will impede and stymie environmental control efforts to reverse the degradation of our rivers, streams and lakes; and

WHEREAS, the Congress should stand committed to these programs and give careful review to the budget cut proposals of the administration.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-THIRD LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the President of the United States is respectfully requested to give careful and immediate reconsideration to the budget cut proposals affecting these agricultural and environmental programs and following such immediate and careful reconsideration, reappropriate the funds in the Executive budget.

2. That the President of the United States honor the sacred commitment of Congress to future generations to continue the programs aforesaid.

3. PRAYER

Prayer was offered by Rev. Alfred Ernst of Trinity Luthern Church, Lincoln.

O Lord, our God, Creator of the universe, and the One in whom rests the destiny of men and of nations. We are thankful for the kindnesses You show us in so many ways. We are grateful for the gift of Jesus Christ, in whose life and death your love is perfectly made known. He did not set out to be served, or to lord it over others: His greatness was exercised in service, even to the furthest point of self-sacrifice. We thank you for His work. Long ago in the flesh and ever since through the Holy Spirit, for searching out those who are off the path, urging men on, and giving the unruly a center for their lives.

Father, in all these things it matters greatly to know you are in command. Make us all to serve your purposes, so that when we come to the end of our lives, it may be said of us "Well done, good and faithful servants." We ask all this in Jesus' name and for His sake. Amen.

ATTORNEY GENERAL'S OPINION

February 15, 1973

Senator Orval A. Keyes
Nebraska State Legislature
State Capitol
Lincoln, Nebraska

Dear Senator Keyes:

In your letter of February 14, 1973, you ask whether the state by statute has the right to set the value of livestock at anything but 100 per cent of its actual value, or assess at anything other than 35 per cent of its actual value. Article VIII, Section 1 of the Nebraska Constitution provides that taxes shall be levied by valuation uniformly and proportionately upon all tangible property. That section also provides that the Legislature may provide that livestock shall constitute a separate and distinct class of property for purposes of taxation. However, the requirement of uniformity would apply within the class consisting of livestock, so that all livestock must be taxed uniformly and proportionately. Section 77-201, R. R. S. 1943, provides for assessing property at 35 per cent of actual value. Our answer to your question, therefore, must be that the state must treat all livestock, as a class, uniformly for purposes of taxation. Livestock, however, as a class, could be treated differently from other classes of taxable property.

You have enclosed with your letter a copy of L. B. 367. You have not asked any specific questions about this bill, but we assume from the fact of your having enclosed a copy that you wish our comments on it. L. B. 367 amends Section 77-1262, R. S. Supp., 1972, by providing that registered herd bulls shall be assessed at one and one-half times the value of range and commercial bulls, striking the provision that this should be the minimum valuation, and apparently providing that it should be the value used in all situations. We believe there is serious doubt as to the constitutionality of such an amendment. The present statute obviously contemplates that a registered herd bull whose actual value is in excess of one and one-half times the value of range and commercial bulls shall be assessed at its actual value. L. B. 367 would provide that its assessed valuation would be at the figure designated, irrespective of the actual value of the bull. It would appear that this would violate the uniformity provision of Article VIII, Section 1 of the Constitution.

Very truly yours,

THIRTY-SECOND DAY—FEBRUARY 19, 1973

LEGISLATIVE JOURNAL

EIGHTY-THIRD LEGISLATURE
FIRST SESSION

THIRTY-SECOND DAY

Legislative Chamber, Lincoln, Nebraska
Monday, February 19, 1973

Pursuant to adjournment, the Legislature met at 10:00 a.m., President Marsh presiding.

PRAYER

Prayer was offered by the Chaplain.

The Chaplain read a letter written by George Washington to his wife.

We recognize, our Father, as George Washington saw so clearly, that "no people can be bound to acknowledge and adore the invisible hand which conducts the affairs of men more than those of the United States. Every step by which they have advanced to the character of an independent nation seems to have been distinguished by some token of providential agency."

Believing that the hand that has brought us thus far will not forsake us now, but if we are willing will lead us on into further inspiration and service to all mankind, we would join our prayers this day with those of men and women all over the world who pray for order and peace.

We pray therefore for some evidence in what is said and done here that thou hast been permitted a vote, and that these men and women have yielded their lives to Thee. In Jesus' name. Amen.

The roll was called and all members were present except Messrs. Burbach, C. Carsten, Epke, Johnson and Nore who were excused.

COMMUNICATION

February 14, 1973

Mr. Vincent D. Brown
Clerk of the Legislature
State of Nebraska

State Capitol
Lincoln, Nebraska

Dear Mr. Brown:

Thank you for providing me with a copy of Legislative Resolution 12, declaring the concern of the Nebraska Legislature over P. L. 874 and P. L. 815 funding levels for Federally-impacted school districts to my attention.

Senator Hruska and I have been in contact with the Federal agency and also with the Senate Appropriations subcommittee handling this matter. I note you have sent copies of the resolution to the President and heads of two executive departments involved. I assure you I will do everything possible to secure funding at the level of full entitlement provided by law for the affected Nebraska school districts.

With very best regards, I am

Sincerely yours,

ATTORNEY GENERAL OPINION

February 19, 1973

Senator Terry Carpenter
State Legislature
State House
Lincoln, Nebraska 68509

Dear Senator Carpenter:

Your letter points out that the Legislature has for some time required additional office space in the state capitol building so that it can properly carry on its functions; that the State is already paying a substantial amount for office rental outside this building, and that unless an office building is built a great deal more money will have to be paid out for rental of space, with nothing to show for its except a stack of rent receipts. You also point out that L. B. 447 was introduced with the hope that a building could be started soon to meet the problem of office space for the Legislature and for state government generally. You then state:

"Since that bill was introduced, a suggestion was made that a different approach could be used more effectively. That suggestion was that the Legislature build the building. In that way, we could proceed with construction at a pace, and in a manner, most acceptable to the representatives of the people of

this state, and not have to rely on someone else to get the job done."

Your principal question is whether the Legislature can itself build such a building or whether it must rely on the executive branch to carry forward this project.

Except as limited by the Constitution, the Legislature has broad powers. The only Constitutional provision we find which could conceivably be applied to this particular situation as the basis for a claim that the Legislature did not have the power to build a building is Article II of the Nebraska Constitution which provides for the separation of powers. The claim would be that the building of a building is purely executive function which could not be performed by the legislative branch. But, in this connection, it has been said that: "Although the performance of administrative duties is characteristically the function of the executive branch, administrative duties are frequently required to be performed in order to give full operation to, and to make effective the respective powers of, the legislative and judicial as well as the executive department." (16 Am. Jur. 2d 459)

Here we have a situation where the Legislature feels that it needs additional space, and in order to achieve this objective it proposes to build an office building which will take care of the space needs of the Legislature and of state government. Even if this were held to be a non-legislative function, we think that the building of a building comes within the principle that the Legislature may properly engage in the discharge of such functions to the extent that their performance is reasonably incidental to the full and effective exercise of its legislative powers. (*Spartanburg County v. Miller*, 132 S. E. 673) And, as stated by our Court in the case of *State v. Neble*, 82 Neb. 267, with reference to the doctrine of the separation of powers:

"Thus, it often becomes necessary to the full and proper discharge of the duties imposed upon an official belonging to one class to perform an act the function of which, strictly speaking, belongs to another. The performance of such duties being, to some degree at least, essential to the full discharge of the duties imposed and properly within the power of the actor, the power conferred must be held to be valid; otherwise a condition of chaos would arise. We therefore conclude, as all have done, that the constitution must receive a liberal and general, rather than a strict, construction and application, and that every case must stand or fall relying upon its own merits. In theory the constitution is accepted as stating the one inflexible and unbending rule; yet in practice it is found impossible to obey its every mandate."

The building of a building for the purpose of providing adequate space for the Legislature and state government involves only two functions: the preparation of plans and specifications, and the letting of a contract. These are functions which the Legislature itself carries out every day in order to

take care of its needs. If the Legislature needs office equipment or supplies of any kind in order to properly carry out its function, it prepares plans and specifications, and then lets a contract for them. We see no reason why it cannot also carry on these two functions with respect to a building which it needs for its purposes.

You also ask for suggestions on possible procedure. The Legislature would have broad authority in this area. It would be necessary to select some permanent officer, employee, or Committee of the Legislature to carry forward the project. Neither the Legislature nor the Legislative Council is in continuous existence, so it would be necessary to select a person or committee which is in continuous existence so that it could prepare the plans and specifications and sign the contract at any time. The Legislature could, of course, lay down such conditions for approval of the plans, specifications, and contract as it saw fit to impose.

Very truly yours,

(Signed) Clarence A. H. Meyer
Attorney General

UNANIMOUS CONSENT—Print in Journal

Mr. Whitney asked unanimous consent to have the following report printed in the Journal. No objections. So ordered.

February 19, 1973

To The Members Of The
Nebraska Retirement Systems Committee:

Supplementary Report on the Financial Condition
of the Major State Retirement Systems

The purpose of this report is to provide the 1973 session of the Legislature with the most recent financial condition of the major state retirement systems. The previous report of the financial condition of these systems was presented in a report dated January 12, 1972 and in supplementary reports dated January 31, 1972 and February 25, 1972 from the actuaries to the committee.

A. Unfunded Liabilities

Unfunded liabilities represent the present value of future benefits to be paid out under a retirement system for service which has already been rendered less the accumulated value of the retirement fund which has been built up to offset these liabilities. To the extent that the accumulated fund is less than the value of the benefits already accrued, the retirement system is in debt and this debt is termed the unfunded liability.

The most recent previously reported figures supplied to the committee are those contained in the January 12, 1972 and February 25, 1972 reports to the committee. They are as follows:

<u>System</u>	<u>Calculation Date</u>	<u>Unfunded Liability</u>
State Colleges	6-30-70	-0-
University of Nebraska	6-30-70	7,074,417.00
State Employees Retirement System	12-31-71	252,277.00
School Employees Retirement System	12-31-70	15,933,568.00
Judges Retirement System	6-30-70	1,229,946.00
State Patrol Retirement System	6-30-70	5,440,310.00
TOTAL		\$29,930,518.00

The following are the most recent figures available:

<u>System</u>	<u>Calculation Date</u>	<u>Unfunded Liability</u>
State Colleges	6-30-72	-0-
University of Nebraska	6-30-72	6,195,331.00
State Employees Retirement System	12-31-72	-0-
School Employees Retirement System	6-30-72	7,573,380.00
Judges Retirement System	6-30-72	1,297,638.00
State Patrol Retirement System	6-30-70	5,359,540.00
TOTAL		\$20,425,889.00

The following are some comments on the above figures:

State Colleges

The State Colleges Retirement System has never had any unfunded liability.

University of Nebraska

This unfunded liability arises from the old retirement system in effect for service prior to 1961 at the University of Nebraska-Lincoln. No unfunded liability is in existence for the system at the University of Nebraska at Omaha. This liability is not being amortized and benefits are being paid directly from current revenues with no prefunding. The primary factor in the \$879,086 decrease in the unfunded liability between June 30, 1970 and June 30, 1972 was the increase in the valuation interest rate for the active life portion of the valuation from 4½% to 5%. More details on this unfunded liability are contained in a report to the committee dated August 21, 1972.

State Employees Retirement System

The most recent valuation performed by Bankers Life Nebraska as of December 31, 1972 shows that the State Employees Retirement System was fully funded as of December 31, 1972. This was slightly earlier than the previously estimated date in early 1973 because of an unusually high level or recaptures of non-vested employee terminations during 1972. The attainment of full funding makes it imperative that the 1973 Legislature take action to direct the disposition of non-vested employee terminations.

School Employees Retirement System

This unfunded liability showed a dramatic decrease of \$8,360,188 or 52.5% between December 31, 1970 and June 30, 1972. This rather incredible improvement in the unfunded liability arises from two sources:

1. The primary factor is the elimination of incorrect records being maintained in the manual filing system which were discovered upon the conversion to a partially automated system. The number of excess records being maintained was substantially greater than anyone had anticipated.
2. A secondary factor is a significant improvement in investment performance from the poor results experienced in 1969-1971 when the fund was heavily invested in equities. The previous unfunded liability as of December 31, 1970 had been inflated on this account.

State law required full funding of this liability by January 1, 1994. More details on this unfunded liability are contained in a report made to the Public Employees Retirement Board by their consulting actuary.

Judges Retirement System

This unfunded liability showed a very slight increase of \$67,692 between June 30, 1970 and June 30, 1972. This increase is the result of two major changes in the system since June 30, 1970 which worked in

opposite directions and largely offset each other:

1. The June 30, 1970 valuation incorrectly ignored matching contributions by counties and municipalities for county and municipal judges. This factor decreases the unfunded liability to the state.

2. The consulting actuary to the Public Employees Retirement Board has supplied revised estimates based on the impact of the court reform bill (LB 1032) enacted in 1972. Thus, although LB 1032 did not become effective until January 4, 1973 and the actuarial valuation was performed as of June 30, 1972, the effect of LB 1032 has been taken into account. This factor increases the unfunded liability to the state.

State law requires full funding of this liability by January 1, 1994. More details on this unfunded liability are contained in a report made to the Public Employees Retirement Board by their consulting actuary.

State Patrol Retirement System

This unfunded liability showed an expected slight decrease of \$80,770 between June 30, 1970 and June 30, 1972. State law requires full funding of this liability by January 1, 1994. More details on this unfunded liability are contained in a report made to the Public Employees Retirement Board by their consulting actuary.

B. Indicated Cost to the State for 1973-1974

State Colleges

The state matches employee contributions.

University of Nebraska

The state matches employee contributions. In addition retirement benefits under the old retirement system at the University of Nebraska-Lincoln are paid direct from current revenues with no-prefunding. This annual cost based on June 30, 1972 data is \$336,555.

State Employees Retirement System

The state pays 104% of employee contributions. This amount may be partially offset by recovery of non-vested employee terminations now that past service is fully funded, depending upon legislative action in 1973.

School Employees Retirement System

The recommended state contribution for 1973-1974 is \$2,124,516 which is a substantial reduction from the recommendation for 1972-1973 of \$2,979,917. This dramatic improvement is the result of the same factors discussed above in Section A of this report.

Judges Retirement System

The recommended state contribution for 1973-1974 is \$161,902 which is a substantial increase from the recommendation for 1972-1973 of \$102,008. This increase is entirely due to the impact of the court reform bill (LB 1032).

State Patrol Retirement System

The recommended state contribution for 1973-1974 is \$430,066 which is a slight increase from the recommendation for 1972-1973 of \$413,306. In addition, the state matches employee contributions.

Summary

The supplemental contributions for the school employees, judges and state patrol for 1973-1974 total \$2,716,484. The Governor's budget has requested only \$2,570,017, apparently in error. It is anticipated that the full \$2,716,484 will be included in the final budget bill. It should be noted that this figure represents a reduction from the \$3,285,017 appropriated for 1972-1973.

Lincoln, Nebraska

Dear Mr. President and Senators:

May I courteously request once again your speedy approval of LR 11.

This resolution of support for our No. 1 industry, agriculture, was introduced by Senator Rasmussen, in cooperation with this office and has not been given the priority consideration that it deserves. It has been debated on the floor, referred to committee, re-written and enjoyed wide approval at the public hearing.

The Legislature has previously rushed through resolutions supporting establishment of the National Rifle Association headquarters in Nebraska and the problems attendant with federal cuts in impacted school aid. In concurring completely with these resolutions I suggest you have not been as expeditious on LR 11. I respectfully urge your favorable action on LR 11 immediately.

Yours very truly,

MR. WHITNEY PRESIDING

ATTORNEY GENERAL'S OPINIONS

February 16, 1973

Senator Richard F. Proud
Nebraska State Legislature
State Capitol
Lincoln, Nebraska

Dear Senator Proud:

You have requested our opinion on two closely related issues. Our discussion of these issues follows.

1. You ask, where the Legislature's ratification of a proposed amendment to the Constitution of the United States has been certified to the Administrator of General Services, whether such purported ratification would be voided by the fact that in passing the resolution, the Legislature allegedly failed to follow procedures provided.

Both L. R. 83 and L. R. 86, Eighty-Second Legislature, Second Session (1972), purported to ratify the "Equal Rights Amendment" to the Constitution of the United States. You suggest that neither resolution was printed prior to the vote thereon, and the Legislative Journal does not suggest otherwise. We assume that, in fact, neither was printed.

Article III, Section 14, Constitution of Nebraska, provides:

"Every bill and resolution shall be read by title when introduced, and a printed copy thereof provided for the use of each member, and the bill and all amendments thereto shall be

printed and read at large before the vote is taken upon its final passage”

If our assumption is correct, that neither of the subject resolutions was printed, then Article III, Section 14, has not been complied with. Although we have found no Nebraska cases on the effect of such failure to print, there is authority, in other states, to suggest that constitutional printing requirements are mandatory, and that failure to comply therewith will render the bill or resolution void. See the dictum in *Andrews v. People*, 33 Colo. 193, 79 P. 1031, 108 Am. St. Rep. 76; and the discussion at 50 am. Jur., Statutes, Sections 77-78, pp. 91-92. The validity of either L. R. 83 and 86 is, therefore, doubtful, if neither was printed as required by Article III, Section 14, Constitution of Nebraska.

The Nebraska Legislative Journal, Eighty-Second Legislature, Section Session (1972), at pages 1568 and 1569 shows that the Nebraska Secretary of State reported that he had certified to the Administrator of General Services that L. R. 83 had passed, ratifying the proposed amendment to the Constitution of the United States. Further, although no such report from the Secretary of State is shown concerning L. R. 86, that resolution does direct the Secretary of State to so certify.

In *Leser v. Garnett*, 258 U. S. 130, 137, 66 L. Ed. 505, 511, the court stated:

“The remaining contention is that the ratifying resolutions of Tennessee and of West Virginia are inoperative, because adopted in violation of the rules of legislative procedure prevailing in the respective states. The question raised may have been rendered immaterial by the fact that since the proclamation the legislatures of two other states – Connecticut and Vermont – have adopted resolutions of ratification. But a broader answer should be given to the contention. The proclamation by the Secretary certified that, from official documents on file in the Department of State, it appeared that the proposed Amendment was ratified by the legislatures of thirty-six states, and that it ‘has become valid to all intents and purposes as a part of the Constitution of the United States.’ As the legislatures of Tennessee and of West Virginia had power to adopt the resolutions of ratification, official notice to the Secretary, duly authenticated, that they had done so, was conclusive upon him, and being certified to by his proclamation, is conclusive upon the courts”

In *Leser*, a separate issue was whether a Legislature, in a state which permitted only males to vote, could ratify the Eighteenth Amendment, where the effect thereof would be to invalidate the provisions of the state constitution by giving women the right to vote. The Court stated, 258 U. S. at 137, 66 L. Ed., at 511:

“ . . . But the function of a state legislature in ratifying a

proposed Amendment to the Federal Constitution, like the function of Congress in proposing the Amendment, is a Federal function, derived from the Federal Constitution; and it transcends any limitations sought to be imposed by the people of a state. . . .”

In *Chandler v. Wise*, 307 U. S. 474, 83 L. Ed. 1407, 59 S. Ct. 992, the Kentucky Legislature adopted a resolution purporting to ratify the “Child Labor Amendment.” A state court action was commenced to enjoin the Governor’s certificate of the amendment, but before he was served, the Governor forwarded the certification to the Secretary of State of the United States. The Court held that, at this point, the matter was no longer a controversy susceptible of judicial determination, reversing the state’s highest court, which had held both that it had jurisdiction, and that the purported ratification was not in conformity with the Federal Constitution and was void. The state court, incidentally, had held that once a constitutional amendment has been refused by the Legislature, it cannot later be ratified.

In *Chandler* the state court held that the ratification was void as a matter of federal constitutional law. The Supreme Court did not pass on the question of the validity of the ratification, holding that the courts had no jurisdiction to do so. In our opinion, where the alleged taint derives from provisions in the State Constitution, the courts would similarly be without jurisdiction.

Under 205 of the Revised Statutes of the United States (Comp. St., section 303), the Secretary of State performed functions comparable to those now performed by the Administrator of General Services. The Court, in *United States ex rel. Widenmann v. Colby*, 265 F. 998, error dismissed, 256 U. S. 619, 66 L. Ed. 400, 42 S. Ct. 169, considered a petition for mandamus to require the Secretary of State to cancel his proclamation and certificate that the Eighteenth Amendment had been ratified and was effective. The Court stated, *Id.*, 265 F., at 999-1000:

“It will be observed that by this section [205 of the Revised Statutes] it was the duty of the Acting Secretary of State, upon receiving official notice from three-fourths of the several states (Constitution, art. 5) that the proposed amendment had been adopted, to issue his proclamation. He was not required, or authorized, to investigate and determine whether or not the notices stated the truth. To accept them as doing so, if in due form, was his duty. As soon as he had received the notices from 36 of the states that the amendment had been adopted, he was obliged, under the statute, to put forth his proclamation. No discretion was lodged in him. The act required was purely ministerial. Now, there is no allegation in the petition of *Widemann* that the Acting Secretary of State did not receive official notice from the requisite number of states, nor does the

petitioner in argument claim that he did not. In fact, as we understand it, he admits that he did. His insistence is that the officials of the several states should not have issued the notices; but, as we have said, the Acting Secretary had no authority to examine into that matter, to look behind the notices. From these considerations it follows that the Acting Secretary, instead of failing to perform a duty imposed upon him by statute, the performance of which should be coerced by mandamus, performed a duty enjoined upon him by statute in issuing the proclamation in question. . . ." (Bracketed phrase supplied.)

In summary of the above authorities, we are doubtful that alleged procedural defects, although constitutional in nature, can be raised either in the courts or before the Administrator of General Services, to challenge a certification of ratification. We know of no authority, either statutory or otherwise, which would indicate whether alleged procedural defects can be considered by Congress in its general supervision of the amendment process.

2. You also ask whether your L. R. 9, in the current session of the Legislature, must be printed before it is "placed on final passage." You suggest that the resolution is being treated as a bill. As such, Rule No. 6, section 6(c) of the Rules of the Nebraska Unicameral (1973), require that the bill be printed. We cannot advise you that such rule would not comply with relevant statutory and constitution nor that to follow a less restrictive procedure would necessarily be of such certain validity.

Yours very truly,

CLARENCE A. H. MEYER

cc Mr. Vincent D. Brown
Clerk of the Legislature

February 20, 1973

Senator John W. DeCamp
Nebraska State Legislature
State House
Lincoln, Nebraska 68509

Dear Senator:

Your February 8 letter questions an opinion of this office to you on February 7 in which we concluded that it would be constitutionally improper to proceed by statute to legalize off-track betting in the manner proposed by the following paragraph from your February 6 letter:

"I am wondering if, in designating in the law that I propose, I specifically set out that wagering parlors owned or leased by the race track are a part of the race track enclosure, even though said parlors may not be physically attached to the race track itself."

As we stated, it is our opinion that such a proposal would be invalid under that part of our Constitution which prohibits gambling, but then provides that, "Nothing in this section shall be construed to prohibit the enactment of laws providing for the licensing and regulation of wagering on the results of horse races by the pari-mutuel or certificate method, when conducted by licensees within the race track enclosure at licensed horse race meetings, * * *."

You state that it was your understanding that there was case law to the effect that such a definition was considered reasonable; that our February 7 opinion "has totally unanswered the question," which you restate as being: "Why and for what legal reason is my definition of 'within the enclosure' improper?"

I found no case law which would support your position in a Nebraska courtroom, and I also feel that our February 7 opinion did answer your question. In the case we cited in our earlier opinion, the Nebraska Court summed up the issue in this manner: "May a legislature, under the guise of defining a word, do so with a definition which contravenes our Constitution, and which is not true or legal in fact?" They answered the question in the negative.

Our Constitution does not authorize betting "within the enclosure" as you quote the term in your letter. It only authorizes it "within the race track enclosure". The Legislature has itself recognized since passage of the constitutional amendment that betting can only take place at the track itself, and its interpretation is entitled to weight in court. At the very outset the Legislature provided that: "Within the enclosure of any race track where is held a race or race meeting licensed and conducted under sections 2-1201 to 2-1218, but not elsewhere, the pari-mutuel or certificate method or system of wagering on the results of the respective races may be used and conducted by the licensee in connection therewith."

We adhere to our February 7 opinion.

Very truly yours,

(Signed) Clarence A. H. Meyer
Attorney General

THIRTY-FIFTH DAY—FEBRUARY 22, 1973**LEGISLATIVE JOURNAL****EIGHTY-THIRD LEGISLATURE
FIRST SESSION****THIRTY-FIFTH DAY**

Legislative Chamber, Lincoln, Nebraska
Thursday, February 22, 1973

Pursuant to adjournment, the Legislature met at 9:00 a.m., Speaker Proud presiding.

PRAYER

Prayer was offered by the Chaplain.

Great unseen Spirit, eternal and majestic, ruler of the heavens and the earth, before whom a thousand years are as a watch in the night; yet ever mindful of even the small things of the earth—the sparrow that falls from the skies in death; the cup of cold water given to one in need:

We prepare now to invest another day of public trust in the service of those who have entrusted much to us. Grant that we may do nothing to weaken their trust in us, and may they do nothing to betray our confidence in them.

So may we be especially alert at this time to the frustrations and sensitivities of those who somehow feel that we can dispense easy answers to their complex problems.

Guard us against the ever present inclination to over-react when we feel a cause is being over-demonstrated.

Do not permit us to confuse the authentic promptings of the Divine voice with the noisy chatter of other voices we are hearing.

Give us strong backbones that will not sag under the weight of any amount of pressure from man, but will yield only to the guiding spirit of the God and Father of us all. Amen.

Lincoln, Nebraska

Dear Senator:

In connection with L. B. 195 you have asked us several questions concerning the existing rights of a private citizen to institute legal action in the courts when his interests have been affected by pollution. You explain that in our response you would like some description of what legal procedures are available under the present state of the law.

The Department of Environmental Control, like its predecessor pollution regulatory agencies, is authorized to promulgate laws which restrict the emissions of polluters. The legislative scheme is that the agency will not only make the law, it will investigate and if it finds violations, it will enforce the law. L. B. 195 is designed to authorize the so-called citizen suit, which would generally give to a private citizen the same type of right of enforcement which has been entrusted by law to the regulatory agency.

The present law in Nebraska, set forth in the Administrative Procedure Act, Section 84-901 et seq., which is applicable to the Environmental Control Department as an act establishing minimum administrative procedures for all agencies, provides the following rights to a person who wishes to affect the actions of a regulatory agency.

"84-910. Agency; promulgation, amendment, or repeal; petition. Any interested person may petition any agency requesting the promulgation, amendment, or repeal of any rule. Each agency shall prescribe by rule the form for such petitions and the procedure for their submission, consideration, and disposition."

"84-911. Agency; validity of rule; declaratory judgment; procedure. (1) The validity of any rule may be determined upon a petition for a declaratory judgment thereon addressed to the district court of Lancaster County if it appears that the rule or its threatened application interferes with or impairs or threatens to interfere with or impair the legal rights or privileges of the petitioner. The agency shall be made a party to the proceeding. The declaratory judgment may be rendered whether or not the petitioner has first requested the agency to pass upon the validity of the rule in question.

"(2) The court shall declare the rule invalid if it finds that it violates constitutional provisions, exceeds the statutory authority of the agency, or was adopted without compliance with the

statutory rule-making procedures.”

“84-912. Agency; applicability of rule; declaratory ruling; review of ruling. On petition of any interested person, any agency may issue a declaratory ruling with respect to the applicability to any person, property, or state of facts of any rule or statute enforceable by it. A declaratory ruling, if issued after argument and stated to be binding, is binding between the agency and the petitioner on the state of facts alleged unless it is altered or set aside by a court. Such a ruling is subject to review in the manner provided in the code of civil procedure. Each agency shall prescribe by rule the form for such petitions and the procedure for their submission, consideration, and disposition.”

You will note that the rights granted under these provisions are given to “any interested person” or one with “legal rights or privileges”. This means that in order for the person to initiate any action he must have suffered damages to a legally protected interest. This is a major difference from rights authorized by citizen suits, which authorize a suit by one who has no property right or other recognized legally protected interest which has been invaded, but who asserts as a citizen of the state that the natural resources of the state are adversely affected.

That is not to say that the private citizen is denied access to the courts. He may bring a private lawsuit against the polluter complaining that his rights have been adversely affected by the defendant polluter. This may be a suit for money damages or an action to enjoin the polluter from continuing his conduct. There are four recognized legal theories of liability in pollution cases, nuisance, trespass, negligence, and strict liability. To sustain a nuisance theory it is necessary to prove that the pollution complained of is so frequent and noxious that it has a propensity to cause harm and that it caused the plaintiff damages. In a trespass suit it is necessary to demonstrate that the polluter is interfering with the enjoyment of the victim’s property as a result of the escape of pollution from the polluter’s property to the victim’s. Negligence theory is the basis of a suit where the polluter is doing something which is likely to cause harm to others and where he has a legal duty to refrain from causing that harm. Strict liability is the basis for an action in which the law places upon the polluter the duties in the nature of an insurer. These types of lawsuits are brought by a private individual, generally but not necessarily represented by counsel, in the courts of the county in which the damage took place.

L. B. 195 as written would not limit access to the courts by a private individual for an invasion of his rights, but rather would extend to private individuals the right to complain that an emission limitation, set by the regulatory agency, was exceeded and not excused. Further, it would force the Director of the Environmental Control Department into court to explain the reasons which prompted his administrative decisions concerning enforcement, in the particular case. The resolution of these

conflicting points of view are essentially political in nature, and we are therefore refraining from any judgment concerning their respective political merits.

Yours very truly,

CLARENCE A. H. MEYER

ATTORNEY GENERAL OPINION

February 21, 1973

Senator Steve Fowler
Nebraska State Legislature
State Capitol Building
Lincoln, Nebraska

Dear Senator Fowler:

You have requested our interpretation of Sec. 23-113, R.R.S. 1943, as pertains to Indian burial grounds. That section of the statutes authorizes county boards to expend money from the county general fund for the "care and maintenance of each abandoned and neglected cemetery." Legislative Bill 277, introduced at the current session, would effect no change in the law other than to specify what shall constitute care and maintenance.

You inquire as to the validity and propriety of applying the statute with respect to Indian burial grounds. It is true that the federal government, generally speaking, has exclusive jurisdiction over native American Indians and Indian Country, to the exclusion of any incompatible regulation or control by any branch of state government. However, it seems to us that a matter such as care and maintenance by a county of abandoned and neglected Indian burial grounds would not constitute regulation or control; but, rather, it would be in the nature of granting aid.

Since, in effect, the federal government has established a guardian-ward relationship with respect to Indians and their property, it might appear appropriate that the care and maintenance of abandoned and neglected Indian burial grounds is something for which it should assume responsibility. However, be that as it may, in the absence of federal action, we feel that it is within the power of a county within which an abandoned and neglected Indian burial ground may be located to provide care and maintenance for the same.

Your final question goes to whether the present statutory language would include Indian burial grounds or if additional language should be enacted specifically making the statute applicable to Indian burial grounds. The statute simply uses the general term, "cemetery," without any restriction or limitation whatever. We believe that the terms "cemetery" and "burial ground" are essentially synonymous and that there is no necessity to specifically refer to Indian burial grounds in order to render the law applicable thereto. This is not to say, of course, that it would be improper to incorporate into the statute a specific reference to Indian burial grounds.

However, we should point out that simply because in a given area there may be located a few random, scattered Indian graves is insufficient basis for declaring the area to be a burial ground. In *Town of Sudbury v. Department of Public Utilities*, 218 N. E. 2d 415, 424, an objection was urged to the attempted taking of an easement by eminent domain through a parcel of land, on the grounds that the land constituted an Indian burial ground. The following appears in the opinion in that case:

“The department concluded that the remains of one human being and the possibility of others scattered throughout the area were not, in its opinion, a basis for designating the land as a burial ground within c. 114, Section 17, which ‘plainly refers to a tract of land definable and readily identifiable as a burying ground.’ The department inferred from Smith’s testimony that ‘Indian burial was random in nature.’ The decision further stated, ‘There is certainly no evidence of an area or tract of land specifically defined as such.’

“The department’s finding was clearly right. * * *.”

Similarly, in Village of Villa Park v. Wonders’ Rest Cemetery, Co., 147 N. E. 104, 105, the court said that a cemetery is a place or an area of ground formally set apart for burial of the dead and that a cemetery is created by the act of setting apart the ground for burial, marking, and distinguishing it from adjoining ground as being a place of burial.

Very truly yours,

The following bill was read for the first time by title:

UNANIMOUS CONSENT—Print In Journal

Mr. Stahmer asked unanimous consent to have the following letter printed in the Journal. No objections. So ordered.

February 26, 1973

The Honorable Dave Stahmer
State Senator
Capitol Building
Lincoln, Nebraska

Dear Senator Stahmer:

In the interest of eliminating the furor and discontent that has been created by your introduction of LB 300, I respectfully request that you withdraw this measure from legislative consideration.

I note with understanding the legitimate concern of the people affected by this proposal including the mass circulating of petitions and even legal actions.

I suggest all of this bitterness is not in the best interest of education nor the students affected.

Regardless of what I am sure were your good intentions, forcing District 66, Millard, and parts of the Ralston area into the Omaha school district is so fraught with problems that further considerations now cannot possibly be justified.

In my opinion, all of this is unfortunately "much ado about nothing," because it is difficult to imagine how you could possibly muster 25 votes for passage of LB 300.

While I customarily reserve my decisions on legislative initiated measures until and if they are passed and forwarded to me, I feel that I have an obligation to inform you now that if LB 300, as drawn, is passed and presented to me, it will receive my prompt veto.

Before any more time, effort or bitterness is wasted on this effort, I hope you will reconsider.

Yours very truly,

(Signed) J. James Exon
Governor

Mr. Carpenter asked unanimous consent to have the following statement and amendment printed in the Journal. No objections. So ordered.

STATEMENT OF INTENT TO LB 396

The Legislature finds that the Education Amendments of 1972 to the Federal Higher Education Act of 1965 provides that the Office of Education, Department of Health, Education and Welfare will fully insure student loans for the payment of both the principal and interest for all student loans made after March 1, 1973, so that the credit of the United States is pledged; the Legislature further finds that during the past 14 three-month periods the Secretary of Health, Education and Welfare, after consultation with the Secretary of the Treasury, has set the special interest allowance rate to which holders of student loans are entitled in addition to the fixed interest return established by law, at a rate of return which is equitable considered in the light of the then current economic conditions and the particular relevant money market (fluctuating between 9 1/4% and the present 7 3/4%) and is charged by law to continue this duty; further that it will foster the investment in student loans and return to the state funds the fullest yield if all interest payments shall be credited to the fund

from which the investment was made, without deductions for administrative expenses and without commercial enterprises profiting from servicing arrangements; that in view of the policy of this state contained in the 1968 amendment to the Constitution of the State of Nebraska, in Article XIII, section 3 that the state may guarantee or make student loans to Nebraska residents, that the state should foster this object by providing that state funds shall be invested in fully insured student loans, so long as they remain a prime investment, that the state investment office shall continue to make student loans with the assistance provided by the Board of Regents, and that the expenses of administration, expected to amount to the salary of three persons, shall be borne by the General Fund.

AMENDMENT TO LB 396:

1 Section 1. That section 72-1241, Reissue Revised

2 Statutes of Nebraska, 1943, be amended to read as

3 follows:

4 72-1241. The state investment officer shall

5 devote his entire time and attention to the duties of his

6 office. He shall not engage in any other occupation or

7 profession or hold any other public office, appointive or

8 elective. If for any reason the state investment officer

9 is unable to perform the duties of his office, or the

10 office is vacant due to death, resignation or otherwise,

11 the council shall designate an acting state investment

12 officer to serve until the state investment officer is

13 able to act or the vacancy is filled. With the approval

14 of the council, the state investment officer ~~may shall~~

15 ~~designate a deputy to perform such acts and duties as the~~

16 ~~state investment officer shall authorize, subject to the~~

17 ~~same restrictions as apply to the state investment~~

18 ~~officer an assistant to assist him in administering the~~

5 federal savings and loan associations in the State of
6 Nebraska to the extent that such accounts are insured by
7 the Federal Savings and Loan Insurance Corporation; (7)

13 use, a rating of AAA, AA or A, and (b) not more than five
14 per cent of the total investment fund shall be invested
15 in the obligations of any one issuer; (8) direct

24 state thereof with a net worth of ten million dollars or
25 more, except that (a) not more than forty per cent of the
26 total money available for investment at the time such
27 investment is made shall be in this class and not more
1 than five per cent shall be invested in each of the first
2 eight years, and (b) not more than five per cent thereof
3 shall be invested in the securities of any one
4 corporation. Notwithstanding the aforesaid percentage
5 limits, the cash proceeds of the sale of such securities
6 of any corporation may be reinvested in any securities
7 authorized under this subdivision. The state investment
8 officer may invest money available for investment in any
9 fund with one or more primary carriers which shall invest
10 such money in a manner authorized by the state investment

20 applicable federal requirements for the administration
21 and transaction of the student loan programs, and shall
22 perform such other duties as may be required to
23 administer the provisions of sections 72-1246 to
24 72-1246.05 and this section. It shall be the duty of the
25 council to maintain its status as a lender eligible to
26 administer student loans from the federal Department of
27 Health, Education and Welfare. The state investment
1 officer shall be charged with the duties of administering
2 the provisions of sections 72-1246 to 72-1246.05 and this
3 section. The council may by contract with the Board of
4 Regents of the University of Nebraska for services in
5 connection with the administration of such programs.
6 (2) The Nebraska Investment Council, out of funds

8 insured by the United States for the payment of the
9 principal and interest thereof, authorized by sections
10 72-1246 to 72-1246.05 and this section, so long as the
11 investment in such securities does not impair its
12 obligation as trustee of state funds. Should the
13 Nebraska Investment Council conclude that it cannot
14 lawfully invest in such securities, it shall file a
15 report with the Clerk of the Legislature stating its
16 reasons for such conclusion. Such student loans shall be
17 made to Nebraska residents attending Nebraska
18 institutions and the Nebraska Investment Council shall

23 year, stating the number of applications for student
24 loans and the dollar amounts requested in the previous

6 setting forth the investments bought, sold, and
7 exchanged, the dates of the transactions, the prices paid
8 and obtained, stated yield and anticipated yield,

 21 shall be paid out of appropriations from the General Fund
 22 for the office of the state investment officer.

 24 section 3 of this act, the Nebraska Investment Council
 25 may continue to hold and administer student loans
 26 authorized by subdivision (9) of section 72-1246 prior to
 27 the effective date of this act.

UNANIMOUS CONSENT—Print in Journal

Mr. Stahmer asked unanimous consent to have the following letter printed in the Journal. No objections. So ordered.

February 27, 1973

Honorable Members of the
 Nebraska Professional Practices Commission
 233 South 10th Street
 Lincoln, Nebraska 68508

Dear Members:

I, Senator David H. Stahmer of the 8th Legislative District of the State of Nebraska, do hereby file an official complaint against Mr. H. Vaughn Phelps, Superintendent of Schools, School District 66, Douglas County, Nebraska.

On or about February 9th, 1973 said Mr. Phelps did request of Mr. Ed Fischer, Editorial Cartoonist of the Omaha World Herald, the original drawing of a cartoon depicting me in a very uncomplimentary light. When I asked Mr. Fischer personally for the original of the cartoon, he said he would have been glad to give it to me, except that said Mr. Phelps had requested it, and that it was delivered to Mr. Phelps.

I believe it is beneath the dignity of the teaching profession of this state to allow a person held out to be a professional to display in his office or in his home so that he might join together with whomever he associates with to laugh at my expense.

As a duly elected State Senator, it is a difficult enough decision trying to vote on the merits of legislation concerning children, schools, and professions without having ones mind unnecessarily and additionally agitated by what I consider to be an unprofessional act.

I believe said cartoon rightfully belongs in my home for my own amusement.

Sincerely,

(Signed) David H. Stahmer
Senator, 8th District

ATTORNEY GENERAL OPINION

February 27, 1973

Senator Herbert J. Duis
Nebraska State Legislature
State Capitol
Lincoln, Nebraska 68509

Dear Senator Duis:

In your letter of February 26, 1973, you state that a non-profit organization in Gothenburg is purchasing vacant land in order that it may be used to promote industry within the community. You state that the organization is required to pay taxes on the vacant land which it owns, and that this is a burden on it, since it is a non-profit organization. You ask whether legislation could be introduced which would make such land owned by a non-profit development corporation tax exempt. We conclude that such a statute would be in violation of Article VIII, Section 2 of the Nebraska Constitution.

This section of the constitution provides in part:

“* * *. The Legislature by general law may exempt property owned by and used exclusively for agricultural and horticultural societies, and property owned and used exclusively for educational, religious, charitable, or cemetery purposes, when such property is not owned or used for financial gain or profit to either the owner or user. * * *. No property shall be exempt from taxation except as provided in the Constitution. * * *.”

The property in question, as you have described it in your letter, would not be used for financial gain or profit by either the owner or user. However, by no stretch of the imagination could the holding of this land by the non-profit organization be described as being for educational, religious, charitable, or cemetery purposes, which is a requisite for a tax exemption under this provision of the constitution. We therefore conclude that any attempt to exempt such real estate from taxation while it was being held for development in the manner outlined in your letter would be in violation of the above quoted section of the Nebraska Constitution.

Very truly yours,

CLARENCE A. H. MEYER
Attorney General

Assistant Attorney General

FIRST SESSION**

FORTIETH DAY

Legislative Chamber, Lincoln, Nebraska
Thursday, March 1, 1973

Pursuant to adjournment, the Legislature met at 9:15 a.m., Speaker Proud presiding.

PRAYER

Prayer was offered by the Chaplain.

Almighty God, before whose face the generations of men rise and pass away, we thank you this day for the opportunity of celebrating the birthday of our State. We remember in gratitude this native land—and all who have sacrificed so much to keep her strong and right.

We are thankful that our land was born and nurtured in liberty, and that those who settled on these plains were men and women who desired the opportunity to build here a better place in which all could live together in harmony and justice.

We are thankful that when there have been dangers before our State there have been those who have risen to defend her—placing their State's welfare above private gain.

So may this Nebraska celebration remind us anew of the importance of a continuing heritage, served by the Senators here and those who assist them, and by all the people of the State, that together we may have a sense that this land is not only our land, but your land, of the people, for the people, and by the people. Amen.

FORTY-FIRST DAY

Legislative Chamber, Lincoln, Nebraska
Friday, March 2, 1973

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Marsh presiding.

PRAYER

Prayer was offered by the Chaplain.

O Lord our God: we in this Legislature want to become friends and advocates of every plan and program which will enable men and women and children to live better, easier, fuller lives; therefore we ask for imagination able to interpret statistical records and research papers in terms of the sufferings, the longings, the real life needs of human beings.

May it become the personal creed of each legislator never to seek anything for self which might short-change others, but always to seek for others the same good life that is sought for self. Our prayer is offered in the name of Jesus—our Friend, our Saviour, our Example, our Guide. Amen.

State Capitol Building
Lincoln, Nebraska

Dear Mr. President and Senators:

I wish to advise you that pursuant to Article 4, Section 15, of the Constitution of the State of Nebraska, as amended in 1972, I have signed LB 40 into law, but have reduced LB 40A from the amount of \$59,971 to the amount of \$25,000 per line one and two in the title and per line two in section one.

I believe such reduced sum is sufficient to carry out the provisions of LB 40 as amended.

Very truly yours,

ATTORNEY GENERAL OPINION

March 2, 1973

Senator David H. Stahmer
Nebraska State Legislature
State Capitol
Lincoln, Nebraska

Dear Senator Stahmer:

You have inquired as to the holding of the court in *Ratigan v. Davis*, with specific reference to whether or not the court ruled in that case on the constitutionality of School District Number 66 of Douglas County and whether or not the holding in that case would support the proposition that L. B. 300 is or is not constitutional.

Ratigan v. Davis is reported at 175 Neb. 416, 122 N. W. 2d 12 (1963). In that case the court stated:

“The contention here made is that, as the petitioners reside and own property within the city of Omaha but do not reside or

own property within the school district of Omaha, and as the regents of the municipal university are selected by the school board of the school district of Omaha, the petitioners are being taxed without representation and in violation of various sections of the state and federal Constitutions." (175 Neb. at 418.)

Upon analyzing that contention, the court stated that the maxim that taxation without representation "does not mean, as many seem to think, that no person can be taxed unless, in the body that determines the amount of the tax to be levied, he is represented by someone for whom he has a right to vote." In concluding its analysis the court stated:

"We do not deem it necessary to discuss other questions raised. No constitutional provision stands as a bar to the levy of two mills on the dollar on assessed value of the tangible property in the annexed areas for the support of the municipal university. The trial court correctly sustained general demurrers to the petition of the plaintiffs and its judgment is affirmed." (175 Neb. at 423.)

The court did not discuss the constitutionality of the organization of School District Number 66 of Douglas County in that case. Nor would the holding in that case, in our opinion, support the proposition that L. B. 300 is or is not constitutional.

Very truly yours,

CLARENCE A. H. MEYER
Attorney General

Remind us also, O God, that Your eyes are open, and You see what is going on in this House, and in each heart within it. Amen.

ATTORNEY GENERAL OPINION

March 2, 1973

Senator Gary L. Anderson
 Nebraska State Legislature
 State Capitol
 Lincoln, Nebraska

Dear Senator Anderson:

In your letter of inquiry you note that L.B. 197 provides, inter alia, that "Educational Service Units may purchase, lease, or lease-purchase equipment necessary for providing services to member school districts." You also note that Senator Waldron's amendment, adopted 23 February 1973 provides that "Any equipment purchased or lease-purchased under the authority of this section shall not be resold to any other government subdivision unless it is no longer functional." You then state that Education Service Units have been conducting cooperative purchasing programs to provide equipment to member schools at lower cost and ask our opinion as to whether the language of L.B. 197 can be construed in anyway as to preclude these cooperative purchasing programs.

Senator Waldron's amendment, adopted 22 February 1973, would add one sentence to the end of section 3 of L.B. 197 which had been amended the previous day by Senator Barnett's amendment. Consequently section 3 of L.B. 197, as of 22 February 1973, would read as follows:

"79-2201.01. In order to carry out the purposes provided in section 79-2201, educational service units may purchase or lease-purchase real estate and may purchase, lease, or lease-purchase equipment necessary for providing services to member school districts. The lease or purchase agreement for equipment shall not extend beyond 10 years. Any equipment purchased or lease-purchased by the ESU's shall not be resold to other governmental subdivisions, unless the equipment is no longer functional."

As amended above, the statute is somewhat ambiguous. On the one hand it purports to grant educational service units the power to "purchase, lease, or lease-purchase equipment necessary for providing services to member school districts" and on the other hand it states that "[a]ny equipment purchased or lease-purchased by the ESU's shall not be resold to other governmental subdivisions, unless the equipment is no longer functional." We also wish to advise you that an E & R amendment to L.B. 197 of 23 February 1973 would modify Senator Waldron's amendment. Consequently section 3 of L.B. 197, as of 23 February 1973, would read as follows:

"79-2201.01. In order to carry out the purposes provided in section 79-2201, educational service units may purchase or lease-purchase real estate and may purchase, lease, or lease-purchase equipment necessary for providing services to

member school districts. The lease or purchase agreement for equipment shall not extend beyond 10 years. Any equipment purchased or lease-purchased under the authority of this section shall not be resold to any other governmental subdivision unless it is no longer functional."

As amended above, the statute is also somewhat ambiguous. On the one hand it purports to grant educational service units the power to "purchase or lease-purchase equipment necessary for providing services to member school districts" and on the other hand it states that "[a]ny equipment purchased or lease-purchased under the authority of this section shall not be resold to any other governmental subdivision unless it is no longer functional." It could, of course, be argued that the phrase "any other governmental subdivision" refers to and means a governmental subdivision other than a school district. If that is the legislative intent, then section 3 of L.B. 197, as of 23 February 1973, could be construed to authorize educational service units to purchase, lease, or lease-purchase equipment necessary for providing services to member school districts but any such equipment could only be resold to member school districts and to no other governmental subdivision unless it is no longer functional. We suggest that this matter be clarified.

Very truly yours,

CLARENCE A. H. MEYER
Attorney General

Wednesday, March 7, 1973

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Marsh presiding.

PRAYER

Prayer was offered by the Chaplain.

For one moment at least, O Lord our God, we would close our eyes to journals and letters and bills, and open our hearts to the spiritual inspirations of Ash Wednesday . . . start of the season of reflection, of rededication, of inner renewal for most of us in this House, and for most of those we represent.

Do not permit us, in our concentration on legislative details before us, to deny ourselves the intended blessing of this day, and of this season of Lent.

Remind us just now of that One who came to earth 2,000 years ago as Your representative on earth. May this season in which we devote special reverence to Him become a blessing to each member of this House. Amen.

L. B. 332 defines a historic or special interest vehicles. No minimum age is required for a vehicle to be classified as an historic or special interest vehicle. However, the provision of Section 2 of the bill, giving historic or special interest vehicles special treatment with respect to licensing and taxation applies only to such vehicles which are 20 years or more old at the time of making application for registration or transfer of title. This

section provides that such a vehicle may be registered upon payment of a fee of \$15.00 and furnished license plates of distinctive design in lieu of the usual license plates. This registration shall be valid while the vehicle is owned by the applicant without payment of any additional fee, tax, or license.

Section 3 of the bill provides that such vehicles may be used for the same purposes as other motor vehicles of the same type except that such vehicles may not be used to transport passengers for hire, with some exceptions spelled out in the bill.

Article VIII, Section 1 of the Constitution provides that taxes shall be levied by valuation uniformly and proportionately upon all tangible property, and your question is whether L. B. 332 violates this provision. In spite of the language requiring uniform and proportionate taxation, numerous exceptions have been added to Article VIII by amendments. One of these is found in Article VIII, Section 2, which provides that the Legislature may classify personal property in such manner as it sees fit, and may exempt any of such classes, or may exempt all personal property from taxation. L. B. 332, in effect, exempts historic and special interest vehicles over 20 years of age which are registered in the manner prescribed by the act from ad valorem taxation, since the registration fee prescribed by the act is in no sense an advalorem tax. Since the Legislature is authorized to classify personal property for purposes of taxation, the basic question is whether the class described as historic or special interest vehicles over 20 years of age is a reasonable one, since it is basic constitutional law that it is competent for the Legislature to classify for purposes of legislation, if the classification rests on some reason of public policy, some substantial difference of situation or circumstances, that would naturally suggest the justice or expediency of diverse legislation with respect to the objects to be classed. See *Shear v. County Board of Commissioners of Rock County*, 187 Neb. 849, 195 N. W. 2d 151.

We are not prepared to say that is unreasonable for the Legislature to classify the types of motor vehicles covered by the act differently from other motor vehicles, or other personal property. Most motor vehicles are kept and used for utilitarian purposes of transportation, while the vehicles in question would, for the most part, be kept as hobbies and for showing to the public. The requirement that such vehicles be more than 20 years of age provides some protection against abuse of the registration provision, so that few attempts would be made to register a vehicle which was to be used for transportation as an historic or special interest vehicle. No doubt the argument has been made that it is important that some samples of such vehicles be preserved for future generations for historic purposes. Under these circumstances, we cannot say that classifying such vehicles for purposes of taxation differently from other motor vehicles or from other personal property has no rational basis. Since the Legislature has been given authority to classify personal property for purposes of taxation, we therefore conclude that L. B. 332 is not in violation of the uniformity provision of Article VIII, Section 1 of the Constitution.

Senator Terry Carpenter
Nebraska State Legislature
State Capitol
Lincoln, Nebraska

Dear Senator Carpenter:

In your letter of March 1, 1973, you ask whether state building and loan laws will take precedence over federal legislation and prevail over federal law when concerned with federally chartered savings and loan associations, and whether the State of Nebraska can currently pass new laws which will govern federally chartered institutions as well as state chartered institutions.

In answer to your first question, state law cannot take precedence over federal law pertaining to federal savings and loan associations. Federal savings and loan associations are created by federal statutes, and are subject to federal regulations and to supervision and control by the Federal Home Loan Bank Board. In the case of *Ochs v. Washington Heights Federal Savings and Loan Association*, 215 N. E. 2d 485, 17 N. Y. 2d 82, 268 N. Y. S. 2d 294 (1966), the court held that since a federal savings and loan association was an instrumentality of the United States, no New York statute was directly applicable to the supervision and control of its internal management, but that such a federal association was subject to the law of the state unless it conflicted with a federal law, policy or preemption by Congress. There is therefore no question that, in case state law conflicts with federal law dealing with the control and management of federal savings and loan associations, federal law will prevail.

It is difficult to give a categorical answer to your second question in general terms. It is possible that the state might pass some laws which might, at least indirectly affect federal savings and loan associations in areas which have not been preempted by the federal government. Before we could give you a definite answer to your question, we would have to look at specific legislation, to see whether it was in such a non-preempted area. We believe, however, that such areas are rather small, as the Federal Home Loan Bank Board pretty thoroughly supervises and controls the operations of such associations. There are some areas in which the federal

act defers to state statutes, as for example, in 12 U. S. C. A. section 1464, in which the federal associations are authorized to invest in or lend money to business development credit corporations in the same manner and to the same extent as the statutes of the state in which the association is located authorize a state association to invest in or lend money to such corporations. Also, the federal regulations provide that the board will permit branches and mobile facilities by federal savings and loan associations if the state law or state practice permits state chartered associations to establish branches in the state. To this extent, federal associations are indirectly controlled by state law.

You will note, however, that the examples we have given in the preceding paragraph are dependent upon express federal statutory law or regulation. As a general proposition, we can say that the answer to your second question, whether the state can pass a new law which will govern federally chartered institutions as well as state chartered institutions is that it cannot.

Very truly yours,

MESSAGE FROM THE GOVERNOR

March 7, 1973

Mr. President, Mr. Speaker,
and Members of the Legislature
State Capitol
Lincoln, Nebraska

Dear Mr. President and Senators:

I return herewith LB 14 and its companion LB 14A, the sixty thousand one hundred twenty one dollar spending measure, with my objections and without my signature.

Section One provides that the Superintendent of the Nebraska State Patrol shall employ three attorneys to assist County Attorneys in the "preparation and prosecution" of cases. In theory, I believe it to be improper to have enforcement and investigative personnel directly involved in prosecution. That is a legitimate function of duly elected prosecuting attorneys separate from investigative officers.

I believe that the Attorney General should be involved in such matters and would support and increase in the Attorney General's budget for one attorney under that department to furnish information to the Patrol and other law enforcement personnel in the state on drug enforcement matters. As you know, such a practice is currently followed with Deputy Attorney Generals assigned to departments of Roads, Welfare, and the Liquor Commission. It seems consistent to keep such authority centered under the Attorney General.

LB 14 provides a great deal of unnecessary language regarding duties of the Attorney General which are already spelled out in existing statutes.

There is a suggestion that such language was deemed necessary because of the change in the name of the Railway Commission to the Public Service Commission. If that was the intent of that portion of LB 14, then it would be better to enact a simply stated statute to accomplish that end.

Yours very truly,

ATTORNEY GENERAL OPINIONS

March 2, 1973

Senator David H. Stahmer
Nebraska State Legislature
State Capitol
Lincoln, Nebraska

Dear Senator Stahmer:

You have inquired as to the holding of the court in School Dist. No. 54 v. School Dist. of Omaha, with specific reference to whether or not the court ruled in that case on the constitutionality of School District No. 66 of Douglas County and whether or not the holding in that case would support the proposition that L. B. 300 is or is not constitutional.

School Dist. No. 54 v. School Dist. of Omaha is reported at 171 Neb. 769, 107 N. W. 2d 744 (1961). The purpose of that action was for an accounting of money collected by the municipal court of the city of Omaha as a result of prosecutions brought therein for violation of the general laws of the State and whether the same should be distributed to all the school districts of Douglas County or should it be distributed only to the school districts in the city of Omaha. The court did not discuss the constitutionality or the organization of School District No. 66 of Douglas County in that case. Nor would the holding in that case, in our opinion, support the proposition that L. B. 300 is or is not constitutional.

Very truly yours,

CLARENCE A. H. MEYER

Mr. Vincent D. Brown
Clerk of the Legislature

March 5, 1973

Senator Roland A. Luedtke
Nebraska State Legislature
State Capitol
Lincoln, Nebraska

Dear Senator:

You have asked our opinion concerning the possible effect that L. B. 261 would have on the exercise of the pardoning power by the Governor, Attorney General and Secretary of State granted in Article IV, Section 13 of the Constitution of the State of Nebraska. L. B. 261 provides that, upon conviction, certain classes of narcotics offenders are to receive a mandatory life sentence, without possibility of parole. The issue is then whether a life sentence issued under such a law would prevent the Board of Pardons from commuting it to a term of years.

Because the Board of Pardons is granted the power to grant pardons and commutations by the Constitution, legislation cannot impair the exercise of that power, either directly or indirectly, and therefore if L. B. 261 were to be enacted into law, it would not restrict the pardoning power of the board over this class of offenders. In our opinion the language of the constitutional provision fixes absolutely the power to pardon in the Governor, Attorney General and Secretary of State. The pertinent language appears in Article IV, Section 13:

“... The Governor, Attorney General and Secretary of State, sitting as a board, shall have power to remit fines and forfeitures and to grant respites, reprieves, pardons, or commutations in all cases of conviction for offenses against the laws of the state, except treason and cases of impeachment. The Board of Parole may advise the Governor, Attorney General and Secretary of State on the merits of any application for remission, respite, reprieve, pardon or commutation but such advice shall not be binding on them. The Governor shall have power to suspend the execution of the sentence imposed for treason until the case can be reported to the Legislature at its next session, when the Legislature shall either grant a pardon or commute the sentence or direct the execution, or grant a further reprieve.”

Except for the express restriction concerning treason and impeachment the grant of pardoning power to the board is absolute, and such unlimited language has been historically so construed. A leading case is *Ex parte Garland*, 4 Wall. (U. S.) 333, 18 L. Ed. 366. in that case the United States Supreme Court held that once the President of the United States had granted a full pardon in the Civil War that Congress could not abridge that power by legislation requiring attorneys who desired to practice before federal courts to swear that they had never borne arms against the United States:

“The Constitution provides that the President ‘shall have power to grant reprieves and pardons for offenses against the United States except in cases of impeachment.’ Art. II. Section 2.

“The power thus conferred is unlimited, with the exception stated. It extends to every offense known to the law, and may be exercised at any time after its commission, either before legal proceedings are taken, or during their pendency, or after conviction and judgment. This power of the President is not subject to legislative control. Congress can neither limit the effect of his pardon, nor exclude from its exercise any class of offenders. The benign prerogative of mercy reposed in him cannot be fettered by any legislative restrictions.”

In 1949 legislation was introduced into the Nebraska Legislature which attempted directly to impose upon the Board of Pardons the condition

that no life term might be considered for executive clemency before he had served at least 20 calendar years of his sentence. At that time Article IV, Section 13 of the Constitution contained a provision which was susceptible of the interpretation that the Legislature might prescribe limitations upon the pardoning power. The pertinent language was as follows:

“Said board, or a majority thereof, shall have power to remit fines and forfeitures and to grant commutations, pardons and paroles after conviction and judgment, under such conditions as may be prescribed by law, for any offenses committed against the criminal laws of this state except treason and cases of impeachment.” (Emphasis supplied)

In Opinions of Attorney General 1949-1950, page 100, the issue of whether the Legislature thereby was granted the power to limit the pardoning power was considered, and rejected.

“We think it plain that the people did not vest in the Legislature the power to determine upon what conditions the power to pardon should come into existence. That the Legislature may, under such conditions as it may prescribe, regulate the exercise of the power we think equally plain, but there is a necessary limitation upon the power of the Legislature thus to prescribe rules. And we are of the opinion that the phrase ‘under such conditions as may be prescribed by law’ refers simply to setting up the method of procedure under which the board would act. The conditions, however, cannot be such as, under pretense of regulation, divest the board of, or preclude its exercising, the constitutional power, itself. In the case of *State v. Jenkins*, 20 Wash. 78, 54 P. 765, the court in interpreting the phrase in the Washington Constitution ‘under such regulations and restrictions as may be prescribed by law’ said, ‘The authority to regulate and restrict does not confer the power to abrogate the executive function of pardon.’

“Those matters which the people have specifically confided to the board, the Legislature cannot, directly or indirectly, take from its control. . . .”

Modern case law on this subject demonstrates near unanimity of view.

It is our conclusion therefore that should L. B. 261 be enacted into law that the Board of Pardons may exercise in its discretion executive clemency toward the class of offenders which the act would touch.

Yours very truly,

In counties having a population of sixty thousand or more, the total cost of a primary or general election held in such a county shall be prorated and billed to each public power district on a pro-rata basis determined by the ratio that the number of votes cast for public power district directors bears to the total votes cast within such county."~~

COMMUNICATION

March 2, 1973

Mr. Vincent D. Brown
Clerk of the Legislature

State of Nebraska
State House
Lincoln, Nebraska 68509

Dear Mr. Brown:

Thank you for sending me a copy of Legislative Resolution No. 11.

I am in complete disagreement with this resolution. With constant deficits facing us, it is either cut the cost of federal government, or increase taxes. Cuts are being made in over 100 federal grant programs and all across the board in all departments of government. I support cutbacks in federal expenditures, rather than increase taxes, but evidently the Nebraska Legislature, by this resolution, supports increased spending.

With best regards, I am

Sincerely yours,

(Signed) Dave Martin
Member of Congress

PRAYER

The prayer was offered by the Chaplain.

We bow our hearts to begin anew—never quite knowing what a day may bring forth, or even an hour; recognizing always our need to be receptive to the opportunities of each moment as it passes in review, and resilient in the face of inevitable frustrations.

Strengthened physically by the rest of the past weekend, and with the spiritual benefits of the season of Lent providing inner strength, we bow our heads and begin anew.

O Lord our God: teach us so to number our days that we may apply our hearts to wisdom. Amen.

MESSAGES FROM THE GOVERNOR

March 8, 1973

Mr. Vince Brown
Clerk of the Legislature
State House
Lincoln, Nebraska

Dear Mr. Brown:

We have received Engrossed Legislative Bill No. 102A.

This bill was signed by me on March 8, 1973 and delivered to the Secretary of State.

Very truly yours,

March 8, 1973

The Honorable Richard F. Proud
Speaker
and Members of the Legislature
Nebraska State Legislature
State Capitol
Lincoln, Nebraska 68509

Dear Senators:

This is to inform your honorable body that I am changing my budget recommendations for the Department of Public Institutions on two areas and at the University Medical Center. The budget committee was informed of both of these changes this past Tuesday by Dr. Jack Anderson, the Director of the Public Institutions.

When the construction budget for institutions was prepared and my recommendations were made we had assumed that the normal enrollment pattern at the Youth Development Center at Kearney would continue. Since that time it has become obvious that the population is substantially declining and may continue to do so. In view of this trend I am deleting my recommendations for additional remodeling money until the enrollment stabilizes. There are present accommodations that have been remodeled for about 60 boys. It appears that this may be an adequate number for the future.

The second change in recommendations is at the Norfolk Regional Center. When Dr. Anderson became Director in December he began to review the decisions that had been made by the previous director. In doing so he discovered that the previous plan had called for razing of a majority of the patient care facilities at the Norfolk Regional Center. He brought this to my attention and recommended that only Buildings number 6 and 24 be razed and that the remaining facilities be continued. In addition, of course, once the new food service facility is completed there will be no need for the present kitchen and its associated storage and these can also be razed. I totally agree with his recommendation. The effect of these changes is to lower my construction recommendation by \$229,600 at Kearney and by \$66,600 at Norfolk.

At the Medical Center I am increasing my recommendation by \$150,000 General Funds for the Children's Rehabilitation Institute. In my original budget I had recommended the \$43,000 required by the University. As a result of Senator Savage's L.B. 102, I became aware of the great need for the multi-handicapped. As a result in addition to L.B. 102A, I am recommending the above amount. I feel that the University budget to take care of the needs of the multi-handicapped was not sufficient. In other areas their request was more than adequate.

Respectfully submitted,

(Signed) J. James Exon

ATTORNEY GENERAL OPINIONS

March 12, 1973

Senator Loran Schmit
Nebraska State Legislature
State House
Lincoln, Nebraska

Dear Senator:

My letter of January 8 to Col. Kruger, a copy of which went to you, accurately expresses my views on the use of legal advisors by the State Patrol, and I have found no reason to change that opinion since that time.

Very truly yours,

Attorney General

cc: Vincent D. Brown

January 8, 1973

Col. James E. Kruger
Nebraska State Patrol
Lincoln, NE 68509

Dear Colonel:

The introduction of L. B. 14 in the present Session brings up a matter which I discussed at length last summer with Lt. Rowe. As you know, I was rather cool toward the approach used in the last Session on this subject, but as Lt. Rowe will tell you, I am very strongly in favor of the State Patrol having their own lawyers as legal advisors and would be glad to testify before a legislative committee to that effect. Full time legal advisors have become a practical necessity for larger law enforcement agencies. In "The Challenge of Crime in a Free Society", the President's Commission on Law Enforcement and Administration of Justice more than five years ago recommended that, "Every medium- and large-sized department should employ a skilled lawyer full time as its legal advisor." In addition, the American Bar Association project on Standards for Criminal Justice within the last few months has recommended the following:

"7.12 Need for in-house police legal advisor.

"Given the nature of the police function, police administrators should be provided with in-house police legal advisors who have the personal orientation and expertise necessary to equip them to play a major role in the planning and in the development and continual assessment of operating policies and training programs.

"7.13 Relationship of legal advisor to police administrator.

"In view of the important and sensitive nature of his role, a police legal advisor or the head of a police legal unit should report directly to the police administrator. The relationship of a police legal advisor to a police department should be analogous to that of house counsel to a corporation. The police legal advisor should provide independent legal advice based upon his full understanding of the police function and his legal expertise, and should anticipate as well as react to legal problems and needs.

"7.14 Priority tasks for legal advisor.

"Among the range of tasks that may be performed by police legal advisors, priority should be given to assisting police administrators in:

- (i) formulating the types of administrative policies that are recommended in these standards;
- (ii) developing law-related training programs pertinent to increased understanding of the nature of the police function, of departmental policies, of judicial trends and their rationale, and of the significant role of the police in preserving democratic processes;
- (iii) formulating legislative programs and participating in the legislative process;
- (iv) maintaining liaison with other criminal justice and municipal agencies on matters primarily relating to policy

formulation and policy review, and assessing the effectiveness of various agencies in responding to common legal problems, and

(v) developing liaison with members of the local bar and encouraging their participation in responding to legal problems and needs of the police agency."

In addition to the foregoing, you have some specialized needs for a legal advisor. Your new Criminalistics Laboratory will soon be ready and this will greatly expand your work in the field of criminal evidence, and your technicians will be faced with expanded needs for legal guidance in the areas of gathering, preserving and interpreting evidence and in making certain that it is properly prepared for introduction in evidence. Also, you should be aware that a completely revised Code of Laws on Evidence is being prepared and will be introduced either at this Session of the Legislature or in the 1974 Session.

Within the next year or two a new Criminal Code very probably will go into effect in this State, and this will require that specialized legal services be readily available to you. Also, sixteen committees of volunteer lawyers are reviewing all of our criminal procedures in Nebraska, and the first of their bills will come before this Legislature.

There are many other areas in which you can use a competent legal advisor. One of these days I am going to want to quit preparing that weekly memorandum which I have prepared for the Bulletin each week for the last 8 or 10 years, and I think your man should prepare himself to take over that job.

I think you are using the wrong approach to solving your problem in L. B. 14. For reasons which follow, I recommend that you strike all of subsection (10) in section 1 of the bill, and then add a new section which provides: "The Nebraska State Patrol shall employ one or more legal advisors whose primary responsibility shall be the proper preparation and presentation for prosecution of illegal drug cases."

The way L. B. 14 is set up, your legal advisor would be under my direction and control, and that is not right. You are going to have to live with him, not me. You should be the one to supervise him, to fire him, and to fix his salary. Not me. You need a man on a permanent basis, and if he is an Assistant Attorney General he would have no assurance of continuity of employment. You should not provide in the statute that he is to "assist county attorneys in the preparation and prosecution of cases." Most prosecutors are opposed to police legal advisors, and you are simply waving a red flag when you put something like that right in the statute. If your man turns out to be good enough, they will ask for his help without a statute. Furthermore, good trial lawyers are a scarce and expensive commodity. If your man is good enough so that he can tip off a part time prosecutor about some of the problems he may encounter, your purpose will be served. And I might add the observation that in a majority of these cases the defense lawyer does a worse job than the prosecutor.

My observation over the past few years is that the real problems in drug cases is in acquiring the evidence in a lawful manner. The court decisions since June of 1961 have made the officer's job in gathering evidence a real headache. In drug cases, officers need help in two areas, and they always need it in a hurry. First is the decision on whether or not a search warrant is necessary or should be used. The second problem arises when it is decided that a search warrant should be used, because this requires one or more affidavits and our experience here in the office shows that there are more deficiencies in the affidavit procedure than anywhere else. Right now we get phone calls in which proposed affidavits are read to us, and frequently we can be quite helpful. If your man becomes proficient in this field, I am sure he will develop a large following among the law enforcement officers in this State who are trying to do something about the drug problem.

I do want to assure you that I will be glad to help in any way to obtain legal advisors for the Patrol. I have always worked very closely with your Criminal Division and have the highest regard for their work, and I want them to progress even more.

Very truly yours,

(Signed) Clarence A. H. Meyer
Attorney General

Honorable Richard D. Marvel
Member of the Legislature
State Capitol
Lincoln, Nebraska

Dear Senator:

You have requested our advice on a number of questions pertaining to appropriation bills and the Governor's disapproval or reduction of an item or items therein. Your questions and our answers thereto are set forth in order.

1.(a) If the Legislature is in Session and sends to the Governor an appropriation bill having passed with three-fifths vote of the Legislature, can the Governor, having chosen to reduce or disapprove items of appropriation, not return the bill for reconsideration by the Legislature?

Section 7 of Article IV provides:

“* * *. No appropriations shall be made in excess of the recommendation contained in such budget including any amendment the Governor may make thereto unless by three-fifths vote of the Legislature, and such excess so approved shall be subject to veto by the Governor.”

Obviously, even though the Legislature approves an increase in the Governor's budget by a three-fifths or larger affirmative vote, the excess is still subject to veto by the Governor.

The veto provisions and requirements are contained in Section 15, Article IV, Constitution of Nebraska. This provides that the Governor may disapprove or reduce any item or items of appropriation contained in bills passed by the Legislature, and the item or items so disapproved shall be stricken therefrom, and the items reduced shall remain as reduced unless repassed in the manner herein prescribed in cases of disapproval of bills. This section further provides if the Governor approves a bill he shall sign it, and thereupon it shall become law, but if he does not approve or reduces any item or items of appropriations, he shall return it with his objections to the Legislature, which shall enter the objections at large upon its journal, and proceed to reconsider the bill. Any bill which is not returned by the Governor within five days (Sunday excepted) after it has been presented to him, unless the Legislature by their adjournment prevents its return, shall become a law in like manner as if he had signed it. If the Legislature by adjournment prevents its return, then the bill must be filed with the Governor's objections in the office of the Secretary of State within five days after the adjournment or it becomes a law. Assuming that the Legislature has not adjourned, then the bill must be returned to the Legislature for their reconsideration.

1.(b) You then ask “If the Legislature passes an appropriation bill, sends it to the Governor, and then adjourns prior to the five-day limit for the Governor's consideration, what is the disposition of that appropriation bill if the Governor chooses to reduce or not approve items of appropriation?”

As stated in the answer to Question No. 1(a) and if the Legislature has passed the bill by a three-fifths vote, then the Governor must file the bill with his objections in the office of the Secretary of State within five days after such adjournment or it becomes a law as passed by the Legislature. If he files the bill with objections in the office of the Secretary of State in time, then the bill becomes law with the disapproved items eliminated and the reduced items in the amounts as reduced.

2. You refer to Article IV, Section 15, Constitution of Nebraska, and ask “considering the general characteristics of past appropriation bills, define and give examples, if possible, of what ‘item or items of appropriation’ could mean.”

In *Commonwealth v. Dodson*, 11 S. E. 2d 120, 176 Va. 281, the Virginia Supreme Court stated that an “item” in an appropriation bill is an indivisible sum of money dedicated to a stated purpose. In *State ex rel.*

Meyer v. State Board of Equalization and Assessment, 185 Neb. 490, 176 N. W. 2d 920, the court referred to and noted certain appropriation items. It also referred to five appropriation items, one of which was, for example, land acquisition (Medical Center, University of Nebraska) in the amount of one million dollars. This is certainly a clear example of an item of appropriation. It has been held that the power to veto "item" does not carry with it the power to strike out conditions or restrictions. Commonwealth v. Dodson, 11 S. E. 2d 120, 176 Va. 281. Under a Massachusetts constitutional provision which authorized the Governor to disapprove or reduce items or parts of items in any bill appropriating money the fact that the section relates solely to appropriation bills in conjunction with the word reduce shows that the expression "items or parts of items" refers to separable fiscal units and under such section, power is conferred on the Governor to reduce the sum of money appropriated or to disapprove the appropriation entirely, but no power is conferred on him to change the terms of an appropriation except by reducing its amount. In re Opinion of the Justices, 2 N. E. 2d 789, 294 Mass. 616.

3. You call our attention to Article IV, Section 15 of the Constitution which states: "The Governor may disapprove or reduce any item or items of appropriation contained in bills passed by the Legislature, and the item or items so disapproved shall be stricken therefrom, and the items reduced shall remain as reduced unless repassed in the manner herein prescribed in cases of disapproval of bills." You then ask if "the underlined portion can mean that if the Governor strikes an item, it cannot be restored by three-fifths of the members voting to pass the bill, notwithstanding the Governor's objections?"

While this language does appear to be somewhat ambiguous, we are of the opinion that either the disapproval or reduction of any item or items of appropriation is subject to reconsideration by the Legislature which may, by the necessary affirmative vote, override the Governor's veto. We have reviewed the report of the Constitutional Revision Commission and the proceedings leading to the adoption of this amendment in the Legislature and the statement to the voters in reaching this conclusion.

4. You ask "If the Governor objects to an item in the appropriation bill and thus returns the bill to the Legislature for reconsideration, does the Legislature vote on the entire bill for purposes of passage notwithstanding the objections of the Governor or is it necessary to vote on each objected item?" Section 15, Article IV, provides in part:

"* * *. If he approves he shall sign it, and thereupon it shall become a law, but if he does not approve or reduces any item or items of appropriations, he shall return it with his objections to the Legislature, which shall enter the objections at large upon its journal, and proceed to reconsider the bill. * * *"

We note also that this section states that the items disapproved are to be stricken from the bill and the items reduced shall remain as reduced "unless repassed in the manner herein prescribed in cases of disapproval of bills."

Insofar as applicable, the constitutional provision involved provides that "every bill" passed by the Legislature must be presented to the Governor and if he approves it he signs it. If he does not approve or reduces any item or items of appropriation, "he shall return it" with his objections to the Legislature which then proceeds "to reconsider the bill." "If then three-fifths of the members elected agree to pass the same it shall become a law, notwithstanding the objections of the Governor." We note that the final section reads: "The Governor may disapprove or reduce any item or items of appropriation contained in bills passed by the Legislature, and the item or items so disapproved shall be stricken therefrom, and the items reduced shall remain as reduced unless repassed in the manner herein prescribed in cases of disapproval of bills." You will note that the bill must be presented to the Governor; and the Legislature, if any objections are received, proceeds to reconsider the bill. If the necessary majority approves, then it (the bill) shall become a law. Finally, the Governor has the authority to disapprove or reduce any item or items of appropriation contained "in bills" passed by the Legislature, and the item or items so disapproved shall be stricken therefrom and the items reduced shall remain as reduced "unless repassed in the manner herein prescribed in cases of disapproval of bills."

As pointed out by the court in *State ex rel. Meyer v. State Board of Equalization and Assessment*, 185 Neb. 490, 495, 176 N. W. 2d 920, an appropriation is a law and may be adopted only through a bill. A bill is not passed until it receives the necessary affirmative vote on final passage. An appropriation bill is no different in this respect than in any other bill. The court has specifically held that to be effective as to an item increasing the amount proposed for any department in the Governor's budget, the bill must receive a two-thirds vote on final passage. We think the language of the court in that case is equally applicable to the override of the Governor's veto under the conditions you have outlined in your question. The Legislature proceeds to reconsider the bill containing the disapproved and reduced items; and if three-fifths of the members elected agree to pass the bill, it becomes a law notwithstanding the objections of the Governor.

5. Your final question refers to the language in Section 7 of Article IV which reads:

"* * *. No appropriations shall be made in excess of the recommendation contained in such budget including any amendment the Governor may make thereto unless by three-fifths vote of the Legislature, and such excess so approved shall be subject to veto by the Governor."

You ask if this language means that the Governor cannot amend his budget bill without a three-fifths vote of the Legislature and whether or not each amendment as submitted by the Governor be voted on separately and at what point must the amendment receive a three-fifths vote?

We might point out that once the Governor has submitted his budget bill and it is introduced in the Legislature he alone cannot amend the bill. Any amendment to the bill must be made by the Legislature in accordance with their rules. Certainly, the Governor, by message, can submit suggested amendments to the budget bill, and review of the Minutes of the Constitutional Revision Commission and the floor debate on this subject reveals that this provision was intended to restrict appropriations to those recommended in the budget including any amendments the Governor himself might make thereto with a three-fifths vote of the Legislature required to exceed the amount suggested by the Governor. Thus, if amendments were made to the budget bill, at the request of the Governor by a formal message to the Legislature, then such amendments would not need a three-fifths vote of the Legislature but such a three-fifths vote would be needed to increase any amounts contained in his budget or the changes he recommended. The intent of the Constitutional Revision Commission as evidenced in its report dated September 24, 1970; the testimony before the legislative committee considering this amendment; and the report of that committee together with the floor debate and the explanatory statements to be included on the ballot as same appear on page 12 of "A Summary of Constitutional Amendments Proposed by the Nebraska Legislature," "Prepared by the Nebraska Legislative Council, March, 1972," supports this conclusion.

Yours very truly,

FIRST SESSION****FORTY-SEVENTH DAY**

Legislative Chamber, Lincoln, Nebraska
Tuesday, March 13, 1973

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Marsh presiding.

PRAYER

Prayer was offered by the Chaplain.

We give thanks for nature's beauty shining through a spring-like day; for the spiritual illumination of this season of Lent now advancing toward Easter, and for all else that helps us to look upon the brighter side of life.

So often we encounter things that are not beautiful, and we are tempted to forget. We need to be reminded that this is our Father's world, and that for every act of hatred committed by man against man, there are thousands of acts of love performed.

When life grows dark, and the way ahead becomes uncertain, lift our thoughts to see Divine brightness reflected in a good world, and the love of God reflected in the lives of men and women and children. Somehow let a bit of the glory of this day and of this season rub off on each member of this House. Amen.

(3) The Tax Commissioner shall prescribe such forms and regulations as he may deem necessary in order that the tax, penalty, and interest due or to become due under the individual licenses and permits be guaranteed by the combined security and the various factors necessary for determination of the amounts of combined securities be proper and uniform.

(4) Nothing contained in this section shall prohibit the person applying for or the Tax Commissioner granting the privilege of filing and maintaining a combined security for a portion of the permits or licenses held by such person. Pursuant to adjournment, the Legislature met at 9:00 a.m., President Marsh presiding.

PRAYER

Prayer was offered by the Chaplain.

Before we do anything else this week, O Lord our God, we would attempt to align our spirits by the Great Creator Spirit of life, so that we might not wobble too noticeably, nor wander too frequently.

This is why we pray. And this is why we offer in prayer whatever endowments we have received of mind and heart and will to the work which is uniquely ours.

May the strength of God pilot us; may the power of God preserve us; may the wisdom of God instruct us; may the hand of God protect us; may the shield of God defend us. Amen.

EIGHTY-THIRD LEGISLATURE
FIRST SESSION

FORTY-NINTH DAY

Legislative Chamber, Lincoln, Nebraska
Thursday, March 15, 1973

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Marsh presiding.

PRAYER

The prayer was offered by Rev. Rolf Langendoerfer, Student Chaplain at Bryan Hospital, from Southern Germany.

Lord, our heavenly Father,

We come to you to begin this day's work in your name. We thank you for the gifts you have granted us, the ability to make free and good decisions, the promise of forgiveness and the chance of a new beginning where we have failed and where we might fail. Let us begin this day with the question in mind what you want us to do.

We ask you to help these men and women to see their responsibility for the people of this state, to make decisions for the well-being of all citizens. Let us be aware of the needs of the people who are not powerful and verbal enough to speak for themselves, the poor, underprivileged, the weak and sick. Let them find speakers and representatives in this house.

Where decisions have to be made, there are differences in opinion, there is struggle and fight for every ones own position. Help that these differences do not overshadow the issues and do not break people apart and create enemies. Help us all to respect each other as persons and co-workers, to be in dialogue with each other and able to listen to each other.

Lord, help us to be creative, to take risks, give strength and courage, so that we can be good householders of your creation. Amen.

ROLL CALL

The roll was called and all members were present except Mr. R. Lewis who was excused; Mr. Snyder who was excused until he arrives; Mr. Stahmer who was absent until 10:00 a.m.

RESOLUTION

LEGISLATIVE RESOLUTION 19.

Introduced by Carpenter, 48th District.

RESOLVED, By the Legislature of the State of Nebraska, That the Legislature, hereby and pursuant to Article V of the Constitution of the United States, makes application to the Congress of the United States to call a convention for the proposing of the following amendment to the Constitution of the United States:

ARTICLE

No student shall be assigned to nor compelled to attend any particular public school on account of race, religion, color or national origin; and be it further

RESOLVED, That this application by the Legislature of the State of Nebraska constitutes a continuing application in accordance with Article V of the Constitution of the United States until at least two-thirds of the legislatures of the several states have made similar applications pursuant to

Article V, but if Congress proposes an amendment to the Constitution identical with that contained in this resolution before January 1, 1974, this application for a state application shall no longer be of any force or effect; and be it further

RESOLVED, That since this method of proposing amendments to the Constitution has never been completed to the point of calling a convention and no interpretation of the power of the states in the exercise of this right has ever been made by any court or any qualified tribunal, if there be such, and since the exercise of the power is a matter of basic sovereign rights and the interpretation thereof is primarily in the sovereign government making such exercise and since the power to use such right in full also carries the power to use such right in part the Legislature of the State of Nebraska interprets Article V to mean that if two-thirds of the states make application for a convention to propose an identical amendment to the Constitution for ratification with a limitation that such amendment be the only matter before it, that such convention would have power only to propose the specified amendment and would be limited to such proposal and would not have power to vary the text thereof nor would it have power to propose other amendments on the same or different propositions; and be it further

RESOLVED, That a duly attested copy of this resolution be immediately transmitted to the Secretary of the Senate of the United States, the Clerk of the House of Representatives of the United States, to each member of the Congress from Nebraska and to each House of each State Legislature in the United States.

Mr. Carpenter requested the Resolution be referred to a committee. No objections. So ordered.

Honorable Carl T. Curtis
United States Senate
Washington, D. C. 20510

Dear Senator Curtis:

I am replying to your letter of February 2 relating to regulations and reporting requirements of the Environmental Protection Agency published in the Federal Register, under the title "Proposed Forms and Guidelines for Acquisition of Information From Owners and Operators of Point Sources", with which you enclose a resolution of the Nebraska State Legislature dated January 5, 1973. The resolution addresses itself particularly to the regulations and reporting requirements as they relate to farmers.

This Office has reviewed the reporting requirements associated with the regulations as required by the Federal Reports Act and has indicated no objection to the use of "National Pollutant Discharge Elimination System—Application for Permit to Discharge—Short Form" for use by

Municipal Treatment Plants, Manufacturing Establishments, and Services, Wholesale and Retail Trade and Other Establishments" and "Monitoring Reports" for use by permit holders.

The proposed "Application-Short Form" for use by agricultural procedures has not been approved for use. It is my understanding that the Environmental Protection Agency plans an extended review of this proposed application form. At such time as the Agency develops an application form which it believes to be necessary, it will submit the proposed application for clearance by this Office under the Federal Reports Act. You may be sure that any request for clearance of a revised application will be most carefully reviewed.

If I can be of further help to you in this matter, please let me know.

Sincerely,

(Signed) Frederic V. Malek
Deputy Director

March 12, 1973

Honorable Carl T. Curtis
United States Senate
Washington, D. C. 20510

Dear Senator Curtis:

Thank you for sending us a copy of the comments you made to the Office of Management and Budget regarding the proposed forms and guidelines for the National Pollutant Discharge Elimination System

(NPDES) as it applies to agriculture.

With regard to the Nebraska State Legislature's Resolution 6, I would first like to explain that the NPDES will not apply to "all classes" of agricultural producers. The definition of "point source" has been widely misinterpreted, however we intend to clarify this matter by reproposing agricultural discharge regulations which clearly indicate that general growing and farming operations are not included in the permit program. We expect that the program's agricultural coverage will be generally limited to the larger irrigation and confined animal feeding operations, and commercial fish production facilities having a continuous discharge. Further, the new proposal, which should be ready for publication in the Federal Register by early March, will include a revised permit application form which does not request data on fertilizers or pesticides.

I will be happy to send you a copy of the Federal Register as soon after publication as it is available. In the meantime, I hope I have adequately explained our present thinking.

Sincerely yours,

(Signed) John R. Quarles, Jr.
Assistant Administrator for
Enforcement and General Counsel

Tuesday, March 20, 1973

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Marsh presiding.

PRAYER

The prayer was offered by the Chaplain.

O Lord our God: even as we dash madly to meet our deadlines, remind us that all of life is a solemn trust — that no part of life is without significance — that every moment has its very special meaning. Help us to understand that because we represent others here, we are stewards for them both of time and of life. May we count ourselves successful stewards not in what we are able to keep for ourselves of life's blessings, but in what we succeed in making more available to others. This is the way the Master went; should not the servant tread it still! Amen.

Dear Mr. President and Senators:

I return herewith LB 13 and LB 13A without my signature and with my objections.

These acts, authorizing an additional \$216,000 expenditure of funds, are unnecessary and ignore the most adequate expenditures in this field in my budget, totaling an additional \$284,037 already submitted to the Legislature in my budget message which is under consideration by the Appropriations Committee with later review by the entire Legislature.

The promiscuous and ever increasing tendency to spend huge sums of tax dollars through "A" bills should be kept within due bounds. If this trend is allowed to proceed without reasonable curtailment, the Legislature is, in effect, bypassing the customary and more thoughtful procedure of careful study and review by your Appropriations Committee of expenditures and their efforts to establish priorities within the framework of existing revenues.

I recognize that it takes courage to act and vote against every "do-gooder" piece of legislation that someone dreams up. Unfortunately, there is an old convenient political axiom that cautions against voting "no" on bills cloaked in the garb of "motherhood." I am for mothers and against the illicit drug pushers, but I suggest that such criteria is no sound reason to accept LB 13 or LB 13A, and I enlist your courageous support accordingly.

While illegal drugs remain a tremendous problem in our entire society and in Nebraska, we should recognize that we are already acting responsibly.

With your help, we have drastically expanded our efforts in drug enforcement.

We added six investigators in 1971, ten more in 1972, and I have recommended eight more this year, including six investigators, one chemist and one criminologist.

We are able to employ Federal Crime Commission funds for such needed personnel as I have outlined. This is not possible, as I hope Senator Schmit will explain, if you enact these measures, despite his attempts to secure such financing.

If your honorable body will agree with me that LB 13 and LB 13A are not necessary and adopt my proposals, we will enjoy a total force available

in the drug criminal area in the State Patrol of 28, including a criminologist and a chemist, in addition to the three attorneys you approved over my veto.

In addition to the 28 man force that I have mentioned primarily totally committed to drug investigation, we have an additional force of general criminal investigators, if my recommendations are followed, of 20 which could be employed also as needed at the direction of the Governor through the Patrol Chief.

This is sufficient to do the job for the present, and we can be assured of an aggressive and sound state commitment in this vital area.

Yours very truly,

Mr. President, Mr. Speaker,
and Members of the Legislature
State House
Lincoln, Nebraska

Dear Mr. President and Senators:

I return herewith LB 453 without my signature and with my objections.

LB 453 is a further step in the wrong direction because it abrogates the people's right to vote on issues that under existing law is reserved exclusively to them.

It is my understanding that this legislation was introduced to correct a situation for only one community.

However, I would call your attention to the fact that in so doing, you have passed a law that could and undoubtedly would have a far-reaching impact clear across the state in regard to increased local budgets and taxation.

I believe that the matter of authorizing purchase and construction of local facilities should be left in the hands of the voters under present statutes.

Very truly yours,

MOTION—Study Directed by Governor

Mr. Carpenter moved that the Governor be requested to make a study through his staff, to determine how the city of Omaha is going to construct a thirty million dollar bank and building complex using the city's credit and possibly being exempt from real estate taxes and Nebraska State Income taxes; and as a result of such a study, submit a recommendation for the Legislature's Consideration.

FIFTY-THIRD DAY

Legislative Chamber, Lincoln, Nebraska
Wednesday, March 21, 1973

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Marsh presiding.

PRAYER

Prayer was offered by the Chaplain.

Lord God of all good life:

We remember in prayer today the Districts of Nebraska which we represent in this House. We are thankful for all the good things that are found back home: the community spirit, the churches, schools, courts of justice, the homes, hospitals, offices and factories.

And we would remember also the special needs of our districts for employment, for recreation, for housing, welfare, safe streets, good highways.

Give us the vision and wisdom to surround our Districts and our state with the safeguards of sound laws which will preserve the good life for those who now enjoy it, and make it available to all.

We are bold to offer such a prayer, for we are those who believe that with God all things are possible. Amen.

ATTORNEY GENERAL OPINION

March 20, 1973

Senator E. Thome Johnson
Nebraska State Legislature
State Capitol
Lincoln, Nebraska

Dear Senator Johnson:

You have asked whether valid legislation can be passed, taxing motor vehicles on a twelve month, rather than calendar year, basis. You further ask whether such legislation could provide that the unused portion of the tax on that vehicle, if it was sold before the expiration date of the period for which taxes had been paid, could be refunded to the taxpayer. We can see no constitutional reason why this could not be done.

Article VIII, Section 1 of the Nebraska Constitution provides in part:

“* * *. Taxes shall be levied by valuation uniformly and proportionately upon all tangible property and franchises, except that the Legislature may provide a different method of taxing motor vehicles * * *.”

In *State ex rel Meyer v. Story*, 173 Neb. 741, 114 N. W. 2d 769, the Nebraska Supreme Court, citing *Boyd Motor Company v. County of Box Butte*, 159 Neb. 514, 67 N. W. 2d 774, held that the above constitutional provision authorized motor vehicles to be placed in a separate class, but that the people who owned motor vehicles could not be divided into two classes. In view of the very broad discretion given to the Legislature with respect to taxation, except as expressly limited by the Constitution, we can see no particular reason why the Legislature, in the taxation of motor vehicles, is limited to a calendar year period. The only real question, then is whether a provision making the taxes on motor vehicles payable at varying times of the year constitutes discrimination among the class of motor vehicle owners. We do not believe that a provision that motor vehicle taxes are payable for a twelve month period beginning with the date of registration of the motor vehicle, and payable on the same date each succeeding year thereafter, constitutes discrimination among taxpayers. As a matter of fact, under the provisions of Sections 77-1240.01 and 77-1240.02, the initial payments of taxes on motor vehicles are made at various times of the year, depending upon the date of initial registration of the vehicle. The only difference under your proposal would be that the taxes would be paid for a full twelve month period, rather than simply for the balance of that calendar year. We can see no particular significance in this difference.

With respect to the propriety of a refund of a portion of the taxes when the vehicle is disposed of before the expiration of the period for which taxes have been paid, no significant difference appears between the

situation you inquire about and that which exists under the present statutes. Section 77-1240.03 now provides for credit or refund of taxes based upon the unexpired months remaining in the registration year at the time of transfer of ownership of the motor vehicle. As a matter of fact, that section could remain substantially unchanged under the system you propose.

You understand that in rendering this opinion, we are not looking at any specific legislation, but are simply discussing the general power of the Legislature to enact legislation along the general lines you have outlined. There may be practical difficulties with respect to such a system, which we have not considered. We are simply saying that, in our opinion, valid legislation could be drafted to accomplish the results you have inquired about.

Very truly yours,

CLARENCE A. H. MEYER
Attorney General

Thursday, March 22, 1973

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Marsh presiding.

PRAYER

Prayer was offered by the Chaplain.

Today we need patience, O Lord our God.

For we grow weary with the hearing and reading and pondering of words upon words, and considering how we might like to punctuate or rephrase or clarify, and determining whether to postpone or approve or defeat.

We need to be patient with ourselves, and perhaps with one another.

But don't make us so patient that we cease to be impatient with things that are not as they should be in Nebraska.

Keep us uncomfortable with ourselves and with each other just so long as conditions remain unchanged which we have the power and the authority to improve. Amen.

The roll was called and all members were present except Mr. Wiltse who was excused; Mr. Waldron who was excused until he arrives.

WHEREAS, the sweeping judgment of the United States Supreme Court in the Texas and Georgia abortion cases expressly deprived the unborn of legal and constitutional protection during their gestation; and

WHEREAS, such judicial holding condones the destruction of an entire class of live human beings; and

WHEREAS, in states in which abortion laws have recently been relaxed or repealed, professional medical ethics and respect for unborn human life has proved to be wholly inadequate for the reasonable protection of the lives of the unborn; and

WHEREAS, a legal threat to the right of life of any individual member of a society imperials the right to life of every other member of that society; and

WHEREAS, human life in all stages is entitled to the protection of the laws and may not be abridged by act of any court or legislature or by any judicial interpretation of the Constitution of the United States; and

WHEREAS, the issue is of such great magnitude – the extent to which human life itself is protected under the Constitution; and

WHEREAS, the Legislature of this state believes it to be in the best interest of the people of the United States that an amendment to the Constitution of the United States be adopted to protect unborn human lives.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-THIRD LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Congress of the United States take appropriate action to adopt a Constitutional Amendment that will guarantee the explicit protection of all unborn human life by extending the same constitutional rights, including due process of law, which apply to the unborn in the same manner and to the same extent as all other citizens of the United States, and will guarantee that no human life will be denied protection of law or deprived of life on account of age, sickness, stage of development, or condition of dependency or wantedness.

2. That the Clerk of the Legislature transmit a copy of this Resolution to the President of the Senate of the United States, the Speaker of the House of Representatives of the United States, each member of the Nebraska Congressional delegation, each member of the United States Supreme Court, and to the legislatures of each of the several states.

O God, make the door of this house to be the gateway to some small part at least of your eternal kingdom. Amen.

COMMUNICATION

Acknowledged receipt of Senate Resolution 493 from the State of Rhode Island regarding "Meatless Day".

RETIREMENT SYSTEMS REPORT

March 23, 1973

TO THE MEMBERS OF THE LEGISLATURE:

This is a report by the Retirement Systems Committee relative to the following approved motion by the Legislature made by Senator George Syas: "I move that the Retirement Committee review the law pertaining to the Retirement Program of State Senators with the possibility of bringing a court suit."

The Retirement Committee held a meeting with Mr. Ralph Gillan of the Attorney General's office, with members of the Public Employees Retirement Board, and with Senator George Syas.

Senator Syas stated:

(1) That it was the intent of the Legislature that State Senators were to be included in a retirement program with other state employees when the law became effective in 1964.

(2) That the motion approved by the Legislative Council to the effect that the Public Employees Retirement Board return the Senator's share of the retirement withholdings with interest, should not have been considered effective because it was not affirmed by the Legislature while it was in session and the Board did not pay interest on the money as requested.

(3) That in his judgement the courts would find the retirement program for State Senators constitutional as was so determined of the Retirement System for Judges who are also elected officials.

(4) The retirement program for Senators should be reinstated.

Senator Syas recommended that the Legislature pass a Resolution initiating a friendly lawsuit to determine the constitutionality of including State Senators in a retirement program whereby both the employees' and employers' contributions would be considered as a portion of the retirement program.

A member of the PERB replied that the money was returned without interest because of the Attorney General's opinion. He said that the Senators were not entitled to the employers contributions because they represented an addition to their salary which was prohibited in the Constitution and that interest could not be paid because it cannot be paid unless specifically authorized by statute and there is a question if a law could be enacted in this regard and be constitutional.

The Attorney General said that if PERB had not accepted the advice of the Attorney General they may be personally liable if the retirement

system were found for Senators unconstitutional and if any of the state's retirement contributions had been paid out.

The Director of PERB said no Senators were receiving any retirement benefits, implying that so far no liability had to this date been created and there would not be unless the state's share was paid out.

The Attorney General felt that the Legislature had the right to authorize expenditures for a friendly lawsuit. It could be done by Resolution. It would not be necessary to reinstate the retirement program to test the constitutionality of the retirement system for state Senators.

The Attorney General didn't know of any legal way the Board could accept a reinstatement of the retirement system for Senators.

The Attorney General also said that under no circumstances could the retirement program be constitutional for an elected official during his term of office when the retirement program was first put into effect.

Obviously, only the court could determine if inclusion of the Senators in the retirement program were constitutional after that.

A question arose as to where the state matching funds went that were not returned to the Senators? The answer was, it was returned to the state.

Another question was, where did the interest from the Senators contributions go? The answer was the interest was used to fund prior service benefits for other state employees.

Another question was how much interest was lost by Senators with greatest length of service? The answer was \$97.25 for the Senators contributions and \$277.10 on the employers contributions or a total of \$374.35 for those Senators in the Legislature since 1964 provided the Senator's participation were constitutional. The total interest lost by all the Legislators' amounted to \$1700.00. I have calculated the approximate amount of interest on the employers share and it is about \$4800.00. This makes a possible total of \$6500.00, the maximum employee – employer dollars involved.

If a friendly lawsuit were to be brought it could probably be against PERB or it could be brought by an individual against PERB.

The committee was at a loss to determine exactly what grounds could be used for filing a lawsuit. It was felt that the loss of image of the Legislature may be greater than the dollar value of the potential winnings.

Therefore a motion was made as follows, "The committee has thoroughly reviewed the entire matter including a review with the Attorney General and Senator Syas and we feel that it would be inappropriate to take any further action."

The motion was approved by Senators, Whitney, Hasebroock, Goodrich and Luedtke; with Senators Marvel and F. Lewis not voting because of absence.

 16 proposed line route in a legal newspaper of general circulation within
 17 the county where such line is to be constructed at least thirty days
 18 before negotiating with any person, firm, or corporation to acquire

LEGISLATIVE JOURNAL

EIGHTY-THIRD LEGISLATURE
FIRST SESSION

FIFTY-SIXTH DAY

Legislative Chamber, Lincoln, Nebraska
Monday, March 26, 1973

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Marsh presiding.

PRAYER

The prayer was offered by the Chaplain.

Father Almighty from all eternity:

In whose eyes a thousand years are but as yesterday when it is past, and as a watch in the night: guide and direct the Nebraska legislature as we prepare now to invest yet another of the segments of time entrusted to our use.

The needs of the moment are many and pressing, and we may be inclined to forget that current needs seem always of such magnitude; therefore we would ask that they might not seem so overwhelming in our thoughts as to obscure the more distant goals toward which we should be advancing.

We feel that we might become better equipped to handle the pressures of the present, if our roots are sent deep into the soil of eternal values.

This is why we pray just now. Not because of any worthiness on our part; not because of any inherent right to special privilege or favor; but simply because we want to do our part to improve the allotment of time which is uniquely our own.

So hear us, and help us today—and throughout this week.
Amen.

ROLL CALL

The roll was called and all members were present except Messrs. Carpenter, Murphy and C. Carsten who were excused.

ATTORNEY GENERAL OPINIONS

March 23, 1973

Senator Fred W. Carstens
Nebraska State Legislature
State Capitol
Lincoln, Nebraska

Dear Senator:

In your letter of March 16, 1973, you request an opinion as to the constitutionality of the provisions of lines 21 to 26 of Section 14, on page 15 of the amendments to L. B. 164. Section 14 of L. B. 164 amends Section 8-148, R. R. S. 1943, which deals with loans and investments by state banks. Lines 21 to 26 of this section, which you inquire about, provide as follows:

“Notwithstanding the provisions of this section, any bank may invest in the shares of any savings and loan association in an amount not exceeding that insured by the Federal Savings and Loan Insurance Corporation or in noninsured savings and loan associations as the Director of Banking may approve.”

We see no difficulty with respect to the authorization to invest in such associations up to the amount of federal insurance. However, we believe that the authorization to invest in noninsured savings and loan associations as the Director of Banking may approve constitutes an unconstitutional delegation of legislative authority to the Director of Banking.

In *Lincoln Dairy Co. v. Finigan*, 170 Neb. 777, 104 N. W. 2d 227, the court said:

“It is fundamental that the Legislature may not delegate legislative power to an administrative or executive authority. *Smithberger v. Banning*, 129 Neb. 651, 262 N. W. 492, 100 A. L. R. 686. The Legislature does have the power to authorize an administrative or executive department to make rules and regulations to carry out an expressed legislative purpose, or for the complete operation and enforcement of a law within designated limitations. Such authority is administrative in its nature and its use by administrative officers is essential to the complete exercise of the powers of all departments. *State ex rel. Martin v. Howard*, 96 Neb. 278, 147 N. W. 689. It is fundamental,

also, that in the Legislative grant of power to an administrative agency such power must be limited to the expressed legislative purpose and administered in accordance with standards prescribed in the legislative act. * * *"

We find absolutely no standards to guide the Director in determining whether or not investments in noninsured savings and loan associations shall be authorized, or in determining the limitations of such investments. This section, as amended, would apparently give him carte blanche authority to make any decisions he wished in the field. The determination of authorized investments for state banks is a legislative function, and cannot be delegated to the Director of Banking without adequate standards to guide him in the exercise of this authority. For this reason, we believe that the amendment you inquire about may be vulnerable to constitutional attack.

Very truly yours,

Dear Senator Schmit:

You have asked our opinion relative to a problem existing in your legislative district and which pertains to students who attend a non-public school and who take certain classes in the public school on a part-time basis. Upon giving due consideration to your request we regret that we cannot specifically answer your question in connection therewith as it would violate established policy. In our letter to Mr. Vincent D. Brown under date of December 28, 1972, which is published on pages 36 and 37 of the Legislative Journal, we stated in part as follows:

“* * * . Also, we will not give an opinion to an individual senator on the constitutionality of or interpretation of a bill which has already become law. If there is a question as to its interpretation, we will be glad to work with the senator and the bill drafter in developing clarifying legislation.”

COMMUNICATION

U. S. Department of Transportation
Federal Highway Administration
Washington, D. C. 20590

March 22, 1973

Mr. Vincent D. Brown
Clerk of the Legislature
State of Nebraska Legislative Council
State Capitol
Lincoln, Nebraska 68509

Dear Mr. Brown:

This is in reply to your letter of March 8 to Secretary of Transportation Claude S. Brinegar enclosing a copy of Nebraska Legislative Resolution No. 13 relating to the Highway Trust Fund. I am responding to your comments because the Federal Highway Administration, an agency of the Department of Transportation, has direct responsibility for the Nation's highway construction program.

Certain Federal highway funds are now being withheld by the Office of Management and Budget as part of Government efforts to reduce inflationary pressures. They constitute temporary controls of funds authorized by the Congress, and remain available for release at a later date. It is not possible at this time to estimate when the funds will be released.

Additional bus and rail mass transit facilities will benefit all Americans—including those who drive cars—by reducing traffic congestion,

lowering air pollution and conserving our limited energy resources.

Acting on this conviction, the Administration is sponsoring legislation now before the Congress to permit State and local officials to use a limited portion of highway trust funds for bus and rail transit. However, all of such funds could be used for highways if a State wished.

As in the past, the bulk of trust funds would still be reserved solely for highway construction purposes. The Administration bill requests funding toward completion of the Interstate System, as well as for other elements of the Federal-aid highway program. It specifies apportionment formulas for various elements of the Federal-aid highway system.

Sincerely yours,

(Signed) R. R. Bartelsmeyer
Acting Federal Highway
Administrator

Wednesday, March 28, 1973

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Marsh presiding.

PRAYER

The prayer was offered by the Chaplain.

So often we feel that we are caught in a squeeze between actually serving, and only sitting around and waiting to serve; between what is expected from us, and what is possible for us; between what is demanded, and what we can deliver; between the aspirations of the many, and the limitations of their representatives.

Look down upon us in our predicament, O God: Somehow, ease the pressures that squeeze us, so that the time remaining may be redeemed from the luxury of waiting. And from the rust of wasting. Amen.

ATTORNEY GENERAL OPINION

March 27, 1973

Senator Fred W. Carstens
Nebraska State Legislature
State Capitol
Lincoln, Nebraska

Dear Senator Carstens:

In your letter of March 21, 1973, you ask whether an amendment to L. B. 312 is unconstitutional, or makes the entire bill unconstitutional. L. B. 312 amends Section 8-157, R. R. S. 1943, to increase from one to two the number of detached auxiliary teller offices a bank may maintain. The amendment you inquire about would limit the maintenance of such detached auxiliary teller offices to banks located in cities of not less than ten thousand inhabitants, and would also limit the maintenance of attached auxiliary teller offices to banks located in cities of that size.

The first question that must be answered is whether restricting the maintenance of such attached or detached auxiliary teller offices to cities having a population in excess of ten thousand is reasonable classification. In *Dorrence v. County of Douglas*, 149 Neb. 685, 32 N. W. 2d 202, a statute provided for different rules for boarding prisoners in county jails in counties having populations in excess of 200,000. The court, in upholding the statute, said:

“All reasonable doubts must be resolved in favor of constitutionality in construing a legislative act. *Sommerville v. Johnson*, ante p. 167, 30 N. W. 2d 577. For purposes of legislation the Legislature may classify counties when the classification rests upon reasonable differences of situation or circumstances which call for distinctive legislation for the class. *State ex rel. Cone v. Bauman*, 120 Neb. 77, 231 N. W. 693. Where a class of counties is established on the basis of population in such a manner that other counties may in the future enter the class without additional legislation, the law is considered to be general in its nature. *State v. Frank*, 61 Neb. 679, 85 N. W. 956. The present act is not unconstitutional because of the fact that it is presently applicable to Douglas County alone. Where reasons exist for a legislative classification, which are not superficial or baseless, the courts may not properly interfere. Such classifications do not violate constitutional provisions against local and special legislation. *Allan v. Kennard*, 81 Neb. 289, 116 N. W. 63. While such classifications are necessarily somewhat arbitrary, they have been uniformly upheld by the courts. The care and feeding of prisoners in the various counties of the state is a matter which is affected by the population of the county. The evidence shows different conditions existing in the various counties of the state. The number of prisoners to be fed varies, generally in proportion to the population of the county. The facilities provided are not uniform and the labor contributed by the sheriffs and their families is a variable factor. The record shows that the classification of counties on a population basis is reasonable under the existing situation and that the Legislature was warranted in making such a classification for the purposes of the act. Under these circumstances it is not the province of the court to re-examine the evidence upon which the Legislature acted. If the

Legislative classification is upon a rational basis, and consequently not unreasonable or arbitrary, it meets the requirements of the Constitution."

We believe that the Legislature could validly determine that more reason exists for permitting the types of auxiliary teller offices involved herein in larger cities than in smaller ones. In larger cities parking problems are likely to be more acute. Inhabitants of larger cities are more likely to live greater distances from the banks, and greater public convenience may be served by permitting the types of drive-in facilities contemplated by the auxiliary teller offices. These are at least some of the reasons the Legislature could conclude that such offices should be permitted in larger cities, but not in smaller ones, where the need was less pressing. We are not able to say that this classification is completely arbitrary, and therefore conclude that this legislation would be constitutional in that respect.

The next question is whether the withdrawal of authority for the maintenance of such facilities by banks in cities having populations of less than ten thousand is a deprivation of property without due process of law as to banks in such cities now operating such facilities. We have checked with the Banking Department, and there is apparently at least one bank in a city of less than ten thousand which now operates a detached facility, and apparently several which operate attached facilities. The act contains no grandfather clause, so it would appear that such facilities would be required to be discontinued. The banks involved would, no doubt, content that this deprived them of property without due process of law.

In 10 Am. Jur. 2d 35, Banks, Section 10, we find:

"Banking is a business peculiarly affected with a public interest and is therefore subject to reasonable regulations. Banks are indispensable agencies through which the industry, trade, and commerce of all civilized countries and communities are carried on; the business which they transact, though for private profit, is of a pre-eminently public nature, and is therefore universally recognized as a proper subject of legislative regulation under the police power of the state. Unlike other commercial or manufacturing corporations, banks are quasi-public in nature, and the legislatures have in the public interest exercised a careful supervision over them. The power of the legislature in this regard is supreme, subject only to such limitations as are imposed by the fundamental law. So it is that the obligations of the contracts between savings banks and their depositors are not unconstitutionally impaired by a subsequent proper exercise of the police power. Nor are contract obligations under a banking corporation's charter which is subject to alteration and repeal unconstitutionally impaired by the regulation of their business under the police power of the state. Moreover, the failure of a bank charter to reserve to the state the right of amendment, while preventing an enactment of legislation transgressing or infringing

the rights secured to the bank by its charter, does not protect it against a valid exercise of the police power. Nor is such power of regulation subject to limitation so far as the Fourteenth Amendment to the Federal Constitution is concerned, except that such regulation must be reasonable."

In 9 C. J. S. 32, Banks and Banking, Section 5, this language is found:

"A bank being of a quasi-public character (supra Section 1), the banking business is properly subject to reasonable legislative regulation under the police power of the state because of its nature and the relation which it bears to the fiscal affairs of the people and the revenues of the state, banks being the depositories of the money of the country. The rights of all persons having a direct contact with the business may be altered and changed in a reasonable manner, so that if, in the opinion of the proper authorities, a banking business can no longer be continued with safety the state may order it to cease, as the police power of a state extends even to the prohibition of engaging in the business of banking except upon such conditions as the state may prescribe."

If this legislation is passed, we must assume that the Legislature believes that the operation of these detached facilities is an undesirable practice which jeopardizes the safety of the bank, and is permitted in the larger cities simply because of the public convenience and necessity. The validity of this belief is a matter for determination by the Legislature, and certainly not by us. Assuming the premise of the undersirability of these facilities being maintained in the smaller cities, we believe the Legislature has the power to require discontinuance of even those already established. If the Legislature believes that in the smaller cities this is a bad banking practice, it has a right, in the exercise of its police powers, in view of the quasi-public character of the banking business, to order the discontinuance of the practice. We therefore believe that this would not be held to be a deprivation of property without due process of law.

ATTORNEY GENERAL OPINION

March 27, 1973

Senator Steve Fowler
Nebraska State Legislature
State Capitol
Lincoln, Nebraska

Dear Senator Fowler:

L. B. 271 would establish a state housing authority which is to be financed by the issuance by the authority of notes and bonds. These are to be the obligations of the housing authority and not of the State and are to

be payable out of the revenue of the housing authority and any appropriations which future legislatures may provide. As the income of the housing developments and the proceeds of the sale of notes and bonds would be pledged to the repayment of the authority's obligations and these revenues would not be subject to legislative reappropriation there is raised the question of the constitutionality of the bonded indebtedness provisions.

The Nebraska Supreme Court has held analogous bonded indebtedness provisions invalid in *State ex rel. Meyer v. Steen*, 183 Neb. 297, and *State ex rel. Meyer v. Duxbury*, 183 Neb. 302, in 1968. The constitutional limitation upon state indebtedness appears in Article XIII, Section 1 of the Constitution of Nebraska.

"The state may, to meet casual deficits, or failures in the revenue, contract debts never to exceed in the aggregate one hundred thousand dollars, and no greater indebtedness shall be incurred except for the purpose of repelling invasion, suppressing insurrection, or defending the state in war, and provision shall be made for the payment of the interest annually, as it shall accrue, by a tax levied for the purpose, or from other sources of revenue, which law providing for the payment of such interest by such tax shall be irrevocable until such debt is paid; Provided, that if the Legislature determines by a three-fifths vote of the members elected thereto that the need for construction of highways in this state requires such action, it may authorize the issuance of bonds for such construction, and for the payment of the interest and the retirement of such bonds it may pledge any tolls to be received from such highways or it may irrevocably pledge for the term of the bonds all or a part of any state revenue closely related to the use of such highways, such as motor vehicle fuel taxes or motor vehicle license fees; and provided further, that the Board of Regents of the University of Nebraska, the Board of Trustees of the Nebraska State Colleges, and the State Board of Education may issue revenue bonds to construct, purchase or otherwise acquire, extend, add to, remodel, repair, furnish and equip dormitories, residence halls, single or multiple dwelling units or other facilities for the housing and boarding of students, single or married, and faculty or other employees, buildings and structures for athletic purposes, student unions or centers, and for the medical care and physical development and activities of students and buildings or other facilities for parking, which bonds shall be payable solely out of revenue, fees and other payments derived from the use of the buildings and facilities constructed or acquired, including buildings and facilities heretofore or hereafter constructed or acquired, and paid for out of the proceeds of other issues of revenue bonds, and the revenue, fees and payments so pledged need not be appropriated by the Legislature, and any

such revenue bonds heretofore issued by either of such boards are hereby authorized, ratified and validated. Bonds for new construction shall be first approved as the Legislature shall provide."

This provision has been interpreted by the court in Duxbury as a "limitation upon indebtedness . . . to prevent the anticipation of revenue by the creation of obligations to be paid from revenue to be received in future periods."

As the act would make the state housing authority an instrumentality of the State established for a public purpose, it would follow then that its revenue would be "public revenue," which must constitutionally be available to the Legislature for reappropriation. As the bonded indebtedness provisions of the act would pledge these funds for repayment of the authority's obligations and thus place them beyond the plenary control of the Legislature they violate the constitutional limitation upon indebtedness.

FIFTY-NINTH DAY

Legislative Chamber, Lincoln, Nebraska
Thursday, March 29, 1973

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Marsh presiding.

PRAYER

Prayer was offered by the Chaplain.

Today we need patience, O Lord our God.

For we grow weary with the hearing and reading and pondering of words upon words, and considering how we might like to punctuate or rephrase or clarify, and determining whether to postpone or approve or defeat.

We need to be patient with ourselves, and perhaps with one another.

But don't make us so patient that we cease to be impatient with things that are not as they should be in Nebraska.

Keep us uncomfortable with ourselves and with each other just so long as conditions remain unchanged which we have the power and authority to improve. Amen.

ROLL CALL

The roll was called and all members were present except Messrs. C. Carsten, Fellman, Snyder, Stromer and Waldron who were excused; Mr. Chambers who was absent until 9:30 a.m.

CORRECTIONS FOR THE JOURNAL

BILL ON FIRST READING

The following bill was read for the first time by title:

LEGISLATIVE BILL 506A. By Carpenter, 48th District.

A BILL FOR AN ACT to appropriate five thousand six hundred fifty-two dollars from the state General Fund for the period of July 1, 1973 to June 30, 1974 to the Commission on Mexican-Americans, Agency No. 506 for Program 537, Mexican-American Commission, to aid in carrying out the provisions of Legislative Bill 506, Eighty-third Legislature, First Session, 1973.

UNANIMOUS CONSENT—Print in Journal

Mr. Syas asked unanimous consent to have the following Committee Statement on LR 19 printed in the Journal. No objections. So ordered.

CONSTITUTIONAL REVISION AND RECREATION COMMITTEE

LR 19

The original Resolution called for a Constitutional Convention by the various states. There has been only one Federal Constitutional Convention before and that was the original one. The Committee felt that it was doubtful that if a Constitutional Convention were called by the states, and even if the specific reason for its calling was cited, that the delegates would stay within that format. Knowledgeable people in this field indicate that regardless of the reason the Convention was called the Convention could go into anything and rewrite the Federal Constitution. Therefore, to forestall that from happening the Committee amended the Resolution to urge Congress to pass this Constitutional Amendment and give it to the states for ratification. This is the usual method by which amendments to the Federal Constitution have been handled. This has been a safe and sound method.

In order to clarify further a suggestion might be made to amend the Resolution using the word bussing, which is what the amendment is all about, but doesn't specifically say so.

Appearing in favor of LR 19 was its introducer, Senator Terry Carpenter.

Appearing in opposition to LR 19 were Tereas K. Jackson, Nebraska League of Women Voters and Kappie Weber, Nebraska League of Women Voters.

It was moved and seconded that LR 19 as amended be advanced to General File. Motion passed: 6 Ayes, 1 Nay, 0 Not Voting and 0 Absent. Voting Aye were Senators Syas, Anderson, Burbach, Carstens, Kelly and Snyder. Voting Nay was Senator Keyes.

MOTION—Suspend Rules

Mr. Kremer moved to suspend the Rules and introduce a new bill by the Committee on Public Works and to place the bill directly on General File. (Request No. 872) The motion prevailed with 30 ayes, 0 nays and 19 not voting.

BILL ON FIRST READING

The following bill was read for the first time by title:

LEGISLATIVE BILL 548. By the Public Works Committee: Kremer, 34th District, Chairman; Hasebroock, 18th District; Wiltse, 1st District; Moylan, 6th District; R. Lewis, 38th District; Warner, 25th District.

A BILL FOR AN ACT to amend section 24-536, Revised Statutes Supplement, 1972, as amended by Legislative Bill 6, Eighty-third Legislature, First Session, 1973, relating to courts; to provide for trial of traffic infractions without a jury as prescribed; and to repeal the original section.

MOTION—State Office Building

This body and the Governor have agreed that the construction of a State Office Building is imperative. Accordingly, we have passed LB 447 and the Governor has signed it into law. Taking into consideration the bond market, construction economy, and the desire by the Legislature to see an early construction start, Mr. Carpenter moved that the Legislature request from the State Building Commission and the Governor a time schedule showing:

- 1) tentative meeting with City of Lincoln officials
- 2) completion of building plans
- 3) construction start time
- 4) building completion and occupancy.

The motion prevailed with 28 ayes, 0 nays and 21 not voting.

Mr. Carpenter requested that a copy of this motion be sent to the Governor and to the State Building Commission.

MOTION—Place LB 66 on General File

Mr. Barnett moved to place LB 66 on General File notwithstanding the committee action.

Motion pending.

**EIGHTY-THIRD LEGISLATURE
FIRST SESSION**

SIXTIETH DAY

Legislative Chamber, Lincoln, Nebraska
Monday, April 2, 1973

Pursuant to adjournment, the Legislature met at 10:00 a.m., President Marsh presiding.

PRAYER

Prayer was offered by the Chaplain.

Before we plunge into the duties of this day's session, O Lord our God, lift up our spirits for a moment at least, we pray, so that the pounding of our hearts may be eased somewhat by the quieting of our minds—so that our inner uncertainties may yield, however slightly, to a sense of adequacy and poise.

"What we know not, teach us; what we have not, give us; what we are not, make us; for what we have been, forgive us; as now we are, receive us; toward what we should be and shall be, guide, guard and direct us." Amen.

ROLL CALL

The roll was called and all members were present except Messrs. Anderson, Barnett and Proud who were excused.

**EIGHTY-THIRD LEGISLATURE
FIRST SESSION**

SIXTY-FIRST DAY

Legislative Chamber, Lincoln, Nebraska
Tuesday, April 3, 1973

Pursuant to adjournment, the Legislature met at 9:00 a.m., Mr. Whitney presiding.

PRAYER

The prayer was offered by the Chaplain.

Take resentment out of our thoughts and actions today, O Lord our God, even though things may occur which annoy or hurt us . . . even though we may feel ourselves being misjudged or overlooked or underestimated.

Too often our speech and actions come as the release of pent-up emotions which burst out uncontrolled—and how can we be right in our actions when we are not right in our attitudes? Prove to us the foolishness of resentment, and the wisdom of forgiveness. Help us to understand that if we can be proud of our innermost motives and attitudes, we will have no reason to be ashamed of the record of this Legislature. Amen.

ROLL CALL

The roll was called and all member were present except Messrs. Anderson, Proud and Waldron who were excused; Mr. Chambers who was absent until 9:30 a.m.

STANDING COMMITTEE REPORTS
Miscellaneous Subjects

LEGISLATIVE BILL 212. Placed on General File as amended.
Standing Committee amendments to LB 212:

1. Strike sections 1 to 10, and insert the following:
"Section 1. For purposes of this act, unless the context otherwise requires:
 - (1) Home solicitation sale shall mean a sale, lease, or rental of consumer goods or services with a purchase price of twenty-five dollars or more, whether under a single or multiple contract, in which the seller or his representative personally solicits the sale, including those in response to or following the invitation by the buyer, and the buyer's agreement or offer to purchase is made at a place other than the place of business of the seller. The term home solicitation sale does not include a transaction:
 - (a) Made pursuant to prior negotiations in the course of a visit by the buyer to a retail business establishment having a fixed permanent location where the goods are exhibited or the services are offered for sale on a continuing basis;
 - (b) In which the consumer is accorded the right to rescission by the provisions of the Consumer Credit Protection Act (15 U. S. C. 1635) or regulations issued pursuant thereto;
 - (c) In which the buyer has initiated the contact and the goods or services are needed to meet a bona fide immediate personal emergency of the buyer, and the buyer furnishes the seller with a separate dated and signed personal statement in the buyer's handwriting describing the situation requiring immediate remedy and expressly acknowledging and waiving the right to cancel the sale within three business days;
 - (d) Conducted and consummated entirely by mail or telephone; and without any other contact between the buyer and the seller or its representative prior to delivery of the goods or performance of the services;

30 (e) In which the buyer has initiated the contact and
 31 specifically requested the seller to visit his home for the
 32 purpose of repairing or performing maintenance upon the buyer's
 33 personal property. If in the course of such a visit, the seller
 34 sells the buyer the right to receive additional services or goods
 35 other than replacement parts necessarily used in performing the
 36 maintenance or in making the repairs, the sale of those additional
 37 goods or services would not fall within this exclusion; or

38 (f) Pertaining to the sale of securities or commodities
 39 by a broker-dealer registered with the Securities and Exchange
 40 Commission;

41 (2) Buyer shall mean both actual and prospective purchasers
 42 or lessees of any goods or services offered through home solici-
 43 tation selling;

44 (3) Seller shall mean a person or organization who advertises,
 45 offers, or deal in goods or services for the purpose of home
 46 solicitation selling or provides or exercises supervision,
 47 direction or control over sales practices used in the home solici-
 48 tation sale, but shall not include banks, savings and loan asso-
 49 ciations, insurance companies, public utilities, licensed motor
 50 vehicle dealers, licensed real estate brokers or salesmen with
 51 respect to real estate listings or the sale or leasing of real
 52 estate, but the term shall include a supplier or distributor if:

53 (a) The seller is a subsidiary or affiliate of the supplier
 54 or distributor;

55 (b) The seller interchanges personnel or maintains common
 56 or overlapping officers or directors with the supplier or
 57 distributor; or

58 (c) The supplier or distributor provides or exercises
 59 supervision, direction or control over the selling practices
 60 of the seller.

Sec. 2. In a home solicitation sale the seller shall, at
 2 the outset, clearly and expressly disclose the seller's individual
 3 name, the name of the business firm or organization he represents,
 4 and the identity of the goods or services he offers to sell.

Sec. 3. (1) In addition to any right otherwise to revoke
 2 an offer, to rescind the transaction or to exercise any remedy
 3 for the seller's breach, a buyer may cancel a home solicitation
 4 sale until midnight of the third business day after the seller
 5 has given notice to the buyer in accordance with section 4 of this
 6 act.

7 (2) Notice of cancellation shall be by mail addressed to
 8 the seller and shall be considered given at the time mailed.

9 (3) Notice of cancellation by the buyer need not take a
 10 particular form and is sufficient if it indicates by any form of
 11 written expression the intention of the buyer not to be bound
 12 by such home solicitation sale.

Sec. 4. (1) Whenever a buyer has the right to cancel a home
 2 solicitation sale, the seller's contract shall contain a notice
 3 to be printed in capital and lowercase letters of not less than
 4 ten point boldface type and appear under the conspicuous caption:
 5 BUYER'S RIGHT TO CANCEL; which shall read as follows: You may

6 cancel this agreement or purchase by either mailing a written
7 notice to the seller postmarked not later than the third business
8 day after the date you signed this agreement or purchased the
9 goods or services, or by delivering such written notice to the
10 seller, by 5 p.m. of the third business day after you signed
11 this agreement or purchased the goods or services. If you wish,
12 you may use this page as that notice by writing "I hereby cancel"
13 and adding your name and address.

14 (2) A home solicitation sales contract which contains the
15 "Notice of Cancellation" form and content provided in the
16 Federal Trade Commission's trade regulation rule providing a
17 cooling-off period shall be deemed as complying with the require-
18 ments of subsection (1) of this section, so long as the Federal
19 Trade Commission language provides at least equal information to
20 the consumer concerning his right to cancel as is required by this
21 act.

22 (3) A seller who in the ordinary course of business
23 regularly uses a language other than English in any advertising
24 or other solicitation of customers or in any printed forms for
25 use by buyers or in any face-to-face negotiations with buyers,
26 shall give the notice described in this section to a buyer whose
27 principal language is such other language, both in English and
28 in the other language.

29 (4) The notice required under this section shall be
30 delivered either after all the credit cost disclosures have been
31 made to the buyer as required by the federal Consumer Credit
32 Protection Act and the buyer has signed the writing evidencing
33 the transaction, or contemporaneously therewith, but not before.

34 (5) Until the seller has complied with this section the
35 buyer may cancel the home solicitation sale by notifying the
36 seller in any manner and by any means of his intention to cancel.
37 The three business day period prescribed by this act shall begin
38 to run from the time the seller complies with this section.

39 (6) The notice provisions under this section shall not be
40 required in a transaction involving an order for goods to be
41 delivered at one time if: (a) The order is evidenced only by a
42 sales ticket or invoice, a copy of which must be provided to the
43 buyer, which clearly and unmistakably sets forth on the face or
44 reverse side of the sales ticket or invoice the buyer's right to
45 cancel the order, refuse delivery or return the goods without
46 obligation or charge; (b) the goods are not delivered within
47 three business days of the date of the order; and (c) the buyer
48 may refuse to accept the goods when they are delivered without
49 incurring any obligation to pay for them or the expenses associ-
50 ated with the transaction, including mailing or shipping charges,
51 or the buyer may upon inspecting the goods after delivery,
52 return them within three business days to the seller and receive
53 a full refund for any amounts the buyer has paid including mailing
54 and shipping charges.

Sec. 5. (1) Within ten days after a home solicitation
2 sale has been canceled, the seller shall cause any money paid by

3 the buyer, including a down payment, to be returned to the buyer
 4 and shall take appropriate action to reflect the termination of
 5 the transaction including any security interest created as a
 6 result.

7 (2) Upon cancellation, as allowed by this section, the buyer
 8 shall not be liable for any finance or other charge and the
 9 transaction, including any security interest, shall be void.

10 (3) If the seller receives any property from the buyer,
 11 he shall return such property in substantially as good condition
 12 as it was when it was given within twenty days after cancellation
 13 of the transaction. If such property is not returned within such
 14 time, the buyer may recover the property or the greater of its
 15 agreed or fair market value at retail.

Sec. 6. (1) The buyer shall take reasonable care of such
 2 property in his possession before cancellation and for a reason-
 3 able time after tender, not to exceed twenty days.

4 (2) Upon the performance of the seller's obligations under
 5 section 7 of this act, the buyer shall tender such property to
 6 the seller except that if the return of such property to the
 7 seller is inequitable, the buyer shall tender its reasonable value.

8 (3) Tender shall be made at the location of the property
 9 or at the residence of the buyer at the option of the buyer.

10 (4) If the seller does not take possession of such property
 11 within twenty days after tender by the buyer, ownership of such
 12 property shall vest in the buyer without obligation on his part
 13 to pay for it.

14 (5) If a seller performs any services pursuant to a home
 15 solicitation sale prior to its cancellation, the seller shall
 16 not be entitled to compensation.

Sec. 7. (1) No seller may bring any action in any court
 2 of this state for the collection of any home solicitation sale
 3 without proving that such seller was at all times in compliance
 4 with the provisions of this act.

5 (2) Any sale made in violation of this act shall entitle
 6 the buyer to recover any sums paid to the seller pursuant to the
 7 transaction along with the actual damages, including any incidental
 8 and consequential damages sustained by the buyer by reason of
 9 the violation, together with the costs of the suit, including
 10 a reasonable attorney's fee."

ATTORNEY GENERAL OPINION

April 3, 1973

Senator Robert L. Clark
Nebraska State Legislature
State Capitol
Lincoln, Nebraska

Re: L. B. 36

Dear Senator Clark:

This is in reply to your inquiry concerning the constitutionality of L. B. 36, as amended on March 29, 1973, which would grant to the State

and counties, without compensation to the School Trust, an easement for a public road or highway along the side of a school section, or on any part of a section that has an established meandering road.

The lands with which the provisions of L. B. 36 are concerned were acquired by the State of Nebraska by the Enabling Act of Congress adopted April 19, 1864. Section 7 of this act provides as follows:

“And be it further enacted, that Sections 16 and 36 in every township, and when such sections have been sold or otherwise disposed of by any act of Congress, other lands equivalent thereto, in legal subdivisions of not less than one-quarter section, and as contiguous as may be, shall be, and are hereby, granted to said state for the support of the common schools.”

With regard to the use to which these lands must be put, Article VII, Section 9 of the state constitution provides:

“The following funds shall be exclusively used for the support and maintenance of the common schools in each school district in the state as the Legislature shall provide:

“* * * *”

“C. All other grants, gifts and devises that have been or may hereafter be made to the state which are not otherwise appropriated by the terms of the grant, gift or devise, * * *.”

In 1966 the State of Arizona, on the relation of its highway department, sued its state land commissioner to prohibit the commissioner's application of his rule that in acquiring rights of way over federally donated lands held in trust by the state, the highway department must pay the appraised value of the property taken. The Supreme Court of Arizona ordered the commissioner to grant such rights of way upon trust lands without compensation. On certiorari to the Supreme Court of the United States a unanimous court held that in acquiring rights of way in federally donated lands held in trust under the New Mexico-Arizona enabling act, Arizona must actually compensate the trust in money for the value of any rights of way which it obtains over the trust lands. *Lassen v. Arizona*, 386 U. S. 939, 17 L. Ed. 2d 515, 87 S. Ct. 584.

Considering the provisions of L. B. 36, as amended, in light of the decision of the Supreme Court of the United States, it is doubtful that the constitutionality of L. B. 36 could be upheld.

Very truly yours,

CLARENCE A. H. MEYER
Attorney General

SIXTY-SECOND DAY—APRIL 4, 1973

LEGISLATIVE JOURNAL

**EIGHTY-THIRD LEGISLATURE
FIRST SESSION**

SIXTY-SECOND DAY

Legislative Chamber, Lincoln, Nebraska
Wednesday, April 4, 1973

Pursuant to adjournment, the Legislature met at 9:00 a.m., Speaker Proud presiding.

PRAYER

The prayer was offered by the Chaplain.

○ Lord and Saviour of all: We need Your help to take resentment out of our thoughts and meditations—sometimes, more than at other times, but never, it seems, are we completely free of this need—for things happen in life generally, and in the life of this Legislature, of course, which annoy and hurt.

Words are spoken which we sometimes feel to be personally unkind or unnecessary; and we feel ourselves to be misjudged when we should be congratulated, or overlooked when we should be recognized.

Save us from inner rebellion and bitterness and moodiness, for such things can succeed only in destroying our souls.

Help us today by reminding us of that perfect one who tread these paths before us in the Fullness of Times; and may the way the Master went be the way the servant travels still. Amen.

ROLL CALL

The roll was called and all members were present except Messrs. DeCamp, Moylan, Murphy, and Waldron who were excused; Mr. Chambers who was absent until 11:00 a.m.

SIXTY-THIRD DAY

Legislative Chamber, Lincoln, Nebraska
Thursday, April 5, 1973

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Marsh presiding.

PRAYER

Prayer was offered by the Chaplain.

If we have been guilty at times of looking backward in anger, or forward to revenge, forgive us, O Lord Our God.

And if there have been moments when we have looked at one another in disgust or distrust, and have been selfish in motivation, and careless in action, forgive us.

If, in the midst of the many things that happen in this Legislature, we tend to grow skeptical about Your presence here, no longer remembering that our work is really Your work, forgive us.

In our finer moments, we know better. Help us to overcome those interludes of weakness when we know better than we do. Amen.

ATTORNEY GENERAL OPINIONS

Opinion No. 37
April 9, 1973

Senator David H. Stahmer
Nebraska State Legislature
State Capitol
Lincoln, Nebraska

Dear Senator:

You have asked for an opinion as to the constitutionality of Senator Barnett's amendment to L. B. 207. You also indicate that you are concerned that the amendment, if passed, might deprive children of life-saving medical treatment.

The amendment which was apparently prepared for Senator Barnett by a representative of Christian Science Committee on Publication for Nebraska, is as follows:

“(4) No child who in good faith is being provided with treatment by spiritual means alone through prayer in accordance

with the tenets and practice of a recognized church or religious denomination shall, for that reason alone, be deemed to be endangered under any provision of this Act.”

It is our opinion that the constitutionality of the amendment, if enacted, would be very doubtful.

No case directly on point was found. Though it is true religious beliefs cannot be interfered with by the state, certain practices of these beliefs must succumb to the inherent power of a state to protect the health and welfare of its citizens. This is particularly true in the case of children and incompetent individuals. The state, as *parens patriae*, may restrict the rights of parents as well as rights of religion in order to perform its inherent sovereign duty to protect those not capable of protecting themselves. It must be kept in mind that the purpose of the rule of *parens patriae* is not to interfere with the religious belief but is rather designed to interfere with certain religious practices if these practices interfere with the health and welfare of children or anyone else for that matter.

The constitutional provisions in regard to religion are the First Amendment of the United States Constitution and Article I, Section 4, of the Nebraska Constitution. The former is as follows:

“Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; . . .”

The Nebraska constitutional provision is:

“All persons have a natural and indefeasible right to worship Almighty God according to the dictates of their own consciences. No person shall be compelled to attend, erect or support any place of worship against his consent, and no preference shall be given by law to any religious society, nor shall any interference with the rights of conscience be permitted. No religious test shall be required as a qualification for office, nor shall any person be incompetent to be a witness on account of his religious beliefs; but nothing herein shall be construed to dispense with oaths and affirmations. Religion, morality, and knowledge, however, being essential to good government, it shall be the duty of the Legislature to pass suitable laws to protect every religious denomination in the peaceable enjoyment of its own mode of public worship, and to encourage schools and the means of instruction.”

In 1878 the United States Supreme Court decided for the first time that the freedom of religion clause guaranteed freedom of religious belief, but not necessarily freedom of religious practice. In *Reynolds v. United States*, 98 U. S. 145, 25 L. Ed. 244(1878), Reynolds was a member of the Church of Jesus Christ of Latter-Day Saints, commonly called the Mormon

Church. One of the doctrines of his faith required him to practice polygamy when circumstances permitted and if he neglected to so practice the penalty would be "damnation in the life to come." Congress had passed a law which had prohibited polygamous marriages. (Nebraska has a similar law in Section 28-903, R. R. S 1943.) Reynolds was convicted and on appeal to the United States Supreme Court he defended his action on the ground that it was his absolute religious belief and duty to have two wives. This is what the Court said:

"... Laws are made for the government of actions, and while they cannot interfere with mere religious belief and opinions, they may with practices. Suppose one believed that human sacrifices were a necessary part of religious worship, would it be seriously contended that the civil government under which he lived could not interfere to prevent a sacrifice? Or if a wife religiously believed it was her duty to burn herself upon the funeral pile of her dead husband, would it be beyond the power of the civil government to prevent her carrying her belief into practice?

"So here, as a law of the organization of society under the exclusive dominion of the United States, it is provided that plural marriages shall not be allowed. Can a man excuse his practices to the contrary because of his religious belief? To permit this would be to make the professed doctrines of religious belief superior to the law of the land, and in effect to permit every citizen to become a law unto himself. Government could exist only in name under such circumstances."

In *Prince v. Commonwealth of Massachusetts*, 321 U. S. 158, 88 L. Ed. 645, 64 S. Ct. 438 (1944), Sarah Prince was convicted of violating the Child Labor laws by allowing a nine year old ward of hers to sell the "Watchtower" and "Consolation." These were publications of Jehovah's Witnesses. Both Prince and the nine year old girl believed the selling of these publications was their duty as Witnesses as a method of preaching the gospel and the failure to do so would bring condemnation "to everlasting destruction at Armageddon."

In upholding the conviction the court said:

"But the family itself is not beyond regulation in the public interest, as against a claim of religious liberty. . . . And neither rights of religion nor rights of parenthood are beyond limitation. Acting to guard the general interest in youth's well being, the state as *parens patriae* may restrict the parent's control by requiring school attendance, regulating or prohibiting the child's labor, and in many other ways. Its authority is not nullified merely because the parent grounds his claim to control the child's course of conduct on religion or conscience. Thus, he cannot claim freedom from compulsory vaccination of the child more

than for himself on religious grounds. The right to practice religion freely does not include liberty to expose the community or the child to communicable disease or the latter to ill health or death. . . . The catalogue need not be lengthened. It is sufficient to show what indeed appellant hardly disputes, that the state has a wide range of power for limiting parental freedom and authority in things affecting the child's welfare; and that this includes, to some extent, matters of conscience and religious conviction."

In *Hoener v. Bertinato*, 67 N. J. Super. 517, 171 A. 2d 140 (1961), the New Jersey court required the religious beliefs of parents to yield to the duty of the state to protect its citizens. Mrs. Bertinato had a blood condition known as RH negative and she was about to give birth to a child. The undisputed medical testimony was that the child would die shortly after the birth unless the child received a blood transfusion. The Bertinatos both testified:

"... as Jehovah's Witnesses, if they consented, they would be breaking the commands of their faith which prohibit any taking or injection of blood, and that the strength of their belief was such that, even if it meant that the baby could not survive without the transfusions, they would, and could, not consent thereto. . . ."

The court entered an order giving custody of the child, when born, to the county welfare department with authority to consent to a transfusion.

On the matter of religious freedom and the obligations of the state the court said:

"Laws are made for the government of actions. While they cannot constitutionally interfere with mere religious beliefs and opinions, they may interfere with religious practices inconsistent with the peace and safety of the state--here, the protection of the lives and health of its children. . . ."

Then, quoting from *Prince*, supra, the court said:

"The right to practice religion freely does not include liberty to expose the community or the child to communicable disease or the latter to ill health or death* * * Parents may be free to become martyrs themselves. But it does not follow they are free, in identical circumstances, to make martyrs of their children before they have reached the age of full and legal discretion when they can make that choice for themselves'."

The New Jersey court reached a similar conclusion in regard to an infant already born in *State v. Perricone*, 37 N.J. 463, 181 A. 2d 751 (1962). Relying on *Prince*, supra, the court said:

“Neither rights of religion nor rights of parenthood are beyond limitation.”

Other cases reaching like conclusions can be found in 12 A.L.R. 2d 1047, and 30 A.L.R. 2d 1138.

In conclusion, it is our opinion that the state cannot abrogate, in the name of religion, its inherent duty as *parens patriae* with respect to children and others not capable of caring for themselves.

Very truly yours,

CLARENCE A. H. MEYER
Attorney General

Clerk of the Legislature

Opinion No. 38
April 9, 1973

Senator Wally Barnett
Nebraska State Legislature
State Capitol Building
Lincoln, Nebraska

Dear Senator:

You have requested our opinion as to the effect of the Lewis General File amendment to Legislative Bill 180. This amendment deletes the language from Section 81-502 by virtue of which the Life Safety Code was adopted; and, in lieu thereof, the amendment provides that the Fire Marshal may adopt rules and regulations generally conforming to the standards recommended by the Life Safety Code.

We believe that the Fire Marshal, under the amendment, lawfully could promulgate and enforce as rules and regulations various provisions similar to some of those contained in the Life Safety Code. However, in our opinion, the Fire Marshal could not adopt all provisions of the Code in toto. The rule-making authority of the Fire Marshal is limited by Section 81-502 to certain specifically enumerated conditions and situations, the scope of which is considerably more narrow than the range of subjects covered by the Life Safety Code.

The amendment also restricts enforcement of the Fire Marshal's rules and regulations in cases where "doing so would impose an unduly severe or costly burden without substantially contributing to safety of persons or property." Just what would constitute such an unduly severe or costly burden could become quite nebulous matter to determine. Nevertheless, we doubt that the language is so vague as to render the provision incapable of understanding and application.

We find no reported court decision involving precisely this type of statutory language. However, there are a number of cases involving essentially synonymous wording in which the courts seem to experience no particular difficulty by way of interpretation and application of the statutory provision. In *Safer v. City of Jacksonville*, 237 So. 2d 8, the court found that the term "undue hardship" was susceptible of legal interpretation based upon the facts of a given case and that the use of such term in the municipal housing code provision granting to the Board of Adjustment the right to grant relief against strict or literal enforcement did not invalidate the provision. In *Lovely v. Zoning Bd. of Appeals*, 259 A. 2d 666, the court said that the phrase "undue hardship" as used in a statute providing for appeals from decisions of the Zoning Board of Appeals, should be equated with the phrase "unnecessary hardship," which means any hardship suffered by an applicant as a result of the interference with his right to use his property, without commensurate public advantage. In *Beerman v. City of Kettering*, 237 N.E. 2d 644, the court declared that "undue hardship" refers to a hardship peculiar to the situation of the zoning applicant, which is of such a degree of severity that its imposition is not necessary to carry out the spirit of the ordinance and amounts to a substantial and unnecessary injustice to the applicant. As is indicated by these court decisions, each case would necessarily have to be decided upon the basis of its particular factual setting.

Very truly yours,

UNANIMOUS CONSENT—Print in Journal

Mr. Marvel asked unanimous consent to have the following letter relative to LB 235A printed in the Journal. No objections. So ordered.

Department of Health, Education, and Welfare

April 4, 1973

Honorable Richard L. Marvel
Chairman, Appropriations Committee
Nebraska Legislature
Room 2028, State Capitol
Lincoln, Nebraska 68509

Dear Senator Marvel:

This will confirm the statements made by Mr. Robert D. McManus, Assistant Regional Director, Region VII, DHEW, to you and Senator Terry Carpenter, Chairman, Nebraska Legislative Executive Board on Tuesday, April 3, 1973, in response to your questions regarding Federal participation in the funding of the Nebraska AFDC welfare program.

You asked if the Federal government could reduce or eliminate Federal participation in the funding of the AFDC program. The Federal government cannot reduce, eliminate, or impound funds intended for the Federal share of expenditures for assistance payments (Title IV A) and payments for medical services (Title XIX) without act of Congress. The Federal government is obligated to appropriate sufficient funds to cover the Federal share of these expenditures as determined by the application of the pertinent sections of the Social Security Act.

The Federal share of expenditures for these programs is set forth by formula in the Social Security Act and cannot be altered except by congressional action.

I have discussed this matter with Mr. Paul Cacioppo, Regional Attorney, Region VII, DHEW and he concurs with this funding.

Sincerely yours,

(Signed) Max M. Mills
Regional Director

ATTORNEY GENERAL OPINION

Opinion No. 39
April 9, 1973

Senator J. James Waldron
Nebraska State Legislature
State Capitol
Lincoln, Nebraska

Dear Senator Waldron:

In your letter of inquiry you state that you are contemplating the introduction of certain legislation to place the supervision and control of educational service units under the State Department of Education. In connection therewith you have propounded two questions, which are hereinafter discussed.

Your first question is whether the above cited constitutional provision grants to the State Department of Education the supervision of the educational service units, making your proposed legislation unnecessary.

In *School Dist. No. 8 v. State Board of Education*, 176 Neb. 722, 127 N. W. 2d 458 (1964), the court stated:

“* * *. The general supervision and administration of the school system of the state by the State Department of Education is thereby a constitutional grant of power dependent only upon implementing legislative action.” (176 Neb. at 726.)

We are therefore of the opinion that implementing legislation would be necessary if the supervision and control of educational service units is to be placed under the Department of Education. See, *School Dist. No. 8 v. State Board of Education*, supra.

Your second question is whether section 2 of Article VII of the Constitution of Nebraska grants to the Commissioner of Education any authority or control over the educational service units without further legislation? No. The Commissioner of Education has only such legal “powers and duties as the Legislature may direct.” See, section 4 of Article VII of the Constitution of Nebraska.

Very truly yours,

CLARENCE A. H. MEYER
Attorney General

Legislative Chamber, Lincoln, Nebraska
Tuesday, April 10, 1973

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Marsh presiding.

PRAYER

The prayer was offered by the Chaplain.

O Lord our God: We pray once more—but sometimes we wonder what's left to pray for, because we've said it all so many times before, and we don't want to wear thin our welcome.

And sometimes we are unwilling to accept the answer to our prayer, because it is not what we have been expecting.

Yet we continue in this Legislature to feel the burden of being the few who act for the many on matters of importance, and we do need to have our spirits uplifted and held close to the heart of the Eternal, if only for a brief moment each day.

We have been aware of Your Presence, O God, even though we may not always have acted as if You were here.

Continue with us—we ask it once more: Help us today, and stay with us to the end. O Lord our God. Amen.

The roll was called and all members were present except Messrs. Keyes, F. Lewis and Syas who were excused.

SIXTY-SIXTH DAY—APRIL 11, 1973

LEGISLATIVE JOURNAL

EIGHTY-THIRD LEGISLATURE
FIRST SESSION

SIXTY-SIXTH DAY

Legislative Chamber, Lincoln, Nebraska
Wednesday, April 11, 1973

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Marsh presiding.

PRAYER

Prayer was offered by the Chaplain.

Almighty and all merciful God; source of all life; Father of all spirits; author of all good: we begin this important day in prayer—not because we are worthy, but because we are needy. We confess that the problems we have come to consider are ours—they are man-made; but whatever the ability we have to solve them, it is not ours; it must be God-given!

Somehow make us equal to the large demands of the present hour. Lest we become timid in the face of criticism, remind us that our citizens don't sit in the seats of responsibility which have been assigned to us. Lest we become complacent in the face of our authority, remind us that if anything we decide here is in fact to happen, it is the tax-payer who must do it. Amen.

ROLL CALL

The roll was called and all members were present except Messrs. Burbach, Epke, Kime and Rasmussen who were excused; Mr. Fowler who was excused until 11:00 a.m.

CORRECTIONS FOR THE JOURNAL

PRAYER

The prayer was offered by the Chaplain.

For ties that continue to bind us together, even when the going is rough; for common purposes we continue to recognize as larger than we are, even when the business at hand taxes our patience and our constituents; for the privilege of sharing in the inspirations—as well as the frustrations—of events which make headlines . . . causing folks back home to smile, or to stop smiling; for the conviction we share that what helps our district helps our state; and what helps our state helps people; and what helps people is always right; for anything that may happen during today's session to deepen this conviction, and give it practical application; we now ask Your help, O Lord our God. Amen.

ATTORNEY GENERAL OPINION

Opinion No. 40
April 12, 1973

Senator Ramey C. Whitney
Nebraska State Legislature
State House
Lincoln, Nebraska

Dear Senator:

You have requested our opinion concerning issues relative to L. B. 55, Nebraska Legislature, 83rd Legislature, 1st Session (1973). This bill would amend Section 84-1317, R. R. S., 1943, to require the retirement of certain state employees at age 65, where such employees may now continue their state employment if the employing department approves. Your questions, and our comments follow:

1. Will this prevent persons from running for the Legislature if they exceed 72 years of age?

No. Members of the Legislature are not subject to the State Employees Retirement Act. Further, the mandatory retirement requirements of Section 84-1317, as proposed by L. B. 55, are expressly not applicable to elected officials.

2. If a Senator becomes 72 while serving as a Legislator will he be required as a state employee to resign?

No. Our reasons are the same as for our answers to your first question.

3. Does the Legislature have the authority to require employees of constitutional agencies to retire as of a given age?

Article IV, Sec. 1, Constitution of Nebraska, provides in part:

“* * *. Subject to the provisions of this Constitution, the heads of the various executive or civil departments shall have power to appoint and remove all subordinate employees in their respective departments.”

Arguably, this section would forbid legislative restrictions upon the authority of a state officer to hire persons over sixty-five. However, we are not persuaded by the argument. The Legislature has provided maximum ages for judges, including judges holding constitutionally established offices and the Nebraska Supreme Court has upheld this system, though without considering the issue of the Legislature's authority to require such retirement. See *Wilson v. Marsh*, 162 Neb. 237, 73 N. W. 2d 723. In *Gossman v. State Employees Retirement System*, 177 Neb. 326, 129 N. W. 2d 97, the Court did not expressly discuss the Article IV, Sec. 1 issues, but did say, *Id.*, at 341:

“Lastly, plaintiff attacks various provisions in the Act setting up conditions as to age, length of qualifying service, and a requirement for full-time employment. To adopt plaintiff's contentions in these respects would be for the court to substitute its judgment as to State employment policy for that of the Legislature. The State and the Legislature are here acting as an employer where broad economic and competitive conditions may exist. It must have broad discretion as to conditions of employment and as to conditions, classifications, and membership in retirement plans. Lines must be drawn as to age, length of service, and other conditions. The apparent inequity of discriminating between one just below or above the lines does not destroy the validity of the classifications attacked or prevent its enforcement. * * *.”

We have found no other decision which would be persuasive on the present issue. Thus, we cannot advise you that the Legislature cannot establish an age of mandatory retirement for state employees.

4. Even though employees of the Legislature are not excluded from L. B. 55 does the Legislature have the authority to hire persons over 72 years of age?

We understand that employees of the Legislature are currently considered to be subject to the State Employees Retirement System. Nothing in L. B. 55 would exempt such employees from the same provisions as are applicable to other state employees. The mandatory retirement age is sixty-five, and no person could be employed who was in excess of this age.

Very truly yours,

CLARENCE A. H. MEYER

ATTORNEY GENERAL'S OPINION

Opinion No. 41
April 12, 1973

Senator Ramey C. Whitney
Nebraska State Legislature
State Capitol
Lincoln, Nebraska

Dear Senator Whitney:

In your letter of April 10, 1973, you ask our opinion as to the constitutionality of L.B. 445, as amended by the Standing Committee amendments. We believe that it would be difficult to sustain the validity of this bill, as amended.

At present, Section 79-1522, R.R.S. 1943, provides for a service annuity to retired school employees ranging from one and one-half dollars per month for each year of service to three dollars per month for each year of service. The various classifications are set forth in that section. The proposed amendment would provide in part:

“***. Each school employee or emeritus member who retired before July 1, 1973 and who is receiving a service annuity as of that date shall have such service annuity increased to equal three dollars monthly annuity per year of service, based on the same number of years of service that is currently being used to determine his service annuity. Such increased service annuity shall commence on July 1, 1973.”

Article III, Section 19 of the Nebraska Constitution provides in part:

“The Legislature shall never grant any extra compensation to any public officer, agent, or servant after the services have been rendered nor to any contractor after the contract has been entered into, except that retirement benefits of retired public officers and employees may be adjusted to reflect changes in the cost of living and wage levels that have occurred subsequent to the date of retirement, ***.”

In *Wilson v. Marsh*, 162 Neb. 235, 75 N. W. 2d 723, the Court held that if the services are rendered and terminated before the grant of retirement benefits is made the benefits awarded are not compensation but a gratuity, and hence would be forbidden by the above quoted constitutional prohibition against granting extra compensation after the services have been rendered.

As you will note, an express exception has been made to this constitutional provision as it applies to retirement benefits of retired public officers and employees. However, the exception authorizes adjustments only to “reflect changes in the cost of living and wage levels that have occurred subsequent to the date of retirement.” The amendment to L.B. 445 dealing with increases in the service annuity of retired employees is in no way tied to changes in the cost of living or wage levels since the retirement of the employees, and as a matter of fact, in making it uniformly applicable to all such retired employees, regardless of the date of retirement, obviously could not reflect such changes. To illustrate, the same increase would be given to a retired employee who retired the day before the effective date of the act as would be given to an employee who retired in 1950. The constitutional provision contemplates adjustments reflecting changes subsequent to the date of the retirement of the individual employee, so a blanket, uniform adjustment could, in our opinion, never come within the exceptions spelled out in Article III, Section 19.

Very truly yours,

CLARENCE A. H. MEYER
Attorney General

PRAYER

The prayer was offered by the Chaplain.

Our schedules, our plans, our bills for a new week we have in mind as we pause now for an opening moment of prayer, O Lord our God, in the continuing faith that we are instruments in the fulfilling not of our own will, but the will of the God and Father of all men.

As we sincerely seek to do what is right, make it plain to us — and keep it plainly before us as pressures mount and deadlines approach.

Through the often disordant tones of human need and human choice, may we yet hear the unifying theme of human love — and may that unite us to one another in the service of others. Amen.

COMMUNICATIONS

April 13, 1973

Honorable Terry Carpenter, Chairman
Legislative Council Executive Board
State Capitol
Lincoln, Nebraska

Dear Senator Carpenter:

The State Building Commission, at the April 6, 1973 meeting, reviewed your March 29, 1973 motion requesting a timetable for the various steps in the planning and construction of the State Office Building. I am writing this letter at the instruction of the Commission to advise you concerning your request.

The Commission unanimously assures the Executive Board and the Legislature that we will proceed as quickly as possible, and with prudence on this very important project. The Commission further assures you that careful and serious consideration will be given to the alternatives of revising the existing plans versus developing a new design. This is especially important since LB 447 requires that the rentable space in the Office Building be at least 80%.

The City of Lincoln was represented at the April 6th meeting by City Attorney Dick Wood. Mr. Wood was given verbal authority by the Building Commission to request the Lincoln City Council to proceed to prepare the required ordinance to authorize the issuance of bonds to finance the project as provided in LB 447. For your information, I enclose a copy of the Commission's written confirmation to the City of Lincoln.

The Commission has authorized employment of a Project Director to coordinate this project, and requested the Department of Administrative Services to update the 1968 Ebasco space study for the Office Building. The Commission expects to meet about the first week in May to review space needs and give further consideration to the two alternatives concerning use of existing plans or having new plans drawn. It is expected that a consultant will be selected and authorized to proceed before July 1st. After completed plans have been developed, six weeks will be required to receive bids, and the construction period will be about 34 months.

The Commission will keep the Legislature fully advised of the status and progress of this project and welcomes recommendations and comments on this important project.

Sincerely,

STATE BUILDING COMMISSION

ATTORNEY GENERAL'S OPINION

Opinion No. 42

April 13, 1973

Senator Wallace (Wally) Barnett
Nebraska State Legislature
State Capitol
Lincoln, Nebraska

Dear Senator Barnett:

You have requested our opinion as to the following questions, were the Lewis General File amendment to Legislative Bill 180 adopted:

"1. Will the Fire Marshal's office have any authority to promulgate Rules and Regulations in:

- (a) nursing homes
- (b) homes for the aged and infirmed
- (c) jails

"2. Does the Fire Marshal's office have authority to promulgate Rules and Regulations regarding any other fire protection practices other than, 'electricity, heating and means and adequacy of exits,' as stated in 81-502 3-C? Are these items listed below exempt from promulgation?

- (a) alarm systems
 - (b) sprinkler systems
 - (c) fire retardent materials
 - (d) floor separation
 - (e) room separation
 - (f) high hazard protection
 - (g) construction
 - (h) emergency lighting
 - (i) extinguishers
- etc."

The amendment deletes from Section 81-502 the language by virtue of which the Life Safety Code was adopted; and, in lieu thereof, the amendment provides that the Fire Marshal may adopt rules and regulations

“generally conforming to the standards recommended by the Life Safety Code.”

As we stated in our letter to you of April 6, 1973, we believe that, under this amendment, the Fire Marshal lawfully could promulgate and enforce as rules and regulations some provisions similar to those contained in the Life Safety Code. However, it is our opinion that the Fire Marshal could not blanket adopt all of the provisions of the Code. The rule-making authority of the Fire Marshal seems to be limited by Section 81-502 to those certain specifically enumerated conditions and situations, the scope of which is considerably more narrow than the range of subjects which is covered by the Life Safety Code. If the amendment were construed as authority for the Fire Marshal to adopt regulations generally conforming to the Life Safety Code with respect to matters not specifically mentioned in Section 81-502, it would appear to constitute an unlawful delegation of legislative power to an administrative officer. See *Lincoln Dairy Co. v. Finigan*, 170 Neb. 777.

While we recognize that Section 81-502 purports to give the Fire Marshal the authority to promulgate rules and regulations with respect to the very broad subject of “prevention of fires,” we interpret this to have reference to regulations designed to eliminate the starting or outbreaking of fires, as distinguished from regulations designed for such purposes as the detection, extinguishing, retarding or controlling of fires once started. With the possible exception of items (f) and (g) in your second question, it is our belief that the Fire Marshal would have no authority to promulgate rules with respect to the various matters enumerated in your second question, inasmuch as they are not matters enumerated in Section 81-502 and would appear not to come within the purview of “fire prevention,” as previously discussed. As to items (f) and (g), we presume that there might be some measures relating to high hazard protection and structural design which could be said to minimize the chances of fire occurring; and, to that extent, they probably would be a proper subject for regulation under Section 81-502; but it is not possible to enumerate all conceivable such possibilities.

Very truly yours,

CLARENCE A. H. MEYER
Attorney General

LEGISLATIVE BILL 286. Placed on General File as amended.
Standing Committee amendments to LB 286:

1. Strike sections 1 to 8 and insert the following:

"Section 1. The Legislature hereby finds and declares:

- 2 (1) That the protection of the mental and physical health and life
3 of all pregnant women in Nebraska and the unborn human life with which they
4 are pregnant is of vital interest and concern to the State of Nebraska. The
5 purpose of this act is to preserve and protect the physical and mental health
6 and life of pregnant women and the health of the unborn human life with which
7 they are pregnant. The Legislature further finds that the lack of experience
8 in Nebraska with respect to abortion requires that strict regulations, con-
9 trols, and procedures be implemented to protect the health, both physical
10 and mental, of the pregnant woman.
- 11 (2) That current judicial and medical professional remedies to pro-
12 tect the life, health and welfare of pregnant women and unborn human life
13 are grossly inadequate.
- 14 (3) That it is in the interest of the people of the State of Nebraska
15 to maintain accurate statistical data to aid in providing proper maternal
16 health regulations.

Sec. 2. As used in this act, unless the context otherwise requires:

- 2 (1) Abortion shall mean an act, procedure, device, or prescription
3 administered to or prescribed for a pregnant woman by any person, including
4 the pregnant woman herself, with either the intent or result of producing
5 the premature expulsion, removal, or termination of the human life within
6 the womb of the pregnant woman;
- 7 (2) Hospital shall mean those institutions licensed by the State Board
8 of Health pursuant to sections 71-2017 to 71-2029, Reissue Revised Statutes
9 of Nebraska, 1943, and amendments thereto;

10 (3) Consent shall mean a signed and witnessed voluntary agreement to
11 the performance of an abortion;

12 (4) Physician shall mean any person licensed to practice medicine in
13 this state as provided in sections 71-102 to 71-110, Reissue Revised Stat-
14 utes of Nebraska, 1943, and amendments thereto;

15 (5) Pregnant shall mean that condition of a woman who has unborn
16 human life within her as the result of conception;

17 (6) Conception shall mean the fecundation of the ovum by the sperma-
18 tozoa;

19 (7) Viability shall mean that stage of human development when the
20 life of the unborn child may be continued by natural or life-support systems
21 outside the womb of the mother; and

22 (8) Accepted medical procedures shall mean procedures of the type and
23 performed in a manner and in a facility which is equipped with surgical,
24 anaesthetic, resuscitation, and laboratory equipment sufficient to meet the
25 standards of medical care which physicians in the same neighborhood or in
26 similar communities, engaged in the same or similar lines of work, would
27 ordinarily exercise and devote to the benefit of their patients.

Sec. 3. Every physician consulted about abortion by an expectant
2 mother shall inform her of agencies and services available to assist her to
3 carry the pregnancy to natural term, and shall further inform the expectant
4 mother as to all reasonably possible medical and mental consequences re-
5 sulting from the performance of an abortion.

Sec. 4. Any physician who fails to comply with the provisions contained
2 in section 3 of this act shall be guilty of a misdemeanor and shall, upon con-
3 viction thereof, be punished by a fine of not less than five hundred dollars
4 and not more than one thousand dollars, or by imprisonment in the county
5 jail for not more than six months, or by both such fine and imprisonment.
6 Each violation shall constitute a separate offense.

Sec. 5. No abortion shall be performed or prescribed after the un-
2 born child has reached viability, except when necessary to preserve the
3 woman from an imminent peril that substantially endangers her life or health.

Sec. 6. No abortion procedure or act shall be employed or prescribed
2 after the unborn child has reached viability, which procedure has the direct
3 or indirect effect of terminating the viability of the unborn child prior
4 to, during, or following the abortion, except when necessary to preserve the
5 woman from an imminent peril that substantially endangers her life or health.

Sec. 7. Any physician or other person who violates any provision of
2 section 5 or 6 of this act shall be guilty of a felony and shall, upon con-
3 viction thereof, be imprisoned in the Nebraska Penal and Correctional Complex
4 for a period not less than one year and not more than five years.

Sec. 8. No abortion shall be performed or prescribed on any minor
2 child in the State of Nebraska without her written consent and the consent
3 of the parent or guardian of such minor child.

Sec. 9. No abortion shall be performed or prescribed on any woman
2 except when necessary to preserve the woman from an imminent peril that
3 substantially endangers her life or health, who has not previously submitted
4 to the physician in attendance a written statement by the father of the un-
5 born human life, if the father is known, affirming his consent to the per-
6 formance of the abortion. If the father is unknown, the woman requesting
7 the abortion shall so affirm in writing to the physician in attendance.

Sec. 10. Any physician or other person who performs or prescribes
2 an abortion without the consents required in sections 8 and 9 of this act
3 shall be guilty of a misdemeanor and shall, upon conviction thereof, be

5 and not more than one year.

Sec. 11. Any person other than a licensed physician who performs

3 viction thereof, be imprisoned in the Nebraska Penal and Correctional
4 Complex for a period not less than one year and not more than five years.

Sec. 12. Any person who performs or prescribes an abortion by using
2 anything other than accepted medical procedures shall be guilty of a felony
3 and shall, upon conviction thereof, be imprisoned in the Nebraska Penal and
4 Correctional Complex for a period not less than one year and not more than
5 five years.

Sec. 13. No hospital, clinic, institution, or any other facility in
2 this state shall be required to admit any patient for the purpose of perform-
3 ing an abortion nor required to allow the performance of an abortion therein;
4 Provided, that the hospital, clinic, institution, or any other facility shall
5 inform the patient of its policy not to participate in abortion procedures.
6 No cause of action shall arise against any hospital, clinic, institution, or
7 any other facility for refusing to perform or allow an abortion.

Sec. 14. No person shall be required to perform or participate directly
2 or indirectly in any abortion, and the refusal of any person to participate in
3 an abortion shall not be a basis for civil liability to any person. No
4 hospital, governing board, or any other person, firm, association, or group
5 shall terminate the employment or alter the position of, prevent or impair
6 the practice or occupation of, or impose any other sanction or otherwise
7 discriminate against any person who refuses to participate in an abortion.

4 relief, pending trial upon showing of an emergency, in the district court,
5 in accordance with the statutes, rules, and practices applicable in other
6 similar cases.

ANNOUNCEMENT

Mr. Burbach reported to the members on his trip to Washington, D. C.
 regarding LR 31.

COMMITTEE TO ESCORT THE GOVERNOR

President Marsh appointed Messrs. Fowler, Mahoney and Anderson to
 escort the Governor to the Chamber.

The Committee escorted Governor Exon to the rostrum.

GOVERNOR'S MESSAGE

Mr. President, Mr. Speaker, Members of the Legislature,
Ladies and Gentlemen:

Thank you for allowing me the time to present an Interim Report on the State of the State. This message will be brief but important.

I am pleased to bring you good news this morning!

Latest revenue projections and receipts, coupled with our on-going sound fiscal management policies, can allow at least a reduction of up to 33% next year on state income taxes by reducing the rate from 15 to 10%.

Even further tax reductions could be realized if you decide not to employ \$20 million of federal general revenue sharing for aid to education and real property tax relief. If this was the case and if you reject the temptation to spend such funds on other projects we could, in addition, reduce the state sales tax from 2½ to 2%. This eventually could provide, therefore, a decrease of 20% in the state sales tax in addition to the 33% reduction in the state income tax.

These tax reductions are possible and predictable only on the basis that the Legislature will not launch extensive new state obligations. We would also have to continue the policy of this administration to meet legitimate needs but refrain from trying to satisfy all by giving in to ever increasing spending demands.

While income tax refunds are running higher than normal we are experiencing substantial unanticipated increased revenues on both the state sales and income taxes.

The increased receipts are in part due to the present relative healthy state of the economy in Nebraska. I emphasize that these figures and recommendations are based upon present trends that we hope will continue. Barring any downturn in the economy or your increased spending directives, such reduced rates are attainable goals that will have to be formally and finally set by the State Board of Equalization at its meeting this November to take effect next year. They are predicated on the assumption of a good agriculture season and prices for our farmers and continued expansion of our industrial and tourism growth.

It is important that I share these facts with the Legislature and the people. Our Department of Revenue has just provided me with latest projections that indicate that the state will have a net increase from collections of \$8 million more than previously estimated for the end of the current fiscal period, June 30, 1973, plus a possible additional \$9 million for the fiscal year ending June 30, 1974, under present tax rates.

Due to cash flows, coupled with our established system of setting tax rates on a calendar rather than a fiscal year basis the tax decreases that I am suggesting are possible. It should be remembered that under our procedures we, in effect, set tax rates on cash flow requirements rather than strict adherence to calendar year liability.

I am sure that this information is timely, necessary and will be valuable as the Legislature now faces its important appropriation duties.

A word of caution is in order. I am hopeful that the majority of the Legislature will resist the tendency that will immediately surface by some special interest groups to view these additional tax funds as a bonanza to finance a host of projects.

While there are all kinds of spending authorizations that may be considered, I direct your attention to my budget recommendations, as amended, which I maintain meets the legitimate needs of the state, subject of course to relative minor adjustments the Legislature may care to make.

There is a very real threat to break wide open the Governor's realistic budget recommendations. Your Appropriations Committee has already increased my operations suggestions by nearly \$5 million dollars and coalitions within the committee and on the floor seem to be forming to add on an additional \$10 to \$12 million to my capital construction requests. This total increase of \$15 to \$17 million does not recognize other new multi-million dollar expenditures that are presently contemplated in bills initiated by Senators and under consideration at this time.

Let me remind you that under the previous every-other-year sessions, it was customary to authorize capital construction expenditures of between approximately \$20 to \$30 million every two years. During 1971, we approved \$6 million of constructions, in 1972 about \$18 million plus a \$12 million dollar field house. My recommendations to you this year were for \$18 million. In addition, we have approved a \$20 million state office building under special financing.

With this in mind may I suggest to your body that you now view yourselves as members of the Board of Directors of the biggest business in the state. We have, at least temporarily, the additional funds that I have outlined.

Do you now further enlarge the scope of the business and commit all or most of the increased revenues to additional spending programs? Or, on the other hand, do you conserve these funds as much as realistic and prudent and thereby allow the "stockholders", in this case the people of the state, a dividend in the form of a substantial tax reduction? It seems to me those are your choices. I recommend the latter course since the people are already carrying a heavy burden at the national, county and city levels especially on income and real estate taxes.

In addition to the increased revenues that I have announced in collections, we must consider the revenues available from general revenue sharing. Many spending eyes and ideas are eagerly viewing these federal dollars.

As Governor, I have suggested conserving most of these funds for aid to education and resulting property tax relief. The majority of your Appropriations Committee does not agree and seem destined to recommend all of these revenue sharing dollars for additional spending rather than any consideration for tax relief.

The point that I wish to make here is that the majority of General Revenue Sharing Funds, as originally intended and understood, should be employed to reduce taxes either through aid to education and accompanying real estate relief or by some other means. In my opinion, to do otherwise would be breaking faith. Contrary to some statements, revenue sharing is not "free money" but funds we must conserve and use wisely. They are tax funds like any other revenue of government.

Finally there have been concerns, some of which are legitimate, due to confusion in Washington which may reduce the flow of funds into some worthwhile programs. We have no reason to believe that all of this will be resolved before the first of July. As I warned in my January address, the state capitol doors have been spinning merrily by groups seeking state funding to make up for a potential loss in federal dollars.

At this time no one knows for certain if any federal funds will definitely be eliminated. Within the last week one Federal Court has ruled that the President may not impound funds while another has ruled that the President cannot dismantle programs established by the Congress.

I want to mention, in this regard, that this Governor has not and does not intend to impound duly authorized expenditures by the Legislature although I may heartily disagree with your actions. The separation of powers are more important than who happens to be the Governor or serves in the Legislature at a given time.

In closing, let me advise that if and when significant federal funds are actually lost on important people oriented programs, there will be sufficient time to call a Special Session, if absolutely necessary, and request legislative appropriations to cover any especially vital areas that might be impaired by Washington decisions. The cost of a Special Session would be far less than the funds which you may now prematurely authorize which might be unnecessarily spent in the event federal funds were not withheld.

I am sure that the information that I have provided this morning will be helpful to the Legislature. With you lies the sole responsibility for appropriations which actually set tax rates. It is my hope that you will respond favorably to my recommendations which, coupled with the very latest figures on revenues, will not only prevent a tax increase but allow reductions.

Thank you for your time and attention.

The Committee escorted the Governor from the Chamber.

UNANIMOUS CONSENT—Print in Journal

Mr. Chambers asked unanimous consent to print the following letter in the Journal. No objections. So ordered.

League of Women Voters of Nebraska

April 13, 1973

The Honorable Ernest Chambers
State Capitol
Lincoln, Nebraska 68509

Dear Senator Chambers:

On behalf of the League of Women Voters of Nebraska, I would like to protest the conduct of the public hearing on the election bills, LB 554-562, held Thursday, April 12. The League believes the public hearing is an integral part of the legislative process in a democracy. Public hearings should include testimony from both supporting citizens attending the hearing on the bills as well as those in opposition. It can not be assumed that the committee members are in favor of the bills; therefore, those arguments supporting the bills should be heard. Also, there may have been questions about certain sections of the bill which needed to be raised and the opportunity should be given to citizens to raise those questions.

We are aware of the need to expedite these bills because they were introduced so late by the Secretary of State's office. (We have already registered a protest with Mr. Beerman about his timing.) However, we feel that the public is better served by a complete hearing on all bills.

Thank you for your consideration of this matter.

Sincerely,

(Signed) Mrs. Mary Zilly
State President

UNANIMOUS CONSENT—Unbracket LB 496

Mr. Schmit asked unanimous consent to unbracket LB 496 on Select File. No objections. So ordered.

ATTORNEY GENERAL'S OPINION

Opinion No. 43
April 16, 1973

Senator Frank Lewis
Nebraska State Legislature
State Capitol
Lincoln, Nebraska

Dear Senator Lewis:

You have submitted to us a proposed amendment to the Standing Committee amendments to L. B. 445. Your amendment would amend Section 79-1522, R. R. S. 1943, to provide in part:

“Each school employee or emeritus member who retired before July 1, 1973 and who is receiving a service annuity as of that date shall have such service annuity adjusted by the increase in the cost of living as determined by the difference between the Consumers Price Index for Urban Wage Earners and Clerical Workers from the date the service annuity commenced and July 1, 1973, except that such annuity shall not exceed three dollars monthly annuity per year of service, based on the same number of years of service that is currently being used to determine his service annuity. Such increased service annuity shall commence on July 1, 1973.”

In an opinion of this office dated April 12, 1973, addressed to Senator Whitney, we discussed the amendment of Article III, Section 19 of the Nebraska Constitution, pointing out that this constitutional provision authorized increases in retirement benefits of retired public employees only when it was tied to changes in the cost of living or wage levels since the retirement of the employees. It appears to us that the amendment you have submitted to us complies with this requirement, and we see no constitutional difficulties with the proposed amendment.

Very truly yours,

CLARENCE A. H. MEYER
Attorney General

ATTORNEY GENERAL'S OPINION

Opinion No. 42A
April 16, 1973

Senator Wally Barnett, Jr.
Nebraska State Legislature
State Capitol
Lincoln, Nebraska

Dear Senator Barnett:

You have requested that we amplify our opinion to you dated April 12, 1973, with respect to the first question dealt with therein.

It follows from the conclusions which we expressed in our April 12 opinion that the fire marshal would have no authority to promulgate rules and regulations concerning nursing homes, homes for the aged and infirm and jails, inasmuch as those types of structures are not specifically enumerated in Section 81-502.

Very truly yours,

LEGISLATIVE JOURNAL

EIGHTY-THIRD LEGISLATURE
FIRST SESSION

SIXTY-NINTH DAY

Legislative Chamber, Lincoln, Nebraska
Tuesday, April 17, 1973

Pursuant to adjournment, the Legislature met at 9:06 a.m., Mr. Luedtke presiding.

PRAYER

The prayer was offered by the Chaplain.

Guide Nebraska Representatives in their crucial work today, as they consider momentous issues, O Lord our God. Continue to inspire them in their work both by an understanding of the power for good which is theirs to use, and the hope for the good life which so many feel is theirs to dispense.

May they not become too dismayed by the barbs of their critics, nor too deluded by the praise of their admirers.

May they realize that they are, even in the midst of personal frustration and partisan attach, among the most respected of Nebraska citizens.

Bless in special measure the members of this Legislature who are fulfilling roles of special responsibility; and those who are at this time experiencing special physical or spiritual need. So guide Nebraska's representatives, O God, and may their work become a blessing to many. Amen.

ROLL CALL

The roll was called and all members were present except Messrs. Nore and Skarda who were excused.

CORRECTIONS FOR THE JOURNAL

The Journal for the Sixty-eighth Day was approved.

MESSAGE FROM THE GOVERNOR

April 17, 1973

The Honorable Richard Proud
Speaker of the Legislature
State Capitol Building
Lincoln, Nebraska

Dear Mr. Speaker:

From reports that I have had since my message to the Legislature on Monday, it appears that the majority of your body has read into that message some misconceptions.

In the first place, there was no hint or suggestion when I appeared before the Legislature yesterday that you should abandon all legislation pending before your body, close up shop, and go home.

While the responsibility as to when to adjourn is entirely a legislative matter, I suggest caution and careful consideration of some of your obvious hasty decisions of yesterday and this morning.

I wish to thank the body for your dispatch in moving my general operating budget and your expressions of support for my suggested tax reductions.

Evidently the body is under the misconception, however, that you are accomplishing precisely what I requested. This is certainly not the case. While there have been numerous comments on the floor regarding our budget being adequate, you have not adopted that budget.

In my message, I requested the following which you have failed to consider:

(1) You have failed to act on our \$18 million capital construction request which is a part of my budget.

(2) You have failed to act to make revenue sharing funds available to finance portions of that budget or for state aid as I had suggested, and have, in effect, "impounded" these funds. As specifically referred to in my Monday message, the sales tax cannot be reduced unless you release such funds. We shall present you immediately with a bill to allow such appropriation to reduce the sales tax.

I have been amazed at some of the misconceptions that have surfaced. Responsible government and actions seem to have given way to emotions. There are several matters worthy of your attention before you adjourn, but I emphasize again this is your decision. If you hastily adjourn there are undoubtedly other important required actions that will arise that have been overlooked.

As an example, you have to date failed to reappropriate capital construction funds to continue capital construction previously authorized and now under construction. It would be the height of irresponsibility to place such projects in jeopardy, and we will rush a bill to you to correct this oversight.

I willingly accept the responsibility to “live” with my budget that seems to be a popular topic in the Legislature. But I caution you that such a philosophy is only possible if you approve the “total” budget and not a piecemeal version thereof.

Yours very truly,

(Signed) J. James Exon
Governor

SEVENTIETH DAY—APRIL 18, 1973

LEGISLATIVE JOURNAL

EIGHTY-THIRD LEGISLATURE
FIRST SESSION

SEVENTIETH DAY

Legislative Chamber, Lincoln, Nebraska
Wednesday, April 18, 1973

Pursuant to adjournment, the Legislature met at 9:02 a.m., President Marsh presiding.

PRAYER

The prayer was offered by the Chaplain.

O Lord our God: By now it seems so very familiar to us all—the dash back to the Statehouse for the tasks of another day; the rap of the Speaker's gavel; the prayer of the Chaplain; the pile of unopened letters on our desks from those who see so clearly what we should be doing here; the guests in the gallery who are trying to see what we are doing here; the reporters who will tell the folks back home what they believe we have been doing here; and beyond all these, the things which we have convinced ourselves that we are in fact doing here; by now it seems so very familiar to us all—we've been down this road so many times before.

But the more familiar the way, the more treacherous the detours. Keep us on course, we pray!

Save us from the sin of over-familiarity with public trust.

May our accomplishment for Nebraska be so significant that even we, when we describe it, may not be guilty of bragging—not when we accept our checks, guilty of sponging. Amen.

ROLL CALL

The roll was called and all members were present except Messrs. Cavanaugh and F. Lewis who were excused; Mr. Stahmer who was absent until 9:45 a.m.

CORRECTIONS FOR THE JOURNAL

RESOLUTIONS

LEGISLATIVE RESOLUTION 46.

Introduced by the Revenue Committee, Burbach, Chairman, 19th District.

WHEREAS, each regular session of the Legislature is faced with numerous bills dealing with virtually every aspect of revenue and taxation; and

WHEREAS, such bills frequently require more study than can be given during a session as evidenced by the fact that several such bills were killed in committee during the present session with the understanding that they would be made the subject of interim studies; and

WHEREAS, unanticipated problems often arise in the field of taxation.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-THIRD LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Committee on Revenue be directed to study those problems presented by bills killed with the understanding that they would be made the subject of interim studies and such other problems respecting revenue and taxation which may arise and report its findings and recommendations to the next regular session of the Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 47.

Introduced by the Committee on Agriculture and Environment, Schmit, 23rd District, Chairman.

WHEREAS, extensive amendments by Congress with the passage of HR 10729 (The Federal Environmental Pesticide Control Act) which substantially amends the Federal Insecticide, Fungicide and Rodenticide Act, have put most states, including Nebraska, in a position of having to adopt additional legislation relating to the certification of applicators, registration of pesticides and the appointment of a single agency to administer a state program; and

WHEREAS, under the federal act, the states are left with some discretion to choose the extent of their involvement, leaving Nebraska the opportunity to regulate pesticides in a comprehensive manner or to relegate as much responsibility to the federal government Environmental Protection Agency as may be possible; and

WHEREAS, the extent to which the Environmental Protection Agency wishes to allow that kind of relegation depends upon policy decisions which have not yet been made, preventing the preparation of a legislative bill for introduction at this time; and

WHEREAS, Nebraska, being an agricultural state, will be vitally interested and perhaps economically effected by the federal administration of all pesticide application and registration for use of pesticides.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-THIRD LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a legislative study committee be appointed by the Executive Board of the Legislative Council to study and report to the next session of the Legislature on the problems posed by use of modern pesticides, the impact on Nebraska by the passage of HR 10729, and recommend what legislation, if any, shall be proposed to serve the best interest of the State of Nebraska.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 48.

Introduced by the Committee on Public Health and Welfare: Kennedy, 21st District, Chairman; Cavanaugh, 9th District; R. Lewis, 38th District; Goodrich, 20th District; Maresh, 32nd District; F. Lewis, 45th District; Schmit, 23rd District.

WHEREAS, the provision of adequate health care for all the citizens of Nebraska is a continuing and growing concern to the Legislature; and

WHEREAS, the Nebraska Legislature has indicated concern over the escalating health care costs in the State of Nebraska; and

WHEREAS, serious health care problems exist throughout the state, in urban as well as rural areas, resulting in large part from a shortage of fully trained and qualified health care personnel; and

WHEREAS, only selected providers of health care are licensed; and

WHEREAS, the allied health care professions are not yet being used to any marked extent in Nebraska but might be of major assistance in the provision of improved health care; and

WHEREAS, legislation on such a vital and broad area as health care services in the State of Nebraska requires intensive and thorough study in order to insure that any legislation proposed is not detrimental to the best interests of the citizens of the State of Nebraska.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-THIRD LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Public Health and Welfare Committee be assigned the task of studying:

a. All aspects of the utilization of allied health care professions including licensure and performance of duties;

b. The introduction of Health Maintenance Organizations to the Nebraska health delivery system including advantages, disadvantages, licensure requirements, and any related information with respect to providing quality health care at a reasonable level of cost;

c. Welfare costs and the specific impact of welfare reform (HR 1) on the services and health care provided to the aged citizens of Nebraska;

d. Hospital costs and related medical costs which prevail in Nebraska and the impact of voluntary price control.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 49.

Introduced by Barnett, 26th District.

WHEREAS, Lancaster County is desirous of acquiring the land upon which the former Nebraska Orthopedic Hospital was located for the erection of a Dentention Center; and

WHEREAS, such land is now surplus to the needs of the state; and
WHEREAS, the proposed use of such land would be very beneficial;
and

WHEREAS, the State of Nebraska has offered to sell and Lancaster County agrees to buy the real estate described as: Beginning at the southwest corner of Lot 10, Block 1, South Park Addition, in the city of Lincoln, thence northerly, along the east line of 10th Street a distance of 118.90 feet; thence easterly, on a deflection angle of ninety degrees six minutes right, a distance of 247.48 feet; thence northerly, on a deflection angle of eighty-nine degrees one minute left, a distance of 168.35 feet; thence easterly, on a deflection angle of eighty-nine degrees eighteen minutes right, a distance of 103.7 feet, to a point on the west line of 11th Street; thence southerly, along the west line of 11th Street, on a deflection angle of eighty-nine degrees forty-one minutes right, a distance of 317.59 feet; thence westerly, on a deflection angle of eighty-nine degrees fifty-seven minutes right, a distance of 195.0 feet; thence northerly, on a deflection angle of eighty-eight degrees twelve minutes right, a distance of 31.20 feet; thence westerly, on a deflection angle of eighty-eight degrees nine minutes left, a distance of 158.0 feet, to the point of beginning, containing 65,847.8 square feet, more or less.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-THIRD LEGISLATURE OF NEBRASKA, FIRST SESSION:

That the Governor is authorized to negotiate with the county board of Lancaster County and convey title to such land to the county for a consideration of seventy-five thousand dollars.

LR 49 was adopted with 29 ayes, 0 nays and 20 not voting.

LEGISLATIVE RESOLUTION 50.

Introduced by Schmit, 23rd District; Waldron, 42nd District; Snyder, 14th District.

WHEREAS, Nebraska is an agricultural state and its economy is intricately interwoven with a healthy financial climate for agriculture; and

WHEREAS, the average of Nebraska farmers is over 59 years of age;
and

WHEREAS, the increased cost of the investment necessary to become established in agriculture has frequently not yielded a satisfactory return on capital; and

WHEREAS, this has resulted in a serious shortage of capital available to young farmers; and

WHEREAS, this could produce a serious crisis in the area of production of food and fiber.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-THIRD LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Committee on Agriculture and Environment undertake a study to determine the reasons for the lack of interest in farming by young people and to make a report to the next session of the Legislature with its recommendations.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 51.

Introduced by DeCamp, 40th District.

WHEREAS, the regulation of lotteries, wagering, and gambling are issues confronting many legislatures; and

WHEREAS, there is now pending before this Legislature proposed legislation dealing with such areas; and

WHEREAS, the trends, customs, and mores of the country have changed requiring more information than is now available to the Nebraska Legislature; and

WHEREAS, legislation on such a controversial subject requires intensive and thorough study in order to insure that any legislation proposed is not detrimental to the best interests of the State of Nebraska.

NOW, THEREFORE BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-THIRD LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Legislature of the State of Nebraska establish an interim study committee on gambling, wagering, lotteries, and other subjects related thereto.

ATTORNEY GENERAL'S OPINION

Opinion No. 44
April 19, 1973

Senator Richard Maresh
Nebraska State Legislature
State House
Lincoln, NE 68509

Dear Senator:

You ask if L.B. 449 is constitutional. That bill requires that all political subdivisions, as defined in Sec. 23-2102, R. R. S. 1943, fluoridate their water supply for human consumption.

It is our opinion that the bill is constitutional.

No cases were found from any jurisdiction that struck down similar measures. The most recent case found was *Alkire v. Cashman*, 350 F. Supp. 360 (1972). The Federal District Court in Ohio in that case upheld a statute that made fluoridation mandatory for certain public water works. Plaintiffs alleged, among other things, that the statute

violated their rights of privacy, and due process and equal protection which are guaranteed by the First and Fourteenth Amendments of the United States Constitution.

This is what the Court said:

"If we assume that the ordinances were adopted pursuant to the general police powers of cities incorporated under the laws of Ohio, and in conformity with rules governing their respective political processes, then it is settled in this state that the fluoridation of a municipal water supply is a proper exercise of municipal police powers which does not violate either federal or state constitutional rights. See *Kraus v. City of Cleveland*, 163 Ohio St. 559, 127 N. E. 2d 609, 57 Ohio O. 1 (1955), appeal dismissed for want of substantial federal question, 351 U. S. 935, 76 S. Ct. 833, 100 L. Ed. 1463 (1956).

"If, on the other hand, we were to accept plaintiffs' theory of the case, we are still of the opinion that the petition fails to raise a justiciable issue. Courts, both state and federal, have held with virtual unanimity that the fluoridation of public water systems does not violate the due process clause or constitutional rights incorporated by that clause of the Fourteenth Amendment to the United States Constitution. See *Kraus v. City of Cleveland*, supra, appeal dismissed for want of a substantial federal question, 351 U. S. 935, 76 S. Ct. 833, 100 L. Ed. 1463 (1956); *Crawford v. City of Detroit*, 389 F. 2d 1001 (C.A. 6, 1968); *Chapman v. City of Shreveport*, 225 La. 859, 74 So. 2d 142 (1956), appeal dismissed for want of a substantial federal question, 348 U. S. 892, 75 S. Ct. 216, 99 L. Ed. 701 (1954); *Readey v. St. Louis County Water Co.*, 352 S.W. 2d 622 (Mo. 1961), appeal dismissed and cert denied, 371 U.S. 8, 83 S.Ct. 20, 9 L.Ed. 273 P. 2d 859 (Okl. 1954), cert. denied, 348 U. S. 912, 75 S. Ct. 292, 99 L. Ed. 715 (1955); also see, *Opinion of Justices*, 243 A. 2d. 716 (Del 1968); *Schuringa v. Chicago*, 30 Ill 2d 504, 198 N. E. 2d 326 (1966); *Miller v. Evansville*, 247 Ind. 563, 219 N. E. 2d 900 (1966); *Baer V. Bend*, 206 Or. 221, 292 P. 2d 134 (1956); *Birnel v. Fircrest*, 53 Wash. 2d 830, 335 P. 2d 819 (1959). * *."

There is annotation on this particular subject in 43 A. L. R. 2d 453.

You also ask if L.B. 449 could be enforced without a penalty provision. The answer is yes. A mandatory injunction action could be filed and if granted then the political subdivision would be required to perform its pre-existing statutory duty to fluoridate the water supply. Also, a writ of mandamus would probably apply. Section 25-2156 R. R. S. 1943, provides that such a writ may be issued to compel performance of an act which the law requires.

In conclusion it is our opinion that L.B. 449 is constitutional and, if passed, it could be enforced.

Very truly yours,

CLARENCE A. H. MEYER

We give thanks to thee for the office we hold, and for the confidence and trust which the people have imposed in us.

Grant us wisdom to choose the right and courage always to do it. Save us from a vindictive spirit when we feel our plans go wrong.

Keep us at the center of truth that we may work with peace of mind. Inspire our insights that they shall be broad enough in perspective to affirm in our plans and decisions that no city or state lives unto itself, but is accountable to its larger relationships.

Grant that the good we work to achieve for our own constituency shall be good for the other also. Rescue us when our vision grows dim and uphold us when we see clearly your loving will and purpose for the betterment of your children, through Jesus Christ our Lord. Amen.

Mr. President, Mr. Speaker, and
Members of the Nebraska Legislature
State Capitol Building
Lincoln, Nebraska

Dear Mr. President and Senators:

I return herewith LB 179 without my signature and with my objections.

First, it should be recognized that the Legislature in passing this bill provided no funds whatsoever for even routine maintenance and related expenses at the proposed new University facility at Scottsbluff. This is hardly a realistic or prudent action in itself. It is difficult to see how the University could immediately accept any physical plant without at least funds for insurance, surveillance, and upkeep.

After thoughtful consideration of all of the implications embodied in LB 179, it is my position that the contemplated acquisition of all or parts of the former Hiram Scott College facilities by the University requires further planning, study and consideration before possible final approval of the Legislature. Herewith I am detailing some of the problems that deserve attention and suggest consideration by all before we proceed.

From the beginning of the development of this proposal, I have cautioned that approval should be based primarily on the University coming forward with a plan that would prove the need of such expansion and outline curriculum that would not merely be a duplication of existing educational opportunities. This has not been done. Generalities have been expounded but hard facts in this area are non-existent. The sound business-like approach has been abandoned for expediency. Certainly the University's five-year plan must be re-evaluated before we proceed since the Scottsbluff addition was not envisioned therein.

I support the serious consideration for the Scottsbluff proposal based on where and if it fits into our overall future educational needs.

Here is an example of how we are lacking in some form of overall coordinating body for post secondary education in Nebraska. Nebraska remains one of only three states without any such guidelines. At a time when we are just launching an expansive two year college system, it appears that we may be attempting to move without due consideration.

The proposed addition at Hiram Scott will have to be considered with and compete for educational funding with not only the rest of the University system but the state's other institutions of higher learning.

I urge consideration of the following concerns and facts that we all must view as we plan for the future.

First, I direct the attention of all to the recently released detailed report and projections by the Nebraska Higher Education Facilities Commission. Please note that the birth rate in Nebraska has plunged from approximately 34,000 per year in 1961 to 23,000 in 1972 and a further downward trend is predicted. This drop in the birth rate has already begun to have a significant effect on our elementary enrollments.

The report further indicates a peaking of graduating high school seniors in 1978 and a heavy drop in such graduates immediately thereafter.

Second, while the University system enrollment seems to have stabilized after years of rapid growth, we are currently experiencing a significant decline in enrollment at our state colleges, and in some of Nebraska's non-public colleges. Dormitory bond financing at some institutions is in potential future difficulty.

With this picture, as much as all of us appreciative of the wonderful opportunities, generosity and efforts of those sincerely interested in the Scottsbluff addition, we must chart our course carefully.

When we plan for the future, we must recognize that western Nebraska with its excellent environment and recreational facilities is most attractive and with the pioneer spirit of its residents holds great promise for unlimited development potential. We should consider these obvious facts and incorporate them into our deliberations.

Yet, let us recognize that the offer of some free land and buildings which have recently been professionally appraised at less than \$1 million at Hiram Scott is not the critical test as to whether or not the University should expand westward. As appreciative as the State and the University are for such an attractive proposal, we should realize that such an offer does not, in and of itself, justify the proposition.

If and when the University accepts such a gift, it should be forthrightly recognized that staff, administration, and related expenses are the major multi-million dollar expenditures that would be faced in the future.

May I suggest that the cart may have been placed in front of the horse to date on some considerations on this matter.

It should be understood by all, without equivocation, that no dormitories or food service facilities whatsoever are incorporated in the suggested donation.

Before we proceed, I suggest that:

1. A detailed and realistic workable plan should be developed.
2. The considerations should include how many students, from where, and taking what specified and limited courses as LB 179 contemplates.
3. The possible availability of gainful and constructive employment in Nebraska of such trained students.
4. What specific agricultural programs will be researched and taught.
5. What will the realistic costs be projected at least five years into the future.

Contrary to assumptions to date, the possible acquisition of the dormitory and food service facilities currently obligated to bond holders by more than \$4 million should be resolved before any final determination on the Hiram Scott proposal. It has been assumed these key facilities can be obtained "later" at a fraction of their present indebtedness.

The future financing of higher education in the state should not and must not be interlaced with the enhancement of the equity of private bondholders on the now defunct former private institution. From the information made available to me, it would appear obvious that if the University detailed studies prove the plan feasible on a long-range basis, the dormitory and food service buildings issue should be first resolved.

In this message I have attempted to put the matter into perspective so that all can proceed with objectivity as to what the proper course should be.

Very truly yours,

(Signed) J. James Exon

RESOLUTIONS

LEGISLATIVE RESOLUTION 54.

Introduced by Fellman, 4th District.

WHEREAS, the Federal government is now allocating to the State of Nebraska and its political subdivisions general revenue sharing funds in accordance with the State and Local Fiscal Assistance Act of 1972, and

WHEREAS, the Federal government is considering proposals for special revenue sharing in major areas of governmental responsibility, and

WHEREAS, the allocation of general and special revenue sharing funds will require new forms of cooperation between the State of Nebraska, its political subdivisions and the Federal government, and

WHEREAS, the broader discretion in suballocating Federal funds under general and special revenue sharing requires expanded and more effective governmental capabilities in the State of Nebraska and its political subdivisions, and

WHEREAS, the expansion of Federal general and special revenue sharing programs and the termination of Federal categorical grant in aid programs and State programs predicated upon them will occur over a period of years during which the State and local subdivisions will operate in overlapping program systems.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-THIRD LEGISLATURE OF NEBRASKA, FIRST SESSION:

1) That the Legislature of the State of Nebraska establish an interim study committee to study the State's decision making capabilities to respond to the requirements and potentialities of Federal revenue sharing, which study would have as its purposes:

a. To identify the requirements for planning, programming, budgeting and information dissemination processes which aid in establishing public priorities and orderly schedules for achieving public programs.

b. To determine the adequacy of the State government organization and staffing for operation under Federal general and special revenue sharing programs.

c. To identify opportunities for the State government to assist its political subdivisions to improve organizational and managerial capabilities to participate in revenue sharing programs.

d. To identify improvements in the operation of the legislature and its committees in relation to revenue sharing, particularly the arrangements for levying taxes, estimating revenues and handling the Executive budget.

e. To forecast requirements under general and special revenue sharing programs for cooperation with adjoining states in the Great Plains area and participation in multi-state operations.

f. To evaluate the statutes of Nebraska with a view to facilitating the blending of Federal general and special revenue sharing funds with the revenues of the State of Nebraska.

2) That the help of the Office of the Legislative Fiscal Analyst, the Budget Committee of the Legislature, the Legislative Council Budget Committee and the Department of Administrative Services be solicited and, with their consent, utilized by the committee as it should deem appropriate.

3) That the committee make its report to the next session of the legislature with its recommendations.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 55.

Introduced by Keyes, 3rd District.

WHEREAS, there are some indications that railroad companies in the State of Nebraska presently own and operate branch rail lines in this state which handle insufficient traffic to pay the costs of maintenance and operation of such lines; and

WHEREAS, the failure of such branch lines to generate sufficient traffic to pay their costs of maintenance and operation raises the strong probability of their immediate or eventual abandonment; and

WHEREAS, it is in the public interest to anticipate such abandonments and the State should study and explore the economic feasibility of acquiring, for highway or other purposes, the rights-of-way underlying such branch lines.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-THIRD LEGISLATURE OF NEBRASKA, FIRST SESSION:

That an interim study be undertaken by an appropriate committee of the Legislature to determine (1) which branch lines of railroads operating in this State have insufficient traffic to pay the costs of their maintenance and operation, and (2) the desirability and feasibility of the State's acquiring the railroad rights-of-way underlying such lines in the event they are abandoned for possible use by the State for road and highway location and for other purposes.

Referred to the Executive Board.

MOTION—Suspend Rules

Mr. Chambers moved to suspend the Rules and introduce a new bill.

MESSAGE FROM THE GOVERNOR

April 30, 1973

Having observed the actions of the Legislature in some detail and having reconsidered several of my previous thoughts I am now of the firm opinion that your body is acting in the best interests of the people.

I commend each and every one of you for your devotion to duty and for your tireless efforts on behalf of the taxpayer.

At the same time I would be remiss in my duty if I did not remind you and impress upon you the fact you are making the manificent salary of \$400.00 per month or that is to say \$4800.00 per annum. This does seem a bit high. Now, I realize that the governor's salary is more than five times this amount but, after all the governor does work hard and is very busy cutting red tape and ribbons.

Therefore, it is my best judgment that a bill be introduced reducing your salary by one-half and increasing the governor's salary by one-half.

Respectfully submitted,

(Signed) Richard F. Proud
Acting Governor

The Chambers motion to suspend the Rules and introduce a new bill lost with 12 ayes, 30 nays and 7 not voting.

SEVENTY-THIRD DAY—MAY 1, 1973**LEGISLATIVE JOURNAL****EIGHTY-THIRD LEGISLATURE
FIRST SESSION****SEVENTY-THIRD DAY**

Legislative chamber, Lincoln, Nebraska
Tuesday, May 1, 1973

Pursuant to adjournment, the Legislature met at 9:00 a.m., Speaker Proud presiding.

PRAYER

The prayer was offered by Reverend Everett Franklin Hezmall, Associate Pastor of Westminister Presbyterian Church, Lincoln.

Almighty God our Father, we confess to You that we are not always the persons we like others to think we are. You have taught us in your Word, that you know us as we are yet you love us more than we love ourselves.

As You have great faith in us, O God, so we thank You for the daily trust which our fellow citizens have imposed in us. Strengthen us where we are weak; Give us insight and perception for the right solution to the problems confronting us.

When we are brought to the test, steady our nerve and hold us in our faith; that in this day of unrest and uncertainty for our people we shall build confidence.

Grant our Father, that the legislation we enact will contribute to the welfare of the whole Community and to the making of a better world. In the Spirit of Christ we pray. Amen.

RESOLUTIONS

LEGISLATIVE RESOLUTION 57.

Introduced by Kelly, 35th District.

WHEREAS, a general problem exists in getting certain persons to make child support payments as required of them by divorce or dissolution of marriage decrees; and

WHEREAS, in some counties a sizeable volume of delinquent child support payments has accumulated; and

WHEREAS, the refusal to make such payments may have an impact on the number of persons receiving benefits under the program of Aid to Families with Dependent Children; and

WHEREAS, there are provisions in the law for prosecuting persons who willfully refuse to make such payments, but which are somewhat cumbersome and time-consuming, especially if the delinquent parent is located in a county other than the one in which the family resides; and

WHEREAS, it would be beneficial to determine if there would be other procedures available to make it easier and less time-consuming to enforce the decrees requiring child support payments.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-THIRD LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That an interim study be conducted as directed by the Executive Board of the Legislative Council of the problem of delinquent child support payments, which study shall include a survey of (a) the scope of the problem; (b) the present methods available for enforcing court orders requiring such payments; and (c) possible alternative methods and procedures which would aid in such enforcement.

2. That upon the completion of the study the committee report its findings and recommendations to the Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 58.

Introduced by Marvel, 33rd District; Clark, 47th District.

WHEREAS, Nebraska is a large state having an unequal distribution of its citizens; and

WHEREAS, it is desirable that state government and its political subdivisions provide selective services throughout the state; and

WHEREAS, numerous agencies are involved in providing related, complementary, or the same services; and

WHEREAS, identification and coordination of these services could provide a comprehensive delivery system for any citizen who would require or benefit from such services; and

WHEREAS, some Nebraska citizens are unable to benefit from available services because of restrictions, rules and regulations, and the complexity of bureaucracy.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-THIRD LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Appropriations Committee make a study that would:
 - (a) Compile an inventory of people-related services currently being provided;
 - (b) Identify cost and resources used to provide these services;
 - (c) Make a determination of the methods used to deliver the services;
 - (d) Develop methods by which the state can determine the number of citizens who need such services;
 - (e) Identify alternatives for redistribution of resources for more effective utilization;
 - (f) Determine the feasibility of decentralizing services on a uniform regional basis; and
 - (g) Improve the methods of measuring the accomplishments of the agencies and services provided.

2. That the committee shall make a report of its findings and make its recommendations to the next session of the Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 59.

Introduced by Marvel, 33rd District; Stahmer, 8th District; Stromer, 36th District; Simpson, 46th District.

WHEREAS, the Governing Boards of the State Colleges and the Technical Community Colleges disagree on their respective instructional roles; and

WHEREAS, the State Colleges are experiencing an enrollment decrease, while the Technical Community Colleges are experiencing an enrollment increase; and

WHEREAS, the demand upon the State's tax dollars to support higher education continues to increase; and

WHEREAS, the maximum use of the facilities and resources in the colleges and the universities in Nebraska is a desirable goal; and

WHEREAS, the concept of regionalization of educational service areas may have a beneficial effect by reducing administrative costs, eliminating duplication of effort, maximizing facility utilization and providing higher educational opportunities for the citizens of the State of Nebraska; and

WHEREAS, the State of Nebraska does not have a legislative or executive policy on state-wide opportunities for higher education.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-THIRD LEGISLATURE OF NEBRASKA, FIRST SESSION:

(1) That the Executive Board of the Legislative Council appoint a committee to conduct a study on (1) duplication of instructional effort between the Technical Community College system and the State Colleges; (2) the concept of regionalization of instructional service areas in higher education.

(2) That this committee make its report together with any recommendations to the Legislature at the conclusion of its study.

Referred to the Executive Board.

SEVENTY-FIFTH DAY—MAY 3, 1973

LEGISLATIVE JOURNAL

EIGHTY-THIRD LEGISLATURE
FIRST SESSION

SEVENTY-FIFTH DAY

Legislative Chamber, Lincoln, Nebraska
Thursday, May 3, 1973

Pursuant to adjournment, the Legislature met at 9:00 a.m., Speaker Proud presiding.

PRAYER

The prayer was offered by Reverend Everett Franklin Hezmall, Associate Pastor of Westminster Presbyterian Church, Lincoln.

Eternal God, without whom life has no spiritual source, no ultimate meaning or destiny; but with whom there is renewal of purpose and hope for the future, we turn now unto You.

Refresh our faith that the strain of life may not break our spirits. We confess our temptation to measure our lives by the standards of the crowd; Grant us such clarity of wisdom, independence of mind and courage of will that we may live according to our best conscience—without fear or favor of the multitude.

Mindful, O God, our Father, that nations have risen and fallen away; save us from the decline of pure religion, from failure of moral fiber in our citizenship, from the vulgarity of life, the loss of social conscience, and the collapse of national character.

Let our public life be the expression of our personal integrity. Father, uphold us with your divine Spirit, that in freedom and love we shall serve our fellowmen.

In the Spirit of Christ we pray, Amen.

MESSAGES FROM THE GOVERNOR

May 3, 1973

The Honorable Richard F. Proud, Speaker,
and Members of the Legislature
State Capitol
Lincoln, Nebraska 68509

Dear Mr. Speaker and Senators:

I am herewith transmitting three bills which require attention by your body.

The first of these is a bill to amend LB 259. The amendments are all within the total general fund amount of my budget as proposed. Included in this bill are amendments that I have previously submitted along with realignments I suggest since the budget was finalized.

The second bill is one allowing fees and cash fund options to the Health Department. This was a part of my budget recommendation, but this bill is necessary to allow the collections. If the bill is not passed, the Department would need an additional general fund appropriation of \$334,000.

The third bill is the last supplemental appropriations bill for the 1972-73 fiscal year. In previous sessions, this annual appropriation has been introduced by the Appropriations Committee, but we have seen no indication of such consideration this year. In my budget recommendations of January 19, 1973, I allowed for \$4.3 million for such supplemental appropriations, but finalized figures reduced this to less than \$3.6 million as transmitted herewith. Approximately one-half of the general fund impact of this bill is due to the inadequate "A" bill funding for last year's court reform bill.

There is also still before your body a supplemental bill previously submitted, LB 505, for secondary sewage treatment funds for 1972-73. You also still have before you LB 542 introduced by your Labor Committee for funds for legitimate claims made against the state and approved by the Claims Board and your Committee.

All of the above items are part of my budget recommendations and were taken into consideration when I advised you of increased revenues and my outlines for possible income tax reductions. Any possible reduction in the sales tax, as I have outlined previously, is dependent on the use of revenue sharing funds.

I ask that the three bills be introduced by you as Speaker at my request.

SEVENTY-FIFTH DAY—MAY 3, 1973

Respectfully submitted,

MESSAGE FROM THE GOVERNOR

May 3, 1973

Mr. President, Mr. Speaker,
and Members of the Legislature
Nebraska State Legislature
State Capitol Building
Lincoln, Nebraska

Dear Mr. President and Senators:

I return herewith LB 452 without my signature and with my objections.

No long, detailed message in this regard is necessary.

You are all familiar with my firm belief that this measure is a serious attempt at legislative invasion of the executive and erosion of the traditional separation of powers. It seeks to impair if not emasculate the ability and effectiveness of the Governor to exercise his constitutional duties as Chief Executive in administering and controlling state government and the monitoring of expenditures as appropriated by your honorable body.

I find no general support for the measure, and it has been publicly opposed by the three Governors who have worked with the Department of Administrative Services under their administrations.

I will sincerely appreciate your sustaining my veto of this far-reaching and ill-founded bill.

Yours very truly,

(Signed) J. James Exon
Governor

PRAYER

The prayer was offered by the Chaplain.

Another week of big things and little things now approaches its end, O Lord our God, and we seek Divine help once more, as we pursue the work of the day, then go to our homes.

Even now we know that when we go, it will be with a sense of satisfaction because of our accomplishments, and unhappiness due to our failures . . . for we have been party to both this week!

For the sake of the work remaining to be done, strengthen the ties that bind us together as members of one family in this House, and weaken the forces that would divide us. Amen.

LEGISLATIVE BILL 579. Placed on General File.

(Signed) Richard Marvel, Chairman

SEVENTY-SIXTH DAY - MAY 4, 1973

1507

ATTORNEY GENERAL'S OPINION
May 4, 1973

Hon. Roland A. Luedtke, Chairman
Judiciary Committee
Nebraska State Legislature
State Capitol
Lincoln, Nebraska

Dear Senator Luedtke:

Some of the language selected for the Committee statement on L. B. 524 could leave the impression that I appeared on the bill and favor all of its provisions. I was at the Committee hearing on another matter and I do favor an increase in the size of the Board of Parole for the reason that one full time member and two part time members cannot possibly accomplish in a proper fashion all of the duties imposed upon them by law.

In connection with increasing the size of the Board, I did suggest that it would avoid future confusion if the terms of the newly appointed members commenced and ended on the same date as that of the present members. The terms of present members date from September 9 of the year in which they were first appointed, so some degree of consistency could be achieved if in line 19 of Sec. 2 of the amendments which would change Sec. 83-189, were changed by striking the period after the word "act" and substituting a comma, and then adding the following new language: "but the terms of such new members shall be deemed to commence on September 9, 1973."

The Attorney General could not be in favor of Sec. 1 of the amendments which would amend Sec. 83-184 to remove the requirement that the Board of Parole must approve the release of prisoners for furloughs and work release. Such an amendment would be in direct conflict with Sec. 13 of Article IV of our Constitution. Only the Board of Parole or the Board of Pardons can authorize a confined prisoner to leave the Institution during his term. I would also oppose such a change as a citizen, because we have had Wardens in the distant past, and we could again have in the future, who should not have the unsupervised authority to release prisoners for unlimited periods of time.

I also at that time questioned the advisability of the amendment proposed for Sec. 83-1,120 (Sec. 7, page 8 of the proposed amendments). The remainder of this letter is taken from a memorandum prepared for me by Assistant Attorney General Mel Kammerlohr, in which he very adequately outlines why such an amendment is questionable:

"Page 8 of the proposed amendments to the above bill amends 83-1,120 to provide a procedure for a parole revocation hearing. The procedure proposed in this amendment would require that the parolee be permitted, among other things, to be represented by counsel, and to cross-examine adverse witnesses.

"This proposed amendment goes much further than the Supreme Court of the United States required in the recent case of *Morrissey v. Brewer*, 33 L. Ed. 2d 484 (June 29, 1973).

"In the first place, a hearing was only required by that case after the independent parole officer had made an investigation and recommended a parole revocation. Your committee's amendment would require a hearing whenever the parolee was charged with a violation whether or not revocation or some lesser action was recommended.

"As to the actual conduct of the hearing when a final decision was to be made upon the revocation by the parole authority, the Supreme Court set forth the following minimum requirements:

" * * *. They include (a) written notice of the claimed violations of parole; (b) disclosure to the parolee of evidence against him; (c) opportunity to be heard in person and to present witnesses and documentary evidence; (d) the right to confront and cross-examine adverse witnesses (unless the hearing officer specifically finds good cause for not allowing confrontation); (e) a "neutral and detached" hearing body such as a traditional parole board, members of which need not be judicial officers or lawyers; and (f) a written statement by the factfinders as to the evidence relied on and reasons for revoking parole. * * *."

"You will note that the United States Supreme Court specifically exempted cross-examination when the hearing officer found good cause for doing so which, from the Court's discussion, would apply 'if the hearing officer determines that the informant would be subjected to risk or harm if his identity were disclosed, he need not be subjected to confrontation and cross-examination.'

"Nowhere did the Court require that the parolee be entitled to counsel but specifically stated, 'We do not reach or decide the question whether the parolee is entitled to the assistance of retained counsel or to appointed counsel if he is indigent.'

"Of course, the inclusion in your committee's draft that he be 'permitted' to be represented by counsel immediately raises some questions: (1) Does this refer to only retained counsel and, if so, is this denying the indigent equal protection of the law as required by the Fourteenth Amendment to the United States Constitution? (2) If indigents are also to be provided counsel, who is responsible for appointment, payment, and how much will it cost?"

Very truly yours,

(Signed) Clarence A. H. Meyer
Attorney General

Monday, May 7, 1973.

Pursuant to adjournment, the Legislature met at 10:00 a.m., President Marsh presiding.

PRAYER

The prayer was offered by the Chaplain.

O Lord, let us never be afraid of a new idea or unreceptive to a new thought, lest we pull down the shades of our minds and exclude Thy holy light. When confronted by mystery, help us to remember that we do not have to explain all we know or understand all we believe. But give us the grace of humility and the spirit of the open mind, the courage to persist in face of difficulties, and a steady confidence in the power of truth.

Help us all to learn something this day, that we shall be wise at its close and more ready for our eternal home when we are one step nearer. Through Christ our Lord. Amen.

PRESIDENT SIGNS

While the Legislature was in session and capable of transacting business, the President signed the following: LR 21.

STANDING COMMITTEE REPORTS
Constitutional Revision and Recreation**LEGISLATIVE RESOLUTION 32.** Indefinitely postponed.

Committee Statement to LR 32:

The committee Indefinitely Postponed the bill mainly because it was thought it wasn't needed to this great of an extent at this time, plus the fact that fifty million dollars was a lot of money. The committee felt that this was another avenue the credit of the state would be pledged. Also, it was thought that the general public has not been asking for this, therefore, there was no great need to submit this to the people at this time.

Senator Terry Carpenter, the introducer, was the only person appearing in favor of this Resolution.

There was no opposition to the Resolution.

A motion was made and seconded to Indefinitely Postpone LR 32. Motion carried: 4 Ayes, 2 Nays and 1 Absent. Voting Aye were Senators Syas, Burbach, Carstens and Snyder. Voting Nay were Senators Anderson and Keyes. Senator Kelly was absent.

LEGISLATIVE RESOLUTION 33. Indefinitely postponed.

Committee Statement to LR 33:

LR 33 originally would have prevented the state legislature or anybody running for state office to be sixty-five at the date that term would commence. The committee amended this bill, striking sixty-five and making it seventy-two. After discussing this bill further, the committee came to the conclusion that when people run for election the general public should have the right to elect a person as young or as old as they wish to. The same reasoning would not apply to an appointed situation where the general public would not have the opportunity to decide. Another factor in indefinitely postponing LR 33 was that you should not go this route until the salary in the legislature is increased to a point where younger people could financially be able to be senators. There is a great possibility that an age restriction could be done sometime in the future after some other things are taken care of.

Senator Terry Carpenter, the introducer, was the only person appearing in favor of this Resolution.

There was no opposition to LR 33.

A motion was made to amend the age requirement to read seventy-two. Motion was seconded. Motion passed: 3 Ayes, 1 Nay, 0 Not Voting and 3 Absent. Voting Aye were Senators Syas, Kelly and Keyes. Voting Nay was Senator Anderson. Senators Burbach, Carstens and Snyder were absent.

A motion was made and seconded to Indefinitely Postpone LR 33. Motion passed: 6 Ayes, 0 Nays, 0 Not Voting and 1 Absent. Voting Aye were Senators Syas, Anderson, Burbach, Carstens, Keyes and Snyder. Senator Kelly was absent.

ATTORNEY GENERAL'S OPINION

Opinion No. 47
 May 7, 1973

Senator John W. DeCamp
Nebraska State Legislature
State Capitol
Lincoln, Nebraska

Dear Senator:

You ask if an abortion law such as that recently enacted by the State of Rhode Island would be constitutional. The new Rhode Island law is almost identical to the Nebraska statutes, Sections 28-404 and 28-405, R. R. S. 1943, that were struck down by the United States District Court for the District of Nebraska in the not too distant past. That is, an abortion can not be performed unless necessary to preserve the life of the mother. However, the Rhode Island Legislature added a new feature in that its new law provides, in part:

“ . . . that human life commences at the instant of conception and that said human life at said instant of conception is a person within the language and meaning of the fourteenth amendment of the constitution of the United States, and that miscarriage at any time after the instant of conception caused by the administration of any poison or other noxious thing or the use of any instrument or other means shall be a violation of said section 11-3-1, unless the same be necessary to preserve the life of a woman who is pregnant.” (Emphasis added.)

Of course, the Rhode Island law will stand or fall on two parts of the act. One, will the proviso that life begins at conception and is entitled to Fourteenth Amendment protection circumvent the recent United States Supreme Court decision of *Roe v. Wade*, ___ U. S. ___, 35 L. Ed. 2d 147, 93 S. Ct. ___? This case, decided January 22, 1973, is specifically mentioned in the preamble to the Rhode Island act.

Two, does the limitation that an abortion can only be performed when necessary to preserve the “life” of a pregnant woman circumvent that portion of *Roe v. Wade* which makes reference to “life or health”?

We are not positive of the validity of the Rhode Island law. However, a reading of the *Roe v. Wade* case would indicate that Rhode Island may have an uphill battle in sustaining the validity of the law in the already started court test.

The enclosure with your request for this opinion had the following notation:

“The Rhode Island law had no more than passed the Legislature and gone into effect than it was challenged before a three judge federal court panel. I have personally visited with Mr. Allen of the Rhode Island Attorney General’s Office, concerning his defense of their new abortion law. He is not optimistic of the outcome in the lower federal court but neither is he pessimistic.

He believes that the expert medical and scientific testimony they have assembled for use in their defense brief, proves beyond a shadow of a doubt that all human life begins at the instant of conception. There was no such medical record in either the Georgia or Texas defense briefs, and thus the Supreme Court did not address itself to or answer the basic question of when life begins in their January 22, 1973 decision on abortion."

On the matter of medical testimony being presented to the United States Supreme Court, we point out that an appeal by the State of Connecticut was recently denied by the United States Supreme Court as was the request for a rehearing. That case was Markle, et al. v. Aberle, et al., Supreme Court Case numbers 72-56 and 72-730, and the rehearing was denied on April 17, 1973. Nebraska, as amicus curiae (friend of the court), filed a brief in the Supreme Court supporting the State of Connecticut. This state was joined as amici by the States of Arizona, California, Colorado, Georgia, Kentucky, Louisiana, Massachusetts, Missouri, Montana, New Hampshire, North Dakota, Utah, and West Virginia. One of the primary reasons urged for rehearing is that Connecticut did have a full evidentiary hearing which included detailed relevant medical testimony. As already noted, the Supreme Court of the United States denied the request.

As we have pointed out, probably the most important aspect of the Rhode Island law is the legislative edict that "human life" begins at conception and is a "person" within the meaning of the Fourteenth Amendment of the United States Constitution.

In *Roe v. Wade* the Supreme Court seemed to reach conflicting conclusions on the matter of when "life begins" and when that life, whenever it begins, is entitled to Fourteenth Amendment protection.

First the Court said: "We need not resolve the difficult question of when life begins." Then the Court said that its review of authorities: "... persuades us that the word 'person' as used in the Fourteenth Amendment, does not include the unborn." The question of when life begins and when that life, no matter when it begins, is entitled to protection by the state seemed to be two different things, according to the Supreme Court. As to when life begins, the Court pointed out the divergent views of theologians, philosophers, and doctors and indicated that judges, if the aforementioned cannot decide, will not speculate on the question when life begins.

On this the Court said:

"... We need not resolve the difficult question of when life begins. When those trained in the respective disciplines of medicine, philosophy, and theology are unable to arrive at any consensus, the judiciary, at this point in the development of man's knowledge, is not in a position to speculate as to the answer.

"It should be sufficient to note briefly the wide divergence of thinking on this most sensitive and difficult question. There has

always been strong support for the view that life does not begin until live birth. This was the belief of the Stoics. It appears to be the predominant, though not the unanimous, attitude of the Jewish faith. It may be taken to represent also the position of a large segment of the Protestant community, insofar as that can be ascertained; organized groups that have taken a formal position on the abortion issue have generally regarded abortion as a matter for the conscience of the individual and her family. As we have noted, the common law found greater significance in quickening. Physicians and their scientific colleagues have regarded that event with less interest and have tended to focus either upon conception or upon live birth or upon the interim point at which the fetus becomes 'viable,' that is, potentially able to live outside the mother's womb, albeit with artificial aid. Viability is usually placed at about seven months (28 weeks) but may occur earlier, even at 24 weeks. The Aristotelian theory of 'mediate animation,' that held sway throughout the Middle Ages and the Renaissance in Europe, continued to be official Roman Catholic dogma until the 19th century, despite opposition to this 'ensoulment' theory from those in the Church who would recognize the existence of life from the moment of conception. The latter is now, of course, the official belief of the Catholic Church. As one of the briefs amicus discloses, this is a view strongly held by many non-Catholics as well, and by many physicians. Substantial problems for precise definition of this view are posed, however, by new embryological data that purport to indicate that conception is a 'process' over time, rather than an event, and by new medical techniques such as menstrual extraction, the 'morning-after' pill, implantation of embryos, artificial insemination, and even artificial wombs.

"In areas other than criminal abortion the law has been reluctant to endorse any theory that life, as we recognize it, begins before live birth or to accord legal rights to the unborn except in narrowly defined situations and except when the rights are contingent upon live birth. For example, the traditional rule of tort law had denied recovery for prenatal injuries even though the child was born alive. That rule has been changed in almost every jurisdiction. In most States recovery is said to be permitted only if the fetus was viable, or at least quick, when the injuries were sustained, though few courts have squarely so held. In a recent development, generally opposed by the commentators, some States permit the parents of a stillborn child to maintain an action for wrongful death because of prenatal injuries. Such an action, however, would appear to be one to vindicate the parent's interest and is thus consistent with the view that the fetus, at most, represents only the potentiality of life. Similarly, unborn

children have been recognized as acquiring rights or interest by way of inheritance or other devolution of property, and have been represented by guardians ad litem. Perfection of the interests involved, again, has generally been contingent upon live birth. In short, the unborn have never been recognized in the law as persons in a whole sense." (Emphasis added.)

Though the Court did not decide when life begins it did decide at what stage of fetal development the state gains a "compelling interest" in protecting that life. That stage is at the time of "viability." This is when the unborn child is supposed to be capable of living outside the womb. As is seen by the foregoing quotation from the Court's opinion this is between 24 and 28 weeks. We point out, for your information, that there have been reported cases of survival when birth took place even prior to the 24th week. With new developments in the field of medicine known as fetology, such as the artificial placenta, this time of viability may be reduced even further.

In any event, whenever "viability" occurs, and it is obviously some time after conception, the state may legislate to protect the unborn. On this the Court said:

"With respect to the State's important and legitimate interest in the health of the mother, the 'compelling' point, in the light of present medical knowledge, is at approximately the end of the first trimester. This is so because of the now established medical fact, referred to above at p. 34, that until the end of the first trimester mortality in abortion is less than mortality in normal childbirth. It follows that, from and after this point, a State may regulate the abortion procedure to the extent that the regulation reasonably relates to the preservation and protection of maternal health. Examples of permissible state regulation in this area are requirements as to the qualifications of the person who is to perform the abortion; as to the licensure of that person; as to the facility in which the procedure is to be performed, that is, whether it must be a hospital or may be a clinic or some other place of less-than-hospital status; as to the licensing of the facility; and the like.

"This means, on the other hand, that, for the period of pregnancy prior to this 'compelling' point, the attending physician, in consultation with his patient, is free to determine, without regulation by the State, that in his medical judgment the patient's pregnancy should be terminated. If that decision is reached, the judgment may be effectuated by an abortion free of interference by the State.

"With respect to the State's important and legitimate interest in potential life, the 'compelling' point is at viability. This is so because the fetus then presumably has the capability of meaningful life outside the mother's womb. State regulation

protective of fetal life after viability thus has both logical and biological justifications. If the State is interested in protecting fetal life after viability, it may go so far as to proscribe abortion during that period except when it is necessary to preserve the life or health of the mother."

A reading of the foregoing would seem to indicate that no matter when "life begins" the Legislature may not take steps to save that life until it is "viable" and, as noted above, when viability occurs is speculative at best. We also point out that the Court did not have before it in *Roe v. Wade* a legislative enactment that life begins at conception and is entitled to the protection of the Fourteenth Amendment. Therefore, we cannot, at this time, decide with precision and exactitude that such a provision is or is not constitutionally sound.

The second hurdle in the Rhode Island law is the restriction that an abortion can only be performed when necessary to save the "life" of the woman. The Court used the term "life or health." Although the Court did say "life or health" it could be construed that the word "health" must be a part of any abortion legislation. Again, we cannot say that the lack of a reference to the word "health" is constitutionally fatal to the Rhode Island law.

In conclusion, we are unable to say with specificity whether or not the Rhode Island law is a constitutionally viable act. Inasmuch as it is already in the courts, we should have some judicial interpretation in the near future.

Very truly yours,

CLARENCE A. H. MEYER
Attorney General

Mr. Anderson offered the following amendments:

1. Strike section 1, subsections (1) and (2), and insert the following:

"Section 1. The Legislature hereby finds and declares:

(1) That the following provisions were motivated by the legislative intrusion of the United States Supreme Court, by virtue of its decision removing the protection afforded the unborn. This act is in no way to be construed as implementing, condoning, or approving abortions at any stage of unborn human development, but is rather an expression of the will of the people of the State of Nebraska and the members of the Legislature to provide protection for the life of the unborn child whenever possible, until such protection can be afforded by an appropriate amendment to the United States Constitution.

(2) That the members of the Legislature expressly deplore the destruction of the unborn human lives which has and will occur in Nebraska as a consequence of the Supreme Court's decision on abortion.

(3) That it is in the interest of the people of the State of Nebraska that every precaution be taken to insure the protection of every viable unborn child being aborted, and every precaution be taken to provide life-supportive procedures to insure the unborn child its continued life after its abortion.

(4) That currently, in this State, there are grossly inadequate legal remedies to protect the life, health, and welfare of pregnant women and unborn human life.

2. Renumber original subsection (3) as subsection (5).

3. In section 2, subsection (1), following "the womb of the pregnant woman", change the period to a semi-colon and add, "Provided: in those cases where the unborn child's viability is threatened by continuation of the pregnancy, early delivery after viability by commonly accepted obstetrical practices shall not be construed as an abortion for the purposes of this act."

4. In section 5, following "life or health." add, "No abortion procedure employed pursuant to this provision shall have the direct or indirect effect of terminating the viability of the unborn child prior to, during, or following the procedure."

5. Strike section 6 and insert:

"Sec. 6. The commonly accepted means of care shall be employed in the treatment of any child aborted alive with any chance of survival."

6. Strike section 18 and insert:

"Sec. 18. Whoever shall sell, transfer, distribute, or give away any live or viable aborted child for any form of experimentation shall, upon conviction thereof, be punished by a fine of not more than one thousand dollars, or by imprisonment in the county jail for a period of not more than one year, or by both such fine and imprisonment. Any person consenting, aiding, or abetting such sale, transfer, distribution, or other unlawful disposition of an aborted child, shall be punished by a fine of not more than one thousand dollars, or be imprisonment in the county jail for a period of not more than one year, or by both such fine and imprisonment."

7. In section 19, line 17, strike "and"; in line 18 strike the period and insert "; and

(11) The length and weight of the aborted child, when measurable."

8. Add a new section to read:

"Sec. 20. Any physician who fails to comply with the procedures outlined in section 19 of this act shall be guilty of a misdemeanor and shall, upon conviction thereof, be punished by a fine of not less than five hundred dollars and not more than one thousand dollars, or by imprisonment in the county jail for not more than six months, or by both such fine and imprisonment."

9. Renumber original sections 20, 21, and 22 as sections 21, 22, and 23.

SEVENTY-NINTH DAY

Legislative chamber, Lincoln, Nebraska
Wednesday, May 9, 1973

Pursuant to adjournment, the Legislature met at 9:00 a.m., Mr. Whitney presiding.

PRAYER

The prayer was offered by the Chaplain.

Almighty Father, in decisions before us which effect the lives of human beings, give us an equation between the telescopic and the microscopic view of life. May we endeavor to see issues in their minute details and also from a long range perspective. May we not be absorbed in the tyranny of trifles and lose the meaning of the larger issues. Give us clear minds. May we not be submerged in indecisions which multiply our problems, divide our worth, add to our sleeplessness, and subtract from our value to the people of our State. In our Lord's name. Amen.

MESSAGE FROM THE GOVERNOR

May 8, 1973

Mr. Speaker, and Members
of the Legislature
State Capitol Building
Lincoln, Nebraska

Dear Mr. Speaker and Senators:

With reluctance and with the cautions outlined herein, I have today signed into law LB 547.

This measure attempts to clear the way, as authorized by the people in approving a constitutional amendment last year, for committing future legislatures and the executive to action on future capital construction.

In effect, by LB 547, the Legislature has attempted to set up the machinery to allow the binding of future appropriations.

A closer look at the bill indicates that it may have some drafting deficiencies which may require future action by your body.

Evidently your intention was to allow for construction contracts to be binding over a number of years.

It would appear that you may not have accomplished that end since the bill provides, "Construction may be commenced after contracts are awarded, but the obligation of the state in any fiscal year under such contracts shall not exceed the amount appropriated for that purpose in such fiscal year."

Such language could impair even starting construction if this bid were in excess of your authorization for a given year.

Yours very truly,

(Signed) J. James Exon
Governor

Dear Senator Burbach:

In your letter of May 3, 1973, you ask our opinion as to the constitutionality of L. B. 534. This bill would amend Sections 77-1226.01 and 77-1226.02, R. R. S. 1943, to give the exemption provided for in Section 77-1226.01 to goods stored in bonded and licensed storage areas owned by the owner of such goods, when the goods are intended for and are shipped to final destinations outside the state, even though such bonded and licensed storage areas are not made available to the general public for compensation.

We will not comment on the details of the bill or the mechanics for the implementation of it, but will confine our discussion to the constitutionality of the general purpose of the bill. The exemption which would be granted by this bill, as well as that granted by the present statutes to goods, wares and merchandise stored in transit in bonded and licensed warehouses available to the general public for compensation, is authorized, if at all, by Article VIII, Section 2A of the Nebraska Constitution, which provides:

“The Legislature may establish bonded and licensed warehouses or storage areas for goods, wares and merchandise in transit in the state which are intended for and which are shipped to final destinations outside this state upon leaving such warehouses or storage areas, and may exempt such goods, wares and merchandise from ad volorem taxation while in such storage areas. (Adopted, 1960.)”

The basic question we must decide is whether this constitutional provision authorizes an exemption to goods belonging to the owner of the warehouse or storage area in which they are stored, when such warehouse or storage area is not available to the public in general, but is used by the owner solely for the storage of his own goods. We find nothing in Section 2A which expressly excludes the exemption from goods owned by the owner of the warehouse or storage area, nor which requires that the bonded and licensed warehouses or storage areas be available to the public generally. If a warehouse or storage area can be bonded and licensed, although not available to the public, and if the goods, wares and merchandise stored in such warehouse or storage area are in transit and are intended for and are shipped to final destinations outside the state upon leaving such warehouse or storage area, such goods, wares and merchandise would appear to come within the literal language of Section 2A, and would be authorized by such section to be exempted from taxation.

On January 5, 1973, the Nebraska Supreme Court decided the case of Norden Laboratories, Inc. v. County Board of Equalization, 189 Neb. 437, 203 N. W. 2d 152. This case involved an interpretation of Sections 77-1226.01 to 77-1226.04, as they presently read. The plaintiff in that case asked the court to construe the present statutes to accomplish the result which would be accomplished by L. B. 534. The trial court held that the present statutes authorized the exemption of goods, wares and merchandise stored by the owner in its own licensed, bonded warehouse. The Supreme Court reversed, but did it solely on the basis of statutory construction, and not on constitutional grounds. The court held that the definition of bonded and licensed warehouses in Section 77-1226.02, as being those engaged in the business of storing goods, wares and merchandise for compensation, which issued warehouse receipts to the owner or depositor thereof, operating under a bailee-bailor relationship, offering and making available its facilities to the public generally for various goods, commodities, products or services and continuously making available and using its facilities for public storage for compensation, prevented the plaintiff from coming within the language of the statute.

We have examined the briefs of the parties to that suit, to see whether the constitutional issue was raised. We find that the County Board of Equalization did raise the constitutional issue, contending that a construction of the statute in accordance with the plaintiff's position would be in violation of the constitution, because unauthorized by Article VIII, Section 2A of the constitution. The court did not specifically reject

that argument, but did not see fit to discuss it, and, by deciding the case solely on the basis of statutory construction, seemed to imply that different statutory language would have resulted in a different decision.

Of special significance, we believe, in determining what the Supreme Court would say about this question, is the fact that Justices Boslaugh and McCown dissented, saying that, in their opinion, the exemption should be granted to the plaintiff under the present statute. In so holding, these justices, at least, were specifically rejecting the constitutional argument of the defendant. In view of the requirement of the Nebraska Constitution that an act of the Legislature shall not be declared unconstitutional except on the vote of five members of the Supreme Court, it would appear that L. B. 534 would not be declared to be unconstitutional if any one of the justices voting with the majority in the Norden Laboratories case were to join the two dissenting justices in holding that Section 2A would authorize the exemption which would be granted by L. B. 534. In our opinion, such an exemption comes within the literal language of Section 2A, and, in our opinion, would be upheld by the Supreme Court.

Very truly yours,

ATTORNEY GENERAL'S OPINION

Opinion No. 49.
May 9, 1973

Senator Roland A. Luedtke
Nebraska State Legislature
State Capitol
Lincoln, Nebraska

Re: L. B. 574

Dear Senator Luedtke:

This is in reply to your request concerning our opinion as to the constitutionality of that portion of Section 3 of L. B. 574 which provides in part that no person convicted of murdering certain designated officers and sentenced to a term of life imprisonment "shall be eligible for parole and release from confinement until he shall have served not less than fifty years in the Nebraska Penal and Correctional Complex."

As you know, Section 13, Article IV of the Nebraska Constitution provides in part:

"The Legislature shall provide by law for the establishment of a Board of Parole and the qualification of its members. Said board, or a majority thereof, shall have power to grant paroles after conviction and judgment, under such conditions as may be prescribed by law, for any offenses committed against the criminal laws of this state except treason and cases of impeachment. * * *"

You will note that said constitutional provision specifically provides that the Legislature may prescribe by law the conditions under which the Board of Parole shall have power to grant paroles. The provision in L. B. 574 would constitute such a condition and, in our opinion, would be within the above constitutional provision. It is a matter of when a person convicted for the type of crime described becomes eligible and is no different so far as the constitution is concerned, than the present statutes under which the parole board is operating which require a certain portion of a sentence to pass before the offender is eligible for a parole.

We should also call to your attention that the same section of the constitution establishes a Board of Pardons with power to grant respites, reprieves, pardons, or commutations in all cases of conviction for offenses against the laws of the state, except treason and cases of impeachment. This constitutional grant of power to the Board of Pardons is unlimited and has no references to conditions set up by the Legislature as does the

provision relating to the Board of Parole. Therefore, even though the section of L. B. 574 to which you refer is passed, it would still be possible for the Board of Pardons to release the individual sooner by a pardon or some form of reprieve or commutation, which power, as mentioned earlier, may not be limited by the Legislature.

Although not a constitutional matter, we call your attention to the obvious fact that a provision such as is contained in Section 3 of L. B. 574 is no guarantee that a person so convicted would serve said fifty years in confinement, as you are no doubt well aware, since any future Legislature could change this provision.

If we can be of further assistance to you in this matter, please contact us.

Very truly yours,

CLARENCE A. H. MEYER

FIRST SESSION

EIGHTIETH DAY

Legislative Chamber, Lincoln, Nebraska
Thursday, May 10, 1973

Pursuant to adjournment, the Legislature met at 9:02 a.m., President Marsh presiding.

PRAYER

The prayer was offered by the Chaplain.

In this prayer, O God, we come to Thee as children to a loving Father. We pray that thou wilt help our senators to face the problems that confront them, not alone by giving them wisdom greater than their own, but also by relieving their minds of all other anxieties.

May they now turn over to Thee loved ones who need the healing touch of the Great Physician, with every confidence that Thou wilt hear our prayer of intercession, and as we do the work that is before us, that Thou wilt do Thy work of healing in those whom we love. May Thy help be so plain and practical in our family affairs that we shall come to believe strongly in the help that Thou dost offer in our state affairs. Deliver thy servants from personal worries, that they may be able to give themselves wholly to the challenge of this hour. In Jesus' name. Amen.

6 Constitution of Nebraska to provide financial support to
7 the public schools of this state. It is the purpose of
8 this act to meet such responsibility and at the same time
9 to provide a reduction in property taxes and to place
10 limitations on the total expenditures for public school
11 purposes within the state. Funds provided under this act
12 shall be in addition to those furnished under the School
13 Foundation and Equalization Act.

14 Sec. 2. There is hereby established in the
15 state treasury a fund to be known as the Public School
16 Support Trust Fund into which shall be placed such funds
17 as are required to be deposited therein under the
18 provisions of this act.

19 Sec. 3. (1) State aid to the public schools
20 shall be increased over a two-year period so that the
21 state shall bear fifty per cent of the current
22 operational cost of the public schools, which
23 specifically excludes capital construction and
24 acquisition funds, payments of interest and principal on
25 bonded indebtedness.

1 (2) There shall be deducted from such current
2 operational costs for purposes of determining the cost to
3 be borne by the state, receipts from the following
4 sources: (a) Tuition and transportation reimbursement

16 school year shall be used.

17 (3) The Legislature shall increase appropriations
18 for the aid of public schools so that (a) for the 1975-76
19 school year one half of such percentage to be borne by
20 the state shall be provided, and (b) for the 1976-77
21 school year the total of such percentage shall be
22 provided.

23 Sec. 4. Of the total appropriation from the
24 Public School Support Trust Fund, five million dollars
25 shall be set aside annually for allocation by the State
26 Board of Education under the provisions of section 8 of

27 this act and, commencing with the 1976-77 school year and
1 subsequent school year, five million two hundred thousand
2 dollars shall be set aside annually for allocation by the

27 III, IV, or V school district must levy a tax equal to
1 the mill levy that would be required if the total cost
2 throughout the state to be borne locally in the 1976-77
3 school year and subsequent school years were to be raised
4 by a uniform mill levy, (b) each Class I school district
5 must levy a tax equal to three-sevenths of such mill
6 levy, except that a Class I school district which is part
7 of a Class VI school district offering instruction in

11 excluded from such computation, (3) the insurance tax
12 fund, (4) state apportionment, (5) vocational education
13 receipts, and (6) all receipts from local and county
14 sources except local district taxes.

22 board and a showing of hardship, and shall be for one
23 year only. Any amount not allocated under this section

2 to those school districts which (1) furnish
3 transportation to their pupils, (2) provide a special
4 program for gifted children, or (3) provide a special

7 state pay one half the cost of such transportation and
8 special programs. To qualify for funds under this
9 section, such special programs must be approved by the
10 State Board of Education. Criteria for the
11 classification of gifted and culturally and educationally

12 deprived children shall be established by the State Board
13 of Education.

6 determining such percentage increases. On or before

Insert a new section to read:

Sec.

"(1) In addition to the amounts specified in section 3 and 4 of this act, an additional amount shall be appropriated by the legislature to provide assistance to those school districts who, because of their unique geographic and demographic characteristics, have a high cost per pupil, but receive very little state aid. This additional aid shall be provided to such school districts only if their current operating expenditures for the preceding year exceeded \$1,000 per pupil and the school district offered instruction in grades K-12.

(2) The State Department of Education shall establish rules and regulations for the distribution of the funds provided for in this section. The Department of Education shall consider such factors as: (a) Valuation per pupil (b) student teacher ratio (c) local effort and (d) other sources of assistance available."

ATTORNEY GENERAL'S OPINIONS

Opinion No. 50
 May 11, 1973

Senator Glenn A. Goodrich
 Nebraska State Legislature
 State Capitol
 Lincoln, Nebraska

Dear Senator:

You ask if the abortion bill, L. B. 286, as amended, is constitutional. Its constitutionality has to be measured in light of the United States Supreme Court's decisions in *Roe v. Wade*, ___ U. S. ___, 35 L. Ed. 2d 147, 93 S. Ct. ___, and *Doe v. Bolton*, ___ U. S. ___, 35 L. Ed. 2d 201, 93 S. Ct. ___ (1973).

After reviewing those cases and L. B. 286, we are unable to say that the Supreme Court would or would not uphold the bill if it is passed.

There are some parts of the bill that might have problems with the Supreme Court ruling. For example, Section 3 requires:

"Every physician consulted about abortion by an expectant mother shall inform her of agencies and services available to assist her to carry the pregnancy to natural term, and shall further inform the expectant mother as to all reasonably possible medical and mental consequences resulting from the performance of an abortion."

Failure to comply, according to Section 4, would make the doctor subject to fine and/or imprisonment. For the period of the pregnancy covering the time to the approximate end of the first trimester this section may possibly be construed to violate this part of the Wade ruling:

“For the stage prior to approximately the end of the first trimester, the abortion decision and its effectuation must be left to the medical judgment of the pregnant woman's attending physician.”

The next section that may or may not be construed as invalid is Section 5 which now provides:

“No abortion shall be performed or prescribed after the unborn child has reached viability, except when necessary to preserve the woman from an imminent peril that substantially endangers her life or health. No abortion procedure employed pursuant to this provision shall have the direct or indirect effect of terminating the viability of the unborn child prior to, during, or following the procedure.”

We have no trouble with the proscription of abortion after viability except when necessary to preserve the woman from an imminent peril that endangers her life or health. However, the restriction of the methods used to accomplish the abortion may be construed as too restrictive. About the only methods left are hysterotomy and induced labor. The second sentence of the quoted provision would, for example, eliminate the possibility of using the saline injection method because the possibility of death to the unborn child is almost one hundred per cent. Even the hysterotomy method could cause grave danger to the unborn at very early stages of viability. The big problem here is that there is no definite time period of when viability occurs. Even the Supreme Court recognized this in Wade when it said:

“... Viability is usually placed at about seven months (28 weeks) but may occur earlier, even at 24 weeks. . . .”

This problem of when viability occurs was discussed in our opinion number 47, dated May 7, 1973.

The next possible problem with the bill is that of the matter of obtaining consent from a parent or guardian of a minor or the consent of the father of the unborn child. The consent requirements are in Sections 8 and 9 of the bill. In its decision, the Supreme Court left this area up in the air. In Wade they said in a footnote at the end of the majority opinion:

“Neither in this opinion nor in Doe v. Bolton, post, do we discuss the father's rights, if any exist in the constitutional context, in the abortion decision.”

What the Supreme Court would say about the consent requirements is a matter of pure speculation.

Although it may be argued that the statistical requirements of Section 19 of the bill may fly in the face of Bolton, we do not believe so. However, again, it is pointed out that to give an exact answer is impossible.

In conclusion, we cannot be sure if L.B. 286 is valid or invalid but we note again that probably the second sentence of Section 5 could be the most troublesome for us in defending the validity of the act.

Very truly yours,

CLARENCE A. H. MEYER

Opinion No. 51
May 11, 1973

Senator John W. DeCamp
Nebraska State Legislature
State Capitol
Lincoln, Nebraska

Dear Senator:

You ask if the abortion bill, L.B. 286, as amended, is constitutional. You also ask if the severability clause in the bill will suffice to uphold the balance of the bill if part of the bill is declared unconstitutional.

In response to your first question we refer you to our opinion to Senator Goodrich, Number 50, dated May 11, 1973.

As for the effect of the severability clause, the rule in Nebraska is set out in *Terry Carpenter, Inc. v. Wood*, 177 Neb. 515, 129 N.W. 2d 475 (1964), as follows:

“A declaration of severability in a legislative act is a declaration of the intent of the Legislature that it would have passed the act with the invalid parts omitted. *State ex rel. Meyer v. County of Lancaster*, 173 Neb. 195, 113 N.W. 2d 63. When a legislative enactment in which such a declaration appears contains valid and void provisions, the valid provisions will be upheld if it is

a complete law in itself, capable of enforcement and is not dependent upon that which is invalid; or, stated another way, when the invalid portions of the act are so interwoven with the rest that the act may not be operative with the void portions eliminated or where it is obvious from an inspection of the act that the invalid portion formed the inducement for the passage of the act, the whole act fails."

If a portion of L.B. 286 is declared unconstitutional, what is left would have to be looked at with the foregoing rule in mind to determine whether it would stand or fall.

Very truly yours,

Opinion No. 52
May 11, 1973

Senator Terry Carpenter
Nebraska State Legislature
State Capitol
Lincoln, Nebraska

Dear Senator Carpenter:

In your letter of May 9, 1973, you have submitted to us some proposed amendments to L.B. 534, and have asked our opinion as to the validity of these amendments, particularly in light of the case of Norden Laboratories, Inc. v. County Board of Equalization, 189 Neb. 437, 203 N.W. 2d 152. We see no constitutional difficulties with your amendments, or conflicts with the Norden Laboratories case.

Among other things, your amendments would increase the fine for violation of the act, increase the bond required of bonded and licensed warehouses and storage areas, and change the agency designated to license storage areas from the Tax Commissioner to the Public Service Commission. We see no constitutional difficulties at all with respect to these matters.

One of your amendments would amend Section 2 of the bill by

striking subparagraph (2) (a) of the original bill and substituting therefor the following:

“(2) (a) Bonded and licensed storage areas as used in Chapter 77, article 12, shall mean specifically defined storage areas which (i) may be used for in-transit storing or storage for shipment of goods, wares, and merchandise of the owner of such storage area, (ii) are made available to or used by the general public for compensation, (iii) are advertised by means of a printed sign with letters not less than three and one-half inches in height and one inch in width bearing the words ‘general public storage area’ displayed in the involved bonded and licensed storage area in a place which can be observed by the general public, and (iv) are licensed and bonded by the Public Service Commission prior to January 1, 1974, or January 1 of each calendar year thereafter if exemption under Section 77-1226.01 is to be claimed for such calendar year, except that storage areas defined under this act shall not include areas used exclusively for the storage of livestock, poultry, fish, and fur-bearing animals before processing.”

As we indicated in our opinion of May 8, 1973 to Senator Burbach, we do not believe that the Norden Laboratories case stands for the proposition that an exemption to goods owned by the owner of the warehouse or storage area would be in violation of Article VIII, Section 2A of the Nebraska Constitution. In this respect, your amendment would not go as far as the original version of L.B. 534, which would permit the exemption to the goods owned by the owner of a completely private storage area. Your amendment would permit the exemption only if the storage area was also made available to the public. If we were correct in our opinion to Senator Burbach that the original bill was valid in this respect, your amendment would be in at least as strong a position.

You have also asked about the validity of the exclusion of areas used exclusively for the storage of livestock, poultry, fish, and fur-bearing animals before processing. The question there is the reasonableness of the classification. The general rule is that the Legislature may classify persons, corporations and property for purposes of legislation, but the classification must rest upon real differences in situation and circumstances of members of the class relative to the subject of legislation, and the law must operate uniformly on every member of the class so designated. The basic question, then, is whether there is a rational basis for treating livestock, poultry, fish, and fur-bearing animals before processing, which are being held “in storage” for interstate shipment differently from other property held in storage for such interstate shipment. It appears to us that the court could readily find a basis for such different treatment. In the first place, one would not ordinarily use the term “storage” in connection with the holding of live animals, and it is questionable whether they were intended

to be included under Article VIII, Section 2A of the constitution. Furthermore, live animals require constant care, feeding, watering, etc. and, if kept for any appreciable time, may grow or gain weight. The Legislature would, in our opinion, be fully justified in taking the position that this was not the type of "storage" it intended to authorize an exemption for. We therefore see no difficulty with this provision in your amendment.

Very truly yours,

RESOLUTIONS

LEGISLATIVE RESOLUTION 79.

Introduced by Warner, 25th District.

WHEREAS, the citizens of the State of Nebraska and the various governmental units have historically supported and approved the principle that all persons should have available to them quality education through a public school system; and

WHEREAS, the State of Nebraska through General Fund appropriations is expending a substantial sum of money to school systems in order to provided (1) a higher standard of education, (2) a broad spectrum of educational services including special education for the physically handicapped, educable mentally handicapped, trainable mentally retarded, and the emotionally disturbed, (3) a comprehensive system of post-secondary education, both academic and vocational, and (4) local property taxation relief; and

WHEREAS, the Legislature has enacted much legislation relative to school aid which has been somewhat fragmented in providing a total concept of education systems and financial aid; and

WHEREAS, there is a need for coordination of effort between the various systems whose purposes are to provide a broad spectrum of educational opportunities; and

WHEREAS, historical precedence in legislative responsibility urges that state aid to education be inclusive of all current proven education techniques, responsive to the rights of the citizens who receive the education, and equitable in the methods of fund distribution.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-THIRD LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Legislative Council appoint a committee to study:
 - (a) The statutory provisions governing the distribution of all state aid funds for public education;
 - (b) The result of the financial aid provided to the various schools relative to improving the quality of education and the reduction of local tax burden;
 - (c) The current financial aid and future requirements of special education with emphasis on the number of students who are receiving a special service, the estimated number of students who should receive such service, the location of the service, and trends in special education techniques; and
 - (d) The need for improved coordination and accountability between the various elementary, secondary, and post-secondary education systems and the Legislature.
2. That the committee report its findings with its recommendations to the next regular session of the Legislature.

Pursuant to adjournment, the Legislature met at 8:01 a.m., President Marsh presiding.

PRAYER

The prayer was offered by the Chaplain.

O God, prepare our hearts and minds for the business of this day that we may throughout behave with genuine courtesy and honor before our colleagues. Help us to be just and honest in all our dealings. May we listen to those who have something to say but never lose our own capacity to discriminate between right and wrong. Save us from the fallacy of depending upon our personality or ingenuity to solve our problems, and make us more willing to do the hard work that is necessary to be well informed. Since we believe Thou art the source of truth, may we listen to Thee at the beginning of this day so that at the end we may hear Thy blessing, "Well done, thou good and faithful servant." Amen.

MESSAGE FROM THE GOVERNOR

May 12, 1973

The Honorable Richard F. Proud
Speaker
and Members of the Legislature
Nebraska State Legislature
State Capitol
Lincoln, Nebraska 68509

Dear Senators:

I have today reluctantly signed into law LB 494. Although I am concerned, as you apparently are, about a need for disaster and emergency preparedness I question the broad delegation of powers granted under this act. I realize that this is a “model” bill but so was the enactment of the Life Safety code which you have now repealed.

You are aware of my feelings about the need for a strong executive. I am equally concerned, however, with checks and balances. Those may not totally exist within LB 494. There is also a danger that local control may be further eroded.

Finally, there is a substantial financial requirement placed upon state and local government in this act. There is, however, no appropriation for these purposes. This means that local governments must again raise taxes while state government must either fail to carry out its responsibility under the act or fail to perform other vital functions. We would have to take the position that until an appropriation was made for the purposes specified in the act the state will not be able to carry out those purposes.

Respectfully submitted,

(Signed) J. James Exon

WHEREAS, the Midwest is presently encountering a severe shortage of all types of fuel; and

WHEREAS, at the present time such shortage can be alleviated only by a reduction in use of all types of fuel; and

WHEREAS, any loss of efficiency and production caused by the fuel shortage in any industrial or commercial area will be detrimental to the best interests of all citizens of the state; and

WHEREAS, many Nebraska farmers will be desirous of participating in the revised feed grain program of the United State Department of Agriculture which reduces the set-aside from 25% to 10%, thus allowing more flexibility in the farmers' planting decisions and the placing of more acres in production; and

WHEREAS, a fuel shortage will make it difficult, if not impossible, for farmers to take advantage of this new and more flexible program; and

WHEREAS, a fuel shortage will also have an adverse effect on transportation within the state which, in turn, will cause a slowdown in business and industry.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-THIRD LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Legislature strongly recommend to the citizens of Nebraska that conservation of all types of fuel is of prime importance to the general economic welfare of the entire state.

2. That, while business, industry, agriculture, and transportation in the state will be harmed by a fuel shortage, they also bear the responsibility of joining all citizens in the conservation of available fuel supplies.

3. That the following methods of conserving fuel be recommended to all citizens of the state: Efficient and reasonable use of automobiles, proper maintenance of automobiles, creation of car pools, shorter vacation trips, and travel at slower speeds.

4. That a recommendation be made to all home and building owners to maintain properly adjusted furnaces, inspect insulation to be certain of its adequacy, and reduce the use of electricity and air conditioning.

5. That all business and industry in the state follow the recommendation to use all motor vehicles in the most efficient manner possible.

6. That every citizen, irrespective of place of residence or occupation, make a strong effort to conserve all types of fuels.

7. That the Governor is hereby urged to issue an appropriate proclamation calling upon all the citizens of Nebraska to support this Resolution and work to bring about its goals.

EIGHTY-FOURTH DAY—MAY 16, 1973**LEGISLATIVE JOURNAL****EIGHTY-THIRD LEGISLATURE
FIRST SESSION****EIGHTY-FOURTH DAY**

Legislative Chamber, Lincoln, Nebraska
Wednesday, May 16, 1973

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Marsh presiding.

PRAYER

The prayer was offered by Rev. Everett F. Hezmall, Associate Pastor of Westminster Church, Lincoln.

Teach us our Father, how to look at the things we see, and to look at them without bias or prejudice. With the truth waiting to be looked at, discovered and applied, forgive us when we refuse to look at it or to welcome it.

Lord of our lives, we pray that Thou wilt fill with new meaning this sacred moment of prayer. Set our perspectives in the context of your will and purpose. Even though they be hard nosed facts that we face, let them be faced with the insight of Your spirit, knowing that human beings are far more precious than property, and peace among our fellowmen more to be desired than discontent.

In this moment of solitude and deep need, release our minds so that we may be free to receive Your guidance for which we have asked. In the spirit of Jesus Christ our Lord. Amen.

ATTORNEY GENERAL'S OPINION

Opinion No. 53
May 15, 1973

Senator Ramey C. Whitney
Nebraska State Legislature
State Capitol
Lincoln, Nebraska

Dear Senator Whitney:

This is in reply to your inquiry concerning L. B. 311.

It is our opinion that subsections (2) and (3) of section 2 carry over until after July 1, 1973, and were not intended to be limited only until June 30, 1973.

The limitation in subsection (1) of section 2 of the act, as you know, limits the matching of community-based services, as therein provided, until June 30, 1973.

However, subsection (2) of said section strikes out the present requirement of distributing on a pro rata basis in proportion to "local matching" when there are not sufficient funds available and refers to when funds are "insufficient to meet the budget requirements for all agencies." Thus, the insufficiency calling for a pro rata distribution now applies to budget requirements rather than matching requirements.

Section 8 of the act creates six mental retardation regions in the State and section 3 of the act provides that said regions shall prior to July 1, 1973, and each year thereafter beginning July 1, prepare a proposed budget for the Department of Public Institutions which shall review the same, attach its recommendations and transmit them to the Director of Administrative Services. The final budget for each such region is set by the Legislature.

With the new system of retardation regions submitting budgets to the State commencing on July 1, 1973, it would appear that the changes in subsection (2) of section 2 were meant to apply after July 1 since that subsection was changed to apply to "insufficient to meet the budget requirements" rather than "requirements for matching funds."

You also ask about subsection (3) of section 2. This section was not changed and remains the same as it is in the present statute. The wording of this subsection could apply after July 1 as well as before since it relates to the use to be made of matching funds and a new method of matching funds is contained in section 5 which commences July 1, 1973.

Looking at section 2 of this bill as a whole, the limiting words "until June 30, 1973" are contained in subsection (1) but not in subsection (2) or subsection (3). It is our opinion that subsection (3) would apply after July 1 since there was no change made in the section, and there is no comparable section for the use of the matching funds after July 1 set up by section 5.

The rule of statutory construction of "expressio unius est exclusio alterius" or loosely translated "express mention and implied exclusion" could be applied here--that is, by inserting dates in so many places, this subsection was impliedly intended to continue as it exists, in our opinion.

Respectfully submitted,

CLARENCE A. H. MEYER
Attorney General

Lincoln, Nebraska 68508
16 May 1973

MEMO FOR: Governor Exon
FROM: Burl Johnson
RE: Platte River

Flood crest today is in the Odessa vicinity. Volume and stage readings continue to meet current forecasts.

Lowland flooding of a relatively minor nature continues to occur.

Crest should reach Grand Island on the 17th, Duncan on the 19th, North Bend on the 20th, and Louisville on the 22nd.

By the time the crest reaches Ashland, it should be below flood stage.

We do not anticipate any further serious problems unless we have rain.

We do expect the North Platte to remain at a bank full level until irrigation starts. The flood crest is several days long. Therefore, the entire river operation should be carefully watched. We propose to continue to do so.

O Lord, our God, Creator of all and sustainer of Life; Before you one day we shall have to render an account. Grant us Your wisdom that this day's work may be well pleasing unto You.

We feel at times frustrated in not finding the enablement of funds with which to implement the measures we feel are good for the people of our state. We feel rushed in our endeavors as the days draw to a close.

Let this moment be one of release of our burdens into your Almighty hands, so that in freedom of spirit and in quietness of mind, we shall accept this day's challenge in faith that we can be co-workers with You.

MESSAGE FROM THE GOVERNOR

May 16, 1973

Mr. President, Mr. Speaker,
and Members of the Legislature
State Capitol Building
Lincoln, Nebraska

Dear Mr. President and Senators:

I am returning herewith LB 312 without my signature and with my objections.

I am vetoing this bill because of my convictions and am disappointed that the Legislature would not accept my attempt at a reasonable compromise on this very far-reaching legislation.

In my opinion, LB 312 is overly permissive with regard to detached facilities and could allow the larger banks to take unfair advantage of the smaller-sized institutions.

While it is true that branch banking itself is not involved in LB 312, there can be little question that your expansion of detached facilities from the present 2600 foot limitation to a distance of three miles from the principal location, and a second facility "within the city limits" is a giant step in that direction.

I concur that the present 2600 feet maximum separation from the chartered location is overly restrictive. But in considering liberalization of that law, may I suggest that you ask yourselves why did we have such a 2600 feet limitation in the first place?

All are aware of my suggestion that detached facilities could reasonably be increased to one within one mile and the second within three miles of the principal location. It is my view that, in a metropolitan area, a bank can meet the obligation of its charter, the obviously intended limitation thereof, and legitimately meet the need and convenience of its customers by having two detached facilities within a three mile radius of its headquarters.

To go beyond that area, say to 8 to 10 miles or more from its operation center, appears to violate the integrity of the traditional concepts of a bank being chartered to serve the needs of a particular area. When that principle is violated, you are giving nodding approval to full branch banking which, if eventually passed in Nebraska, will serve the unwise purpose of concentrating the vast power of the banking fraternity into a few hands.

While I recognize that the most intensive lobby pressure has been exercised pro and con on this matter, I am hopeful that each of you will exercise your own independent judgement, after a careful review of all of the implications when considering possible future action on this measure.

Yours very truly,

(Signed) J. James Exon
Governor

ATTORNEY GENERAL OPINION

Opinion No. 54
May 17, 1973

Honorable Ernest Chambers
Nebraska State Senator
State Capitol Building
Lincoln, Nebraska 68509

Dear Senator:

With reference to your May 16 letter on L. B. 146 and L. B. 268 which deal with the crime of murder, your question is whether the delayed effective date of L. B. 146 will operate in such a way that it will in fact repeal L. B. 268. In our view, it will not. The method selected by the professional staff of the Legislature in restoring the procedural steps repealed by L. B. 146 was approved by this office.

Your letter states that you "have arguments if your reply is that L. B. 146 does not repeal L. B. 268 (or those sections with which both bills deal)". Undoubtedly those arguments and many others will be raised whenever there is a conviction for murder, and we hope to be able to meet them when the time comes.

Very truly yours,

(Signed) Clarence A. H. Meyer
Attorney General

6 salary and salary related items. The other part shall be
7 other expense items. Salary and salary related items
8 shall include salaries, employer contributions to pension
9 or retirement programs, employee benefit plans, and
10 contributions under the Federal Insurance Contributions
11 Act. All other items shall be included in the other
12 expense category.

13 Sec. 6. For the 1973-74 school year, general fund budget of any school
14 district may not be increased over its budget for the
15 preceding year by more than the amount arrived at
16 pursuant to the following computations: (1) To the
17 amount of salary and salary related items shall be added
18 an amount equal to two per cent of the salary and salary
19 related items and then this total shall be increased by
20 a factor or percentage which shall be the increase in the
21 Cost of Living Index as established by the United States
22 Department of Labor for the immediately preceding
23 calendar year. To the amount resulting from this
24 computation may be added an amount equal to any increase
25 in employer contributions under the federal Social
26 Security Act, which will take effect during the year for
27 which the budget is being set, such amount to be computed
1 based upon the number of employees and their salaries in
2 the year preceding the year for which the budget is being
3 set; (2) to the amount of other expenses shall be added
4 an amount equal to two per cent of the other expenses and
5 then this total shall be multiplied by a factor or
6 percentage which shall be the increase in the Wholesale
7 Price Index as established by the United States
8 Department of Commerce for the immediately preceding
9 calendar year; and (3) the amounts resulting from

12 dollar amount that the general fund portion of the budget
13 described in section 2 of this act may be increased,
14 except that if there is an increase in student
15 enrollment, the amount determined under this subdivision
16 may be further increased by the percentage increase in
17 student enrollment.

18 Sec. 7. For purposes of this act, student
19 enrollment shall mean average daily membership as defined
20 by the State Department of Education.

21 Sec. 8. In making computations required
22 pursuant to this act, the school districts shall use
23 estimates whenever final figures are not available, but

24 when final figures become available the amounts shall be
 25 recomputed. If the recomputation shows that less budget
 26 was required than was estimated, then the amount of
 27 difference shall be determined. Expenditures shall be
 1 reduced by the amount of such determination and the
 2 amount of such determination shall be carried forward
 3 into the next budget year as an item of general fund
 4 revenue for the district. If expenditures are made in
 5 excess of the amount permitted under this act, the State
 6 Board of Education through the State Department of
 7 Education shall for each dollar of excess expenditure
 8 subtract one dollar from any state funds being
 9 distributed to such district for general school purposes.
 10 The amounts so subtracted shall revert to the state
 11 General Fund. Such subtraction shall be from such funds
 12 next distributed to the school district and such district
 13 shall not use such ~~excess~~ expenditures in computing its
 14 ~~successing~~ budget or expenditure limitation.

15 Sec. 9. If the governing board of any school
 16 district desires to seek a budget higher than authorized
 17 by sections 2 to 6 of this act, such governing board may
 18 submit the higher budget issue to the voters of the
 19 district at either a general election or a special
 20 election called for that purpose. If a majority of the
 21 votes cast at such an election approve such higher
 22 budget, then that shall become the budget for the
 23 district.

24 Sec. 10. At the time of deciding to submit a
 25 budget to an election, the governing board shall, by
 26 resolution, show the following information: (1) The
 27 amount of the previous year's budget; (2) the allowable
 1 increase in such budget under this act, both as to
 2 percentage and dollar amount increases; (3) the dollar
 3 amount of increase above the limitation provided in
 4 sections 2 to 7 of this act sought to be approved in the
 5 election; and (4) the intended use of the funds which are
 6 in excess of the allowable increase under section 5 of
 7 this act."

State Civil Defense Agency

Lincoln, Nebraska 68508

17 May 1973

MEMO FOR: Governor Exon
FROM: Burl Johnson
RE: Platte River

We completed an air recon of entire Platte, North & South Platte Rivers yesterday.

North Platte River still bank full – but no visible problems.

South Platte. Still lowland flooding at Big Springs. High water but no flooding elsewhere.

Platte. At Brady the Department of Roads now repairing cuts in highway. Flood waters gradually receding.

The crest front is at Grand Island and waters are very high from North Platte down. Water is in channels near Grand Island.

Reservoirs in Wyoming near full. Well into flood pool at Glendo and Corps of Engineers anxious to begin releasing. The Laramie input now down substantially (2,500 CFS). At the state line the flow will be up to 6,000 CFS (or bank full). McConaughy still storing and only 180,000 acre feet below capacity (increase in storage was anticipated after 15 May).

We will now conduct from Lincoln, air recon twice per day, covering the 60 mile long flood crest and the down river stretch. We expect to continue this through Tuesday, 22 May.

No further problems anticipated, unless it rains. There will be a cumulative effect, however, of the continued high water. Farm interests along the Platte will become increasingly irritated at the continued high waters. There will also be an increasing concern about mosquitoes along the river, however, I do not anticipate emergency fund requests for this purpose. Health Department has been advised.

LEGISLATIVE JOURNAL

**EIGHTY-THIRD LEGISLATURE
FIRST SESSION**

EIGHTY-SIXTH DAY

Legislative Chamber, Lincoln, Nebraska
Friday, May 18, 1973

Pursuant to adjournment, the Legislature met at 9:02 a.m., President Marsh presiding.

PRAYER

The prayer was offered by Dr. Edward L. Jeambey, Assistant Pastor, Westminster Presbyterian Church, Lincoln.

Eternal and Almighty God--the Creator and Sustainer of us all: Help us to meet those conditions that enable us to possess a closer relationship with Thee. Help us to be peacemakers for Thou didst say: "Blessed are the peacemakers, for they shall be called the children of God." As peacemakers may we rise from creatures of God to sons of God. Thou didst also say: "Except ye be converted, and become as little children, ye shall not enter into the kingdom of heaven". May we humble ourselves as little children that we might become great in Thy sight and great in the Divine kingdom, and so be equipped to do our duty on earth with efficiency, and excellence. Guide and direct us in the affairs and deliberations of the day, and may the conclusions we reach be satisfactory to the claims of righteousness and justice.

Help us, O Lord, to make good grades in our work during the hours of this day. In our Divine Redeemer's name we pray. Amen.

ATTORNEY GENERAL OPINION

Opinion No. 55
May 18, 1973

Senator Richard Maresh
Nebraska State Legislature
State Capitol
Lincoln, Nebraska

Dear Senator:

On 11 May 1973 Senator Burbach offered the following amendment on that date to L. B. 472:

“(1) In addition to the amounts specified in section 3 and 4 of this act, an additional amount shall be appropriated by the legislature to provide assistance to those school districts who, because of their unique geographic and demographic

characteristics, have a high cost per pupil, but receive very little state aid. This additional aid shall be provided to such school districts only if their current operating expenditures for the preceding year exceeded \$1,000 per pupil and the school district offered instruction in grades K-12.

“(2) The State Department of Education shall establish rules and regulations for the distribution of the funds provided for in this section. The Department of Education shall consider such factors as: (a) Valuation per pupil (b) student teacher ratio (c) local effort and (d) other sources of assistance available.”

This letter is in response to your request for our opinion on the constitutionality of the above quoted amendment. In connection therewith we note that the amendment declares that the Legislature shall appropriate additional financial assistance to those school districts who, “because of their unique geographic and demographic characteristics, have a high cost per pupil, but receive very little state aid.” We also note that the amendment does not declare what constitutes “unique geographic and demographic characteristics” nor does it define what constitutes “a high cost per pupil” nor does it define what constitutes “very little state aid.” To supply such defects requires legislation. In such cases it is well settled law that where a legislative act is incomplete, so that it cannot be complied with without additional provisions that are not indicated by the act itself, the courts cannot supply such defects so as to give constitutional validity to the act. *State v. Reneau*, 75 Neb. 1, 106 N. W. 451 (1905). Consequently we are of the opinion that the constitutionality of Senator Burbach’s amendment to L. B. 472 on 11 May 1973 would be very difficult, if not impossible, to defend.

Very truly yours,

CLARENCE A. H. MEYER
Attorney General

MESSAGES FROM THE GOVERNOR

May 17, 1973

Mr. Vince Brown
Clerk of the Legislature
State Capitol Building
Lincoln, Nebraska

Dear Mr. Brown:

We have received Engrossed Legislative Bills Nos. 311 and 484.
These Bills were signed by me on May 17, 1973 and delivered to the Secretary of State.

Very truly yours,

(Signed) J. James Exon
Governor

JJE:fw

May 18, 1973

Mr. President, Mr. Speaker,
and Members of the Legislature
State Capitol Building
Lincoln, Nebraska

Dear Mr. President and Senators:

In the past few days, there have been amendments to LB 582 by Senator Carpenter and Senator Marvel to prevent the Department of Administrative Services from accepting competitive bidding on computer services for the State of Nebraska.

I wish to alert the Senators and your constituents to the fact that the acceptance of such amendments would lock in the state of Nebraska to one supplier and one supplier only, International Business Machines, for such equipment that presently costs the taxpayers of Nebraska approximately \$1.5 million per year.

While such amendments would be good for IBM, it would thwart the competitive bidding process and prevent the state from accepting lower bids for such equipment and services.

As you know, we now have an independent group of computer experts from outside Nebraska, recommended and supplied by the Council of State Governments, to review our computer arrangements and to recommend any possible changes and what the best bid might be.

With the staunch opposition of Senator Marvel and Senator Carpenter, the administration has offered bids for computer services, and we have bids from three recognized leaders in the industry. These firms include International Business Machines, the Honeywell Corporation, and Univac. The administration certainly has not ruled out the possibility that International Business Machines will proceed with their services to the State of Nebraska, and we were pleased to note that their bid to the Department of Administrative Services was several hundred thousand dollars less per year than presently charged. It is our feeling that the experts by the completely independent and neutral source, the Council of State Governments, are far better equipped to make recommendations on computer requirements and competitive prices to the State of Nebraska than either Senator Marvel or Senator Carpenter, the latter of whom has admitted on the Legislative floor that he knows nothing whatsoever about computers and their uses.

I urge caution in accepting the amendments of either Senator Carpenter or Senator Marvel in this area.

Yours very truly,

(Signed) J. James Exon
Governor

UNANIMOUS CONSENT—Print in Journal

Mr. Marvel asked unanimous consent to have the following letter from the Governor printed in the Journal at this time. No objections. So ordered.

May 16, 1973

The Honorable Richard F. Proud
Speaker of the Legislature
State Capitol
Lincoln, Nebraska

Dear Senator Proud:

I appreciate the support of several Senators concerning offers of assistance in regard to the Emergency Fund.

With the expenditures we have authorized in regard to the present flooding on the Platte, I recommend that the Legislature reappropriate the unexpended balance in the Emergency Fund for fiscal year 1972-73.

This coupled with my budget recommendations will allow a fund of approximately \$500,000 for emergency expenditures. This will not be expended unless a real emergency should occur.

Yours very truly,

(Signed) J. James Exon
Governor

ATTORNEY GENERAL'S OPINIONS

Opinion No. 56
May 21, 1973

Senator Glenn A. Goodrich
Nebraska State Legislature
State Capitol
Lincoln, Nebraska

Dear Senator:

In your May 17 letter you ask several questions regarding approval by the Legislature of appointments made by the Governor. The questions arise because the constitutional provisions relating to this subject were extensively revised by amendments proposed by the 1972 Legislature and adopted by the people at the 1972 general election.

Our reply will relate solely to the office of member of the Board of Trustees of the Nebraska State Colleges, because of the particular factual situation relating to that office. Different conclusions could apply to other offices, and a number of years and court decisions will probably intervene before all of the effects of this constitutional amendment are known.

The terms of members of the Board of Trustees begin on January 1, and that particular date usually falls on a day when the Legislature is not in session, since its meetings commence "on the first Tuesday in January of each year." Therefore this particular appointment comes within that part of the amended section 12 of Article IV of our Constitution which provides: "If the Legislature is not in session, the Governor shall make a temporary appointment until the next session of the Legislature, at which time a majority of the members of the Legislature shall have the right to approve or disapprove the appointment."

Prior to the amendment, approval of appointments to this office were covered by the old section 11 of Article IV, which provided: "In case of a vacancy during the recess of the senate, in any office which is not elective, the governor shall make a temporary appointment until the next meeting of the senate, when he shall nominate some person to fill such office; and any person so nominated, who is confirmed by the senate, (a majority of all the senators elected concurring by voting yeas and nays), shall hold his

office during the remainder of the term, and until his successor shall be appointed and qualified." (See, State ex rel Johnson v. Hagemester, 161 Neb. 475).

Reference to the underlined language in the preceding paragraphs makes it clear that the 1972 amendments incorporated some entirely new and different language with respect to appointments. Our Court has said that "if a subsequent act on the same or a similar subject uses different terms in the same connection, a court must presume that a change in the law was intended," and that, "Where a law is amended or reenacted in different language, it will not be presumed that the difference was due to oversight or inadvertence by the Legislature, but it will be presumed that the language was intentionally changed to effect a change in the law itself." (Ledwith v. Bankers Life, 156 Neb. 107; Hills v. Burnett, 172 Neb. 370). Such rules are generally equally applicable to the interpretation of constitutional changes.

Under the new language, the Legislature has the right to "approve or disapprove" the appointment. If a majority of the members vote to approve, that is an end of the matter. If the motion is to approve and it does not receive the necessary majority, you have neither approved nor disapproved, because the constitutional language now in force says that a majority of the members shall have the right to approve or disapprove. If the motion is to disapprove, and it does not receive a majority, the Legislature has not disapproved him. If no further action is taken after the failure of a motion to disapprove (or after the failure of a motion to approve), then it is our view that the appointee will serve until the end of the term for which he has been appointed, because the new language in the constitution is that the appointment is "until the next session of the Legislature, at which time" you have the right to approve or disapprove. If the Legislature does not exercise that right during the time specified, we do not believe it can leave the matter undecided until subsequent sessions, and thus leave the appointee in doubt throughout the rest of his term.

In preparing this opinion, we have not overlooked the provisions of section 13 of Article VII of our Constitution. That section does not deal with the procedure to be followed by the Legislature. Procedure is covered by the amended sections in Article IV, as discussed above.

Very truly yours,

Attorney General

Opinion No. 57
May 21, 1973

Senator Glenn A. Goodrich
State Capitol Building
Lincoln, Nebraska

Dear Senator Goodrich:

Your inquiry to this office deals with the question of the constitutionality of L. B. 315 pending before the Eighty-Third Legislature, First Session, and the further question of a definition of Law Enforcement Officer.

Although we believe that the concept of prohibiting law enforcement officers from being a licensee under the liquor control act is constitutional, L. B. 315 in its present form would be difficult to defend on the grounds of constitutionality.

The present liquor control act, section 53-110 and 53-111, R.R.S., 1943, provides that no commissioner, inspector or employee shall directly or indirectly have any interest in the manufacture, sale or distribution of alcoholic liquor, nor receive any compensation or profit therefrom; and in 53-111, it prohibits the accepting of emolument or employment by the liquor commission or its employees. State ex rel Beck v. Young, 154 Neb. 588, 48 N. W. 2d 677; State ex rel Meyer v. Sorrell, 174 Neb. 340, 117 N. W. 2d 872.

Section 53-125, R.R.S. 1943, provides for those persons to whom no license may be issued.

In American Jurisprudence Vol. 45 2d section 147 page 593, 594, it is stated:

No one has an absolute or inherent right to a license to sell intoxicating liquor, the right to sell intoxicating liquor not being one of the privileges or immunities of a citizen of the United States. The issuance of a license to sell intoxicating liquor is a matter, not of right, but purely of legislative grace, and may be extended, limited, or denied without violating any constitutional right. Legislatures may lawfully grant the right to engage in the liquor traffic to a certain class or classes of persons and withhold it from all others, and no person may complain because liquor legislation has denied him the privilege of engaging in the liquor traffic, at least so long as he has not been arbitrarily discriminated against. Moreover, the legislative power of discrimination as between persons who may be permitted to sell intoxicating liquors is much broader than in case of callings less potentially harmful to the public, and legislation setting forth requirements for liquor licensees is not objectionable because persons pursuing other occupations are subjected to different requirements.

In the exercise of its power to regulate the liquor traffic, a state may prescribe reasonable qualifications for holding a liquor license or permit. Applicants for liquor licenses must meet valid qualifications prescribed by statute and by rules and regulations of the licensing authorities. They are generally required to meet specified qualifications as to citizenship and residence, moral character, age, and sometimes as to sex. Some statutes also limit the right to sell intoxicating liquors to qualified electors, and forbid the issuance of liquor licenses to employees of the state or political subdivisions thereof. * * *

In Marcus v. State, Okl. 411 P. 2d 539; the constitution of the State of Oklahoma and a state statute provided that agents or employees of state or any political subdivision thereof could not engage in any phase of alcoholic beverage business. The statute and that part of the state constitution were attacked on the grounds that they were discriminatory and violated the fourteenth amendment to the United States Constitution in that it deprived the applicant of equal protection of the law by prohibiting the engagement in the liquor business and that it was an unreasonable exercise of its police power.

The Oklahoma supreme court quoted from various legal texts and from several cases and held that a legislature and a state constitution may lawfully grant right to engage in traffic of liquor to certain class or classes of persons and withhold it from others, and no person may complain because liquor legislation has denied him privilege of engaging in liquor traffic.

We can find no definition of law enforcement officer in the statutes. In section 49-801 R.R.S., 1943, there is a definition of "peace officer" which states as follows.

* * *(17) Peace officer includes sheriffs, constables, coroners, jailers, marshals, policemen, state highway patrolmen, members of the National Guard on active service by direction of the Governor during periods of emergency, and all other persons with similar authority to make arrests.* * *

One immediate problem with the definition of peace officer is for the national guardsman who holds a liquor license and is then called on active service by the Governor, does he become ineligible and lose his license; also the phrase "and all other persons with similar authority to make arrests", does this mean private investigators, private store security policemen, are they ineligible to hold a license.

In Frazier v. Elmore, 173 S. W. 2d 563, 180 Tenn. 232, peace officer was the same as law enforcement officer whose duty it is to preserve the peace. But in People v. W., 249 N. E. 2d 882, 24 NY 2d 732, 302 N. Y. S. 2d 260, a probation officer is a peace officer but he is not a law enforcement officer. In People v. Cheatham, 69 Cal. Rpts. 679, 263, C.A. 2d 458, a statute permitting private citizens arrests do not turn the person

into a law enforcement officer.

As the impact of the bill is to prohibit the holding of a license and is criminal in nature by imposing a fine up to one thousand dollars we believe that the term "law enforcement officer" is too ambiguous and lacks clear meaning. Likewise the word "interest" has many meanings depending upon the type of law it relates too, as money interest, rate of interest, family interest, legal interest, beneficial interest, percentage of interest.

A statute, to be valid, must not be vague, indefinite and uncertain. It must be sufficiently explicit to advise those whom it purports to affect as to what their rights are and how they will be affected by its operation. Statutes which are so incomplete, vague, indefinite and uncertain that men of ordinary intelligence must necessarily guess at their meaning and differ as to their application, will not be upheld by the Courts. State v. Nelson, 168 Neb. 394, 399, 95 N. W. 2d 678; State v. Pocras, 166 Neb. 642, 645, 90 N. W. 2d 623:

Opinion No. 58
May 21, 1973

Honorable Thomas C. Kennedy
Nebraska State Senator
State Capitol Building
Lincoln, Nebraska

Dear Senator Kennedy:

You have requested our opinion concerning the legal status of L. B. 587. The bill generally would prohibit discrimination, by a motor vehicle fuel producer, refiner, manufacturer, or compounder, among its various retail outlets. Our analysis follows.

Sec. 1 of this bill prohibits discrimination, by a petroleum manufacturer, between independent firms and its own outlets and affiliates. We are of the opinion that the states may enact laws to prohibit discrimination among competitors, where that discrimination does not involve refusals to deal, which separate problem is discussed, infra.

There is, of course, a serious question concerning the definition of "discrimination," as that term is used in Sec. 1. There are many types of discrimination--price, service, rebate, etc. There are many reasons for price discrimination--to harm a competitor, to meet the localized price of a competitor, etc. Sec. 1 prohibits all discrimination, regardless of the circumstances. In our opinion, Sec. 1 would be subject to arguments that the section is vague and overbroad, and would be difficult to defend on constitutional grounds. See, *Blue Flame Gas Association v. McCook* P. P. Dist., 186 Neb. 735, 186 N. W. 2d 498; and *Central Markets West, Inc. v. State*, 186 Neb. 9, 180 N. W. 2d 880.

Sec. 2 expressly includes, among those protected "independent firms," those who have had a course of dealing, within one year prior to the date of the act, with the supply source, where that supply source has dealt with both independents and affiliates. Sec. 2 further provides that the supply source must continue to offer fuels to the independents, without price discrimination unless not cost-justified. In the event of a shortage of fuels, the supply source is required to apportion among all its customers.

Thus, Sec. 2 denies to fuel supply sources the right to refuse to continue dealing, with competitive customers, regardless of the reasons for such refusal (although Sec. 3 permits a refusal to continue to deal where the customer has failed to pay for prior purchases). A long established principle of anti-trust law is that a businessman is at liberty to refuse to deal with any person, regardless of his reasons therefor. See *Cooley on Torts*, p. 278, quoted in *Great Atlantic & Pacific Tea Co. v. Cream of Wheat Co.*, 227 F. 2d 46, 48 (CCA 5th, 1915); and *Barish v. Chrysler Corp.*, 141 Neb. 157, 3 N. W. 2d 91.

Many recent cases have, however, limited this right of refusal to deal. See, e.g., *United States v. Parke, Davis & Co.*, 362 U. S. 29, 4 L. Ed. 2d 505, 80 S. Ct. 503. In *Parke-Davis*, the court found a vertical conspiracy (between the manufacturer and certain of its customers) to fix prices, with the manufacturer refusing to deal with customers who did not follow the fixed-price schedules. The court held that where the price conspiracy itself was illegal, the weapons used to enforce the structure (e. g., the refusal to continue to deal) was illegal.

In *Simpson v. Union Oil Co.*, 377 U. S. 13, 12 L. Ed. 2d 98, 84 S. Ct. 1051, the court held to be a violation of anti-trust laws, certain "consignment agreements which were used by the fuel manufacturer as a vehicle for resale price maintenance, with a refusal to deal with consignees who failed to follow the established resale price schedule.

On the subject of refusals to deal, generally see Callmann, *The Law of Unfair Competition, Trademarks and Monopolies*, sec. 37.1-37.2, Vol. 2, p. 87-107. Callmann suggests that refusals to deal will be permitted if they are "reasonable."

In summary of the above, it is our opinion that the Legislature may not unreasonably restrict the businessman's right to refuse to deal. Sec. 2 of the subject bill is not so limited, but attempts to strike down all refusals by certain petroleum suppliers. Nor do we find any cases which suggest that the manufacturer's practical inability to supply all its customers

would not be a reasonable basis for a refusal to deal with some of them.

In summary of the above, it is our opinion that L. B. 587, Nebraska Legislature, 83rd Legislature, 1st Session (1973) would be difficult to defend on constitutional grounds.

Opinion No. 59
May 22, 1973

Senator George Syas
Nebraska State Legislature
State Capitol Building
Lincoln, Nebraska

Dear Senator Syas:

You have inquired if the Legislature can constitutionally provide a "different method of nominating and electing school boards in a Class III district that is within the confines of a metropolitan city and different laws that apply to Class III school districts that are outside a metropolitan city?" The same is hereinafter discussed.

Historically, the bulk of all statutory law was concerned with private or local matters. Indeed, some legal commenators have said that the private legislation originated in the dawn of parliamentary history. In colonial America it was the chief concern of legislators and it became increasingly prevalent in state assemblies during the early years of the 19th century. It became a concern because of certain matters which attended the growth of this type of legislation. Chiefly, it was said that the time spent in enacting special laws made it impossible for a legislature to give sufficient attention to matters of general concern. As a result, many states (including Nebraska), have embodied in their state constitutions certain prohibitions against special legislation. It is to be observed that Section 18 of Article III of the Constitution of Nebraska not only prohibits special or local legislation in certain specific situations but it also provides that "In

all other cases where a general law can be made applicable, no special law shall be enacted."

Judicial interpretation of the above cited constitutional provision has removed most, if not all, ambiguity. The variety of legislative classifications which have been sustained as general laws is almost infinite. A group of cases of particular importance is that permitting the classification of municipalities and other governmental subdivisions on the basis of population. The Legislature, by using the legal device of classification, has been able in numerous instances to constitutionally enact certain measures which, though in fact operating only in certain cities or counties have been sustained by the Supreme Court of Nebraska as general laws. However, such laws, to be valid, must be general in form. In addition, provisions must be made for other governmental or political subdivisions, as the case may be, to come within the class designated. Furthermore, the legislative classification must be reasonable in order to be valid. Beyond that, it is difficult to state precise rules.

Obviously each legislative act must be judged on its own facts. In general, however, we are of the opinion that the Legislature can constitutionally enact a method of nominating and electing school boards in a Class III school district that is within the confines of a metropolitan city and can constitutionally enact a different method of nominating and electing school boards in a Class III school district whose territorial boundaries lies outside the confines of a metropolitan city provided any such legislation is within the spirit and meaning of the above stated rules.

Very truly yours,

CLARENCE A. H. MEYER

Memo For: Governor Exon
Re: Flood Report
From: State Civil Defense Agency

1. Overall river conditions on the North and South Platte and eastward on the main body of the Platte remain essentially the same as yesterday. River levels have changed very little.

2. The original large crest which flowed down the South Platte is now flowing into the Missouri, which has reported a slight rise, but which is forecast to return to normal level within 36 hours.

3. A key factor on the North Platte continues to be at Glendo Reservoir, which is continuing to hold about two-thirds of its inflow, and letting out about one-third. This is maintaining the flow at Henry (State Line) at a level which raised the level only .06'' since yesterday. However, Glendo's capacity is 795,196 acre feet and the present level is 723,621 a.f. This represents an increase of approximately 15,000 a.f. since yesterday.

4. It is hoped that, in the absence of heavy precipitation above McConaughy, the river will be lowered sufficiently in the next four or five days to increase the outflow from Glendo to keep from reaching full capacity at the reservoir.

ATTORNEY GENERAL'S OPINION

Opinion No. 60
May 23, 1973

Senator David H. Stahmer
Nebraska State Legislature
State Capitol Building
Lincoln, Nebraska 68509

Dear Senator,

Your May 16 letter asks concerning the constitutionality of L. B. 533 "in the form it was advanced from General File to E & R Initial." Your specific interest concerns the "legality of having two types of governing boards, namely the type of organization for six of the districts that will be area districts, as compared with the organization of the governing board of the Omaha Technical Community College." In this reply we will necessarily confine ourselves to your specific question because of time limitations.

The concern appears to be with section 18 of Article III of our Constitution which deals with special legislation. That section prohibits special legislation in certain enumerated areas which are not involved here, and then concludes by providing that, "In all other cases where a general law can be made applicable, no special law shall be enacted." So in the present situation a determination must be made as to whether it is in fact special legislation, and if it is, is it justified under the guidelines provided by decisions of our Court.

To make the necessary determination, it is necessary to look at two sections of the bill. The first of these deals with dividing the entire state into seven technical community college areas. The boundaries of all but one of the areas are defined in terms of a combination of county boundaries, school district boundaries and precinct boundaries, but the seventh area is defined as comprising the area encompassed by Omaha School District Number One. We do not believe that the mere fact that one of the areas is defined in terms of a single school district would support a claim that division of the state in this manner constitutes special legislation. It seems most likely that there would be facts in the possession of the Legislature which would justify division of the state in this manner, including such factors as population, available educational resources and facilities, and community needs.

The second section involved could cause some concern because in each of the first six areas there is provision for election of an area board from among residents of each of those areas, but in the case of the seventh area it is provided that, "The technical community college board for the Omaha Nebraska Technical Community College Area shall be the board of education for the Class V school district whose territory comprises the technical community college area."

We conclude that this feature of the bill does not constitute "special legislation." Obviously the Legislature could not have made this a general provision, applicable to the other six areas as well. The seventh area is the only one in which a single public school board operates throughout the identical territory comprising the technical community college area. If at some future date the Legislature should decide to eliminate our existing school districts, and create only six districts coterminous with the other six technical community college areas, then a constitutional problem might arise if the same boards did not govern the schools and the colleges.

Our court has said that legislation applicable alone to a portion of the state is not for that reason forbidden by the Constitution, when there is a reasonable relation between the objects of the legislation and the area to which is applicable. In the situation now before you, the Legislature may well have information and facts available to it which in its judgement justify a determination that a school board is peculiarly suited to governing the affairs of this type of college. In this connection it must be kept in mind that our Court has taken the position in a number of situations that, "The power of classification rests with the legislature, and this power cannot be interfered with by the courts, unless it is clearly apparent that the legislature has by an artificial and baseless classification, attempted to evade and violate the provisions of the constitution prohibiting special and local legislation."

Undoubtedly there are arguments which could be advanced challenging the validity of L. B. 533 as special legislation, but in our view the legal arguments on the other side have the greater weight.

Very truly yours,

(Signed) Clarence A. H. Meyer
Attorney General

LEGISLATIVE BILL 526. E & R amendments found in the Journal on page 1756 for the Eighty-fifth Day were adopted.

Mr. Carpenter offered the following amendments:

1. On page 5, line 1, add a new section two as follows:

"Sec. 2. That section 77-2715.01, Reissue Revised Statutes of Nebraska, 2 1943, be amended to read as follows:

3 77-2715.01. (1) On or before ~~November~~ October 15 of each year, the
4 State Board of Equalization and Assessment shall set the rate of the income
5 tax imposed by section 77-2715 for the taxable year beginning in the sub-
6 sequent calendar year, and the rate of the sales tax imposed by subsection
7 (1) of section 77-2703 which will be effective from January 1 through
8 December 31 of the succeeding year.

9 (a) In fixing the rates, the State Board of Equalization and Assess-
10 ment shall first determine the status of all fixed obligations for the
11 biennium which must be financed from the receipts from the sales and use
12 taxes, the individual and corporation income and franchise taxes and other
13 miscellaneous receipts to the General Fund, from a certified statement of
14 all appropriations made by the most recent regular session of the Legis-
15 lature, which statement the Director of Administrative Services shall prepare
16 and furnish prior to the convening of such board.

17 (b) If the Legislature should meet in a special session during any
18 year, the board shall add to the appropriations as certified pursuant to
19 subdivision (a) of this subsection, the appropriation for the legislative
20 session, all miscellaneous claims, deficiency bills, and all emergency
21 appropriations.

22 (c) The board shall then determine the balance of the General Fund
23 at the beginning of the period under consideration and the estimated re-
24 ceipts to the General Fund from all sources other than the sales, use,
25 income, and franchise taxes for this period.

26 (d) The board shall then set the rates of the sales tax and income tax
27 so that the estimated funds available pursuant to subdivision (c) of this
28 subsection plus estimated receipts from the sales, use, income, and franchise
29 taxes will be not less than five per cent in excess of the appropriations as
30 determined pursuant to subdivisions (a) and (b) of this subsection.

31 ~~(e) The rates of the sales and income taxes shall be fixed so that~~
32 ~~the total sales and use taxes levied will as nearly as possible equal the~~
33 ~~total income and franchise taxes levied for the calendar year for which the~~
34 ~~rates so fixed will be effective.~~

35 ~~(f)~~ (e) For purposes of this subsection, total sales and use taxes
36 levied shall mean the total state sales and use tax liability of all tax-
37 payers for the relevant period minus total food sales tax credits attributable
38 to the same period. Total income and franchise taxes levied shall mean the
39 total state income and franchise tax liability of all taxpayers for the
40 relevant period, before deduction of food sales tax credits.

41 ~~(g)~~ (f) The sales tax rate so fixed by the board shall be an increment
42 of one half of one per cent, and the income tax rate so fixed shall be an
43 increment of one per cent.

44 (2) The board shall meet within thirty days after each special session
45 of the Legislature, and also within thirty days after receiving a report
46 from the Tax Commissioner that there have been significant changes in the
47 provisions of the Internal Revenue Code of 1954 and amendments thereto,

48 other provisions of the laws of the United States relating to federal in-
 49 come taxes, or the rules and regulations issued under such laws, and shall
 50 determine whether the rates for sales tax and income tax must be changed.
 51 In making such determination the board shall recalculate the requirements
 52 pursuant to the formula set forth in subsection (1) of this section, taking
 53 into consideration the appropriations for such special session, all miscellane-
 54 ous claims, deficiency bills, and all emergency appropriations.

55 In the event the board determines the rates must be changed as a result
 56 of such special session or as a result of a change in the provisions of the
 57 Internal Revenue Code of 1954 and amendments thereto, other provisions of
 58 the laws of the United States relating to federal income taxes, and the
 59 rules and regulations issued under such laws, such sales tax rate shall be
 60 made effective at the beginning of any calendar month within the current
 61 calendar year and such income tax rate shall be effective for the current
 62 taxable year."

2. Renumber original sections 2 to 7 as sections 3 to 8 respectively.

3. On page 21 after line 10 insert:

"Sec. 9. If any section in this act or any part of any section shall
 2 be declared invalid or unconstitutional, such declaration of invalidity
 3 shall not affect the validity of the remaining portions thereof."

SELECT FILE

LEGISLATIVE BILL 529. E & R amendments found in the Journal on page 1756 for the Eighty-fifth Day were adopted.

Mr. Warner offered the following amendments:

1. On page 58, after line 17, insert a new section as follows:

"Sec. 7. That section 77-2715.01, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

77-2715.01. (1) On or before November 15 of each year, the State Board of Equalization and Assessment shall set the rate of the income tax imposed by section 77-2715 for the taxable year beginning in the subsequent calendar year, and the rate of the sales tax imposed by subsection (1) of section 77-2703 which will be effective from January 1 through December 31 of the succeeding year.

Recognizing that an adequate cash flow is necessary to maintain the orderly implementation of various legislative acts, it is mandatory that the funding of those acts which have a fiscal impact beyond a current appropriations year be considered when setting the sales and income tax rates. Accordingly, the purpose of this subsection is to provide that the State Board of Equalization and Assessment shall set rates based on appropriations, and the express obligations of the Legislature for the two succeeding calendar years following the rate setting date. Such action will provide an adequate cash flow, and the orderly implementation of the funding of acts as intended by the Legislature, and will eliminate drastic fluctuations in the state sales and income tax rates.

(a) In fixing the rates, the State Board of Equalization and Assessment shall first determine the status of all ~~fixed~~ express obligations for the next two succeeding calendar years following the rate setting date, which must be financed from the receipts from the sales and use taxes, the individual and corporation income and franchise taxes and other miscellaneous receipts to the General Fund, from a certified statement of all appropriations, and express obligations for the next two succeeding calendar years following the rate setting date, made by the most recent regular session of the Legislature, which statement the Director of Administrative Services shall prepare and furnish prior to the convening of such board.

(b) If the Legislature should meet in a special session during any year, the board shall add to the express obligations as certified pursuant to subdivision (a) of this subsection, the appropriation for the legislative session, all miscellaneous claims, deficiency bills, and all emergency appropriations and express obligations.

(c) The board shall then determine the balance of the General Fund at the beginning of the period under consideration and the estimated receipts to the General Fund from all sources other than the sales, use, income, and franchise taxes for this period.

40 (d) The board shall then set the rates of the sales tax and income
 41 tax so that the estimated funds available pursuant to subdivision (c) of this
 42 subsection plus estimated receipts from the sales, use, income, and franchise
 43 taxes will be not less than five per cent in excess of the appropriations, and
 44 express obligations for the next two succeeding calendar years following the
 45 rate setting date, as determined pursuant to subdivisions (a) and (b) of this
 46 subsection. The purpose of this subdivision is to insure that there shall be
 47 maintained in the state treasury an adequate General Fund balance, considering
 48 cash flow, to meet the appropriations and express obligations as certified in
 49 subdivision (a) of this subsection.

50 (e) The rates of the sales and income taxes shall be fixed so that
 51 the total sales and use taxes levied will as nearly as possible equal the
 52 total income and franchise taxes levied for the calendar year for which the
 53 rates so fixed will be effective.

54 (f) For purposes of this subsection, total sales and use taxes levied
 55 shall mean the total state sales and use tax liability of all taxpayers for
 56 the relevant period calendar year minus total food sales tax credits attribut-
 57 able to the same period. Total income and franchise taxes levied shall mean
 58 the total state income and franchise tax liability of all taxpayers for the
 59 relevant period calendar year, before deduction of food sales tax credits.

60 (g) The sales tax rate so fixed by the board shall be an increment of
 61 one half of one per cent, and the income tax rate so fixed shall be an incre-
 62 ment of one per cent.

63 (h) For purposes of this section, express obligation shall mean an
 64 obligation which has fiscal impact identifiable by a sum certain or by an
 65 established percentage or other determinative factor or factors.

66 (2) The board shall meet within thirty days after each special session
 67 of the Legislature, and also within thirty days after receiving a report
 68 from the Tax Commissioner that there have been significant changes in the
 69 provisions of the Internal Revenue Code of 1954 and amendments thereto,
 70 other provisions of the laws of the United States relating to federal income
 71 taxes, or the rules and regulations issued under such laws, and shall deter-
 72 mine whether the rates for sales tax and income tax must be changed. In
 73 making such determination the board shall recalculate the requirements pursuant
 74 to the formula set forth in subsection (1) of this section, taking into con-
 75 sideration the appropriations and express obligations for such special session,
 76 all miscellaneous claims, deficiency bills, and all emergency appropriations.
 77 In the event the board determines the rates must be changed as a result
 78 of such special session or as a result of a change in the provisions of the
 79 Internal Revenue Code of 1954 and amendments thereto, other provisions of the
 80 laws of the United States relating to federal income taxes, and the rules and
 81 regulations issued under such laws, such sales tax rate shall be made effective
 82 at the beginning of any calendar month within the current calendar year and
 83 such income tax rate shall be effective for the current taxable year.”.

2. On page 58, line 19 strike “and”; after “77-2712,” insert “and
 77-2715.01.”.

3. Renumber original section 7 as section 8.

Pursuant to adjournment, the Legislature met at 9:02 a.m., President Marsh presiding.

PRAYER

The prayer was offered by the Chaplain.

Our heavenly Father, in this moment of prayer, when there is silence in this senate chamber, may there not be silence in Thy presence. May our prayers be heard.

May no short circuits be made by our lack of faith, our high professions joined to low attainments, our fine words hiding shabby thoughts, or friendly faces masking cold hearts.

Out of the same old needs, conscious of the same old faults, we pray on the same old terms for new mercies and new blessings. In the name of Christ our Lord. Amen.

POINT OF PERSONAL PRIVILEGE

PRESIDENT: Senator Carpenter, for what purpose do you rise:

SENATOR CARPENTER: A matter of personal privilege.

PRESIDENT: State your point, Senator.

SENATOR CARPENTER: Mr. President, I think this is quite important to you as members of this body. It's becoming accepted to a greater extent as time goes on that Senator Carpenter has everyone in this body afraid to the point of some kind of fear that I'm attempting, and do to some unknown degree, run this Legislature. I'd like to pose three questions. Number 1; those Senators who are in that category, if any, who are afraid of me because whatever unknown powers I might possess or not possess, are afraid of Senator Carpenter. Those who are in that category, I wish you'd stand up.

PRESIDENT: Senator Richendifer.

SENATOR RICHENDIFER: Mr. President, as a--being a member of the Four Horsemen, I'm definitely scared to death.

SENATOR CARPENTER: Well, will the Clerk record for the record that he is the only one who stood up and admitted that I had some strange power over him that he couldn't control. My friends, this is not asked in the degree of levity because it's not. This body has been put on an uncomfortable position by the words of others without only foundation of fact that many people are beginning to feel this is a fact of life in this Legislature. I know that it is not. I only wish that it was. Now the Number 2 question I would like to ask this body--how many Senators in this session has Senator Carpenter asked for your vote on anything? Will you please raise your hand? After all, if I have the power certainly I have to be effective to let you people know what I wanted. Will those Senators who I have asked as a personal request to vote for any bill that I have, will you raise your hand? I'd like to have the Clerk recall that there were none. Now let me say, if there are 25 members present this morning who feel that Senator Carpenter is somewhat of a detrimental influence on this body who really doesn't serve any good purpose and this body would be better off without him, I say and I would stand by it, if there are that number, I'll resign from this seat instantly. Those who might feel that, would you please stand? Now I'm not trying to embarrass you, this is important to both you and me. Let me say that I have, I presume, assumed those things which rightfully don't belong to me in the area only to attempt to expedite the business of this body and I can say to you honestly and sincerely, when I come back in January as I shall, the Lord willing, that I'm going to change my position. I'm going to change my activity, being that of a counterpuncher. I've been impressed by those who say they don't understand and I presume I'm one of those also. I think that from January on we have the responsibility to understand everything we do even though it might curtail the consideration of bills to the point, at least those we pass, we'll be able to say to our constituents, we understood it and to that extent I will dedicate myself to see that that happens. Thank you.

UNANIMOUS CONSENT—Member Excused

Mr. Whitney asked unanimous consent to be excused at 3:45 p.m. today. No objections. So ordered.

MESSAGE FROM THE GOVERNOR

May 23, 1973

Mr. President, Mr. Speaker,
and Members of the Legislature
State Capitol Building
Lincoln, Nebraska

Dear Mr. President and Senators:

Upon request from Senator Goodrich, I had delayed until this final day to act on LB 315.

Senator Goodrich had received an Attorney General's opinion indicating that there were potential constitutional questions in this act.

Senator Goodrich has reported to my office this afternoon that there seemed to be little support on the floor to recall this bill for further legislative consideration in spite of the Attorney General's opinion.

This is to advise you that I have therefore signed LB 315 into law as the Legislature has indicated by its original final vote of 33 to 11 on the measure.

You may wish to take possible corrective action on this measure in the next session.

Yours very truly,

(Signed) J. James Exon
Governor

SELECT FILE

LEGISLATIVE BILL 10. Mr. Warner offered the following amendments:

- 2 1. Strike sections 1 and 2 and insert:
 3 "Section 1. That section 77-2715.01, Reissue
 4 Revised Statutes of Nebraska, 1943, as amended by section
 5 7, Legislative Bill 529, Eighty-third Legislature, First
 6 Session, 1973, be amended to read as follows:
 7 77-2715.01. (1) ~~On~~ Except as provided in
 8 subsection (3) of this section, on or before November 15
 9 of each year, the State Board of Equalization and
 10 Assessment shall set the rate of the income tax imposed
 11 by section 77-2715 for the taxable year beginning in the
 12 subsequent calendar year, and the rate of the sales tax
 13 imposed by subsection (1) of section 77-2703 which will
 14 be effective from January 1 through December 31 of the
 15 succeeding year.
- 16 Recognizing that an adequate cash flow is
 17 necessary to maintain the orderly implementation of
 18 various legislative acts, it is mandatory that the
 19 funding of those acts which have a fiscal impact beyond a
 20 current appropriations year be considered when setting
 21 the sales and income tax rates. Accordingly, the purpose
 22 of this subsection is to provide that the State Board of
 23 Equalization and Assessment shall set rates based on
 24 appropriations and the express obligations of the
 25 Legislature for the two succeeding calendar years
 1 following the rate-setting date. Such action will
 2 provide an adequate cash flow, the orderly implementation
 3 of the funding of acts as intended by the Legislature,
 4 and eliminate drastic fluctuations in the state sales and
 5 income tax rates.
- 6 (a) In fixing the rates, the State Board of
 7 Equalization and Assessment shall first determine the
 8 status of all appropriations and express obligations for
 9 the next two succeeding calendar years following the
 10 rate-setting date which must be financed from the
 11 receipts from the sales and use taxes, the individual and
 12 corporation income and franchise taxes and other
 13 miscellaneous receipts to the General Fund, from a
 14 certified statement of all appropriations and express
 15 obligations for the next two succeeding calendar years

16 following the rate-setting date made by the most recent
17 regular session of the Legislature, which statement the
18 Director of Administrative Services shall prepare and
19 furnish prior to the convening of such board.

20 (b) If the Legislature should meet in a special
21 session during any year, the board shall add to the
22 appropriations and express obligations as certified
23 pursuant to subdivision (a) of this subsection, the
24 appropriation for the legislative session, all
25 miscellaneous claims, deficiency bills, and all emergency
26 appropriations and express obligations.

1 (c) The board shall then determine the balance of
2 the General Fund at the beginning of the period under
3 consideration and the estimated receipts to the General
4 Fund from all sources other than the sales, use, income,
5 and franchise taxes for this period.

6 (d) The board shall then set the rates of the
7 sales tax and income tax so that the estimated funds
8 available pursuant to subdivision (c) of this subsection
9 plus estimated receipts from the sales, use, income, and
10 franchise taxes will be not less than five per cent in
11 excess of the appropriations and express obligations for
12 the next two succeeding calendar years following the
13 rate-setting date as determined pursuant to subdivisions
14 (a) and (b) of this subsection. The purpose of this
15 subdivision is to insure that there shall be maintained
16 in the state treasury an adequate General Fund balance,
17 considering cash flow, to meet the appropriations and
18 express obligations as certified as provided in
19 subdivision (a) of this subsection.

20 (e) The rates of the sales and income taxes shall
21 be fixed so that the total sales and use taxes levied
22 will as nearly as possible equal the total income and
23 franchise taxes levied for the calendar year for which
24 the rates so fixed will be effective.

25 (f) For purposes of this subsection, total sales
26 and use taxes levied shall mean the total state sales and
27 use tax liability of all taxpayers for the calendar year
1 minus total food sales tax credits attributable to the
2 same period. Total income and franchise taxes levied
3 shall mean the total state income and franchise tax
4 liability of all taxpayers for the calendar year, before
5 deduction of food sales tax credits.

6 (g) The sales tax rate so fixed by the board
7 shall be an increment of one half of one per cent, and
8 the income tax rate so fixed shall be an increment of one
9 per cent.

10 (h) For purposes of this section, express
 11 obligation shall mean an obligation which has fiscal
 12 impact identifiable by a sum certain or by an established
 13 percentage or other determinative factor or factors.

14 (2) The board shall meet within thirty days after
 15 each special session of the Legislature, and also within
 16 thirty days after receiving a report from the Tax
 17 Commissioner that there have been significant changes in
 18 the provisions of the Internal Revenue Code of 1954 and
 19 amendments thereto, other provisions of the laws of the
 20 United States relating to federal income taxes, or the
 21 rules and regulations issued under such laws, and shall
 22 determine whether the rates for sales tax and income tax
 23 must be changed. In making such determination the board
 24 shall recalculate the requirements pursuant to the
 25 formula set forth in subsection (1) of this section,
 26 taking into consideration the appropriations and express
 27 obligations for such special session, all miscellaneous
 1 claims, deficiency bills, and all emergency
 2 appropriations.

3 In the event the board determines the rates must
 4 be changed as a result of such special session or as a
 5 result of a change in the provisions of the Internal
 6 Revenue Code of 1954 and amendments thereto, other
 7 provisions of the laws of the United States relating to
 8 federal income taxes, and the rules and regulations
 9 issued under such laws, such sales tax rate shall be made
 10 effective at the beginning of any calendar month within
 11 the current calendar year and such income tax rate shall
 12 be effective for the current taxable year.

13 (3) For the taxable year commencing January 1,
 14 1973, the individual income tax rate shall be thirteen
 15 per cent.

16 Sec. 2. That original section 77-2715.01,
 17 Reissue Revised Statutes of Nebraska, 1943, as amended by
 18 section 7, Legislative Bill 529, Eighty-third
 19 Legislature, First Session, 1973, is repealed.”

20 2. In the title, strike lines 2 to 6 and
 21 amendments thereto and insert:
 22 “FOR AN ACT to amend section 77-2715.01, Reissue Revised
 23 Statutes of Nebraska, 1943, as amended by
 24 section 7, Legislative Bill 529, Eighty-third
 25 Legislature, First Session, 1973, relating to
 26 taxation; to set the individual income tax
 27 rate for 1973; and to repeal the original
 1 section.”

The amendments were adopted with 25 ayes, 16 nays and 8 not voting.

Advanced to E & R for Engrossment with 25 ayes, 12 nays and 12 not voting.

ANNOUNCEMENT

Mr. Carpenter announced that the Executive Board would meet at 12:00 noon today for a short time.

MOTION—Return LB 587 to Select File

Mr. Kennedy moved to return LB 587 to Select File for the following specific amendment:

1. Strike sections 1 to 8 and insert the following:

"Section 1. For purposes of this act, unless the context

otherwise requires:

3 (1) Supplier shall mean any person who produces, refines,
4 manufactures, compounds, imports, or stores for use, sale, distribution
5 or delivery in the State of Nebraska any energy source.

6 (2) Energy source shall mean gasoline, fuel oil, natural gas,
7 propane, coal, special fuels, and electricity.

Sec. 2. The Legislature finds that Nebraska is now experiencing
2 an emergency situation in the area of energy sources and that the next
3 few months may be expected to pose threats of calamity to the economy
4 of the state. In view of the fuel crisis and the realization that the
5 loss of the independent dealer would drastically affect competition and
6 normal market conditions in Nebraska, it is the declared policy of the
7 Legislature that it is necessary to regulate and control the sale and
8 distribution of energy sources within the state for the purpose of avoid-
9 ing monopolistic advantages and unfair trade practices. Any supplier who
10 within one year prior to the effective date of this act has sold or
11 distributed any such energy sources within this state either wholly to
12 independent firms or partly by sale to independent firms and partly by
13 distribution through its own outlets or affiliated company or companies
14 shall continue to offer such energy sources for sale to independent firms

15 without price or terms discrimination except for actual differences in
16 cost. If any fuel shortage requires any such person to restrict the sale
17 and distribution thereof, the available supply shall be apportioned among
18 the independent firms and its own outlets or affiliates in the same
19 proportion during the period of shortage as such sales or distributions
20 were made during the period when such restrictions were unnecessary.
21 Any supplier shall keep in the state adequate records to establish
22 whether or not any violation of this act occurs. Such records shall be
23 available for inspection during regular business hours. This section
24 shall be operative for a period of one year commencing with the effect-
25 ive date of this act.

Sec. 3. The bona fide refusal to sell to any person for the reason
2 that payment for previous sales to such person has not been received with-
3 in such time period as has been established by any contract or previous
4 dealings between such supplier and person, shall not constitute a violation
5 of this act.

Sec. 4. Any violation or threatened violation of this act may be
2 enjoined in a suit by the administrator or by any person who has been
3 damaged by such violation, in the district court of any county in this
4 state in which such violation occurs or is threatened to occur or in the
5 district court of any county in this state in which the supplier has an
6 office or does business.

Sec. 5. If any supplier ceases to do business in this state as
2 a means of avoiding compliance with the provisions of this act, such per-
3 son shall not be permitted to conduct such business within this state for
4 a period of fifteen years. This section shall not apply for the first
5 five years that a person has commenced such business in the state.

Sec. 6. Any person damaged by any violation of this act may recover
2 his damages together with all costs, including a reasonable attorney's fee.

Sec. 7. The Tax Commissioner shall require from each
2 supplier any information pertaining to the supply and distribu-
3 tion of energy sources to be used within the state. The
4 information shall be furnished within the times specified by
5 the Tax Commissioner.

Sec. 8. For the six-month periods beginning on
2 April 1 and October 1 of each year, each supplier shall file
3 a statement which indicates any anticipated change in quantity
4 of energy sources which he will supply for such six-month
5 period. The statement shall be filed at least six months
6 prior to the beginning of any reporting period. If at any
7 time subsequent to filing the statement, the supplier receives
8 any additional information affecting the accuracy of the
9 statement, he shall amend the statement within fifteen days of
10 receiving such information. Included in the statement shall
11 be an explanation of the causes for the changes in the
12 distribution patterns.

Sec. 9. Any supplier who fails to furnish the
2 information required by this act shall be deemed guilty of a
3 violation of this act and be fined five hundred dollars for
4 each violation. Upon notice of a violation to the supplier,
5 he shall be fined the sum of fifty dollars per day until such
6 information is provided.

Sec. 10. All suppliers shall comply with the
2 guidelines established for the distribution of energy by the
3 federal government.

Sec. 11. The Tax Commissioner shall administer the
2 provisions of this act and shall promulgate the necessary
3 rules and regulations therefor.

Sec. 12. If any section in this act or any part of
2 any section shall be declared invalid or unconstitutional,
3 such declaration of invalidity shall not affect the validity
4 of the remaining portions thereof.

Sec. 13. Since an emergency exists, this act shall
2 be in full force and take effect, from and after its passage
3 and approval, according to law."

The motion prevailed with 27 ayes, 0 nays and 22 not voting.

I return herewith LB 246 without my signature and with my objections.

While some upward adjustment in salaries for some constitutional officers would be in order, it appears that a 66% jump in the salary of the

State Treasurer from \$15,000 to \$25,000, a 56% increase in the salary of the State Auditor and Secretary of State from \$16,000 to \$25,000, and 33% increase for the Attorney General from \$24,000 to \$32,500, are excessive.

Such salary increases for constitutional officers would place Nebraska considerably above both the national averages for such positions and far above the similar positions in our neighboring states. When we are attempting to fight inflationary pressures, the state should set a reasonably example.

It is well known that this bill was originally envisioned to raise the Governor's compensation 40% from \$25,000 to \$35,000, and when my objections were made known, the Governor's portion was eliminated. This has not changed my objections to such large increases.

We should be ever mindful that such substantial increases to only a few constitutional officers is not the only point. When such jumps occur, the assistants to such officials traditionally also receive large increases, and a chain reaction sets in. Therefore, I consider this action by the majority of the Legislature less than prudent.

It is my hope that this matter can be put over to the next session when more reasonable increases can be explored and possibly enacted.

Yours very truly,

(Signed) J. James Exon
Governor

Mr. Chambers asked unanimous consent to have the following letter printed in the Journal. No objections. So ordered.

May 25, 1973

Senator Ernest Chambers, Chairman
Military, Government & Veteran's Affairs Committee
Members of the Legislature
State Capitol
Lincoln, Nebraska

Dear Senator and Members of the Legislature:

My deputy, Ralph Englert, the local election officials and I wish to take this opportunity to express our appreciation to the Government Committee and the Legislature for the approval of the package of election bills during the 83rd Legislature, First Session.

These bills were important pieces of Legislation. Of even more importance is the fact that these election bills were approved by your body this session so that they can be properly implemented prior to the 1974 election year. This is a real asset especially to the local election officials.

I want to compliment the Legislature for its patience and understanding on these very difficult and complex matters. It is important to note that Nebraska has not had an election contest for some 25 years.

This is a real tribute to the Legislature for keeping election laws current with changing situations and consistent with court opinions. We are extremely proud of this Legislative body for their cooperation in this regard.

Respectfully submitted,

(Signed) ALLEN J. BEERMANN
Secretary of State

PRESIDENT SIGNS

While the Legislature was in session and capable of transacting business, the President signed the following: LR 84, LR 85, LB 485, LB 524, LB 533, LB 535, LB 536, LB 562, LB 557, LB 563, LB 563A, LB 581, LB 582 and LB 583.

RESOLUTION

LEGISLATIVE RESOLUTION 88.

Introduced by Burbach, 19th District.

WHEREAS, in 1965 this Legislature adopted Legislative Bill 125, amending Section 77-1226.02 of the Nebraska statutes to accord certain privileges to Nebraska citizens to induce them to warehouse in Nebraska; such 1965 act being designed to encourage and broaden Nebraska's economic base; and

WHEREAS, the Supreme Court of the State of Nebraska in a recent case interpretation of Section 77-1226.02 has stated that it recognized the 1965 intent of the Legislature, but in its opinion was unable to apply the amended language of said section in a form to comply with the legislative intent; and

WHEREAS, the import of this Supreme Court opinion tends to place taxing authority in the hands of parties outside government or its subdivisions, and permit these third parties to collect a fee for the privilege of utilizing the exemption of Section 77-1226.02; and it further appears from such court interpretation that the State of Nebraska is left in the position of discriminating against its own citizens in deference to foreign business storing merchandise in the State for later shipment to other states.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-THIRD LEGISLATURE OF NEBRASKA, FIRST SESSION:

1) That it is and was the view, intent and will of the Legislatures in this session and in the session of 1965, by the additions and deletions incorporated in Legislative Bill 125 to Section 77-1226.02, to provide two separate and distinct classes of bonded and licensed warehouses, one public and one private, for the storage of goods, wares and merchandise in this state that are in-transit or for shipment to final destination outside the state, and for exemption of such goods, wares and merchandise from ad valorem taxation in this state.

2) The Legislature has further clarified its view, intent and will expressed in the session of 1965 by the passage of Legislative Bill 534 in this session.

WHEREFOR, the Legislature points out to the citizens of Nebraska that the interpretation of the Supreme Court of Nebraska of Section 77-1226.02 creates an economic hardship on the citizens of the State of Nebraska, deprives them of equal treatment under the laws of the State of Nebraska, and places them in an unfair competitive position with their counterparts in the other states.

Mr. Burbach asked unanimous consent to consider LR 88 at this time. No objections. So ordered.

LR 88 was adopted with 28 ayes, 1 nay and 20 not voting.

EXPLANATION OF VOTE

Had I been present, I would have voted "Aye" on LR 23 LB 552, LB 553, LB 554, LB 555, LB 556, LB 558, LB 560, LB 561, LB 149, LB 550, LB 559, LB 577, LB 544, LB 545, LB 549, LB 579, LB 134 and LB 236 on final reading.

EIGHTY-THIRD LEGISLATURE
FIRST SESSION

NINETIETH DAY

Legislative Chambers, Lincoln, Nebraska
Friday, June 1, 1973

Pursuant to adjournment, the Legislature met at 9:02 a.m., President Marsh presiding.

PRAYER

The prayer was offered by the Chaplain.

For the infinite variety of circumstances and situations, of issues and events, of joys and sorrows, which have marked the pathway from where we were at the start of this Session, to the place where we find ourselves this morning. . . .

For the sheer privilege of having been brought together from our widely differing backgrounds and areas as members of one family in this House. . . .

for those occasions when we have been able to see beyond our differences of opinion and political philosophy, and unite behind purposes which are larger than we are, and advance causes which are destined to outlive us. . . .

for whatever use You have been able to make of us in serving the needs of others. . . .

for the courage we have experienced in moments of heat and tensions really to believe that what helps people is always right, and for anything and everything that has happened during this Session to translate that conviction into action. . . .

for the record, good and not so good, to which we now may point with satisfaction, or criticize as less than satisfactory. . . .

for those who have worked among us in committee and caucus, or quietly behind the scenes in less obvious roles to help the machinery of this House and this State to move on, as for families back home who have continued to support us when things have not gone smoothly.

for the inner satisfaction we feel that we have been part of some things happening for good in our time, as for the penitence we feel that we could not have done more, that we did not do better. . . .

1934

LEGISLATIVE JOURNAL

for friendships we have formed here with each other, and with others, which will continue to have meaning and memory far beyond our associations here. . . .

for the uncertain future which lies beyond today's Session, and the continuing crises with which it will confront all of us, and for the continuing dedication and devotion it will inspire from all men of good will. . . .

for such things as these we pray in special thanksgiving at this day's beginning, which marks this Session's ending, O Lord our God. . . . Your love divine has led us in the past; in this free land, by You our lot is cast. Still be our Ruler, Guardian, Guide and Stay, Your word our law, Your paths our chosen way. Amen.

ROLL CALL

The roll was called and all members were present except Messrs. Clark and Waldron who were excused; Mr. Luedtke who was excused until he arrives.

Mr. President, Mr. Speaker,
and Members of the Legislature
State Capitol Building

Dear Mr. President and Senators:

I am returning herewith LB 236 without my signature and with my objections.

I am vetoing this bill because it greatly compromises our efforts to obtain a uniform and equitable pay and classification plan for the employees of Nebraska state government and would allow the continued widening of the gap between those with high and low salaries.

For all too many years, efforts to establish such a plan have failed for one reason or another. There have been gross inequities primarily affecting the average employees. We have now taken a step forward in insuring just and equal pay for state employees with the passage of LB 259 and LB 545. Let us not now dash those efforts just because a few college and University administrators wish the right to continue past policies which have proven unfair to lower paid workers.

Passage of LB 236 would greatly reduce the scope and extent of our success. In exempting the agencies listed therein, this bill removes some 5,700 positions from the standards established by the Nebraska Classification and Pay Plan. Most unfortunate is the fact that these are many of the very positions we should be continually striving to guarantee uniform pay and classification schedules. It should be understood that the personnel system does not direct itself to agency directors, college professors, and management people. It does affect clerks, secretaries, receptionists, and laborers, the very level of positions your honorable body has time and again recognized as being discriminated against in the application of annual salary increases. You recognized this in 1971-72 when you allowed an across-the-board increase of \$300 for each employee regardless of salary. You again made recognition of the disparity in annual salary increases by allowing \$200 plus 2½% in 1972-73. Both of these efforts were made for one purpose, giving the lower salaried people a greater increase than they would have received under the old system of a fixed percentage of increase.

In analyzing the effort of the classification and pay plan, it was determined that of the 13,772 filled positions in the fall of 1972, 9,102 were at a salary of \$7,000 or less per annum. Since nearly all of the 5,700 positions affected by LB 236 fall within that range, this bill in effect removes about 60% of that very group we have tried so hard to protect.

Some of the agencies affected by this bill have stated that they have every intention of following the pay plan even though they are not required to do so. If that be the case, why not require it?

In 1970, the Supreme Court held that the Legislature could adopt whatever spending limits it so desired. The question at that time involved the establishment of personal services ceilings within operational programs. The court held that the Legislature did in fact have complete authority in establishing such spending guidelines.

I am very concerned about the long-range effect of LB 236 if it becomes law. It would have a very demoralizing effect on those state

employees losing their last chance on employment equity. Such passage will revert 5,700 positions back to the multiple standards which have existed in the past. I think you will agree that we cannot allow that to happen.

Dear Mr. President and Senators:

I wish to advise that on Friday last, I have reluctantly signed into law LB 87 providing for the transfer of some \$384,000 of state highway construction funds to the counties for replacement of substandard bridges.

While doing this, the Legislature has provided no replacement funds to the state highway department and the construction program is therefore curtailed by this amount.

I also note that despite my request, LB 87 did not provide standby authority for this administration to issue up to \$10 million in highway construction bonds should some present unforeseen emergency occur.

Let the record show that despite my request, the Legislature failed to grant this standby authorization.

Mr. President, Mr. Speaker,
and Members of the Legislature
State Capitol Building

Dear Mr. President and Senators:

I return herewith LB 472 without my signature and with my objections. A prime factor in this decision is that this \$100 million plus state tax increase bill was amended, cleverly and without general knowledge of the public or presumably most Senators, to eliminate the key spending lid widely heralded by its principal proponents as guaranteeing long-term property tax relief.

I wish to advise your honorable body that I have signed into law LB 172 providing a \$20 million increase in state school aid and for some property tax relief. This bill employs Federal revenue sharing funds as I had suggested in two previous messages to you and is a proper use of such funds. Enactment of LB 172, while eliminating a chance at a reduction in the state sales tax from 2½ to 2% next year as I outlined as one possibility in my message of April 16, is legislation that will not cause an increase in state sales and income tax rates.

LB 472 is quite another matter and among its most obvious shortcomings are:

(1) A mandated 40% increase in the state sales tax and a 33% increase in the income tax next year.

(2) No spending limit whatsoever on school expenditures after the first two years. A review of past efforts to provide real property tax relief through increased state sales and income taxes for aid to education without enforceable spending limitations have proved futile.

(3) LB 472 as passed is a scheme to shift unfairly a large tax burden to the average and lower income Nebraskan to the benefit of the more affluent. The measure, for example, would provide that business and corporate interests would receive an average initial tax break of \$1.50 on property for every \$1.00 of increased

NINETIETH DAY—JUNE 1, 1973

1939

sales and income taxes paid while homeowners would pay increased sales and income taxes at the rate of \$2.00 for every \$1.00 in real estate savings.

(4) Unlike almost all other states enacting or considering property tax relief, the renter is required to pay more in sales and income taxes with no guarantee of even a penny in relief.

In any override attempt, the Legislature is being placed in a unique position Friday by the last minute parliamentary maneuverings of Senator Warner. You are being asked to cut the income tax rate two points from 15 to 13% retroactively rather than to accept my suggestion that such rates possibly be reduced by up to 5 points from 15% to 10% by the customary action of the State Board of Equalization this November. At the same time, the Legislature is being asked to raise the sales and income tax next year to fund LB 472. I hope that the Legislature will concur that reducing taxes this year while mandating a substantial increase next year is not in keeping with sound management of the state fiscal policies.

ATTORNEY GENERAL OPINIONS

Opinion No. 61
May 31, 1973

Senator Thomas C. Kennedy
Nebraska State Legislature
State Capitol
Lincoln, Nebraska

Dear Senator Kennedy:

You have inquired if a technical community college board has authority to sell real property upon which a structure has been constructed for resale by students as a part of their regular course of study. In connection therewith, you also ask for possible guidelines.

It is well settled law that school districts may contract only respecting objects and to the extent the laws permit. See, inter alia, *American Surety Co. of New York v. School Dist. No. 64 of Douglas County*, 117 Neb. 6, 219 N. W. 583 (1928). Consequently, we examined the several statutes pertaining to the operation of technical community colleges. Our examination, however, disclosed no authority whereby the board of a technical community college area could lawfully sell real property upon which a structure has been constructed for resale by students as a part of their regular course of study. Consequently we must conclude that community college boards are without authority to do so. If this property is to be sold, we suggest that appropriate legislation is needed. We would be most willing to work with you and the bill drafter in connection therewith.

Opinion No. 62
May 31, 1973

Senator Terry Carpenter
Nebraska State Legislature
State Capitol Building
Lincoln, Nebraska 68509

Dear Senator Carpenter:

In your letter of May 29, 1973, you ask some questions relating to L. B. 114 and to the present reading of some of the sections of the statutes which would be amended by L. B. 114. Some of the amendments made by L. B. 114 deal with procedural matters, and we will not discuss these matters, because we do not believe that this is what you are inquiring about.

Your first question is whether there are presently constitutional difficulties with Section 77-202.13(4), R. S. Supp., 1972. This provides for a homestead exemption in 1973 of the first 25 percent, and in 1974 and each year thereafter, the first 50 percent of the tax on the homestead of certain specified over-65, low income persons, but not to exceed a maximum exemption of \$125.00 in 1973 and \$250.00 in 1974 and each year thereafter. While there is a presumption of constitutionality of statutes passed by the Legislature, we feel that there may be some difficulty in defending the constitutionality of this provision, and the court could well hold it to be invalid.

Article VIII, Section 2 of the Nebraska Constitution provides in part:

“* * *. No property shall be exempt from taxation except as provided in the Constitution. The Legislature may by general law provide that a portion of the value of any residence actually occupied as a homestead by any classification of owners as determined by the Legislature shall be exempt from taxation.”

The question we have to answer is whether the language in the present statute complies with the homestead exemption language in the constitutional provision quoted above, as, if it does not, it is forbidden by the first sentence of the above quotation. The first thing that we note with respect to the present statutory language is that it provides for the exemption of a portion of the tax on the homestead, rather than upon a portion of the value of the homestead which is the language used in the Constitution. It can be argued that whether the exemption is a portion of the tax or a portion of the value is immaterial, and translates into the same result. However, this argument is considerably weakened by the provision for a maximum exemption of \$125.00 in 1973 and \$250.00 in 1974. It is readily apparent that the percentage of exemption is dependent upon the size of the mill levy where the homestead is located. If the homestead is located in an area where the mill levy is low, 25 percent of the tax might not amount to \$125.00, and therefore the exemption would be 25 percent of the tax, and hence, of the value of the homestead. On the other hand, in an area where the mill levy was high, 25 percent of the tax on a homestead of exactly the same value might amount to \$250.00, only \$125.00 of which would be allowable, and, in that situation, the exemption would amount to only 12½ percent of the value of the homestead.

What this amounts to, in effect, is classification of taxpayers on the basis of the size of the mill levy applicable to the property. The Constitution authorizes classification of owners as determined by the Legislature, but we believe that it is questionable whether the court would uphold classification based upon the size of the mill levy. For this reason we entertain some doubt as to the validity of the present statute.

L. B. 114 amends Section 77-202.13 to read in part as follows:

“All homesteads in this state shall be assessed for taxation the same as other property, except that there shall be exempt from taxation * * * (4) in 1973, the first ninety per cent of the first seventy-five hundred dollars of the actual value of any homestead, and in 1974 and each year thereafter the first ninety per cent of the first fifteen thousand dollars of the actual value of any homestead of persons qualifying under subdivision (4) of section 77-202.12. * * *.”

As you can see, this provision eliminates the constitutional objections we pointed out in connection with the present statute. This exemption would be based upon a percentage of the value of the homestead, rather than the amount of the tax, which is in strict compliance with the language of the Constitution, although, as we said, an exemption of a portion of the tax, without limitations, probably could be sustained. We do not believe that the limitation of the values to which the percentage shall be applied is subject to the same criticism as the limitation on the amount of tax. The classification under L. B. 114 is not based upon the size of the mill levy, but is uniform throughout the state, even though, of

NINETIETH DAY—JUNE 1, 1973

1943

course, the effect of the exemption will vary according to mill levy. This, however, would be true even if no dollar limitation were applied.

You also ask whether the passage of L. B. 114 would create any legal or constitutional problems that do not presently exist. We do not perceive any such problems, and believe that the provisions of L. B. 114 which we have discussed herein can be successfully defended.

Very truly yours,

STATE OF NEBRASKA
EXECUTIVE OFFICE
LINCOLN
PROCLAMATION

WHEREAS the Midwest is presently encountering a shortage of all types of fuel; and

WHEREAS at the present time such shortage can be alleviated only by a reduction in use of all types of fuel:

NOW, THEREFORE, I, J. James Exon, Governor of the State of Nebraska, call upon the citizens of Nebraska government, business, industry, and private citizens to consider implementing the following voluntary conservation measures to help curtail possible serious fuel shortages:

All home and building owners should maintain properly adjusted heating and cooling systems, inspect insulation to be certain of its adequacy, and whenever possible, reduce the use of electricity and air conditioning; and

Commuters should try to use mass transit or form car pools; and

Motorists should drive at lower speeds on high-speed roadways; accelerate slowly and smoothly from a start; drive at steady, moderate pace; turn off engine when stopped for more than a minute at bridges, train crossings, or in stalled traffic; keep engines properly tuned; properly inflate tires; consider the necessity of every trip; plan trips to reduce excessive mileage and driving; lighten cars by removing unnecessary weight from trunks, and limit the use of air conditioners and other fuel-consuming accessories; and

Commercial truckers should attempt to carry reasonable loads, use the most direct routes, and turn off engines when waiting in terminals or for periods of over a minute; and

Agricultural and commercial operations with private stocks of gasoline should guard against evaporation.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Great Seal of the State of Nebraska to be affixed.

DONE at the State Capitol, Lincoln, this 23rd day of May in the Year of Our Lord One Thousand Nine Hundred and Seventy-Three.

May 31, 1973

The Honorable Richard F. Proud, Speaker
and Members of the Legislature
Nebraska State Legislature
State Capitol
Lincoln, Nebraska 68509

Dear Mr. Speaker and Senators:

This is to inform your honorable body that I have today signed LB 256 with some objections which I am detailing herewith.

I have eliminated all funds for the Adult Evaluation Center, the two medium-minimum facilities and the Juvenile Diagnostic Center.

The only penal reform legislation affecting programs which was introduced this session was introduced at my request. Unfortunately, no program policies were passed and the only thing in this area enacted was massive and not well thought out new facilities construction.

It appears that the bricks and mortar approach has consumed the thinking of some. Furthermore, we had heard a great deal about the availability of federal funds for construction but in none of the appropriations are any federal funds other than revenue sharing used.

I have vetoed the above projects because they are more expensive than necessary, or as in the case of the Juvenile Diagnostic Center, totally unnecessary. Adequate facilities presently exist for juvenile diagnosis. May I refer you to my more reasonable and moderate constructive program and suggest that if you are truly interested in penal reform, you will next session pass both my program and construction recommendations. A key part of my suggestions was that we locate a single reformatory type facility halfway between Lincoln and Omaha. This would eliminate expensive duplication of staff.

At the University we have reduced the appropriation for a Life Science facility to the level of my original recommendation. There is no need for a totally new facility when a combination of new and a remodeled facility will serve just as well. We have also eliminated funds to demolish Stout Hall which had been put in as part of the expanded Life Science recommendation.

At UNO we left all the funds (totaling nearly \$6 million) added to my recommendation with the exception of funds for a central utility plant. This can be built with bonds and paid from the resultant operating savings. My actions have the approval of the UNO administration.

At Scottsbluff we left all additions in except land acquisition. Until a final determination is made on whether or not the state will acquire Hiram Scott, we should not purchase land since we would get a substantial amount of land with Hiram Scott if we eventually acquire it.

Finally, we have eliminated all revenue sharing fund support for recreational access roads. We have always maintained and still maintain that adequate cash funds exist for that purpose. As a matter of fact there is presently a balance of such funds available for construction.

All other funds added by your Appropriations Committee or by floor amendment have been left as you approved them.

I should also point out that passage of LB 256 with the above objections still makes a \$7.3 million commitment on the state in 1974-75 and a \$2.1 million commitment in 1975-76 in addition to the \$16.9 provided for 1973-74.

These figures are in addition to the appropriations for the field house and fairgrounds approved last year. Because of the large commitments in the future years extreme discretion and restraint will be required.

I hope that you will accept my reductions as a reasonable compromise between the levels of funding hoped for by each of us.

Respectfully submitted,

(Signed) J. James Exon
Governor

UNANIMOUS CONSENT—Print in Journal

Mr. Anderson asked unanimous consent to have the following printed in the Journal. No objections. So ordered.

June 1, 1973

The Honorable Gary Anderson
State Senator
State Capitol
Lincoln, Nebraska

Dear Senator Anderson:

Thank you for your letter of May 31, 1973.

Your efforts and inquiry as to my positions are appreciated. I salute your efforts in considering passage of sound legislation.

You are aware of my concern for passing measures that on one hand attempt to direct temporary tax decreases, while at the same time the Legislature is considering enactment of multi-million dollar expenditures that dictate tax increases. While there can be honest differences on what are proper expenditures, I believe we must act with prudence. I am not unalterably opposed to providing a retroactive income tax reduction from 15% to 13% to January 1, 1973, provided other legislative action squares with conservative decisions on spending matters.

A tax cut now of 2 percentage points, or my suggestion of a possible reduction of up to 5% by the State Board of Equalization for next year amount to irresponsibility, if we entertain a brief pause before the tax dam is broken and a new flood comes tumbling down on Nebraska sales and

income taxpayers. I have been fighting for three years to keep expenditures and taxes in line and I don't propose to give up now. My position then is that any decrease can be responsibly entertained, only if the legislature confirms my veto of LB 472, accepts the reductions in LB 256 and acts responsibly on other matters.

It is possible that if the recommended actions are followed we might still effect some reduction and still fund the pending increase in homestead exemptions for senior citizens.

I must reserve my final judgement until after reflecting upon all final legislative actions.

Yours very truly,

(Signed) J. James Exon
Governor

The Chair appointed Mrs. Marsh, Messrs. Schmit, Kelly, Johnson and Epke to serve on said Committee.

The Committee escorted Governor Exon to the rostrum, where he delivered the following message:

Mr. President, Mr. Speaker and Members of the Legislature.

It's a real pleasure, more than you realize, to accept your invitation to speak briefly before your adjournment. I feel like a man who has been granted a six month furlough!

Seriously speaking, it is obvious that this has been a tough session for both Legislators and your Governor.

While I have agreed with your actions and signed into law some 350 bills, I have objected at least ten times. That is not a bad record of agreement.

The fact remains that when I have objected, I have not done so timidly. Such is not my nature, because when I take a stand. . . . I take a firm stand and do not apologize to anyone. If thirty of you disagree, as you sometimes do, our built-in checks and balances take over and the bill becomes law. . . . that's what our form of government is all about.

Let me compliment your honorable body for some truly outstanding legislation you have enacted, including, but not limited, to the following:

LB 333--insuring a uniform state pay plan and fairer salaries for the state's dedicated lower paid employees and a companion measure standardizing vacations and employee insurance programs long overdue in Nebraska.

The passage of increased appropriations in state funds for the mentally retarded programs by some 35% and improvements at the Beatrice State Home are worthy accomplishments. We are proceeding with our efforts to convince the Federal Government that they should not reduce their commitment in this area.

Our joint agreement to provide an additional \$20 million in aid to education and providing some real property tax relief is commendable, as was your acceptance of increasing retired teacher benefits.

LB 524, expanding the Parole Board, will assist in our continuing efforts in better penal reform policies and programs. The professionals you have authorized here were much needed.

The legislative action in repealing the mandatory sale of school lands was an especially laudable measure and corrected a mistake made many years ago.

Our restoration of limited capital punishment legislation in Nebraska is a sound measure that I believe can withstand possible constitutional questioning.

I congratulate your honorable body for elimination of the "Wyoming Clause" in our environmental control laws.

You recognized the need to crack down on drunken driving convictions by tightening probation.

Now, on the other side of the ledger, I would like to mention the following matters which were not passed and hopefully will receive your favorable attention next session.

Despite statistics which showed higher speeds on the state highway system had contributed to more deaths and serious injuries, you again refused to reduce such nighttime speeds back to 60 M.P.H. There are other measures in this area that we have recommended and would be helpful in arresting this serious problem.

Although I recommended legislation regarding our weak sexual

psycopath laws, no bill was passed.

We have additionally recommended a package of bills through the Judiciary Committee for program-oriented further improvements and to further accelerate the administration's penal reform commitments. They need passage next year.

There are other important matters that I will suggest to you in 1974.

In the meantime, regardless of our differences on some key items, I thank you for your efforts on behalf of the people of our Great State of Nebraska. We do enjoy "The Good Life".

God bless you and he willing, we will all meet here again next January to continue deliberations.

The Committee escorted Governor Exon from the Chamber.

MESSAGES FROM THE GOVERNOR
DELIVERED TO THE SECRETARY OF STATE

June 2, 1973

Mr. President, Mr. Speaker,
and Members of the Legislature
State Capitol Building
Lincoln, Nebraska 68509

Dear Mr. President and Senators:

I am returning herewith LB 366 without my signature and with my objections.

I am returning LB 366 because this legislative action would cause increased retail prices to consumers. Although this bill has merit in some areas, it includes a price-fixing measure.

It is my feeling that the state should limit its involvement in the free enterprise system.

Hopefully, if this measure is resubmitted next year, the objectionable provision will be eliminated or placed in a separate bill to stand on its own merits.

Very truly yours,

(Signed) J. James Exon
Governor

Mr. President, Mr. Speaker,
and Members of the Legislature

Dear Mr. President and Senators:

I am returning herewith LB 529 without my signature and with my objections.

It is with a certain amount of reluctance that I have vetoed LB 529. This bill was introduced at my request on behalf of the Department of Revenue. As passed it contains 11 areas of change within our sales tax law which not only we, but your Revenue Committee, felt were needed. Possibly these can be adopted at some future time.

I have vetoed LB 529 because of section 16 which requires the State Board of Equalization and Assessment to consider obligations for two calendar years into the future. The effect of this would be at some time in the future to create large balances in anticipation of large delayed spending programs.

If the state in the future decides to embark on a massive delayed spending program which will mandate tax increases, then the Governor should request and/or the Legislature should pass the necessary tax rates at the time of adopting the program. The alternative route as provided by section 16 of this bill causes a nonresponsible separation of expenditure and taxing procedures.

Very truly yours,

(Signed) J. James Exon
Governor
