March 28, 1975

Mr. President, Mr. Speaker,
and Members of the Legislature
State Capitol Building
Lincoln, Nebraska

Dear Mr. President and Senators:

I am returning herewith LB 537 with my signature, but with exceptions

to two-line item reductions in the amount of $225,000.

This bill provides, along with certain other appropriations, additional state funds for the continued operation of the technical community colleges until the end of this fiscal year. The passage of LB 537 is significant because it represents our continuing support and concern for vocational technical education in Nebraska.

Almost six million dollars will be distributed under LB 537 from the State General Fund to the college area boards to replace the one mill property tax which was declared unconstitutional last year by the Nebraska Supreme Court. Some of this amount will also be available to help solve cash flow problems in 1975-76, should your body decide to return the colleges to partial local tax support.

I take exception, however, to the action in LB 537 which appropriates $225,000 to Metropolitan Community College. These funds were originally intended for the Opportunities Industrialization Center in Omaha. This money has been diverted to start a new cosmetology program and machine technology program at Metro.

Nebraska already has several private cosmetology schools which are meeting the occupational needs of the state in this field. These schools are regulated by the State Department of Health and State Department of Education. We do not need additional cosmetology programs in our tax supported institutions to compete for students and funds with these private schools. This amounts to further duplication of post secondary education. We have enough of that in Nebraska already.

I also call to your attention what appears to be a bad precedent in such a deficiency bill. The $225,000 that I have reduced actually amounts to funding new programs at Metro and not to make up for any unforeseen shortfall.

Finally, I note that Metropolitan Community College will receive $1,289,724 even without the additional $225,000, and that it is only three months before a new appropriation will be in effect for fiscal 1975-76. If machine technology is a priority program, it can be commenced by Metro from the additional funds soon forthcoming, or be placed at a higher priority than some of the programs Metro has already started.

Yours very truly,

(Signed) J. James Exon
Governor

ATTORNEY GENERAL'S OPINION

Opinion No. 52
March 21, 1975

Dear Senator Fowler:

This is in reply to your inquiry concerning Legislative Bill 161, which provides:

> "No volunteer fireman shall serve on any village board or city council unless such board or council shall authorize such service by ordinance."

Although phrased in prohibitory language, the effect of the bill would be to authorize volunteer firemen to hold office as a village board or city council member, at the discretion of the local governing body. The bill apparently presupposes as being the case that at the present time firemen lawfully may serve on village boards and city councils; which may not be a correct presupposition.

It is entirely possible that for a fireman to serve on the governing body of the municipality by which he is employed might be contrary to the public policy against conflicts of interest on the part of public officials. The common law has been adopted by Nebraska as it is applicable and not inconsistent with the Constitution of the United States, the organic law of this state, or any law passed or to be passed by the Legislature. See Section 49-101, R. R. S. 1943.

A possible conflict of interest could arise from the fact that the board or council would have responsibility for passing upon the monetary requests and other affairs of the fire department. The possible conflict would exist either in the case of a volunteer fireman or a paid fire chief; although it might be greater in the case of the salaried individual. Possibly such a potential conflict of interest could be averted by the individual not participating in any official action concerning fire department matters. However, it seems to us that there is sufficient possibility of an unlawful conflict of interest situation so as to justify, if not require, legislation such as L.B. 161.

As for the constitutionality of L.B. 161, we see no problem. As mentioned earlier, the public policy against official conflicts of interest is of common law origin; and there is no constitutional proscription which is applicable. Accordingly, it is within the province of the Legislature (as was contemplated by Section 49-101) to enact a measure such as L.B. 161.

In the event L.B. 161 is enacted, it is our opinion that volunteer firemen would be eligible to serve upon any village board or city council. However, L.B. 161 is not applicable to any other than volunteer firemen and would not authorize a salaried fire chief to serve upon such a board or council.

Very truly yours,

PAUL L. DOUGLAS
Attorney General

RESOLUTIONS

LEGISLATIVE RESOLUTION 26.

Introduced by Warner, 25th District.

WHEREAS, the Congress of the United States enacted Public Law 156 on July 11, 1916, and the Congressional Federal Aid Acts, Federal Highway Acts, and Federal Aid Highway Acts subsequent to that date, which acts provide that the federal government shall aid the states, and the political subdivisions of the states, in the construction of roads and streets; and

WHEREAS, the Nebraska Legislature has reaffirmed its continuing assent to the federal acts, referred to above, and amendments thereto; and

WHEREAS, a substantive portion of the federal acts, referred to above, states that fifty per cent of federal aid for highway construction is intended for use by the political subdivisions of this state; and

WHEREAS, the Seventy-seventh Legislature, 1967, adopted Legislative Bill 918, and the Eightieth Legislature, 1969, adopted Legislative Bill 692, now sections 39-1306 to 39-1306.02, Reissue Revised Statutes of Nebraska, 1943, in order to implement and promote the provisions of the federal acts and to assist the political subdivisions in the proper use of federal aid highway funds; and

WHEREAS, the intent of the legislative bills, cited above, was that political subdivisions, particularly the counties of this state, shall receive and use all of the fifty per cent of federal funds available to them and that none of those funds revert to the Department of Roads; and

WHEREAS, the Department of Roads, pursuant to law, adopted and promulgated policies and regulations for the administration, allocation and reallocation of federal aid highway funds to political subdivisions; and

WHEREAS, the purpose of those policies and regulations was to insure that the cities and counties of this state could receive the entire amount of federal aid highway funds available specifically for political subdivisions; and

WHEREAS, the Department of Roads, without the consent of county officials, changed the policy regarding the allocation and reallocation of federal aid highway funds to counties and implemented this new policy; and

WHEREAS, because of the adoption and implementation of the new policy, the counties of this state have been deprived of federal aid highway funds which have reverted to and have been used by the Department of Roads; and

WHEREAS, section 84-904, Revised Statutes Supplement, 1974, provides that agency rules may be considered by the Legislature and any rule may be repealed, changed, altered, amended, or modified in such manner as the Legislature deems advisable; and

WHEREAS, the new policy of the Department of Roads regarding the allocation of federal aid highway funds to counties has been studied; and

WHEREAS, the conclusion of the study indicates that the new policy is detrimental to the best interests of the counties and the State of Nebraska, generally.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-FOURTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the new policy regarding allocation of federal aid highway funds to counties adopted by the Department of Roads on November 20, 1973, be rescinded, and that the former policies adopted and promulgated by the Department of Roads to carry out the purposes of federal acts and state laws regarding federal aid highway funds to counties be reinstated and implemented.

2. That the Department of Roads, with due dispatch, take all necessary steps to provide the counties of this state with (a) with their last three years allocated by unexpended federal aid highway funds, and (b) five million dollars of previously allocated and unexpended federal aid highway funds.

3. That the Legislature take whatever steps are necessary to insure that the intent of federal acts, state statutes, and former policies and regulations of the Department of Roads are carried out, and that the counties of this state receive all the federal aid highway funds intended to be used by political subdivisions.

4. That the Department of Roads and counties are hereby instructed to develop in cooperation, policies and procedures to be implemented that will (a) insure that counties be allocated all available funds as intended by law and (b) encourage maximum usage of allocated and unexpended, and previously allocated and unused (pool) federal aid highway funds.

5. That a copy of the policies and procedures adopted pursuant to this Resolution be furnished to the Legislature.

Laid over.

DRAFT OF AMENDMENT OF SECTION 77-2715 (3) (a)

A refund shall be allowed to the extent that the food sales tax credit exceeds the income tax payable by the resident individual for the taxable year but no refund

shall be made in any amount less than two dollars.

It is the intent of the legislature that $600 be the base as of 12-31-74, for determining future changes in the food sales tax credit, such base to be adjusted each year by the State Board of Equalization and Assessment in proportion to changes in the U.S. Department of Labor Consumer Price Index for food from the December, 1974, index of 169.7.

Each year at the time the State Board of Equalization and Assessment meets to set the tax rates pursuant to section 77-2715.01, the Board shall determine the food sales tax credit for the current calendar year. Such credit shall be the product, rounded to the nearest whole dollar, of $600 multiplied by the sales tax rate for such calendar year multiplied by a fraction, the denominator of which is 169.7 and the numerator of which is the average of the available monthly food indexes of the U.S. Department of Labor, Consumer Price Index, (1967 = 100) for the current calendar year.

COUNT II

That from on or about the 1st day of January, 1972, and continuing thereafter up to and including the 31st day of December, 1973, in the District of Nebraska, and elsewhere JOHN SALANITRO, BERT REID HOWARD, PAUL CAPPELLANO, JR., and ROSS J. DIMAURO, the defendants herein, unlawfully, willfully and knowingly did combine, conspire, confederate and agree together and with each other and with Anthony Troia, an Assistant Prosecutor for the City of Omaha, Nebraska, and with other officials and employees, elected, appointed, and otherwise, of the State of Nebraska and its political subdivisions, to obstruct the enforcement of the criminal laws of the State of Nebraska and its political subdivisions that is, section 28-947, R.S. A TRUE BILL:

FOREMAN OF THE GRAND JURY

WILLIAM K. SCHAPHORST
United States Attorney

WILLIAM E. ZLEIT
Special Attorney, Department of Justice

Opinion No. 37
April 6, 1973

Dear Senator Stahmer:

You have asked for an opinion as to the constitutionality of Senator Barnett's amendment to L. B. 207. You also indicate that you are concerned that the amendment, if passed, might deprive children of life-saving medical treatment.

The amendment which was apparently prepared for Senator Barnett by a representative of Christian Science Committee on Publication for Nebraska, is as follows:

> "(4) No child who in good faith is being provided with treatment by spiritual means alone through prayer in accordance with the tenets and practice of a recognized church or religious denomination shall, for that reason alone, be deemed to be endangered under any provision of this Act."

It is our opinion that the constitutionality of the amendment, if enacted, would be very doubtful.

No case directly on point was found. Though it is true religious beliefs cannot be interfered with by the state, certain practices of these beliefs must succumb to the inherent power of a state to protect the health and welfare of its citizens. This is particularly true in the case of children and incompetent individuals. The state, as parens patriae, may restrict the rights of parents as well as rights of religion in order to perform its inherent sovereign duty to protect those not capable of protecting themselves. It must be kept in mind that the purpose of the rule of parens patriae is not to interfere with the religious belief but is rather designed to interfere with certain religious practices if these practices interfere with the health and welfare of children or anyone else for that matter.

The constitutional provisions in regard to religion are the First Amendment of the United States Constitution and Article I, Section 4, of the Nebraska Constitution. The former is as follows:

> "Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; . . ."

The Nebraska constitutional provision is:

> "All persons have a natural and indefeasible right to worship Almighty God according to the dictates of their own consciences. No person shall be compelled to attend, erect or support any place of worship against his consent, and no preference shall be given by law to any religious society, nor shall any interference with the rights of conscience be permitted. No religious test shall be required as a qualification for office, nor shall any person be incompetent to be a witness on account of his religious beliefs; but nothing herein shall be construed to dispense with oaths and affirmations. Religion, morality, and knowledge, however, being essential to good government, it shall be the duty of the Legislature to pass suitable laws to protect every religious denomination in the peaceable enjoyment of its own mode of public worship, and to encourage schools and the means of instruction."

In 1878 the United States Supreme Court decided for the first time that the freedom of religion clause guaranteed freedom of religious belief, but not necessarily freedom of religious practice. In Reynolds v. United States, 98 U. S. 145, 25 L. Ed. 244 (1878), Reynolds was a member of the Church of Jesus Christ of Latter-Day Saints, commonly called the Mormon Church. One of the doctrines of his faith required him to practice polygamy when circumstances permitted and if he neglected to so practice the penalty would be "damnation in the life to come." Congress had passed a law which had prohibited polygamous marriages. (Nebraska has a

similar law in Section 28-903, R. R. S. 1943) Reynolds was convicted and on appeal to the United States Supreme Court he defended his action on the ground that it was his absolute religious belief and duty to have two wives. This is what the Court said:

> ". . . Laws are made for the government of actions, and while they cannot interfere with mere religious belief and opinions, they may with practices. Suppose one believed that human sacrifices were a necessary part of religious worship, would it be seriously contended that the civil government under which he lived could not interfere to prevent a sacrifice? Or if a wife religiously believed it was her duty to burn herself upon the funeral pile of her dead husband, would it be beyond the power of the civil government to prevent her carrying her belief into practice?
>
> "So here, as a law of the organization of society under the exclusive dominion of the United States, it is provided that plural marriages shall not be allowed. Can a man excuse his practices to the contrary because of his religious belief? To permit this would be to make the professed doctrines of religious belief superior to the law of the land, and in effect to permit every citizen to become a law unto himself. Government could exist only in name under such circumstances."

In Prince v. Commonwealth of Massachusetts, 321 U. S. 158, 88 L. Ed. 645, 64 S. Ct. 438 (1944), Sarah Prince was convicted of violating the Child Labor laws by allowing a nine year old ward of hers to sell the "Watchtower" and "Consolation." These were publications of Jehovah's Witnesses. Both Prince and the nine year old girl believed the selling of these publications was their duty as Witnesses as a method of preaching the gospel and the failure to do so would bring condemnation "to everlasting destruction at Armageddon."

In upholding the conviction the court said:

> "But the family itself is not beyond regulation in the public interest, as against a claim of religious liberty. . . . And neither rights of religion nor rights of parenthood are beyond limitation. Acting to guard the general interest in youth's well being, the state as parens patriae may restrict the parent's control by requiring school attendance, regulating or prohibiting the child's labor, and in many other ways. Its authority is not nullified merely because the parent grounds his claim to control the child's course of conduct on religion or conscience. Thus, he cannot claim freedom from compulsory vaccination of the child more than for himself on religious grounds. The right to practice religion freely does not include liberty to expose the community

> or the child to communicable disease or the latter to ill health or death. . . . The catalogue need not be lengthened. It is sufficient to show what indeed appellant hardly disputes, that the state has a wide range of power for limiting parental freedom and authority in things affecting the child's welfare; and that this includes, to some extent, matters of conscience and religious conviction."

In Hoener v. Bertinato, 67 N. J. Super. 517, 171 A. 2d 140 (1961), the New Jersey court required the religious beliefs of parents to yield to the duty of the state to protect its citizens. Mrs. Bertinato had a blood condition known as RH negative and she was about to give birth to a child. The undisputed medical testimony was that the child would die shortly after the birth unless the child received a blood transfusion. The Bertinatos both testified:

> ". . .as Jehovah's Witnesses, if they consented, they would be breaking the commands of their faith which prohibit any taking or injection of blood, and that the strength of their belief was such that, even if it meant that the baby could not survive without the transfusions, they would, and could, not consent thereto. . ."

The court entered an order giving custody of the child, when born, to the county welfare department with authority to consent to a transfusion.

On the matter of religious freedom and the obligations of the state the court said:

> "Laws are made for the government of actions. While they cannot constitutionally interfere with mere religious beliefs and opinions, they may interfere with religious practices inconsistent with the peace and safety of the state--here, the protection of the lives and health of its children. . ."

Then quoting from Prince, supra, the court said:

> " 'The right to practice religion freely does not include liberty to expose the community or the child to communicable disease or the latter to ill health or death* * * Parents may be free to become martyrs themselves. But it does not follow they are free, in identical circumstances, to make martyrs of their children before they have reached the age of full and legal discretion when they can make that choice for themselves'."

The New Jersey court reached a similar conclusion in regard to an infant already born in State v. Perricone, 37 N.J. 463, 181 A. 2d 751 (1962). Relying on Prince, supra, the court said:

"Neither rights of religion nor rights of parenthood are beyond limitation."

Other cases reaching like conclusions can be found in 12 A.L.R. 2d 1047, 30 A.L.R. 2d 1138.

In conclusion, it is our opinion that the state cannot abrogate, in the name of religion, its inherent duty as parens patriae with respect to children and others not capable of caring for themselves.

Very truly yours,

ATTORNEY GENERAL'S OPINION

Opinion No. 54
April 2, 1975

Dear Senator Warner:

In your letter of March 26, 1975, you make reference to Legislative Bill 591 and ask can the method of selection for the delegates to a national convention of the two major political parties be different, or must the law provide identical methods for both?

It would be our opinion that state laws relating to such procedures can be dissimilar so long as any variance in the standards of selection as applied to one party does not discriminate against or result in fundamental inequities to the other party.

Your attention is, however, directed to a recent opinion of the United States Supreme Court in the case of Cousins v. Wigoda, No. 73-1106, decided January 15, 1975. The relevant question there concerned whether the interests of the State of Illinois were superior to those of a national political party when a conflict existed between the laws of Illinois and the rules of the national party. The court in holding that the rules of the national political party served a national interest greater than the interest of a state in protecting the integrity of its electoral process stated:

> "Consideration of the special function of delegates to such a convention mitigates persuasively against the conclusion that the asserted interest constitutes a compelling state interest. * * *. If the qualifications and eligibility of delegates to national political party conventions were left to state law '* * * each of the fifty states could establish the qualifications of its delegates to the various party conventions without regard to party policy, an obviously intolerable result'. (Citations omitted) * * *. Thus, Illinois' interest in protecting the integrity of its electoral process cannot be deemed compelling in the context of the selection of delegates to the national party convention."

Therefore, it would appear from this opinion that not only may the state laws differ as to each party so as to conform to the rules of that national organization but also that any conflicts resulting from a deviation from such will be resolved by an application of the rules of the national party.

We would be most happy to discuss this with you further at any time.

Sincerely,

PAUL L. DOUGLAS
Attorney General

ATTORNEY GENERAL'S OPINION

Opinion No. 55
April 4, 1975

Dear Senator Marvel:

You have requested our opinion as to whether a county and city of the first class acting jointly have the power to acquire real estate to be held as an industrial tract and developed by making improvements such as roads and installing utilities, with parcels of the tract being sold to industrial purchasers according to the current need and demand therefor. You advise us that the purpose of your request for this opinion is to ascertain whether additonal enabling legislation may be necessary.

The Industrial Development Act of 1961 (Section 18-1614, et seq., R. R. S. 1943) authorizes counties and incorporated cities and villages to acquire real and personal property which is "suitable for use for manufacturing or industrial enterprises" and, in turn, subsequently to sell and convey the same "as may be deemed conducive to the best interest of the municipality or county." See Sections 18-1614 and 18-1615. Under this act, either a county or city would be empowered to separately undertake such an industrial tract development; thus leaving remaining only the question of whether a county and city acting jointly may do the same thing.

In our opinion such a county-city joint arrangement is authorized and may be effectuated under the provisions of the Interlocal Cooperation Act (Sections 23-2201, et seq., R. R. S. 1943). Section 23-2204 provides that any "power or powers, privileges or authority exercised or capable of exercise by a public agency of this state may be exercised and enjoyed jointly with any other public agency of this state (also) having such power or privilege or authority." The term, "public agency," is defined in Section 23-2203 as including any county, city, village, school district or drainage district.

We note that Section 23-104, R. R. S. 1943, provides that counties may purchase and hold real and personal property necessary for the "use of the county." Similarly, Section 16-201, R. R. S. 1943, provides that cities of the first class shall have the power to purchase and hold real and personal property "for the use of" the city. The language referred to was in both of those sections long prior to the enactment of the Industrial Development Act; and were it not for the adoption of that act it might be argued that a county or city could acquire real estate only for the purpose of putting it to some corporate governmental use; such as the erection of a court house or city hall or other governmental facilities. However, construing those sections in pari materia with the Industrial Development Act, we believe it is proper to construe the acquisition and development of an industrial tract as coming within the purview of the statutory language "for the use of the" county or city.

In your opinion request letter you refer to questions having been raised and directed "toward the fundamental power and authority to acquire land for such purposes." There appears to be no question but what, in enacting the Industrial Development Act and the Interlocal Cooperation Act, the Legislature intended to authorize joint arrangements of the type here under discussion; and, hence, the only possible basis for question would be on constitutional grounds. The Industrial Development Act was declared constitutional in State ex rel. Meyer v. County of Lancaster, 173 Neb. 195. Although the Interlocal Cooperation Act has never been court tested, we see no reason to question its validity.

Very truly yours,

PAUL L. DOUGLAS
Attorney General

UNANIMOUS CONSENT—Print in Journal

Mr. Luedtke asked unanimous consent to have the following printed in the Journal. No objections. So ordered.

April 3, 1975

Mr. William K. Schaphorst
United States Attorney
Federal Office Bldg.
Omaha, Nebraska 68102

Dear Mr. Schaphorst:

The Nebraska State Legislature has directed the Judiciary Committee, also known as the Law Enforcement and Justice Advisory Committee of which I am Chairman, to investigate the recent Grand Jury indictments handed down in Douglas County concerning gambling and bookmaking operations in Nebraska. Apparently the indictment as presented raised some questions as to the possible involvment of some public officials in illegal gambling activities. While there were no public officials actually named in the indictment, there were implications of same in the indictment as written and as reported in the media.

The Legislature is interested in learning if you are personally aware of the involvement of any public officials. We realize that we cannot have access to the Grand Jury testimony nor ask your office to comment upon such matters privy to the Grand Jury only. However, members of the Legislature feel we are entitled to know whether in fact there were public officials involved, either state, county or municipal. Again we realize that at this juncture individual's names would not be appropriate. But the Legislature has a right to know whether the alleged public officials were elected or appointed within their respective offices. We would further

inquire as to whether any such alleged officials were members of the legislative, executive, or judicial branches of government.

Enclosed for your information is a copy of the motion presented by Senator Chambers and adopted by the Legislature. I would certainly appreciate you giving me a written reply in order that I might report back to the Legislature as quickly as possible.

Thank you for your cooperation in this matter and if you need any further clarification as to the nature of our inquiry, please get in touch with me personally.

Sincerely,

(Signed) Roland A. Luedtke

FIFTY-EIGHTH DAY

Legislative Chamber, Lincoln, Nebraska
Tuesday, April 8, 1975

Pursuant to adjournment, the Legislature met at 9:01 a.m., President Whelan presiding.

PRAYER

The prayer was offered by the Chaplain.

> Dear God, give these men who direct this great State the patience to be understanding, and the understanding to be patient.
>
> May their enormous energy sharpen their intellect so that they may render justice to all men.
>
> May their courage be of such a nature that they will allow every man to find his place in life without losing his dignity. May they not be obsessed with assembling endless concerns of making this world a Utopia, for we know, as You have said, the wheat and weeds shall grow together, good and evil will be intermingled and live side-by-side.
>
> However, let us not be overcome by evil, but let us overcome evil with goodness.
>
> Only at the end will there be a lasting decision between good and evil.
>
> In the meantime, let us adopt an attitude to help every man, but every man must first find his own dignity. For each man has to pick his own fate so no matter what this great assembly does, some men will be failures by their own choice.
>
> But many will succeed because, the Senators, have been an instrument of justice and hope, peace and charity, patience and understanding. Amen.

ATTORNEY GENERAL'S OPINION

Opinion No. 56
April 7, 1975

Dear Senator Marsh:

We have received your letter regarding the constitutionality of the Standing Committee amendment to L.B. 20 which provides:

> "No child or incompetent or disabled person shall be considered neglected or lack necessary care for the sole reason he or she is being provided treatment by spiritual means through prayer alone in accordance with a recognized religious remedial method of healing."

For the reasons stated in our opinion of April 6, 1973, a copy of which was attached to your letter, which concluded, "* * * that the state cannot abrogate, in the name of religion, its inherent duty as parens patriae with respect to children and others not capable of caring for themselves.", that

we would have difficulty defending the constitutionality of this amendment.

Very truly yours,

ATTORNEY GENERAL'S OPINION

Opinion No. 58
April 8, 1975

Dear Senator Clark:

This reply is in response to your inquiry as to whether a technical community college, under the amendments to LB 344, Eighty-fourth Legislature, First Session, may "accept out-of-area students at a below production tuition cost, thereby increasing the tax load for the taxpayer of that area."

It is well settled law that no taxing district can be taxed for the exclusive benefit of another district. Peterson v. Hancock, 155 Neb. 801, 54 N. W. 2d 85 (1952). Section 9(16) of LB 344, as amended, authorizes the Technical Community College Board of Governors for each technical community college created by that act to establish tuition rates for courses of instruction offered by the college. It does not, and could not pursuant to legal principles of uniformity and equality in taxation, authorize said boards to admit students who reside outside the area of a technical community college in which they are enrolled at less than compensatory tuition rates. We are therefore of the opinion that your question must be and is answered no.

Very truly yours,

PAUL L. DOUGLAS
Attorney General

ATTORNEY GENERAL'S OPINION

Opinion No. 59
April 8, 1975

Dear Senator Sys:

This is in response to your inquiry concerning the ownership of the land on which the county roads of the State are located. In State v. County of Cheyenne, 157 Neb. 533, the issue was not land for road purposes, but for a County Fair Ground. The acquisition was, however, by right of eminent domain, thus it is believed that the holding is appropriate to all eminent domain acquisitions. It was there said:

> "* * * The estate acquired by the condemnation is to continue until the happening of a certain event and to then cease. That event, discontinuance of the land for fair purposes, may happen at any time or it may never occur. Until the determining event the proprietor of a determinable estate has all the rights and privileges of an absolute owner. The former owner retains at most a mere possibility of reverter should the event happen upon which the estate is limited. A possibility of reverter is not an estate or interest in land but is only the possibility of being an estate.* * *"

It is also, of course, possible that a public agency may acquire land by fee simple title. But since the aforesaid case is dealing with the situation where fee simple has not been acquired, and still holds that during the term of the holding, the rights of the public agency are the same as if it held fee simple, it would appear the answer to your question can only be that ownership of the county road land, while being put to road purposes, is in the county, and that the abutting landowner has, at most, only the possibility of a future right.

Very truly yours,

PAUL L. DOUGLAS
Attorney General

Legislative Chamber, Lincoln, Nebraska
Thursday, April 10, 1975

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Whelan presiding.

PRAYER

The prayer was offered by the Chaplain.

> O God, prepare our hearts and minds for the business of this day that we may throughout behave with genuine courtesy and honor before our colleagues. Help us to be just and honest in all our dealings. May we listen to those who have something to say but never lose our own capacity to discriminate between right and wrong. Save us from the fallacy of depending upon our personality or ingenuity to solve our problems, and make us more willing to do the hard work that is necessary to be well informed. Since we believe Thou art the source of truth, may we listen to Thee at the beginning of this day so that at the end we may hear Thy blessing, "Well done, thou good and faithful servant." Amen.

ROLL CALL

The roll was called and all members were present except Messrs. Anderson, Barnett, Luedtke, Kime, Nichol and Syas who were excused and Messrs. Burrows and F. Lewis who were excused until they arrive.

ATTORNEY GENERAL'S OPINIONS

Opinion No. 60
April 8, 1975

Dear Senator Hasebroock:

In your letter of March 26, 1975, you state that some county employees are unhappy with the present County Employees Retirement System which was originally voted in by the electors, and you ask whether under the present statutes the County Board can vote to discontinue participation in the retirement system. We find no such authorization in the statutes.

Under the present statutes, of course, the decision as to whether or not a county shall come into the County Employees Retirement System is made by the electors. See Sections 23-2329 and 23-2330, R. R. S. 1943. Pretty obviously, the County Board could not override the decision of the electorate on this matter. We also have been unable to find any statutory authority authorizing a vote of the electors on whether or not to withdraw from the retirment system.

However, L. B. 45 has been passed and signed by the Governor, and will become effective three months after the adjournment of the Legislature. This bill amends the County Employees Retirement Act by providing that the decision to come into the retirement system shall be made by the County Board rather than by the electors. The question then becomes whether this amendment gives the County Board the right to reverse its decision, or a decision previously made by the electors, to bring the county into the system. We find nothing in L.B. 45 which gives the County Board this authority.

In State ex rel. Agricultural Extension Service v. Miller, 182 Neb. 285, 154 N. W. 2d 469, the court said that it is elementary that a County Board

has only such powers as the Legislature grants. It is true that the court also said, in Thiles v. County Board of Sarpy County, 189 Neb. 1, 200 N. W. 2d 13 (1972), that County Commissioners are clothed with the powers expressly conferred upon them by statute and also such powers as are requisite to enable them to discharge the official duties devolved upon them by law. However, we find no indication in the statutes that the Commissioners are to be clothed with any power to decide to withdraw from the retirement system, so the question of incidental powers is not, in our opinion involved.

We are particularly convinced of the lack of power of a County Board to take this action in the absence of express statutory authority because of the problems incident to a withdrawal from the system. Employees who have served under the system, and have made contributions, have certain vested rights in the funds accumulated. Section 23-2319, R. R. S. 1943, makes provision for the rights of an employee who terminates employment before retirement age. There is no indication that the provisions of that section are applicable when the county, rather than the employee, withdraws from the system. Furthermore, if the county were to withdraw from the system during the term of an elected official, it might be held to be either an increase or diminution of his compensation during his term of office, in violation of Article III, Section 19 of the Nebraska Constitution. Wilson v. Marsh, 162 Neb. 237, 75 N. W. 2d 723, held that the required contributions to a retirement system were a diminution of compensation, and that the right to receive retirement benefits in the future was an increase of compensation, and that these changes could not be put into effect during a fixed term of office. The reverse of these conclusions would appear to be applicable were the county to withdraw from the retirement system during the term of office of officials serving a fixed term.

The complexities of withdrawing from the system reinforce our conclusion that L.B. 45 was not intended to vest the County Board with the authority to withdraw from the retirement system. If the County Boards are to be authorized to do so, there should be legislation so providing, and making provision for the uniform handling of the vested rights of employees who have served under the retirement system.

Very truly yours,

PAUL L. DOUGLAS

Opinion No. 61
April 9, 1975

Dear Senator Murphy:

In your letter of April 7, 1975, you call our attention to the fact that LB 502 would require lending institutions, apparently including federal savings and loan associations, to pay 5% interest on money held in escrow for the purpose of paying taxes and insurance on property securing loans made by such financial institutions. Your question is whether such a law could apply to federally chartered savings and loan associations as well as to state building and loan associations.

It is our conclusion that such a law could not be applicable to federal savings and loan associations. On March 6, 1973, we wrote an opinion on a similar subject holding that, as a general proposition, the state cannot pass a law which will govern federally chartered savings and loan associations as well as state chartered building and loan associations. In that opinion we relied upon Ochs v. Washington Heights Federal Savings and Loan Association, 215 N. E. 2d 485, 17 N. Y. 2d 82, 268 N. Y. S. 2d 294 (1966). We also call your attention to the case of People v. Coast Federal Savings and Loan Association, 98 F. Supp. 311 (1951). In that case the court held that the Federal Home Loan Bank Board had adopted comprehensive rules and regulations concerning the powers and operations of every federal savings and loan association from its cradle to its corporate grave, and that state statutes were therefore invalid as applied to such associations. The court said:

> "As to national banks, Congress expressly left open field for state regulation and the application of state laws; but as to federal savings and loan associations, Congress made plenary, preemptive delegation to the Board to organize, incorporate, supervise and regulate, leaving no field for state supervision."

The paying of interest on escrow accounts certainly deals with the operation of the financial institution. We are therefore of the opinion that the bill could have no application to federal savings and loan associations.

Very truly yours,

PRAYER

The prayer was offered by the Chaplain.

For continuing health of body, that we may pursue our work here without interruption;

For the understanding that our work is important, and that it may be serving purposes which are much larger than we are;

For the sense of humor which helps us to take neither our critics nor ourselves any more seriously than we should;

For the spirit of harmony which surfaces in this Legislature frequently enough to reveal a Family solidarity greater than our local rivalries;

For courage to believe that goodness is always more to be desired than greatness, and the courage to act as if we believe that goodness is always measured in terms of service to others;

For these blessings we give thanks at the beginning of another week;

And for a continuation of such blessings we sincerely pray, O Lord our God. Amen.

ATTORNEY GENERAL'S OPINION

Opinion No. 62
April 10, 1975

Dear Senator Murphy:

In your letter of April 2, 1975, you inquire about the constitutionality of L.B. 269. This bill would authorize banks to use manned and unmanned electronic satellite facilities at which various banking transactions could be accomplished. The manned facilities would utilize persons who were not employees of the bank or banks involved with the transactions.

You have asked no specific questions about particular provisions of the bill, but have asked us to review the bill and give a general opinion as to constitutionality. It is rather difficult to render such an opinion in a bill of some length, and containing some rather complex, detailed provisions. However, we see no readily discernible constitutional difficulties with the bill. The regulation of the banking industry is clearly a legislative function, and if the legislature sees fit to do so, we see no reason why it cannot authorize nonbanking businesses or individuals to assist in the banking function to the extent contemplated by this bill.

The bill also makes provisions for national banking associations to establish manned or unmanned electronic satellite facilities. We believe that it is proper for the statute to authorize national banks to do so, but, of course, such banks are not under the control of the State of Nebraska, and we presume that authorization by the Comptroller of the Currency would be necessary before such banks could establish such facilities.

The bill provides, among other things, that if the Director of Banking shall determine that discrimination against any bank has taken place, that one bank has been preferred over another, or that any bank or person has not complied with the provisions of the act, the Director of Banking shall issue a cease and desist order, and that, upon noncompliance with such order, the offending bank shall become ineligible to receive and hold deposits of any nature of the State of Nebraska or any political subdivision thereof. We believe that this provision, as applied to national banks, does not give rise to any problems. The director would have no authority to require a national bank to cease and desist, but the state does have control over deposits of the State of Nebraska and its political subdivisions, and can prohibit such deposits in institutions failing to comply with the laws of the State of Nebraska. We therefore conclude that this provision will be effective even as to national banks.

In summary, then, our examination has disclosed no constitutional difficulties with the bill.

Very truly yours,

PAUL L. DOUGLAS

LEGISLATIVE BILL 109. Indefinitely postponed.

(Signed) J. R. Murphy, Chairman

MESSAGE FROM THE GOVERNOR

April 14, 1975

Mr. President, Mr. Speaker
and Members of the Legislature
State Capitol Building
Lincoln, Nebraska 68509

Dear Mr. President and Senators:

It is my understanding that the Legislature will reconsider today its previous action of indefinitely postponing LB 328, the so-called Motorcycle Helmet Bill. I urge your reconsideration and favorable action on this measure.

I am not an expert on motorcycle safety programs, but I am advised by knowledgeable individuals that helmets are extremely valuable in protecting an individual involved in a motorcycle accident. This is extremely important.

Although LB 328 can be considered an infringement on individual rights, I do not agree with the argument that individual have the right to unrestricted risk to themselves or others.

Most states have laws similar to LB 328 in effect. I cannot believe that those states or the federal government are mandating such required protection without adequate facts to back their positions.

As a Governor who has fought unreasonable federal dictates and actions, I am pleased that the Legislature agrees that the states must strengthen their collective backbones in the face of continued federal encroachment on states' rights.

A few months ago, I went to the mat with Federal Highway Administrator Tiemann on their dictate of forced removal of our tourist information signs. I was wise enough, I think, to know when to give up a battle in the interest of eventually winning the war.

I believe the Legislature has selected an unwise issue on which to challenge federal authority. Last year the Legislature acted similarly. At that time, this office appealed to Administrator Tiemann and his counterpart, Administrator Gregory, who heads the Department of Transportation's Highway Safety Office. Through their efforts, after

commitments from this office that we would try again this year to obtain passage of the Motorcycle Helmet Law, we were granted a one year reprieve and did not lose funds for fiscal year 1974-75.

Since your action this session killing LB 328, Director Doyle of the Department of Roads and Director Sullivan of the Department of Motor Vehicles have been warned by federal officials that we were "skating on thin ice" this time and it was likely that sanctions would be imposed. I also visited with Federal Highway Administrator Tiemann over the telephone.

The final decision, if Nebraska does not act favorably on this measure, will be with the Secretary of Transportation on recommendation from Administrators Tiemann and Gregory. Governor Tiemann authorized me to say that while he could not predict with certainty what the Secretary's decision would be, he was fearful that in consideration of the previous delay granted Nebraska to comply with the standards, we could well be penalized in fiscal year 1975-76. This could mean that our highway construction program would be reduced by approximately $5 million next year and every year thereafter until we complied. The same would be true for our nationally recognized Highway Safety Program to the extent of an additional $2 million each year. Aside from the loss of construction funds, the Legislature should recognize that our Highway Safety Program would be eliminated entirely this July 1, 1975. Should you maintain your present position, I will do everything possible again to protect Nebraska's interests, but the Legislature must understand the possible consequences.

Again, let me urge your favorable reconsideration of LB 328.

Yours very truly,

(Signed) J. James Exon
Governor

39-6,181. (1) The Department of Roads or the Nebraska State Patrol with respect to highways under their jurisdiction including the National System of Interstate and Defense Highways, and county authorities with respect to highways under their jurisdiction may in their discretion upon application and good cause being shown therefor, issue a special permit in writing

authorizing the applicant (a) to operate or move a vehicle, a combination of vehicles or objects of a size or weight of vehicle or load exceeding the maximum specified by law when such permit is necessary to further the national defense or the general welfare, (b) to permit movement of cost-saving equipment to be used in highway or other public construction or in agricultural land treatment, or is necessary because of an emergency, an unusual circumstance, or a very special situation, or (c) to operate vehicles loaded up to twenty-five per cent greater than the maximum weight specified by law, or up to ten per cent greater than the maximum length specified by law, or both, when carrying grain or other seasonally harvested products from the field where they are havested or assembled to storage or market when failure to move in abundant quantities would cause an economic loss to the person or persons whose product or products are being transported or when failure to move such product or products in as large quantities as possible would not be in the best interests of the national defense or general welfare; Provided, no permit shall be issued under subdivisions (a) and (b) of this subsection for a vehicle carrying a load unless such vehicle is loaded with an object whichexceeds the size or weight limitations and which object cannot be dismantled or reduced in size or weight without great difficulty and which of necessity must be moved over the highways to reach its intended destination; and provided further, no permit shall be required for the temporary movement on roads other than dustless-surfaced state highways and for necessary access to points on such highways during daylight hours of cost-saving equipment to be used in highway or other public construction or in agricultural land treatment where such temporary movement is necessary and for a reasonable distance.

(2) The application for any such permit shall specifically describe the vehicle and the load to be operated or moved and whenever possible the particular highways, roads, or streets for which permit to operate is requested, and whether such permit is requested for a single trip or for continuous operation.

(3) The department or county authority is authorized to issue or withhold such permit at its discretion; or, if such permit is issued, to limit the number of days during which the permit is valid, to limit the number of trips, or to establish seasonal or other time limitations within which the vehicles described may be operated on the highways indicated, or to issue a continuing permit for use only on highways other than the National System of Interstate and Defense Highways to (a) a manufacturer or its carrier covering all similar vehicles or products produced by such manufacturer, or (b) the owner of vehicles described in subdivision (1) (c) of this section, subject to reasonable conditions as to periodic renewal of such permit and as to operation or movement of such vehicles, or otherwise to limit or prescribe conditions of operation of such vehicle or vehicles, when necessary to assure against undue damage to the road foundations, surfaces, or structures or undue

danger to the public safety, and may require such undertaking or other security as may be deemed necessary to compensate for any injury to any roadway or road structure.

(4) Every such permit shall be carried in the vehicle to which it refers and shall be open to inspection by any police officer or authorized agent of any authority granting such permit. Each such permit shall state the maximum weight permissible on a single axle or combination of axles and the total gross weight allowed. No person shall violate any of the terms or conditions of such special permit and in case of any violation, the permit shall be deemed automatically revoked and the penalty of the original limitations shall be applied unless the violation consists solely of exceeding the size or weight specified by the permit, in which case only the penalty of the original size or weight limitation exceeded shall be applied, or unless the total gross load is within the maximum authorized by the permit and no axle is more than ten per cent in excess of the maximum load for such axle or group of axles authorized by the permit and such load can be shifted to meet the weight limitations of wheel and axle loads authorized by such permit. Such shift may be made without penalty provided that such shift is made at the state or commercial scale designated in the permit. The vehicle may travel from its point of origin to such designated scale without penalty, and a scale ticket from such scale, showing the vehicle to be properly loaded and within the gross and axle weights authorized by the permit, shall be reasonable evidence of compliance with the terms of the permit.

(5) The department or county authority issuing a permit as provided in this section may promulgate rules and regulations with respect to the issuance of permits provided for in this section.

(6) The department or county authority issuing a permit may require a permit fee of not to exceed ten dollars; Provided, that the fee for a continuing permit may not exceed twenty-five dollars for a ninety-day period, fifty dollars for a one hundred eighty-day period, or one hundred dollars for a one-year period.".

RESOLUTION

LEGISLATIVE RESOLUTION 29.

Introduced by F. Lewis, 45th District.

WHEREAS, the Constitution of the United States establishes a federal system of government; and

WHEREAS, this federal system creates two dual sovereignties, each having primacy in its own sphere of responsibility; and

WHEREAS, these two sovereignties, the state and the national governments, were created to perform independent functions as coequal partners; and

WHEREAS, to maintain this partnership it is necessary that both sovereignties respect the integrity of the other; and

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-FOURTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That this Legislature condemns the practice of federally mandated programs which usurp the prerogatives and limit the flexibility of state government.

3. That a copy of this resolution be sent to each member of Nebraska's Congressional respresentatives.

PRAYER

The prayer was offered by the Chaplain.

> O God, stop us for a minute of prayer. Stop our anxious minds from wandering, and our wearied spirits from desiring anything but to know Thy will. Let us stand at attention before Thee and hear what Thou hast to say to us. We believe that Thou canst tell us not only what to do, but also how to do it. If it needs making up our minds, Thou who didst make our minds can show us how to make them up. If it needs changing our minds, Thou canst work that miracle, too. Speak, O Lord, and make us hear, for Jesus' sake. Amen.

Dear Senator Luedtke:

This is in response to your letter of April 3, 1975, to William K. Schaphorst. As you may know, on April 7 I was sworn in as Acting United States Attorney and Mr. Schaphorst has left to go into private practice.

I am not, as you can well imagine, as thoroughly informed about these matters as I will be in the future. However, it is my position at this point that it would be inappropriate to reveal any information concerning this case until the criminal proceedings in court have been completed. It will be my desire as United States Attorney to complete these prosecutions as expeditiously as possible, and I can assure you that upon their completion I will make every attempt to completely reveal the matters in this case as much as the court will allow.

I will look forward to cooperating with you in this matter as soon as possible.

With kind regards,

(i) Impulse shall mean an electronic impulse;

(j) A processing center shall mean a place designated by a user association capable of receiving and processing electronic impulse transactions.

(2) Upon the application of the association, with the approval of the director, any association or associations may establish and maintain any number of electronic satellite facilities or manned electronic satellite facilities at which all building and loan transactions, defined as receiving deposits of every kind and nature and crediting such to customer accounts, cash withdrawals, transfer of funds from savings accounts to accounts of other customers, payment transfers from customer account into accounts maintained by other association customers or the association, including preauthorized draft authority, preauthorized loans and credit transactions, receiving payments payable at the association or otherwise, and such other transactions that the Director of Banking upon application, notice, and hearing may approve, may be conducted. Neither such electronic satellite facility, the manned electronic satellite facility, nor the transactions conducted thereat shall be construed as the establishment of a branch association. Such facilities shall be available on a non-discriminating basis for use by customers of any other association becoming a user association and for use by customers of any federal savings and loan association and of any bank of banks. It shall not be deemed discrimination if a facility does not offer the same transaction services as other facilities.

Any association, federal savings and loan association or any bank or banks may become a user association by agreeing to pay the establishing association its pro rata transaction and other costs, including a reasonable return on capital expenditures incurred in establishing and maintaining such facilities. The establishing association shall file with the director the information necessary to originate a transaction at any facility. Such information must contain a means of designating the association or processor to which such transactions shall be switched, and must also contain information adequate to perform authorization of cash withdrawal and other transactions authorized by this act. The director shall make such information available to any other association desiring to become a user association. The establishing association shall be responsible for transmitting transactions originationg from its factility to a switch, but nothing contained in this section may be construed to provide that any in-house or branch office premises transactions shall be required to go through a switch. The director shall approve any such application for the establishment of any electronic satellite facilities or manned electronic satellite facilities if the application shows that such facilities will be available on a nondiscriminating basis through methods and processes that the establishing association has provided for switching transactions. Once approval is given for the facility of an establishing association, the director, upon notice and after a hearing, may revoke the approval for the establishing association facilities including its utlization of switches or may suspend the use of such facilities if he determines that those facilities are not available on a nondiscriminating basis, that the necessary information is not on file with the director, or that transactions originated by customers of user association are not being switched to processing centers. Nothing in this section may be construed to prohibit nonassociation employees from assisting in transactions originated at the facilities, and such assistance shall not be deemed to be engaging in the business of an association or in the business of banking. Such nonassociation employees may be trained in the use of the facilities by association employees.

(3) An establishing association shall not be deemed to make a facility available on a nondiscriminating basis, if through personnel services offered, advertising on or off the facility premises, or otherwise, it discriminates in the use of the facility against any user association, federal savings and loan association, bank or banks.

(4) Off-premises electronic satellite facilities and manned electronic satellite facilities may be established and maintained by an association or by a group of two or more associations or a combination of association or associations and a third party. No one, through personnel services offered, advertising on or off the facility premises, or otherwise, may discriminate in the use of the facility against any other user association, federal savings and loan association, bank or banks desiring to use the services of the facility.

RESOLUTION

LEGISLATIVE RESOLUTION 31.

Introduced by Agriculture and Environment Committee: Schmit, 23rd District, Chairman; DeCamp, 40th District; Maresh, 32nd District; Kennedy, 21st District; Rumery, 42nd District; Dickinson, 31st District; Kime, 43rd District; Burrows, 30th District.

WHEREAS, the sale of meat and meat products at retail is almost universally on a cash basis; and

WHEREAS, retail sellers of meat and meat products, in purchasing their products from packers and other wholesalers, almost universally delay payment for said products from seven to twenty-eight days; and

WHEREAS, the delay in paying for said meat and meat products results in the receipt of interest income by said retailers of many millions of dollars annually, at the expense of packers and other wholesalers; and

WHEREAS, packers and other wholesalers pass this interest loss on to producers of livestock by various means of delaying payment to said producers, who, being unable to pass the resultant losses on, bear the total burden of this practice; and

WHEREAS, this practice of delayed payments is not only inherently unfair, but also dangerous in that:

1. It permits an accumulation of unpaid debts to producers, who have little recourse in case of bankruptcy;

2. It permits producers (retailers) to operate in an insolvent condition because of the informal and unconsented-to loans extracted from the sellers of these commodities;

3. It places an unacceptable burden on the cattle producing industry, which is already in the worst economic crisis in history.

NOW, THEREFORE BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-FOURTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the United States Department of Agriculture is urged to take whatever regulatory steps are necessary to require that any purchaser of

meat and meat products pays for such meat and meat products promptly, and that practices used in delaying the collection of funds for such products be eliminated.

2. In the event the United States Department of Agriculture is unwilling or unable to adequately require such prompt payment, then the U.S. Congress is urged to take whatever steps are necessary to accomplish this end.

Laid over.

Monday, April 21, 1975

Pursuant to adjournment, the Legislature met at 10:00 a.m., President Whelan presiding.

PRAYER

The prayer was offered by Rev. Everett Hezmall, Associate Pastor, Westminster Presbyterian Church, Lincoln.

> O Lord God when we, thy children are apprehensive about the affairs of our world, remind us that Thou art in Thy world as well as above and beyond it. Remind us that thou art not indifferent.
>
> The feet that were wounded on the Cross still walk the trails of earth. The heart that was broken on the tree still feels the pang of every human woe.
>
> We pray for a broader vision of the needs of all mankind, and a deeper compassion to fill those needs; for a planting of the seeds of concern for all humanity in our hearts; for a tapping of the wells of generosity.
>
> Bless those who bear legislative responsibility for our state and nation. May they be led to do the right as thou dost give them to see the right. May the material and human resources, be harnessed to serve the greater ends of human brotherhood, and may the laws which are enacted serve the cause of justice, tempered with equity and mercy; that freedom shall liberate us from selfishness - to serve the Higher power. MESSAGE FROM THE GOVERNOR

April 21, 1975

Mr. President, Mr. Speaker,
and Members of the Legislature
State Capitol Building
Lincoln, Nebraska

Dear Mr. President and Senators:

I return herewith LB 473 without my signature and with my objections which are threefold.

First, the measure is unconstitutional as is apparent by even cursory reading and substantiated by the Attorney General's opinion, copy attached.

Secondly, most objective students of government would recognize this as an attempt at unwarranted invasion of the executive branch of government by the legislative. Specifically, with regard to gubernatorial duties, the bill eliminates approximately 60 days of the time historically granted the Governor for his important budget making duties. With regard to a newly elected incoming chief executive, he could be allowed only ten working days to prepare a budget which requires months of work if properly prepared.

Thirdly, such unreasonable demands on the Governor and his staff are not necessary. There is no need whatsoever for the Appropriations Committee and its extensive staff to be delayed by one hour or one day in their deliberations as some incorrectly imply. That committee now has full authority to proceed with their investigation and considerations at will, and any delays are of their own making.

Yours very truly,

(Signed) J. James Exon
Governor

ATTORNEY GENERAL'S OPINIONS

April 18, 1975

Honorable J. James Exon
Governor, State of Nebraska
Capitol Building
Lincoln, Nebraska

Dear Governor Exon:

You direct our attention to L. B. 473 which has been passed by the Legislature and in your possession for signing. This bill deals with the Governor's budget under the provisions of Section 7, Article IV, Constitution of Nebraska. Section 7 provides that the Governor shall present, by message, a complete itemized budget of the financial requirements of all departments, institutions and agencies of the state and a budget bill to be introduced by the Speaker of the Legislature at your request. The purpose of the bill is to fix certain times within which various acts with relation to the budget shall be accomplished.

Under Section 3 of the act the forms for budget requests shall be distributed to the various state agencies by August 1 of each year. The budget request by the agency (under Sections 2 and 3) must be filed by the agency with the Director of Administrative Services on or before October 15 of each year. Section 2 of the act further provides that no extension of the deadline for filing these budget requests shall be granted.

Section 4 of this act provides for a penalty. It is new language. Very simply, it provides that any state agency which fails to submit its budget request by October 15 shall have the name of the agency and the name of the chief executive officer of the agency published in a newspaper of general circulation which publication shall state the noncompliance of such agency with this act. In addition, subsection(2) of Section 4 provides that the salary of the chief executive officer of the agency "shall be withheld and forfeited for each day that the budget is not filed after October 15." We note that there is no savings or severability clause in the bill nor any indication that the bill is to be effective at any other date than that provided for in Article III, Section 27, of the Constitution. A reading of Section 4, L. B. 473, indicates to us that it is the intent of this penalty provision to apply to all agencies of the State of Nebraska which submit their budget to the Governor. This would include the various constitutional officers as well as those executive officers who might head departments created by the Legislature.

The immediate question which appears is that by imposing a penalty under the conditions stated whether this effects a change in salary of the officers concerned. We note that the term executive officer is not defined in the act. We would suggest that the chief executive officer of the office of Secretary of State is the Secretary of State. Under Article IV, Section 1, Constitution of Nebraska, this officer has a fixed term. Under Section 19, Article III, his salary cannot be increased or diminished during his term. We suggest that the same is true as to the Governor, the Attorney General, the State Treasurer, the State Auditor, and the Public Service Commission.

Certainly, with respect to these officers, Section 4 is clearly invalid. Can then, the bill be valid as to those executive officers who do not have a term of office. We are convinced that it cannot. In Fitzgerald v. Kuppinger, 163 Neb. 286, 79 N. W. 2d 547, our court pointed out that when it was intended that an act apply to both constitutional and legislative created offices and the act was inseparable, if the act was found to be invalid as to constitutional offices that such an act was invalid in whole and could not be enforced against the legislative created offices. The present bill is similar to that.

We might point out, in addition, that this provision might be otherwise unenforceable. In the first place, we find no definition of the term chief executive officer of the agency. In the case of a board or a commission there could be some question. Also, it is not clear who is to enforce the provisions of this penalty section. There is further no indication by what manner the penalty is to be enforced. In the absence of notice and hearing, even were we to assume this section to be valid otherwise, it could well be invalid as a violation of due process of law as a penalty is to be assessed without provision for notice and hearing. For the foregoing reasons, we are of the opinion that Section 4 of L. B. 473 is clearly in violation of the Constitution of the State of Nebraska.

Yours very truly,

PAUL L. DOUGLAS
Attorney General

Opinion No. 63
April 17, 1975

Dear Senator Rasmussen:

In your letter of April 14, 1975 you ask whether in our opinion the proposed change in the residency requirements of Section 80-301, R. S. Supp., 1974, set forth in Legislative Bill 595 would be constitutional.

Section 80-301, R. S. Supp., 1974, as amended by Legislative Bill 595 would require all applicants to the Nebraska Veterans' Home to have been bona fide Nebraska residents for at least two years immediately preceding their application.

The United States Supreme Court has recently had occasion to consider the question of the constitutionality of such durational residency requirements. The Court held unconstitutional a Tennessee statute which required one year's residence within the state and three months' residence within the county as a prerequisite to register to vote. Dunn v. Blumstein, 92 S. Ct. 995, 405 U. S. 330, 31 L. Ed. 2d 274. In Graham v. Richardson, 91 S. Ct. 1848, 403 U. S. 365, 29 L. Ed. 2d 534, the Court struck down

an Arizona welfare law which required persons to be citizens or to have resided within the state for a period of years. More directly on point the Supreme Court declared unconstitutional another Arizona statute which required indigent persons to have resided within the state one year in order to qualify for nonemergency medical care. Memorial Hospital v. Maricopa County, 94 S. Ct. 1076 (1974).

These durational residency requirements have generally been held unconstitutional as volitive of a constitutionally protected right to travel among the states and therefore volitive as denying these various persons of the equal protection of the law.

Based upon the discussion set out above it would be our opinion that the constitutionality of this portion of Legislative Bill 595 would be most difficult to defend.

If we can be of further assistance on this matter please let us know.

Sincerely,

PAUL L. DOUGLAS
Attorney General

MESSAGE FROM THE GOVERNOR

April 18, 1975

Vincent D. Brown
Clerk of the Legislature
State Capitol Building
Lincoln, Nebraska

Dear Mr. Brown:

This will acknowledge receipt of your letter of April 14, 1975, enclosing Legislative Resolution 28.

For the record, I am enclosing herewith a copy of the Attorney General's opinion on this matter which I believe is self-explanatory. For the record, I think it would be well if the Attorney General's opinion were entered into the legislative journal.

I wold hope that the Legislature would appreciate that I am not in a position to abide by their Resolution, since such action would be in violation of my oath of office.

Sincerely,

(Signed) J. James Exon
Governor

JJE:ah
Enclosure

April 14, 1975

The Honorable J. James Exon
Governor of Nebraska
State Capitol
Lincoln, Nebraska

Dear Governor Exon:

In your letter of April 10, 1975, you request our opinion as to your authority to expend money from the Governor's Emergency Fund to improve the dike which is presently protecting the sandpit immediately upstream from the Hanson Lake development.

Provision is made for the Governor's Emergency Fund, and its use, by Section 81-829.42, R. S. Supp., 1974. This section is far too long to be set forth in full herein, but in general, it makes provision for the use of this Fund to meet disaster emergencies. The report from the Nebraska National Guard, which you enclosed with your letter, does not disclose any imminent danger of flooding, but only points out that the dike involved is

seriously weakened, and would probably we washed away in the event of very high water in the Platte River.

This dike was constructed by private developers on private property, and we find no indication in the statutes dealing with the Governor's Emergency Fund that the Fund could be expended for the repair of such private sturctures, particularly in the absence of an imminent threat of danger from a particular flood. Many towns and inhabited places on many streams throughout the state are periodically endangered by flooding. The Governor's Emergency Fund was not designed to authorize the Governor to erect or maintain flood control structures to protect such municipalities or inhabited places. Another question that would need to be considered is the legality of the dike itself. In Bahm v. Raikes, 160 Neb. 503, 70 N. W. 2d 507 (1955) the court said:

> "It is beyond the area of argument in this state that a riparian owner may not dam, obstruct, or dike against floodwaters of a running stream to the injury of a lower landowner. * * *." (160 Neb. at 515)

We cannot, of course, assess the effect of the dike in question upon other land bordering on the Platte River. However, it is obvious that the homes to be protected are in the flood plain of the river, and that water prevented from flowing in the natural flood channel must necessarily go somewhere else, possibly upon the land of someone who would not otherwise be flooded. A court might therefore very well find that the dike was unlawful, and assess damages caused by it, or require its destruction. The state, by participating in the maintenance of this dike, might subject itself to liability to other property owners along the river. Or, after the state had expended money for the maintenance and improvement of the dike, a court might order the dike torn down.

The general law on the question of obstruction of flood plains is clouded somewhat by Sections 2-1506.01 to 2-1506.14, R. R. S. 1943, and by L.B. 108, which, under some circumstances, seem to authorize obstructions of flood channels. However, we do not believe that any of these sections of the statutes are applicable to the dike in question. There is also the question of whether the construction of such dike by the state would be in violation of Article XIII, Section 3 of the Nebraska Constitution which forbids the lending or giving of the credit of the state in aid of any individual, association or corporation.

Very truly yours,
PAUL L. DOUGLAS
Attorney General

ATTORNEY GENERAL'S OPINIONS

Opinion No. 66
April 23, 1975

Dear Senator Syas:

In your letter of April 16, 1975, you inquire about the constitutional validity of the provision in LB 339 that the Convention and Visitor Committee appointed to administer the Convention and Visitor Fund provided for in the act shall include one member who shall be a representative of the Chamber of Commerce. We believe this is not subject to constitutional attack.

In an opinion of this office dated January 24, 1961, Report of the Attorney General, 1961-62, page 15, we reached the conclusion that a provision that at least one member of the Game, Forestation and Parks Commission be actually engaged in agricultural pursuits and an actual resident of a farm or ranch was valid. We held that it was not arbitrary or unreasonable for the Legislature to decide that groups most affected should be represented on the commission.

We do not believe that Wittler v. Baumgartner, 180 Neb. 446, 144 N. W. 2d 62 (1966), invalidates the provision in question. In that case, the limitations on appointment were so severe that only certain specified persons could be appointed, and the court held this to be appointment by the Legislature, and therefore encroachment on the powers of the

Governor. Obviously, many different persons could be appointed to represent the Chamber of Commerce.

A similar provision is found in Section 2-1504, R. S. Supp., 1974, providing for the composition of the Nebraska Natural Resources Commission. That section provides that one of the members to be appointed by the Governor shall represent the Chambers of Commerce. The validity of the entire legislation of which this was a part was attacked in Neeman v. Nebraska Natural Resources Commission, 191 Neb. 672, 217 N. W. 2d 166 (1974). The court ruled invalid the designation of some members of the commission, but not the one designated to represent the Chambers of Commerce. While the court did not discuss this particular provision, its failure to strike it down, in face of the broad, general attack on the composition of the commission, seems to give some support to the validity of such a provision.

Obviously, Chambers of Commerce are usually actively engaged in general promotional activities, and in attempting to attract conventions and visitors to the cities in which they are located. Representation of Chambers of Commerce on the committee administering the programs contemplated by this act does not seem unreasonable or arbitrary. We therefore believe the provisions would be sustained by the court.

Very truly yours,

Clerk of the Legislature

Opinion No. 67
April 22, 1975

Dear Senator DeCamp:

You have requested our opinion as to the constitutionality of proposed legislation which would effect certain changes in the Nebraska Uniform Commercial Code. In effect, the proposed bill would provide that in all sale transactions where it turns out that the buyer is insolvent the purchase transaction is void and the "purported seller" can reclaim and recover the goods either in its original or substituted or altered form or the accounts or proceeds therefrom.

Under the Uniform Commercial Code in its present form some secured creditors are entitled to immediate and automatic liens against subsequently acquired collateral of their debtors. However, the proposed bill would eliminate such liens, except to the extent that the secured

creditor may have given new value or credit in a "reasonable amount." The troublesome feature of the bill is that it is expressly made retroactive so as to affect prior transactions except those transactions on which "an action at law or in equity has been reduced to a final judgment."

Articles 3 and 16 of the Bill of Rights to the Constitution of the State of Nebraska provide that no person shall be deprived of property without due process of law and that no law shall be passed impairing the obligation of contracts. A recognized exception to this constitutional prohibition has been developed with respect to certain types of legislation; such as laws respecting penalties for usury. The Nebraska Installment Loan Act originally provided that a loan made in violation of the Act was void and that the licensee had no right to collect or receive any principal, interest, or charges whatsoever. In 1963 the Legislature amended the Installment Loan Act to provide that a loan made in violation of the Act shall not on that account be void, but that the licensee shall simply have no right to collect or receive any interest or charges, with the principal indebtedness being unimpaired. This amendment further provided that the penalty provisions as amended shall apply to all transactions made prior to the effective date of the Act except where an action on such a transaction had been reduced to final judgment.

Davis v. General Motors Acceptance Corp., 176 Neb. 865, 127 N.W. 2d 907, involved the conditional sales contract purchase of a truck which had been entered into prior to the 1963 amendment to the Installment Loan Act. The plaintiffs contended that insomuch as their loan was in violation of the Act that the entire contract was void and that the lender had no right to collect either interest or principal. Relying upon Article I, Sections 3 and 16 of the Nebraska Constitution, the plaintiffs contended that the 1963 amendment could not be retroactively applied to prior transactions. However, the Nebraska Supreme Court disagreed and, in so doing, quoted with approval from a United States Supreme Court decision as follows:

> "Perhaps the leading case in the United States on this question is Ewell v. Daggs, 108 U.S. 143, 2 S. Ct. 804, 27 L.Ed. 682. That case involved a Texas statute which provided that contracts in violation of the statute 'shall be void and of no effect for the whole premium or rate of interest only.' * * * * * * Independent of the nature of the forfeiture as a penalty, which is taken away by a repeal of the act, the more general and deeper principle on which they are to be supported is, that the right of a defendant to avoid his contract is given to him by statute, for purposes of its own, and not because it affects the merits of his obligation; and that whatever the statute gives, under such circumstances, as long as it remains in fieri, and not realized by having passed into a completed transaction, may, by a subsequent statute, be taken away. It is a privilege that belongs to the remedy, and forms no element in the rights that inhere in the contract. The benefit which he has received as the consideration of the contract, which, contrary to law, he actually made, is just

> ground for imposing upon him, by subsequent legislation, the liability which he intended to incur. That principle has been repeatedly announced and acted upon by this court. Read v. Plattsmouth, 107 U.S. 568; and see Lewis v. McElvain, 16 Ohio, 347; Johnson v. Bentley, Ib. 97; Trustees v. McCaughy, 2 Ohio State, 152; Satterlee v. Mathewson, 16 S. & R. 169; S.C. in error; 2 Pet. 380; Watson v. Mercer, 8 Pet. 88. * * * The right which the curative or repealing act takes away in such case is the right in the party to avoid his contract, a naked legal right which it is usually unjust to insist upon, and which no constitutional provision was ever designed to protect. Cooley Constitutional Limitations, 378, and cases cited.' " (176 Neb. at 875, 876.)

The rule announced in the Davis case was reaffirmed in White Motor Co. v. Reynolds, 179 Neb. 91, 136 N.W. 2d 437, where the court said:

> "The defendant is attempting to claim a vested right to the forfeiture of all principal, interest, and charges which was the penalty provided in the Installment Loan Act before L.B. 17 was enacted. There is no vested right in a usury law and it may be repealed or changed so as to affect causes of action or defenses in pending suits. Davis v. General Motors Acceptance Corp., 176 Neb. 865, 127 N.W. 2d 907." (179 Neb. at 94.)

The bill which you submitted for our examination contains retroactivity language identical to that contained in the 1963 amendment to the Installment Loan Act; and we surmise that it was the intent of the drafter of the legislation to attempt to bring the bill within the application of the principle enunciated in the usury cases to the effect that the due process and impairment of contract clauses of the Constitution are inapplicable. However, we believe such a position is difficult to support, in view of certain other decisions of the Nebraska Supreme Court.

There are two well recognized rules of law in this jurisdiction which we think are applicable to the question under consideration. Generally speaking, the laws in force when a contract is entered into form a part of it and enter into its obligation; and a legislative act will not be permitted, even if an attempt to do so is disclosed, to operate retrospectively where it will have the effect to invalidate or impair the obligation of contracts or to interfere with vested rights. See, Dell v. City of Lincoln, 170 Neb. 176, 102 N.W. 2d 62.

In the depression year of 1937, the Nebraska Legislature enacted a moratorium law whereby owners of mortgaged real estate might be granted a stay of foreclosure proceedings. The moratorium act had the effect of denying or impairing the right of the mortgagee to enforce specific provisions in the mortgage covenants. In First Trust Co. v. Smith, 134 Neb. 84, 277 N.W. 762, a lending institution challenged the constitutionality of the moratorium law; and the Nebraska Supreme Court agreed with the plaintiff, saying:

"That the Nebraska moratorium act impairs the 'obligation of contracts,' and is thus embraced within the prohibitions of section 16 of our Bill of Rights, is unquestionably established by the authorities. * * * (citations omitted).

"This is admitted by appellees, both in their brief and in their argument presented at the bar of this court. Their rejoinder is that the legislature has power to pass laws which impair the obligation of contracts and violate the sections of the state Constitution referred to, and that an economic emergency or crisis is sufficient to call such power into action; that such emergency exists, and thereby the Nebraska moratorium is sustained.

"This moratorium, it may be said, is a postponement of fulfilment of obligations enumerated therein, decreed by the state through the medium of the legislature and the courts. Applying to a restricted class of debtors, it is in its nature essentially special, and in its essence is the application of the sovereign power. * * *.

"* * *. So, too, the contract clause of section 16 of our Bill of Rights may with equal truth be said, in a historical sense, to evidence the exercise of police power, and to have originated in an economic and financial emergency greater indeed than that from which we are now suffering. On this subject Chief Justice Hughes, in delivering the majority opinion in Home Bldg. & Loan Ass'n. v. Blaisdell, supra, says, in part:

" 'But the reasons which led to the adoption of that clause, and of the other prohibitions of section 10 of article I, are not left in doubt and have frequently been described with eloquent emphasis. The widespread distress following the revolutionary period, and the plight of debtors, had called forth in the states an ignoble array of legislative schemes for the defeat of creditors and the invasion of contractual obligations. Legislative interferences had been so numerous and extreme that the confidence essential to prosperous trade had been undermined and the utter destruction of credit was threatened. "The sober people of America" were convinced that some "thorough reform" was needed which would "inspire a general prudence and industry, and give a regular course to the business of society." The Federalist, No. 44. It was necessary to interpose the restraining power of a central authority in order to secure the foundations even of "private faith." The occasion and general purpose of the contract clause are summed up in the terse statement of Chief Justice Marshall in Ogden v. Saunders, 12 Wheat. pp. 213, 354, 355: "The power of changing the relative situation of debtor and creditor, of interfering with contracts, a power which comes home to every man, touches the interest of all, and controls the conduct of every individual in those things which he supposes to be proper for his own exclusive management, had been used to such an excess by the state

legislatures, as to break in upon the ordinary intercourse of society, and destroy all confidence between man and man. The mischief had become so great, so alarming, as not only to impair commercial intercourse, and threaten the existence of credit, but to sap the morals of the people, and destroy the sanctity of private faith. To guard against the continuance of the evil was an object of deep interest with all the truly wise, as well as the virtuous, of this great community, and was one of the important benefits expected from a reform of the government.'' ''

We believe there is a much closer analogy between the proposed bill under consideration and the moratorium case than there is with the usury cases. A creditors right to a lien (which would be defeated or impaired under the proposed bill) is not in the nature of a penalty (as in the case of usury laws); it is an integral and inherent obligation of the security agreement between the creditor and the debtor.

The conclusion just expressed not only is, we believe, supported by Nebraska case law, but also it appears to be in harmony with the general weight of authority in other jurisdictions, as is evidenced by the following excerpts from a standard legal encyclopedic work appearing in 16 Am. Jur. 2d, Constitutional Law:

"Under the restraint which the Fourteenth Amendment to the Federal Constitution imposes upon retrospective legislation, as well as under the restraints imposed thereon by state constitutional provisions expressly prohibiting the enactment of retrospective laws, a state cannot by a mere act of the legislature take property from one man and vest it in another directly; nor can such property, by the retrospective operation of laws, be indirectly transferred from one to another. Hence, a statute is unconstitutional which in effect, either by legislative fiat or by direct or indirect operation, takes the property of one man and gives it to another. Pursuant to this general principle, retroactive declaratory statutes will not be allowed to affect vested rights, and an act of the legislature declaring the interpretation to be placed upon a previous statute will not be allowed to affect transactions or rights of action which accrued prior to the enactment of such statute." (Section 426, p.767)

"Conformably to the well-established rule that the laws which subsist at the time and place of making a contract enter into and form a part of it as if they were expressly referred to or incorporated in its terms, the obligation of a contract is measured by the standard of the laws in force at the time it was entered into, and its performance is to be regulated by the terms and rules which they prescribe. There can be no other standard by which to ascertain the extent of the obligation than that which the terms of the contract indicate according to their settled legal meaning;

when it becomes consummated, the existing law defines the duty and the right, compels one party to perform the thing contracted for, and gives the other a right to enforce the performance by the remedies then in force. * * *." (Section 436, p.781)

"It is a fundamental principle of constitutional law in reference to the obligation of contracts that the laws in force at the time of making a contract and the right to a remedy enter into and form a part of it as if they were expressly referred to or incorporated in its terms, and that they likewise constitute a part of its obligation. This principle embraces alike those laws which affect its validity, construction, discharge, and enforcement.

"The remedy which is protected by the contract clause of the Constitution is something more than the privilege of having a claim adjudicated. Mere judicial inquiry into the rights of parties is not enough. There must be power to enforce the results of such an inquiry before there can be said to be a remedy which the Constitution deems part of the contract. Nothing is more material to the obligation of a contract than the means of its enforcement. The ideas of validity and remedy are therefore inseparable, and both are parts of the obligation which is guaranteed by the Constitution against impairment. Under the constitutional inhibition, it is immaterial whether the obligation of a contract is impaired by acting on the remedy or directly upon the contract–impairment in either case is prohibited." (Section 437, p.783)

"The repeal of a law which constitutes a contract is an impairment of its obligation. The obligation of a contract is impaired by a statute which alters its terms by imposing new conditions or dispensing with conditions, or which adds new duties, releases or lessens any part of the contract obligation, or substantially defeats its end.

"A law may be within the constitutional inhibition against impairment of contract obligations by implication, as well as by expression. It may also be stated that this constitutional provision is considered as rendering void any statute which is retrospective and which destroys a vested right of action arising ex contractu." (Section 445, p. 794)

"The test of impairment is met by a showing that the value of a contract has been diminished. New burdens cannot be imposed so as to decrease materially the value and benefit of a contract. Although a state may alter laws governing the remedy on a contract as long as an effective remedy is preserved, where it so lessens or impairs the value of the remedy as to lessen and impair the value of the contract, the law is void as impairing the obligation of contracts. * * *." (Section 447, p. 795)

"Whenever the law is so changed that the means of enforcing the duty imposed by a contract are materially impaired, the obligation of the contract no longer remains the same. Therefore, a constitution or a statute impairs the obligation of a contract if it prevents enforcement, tends to postpone or retard enforcement, or seriously interferes with the enforcement of the contract." (Section 448, p. 796)

More particularly relating to liens are the following text statements appearing in 16A C.J.S., Constitutional Law:

"Mortgages and pledges are recognized as within the protection of the contract clause of the constitution, and the obligations thereof may not be directly impaired by legislation. * * *." (Section 346, p.15)

"A lien created by act of the parties cannot, in general, be abrogated or impaired by a subsequent act of the legislature, for such an act would be within the inhibition of the constitution against the impairment of the obligation of contracts; * * *." (Section 386, p. 67)

It is not without some regret that we feel compelled to the conclusion that the retroactive aspect of the proposed bill probably is invalid; as we are mindful of the fact that many citizens of this state are faced with severe financial losses in connection with sales of livestock to an insolvent packing firm; and we also are aware that the retroactivity provision appears in the bill out of a good faith effort to alleviate some of such losses. Be that as it may, no matter how distressing the situation may be and no matter how commendable might be the legislative motivation, these circumstances cannot justify violation of clear constitutional mandates. As was pointed out in the mortgage foreclosure moratorium case previously discussed herein, at the time the Bill of Rights of our Constitution (including the impairment of contract clause) was adopted, the state and nation were in an economic and financial emergency greater than that from which the country was suffering in the depression of the 1930's.

In order that it may not be speculated that we may have overlooked the same, we do note that the proposed bill contains an express disclaimer of any intent to impair the obligation of existing contracts. Needless to say, such a perfunctory declaration cannot and does not alter the clear meaning and intent of the act itself.

Absent the retroactivity provision we find nothing otherwise unconstitutional about the proposed bill.

MESSAGE FROM THE GOVERNOR

April 24, 1975

Mr. President, Mr. Speaker,
and Members of the Legislature
State Capitol Building
Lincoln, Nebraska

Dear Mr. President and Senators:

I hereby return LB 267 and LB 267A without my signature and with my objections.

LB 267 provides that copies of all rules and regulations of every state agency be distributed to each county law library in the state. The accompanying "A" bill appropriates $120,000 to carry out the provisions of LB 267.

Presently, anyone wishing to review the rules and regulations of a state agency can do so by contacting either the state agency involved or the Secretary of State. Most state agencies presently voluntarily distribute copies of rules and regulations to those who request them. If there are isolated problems with regard to obtaining copies of rules and regulations, I am sure they can be individually corrected.

It is in the spirit of my message to your honorable body yesterday that I return these bills. Surely, there are higher priorities for the expenditure of $120,000, including the priority of not spending it at all.

Sincerely,
(Signed) J. James Exon
Governor

unless the owner has the minimum insurance coverages provided under sections 2, 3, 6, and 7 of this act on such motor vehicle.

Sec. 2. The coverage required under this act shall include indemnity from legal liability for bodily injury, death, or property damage arising out of ownership, maintenance, or use of the vehicle to the limit, exclusive of interest and costs, of at least thirty thousand dollars for any one accident or to the limit prescribed in the Motor Vehicle Safety Responsibility Act, whichever is greater.

The coverage required under this act shall include compensation to injured persons for reasonable and necessary expenses for medical, hospital, dental, surgical, medicine, X-ray, ambulance or prosthetic services, professional nursing and funeral services, and for loss of earnings and reasonable and necessary extra expense for personal services which would have been performed by the injured person had he not been injured, arising out of an accident involving such motor vehicle and incurred or medically ascertainable within twelve months of such accident. Such compensation shall have minimum limits of ten thousand dollars for any one person and twenty thousand dollars for all persons injured in any one accident and maximum compensation for funeral services of two thousand dollars per person.

Sec. 4. The coverage required by section 3 of this act shall be applicable to each person occupying such motor vehicle and to any other person injured in an accident involving such motor vehicle, other than an occupant of another motor vehicle.

Sec. 5. The owner of a vehicle may elect to have the coverage described in section 3 of this act written subject to certain deductibles, waiting periods, sublimits, percentage reductions, excess provisions and similar reductions offered by insurers in accordance with filings made by such insurers with the Department of Insurance, applicable to expenses incurred as a result of injury to the owner of the vehicle or members of such owner's household. (b) Any property in or upon the vehicle when the owner of such property is not occupying the vehicle.

(3) The election provided in subsection (2) of this section shall be made in writing and signed by the owner of the vehicle. The insurer issuing such policies may not require such reductions. Any reductions shall be

Sec. 9. Only insurance policies validly issued by companies authorized to write in this state all the kinds of insurance embodied in the required coverages shall satisfy the requirements of this act.

Sec. 15. Each insurance policy shall require the insurer to submit to arbitration a claim for damage to a motor vehicle, other than the insured motor vehicle, including loss of use of such vehicle upon the request of the owner of the damaged vehicle. (4) The Director of Insurance or his nominee shall promulgate such rules and regulations as shall be necessary to implement the arbitration program provided in section 15 of this act.

(5) The right to require such arbitration shall be purely optional and neither party shall be held to have waived any of their rights by any act relating to arbitration.

Sec. 17. The Director of Insurance shall establish a schedule of costs of arbitration. The arbitrators fee shall not exceed twenty-five dollars per arbitrator for any one arbitration. The cost of arbitration shall be borne equally by the parties to the arbitration.

Sec. 18. There is hereby created a fund, to be known as the Arbitration Cash Fund, from which shall be appropriated such amounts as are available therefrom and as shall be considered incident to the administration of arbitration by the Department of Insurance. The fund shall contain the costs of arbitration as provided under section 17 of this act, which shall be paid into the state treasury and the State Treasurer shall credit the money to the Arbitration Cash Fund.

Dear Senator Nichol:

In reply to your inquiry concerning the provisions of the above bill this is to advise that in our opinion legislation would be necessary in order for a city to create underground wiring districts.

While the creation of such a district in an undeveloped or newly subdivided area could or would be effective it is doubtful that such a district could be made effective in an old established area already served by overhead wiring if the bill provided for assessment of all of the costs against the property owner. The reason for this, as I explained to you in more detail, is because of the principle that you can only assess a property owner for a service provided, and providing electricity by underground wiring would probably not be providing a service not already available to an old established area by overhead wiring.

We might ask, have those who suggested the need for the creation of underground wiring districts considered amending section 16-667, R. R. S. 1943, to include such districts?

Very truly yours,

Opinion No. 71
April 23, 1975

Dear Senator Warner:

Neb. Rev. Stat. Section 79-4,164 (Supp. 1974) limits the general fund expenditures of a school district over its expenditures for the preceding year to an amount which is based, in part, on the Consumer Price Index, as established by the UnitedStates Department of Labor, and the Wholesale Price Index, as established by the United States Department of Commerce. In your letter of inquiry you question whether the use of the Consumer Price Index and the Wholesale Price Index in that statute is an unconstitutional delegation of legislative power and state that you are asking the question at this time so that the Legislature could have the opportunity to amend the statute if, in our opinion, the statute is unconstitutional. Your question is hereinafter discussed.

It is well settled law that the Legislature may lawfully enact a statute in which it adopts by reference an existing law or regulation of another jurisdiction including the United States. Hamilton v. Foster, 155 Neb. 89, 50 N.W. 2d 542 (1951); Lincoln Dairy Co. v. Finigan, 170 Neb. 777, 104 N.W. 2d 227 (1960). It is also settled law that the Legislature, except as expressly authorized by the Constitution of Nebraska, may not lawfully enact a statute in which it adopts (1) administrative rules of a federal agency to be promulgated in the future or (2) an act of Congress of the United States to be passed in the future. Smithberger v. Banning, 129 Neb. 651, 262 N. W. 492 (1935). Consequently, the critical legal problem associated with Neb. Rev. Stat. Section 79-4,164 (Supp. 1974) is the possibility that the United States Department of Labor or the United States Department of Commerce, or both, may establish certain criteria to determine the above stated indices different from the criteria which was established to determine these indices at the time Neb. Rev. Stat. Section 79-4,164 (Supp. 1974) became operative law. If that were to occur, Neb. Rev. Stat. Section 79-4,164 (Supp. 1974) would obviously be rendered inoperative and the constitutionality of LB 984, Eighty-Third Legislature, Second Session, would be placed in jeopardy. We therefore suggest that the Legislature should consider adopting, during this session, an appropriate amendment to Neb. Rev. Stat. Section 79-4,164 (Supp. 1974).

Very truly yours,

ATTORNEY GENERAL'S OPINION

Opinion No. 72
April 28, 1975

Dear Senator Kennedy:

Re: L.B. 243

You have asked this office for an opinion concerning the constitutionality of L.B. 243 which makes binding arbitration negotiable in labor contracts. In our opinion, the constitutionality of such an authorization of binding arbitration in public labor contracts is questionable and it may be difficult to defend.

Section 3 of L.B. 243, which amends Section 48-816, R.R.S. 1943, adds binding aribitration to the list of things which are negotiable between public employers and public employees and authorizes the public employer and public employee to enter into an agreement concerning the same. Purportedly this section would apply to state officers, both constitutional and otherwise, and state employees. In order for the statutory provision to be constitutional it must be found to be constitutional as applied to all of these persons. Fitzgerald v. Kuppinger, 163 Neb. 286, 79 N.W. 2d 547 (1956). In order for that provision to be constitutional, therefore, it must be found that the Legislature may constitutionally authorize a constitutional officer to enter into a contract for binding arbitration.

Article IV, Section 1, of the Constitution of the State of Nebraska grants the following power to all constitutional officers, as well as the heads of all executive departments established by law:

> ". . . Subject to the provisions of this Constitution, the heads of the various executive or civil departments shall have power to appoint and remove all subordinate employees in their respective departments."

On its face that provision of the Constitution grants the executive officers the power to deal with their employees in their respective departments. There is no grant of the authority to delegate this power to a private person as would be the case if they were allowed to contract for binding arbitration. Generally, a constitutional grant of power is not allowed to be delegated in the absence of a constitutional authorization for such delegation. State v. Leese, 37 Neb. 92, 55 N.W. 798 (1893); State ex rel. Meyer v. State Board of Equalization and Assessment, 185 Neb. 490, 176 N.W. 2d 920 (1970). Although both of the cases cited deal with the Legislature delegating its constitutional powers, there seems to be no sound reason why the executive branch should be treated differently in cases of the delegation of its discretionary or decision making power. For this reason it is questionable whether this legislative authorization of the executive delegation of power to an arbitrator is constitutionally permissible.

Some authority also exists that such a contract to submit to binding arbitration by a public official may be against public policy. This line of reasoning is stated in 63 Am. Jur. 2d, Section 310, at p. 814, as follows:

> An agreement which controls or restricts, or tends or is calculated to control or restrict, the free exercise of a discretion for the public good vested in one acting in a public official capacity is illegal and reprobated by the courts, so that no redress can be given to a party who sues for himself in respect of it. Public officers and boards will not be permitted to make any agreement among themselves, or with others, by which their public action is to be or may be restrained or embarrassed, or its freedom in any wise affected or impaired. Courts will hold invalid any agreement by governing bodies by which they abdicate any of their legislative powers, or circumscribe the limits of such powers, or diminish their efficiency. . . ."

This office also has a question concerning the constitutionality of Section 5 of L.B. 243. That section provides as follows:

> "Any agreement between public employers and employees which has been bargained for pursuant to the provisions of Chapter 48, article 8, shall be binding upon the parties to such agreement."

That section would seen to controvene the requirement of legislative approval of any agreement with the State of Nebraska or any agency thereof as provided by Section 48-837, R. R. S. 1943. Section 5 would appear to make such a contract binding without the consent of the Legislature and therefore appears to be amendatory to Section 48-837. Article III, Section 14, of the Constitution of the State of Nebraska provides in part as follows:

". . . And no law shall be amended unless the new act contain the section or sections as amended and the section or sections so amended shall be repealed. . . ."

It is at least arguable that Section 5 of L. B. 243 amends Section 48-837 without containing that section or repealing that portion which is repugnant as required by the Constitution of the State of Nebraska. Therefore, we also find it questionable whether Section 5 of L. B. 243 is constitutional.

Yours very truly,

PAUL L. DOUGLAS

The budgets shall show all expenditures proposed by the board, and the revenue anticipated from tuition and all other sources. Such budgets shall be submitted by August 1 to the state board. The state board shall review such budgets and attach its recommendations thereto and

The distribution of state funds shall be made to each college and area office on July 1, October 1, January 1 and April 1 of each year. Such appropriation shall be from the General Fund or other available funds. The balance of the budget for each area shall be raised by the area board from tuition and other nontax sources. The state board shall advise each area board of the budget and appropriation for that area.

Sec. 7. There is hereby created a fund to be known as the State Board of Technical Community College Cash Fund, and from which shall be appropriated such amounts as are available. All sums of money except state and federal funds received by the state board shall be paid into the state treasury and by the State Treasurer deposited in the State Board of Technical Community College Cash Fund. The State Treasurer shall disburse to the state board such amounts in the cash fund as are available and shall be considered incidental to the administration and operation of the state board. SEVENTY-THIRD DAY

Legislative Chamber, Lincoln, Nebraska
Thursday, May 1, 1975

Pursuant to adjournment, the Legislature met at 9:01 a.m., President Whelan presiding.

PRAYER

The prayer was offered by the Chaplain.

> God of our fathers, in whose name this republic was born, we pray that by thy help we may be worthy to receive thy blessings upon our labors. In this troubled time, when men have made deceit a habit, lying an art, and cruelty a science, help us to show the moral superiority of the way of life we cherish. Here may men see truth upheld, honesty loved, and kindness practiced. In our dealings with each other, may we be gentle, understanding, and kind, with our tempers under control. In our dealings with other nations, may we be firm without obstinacy, generous without extravagance, and right without compromise. We do not pray that other nations may love us, but that they may know that we stand for what is right, unafraid, with the courage of our convictions. May our private lives and our public actions be consistent with our prayers. Through Jesus Christ our Lord. Amen.

Once approval is given for the facility of an establishing association, the director, upon notice and after a hearing, may revoke the approval for the establishing association facilities including its utilization of switches or may suspend the use of such facilities if he determines that those facilities are not available on a nondiscriminating basis, that the necessary information is not on file with the director, or that transactions originated by customers of user association are not being switched to processing centers. Nothing in this section may be construed to prohibit nonassociation employees from assisting in transactions originated at the facilities, and such assistance shall not be deemed to be engaging in the business of an association or in the business of banking. Such nonassociation employees may be trained in the use of the facilities by association employees.

Sec. 7. An establishing association shall not be deemed to make a facility available on a nondiscriminating basis, if through personnel services offered, advertising on or off the facility permises, or otherwise, it discriminates in the use of the facility against any user association, federal savings and loan association, bank or banks.

RESOLUTIONS

LEGISLATIVE RESOLUTION 37.

Introduced by Education Committee: F. Lewis, 45th District, Chairman.

WHEREAS, the Legislature has reaffirmed its position that all children, regardless of physical or mental capacity, are entitled to a meaningful education program; and

WHEREAS, the Legislature has mandated that it shall be the duty of each board of education to provide or contract for special education programs and services; and

WHEREAS, the confusing and chaotic situation has created uncertainty on the part of parents, educators, legislators, and other concerned citizens; and

WHEREAS, because of this situation, it is difficult to appraise Nebraska's stance regarding current national special education trends; and

WHEREAS, special education in the State of Nebraska is undergoing continued investigation of program accountability.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-FOURTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Education Committee of the Legislature conduct an interim study to identify the unique educational needs of handicapped persons in urban and local areas of the state.

2. That the committee direct special attention toward formulating recommendations for upgrading and improving educational programs for the handicapped to assist those agencies responsible for such programs.

3. That the committee make a report of its findings together with its recommendations to the next regular session of the Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 38.

Introduced by Education Committee: F. Lewis, 45th District, Chairman.

WHEREAS, there exists in the State of Nebraska an urgent need for enabling legislation to create Student Achievement Programs in state financed institutions of post-secondary education; and

WHEREAS, in 1970 at the University of Nebraska-Lincoln, and in 1971 at the state college in Chadron, federal programs of compensatory support services (college recruitment, developmental curricula, counseling, tutoring, and financial aid) were funded by the United States Office of Education (USOE) to advance the cause of Student Achievement; and

WHEREAS, the submission and approval of these proposals signaled a recognition by these institutions of the need for special educational services for low-income, disadvantaged persons residing in the State of Nebraska; and

WHEREAS, it is now obvious that the UNL/CSC Programs, in their separate manifestations are of such great potential to serve the low income, disadvantaged students of Nebraska, as to require in the public interest, their use as a prototypes for the establishment of Student Achievement Programs in all interested state financed post-secondary institutions of Nebraska; and

WHEREAS, statewide availability of such programs seems appropriate and desirable; and

WHEREAS, the federal government in a joint effort with the state government can effectively support Student Achievement Program Services in post-secondary institutions of the State of Nebraska; and

WHEREAS, the development of an interim study and concomitant enabling legislation for the establishment of Student Achievement Programs will provide an enlightened historical precedent in Nebraska's commitment to serve its low-income, underachieving citizenry.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-FOURTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Education Committee conduct an interim study of the Student Achievement Program concept with particular emphasis on methods of establishing such a program in Nebraska.

MESSAGE FROM THE GOVERNOR

May 1, 1975

Mr. President, Mr. Speaker,
and Members of the Legislature
State Capitol Building
Lincoln, Nebraska

Dear Mr. President and Seantors:

I hereby return LB 243 without my signature and with my objections, and two Attorney General's opinions attached hereto, supporting this action.

In the Attorney General's opinion to Senator Kennedy, there was addressed the matter of unconstitutional delegation of powers.

In the opinion of this date, at my request, the Attorney General has indicated further that even should LB 243 become law, he would rule that no such negotiations could or should be instituted by state officials.

Even aside from the legitimate constitutional questions, I do not concur that governmental officials should take even the first step towards "binding arbitration" with employees. While this practice is commonplace and proper in private industry, I feel that elected officials represent a constituency, and that the people and taxpayers do not expect legislators or constitutional officers to shirk their duty by "passing on" such decisions to unknown and non-responsible third parties called arbitrators. The buck should stop with elected officials and there should be no law authorizing a lateral pass to a third party.

In addition, LB 243 provides for pay increases for judges of the Court of Industrial Relations; however, no "A" bill to fund this section was passed.

Yours very truly,

(Signed) J. James Exon
Governor

The Honorable J. James Exon
Governor of Nebraska
State Capitol Building

Re: Legislative Bill 243

Dear Governor Exon:

You have asked this office what our advice would be to the state labor negotiating team or to any state executive officer regarding the negotiation of a proposed binding arbitration agreement if L.B. 243 were to become law.

Our advice would be that a state executive officer should not delegate the constitutional power granted to him by Article IV, Section 1 of the Nebraska Constitution for the same reasons we expressed in the opinion

regarding L.B. 243 requested by Senator Kennedy. Article IV, Section 1 specifically grants to state executive officers the power "to appoint and remove all subordinate employees in their respective departments." It is our opinion that these state officers cannot delegate this constitutional power except where the Constitution itself surrenders or abridges that power, or authorizes the delegation. State v. Leese, 37 Neb. 92 (1893); and State ex rel. Meyer v. State Board of Equalization and Assessment, 185 Neb. 490 (1970), which deal with the delegation of constitutional power granted to the Legislature, preclude such a delegation. We can see no significant difference where dealing with the delegation of constitutional power granted to state executive officers.

This office would also advise against entering such a binding arbitration agreement with the labor union because the state would be unable to enforce such an agreement. The Nebraska Supreme Court in the case of Rentschler v. Missouri Pacific Railroad Company, 126 Neb. 493, 253 N.W. 694 (1943) held that such an agreement to submit to binding arbitration is against public policy and void being contrary to Article I, Section 13 which guarantees to every person the access to the courts. The Supreme Court cited Rentschler with approval and followed that case in Poppert v. Brotherhood of Railroad Trainmen, 187 Neb. 297, 189 N.W.2d 469 (1971), at pages 303 and 304 so that the present law of Nebraska clearly is that such a binding arbitration agreement is not enforceable. See also, Sandobal v. Armour & Co., 429 F.2d 249 (8th Cir. 1970).

Therefore, our advice to the state labor negotiating team or to any state executive officer regarding the negotiation of a proposed binding arbitration agreement would be that such an agreement should not be entered into because the state would be unable to enforce such an agreement. This is so because first it is questionable whether a state executive officer could constitutionally delegate any such power to an arbitrator and, second, because at the present time such binding arbitration agreements are not enforceable in the State of Nebraska.

Yours very truly,

PAUL L. DOUGLAS
Attorney General

1. On page 2, insert a new section 1 as follows:
"Section 1. That section 8-157, Revised Statutes Supplement, 1974, as amended by section 2, Legislative Bill 269, Eighty-fourth Legislature, First Sesion, 1975, be amended to read as follows:
8-157. (1) No bank shall maintain any branch bank and, except as provided in subsection (2) or subsections (3) to (9) of this section, the general business of every bank shall be transacted at the place of business specified in its charter.
(2) With the approval of the director, (a) any bank may maintain an attached auxiliary teller office, and (b) any bank may establish and maintain not more than two detached auxiliary teller offices, to be used as motor vehicle and walkup off-street banking facilities, such offices to be within the corporate limits of the city in which such bank is located. Any bank that establishes and maintains two auxiliary teller offices shall locate one of such offices within three miles of the premises specified as its place of business in its charter. Neither shall be located within three hundred feet of another nonparticipating bank or within fifty feet of another auxiliary teller office. The services of such auxiliary teller offices whether attached to or

detached from the bank shall be limited to receiving deposits of every kind and nature, cashing checks or orders to pay, issuing exchange, and receiving payments payable at the bank.

(3) With the approval of the director, any bank or banks may establish and maintain any number of electronic satellite facilities or manned electronic satellite facilities at which all banking transactions defined as receiving deposits of every kind and nature and crediting such to customer accounts, cashing checks and cash withdrawals, transfer of funds from checking accounts to savings accounts, transfer of funds from savings accounts to checking accounts, transfer of funds from either checking accounts and savings accounts to accounts of other customers, payment transfers from customer accounts into accounts maintained by other bank customers or the bank, including preauthorized draft authority, preauthorized loans and credit transactions, receiving payments payable at the bank or otherwise, and such other transactions that the Director of Banking upon application, notice, and hearing may approve, may be conducted. Such electronic satellite facilities or manned electronic satellite facilities may be established only by a bank as defined in subdivision (4) of section 8-101 or by a national banking association whose main chartered office is located in the State of Nebraska. Neither such electronic satellite facilities, the manned electronic satellite facilities, nor the transactions conducted thereat shall be construed as the establishment of a branch bank or as branch banking. Such facilities shall be available on a nondiscriminating basis for use by customers of any other bank becoming a user bank. It shall not be deemed discrimination if a facility does not offer the same transaction services as other facilities.

Any bank may become a user bank by agreeing to pay the establishing bank its pro rata transaction and other costs, including a reasonable return on capital expenditures incurred in establishing and maintaining such facilities. The establishing bank shall file with the director the information necessary to originate a transaction at any facility. Such information must contain a means of designating the bank or processor to which such transactions shall be switched, and must also contain information adequate to perform authorization of cash withdrawal and other transactions authorized by this section. The director shall make such information available to any other bank desiring to become a user bank. The establishing bank shall be responsible for transmitting transactions originating from its facility to a switch, but nothing contained in this section may be construed to provide that any in-house or auxiliary teller office premises transactions shall be required to go through a switch. The director shall refuse to approve the establishment of any electronic satellite facilities or manned electronic satellite facilities unless such facilities will be available on a nondiscriminating basis through methods and processes that the establishing bank has provided for switching transactions. Once approval is given for the facility of an establishing bank, the director, upon notice and after

a hearing, may revoke the approval for the facility or may suspend the use of such facility if he determines that it is not available on a nondiscriminating basis, that the necessary information is not on file with the director, or that transactions originated by customers of user banks are not being switched to processing centers. Nothing in this section may be construed to prohibit nonbank employees from assisting in transactions originated at the facilities, and such assistance shall not be deemed to be engaging in the business of banking. Such nonbank employees may be trained in the use of the facilities by bank employees.

(4) An establishing bank shall not be deemed to make a facility available on a nondiscriminating basis if, through personnel services offered, advertising on or off the facility premises, or otherwise, it discriminates in the use of the facility against any user bank.

(5) Off-premises electronic satellite facilities and manned electronic satellite facilities may be established and maintained by a bank or by a group of two or more banks or a combination of a bank or banks and a third party. No one, through personnel services offered, advertising on or off the facility premises, or otherwise, may discriminate in the use of the facility against any other user bank desiring to use the services of the facility.

(6) It is an intent of this section that this section shall apply to banks chartered by the State of Nebraska and all national banking associations whose main chartered offices are located in the State of Nebraska and that there be an equal opportunity to all Nebraska banks for the use of and access to a switch and that no discrimination shall exist or preferential treatment be given in either the operation of such switch or the charges for use thereof. The operation of such switch shall be with the approval of the Director of Banking. Approval of such switch shall be given by the Director of Banking when he shall determine that its design and operation are such as to provide access thereto and use thereof by any Nebraska bank without discrimination as to access or cost of its use.

(7) If the director, upon notice and hearing, determines at any time that the design or operation of a switch or provision for use thereof does discriminate against any bank in providing access thereto and use thereof either through access thereto or by virtue of the cost of its use, he may revoke his approval of such switch operation and forthwith order the discontinuance of the operation of such switch.

(8) If it shall be determined by the Director of Banking, after notice and hearing, that discrimination against any bank has taken place or that one bank has been preferred over another or that any bank or person has not complied with any of the provisions of this section, he shall forthwith issue a cease and desist order or an order for compliance within ten days from the date of the order and upon noncompliance with such order, the offending bank shall become ineligible to receive and hold any deposits of any nature of the State of Nebraska or any political subdivision thereof.

(9) The provisions of sections 8-101 and 8-157 shall apply to banks and their activities. ~~only.~~ ~~Nothing in such sections may be construed to provide any authority for any nonbank institution to engage in any of the banking transactions enumerated in this section.~~ When reference is made in this section to activities by third parties, such activities shall be limited to the ownership, operation, and maintenance of electronic satellite facilities.

(10) Nothing in this section shall prohibit ordinary clearing house transactions between banks.".

2. On page 3, after line 1 insert:

"Sec. 3. Nothing in section 1 of this act shall prohibit building and loan associations as defined in sections 8-301 to 8-345 from establishing and operating new electronic satellite facilities or manned electronic satellite facilities."; in line 5 strike "is" and insert "and section 8-157, Reissue Revised Statutes of Nebraska, 1943, as amended by section 2, Legislative Bill 269, Eighty-fourth Legislature, First Session, 1975, are".

ATTORNEY GENERAL'S OPINION

Opinion No. 73
May 2, 1975

Dear Senator DeCamp:

Referring to our opinion letter to you dated April 22, 1975 (Opinion No. 67), you now submit the following questions:

"1. In those cases -- if there are any -- in which rights have not vested, would this bill apply retroactively.
2. The Agriculture Committee has been informed that responsible legal people believe that in those cases involving American Beef in which no legal action have been filed, no rights have vested yet. Assuming a court would to conclude that no rights have been vested would this bill then retroactively apply to those cases.
3. I realize that you may disagree with this assumption on vested rights, but for the purposes of discussion on the bills possible retroactivity, I would like to know whether the bill could apply if the court determined the rights vested."

In our previous opinion we pointed out that under the Uniform Commercial Code in its present form some secured creditors are entitled to immediate and automatic liens against subsequently acquired collateral of their debtors; the so-called "floating lien." Further, we concluded that such liens were in the nature of contractural rights the impairment of which by subsequent legislation is forbidden by the Constitution. Thus, as is anticipated in your letter, we do not agree with any assumption that no rights under such liens become vested until legal action thereon is instituted.

However, assuming such to be the case, then the proposed legislation (now LB 601) could be made retroactively applicable to prior transactions. And this would be true with respect to any other nonvested rights arising under the code. Conversely, with respect to rights arising under the code which were vested at the time of enactment of the amendatory bill, in our opinion there could be no retroactive application to prior transactions in such a way as to impair those vested rights.

Very truly yours,
PAUL L. DOUGLAS
Attorney General

RESOLUTION

LEGISLATIVE RESOLUTION 41.

Introduced by Kremer, 34th District.

WHEREAS, Agriculture is the most important sector in the economy of the State of Nebraska; and,

WHEREAS, the use of irrigation systems by agriculture producers and farmers generally is regarded as a critical factor to the development of Agriculture and hence the economy of the State of Nebraska; and,

WHEREAS, the Federal Power Commission has recently suggested that it may curtail the use of natural gas for irrigation use, notwithstanding the fact that this could cause severe and irreparable harm to Agriculture and notwithstanding the fact President Ford has repeatedly said that Agriculture should be in a high priority for using the nation's energy resources; and,

WHEREAS, revenue generated by farm production is a significant determinant of the export equation and is thus directly tied to the balance of payments for the entire economy of the United States.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-FOURTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Legislature of the State of Nebraska urge the President to work with the Congress in an effort of mutual cooperation to prevent the implementation of curtailment programs affecting the supply of natural gas for irrigation use.

2. That an urgent plea be made that the members of the Nebraska Congressional delegation in Washington, D. C. make a special effort to secure passage of remedial legislation and executive action to effectuate such legislation.

3. That during the time the President and the Congress are working toward a legislative resolve of this critical issue, the Federal Power Commission refrain from the imposition of natural gas curtailment programs for irrigation use.

4. That this resolution of the Governor of Nebraska and the Nebraska Legislature be made known to the Honorable President Gerald Ford, President of the United States, and also the members of the Nebraska Congressional delegation, as well as to the commissioners of the Federal Power Commission.

ATTORNEY GENERAL'S OPINION

Opinion No. 74
May 6, 1975

Dear Senator Kennedy:

In your letter of May 5, 1975, you call our attention to a proposed amendment to LB 604. LB 604 is an appropriation bill. The amendment in question would amend the appropriation to the Governor's Emergency Fund by providing that $92,000 of the sum appropriated to that fund should be used to provide flood protection for the protection of citizens in

and about Cris and Hanson Lake. You ask our opinion as to the validity of such an amendment.

We believe that there are at least two problems with the amendment in question. First, no attempt is made to amend the general statutes specifying the types of projects for which the Governor's Emergency Fund may be used. The purpose of an appropriation bill is to appropriate money to a fund. The general purposes for which the appropriated sums may be used must be spelled out in general legislation, as has been done with respect to the Governor's Emergency Fund. Section 81-829.42, R.S. Supp., 1974, establishes the Governor's Emergency Fund, and provides the purposes for which it may be used. In general, it authorizes expenditures from that fund only for emergencies. Expenditures from the fund for general flood control or protection, in the absence of some disaster emergency, would, in our opinion, be foreign to the purposes spelled out in Section 81-829.42. We therefore conclude that the proposed amendment of LB 604 could not operate to amend the general statute dealing with the Governor's Emergency Fund, and would not authorize the expenditure of the designated fund for the purpose contemplated by the amendment.

Second, we question whether the Legislature could authorize and direct the expenditure of state money for this special purpose even if Section 81-829.42 were amended. Article III, Section 18, of the Constitution provides in part:

> "The Legislature shall not pass local or special laws in any of the following cases, that is to say:
>
> "* * * * *.
>
> "Granting to any corporation, association, or individual any special or exclusive privileges, immunity, or franchise whatever; * * *. In all other cases where a general law can be made applicable, no special law shall be enacted."

Any legislation which deals with named individuals or specific property owned by private individuals is suspect of being in violation of the above constitutional provision. For example, in Cox v. State, 134 Neb. 751, 279 N. W. 482, the Legislature had waived the sovereign immunity of the state, and authorized suit against it by a particular individual for injuries sustained by the negligence of state employees. The court held this to be special legislation, saying:

> "Legislative Bill No. 20 involves the right of an individual to sue the state, and the state in such bill creates a liability in the individual's favor that heretofore did not exist by virtue of general statute. The legislature is without force to pass a special law creating a liability in behalf of an individual and authorizing such individual to institute suit, in the absence of a general statute

providing liability on the part of the state for the negligence of its agents and servants. * * *."

There is also the question of the possible violation of Article XIII, Section 3, of the Constitution which provides that the credit of the state shall never be given or loaned in aid of any individual, association, or corporation. Perhaps general flood control legislation, providing for the erection of flood control structures along streams to protect private property might be upheld. However, a provision for the erection or repair of a particular dike on particular privately owned property to protect a particular privately owned area would probably be held to violate Article XIII, Section 3, of the Constitution.

In conclusion, we are of the opinion that the proposed amendment would not accomplish its apparent purpose because of the failure to amend the section dealing with the Governor's Emergency Fund, and that if it did, our court might very well find it to be in violation of one or more constitutional provisions.

Very truly yours,

PAUL L. DOUGLAS

ATTORNEY GENERAL'S OPINION

Opinion No. 76
April 29, 1975

Dear Senator Bereuter:

You have requested our opinion as to whether proposed amendments to Legislative Bill 410 might invalidate the bill as being in violation of Article III, Section 14 of the Nebraska Constitution. The Constitution provides that no bill shall contain "more than one subject, and the same shall be clearly expressed in the title."

L.B. 410, in its present form, relates only to zoning regulations and the regulation of subdivision of property in certain municipalities. The amendments proposed for incorporation into L.B. 410 relate to sewer and water districts in certain types of municipalities. Both L.B. 410 and the

proposed amendments thereto provide for the amendment of various existing sections of the statutes pertaining to cities and villages.

Following are some of the general rules which are applicable to the interpretation and construction of constitutional provisions such as that contained in Article III, Section 14 of the Nebraska Constitution, as found in 73 Am. Jur. 2d, Statutes:

> "The constitutional prohibition of more than one subject in an act does not impose any limitation on the comprehensiveness of the subject, which may be as comprehensive as the legislature chooses to make it, provided it constitutes, in the constitutional sense, a single subject and not several. To constitute plurality of subject, an act must embrace two or more dissimilar and discordant subjects, that by no fair intendment can be considered as having any legitimate connection with or relation to each other. * * *. Generally speaking, the courts are agreed that a statute may include every matter germane, referable, auxiliary, incidental, or subsidiary to, and not inconsistent with, or foreign to, the general subject or object of the act. The constitutional provision is not intended, nor should it be so construed as, to prevent the legislature from embracing in one act all matters properly connected with one general subject or object, but the term 'subject' or 'object' as used in these provisions is to be given a broad and extended meaning, so as to allow the legislature full scope to include in one act all matters fairly, reasonably, naturally, logically, properly, or directly or indirectly connected with, or related to, each other or the same subject or object. * * *."(Sec. 125, pp. 338, 339)

> "It has been held that amendments by a single statute of any number of sections of some particular subject matter contained in a single chapter, title, or other division of a code do not violate the provision that no act shall contain more than one subject. * * *." (Sec. 133, p. 344.)

We find no decision of the Nebraska Supreme Court which is closely analogous to the situation presently under discussion. However, it is evident from some of the reported Nebraska decisions involving interpretation of Article III, Section 14, that Nebraska does follow the general rules enunciated in the foregoing text quotations.

In Midwest Popcorn Co. v. Johnson, 152 Neb. 867, 43 N.W. 2d 174, construing Article III, Section 14, the court said:

> "* * *. An act, no matter how comprehensive, is valid as containing but one subject if a single main purpose is within its purview and nothing is included within it except that which is naturally connected with and incidental to that main purpose.***." (152 Neb. at 872)

In Anderson v. Tiemann, 182 Neb. 393, 155 N.W.2d 322, the constitutionality of the Nebraska Revenue Act was attacked as being, among other things violative of Article III, Section 14 of the Constitution. That act contained three general subdivisions: (a) sales and use tax; (b) income tax; and (c) general provisions concerning the administration of both state and municipal sales and use taxes. Notwithstanding the very broad and far-reaching provisions of the act, the court concluded that it did not contain more than one subject within the meaning of the Constitution. The court said:

> "* * *. If an act has but one general object, no matter how broad that object may be, and contains no matter not germane thereto, and the title fairly expresses the subject of the bill, it does not violate Article III, Section 14 of the Constitution." (182 Neb. at 408)

Of course, the mere fact that a bill may contain amendments to more than one existing section of the statutes does not mean that the bill contains more than one subject. See, Dorrance v. County of Douglas, 149 Neb. 685, 32 N.W.2d 202.

It seems to us that there is sufficient general subject relationship between such matters as zoning and the regulation of subdivisions on the one hand and the regulation of sewer and water improvements on the other within cities and villages, that both could be said to be naturally connected with and incidental to a single main purpose and, therefore, that the legislation covers but one general subject or object.

We are of the opinion that the incorporation of these two legislative measures into a single bill would not offend against Article III, Section 14 of the Constitution, assuming that the title were appropriately amended to conform to the newly incorporated provisions therein.

Very truly yours,

PAUL L. DOUGLAS
Attorney General

WHEREAS, the State of Nebraska was given civil and criminal jurisdiction over Indians and Indian country in this state by the Act of Congress of August 15, 1953, generally known as Public Law 280; and

WHEREAS, the assumption of such jurisdiction has led to steadily increasing cost for law enforcement in Thurston County, Nebraska; and

WHEREAS, an overwhelming percentage of the criminal offenses which occur in Thurston county involve Indians within the boundaries of the Indian reservations of Thurston County, Nebraska; and

WHEREAS, law and order on the Winnebago Indian Reservation could be adequately maintained and enforced by a law enforcement organization of the Winnebago Tribe of Nebraska with the assistance of the Bureau of Indian Affairs; and

WHEREAS, the Winnebago Tribe can adquately handle civil disputes arising within the Winnebago Indian Reservation among and between Indians; and

WHEREAS, the Legislature of Nebraska in its Eightieth regular session passed Legislative Resolution 37 which offered a retrocession of jurisdiction to the United States over offenses committed by or against Indians in the Indian country in Thurston County, Nebraska; and

WHEREAS, in 1969 the Thurston County Board of Supervisors urged retrocession on the Winnebago Tribe, which at that time preferred to remain under state jurisdiction in order to study the matter in more detail, but has now decided it wants criminal and civil jurisdiction returned to the Winnebago Tribe and the United States; and

WHEREAS, section 403 (a) of Public Law 90-284 authorized the United States to accept a retrocession by any state of all or any measure of the criminal or civil jurisdiction, or both, acquired by that state pursuant to Public Law 280; and

WHEREAS, a committee of members of the Legislature appointed by the Executive Board of the Legislative Council following adoption of Public Law 90-284 has studied the problems of law enforcement on the Winnebago Indian Reservation and the question of a retrocession of criminal and civil jurisdiction and has met with leaders of the Winnebago Tribe, County officials and officials of the Bureau of Indian Affairs and recommends passage of this resolution.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-FOURTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the State of Nebraska hereby retrocedes to the United States all criminal and civil jurisdiction within the Winnebago Indian Reservation acquired by the State of Nebraska pursuant to Public Law 280 of 1953, except as provided in paragraphs 2, 3, and 4 of this resolution.

2. That the existing municipal law enforcement authorities within the Winnebago Indian Reservation are deemed fit and proper to maintain law and order within their respective municipalities and their jurisdiction will remain, concurrent with that of the United States.

3. That the State of Nebraska, through the State Highway Patrol, shall retain concurrent jurisdiction with the United States over any offenses involving the operation of motor vehicles on state and county roads or highways with the Winnebago Indian Reservation.

4. That this retrocession of jurisdiction will apply prospectively upon adoption by the Nebraska State Legislature and acceptance by the Secretary of Interior.

5. That the Executive Board of the Legislative Council is hereby authorized and directed to take all necessary action to present this resolution to the United States Government and to cooperate with the Winnebago Tribe in its implementation.

ATTORNEY GENERAL'S OPINION

May 8, 1975

Re: L.B. 507

Dear Senator DeCamp:

This is in reply to your inquiry concerning the provisions of the above bill as amended by Standing Committee Amendment dated April 28, 1975.

Without considering the possible unconstitutionality of the bill in its present form we call to your attention the fact that the Board of Educational Lands and Funds does not have the responsibility of the investment of the permanent school fund. Under the provisions of Section 72-1243, R.R.S. 1943, all state funds, including the permanent school fund (see Opinion of the Attorney General No. 60, June 9, 1971) are invested by the State Investment Officer in those investments authorized by Section 72-1246, R. S. Supp., 1974.

Very truly yours,
PAUL L. DOUGLAS
Attorney General

ATTORNEY GENERAL'S OPINIONS

Opinion No. 79
May 9, 1975

Dear Senator Kremer:

This will acknowledge our receipt of your letter of 6 May, 1975. In that letter you state that the committee amendments to L. B. 344, Eighty-fourth Legislature, First Session, have been adopted and are, in fact, the bill. In connection therewith you have asked for our opinion on the constitutionality of four (4) amendments to the aforesaid committee amendments. The same are hereinafter discussed.

This office has previously offered its opinion which is reported on pages 1004 to 1006 of the Legislative Journal, that the amendments to L. B. 344 provide local control over technical community colleges and that the property tax provisions of section 15 thereof does not violate Article VIII, section 1A of the Nebraska Constitution. However each of the four (4) amendments to the committee amendments to L. B. 344, supra, would materially alter this legislative bill and our aforesaid opinion.

Subject to certain conditions, section 15 of the committee amendments would permit the Technical Community College Board of Governors for each of the six technical community college areas of the state to certify to the county board of equalization of each county within the area served a mill levy of not to exceed two mills, uniform throughout such area, for the purpose of supporting operating expenditures of the college. In addition, section 15 of the committee amendments would permit a mill levy, not to exceed one mill, for the purpose of establishing a capital improvement fund, a bond sinking fund, or for the retirement of general obligation bonds. The power to levy up to one mill for this purpose would not exist after June 30, 1980. Senator Goodrich's amendment thereto, which is published on page 1611 of the Legislative Journal, would permit the Technical Community College Board of Governors of any technical community college located in any area containing a metropolitan class city to levy until June 30, 1986, for the purpose of campus acquisition and

construction. Consequently such areas would be treated differently than those technical community college areas in which there is no metropolitan city. The question of equal protection of the law, or the lack of it, is therefore evident. It should be kept in mind, however, that there is nothing in the Constitution of this state or of the United States which ipso facto forbids the classification of subjects for the purpose of legislation, so long as the classification is not arbitrary. Halter v. State, 74 Neb. 757, 105 N. W. 298 (1905). The rule is well established that while it is competent for the legislature to classify, the classification, to be valid, must rest on some reason of public policy, some substantial difference of situation or circumstances, that would naturally suggest the justice or expendiency of diverse legislation with respect to the objects classified. While there may be some such reason that would support the Goodrich amendment it is not readily evident. We are therefore of the opinion that this amendment casts a cloud on the constitutionality of the committee amendments to L. B. 344, supra.

Senator Burrow's amendment, which is published on page 1603 of the Legislative Journal, would also amend section 15 of the committee amendments. This amendment would limit the combined levy to two and one half mills of any technical community college located in any area containing a metropolitan city without prior approval by a majority vote of the qualified electors of the area. Again, there may be a legally acceptable reason which would permit such diverse legislation for technical community college areas but it is not readily evident. In our opinion this amendment likewise casts a cloud on the constitutionality of the committee amendments to L. B. 344, supra.

Senator Marvel's amendment, No. 1, which is published on page 1613 of the Legislative Journal, would also amend section 15 of the committee amendments. This amendment would permit the Legislature to set the final capital construction budget for each technical community college area notwithstanding that the budget would be raised by local property taxes. Consequently it would remove a portion of the control over the local area to the state. In State ex rel. Western Technical Community College Area v. Tallon, 192 Neb. 201, 219 N. W. 2d 454 (1974), the court stated:

> "* * *. The direct control by the State over capital expenditures, the right to contract for acquisition and additions, and to control and direct which facilities and training will be available in which area, together with the complete and direct control of the individual budget of each technical community college, demonstrate the dominance of the State as opposed to the local areas in all major matters of control and operation of the statutory system. It is undoubtedly true that such direct control will result in a more efficient and coordinated operation and avoid expensive and uneconomical duplication of facilities and services. Those particular objectives in themselves reflect the dominance of

a purpose to benefit the state as a whole." (192 Neb. at 211-12)

It is therefore our opinion that this amendment would make the act unconstitutional.

Senator Marvel's amendment No. 2, which is published on page 1614 of the Legislative Journal, would define "tuition income" and would distribute state aid to the technical community colleges in the same proportion as tuition income of each technical community college area. Although tuition charges and fees may vary from area to area under this amendment, the practical effect is to force uniform tuition rates. In State ex rel. Western Nebraska Technical Community College Area v. Tallon, supra, the court also stated:

> "* * *. The provisions requiring that the tuition in any technical community college area for any resident of the State of Nebraska shall be the same as for any resident of the particular area is strong indication of the legislative purpose to benefit residents of the entire state as contrasted to residents of particular local areas." (192 Neb. at 211)

Consequently this amendment likewise casts a cloud on the constitutionality of the committee amendments to L. B. 344 supra. It would also appear to be contrary to the intent set forth in section 1 of the amendments.

Lastly, you have asked what is the cumulative effect of the acoption of all four of the above amendments on the constitutionality L. B. 344. Perhaps we can best answer this question by merely saying that if these amendments were to be adopted the cumulative effect would result in a situation in which it would be very difficult, if not impossible, to successfully defend the constitutionality of L. B. 344, supra.

Very truly yours,

PAUL L. DOUGLAS

Opinion No. 80
May 8, 1975

Dear Senator Rasmussen:

You have requested our opinion as to the amended version of Legislative Bill 525, which would be known as the State Electrical Act.

In our February 27, 1975 letter to you we invited attention to possible deficiencies in Sections 16, 25, 27, 34 and 36, for the reason that provision was made therein for determination of license applicants' qualifications according to "approved standards" and "accepted standards," with no further specification or guidelines as to what the standards should be. These possible deficiencies appear to have been adequately remedied in the amended bill.

Section 16 now provides that an applicant shall be licensed when it has been demonstrated that "he is qualified to undertake and perform work in his trade or skill, to the end that any such work will be safely and properly accomplished and installed in accordance with approved standards, based upon minimum standards set forth in the National Electric Code, for such work." (Emphasis ours.)

Section 25 (Section 26 in the amended bill) now provides that if an inspector finds that "any installation is not in compliance with accepted standards of construction for safety to life and property, based upon minimum standards set forth in the National Electric Code, he shall by written order * * *." (Emphasis ours.) The underscored language did not appear in the original bill but was added in the amended version.

Section 27 (Section 28 in the amended bill), Section 34 (Section 35 in the amended bill) and Section 36 (Section 37 in the amended bill), all dealing with matters relating to inspections, correction orders and compliance, now also contain language similar to that above quoted from original Section 25 (26 in the amended bill). The National Electric Code, referred to in the sections which we have mentioned, is identified in Section 5(5) of the amended bill as being the Code "issued and adopted by the National Fire Protection Association in 1975, Publication Number 70-1975."

In our February 27, 1975 opinion we called attention to Section 2(4) of L.B. 525 which provides a job classification of "special electrician" for persons installing or repairing "special classes of electrical wiring, apparatus, or equipment;" and we called attention to the fact that there appeared to be no definition or specification as to what constitutes "special classes." Section 2(5) of the amended bill contains this additional language: "Such special classes of electrical wiring installations shall include, but not be limited to, fire alarm installation, well pump wiring, irrigation system wiring, and security system installation;"

We believe that that portion of L.B. 525 hereinabove discussed is now substantially free from constitutional infirmities.

Another question which we raised in our February 27, 1975 communication to you related to Sections 31 and 36. Those sections purported to relieve the supplier of electrical service from all liability in cases of subsequent damage or loss arising from any cause if the job had been inspected and approved. We expressed the feeling that such a provision might well be contrary to public policy and violative of constitutional quarantees of due process and equal protection. Section 32 of the amended act now reads as follows:

"Upon inspection and approval by any certified inspector, all liability upon any supplier of electrical service for subsequent damage or loss arising from any installation shall be terminated, except for any acts of gross negligence by such supplier. There shall be no liability on the part of the supplier of electrical service for installations in service prior to the effective date of this act, or for installations put in service prior to inspection and certification as provided by this act."

It is a well established principle of law that the state of the law at the time a contract is entered into form a part of it and enter into its obligation and, accordingly, the legislative act will not be permitted to operate retrospectively where it will have the effect of invalidating or impairing the obligation of contracts or interfering with vested rights. Dell v. City of Lincoln, 170 Neb. 176, 102 N.W.2d 62. Instead of complete immunity from liability, as was provided in the original draft, the present language of Section 32 would permit recovery for damage or loss arising from gross negligence by a supplier. Undoubtedly the Legislature has the power to so limit liability with respect to the transactions and rights accruing subsequent to the enactment of the bill. However, with respect to prior transactions the validity of such a limitation is questionable. As to contracts for the supplying of electrical service entered into previously, a supplier would have been liable for damages or loss under the common law doctrine of ordinary negligence. Accordingly, in order to avoid finding this provision unconstitutional, we assume that the courts would construe the same as having prospective effect only and not as applicable to prior transactions. It follows from what we have said that the provision in the second sentence of Section 32, to the effect there shall be no liability for installations in service prior to the effective date of the act, probably is void as constituting an impairment of contracts and interfering with vested rights as to any causes of action which may have accrued with respect to prior service installations. Moreover, this latter provision might well be considered as a violation of Article I, Section 13 of the Nebraska Constitution which provides that all courts shall be open and that every person shall have a remedy by due course of law for any injury done him. However, we do not feel that this provision would have been such a material inducement to the enactment of the complete bill so as to invalidate the entire act.

The final matter mentioned in our letter of February 27, 1975, had to do with Section 21(7) which would exempt from licensure requirements any person repairing electrical equipment for use on the farm or in the home in municipalities having a population of less than 2,500. Section 21(7) in the amended bill now simply provides that a license is not required of "any person in municipalites which have a population of less than 5,000 inhabitants." Assuming that the original subsection might have been subject to some question as to being an unlawful classification, it is doubtful that the amendment accomplishes any particular curative effect.

Be that as it may, by no means are we suggesting that the provision clearly constitutes unlawful classification; but, rather, we merely stated that "arguably" it might. Such a determination is essentially a factual matter, to be made upon the basis of the legal principle that where reasons exist for a legislative classification, which are not superficial or baseless, the courts will not interfere--even though the classification necessarily is somewhat arbitrary. See, Dorrence v. County of Douglas, 149 Neb. 685, 32 N.W.2d 202. In any event, here again is a situation where the invalidity of one particular part of the bill should not have the effect of invalidating the entire enactment.

Very truly yours,

PAUL L. DOUGLAS
Attorney General

42-371. (1) All judgments and orders for payment of money under sections 42-347 to 42-379 shall be liens upon property as in other actions and may be enforced or collected by execution and the means authorized for collection of money judgments. The judgment creditor may execute a partial or total release of the judgment, generally or on specific property. Release of judgments for child support must be approved by the court which rendered the judgment. The judgment debtor may petition

the court which rendered the original judgment for an order releasing the lien as to specific property. The court shall grant the relief prayed for in the petition upon a showing by the judgment debtor that sufficient property shall remain subject to the lien to cover all child support due and that which may become due.

A copy of the application and a notice of hearing shall be served on the judgment creditor either personally or by registered or certified mail no less than ten days before the date of hearing. If the court finds that the release is not requested for the purpose of avoiding payment and that the release will not unduly reduce the security, the court may release property from the judgment lien. As a condition for such release, the court may require the posting of a bond with the clerk in an amount fixed by the court, guaranteeing payment of the judgment.

(5) The court may in any case, if it finds it necessary, order a person required to make payments under sections 42-347 to 42-379 to post sufficient security with the clerk to insure payment. Upon failure to comply with the order the court may also appoint a receiver to take charge of the debtor's property to insure payment.".

MESSAGE FROM THE GOVERNOR

May 12, 1975

Mr. Vince Brown
Clerk of the Legislature
State Capitol Building
Lincoln, Nebraska

Dear Mr. Brown:

We have received Engrossed Legislative Bills Nos. 32, 298, 395, and 447, and Reengrossed Legislative Bills Nos. 306 and 387.

These bills were signed by me on May 9, 1975 and delivered to the Secretary of State.

Very truly yours,

ATTORNEY GENERAL'S OPINION

Opinion No. 81
May 12, 1975

Dear Senator Dickinson:

You have written to this office stating that the members of the Appropriations Committee of the Legislature state that they are prohibited by statutory law from authorizing a capital appropriation until after an official copy of the program statement of the agency proposing such is delivered to them. You refer specifically to Section 81-1108.41, R.S. Supp., 1974. You then ask if the foregoing section or any other statute makes it mandatory that a program statement be provided the Appropriations Committee prior to committee action recommending authorization of an appropriation for capital planning and/or construction.

We have reviewed the provisions of Section 81-1108.41, R.S. Supp., 1974. This section states that no contract for the planning, design, or construction of a new facility or major modification or repair of an existing facility "provided for by any state appropriation may be initiated unless an acceptable program statement has been approved by the Governor and the conditions of the contracts are approved in writing by the Governor; * * *." This section of the statutes further provides that a written report on such proposal shall be filed with the Governor and the Executive Board of the Legislative Council. With reference to your specific question, we see no requirement in this section of the statutes which would prevent the consideration of such an appropriation by the Appropriations Committee or would prevent the enactment of such an appropriation by the Legislature. We note that this particular section of the statutes is directed toward the initiation of a contract. Were an appropriation to be made then the steps contemplated by this section may well be accomplished subsequent to such an appropriation.

In addition, we are aware of no other provision of the statutes which attempts to inhibit the Appropriations Committee from considering and even recommending any appropriation which the Legislature has the

authority to make. We might add that it is certainly within the prerogative of the Appropriations Committee to insist upon any justification from the agency concerned in justification of the proposed appropriation. This is a matter within the discretion of that committee.

Yours very truly,

PAUL L. DOUGLAS
Attorney General

MESSAGE FROM THE GOVERNOR

May 13, 1975

Mr. President, Mr. Speaker and
Members of the Legislature
State Capitol Building
Lincoln, Nebraska 68509

Dear Mr. President and Senators:

I would urge your honorable body to reconsider your recent actions in adopting the Chambers amendment to LB 381.

LB 381 makes permanent the 55 m.p.h. speed limit mandated by the President and Congress. The Congressional mandate requires each state to adopt and enforce a maximum 55 m.p.h. speed limit.

If effective enforcement cannot be certified and proved to the Federal Department of Transportation, Nebraska will lose its entire federal highway construction money. After having just won a lawsuit against the federal government over the impoundment of our highway trust money, it would be foolhardy for the Legislature to embark on a course which would place our road money in jeopardy.

The Chambers amendment effectively eliminates any penalty for violation of up to 10 m.p.h. over 55 m.p.h. speed limit. Such action would

put Nebraska out of compliance with the federal law, encourage violation of traffic laws, and weaken Nebraska's point system which until this time has been an effective and strong deterrent to irresponsible driving habits.

Once again, I would respectfully suggest that you reconsider your action so that Nebraska will not be forced to face some very undesirable consequences.

Yours truly,

(Signed) J. James Exon
Governor

ATTORNEY GENERAL'S OPINION

Opinion No. 82
May 13, 1975

Dear Senator Goodrich:

In your letter of April 28, 1975, you indicate that since the enactment of Legislative Bill 104 a question has arisen concerning the validity of its title in light of the requirements of Article III, Section 14, of the Nebraska Consti- tution and you question whether further action by the Legislature would therefore be required.

Section 14 of Article III of the Constitution of the State of Nebraska requires in part that:

> "No bill shall contain more than one subject, and the same shall be clearly expressed in the title."

The Nebraska Supreme Court in Duerfeldt v. State, 184 Neb. 242, 166 N.W. 2d 737(1969), stated:

> "Where the title of an act fairly gives expression to the general subject matter contained in the act, such act will not be held invalid as being broader than its title."

The Supreme Court additionally held in Duerfeldt, with respect to the construction of titles:

> "The provisions of the Constitution relating to titles are to be liberally construed so as to admit of the insertion in a legislative act of all provisions which although not specifically expressed in the title, are comprehended within the objects and purposes of the act as expressed in the title. . . ."

The Supreme Court also interpreted Section 14 of Article III in Mehrens v. Bauman, 120 Neb. 110, 231 N.W. 701 (1930) and Spier V. Thomas, 131 Neb. 579, 269 N.W. 61(1936), and reached the same conclusions as stated in Duerfeldt.

In light of the liberal interpretations given Section 14 of Article III of the Constitution of the State of Nebraska, and after an examination of the title to Legislative Bill 104, we are of the opinion that this title is valid and not in conflict with the Nebraska Constitution.

Sincerely,

PAUL L. DOUGLAS
Attorney General

ATTORNEY GENERAL'S OPINION

Opinion No. 83
May 14, 1975

Dear Senator Koch:

In your letter of April 24, 1975, you ask for our interpretation of Article IV, Section 7, of the Constitution of the State of Nebraska, with respect to the Governor's addressing the Legislature. Article IV, Section 7, provides in pertinent part:

> "The Governor may, at the commencement of each session, and at the close of his term of office and whenever the Legislature may require, give by message to the Legislature information of the condidtion of the state, and shall recommend such measures as he shall deem expedient. At a time fixed by law, he shall present, by message, a complete itemized budget of the financial requirements of all departments, institutions and agencies of the state. . . . "

This section provides that the Governor may address the Legislature at the commencement of each session, at the close of his term of office, as provided elsewhere by law, and whenever the Legislature shall require.

The procedure for determing the desire of the Legislature is specifically left to that body in Article III, Section 10, of the Nebraska Constitution. Article III, Section 10, provides in part:

> ". . . [T]he Legislature shall determine the rules of its proceedings . . . ."

The Legislature has provided that the Governor may be admitted to the floor upon permission of the chair in Rule 2, Sec. 3(c) of the Rules of the Nebraska Unicameral and have further provided in Rule 7(A), Sec. 1 (c) for receipt of messages from the Governor at any stage of the legislative proceedings.

It would appear that the Governor's ability to address the Legislature is not founded solely upon Article IV, Section 7, but is also derived from an application of the Rules of the Nebraska Unicameral drawn pursuant to the authority granted it in Article III, Section 10, of the Nebraska Constitution.

Sincerely,

PAUL L. DOUGLAS
Attorney General

MOTION–Vietnam Doctors

We move that due to the overwhelming response of Nebraska communities to the action of this Legislature which took the first necessary steps to provide access to this state for the refugee doctors from Vietnam by sending a delegation of Nebraska State Senators to California to inform those refugee doctors that the State of Nebraska stood ready to receive them, that the Nebraska Legislature and the Governor of the State use the necessary resources of the state including National Guard air craft if necessary to provide transportation to this state for those refugee doctors who are presently being interviewed in California by a delegation of

Nebraska State Senators. The purpose of this would be to assist those Nebraska communities who wish to secure the services of a physician.

RESOLUTION

LEGISLATIVE RESOLUTION 56.

Introduced by Goodrich, 20th District.

WHEREAS, there are many agencies in this state providing human services; and

WHEREAS, it is the first duty of the state to meet the personal needs of its citizens with as little duplication and waste as possible, together with ensuring that no area of the state is omitted from the delivery of human services; and

WHEREAS, the legal, program, and administrative inter-relationships of these agencies result in public confusion; and

WHEREAS, having many agencies providing human services suggests a lack of efficiency and costly duplication; and

WHEREAS, there are now numerous agencies in the state dealing with human services that have offices in some areas and not in others, making it necessary for some citizens to travel from building to building, and city to city to have their needs cared for; and

WHEREAS, the administrative details in Nebraska involved in the processing, diagnosing, evaluating, counseling and administering assistance has become so complicated that it may very well have reached self-defeating proportions; and

WHEREAS, the system of referral is used to bypass those individuals whose requirements are difficult to meet, while agencies compete for the easy to serve; and

WHEREAS, the provision of services to eligible persons must be the primary emphasis of the human services agencies, rather than self-perpetuation; and

WHEREAS, significant federal, state, and local funds are allocated annually for human services; and

WHEREAS, there is a need to evaluate the current level of human services in the state and their effectiveness; and

WHEREAS, there is a need to identify gaps in human services and to evaluate the effectiveness and efficiency of the service delivery system; and

WHEREAS, there is a need to assure the sound and coordinated development of all services and to assure the availability of human services where the need exists; and

WHEREAS, there is currently no statewide planning and coordination of human services.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-FOURTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a select committee of senators be appointed to conduct a thorough study of the current delivery of human service programs, giving special attention to (a) the elimination of waste and duplication, (b) areas lacking sufficient human services programs, (c) ease of accessability to human service programs,and (d) the desirability of regional organization of such programs. Such human service programs to be studied would include, but not be limited to:

(A) Mental Retardation
(B) Mental Health
(C) Public Health
(D) Vocational Rehabilitation
(E) Technical Assistance Agency
(F) Youth Services
(G) Special Education
(H) Corrections
(I) Welfare
(J) Aging
(K) Drug Abuse

2. That such committee investigate the feasibility of a human resource agency to coordinate and control the quality of human services.

3. Study the feasibility of creating a Human Resources Ombudsman-type function which would both disseminate information to the public concerning services available and refer the public to the appropriate Human Services function and provide follow-up to public inquiries.

4. That such committee, at the conclusion of its study, submit a report of its findings and recommendations for legislation to the next session of the Legislature.

Referred to the Executive Board.

ATTORNEY GENERAL'S OPINION

Opinion No. 86
May 15, 1975

Dear Senator Chambers:

This is in response to your inquiry concerning the constitutionality of eliminating court costs for certain speeding convictions as proposed in an amendment to LB 381. The proposed amendment provides:

> "Any person convicted of exceeding by not more than ten miles per hour the speed limit on the National System of Interstate and Defense Highways shall be fined not more than ten dollars but no court costs shall be assessed against him."

We feel that this amendment, if adopted, could render LB 381 constitutionally suspect as "special legislation" which is generally prohibited under Article III, Section 18, of the Constitution of Nebraska. In Omaha Packing Authority v. City of Omaha, 163 Neb. 97, 77 N. W. 2d 862 (1956), the court set forth this rule to determine whether or not a particular legislative act was special legislation:

> ". . . The rule is well established that the legislature may, for the purpose of legislating, classify persons, places, objects or subjects, but such classification must rest upon some difference in situation or circumstance which, in reason, calls for distinction or circumstance which, in reason, calls for distinctive legislation for the class. The class must have a substantial quality or attribute which requires legislation appropriate or necessary for those in the class which would be inappropriate or unnecessary for those without the class. . . ."

In Fougeron v. County of Seward, 174, Neb. 753, 119, N. W. 2d 298 (1963), the court ruled:

> ". . . The power of classification rests with the Legislature and it will not be interferred with by the courts if real and substantial differences exist which afford a rational basis for classification. The act is not special if it operates uniformly upon a classification reasonably made. . . ."

Again, in Tom & Jerry, Inc. v. Nebraska Liquor Control Commission, 183, Neb. 410, 160 N. W. 2d 232(1968), the court ruled:

> ". . . While it is competent for the Legislature to classify for purposes of legislation, the classification, to be valid, must rest on some reason of public policy, some substantial difference of situation or circumstance, that would naturally suggest the justice or expediency of diverse legislation with respect to the objects to be classified. . . ."

The amendment would exempt a certain class of traffic violators from the payment of court costs, which, depending upon the circumstances, may be considerable. The question then becomes whether there is some rational basis for making this class distinction. We have difficulty in recognizing the "substantial quality or attribute" common to only those persons who choose to drive between fifty-five and sixty-six miles per hour on the Interstate Highway which requires legislation "which would be inappropriate or unnecessary for those without the class," specifically, other speeding violators or traffic violators in general. We doubt whether the courts would consider such a provision a reasonable classification.

Section 5 of LB 381 contains a severability clause. Assuming, arguendo, that LB 381, including the amendment, was passed, then even if the above quoted language in the amendment was thereafter declared unconstitutional by a court of competent jurisdiction, it would probably not render the whole act unconstitutional. The applicable rule is stated in Tom & Jerry, Inc. v. Nebraska Liquor Control Commission, supra:

> ". . . Where it appears that unconstitutional portions of an act can be separated from the valid portions and the latter enforced independent of the former, and it further appears that the invalid portions did not constitute such an inducement to the passage of the valid parts that they would not have been passed without them, the former may be rejected and the latter upheld. . . ."

The above quoted language in the amendment probably would be severable from the remainder of the act in the event that it was declared unconstitutional. Assuming that the language was declared unconstitutional, then even though technically enforceable, the part of the act to which the severable language related may be rendered unenforceable as a practical matter, since there would be no penalty provision. This possibility, along with its implications and consequences, are factors which the Legislature may wish to consider.

Sincerely,
PAUL L. DOUGLAS
Attorney General

MESSAGE FROM THE GOVERNOR

May 15, 1975

Mr. President, Mr. Speaker,
and Members of the Legislature
State Capitol Building
Lincoln, Nebraska

Dear Mr. President and Senators:

I return herewith again, without my signature, and with my same objections, this year's version of the Legislature's unwarranted attempt to again dictate methods of election of school board members in the Omaha school district, this time known as LB 423.

This year your body has even rejected an amendment to allow the citizens of the Omaha School District to vote and determine for themselves the method of selection of their school board members.

You have ignored again my suggested reasonable compromise of guaranteeing geographical distribution of members by the use of the process of nominating by districts only in the primary and electing at large, but from each district, in the general election.

With the deletion of only one sentence that does not apply this year from my veto message of LB 217 last year, following herewith, I further outline my objections.

> "I return herewith LB 217 without my signature and with my objections.
>
> With this legislation, you have singled out the citizens of only one of our Nebraska cities for special legislation to the exclusion of all others. Again, you have ignored the oft-expressed wishes of Omaha voters and have attempted to usurp their legitimate local decisions.
>
> Once again I state that if the Legislature feels so strongly about district elections, why did you not include the Lincoln and similar sized school districts in such legislation? Although I personally favor district elections, I believe that they should generally be statewide if we are to attempt to dictate at the state level to subdivisions in such matters. I hope that you will concur that this is unfair legislation as passed since it is obviously directly aimed at only one school district in the entire state.
>
> In this regard, I have always held that the more reasonable approach to the district or at large elections should logically be a combination of the two. That is, district nomination of at least two candidates in the primary elections by voters in the district only and then at large elections of one candidate from each district in the general elections."

Yours very truly,
(Signed) J. James Exon
Governor

ATTORNEY GENERAL'S OPINION

Opinion No. 87
May 8, 1975

Dear Senator DeCamp:

You have raised some question as to the constitutionality or enforceability LB 317 and have requested our opinion of the matter.

Section 1 on the bill contains a provision to the effect that cities of the first class, cities of the second class and villages within a standard metropolitan statistical area shall lose their land use planning and regulatory power if they are not, by July 1, 1971, "enforcing zoning and subdivision regulations in a manner that the state agency (Office of Planning and Programming) determines to be adequate." That section further provides that when an additional county is added to a standard metropolitan statistical area any municipality therein shall lose its land use planning and regulatory power if, within one year, the municipality "does not begin adequate regulatory programs, as determined by the State Office of Planning and Programming acting under Section 6 of this act."

Section 2 provides that other counties which contain first class cities shall prepare a comprehensive development plan, shall adopt zoning and subdivision regulations, and shall begin an organized and staffed program to enforce such zoning and subdivision regulations in such a manner "that the State Office of Planning and Programming, acting under authority granted by Section 6 of this act, determines to be adequate."

Section 3 provides that second class cities and villages which are receiving county assistance in the enforcement of their individual zoning and subdivision regulations may terminate such service arrangement only "when it demonstrates to the State Office of Planning and Programming that it has the intention and capabilities to provide adequate regulatory programs." Section 4 provides that newly incorporated municipalities shall have no land use planning and regulatory power if located within a county that is currently exercising zoning and subdivision regulatory powers at the time. However, the section goes on to provide that whenever such a newly organized municipality becomes a city of the first class it may then regain land use planning and regulatory authority and that if the

city implements enforcement of zoning and subdivision regulations "in a manner deemed adequate by the State Office of Planning and Programming, acting under Section 6 of this act, the county shall relinquish its control."

Section 7 provides that the State Office of Planning and Programming "shall assess a municipality's regulatory intentions and capabilities as required by Section 3 of this act, and render a decision whether they are satisfactory and adequate to permit the municipality to terminate its involvement in an existing county or intergovernmental enforcement program."

Nowhere in the act are there any guidelines upon the basis of which the Office of Planning and Programming shall make the determinations provided for in the portions of the bill above quoted. In Lincoln Dairy Company v. Finigan, 170 Neb. 777, the Nebraska Supreme Court said:

> "The limitations of the power granted and the standards by which the granted powers are to be administered must, however, be clearly and definitely stated. They may not rest on indefinite, obscure, or vague generalities, or upon extrinsic evidence not readily available."

In view of this ruling by the Nebraska court, we believe it would be quite difficult to defend this bill against an attack upon its validity.

Although not a matter of constitutional dimensions, we note no provision in the bill for any appeal from an adverse ruling by the State Office of Planning and Programming. The right of appeal in this state is clearly statutory, and unless the statute provides for an appeal from the decision of a quasi-judicial tribunal such right does not exist. Lydick v. Johns, 185 Neb. 717.

Very truly yours,

PAUL L. DOUGLAS
Attorney General

RESOLUTIONS

LEGISLATIVE RESOLUTION 64.

Introduced by Public, Health and Welfare Committee: Kennedy, 21st District, Chairman; Banking, Commerce and Insurance Committee: Murphy, 17th District, Chairman.

WHEREAS, a crisis of major proportions threatens to disrupt the delivery of health care services in many parts of the country resulting from the skyrocketing costs of medical malpractice insurance and the increase in the number of insurance companies which refuse to provide it at all; and

WHEREAS, it is urgent that government begin immediately to seek long-term solutions of the problems involved to insure the continued availability of health care services to the people of this county; and

WHEREAS, the U.S. Senate Labor and Public Welfare Health Subcommittee has been holding hearings on three measures introduced in the Senate to mandate a national solution to the medical malpractice insurance crisis; which proposed federal remedies would (1) establish a federal no-fault malpractice insurance fund; (2) set federal requirements for state arbitration of malpractice claims, or (3) establish a federal reinsurance fund for malpractice claims open to states where arbitration was used; and

WHEREAS, opposition has already been expressed from several sources (doctors, trial lawyers, hospitals, Department of Health, Education and Welfare) to federal legislation in the belief the problems should be solved by the states, yet if the states do not respond, federal action will inevitably result; and

WHEREAS, some states have already begun to act as evidenced by the Indiana law just enacted which limits the size of malpractice claims and limits the liability of any one insurance carrier, and the initiation of a comprehensive study of the problem by the State of Iowa; and

WHEREAS, Legislative Bill 147, introduced at the Eighty-fourth Legislature, First Session, would extend the right of eminent domain presently permitted for oil and gas pipelines to pipelines carrying coal products; and

WHEREAS, at the Public Hearing on Legislative Bill 147 before the Public Works Committee, held February 6, 1975, a number of matters of concern to citizens of Nebraska were presented, including:

(a) Coal slurry pipelines are a developing method of transporting coal which some claim in some circumstances to be an effective and low cost method of transporting coal for the generation of electric power in the United States;

(b) Because of dwindling supplies of natural gas in the United States and the national importance of achieving independence from foreign energy sources, the vast coal reserves in the Northern Plains area of the United States are an increasingly vital source of electric energy, and greatly increasing amounts of such coal will be transported into and through the State of Nebraska during the next several years;

(c) Legislative solutions of the various energy-need/energy-independence problems, including increasing coal production and transportation, are being sought in several near-by states and by the Federal Congress;

(d) The railroad industry in Nebraska and some users of rail service, including such shippers as those involved in grain and other agricultural products, are concerned about the economic impact of a competing method of transporting coal;

(e) Since coal slurry pipelines utilize water as the medium for transporting coal, Nebraska citizens are concerned about the effect of such pipelines on Nebraska's water resources; and

WHEREAS, the matters recited above are of concern to citizens of Nebraska, and informed legislative decisions will be required for the orderly development of domestic energy resources in a manner which preserves and improves quality of life in Nebraska.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-FOURTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Public Works Committee be directed to conduct a study of all the issues, including potential benefits and problems which would or might result from authorizing coal slurry pipeline firms to exercise eminent domain powers in Nebraska.

2. That such study have as its emphasis, (a) the reasons why eminent domain power may be necessary or desirable for coal slurry pipelines, including a comparison of the availability of such rights to competing forms of energy transportation; (b) a review of the overall impact on the quality of life in Nebraska and upon the Nebraska environment of increasing use and transportation of Northern Plains coal resources for the manufacture of electric energy; (c) the potential benefits, if any, to the public utility industry of Nebraska and its customers from the availability of coal slurry pipelines as a form of coal transportation; (d) the impact, if any, on Nebraska water resources of coal slurry pipelines, as presently proposed, taking into account effects of alternate methods of developing Northern Plains coal resources for generation of electrical energy; and (e) the extent of any competitive impact upon the Nebraska railroad industry which might result from coal slurry pipelines as presently proposed, and the consequences to the citizens of the State of Nebraska resulting from any such impact.

3. That the committee shall make a report of its findings together with recommendations regarding Legislative Bill 147, or amendments thereto, to the next regular session of the Legislature.

MESSAGES FROM THE GOVERNOR

May 19, 1975

Mr. Vince Brown
Clerk of the Legislature
State Capitol Building

Dear Mr. Brown:

We have received Engrossed Legislative Bills Nos. 212, 215, 215A, 235, 235A, 421, and 612.

These bills were signed by me on May 19, 1975 and delivered to the Secretary of State.

JJE:fw

May 19, 1975

Mr. President, Mr. Speaker
and Members of the Legislature
State Capitol Building
Lincoln, Nebraska

Dear Mr. President and Senators:

I earnestly urge you to consider in detail the following veto message of LB 417. It is vitally important that you become fully aware of the ramifications of this bill.

I return herewith LB 417 and LB 417A without my signature and with my objections.

Contrary to all previous efforts and agreements between the Judiciary Committee and the Executive Branch, the Legislature has adopted a bill which would provide for one medium-minimum reformatory facility in Lincoln and one in Omaha. This action was taken without the benefit of a public hearing and without consultation with the people of Omaha and their elected officals. Mayor Zorinsky has advised me that except for my inquiry, no one had even sought his opinion or advice. Mayor Zorinsky is the elected head of Omaha city government.

The supporters of this legislation grossly underestimated the costs of construction and operation of two facilities as opposed to one. Analysis by the Budget Division of DAS shows that construction for a 200-bed facility with expansion to 250 in Lincoln would be $6.5 million. LB 417A,

however, only appropriates $5 million total construction costs for the completion of this facility. Your body has been ill-advised by your Legislative Fiscal Office and deceived into believing that the proposed facility could be built with only $5 million. The additional $1.5 million will have to be reckoned with sooner or later and it is better to be straightforward and honest at this point so that the Legislature will have accurate fiscal information on which to base its judgment. On the operations side, the Fiscal Office's cost projections are completely ridiculous and bear little resemblance to reality. The operational cost of a 200-bed facility in Lincoln will be approximately $2.9 million, as opposed to the Legislative Fiscal Office's estimation of $1.9 million. This is a million dollar difference in operations alone. It is quite apparent that the amendments to LB 417 were sold without proper and accurate information as to costs. Either that, or the supporters of LB 417 are now proposing grossly inadequate facilities and programs.

The total cost of constructing one medium-minimum facility in Lincoln and one in Omaha as proposed under the amended form of LB 417 would be $12.1 million. LB 417, as originally written, introduced and supported by the Judiciary Committee, Senator Luedtke and Senator Cavanaugh, would provide for one facility in Lincoln at a cost of $8.1 million. Your action results in increased construction costs for two facilities over one of $4.0 million. Has the Legislature carefully considered their action and its precipitous result in an exorbitant increase in construction costs of $4.0 million? The annual operational costs of the proposed two facilities would be $5.5 million as opposed to an annual operational cost for one 300-bed facility in Lincoln of $3.5 million. This is an annual increased operational cost of $2 million. Over a ten year period, not even taking into consideration inflation and increased personal service costs, we are talking of an additional $20 million of increased and unnecessary expense to the taxpayer. Again, has the Legislature carefully considered the effects these types of increases will have on our budgetary situation for years to come? Are you sure, after two weeks of maneuvering on the floor of the Legislature, that the construction and operation of two medium-minimum facilities is in the best interests of our state? Can a single Senator really believe, as you have been told, that two units can be built and maintained almost at the same costs as one?

In addition to the Legislature not having accurate information as to costs, the amendments to LB 417 provide for a radical change in the programmatic philosophy of Nebraska's penal system. The proposal for two facilities and the cost analysis of the Legislative Fiscal Office is based upon the assumption that 20% of the inmate population will receive educational and other services outside of the institution. This is an extremely dangerous and damaging proposal, both from the standpoint of the public at large and the individual inmate, himself.

There are three basic units in modern penology. First, a penitentiary for the most serious offenders. This is a secured facility. Secondly, a reformatory or so-called medium-minimum facility for less serious

offenders, but also some potentially dangerous young inmates. Likewise, this unit is also a secured facility. Thirdly, there is the separate and distinct third unit which encompasses work release and local community facilities that are not secured units. We must not confuse or "mix" secured units with nonsecured units.

We are firmly committed, in this administration, to the concept of work release and community-based facilities. An aggressive, on-going program already exists in this area, and we have more plans for improvement in the future. Work release is not effective, however, when operated out of an institutional setting. A medium-minimum security facility is exactly that, a secured facility. We cannot release inmates from this type of institution on their own recognizance, unless we are asking for tremendous problems. It is dangerous from the standpoint of the public and it is certainly counterproductive to effective rehabilitation.

If my veto of LB 417 and LB 417A is overridden, we are risking possible damage to our on-going and progressive penal reform program. A 300-bed facility is not a large institution and it is obvious from all accounts that we need at a minimum 300 beds to adequately handle those individuals who will be classified as medium-minimum security inmates. The important point in correctional philosophy is not so much how large the institution is, but rather how much space in terms of living and recreational area is being provided each individual inmate. A 200-bed facility is totally inadequate as proposed under LB 417 and does not take into consideration the appropriate square footage needs of a sound medium-minimum facility.

By supporting my veto, the Legislature would not be abandoning a penal reform construction program this year. If my veto is sustained by the Legislature, one of the present appropriation bills currently on my desk could be recalled and amended to provide, as all had agreed to before, for the construction of a 300 medium-minimum bed facility in Lincoln so that our previously agreed to sound program would not be delayed.

Again, let me urge you not to destroy our past efforts in the penal reform area. A 300-bed facility is needed and it is needed now and we should not accept any contrary inadequate proposals. Let's follow the unanimous opinion of our penal experts and not the non-professional and more expensive recommendations of well-meaning but nontrained individuals.

Yours very truly,

ATTORNEY GENERAL'S OPINION

Opinion No. 88
May 19, 1975

Re: Authority of Legislature to sponsor Vietnamese doctors or to authorize such sponsorship by an existing state agency.

Dear Senator Warner:

You have asked whether the Legislature could act as a sponsor of Vietnamese doctors. If not, could an existing agency such as the Department of Health or Department of Welfare sponsor them.

The Legislature itself cannot sponsor Vietnamese doctors. Article II, Section 1 of the Nebraska Constitution divides the government of the state into three distinct departments: The legislative, executive, and judicial. The Legislature is given the power to make laws. Article III, Section 1 and Article XVII, Section 6. The executive is to administer the affairs of state. Article IV, Section 6. No person or collection of persons belonging to one of these departments can exercise any power properly belonging to either of the others except as expressly directed or permitted by the constitution. There is no provision expressly giving the Legislature authority to sponsor Vietnamese doctors. Such sponsorship is not an exercise of the lawmaking power and is therefore not permitted when it intrudes upon the area reserved for the executive.

The fact that the Legislature cannot itself sponsor Vietnamese doctors does not preclude its enacting legislation to permit some other state agency to sponsor them. But there are several constitutional limitations which must be observed. One is Article III, Section 18 which proscribes special legislation. Another is Article XIII, Section 3 which provides that the credit of the state shall never be given or loaned in aid of any individual. Similar in its import is Article III, Section 22 which limits appropriations to expenses of government. We would have to have a copy of any proposed legislation before we could tell whether it complied with these and any other constitutional limitations.

Sincerely,

PAUL L. DOUGLAS
Attorney General

ATTORNEY GENERAL'S OPINION

Opinion No. 89
May 20, 1975

Re: Proposed Amendment to LB 571

Dear Senator DeCamp:

We have just received a copy of the above amendment which you indicated will be presented to the Legislature later this morning or early this afternoon. You have asked us to review it in light of our letter to Senator Warner regarding the authority of the Legislature to authorize an existing state agency to sponsor Vietnamese doctors.

Unfortunately your time frame does not allow us enough time to give the matter the careful consideration it requires. However, there are several problems which are apparent. One is the lack of standards to guide the Director of the Department of Health in making the rules and regulations. This is an improper delegation of legislative authority. There is also a possible violation of both Article III, Section 18 and Article XIII, Section 3 of the Nebraska Constitution. To give Vietnamese doctors food, clothing, education, shelter, health, and transportation expenses may be not only special legislation but also the granting of the credit of the state in aid of individuals. We would also need more time to determine whether the appropriation to meet the needs of relocating Vietnamese physicians is in fact for an expense of government.

We regret that this review is necessarily so cursory. At your request and with more time available to us we will give this amendment further consideration.

Sincerely yours,

PAUL L. DOUGLAS

Section 1. Effective July 1, 1977, the county government of ~~a county~~ counties that ~~is~~ are presently included in a Standard Metropolitan Statistical Area, as defined by the federal government, is authorized, with the assistance of its planning commission, to prepare, adopt, and enforce zoning and subdivision regulations that are based upon a comprehensive development plan, as defined by section 23-114.02, Reissue Revised Statutes of Nebraska, 1943, for the land area included in any municipality that has not by such date adopted zoning and subdivision regulations and begun an organized and staffed program to enforce such regulations, either as an individual municipality or jointly with the assistance of the county. If the State Office of Planning and Programming determines, under authority granted by section 6 of this act, that a city of the first class, city of the second class, or village in such county is not, by July 1, 1977, enforcing zoning and subdivision regulations in a manner that the state agency determines to be adequate, the municipality shall permanently lose its land-use planning and land-use regulatory powers, and the county, by July 1, 1978, shall have prepared necessary plans and shall enforce zoning and subdivision regulations for the area within that municipality.

A city of the second class or a village which loses its land-use planning and land-use regulatory powers in such a manner may regain such authority one year after it becomes a city of the first class. If such municipality does not begin adequate regulatory programs, as determined by the State Office of Planning and Programming acting under section 6 of this act, by the end of the one-year period, the county shall begin such regulatory programs within two years after the designation of the county as part of a Standard Metropolitan Statistical Area.

Sec. 32. All municipalities and counties affected by Legislative Bill 317, Eighty-fourth Legislature, First Session, 1975, may appeal from adverse decisions of the State Office of Planning and Programming in accordance with Chapter 84, article 9, Reissue Revised Statutes of Nebraska, 1943, and amendments thereto.

Sec. 33. The State Office of Planning and Programming in assisting the municipalities and counties in accordance with sections 1 to 8 of Legislative Bill 317, Eighty-fourth Legislature, First Session, 1975, shall consider rules, procedures, and regulations which promote beneficial land development policies and programs, prevent detrimental land use, and promote collective action in land use and zoning. The office shall establish such rules, procedures, and regulations in such a manner so as to allow local control to the greatest extent possible. In exercising such local control, the counties and municipalities shall consider the local public interest.".

2. Renumber original sections 31 and 32 as sections 34 and 35 respectively.

MESSAGE FROM THE GOVERNOR

May 20, 1975

Mr. President, Mr. Speaker,
and Members of the Legislature
State Capitol Building
Lincoln, Nebraska

Dear Mr. President and Senators:

I hereby return LB 606 with my signature, but with my line-item appropriation reductions. By your appropriations you have dictated an increase of nearly $100 million over last year's total General Fund budget

of $302 million. This is my first attempt to exercise my veto to reduce your excessive spending actions. I will be returning additional multimillion dollar vetoes shortly.

LB 606 appropriates $2,721,578 for the operations of the Legislature and its staff. This is $419,897 over my recommendations. I am reducing your authorized expenditures by $389,897, $30,000 more than provided in my original recommendation. Since the 1976 session of the Legislature will be 60 days rather than 90, this amount will more than satisfy your needs.

Your appropriation would provide the Legislature with an 18% budgetary increase. In a time of economic uncertainty in this state and when many Nebraskans are making economic sacrifices, the Legislature should set an example of fiscal restraint.

During the past several years the expenditures for the operation of the Legislature have escalated from $1,247,323 in fiscal year 1971-72 to your present new money appropriation of $2,303,138 for fiscal year 1974-75, Surely, this is the year for your body to call a halt to its own escalation in spending.

Sincerely,

(Signed) J. James Exon
Governor

Mr. President, Mr. Speaker,
and Members of the Legislature
State Capitol Building
Lincoln, Nebraska

Dear Mr. President and Senators:

I hereby return LB 526 without my signature and with my objections.

LB 526 appropriates $60,000 to the State Fair Board for a Bicentennial construction project. In light of projected revenue income and your other appropriation actions, this project connot be justified.

The State Fair Board over the last three fiscal years has received $2,725,000 in contruction funds plus an additional $5 million in bond authorization for construction of a new race track.

My veto of this appropriation should be sustained and I urge you to do so.

Sincerely,

MESSAGE FROM THE GOVERNOR

May 21, 1975

Mr. President, Mr. Speaker
and Members of the Legislature
State Capitol Building
Lincoln, Nebraska

Dear Mr. President and Senators:

I am herewith returning LB 259 and LB 259A without my signature and with objections.

The principle of allowing work-drive authorizations to those who have lost their licenses under the Point and Implied Consent Systems could have merit. I have come to the conclusion that revocations, restrictions and driver improvement requirements, if coordinated, well-conceived and controlled, may well serve our goal for tough and effective licensing standards.

The protection of the public safety and the improvement of driving skills is at the heart of any statute which would address hazardous driving behavior.

The original draft of LB 259 contained several faults and I commend you for trying to correct these inadequacies. However, certain bad

provisions remain while others, which are essential for good licensing, were ommitted.

First, the provision for at least 30 days of mandatory suspension was deleted. I believe this penalty was a bare minimum which would have also allowed for a proper administrative review and evaluation of each applicant.

Secondly, the bill provides for a work-drive permit to be issued to the individual who has lost his license a second time in five years, known as the habitual offender. I am utterly opposed to such an allowance.

Next, the bill omits the penalty which would provide for the loss of the employment driving permit, if the individual was convicted for a traffic violation during the term of such permit. This is an absolute necessity.

Finally, the act sets a legally binding date of July 1, 1975 for such permits to be issued, but you failed to authorize the expenditure of funds until 90 days after the Session. No money was saved, but potential administrative chaos was created.

In the spirit of highway safety, I urge you to sustain my veto.

Sincerely,

(Signed) J. James Exon
Governor

EXPLANATION OF VOTE

As one who firmly believes in complying with the 55 mile per hour speed limit in federal law, I felt compelled to vote against LB 381, due to the fact of the amendments placed on the bill from the floor of the legislature. These amendments weaken law enforcement and I firmly believe they are detrimental to the safety of the general public.

EIGHTY-EIGHTH DAY

Legislative Chamber, Lincoln, Nebraska
Thursday, May 22, 1975

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Whelan presiding.

PRAYER

The prayer was offered by the Chaplain.

> Eternal God, grant these leaders, I pray, knowledge and wisdom, insight and foresight so that in the true tradition of Thy prophets of old they might serve Thee and their constituents with selfless devotion and unerring righteousness. Bless them with health of body and strength of mind so that they might resist the ravages of ill health and the alluring temptation of corruption, dedicating themselves heart and soul to the fulfillment of their duties as members of this State legislature.
>
> Imbue them with the spirit of kindness. May they realize that only when all men are free - free to think, free to speak, free from the fear of poverty, free from the fear of ignorance and free from the fear of disease - can the true potential of this noble State and glorious land be realized.

MESSAGE FROM THE GOVERNOR

May 22, 1975

Mr. President, Mr. Speaker,
and Members of the Legislature
State Capitol Building
Lincoln, Nebraska

Dear Mr. President and Senators:

I am returning herewith LB 604, LB 607, LB 609, LB 610 and LB 611 with my signature but with my line-item appropriation reductions as indicated.

I am also returning herewith LB 368 and 368A without my signature and with my objections.

Because the Legislature's unbelievable excessive spending authorizations are not warranted, I am herewith vetoing a record total of $37.3 million which your body is attempting to saddle on the taxpayers of this state.

If you sustain my vetoes, you might escape your present position of

being national champions among all legislatures on percentage of increase in state spending.

It is vital that the Nebraska Legislature start setting an example in responsible spending. Well-meaning programs by themselves do not necessarily justify their funding. Fiscal solvency must be the paramount consideration. A vivid example of fiscal decay is New York City. A supposedly prosperous city with the highest tax rates in the nation is bankrupt. Even the mightiest can spend themselves helpless. This is because their leaders were not prudent on expenditures and taxation.

While the numerous vetoes are self-explanatory in the bills attached, I am listing some of the individual items. The veto totals herewith returned represent $23.4 million on your 1975-76 recommendations and an additional $13.9 million in your on-going expenditures.

LB 368 is this year's version of the perennial so-called aid to education measure. The legislative efforts in this area are a direct affront to the voters who overwhelmingly rebuffed last year's ill-conceived LB 772, only last November 5, after a successful referendum on your actions. Why do you reject the voters' dictates?

The only significant difference between LB 368 and last year's ill-famed LB 772 is that you have attempted to reduce the impact to "only" $15 million per year, but for several years to come.

Again, I cite that the Legislature has ignored my attempts to guarantee fairness to all in any such massive tax shifts. Like LB 772, your efforts this year would reward handsomely the largest and most prosperous property owners at the unfair disadvantage of the average property owner and family-sized farm. The renters would be left out in the cold once again. You have cleverly evaded facing the increased demands of state tax rates each year to finance such a program.

On your authorizations for the plant science building on the UN–L East campus, I have reduced your $13.5 million construction cost figure to $10 million, and the initial planning and architectural drawings from $232,000 to $150,000.

The SUN project has been reduced from $125,000 down to $100,000. This implies no commitment on my part to future funding of this project as I had been previously assured no general fund request would be made for at least five years from its inception. Because nearly $4 million in Federal and donated monies have already been expended for SUN, I am agreeing to this limited general fund expenditure to give the program one more year to prove its worthiness as part of our higher education commitment.

You will find eliminated the $291,300 appropriations for an auditorium addition to the life science building now under construction on the UN–L campus.

With regard to the UNO campus, I have eliminated any funding for construction of a new gymnasium. Last year you overrode my veto of this facility.

Since we do not have necessary realistic information substantiating need on the proposed downtown UNO facility in Omaha, I have struck

your $5 million commitment for a long-term bond arrangement and reduced your $100,000 planning appropriation to $20,000.

From the University of Nebraska operations appropriation, I have reduced the general fund from an increase of 17.4% to an increase of 14.8%. Even with my line item reductions of $1.9 million for the entire University, this increase is still comparable to the highest increases that will be given in the Big Eight states, and will significantly exceed the increase given by most other states in the nation. These realistic reductions are further justified by the fact that Nebraska, after a 25% increase for the University last year, ranks high among surrounding states both in terms of per student expenditures and tax effort for higher education.

Specifically, I have reduced the University's appropriations in programs which will allow flexibility for administrative decision-making at each campus. Rather than line-item reducing earmarked appropriations, I have, for the most part, reduced program totals which will not jeopardize any program the University feels is high priority. No reductions are made to the Institute of Agriculture and Natural Resources.

I have reduced the Nebraska Psychiatric Institute by $342,346 in the general fund. The reduced total appropriation is sufficient to provide for the normal and proper operating expenses of the Institute.

With the enactment of LB 344, we have established local control of the vocational technical community colleges, and have committed $11.7 million in new state funding. It was my hope that the colleges would be limited to a local 1 mill levy, but this was raised to a maximum of 2 1/2 mills by the Legislature. With the passage of LB 344, I am advised by the Attorney General that it is unconstitutional for the state to dictate funding of specific building and site acquisition from state sources and have thereby vetoed a total of $2.4 million in your appropriations for such purposes. We certainly do not want to invite further legal problems with these important colleges. I am concerned about possible excessive spending by the local boards, using a combination of state and local funds. All should be reminded that the 2 1/2 mill levy is a ceiling, and should not be viewed as a floor to justify unnecessary authorizations.

I am eliminating $19,750 from appropriations to the Governor's office. This amount was for our annual contribution to the Education Commission of the States. This will allow us to withdraw from this multi-state compact which I feel has been of little, if any, benefit to Nebraska.

I have also eliminated your appropriation of $150,000 to the Nebraska Arts Council to assist with the construction of the Bicentennial sculptures on the interstate. From the beginning, I was assured that no general fund dollars would be needed or requested on this project. I honestly do not feel that we are warranted in spending general fund monies in this area.

Because of what I believe to be totally realistic budget requests from the state colleges, I have made no reductions, and have accepted your slightly increased appropriations.

The balance of the reductions that I have made are standard throughout the several bills that I have mentioned in the first paragraph of this letter.

In the interest of fiscal restraint and meeting our joint commitments to fund only legitimate needs of the state, I urge you to sustain my vetoes.

Yours very truly,

(Signed) J. James Exon

PRESIDENT WHELAN PRESIDING

MESSAGE FROM THE GOVERNOR

May 22, 1975

Mr. President, Mr. Speaker,
and Members of the Legislature
State Capitol Building
Lincoln, Nebraska

Dear Mr. President and Senators:

I am enclosing a copy of the Attorney General's opinion to which I referred in my veto message of this morning.

As you can see, the Attorney General advises that the appropriations made in sections 7, 8 and 10 of LB 611 to Metropolitan and Southeast Technical Community Colleges are unconstitutional.

I am providing this opinion for your further information.

Yours very truly,

(Signed) J. James Exon
Governor

Enclosure

ATTORNEY GENERAL'S OPINION
May 22, 1975

The Honorable J. James Exon
Governor of Nebraska
State Capitol
Lincoln, Nebraska 68509

Dear Governor Exon:

Receipt of your letter of 21 May 1975 is hereby acknowledged. In that letter you inquired about the validity of certain appropriations contained in L.B. 611, Eighty-fourth Legislature, First Session. Your question is whether or not Section 7, 8, and 10 of L.B. 611 are valid under the Constitution of Nebraska.

At the time your letter arrived at this office, L.B. 344, current session, had not yet passed. We are now advised that L.B. 344 has passed with the emergency clause and has been signed by you. The validity of the above appropriations must be determined as of this time.

Section 7 of L.B. 611 authorizes the Metropolitan Technical Community College area to acquire a certain campus and appropriates a sum of money to that area for that purpose. Section 8 authorizes the Southeast Technical Community College area to acquire a campus site and appropriates a sum of money to that area for that purpose. Section 10 authorizes the Metropolitan Technical Community College area to rennovate the Fort Omaha facility and appropriates a sum of money for that purpose.

We have previously offered our opinion, which is published on pages 1004 to 1006 of the Legislative Journal, that the committee amendments to L.B. 344, supra, provide local control over technical community colleges and we adhere to that opinion. Thus, the various technical community colleges are now local schools for all purposes. The appropriations in Sections 7, 8, and 10 of L.B. 611 are therefore appropriations for specific local purposes and therefore, in our opinion, amount to special legislation and in violation of Article III, Section 18 of the Constitution of Nebraska.

Very truly yours,
PAUL L. DOUGLAS
Attorney General
(Signed) Harold Mosher
Assistant Attorney General

MESSAGE FROM THE GOVERNOR

May 23, 1975

Mr. President, Mr. Speaker,
and Members of the Legislature
State Capitol Building
Lincoln, Nebraska

Dear Mr. President and Senators:

I return herewith LB 381 without my signature and with my objections.

This measure is unconstitutional as the Attorney General has previously indicated.

LB 381 is an obvious attempt on the part of the Legislature to authorize and even encourage violation of the law.

The bill unbelievably allows a violator on the interstate between speeds of 55 and 65 mph a special privilege not offered any other violator at any other illegal speed even down to in excess of 25 mph.

If a violator falls into the unconstitutional and unconscionable special category you have created, he can get off with a maximum $10 fine only, and is not assessed court costs or points as would otherwise be the case.

If one is rich enough, he can speed at will.

The measure is clearly an effort to authorize violation of the national 55 mph speed law, designed to conserve energy.

While I personally had always pushed for a 60 mph limit and while the national law is overly restrictive for a state like Nebraska, it is the law and it should be followed and not intentionally subverted by, of all people, supposedly responsible lawmakers.

Have you ever considered the example you are setting for others to follow with the enactment of such a patently unlawful and double standard measure?

The officers of the Nebraska State Patrol have advised me that if this bill becomes law, it would render enforcement of the 55 mph speed limit difficult and ineffective at best.

I am sure your action on LB 381 is good politics, but it is terrible legislation.

Yours very truly,

(Signed) J. James Exon
Governor

MESSAGE FROM THE GOVERNOR

May 28, 1975

Mr. President, Mr. Speaker,
and Members of the Legislature
State Capitol Building
Lincoln, Nebraska

Dear Mr. President and Senators:

I return herewith LB 237 and LB 237A without my signature and with my objections.

LB 237 repeals the state law which establishes public intoxication as a crime. I do not agree that the crime of public intoxication should be eliminated. We should have a legal deterrent against public drunkenness.

I do agree that those who suffer from alcoholism should be afforded an alternative to incarceration in the form of effective treatment programs. I am not convinced, however, that LB 237 is the answer to these problems. Not everyone convicted of public intoxication is an alcoholic, and we must distinguish between the two.

The alcoholic should be separated from the non-alcohlic who was found to be publicly intoxicated. This determination, I feel, should be made within the court system after proper evaluation. It appears that this was the intent of the amendment to LB 237 which was adopted at the last minute. As is evidenced by the enclosed Attorney General's opinion, the validity of this amendment is very questionable.

Immense practical law enforcement problems would be created by the provision in LB 237 that an intoxicated individual could not be detained in a jail for more than six hours. What happens after that six hour period? The bill provides for the establishment of detoxification centers to which intoxicated individuals are to be taken. What happens in those areas of the state where no facility would be available? Can we afford detoxification centers in every city of the state? These and other serious questions remain and therefore prevent my signature.

While the intentions of the supporters of LB 237 are unquestionable, the language of the bill is confusing, contradictory, and in need of further scrutiny. Most provisions of the bill, including those relating to the detention of persons found intoxicated in public places and the repeal of the state law against public drunkenness would become effective 90 days after the adjournment of the legislative session. From discussions I have had on this bill, I am not sure this was intended or understood.

In addition to these other problems, accurate projections of present and future costs of the programs were not provided. LB 237A appropriates $919,231 to fund this program. This amount would only be a starting point and full operating costs would be much greater. Accurate fiscal information should be provided as to projected future costs before this bill becomes law.

I don't feel the Legislature, as a whole, has adequately considered all of the fiscal and practical ramifications of this approach, and I believe it needs further study. Possibly an existing interim study committee could accept the responsibility of further investigating this area in an attempt to answer the questions which exist, and develop language which would meet questions raised by the Attorney General's opinion.

For the above outlined reasons, I have vetoed this bill.

Yours very truly,

(Signed) J. James Exon
Governor

Attachment

May 28, 1975

The Honorable J. James Exon
Governor of Nebraska
State Capitol Building
Lincoln, Nebraska

Dear Governor Exon:

You have requested our opinion regarding the provisions of L.B. 237. It is our opinion that certain provisions of that bill are of questionable constitutionality and may be difficult to defend.

Legislative Bill 237 would appear to give law enforcement and public health officials a legal or statutory right to take "intoxicated" or "alcohol dependent" persons into custody and the right to transfer them to a jail or a "certified or court approved program for detoxification" when that person was "in danger of causing injury to himself or others."

Acts similar to L.B. 237 have been passed by a number of other states. There is a substantial question as to whether or not an individual has been deprived of his constitutional right to due process of law through the provisions of this act which would deprive him of his liberty under certain specified, although rather general, conditions i.e., when he is in need of emergency care and supervision and is in danger to himself or others. Many of these other state laws are relatively new and many have not yet been tested in the courts.

It has been argued that the power to act in this manner is derived from a state's common law power known as "parens patriae" generally meaning the sovereign's power of guardianship over persons under disability and/or from the state's inherent "police power."

It would be our opinion that the constitutionality of L.B. 237 would be most difficult to justify. Section 9 of the act provides for a person being held initially for up to 24 hours, and Section 12 provides for an additional maximum period of 72 hours. Constitutionally, it would be most difficult to justify holding an individual against his will without the benefit of a hearing for up to 96 hours as is now provided by the act.

In addition, we find the constitutionality of Section 36(1) to be questionable. As we interpret that section, it first provides that effective July 1, 1977, certain laws concerning drunkenness, etc., shall not be adopted or enforced, including state laws. By providing that state laws shall not be enforced, it may be argued the bill in effect indirectly repeals those state laws. It further could be contended that it amends an existing law without repealing that law in possible violation of Article III, Section 14 of the Nebraska Constitution.

Also, that portion of Section 36(1) providing that a law may be adopted and enforced if it gives the court the power to determine that conviction of a crime in an individual case is not appropriate, may be questioned on constitutional grounds. This provision lacks standards for the court to make the determination of when conviction of a crime is inappropriate. Therefore, it may be subject to a constitutional attack claiming that due process and equal protection are denied.

Very truly yours,

PAUL L. DOUGLAS
