RESOLUTIONS

LEGISLATIVE RESOLUTION 1.

Introduced by Swigart, 8th District.

WHEREAS, critical starvation conditions prevail in both Asia and Africa causing tens of thousands of our fellow human beings to die; and

WHEREAS, particularly in the sub-basin areas of Africa thousands of animals have died of food and water shortages, thus depleting herds for future human needs; and

WHEREAS, the earth in such areas is cracked and parched to such condition as to require many years to regenerate to a productive capacity; and

WHEREAS, no nation or group of nations has come forward with a cohesive plan to solve these catastrophic human needs.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-FOURTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Legislature and Governor of the State of Nebraska hereby request the government of the United States to formulate and adopt a comprehensive plan for resolving world starvation problems. Such plan should include the following elements:

a. The United States take immediate steps to increase its quota of contributions to the starving of the world; and that the government urge all other nations to do the same.

b. The United States government representatives meet with representatives of the midwestern grain state governments in a cooperative effort to provide more food for the starving.

c. That the United States government establish a policy to aid stricken nations in their efforts to rebuild damaged soil, aid in rebuilding their depleted herds of animals, and to invoke modern methods of agriculture to enable self sustenance for the future.

d. The United States government develop a long term policy of working with all receptive nations where critical over population exists and information, education, and other aids which will bring about controls of overpopulation of the world.

Introduced by Warner, 25th District.

WHEREAS, the Congress of the United States enacted Public Law 156 on July 11, 1916, and the Congressional Federal Aid Acts, Federal Highway Acts, and Federal Aid Highway Acts subsequent to that date, which acts provide that the federal government shall aid the states, and the political subdivisions of the states, in the construction of roads and streets; and

WHEREAS, the Nebraska Legislature has reaffirmed its continuing assent to the federal acts, referred to above, and amendments thereto; and

WHEREAS, a substantive portion of the federal acts, referred to above, states that fifty per cent of federal aid for highway construction is intended for use by the political subdivisions of this state; and

WHEREAS, the Seventy-seventh Legislature, 1967, adopted Legislative Bill 918, and the Eightieth Legislature, 1969, adopted Legislative Bill 692, now sections 39-1306 to 39-1306.02, Reissue Revised Statutes of Nebraska, 1943, in order to implement and promote the provisions of the federal acts and to assist the political subdivisions in the proper use of federal aid highway funds; and

WHEREAS, the intent of the legislative bills, cited above, was that political subdivisions, particularly the counties of this state, shall receive and use all of the fifty per cent of federal funds available to them and that none of those funds revert to the Department of Roads; and

WHEREAS, the Department of Roads, pursuant to law, adopted and promulgated policies and regulations for the administration, allocation and reallocation of federal aid highway funds to political subdivisions; and

WHEREAS, the purpose of those policies and regulations was to insure that the cities and counties of this state could receive the entire amount of federal aid highway funds available specifically for political subdivisions; and

WHEREAS, the Department of Roads, without the consent of county officials, changed the policy regarding the allocation and reallocation of federal aid highway funds to counties and implemented this new policy; and

WHEREAS, because of the adoption and implementation of the new policy, the counties of this state have been deprived of federal aid highway funds which have reverted to and have been used by the Department of Roads; and

WHEREAS, section 84-904, Revised Statutes Supplement, 1974, provides that agency rules may be considered by the Legislature and any rule may be repealed, changed, altered, amended, or modified in such manner as the Legislature deems advisable; and

WHEREAS, the new policy of the Department of Roads regarding the allocation of federal aid highway funds to counties has been studied; and

WHEREAS, the conclusion of the study indicates that the new policy is detrimental to the best interests of the counties and the State of Nebraska, generally.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-FOURTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the new policy regarding allocation of federal aid highway funds to counties adopted by the Department of Roads on November 20, 1973, be rescinded, and that the former policies adopted and promulgated by the Department of Roads to carry out the purposes of federal acts and state laws regarding federal aid highway funds to counties be reinstated and implemented.

2. That the Department of Roads, with due dispatch, take all necessary steps to provide the counties of this state with (a) with their last three years allocated by unexpended federal aid highway funds, and (b) five million dollars of previously allocated and unexpended federal aid highway funds.

3. That the Legislature take whatever steps are necessary to insure that the intent of federal acts, state statutes, and former policies and regulations of the Department of Roads are carried out, and that the counties of this state receive all the federal aid highway funds intended to be used by political subdivisions.

4. That the Department of Roads and counties are hereby instructed to develop in cooperation, policies and procedures to be implemented that will (a) insure that counties be allocated all available funds as intended by law and (b) encourage maximum usage of allocated and unexpended, and previously allocated and unused (pool) federal aid highway funds.

5. That a copy of the policies and procedures adopted pursuant to this Resolution be furnished to the Legislature.

LEGISLATIVE RESOLUTION 44.

Introduced by George, 16th District.

WHEREAS, the State of Nebraska was given civil and criminal jurisdiction over Indians and Indian country in this state by the Act of Congress of August 15, 1953, generally known as Public Law 280; and

WHEREAS, the assumption of such jurisdiction has led to steadily increasing cost for law enforcement in Thurston County, Nebraska; and

WHEREAS, an overwhelming percentage of the criminal offenses which occur in Thurston county involve Indians within the boundaries of the Indian reservations of Thurston County, Nebraska; and

WHEREAS, law and order on the Winnebago Indian Reservation could be adequately maintained and enforced by a law enforcement organization of the Winnebago Tribe of Nebraska with the assistance of the Bureau of Indian Affairs; and

WHEREAS, the Winnebago Tribe can adequately handle civil disputes arising within the Winnebago Indian Reservation among and between Indians; and

WHEREAS, the Legislature of Nebraska in its Eightieth regular session passed Legislative Resolution 37 which offered a retrocession of jurisdiction to the United States over offenses committed by or against Indians in the Indian country in Thurston County, Nebraska; and

WHEREAS, in 1969 the Thurston County Board of Supervisors urged retrocession on the Winnebago Tribe, which at that time preferred to remain under state jurisdiction in order to study the matter in more detail, but has now decided it wants criminal and civil jurisdiction returned to the Winnebago Tribe and the United States; and

WHEREAS, section 403 (a) of Public Law 90-284 authorized the United States to accept a retrocession by any state of all or any measure of the criminal or civil jurisdiction, or both, acquired by that state pursuant to Public Law 280; and

WHEREAS, a committee of members of the Legislature appointed by the Executive Board of the Legislative Council following adoption of Public Law 90-284 has studied the problems of law enforcement on the Winnebago Indian Reservation and the question of a retrocession of criminal and civil jurisdiction and has met with leaders of the Winnebago Tribe, County officials and officials of the Bureau of Indian Affairs and recommends passage of this resolution.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-FOURTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the State of Nebraska hereby retrocedes to the United States all criminal and civil jurisdiction within the Winnebago Indian Reservation acquired by the State of Nebraska pursuant to Public Law 280 of 1953, except as provided in paragraphs 2, 3, and 4 of this resolution.

2. That the existing municipal law enforcement authorities within the Winnebago Indian Reservation are deemed fit and proper to maintain law and order within their respective municipalities and their jurisdiction will remain, concurrent with that of the United States.

3. That the State of Nebraska, through the State Highway Patrol, shall retain concurrent jurisdiction with the United States over any offenses involving the operation of motor vehicles on state and county roads or highways with the Winnebago Indian Reservation.

4. That this retrocession of jurisdiction will apply prospectively upon adoption by the Nebraska State Legislature and acceptance by the Secretary of Interior.

5. That the Executive Board of the Legislative Council is hereby authorized and directed to take all necessary action to present this resolution to the United States Government and to cooperate with the Winnebago Tribe in its implementation.

FIRST DAY – JANUARY 7, 1976

LEGISLATIVE JOURNAL

**EIGHTY-FOURTH LEGISLATURE
SECOND SESSION**

FIRST DAY

Legislative Chamber, Lincoln, Nebraska
Wednesday, January 7, 1976

Pursuant to the provisions of Section 10, Article III of the Constitution of Nebraska, the Eighty-Fourth Legislature, Second Session of the Legislature of Nebraska assembled in Legislative Hall of the Capitol Building at the hour of 10:00 o'clock on Wednesday, January 7, 1976, and was called to order by President Whelan.

PRAYER

Prayer was offered by Chaplain Robert Palmer, Westminster Presbyterian Church, Lincoln, Nebraska.

As we begin this Session of the Legislature in the Bicentennial year I would like to offer the first prayer ever given in the United States Congress:

O Lord, our Heavenly Father, High and mighty King of kings, and Lord of Lords, who dost from Thy throne behold all the dwellers on earth and reignest with power supreme and uncontrolled over all the Kingdoms, Empires and Governments; look down in mercy we beseech Thee, on these American States

who have fled to Thee from the rod of the oppressor, and thrown themselves on Thy gracious protection, desiring henceforth to be dependent only on Thee.

To Thee, they have appealed for the righteousness of their cause; to Thee do they now look up for that countenance and support which Thou alone canst give.

Take them therefore Heavenly Father, under Thy nurturing care; give them wisdom in Council and valor in the field; defeat the malicious designs of our cruel adversaries; convince them of the unrighteousness of their cause; and if they persist in their sanguinary purpose, O let the voice of Thy own unerring justice, sounding in their hearts, constrain them to drop the weapons of war from their unnerved hands in the day of battle.

Be Thou present, O God of wisdom, and direct the councils of this honorable assembly; enable them to settle things on the best and surest foundation. That the scene of blood may be speedily closed; that order, harmony and peace may be effectually restored, and truth and justice, religion and piety prevail and flourish among Thy people.

Preserve the health of their bodies and vigor of their minds; shower down on them, and the millions they here represent, such temporal blessings as Thou seest expedient for them in this world, and crown them with everlasting glory in the world to come.

All this we ask in the name and through the merits of Jesus Christ, the Son, our Saviour. Amen.

MESSAGE FROM THE GOVERNOR

January 6, 1976

The Honorable President, Speaker and
Members of the Nebraska Legislature:

Welcome back to the Second Session of the 84th Legislature. The many bills carried over from the First Session and the bills to be introduced this session will surely tax your time during the 60 days you are in session. I have therefore chosen not to appear personally before you at this time, as I know your time is very valuable and you want to get about the business confronting this Legislative body.

I will ask to be invited to address you personally in the next few weeks for the purpose of the "State of the State" address and the delivery of the budget message. My remarks at that time will be more extensive.

In the meantime, I want to restate the open door policy in my office. Please call on me if I can be of help during this session. Again, I wish you well in your important work during the balance of this session.

Sincerely,

(Signed) J. James Exon
Governor

Dear Senator Clark:

In your letter of May 22, 1975, you ask whether legislation is necessary to prohibit members of the Liquor Control Commission from being paid room and board and mileage while they are in session in Lincoln. In general, state employees are entitled only to that compensation provided by statutes. Section 53-113, R. R. S. 1943, provides for the payment of expenses and mileage for Liquor Control Commission employees and commissioners. In part it provides:

“The commissioners, the secretary, all clerks, inspectors, and other employees shall be reimbursed for all actual and necessary traveling expenses and disbursements incurred or made by them in the discharge of their official duties. * * *”

The above section also states that compliance must be had with Section 84-306.01, R. R. S. 1943. This section requires that any state officer or employee entitled to reimbursements must present a claim each month to the Director of Administrative Services itemizing each charge showing dates, names, locations, and the necessity for the expenses for which reimbursement is claimed. Where mileage is involved in a claim the points between which such mileage was accrued must be shown on the claim. The final sentence of the above section states:

“* * * . No personal maintenance expenses shall be allowed to any state officer or employee when such expenses are incurred in the city or town wherein the residence or headquarters of such officer or employee is located.”

Section 53-114, R. R. S. 1943, provides that the office of the Liquor Control Commission shall be in Lincoln. It also provides that branch offices may be established at other sites in the state. The three commissioners are required to be from different Congressional Districts. Under the statute as it exists, no more than one could possibly have a residence in Lincoln, Nebraska.

Where payment of such claims, as you mention in your letter, are involved, it is preferable that specific statutory language exist to which the claimant can point in order to justify the claim made.

It is our opinion that the present statutory scheme would exclude payment for personal maintenance expenses to members of the Nebraska

Liquor Control Commission while they are engaged in official business in Lincoln. It is questionable whether or not commission members would be entitled to mileage between their residence and Lincoln to attend their normal meetings. No specific language provides for such payment nor does none exist which would exclude such payment.

We point out that a number of other commissions exist under the Nebraska statutes. Two such commissions are the Commission on Indian Affairs and the Nebraska Commission on Intergovernmental Cooperation. The commissioners in each instance serve without pay, however, Section 81-1218, R. R. S. 1943, referring to the Commission on Indian Affairs states:

“The members of the commission shall serve without compensation, but they shall receive reimbursement for any actual expenses incurred as a necessary incidence to such service.”

Section 81-812, R. R. S. 1943, referring to the Nebraska Commission on Intergovernmental Cooperation authorizes payment for necessary expenses in carrying out the obligation of the commissions members. In both instances the statutory grant in our opinion encompasses the payment of mileage and personal maintenance expenses incurred incident to performing the duties required of the commission members. Such language more directly indicates a legislative intention that the members shall receive personal maintenance expenses. Under those statutes relating to the Liquor Control Commission members, however, no clear legislative intent is expressed. In the absence of such an expression of intent it would appear that they are not entitled to those expenses.

Sincerely yours,

PAUL L. DOUGLAS

Dear Senator Goodrich:

In a recent inquiry you have asked “If a member of the Armed Forces was captured during the Vietnam War and is listed a Missing in Action and is subsequently declared dead by the Armed Forces, are his children

entitled to the benefits of 80-411, free tuition in one of the colleges?" You state that it is your interpretation that they would be entitled to the benefits stated in that statute but on the chance that our interpretation does not agree with yours, you are making inquiry now so that amendatory legislation to be drafted for introduction at the next session of the Legislature.

We agree with your interpretation.

Opinion No. 118
August 29, 1975

Dear Senator Warner:

You have asked whether LB 325, commonly referred to as the "Open Meetings Law," is applicable to the Legislature or its various committees. Before answering your specific questions, we feel it prudent to make some general comments concerning this legislation and the constitutional provisions which are relevant to the ultimate determination of your questions.

Section 1 of LB 325 sets out the public policy of the state as it concerns open meetings. Section 1 reads as follows:

"It is hereby declared to be the policy of this state that the formation of public policy is public business and may not be conducted in secret.

"Every meeting of a public body shall be open to the public in order that citizens may exercise their democratic privilege of attending and speaking at meetings of public bodies, except as otherwise provided by the Constitution of the State of Nebraska, federal statutes, and this act. (Emphasis added.)

The above emphasized language from Section 1 raises a preliminary question and that is whether the Constitution does "otherwise" make provisions that would exempt the Legislature from coverage under LB 325.

The Constitution of Nebraska, Article III, Section 11, provides in part that:

“ . . . The doors of the Legislature and of Committees of the Whole, shall be open, unless when business shall be such as ought to be kept secret.”

This section of the Constitution clearly does not provide “otherwise” but is in complete agreement with LB 325. In Article III, Section 10, of the Nebraska Constitution the following excerpt is found:

“ . . . the Legislature shall determine the rules of its proceedings. . . .”

This section of the Constitution also is in complete agreement with LB 325 and in particular with Section 5(2) of that bill which reads:

“Any public body may make and enforce reasonable rules and regulations regarding the conduct of persons attending its meetings and regarding their privilege to speak. A body is not required to allow citizens to speak at each meeting, nor may it forbid public participation at all meetings.”

It follows from the above discussion that the Constitution of Nebraska, as it relates to the Legislature, does not make provisions that are contrary to or in conflict with the provisions of LB 325.

Since the Constitution does not exempt the Legislature from coverage under LB 325, we should now turn to the specific question you asked; that being whether the Legislature is covered by the act. As mentioned earlier, the “Open Meetings Law” declares that it is this state’s public policy “that the formation of public policy is public business and may not be conducted in secret.” It further provides that:

“Every meeting of a public body shall be open to the public. . . .” (Emphasis added.)

Whether the Legislature falls within the coverage of LB 325 depends, first of all, on whether the Legislature is a “public body” and secondly, whether the Legislature is holding a “meeting” as those two terms are defined in the act.

Section 2(1), which defines public body, reads in part as follows:

“Public body shall mean. . . (c) all independent boards, commissions, bureaus, committees, councils, subunits, or any other bodies, now or hereafter created by Constitution, statute, or otherwise pursuant to law, . . . (e) advisory committees of the

bodies referred to in subdivisions (a), (b) and (c) of this subdivision. . . ." (Emphasis added.)

It is rather clear from this definition that the Legislature is a "public body" for the purposes of this act as it is one of the many "bodies, now or hereafter created by Constitution." It is also clear that committees as well as advisory committees of the Legislature are also included in this act's definition of "public body."

Section 2(2), which defines meetings, reads as follows:

"Meetings shall mean all regular, special, or called meetings of any public body for the purposes of briefing, discussion of public business, formation of tentative policy, or the taking of any formal action."

There is little doubt that the purposes of the Legislature's meetings are those very same purposes mentioned in Section 2(2) of LB 325 and therefore the Legislature and its committees do meet for the purposes of this act.

It is seen from the above analysis that the Legislature is a "public body" and does hold a "meeting" as those terms are defined in LB 325 and, therefore, unless the Legislature is specifically exempted from the act, it will fall within the coverage of the act. The only apparent exceptions to the coverage of this act appear to be situations where the Constitution of Nebraska, federal statute or the act itself provide that some group should be excepted and the specific exceptions mentioned in Section 2(1) of the act. As discussed earlier, the Constitution of Nebraska does not except the Legislature from coverage of this act. Section 2(1) excepts from the act subcommittees of the covered bodies, if the subcommittee has no power to take formal action on behalf of its parent body. Also excepted are certain judicial proceedings that are not relevant to this discussion. Neither of these exceptions to the coverage of the act are applicable to the Legislature.

In conclusion, we point out that the Constitution of the State of Nebraska does not make any provisions that are contrary to or in conflict with the Open Meetings Law and, in fact, the Constitution and this act appear to complement one another. The Legislature is clearly a "public body" and does hold "meetings" as defined in the act. Therefore, the clear and unambiguous language of the act which reads "Every meeting of a public body shall be open to the public" must be said to apply to the Legislature and its various committees.

Very truly yours,

Opinion No. 119
September 3, 1975

Dear Senator Kelly:

You have written to this office enclosing a copy of a letter to you from the Governor. The letter deals with the I-80 Sculpture Project. The Governor states that under the provisions of Section 21 of LB 605, 1975 Legislature, both the Legislature and the Governor are required to approve the acceptance of such a gift. The Governor then suggests that the Executive Board could give their consideration to the project and refers to the required legislative approval. Your question to this office is whether or not the Executive Board of the Legislative Council has the authority to approve the gifts of sculptures from the I-80 Bi-Centennial Corporation "as required by LB 605."

The Legislature and Legislative Council are two different entities. The Legislature is established by the Constitution. The Legislative Council was originally established in 1937, Laws 1937, Chapter 118, Page 421. Originally, the Legislative Council consisted of fifteen legislators. In 1949, this was changed to make all members of the Legislature members of the Legislative Council. At the same time, the Executive Board of the Legislative Council was created. See Laws 1949, Chapter 168, Section 1, Page 445.

Insofar as your request is concerned, LB 605, Section 21 provides in part as follows:

". . . , [T]hat all gifts or devises of real property in excess of \$10,000 to be used for state purposes be approved by the Governor and the Legislature before acceptance."

We note in the same act, reference is specifically made to the Executive Board of the Legislative Council. See Sections 2, 4, 5, 6, and 10. In these sections, plans and reports are to be made to the Governor and to the Executive Board of the Legislative Council. It seems obvious that when in the same act provision is made that the Legislature approve that this is what was meant. It is our opinion that under the language quoted above that the approval intended was that of the Legislature acting as such and was not delegated to the Executive Board of the Legislative Council.

Opinion No. 121
September 8, 1975

Dear Senator Warner:

In your letter of August 20, 1975, you ask us to review our opinion of September 10, 1974, Report of the Attorney General 1973-74, page 243, and provide you with answers to some questions on the subject, to assist you in drafting amendments to the present statutes. The statutory sections involved are secs. 77-1341 to 77-1348, R.S.Supp., 1974, dealing with the special tax treatment of agricultural land. Briefly, these sections provide that qualifying real estate used for agricultural purposes shall be assessed at its value for agricultural purposes, and not at the value it would have if applied to other than agricultural uses.

In our opinion of September 10, 1974, we construed secs. 77-1343 and 77-1344 to require that the real estate be in a zoning district limiting the use of the land to agricultural purposes. We did so for the reason that in statutory construction the court attempts to give some meaning and effect to every provision of a statute. Sec. 77-1344 requires that qualifying land must be used exclusively for an agricultural use. It also requires it to be in "an agricultural use zone." If we construe these provisions to permit the special treatment of land which is in a zoning district which is not exclusively agricultural, but simply in one which permits agricultural use, very limited meaning can be given to the requirement that it be in an agricultural use zone. Presumably real estate is used for a purpose which the zoning laws permit. It would not be necessary to put such a requirement into the statutes, and the requirement of exclusive use for agricultural purposes would be sufficient without any reference to zoning.

It is true that a very limited meaning could be given to the requirement if we were to say that it was intended to prevent the special tax treatment to agricultural lands in a zoning district prohibiting agricultural use if such use was permitted as a nonconforming use by reason of the land having been so used at the time of the adoption of the zoning ordinance. However, we felt that this was a very strained construction, that it is doubtful that there is any such land, and that the interpretation we adopted was the most reasonable one.

You ask us to expand on the meaning of the word "exclusive," as used in sec. 77-1344. It is difficult for us to give any definition of exclusive agricultural use beyond that found in the statute and the specific examples we gave in our opinion of September 10, 1974. As you point out in your letter, our Supreme Court has in the past held that the primary or dominant use, and not an incidental use, is controlling in determining whether property is exempt from taxation. See Lincoln Woman's Club v. City of Lincoln, 178 Neb. 357, 133 N.W.2d 455 (1965). These cases were in connection with the educational, religious, and charitable exemption,

but there is no reason to believe that the same principle would not be applicable with respect to the special treatment afforded agricultural lands.

It is virtually impossible, however to lay down any general, comprehensive rules in this area. These matters will necessarily be decided on a case by case basis to determine whether, in a particular instance, a use is incidental to the agricultural use, as defined in sec. 77-1343, or is a primary or dominant use, as contemplated by Lincoln Woman's Club v. City of Lincoln.

At your request we have reviewed the various zoning statutes of this state, specifically secs. 14-401 to 14-419, dealing with cities of the metropolitan class; secs. 15-901 to 15-905, dealing with cities of the primary class; secs. 19-901 to 19-915, dealing with cities of the first and second classes and villages; and secs. 23-114 to 23-114.05 and 23-164 to 23-174.10, dealing with counties.

Your specific question was whether under these acts local government can legally create zoning districts in which agriculture would be the exclusive use. We find nothing in any of them which would prohibit such zoning. Each of the acts delegating zoning powers to the political subdivision involved gives the governing body broad powers with respect thereto. Most of them make no specific reference to agricultural zoning, although sec. 19-903 does. The others use language permitting zoning for trade, industry, business, residences, and other purposes. Agriculture would certainly be included among "other purposes."

We can think of no reason why, in theory, at least, a zoning ordinance restricting the use of property to agricultural uses would not be upheld. The case of County of Saunders v. Moore, 182 Neb. 377, 155 N.W.2d 317 held that a vested interest in a nonconforming use under zoning regulations is a property right, and any statute or law purporting to take away that right is invalid. Under that case it would appear that a zoning ordinance restricting the use of land to agricultural purposes would have to contain the customary nonconforming use provision.

Other than that, we believe the rule is clear that zoning is within the police power of the state, and of the governmental subdivisions to which it is delegated. In Graham v. Graybar Electric Company, 158 Neb. 527, 63 N.W.2d 774 (1974) we find:

"As to that the rules are:

" ' What is the public good as it relates to zoning ordinances affecting the use of property is, primarily, a matter lying within the discretion and determination of the municipal body to which the power and function of zoning is committed, and, unless an abuse of this discretion has been clearly shown, it is not the province of the courts to interfere.' City of Omaha v. Glissman, 151 Neb. 895, 39 N.W.2d 828.

" 'The validity of a zoning ordinance will be presumed in the absence of clear and satisfactory evidence to the contrary.' Davis v. City of Omaha, supra.' (158 Neb. at 530.)

If a political subdivision were to conclude that certain property should be restricted to agricultural uses, subject to nonconforming use exceptions, we know of no reason why such zoning would be held invalid, assuming that it was not unreasonable and arbitrary.

Dear Senator DeCamp:

You have raised several questions related to the gambling provisions of the Constitution of the State of Nebraska and under the existing statutes regulating gambling within the State of Nebraska.

In your first question you ask what the policy of the Attorney General is in the enforcement of the gambling statutes of the state. The Attorney General's policy is the same in the enforcement of gambling statutes as it is in other criminal statutes existing in the State of Nebraska, that is, that the local law enforcement officials--the county sheriff, city police, the State Patrol and duly elected county attorney--have the primary responsibility for enforcing the criminal laws of the State of Nebraska, including those relating to gambling.

You also ask whether or not the Attorney General's office has recommendations for changes in the gambling laws or in the constitutional provisions relating to gambling. Our office has no recommendations for legislation in this area nor any recommendations for amending the Constitution of the State of Nebraska either in favor of or opposed to gambling. If specific proposals are made, we would, of course, be happy to review those as in other proposed legislation.

In your letter you cite "[S]uch things as the recent chess tournament and various carnival activities at the State Fair." and ask whether any changes can be made to existing statutes or whether a constitutional change is necessary to legalize such conduct. Without having specific changes before us we feel that it is impossible to make any comment with regard to such areas.

Opinion No. 125
September 10, 1975

Dear Senator Bereuter:

You have furnished us with a copy of proposed legislation generally entitled "A Measure Designed To Promote The Accountability of Public Officials" drafted by Common Cause of Nebraska. You have indicated that you are considering the introduction of this legislation during the next legislative session and have therefore asked our opinion as to its constitutionality.

Since you have indicated that you must have our opinion by September 15, 1975, in order to be helpful to Common Cause, we have made every effort to thoroughly review the many provisions of this proposal in this short period of time. However, because of the extreme complexity and length of the draft, we have in most instances confined our review to general observations as to its constitutionality.

Generally this measure concerns open meetings of public bodies, campaign finance reporting, lobbying activities and registration and conflicts of interest. It would also create a Fair Political Practices Commission and would make certain appropriations. Article III, Section 14 of the Constitution of the State of Nebraska provides in pertinent part:

"No bill shall contain more than one subject, and the same shall be clearly expressed in the title."

It would be our opinion that this legislation as drafted would most probably be invalid in that it clearly concerns more than one subject.

Article III, Section 14 of the Nebraska Constitution also provides:

"And no law shall be amended unless the new act contain the section or sections as amended and the section or sections so amended shall be repealed."

Chapter three of the draft concerns amendments to Legislative Bill 325 passed by the First Session, 84th Legislature. As you may know,

Legislative Bill 325 has been codified and appears generally in Chapter 84, Article 14 and at sec. 79-327, 1975 Supp., and sec. 85-104, 1975 Supp. This proposal as drafted purports to amend Section 2, Section 3, and Section 4 of the original legislative bill. Section 2 now appears as sec. 84-1409, 1975 Supp., Section 3 appears as sec. 84-1410, 1975 Supp., and Section 4 appears as sec. 84-1411, 1975 Supp. In light of the constitutional provisions set out above, it would be our opinion that in order for these provisions to be valid, special reference would have to be made to these sections indicating the amendments and also provisions added for the repeal of the original sections.

Chapter four of the draft concerns campaign financing. The present statutes concerning this subject are found generally beginning at sec. 32-1134 through sec. 32-1155, R.R.S. 1943, with secs. 32-1134, 35, 43.01, 43.02 and 49 found in the 1974 Supplement. While the draft does not purport to directly amend these sections, a conflict would certainly result between the provisions of the draft and the current sections of the statute and it would be our opinion that these sections should be directly amended and or repealed at the same time the new sections are enacted.

Chapter five of the draft concerns the activities of lobbyists and their registration. The current statutes concerning lobbying can be found generally at sec. 50-308 through sec. 50-318, R.R.S. 1943. Our observations concerning the need to amend or repeal these sections would apply to chapter five as well.

Chapter six of the draft concerns conflicts of interest and our observations on the need to amend or repeal would be applicable here also. The present statutes concerning conflicts of interest can be found generally in Chapter 49, Article 11.

Section 1.005 of the draft purports to restrict the Legislature's ability to repeal or in any respect amend any of the provisions of the entire enactment for a period of two years after passage of the act and further that the Legislature could thereafter only amend the measure upon a two-thirds vote and finally that it could only be repealed thereafter by a measure which becomes effective when approved by the electors. It would be our opinion that such provisions would probably be invalid in that they would limit and restrict the inherent power of any subsequent Legislature to legislate matters as they saw fit. We can find no authority which would permit one Legislature to bind a subsequent Legislature in this manner.

Additionally, we feel that the provisions requiring a two-thirds vote for the enactment of amendments to the provisions contained within the draft would be most likely invalid in that it would appear to violate the provisions of Article III, Section 13 of the Nebraska Constitution which states in part that:

“ . . . No bill shall be passed by the Legislature unless by the assent of a majority of all members elected. . . .”

We would be of the opinion that this language must be read as to provide that a measure shall pass upon its receipt of the vote of a majority of the members elected, therefore, we believe that it would be most difficult to defend constitutionally a provision enacted by one Legislature imposing a greater requirement upon a subsequent Legislature for the amendment of one specific measure.

Finally, we have found no authority supporting the proposition that the Legislature can dilute its Constitutional powers by requiring that the repeal of a given measure would only be effective upon the approval of a majority of the electors at large. Therefore, we would be of the opinion that this provision would be most difficult to defend constitutionality.

The draft contains certain provisions concerning appropriations. Section 1.010 provides in subsection (a) “. . . the State Auditors shall make sufficient funds available out of the emergency fund or any other fund of the state for the immediate implementation of Chapter seven.” However, Article III, Section 25 of the Nebraska Constitution provides:

“No money shall be drawn from the treasury except in pursuance of a specific appropriation made by law, and on the presentation of a warrant issued as the Legislature may direct, . . .” (Emphasis Added)

It would be our opinion that subsection (a) of Section 1.010 of the draft would probably be invalid as it does not make a specific appropriation for the implementation of these provisions. Additionally, Section 7.018 of the draft provides for partial appropriations for specific periods from January 1, 1977, through June 30, 1978. Article III, Section 22 of the Nebraska Constitution provides “Each Legislature shall make appropriations for the expense of government.” (Emphasis Added) It would be our opinion that the provisions of Section 7.018 would probably be invalid in that they purport to commit subsequent legislatures to these appropriations in apparent conflict with this section of the Constitution. Finally, as previously stated above, Article III, Section 14 of the Constitution of the State of Nebraska provides “. . . No bill shall contain more than one subject, . . .” We would be of the opinion that these provisions making these appropriations would probably additionally be invalid in that they are contained within the body of the enactment itself.

The proposed draft in Section 4.016(b) provides that “. . . anonymous contributions of more than twenty dollars (\$20.00) shall not be kept by the intended recipient but instead shall be promptly paid to the Secretary of State for deposit in the General Fund of the state.” It would be our opinion that this would be in the nature of a forfeiture and would be governed by Article VII, Section 7 of the Nebraska Constitution. The pertinent part of this section reads:

“The following are hereby declared to be perpetual funds for common school purposes of which the annual interest or income

only can be appropriated, to wit: . . . Fourth. The net proceeds of lands and other property and affects that may come to this state, by escheat, or forfeiture, or from unclaimed dividends, or distributive shares of the estates of deceased persons."

It would be our opinion that any such forfeitures should be placed in such a perpetual fund and could therefore probably not constitutionally be placed directly into the General Fund.

Additionally, Section 7.017(i) provides that persons who obtain financial gain from violating any provisions of this enactment, in addition to any other penalty, may be required to pay into the Treasury of the State a sum equal to three time the financial gain resulting from such violations. This provision would seem to clearly be a fine or penalty and therefore, in our opinion, would be governed by Article VII, Section 5 of the Constitution. This section reads in pertinent part:

"All fines, penalties, . . . arising under the general laws of the state, . . . , shall belong and be paid over to the counties respectively, where the same may be levied or imposed, All such fines, penalties, and license money shall be appropriated exclusively to the use and support of the common schools in the respective subdivisions where the same may accrue,"

It would therefore, be our opinion that such fines or penalties could probably not be paid directly into the Treasury of the State as is provided in this section.

Section 7.017(g) generally limits a persons rights to have his or her name listed on the ballot or to have writein votes counted on his or her behalf for a period of time following a conviction for violations of certain provisions contained within this act. Subsection (h) provides that no person may be compensated or reimbursed for lobbying for a period of time following a conviction for a violation of certain other provisions. We have reservations generally about the validity of this section especially in light of the provisions of Article IV, Section 13 creating a board composed of the Governor, the Attorney General and the Secretary of State which shall have the power to remit fines and forfeitures, to grant respites, repives, pardons and/or commitments in all cases of conviction of offenses against the laws of the state. Additionally, the Legislature has provided in sec. 29-112, R.R.S. 1943 that this board may restore the civil rights of any person convicted of a felony. In light of the fact that this particular draft does not purport to amend of repeal sec. 29-112 and in light of the constitutional provisions creating what is known as the Board of Pardons, we would be generally of the opinion that such a provision would probably not withstand close constitutional scrutiny.

As we indicated at the outset, we have not been able to closely examine each and every section of the proposal and cannot therefore make a

constitutional evaluation on all of its many facets. However, as is outlined above, there are a number of areas which we believe would be constitutionally deficient and probably therefore, invalid in the draft as proposed.

After your consideration of the contents of this correspondence, we would be most willing to review any revised drafts of such legislation which you may desire to prepare for introduction at the next legislative session.

Sincerely,

PAUL L. DOUGLAS

Re: Acupuncture

Dear Senator Stoney:

You have indicated that you are considering introducing legislation during the 1976 Session dealing with the subject of acupuncture. You have asked whether acupuncture falls within the practice of medicine and surgery as defined by sec. 71-1,102, R.R.S. 1943. We have concluded that it does.

Acupuncture is defined in the American Heritage Dictionary of the English Language as a traditional Chinese therapeutic technique whereby the body is punctured with fine needles. Therapeutic is defined as having healing or curative powers. Such healing attempted by the use of needles comes within the definition of the practice of surgery in which healing is confined to manual operations. These are usually performed by surgical instruments or appliances as distinguished from the practice of medicine which includes the use of medicine and drugs for the purpose of curing, mitigating or alleviating bodily diseases.

The definition of the practice of medicine and surgery in sec. 71-1,102, R.R.S. 1943, includes either the practice of medicine or the practice of surgery. As the court said in Little v. State, 60 Neb. 749, 84 N.W. 248 (1900), where rubbing, pulling and kneading with the hands and fingers certain portions of the body afflicted with disease in order to remove the cause or causes of trouble was held to be the practice of medicine:

“ . . . [A]ll physicians have the same object in view, namely the restoring of the patient to sound bodily or mental condition, and

whether they profess to attack the malady or its cause, they are treating the ailment, as the word is popularly understood. . . .”
Supra at 752.

The rationale for requiring licensure of such persons is set out in State v. Buswell, 40 Neb. 158, 58 N.W. 728 (1894):

“ . . . The object of the statute is to protect the afflicted from the pretensions of the ignorant and avaricious, and its provisions are not limited to those who attempt to follow beaten paths and established usages. . . .” Supra at 170.

In conclusion, acupuncture comes within the definition of the practice of medicine and surgery as defined by sec. 71-1,102, R.R.S. 1943.

Dear Senator Mahoney:

You have written a letter to this office wherein you state that in light of recent opinions which have been issued by this office relative to contractual agreements between public school districts and nongovernmental institutions for special educational programs for handicapped children it is the concern of the Executive Board of the Legislature that other ongoing educational programs of the State of Nebraska may be in jeopardy. You then ask two (2) questions. Each are hereinafter discussed.

I.

“Does the University of Nebraska’s veterinary program violate Article 7, Section 2 of the Nebraska Constitution?”

The statutory authority for the University of Nebraska’s veterinary program is Neb. Rev. Stat. Section 85-180 (Reissue 1971). That statute declares:

“Until such time as the Legislature may provide suitable structures and educational facilities for a School of Veterinary Medicine and Surgery, the Board of Regents is authorized to enter into agreements with suitable schools or colleges of veterinary medicine and surgery in other states, and to make expenditures pursuant thereto, for the purpose of utilizing the educational facilities of such schools and colleges for teaching students in the Nebraska School of Veterinary Medicine and Surgery in such required courses as are not offered at the University of Nebraska by reason of a lack of suitable facilities.”

Article VII of the Constitution of Nebraska pertains to education. Section 2 of that article declares:

“The State Department of Education shall be comprised of a State Board of Education and a Commissioner of Education. The State Department of Education shall have general supervision and administration of the school system of the state and of such other activities as the Legislature may direct.”

The general government of the University of Nebraska is vested, under the Constitution of Nebraska, in a Board of Regents. Thus Neb. Rev. Stat. Section 85-180 (Reissue 1971) is in accord with section 10 of Article VII of the Constitution of Nebraska and does not conflict with section 2 of Article VII of the Constitution of Nebraska. We are therefore of the opinion that the University of Nebraska's veterinary program does not violate section 2 of Article VII of the Constitution of Nebraska.

We recognize that your first question may contain a clerical error. Therefore on the chance that you intended to ask whether or not the University of Nebraska's veterinary program violates section 11 of Article VII of the Constitution of Nebraska we have elected to discuss the same. In connection therewith we have been informed that the Board of Regents, pursuant to Neb. Rev. Stat. Section 85-180 (Reissue 1971), has entered into agreements with suitable schools and colleges of veterinary medicine and surgery, which are owned and controlled by other states or political subdivisions thereof, and have made expenditures pursuant to said agreements from appropriations made by the Legislature for the purpose of utilizing the educational facilities of such school and colleges for teaching students in the Nebraska School of Veterinary Medicine and Surgery certain courses.

Section 11 of Article VII of the Constitution of Nebraska, in part, declares:

“Appropriation of public funds shall not be made to any school or institution of learning not owned or exclusively controlled by the state or a political subdivision thereof.”

In view of the fact that the above described agreements require an expenditure of public funds to schools or institutions of learning not owned or exclusively controlled by the State of Nebraska or a political subdivision thereof it might appear that said agreements and Neb. Rev. Stat. Section 85-180 (Reissue 1971) violate section 11 of Article VII of the Constitution of Nebraska. However, it must be remembered that the agreements are between the Board of Regents of the University of Nebraska and governmental entities of other states.

Section 18 of Article XV of the Constitution of Nebraska declares:

“The state or any local government may exercise any of its powers or perform any of its functions, including financing the same, jointly or in cooperation with any other governmental entity or entities, either within or without the state, except as the Legislature shall provide otherwise by law.”

The Legislature, pursuant to Neb. Rev. Stat. Section 85-180 (Reissue 1971), has expressly provided that the Board of Regents may enter into agreements with suitable schools or colleges of veterinary medicine and surgery in other states for certain purposes. So long as those agreements are made with schools or colleges which are owned or exclusively controlled by other states or political subdivisions of other states, section 11 of Article VII of the Constitution of Nebraska is not violated. See, section 18 of Article XV of the Constitution of Nebraska, which is quoted above. We are therefore of the opinion that the University of Nebraska's veterinary program, as it has been described to us, does not violate section 11 of Article VII of the Constitution of Nebraska.

Perhaps an additional comment is in order. In an opinion filed 23 May 1975 this office applied the rule of ejusdem generis to the precise language used in Neb. Rev. Stat. Section 43-642 (Supp. 1974) and concluded that the general phrase “any program operated or approved by the State of Nebraska” in that statute refers to and means any such programs offered by governmental institutions of this state. That opinion is strictly in accord with the constitutional principles discussed herein and is hereby affirmed.

II.

“Is Nebraska constitutionally barred from participating in the State Incentive Program of the Federal Government because the State Constitution prohibits the state from adding funds to the federal funds provided for this program?”

The State Student Incentive Grant Program, Title IV, Part A, Subpart 3 of the Higher Education Act of 1965, as amended, makes federal funds available to the states to assist them in providing grants to eligible students

to attend or continue to attend institutions of higher education. It does not require the states to appropriate funds to match federal funds and to award the combined funds in the form of a grant to students to attend or continue to attend institutions of higher education which are not owned or exclusively controlled by the respective states. Consequently Nebraska is not constitutionally barred from participating in the State Incentive Grant Program of the federal government.

Opinion No. 133
October 29, 1975

Dear Senator Clark:

You request our advice concerning section 66 of LB 6, for the First Special Session of the Eighty-Fourth Legislature. Section 66 of LB 6 reads as follows:

“To allow flexibility in meeting the reduction in the total agency General Fund appropriations made by this act, each agency is authorized to expend from any program General Fund appropriation an amount not to exceed the original General Fund appropriation to that program provided by the Eighty-fourth Legislature, First Session, 1975; Provided, the total agency General Fund expenditure shall not exceed the General Fund appropriation established by this act.”

In particular, you ask if section 66 is a constitutional delegation of authority. We find that it is not. We also find that section 66 is probably invalid in that it does not satisfy the constitutional requirement that appropriations be “specific.”

Under Section 22, Article III, Constitution of Nebraska, it is the duty of each Legislature to make appropriations for the expenses of government. Section 25 of that same Article is as follows:

“No allowance shall be made for the incidental expenses of any state officer except the same be made by general appropriation and upon an account specifying each item. No money shall be

drawn from the treasury except in pursuance of a specific appropriation made by law, and on the presentation of a warrant issued as the Legislature may direct, and no money shall be diverted from any appropriation made for any purpose or taken from any fund whatsoever by resolution."

The term "specific appropriation" has been defined repeatedly by the courts. In State v. Wallichs, 12 Neb. 407, 11 N.W. 806 (1882), the court said:

"... 'specific appropriation' means a particular, a definite, a limited, a precise appropriation, ..."

In State ex rel. Cline v. Wallichs, 15 Neb. 609, 20 N.W. 110 (1884), the court said:

"... A specific appropriation is one expressly providing funds for a particular purpose. There can be no implied appropriation of money under our constitution, nor any claim audited unless the items of the account are set out. . . . There is also a provision that, 'no money shall be diverted from any appropriation made for any purpose.' The legislature possesses no power to make an implied appropriation, ..."

In State v. Moore, 50 Neb. 88, 69 N.W. 373 (1896), the court said:

"... An appropriation may be specific, according to any of the definitions heretofore given, when its amount is to be ascertained in the future from the collection of the revenue. It cannot be specific when it is to be ascertained only by the requisitions which may be made by the recipients. . . ."

In view of the authorities cited above, it appears that section 66 of LB 6 does not satisfy the constitutional requirement that appropriations be specific. Section 66 authorizes each agency "... to expend from any program General Fund appropriation an amount not to exceed the original General Fund appropriation to that program provided by the Eighty-fourth Legislature, ...". The overall effect of section 66 is that the Legislature has made a straight lump sum appropriation to the particular agency and the executive officers of that agency are delegated the authority to determine which program appropriations should be reduced and which program appropriations should be maintained at their previous level or possibly increased above the previously appropriated level. The obvious purpose of this section is to give the executive branch freedom to administer and expend the funds as they might determine. This does not constitute a "specific appropriation" but is a straight lump sum appropriation and therefore is not valid under our Constitution.

In State v. Moore, 50 Neb. 88, 69 N.W. 373 (1896), the court, in discussing appropriations, said the following:

“ . . . to ‘appropriate’ is to set apart from the public revenue a certain sum of money for a specified object, in such manner that the executive officers of the government are authorized to use that money, and no more, for that object and for no other. This definition cannot be too strict as applied to our own constitution containing the requirement that the appropriations must be specific. . . .”

In addition, our constitutional provision provides that no money shall be drawn from the treasury except in pursuance of a specific appropriation made by law, and no money shall be diverted from any appropriation made for any purpose or taken from any fund whatever, either by joint or separate resolution. This is a restriction upon the legislative authority to take funds from an appropriation to an agency without enacting specific legislation therefor. It does not, therefore, appear logical that the Legislature could authorize the executive officers of any agency to accomplish the same end by a general statement of intent in an appropriation bill such as is seen in section 66 of LB 6. We conclude, therefore, that section 66 of LB 6 is probably an invalid delegation of legislative authority. See, Rein v. Johnson, 149 Neb. 67, 30 N.W.2d 548 (1947), at page 80.

In view of the above discussions and cited authorities, it is our opinion that section 66 of LB 6, for the First Special Session of the Eighty-Fourth Legislature is probably invalid because it fails to satisfy the constitutional requirement that appropriations be specific and also because it constitutes an unconstitutional delegation of legislative authority. While our answers are somewhat general, we do hope that they can serve as a guideline to your committee and the Legislature in its consideration of the appropriations bill.

Very truly yours,
PAUL L. DOUGLAS

Opinion No. 134
October 24, 1975

Dear Senator Mahoney:

In your letter of October 21, 1975, you make reference to Article VIII, Section 8 of the Nebraska Constitution which provides:

“The Legislature at its first session shall provide by law for the funding of all outstanding warrants, and other indebtedness of the state, at a rate of interest not exceeding eight per cent per annum.”

This section has no particular use at this time. As you will note, it required the Legislature, at its first session, to make provision for outstanding warrants, etc. In State ex rel. Omaha National Bank v. McBride, 6 Neb. 506 (1877), the court said that the sole purpose of the section was to provide for the payment of the state debt outstanding at that time, and that the execution of that object exhausted the power conferred by the section.

You ask whether the State Treasurer can issue warrants to cover current fiscal year appropriations. Subject to the limitations we will discuss later, we believe he can. Chapter 77, Article 22 of the Revised Statutes makes provision for the issuance of warrants. Section 77-2203 provides:

“Whenever a warrant is presented for payment to any such treasurer and there is not sufficient money on hand to the credit of the proper fund to pay the same, it shall be the duty of every such treasurer to enter such warrant in his warrant register for payment in the order of its presentation, and upon every warrant so presented and registered, he shall endorse registered for payment, with the date of registration, and shall sign such endorsement.”

You also ask whether he must be specifically authorized to do so by the Legislature, or whether it is discretionary on his part. It appears that the answer to both of your questions is “no.” Section 77-2203 already appears to give him all of the authorization he needs, and, as a matter of fact, seems to make it mandatory, rather than discretionary, for him to register warrants under the circumstances outlined in the statute.

You further ask whether the Legislature can direct the issuance of registered warrants. It appears that Chapter 77, Article 22 does not contemplate that warrants be registered unless required by the factual situation therein outlined. A direction that they be registered, as, for example, by a legislative resolution, would not, in our opinion, have any effect. If the factual situation did not exist, he would have no statutory

authority to register warrants; if it did exist, he would have no alternative but to do so. Obviously, the Legislature could amend the statute to change the forgoing answer.

Your next question is whether the issuance of registered warrants is restricted by the provisions of Article XIII, Section 1 of the constitution. We conclude that it is. This section provides in part:

“The state may, to meet casual deficits, or failures in the revenue, contract debts never to exceed in the aggregate one hundred thousand dollars, and no greater indebtedness shall be incurred except for the purpose of repelling invasion, suppressing insurrection, or defending the state in war, . . .”

In an opinion of this office dated May 24, 1971, Report of the Attorney General 1971-72, page 133, we stated that in our opinion this section of the constitution was not applicable to the issuance of registered warrants, because the issuance of a registered warrant to cover a debt already incurred does not constitute “contracting” a debt, but that the warrant is issued only as evidence of a pre-existing debt. This may be true, but we now conclude that this does not answer the question, because if the pre-existing debt or debts amount to more than one hundred thousand dollars, the state must necessarily have violated Article XIII, Section 1 in contracting them. Perhaps it is not the issuance of the registered warrants that constitutes the violation, but the issuance of registered warrants in excess of one hundred thousand dollars would be evidence that a violation had occurred.

In the case of In re State Warrants, 25 Neb. 659, 41 N.W. 636 (1889), the court held that state warrants drawing interest were “state securities” under a constitutional provision authorizing the investment of educational funds in state securities. In State v. Stuefer, 66 Neb. 381, 92 N.W. 646 (1902), the court cited In re State Warrants in support of the proposition that state warrants were “state securities,” and went on to say:

“... On the other hand, the state securities or bonds of this state, because of the limitation imposed by section 1 of article 12 of the constitution, can never exceed, under ordinary circumstances, the sum of \$100,000. . . .”

Perhaps it can be argued that the issuing of registered warrants does not amount to contracting debts, but the warrants are only evidence of a pre-existing debt. In any event, if the total of such debts is in excess of \$100,000, a violation of Article XIII, Section 1 has occurred, and the illegal act is not purified by the issuance of registered warrants.

You also state that you assume that warrants could not be issued in excess of current fiscal year appropriations. Your assumption is correct.

FIRST DAY—JANUARY 7, 1976

Article III, Section 25 of the constitution provides that no money shall be drawn from the treasury except in pursuance of a specific appropriation made by law. No warrant, registered or otherwise, can be issued except as authorized by legislative appropriation.

Opinion No. 143
November 24, 1975

Dear Senator Savage:

You have written to this office requesting our advice if additional legislation is necessary or the approval of the Legislature is required in order for the State of Nebraska or a division thereof, particularly the Highway Department, to accept pieces of sculpture from the I-80 Bicentennial Sculpture Corporation. You suggest that if such legislation is necessary, you plan to introduce it in the next session of the Legislature.

We are enclosing a copy of an opinion written to the Honorable Douglas K. Bereuter dealing with the question of whether or not these items of sculpture are real property or personal property. This is for your information.

Section 39-1320, R.R.S. 1943, 1975 Supp., provides in part as follows:

“The department is hereby authorized to acquire, either temporarily or permanently, lands, real or personal property or any interests therein, or any easements deemed to be necessary or desirable for present or future state highway purposes by gift, . . .”

In view of this statutory provision, whether or not the statutory are considered to be real or personal property, it is still within the authority of the Department of Roads to acquire such by gifts. No legislation is needed to accomplish this.

Opinion No. 144
November 24, 1975

Dear Senator Bereuter:

You have requested our opinion as to whether the items of sculpture involved in the proposed I-80 Bicentennial Sculpture Project individually or collectively can be considered to be real property which would therefore require the approval by both the Governor and the Legislature before acceptance under section 21 of LB 605 enacted by the First Session of the Eighty-Fourth Legislature. While this pertains to a bill which has been enacted and has become law, as a member of the Legislature it does appear that you do have an interest as a member of the Legislature. If legislative approval is required, you, as a member of that body, would be required to participate in the decision.

We are not fully familiar with the details of the sculpture project. For the purpose of responding to your question, we shall assume that the various items of sculpture are to be put into final form in accordance with certain specifications and designs which have been accepted and approved. We further assume that on completion the finished sculptures will be then accepted and put in position at various locations along the Interstate.

Section 21 of LB 605 directs for the disposition of gifts made to the state. It contains a proviso that all gifts or devises of real property in excess of \$10,000 to be used for state purposes must be approved by the Governor and the Legislature. The validity of this proviso and its applicability to the sculpture project is certainly questionable. However, for the purposes of this response, we will assume its validity. We also will assume that each item of sculpture to be given to the state is in excess of \$10,000 in value.

Real property has been defined as consisting of such things as are permanent, fixed and immovable as lands, tenements and hereditaments of all kinds. The word land includes not only the soil but everything attached to it, including buildings, fixtures and fences. 63 Am.Jur.2d, Property, Section 11. Personal property is all property other than real property such as money, goods and movable chattels. 68 Am.Jur.2d, Property, Section 22. The sculptures here involved at the time of their acceptance and approval, which we assume will be done prior to their being moved to their permanent site, will still be movable property. At this time they are nothing more than items of personal property. When they are finally

moved to their location and permanently affixed and attached to the land on which they are to stand, they will then become a part of the real property along the Interstate route. Until such has been accomplished with the intent to affix such permanently, they will remain personal property.

Opinion No. 145
December 1, 1975

Dear Senator DeCamp:

You have asked our opinion on a prospective piece of legislation that you are suggesting. That legislation would provide that no doctors could practice medicine and no lawyers could practice law if more than fifty per cent of their income came from sources or work outside of their respective professions. It is our opinion that such a piece of legislation would be constitutionally invalid.

The right to earn a livelihood by following the ordinary occupations of life is protected by the Constitution. Such protection is particularly found in the guarantees of the Fourteenth Amendment. State v. Sperry & Hutchinson Company, 94 Neb. 785 (1913). Personal liberty includes the right of the citizens to be free to use his faculties in all lawful ways; to live and work where he will; to earn his livelihood by any lawful calling; to pursue any livelihood or vocation, and for that purpose to enter into all contracts which may be proper, necessary, and essential to his carrying out these purposes to a successful conclusion. 16 Am.Jr.2d, Constitutional Law, Section 359. In Hall v. State, 100 Neb. 84 (1916), the Nebraska Supreme Court said that a person living under the protection of the United States Government has the right to adopt and follow any lawful industrial pursuit not injurious to the community.

It is well settled by a great many cases dealing with almost every type of enterprise, trade, occupation, and profession that the state under its police power has the right to regulate any and all kinds of business in order to protect the public. The constitutional right of every person to pursue a business, occupation, or profession is subject to the paramount right of the government, as part of its police power, to impose such restrictions and regulations as the protection of the public may require. In Nelsen v. Tilley, 137 Neb. 327 (1939), the Nebraska Supreme Court said that the right to

engage in a lawful and useful occupation cannot be taken away under the guise of regulation, but such an occupation may be subjected to regulation in the public interest even though such regulation involves, in some degree, a limitation on the exercise of the right regulated. This position was affirmed in Elder v. Doerr, 175 Neb. 483 (1963).

The state may not under the guise of protecting the public, arbitrarily interfere with private business or prohibit lawful occupations or impose unreasonable or unnecessary restrictions upon them. State v. Sperry & Hutchinson Company, supra. In Lincoln Dairy Company v. Finigan, 170 Neb. 777 (1960), the Nebraska Supreme Court held that a citizen has the constitutional right to engage in any occupation not detrimental to the public health, safety and welfare. Measures adopted by the Legislature under the police power to protect the public health and secure the public safety and welfare must have some reasonable relationship to those proposed ends. Thus, while the state under its police power may regulate any and all kinds of businesses in order to protect the health, morals and welfare of its citizens, these regulations must have some reasonable relationship to those proposed ends.

In Gillette Dairy, Inc. v. Nebraska Dairy Products Board, 192 Neb. 89 (1974), the Nebraska Supreme Court held that whether a business is charged with a legal public interest as to warrant its regulation is a legislative question in which the court ordinarily will not interfere. The Legislature may not, however, under the guise of regulation impose conditions which are unreasonable, arbitrary, discriminatory or confiscatory. Such regulations must be reasonable considering the nature of the business and not such as would prevent the carrying on of the business. A citizen has the constitutional right to own, acquire and sell property. If it becomes apparent that a statute under the guise of a police regulation does not tend to preserve the public health, safety and welfare but tends more to stifle legitimate business by creating the monopoly or trade barrier, it is unconstitutional as an invasion of the property rights of the individual.

In the case of the prospective piece of legislation you have suggested, the question is whether that legislation has as its purpose the protection of either the public health, safety or welfare or would it only tend to stifle legitimate business or prevent individuals from entering a legitimate and legal occupation which they have a constitutional right to pursue. Unless the proposed legislation will further either the public health, safety or morals, such legislation restricting attorneys and doctors clearly seems to be arbitrary and thus unconstitutional.

The closest case on point is an old New York opinion, Hauser v. North British & Mercantile Insurance Company, 100 N.E.52, 206 N.Y. 455 (1912). This case involved a newly enacted New York statute which provided in part that before any broker certificate of authority would be issued by the Superintendent of Insurance there had to be filed in his office a written application for such certificate, which must set forth that

the applicant is principally engaged or intends to principally engage in good faith in the insurance business or that he conducts or intends to conduct such business in connection with the real estate agency or real estate brokerage business. The plaintiff was an attorney and his application for an insurance certificate was refused upon the ground that said application did not set forth that he was engaged or intended to engage in good faith, principally, in the insurance business. The New York Court of Appeals held that such a statute was clearly unconstitutional and said:

“That statute before us goes far beyond what is proper regulation and is prohibitory, in preventing a person from pursuing occupation of an insurance broker, except as his principal business, or as an adjunct to a real estate business. To use the language in the case of *Wynehamer v. People*, 13 N.Y. at page 399, this statute ‘passes the utmost limit of regulation, and does not even wear a disguise.’ . . . Arbitrarily, the statute interferes with the citizens business pursuits and, by an unreasonable discrimination, deprives him of that equal opportunity, which the Constitution guarantees to him.” (*Id.* at 54)

In summary, unless the prospective piece of legislation will in some way further either the public health, safety and morals of the state, such a law would be unconstitutional as an unreasonable interference with the constitutional right to pursue any lawful occupation.

Very truly yours,

STATE OF NEBRASKA NATURAL RESOURCES COMMISSION

August 29, 1975

Mr. Vincent D. Brown
Clerk of the Legislature
Room 2018, State Capitol
Lincoln, Nebraska 68509

Dear Vince:

The Nebraska Resources Development Fund was created on July 12, 1974, when Legislative Bill 975 as adopted by the Eighty-Third Legislature, Second Session, became law. Section 2-3265 of that law requires that the Natural Resources Commission submit an annual report to the Governor and the Legislature describing the work accomplished by the use of the Development Fund.

The Development Fund has been in existence for slightly over a year. As such, the Fund is just now becoming functional. The Advisory Board has been purposefully careful in the development of the Rules and Regulations and in their scrutinization of potential projects under the Fund. Administrative and operational procedures have been established and are being revised where necessary to more closely conform with the intent of the Law. I now feel that project fund dispersement for Nebraska's land and water resources development will proceed at an increasing rate for those acceptable projects.

Project proposals and applications submitted under the Fund and the status thereof are presented in the enclosed report. It is, therefore, with extreme pleasure that I submit to you this first functional report of the Nebraska Resources Development Fund. I sincerely hope that the report will aid you in monitoring the progress of the Development Fund in its role of expanding Nebraska's natural land and water resources.

As this is the first year that a substantial report is being submitted to you and the Governor, I have also taken the liberty to provide each of Nebraska's Senators with a copy of the 1975 Annual Report. Many were extremely instrumental in obtaining the Development Fund and should be very interested in the progress of the program. I also am of the opinion that even those who were skeptical of such a Fund will be enlightened by the variation of projects applying for assistance and hopefully will pledge themselves to its perpetuation.

If you have further questions concerning the Development Fund, please do not hesitate in requesting assistance from this office.

Sincerely,
(Signed) Dayle E. Williamson
Executive Secretary

NEBRASKA RESOURCES DEVELOPMENT FUND
ANNUAL REPORT TO THE
GOVERNOR AND THE LEGISLATURE
AUGUST, 1975

The Nebraska Resources Development Fund Act of 1974 created a fund to assist in the wise development of Nebraska's land and water

resources. The Act delegates responsibilities to the Nebraska Natural resources Commission and to an Advisory Board, composed of state agency representatives from eight state agencies. Those agencies are:

Department of Economic Development
 State Office of Planning & Programming
 Department of Water Resources
 Game & Parks Commission
 Conservation and Survey Division, UNL
 Department of Agriculture
 Department of Environmental Control
 Nebraska Natural Resources Commission

Advisory Board & Commission Activities

The prime function of the Advisory Board is to determine project eligibility for Resource Development Fund assistance. The Board has also been delegated to determine the type of project assistance appropriate for specific projects, grants, loans, or a combination thereof. To aid in accomplishing these tasks, the Advisory Board has adopted Rules and Regulations and project completion guidelines.

Since the initial progress report of August 26, 1974, the Advisory Board has held six public informational meetings throughout the state. In order to arrive at state-wide input to the Rules and Regulations, meetings were held at Ogallala, Bassett, Scottsbluff, Hastings, Norfolk and Lincoln.

On December 17, 1974, the Advisory Board and the Natural Resources Commission held a joint public hearing on the Rules and Regulations of the Development Fund in the Lincoln Center Building, 5th Floor, Lincoln, Nebraska. The hearing was held open, to receive comments from the public, until January 15, 1975. On January 22, 1975, in joint session at North Platte, Nebraska, the Advisory Board and the Nebraska Natural Resources Commission adopted the Rules and Regulations of the Nebraska Resources Development Fund. The Rules and Regulations were approved by the Attorney General on February 24, 1975 and were filed on February 25, 1975.

In order to make the Rules and Regulations more compatible with the Law, they were revised in July, 1975, and a joint public hearing between the Advisory Board and the Natural Resources Commission was held on August 21, 1975. The changes were adopted and filed with the Attorney General on August 25, 1975.

Projects Submitted to the Development Fund for Assistance

Winters Creek Project Proposal

Sponsored by the North Platte Natural Resources District and Scotts Bluff County. The proposal was received on January 16, 1975 and

requested \$652,900 in the form of a grant. The project is for construction of a dry dam on Winters Creek for flood control and for construction of a drainage bypass ditch around the north fringe of Scottsbluff. The Advisory Board referred the proposal to the Small Watersheds Flood Control Fund because of the landacquisition aspect of the project. Sponsors are to follow with an application at a later date. Several meetings have since been held with the sponsors of the project.

Water Supply Project Proposal (Douglas & Washington Co.)

Sponsored by the Papio Natural Resources District. The proposal was received on February 18, 1975 and requested \$647,350 in the form of a loan and/or a grant. The project is to provide a drinking water supply system to areas just north of Omaha and possibly to the Village of Fort Calhoun. The Advisory Board has recommended that the sponsors obtain full F.H.A. funding prior to submitting a final application. The Board has also determined that the project is eligible for a loan, but not a grant. There has been no further communication with the sponsors since May 16, 1975.

Missouri River Levee - R-616 Project Proposal

Sponsored by the Papio Natural Resources District. The proposal was received on February 18, 1975 and requested \$180,000 in the form of a grant. The project is to construct a levee from Bellevue to the Platte River along the Missouri River on the Nebraska boundary. Because of the land acquisition aspect of the project, the Advisory Board referred the sponsors to the Small Watersheds Flood Control Fund. They were also notified that an application could follow after going through that fund. There has been no further communication since May, 1975, except that the project was deemed eligible under the Small Watersheds Flood Control Fund.

Maskenthine Multi-Purpose Project Application

Sponsored by the Lower Elkhorn Natural Resources District. The application was received on March 6, 1975 and requested \$303,000 in the form of a grant. The application is to provide funds for the construction of the structure for the Maskenthine flood control and recreation project. The application was revised and resubmitted on May 14, 1975. The Advisory Board has studied the application in depth and is assured that the findings of fact have been satisfied. The Board recommended to the Commission the following action:

1. Recommend approval of the Maskenthine Flood Control and Recreation Project for funding eligibility.
2. Recommend that the funding take the form of a grant.

3. Recommend that the degree of assistance for a grant be 75% of the construction costs not to exceed \$300,000. (Based on a letter from the Soil Conservation Service dated May 12, 1975 stating that construction costs would total \$400,000).

The Natural Resources Commission at the August 21, 1975 meeting, voted to accept the recommendations of the Advisory Board. In so doing, the Commission allocated seventy-five (75) percent or up to \$300,000 for the construction of the Maskenthine Multi-Purpose structure. These are the first funds to be allocated by the Development Fund.

Central Platte Ground Water/Nitrate Project Proposal and Application

Sponsored by the Central Platte Natural Resources District. The project proposal was received April 3, 1975 and requested \$96,350 in the form of a grant. The project proposal is to provide funds to advance a study of the high nitrate problems along the Platte Valley. Application of the study and its findings are assumed to be state-wide in scope, especially with the new emphasis on ground water drinking supplies. The Advisory Board requested that the sponsor submit an application and assess the costs and other avenues of funding before that submission. The full application and feasibility report was received on July 24, 1975 and revised to request \$86,250 in the form of a grant. At this time, the Advisory Board has not taken formal action on the project application.

Water Supply Project Application (Thayer & Jefferson Co.)

Sponsored by the Little Blue Natural Resources District. The project application was received on April 4, 1975 and requested \$137,000 in the form of a grant. The project is to supply a rural water system for 130 benefit users. The Advisory Board recommended to the Commission that the project was eligible for a loan and not a grant. The Commission voted to uphold that recommendation and the applicant sponsor was so informed. To date, no request for a loan has been received of the Fund.

Whitney Water Irrigation Supply Line Project Proposal

Sponsored by the Whitney Irrigation District. The project proposal was received on April 7, 1975 and requested \$19,500 in the form of a grant. The project is to fund a feasibility study for future application to the Bureau of Reclamation to refurbish the Whitney Irrigation Project. The Advisory Board advised the Commission that a feasibility study of this nature is ineligible for funding under the Rules and Regulations of the Development Fund. However, after the total project is funded, those costs not federally supported may be eligible for Development Fund assistance.

The Commission voted to disapprove eligibility at that time, and the sponsors were so notified. No further action has been taken on this project to date.

Walnut Creek Project Proposal

Sponsored by the Lower Big Blue Natural Resources District. The project proposal was received on April 7, 1975 and requested \$240,000 in the form of a grant. The project is designed to provide five flood control structures on the Walnut Creek Watershed situated just above the town of Crete. The Advisory Board has recommended that the sponsor submit an application and feasibility report. At this time, no further action has been directed to the Fund.

Hanson's Lake Inquiry

Submitted by Sarpy County Board of Commissioners. The inquiry was requesting funds to strengthen a dike adjacent to the Platte River; no funds actually requested, the Advisory Board recommended that the sponsor submit a proposal. The sponsor was cautioned that no funds could be allocated or committed unless the project was in conformance with L.B. 108, the Flood Plain Law of 1967 and the Corps of Engineers dredging and filling permit qualifications. No further action has been directed to the Development Fund.

Willow Creek Project Proposal

Sponsored by the Lower Elkhorn Natural Resources District. The proposal was received on July 15, 1975, an actual amount of funds have not been requested. The project proposal is for the construction of a flood control and recreation structure and area on Willow Creek in Pierce County. The proposal is referred to the Advisory Board Committee for review. No other action has been taken by the Advisory Board.

McCook Flood Control Project Proposal

Sponsored by the Middle Republican Natural Resources District. The proposal was received August 18, 1975 and requests \$346,150 in the form of a grant. The project is for construction of two flood control structures above the City of McCook to provide flood and sediment damage reduction to public and private facilities. The proposal is referred to the Advisory Board Committees for review. No other action has been taken by the Advisory Board.

Funding Expenditures

As stated under the Maskenthine Multi-Purpose Project Application Section, \$300,000 has been allocated for that project. Disbursement of funds will follow completion of work elements as performed.

STATE OF NEBRASKA
NEBRASKA INDIAN COMMISSION

December 19, 1975

Memorandum

TO: The Nebraska Legislature
From: Robert B. Mackey, Executive Director
Subject: Interim Year-End Report
Ref: Nebraska Indian Affairs

Improper and incorrect action by the Governor of Nebraska has created difficult problems for the entire Nebraska Indian Community.

Firstly, the governor was persuaded by a Church-sponsored and funded group, using Church Money to pay for a professional lobbyist to engage in State and Federal Affairs, to appoint a person on the Nebraska Indian Commission who represents an Omaha Indian Center (I.C.I.A.) which already has their one allotted Commission Member, however, the other Indian Center called the Sioux Indian Center was ignored in their bid of submitting their three candidates' names to the governor, therefore there is one segment of the City of Omaha Indian population which is without representation on the Nebraska Indian Commission, and the other has two Indian Commission Members. The governor also by-passed and ignored the Nebraska Indian Commission, the State Agency dealing with State Indian Affairs, and included a personal attack upon the director of the Indian Commission in a most vicious and damaging manner, which will be a problem.

Secondly, it has become apparent that there is a consortium of Churches who are knowingly or unknowingly, supporting and funding a Church organization which appears to be self-benefiting, excluding most of the Indians who were supposed to benefit from this Church-sponsored development programs, and divisions are created.

Thirdly, it appears that the governor has a hangup about the director and Indians in general. He has ignored the State Agency which he signed into law - 81-1214 - (LB 904 Law, 1971) May 22, 1971 and has instead recognized a very questionable organization which is under evaluation by the Churches presently. This has placed the legitimate Indian Community in a difficult position.

Fourthly, the Director of the Nebraska Indian Commission has been involved in the following accomplishments:

1. Established a Statewide Indian Legal Service Program, utilizing LEAA funds.
2. Assisted in establishing an Indian Community Satellite College Program for inmates at the Penal Complex, also functioning Social, Recreational, and Religious programs.
3. Established a Comprehensive Medical Service Program for off-reservation Indians with the Creighton University Medical Center.

4. Provide Glasses for Indian students to keep them in school.
5. Establish an Indian-Ethnic Cultural Awareness Program in the Lincoln Public Schools.

Respectfully submitted,

Dear Mr. Speaker:

In the course of the 48th Legislative District Election for 1974, and the attempted recount that followed, there was filed in the United States District Court for the District of Nebraska a lawsuit captioned Jesus Jose Porras, et al, Plaintiffs, vs William E. Nichol, et al, Defendants.

For the purpose of notifying the Honorable Members of the Legislature and for the further purpose of completing the record of the 48th Legislative District Election of 1974, and for the further purpose of preserving the history of said election, I hereby tender for your consideration and entry into the Journal a complete copy of the title and text of Judge Urbom's Order (CV75-L-45).

The plaintiffs, on behalf of themselves and others similarly situated, seek to have convened a three-judge court for the purpose of having declared unconstitutional two statutes and to enjoin enforcement of those statutes. Although several defendants originally were named, the plaintiffs now acknowledge that the only defendant who properly should remain is Alan J. Beerman, Secretary of State of the State of Nebraska.

The plaintiffs' request for a three-judge court is bottomed upon paragraph numbered 7 of the complaint, which states that the action:

"... is brought by the plaintiffs ... for the purpose of having declared unconstitutional Section 32-453 and Section 32-489 of the Revised, Reissued Statutes of Nebraska ... because the deprivation of these votes descriminates against the less educated and illiterate voter, against those who are unable to spell ... , and against those who ... through mistake or inadvertance, failed to spell [Terry Carpenter's] name correctly or to write his full name or to designate the office he sought."

and upon the prayer which asks for an injunction requiring the counting of votes which have not been counted because of those statutes.

The Nebraska statutes which the complaint charges are unconstitutional read as follows:

"32-453. Ballots; how marked by voter; name written in, permitted. The elector shall proceed alone into a compartment, if there be one then unoccupied, and prepare his ballot by marking it in the following nanner: (sic) He shall make a cross or other clear intelligible mark in the square to the left of every candidate for whom he desires to vote, and in case of a question to be submitted to the vote of the people, by making such a cross or mark in the square to the left of the answer he wishes to give. If the elector desires to vote for any person whose name is not printed on the ballot, except where not permitted by law, he shall write the name of the person in full in the blank space on the ballot under the proper office."

"32-489. Ballots; incorrect initials or surname of candidates; count or rejection; when authorized. If at any stage of the canvass a ballot shall be found having correctly written or printed thereon the surname of any person for any office, who shall be a candidate for such office at such election, and there shall be no other candidate for the same office having the same surname, such ballot shall be counted for such candidate, although the initial letter or letters or first name or names written or printed before his surname may not be those properly belonging thereto; *Provided*, if there shall be two or more candidates at such election for the same office having the same surname, and such initial letter or letters or first name or names, written or printed on such ballot, do not properly belong to either of the candidates, such ballot shall be rejected and disposed of as directed in section 32-492. A candidate within the meaning of this section is any person intentionally voted for at any election."

Of Section 32-453 the only portion which appears by any construction of the complaint to be under attack is that which states: “. . . he shall write the name of the person in full . . . on the ballot under the proper office.” What portion of Section 32-489 is claimed to be unconstitutional is not expressed. Conceivably, the attack could be on the clause which declares that any ballot will be counted if it has “correctly written or printed thereon the surname of any person for any office, who shall be a candidate for such office at such election, and there shall be no other candidate for the same office . . .” Perhaps the plaintiffs' position is that if incorrectly spelled names cannot be counted, neither can correctly spelled names.

Those two statutory provisions are to be measured against the Constitution of the United States. The complaint mentions generally the First, Fourteenth and Fifteenth Amendments. The First Amendment, insofar as it may declare anything pertinent to a voting right, provides:

“Congress shall make no law . . . abridging the right of the people . . . to petition the Government for a redress of grievances.”

The Fourteenth Amendment, through whose due process clause the First Amendment is a restriction on the states as well as on Congress, also states:

“. . . nor shall any State . . . deny to any person within its jurisdiction the equal protection of the laws.”

The Fifteenth Amendment states:

“The right of citizens of the United States to vote shall not be denied or abridged by the United States or by any State on account of race, color, or previous condition of servitude.”

Thus analyzed, the question is whether the statutes requiring a voter casting a write-in vote to write the name of the person in full under the proper office and permitting the counting of those ballots on which has been correctly written or printed the surname of a candidate on the ballot are an “abridging [of] the right of the people . . . to petition the Government for a redress of grievances” or a denial of “the equal protection of the laws” or a denial or abridgment of the “right . . . to vote . . . on account of race, color, or previous condition of servitude.”

When a three-judge court is requested it is the obligation of the judge to whom the request is submitted to make a determination of whether the court has jurisdiction, including a decision as to whether there is a substantial constitutional question involved. *Ex Parte Poresky*, 290 U. S. 30 (1933). If no substantial constitutional question is raised, no

three-judge court should be convened and the action should be dismissed. *Weir v United States*, 310 F. 2d 149 (C.A. 8th Cir. 1962); *Johns v Redeker*, 406 F.2d 878 (C.A. 8th Cir. 1969).

“The existence of a substantial question of constitutionality must be determined by the allegations of the bill of complaint. . . . The question may be plainly unsubstantial, either because it is ‘obviously without merit’ or because ‘its unsoundness so clearly results from previous decisions of this court as to foreclose the subject and leave no room for the inference that the question sought to be raised can be the subject of controversy’ . . .”

Ex Parte Poresky, 290 U.S. 30, 32 (1933)

An action should not be dismissed under this standard lightly. The Supreme Court of the United States in *Goosby v Osser*, 409 U.S. 512, 518 (1973), said:

“Title 28 U.S.C. Section 2281 does not require the convening of a three-judge court when the constitutional attack upon the state statutes is insubstantial. ‘Constitutional insubstantiality’ for this purpose has been equated with such concepts as ‘essentially fictitious,’ *Bailey v Patterson*, 369 U.S., at 33; ‘wholly insubstantial,’ *ibid.*; ‘obviously frivolous,’ *Hannis Distilling Co. v Baltimore*, 216 U.S. 285, 288 (1910); and ‘obviously without merit,’ *Ex Parte Poresky*, 290 U.S. 30, 32 (1933). The limiting words ‘wholly’ and ‘obviously’ have cogent legal significance. In the context of the effect of prior decisions upon the substantiality of constitutional claims, those words import that claims are constitutionally insubstantial only if the prior decisions inescapably render the claims frivolous; previous decisions that merely render claims of doubtful or questionable merit do not render them insubstantial for the purposes of 28 U.S.C. Section 2281. A claim is insubstantial only if ‘its unsoundness so clearly results from the previous decisions of this court as to foreclose the subject and leave no room for the inference that the questions sought to be raised can be the subject of controversy.’” *Ex Parte Poresky*, *supra*, at 32, quoting from *Hannis Distilling Co. v Baltimore*, *supra*, at 288; see also *Levering & Garrigues Co. v Morrin*, 289 U.S. 103, 105-106 (1933); *McGilvra v Ross*, 215 U.S. 70, 80 (1909) . . .”

Under that stringent standard I am persuaded that the plaintiffs in this action do not raise a substantial constitutional issue.

I can think of no conceivable argument that statutes requiring a voter who is casting a write-in vote to write the name of the person in full under the proper office and permitting the counting of those ballots on which there has been correctly printed or written the surname of the candidate

on the ballot abridge in any manner the right of the people "to petition the Government for a redress of grievances." This case involves voting for a candidate for the state legislature, not a petitioning for a redress of grievances. Neither can the statutes be said by any construction to be bottomed upon "race, color, or previous servitude." They therefore do not violate the First or Fifteenth Amendments to the Constitution of the United States.

As to the equal protection argument under the Fourteenth Amendment, no case which I have found deals directly with the kind of statutes the plaintiffs seek to have declared invalid.

When a state statute denies some citizens the right to vote altogether, the court must determine whether the provisions which cause the denial are necessary to promote a compelling state interest. *Dunn v Blumstein*, 405 U.S. 330 (1972). This is because the right to vote is a fundamental political right. *Reynolds v Sims*, 377 U.S. 533, 562 (1964). Accordingly, a state cannot deny the ballot to a bona fide resident merely because he is a member of the armed services, *Carrington v Rash*, 380 U.S. 89 (1965), or because he is financially unable to pay a poll tax, *Harper v Virginia Board of Elections*, 383 U.S. 663 (1966), or restrict school elections to persons owning or leasing property or having a child in the public schools, *Kramer v Union Free School District No. 15*, 395 U.S. 621 (1969), and a substantial constitutional issue is raised by asserting that a state statute forbids "persons confined in a penal institution from voting by absentee ballot," *Goosby v Osser*, 409 U.S. 512 (1973).

On the other hand, when there is no statutory classification drawn on the basis of suspect criteria, such as wealth or race, or voting qualifications, there is no denial of equal protection if the challenged statute bears some rational relationship to a legitimate state end. *McDonald v Board of Election Commissioners of Chicago*, 394 U.S. 802 (1969). In *McDonald*, unsentenced inmates awaiting trial claimed that Illinois' failure to provide absentee ballots was a denial of due process. The Supreme Court denied the claim, applying the test of rational relationship to a legitimate state end. In *Goosby v Osser*, supra, the Supreme Court distinguished *McDonald* on the basis that in *McDonald* there was no showing that Illinois would not make other provisions for voting by unsentenced inmates, so that there was no basis for saying that Illinois was denying those inmates the right to vote. The distinction appears clear: If the state statute creates a classification which denies some persons absolutely the right to vote, the stringent standard is applicable; if there is no classification which denies to some absolutely the right to vote, the more lenient test applies.

With respect to the Nebraska statutes under attack, the more lenient test must be used, because nothing in those statutes sets up any classification for voters and then denies that classification the right to vote. Although the plaintiffs' complaint asserts that the statutes discriminate against "the less educated, the illiterate, those who are unable

to spell, and those who act or fail to act through mistake or inadvertance," the statutes (sic) in fact set up no classification or classifications of such persons. Every voter who writes in the name of a candidate is in a single classification and each one is entitled to vote.

Applying the lesser standard, then, do these statutes bear some rational relationship to a legitimate state interest? There can be no doubt about that.

The State of Nebraska has a legitimate interest in a method of determining quickly and easily the identity of a person for whom a vote is being cast. The statutes being challenged certainly do not declare the only reasonable method of so determining, but they do prescribe one such reasonable method.

Lassiter v Northampton County Board of Elections, 360 U.S. 45 (1959), held that a state constitutional provision that limited the right to vote to persons who are "able to read and write any section of the Constitution in the English language" was not a denial of equal protection, saying:

"Of course a literacy test, fair on its face, may be employed to perpetuate that discrimination which the Fifteenth Amendment was designed to uproot. No such influence is charged here. On the other hand, a literacy test may be unconstitutional on its face. In *Davis v Schnell*, 81 F. Supp. 872, aff'd 336 U.S. 933, the test was the citizen's ability to 'understand and explain' an article of the Federal Constitution. The legislative setting of that provision and the great discretion it vested in the registrar made clear that a literacy requirement was merely a device to make racial discrimination easy. We cannot make the same inference here. The present requirement, applicable to members of all races, is that the prospective voter 'be able to read and write any section of the Constitution of North Carolina in the English language.' That seems to us to be one fair way of determining whether a person is literate, not a calculated scheme to lay springes for the citizen. Certainly we cannot condemn it on its face as a device unrelated to the desire of North Carolina to raise the standards for people of all races who cast the ballot."

360 U.S. at 53-4.

The *Lassiter* case was considerably nearer to a denial of equal protection than the present one, because the North Carolina Constitution did prevent absolutely a class of voters from voting—those who could not read or write the state constitution in English. Nonetheless, the limitation was upheld. If those who cannot read or write a state constitution in English may be totally excluded, *a fortiori* "the less educated, the illiterate, those who are unable to spell" could be similarly excluded under Nebraska statutes, but they are not.

Under Nebraska statutes there is no bar to anyone. If a ballot carries a written name under the proper office, it will be counted, no matter how poorly educated, illiterate or incapable of spelling the voter may be. The voter may take measures to learn to write the full name of the candidate before entering the booth, irrespective of his being poorly educated or illiterate. Indeed, a voter may carry into the polling booth a sample of the name and office of the candidate, whether prepared by him or someone else, Section 32-455, R.R.S. Neb. 1943, and there is nothing to prevent the voter's copying or tracing the sample. As for the careless, not even the Constitution can save them.

No meritorious argument can be envisioned that invidious discrimination has been wrought against the plaintiffs. Whatever the reasons for the plaintiffs' failure to spell the candidate's name correctly or fully or to write it under the correct office, they are not the fault of the statutes.

**HOUSE OF REPRESENTATIVES
128TH GENERAL ASSEMBLY
FIRST SESSION - 1975**

HOUSE CONCURRENT RESOLUTION NO. 36 Jun 11 1975

**APPLYING TO THE CONGRESS FOR A CONVENTION TO PROPOSE
AN AMENDMENT TO THE CONSTITUTION OF THE UNITED
STATES.**

BE IT RESOLVED by the House of Representatives of the 128th General Assembly, the Senate concurring therein, that the General Assembly of the State of Delaware hereby, and pursuant to Article V of the Constitution of the United States, makes application to the Congress of the United States to call a convention for the proposing of the following amendment to the Constitution of the United States:

“ARTICLE _____

The costs of operating the Federal Government shall not exceed its income during any fiscal year, except in the event of declared war.”

BE IT FURTHER RESOLVED that this application by the General Assembly of the State of Delaware constitutes a continuing application in accordance with Article V of the Constitution of the United States until at least two-thirds of the legislatures of the several states have made similar applications pursuant to Article V.

BE IT YET FURTHER RESOLVED that since this method of proposing amendments to the Constitution has never been completed to the point of calling a convention and no interpretation of the power of the states in the exercise of this right has ever been made by any court or any qualified tribunal, if there be such, and since the exercise of the power is a matter of basic sovereign rights and the interpretation thereof is primarily in the sovereign government making such exercise and, since the power to use such right in full also carries the power to use such right in part, the General Assembly of the State of Delaware interprets Article V to mean that if two-thirds of the states make application for a convention to propose an identical amendment to the Constitution for ratification with a limitation that such amendment be the only matter before it, that such convention would have power only to propose the specified amendment and would be limited to such proposal and would not have power to vary the text thereof nor would it have power to propose other amendments on the same or different propositions.

BE IT YET FURTHER RESOLVED that a duly attested copy of this resolution be immediately transmitted to the Secretary of the Senate of the United States, the Clerk of the House of Representatives of the United States, to each member of the Congress from this state and to each House of each State Legislature in the United States.

Regular Session, 1975

SENATE CONCURRENT RESOLUTION NO. 109

BY MR. W. D. BROWN

A CONCURRENT RESOLUTION

To apply to the Congress of the United States for a convention to propose an amendment to the Constitution of the United States.

WHEREAS, an ever-increasing public debt is inimical to the general welfare of the people of the United States; and

WHEREAS, the national debt is already dangerously high and any further increases will be harmful and costly to the people of the United States; and

WHEREAS, a continuous program of deficit financing by the federal government is one of the greatest factors supporting the inflationary conditions presently existing in this country and therefore has been the chief factor in reducing the value of the American currency; and

WHEREAS, payment of the increased interest required by the ever-increasing debt would impose an undue hardship on those with fixed incomes and those in lower income brackets; and

WHEREAS, it is not in the best interest of either this or future generations to continue such a practice of deficit spending particularly since this would possibly deplete our supply of national resources for future generations; and

WHEREAS, by constantly increasing deficit financing the federal government has been allowed to allocate considerable funds to wasteful and in many instances nonbeneficial public programs; and

WHEREAS, by limiting the federal government to spend only the revenues that are estimated will be collected in a given fiscal year, except for certain specified emergencies, this could possibly result in greater selectivity of federal government programs for the benefit of the public and which would depend upon the willingness of the public to pay additional taxes to finance such programs; and

WHEREAS, there is provision in Article V of the Constitution of the United States for amending the Constitution by the Congress, on the application of the legislatures of two-thirds of the several states, calling a convention for proposing amendments which shall be valid to all intents and purposes when ratified by the legislatures of three-fourths of the several states, or by conventions in three-fourths thereof, as the one or the other mode of ratification may be proposed by the Congress.

THEREFORE, BE IT RESOLVED by the Senate of the Legislature of Louisiana, the House of Representatives thereof concurring, that we do hereby make application, pursuant to Article V of the Constitution of the United States, to the Congress of the United States to call a convention of the several states for the proposing of the following amendment to the Constitution of the United States:

"AMENDMENT _____

SECTION 1. Except as provided in Section 3, the Congress shall make no appropriation for any fiscal year if the resulting total of appropriations for such fiscal year would exceed the total revenues of the United States for such fiscal year.

SECTION 2. There shall be no increase in the national debt and such debt, as it exists on the date on which this article is ratified, shall be repaid during the one-hundred-year period beginning with the first fiscal year which begins after the date on which this article is ratified. The rate of repayment shall be such that one-tenth of such debt shall be repaid during each ten-year interval of such one-hundred-year period.

SECTION 3. In time of war or national emergency, as declared by the Congress, the application of Section 1 or Section 2 of this article, or both such sections, may be suspended by a concurrent resolution which has passed the Senate and the House of Representatives by an affirmative vote of three-fourths of the authorized membership of each such house. Such suspension shall not be effective past the two-year term of the Congress which passes such resolution, and if war or an emergency continues to exist such suspension must be reenacted in the same manner as provided herein.

SECTION 4. This article shall apply only with respect to fiscal years which begin more than six months after the date on which this article is ratified."

BE IT FURTHER RESOLVED that this application by the Legislature of the state of Louisiana constitutes a continuing application in accordance with Article V of the Constitution of the United States until at least two-thirds of the legislatures of the several states have made similar applications pursuant to Article V, but if Congress proposes an amendment to the Constitution identical with that contained in this Resolution before January 1, 1976, this application for a convention of the several states shall no longer be of any force or effect.

BE IT FURTHER RESOLVED that a duly attested copy of this Resolution be immediately transmitted to the Secretary of the Senate of the United States, the Clerk of the House of Representatives of the United States; to each member of the Congress from this state; and to each house of each state legislature in the United States.

PRESIDENT OF THE SENATE

AMENDMENTS TO LB 329

2 1. Insert a new section to read:
3 "Sec. 2. That section 60-407, Revised Statutes
4 Supplement, 1974, be amended to read as follows:
5 60-407. (1) No license or permit to operate a
6 motor vehicle shall be granted to any applicant until
7 such applicant satisfies the examiner that he possesses,
8 with or without the aid of glasses, sufficient powers of
9 eyesight to enable him to operate a motor vehicle on the
10 highways of this state with a reasonable degree of
11 safety. If, from the examination given any applicant, it
12 appears that the applicant's powers of eyesight are such
13 that he cannot operate a motor vehicle on the highways of
14 this state with a reasonable degree of safety, the
15 examiner shall require the applicant to present a
16 doctor's or optometrist's certificate to the effect that
17 the applicant has sufficient powers of eyesight for such
18 purpose before issuing a license to such applicant. If
19 it is indicated by such examination by the examiner or by
20 the doctor's or optometrist's certificate that the
21 applicant must wear glasses to meet the minimum visual
22 standards set by the department, then the applicant shall
23 have the use of any license issued to him restricted to
24 wearing glasses while operating a motor vehicle. If the
25 application to operate a motor vehicle required by this
1 act discloses that the applicant for such license suffers
2 from any other physical defect or defects of a character
3 which may affect the safety of operation by such
4 applicant of a motor vehicle, the examiner shall require
5 such applicant to show cause why such license should be
6 granted, and shall require such applicant, through such
7 personal examination and demonstration as may be
8 prescribed by the director, to show the necessary ability
9 to safely operate a motor vehicle on the public highways.
10 If the examiner is satisfied, after such demonstration,
11 that such applicant has the ability to safely operate
12 such motor vehicle, an operator's license may be issued
13 to the applicant subject, at the discretion of the
14 director, to a limitation to operate only such motor
15 vehicles at such time, for such purpose, and within such
16 area as the license shall designate. The director may,
17 at the request of a law enforcement officer, or when he
18 has reason to believe that such person may be physically
19 or mentally incompetent to operate a motor vehicle or
20 whose driving record appears to the department to justify
21 such examination, give notice to the holder of an

22 operator's license to appear before an examiner for
23 examination to operate a motor vehicle safely. A refusal
24 to appear before an examiner for such examination shall
25 be unlawful. If such license holder cannot qualify at
26 such examination, his operator's license shall be
27 immediately surrendered to such examiner and forwarded to
1 the director who shall cancel his license and privilege
2 to operate a motor vehicle; Provided, that a refusal to
3 appear before an examiner for examination after notice to
4 do so or to surrender an operator's license on demand,
5 shall be unlawful and any person failing to surrender his
6 operator's license as required by the provisions of this
7 section shall, upon conviction thereof, be fined in a sum
8 not to exceed five hundred dollars, or imprisoned in the
9 county jail not to exceed thirty days, or be both so
10 fined and imprisoned. No operator's license referred to
11 in this subsection shall, under any circumstances, be
12 issued to any person who has not attained the age of
13 sixteen years but, upon application therefor and proof of
14 age in the manner provided in subsection (3) of this
15 section, any such person may take the examination
16 required by this subsection at any time within sixty days
17 prior to his sixteenth birthday.

18 (2) A person who has not attained the age set
19 forth in subsection (1) of this section but is over the
20 age of fourteen years, except within metropolitan,
21 primary, and first-class cities, may be issued, by the
22 county treasurer, a limited permit to drive a motor
23 vehicle or motorcycle to and from the school building
24 where he attends school, by the nearest highway or street
25 from his place of residence, if such child lives a
26 distance of one and one half miles or more from such
27 school. Such limited permit shall be used for the sole
1 purpose of transporting such person to attend school,
2 except that the holder of such a permit may drive under
3 the personal supervision of his parents or guardian;
4 Provided, such a permit shall not be issued until such
5 person has appeared before an examiner to demonstrate
6 that he is capable of successfully operating a motor
7 vehicle or motorcycle and has in his possession an
8 examiner's certificate authorizing the county treasurer
9 to issue a school permit. Any such person desiring such
10 limited permit may first obtain a learner's permit from
11 the county treasurer, which permit shall be valid for a
12 period of two months. While holding such a permit, the
13 person may operate a motor vehicle or motorcycle on the

14 highways of this state if he has seated next to him or,
15 in the case of a motorcycle, immediately behind him and
16 supervising his operation of the vehicle a person who is
17 a licensed operator and who is also either a parent or
18 guardian of the child or a person over the age of
19 nineteen years who is authorized in writing by the
20 child's parent or guardian to supervise the actions of
21 the child in operating the vehicle. Prior to issuance of
22 such learner's permit it shall be required that such
23 person demonstrate that he has sufficient powers of
24 eyesight to safely operate a motor vehicle or motorcycle.

25 (3) Each individual, under the age of nineteen
26 years, who is making an application for his first
27 operator's license or a limited or learner's permit, must
1 furnish proof of age, either by birth certificate or
2 written information signed by one of his parents or his
3 guardian, to show that such applicant has attained the
4 age, respectively, as required by subsection (1) or (2)
5 of this section. All licenses and limited permits
6 issued, as provided by subsection (2) of this section,
7 shall be subject to revocation under the terms of section
8 60-427, and any person who shall violate the terms of
9 such license or limited permit shall be deemed guilty of
10 a misdemeanor.

11 (4) Any person who shall have attained the age of
12 fifteen years or more may obtain a learner's permit from
13 the county treasurer which shall be valid for a period of
14 twelve months and he may operate a motor vehicle on the
15 highways of this state if he is accompanied at all times
16 by a licensed operator who is at least nineteen years of
17 age and who is actually occupying the seat beside the
18 driver or, in the case of a motorcycle, immediately
19 behind the driver. Any person who shall have attained
20 the age of fourteen years may operate a motor vehicle
21 over the highways of the state if he is accompanied at
22 all times by a licensed operator who shall be a high
23 school driver training instructor certified by the
24 Commissioner of Education. Prior to the issuance of a
25 learner's permit, it shall be required that such person
26 demonstrate that he has sufficient powers of eyesight and
27 knowledge of the rules of the road to safely operate a
1 motor vehicle or motorcycle.

2 (5) Any person who is thirteen years of age or
3 older and resides upon a farm in this state or who is
4 fourteen years of age or older and who is employed for
5 compensation upon a farm in this state may obtain a

6 special permit authorizing the operation of farm tractors
7 and other motorized implements of farm husbandry upon the
8 public highways and roads of this state, if the applicant
9 for such a restricted permit furnishes to a license
10 examiner satisfactory proof of age and satisfactorily
11 demonstrates to the examiner that he has knowledge of the
12 operation of such equipment and of the rules of the road
13 and laws respecting the operation of motor vehicles upon
14 the highways and public roads of this state. Any person
15 under sixteen years of age but not less than thirteen
16 years of age may obtain a temporary permit to operate
17 such equipment for a six-month period after presentation
18 to the Department of Motor Vehicles of a request for such
19 temporary permit signed by such person's parent or
20 guardian and payment of one dollar. After the expiration
21 of such six-month period it shall be unlawful for any
22 person under sixteen years of age to operate such
23 equipment upon the public highways and roads of this
24 state unless he has been issued a special permit under
25 the provisions of this subsection. The fee for such
26 special permit shall be two dollars, and such special
27 permit shall be subject to revocation for cause.

1 (6) The county treasurer shall collect a fee of
2 one dollar from each successful applicant for a school or
3 learner's permit."

WHEREAS, the annual federal budget continually demonstrates an unwillingness or inability of both the legislative and executive branches of the federal government to curtail spending to conform to available revenue; and

WHEREAS, unified budgets do not reflect actual spending because of the exclusion of special outlays which are not included in the budget nor subject to the legal public debt limit; and

WHEREAS, under article V of the Constitution of the United States, amendments to the federal Constitution may be proposed by the Congress whenever two-thirds of both houses deem it necessary, or on the application of the Legislatures of two-thirds of the several states, the Congress shall call a constitutional convention for the purpose of proposing amendments. We believe such action is vital.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-FOURTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That this body proposes to the Congress of the United States that procedures be instituted in the Congress to add a new article to the Constitution of the United States, and that the State of Nebraska requests the Congress to prepare and submit to the several states an amendment to the Constitution of the United States, requiring in the absence of a national emergency that the total of all federal appropriations made by the Congress for any fiscal year may not exceed the total of all estimated federal revenue for that fiscal year.

2. That, alternatively, this Legislature makes application and requests that the Congress of the United States call a constitutional convention for the specific and exclusive purpose of proposing an amendment to the Constitution of the United States requiring in the absence of a national emergency that the total of all federal appropriations made by the

Congress for any fiscal year may not exceed the total of all estimated federal revenue for that fiscal year.

3. That this Legislature also proposes that the Legislatures of each of the several states comprising the United States apply to the Congress requesting the enactment of an appropriate amendment to the federal Constitution; or requiring the Congress to call a constitutional convention for proposing such an amendment to the federal Constitution.

4. That the Clerk of the Legislature transmit a copy of this resolution to the President of the Senate of the United States, the Speaker of the House of Representatives of the United States, each member of the Nebraska Congressional delegation, the Secretaries of State and the Legislatures of each of the several states, and the Secretary of State for the State of Nebraska.

UNANIMOUS CONSENT—Print in Journal

Mr. Mahoney asked unanimous consent to print the following letter in the Journal. No objections. So ordered.

January 6, 1976

Honorable Eugene Mahoney
Chairman, Executive Board
Nebraska State Legislature
State Capitol Building
Lincoln, Nebraska

Dear Senator Mahoney:

Our Department has reviewed the report of the Executive Board's Sub-Committee on the I-80 Bicentennial Sculpture Project, chaired by Senator Kelly.

The Chairman's conclusion is that the project should continue. Since that is still the feeling of the Legislature, and since time is of some essence, then we should proceed in carrying out what evidently has always been Legislative intent.

I would hope that the Legislature would adopt a resolution, pro or con, as to this project, and the Department of Roads would comply with Legislative direction.

If we have not received such a resolution by February 1, 1976, we will assume the Legislature has again granted approval as per Chairman Kelly's recommendation on December 24, 1975, and in accordance with their approval of the project without dissent by their \$150,000 appropriation of funds for same in the last session.

Will you kindly see that this request is presented to the Legislature and printed in the Legislative journal so that the Legislature may act further if they desire. Otherwise, the Department of Roads will have no alternative but to finalize contracts that have been delayed as a courtesy to the Legislature because of its further hearings now concluded.

Sincerely,
DEPARTMENT OF ROADS

(Signed) Thomas D. Doyle
Director-State Engineer

January 7, 1976

Senator Eugene Mahoney, Chairman
Executive Board of the Legislative Council
State Legislature
Lincoln, Nebraska

Dear Gene:

I received a copy of Tom Doyle's letter dated January 6, 1976.

I specifically refer to paragraph 4 of the letter. My letter of December 24, 1975 states as follows: "But now, the report is completed and in the hands of the Executive Board. At this time I offer to you, the Executive Board and the Legislature my personal observations."

My personal observations should not in any way be taken as legislative or Executive Board recommendations. The sub-committee regarding the sculptures project was instructed to investigate this project. That was the scope of the activities of the sub-committee. It has not drawn any conclusions nor made any recommendations to the Executive Board.

Best personal regards.

Sincerely,

(Signed) Ralph D. Kelly

**EIGHTY-FOURTH LEGISLATURE
SECOND SESSION**

SECOND DAY

Legislative Chamber, Lincoln, Nebraska
Thursday, January 8, 1976

Pursuant to adjournment, the Legislature met at 9:30 a.m., President Whelan presiding.

PRAYER

The prayer was offered by the Chaplain.

O Lord, Thou hast brought us to this day in the new session. We feel somehow that while there are many bills to be considered, many issues to be decided, many voices to be heard, many conflicts to be resolved; there is also a new spirit - a willingness to cooperate, a desire to hear the other person's opinion, a belief that problems can be solved, a commitment to work toward the common good. This day, therefore, we pray that we may not be a part of the problems confronting us, but a part of their solution, through the power of Christ. Amen.

SECOND SESSION**

THIRD DAY

Legislative Chamber, Lincoln, Nebraska
Friday, January 9, 1976

Pursuant to adjournment, the Legislature met at 9:30 a.m., President Whelan presiding.

PRAYER

The prayer was offered by the Chaplain.

Our Father in heaven, save us from the conceit which refuses to believe that God knows more about government than we do, and deliver us from the stubbornness that will not seek God's help.

Today we claim thy promise: "if any man lack wisdom, let him ask of God, who giveth to all men liberally, and it shall be given him." Thou knowest, Lord, how much we need it. Make us willing to ask for it and eager to have it. In Jesus' name we pray. Amen.

The roll was called and all members were present except Mr. Schmit who was excused until he arrives and Messrs. Simpson and Skarda who were excused.

UNANIMOUS CONSENT—Print in Journal

Mr. Clark asked unanimous consent to print the following amendments to LB 275 in the Journal. No objections. So ordered.

AMENDMENTS TO LB 275

- 2 1. Strike original sections 1 to 12 and all
 3 amendments thereto and insert the following:
 4 "Section 1. The Legislature declares that the
 5 proper operation of a correctional institution is an
 6 extraordinarily difficult undertaking. There must be
 7 mutual accommodation among correctional needs and
 8 objectives, constitutional provisions, and rights and
 9 concerns of inmates confined in the institution. The
 10 Legislature further declares that a correctional
 11 institution is, by its very nature, a restriction on the
 12 liberty and desires of an individual and that discipline
 13 within the institution is vital to the purpose for which
 14 it is established. The Legislature further finds and
 15 declares that although the institution is to be a
 16 restriction on an individual's actions, and that the
 17 rights of an inmate may be diminished by the needs and
 18 exigencies of the institutional environment, nevertheless
 19 the inmate is not without certain rights and
 20 constitutional protections. The Legislature therefore
 21 states that the intent of this act is to provide a means
 22 by which the rights and obligations of correctional
 23 service officials and inmates in an adult correctional
 24 institution are outlined so as to avoid unnecessary and
 25 disagreeable confrontations between officials and
 1 inmates, or between the inmates themselves.
 2 Sec. 2. This act shall be known and may be
 3 cited as the Nebraska Correctional Rights and Procedures
 4 Act.
 5 Sec. 3. As used in this act, unless the context
 6 otherwise requires:
 7 (1) Department shall mean the Department of
 8 Correctional Services;
 9 (2) Director shall mean the Director of
 10 Correctional Services; and
 11 (3) Inmate shall mean any individual committed to
 12 a correctional institution or who is otherwise subject to
 13 the authority of the department.
 14 Sec. 4. The provisions of this act shall
 15 govern:
 16 (1) Discipline procedures in adult institutions
 17 administered by the department;

18 (2) Disciplinary action in adult institutions
19 within the system of the department;
20 (3) Review of disciplinary actions and sanctions
21 imposed upon any adult person subject to the control of
22 the department; and
23 (4) Grievance and grievance review in adult
24 institutions, including grievances pertaining to
25 disciplinary action, inmate rights and rehabilitation
26 opportunities, work or education programs, and personal
27 complaints.

1 Sec. 5. (1) Within sixty days after the
2 effective date of this act, the department shall adopt
3 and promulgate rules and regulations to establish
4 criteria for justifiably and reasonably determining which
5 rights and privileges an inmate forfeits upon commitment
6 and which rights and privileges an inmate retains.

7 (2) Such rules and regulations shall include, but
8 not be limited to, criteria concerning (a) disciplinary
9 restrictions on clothing, bedding, facilities, mail, and
10 visitations in an institution, (b) solitary confinement,
11 (c) grievance procedures, hearings, and review, (d) good
12 time credit, (e) criteria for psychological treatment and
13 sociological development programs, (f) rehabilitation
14 opportunities, and (g) educational or employment
15 programs.

16 (3) The rules and regulations adopted pursuant to
17 this act shall in no manner deprive an inmate of any
18 rights and privileges to which such person is entitled
19 under other provisions of law or under policies adopted
20 in a correctional institution.

21 Sec. 6. (1) There shall be no corporal
22 punishment or disciplinary restrictions on diet or
23 bedding.

24 (2) Disciplinary restrictions on clothing, mail,
25 visitation, or use of institutional facilities may be
26 imposed only for abuse of such privilege or facility.

1 (3) No inmate may be placed in solitary
2 confinement for disciplinary reasons for more than
3 fifteen consecutive days, or for more than thirty days
4 out of any forty-five day period. The warden or director
5 may approve longer periods of solitary confinement in
6 cases of violence or attempted violence by the inmate
7 against another person or property.

8 (4) Reasonable separation or isolation of inmates
9 may be employed when it would foster proper institutional
10 control.

11 (5) Discipline shall not be imposed on any inmate
12 because such person reasonably employs the grievance
13 procedure.

14 (6) Inmates shall be assisted and encouraged to
15 pursue educational opportunities, occupational
16 development, and employment skill training in programs of
17 their choosing.

18 The rules and regulations adopted by the
19 department shall comply with the provisions of this
20 section.

21 Sec. 7. (1) Copies of all rules and regulations
22 shall be filed pursuant to Chapter 84, article 9, and
23 shall be distributed to all adult correctional
24 institutions in this state.

25 (2) Each correctional institution shall maintain
26 the rules and regulations in such a manner as to make
27 such rules and regulations easily available to inmates.

1 (3) Inmates shall be informed of rules and
2 policies concerning institutional behavior and
3 discipline, inmate rights and developmental
4 opportunities, work or education programs, and complaint
5 procedures. Such rules and policies, or significant
6 portions thereof, shall be posted at conspicuous places
7 throughout the institution.

8 Sec. 8. Sections 9 to 20 of this act shall
9 govern disciplinary actions, grievance procedures, and
10 the exercise of personal rights and privileges in the
11 adult correctional institutions of this state.

12 Sec. 9. (1) Grievance proceedings, established
13 pursuant to the provisions of this act or pursuant to
14 rules and regulations adopted under this act, shall be
15 available to challenge (a) an alleged deprivation of any
16 right, privilege, work or education program, or
17 rehabilitation opportunity of an inmate by an institution
18 official or another inmate, or (b) the imposition of any
19 disciplinary sanction or penalty on an inmate because of
20 an alleged violation by such inmate of the policies,
21 behavioral standards, or privileges of the institution.

22 (2) Each inmate in an adult correctional
23 institution shall be informed of the grievance procedures
24 established under this act, and copies of such grievance
25 procedures shall be made available to all inmates.

26 (3) If an inmate is dissatisfied with any action
27 taken by an official or board regarding a grievance or
1 disciplinary proceeding, he may appeal the action to the
2 deputy counsel for corrections. The deputy public

3 counsel for corrections shall be informed of all
4 activities occurring pursuant to such grievance
5 procedures and shall seek to resolve disputes. Inmates
6 shall be informed, by written notice, of the availability
7 of such deputy public counsel for corrections and the
8 availability of the appeal process to him. The deputy
9 public counsel for corrections may also take part in the
10 resolution of any charge of disciplinary violations
11 brought against an inmate.

12 Sec. 10. The director may establish one or more
13 disciplinary hearing boards which shall hear and
14 determine any charge brought against any inmate which has
15 not been resolved through the efforts of the deputy
16 public counsel for corrections, the individuals involved
17 in the charge, and the institution officials. Such
18 boards may be composed of laymen associated with
19 corrections work, fellow inmates of the institution where
20 the board sits, corrections officials or employees, or a
21 combination of those classes mentioned. If practicable,
22 a person representing the counseling staff of the
23 institution shall participate in determining the
24 disposition of any disciplinary action.

25 Sec. 11. A written report of any alleged
26 infraction shall be filed with the warden or the board
27 within seventy-two hours of the occurrence of such
1 infraction or the discovery of it. Such report shall be
2 placed in the files of the institution.

3 Sec. 12. No disciplinary proceeding shall be
4 commenced more than eight calendar days after the
5 infraction or the discovery of such infraction unless the
6 committed person is unable or unavailable for any reason
7 to participate in a disciplinary proceeding.

8 Sec. 13. Any inmate charged with a violation or
9 infraction of any policy, regulation, behavioral
10 standard, or privilege shall be given notice of the
11 charge including the specific violation and policy,
12 regulation, standard, or privilege involved.

13 Sec. 14. Any inmate charged with a violation of
14 any policy, regulation, standard, or privilege shall be
15 entitled to a hearing before the warden, director, or
16 disciplinary hearing board. Such hearing shall be
17 addressed only to the charge involved and the inmate
18 shall have an opportunity to appear in person and present
19 a defense. The individual bringing the charge shall also
20 appear at such hearing.

21 Sec. 15. (1) The warden, director, disciplinary

22 hearing board, or inmate may summon any witness, who may
23 have knowledge concerning the charge, to testify at the
24 hearing, and the witnesses may be questioned and
25 cross-examined by such parties at the hearing.

26 (2) No witness shall be compelled to testify if
27 the director or disciplinary hearing board finds good
1 cause why a witness should not testify, and specifies
2 such findings in writing to each party to the hearing.

3 Sec. 16. The inmate charged shall have an
4 adequate opportunity to prepare a defense. Such
5 opportunity shall include the right to testify in his own
6 behalf, the right to present documentary evidence, and
7 the right to assistance and advice in preparing and
8 presenting a defense from any fellow inmate or staff
9 member at the institution where the hearing is held.
10 Such inmate or staff member shall serve only in an
11 advisory capacity for the person so charged.

12 Sec. 17. (1) If the charge is sustained, the
13 person charged shall be entitled to a written statement
14 of the decision by the persons determining the
15 disposition of the charge including the basis for the
16 decision and the disciplinary action, if any, to be
17 imposed.

18 (2) A change in work, education, or other program
19 assignment shall not be used for disciplinary purposes
20 without prior review and approval of the warden or the
21 director.

22 Sec. 18. The director shall establish
23 procedures to review the grievances of inmates. The
24 director may establish one or more administrative review
25 boards within the department to review grievances which
26 have not been resolved through the efforts of the deputy
27 public counsel for corrections, the individuals involved
1 in the grievance or complaint, and the institution
2 officials. An inmate's right to file grievances shall
3 not be restricted. Grievance rules shall provide for the
4 review of grievances by a person or persons other than
5 the person or persons directly responsible for the
6 conditions or actions against which the grievance is
7 made. No member of any review board shall also be a
8 member of a disciplinary hearing board, but the same
9 considerations for appointing members to the disciplinary
10 hearing board may apply to appointing members to a review
11 board.

12 Sec. 19. (1) Grievance review procedures shall
13 provide that a record of grievances and any decision made

14 with respect to such grievances shall be preserved for a
 15 period of one year.
 16 (2) Grievance review procedures shall allow
 17 committed persons to communicate grievances directly to
 18 the deputy public counsel for corrections or the
 19 director.
 20 Sec. 20. Nothing in this act shall be construed
 21 as to restrict or impair an inmate's free access to the
 22 courts and necessary legal representation in any cause of
 23 action."

**EIGHTY-FOURTH LEGISLATURE
SECOND SESSION**

FOURTH DAY

Legislative Chamber, Lincoln, Nebraska
Monday, January 12, 1976

Pursuant to adjournment, the Legislature met at 9:30 a.m., President Whelan presiding.

PRAYER

The prayer was offered by Rev. Everett F. Hezmall, Associate Pastor, Westminster Presbyterian Church, Lincoln.

Eternal God and Spirit who indwells us and all the universe you have created; We would be mindful in beginning thisday, of your admonition to us: "My thoughts are not your thoughts, neither are my ways your ways, says the Lord," But as the heavens are higher than the earth, so are my ways than your ways, and my thoughts than your thoughts." Grant us, O Lord, your perception of things when our minds are perplexed, our solutions thwarted, and our answers ineffective. Open our minds to the amazing possibilities before us; and our hearts to the fresh resources of your love and grace.

Guide this day in all deliberations, legislative actions, and personal feelings. Bless each Senator, President and Clerk of our Legislature. In Christ's name. Amen.

WHEREAS, the encouragement and public display of art is in the public interest, and

WHEREAS, the State of Nebraska, through its government, University, state college system and public schools has long encouraged the public display of art, and

WHEREAS, a refusal of the Interstate-80 Sculptures Corporation's gift of ten sculptures to the State of Nebraska would be a reversal of this policy, and

PRAYER

The prayer was offered by Rev. Everett Hezmall, Associate Pastor, Westminster Church, Lincoln.

Lord God, our Father, who knows the burdens and cares of our hearts, we offer this prayer in memorial to the citizens of one of our spendid cities in Nebraska--the city of Fremont.

We especially ask that you would comfort the families of those whose lives were taken in the recent tragedy. Comfort them, O Lord, with your divine Spirit of Comfort. Assuage the grief in the hearts of those who feel the loss most deeply and in the hearts of all the citizens of Fremont, granting them to know the sympathy, love and concern by so many throughout our state.

ATTORNEY GENERAL'S OPINION

Opinion No. 156
January 12, 1976

Dear Senator Burbach:

In your letter of December 23, 1975, you enclose a copy of a proposed bill, which would amend sec. 66-620, R.R.S. 1943, to read as follows:

"The monthly tax return shall be accompanied by remittance covering the tax due on special fuels, as provided by Section 66-605, delivered during the preceding month into the fuel supply tank or tanks of any motor vehicle. A special fuel dealer is relieved from the liability to collect and remit tax on special fuel sales represented by accounts receivable which are delinquent for a period of ninety days or longer. If the special fuel dealer has previously paid the amount of the tax, he may, under rules and regulations prescribed by the Motor Fuel Tax Administrator, take a credit in such amount on the monthly return made after the

account receivable becomes delinquent. If such accounts receivable are thereafter, in whole or in part, collected, any gallons of fuel represented by the amounts collected shall be included in the first monthly return filed after such collection and the amount of the tax thereon remitted."

In determining whether there are any constitutional problems with respect to this bill, we must first determine who the taxpayer is under the Special Fuel Tax Act, secs. 66-601 to 66-640, R.R.S. 1943. If the special fuel dealer is considered to be simply the collector of the tax, and the taxpayer is the ultimate consumer, we see no particular problem with the bill, as a constitutional matter. To provide that the collector of taxes, who remits the tax to the state, shall be given credit for taxes which he has remitted, but not collected, can certainly present no constitutional problems. However, if the special fuel dealer is considered to be the taxpayer, and the taxable event is the placing of the fuel in the ultimate consumer's tank, there might be an argument made that the taxable event has taken place, and the taxpayer is liable for the tax, and that he should not be excused from such liability for failure to collect a debt from a third party. An argument could be made that this would amount to commutation of taxes, in violation of Article VIII, Section 4 of the Nebraska Constitution.

A case could be made for the argument that the special fuel dealer is the taxpayer. We believe that the language of the Special Fuel Tax Act is not completely consistent, and that in some cases the dealer is referred to as a taxpayer, and in others as a collector. For example, in section 66-618, in speaking of the special fuel dealer, reference is made to "his liability for the tax." Later, in the same section, provision is made for the granting to "a taxpayer" reasonable extensions of time for filing. Section 66-624 refers to "the tax liability of the special fuel dealer." Section 66-625 speaks of a special fuel dealer filing a false or fraudulent return, with the intent to evade all or any part of the tax. All of these sections give the impression that the special fuel dealer is the taxpayer. This would be consistent with sections 66-601 and 66-602, which describe the taxable event as being the receipt, delivery, or placing into the fuel tanks of motor vehicles of the special fuel dealt with by that act.

However, other sections of the act treat the special fuel dealer as the collector of the tax. For example, section 66-605 provides that the tax, with respect to all special fuels delivered by a special fuel dealer into supply tanks of motor vehicles in this state shall attach at the time of such delivery and shall be collected by such dealer and paid over to the Motor Fuel Tax Administrator. Section 66-605.01 provides for a commission to be withheld by the special fuel dealer for the expense of collecting and remitting the tax. From a reading of the entire act we have concluded that, in spite of some ambiguity, the special fuel tax dealer is not the taxpayer, but is simply the tax collector. We believe there is no constitutional

problem in providing that, in the event he does not collect the tax, he need not remit it, and that if he has already remitted tax to the state on the basis of special fuel delivered, as he is required to do by law, it is perfectly proper to provide for a refund, in the event that he does not actually collect for the fuel delivered. We therefore conclude that there are no constitutional difficulties with the general intent of the bill.

Very truly yours,

PAUL L. DOUGLAS
Attorney General

MESSAGE FROM THE SECRETARY OF STATE

January 5, 1976

Colonel C. P. Karthausser
Nebraska State Patrol
So. Jct. U.S. 77, N-2
Lincoln, Nebraska

Re: 48th District - Recount, Court Case, Ballots

Dear Colonel Karthausser:

In the United States District Court for the District of Nebraska there was a lawsuit, Jesus Jose Porras, et al, Plaintiffs, vs. William E. Nichol, et al, Defendants (Terry Carpenter Recount). On December 12, 1975, the Honorable Warren K. Urbom, Chief Judge, issued an Order (CV 75 - L - 45) the substance of which is as follows: "IT HEREBY IS ORDERED that the motions to dismiss, filings 9, 10, 11, 12, 13 and 24, are granted, the request for the convening of a three-judge court is denied, and the action is dismissed for want of jurisdiction."

The Secretary of State has in his custody the ballots from Scotts Bluff County (48th Legislative District). Said ballots are contained in twenty-seven steel cases sealed and numbered as per attached sheet.

It is hereby requested that you assign an appropriate number of patrolmen to pick up the ballot box cases at the Secretary of State's office, Suite 2300, State Capitol, Lincoln, Nebraska and deliver them to Melvin Maxwell, Scotts Bluff County Clerk, Court House, Gering, Nebraska. Said ballot box cases should be picked up at 9:00 a.m. on Wednesday, January 14, 1976, and delivered to the Scotts Bluff Court House by 5:00 p.m. same day.

Mr. Melvin Maxwell has been notified of the date and appropriate time of arrival of the ballot cases and will be at the courthouse to receive and receipt for the ballot cases being delivered by the Nebraska State Patrol. A receipt letter will be tendered to the patrolmen when they arrive at the Secretary of State's office so that they can sign for the twenty-seven ballot cases. A receipt letter will also be sent to Mr. Melvin Maxwell so that he can sign for the delivery of the cases in Gering at the Courthouse. When the patrolmen arrive back in Lincoln after having made delivery, and after having obtained Mr. Maxwell's signature of receipt, they should (at earliest convenience) tender the receipt to the Secretary of State's office.

Your continued fine cooperation in this regard is certainly appreciated. Thanks to you and your fine patrolmen.

Respectfully requested,

(Signed) Allen J. Beermann
Secretary of State

ATTORNEY GENERAL'S OPINION

Opinion No. 155
January 13, 1976

Dear Senator DeCamp:

In your letter of January 9, 1976, you ask for our opinion as to the constitutional validity of LB 565. This bill would amend section 23-381, R.R.S. 1943, to read as follows:

"The county board may levy a tax sufficient to cover the contributions required to be made and such levy shall not be included in determining the maximum levy that a county is authorized to impose. The county board shall have the discretion to exclude from such levy all property within the limits of any city, village, or township in the county."

Your particular question is directed to the validity of the present provision of this section excluding the levy in question from the maximum authorized levy for a county. In a letter from this office dated December 28, 1972, to the Clerk of the Legislature, we stated that we would not give

an opinion to an individual senator on the constitutionality of a bill which has already become law. This letter is found in Volume I of the 1973 Legislative Journal, at page 36. Since the provision you inquire about is already a part of our statutes, the policy stated in our 1972 letter prevents our answering the specific question you ask. We do, however, call your attention to Article VIII, Section 5 of the Nebraska Constitution. If there is a conflict between this section and the statutory provision, the constitutional provision will, of course, prevail.

As to the constitutionality of the amendatory portion of LB 565, we have serious doubt about the validity of those provisions. Sections 23-379 to 23-381 authorize a county to purchase, construct, maintain, and improve garbage disposal plants, systems or solid waste disposal areas, for the use of inhabitants of the county and incorporated municipalities located in such county. The statutory scheme appears to make it a countywide function, and there is no indication that a district to perform this function was contemplated. We call your attention to 71 Am.Jur.2d 346, State and Local Taxation, section 6, which states:

“Taxes proper, or general taxes, proceed upon the theory that the existence of government is a necessity; that it cannot continue without means to pay its expenses; and that for those means it has the right to compel all citizens and property within its limits to contribute. The state demands and receives taxes so that it may be enabled to carry its mandates into effect and perform the functions of government; and the citizen pays from his property the portion demanded in order that he may, by means thereof, be secured in the enjoyment of the benefits of organized society.

“Inherent in the theory underlying general taxation is the factor that for the contributions received the government renders no return or special benefit to any particular property, but only secures to the citizen that general benefit which results from protection to his person and property and the promotion of those various schemes which have for their object the welfare of all. Thus, the general levy of taxes is understood to exact contributions in return for the general benefits of government, and it promises nothing to the person taxed beyond what may be anticipated from an administration of the laws for individual protection and the general public good. Moreover, even though the duty or obligation to pay taxes by the individual is founded in his participation in the benefits arising from their expenditure, this does not mean that a man's property cannot be taxed unless some benefit to him personally can be pointed out.”

Special assessments are levied on the basis of the benefits particular lands will derive from the expenditure of the funds raised by the special assessment. General taxes are not. Even though a particular locality, or

municipality, may benefit less than other parts of the county from the expenditure of funds, we know of no constitutional authority for exempting any of the property in the county from the levy of taxes for county purposes. The Legislature could provide for the creation of a district to perform the functions envisioned by sections 23-379 to 23-381. In such case, the taxes would be levied only upon the property within that district. However, the Legislature has not done so. To permit the county board to exclude some of the property in the county from this levy might be held to be in violation of several constitutional provisions. The first constitutional provision which comes to mind in this regard is Article VIII, Section 1, which provides that taxes shall be levied by valuation uniformly and proportionately upon all tangible property and franchises. To levy a tax upon all of the property in the county, except that property located in certain areas designated by the county board might be held to be in violation of the uniformity provision.

Article VIII, Section 2 of the Constitution provides that no property shall be exempt from taxation except as provided in the Constitution. LB 565 would authorize the county board to grant an exemption from this levy to property located in designated cities, villages, or townships in the county. We have found no constitutional provision authorizing such an exemption.

Article VIII, Section 4 of the Constitution provides that, with certain exceptions, the Legislature shall have no power to release or discharge any county, city, township, town, or district whatever, or the inhabitants thereof, or the property therein, from their or its proportionate share of taxes to be levied for state purposes, or due any municipal corporation, nor shall commutation for such taxes be authorized in any form whatever. This provision would appear to authorize the county board to release certain selected areas in the county from the imposition of taxes due the county. The provision may be in violation of this section.

In view of the constitutional provisions we have mentioned above, we believe that we would have considerable difficulty in successfully defending the provision in question from constitutional attack.

Very truly yours,

PAUL L. DOUGLAS
Attorney General

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Whelan presiding.

PRAYER

The prayer was offered by Rev. Everett Hezmall, Associate Pastor, Westminster Presbyterian Church, Lincoln.

O God, our Father, we know that we have entered into a great heritage and a great tradition. We know that we owe our liberty and our freedom to citizens, who, throughout the years, lived, suffered and died, for truth and right.

As we walk in the reflection of our heritage this Bicentennial year, Grant, O Lord, that its greatness and goodness shall not be a burden to weigh us down with feelings of inferiority in our times, but rather become an inspiration which buoys us up!

Help us not only to remember with gratitude those who have achieved much, but resolve to be worthy compatriots of our mutual destiny. To this end grant us adequate grace to live and to labor. In the Name of Christ we pray, Amen.

ATTORNEY GENERAL'S OPINION

Opinion No. 157
January 13, 1976

Dear Senator Mills:

You have requested our opinion as to the proposed amendment to L.B. 147, Eighty-fourth Legislature, which reads as follows:

“Amend Section 1, line 20, of LB 147, by striking the period after the word “domain”, and inserting the following: “, provided that the power of eminent domain may be exercised in connection with the transportation of coal by pipeline only against persons, corporations, associations or other public or private entities which are permitted by law to exercise the power of eminent domain.”

LB 147 is, itself, an amendment which would add coal to the other fuels transported by pipeline mentioned and given the right of eminent domain in Section 57-1101 and 57-1103, R.R.S. 1943.

You inquire whether the proposed amendment is unconstitutional as being class legislation, and it would appear that, in light of the Supreme Court's very recent decision in State v. Gradwohl, 194 Neb. 745, it

probably is not. It was held in the Gradwohl case that a classification is not improper, if the class is not closed. It said:

“It assumes that the statute creates a class of persons. It does not. This section of the statute applies to all persons, whomever they may be, who happen to violate the statute in the manner specified. The point of both Tiemann and Omaha Parking, each of which involved legislation pertaining to municipalities, was that the statutes attacked in those cases constituted special legislation because the legislation pertained only to certain cities. In Tiemann the Legislation was held to be special and therefore invalid because the statute by its terms could apply only to certain cities (those of a certain population at a certain time and therefore a closed class). In Omaha Parking the legislation was held not special because the class of cities was not closed.”

By the same token, it is believed that the class to which the amendment would authorize the limited exercise of eminent domain is not a closed class. The Gradwohl case also said:

“The real question in this case is whether the constitutional provision against special legislation somehow requires that costs be assessed against all violators of speed laws irrespective of what the particular violation may be. This, as we have already noted, clearly involves a classification of subject matter only.

“The applicable principles which must guide us are: ‘The Legislature may classify the subjects, persons, or objects as to which it legislates if such classification rests upon differences in situations or circumstances between things dealt with in one class and those dealt with in another.

“ ‘The power of classification rests with the Legislature and it will not be interfered with by the courts if real and substantial differences exist which afford a rational basis for classification.’ Fougerson v. County of Seward, supra. See, also, Erwin v. City of Omaha, 118 Neb. 331, 224 N.W. 692. These general rules as to the validity of such classifications apply to classifications made under the police power. 16A C.J.S., Constitutional Law, Section 493, p. 254. For example, we have held that penalties for crimes which are essentially similar except for differences of person, place, and/or circumstances may vary provided the reasons for the differences pass constitutional muster. See, State v. Holland, 183 Neb. 485, 161 N.W. 2d 862; State v. Eckstein, 188 Neb. 146, 195 N.W. 2d 194.”

Therefore, the Legislature could grant, as in the amendment, more limited power of eminent domain to one class, so long as the class is an

open one, if there are real and substantial differences in situations or circumstances between things dealt with in one class and those dealt with in another. It is believed that there should not be too much difficulty in distinguishing coal pipelines from all other pipelines, insofar as the former are granted a more limited power of eminent domain. All carriers do not have to be treated the same, and coal transportation is different in nature from crude oil, petroleum, gases, or other products thereof. The best indication for the latter conclusion is the fact that the proponents of LB 147 apparently feel passage of that bill is necessary to confer the power of eminent domain upon them, presumably because the above listing of petroleum products does not reasonably include coal.

Since your inquiry seemed to be primarily concerned with the question whether the proposed amendment to LB 147 is class legislation, this opinion has been directed to that point. There is, however, one other question which is very likely to arise in acquisitions under this provision, if enacted, and that is which entity, the coal pipeline condemnor, or the other public agency condemnee has the primary and preeminent public use. In other words, presuming that the landowning entity has acquired only what is necessary for the public purpose for which it is responsible, will the acquisition of a part of the rights in that land by condemnation interfere with the public purpose of the landowning agency, and if so, which public purpose has priority? It is believed that this issue will often arise in such acquisitions.

Very truly yours,

PAUL L. DOUGLAS

Friday, January 16, 1976

Pursuant to adjournment, the Legislature met at 9:01 a.m., President Whelan presiding.

PRAYER

The Prayer was offered by Rev. Everett F. Hezmall, Associate Pastor, Westminster Presbyterian Church, Lincoln.

O God, we need your spirit today, to wake us up to the possibilities that lie before us.

There are so many demands, numerous and weighty concerns that we are not always sure of what is most important.

We ask for a God-sparked imagination to gain confidence and lift us above the mediocre which we have accepted for the outcome of so many situations.

"All things are possible to those who believe" said Jesus! Help us to visualize the best things we want to see happen today and to believe that we can make them happen.

Above all inspire us to be the person you want us to be! In the name and spirit of Jesus we pray, Amen.

ATTORNEY GENERAL'S OPINION

Opinion No. 158
January 12, 1976

Dear Senator Keyes:

Your letter dated January 7, 1976 regarding the type of legislation needed in order to include various organizations eligible to receive a one-day liquor license is answered herewith.

Sub-paragraph I of Section 53-124, of the Liquor Control Act, specifically provides that a one-day license shall be issued to a municipal corporation or religious or fraternal nonprofit corporation which has been exempted from payment of federal income taxes and does not hold a retail liquor license under the Liquor Control Act. Therefore to include additional types of organizations such as labor organizations the sub-section I above referred to must be amended to include all of those organizations that the legislature may wish to include as eligible to secure a license.

In addition to including the types of organizations eligible to secure a license it might be worthwhile to also include a definition of the organization which would more specifically describe the specific organization that the legislature has reference to.

Trusting the above answers your inquiry,

Yours very truly

ATTORNEY GENERAL'S OPINIONS

Opinion No. 159
 January 14, 1976

Re: Constitutionality of LB 586

Dear Senator Burrows:

You have asked whether LB 586 is unconstitutional under either
 Section 13 or Section 16 of Article I of the Nebraska Constitution. We
 have concluded that it is not.

LB 586 excepts members of peer review committees of state or local associations or societies, composed of certain licensed health care practitioners, from liability for slander, libel, defamation of character, breach of any privileged communication or otherwise for any action taken or recommendation made within the scope of the functions of such committee if such committee member acts without malice and in the reasonable belief that such action or recommendation is warranted by the facts known to him after a reasonable effort is made to obtain the facts on which such action is taken or recommendation is made.

Article I, Section 13 requires access to the courts for a remedy if one's legal rights have been violated. See Hartford Insurance Company v. Hon, 66 Neb. 555, 92 N.W. 746 (1902). LB 586 does not limit access to the courts. It limits legal rights.

Article I, Section 16 proscribes a law impairing the obligation of contracts. Abrogating a right of action for an injury to happen in the future as LB 586 does does not impair the obligation of contracts. See State Securities Company v. Norfolk Livestock Sales Company, Inc., 187 Neb. 446, 191 N.W.2d 614 (1971).

Article I, Section 16 also proscribes the making of an irrevocable grant of special immunity. The immunity from liability for members of peer review committees proposed in LB 586 is not absolute. It is limited to particular injuries occurring within the scope of the functions of the peer review committee, if such committee member acts without malice and in the reasonable belief that such action or recommendation is warranted by the facts known to him after a reasonable effort is made to obtain the facts on which such action is taken or recommendation is made. It should withstand a challenge of unconstitutionality under Article I, Section 16 just as a statute exempting auctioneers from liability in specified instances did in State Securities, above.

We have concluded that LB 586 is not unconstitutional under either Section 13 or Section 16 of Article I or the Nebraska Constitution.

Sincerely yours,

PAUL L. DOUGLAS
Attorney General

Clerk of the Legislature

Opinion No. 160
January 16, 1976

Dear Senator Stull:

You have pointed out to us that in sec. 2-3206, R.R.S. 1943, the Natural Resources Districts are to assume all assets, liabilities and

obligations of soil and water conservation districts, as well as other types of districts. These assets, of course, include any real estate owned by such districts. Your question is whether the statutes give the Natural Resources Districts power to build new improvements on real estate owned by them, either as a successor to a soil and water conservation district, or as newly acquired property.

We find no restrictions in sec. 2-3206 as to the use to which the Natural Resources Districts may put real estate they have acquired under that section. We therefore conclude that they may use any real estate they acquired pursuant to sec. 2-3206 in the same manner and for the same purposes that they could use any other real estate acquired by them in any manner.

As to the general power of Natural Resources Districts to build new improvements on real estate owned by them, we call your attention to secs. 2-3229, 2-3231, and 2-3233. Section 2-3229 states that the purposes of Natural Resources Districts shall be to develop and execute, through the exercise of powers and authorities contained in the act, plans, facilities, works and programs relating to twelve different types of projects. Section 2-3231 states that each district shall have the power and authority to contract for the construction, preservation, operation, and maintenance of tunnels, reservoirs, regulating or reregulating basins, diversion works and canals, dams, drains, drainage systems or other projects for a purpose mentioned in sec. 2-3229, and necessary works incident thereto. Section 2-3233 provides that each district shall have the power and authority to acquire, construct, own, operate, control, maintain and use various works and facilities necessary to carry out the provisions of the act.

It is our conclusion that the Natural Resources Districts are given power to build new improvements, necessary to carry out the purposes of the act, on any real estate owned by them, regardless of how acquired.

Very truly yours,
PAUL L. DOUGLAS
Attorney General

**EIGHTY-FOURTH LEGISLATURE
SECOND SESSION**

TENTH DAY

Legislative Chamber, Lincoln, Nebraska
Tuesday, January 20, 1976

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Whelan presiding.

PRAYER

The prayer was offered by Rev. Everett F. Hezmall, Associate Pastor, Westminster Presbyterian Church, Lincoln.

We thank You O God our Father, that our nation is this year paying tribute in an unusual way to our Forebearers, who led us to greatness.

We pray that something of the spirit that was in Lincoln may indwell our leaders now; that they may see as clearly as he saw that only right makes might. He saw that only as we are on the side of God Almighty, would we prosper in the destiny of history.

We pray that you will raise up other men and women who can see the horizon ahead, have the courage to know the right and take a stand for it. Are we drifting? Are we simply pressured by one group and then another? Is it all a matter of compromise? Do we live by an understanding of your divine purpose?

Grant us the gift of your spirit in all our leaders, especially of our state, to be your servants in such a time as this. Amen.

ROLL CALL

The roll was called and all members were present except Mr. Dickinson who was excused until he arrives and Mr. Cavanaugh who was absent until 9:20 a.m.

CORRECTIONS FOR THE JOURNAL

The Journal for the Ninth Day was approved.

ATTORNEY GENERAL'S OPINION

Opinion No. 161
January 19, 1976

Dear Senator Chambers:

In your letter of December 1, 1975, you called to our attention the existence of certain "Special" and "Reserve" Deputies within the Douglas County Sheriff's Office. You also indicate that it is your understanding that these deputies have not been certified in accordance with the provisions of sec. 81-1414, R.R.S. 1943.

Section 81-1401, R.R.S. 1943, defines the term "Law enforcement officer".

"(3) Law enforcement officer shall mean any person who is responsible for the prevention or detection of crime or the enforcement of the penal, traffic, or highway laws of the state or any political subdivision thereof on a regular basis for more than one hundred hours per year and is:

"(a) A full or part-time member of the Nebraska State Patrol;

(b) A county sheriff;

(c) A full or part-time employee of a county sheriff's office;

or

(d) A full or part-time employee of a municipal or village police agency; . . ."

Section 81-1414, R.R.S. 1943, provides in part:

"(1) On and after January 1, 1972, law enforcement officers already serving under permanent appointment shall not be required to meet any requirement of subsection (2) of this section as a condition of tenure or continued employment.

"(2) On and after January 1, 1972, no person shall receive appointment as a law enforcement officer unless he has been awarded a certificate by the commission attesting to his satisfactory completion of the minimum curriculum of the training center. . ."

Our investigation has revealed the following information concerning the Special Deputies. During the calendar year 1975, there were 66 Special Deputies. These deputies are not empowered to carry weapons at any time as a result of this status, do not wear uniforms, and are given no law enforcement powers. This status is honorary only and the individuals are issued identification cards which state in part, "The bearer of this card is not authorized to carry a side arm nor to enforce the laws of the State of Nebraska. . .".

It would be our opinion therefore that these Special Deputies do not fall within the definition of a law enforcement officer found within sec. 81-1401, R.R.S. 1943. If, as you have indicated, you have information indicating that certain of these individuals are or have been abusing this status, we suggest that the specifics of these complaints be called directly to the attention of the Douglas County Sheriff.

With regard to the Reserve Deputies our investigation has revealed that for the calendar year 1975, there were 50 individuals in this status. These deputies wear uniforms identical to those of the regular deputies and are authorized to carry side arms. We have, however, been advised by the Douglas County Sheriff that these individuals are not empowered to make arrests. They are bonded and have therefore taken an oath on this bond, but they are not "sworn" deputies as are regular deputies.

The rules of this organization, which incidently is separate from the organization of the Douglas County Sheriff's Office, provide that these deputies must perform a minimum of eight hours service per month, (96 hours per year). As you have been informed, many of these Reserve Deputies do in fact volunteer more than 100 hours per year. Neither the Special Deputies nor the Reserve Deputies are compensated for their services.

We are of the opinion that these Reserve Deputies fall within the definition of a law enforcement officer found within sec. 81-1401, R.R.S. 1943. We are however also of the opinion that they are "serving under permanent appointment" and are therefore not required to be certified if they were so serving on or before January 1, 1972. (81-1414, R.R.S. 1943) In arriving at this conclusion we interpret "permanent appointment" to mean a status other than probationary, conditional or temporary.

Subsection (3) of sec. 81-1414, R.R.S. 1943, concerns promotions and provides that no law enforcement officer may be promoted until certification has been accomplished. While this organization comprising the Reserve Deputies has organizational officers, and while these officers carry the equivalent of rank, insomuch as these organizational officers serve at the pleasure of the overall membership and are chosen by election, we are of the opinion, that an individual achieving a higher elected position within this organization has not received a "promotion" as that term is used in sec. 81-1414(3), R.R.S. 1943.

We have been advised by the Douglas County Sheriff's Office that all but four of the present Reserve Officers have served in a permanent status in that organization since before January 1, 1972. Of these four, three do not serve in excess of 100 hours per year. The remaining deputy, a female regular employee of the Douglas County Sheriff's Office, serves in this status when a female law enforcement officer is needed for such assignments as the extradition of a female fugitive.

The Douglas County Sheriff's Office has, however, informed us that they intend to make every effort to certify all of these Reserve Deputies. We have been advised that such training, conducted by the Grand Island Training Center, will begin in Omaha on February 7, 1976.

We hope this information will be helpful to your full understanding of the Douglas County Reserve Deputy Program and to your continued efforts to improve the quality of law enforcement in Omaha and across the state.

Sincerely,

PAUL L. DOUGLAS
Attorney General

ATTORNEY GENERAL'S OPINION

Opinion No. 162
January 19, 1976

Dear Senator Koch:

In your letter of January 7, 1976, you enclosed a copy of a proposed constitutional amendment which would amend Article VIII, Section 1, of the Nebraska Constitution by adding at the end thereof the following language:

“... The Legislature may provide that agricultural land, railroad right-of-way land, all other land and improvements to land shall constitute separate and distinct classes of property for purposes of taxation; Provided, that the proportionate rates set for each class established by the Legislature, if different, shall apply to all governmental subdivisions in a county only after it has been approved by a majority of the voters in that county.”

Since we are speaking of a proposed constitutional amendment, rather than a statute, we need not consider any conflicts between the proposed provisions and other provisions of the state Constitution. While it might not be impossible for a constitutional provision to be so inconsistent with, and repugnant to, other provisions of the same constitution as to be invalid, this would be very unusual, and we do not consider any such conflict to be involved here. There remains, however, the question of a possible conflict with the federal Constitution.

The Fourteenth Amendment to the federal Constitution prohibits a state to make or enforce any law abridging the privileges or immunities of citizens of the United States, or to deny to any person in its jurisdiction the equal protection of the laws. In general, this would present the same question of class legislation which we are accustomed to consider in connection with the Nebraska Constitution.

With respect to creating separate classes consisting of (1) agricultural land, (2) railroad right-of-way land, and (3) all other land and improvements to land, we believe the court would sustain such classifications. In Stahmer v. State, 192 Neb. 63, 218 N.W. 2d 893 (1974), the court repeated the general rule that it is competent for the Legislature to classify for purposes of legislation, if the classification rests on some reason of public policy, some substantial difference of situation or circumstance, that would naturally suggest the justice or expediency of diverse legislation with respect to the objects to be classified. The same criteria should apply with respect to classifications created by the state Constitution, when we consider whether the classifications would withstand scrutiny in light of the federal Constitution.

In that same case the court upheld legislation which gave preferential treatment with respect to taxation to property used in agricultural production, saying:

“... There can well be public policy reasons for the grant of these exemptions. It is generally recognized that persons engaged in agricultural pursuits and in businesses with large inventories are, in proportion to ability to pay, heavily taxed. A legislative desire to equalize the tax burden with, for example, individuals with major investments in untaxed intangible personal property is not unreasonable.”

We assume that, if this constitutional amendment were passed, the court would use the same reasoning to justify the creation of the class of agricultural lands.

So far as the class consisting of railroad right-of-way land is concerned, we anticipate no trouble with that class. As a matter of fact, the assessment and equalization of railroad property is already treated differently from the assessment and equalization of other property. See sections 77-601 to 77-675, R.R.S. 1943. Special legislation dealing with railroads is very common, and we would certainly anticipate no difficulty in sustaining a constitutional provision making railroad right-of-way land a special class, if attacked as being a violation of the Fourteenth Amendment to the federal Constitution.

The third class provided by the proposed constitutional amendment would be “all other land and improvements to land.” The only other type of property subject to taxation which occurs to us is personal property, and Article VIII, Section 2 of the Constitution already authorizes the Legislature to classify personal property in such manner as it sees fit. If,

therefore, the first two classes of real estate are proper classes, and if all personal property is a proper class, it follows automatically that all other land and improvements to land must be a proper class to itself. We therefore see no difficulty with the basic classes set up by this proposed constitutional amendment.

However, we see many difficulties with respect to the proviso that the provisions to be set up by the Legislature shall be applicable in the various counties only after having been approved by a majority of the voters in that county. We have not attempted to fully explore all of the ramifications of such a provision. We believe there may be some state funds distributed to political subdivisions which might be put into a chaotic condition by the situation of the various counties acting under different ground rules. However, an exploration into that area is not commensurate with a prompt response to your letter of inquiry.

The most obvious difficulty with the provision about permitting each county to decide whether different rules, to be set by the Legislature, with respect to the rates of assessment or taxation of the different classes shall apply to it is that chaos, and probably unequal treatment of taxpayers would result with respect to overlapping taxing districts. We, of course, have no way of knowing what specific provisions the Legislature would make in implementation of this constitutional provision. However, we must assume that it would result in different amounts of taxes being levied against real estate, depending upon whether or not the particular county approved or disapproved the proposal. In the case of an overlapping taxing district, lying in two or more counties, one of which had approved coming under the legislative scheme, and the other of which had not, this would result in identical taxpayers paying different amounts of tax for the same taxing entity, depending upon which side of the county line the taxpayer's real estate lay upon. This, we believe, would deny the more heavily taxed taxpayer equal protection of the laws, and would constitute unreasonable classification. We therefore have serious reservations about the validity of the local option provision in the proposed constitutional amendment.

Very truly yours,

PAUL L. DOUGLAS
Attorney General

ATTORNEY GENERAL'S OPINION

Opinion No. 163
January 20, 1976

Dear Senator DeCamp:

You have asked whether Legislative Bill 574 as amended by the Judiciary Committee is constitutional. In particular you question the procedure for arrest provided for in section 3 and you question whether or not the bill is unconstitutionally vague and indefinite. Though we cannot say with certainty that this bill is valid we find that it is probably constitutionally valid.

You mentioned that the proposal as amended was taken from a 1904 California law which was subsequently found to be invalid. The California Penal Code, Sections 597, a,b,c, are virtually identical to L.B. 574. Those sections were in fact found unconstitutional in the early 1900's but the reasoning for that finding had nothing to do with the merits of the statutes but centered around the procedure by which the statutes were enacted.

Section 3 of L.B. 574 authorizes law enforcement personnel to enter any place where there is an exhibition of fighting birds or animals or where preparations are being made for such an exhibition and arrest all persons present. It should be pointed out that under the terms of the act the arrests would be for a misdemeanor offense. In section 29-404.02, R.S.Supp. 1974 it provides:

“A peace officer may arrest a person without a warrant if the officer has reasonable cause to believe that such a person has committed:

“(1) A felony; or

“(2) A misdemeanor, and the officer has reasonable cause to believe that such person either (a) will not be apprehended unless immediately arrested; (b) may cause injury to himself or others or damage to property unless immediately arrested; (c) may destroy or conceal evidence of the commission of such misdemeanor; or (d) has committed a misdemeanor in the presence of the officer.”

Section 3 of L.B. 574 provides that the law enforcement officer may enter a place where there is an exhibition of fighting birds or animals and arrest all persons present. This section appears to be in complete compliance with section 29-404.02(2), (d) in that section 3 of L.B. 574 also permits a peace officer to arrest all persons who have committed a misdemeanor in the presence of that officer; the misdemeanor being the prohibited activity found in sections 1 and 2 of L.B. 574.

In Markham v. Brainard, 178 Neb. 544, 134 N.W.2d 84 (1965), the Nebraska Supreme Court said:

“It is a fundamental requirement of due process of law that a criminal statute be reasonably clear and definite. A crime must be defined with sufficient definiteness and there must be ascertainable standards of guilt to inform those subject thereto as to what conduct will render them liable to punishment thereunder. State v. Nelson, 168 Neb. 394, 95 N.W.2d 678...”

We see nothing in L.B. 574, as amended by the Judiciary Committee that would make the bill unconstitutionally vague or indefinite. While it is true that the activity prohibited by L.B. 574 is quite broad, that by itself does not make the bill subject to attack as unconstitutionally vague and indefinite. We would point out that the California statute mentioned above, has provisions nearly identical to those of L.B. 574, and that statute which is still on the books in California, has not been held unconstitutionally indefinite or vague and is still in effect today. We find nothing in this criminal statute that is not reasonably clear and definite, and furthermore we find nothing in this criminal statute that is lacking of ascertainable standards of guilt so as to inform those subject to the statute as to what conduct will render them liable to punishment thereunder.

Very truly yours,

PAUL L. DOUGLAS

ATTORNEY GENERAL'S OPINION

Opinion No. 164
January 20, 1976

Dear Senator Fowler:

You have asked whether a political organization supporting or opposing an initiative proposal must conform to the provisions of the Nebraska Corrupt Practices Act prior to the time the proposal has qualified, by obtaining the requisite number of signatures, for placement on the general election ballot.

A political committee is defined within the act as:

"... any committee, political party, organization, or association of two or more people which raises, receives, or expends, or directs the raising, receipt, or expenditure of money or other things of value to be used wholly or in part in promoting or preventing the nomination or election of any candidate or class of candidates, or in promoting or preventing the approval of any proposition;..." (Emphasis added.) 32-1134(4), R.S. Supp., 1974.

Proposition is defined as:

"... any lawfully submitted proposal for an amendment to the state Constitution, for the calling of a state constitutional convention, for the enactment of a statute by initiative, or for the

repeal of any act of the Legislature or portion thereof by referendum which appears on an election ballot for approval or rejection by the electors; . . ." (Emphasis added.) 32-1134(2), R.S. Supp., 1974.

It is our opinion that if an organization falls within the definition of a political committee and if they are opposing or supporting a measure in the petition drive state, they must conform to the provisions of the remainder of the act.

We believe the key to the interpretation of this section with respect to your specific question concerning initiative proposals lies in the phrase "lawfully submitted proposal."

The statutory procedure for placing a proposal before the voters through the initiative process is found generally within Article 7, of Chapter 32 of the Nebraska Revised Statutes. Section 32-704, R.R.S. 1943 provides in pertinent part:

" . . . Prior to obtaining any signatures to the petition, a copy of the form to be used shall be filed with the Secretary of State, together with a sworn statement containing the name or names of every person, corporation or association sponsoring the petition, or contributing or pledging contribution of money or other things of value for the purpose of defraying the cost of the preparation, printing, or the circulation thereof. . . ."

We are of the opinion that at the time the copy of the petition is filed it is an initiative "proposal" and after it has been accepted for filing by the Secretary of State it has been "lawfully submitted."

For these reasons we have reached the conclusion that sec. 32-1134(2), R.S. Supp., 1974 requires such organizations to comply with the overall provisions of the Nebraska Corrupt Practices Act at the time signatures are obtained or at the time efforts are undertaken to persuade the electors to not sign such petitions.

Sincerely,

PAUL L. DOUGLAS

THIRTEENTH DAY—JANUARY 23, 1976**LEGISLATIVE JOURNAL****EIGHTY-FOURTH LEGISLATURE
SECOND SESSION****THIRTEENTH DAY**

Legislative Chamber, Lincoln, Nebraska
Friday, January 23, 1976

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Whelan presiding.

PRAYER

The prayer was offered by Rev. Everett F. Hezmall, Associate Pastor, Westminster Presbyterian Church, Lincoln.

Lord God, in these moments of prayer each day, we've been discovering that so much of life and leadership is a venture in faith: faith in our nation, in our state, faith in the people, faith in You and faith in ourselves!

So much of the abundant Life of Jesus affirms that our faith is the power to turn 'the worst times into the best times'! Thy word assures us: "God is at work in you giving you the will and power to achieve His purpose."

Help us O Father to inject this God-power into our lives.

Hence your Divine Dreams for us as a people shall become our dreams. In the Spirit of Him who loves us we offer this prayer. Amen.

- 13 affects the appropriation process and the programs
- 14 for which funds are appropriated, and may require
- 15 appropriations for special commitments not anticipated

ATTORNEY GENERAL'S OPINION

Opinion No. 165
January 23, 1976

Dear Senator Chambers:

You have asked if there is "any provision in the statutes which allows the school board in a Class V school district to place on the ballot the question as to how the board shall be elected (by district or at-large)?" No. The procedure to be followed is stated in Neb. Rev. Stat. Section 79-1003 (Supp. 1975). It provides for the election of members of the board of education from districts. The validity of that statute is currently being challenged in the District Court of Douglas County, Nebraska.

Very truly yours,

PAUL L. DOUGLAS
Attorney General

FOURTEENTH DAY—JANUARY 26, 1976**LEGISLATIVE JOURNAL****EIGHTY-FOURTH LEGISLATURE
SECOND SESSION****FOURTEENTH DAY**

Legislative Chamber, Lincoln, Nebraska
Monday, January 26, 1976

Pursuant to adjournment, the Legislature met at 9:33 a.m., Speaker Burbach presiding.

PRAYER

The prayer was offered by the Chaplain.

Eternal God, our loving Father, gradually we are seeing that freedom is not free. It must be worked for; we must uphold it with continual vigilance in order that our people do not fall back into slavery.

Give us the vigor to be free ourselves - free of hangovers from our past environment; free from present entangling alliances; free in conscience, so we may be living the abundant life Thou hast given us.

May we realize we are not free as long as there is one person in slavery.

May we devote the same ingenious energies and risks in striving for freedom to elevate man that we do in the endeavor to destroy him in war.

We pray in the name of Christ, the Prince of Peace. Amen.

MOTION—Escort Governor

Speaker Burbach moved the Chair appoint a committee of 5 to wait upon the Governor and escort him to the Chamber and that we be at ease until the committee shall return.

The motion prevailed.

The Chair appointed Messrs. Anderson, Kime, Kelly, Cavanaugh and Carsten to escort the Governor to the Chamber.

EASE

The Legislature was at ease from 9:55 a.m. to 10:01 a.m.

The committee returned and escorted Governor J. James Exon to the rostrum where he delivered the following budget message:

MESSAGE FROM THE GOVERNOR

Mr. President, Mr. Speaker, Members of the Second Session of the 84th Legislature, Ladies and Gentlemen:

The state of the State in our great land of Nebraska is sound. There are many encouraging signs that we are emerging steadily though not spectacularly from the economic downturn. We can anticipate a further decline in unemployment this year, but unfortunately many of our citizens will continue to find gainful employment difficult to obtain. The key factor for full recovery will be the health of our agriculture. With adequate moisture and fair prices for the products of our farmers and ranchers, we can make further meaningful progress.

A prime concern must be the drought that has clutched this land. It is very real, very serious, and if continued on a widespread basis into the growing season, anticipated state revenues will be dramatically reduced. In that event, let all be forewarned, I would not hesitate to call the Legislature into special session and request your advice and authority to

slash appropriations wherever necessary in the new budget to assure Nebraska's fiscal integrity. With the uncertainties that face us, we must proceed with caution and extreme care.

With these fundamental considerations in mind, the Governor's budget for fiscal 1976-77 presented today is based upon three key factors....prudence, productivity, and a proposed tax reduction.

It is my hope that the Legislature will accept this budget, as required to be submitted each year by the Constitution, under Article IV, Section 7, or amend same only under authority specifically granted your honorable body by the Constitution.

The primary goal of this administration has always been to meet the real needs of a healthy, growing Nebraska while recognizing reasonable fiscal restraint. As never before, this is a time for understanding and cooperation.

We must come together to resist what has become common place in much of government today: ever-increasing tax rates or a further plunge into the financial quicksand of bonded debt and in some cases a combination of the two. Specifically, for the sixth time, I again reject in this budget, any funding of road construction through deficit financing.

With growing expenses as experienced by society in general, caused primarily by continued runaway inflation, all government will spend more in total dollars.

However, this fact should not be used as an escape mechanism for elected officials to avoid our prime responsibilities to intelligently manage and objectively control expenditures.

Few can fault the theory that government spending at all levels, but particularly in Washington, was at least the uncontrolled incubator of inflation and now all the chickens are coming home to roost everywhere and on everyone.

When most of the people in this Chamber were born, few if any individuals paid income or sales taxes at any level of government.

The American Birthright then was truly free since a new citizen did not automatically inherit their share of debt created for them by others. Each American child born in the year of our Lord, One Thousand Nine Hundred and Seventy-Six will be issued a birth certificate and an average debt mortgage of approximately \$3,400.00. Never has there been a more classic case of taxation without representation.

For its first century and a half, this country, starting from scratch, marshalled its God given strength and abilities, and built the strongest, soundest, and most stable nation on earth, all while maintaining the principle that we should not spend beyond our means.

The last fifty years, during our lifetime, we have witnessed a steady reverse of the previous sound fiscal course.

A startling statistic, I suggest, that brings all of this into focus is that in the last six years alone, the federal government has "created" approximately 35% of the total national debt accumulated since 1776.

Unless arrested, such mismangement of financial resources will surely bankrupt the United States of America and send her skidding to a third rate world power. New York City has shown us it can happen here!

In Nebraska, we do not propose to turn back the clock. However, we must be ever mindful of what is going on about us and steer a clear course.

With all government spending, there should be a checkpoint, a budget measured and planned on a road of restraint. Such a road is never smooth. Road blocks will be erected by special interest groups, many well intentioned, designed to wreck spending limitations in the pursuit of their goals.

Nevertheless, if we are to be realistic and not reckless, let us first set parameters of expenditures beyond which we shall not go. I call this checkpoint prudence. It forces the setting of priorities on spending. It further provides a non-elastic leash that uncomfortably jerks all back to reality when the spending machine runs wild.

The budget recommendations presented today have been given detailed study and consideration. I have reduced by \$53 million the total General Fund spending requests. To insure more productivity, I have struck requests for some 935 new employees.

In developing the Governor's General Fund Budget requirements for fiscal 1976-77, the checkpoint prudence figure of \$364.8 million has been established. This figure includes the traditional General Fund contributions to operations and aid to political subdivisions. Enactment of this amount and acceptance of my other spending limitations will allow a reduction of 2% in the state income tax next year, down to 13% of federal liability, while holding the line again at 2½% on the state sales tax. Another option the Legislature has would be to eliminate the sales tax on food at the grocery counter in lieu of the reduction on the income tax.

Increases in total state expenditures are required primarily to fund previous and on-going multi-million dollar commitments and to at least partially recognize continued inflationary costs.

If we are to be prudent, the Legislature must reject giant new tax-gobbling measures totalling at least \$145 million scattered throughout the hundreds of bills that you are presently considering.

I congratulate the Legislature for its leadership in suggesting fiscal restraint at the federal level as proposed in Legislative Resolution 106. I urge you to amend and include in that document, the Legislature's spending ceiling for Nebraska, thereby clearly showing the federal government that what we preach is what we practice. You will remember that LR 106, supported by 75% of the members of the Legislature, is your proposed action directing that, "The total of all federal appropriations made by Congress. . . not exceed the total of all estimated federal revenue for that fiscal year." I respectfully suggest that it would be entirely proper and consistent for us to apply to ourselves the same sound fiscal medicine that we prescribe for others.

Those of us in state government must be alert to a new double-barrelled attack now in full swing on state resources.

The federal government is on a calculated course of shifting traditional federal obligations to the states. Likewise, the subdivisions of state government, not satisfied with the ever-increasing 43% of the state's General Fund Budget, now flowing directly back to them, plus their own taxing power, are appealing for more and more. There are presently at least ten bills before you in this category, an intriguing wish list.

The record is replete with undisputable proof that the more so-called "aid" is provided, the higher taxes and spending go at local levels. The Nebraska Tax Research Council has recently released a study which shows that since 1966, when Nebraska broadened its tax base with the first sales and income taxes, real estate taxation has generally doubled, and in some cases, tripled. So-called "tax relief" is mostly a myth.

For these reasons, I urge your rejection of all such proposals unless you can devise a way to finance them by rearranging priorities within the restraints of my present total budget. Since 43% of the State's General Fund Budget is now being returned to local government, possibly some of these funds presently committed otherwise, totalling \$179 million, could be redirected to the new funding requests. We should not knowingly provide escape mechanisms on spending restraints otherwise provided by law.

I will not encroach on your time this morning to comment on most of the important agencies and programs that will require your attention. The detailed budget and accompanying documents are generally self-explanatory. However, there are some matters that should be expanded upon, including legislation in bill form that I am requesting be introduced today.

It has been evident that legislative salaries of \$4,800 per year are probably not going to be raised by the voters. With the usual high percentage of State Senators who always seek re-election despite comparative low pay, it is understandable why the citizens cannot be convinced that salaries are a deterrent to those seeking the important position. However, many realize that most of you make personal financial sacrifices to serve. Is it not time to consider lightening your required time to be here in your official capacity?

You are provided with a bill today to allow the people to vote in November on a Constitutional Amendment to return to biennial sessions.

In addition to lightening your work load and improving productivity, such a move could save millions of dollars and hopefully cut down the unbelievable crunch of bills that somehow overburden you each year.

Since annual sessions began in 1971, the cost of the Legislature has skyrocketed from over \$1 million per year to your current request of approximately \$4 million for next year.

Should interim sessions be necessary, you can easily call yourselves into session, or the Governor may do so.

I am again requesting introduction of my bill to limit campaign spending and disclosure of income sources for State Constitutional Officers, State Senators, and those seeking such offices. This has been done with the full knowledge that a committee of your body has just killed my previous identical effort in this area.

Similar measures have been passed and currently affect those involved in federal elections. It seems to me that Nebraskans want and are entitled to such action here. I hope that the Legislature will approve this request promptly.

You have before you LB 579 to establish a commission to begin the task of coordination of post secondary education in Nebraska with the goal to eliminate duplication, improve the schools, and save tax dollars. Such a measure is badly needed since Nebraska is far behind in this area. We are one of only three states which have no such coordination.

With post secondary education taking approximately \$111 million of the State's annual General Fund Budget, it is certainly an expensive but very necessary function that needs more direction and accumulation of reliable information upon which we can make intelligent decisions.

The record will clearly show that Governor Jim Exon and the members of the Legislature during the last five years are pro-education and are concerned with providing the best education possible for Nebraska youth at all levels. Notwithstanding our accomplishments, there are those with no concern whatsoever for accountability or ability to pay and tax, who mistakenly equate quality of education only with total dollar appropriations.

With \$179 million of the State's General Fund Budget pre-empted by the local units of government, \$84 million for the university, \$13 million for the state colleges, and \$38 million in aid to individuals, there remains \$103 million, or only 24% for other important functions of state government.

For the community technical colleges, there is provided an increase of \$1.8 million over last year. However, I support appropriation of such an amount only if the Legislature will accept a measure that I am introducing today which provides for a reduction of the maximum mill levy on local real and personal property from the present 2.5 to 2 mills. This would reduce such taxes a total of at least \$3 million across the State.

The University of Nebraska is by far the largest agency in state government from the standpoint of both employees and consumers of tax dollars. The University of Nebraska is a most valuable asset. We need to assure, as best we can at the legislative and executive levels, its continuing good health, including fair salaries for its needed faculty and other employees. The welfare of our young Nebraskans studying there has been and must continue to be a prime consideration.

The University, like any other agency, must justify its expenditures. I am not convinced that they have adequately done that. Like most others, they should get the message that we expect trimming, better planning, and conservation of tax funds.

A look at the record shows that despite near static full-time equivalent (F.T.E.) enrollment since the 1969-70 budget year, we have more than doubled General Fund expenditures, up 105%. In the 1969-70 year, the General Fund Budget was \$37.5 million, compared with this current year of \$77 million.

During that period of time, there apparently has been a decrease in productivity, as evidenced by an increase of 29% in the F.T.E. teaching faculty, 120% in administration, and 44% in total employment.

The faculty seems to blame the Governor and the Legislature for not providing enough money. I submit that this is not the case. A recent study has shown that the University of Nebraska is well-financed from state tax funds compared to most of the universities in the Big 8. Some segments of the University, not only compare well, but are in fact number 1 in state tax support.

In the budget, I have recommended an increase for the University of 9.3% from the General Fund, and authority to employ unobligated cash funds in addition. The University requested a 30% increase in one year from \$77 million to \$100 million. I am recommending an increase of \$7.2 million only.

We have allowed great flexibility to the Regents by basically providing lump sum appropriations divided into the four basic areas; Central Administration, Campus Operations, the Agricultural Institute, and Cash, Revolving, and Certain Federal Funds. As provided in the University budget, the Regents are allowed total flexibility, at their discretion, on faculty salaries.

Provided for in the budget is a reasonable raise for state employees, also hit by inflation, of 3% on July 1, 1976 and 3% effective on their service date. We have included a discretionary fund for merit use by agency heads. This equates to an increase in cost to the General Fund of approximately 5.5%.

There was a dramatic increase in the hospitalization costs for the state insurance plan which should, in my opinion, be accepted by the State immediately. Otherwise, most state employees will continue to experience a permanent decrease in their take-home pay.

The Capital Construction Budget is stringent. We have continued funding as agreed upon previously for the Veterinary Science and Plant Science Buildings on the Agriculture Campus.

The only major capital construction we face is in penal facilities. As per agreements with the Legislature, we are continuing on a phased approach.

In the last year, there has been a dramatic and totally unpredicted rise in the penal population. We must move as quickly as possible on construction.

In the first session, over my strong objections and veto, it was the Legislature's directive that two medium/minimum facilities should be constructed; one in Omaha with 175 beds, and one in Lincoln with 200 beds.

I am advised that we have an increased and current and projected need of a total of at least 464 beds in this category. Bowing to legislative mandate, you will find in the Capital Construction Budget, a 256 bed facility in Lincoln, with final construction cost estimates of \$7.6 million, in addition to a like facility in Omaha at \$7.4 million with 208 beds.

I direct your attention to the fact that these costs will be approximately \$32,000 per bed which is supposedly under national averages, as shockingly high as that figure is.

If you will, as I recommend, correct your present course and build one unit in Lincoln, we will have completion of all beds at least a year earlier, save the taxpayers a total of \$2.2 million in construction costs, and due to economy of scale in the larger institution, save at least \$1 million per year, each and every year in operational costs. Please consider the multi-millions in savings over the life expectancy of the facilities. Give us your decision, whatever it is, and we shall proceed.

Thank you for your courteous attention and your valuable time. Although we shall not always agree, we must communicate. Senators are always welcome in my office, and we are anxious to see any of you anytime. I urge you to let me know whenever you think I might be helpful, and I will do likewise.

May God bless us all in our endeavors as we attempt, each in our own way, to do individually and collectively, what we believe to be best for the people we are proud to serve in our wonderful Nebraska.

Thank you.

The Committee escorted the Governor from the Chamber.

1. On page 2, lines 16 through 27, and on pages 3, 4 and 5, strike all new matter.

2. On page 2, line 14, reinstate the following stricken language: "in accordance with the requirements".

3. On page 2, line 16, following the stricken period, insert the following: "of section 2 of this act."

4. On page 2, add a new section to read as follows:

Sec. 2. Registrants under this act shall provide the director assurances of their financial ability to faithfully and promptly account for and pay to the sellers with whom they deal or their designated representatives, the total proceeds from the sale of slaughter livestock in accordance with the following requirements:

(1) Each registrant shall file a surety bond or bond equivalent with the director. Such surety bonds and bond equivalents shall meet the following requirements:

(a) Bond equivalents shall be in the form of a trust agreement, and the fund of the trust shall be in the form of fully negotiable obligations of the United States or certificates of deposit insured by the Federal Deposit Insurance Corporation or the Federal Savings and Loan Insurance Corporation.

(b) The amount of the bond or bond equivalent shall be not less than the next multiple of five thousand dollars above the average of all purchases of slaughter livestock from Nebraska residents during a period equivalent to two business days based on the total number of business

days and the total amount of such transactions in the preceding twelve months, or in such substantial part thereof, if any, in which the registrant did business. In the case of new registrants, the amount of the bond or bond equivalent shall be based upon the level of purchases reasonable to be expected, as determined by the director. For the purpose of computing average daily value, two hundred and sixty is deemed the number of business days in a year.

(c) Whenever a registrant's weekly purchases exceed one hundred fifty percent of his average weekly purchases, such fact shall be reported to the director, and the director may require an increase in the amount of the bond or bond equivalent. The amount of the increase shall be determined by the director, but shall not be excessive in relation to the increased volume of purchases.

(d) All registrants shall review their level of purchases each six months to determine the adequacy of their bonds or bond equivalents. Whenever such a review reveals that the level of purchases has increased to such an extent that the amount of the bond or bond equivalent should be increased by five thousand dollars or more based upon the formula set out above, a new or amended bond or bond equivalent of such amount shall be filed.

(e) Bonds or bond equivalents shall provide that prior to terminating or reducing the amount of the bond or bond equivalent, at least thirty days notice in writing shall be given to the director by the party terminating or reducing the amount; Provided, that no such notice shall be required in cases wherein a replacement bond or bond equivalent of sufficient amount is provided for. Whenever a bond or bond equivalent is to be terminated by a cancellation by the surety or trustee, the director may cause notice of such fact to be published. Bonds and bond equivalents shall provide that termination will not release the parties from liability arising out of facts or transactions occurring prior to the termination date.

(f) In the case of bonds filed with the director, the registrant and surety of the bond shall be held and firmly bound to the State of Nebraska as trustee for all Nebraska residents from whom the registrant has purchased slaughter livestock and failed to pay in full therefor before the close of the next business day following the purchase or within twenty-four hours following the determination of the price, whichever may occur last, or, in the case of an express agreement between the seller and purchaser, according to the terms of such agreement. In the case of bond equivalents filed with the director, the trust agreement shall provide as beneficiary, the State of Nebraska for the benefit of all Nebraska residents from whom the registrant has purchased slaughter livestock and failed to pay in full therefor before the close of the next business day following the purchase or within twenty-four hours following the determination of the price, whichever may occur last, or, in the case of an express agreement between the seller and purchaser, according to the terms of such agreement. The bond or trust agreement of a registrant shall

be conditioned for the payment only of those claims which arise from purchases of livestock from Nebraska residents, and further conditioned to provide that the proceeds of the bond or the fund of the trust shall not be used to pay fees, salaries, or expenses for legal representation, or be subject to attachment for any other claim, or to levy of execution upon a judgment based on any other claim.

(g) Registrants operating more than one plant used to slaughter livestock purchased from Nebraska residents shall describe with particularity the exact locations of the plants slaughtering such livestock and thus covered by the bond or bond equivalent; Provided, that nothing contained herein shall prevent a registrant operating multiple plants from bonding each such plant individually, or establishing separate trust agreements for each plant.

(h) Bonds filed with the director shall be with a surety company duly authorized to do business within the State of Nebraska, and trustees of bond equivalents filed with the director shall be institutions located within the State of Nebraska in which funds are invested or deposited.

(i) Bonds and bond equivalents shall provide that persons damaged by nonpayment of obligations on the part of the registrant may maintain an action against the registrant, and the surety on the bond or the trustee of the trust fund, even though not named as a party to the bond or bond equivalent.

(j) Bonds and bond equivalents shall provide that any claim for recovery on the bond or trust agreement must be filed in writing with the surety, the trustee, or the director, and the party who receives such claim shall, within twenty-four hours notify the other such party or parties and the registrant of the fact of such filing. Neither the surety on a bond nor the trustee of a trust agreement shall be liable to pay any claim if it is not filed in writing within one hundred and twenty days from the date of the transaction on which the claim is based, or if suit thereon is commenced less than one hundred and eighty or more than five hundred and forty-seven days from the date of the transaction on which the claim is based.

(k) Trust funds shall not be removed from trust by a registrant until the expiration of one hundred and twenty days after the date of termination of a trust, and then only if no claims secured by the agreement have been filed under subdivision (j) above. If any such claims have been filed, the withdrawal of funds by the registrant shall not be permitted until the claims have been satisfied or released and evidence of satisfaction or release has been filed with the director.

(2) Each registrant shall file an annual financial statement with the director. Such statement shall:

(a) Be filed within thirty days prior to the anniversary date of the initial registration; Provided, that, at the option of the registrant, a date in lieu of the actual anniversary date may be designated by the director and the registrant, in which case, the annual statement shall be filed within thirty days prior to the designated date,

(b) Have been prepared by a Certified Public Accountant within ninety days prior to the date established in subdivision (i), above,

(c) Accurately reflect the financial condition of the business at the time of preparation, and

(d) Contain, or be accompanied with, a statement of the total amount of purchases of slaughter livestock from Nebraska residents during the period of time covered by the financial statement.

(3) In cases wherein:

(a) The registrant has reasonable cause to believe that the financial condition of the business may change to such an extent within the upcoming year as to cause a reasonable expectation that the registrant may be unable to fulfill his financial obligations incurred in the purchase of slaughter livestock, and

(b) The conditions creating such reasonable belief are not readily ascertainable from the contents of the financial statement currently on file or in the process of being prepared for filing, each registrant shall file at the time such conditions become known or in conjunction with the financial statement being prepared for filing, a detailed account of such conditions sufficient to enable the director to ascertain whether assurances of financial ability in addition to those provided for herein shall be required of the registrant.

(4) Each registrant shall be required by the director, if determined by the director to be necessary, to file regular or special written reports or answers to specific questions for the purpose of furnishing information concerning the registrant's financial condition as it relates to his ability to fulfill his financial obligations incurred in the purchase of slaughter livestock if:

(a) A statement is filed under subsection 3,

(b) The director determines that the financial statement filed under subsection 2 above is inadequate to accurately reflect the financial conditions of the registrant, and no statement is filed under subsection 3 above, or

(c) The registrant fails to fully comply with the provisions of this act.

(5) After having been offered an opportunity for a hearing, each registrant shall be required by the director to furnish assurances of financial ability in addition to those specified herein in cases wherein:

(a) The director determines such to be necessary based upon the existence of conditions which have or should have resulted in the filing of a statement under subsection 3 above, or

(b) The amount of the bond or bond equivalent filed hereunder, while in an amount equal to that required by subsection 1 above, is inadequate because of the volume of business conducted on a seasonable or other irregular basis.

The additional assurances the director may require may include but not be limited to the filing of a bond or bond equivalent in excess of the amount required under subsection 1 above. Nothing contained herein shall

prevent the director from foregoing an application for equitable relief under section 54-1805 of this act when the additional assurances of financial ability provided by the registrant are found by the director to adequately protect the Nebraska residents from whom the registrant purchases slaughter (sic) livestock.

The Honorable Loran Schmit

Dear Loran:

RE: LB 544

As you know, the Department of Agriculture was able to adopt regulations under the Nebraska Livestock Sellers Protective Act requiring the filing of a bond covering two days' purchases of slaughter livestock. The implementation of these regulations has been met with excellent cooperation extended by the meat packers, thus rendering it very successful. In addition, the regulations require the filing of annual financial statements and other reports.

This action was achieved in cooperation with both government and industry. Since we are so frequently criticized for having extra laws passed, this is a case where we can achieve the end result with current legislation.

At this time, I see no problems. If any change should occur that would require legislation, I will certainly keep the legislative agriculture committee closely informed.

If we can be of further assistance in this matter, please advise.

Sincerely,
DEPARTMENT OF AGRICULTURE

Senator Loran Schmit

Dear Senator Schmit:

Re: LB 544

After having reviewed the condition of LB 544 following adoption of last session's standing committee amendments, it occurs to me that passage of the bill in its present form will result in less protection to the sellers of slaughter (sic) livestock than is now in existence through the present statute accompanied by the department's rules and regulations. The present requirements include the filing of annual financial statements and other financial reports. The availability of such data could improve the department's prospects of dealing with another "American Beef" situation at an early state. The present statute also authorizes rule-making by the department which LB 544 would eliminate.

Both of these points were made to your Committee's counsel last session. It was my understanding that they would be rectified through the Committee amendments but apparently that was not the case.

The department recommends that the present provisions of LB 544 be changed. There appear to be at least three alternative methods of doing so.

One possibility would be enacting no legislation whatsoever. This would guarantee continuation of the current level of protection without disturbing the current beneficial atmosphere of cooperation we now enjoy with the meat packing industry.

Another possibility would be to amend LB 544 by restoring the rule-making authority and specifying the types of rules we now have. A copy of an appropriate amendment to do this is attached, marked No. 1.

The final possibility is to incorporate the current regulations into the statute. A copy of an amendment for this is also attached, marked No. 2.

Myself, or anyone else at the department, would be most willing to further discuss this matter with you at your convenience. Please give us a call.

Sincerely yours,

DEPARTMENT OF AGRICULTURE

ATTORNEY GENERAL'S OPINION

Opinion No. 166
January 26, 1976

Re: Request for Opinion on Constitutionality of
LB 741 and a Proposed Amendment to LB 65

Dear Senator Lewis:

You have asked whether LB 741 or your proposed amendment to LB 65 present any constitutional problems.

Your proposed amendment to LB 65 gives the Board of Examiners of Psychologists authority to contract with other state agencies and increases the maximum fee the Board of Examiners of Psychologists may charge for licensing. It also expands the definition of "unprofessional conduct" as a ground for revoking or suspending a license to include additional specified acts. We find no constitutional problems with this amendment.

LB 741, on the other hand, purports to give the Board of Examiners of Psychologists authority to set the standards for determining whether an applicant qualifies for certification as a clinical psychologist. The Board is then to determine whether an applicant meets such standards by a review of his or her credentials or by an examination. There are problems with vagueness, with improper delegation of legislative power, and with the grandfather clause.

Both "clinical psychology" and "clinical psychologist" should be defined. This is necessary both to justify such special certification for protection of the public and to enforce sanctions against those who practice it without certification.

It is fundamental that the Legislature may not delegate legislative power to an administrative agency without standards to guide it. Many of the standards for certification as a clinical psychologist are set out in sections 2, 3 and 4. Authority should not also be given to the Board of Examiners of Psychologists to set them as it is in section 1. The qualifying phrase "satisfactory to the Board" should be deleted in sections 2, 3 and 5 as there are no guidelines for exercising such judgment.

The Legislature may exempt persons from the requirements of a professional registration statute who have been engaged in the lawful practice of a profession in the state before its passage. State ex rel. Meyer v. Knutson, 178 Neb. 375, 133 N.W.2d 577 (1965). Thus psychologists licensed in Nebraska on the effective date of this act can be permitted to continue to practice clinical psychology without certification or they can be certified on the assumption they are qualified by experience. But to permit any psychologist licensed after the effective date of the act to perform clinical psychology functions without certification is to raise a question as to whether such certification is really required to protect the public, the only justification for such certification.

In summary, we find no constitutional problems in your proposed amendment to LB 65. We do find constitutional problems in LB 741 because of vagueness, improper delegation of legislative power, and exemptions which will defeat the public protecting purpose of such legislation.

Sincerely yours,

PAUL L. DOUGLAS
Attorney General

ATTORNEY GENERAL'S OPINION

Opinion No. 167

January 28, 1976

Dear Senator Luedtke:

In your letter of January 15, 1976, you ask whether the Legislature can amend sec. 24-729, R.S. Supp., 1974, to permit the Supreme Court to assign retired county judges to sit in any county court in order to fill a vacancy in such court caused by a judge who is incapacitated or absent for any reason. While the subject is not free from some doubt, it is our conclusion that a constitutional amendment is not required.

We start with the general principle that Constitutions are not a grant of power to the Legislature, but a limitation upon its power. In other words, the Legislature has the power to do anything it wishes, except as limited by the state or federal Constitutions. We therefore look to see whether anything in the Constitution would prevent the Legislature from empowering the Supreme Court to temporarily invest retired county judges with judicial power.

Section 24-729 now authorizes the Supreme Court to assign judicial duties to retired Supreme Court and district court judges. This procedure with respect to retired Supreme Court and district court judges is authorized by Article V, sections 2 and 12 of the Nebraska Constitution. It can be argued with some force that the fact that it was felt necessary to have specific constitutional authorization for such a procedure with respect to such retired judges implies a lack of authority for such legislation in the absence of constitutional authorization. It can be argued that the principle of *inclusio unius est exclusio alterius* is applicable, and

that when the Constitution specifically authorizes this procedure for retired Supreme Court and district court judges, it impliedly intends to exclude all other types of retired judges. However, we believe that a rational distinction can be drawn between county judges and Supreme Court and district judges.

The appointment and tenure of Supreme Court judges and district judges is governed in large part by the so-called merit plan outlined in Article V, Section 21 of the Nebraska Constitution. It can therefore be argued that the Legislature cannot authorize anyone to exercise judicial powers in the Supreme Court or the district court except as provided in that section. It could therefore be argued that when a judge retires he loses all of his judicial powers, and could not be reinvested with them without specific constitutional authorization.

The same argument is not true with respect to county judges. Article V, Section 1 of the Constitution provides for county courts, but the Constitution leaves the method of selection of the county judges in the hands of the Legislature. The Legislature has specified the method of selection of county judges in Chapter 24, Article 5 of the statutes. If the Legislature wishes to provide that former county judges shall retain a residue of judicial power, which may be exercised when authorized by the Supreme Court, we believe it is within the power of the Legislature to do so. We therefore conclude that a constitutional amendment is probably not necessary.

Very truly yours,

PAUL L. DOUGLAS
Attorney General

EIGHTY-FOURTH LEGISLATURE
SECOND SESSION

EIGHTEENTH DAY

Legislative Chamber, Lincoln, Nebraska
Friday, January 30, 1976

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Whelan presiding.

PRAYER

The prayer was offered by the Chaplain.

O God our Father, we give Thee thanks for these representatives of the people. Grant that each may consider himself to be not only a representative of the people, but also of the higher better life of Thy Spirit of the upper house.

Forgive O God our inadequate minds and our feeble hands as we seek to find answers for the ills around us. Forgive, O Lord, our dullness, our narrow-mindedness, our condemning in others what we fail to see in ourselves.

Father of us all, in a world of borrowed ideas and ghost writers help us to give attention to the originality we possess and develop it. May we always say what we mean and mean what we say. May we acknowledge Thy power within us, power to bring peace out of war, life out of death.

In the name of Jesus Christ our Lord. Amen.

Monday, February 2, 1976

Pursuant to adjournment, the Legislature met at 9:31 a.m., President Whelan presiding.

PRAYER

The prayer was offered by the Chaplain.

Eternal God, our Father, may this be a day of high visibility for us. So often our mental and emotional ceiling is zero. We try to think clearly and see accurately, but are often fogged in. May we through contact with Thee lift our thoughts above the clouds where there is clear visibility and broad perspective for making our decisions. Remind us afresh that "they that wait upon the Lord shall renew their strength; they shall mount up with wings as eagles; they shall run and not be weary; they shall walk and not faint." Amen.

ATTORNEY GENERAL'S OPINION

Opinion No. 168
January 29, 1976

Dear Senator Warner:

You have asked whether L.B. 635 containing proposed amendments to secs. 81-8,274 and 81-8,275, will permit the Nebraska American

Revolution Bicentennial Commission to use its logo on products and in promotions and to assign its use to others for royalties. Those amendments authorize the Commission to provide for the production, determine the quantity and arrange for the sale of commemorative items in addition to the official medal.

Whether the Commission can use its logo as a trademark on such goods depends on trademark law. The object of that law is to avoid confusing the public as to the source of the goods. So far the official medal is the only commercial goods identified by the logo as coming from the Commission since that is the only goods the Commission has authority to have produced and sold. Any common law trademark it may have acquired applies only to such use. But the logo has also been used by the Commission in its promotional materials. If such uses have led the public to associate the logo with the Commission, others may have been kept from acquiring a common law trademark in the logo on other goods. If so, the Commission can now extend its common law trademark in the logo to other commemorative items as they are produced and sold. It can then assign such use to others for royalties.

You have also asked whether sec. 81-8,275 as amended by L.B. 635 will permit the Commission to contract for production of a limited edition of the official medal. No, it will not. The amendments in L.B. 635 do not change the requirement of the present law that the Commission reserve the right to reorder as deemed necessary. If the phrase "including reorders as deemed necessary" were deleted as you have suggested, the Commission would be able to contract for a limited edition of the official medal.

In conclusion, the amendments now in L.B. 635 will permit the Commission to have produced and sold commemorative items in addition to the official medal. Whether the Commission can use its logo on such items must be determined by other law. L.B. 635 in its present form will not permit the Commission to contract for a limited edition of the official medal. Deleting "including reorders as deemed necessary" will give the Commission such authority.

Sincerely yours,

PAUL L. DOUGLAS
Attorney General

RESOLUTIONS

LEGISLATIVE RESOLUTION 116. By DeCamp, 40th District.

WHEREAS, the salvation of the family farm in the State of Nebraska and the United States is of critical importance to both agriculture and the consumer in America; and

WHEREAS, one of the major causes of destruction of the family farm and the family farm system is the loss of family owned farms and businesses because of federal inheritance and estate tax laws; and

WHEREAS, it is to the benefit of this country to have estate tax laws that are not confiscatory in nature which present federal estate tax laws are; and

WHEREAS, the Congress of the United States has seemingly procrastinated on this most important matter thereby making it impossible for state legislatures to effect or enact corrective legislation until the federal government acts.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-FOURTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Legislature of the State of Nebraska exhorts and insists that the Congress of the United States take action on this matter of the federal estate tax laws immediately in order that state legislatures throughout the United States may take action yet this year which will help save the family farm.

2. That a copy of this resolution be sent by the Clerk of the Legislature to all members of the Congress of the United States and the Nebraska's Congressional delegation be encouraged in the strongest manner possible to utilize whatever abilities they have to bring this matter to a satisfactory conclusion as quickly as possible.

Laid over.

TWENTIETH DAY—FEBRUARY 3, 1976**LEGISLATIVE JOURNAL****EIGHTY-FOURTH LEGISLATURE
SECOND SESSION****TWENTIETH DAY**

Legislative Chamber, Lincoln, Nebraska
Tuesday, February 3, 1976

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Whelan presiding.

PRAYER

The prayer was offered by the Chaplain.

Our Father in heaven, we pray for the members of this body in their several responsibilities. Help them in their offices, in committees, and above all as they meet here in legislative session.

May they never forget that what is said and done here is not done in a corner, but always under thy scrutiny. May they feel the weight of their responsibilities before Thee, and remember the influence of a good example, that all who come to this place may have a stronger faith in government of the people, by the people, for the people.

May the senators so speak and so act that all who wait upon them may be inspired, rather than dissolutioned by what they see and hear and are asked to do. O Lord, make Thy self real to these men and women, that each may feel Thee sitting beside him, and hear Thy voice, and win Thine approval in all things. So help them, God, for Jesus' sake. Amen.

The roll was called and all members were present except Mr. Chambers who was excused until he arrives.

ATTORNEY GENERAL'S OPINIONS

Opinion No. 169
February 2, 1976

Re: LB 431

Dear Senator Goodrich:

This is in reply to your inquiry concerning the provisions of LB 431 which would amend section 69-204, R.R.S. 1943, dealing with the regulation of pawnbrokers and others.

With regard to the provisions of section 1 of LB 431, we submit herewith a copy of an opinion given by this office in 1974 in which we concluded that a similar provision did not raise any serious constitutional objections.

With regard to the Standing Committee amendment to section 2, which would require the return of property in the possession of the pawnbroker, and others, to the person from whom it was stolen upon a finding by the police that the property was stolen, we call to your attention the case of Wacksman v. Harrell, 174 Ohio St. 338, 189 N.E. 2d 146, in which the Supreme Court of Ohio was concerned with a city ordinance which would require the delivery of pawned articles to the police and, upon the hearing of the criminal case against the thief, delivery to the person from whom it was alleged to have been stolen. In holding that such an ordinance violates the constitutional rights of pawnbrokers, the court said that a pawnbroker is entitled to test ownership and possessory rights in a civil action if he so elects.

In our opinion, a determination of the ownership of property covered by section 2 of LB 431 is beyond the power and function of the police and is a matter for the civil courts, and it is doubtful that section 2 could be upheld if attacked on constitutional grounds.

Very truly yours,
PAUL L. DOUGLAS
Attorney General

Clerk of the Legislature

Opinion No. 170
February 3, 1976

Dear Senator DeCamp:

You have asked several questions regarding Legislative Bill 574 as it appears in its final form. We would note that in an opinion by our office dated January 20, 1976 we said that the bill in its then form was probably valid. You now ask whether or not several hypotheticals would be prohibited under the language of this bill. Since we last reviewed this act it has been amended so that nothing in the act would prohibit the training and use of dogs in hunting, the training and use of animals in rodeos, or the training of animals for show. The Legislature, recognizing the breadth of the act saw fit to exclude from its coverage certain activities. These exclusions, however, carry with them certain negative implications. One such implication is that anything not specifically excluded from the act is expressly covered. With this in mind we address ourselves to your specific hypotheticals.

You have asked whether or not the training of police dogs, attack dogs or guard dogs would be illegal under this proposed bill. Without more detail we cannot categorically answer that hypothetical question, however, if the training of these dogs was for gain, and did involve one dog being encouraged to fight with another dog or animal the training of that dog would be in fact illegal under this proposed bill.

You have asked whether the mere raising of chickens used in cock fighting, although not used for cock fighting in this state, would be illegal. Section 2 of L.B. 574 prohibits any person from owning, possessing, keeping, or training any bird or animal for the purpose of having such bird or animal engaged in an exhibition of fighting. The crucial language in that section is "for the purpose of having such bird or animal engaged in exhibition of fighting". With that language in mind it appears quite clear that the mere raising and possession of chickens for the purpose of cock fighting even though to be conducted in another state is illegal and prohibited under this act.

You have asked whether it would be illegal under this proposed bill for a museum to possess any of the implements commonly known as gaffs, slashers, or any other sharp implement designed to be attached in place of the natural spur of a gamecock or other fighting bird. Section 3 of this proposed bill would seem to clearly prohibit that. The fact that it is a museum that possesses the item does not negate the illegal conduct or possession under this bill. If such were the case corporate museums could flaunt nearly any law that prohibit persons from certain defined conduct.

You have asked whether or not the practice of falconry would be prohibited under this proposed bill. If the practice of falconry involved one falcon preying upon another animal or bird it would appear to be quite clearly prohibited under this proposed bill. If the practice of falconry did not involve the use of one falcon to prey upon another bird or animal then it would perhaps not be prohibited under this act.

The language of L.B. 574 is quite broad and could conceivably prohibit any of the conduct or activities mentioned above. It should be pointed

out, however, that the hypotheticals above discussed are vague in general and assume certain facts which may or may not be in existence. The discussion of these hypotheticals was merely intended to demonstrate the breadth of this particular piece of legislation. It was not intended to be an all inclusive or exclusive summary of the conduct prohibited under this bill.

Very truly yours,
PAUL L. DOUGLAS
Attorney General

Clerk of the Legislature

Opinion No. 171
February 2, 1976

Dear Senator Kennedy:

This is in reply to your inquiry of January 27, 1976, concerning LB 694.

You inquire as to possible conflicts between LB 694 and some other amendments before your committee which would mandate that a hearing be held before a final decision to transfer or discharge a mentally retarded person with provision for an appeal of the decision to the district court of the county wherein the parents or legal guardians reside. You do not state where the committee amendments require the first hearing to be held but point out that the Bill provides that the hearing is before the Director of Public Institutions.

The pertinent provisions of the Agreement incorporated into the Consent Decree by the Federal District Court provide in part as follows:

"... The J.E.T. (Joint Evaluation Team) shall have as its primary and continuing function the evaluation of each member of the class to determine the appropriateness of the placement of each such person... The J.E.T. shall formulate a written, individualized evaluation and treatment plan and placement recommendation for each and every member of the plaintiff class. Any such evaluations currently in progress shall continue. . . ." (Agreement paragraph seven)

"Each person residing in any facility which serves members of the class and is subject to the provisions of this Decree shall have an annual evaluation to ascertain:

- a. Whether each is properly classified as mentally retarded;
- b. whether continued participation in State operated mental retardation services is in the best interest of each; and
- c. whether the appointment of a guardian is recommended due to a question of competency.

If the parent or legal guardian of any such person objects to any of the above findings, a due process hearing, as provided for hereinafter, shall be held." (Agreement paragraph nineteen.)

"... A hearing which meets the basic standards of due process, as defined herein, shall be held to insure that such objecting views of parents and guardians are heard and that the placement to be made is in the best interest of the member of the class, commensurate with his needs and his constitutional rights to receive adequate care and habilitation in that setting least restrictive of his personal liberty." (Amendment paragraph twenty-two)

The Agreement does not specifically state before whom the hearing is to be had and presumably the Director of Public Institutions may be determined to be a proper person; however, upon objection by any parties, or the parents, as to the Director being the hearing officer, it is conceivable that the Federal Court would designate some other person to be the hearing officer. Under these circumstances, there may be a conflict between the Consent Decree and the proposed legislation in LB 694.

The Consent Decree further provides that the Federal District Court shall retain jurisdiction of the case and that any parties may present any future grievances to the court for disposition. Conceivably, someone dissatisfied with the due process hearing for parents above referred to could ask the Federal District Judge to reconsider the placement or proposed treatment of the resident. If so, this would conflict with the provision for appeal to the State District Court.

It should be emphasized that the Federal District Court by previous orders entered by it and the Consent Decree is proceeding under its determination that the provisions required by the Agreement and the Consent Decree are required by or consistent with rights granted by the United States Constitution. The defendants have consistently by way of Motions to Dismiss, Motions for Summary Judgment and other objections resisted the determination by the Federal District Court that it had jurisdiction. However, so long as the matter is pending in the Federal District Court, the position of the defendants in this regard is dormant.

After you have had an opportunity to review these matters, please contact us if we can be of any further assistance.

Very truly yours,

MOTION—Rule Changes

Mr. DeCamp offered the following rule changes:

Rule 5, section 1. Drafting of Bills. The bill drafter shall prepare all bills and amendments in proper form when requested by members of the

Legislature, newly elected members of the Legislature, or heads of executive departments. No bills or major amendments shall be introduced or considered unless the same has been approved as to form and draftsmanship by the bill drafter. The bill drafter shall make available a continuing compilation of sections to which amendments are proposed so as to reduce unnecessary duplication of bills. This section index of bills drafted shall be available to all senators, newly elected senators, and other persons entitled to have bills drafted. After January 1 of each year no bill shall be drafted by the bill drafter unless requested or authorized by a member of the Legislature.

Rule 3, section 18 (c) iii. When an amendment to add the emergency clause, the severability clause, or provide an operative date is adopted on Select File which does not spell out the standard ~~emergency clause~~ or section and make the necessary change in the title, the chairman of Enrollment and Review shall also have the authority to add to the engrossed bill the standard ~~emergency clause~~ or section, assigning to it the appropriate section number, and make the necessary change in the title as a matter of course without including such action in his reports and recommendations to the Legislature or making any special record thereof.

Legislative Chamber, Lincoln, Nebraska
Thursday, February 5, 1976

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Whelan presiding.

PRAYER

The prayer was offered by the Chaplain.

O God, our Father, history and experience have given us so many evidences of Thy guidance to nations and to individuals that we should not doubt thy power or thy willingness to direct us.

Give us the faith to believe that when God wants us to do or not to do any particular thing, God finds a way of letting us know it.

May we not make it more difficult for Thee to guide us, but be willing to be led of Thee, that Thy will may be done in us and through us for the good of our state and us all. This we ask in Jesus' name. Amen.

EIGHTY-FOURTH LEGISLATURE
SECOND SESSION

TWENTY-THIRD DAY

Legislative Chamber, Lincoln, Nebraska
Friday, February 6, 1976

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Whelan presiding.

PRAYER

The prayer was offered by the Chaplain.

Lord Jesus, help us to see clearly that the pace at which we are living these days often shuts Thee out of our minds and hearts, and leaves us, even with good intentions, to wander in a misty land of half truth and compromise. Deliver us, O God, from the "God helps those who help themselves" philosophy, which is really a cloak for sheer unbelief in the ability and willingness to take care of ourselves and our failures. Give us a passion which is in principle excellent, rather than in politics expedient, for that which is morally right rather than socially correct. These things we ask in Jesus' name. Amen.

ROLL CALL

The roll was called and all members were present except Messrs. DeCamp, Marvel, Skarda, R. Lewis and Mahoney who were excused; and Mr. F. Lewis who was excused until he arrives.

CORRECTIONS FOR THE JOURNAL

PRAYER

The prayer was offered by the Chaplain.

Eternal God, we know Thou art high above us, yet deep within us. Wilt Thou give to this Senate, before facing this day, the strategic issues of finance confronting our state, a moment of composure and perspective by thinking on Thee, who dost face the problems of the universe.

May we not be apathetic, but rather filled with a desire to finish the work before us. Help us to understand what our state needs to do, and prepare us to evaluate the cost of this doing.

May we ever seek peace and harmony, but never a selfish peace, and with wider vision may we, steadfastly and faithfully, work to meet the imperative needs facing the people of our state. In our Lord's name. Amen.

ATTORNEY GENERAL'S OPINIONS

Opinion No. 172
February 5, 1976

Dear Senator Barnett:

You have written to this office requesting our advice as to the legality of an appropriation made by the 1975 Session of the Nebraska Legislature. This appropriation appears in section 20 of LB 604 and is designated Program No. 547. The appropriation is to Agency No. 70, Economic Opportunity Commission, and appropriates both federal funds and state funds. You are concerned whether or not this is a proper way to make this particular appropriation because you wish to make sure at this session that these funds are properly appropriated.

A part of your question is raised, as you point out in your letter, by the original establishment of the Technical Assistance Agency pursuant to the Economic Opportunity Act of 1964. This was a federal statute. In response to a request from the Governor, a copy of which letter is enclosed with your request, we stated that:

“We conclude that you, as Governor, can sponsor the proposed project and can receive the available funds and expend the same. State funds which are needed and must be expended in support of the proposed program can only come from the appropriation made for the operation and maintenance of the Governor’s Office. However, the agency you have designated is a nominal agency and can only function under your authority as Governor. If, as Governor, you choose to sponsor the proposed federal program, you may delegate the actual performance of the duties to others in your office and may give such group any title which you may desire. Such agency may not in its own name receive and expend funds, but the receipt and expenditure of the funds must be under your authority as Governor.”

Subsequent to the receipt of our letter, Governor Morrison authorized the creation of a new agency within the executive office of the Governor. He stated that the agency was to be known as the “Nebraska Technical Assistance Agency for the Economic Opportunity Act.” It is clear that this agency was under the Governor and directly responsible to the Governor. Subsequently, in 1965, the appropriation was made to the Governor. See LB 922, section 5, Laws 1965. The purpose of the appropriation was for the Economic Opportunity Act. Apparently the Legislature in 1967 changed the format and appropriated the funds to the Economic Opportunity Commission, Agency No. 70, for the purpose of Program No. 547, the Economic Opportunity Act. Both federal and state funds were appropriated. See LB 922, section 66, 1967 Legislature. This format is presently being followed.

There are certain factual matters which we will assume. We are not aware of the creation of any state agency known as the Economic Opportunity Commission, either statutorily or by executive order. We believe that is true that there exists within the office of the Governor the

Technical Assistance Agency which apparently is expending the funds involved in the government grant and the appropriation to the Economic Opportunity Commission. We think their authority to do so is questionable and might properly be challenged. However, this method of appropriation and operation has apparently been going on since 1967 when this practice of method of appropriating occurred in the first instance. This should be remedied by legislative action.

The situation which exists is, of course, distinctly different when considering federal funds as opposed to state appropriated funds. With reference to the federal funds, such must be expended in accordance with the terms of the federal grant. In LB 604, section 24 provides for an adequate appropriation of federal funds with reference to the Economic Opportunity Act. The problem involved is with reference to state funds. There is no legislatively created agency which is designated by statute and given powers by statute. The power to expend federal funds is in the Governor. See Section 84-109, R.R.S. 1943. The Technical Assistance Agency is a designation given by the Governor to that entity within his department which is responsible for the expenditure of funds under the Economic Opportunity Act. As such, any state funds appropriated as matching money for the federal funds, in the present context of the statutes, should be appropriated to the office of the Governor. These funds are not.

Yours very truly,

PAUL L. DOUGLAS
Attorney General

Opinion No. 173
February 6, 1976

Dear Senator Schmit:

You have asked us for an opinion as to the constitutional validity of a proposed amendment to LB 202. LB 202 would amend section 68-1022, R.R.S. 1943. This section now provides that twenty per cent of the cost of medical assistance shall be paid by the county in which the recipient has a legal settlement, and if a recipient has no county legal settlement, such medical assistance shall be paid from state funds and funds allocated by the government of the United States. The proposed amendment of LB 202 would amend section 68-1022 to read as follows:

“Medical assistance shall be paid from state funds and such funds as may be allocated by the government of the United States. Any incremental increase in state funds that may be required for the fiscal years commencing July 1, 1976, 1977, 1978, and 1979 shall be treated as an express obligation by the State Board of Equalization and Assessment. The total tax levy of each county shall be reduced by the amount of additional state funds provided pursuant to this section. Any county which fails to reduce its levy shall forfeit any state assistance provided pursuant to this section.”

It appears to us that this section, under the proposed amendment, may be unconstitutionally vague and uncertain. It appears that the thought behind the amendment is that, since the county would not be required to pay the twenty per cent cost of the medical assistance, the savings should be passed on to the taxpayers by a reduced mill levy. However, no standards are established by which it could be determined whether this had been done. A county's mill levy may vary from year to year, depending upon the estimate of the county board as to expenditures. The fact that, after the effective date of the proposed amendment, the county's mill levy did not decrease by an amount represented by the savings would not necessarily be proof that the levy had not been reduced by the amount of this savings, since other county expenditures might have required increases. It would be necessary for the statute to set standards by which it could be determined whether or not the savings had been passed on to the taxpayers.

In addition to that, we believe that the proposed penalty is obscure. The last sentence of the proposed amendment states, “Any county which fails to reduce its levy shall forfeit any state assistance provided pursuant to this section.” We do not understand what is intended here, since the provision about the payment of twenty per cent of the cost of the medical assistance by the county has been repealed, and would not be reinstated by the provision in question. In other words, section 68-1022, as amended, does not provide for any “state assistance” to the county, and there is nothing to be forfeited.

We therefore believe that if the proposed amendment is adopted, the court might hold it to be unconstitutionally vague and uncertain.

Very truly yours,
PAUL L. DOUGLAS

3 "Section 1. Every person found guilty
4 of murder in the first degree shall suffer death if
5 any one or more of the special circumstances enumerated
6 in section 3 of this act have been charged and found
7 to be true in the manner provided in section 2 of
8 this act. Every person otherwise found guilty of
9 murder in the first degree shall suffer confinement in
10 the Nebraska Penal and Correctional Complex for
11 life. Every person found guilty of murder in the
12 second degree shall be punished by imprisonment in
13 the Nebraska Penal and Correctional Complex from five
14 years to life.

15 Sec. 2. (1) In any case in which the
16 death penalty is to be imposed as the penalty for an
17 offense only upon the finding of the truth of the
18 special circumstances enumerated in section 3 of this
19 act, the guilt or innocence of the person charged
20 shall first be determined without a finding as to
21 penalty. In any such case the person charged shall
22 be represented by counsel. If such a person has been
23 found guilty of such an offense, and has been found
24 sane on any plea of not guilty by reason of insanity,
25 and any one or more of the special circumstances
26 enumerated in section 3 of this act have been charged,

3 determination of the truth of any or all of the
4 special circumstances charged shall be made by the

12 commission of a crime, such crime shall be charged
13 and proved pursuant to the general law applying to
14 the trial and conviction of a crime.

15 (2) If the defendant was convicted by

17 shall be a jury unless a jury is waived by the de-
18 fendant with the consent of the defendant's counsel,
19 in which case the trier of fact shall be the court.

20 If the defendant was convicted by a plea of guilty
21 the trier of fact shall be a jury unless a jury is
22 waived by the defendant with the consent of his
23 counsel. If the defendant was convicted by a jury,
24 the trier of fact shall be the same jury unless, for
25 good cause shown, the court discharges that jury,
26 in which case a new jury shall be drawn to determine
27 the issue of whether or not any of the special cir-

1 cumstances charged are true or not true.

2 (3) If the trier of fact finds, as to any
3 person convicted of any offense under section 1 of
4 this act requiring further proceedings that any one
5 or more of the special circumstances enumerated in
6 section 3 of this act as charged is true, the defendant
7 shall suffer the penalty of death, and neither the
8 finding that any of the remaining special circum-
9 stances charged is not true, nor if the trier of fact
10 is a jury, the inability of the jury to agree on the
11 issue of the truth or untruth of any of the remaining
12 special circumstances charged, shall prohibit the
13 imposition of such penalty.

14 (4) In any case in which the defendant
15 has been found guilty by a jury, and the same or
16 another jury is unable to reach a unanimous verdict
17 that one or more of the special circumstances charged
18 are true, and does not reach a unanimous verdict
19 that all of such special circumstances charged are
20 not true, the court shall dismiss the jury and shall
21 order a new jury impaneled to try the issues, but
22 the issue of guilt shall not be retried by such jury,
23 nor shall such jury retry the issue of the truth of
24 any of the special circumstances which were found
25 by a unanimous verdict of the previous jury to be
26 untrue. If such new jury is unable to reach a
27 unanimous verdict that one or more of the special
1 circumstances it is trying are true, the court
2 shall dismiss the jury and impose the punishment of
3 confinement in the Nebraska Penal and Correctional
4 Complex for life.

5 Sec. 3. The penalty for a person found
6 guilty of first degree murder shall be death in any
7 case in which the trier of fact pursuant to the
8 further proceedings provided for in section 2 of this
9 act makes a special finding that:

10 (1) The murder was intentional and was
11 carried out pursuant to an agreement with the de-

12 fendant. An agreement, as used in this subdivision,
13 shall mean an agreement by the person who committed
14 the murder to accept valuable consideration for the
15 act of murder from any person other than the victim; or

16 (2) The defendant personally committed
17 the act which caused the death of the victim and any
18 of the following additional circumstances exist:

19 (a) The victim is a peace officer,
20 who, while engaged in the performance of his duty,
21 was intentionally killed, and the defendant knew or
22 reasonably should have known that such victim was a
23 peace officer engaged in the performance of his
24 duties;

25 (b) The murder was willful, deliberate
26 and premeditated and the victim was a witness to a
27 crime who was intentionally killed for the purpose of
1 preventing his testimony in any criminal proceeding;

2 (c) The murder was willful, deliberate
3 and premeditated and was committed during the commis-
4 sion or attempted commission of any of the following
5 crimes:

6 (i) Robbery;

7 (ii) Kidnapping. Brief movements of a
8 victim which are merely incidental to the commission
9 of another offense and which do not substantially
10 increase the victim's risk of harm over that necessarily
11 inherent in the other offense do not constitute
12 kidnapping within the meaning of this paragraph;

13 (iii) Rape by force or violence, or by
14 threat of great and immediate bodily harm;

15 (iv) The performance of lewd or lascivious
16 acts upon the person of a child under the age of
17 fourteen years; or

18 (v) Burglary, of an inhabited dwelling
19 housing entered by the defendant with an intent to
20 commit grand or petit larceny or rape; or

21 (d) The defendant has in this or in any
22 prior proceeding been convicted of more than one
23 offense of murder of the first or second degree.
24 For the purpose of this subdivision an offense committed
25 in another jurisdiction which if committed in Nebraska
26 would be punishable as first or second degree murder
27 shall be deemed to be murder of the first or second degree.

1 Sec. 4. (1) Notwithstanding any other
2 provision of law, the death penalty shall not be
3 imposed upon any person who was under the age of

4 eighteen years at the time of the commission of the
5 crime. The burden of proof as to the age of such
6 person shall be upon the defendant.

7 (2) Except when the trier of facts finds
8 that a murder was committed pursuant to an agreement
9 as defined in subdivision (1) of section 3 of this
10 act, the death penalty shall not be imposed upon any
11 person who is a principal in the commission of a
12 capital offense unless he was personally present
13 during the commission of the act or acts causing
14 death, and directly committed or physically aided in
15 the commission of such act or acts.

16 Sec. 5. Any person who seizes, confines,
17 inveigles, entices, decoys, abducts, conceals, kid-
18 naps or carries away any individual by any means
19 whatsoever with intent to hold or detain, or who
20 holds or detains, such individual for ransom, reward,
21 or to commit extortion or to exact from relatives or
22 friends of such person any money or valuable thing,
23 or any person who kidnaps or carries away any individual
24 to commit robbery, or any person who aids or abets any
25 such act, is guilty of a felony and upon conviction
26 thereof shall suffer death in cases in which any person
27 subjected to any such act suffers death, or shall be
1 punished by imprisonment in the Nebraska Penal
and Correctional Complex for
2 life without possibility of parole in cases in which any
3 person subjected to any such act suffers bodily
4 harm, or shall be punished by imprisonment in the
5 Nebraska Penal and Correctional Complex for life
6 with possibility of parole in cases where no such
7 person suffers death or bodily harm.

8 Sec. 6. Every person who unlawfully
9 throws out a switch, removes a rail, or places any
10 obstruction on any railroad with the intention of
11 derailing any passenger, freight or other train,
12 car, or engine and thus derails the same, or who
13 unlawfully places any dynamite or other explosive
14 material or any other obstruction upon or near
15 the track of any railroad with the intention of
16 blowing up or derailing any such train, car, or engine
17 and thus blows up or derails the same, or who un-
18 lawfully sets fire to any railroad bridge or trestle
19 over which any such train, car, or engine shall
20 pass with the intention of wrecking such train, car,
21 or engine, and thus wrecks the same, is guilty of

22 a felony and punishable with death in cases in which
 23 any person subjected to any such act suffers death
 24 as a proximate result thereof, or imprisonment in the
 25 Nebraska Penal and Correctional Complex for life
 26 without the possibility of parole in cases where any
 27 person suffers bodily harm as a proximate result
 1 thereof, or imprisonment in the Nebraska Penal and
 2 Correctional Complex for life, with the possibility
 3 of parole, in cases where no person suffers death or
 4 bodily harm as a proximate result thereof.

5 Sec. 7. Unless otherwise provided by law
 6 every plea shall be put in by the defendant himself
 7 in open court. No plea of guilty of a felony for
 8 which the maximum punishment is death, or life im-
 9 prisonment without the possibility of parole, shall be
 10 received from a defendant who does not appear with
 11 counsel, nor shall any such plea be received without
 12 the consent of the defendant's counsel. No plea of
 13 guilty to a capital offense which does not require
 14 the further proceedings provided for in section 2
 15 of this act shall be received from a defendant. No
 16 plea of guilty of a felony for which the maximum
 17 punishment is not death or life imprisonment without
 18 the possibility of parole shall be accepted from any
 19 defendant who does not appear with counsel unless
 20 the court shall first fully inform him of his right
 21 to counsel and unless the court shall find that the
 22 defendant understands his right to counsel and
 23 freely waives it and then, only if the defendant has
 24 expressly stated in open court, to the court, that
 25 he does not wish to be represented by counsel. On
 26 application of the defendant at any time before
 27 judgment the court may, and in case of a defendant who
 1 appeared without counsel at the time of the plea the
 2 court must, for a good cause shown, permit the plea
 3 of guilty to be withdrawn and a plea of not guilty
 4 substituted. Upon indictment or information against
 5 a corporation a plea of guilty may be put in by
 6 counsel. This section shall be liberally construed
 7 to effect these objects and to promote justice.

8 Sec. 8. (1) Every person undergoing
 9 a life sentence in the Nebraska Penal and Correctional
 10 Complex who, with malice aforethought, commits an
 11 assault upon the person of another, other than
 12 another inmate, with a deadly weapon or instrument,
 13 or by any means of force likely to produce great

14 bodily injury is punishable with death. In cases
15 in which the person subjected to such assault does
16 not die within a year and a day after such assault
17 as a proximate result thereof, or the person so assaulted
18 is another inmate, the punishment shall be imprisonment
19 in the Nebraska Penal and Correctional Complex for
20 life without the possibility of parole for nine years.

21 (2) For the purpose of computing the days
22 elapsed between the commission of the assault and
23 the death of the person assaulted, the whole of the
24 day on which the assault was committed shall be
25 counted as the first day.

26 (3) Nothing in the section shall be
27 construed to prohibit the application of this section
1 when the assault was committed outside the walls of
2 any prison if the person committing the assault was
3 undergoing a life sentence in the Nebraska Penal and
4 Correctional Complex at the time of the commission of
5 the assault.

6 Sec. 9. That sections 29-2519, 29-2521,
7 29-2522, 29-2524 to 29-2528, and 29-2532 to 29-2546,
8 Revised Statutes Supplement, 1974, are repealed."

9 2. In the title strike lines 2 through 9
10 and insert:

11 "FOR AN ACT relating to criminal law and procedure;
12 to provide for a mandatory death penalty
13 under certain circumstances as specified;
14 to provide a mandatory sentence of life
15 imprisonment, with or without possibility
16 of parole, as prescribe; to prescribe

18 under which the death penalty shall be

SECOND SESSION**

TWENTY-FIFTH DAY

Legislative Chamber, Lincoln, Nebraska
Tuesday, February 10, 1976

Pursuant to adjournment, the Legislature met at 9:01 a.m., President Whelan presiding.

PRAYER

The prayer was offered by the Chaplain.

O God, we are thrilled at the Olympic accomplishments, and grateful for such achievements. Yet, while we pride ourselves that we learn something every day, we seem to make little progress in spiritual things. No where is our ignorance more tragic. So long have we been riding on the balloon tires of conceit, for our own good we may have to be deflated, that on the rims of humility we may discover the spiritual laws that govern our growth in grace. If our pride has to be punctured, Lord, make it so before we gain too much speed. For the salvation of our souls and the good of our land. In Jesus' name. Amen.

ROLL CALL

The roll was called and all members were present except Mr. Nichol who was excused and Messrs. Cavanaugh and Goodrich who were absent until 10:55 a.m.

Amendments to LB 248

1. Strike original section 8 and insert the following:

“Sec. 8. This act shall not apply to any manufactured housing unit located within the jurisdiction of any city, village, or county which provides for the regulation of such housing units by resolution, ordinance, or regulation which at a minimum is not less stringent than the then current standards and specifications and all subsequent revisions and amendments thereto, approved and adopted by the department, as such standards and specifications apply to the installation of plumbing, heating, or electrical systems in a manufactured housing unit. No such resolution, ordinance, or regulation shall become effective until a certificate of exemption has been issued by the department. Such certificate of exemption shall be available for inspection in the office of the city or county clerk as the case may be.

Sec. 9. If the department shall determine at any time after the issuance of a certificate of exemption that such a resolution, ordinance, or regulation is being enforced in a manner contrary to or inconsistent with the standards mentioned in section 8 of this act, or is otherwise being improperly enforced, in any city, village, or county holding a certificate of exemption, the department may revoke the certificate of exemption and this act shall apply in such city, village, or county until such standards are met and enforced and a new certificate is issued.

Sec. 10. Any city, village, or county desiring a certificate of exemption shall within thirty days after the effective date of this act make application for such certificate by filing a petition for a certificate of exemption with the department. The department shall promptly investigate such petition. If the recommendation of the department is against the granting of a certificate of exemption and the applicant requests that a formal hearing be held, a formal hearing shall be held on the questions of whether the resolution, ordinance, or regulation is at a minimum as stringent as the standards mentioned in section 8 of this act; whether the resolution, ordinance, or regulation is being enforced in a manner contrary to or inconsistent with such standards or is otherwise being improperly enforced; and whether adequate provisions have been made for enforcement. The burden of proof thereof shall be upon the applicant. A like formal hearing shall be held upon any proposed revocation of a certificate of exemption upon the request of the holder thereof. The procedure governing hearings authorized by this section shall be in accordance with the provisions of Chapter 84, article 9, Reissue Revised Statutes of Nebraska, 1943, and amendments thereto. Dear Mr. Brown

February 10, 1976

Mr. President, Mr. Speaker,
and Members of the Legislature
State Capitol Building
Lincoln, Nebraska

Dear Mr. President and Senators:

I am returning herewith LB 177 without my signature and with my objections.

This ill-advised legislation passed by your body would dramatically penalize Nebraska citizens by increasing interest rates collected by banks and similar financial institutions engaged in monthly installment loans for all purposes.

The measure would certainly cost Nebraska borrowers millions in additional interest.

At a time when wholesale interest rates (the prime rate) charged the largest and most affluent borrowers are being reduced, it is inconceivable that the Legislature should sanction much higher rates for the average borrower.

I say, "No, no, a thousand times no!"

This measure is so unfair on its face that I am amazed it was even introduced let alone passed by a margin of 31 to 17 in the first instance and then by 29 to 17.

It would not surprise me if the prime legislative supporters and their lobbyist friends would attempt an override of this veto since they nearly have the necessary votes if all can be held in line.

Certainly there must be enough Senators who would not repeat their previous actions in this regard and sustain the Governor's rejection.

Here is still another case where the Legislature voided its vaunted public hearing policy by significantly changing the impact of the bill by amendment after public hearing.

Yours very truly,

Dear Mr. President and Senators:

I am returning herewith LB 477 without my signature and with my objections.

This is the small loan interest rate increase that obviously was passed in tandem with LB 177.

It is also unfair legislation for Nebraskans and is vetoed for the same reasons as stated in my message to you of this same date regarding LB 177.

Yours very truly,

ATTORNEY GENERAL'S OPINION

Opinion No. 175
February 9, 1976

Dear Senator Dworak:

You have asked if the amendment to LB 878 of the Eighty-fourth Legislature, Second Session, is constitutional. That amendment declares:

“Sec. 3. No more than three members of the school board of Class II, III, IV and V school district shall be resident electors in the incorporated municipal area of the independent district if at least forty per cent of the population of the district lives outside the incorporated area of the district, and no more than four members of the school board shall be resident electors of the incorporated municipal area of the district if at least twenty per cent of the population of the district lives outside the incorporated area of the district. In the event the number of members to serve on such school board is increased to more than five, the additional members, as nearly as can be accomplished shall be in the proportions as hereinbefore set forth.”

In connection with the above quoted amendment, it should be observed that the board of education of Class II, III, and IV school districts usually consists of six members and that the board of education of Class V school districts usually consist of twelve members. It should also be observed that under the amendment quoted above no more than three members of the board of education may be resident electors in the incorporated municipal area of the independent district if at least forty per cent of the population of the district lives outside the incorporated municipal area of the district. Thus in theory forty percent of the electors could elect at least half of the members of the board of education. Consequently under the constitutional principle of one man one vote we are of the opinion that the constitutionality of the above quoted amendment would be difficult, if not impossible, to defend.

Very truly yours,

PAUL L. DOUGLAS

ATTORNEY GENERAL'S OPINION

Opinion No. 176
February 6, 1976

Dear Senator DeCamp:

You have inquired of this office for an opinion of the constitutionality of the amendments to LB 204.

LB 204 is a carry over bill from the 1975 session of the Nebraska Legislature. At the time of its original introduction the bill provided for a minimum mark up, by a retailer, of fifteen percent over his cost of alcoholic liquor items purchased from a wholesaler. One amendment to the bill strikes fifteen percent and substitutes zero percent as the price below which a retailer may not sell his alcoholic liquor items. The question presented is whether this is in effect a price fixing law and, if so, is the same constitutional.

Our Supreme Court has on several occasions ruled on price fixing laws. In Terry Carpenter Inc. vs. Nebraska Liquor Control Commission, 175 Neb. 26, 120 N.W. 2d, 374, our court stated:

"The Legislature of Nebraska in 1937 enacted what was designated as the Fair Trade Act. In McGraw Electric Co. v. Lewis & Smith Drug Co., Inc., 159 Neb. 703, 68 N.W. 2d 608, after reviewing certain sections of the act, this court said: "On its face the act is a price-fixing act, not, it is true, one wherein the Legislature itself has assumed to fix prices, but one wherein it delegates to the extent and under conditions named that power without restriction or reservation to private parties.

"This court has said that in the absence of appearance of public interest the Legislature may not itself impose prices. Boomer v. Olsen, 143 Neb. 579, 10 N.W. 2d 507. May it constitutionally confer upon others a right which it does not itself possess?"

The Supreme Court also stated in the same case:

"In Nelson v. Tilley, 137 Neb. 327, 289 N.W. 388, 126 A.L.R. 729, this court held: "The legislature, under the guise of regulation may not indulge in arbitrary price fixing, the destruction of lawful competition, or the creation of trade restraints tending to establish a monopoly."****

Provisions setting a selling price at zero percent is no different than setting a selling price at fifteen percent or at any other percent of the cost of the product. The ultimate end is fixing a price below which a product may not be sold and if it be at cost or at a profit is immaterial.

The same objections that the court found present in the Terry Carpenter case to strike down Rule 46 of the Liquor Control Commission, which was a price fixing rule, are present in this amendment to LB 204. The legislature is not determining a reasonable price at which a product should be sold. The power to fix the price is actually within the power of the wholesaler who initially posts a price with the Liquor Commission and which wholesaler may, under various provisions of the Liquor Commission laws, raise or lower the price of its product. It is the wholesalers determination that dictates the price that the retailer must ultimately sell to the consumer. The power to fix a price is vested in an interested person who is not an official. There is no review of the action of the interested person, nor is he required to consult with any one and in no sense is he required to take into consideration the price of the article or the reasonableness thereof.

Even though the Liquor Control Act in section 53-1,118, states that the Act is to be liberally construed to protect the health, safety and welfare of the people of the State of Nebraska, it is difficult to conceive, under any guise, that price fixing would ensure, partially or fully, the health, safety and welfare of the citizens of our State.

Therefore, for the reasons set forth in the Carpenter case and the cases cited therein, we believe the provisions on price fixing to be unconstitutional.

An additional amendment to LB 204, requires a license issued to a husband and wife, at their request, to be held as joint tenants (sic) with right of survivorship. Although this then designates this type of license as a property right, completely opposite of the theory of no property rights in licenses, as provided by section 53-149 found in the Liquor Control Act, we believe that this classification is within the authority of the Legislature.

A husband and wife are distinctly different than an individually named license holder or two or more non-related persons holding a license or of a corporation and classification of this nature would be reasonable.

In Safeway Stores, Inc. vs. Nebraska Liquor Control Commission, 179 Neb. 817, 140 N.W. 2d 668, our court on ruling on classifications rules exempting hotels containing twenty-five or more sleeping rooms stated:

***"The hotel has such differences in the operation of its business from that of the chain store that the basis exists for its exclusion from the limitation of the number of licenses in the hands of a single entity is also a reasonable one which the Legislature in its wisdom may grant or refuse. The applicable rule is stated in State ex rel. Meyer vs. Knutson, supra."

An additional amendment to section 53-165 provides that reports filed by the wholesaler, of their sales of alcoholic liquor, to the Commission, are designated as public records. The amendment though, limits the distribution of the information by the Commission when the identity of the persons or businesses are revealed without first securing expressed permission of such person or business of the release of the information. This amendment is ambiguous and of doubtful meaning and therefore may be difficult to defend on the basis of constitutionality. The legislature in designating the reports as public records and permitting the withholding of the information leaves the amendment without meaning.

Respectfully yours,

PAUL L. DOUGLAS
Attorney General

SECOND SESSION

TWENTY-EIGHTH DAY

Legislative Chamber, Lincoln, Nebraska
Friday, February 13, 1976

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Whelan presiding.

PRAYER

The prayer was offered by the Chaplain.

I would like to offer this morning a prayer which George Washington delivered for his beloved America:

Almighty God, we make our earnest prayer that thou wilt keep the United States in Thy Holy protection; that thou wilt incline the hearts of the citizens to cultivate a spirit of subordination and obedience to government; and entertain a brotherly affection and love for one another and for their fellow citizens of the United States at large.

And finally that thou wilt most graciously be pleased to dispose us all to do justice, to love mercy, and to demean ourselves with that charity, humility, and pacific temper of mind which were the characteristics of the divine author of our blessed religion, and without a humble imitation of whose example in these things we can never hope to be a happy nation.

Grant our supplication, we beseech thee, through Jesus Christ our Lord. Amen.

ROLL CALL

The roll was called and all members were present except Mr. Cope who was excused and Mr. F. Lewis who was excused until he arrives.

Mr. Vincent D. Brown
Clerk of the State Legislature
State Capitol
Lincoln, Nebraska 68509

Dear Mr. Brown:

The Federal Energy Administration has sent to us Legislative Resolution 104 adopted by the Nebraska Legislature on January 12, 1976. This resolution supports the location of the Solar Energy Research Institute (SERI) in the State of Nebraska.

As you may know, on October 1, 1975 the Energy Research and Development Administration (ERDA) announced formation of the Solar Energy Research Institute Project Office. This Office has been preparing recommendations to Dr. Robert C. Seamans, Jr., Administrator of ERDA, on the role and mission of SERI, its management organization and the criteria for evaluating proposed sites. Within a few weeks ERDA expects to announce site evaluation criteria and to solicit proposals.

It is important to note that ERDA, itself, will not seek out potential sites for SERI. Rather, we will solicit proposals from interested groups for our consideration. We anticipate a significant nationwide response and will be pleased to review all proposals that we receive from Nebraska.

Thank you for your interest in the Institute.

Sincerely,

(Signed) Robert P. McGee, Manager
Solar Institute Project Office

To Section 4, add new material to the end as follows:

"The board of trustees shall have power, in connection with the issuance of any warrants or bonds of the district, to agree to make a specified minimum mill levy on taxable property in the district to pay, or to provide a sinking fund to pay, principal and interest on warrants and bonds of the district for such number of years as the board may establish at the time of making such agreement, and shall also have the power to agree to enforce, by foreclosure or otherwise as permitted by applicable laws, the collection of special assessments levied by the district. Such agreements may contain provisions granting to creditors and others the right to enforce and carry out the agreements on behalf of the district and its creditors."

"Each owner of land against which assessments are proposed or are levied, any such municipality and any such underwriter or

fiscal agent shall have the right to be heard at any hearing on determination of special benefits and special assessments and may appeal to the district court of the county from any final determination by the board of trustees of the amount of special assessments to be levied. Any such party wishing to appeal shall, within ten days after the final determination being appealed from, file with the clerk of the district a notice of appeal and pay to the clerk the sum of twenty-five dollars to cover the cost of preparing the transcript for appeal and within thirty days after such final determination, file a petition on appeal with the district court, which filings and payment shall vest in the district court jurisdiction to hear the appeal. Within thirty days after receipt of the notice of appeal, the clerk of the district shall prepare and file with the district court a certified transcript of the proceedings of the board of trustees of the district necessary for a complete determination of the appeal by the district court. The court shall hear such appeal in a summary manner as in a case in equity and without a jury and shall determine whether the assessments or determination appealed from were levied or made as required by applicable constitutional and statutory provisions. If the court shall find the determination or assessments appealed from to be inequitably apportioned, in excess of special benefits, insufficient or illegal for any reason, other than lack of power to levy the assessments, the court shall remand the matter to the board of trustees for redetermination of special benefits and relieving of special assessments in accordance with the court's findings. Such redetermination and relieving shall be made following notice given to the same persons and in the same manner as was required for the initial determination; provided, however, any person entitled to notice may waive further notice with respect to the redetermination and relevy of special assessments. Any owner or person given the right of appeal may appeal to the district court from any such redetermination and relieving in the same manner as provided hereinabove for the initial appeal."

In Section 7, page 24, starting on line 2 - put a period after "years" and delete the balance of the sentence, including the new words, through semiannually on line 6. Insert following "years" on line 2 the following new sentences:

"Each issue of general obligation bonds shall mature, or be subject to mandatory redemption, so that the first principal repayment is made not more than five years after date of issue and so that at least twenty percent of the district's bonds then outstanding shall be repaid within ten years after the date of such issue. Such bonds shall bear interest payable annually or semi-annually."

In Section 7, page 24, line 18, add after the new word "issuance" the following:

"provided, however, that such warrants need not be retired within such five year period and shall not be in default if the district court of the county shall determine, upon application to it by the district, that the district does not have the funds to retire such warrants and either (a) the district is unable to sell its bonds in amount sufficient to retire such warrants, or (b) an unreasonably high tax mill levy, as compared to the mill levy on other similar property in the county, would be required in order to cover the debt service requirements on bonds issued to retire such warrants. Notice of the filing of such application and the time and place of the hearing thereon shall be published in a newspaper of general circulation in the county the same day each week three consecutive weeks. Within five days after the first publication of such notice, the district shall cause to be mailed, by United States certified mail, a copy of such notice to each holder of warrants covered by the application whose name and postoffice address are known to the district. Prior to the hearing, proof of such mailing shall be made by affidavit of a trustee of the district or its attorney that such mailing was made and further that the district, its trustees and its attorney, after diligent investigation and inquiry, were unable to ascertain and do not know the name and postoffice address of any holder of such warrants other than those to whom notice has been mailed in writing or who have waived notice in writing or entered an appearance in the proceeding. Upon making such determination the district court may make such orders concerning retirement of the warrants as it shall determine proper under the circumstances of the district."

In Section 7, page 24, line 27, after the period after "issuance", insert three sentences as follows:

"The district may agree to pay annual or semiannual interest on all warrants issued by the district and the district may issue warrants to pay such interest or may issue its warrants in return for cash to pay such interest. Warrants issued to pay interest on capital outlay warrants shall become due and payable in the same time as capital outlay warrants and warrants issued to pay interest on operation and maintenance warrants shall become due and payable not later than three years from date of issuance. The district may, if determined appropriate by the board of trustees, pay fees to fiscal agents in connection with the placement of warrants issued by the district."

In Section 8, page 25, line 22, delete "one year" and insert "six months".

Revise Section 9 on page 26 to read as follows:

“Section 9. Within thirty days after the effective date of this act as to existing districts, and within thirty days after the creation of districts thereafter created, the clerk of each district shall file with the register of deeds of each county or counties in which the district is located a statement containing the following information: (1) the district number; (2) the outer boundaries of the district; (3) the purpose or purposes for which the district was formed; (4) a statement that the district has the power to levy an unlimited property tax to pay its debt and its expenses of operation and maintenance; (5) a statement that the district is required to levy special assessments on property in the district to the full extent of special benefits arising by reason of improvements installed by the district; (6) that the annual budget of the district is filed with the county clerk which budget shows the anticipated revenue and expenses, mill levy and indebtedness of the district; (7) that the actual current mill levy amount of the district may be obtained from the county clerk, and (8) that a copy of the annual financial audit of the district is on file with the clerk of the district and the Auditor of Public Accounts. Such statement shall be supplemented and refiled to include any land added to the district after the original filing.”

In Section 10, page 26 - delete subsection (1) and on page 27, line 7, insert after “located” the following:

“and which has requested copies of all minutes”.

Add a new section as follows:

“Section _____. That section 31-751, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

31-751. Sanitary and improvement district; assessments; equalization; levy; collection. After the equalization of such special assessments as required by sections 31-727 to 31-762, the same shall be levied by the board of trustees upon all lots or parcels of ground within the district which are benefited by reason of said improvement, such levy to be made within six months after acceptance of the improvement by the board of trustees; provided, that failure to levy assessments within such six-month period shall not invalidate assessments made after the six-month period. The same may be relieved, if for any reason the levy thereof is void or not enforceable, ~~in an amount not exceeding the previous levy.~~ Such levy shall be enforced as other special assessments and any payments thereof under previous

levies shall be credited to the person or property making the same. Not less than eleven and not more than twenty days after the levying of any special assessment, the clerk of the district shall certify such levy to the county treasurer and county clerk of the county. If a notice of appeal from such levy has been filed with the clerk, the clerk shall note on the certificate of levy that an appeal has been commenced and that the amounts of the assessments are subject to redetermination pursuant to the appeal. All receipts given by the county treasurer for special assessments as to which an appeal is pending shall show thereon that the special assessment amount is subject to redetermination by the appeal. Upon termination of any appeal, the clerk of the district shall so certify to the county clerk and county treasurer. All assessments made for such purposes shall be collected in the same manner as general taxes and shall be subject to the same penalties or may be collected pursuant to section 77-1917.01."

Add a new section as follows:

"Section _____. That section 31-753, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

31-753. Sanitary and improvement district; special assessments; installments; interest; delinquent. All special assessments provided for in section 31-739 shall become due in fifty days after the date of the levy and may be paid within that time without interest, but if not so paid they shall bear interest thereafter at the rate of seven percent per annum until delinquent. Such assessments shall become delinquent in equal annual installments over such periods of years, not exceeding ten, as the board of trustees may determine at the time of making the levy. Delinquent installments shall bear interest at the rate of nine percent per annum until paid and shall be collected in the usual manner for the collection of taxes. In the event that three or more installments shall be delinquent, the board of trustees may declare all of the remaining installments to be at once delinquent and such installments declared delinquent shall bear interest at nine percent per annum until paid and may be collected the same as other delinquent installments may be collected."

Add a new section to amend Section 77-1917.01 to read as follows:

"Section _____. That section 77-1917.01, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

77.1917.01. Cities and villages; special assessments; delinquent; foreclosure proceedings. All cities, ~~and~~ villages and sanitary and

improvement districts in Nebraska shall have a lien upon real estate within their boundaries for all special assessments due thereon to the municipal corporation or district, which lien shall be inferior only to general taxes levied by the state and its political subdivisions. When such special assessments have become delinquent, without the real property against which they are assessed being first offered at tax sale by the tax sale certificate method or otherwise, the municipal corporation or district involved may itself as party plaintiff proceed in the district court of the county in which the real estate is situated to foreclose, in its own name, the lien for such delinquent special assessments in the same manner and with like effect as in the foreclosure of a real estate mortgage, except as otherwise specifically provided by sections 77-1903 to 77-1917, which shall govern when applicable. Final confirmation of sale in such foreclosure proceeding and issuance of deed to the plaintiff, or its assignee, cannot be had until two years have expired from the date of the sale held by the sheriff, and, after expiration of such two-year period, personal notice has been served on occupants of the real property. The remedy granted in this section to cities, ~~and~~ villages and sanitary and improvement districts for the collection of delinquent special assessments shall be cumulative and in addition to other existing methods."

Include section 31-751 in repealer section.

NOTE - the above amendments to Section 31-755 are made with reference to the wording of Section 31-755 as it appears in LB 313. However, Section 31-755 was amended in 1975 by LB 112 and the LB 112 amendments do not appear in LB 313. None of the LB 112, 1975 amendments are intended to be affected by LB 313, as above amended, and consequently the new amendments to Section 31-755 must be inserted around the 1975 LB 112 amendments.

Mr. F. Lewis offered the following amendment to the Cavanaugh amendment:

In Section 4, page 12, line 21, insert a new sentence after the period at the end of line 21 as follows:

"Purchases of public parks, playgrounds and recreational facilities so approved may be completed and shall be valid notwithstanding any interest of any trustee of the district in the transaction."

The amendment lost with 9 ayes, 15 nays and 25 not voting.

Mr. Cavanaugh asked unanimous consent to withdraw his amendments. No objections. So ordered.

Bracketed until Tuesday, February 17, 1976 at the request of Mr. Cavanaugh.

LEGISLATIVE BILL 710. Title read. Considered.

Standing Committee amendment found in the Journal on page 526 for the Twentieth Day was adopted with 26 ayes, 1 nay and 22 not voting.

ATTORNEY GENERAL'S OPINION

Opinion No. 178
February 11, 1976

Dear Senator Rasmussen:

You state that you have been working on LB 668, a measure intended to reduce the amount of inheritance tax required when children inherit their parents' property. This bill, in its present form, would increase the

inheritance tax exemption of a father, mother, husband, wife, child, brother, sister, wife or widow of a son, husband of a daughter, adopted children, lineal descendants or persons to whom the deceased stood in the acknowledged relation of a parent from \$10,000 to \$300,000 received by each such person. It has been brought to your attention that in some cases this bill would not result in any savings to the taxpayer, but would simply result in any money saved as inheritance tax being paid as additional estate tax payable to the State of Nebraska.

This results from the fact that in a federal estate tax return, state estate and inheritance taxes are allowed as a credit against the federal estate tax. The federal estate tax return, however, does not allow all state estate and inheritance taxes paid as a credit, but only up to a certain maximum calculated according to a formula set out in the return. Therefore, if the state taxes are less than the maximum credit allowable under the federal return, the taxpayer saves no money, but simply pays more to the federal government.

In order to avoid having money go to the federal government which could otherwise be paid to the state or to the counties, the Legislature passed the state estate tax act, secs. 77-2101 to 77-2112, R.R.S. 1943. This act provides, generally, that if the maximum credit allowable under the federal act exceeds the amount of inheritance tax payable, the difference shall be payable to the state as a state estate tax. It is therefore quite obvious, as the present state and federal estate tax acts now read, at least part of the savings on inheritance tax would simply be paid to the state as additional estate taxes. This is not to say that there would not be some tax savings to taxpayers. Many times inheritance taxes are due when there is no federal estate tax, and often the inheritance tax exceeds the maximum credit allowable on the federal return. In those situations, LB 668 would involve savings to taxpayers. In other situations, however, it could simply involve diversion of tax money from the counties, as inheritance tax, to the state, as estate taxes.

Your specific question is whether, in view of this situation, it would be possible to have legislation which would provide that the state should collect the estate tax, thereby allowing the heirs to receive the maximum federal tax credit, and then refund the tax collected to the heirs. We are sure that no such procedure would be possible.

A tax is defined by Black's Law Dictionary as a pecuniary burden laid upon individuals or property to support the government. The requirement of the payment of an estate tax to the State of Nebraska, to then be refunded to the taxpayers, would not qualify as an allowable tax to be credited under the federal estate tax. It would not be a tax at all, since it would not be levied for the support of government. The Internal Revenue Service would certainly not allow such a "tax" as a credit against the federal estate tax, and we are confident that the courts would uphold them in this refusal.

Very truly yours,

PAUL L. DOUGLAS

ATTORNEY GENERAL'S OPINION

Opinion No. 179
February 13, 1976

Dear Senator Murphy:

In your letter of January 28, 1976, you point out that the Legislature has annually been granting to state chartered building and loan associations the rights and privileges extended to federally chartered associations. LB 763 would again accomplish this result, by amending section 8-355, 1975 Supp. You enclosed two proposed amendments to LB 763. The amendment prepared by the Bill Drafter would add the following language to the bill:

“Subsequent to the effective date of this act, the Director of Banking shall adopt and promulgate rules and regulations to provide any association incorporated under the laws of this state and organized under the provisions of Chapter 8, article 3 with all rights, powers, privileges, benefits, and immunities that may be exercised by a federal savings and loan association doing business in Nebraska until the close of the next regular session of the Legislature.”

The other amendment which you submitted was apparently prepared by the Department of Banking, and is very similar to the one prepared by

the Bill Drafter. Since our discussion will be applicable to that amendment as well as the one we have quoted, we will not set forth the other proposed amendment herein.

The specification of the rights, powers, privileges, benefits, and immunities of a corporation, and specifically, of a building and loan association, is clearly a legislative function. It is vested in the Nebraska Legislature, and cannot be delegated. In Smithberger v. Banning, 129 Neb. 651, 262 N.W. 492, 100 A.L.R. 686 (1935), the court held that a bill, the operation of which depended upon an act of Congress which had not been enacted at the time of the passage of the bill, constituted an unconstitutional delegation of legislative power to the Congress of the United States. This has application to your question, since the powers, rights, etc. of federal savings and loan associations are changed from time to time by the Congress, and these changes would then become applicable to Nebraska building and loan associations. The powers of federal savings and loan associations are also changed from time to time by the Federal Home Loan Bank Board. The Legislature is also, of course, prohibited from delegating its legislative authority to such a board.

It will be argued, no doubt, that the delegation in this case is to the Director of Banking, since the changes, with respect to Nebraska-chartered building and loan associations, would be accomplished by rules and regulations adopted by him. This, however, would, we believe, be an unlawful delegation of legislative power to the Director of Banking. In the proposed amendment we have quoted he is required to adopt the rules and regulations giving the state chartered institutions the powers, rights, etc. of the federal institutions. In the other amendment, it is apparently made discretionary with him. We believe it makes no difference. In Lincoln Dairy Co. v. Finigan, 170 Neb. 777, 104 N.W. 2d 227 (1960), the court held:

“We do not hold that the Legislature may not adopt a law or regulation of another jurisdiction by reference. It may even adopt such except insofar as it is not in conflict with existing laws of this state. But it may not adopt by reference only to the extent that an administrative agency or officer shall see fit to adopt it. To do so is to delegate to the administrative agency or officer the determination of matters which are legislative and, consequently, for the determination of the Legislature.”

No standards have been set up in the proposed amendments to guide the Director of Banking in the exercise of his rule making authority, which could profoundly affect the very nature of a building and loan association. If, as in the quoted amendment, the Director of Banking is required to adopt the rules and regulations, the act would constitute a delegation of legislative authority to either the Congress of the United States or to the Federal Home Loan Bank Board. If he is simply authorized to adopt such

rules and regulations, this would constitute an unlawful delegation of legislative authority to the Director of Banking, without adequate standards. We considered somewhat similar legislation in an opinion of this office dated March 6, 1967, Report of the Attorney General, 1967-1968, p. 57, and concluded that the validity of the proposal was most doubtful. We reach the same conclusion with respect to the proposed amendments you have submitted.

Very truly yours,

Almighty God, with weighty issues before this Legislature, and a host of bills demanding our attention and concern, give to these Senators mental astuteness, emotional rationality, steadfastness of purpose, debate in depth, an openness to information that will be brought forth. With the vast complexities before them, may they strive to see clearly the issues, have knowledge of the total program, and strive to reach those decisions which will be of maximum benefit for the people of our State. Through different points of view, through a variety of personalities, may we finally reach the maximum harmony of understanding and action.

In our Lord's name, Amen.

“and, within five days after the first publication of such notice, a copy thereof, along with statements of costs and schedules of proposed assessments, shall be given to each person or company who, pursuant to written contract with the district, has acted as underwriter or fiscal agent for the district in connection with the sale or placement of warrants or bonds issued by the district.”

15. In Section 7, page 24, starting on line 2, put a period after “years” and delete the balance of the sentence, including the new words, through semiannually on line 6. Insert following “years” on line 2 the following new sentences:

“Each issue of general obligation bonds shall mature, or be subject to mandatory redemption, so that the first principal repayment is made not more than five years after date of issue and so that at least twenty percent of the district’s bonds then outstanding shall be repaid within ten years after the date of such issue. Such bonds shall bear interest payable annually or semi-annually.”

16. In Section 7, page 24, line 18, add after the new word “issuance” the following:

“provided, however, that such warrants need not be retired within such five year period and shall not be in default if the district court of the county shall determine, upon application to it by the district, that the district does not have the funds to retire such warrants and either (a) the district is unable to sell its bonds in amount sufficient to retire such warrants, or (b) an unreasonably high tax mill levy, as compared to the mill levy on other similar property in the county, would be required in order to cover the debt service requirements on bonds issued to retire such warrants. Notice of the filing of such application and the time and place of the hearing thereon shall be published in a newspaper of general circulation in the county the same day each week three consecutive weeks. Within five days after the first publication of such notice, the district shall cause to be mailed, by United States certified mail, a copy of such notice to each holder of warrants covered by the application whose name and postoffice address are known to the district. Prior to the hearing, proof of such mailing shall be made by affidavit of a trustee of the district or its attorney that such mailing was made and further that the district, its trustees and its attorney, after diligent investigation and

inquiry, were unable to ascertain and do not know the name and postoffice address of any holder of such warrants other than those to whom notice has been mailed in writing or who have waived notice in writing or entered an appearance in the proceeding. Upon making such determination the district court may make such orders concerning retirement of the warrants as it shall determine proper under the circumstances of the district."

17. In Section 7, page 24, line 27, after the period after "issuance", insert three sentences as follows:

"The district may agree to pay annual or semi-annual interest on all warrants issued by the district and the district may issue warrants to pay such interest or may issue its warrants in return for cash to pay such interest. Warrants issued to pay interest on capital outlay warrants shall become due and payable in the same time as capital outlay warrants and warrants issued to pay interest on operation and maintenance warrants shall become due and payable not later than three years from date of issuance. The district may, if determined appropriate by the board of trustees, pay fees to fiscal agents in connection with the placement of warrants issued by the district."

18. In Section 8, page 25, line 22, delete "one year" and insert "six months".

19. Revise Section 9 on page 26 to read as follows:

'Section 9. Within thirty days after the effective date of this act as to existing districts, and within thirty days after the creation of districts thereafter created, the clerk of each district shall file with the register of deeds of each county or counties in which the district is located a statement containing the following information: (1) the district number; (2) the outer boundaries of the district; (3) the purpose or purposes for which the district was formed; (4) a statement that the district has the power to levy an unlimited property tax to pay its debt and its expenses of operation and maintenance; (5) a statement that the district is required to levy special assessments on property in the district to the full extent of special benefits arising by reason of improvements installed by the district; (6) that the annual budget of the district is filed with the county clerk which budget shows the anticipated revenue and expenses, mill levy and indebtedness of the district; (7) that the actual current mill levy amount of the district may be obtained from the county clerk, and (8) that a copy of the annual financial audit of the district is on file with the clerk of the district and the Auditor of Public Accounts. Such statement shall be supplemented and refiled to include any land added to the district after the original filing."

20. Add a new section as follows:

"Section _____. That Section 31-751, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

31-751. Sanitary and improvement district; assessments; equalization; levy, collection. After the equalization of such

special assessments as required by Sections 31-727 to 31-762, the same shall be levied by the board of trustees upon all lots or parcels of ground within the district which are benefited by reason of said improvement, such levy to be made within six months after acceptance of the improvement by the board of trustees; provided, that failure to levy assessments within such six-month period shall not invalidate assessments made after the six-month period. The same may be relieved, if for any reason the levy thereof is void or not enforceable, ~~in an amount not exceeding the previous levy.~~ Such levy shall be enforced as other special assessments and any payments thereof under previous levies shall be credited to the person or property making the same. Not less than eleven and not more than twenty days after the levying of any special assessment, the clerk of the district shall certify such levy to the county treasurer and county clerk of the county. If a notice of appeal from such levy has been filed with the clerk, the clerk shall note on the certificate of levy that an appeal has been commenced and that the amounts of the assessments are subject to redetermination pursuant to the appeal. All receipts given by the county treasurer for special assessments as to which an appeal is pending shall show thereon that the special assessment amount is subject to redetermination by the appeal. Upon termination of any appeal, the clerk of the district shall so certify to the county clerk and county treasurer. All assessments made for such purposes shall be collected in the same manner as general taxes and shall be subject to the same penalties or may be collected pursuant to Section 77-1917.01."

21. Add a new section as follows:

"Section_____. That Section 31-753, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

31-753. Sanitary and improvement district; special assessments; installments; interest; delinquent. All special assessments provided for in Section 31-739 shall become due in fifty days after the date of the levy and may be paid within that time without interest, but if not so paid they shall bear interest thereafter at the rate of seven percent per annum until delinquent. Such assessments shall become delinquent in equal annual installments over such periods of years, not exceeding ten, as the board of trustees may determine at the time of making the levy. Delinquent installments shall bear interest at the rate of nine percent per annum until paid and shall be collected in the usual manner for the collection of taxes. In the event that three or more installments shall be delinquent, the board of trustees may declare all of the remaining installments to be at once delinquent and such installments declared delinquent shall bear interest at nine percent per annum until paid and may be collected the same as other delinquent installments may be collected."

22. Add a new section to amend Section 77-1917.01 to read as follows:
 "Section _____. That Section 77-1917.01, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:
 77.1917.01. Cities and villages; special assessments; delinquent; foreclosure proceedings. All cities, ~~and~~ villages and sanitary and improvement districts in Nebraska shall have a lien upon real estate within their boundaries for all special assessments due thereon to be municipal corporation or district, which lien shall be inferior only to general taxes levied by the state and its political subdivisions. When such special assessments have become delinquent, without the real property against which they are assessed being first offered at tax sale by the tax sale certificate method or otherwise, the municipal corporation or district involved may itself as party plaintiff proceed in the district court of the county in which the real estate is situated to foreclose, in its own name, the lien for such delinquent special assessments in the same manner and with like effect as in the foreclosure of a real estate mortgage, except as otherwise specifically provided by Sections 77-1903 to 77-1917, which shall govern when applicable. Final confirmation of sale in such foreclosure proceeding and issuance of deed to the plaintiff, or its assignee, cannot be had until two years have expired from the date of the sale held by the sheriff, and, after expiration of such two-year period, personal notice has been served on occupants of the real property. The remedy granted in this section to cities, ~~and~~ villages and sanitary and improvement districts for the collection of delinquent special assessments shall be cumulative and in addition to other existing methods."
23. Include Section 31-751 in repealer section.

ATTORNEY GENERAL'S OPINION

Opinion No. 180
February 18, 1976

Dear Senator Lewis:

You have asked this office two questions concerning the interpretation of L. B. 410, Laws of 1974, and have stated that if the interpretation is not clear you intend to introduce a bill to clarify it.

The first question you ask concerns sec. 23-168.01, R.S. Supp., 1975. You have asked if it is clear who has the authority to appoint members of the board of adjustment. Nowhere is any person or board specifically delegated the authority to appoint members of this board, nor is that intent clear from the legislative history of L. B. 410. Sec. 23-168.01 provides in part that, "One member only of the board of adjustment shall be appointed by the county board from the membership of the county planning commission, . . ." That provision is susceptible of two interpretations. One, that the county board may appoint only one member to the board of adjustment and that member shall be a member of the planning commission; or secondly, that only one member of the planning commission may be appointed. We suspect that the second interpretation is that intended by the Legislature. However, that intent is not clear. It could be argued that in the absence of a specific delegation of the appointing authority elsewhere, that it must be assumed such authority is vested in the county board. Such an interpretation may be required by sec. 23-103, R.R.S. 1943, which provides that the powers of the county shall be exercised by the county board. However, we are not able at this time to state that it is perfectly clear that the authority to appoint members of the board of adjustment is vested in the county board.

Your second question concerns whether the county board may appoint a member of its own body to the board of adjustment. You have indicated that the intent of the legislation was that the county board not appoint a member of its own body to such a board. However, such intent is not clear from either the wording of the statute itself or from application of rules of interpretation. Generally, the Legislature has in the past specifically provided whether or not members of the county board may be appointed,

or should be appointed, to other boards or commissions (ref. sec. 23-114.01, R.S.Supp., 1974; sec. 23-2603, R.R.S. 1943). For that reason we are unable to provide a definitive opinion as to whether or not a member of the county board may be appointed as a member of the board of adjustment. However, since other statutes concerning other situations provide when a county board member may not be appointed, or when a county board member must be appointed, silence on the subject may be interpreted to mean a county board member may be appointed.

Yours very truly,

PAUL L. DOUGLAS
Attorney General

Friday, February 20, 1976

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Whelan presiding.

PRAYER

The prayer was offered by the Chaplain.

O God, our Father, who art the author of all liberty and freedom, to Thee we pray. Guide and bless the members of this legislature, as they represent the people of this State in committee room, in this chamber, in their voting record, and in their personal lives. Give them sustaining strength of mind, body and spirit to stand the persistent strains of their high office. Give them intolerance against all evils which would weaken our State, but great tolerance in hearing the evidence before making a decision. In using their sensitive minds to be rational, may they also keep alive that spark of heavenly fire called intuition which can guide us to a better society for all. Amen.

Monday, February 23, 1976

Pursuant to adjournment, the Legislature met at 9:31 a.m., Speaker Burbach presiding.

PRAYER

The prayer was offered by the Chaplain.

Our loving Father, we are grateful for the privilege of responsibility. Often pressing decisions cause inward frustrations. We know thou hast put us here on earth not for a picnic, but for a pilgrimage. May we all endeavor to live up to our capacities. While asking for Thy guidance, may we not shun hard thought, deep resolves, high integrity, and sheer common sense. While recognizing we have feet of clay and can be shattered by frustrations, never let us lose awareness of our supreme worth, for we have been created in Thy spiritual image, and destined to live as Thy children. Amen.

The roll was called and all members were present except Messrs. Koch, Johnson, Kremer, Anderson, and R. Lewis who were excused; Messrs. Fitzgerald and F. Lewis who were excused until they arrive.

ATTORNEY GENERAL'S OPINION

Opinion No. 181
February 17, 1976

Dear Senator Maresh:

This letter is in response to your inquiry if there is a "constitutional problem in LR 110, transferring the South East Community College to the University of Nebraska Foundation Board of Regents with the approval of the Governor and the Legislature." The same is hereinafter discussed.

Legislative Resolution 110 appears on pages 241-42 of the Legislative Journal of the Eighty-fourth Legislature, Second Session, 1976. It pertains to certain property acquired by the University of Nebraska Foundation in or near the City of Beatrice known as Pershing College. The resolution states in part as follows:

"1. The Legislature consents to the Board of Regents acceptance of the transfer of the above-described real and personal property from the University of Nebraska Foundation, and thereupon the transfer of such property to Southeast Technical Community College.

"2. The Legislature further consents to the Southeast Technical Community College acceptance of the transfer of such real and personal property from the Board of Regents, and thereupon shall reimburse the University of Nebraska Foundation for its costs and expenses in accepting and maintaining such property as herein described."

We find no constitutional problems in LR 110. On the other hand we call your attention to Neb. Rev. Stat. Sections 25-2501 to 25-2506 (Supp. 1974), which mandates timely public hearing in matters such as this.

Very truly yours,

PAUL L. DOUGLAS
Attorney General

RESOLUTION ON FINAL READING

The following resolution was read and put upon final passage:

LEGISLATIVE RESOLUTION 106.

WHEREAS, with each passing year this nation becomes more deeply in debt as its expenditures grossly and repeatedly exceed available revenue, so that the public debt now exceeds hundreds of billions of dollars; and

WHEREAS, the annual federal budget continually demonstrates an unwillingness or inability of both the legislative and executive branches of the federal government to curtail spending to conform to available revenue; and

WHEREAS, unified budgets do not reflect actual spending because of the exclusion of special outlays which are not included in the budget nor subject to the legal public debt limit; and

WHEREAS, knowledgeable planning, fiscal prudence, and plain good sense require that the budget reflect all federal spending and be in balance; and

WHEREAS, believing that fiscal irresponsibility at the federal level, with the inflation which results from this policy, is the greatest threat which faces our nation, we firmly believe that constitutional restraint is necessary to bring the fiscal discipline needed to restore financial responsibility; and

WHEREAS, under article V of the Constitution of the United States, amendments to the federal Constitution may be proposed by the Congress whenever two-thirds of both houses deem it necessary, or on the application of the Legislatures of two-thirds of the several states, the Congress shall call a constitutional convention for the purpose of proposing amendments. We believe such action is vital.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-FOURTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That this body proposes to the Congress of the United States that procedures be instituted in the Congress to add a new article to the Constitution of the United States, and that the State of Nebraska requests the Congress to prepare and submit to the several states an amendment to the Constitution of the United States, requiring in the absence of a national emergency that the total of all federal appropriations made by the Congress for any fiscal year may not exceed the total of all estimated federal revenue for that fiscal year.

2. That, alternatively, this Legislature makes application and requests that the Congress of the United States call a constitutional convention for the specific and exclusive purpose of proposing an amendment to the Constitution of the United States requiring in the absence of a national emergency that the total of all federal appropriations made by the Congress for any fiscal year may not exceed the total of all estimated federal revenue for that fiscal year.

3. That this Legislature also proposes that the Legislatures of each of the several states comprising the United States apply to the Congress requesting the enactment of an appropriate amendment to the federal Constitution; or requiring the Congress to call a constitutional convention for proposing such an amendment to the federal Constitution.

4. That the Clerk of the Legislature transmit a copy of this resolution to the President of the Senate of the United States, the Speaker of the House of Representatives of the United States, each member of the Nebraska Congressional delegation, the Secretaries of State and the Legislatures of each of the several states, and the Secretary of State for the State of Nebraska.

Whereupon the President stated: "All provisions of law relative to procedure having been complied with, the question is, 'Shall the resolution pass?' "

ATTORNEY GENERAL'S OPINIONS

Opinion No. 182
February 17, 1976

Dear Senator Lewis:

You have asked two (2) questions which pertain to LB 579 of the Eighty-Fourth Legislature, First Session, and amendments thereto. Each is hereinafter discussed.

I.

"Does inclusion of the Technical Community Colleges in LB 579 indicate 'state control' of the colleges and if so to what extent does this effect the constitutionality of the Tech College Law?"

LB 579 would create the Nebraska Coordinating Commission for Postsecondary Education, hereinafter referred to as the commission. The commission would consist of fifteen members and would have the authority, inter alia, to: (1) employ a professional staff; (2) call on all agencies of the state and the political subdivision thereof for assistance, including but not limited to the furnishing of records, facilities, and personnel of the agency in order to assist the commission in the performance of its duties and to prevent duplication of efforts in the area of educational coordination; (3) establish advisory committies; (4) establish close liaison with the State Board of Education to insure coordination between planning efforts for elementary-secondary education and for postsecondary education; (5) develop in conjunction with the postsecondary institutions of this state and appropriate state agencies, comprehensive plans for the coordination of postsecondary education services and facilities; (6) advise, consult, and cooperate with other agencies of this state, the federal government, other states, affected institutions or groups, and political subdivisions to further the purpose of this act; (7) accept and administer loans, grants, and programs from the federal or state government and from other sources, public and private, for carrying out any of its functions, which loans and grants shall not be expended for any other than the purposes for which provided; to

determine institutional eligibility for such loans, grants, and programs when such determination is to be made by the administering state agency; (8) facilitate communication and coordination among the postsecondary institutions of the state in such areas as (a) the sharing of resources, expertise, and facilities among institutions, (b) the establishing of plans, practices, procedures, and policies on matters which affect more than one institution, and (c) establish a high degree of articulation among the programs of institutions where such articulation is to the benefit of students; and (9) make recommendations (a) to the postsecondary education institutions of this state concerning methods which may benefit the services they provide and (b) to the Governor and the Legislature concerning legislation which may be beneficial to the postsecondary education services in this state. It will thus be seen that the powers granted to this commission are varied.

The question of whether an act of the Legislature pertains to state purposes or local purposes is a judicial question. There is no sure test by which state purposes may be distinguished from local. The court must consider each case as it arises and draw the line of demarcation. Upon giving due consideration to LB 579 and the various aspects of state control leading to a state purpose which were discussed in State ex rel. Western Nebraska Technical Com. Col. Area v. Tallon, 192 Neb. 201, 219 N.W. 2d 454 (1974), we are of the opinion that the inclusion of the technical community colleges in LB 579 does not indicate "state control" of said colleges. The line of demarcation, however, is not entirely free of doubt.

II.

"Would the Warner Amendments to LB 579 found on page 433 of the Legislative Journal impose 'state control' on the Tech Colleges thereby effecting the constitutionality of the Tech College Law?"

Senator Warner's amendment to this legislative bill would reduce the number of members on the commission from fifteen to twelve. It would also eliminate or modify some of the powers and duties stated in LB 579. Again, the line of demarcation is difficult to draw. However, it would appear, and it is our opinion, that Senator Warner's amendments to LB 579 would not impose "state control" on the technical community colleges and thus would not affect the constitutionality of the technical community college law.

Opinion No. 183
February 19, 1976

Dear Senator Koch:

You have asked whether LB 579 would diminish the constitutional power of the Board of Regents and the Board of Trustees of state colleges. LB 579 establishes a Nebraska Coordinating Commission for Postsecondary Education whose functions are to coordinate and plan for postsecondary institutions in the State of Nebraska. Section 8 of the bill provides:

“ . . . The commission shall have the option of compensating its staff either through the state pay plan or through the payroll of the University of Nebraska, . . . ”

In addition the commission is empowered to hire and supervise staff. This language is of questionable constitutionality. It may arguably be an unlawful delegation of legislative power to an administrative agency.

Section 8, subsection 2 of LB 579 provides that the commission may request the assistance and data from departments, divisions, boards, bureaus, commissions or agencies of the state. Under Section 9, subsection 2 of LB 579 the commission is authorized to establish uniform data definition and collection techniques. The combination of these two powers could arguably be construed to lessen the power of the Board of Regents and the Board of Trustees to govern their institutions. While we point to no provision of the Constitution which would be violated by these items we do note that the Board of Regents has instituted a lawsuit challenging the authority to impose similar restrictions or prohibitions upon their powers. It is possible that a definitive answer to these questions may come through the resolution of that lawsuit.

Since the powers of the commission as established by LB 579 do not extend to the power to compel actions by postsecondary institutions it cannot be said that it is violative of the constitutional powers granted to the governing boards of such institutions.

Thus, we are unable to say with certainty that LB 579 is unconstitutional.

Sincerely yours,

PAUL L. DOUGLAS

ATTORNEY GENERAL'S OPINION

Opinion No. 184
February 23, 1976

Dear Senator Luedtke:

You have asked whether or not L.B. 639 of the Eighty-Fourth Legislature, Second Session, is constitutional. The purpose of L.B. 639 is to confer upon the Department of Correctional Services powers that are presently granted to the Board of Parole by the Constitution.

Article IV, Section 13, Constitution of Nebraska, provides for the establishment of a parole board. While it is true that the Legislature is directed by Constitution to provide for the establishment of a Board of Parole it does not necessarily follow that the Legislature has the complete oversight of the Board of Parole. Prior to the 1968 Constitutional Amendment to Section 13 of Article IV, the power to grant paroles was in the Board of Pardons. The Legislature, in L.B. 561 (1967) presented to the voters a constitutional amendment. As the committee statement on L.B. 561 (1967) indicates the purpose of that bill was to submit a constitutional amendment to the voters in order to give the Legislature the right to set up a Board of Parole consisting of different members than it presently had. During committee testimony on that bill, Mr. Robert Kutak presented a substitute amendment to L.B. 561 and that amendment was subsequently adopted and the bill passed in that form. At those hearings Mr. Kutak testified that the amended version of L.B. 561 (1967) would simply permit the Legislature to change the composition of the parole board. Mr. Kutak said "that's all it would do." Mr. Kutak later pointed out that, "It would permit the powers of parole then to a professional parole board if it were setup."

The general import of the committee statement and the testimony is that the amendment to Article IV, Section 13 only gave the Legislature the authority to establish a Board of Parole. Article IV, Section 13 as amended does not give the Legislature the complete control and oversight of the Board of Parole. It is of course true that the Parole Board and the Department of Correctional Services must administer the law as passed by the Legislature, but the Legislature cannot circumvent the constitutional provisions granting to the Board of Parole the discretionary power to grant paroles after conviction and judgment.

You have asked whether or not furloughs and work and educational training programs fit within the definition of "parole". We believe that they do. You have pointed out that furloughs and work and educational training programs are not accompanied by a release from custody. We would point out that a parolee is also not released from custody. A parolee remains in the custody of the Parole Board. You stated in your letter that "The purpose of parole is to reintegrate, through supervision, an offender into the society from which he came." That is undoubtedly true but it is also undoubtedly true that a work release program or educational training program serves exactly the same purpose and is done in the same manner.

The power to grant paroles after conviction and judgment, regardless of whether it is called a furlough, work release, or educational training program is granted to the Board of Parole by Article IV, Section 13,

Constitution of Nebraska. That constitutional provision clearly provides that the board, or a majority thereof, shall have the power to grant paroles. The language and phrasing of that constitutional provision amply demonstrates that the power to parole is a discretionary matter and lies with the Parole Board. This power cannot be delegated to the Department of Correctional Services without first involving the Board of Parole as is provided for in the present statute.

Very truly yours,

Eternal God, at the beginning of a new and busy day we close our eyes, not to shut out the world but to look beyond it to Thy boundless horizon, so we may be more relevant in the things we do and say. Give to this strategic body poise and a right sense of timing. There is that tide in life which, when taken, leads to victory. Guide these leaders of our State that they may discern the signs of the times and lead us in the paths of fullness and peace. In our Lord's name. Amen.

RULES COMMITTEE REPORT

A Report of Select Committee
Rules Committee

Mr. President,

The Rules Committee met Tuesday noon, February 24, 1976, and acted favorably on the following rule change:

Rule 5, section 1. Drafting of Bills. The bill drafter shall prepare all bills and amendments in proper form when requested by members of the Legislature, newly elected members of the Legislature, or heads of executive departments. No bills or major amendments shall be introduced or considered unless the same has been approved as to form and draftsmanship by the bill drafter. In order to shorten the length of sections, the bill drafter shall, in the drafting of new sections, make each paragraph a separate section except when to do so would be contrary to sound bill drafting practice. The bill drafter shall make available a continuing compilation of sections to which amendments are proposed so as to reduce unnecessary duplication of bills. This section index of bills drafted shall be available to all senators, newly elected senators, and other persons entitled to have bills drafted. After January 1 of each year no bill shall be drafted by the bill drafter unless requested or authorized by a member of the Legislature.

Rule 3, section 18 (c) iii. When an amendment to add the emergency clause, the severability clause, or provide an operative date is adopted on Select File which does not spell out the standard ~~emergency clause~~ or section and make the necessary change in the title, the chairman of Enrollment and Review shall also have the authority to add to the engrossed bill the standard ~~emergency clause~~ or section, assigning to it the appropriate section number, and make the necessary change in the title as a matter of course without including such action in his reports and recommendations to the Legislature or making any special record thereof.

LEGISLATIVE RESOLUTION 44. Indefinitely postponed.

Committee Statement
LR 44

INTENT: LR 44 would retrocede, or return, to the United States Government both civil and criminal jurisdiction over the areas of Indian country on the Winnebago reservation. This resolution was introduced by Senator Walter George at the request of the Winnebago Indian Tribe. Senator George took no position on the resolution. LR 44 is a companion resolution to LR 50, which was proposed to study the question of retrocession.

PROPOSERS: The primary proponents of LR 44 were officials and representatives of the Winnebago Tribe and Tribal Council of Nebraska. The proponents urged passage primarily for two reasons - alleged abuses to Indians by local law enforcement and the belief that the Indian should be allowed to practice self-determination in matters which affect him. Among those who testified in support of the resolution were: Mr. Sam Tebo, former Tribal Chairman of the Winnebago Tribe; Mr. Louis La Rose, Tribal Chairman; Mr. Art May, Director of Nebraska Inter-Tribal Development Corporation; Mr. Jim Peterson, Directing Attorney of Intertribal Legal Services.

OPPOSERS: Testimony given by opponents to the resolution was primarily related to the jurisdictional questions which they believed would develop if retrocession were granted. Opponents denied that abuses existed and believed that if retrocession were granted the lines of jurisdictional authority would be severely clouded. There was also testimony to the effect that the federal government could not guarantee adequate support on a permanent basis for supporting the transfer of jurisdiction. Among those who testified against the resolution were: Mr. Mark Fuhrman, Thurston

County attorney; Mr. Clyde Storie, Sheriff of Thurston County; Mr. Ed Tyndall, Deputy Sheriff of Thurston County; Mr. Larry McQuistan, Thurston County Supervisor.

COMMITTEE ACTION: It was moved and seconded to indefinitely postpone LR 44. Voting to indefinitely postpone the Resolution were Senators Barnett, DeCamp, Nichol, Syas and Luedtke. Senators Anderson and Chambers were opposed and Senator Schmit was absent.

WHEREAS, the Agriculture and Environment Committee of the Nebraska Legislature has for the past three years intensely studied the question of the needs of Nebraska agriculture relative to veterinarians; and

WHEREAS, the Agriculture and Environment Committee has at this time compiled information, data and recommendations and programs some of which if implemented, may resolve short term or long term veterinary problems that Nebraska has or might experience in the foreseeable future; and

WHEREAS, in recent months reports in the newspapers and news media indicate that the Governor of the State of Nebraska and an organization identified as the Old West Regional Commission have information or recommendations about the needs of Nebraska relative to a veterinary college; and

WHEREAS, as of the thirtieth of January, 1976, neither the Governor nor the Old West Regional Commission have provided the Agriculture and Environment Committee any information as to the recommendations, desires or beliefs relating to what Nebraska should do in the matter of developing a veterinary college; and

WHEREAS, the Nebraska Legislature's Agriculture and Environment Committee is ready, willing and able to propose and implement whatever measures are necessary to provide an adequate supply of veterinarians to Nebraska for the foreseeable future; and

WHEREAS, the Nebraska Legislature's Agriculture and Environment Committee wishes to afford the Governor, the Old West Regional Commission and the University of Nebraska, or any representative of those three parties, the opportunity to present any and all information or recommendations or program plans they may have relative to Nebraska veterinary needs.

NOW, THEREFORE BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-FOURTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Governor, the Old West Regional Commission and the University of Nebraska be specifically requested by this Legislature to provide to the Agriculture and Environment Committee any information or recommendations they may have relative to the establishment of a veterinary college or any alternative proposals to resolve a potential veterinary shortage problem.

LEGISLATIVE JOURNAL

EIGHTY-FOURTH LEGISLATURE
SECOND SESSION

THIRTY-SIXTH DAY

Legislative Chamber, Lincoln, Nebraska
Thursday, February 26, 1976

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Whelan presiding.

PRAYER

The prayer was offered by the Chaplain.

O God, our Father, we know that our laws can be no better than those who make the laws and administer the laws, and the people who follow the laws.

As this legislature initiates laws, give them the courage to look at themselves. Our pride, our passions, and our self-interests are very real, and often dominate the center of life from which our thinking stems and our decisions follow.

We pray that Thou wouldst allow other qualities, which may be buried, to rise again in our lives - decency, consideration, unselfishness, and hard thinking with a warm heart.

In our Lord's name. Amen.

ROLL CALL

The roll was call and all members were present except Messrs. Anderson, Cope, Skarda and Kremer who were excused; and Mr. Dworak who was excused until he arrives.

Sec. 5. The Legislature shall divide the state into contiguous and compact districts of approximately equal population, which shall be known as the Supreme Court judicial districts. One Judge of the Supreme Court shall be selected from each district and the Chief Justice shall be selected at large from across the state. The Legislature shall redistrict the state after each federal decennial census. In any such redistricting, county lines shall be followed whenever practicable, but other established lines may be followed at the discretion of the Legislature. Such districts shall not be changed except upon the concurrence of a majority of the members of the Legislature. LEGISLATIVE RESOLUTION 110. Placed on General File.

Committee Statement
Education

LR 110

LR 110 was presented to the Education Committee for public hearing on February 9, 1976. The resolution, introduced by the Education Committee, allows the transfer of property acquired by the University of Nebraska to the Southeast Community College. The property to be transferred is legally described in the resolution, but commonly known as

Pershing College of Beatrice.

Appearing in support of LR 110 were:

Senator Bill Burrows
Robert Wehesser, Chairman of the Board of Southeast Nebraska
Technical Community College
D. B. Varner, President-University of Nebraska
Robert Eicker, President-SENTCC
Bill Cook, Jr., Beatrice

Appearing in opposition of LR 110 were:

C. B. Schwab, Fairbury
Darrell Funker, Fairbury
Ted Doyle, Fairbury
Con Keating, Lincoln
Jim Preston, Lincoln
Mel Tryer, Fairbury
Ella Mae Hurlbert, Fairbury
Mrs. Forts, Lincoln

Testimony offered in support of LR 110 refreshed the Committee as to the developments which led to the acquisition of the Pershing College Campus and the transaction proposing transfer to the Community College.

The question of using the campus as a potential for a veterinary college of the University was discussed as an alternative. President Varner discouraged entertainment of this idea by pointing out the distance between the main campus and its facilities for library and basic science facilities would be detrimental to the program.

The President of Southeast Community College discussed the advantages of being able to expand course offerings to better serve the needs of the area. Dr. Eicker discussed the crowded conditions at both Milford and the Lincoln campus and the advantages at seizing this opportunity to acquire the Pershing Campus.

Opposition to the resolution basically came from residents of Fairbury who suggested this was a move to close the campus at Fairbury.

Representatives of the Four-Square Gospel Church urged the Committee to allow them the opportunity to acquire Pershing Campus so that they could open a school of Liberal Arts and Religion.

In Executive Session a motion was made by Senator Burrows to advance the resolution to the floor. The motion prevailed on a vote of 7-0 with Senator Kime being absent.

Eternal God, our loving Father, may we become more aware of the immediate concerns of our state - the minute problems confronting the various districts and the pleadings of our constituents. But keep ever before this significant body the eternal and all-encompassing goals upon which smaller issues must be measured: to love mercy; to right wrongs; to live for justice, and to serve Thee, our God, and our fellowman as we would serve ourselves. We pray in our Lord's name. Amen.

ATTORNEY GENERAL'S OPINIONS

Opinion No. 185
February 25, 1976

Dear Senator Anderson:

In your letter of February 5, 1976, you asked whether the provisions of Legislative Bill 881 amending sec. 33-141, R.R.S. 1943, would constitute special legislation or would be in some manner constitutionally defective.

As you know, sec. 33-141, R.R.S. 1943, currently provides:

“The legal rate for the publication of all legal notices shall be twenty-four cents a line, single column, standard newspaper measurements for the first insertion, and shall be twenty cents a line, single column, standard newspaper measurement for each subsequent insertion. Publication of such notices may be in any type selected by the publisher, but as to fees for such publication the measurement shall be in eight point type.”

The effect of Legislative Bill 881 would be to add the following language:

“. . . ,except that in counties or cities having a population of over two-hundred and seventy-five thousand inhabitants, the rate for the publication of legal notices may be the publisher's standard rate for classified advertising.”

Section 33-141, R.R.S. 1943, as it is proposed to be amended by the provisions of Legislative Bill 881, concerns the legal rate which may be charged for the publication of all legal notices. The provisions of Legislative Bill 881 would appear to have the effect of allowing higher rates for counties with a population in excess of two-hundred and seventy-five thousand than in counties with a lesser population.

The Nebraska Supreme Court has held that the Legislature has the power to classify counties on the basis of population when the classification rests upon reasonable differences of situations or circumstances which call for distinctive legislation for that class. Metropolitan Utilities District v. City of Omaha, 171 Neb. 609, 107 N.W.2d 397; Midwest Popcorn Company v. Johnson, 152 Neb. 867, 43 N.W.2d 174.

The question then becomes whether there are circumstances surrounding the publication of legal notices in counties having such a population reasonably different from those in counties which do not have such a population.

Therefore, if a reasonable basis for this distinction can be shown, such as higher costs to the publisher or some other such factor, we believe that such a classification can be supported constitutionally. If not, however, such a distinction would be difficult to defend.

If we can be of further assistance on this matter, please let us know.

Sincerely,

PAUL L. DOUGLAS
Attorney General

Opinion No. 186
February 26, 1976

Dear Senator Barnett:

You have asked whether the health insurance plan for state employees under the Nebraska State Insurance Program violates federal rules and regulations entitled "Non-Discrimination by Recipients of Federal Revenue Sharing Funds." You have asked specifically whether pregnancy is being considered a temporary disability as far as insurance premiums are concerned and whether it is compatible with the federal regulations for the State of Nebraska as a recipient of federal revenue sharing funds to require higher premiums for maternity coverage. You have indicated your intention to introduce corrective legislation if the Nebraska plan does not comply with the federal regulations.

Participation in the Nebraska State Insurance Program for health insurance is optional. There are three classes of coverage: individual, two or four-party, and family. There are two levels of coverage available for the preceding class. If an employee elects to participate in any class at either level of coverage, a portion of the premium is paid by the State. The amount paid by the state is the same for each participating employee, regardless of the class of coverage selected. Maternity benefits are available only under a family plan. Any employee, whether male or female, married or single, can elect to be covered by a family plan.

Under the federal guidelines, no government receiving entitlement funds for a program can discriminate among its employees by providing

any service or other benefit which is different from that provided to others on the basis of sex. Sections 51.52 (a) and (b) (ii). Any fringe benefit for any temporary disability arising from pregnancy must be treated in the same manner as any fringe benefit for any other temporary disability. Section 51.54(d)(2).

The option to participate in the state health insurance program and have a portion of the premium for it paid by the state may be characterized as a "fringe benefit." But this option is available to all employees, regardless of their sex, if they are willing to pay the difference between the premium and the portion of the premium paid by the state.

The difference in premiums under the Nebraska plan is based on the difference in benefits, not on the difference in the sex of the insured. It is not an unlawful employment practice under Section 51.54 (c)(2) of the federal guidelines for an employer to provide for both unequal benefits and unequal contributions in the area of insurance programs where such unequal benefits or unequal contributions are directly related to actuarial differences. This rule is consistent with the holding in Geduldig v. Aiello, 417 U.S. 484 (1974). There the court held there was no invidious discrimination in violation of the Equal Protection Clause of the Fourteenth Amendment in a mandatory employee-financed disability income plan which excluded disabilities related to a normal pregnancy and delivery. Among other justifications, the court found that the State of California had "a legitimate concern in maintaining the contribution rate at a level that will not unduly burden participating employees, particularly low-income employees who may be most in need of the disability insurance. . . . There is no risk from which men are protected and women are not. Likewise, there is no risk from which women are protected and men are not."

Whether disability income plans of private employers which exclude from coverage pregnancy-related disabilities violate Title VII of the Civil Rights Act of 1964 even if they do not violate the Equal Protection Clause of the Constitution is presently before the U.S. Supreme Court in Wetzel v. Liberty Mutual Casualty Insurance Co., 511 F.2d 199 (3rd Cir. 1975), now pending on certiorari and in Communications Workers of America AFL-CIO v. AT&T Longlines Department, 513 F.2d 1024 (2nd Cir. 1975), in which an appeal is now pending. Should the Court find that such private plans do violate Title VII, the federal guidelines for governmental units will not necessarily change. At any rate the present guidelines recognized an exception based on Geduldig and the Nebraska plan comes within it.

We have concluded that the Nebraska health insurance program for state employees does not violate the federal guidelines proscribing discrimination on the basis of sex as such discrimination is presently interpreted.

Sincerely,
PAUL L. DOUGLAS
Attorney General

THIRTY-EIGHTH DAY—MARCH 1, 1976

LEGISLATIVE JOURNAL

EIGHTY-FOURTH LEGISLATURE
SECOND SESSION

THIRTY-EIGHTH DAY

Legislative Chamber, Lincoln, Nebraska
Monday, March 1, 1976

Pursuant to adjournment, the Legislature met at 9:30 a.m., President Whelan presiding.

PRAYER

The prayer was offered by the Chaplain.

The Chair announced Dr. Palmer is celebrating his birthday.

Almighty God, before whose face the generations of men rise and pass away, we thank you for this day for the opportunity of celebrating the birthday of our State. We remember in gratitude this native land - and all who have sacrificed so much to keep her strong and right.

We are thankful that our land was born and nurtured in liberty, and that those who settled on these plains were men and women who desired the opportunity to build here a better place in which all could live together in harmony and justice.

We are thankful that when there have been dangers before our State there have been those who have risen to defend her - placing their State's welfare above private gain.

So may this Nebraska celebration remind us anew of the importance of a continuing heritage, served by the Senators here and those who assist them, and by all the people of the State, that together we may have a sense that this land is not only our land, but Your land, of the people, for the people, and by the people. Amen.

LEGISLATIVE BILL 909. Placed on General File as amended.
Standing committee amendments to LB 909:
(Amendments printed separate from the Journal and on file in the Clerk's office.)

ATTORNEY GENERAL'S OPINION

Opinion No. 187
March 1, 1976

Dear Senator Rasmussen:

You have asked for our opinion on LB 519 which in addition to creating the County Horse Racing Facility Bond Act, would amend sec. 2-1207, R.R.S. 1943. Section 2-1207, provides for the portion of the total wagers which those persons licensed to conduct horse racing in this state may receive. Section 5 of LB 519 would amend sec. 2-1207 to provide:

“ . . . As each race is run the licensee may deduct from the total sum wagered on all horses as first winners, respectively, (a) at thoroughbred race meets, fifteen per cent of the total, plus the odd cents of the redistribution over the next lower multiple of ten, or (b) at race meets other than thoroughbred race meets, not less than fifteen nor more than eighteen per cent of the total, plus the odd cents of the redistribution over the next lower multiple of ten, and the balance remaining on hand shall be paid out to the holders of certificates on the winning horse in the proportion that the amount wagered by each certificate holder bears to the total amount wagered on all horses in such race to run first. . . .”

We are unable to locate any definition of the term “thoroughbred” in the Nebraska statutes and case law. Neither is such a definition to be found in the rules and regulations of the Nebraska State Racing Commission. However, this may not render the statute meaningless or void for vagueness since sec. 49-802(5), R.R.S. 1943, provides:

“Words and phrases shall be construed and understood according to the common and approved usage of the language; but technical words and phrases and such others as may have acquired a peculiar and appropriate meaning in the law shall be construed and understood according to such peculiar and appropriate meaning.”

The term thoroughbred when used in the context of horse racing has a

particular meaning as stated in Webster's New World Dictionary of the American Language, Second College Edition, which defines the term as:

“... any of a breed of racehorses developed originally by crossing English mares with Arabian stallions.”

We have ascertained that thoroughbred horses are required to be properly registered as such. In horse racing terminology, quarter horses, for example, are not considered to be thoroughbreds.

Section 5 of the bill creates two classes of race meets and provides for different amounts which the licensee may deduct from the total sum wagered. The Legislature, of course, may classify persons, places, objects and subjects but the classification must rest upon some reasonable basis in order to comply with Article III, Section 18 of the Constitution of Nebraska which prohibits special legislation. The court in City of Scottsbluff v. Tiemann, 185 Neb. 256, 175 N.W.2d 784 (1970), stated that there must be:

“... some substantial difference of situation or circumstances, that would naturally suggest the justice or expediency of diverse legislation with respect to the objects to be classified. Classifications for the purpose of legislation must be real and not illusive; they cannot be based on distinctions without a substantial difference. . . .” (Emphasis the court's).

Whether there exists a rational basis for the different treatment between thoroughbred race meets and other race meets (including quarter horse race meets) is a factual determination which should properly be made by the Legislature. The Legislature can determine whether there may be differences in types of facilities, numbers of spectators, considerations in wagering and other factors which could distinguish the two classes and afford a rational basis for the classification. If no such basis exists then section 5 of LB 519 could be held unconstitutional by the courts as special legislation or possibly even a denial of equal protection of the laws.

We have also examined sections 1 through 4 of LB 519 but find no constitutional deficiencies.

Very truly yours,

PAUL L. DOUGLAS
Attorney General

5 77-2715. (1) A tax is hereby imposed for each
6 taxable year on the entire income of every resident
7 individual of this state and on the income of every
8 nonresident individual of this state which is derived
9 from sources within this state. The tax shall be a flat
10 percentage of, for each resident individual, the
11 taxpayer's adjusted federal income tax liability for the
12 taxable year, and for each nonresident individual, the
13 taxpayer's adjusted federal income tax liability for the
14 taxable year which is attributable to income derived from

17 liability shall be the amount of federal income tax, as
18 determined under Subtitle A, Chapter I, subchapter A,

20 which the taxpayer would have been liable if such
21 taxpayer had paid federal income tax based on federal
22 taxable income as adjusted by the modifications provided
23 in section 77-2716 without any allowance for credits
24 against such tax permitted under the Internal Revenue
25 Code.

1 The adjusted federal income tax liability of each

11 determination attributes more or less federal income tax
12 than is reasonably attributable to income derived from
13 sources within this state, the taxpayer may petition for,
14 or the Tax Commissioner may require, the employment of
15 any other method to attribute an amount of federal income

1 equal to ~~sixteen~~ eighteen dollars multiplied by the
2 number of allowable personal exemptions claimed for

6 credit exceeds the income tax payable by the resident
7 individual for the taxable year but no refund shall be
8 made in any amount less than two dollars.

9 (b) No individual who may be claimed as a
10 personal exemption on another individual's return shall

FORTIETH DAY

Legislative Chamber, Lincoln, Nebraska
Wednesday, March 3, 1976

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Whelan presiding.

PRAYER

The prayer was offered by the Chaplain.

For one moment at least, O Lord our God, we would close our eyes to journals and letters and bills, and open our hearts to the spiritual inspiration of Ash Wednesday. . . start of the season of reflection, of rededication, of inner renewal for most of us in this House, and for most of those we represent.

Do not permit us, in our concentration on legislative details before us, to deny ourselves the intended blessing of this day, and of this season of Lent.

Remind us just now of that One who came to earth 2,000 years ago as Your representative on earth. May this season in which we devote special reverence to Him become a blessing to each member of this House. Amen.

ATTORNEY GENERAL'S OPINION

Opinion No. 188
March 1, 1976

Re: LB 694

Dear Senator Cavanaugh:

This is in reply to your inquiry on the above bill and our previous opinion to Senator Kennedy concerning possible conflicts in hearing procedures set forth in the Consent (sic) Decree of the Federal District Court and LB 694.

At the outset we should note that Senator Kennedy's request letter referred not only to LB 694 but to some proposed committee amendments. The version of LB 694 which we now have and to which we will refer has no amendments.

The Agreement and Decree provide by paragraph 19 in substance as follows:

1. Each member of the class shall have an annual evaluation to ascertain whether each is properly classified as mentally retarded and whether continued participation in state operated mental retardation services is in the best interest of each.

2. If the parent or legal guardian objects to any of the above findings (those set forth in paragraph 19) a due process hearing shall be held.

Paragraph number 21 sets forth what the due process hearing shall include:

1. Clear notice of at least two weeks to the mentally retarded person and his parent or guardian.

2. Appointment of competent counsel to represent the mentally retarded person.

3. The presence of the mentally retarded person.

4. The presentation of clinical evidence.

5. The opportunity to cross-examine all witnesses and present evidence.

6. Findings in writing on the basis of clear and convincing evidence.

7. The right of appropriate judicial review upon entry of a final order.

You first ask if there is a direct conflict between the hearing procedures set out in LB 694 and the hearing procedures required by the Consent Decree?

The provisions of LB 694 provide in substance that when the director determines that continued residence in a residential facility is no longer of benefit to a mentally retarded person that the parent or legal guardian may obtain a hearing before the department by filing a written request for a hearing with the director. The parent or legal guardian may appeal under the Administrative Procedures Act.

LB 694 does not specifically provide for the two week notice, the appointment of counsel, the presence of the mentally retarded person ext., which the Agreement provides as set forth above. However, LB 694 does not say that these things cannot be done and therefore there is no direct conflict upon the face of the Agreement and LB 694 as to the hearing procedures. In addition under the Agreement the hearing could be held before the Department but is not required as in LB 694. As you can see, there could easily be a direct conflict in the actual carrying out of the hearing procedures since LB 694 is quite general and the Agreement has more specific requirements.

You next ask that in the event of such conflict, would the procedure established by the Legislature or the procedure established by the Consent Decree prevail. Again, you are referring to a direct conflict in the two documents and there is no such direct conflict.

In the event of a conflict in practice, it is our opinion that the Federal District Court would have the authority to make the ultimate decision since that court has assumed jurisdiction under its determination that the provisions required by the Agreement and the Consent Decree are required by or consistent with rights granted by the United State Constitution which at this point in the proceedings would prevail over a state statutes.

With this explanation the precise answers to your two questions are:

1. No.
2. Not applicable.

If we can be of further assistance to you in this or other matters, please contact us.

Very truly yours,

PAUL L. DOUGLAS
Attorney General

UNANIMOUS CONSENT—Print in Journal

Speaker Burbach asked unanimous consent to print the following letter in the Journal. No objections. So ordered.

March 3, 1976

Speaker Jules W. Burbach
Eighty-fourth Legislature, Second Session
State Capitol
Lincoln, Nebraska

Dear Speaker Burbach:

In answer to your inquiry I would conclude that LB 806 is a priority item of legislative business and should be enacted this session.

I have followed closely the background of the drafting of this bill, sat with the Public Health & Welfare Committee during its presentation and discussion, and have studied closely the opinion of the three-judge Federal District Court handed down in December, 1975, declaring unconstitutional sections of the present commitment statutes.

The enactment of LB 806 is necessary to get the statutes in conformity with the Court's decision, and to give the proper statutory guidance to the local mental health boards as they perform their duties. It would, in addition, serve to head off further legal controversies which could arise in the involuntary commitment of persons to mental health facilities.

Sincerely,

(Signed) Jack W. Rodgers
Director of Research

SECOND SESSION

FORTY-FIRST DAY

Legislative Chamber, Lincoln, Nebraska
Thursday, March 4, 1976

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Whelan presiding.

PRAYER

The prayer was offered by the Chaplain.

Our Father, into the calm and confidence of Thy presence we would bring our drained and driven souls that the benediction of Thy peace may fall upon our restless lives. In this difficult year of many decisions be Thou our pillar of cloud by day and our fire by night, as patiently and obediently we strive to follow the light which Thou hast placed within each of us.

Save us from living on a small scale in a great day, from toying with the tiny when we ought to be lured by the titanic. In these days of decision, be swift our souls to answer Thee, be jubilant our feet! So through our actions may Thy purposes be furthered. In Thy name. Amen.

ATTORNEY GENERAL'S OPINION

Opinion No. 189
March 3, 1976

Dear Senator DeCamp:

This is in reply to your request for our opinion as to the constitutionality of the amendments to L.B. 702, Eighty-fourth Legislature.

As you stated the amendments are the same as the current California statutes relating to the death penalty, except as noted hereafter as to Section 8.

Since California enacted these statutes in 1973 over forty individuals have been sentenced to death but no appellate court in California has as yet construed the validity of the sentence or these California statutes under which the penalties were imposed.

As you know the last pronouncement of the Supreme Court of the United States concerning the death penalty was in the case of Furman v. Georgia, 408 U.S. 238, 33 L.Ed.2d 346, 92 S.Ct. 2726, decided June 29, 1972. There are presently several death penalty cases pending before the United States Supreme Court which were entered since that case.

While the case of Furman v. Georgia, mentioned above, was over 135 pages long and contained five separate concurring opinions on the majority and therefore contains a lot of varying views as to the constitutionality of the death penalty under the Eighth Amendment of the United States Constitution prohibiting cruel and unusual punishment, it is generally agreed among the states and legal authorities who have had to work with this problem since that case, that it prohibits the imposition of the death penalty either by the court or jury in an arbitrary or discretionary manner after a finding of guilt of the principal crime; in other words that after a finding of guilty of the crime for which the death penalty may or may not be imposed, it may not be left to the discretion of the court or jury whether or not to impose it in some cases and not impose it in others but that there must be a definite standard under which it will be imposed in all cases of like standard or will not be imposed when that standard is not reached. For example, in Furman v. Georgia, which involves three separate individuals the death penalty was imposed in one for murder and two for rape. In each case the determination of whether the penalty should be death or a lighter punishment was left by the state to the discretion of the judge or of the jury. Two of the cases came from Georgia and one from Texas. All three of the individuals involved were black. The court found that there was more leniency in the determination of whether to impose the death penalty against whites than there was against blacks or other

minority groups.

Applying these standards to the present amendments we cannot say that the standards set forth in Section 3 which must be determined before the death penalty may be imposed are arbitrary or leave discretion to the court or jury; under the present state of the law it is our opinion that the constitutionality of such standards and the method of determining the circumstances under which the death penalty may or may not be imposed, except as hereinafter noted, could successfully be sustained.

As noted above, there is one method of procedure which we find doubtful constitutionally; this is the requirement in a number of places that the accused be represented by counsel or that his waiver of certain procedures requires the consent of his counsel. In Faretta v. California, ___ U.S. ___, 45 L.Ed.2d 562, 95 S.Ct. ___, decided June 30, 1975, the Supreme Court of the United States held that even though the Sixth and Fourteenth Amendments to the United States Constitution guarantee that due process requires a person brought to criminal trial must be afforded the right to the assistance of counsel that a defendant in such a case has a constitutional right to proceed without counsel when he voluntarily and intelligently elects to do so.

In addition Article I, section 11 of the Nebraska Constitution provides that:

“In all criminal prosecutions the accused shall have the right to appear and defend in person or by counsel, . . .”

In the light of the Faretta case and the Nebraska Constitution we do not believe that counsel may be imposed upon a defendant who voluntarily and intelligently wishes to proceed on his own.

There is also an area in the penalty provisions relating to parole which in our opinion would be difficult to defend constitutionally. (sic) These are the provisions providing for imposition of life imprisonment without possibility of parole after conviction of certain crimes none of which involve treason or impeachment.

Article IV, section 13 of the Nebraska Constitution provides in part:

“The Legislature shall provide by law for the establishment of a Board of Parole and the qualification of its members. Said board, or a majority thereof, shall have power to grant paroles after conviction and judgment, under such conditions as may be prescribed by law, for any offenses committed against the criminal laws of this state except treason and cases of impeachment. . .”

While we realize that the above portion of the Constitution provides that the Legislature may set the conditions under which paroles may be granted we do not believe the use of the words “conditions” may be

construed to prohibit parole all together in cases other than treason and impeachment, otherwise, there would have been no reason for the Constitution to make exceptions in those two cases. It is a well established principle that the enumeration of certain powers implies the exclusion of all others not fairly incident to those enumerated and an affirmative description of cases in which certain powers may be exercised implies a negative on the exercise of such powers in other cases. Hueftle v. Eustis Cemetary Association, 171 Neb. 293; Galstan v. School District of Omaha, 177 Neb. 319; and many other cases. Since the Constitution expressly mentions the cases of treason and impeachment where parole shall not be granted it is our opinion that it implies that it shall be granted in all other cases under conditions established by the Legislature which conditions must be somewhere short of absolute prohibition.

Lastly, in Section 8 of said amendments the death penalty is imposed if a person undergoing a life sentence in the Nebraska Penal and Correctional Complex with malice of forethought commits an assault upon another person other than another inmate with a deadly weapon or instrument or by any means of force likely to produce great bodily injury. The provision does not require that any injury or death be suffered by the victim. Calif.Stats. 1973, Ch. 719 requires death of the victim within a year and a day as a result of the assault. Perhaps this was inadvertently omitted here.

An assault is generally understood to mean either (1) an attempt to commit a battery, or (2) an unlawful act which places another in reasonable apprehension of receiving an immediate battery. To constitute an assault no actual touching or injury to the victim is necessary but merely the attempt to touch or injure the victim or placing the victim in fear of receiving a battery. Perkins on Criminal Law, Chapter 2, section 2, page 86.

It is our opinion that it would be difficult to sustain the constitutionality of imposition of the death penalty under such circumstances because it may contravene the provisions of the Eighth Amendment of the United States Constitution against cruel and unusual punishment.

If we can be of any further assistance to you in this matter please contact us.

Respectfully submitted,

PAUL L. DOUGLAS

FORTY-SECOND DAY

Friday, March 5, 1976

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Whelan presiding.

PRAYER

The prayer was offered by the Chaplain.

Almighty God, as we begin to live this new day which Thou hast given us, grant that by all our thoughts, words, and deeds we may keep it bright and clean and wholesome. Help us to be true to our convictions without simply being obstinate; to be tolerant of other men's opinions without compromising our principles; to be men of our word and not just wordy men; to be leaders whose eyes are on the stars, but whose feet stand solidly on the ground; and to be determined that the affairs of our State may never become a sorry state of affairs. In short, O God, make us the kind of men and women who use our time finding solutions instead of creating problems, producing answers instead of just asking questions, providing action instead of merely making small talk. To this end guide us, sustain us, and strengthen us; in our Master's name we pray. Amen.

COMMUNICATION

OFFICE OF THE POSTMASTER GENERAL
Washington, D.C. 20260

February 25, 1976

Mr. Vincent D. Brown
Clerk of the Legislature
State Capitol
Lincoln, Nebraska 68509

Dear Mr. Brown:

This is in response to your recent letter to Postmaster General Benjamin F. Bailar, forwarding a copy of Legislative Resolution 112 recently adopted by the Nebraska Legislature.

We understand the concern of the Nebraska Legislature over the possible impact of recent adjustments in the Postal Service's policy governing post office closings. The adjustments do not represent any radical change from past policy. The following two arbitrary restrictions have been eliminated: (1) that regardless of a case's individual merits a postmaster vacancy was necessary before a discontinuance could be considered, and (2) that 25 families or fewer be served by an office considered for discontinuance.

Our commitment to provide service equivalent to or better than existing service remains the prevailing guideline under the new policy, as it was under the old. As required by law, no office has been or will be closed solely for economic reasons.

There will be no changes in the status of any office prior to a survey of the affected community and an opportunity for the customers involved to review alternatives.

Sincerely yours,

(Signed) Norman S. Halliday
Assistant Postmaster General
Government Relations Department

ATTORNEY GENERAL'S OPINION

Opinion No. 190
March 4, 1976

Dear Senator Luedtke:

You have asked for a clarification of an earlier opinion drafted by this office concerning Legislative Bill 639. You have asked specifically whether

or not the power of parole rest exclusively with the Board of Parole. In the last sentence of our original opinion on L.B. 639 we wrote concerning the power of parole "This power cannot be delegated to the Department of Correctional Services without first involving the Board of Parole as is provided for in the present statute." The intent of that statement was to convey to you our opinion that the power of parole does rest exclusively with the Board of Parole.

The Nebraska Supreme Court in State of Nebraska ex rel. State Railway Commission v. Ramsey, 151 Neb. 333, 37 N.W.2d 502 (1949), said:

"...However, the Constitution is the supreme law, and a limitation of power of all departments and all officials, and it is the duty and function of the court to trace the line which marks the limit of power, and to cause compliance with it."

The court went on to say in that case that the Legislature has no power to divest the State Railway Commission of its constitutional jurisdiction to regulate and control common carriers. Along those same lines it has been said in 16 C.J.S., Constitutional Law, Section 21, that:

"Unless a different intention is apparent, the enumeration of specified matters in a constitutional provision usually is construed as an exclusion of matters not enumerated.

"Applying the maxim, Expressio unius est exclusio alterius, the enumeration of certain specified things in a constitutional provision will usually be construed to exclude all things not thus enumerated (sic) . . ."

Applying the above maxim, to the question at hand, it appears that the express grant of parole power to the Parole Board is an implied exclusion of that power to any other body. It follows that the power of parole is exclusively lodged in the Parole Board by virtue of Article IV, Section 13, Constitution of Nebraska, and the Legislature may not delegate that power to any other department or agency.

Very truly yours,

PAUL L. DOUGLAS
Attorney General

PRAYER

The prayer was offered by the Chaplain.

We bow our hearts to begin anew - never quite knowing what a day may bring forth, or even an hour; recognizing always our need to be receptive to the opportunities of each moment as it passes in review, and resilient in the face of inevitable frustrations.

Strengthened physically by the rest of the past weekend, and with the spiritual benefits of the season of Lent providing inner strength, we bow our heads and begin anew.

O Lord, our God: teach us so to number our days that we may apply our hearts to wisdom. Amen.

ATTORNEY GENERAL'S OPINION

Opinion No. 191

March 4, 1976

Dear Senator Swigart:

This is in reply to your inquiry if there are any legal objections to the following proposed amendment to LB 816 of the Eighty-Fourth Legislature, Second Session:

"1. Strike original section 1 and insert the following:

Sec. 1. In the elementary schools of Nebraska, if any school district shall choose, the state shall not forbid a brief time taken for reverent silence, or the pledge of allegiance to the flag.

Nor shall the state forbid the participation of such students in normal exercises coincident with the celebration of our Nation's holidays."

The above quoted amendment raises at least three (3) issues; exercises coincident with the celebration of our Nation's holidays, reverent silence, and the Pledge of Allegiance. The same are hereinafter discussed.

Introduction

The First Amendment to the Constitution of the United States provides in part that "Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech. . . ." It operates on the states by virtue of the Fourteenth Amendment. Cantwell v. Connecticut, 310 U. S. 296 (1940). The principle of separation of church and state is expressed in the clause which prohibits any law respecting an establishment of religion. The First Amendment is not anti-religious or irreligious. It does require that government refrain from interference with man's spiritual fulfillment (beliefs to be distinguished from practices).

Celebration of our Nation's Holidays
and Reverent Silence.

The Supreme Court of the United States has not dealt directly with either the issue of celebration of our Nation's holidays or reverent silence. However, Justice Brennan, in his concurring opinion in Abington School District v. Schempp, 374 U.S. 203 (1963), said:

" . . . It has not been shown that readings from the speeches and messages of great Americans, for example, or from the documents of our heritage of liberty, daily recitation of the Pledge of Allegiance or even the observance of a moment of

reverent silence at the opening of class, may not adequately serve the solely secular purposes of the devotional activities without jeopardizing either the religious liberties of any members of the community or the proper degree of separation between the spheres of religion and government. . . .”

The Supreme Court of New Hampshire in Opinion of the Justices, 108 N.H. 97, 228 A.2d 161 (1967), and Opinion of the Justices, 113 N.H. 297, 307 A.2d 558 (1973), has interpreted the above quote to mean that the authorization of a period for voluntary silent meditation would not violate the First Amendment of the Constitution of the United States. It appears then that a moment of silent thought amounts neither to a state endorsement of any form of religion or deity, nor state prohibition of any matter of conscience. Indeed, a principle function of secular education is to encourage students to reflect upon problems of serious thought. A pause during the school day for the purpose of encouraging serious thought is entirely consistent with the functions of the state in education. It would also appear that readings in the public schools from the speeches and messages of great Americans or from documents of our heritage of liberty is also consistent with the functions of the state in education. Consequently, we are of the opinion that proper celebration of our Nation's holidays and a pause during the school day in reverent silence is not unconstitutional.

The Pledge of Allegiance.

In West Virginia State Board of Education v. Barnett, 319 U.S. 624 (1943), overruling Minorsville School District v. Gobitis, 310 U.S. 586 (1940), the court held that a West Virginia State Board of Education resolution, which required children, as a prerequisite to their continued attendance at public school, to salute the flag and recite the Pledge of Allegiance, was unconstitutional as applied to the children of Jehovah Witnesses since it denied them freedom of speech and freedom of worship. In rejecting the resolution, the court held that the state could not “prescribe what shall be orthodox in politics, nationalism, religion or other matters of opinion nor can the state force citizens to confess by word or act their faith therein.” *Id.* at 624. In Barnett not only was recitation mandatory but expulsion from school was the penalty for noncompliance.

In Lewis v. Allen, 159 N. Y. 2d 807 (1957), *aff'd.* 207 N.Y. 2d 862 (1960), *aff'd.* 252 N. Y. 2d 80 (1964), an individual was challenging the recitation of the part “under God” in the Pledge of Allegiance as a violation of their freedom of religion. The court in that case held that the Pledge of Allegiance recited in public schools did not violate the First Amendment where it was completely voluntary and no penalties were imposed for failure or refusal to recite the Pledge.

In State v. Lundquist, 262 Md. 534, 278 A.2d 263 (1971), plaintiffs challenged a Maryland statute which required all students and teachers,

except those objecting for religious reasons, to stand, salute the flag and recite the Pledge of Allegiance in unison. While holding this Maryland statute unconstitutional as violating the First Amendment, the court based its decision not on the establishment clause of the First Amendment but on the right of free speech and free expression as guaranteed in the First Amendment. The court held that the Barnett, supra, decision was not based on the freedom of religion as guaranteed in the First Amendment but was based on the guarantee of the right of free speech and free expression under the First Amendment. In Goetz v. Ansell, 477 F.2d 636 (2d Cir. 1973), a regulation requiring students who refused to salute the flag to either stand or leave the classroom was held invalid as a violation of the students' freedom of expression as guaranteed by the First Amendment. The court held that a student had the right to remain seated while the Pledge was being recited as long as it wasn't disruptive to the rest of the class.

In Banks v. Board of Public Instruction of Dade County, 314 F. Supp. 285 (S.D. Fla. 1970), a regulation requiring students to recite the Pledge of Allegiance to the Flag or stand quietly during the salute ceremony was held in direct conflict with the free speech and expression guarantee of the First Amendment.

It thus appears that if the recitation of the Pledge of Allegiance is made completely voluntary and no penalties are imposed for failure or refusal to recite the Pledge, that it could be properly recited in the public schools and would not violate either freedom of religion or freedom of speech as guaranteed by the First Amendment. However, it must be made clear that anyone who does not wish to partake in the Pledge of Allegiance cannot be forced either to stand or leave the room while it is being recited but may remain seated or stand quietly or leave the room as their conscience demands.

Very truly yours,

ATTORNEY GENERAL'S OPINION

Opinion No. 192
 March 3, 1976

Dear Senator Goodrich:

You have requested in your letter of February 26, 1976, an opinion of the effect of eliminating certain provisions in Section 53-168 of the Liquor Control Act on the prohibition of wholesalers giving anything of value to a retailer.

For clarification purposes we are setting forth Section 53-168 as it is presently found in the statute books striking through the words that you indicated in the copy of LB 700 as being the words you wished to eliminate.

~~“(1) It shall be unlawful for any person having a retailer’s license to sell beer to accept credit for the purchase of beer from any manufacturer, distributor, or wholesaler of beer and for any person having a retailer’s license to sell alcoholic liquor, or any officer, associate, member, representative, or agent of such licensee, to accept, receive, or borrow money or anything else of value or to accept or to receive credit, other than merchandising credit in the ordinary course of business for a period not to exceed thirty days, or to accept any discount, rebate, free goods, or allowances, or other inducement of any kind whatsoever directly or indirectly, from (a) any person, partnership, or corporation engaged in the manufacturing, distributing, or wholesaling of such liquor, (b) from any person connected with or~~

in any way representing such manufacturer, distributor, or wholesaler, (c) from any member of the family of such manufacturer, distributor, or wholesaler, (d) from any stockholders in any corporation engaged in manufacturing, distributing, or wholesaling of such liquor, or (e) from any officer, manager, agent, or representative of such manufacturer, distributor, or wholesaler.

(2) It shall be unlawful for any manufacturer, distributor, or wholesaler to give or lend money ~~or anything of value~~ or otherwise loan or extend credit, except the merchandising credit referred to in sub-section (1) of this section, directly or indirectly, to any such licensee or to the manager, representative, agent, officer, or director of such licensee.

(3) It shall be unlawful for any manufacturer, distributor, or wholesaler to grant to a retailer licensed under this act to sell alcoholic liquors, directly or indirectly, any discount, rebate or ~~free goods, allowances, or other inducement of any kind whatsoever,~~ except as provided in subsection (1) of this section".

The end result, of eliminating the words that you have indicated, make ambiguous the prohibition against a wholesaler passing on to a retailer money, discounts, rebates or allowances. The words "or anything else of value" has an all inclusive meaning and makes for a more clearer understanding of the arms length dealings that wholesalers and retailers must have under the intent of Section 53-168, that being the elimination of tied-house arrangements. The prohibition is still present in that the wholesaler shall not give, nor shall the retailer accept, money, discounts, rebates or allowances. The elimination of the words "or anything else of value" then gives rise to the question as whether or not items such as bottle pourers, napkins, matches, menus or delivery, are they a thing of value or are they inclusive in the words "discounts, rebates or allowances".

Therefore, we are of the opinion that the striking of the words that you have indicated does not achieve the purpose for which their elimination was intended.

You further mention in your letter considering introducing a "right of survivorship" clause for the husband or wife to pass on the business to the survivor, and a further amendment to permit Fraternal Order of Police to hold a liquor license. These are legislative policy matters on which this office does not take a part.

Respectfully yours,

PAUL L. DOUGLAS
Attorney General

18 established when it can be determined that the collection
19 of child support is feasible. The department shall

13 from the department of such assignment of child support
14 payments, each clerk of the district court shall transmit

21 suspension continue for more than three months, except
22 that the clerk shall transmit payments directly to the
23 caretaker of the children during the period of suspension
24 of aid to dependent children when so instructed in
25 writing by the department. Any court-ordered child
26 support remaining unpaid during the period of the
27 assignment to the department shall constitute a debt
1 collectible by the department as reimbursement for aid to
2 dependent children payments made during the period of the
3 assignment.

4 Sec. 10. The county attorney may intervene in
5 or reopen any proceeding for dissolution of marriage,
6 separate maintenance, or child support, for the purpose
7 of securing an order for child support or amending an
8 order for inadequate child support. Such proceedings
9 shall be limited only to the determination of child
10 support. The county attorney shall so act only when it
11 appears that the children are not otherwise represented
12 by counsel.

13 Sec. 11. A garnishment for the collection of
 14 child support may be filed in any jurisdiction where any
 15 property or credits of the defendant may be found
 16 irrespective of the residence of the creditors or the

18 Sec. 12. This act shall be interpreted so as to
 19 facilitate the determination of paternity and child
 20 support enforcement.

21 Sec. 13. That original sections 42-821 and

PRAYER

The prayer was offered by the Chaplain.

O God of us all, may the members of this legislative body keep ever before them the high responsibility which is theirs. They have an unprecedented challenge; may they make appropriate responses and continually to develop into statesmen. May their debates ever be upon issues, rather than upon human personalities. Give this body the vision to have courage for greatness. May they respond to their challenges, living neither in their vacuum of futility or the gold fish bowl of exhibitionism. Guide them to live as responsible, elected officials, with courage, integrity, vision, cool minds and compassionate hearts. In our Lord's name. Amen.

Vince Brown
Clerk of the Legislature
Legislative Council
Room 2018
State Capitol

Dear Clerk Brown:

I am pleased to provide the Nebraska Legislature with a copy of the Committee's First Annual Report for the 1974-1975 Fiscal Year as required by state law. Although this report is late, it took quite some time to check old records and reports to see whether any prior annual reports had ever been filed. I found no prior annual reports filed in our records. I also have no knowledge of such reports being filed with the Clerk of the Legislature. If you have such knowledge, please let me know.

Would it be possible to have this letter or notice of filing this report

read into the daily journal?

A biennial report will be forthcoming to the Executive Board of the Legislative Council. This report will cover the Committee's activities since its inception in 1971. This is being done so as to have a complete recorded account of the Committee's work for its own purposes as well as for the Executive Board.

Thank you for your cooperation.

Respectfully yours,

(Signed) Charles R. Fricke

ATTORNEY GENERAL'S OPINIONS

Opinion No. 194
March 8, 1976

Dear Senator Anderson:

We have reviewed LB 956. We understand the intent of the bill is to authorize the release of data maintained in computer files, when the data is a public record in its original form. Under the current statutory scheme data in a computer file may not be released. As we understand your question and the introducer's statement, LB 956 is intended to correct this situation. Similar questions have been raised by Senator Cavanaugh. A copy of our letter to Senator Cavanaugh is enclosed. A copy of this letter has also been sent to Senator Cavanaugh.

As drafted LB 956 in part provides in section 1, "... except that data which is a public record in its original form shall remain a public record when maintained in computer files." Section 3 provides for the inspection of public records. We point out that section 1 still fails to specifically provide that the Director or the Data Processing Administrator may release data which is a public record when maintained in computer files.

While it has been the policy to refrain from drafting legislation, we are making an exception in this instance to aid in solving present problems.

If the intent of LB 956 is to authorize the release by the Director of Administrative Services or the Data Processing Administrator of data which is a public record in its original form, when it is maintained in computer files, the statute should specifically provide that authority. With that in mind we would suggest that the intent of LB 956 is not sufficiently accomplished either as drafted nor in the proposed amendments.

Were section 1 of LB 956 amended by inserting at page 2, line 10, after pertains:

"provided that the Data Processing Administrator or the Director of Administrative Services shall release data maintained in computer files which is a public record as defined by law in its

original form. The Director of Administrative Services or the Data Processing Administrator may release nonpublic records to a public agency when it is determined that a public agency requires such data in the performance of its official duties and such record in its original form may be disclosed to that public agency."

The proposed language is offered for your consideration and possible adoption.

Sincerely yours,

PAUL L. DOUGLAS
Attorney General

Senator John Cavanaugh, III
Member of the Legislature

Opinion No. 195
March 8, 1976

Dear Senator Cavanaugh:

Some time ago you asked several questions relating to the problems posed by public records maintained in computer files. At the time of your request you indicated that you were interested in drafting legislation to clarify some of the problems that have arisen. Since that time two bills have been introduced relating to the disclosure of public records and the problems of data stored in computer file form. In answering your questions we have taken the liberty of considering LB 788 and LB 956.

It has been our policy to refrain from drafting proposed legislation. However, the present situation involves a great deal of controversy, misunderstanding and confusion even though everyone seems to agree upon the desired result. In the interest of resolving these problems we deem it appropriate to make a special exception and depart from our established policy.

In addition to your request for an opinion relating to the disclosure of public records, Senator Anderson has requested an opinion on LB 956. We have responded to his request and we enclose with this letter a copy of that response. We will send Senator Anderson a copy of this letter.

It is our understanding from the history of legislation in this area that the aim is twofold. First, to protect the individual's right to privacy, and

second, to facilitate the release of public records. Thus the dilemma, how to facilitate the public right of access to public records while restricting inappropriate release of data stored in computers. A description of public records is required as a basis for resolution of this problem. There are certain areas of agreement by all parties. As examples, but not limitations it seems to be agreed that the name and salary of state employees should be public records, and that the records of agency expenditures for the purchase of goods and service should be public records.

Beyond these three areas mentioned in your request for our opinion, it may be said that a public record is one that is kept by virtue of a duty imposed by law upon an agency or officer which is not expressly or by necessary implication made confidential, privileged, or private by statute. A further definition of public records is contained in Section 81-1117.04, 1975 Supp. The amendment proposed by LB 956 is more broad in its range although we question its practical effect. The exception now provided in "except as otherwise provided by law" LB 956, provides "except as otherwise expressly provided by statute." If this is an attempt to restrict judicial action it is questionable. With these definitions it may be said that all records generated by state officers or agencies are public except where made private, confidential or priveleged(sic) by law. Prior to the enactment of LB 472 no impediment existed to disclosing these records. After enactment, although still public records, computer files containing these records could not be released. The records are available from the officers responsible for generating them but not from the computer file.

Historically, the State of Nebraska has implemented public access to public records. As early as 1886 the Supreme Court in *State v. Meeker*, 19 Neb. 106, 26 N.W. 620 (1886), compelled a clerk of a district court to disclose the records of his office. The statute at that time provided:

"All citizens of this state and all other persons interested in the examination of public records are hereby fully empowered and authorized to examine the same free of charge during the hours the respective offices may be kept open for the ordinary transaction of business."

That early statute with minor modification survives today as sec. 84-712, R.R.S. 1943.

We have reviewed your bill LB 788, 84th Legislature, Second Session, which proposes a separate body to pass upon the questions that arise with regard to access to records maintained by public entities and the rights of those individuals about whom information is maintained and LB 956 which amends secs. 81-1117.02, 81-1117.04 and 84-712.

LB 956 as we point out in our letter to Senator Anderson to solve present problems should be amended to read in section 1:

"provided that the Data Processing Administrator or the Director of Administrative Services shall release data maintained in computer files which is a public record as defined by law in its

original form. The Director of Administrative Services or the Data Processing Administrator may release nonpublic records to a public agency when it is determined that the public agency requires such data in the performance of its official duties and such record in its original form may be disclosed to that public agency."

The amendment proposed for consideration would make clear that DAS is under the same obligation to provide access to public records as other officers and agencies. We would recommend the proposed language for consideration and possible adoption to clear up the problems under the present statutes.

Very truly yours,

PAUL L. DOUGLAS
Attorney General

Clerk of the Legislature
Senator Gary Anderson
Member of the Nebraska Legislature

Opinion No. 196
March 9, 1976

Dear Senator DeCamp:

We have reviewed your proposed amendments to LB 779. You ask whether either of your alternatives 1 or 2 violate the provisions of the Constitution, specifically Article III, Sections 22 and 25, and Article XIII, Section 1. In discussing your questions, we will deal first with Alternative No. 1.

LB 779 is intended to authorize the Game and Parks Commission to enter into contracts with the federal government under the Federal Water Projects Recreation Act of 1965 and provisions of the Water Resources Development Act of 1974. Your first alternate amendment proposes that:

"... The Game and Parks Commission is authorized to enter into all necessary agreements with the United States for the acquisition, development, operation, maintenance and replacement of fish, wildlife, and recreation lands and facilities and all things pertaining thereto on all water resource development projects and to bear the separable costs allocated to

said purposes in the proportion specified by such Act, as amended, and to pay or repay such costs in accordance with the terms of such agreement."

To the extent that Alternative No. 1 seeks to authorize the Game and Parks Commission to enter into an agreement which would bind the state to pay sums beyond the year in which an appropriation is made, it would be in violation of the restriction of Article III, Section 22, in that each Legislature is independently responsible for making the appropriations necessary to the operation and conduct of government. Any contract that purports to bind the Legislature to make a particular appropriation would be in violation of this section.

Alternative No. 2 provides in part:

"... The Game and Parks Commission is hereby authorized and empowered to perform, within the limits of available funding, such acts as may be necessary to administer, operate, maintain, and replace land and water areas for recreation or fish and wildlife purposes or for both of such purposes in accordance with the provisions of such Act as amended. Said Commission is further authorized to agree in writing, subject to funds being made available therefor, to bear the separable costs of federal projects allocated to either or both of said purposes in the proportion specified by such Act, as amended, and to pay or repay such costs in accordance with the terms of such agreement." (Emphasis added.)

This alternative amendment presents a slightly different problem in that it can be read to say that the Commission is authorized to agree in writing after funds have been made available for the purposes specified. If it is the intent of the amendment that no agreements be entered into until an appropriation has been made for such a project, then we see no difficulty with this language. However, if it is the intent, as we understand your letter, that the Game and Parks Commission may enter into an agreement in advance of an appropriation, subjecting the effectiveness of the agreement to in fact securing an appropriation from the Legislature, then the language of Alternative No. 2 presents a problem of interpretation.

Alternative No. 2 appears to us to be constitutionally permissible if it is clear that an agreement entered into by the Game and Parks Commission is to be made contingent upon securing the appropriation required to effect the agreement. Alternative No. 2 provides two separate powers for the Game and Parks Commission. First, they are authorized to perform necessary acts for the administration, operation, and maintenance or replacement of land and water areas for fish and wildlife recreation. Secondly, they are authorized to agree to bear certain costs of federal projects as provided by the acts mentioned above. We find no difficulty

with the first power given to the Commission under Alternative No. 2 in that it specifically limits the Game and Parks Commission to act pursuant to appropriation presently made. However, we feel that the second power granted may be more broad than is constitutionally permissible. As drafted, the language is not clear as to whether the Commission may enter into the agreements absent any funding or only after such funding is available. Were it clear in the amendment that any agreements that may be entered into must be contingent upon appropriate action by the Legislature, then our opinion would be that the power granted is probably constitutionally valid.

Very truly yours,

PAUL L. DOUGLAS

EIGHTY-FOURTH LEGISLATURE
SECOND SESSION

FORTY-SIXTH DAY

Legislative Chamber, Lincoln, Nebraska
Thursday, March 11, 1976

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Whelan presiding

PRAYER

The prayer was offered by the Chaplain.

Eternal God, while working with bills and procedures of an objective nature, may we try to be objectively honest with ourselves and with others. We pray for strength to harness our unruly tongues; to carry our responsibilities; to have the same criteria for judging ourselves that we apply to others. Forgive us for often wearing a friendly mask which hides a sullen heart, and using fine words which conceal shabby thoughts. May we strive to develop an identity between our outward and our inner person, that we may see ourselves as persons of integrity. In our Lord's name. Amen.

ROLL CALL

The roll was called and all members were present except Messrs. Keyes, Stull and Swigart who were excused; Mr. Koch who was excused until he arrives.

ATTORNEY GENERAL'S OPINIONS

Opinion No. 197
March 10, 1976

Dear Senator Warner:

You have informed us that you have introduced LB 912, striking certain provisions of section 2-955, 1975 Supp., because of your concern that those provisions lack constitutional rights of due process. You have asked for our opinion as to the necessity for such amendment to section 2-955.

LB 912 would amend section 2-955 by striking all of subsection (2) of that section. This is the subsection which authorizes the weed control authority to take the necessary steps to eradicate weeds which the owner of the land has failed to control, and to collect the cost of such eradication from the owner by special assessment or suit. It would, apparently, destroy any effect of section 2-955, since that section would then provide for notices to be given to landowners to control their weeds, but would remove the power of the control authority to eradicate the weeds, in the event the landowner failed to do so, or to collect the cost from the landowner.

Our examination of the applicable statutes leads us to believe that there are no apparent constitutional difficulties which require the sort of amendment accomplished by LB 912. The Nebraska Supreme Court considered section 2-955 in Hi-Point Land & Cattle Co., Inc. v. Schlaphoff, 193 Neb. 276, 226 N.W. 2d 926 (1975). In that case the plaintiff had originally attacked the constitutionality of the weed control law, but had apparently abandoned that contention on appeal. The Supreme Court, however, said that, in any event the constitutionality of such acts appeared to be well-established. The court cited 3 Am. Jur. 2d, Agriculture, Sections 45 and 46, pp. 811 and 812. An examination of the portion of American Jurisprudence cited by the court reveals this language:

“As in the case of other agricultural nuisance statutes, provisions for the destruction of the weeds by public officers

upon failure or refusal of the landowner to comply with the statute and for assessment of the expense against the landowner are ordinarily held valid, provided notice and opportunity for hearing are given before the assessment becomes conclusive, although the contrary view has been taken. . . ."

As you will note, section 2-955 now provides that the owner of the real estate, in addition to being given notice that he should control his weeds before the control authority does so, is also advised of the cost of such control after it has been accomplished. Section 2-960, R.R.S. 1943, provides that if he is dissatisfied with the amount of the charge, he may file a protest with the director within fifteen days. The director is then required to hold a hearing, and shall have the power to adjust or affirm the charge. We believe that this provision for hearing complies with constitutional due process requirements, and that the amendment which would be accomplished by LB 912 is not necessary to make the weed control act constitutional.

Very truly yours,
PAUL L. DOUGLAS
Attorney General

Opinion No. 198
March 10, 1976

Dear Senator Warner:

You have stated that you have a concern as to whether the tax levy which supports the County Agricultural Society constitutes a part of the maximum levy which may be assessed by a county. We believe that it is clear that it does not.

Article VIII, Section 5 of the Nebraska Constitution provides in part that county authorities shall never assess taxes the aggregate of which shall exceed fifty cents per one hundred dollars actual valuation. Of course, the county board actually does levy taxes in excess of this amount, but it does so for other governmental subdivisions, as opposed to the county itself. These additional levies are not included within the constitutional limitation.

County agricultural societies are not a part of county government. Section 2-201, R.R.S. 1943, provides for the organization of such a society by 20 or more persons. The society adopts a constitution and

bylaws, and raises money by voluntary subscriptions or by a fee imposed upon its members. Statutory provision is made for tax levies to aid and assist the society in the performance of its functions. The taxes are levied by the county board, collected by the county treasurer, and paid to the managing board of the county agricultural society. In Wilson v. Thayer County Agricultural Society, 115 Neb. 579, 213 N.W. 966 (1927), the court specifically held that an agricultural society was a separate entity from the county and, indeed, apparently held that such a society is not a governmental agency at all.

In Dwyer v. Omaha-Douglas Public Building Commission, 188 Neb. 30, 195 N.W. 2d 236 (1972), the court considered the question of whether the mill levy limitations of Article VIII, Section 5 of the Constitution applied to a levy to pay off bonds issued by the building commission. The court extensively analyzed the effect of this constitutional provision, and concluded that the one-half mill levy involved in that case was the levy of the building commission, and not of the county, and therefore did not come within the constitutional limitation of Article VIII, Section 5. We believe that the agricultural societies contemplated by sections 2-201 et seq. are even more clearly not a part of the county government than was the case of the building commission involved in Dwyer, and we are confident that the mill levies for the support of such societies would not be included in the counties' mill levy for purposes of the constitutional limitation.

Very truly yours,

PAUL L. DOUGLAS
Attorney General

ATTORNEY GENERAL'S OPINION

Opinion No. 199
March 9, 1976

Dear Senator Warner:

You have given us a copy of a proposed amendment to LB 824, and asked for our comments on its effect. The amendment would add a fourth section to the bill, reading:

“Sec. 4: (1) The Legislature shall, during each regular session determine and set appropriations for the next two succeeding fiscal years.

“(2) The Legislature shall during each regular session review the appropriations for the next fiscal year, set pursuant to subsection (1) of this section, and may either amend or affirm such appropriations. The Legislature shall also determine and set appropriations for the second fiscal year following.

“(3) Each appropriation determined and set pursuant to this section shall be considered as an express obligation by the State Board of Equalization and Assessment when setting the tax rate pursuant to section 77-2715.01.”

You ask whether the present statutes relative to the Board of Equalization's rate-setting power of sales and income tax rates contain adequate guidelines for the second half of a calendar year, and whether the proposed amendment would provide needed guidelines.

We discussed the "express obligations" problem in an opinion of this office to the Governor dated November 10, 1975 (No. 141). We concluded that sec. 77-2715.01 and sec. 77-2715.03, 1975 Supp., were not as specific as was desirable in defining the "express obligations" that were to be taken into account by the Board in performing its rate-setting function, and that a court might hold that an unconstitutional delegation of legislative powers was involved.

A large part of the difficulty in this area is caused by the fact that appropriations are made on a fiscal year basis, with the year ending on June 30th, whereas the sales tax rates are set on a calendar year basis, and the income tax rates are set for all taxable years beginning in the next calendar year. As a consequence, when the Board meets in November of each year to set the tax rates for the next calendar year, it has appropriations to work with only for the first six months of that year, and the amount necessary to be raised during the last six months becomes speculative, since it is dependent upon appropriations by the next session of the Legislature. The amendment you inquire about is no doubt an attempt to provide the Board with legislatively-determined "express obligations" which it may use in performing its function.

We have considered the question of whether the amendment would violate the provisions of Article III, Section 22 of the Nebraska Constitution, and have concluded that it would not. That section provides in part that each Legislature shall make appropriations for the expenses of the government. An argument can be made that this prevents the Legislature from making appropriations for fiscal years beginning after that particular Legislature goes out of existence, since this would be an encroachment upon the right of the next Legislature to make such appropriations. However, as we construe the proposed amendment, this is not the case.

The amendment contemplates that each session of the Legislature shall review the appropriations for the next fiscal year, and either amend or affirm them. By its action in doing so, the Legislature at each session, is, in effect, making appropriations for the next fiscal year. The appropriation for the "second fiscal year following" is actually only a tentative appropriation, in no way binding upon the next session of the Legislature, and subject to review by it. Under these circumstances, we do not believe the contemplated procedure would be a denial of the right of subsequent sessions of the Legislature to make appropriations for the expenses of government.

Some question may arise as to the effect of Article IV, Section 7 of the Constitution on this amendment. Whether the Governor should be expected to present a budget for a fiscal year which may begin six months after he has left office is somewhat questionable. Further, that section of the Constitution provides that no appropriations shall be made in excess of

recommendations in the Governor's budget except by three-fifths vote of the Legislature, and shall be subject to veto by the Governor. This might lead to an anomalous situation, with an outgoing Governor vetoing expenditures for a fiscal year beginning long after his term.

However, we believe these problems can be solved by regarding the appropriation for the second year as simply a tentative one, and only the appropriation for the next fiscal year as the final one, subject to provisions of Article IV, Section 7. In other words, the action of the Legislature in amending or affirming the previously adopted tentative appropriation would be subject to the three-fifths rule, and to the Governor's veto.

As we construe the proposed amendment, its primary purpose is to give the State Board of Equalization and Assessment legislatively-prescribed guidelines to use in making provision for "express obligations." As so limited, we do not see any readily apparent constitutional difficulties, and it would seem to eliminate some problems we have had in the past as to what the State Board should regard as express obligations.

We wish to point out, however, that the construction we have given the amendment in question is not as firmly spelled out in the language used as might be desired. We attempt to construe statutory language so as to render the statute constitutional, rather than unconstitutional. Our regarding the appropriation for the second fiscal year as being a tentative one, and the action of the Legislature in revising the appropriations for the next fiscal year, and either amending or affirming them as being the actual, final appropriation, is our attempt to give a constitutionally valid construction to this amendment. If this construction truly reflects your intention with respect to this amendment to LB 824, it probably should be spelled out more clearly, so that the purpose and effect of having the Legislature make appropriations for the second fiscal year is apparent on the face of the statute, and is not dependent upon our supposition of what was intended. We will be glad to discuss with you possibly desirable changes.

Very truly yours,

PAUL L. DOUGLAS
Attorney General

SECOND SESSION

FORTY-SEVENTH DAY

Legislative Chamber, Lincoln, Nebraska
Friday, March 12, 1976

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Whelan presiding.

PRAYER

The prayer was offered by Dr. Alva H. Clark, St. Paul United Methodist Church, Omaha, Nebraska.

Eternal God, Creator and Maintainer of the Universe, we have been taught that you are concerned for the personal lives of all your children. We have tried to find more effective ways of living in mutual respect, dignity and concern for each other. We have elected persons to represent us in writing laws and evaluating programs which enable us to function as a people in this part of your world. As these persons strive to be of service to all whom they represent, enable them to be equally concerned for eternal purposes toward which all of us may be motivated. As they seek to know the will of those who trust them, give at least equal concern to be obedient to the inner voice of conscience at the same time that they listen to the contending voices of conflicting interests, give at least equal sensitivity to the inner voice which comes from the profound depths of the Spirit.

In moments when dollars become a powerful controller of destiny, give at least equal concern for the human needs to be met with those dollars. In a day when limited vision restricts our horizon to the area of personal cost, give at least equal concern for those whom we may never see, but who are affected by little things which happen in isolated places of our universe. In the moment when power plays seem to be more significant than all else, keep us aware of the importance of quiet places, where power rests more on knowledge than on our strategic methods of parliamentary procedure. We give thanks for each person here who is committed to public service, personal achievement, group empowerment, and institutional strength. Through all deliberations of these persons, let the still small voice of truth and righteousness speak through minds that are clear, emotions that

are calm, and spirits that are filled with compassion. Thus may your Glory be expressed and your children blessed. Amen.

MESSAGE FROM THE GOVERNOR

March 12, 1976

Mr. President, Mr. Speaker,
and Members of the Legislature
State Capitol Building
Lincoln, Nebraska

Dear Mr. President and Senators:

The Governor's supplemental appropriation bill for the support of pre-school programs for mentally retarded children has finally been reported out of committee.

It was my intent in LB 972 that pre-school programs for mentally retarded children be funded at levels which would allow them to continue their work in this very important area.

On November 19, 1975, I stated my intent to request funds for pre-school services for mentally retarded children. Community-based mental retardation programs were then urged not to drop services to pre-school children pending action on my recommendations by the Legislature.

With this in mind, I requested that the Department of Administrative Services work closely with the Nebraska Association for Retarded Citizens (NEBARC)-which represents retarded citizens and parents' groups across this state--to develop cost figures on pre-school programs. The \$528,000 I recommended as provided in LB 972 for pre-school programs for mentally retarded children is that amount developed with the help of and agreed to by NEBARC.

It was my expectation following the passage of Legislative Resolution 2 in this previous Special Session of the Legislature, that the question of funding for programs for mentally retarded citizens would be handled expeditiously through the Legislative process.

Legislative Resolution 2 states in part:

"That the Legislature calls upon the Governor to continue a level of reimbursement to the community-based mental retardation programs such that no reduction in quantity or quality of services occurs until the Legislature can meet in regular session and establish a proper level of services for the remainder of the fiscal year."

LR 2 passed with 37 ayes and no objections.

NEBARC officials obtained information from the Mental Retardation Regions as to what they were actually expending in pre-school programs.

In preparing LB 972 for introduction we used the figures provided us by NEBARC, and allocated the \$528,000 in the bill based on a formula that would provide funds to each region based upon their actual expenditures as reported, as follows:

Region I	\$ 69,696
Region II	50,213
Region III	80,098
Region IV	42,715
Region V	162,993
Region VI	122,285

Since LB 972 was prepared, new facts and figures have come to my attention. Community-based programs for the mentally retarded have reduced pre-school programs contrary to my recommendations.

In a letter to Senator Marvel dated January 12, 1976, the Regional Directors of community-based programs for the mentally retarded indicated new amounts with which remaining programs could continue to operate at adequate levels. In so doing the regions changed their previous requests.

Therefore, it is my recommendation that LB 972 be amended--still within the \$528,000 figure--to reflect the latest amounts requested by the Regional Directors from Region I through Region V with the remaining funds to be allocated to Region VI-ENCOR; and to allow funds to be expended as the governing boards may determine.

The new amounts would be:

Region I	\$ 39,000
Region II	76,068
Region III	90,235
Region IV	34,000
Region V	80,000
Region VI	208,697

I do not recommend funding the full new amount requested by Region VI-ENCOR which is now \$676,137, but rather limit them to \$208,697 as indicated.

As late as the middle of November, 1975, ENCOR officials anticipated revenue from all sources of 5.5 million. It is their contention now that this figure is \$350,000 too high and that the State of Nebraska should assume liability for these lost revenues--even though \$250,000 is revenue lost from local sources.

It should be pointed out that while ENCOR has been requesting larger and larger amounts of funds from the State each and every year, the five counties composing ENCOR have increased their contributions by a total of only \$1,325 since FY 1972/1973.

\$100,000 of the \$350,000 loss of anticipated revenue by ENCOR is composed of funds allocated to ENCOR in LB 605 and LB 610 from the Division of Vocational Rehabilitation Services. A request might be made by the Legislature, since we have not been successful in obtaining the information, as to what the Department of Education did with the funds which you appropriated.

This problem has been brought to the attention of the Commissioner of Education and the Appropriations Committee by my staff. It has not been resolved.

I believe the recommendation that I make to you today herewith will fairly resolve the requirements of community-based mental retardation regions.

All agree that the Governor's funding recommendations for FY 1976/1977, accepted by the Appropriations Committee, are adequate.

Very truly yours,

(Signed) J. James Exon
Governor

RESOLUTION

LEGISLATIVE RESOLUTION 131.

Introduced by Cope, 36th District.

WHEREAS, the Nebraska Legislature is ever conscious to ensure the

safety of our state's citizens on the highways, in their work, in transportation of people and materials, in homes, and in recreation; and

WHEREAS, our present traffic education program has certain limitations, including a need for a new curriculum and the need for the development of facilities to improve safety education instruction and provide for practical experiences; and

WHEREAS, there is no institution of higher learning in Nebraska which prepares safety specialists to organize safety programs; and

WHEREAS, the Nebraska Highway Safety Program, a division of the Department of Motor Vehicles, is currently funding a Feasibility Study at Kearney State College to determine the prospect of developing a "State Traffic Education Center"; and

WHEREAS, a number of State agencies and private associations have expressed a positive interest in wanting to encourage and work with such a center; and

WHEREAS, the primary purpose of such a center would be functional in nature and would provide services related to safety education which would eventually lead to a reduction in the number of fatalities, injuries, and the amount of property damage suffered by the people of Nebraska.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-FOURTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That an Interim Study Committee appointed by the Legislature analyze the problem and examine the advisability of implementing a "State Safety Education Center."

2. That the committee make a report of its findings together with its recommendations for possible legislation to the next regular session of the Legislature.

Referred to the Executive Board.

EIGHTY-FOURTH LEGISLATURE
SECOND SESSION

FORTY-EIGHTH DAY

Legislative Chamber, Lincoln, Nebraska
Monday, March 15, 1976

Pursuant to adjournment, the Legislature met at 9:30 a.m., President Whelan presiding.

PRAYER

The prayer was offered by the Chaplain.

Eternal God, we confess we so often use our agility to avoid responsibility. Help us with the rush of constant pressures not to follow the lower levels and the easy escapes. Guide us lest we hurt those deeply upon whom we are most dependent. Through chance, or providence, we are here to do strategic work, and are challenged by issues far beyond our limited knowledge. Give to this Legislature humility of spirit, yet tenacity of intellect, that they may rise to new heights because of the mountainous issues before them. May each have a serenity of spirit which keeps them from frustrations, and enables the making of vital decisions in a calm and sane manner. In the name of our Master. Amen.

COMMUNICATION ON LB 919

March 15, 1976

Mr. Vince Brown
Clerk of the Legislature
State Capitol
Lincoln, Nebraska 68509

Dear Vince:

The Revenue Committee has drawn amendments to LB 919 and has advanced it to the Floor.

I suggest that it not be necessary for you to have this mammoth amount of material printed as amendments to LB 919 and put in our Bill Books. LB 919 will not be up for consideration this year but since we do have the amendment, we may be able to use it sometime in the future. I believe we can save the state some money on this as the printing would be completely unnecessary at this point.

I have the assured cooperation of Senator Warner, the introducer, on this matter.

Sincerely,

EIGHTY-FOURTH LEGISLATURE
SECOND SESSION

FORTY-NINTH DAY

Legislative Chamber, Lincoln, Nebraska
Tuesday, March 16, 1976

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Whelan presiding.

PRAYER

The prayer was offered by the Chaplain.

O God, our loving Father, in these moments of quiet before the feverish activity of this day, give to this Legislature a quiet corner from which to make decisions. Help our turbulent and tossed minds to be in contact with Thee, the author of our being and the source of all truth. Thou hast given us the key to life, but so often we merely try to break down the walls. Without Thy truth our words are empty, and without Thy goals our travels are often aimless. Ultimately our words and deeds are empty without Thy direction. Fill us with mercy, therefore, and may Thy joy be the wellspring from which our decisions are made. We pray in our Lord's name. Amen.

ROLL CALL

The roll was called and all members were present except Mr. Cavanaugh who was absent until 9:20 a.m.

ATTORNEY GENERAL'S OPINION

Opinion No. 200
March 15, 1976

Dear Senator R. Lewis:

You have asked for our opinion on an amendment being offered to L.B. 805. The amendment provides:

“The approval of the particular county board shall be required before any land in such county may be sold to any city outside such county.”

By the terms of this amendment no person or individual would be able to sell land to any city outside of such county without the approval of the county board. This is a clear alienation upon the right of persons to transfer title to real estate. Article I, section 25 provides:

“There shall be no discrimination between citizens of the United States in respect to the acquisition, ownership, possession, enjoyment or descent of property....”

This language was interpreted in State, ex rel. English v. Ruback, 135 Neb. 335, 281 N.W. 607, in which the court stated:

“The conclusion is that the constitutional guaranties of our Bill of Rights contemplate that every person legally possesses the right of acquiring the absolute and unqualified title to every species of property recognized by law, with all rights incidental thereto, and, in connection with the right of personal liberty, it includes the right to dispose of such property in such innocent manner as he pleases, and to sell it at such price as he can obtain in fair barter. . . .” (135 Neb. at 339)

While the proposed amendment does not provide the county board may deny the right to sell a particular piece of property to a particular buyer, such a right is clearly implied in the statute and in our opinion would be in

violation of the constitutional provision above-cited.

Sincerely yours,

PAUL L. DOUGLAS

Attorney General

MESSAGE FROM THE GOVERNOR

March 16, 1967 (sic)

Mr. President, Mr. Speaker
and Members of the Legislature
State Capitol Building
Lincoln, Nebraska

Dear Mr. President and Senators:

I am hereby returning LB 652 without my signature and with my objections.

LB 652 would remove the Director of Public Institutions from the Nebraska Commission on Alcoholism and replace him with the Director of the Division on Alcoholism within the Department of Public Institutions.

To give statutory authority and power to a subordinate of an agency director which the agency director himself does not have is in my estimation poor legislative policy. Efforts should be made to streamline the operation of the Department of Institutions by strengthening the role of the Director rather than weakening it.

It would appear that LB 652 is simply one step in an effort to separate and make independent the Division on Alcoholism within the Department of Public Institutions. One of the fundamental problems with the Department of Institutions is that legislation exists which diffuses decision and policy-making authority throughout the Department rather than concentrating that authority in the Director who could then properly be held accountable. LB 652 would merely add to this confusion and this we simply can't afford.

I strongly urge that you uphold this veto.

Yours truly,

(Signed) J. James Exon
Governor

Mr. Marvel asked unanimous consent to print the following amendments to LB 690 in the Journal. No objections. So ordered.

This amendment is to correct technical and computation errors:

(A) Program 842 at Chadron State College does not add. The fund totals are correct, as is the agency total, but the program total on page 2, line 11 is incorrect.

(B) The new/expanded request for security guards at Chadron State was included in the Committee decision but inadvertently (sic) omitted in the calculation. There needs to be added \$15,708 General Fund in Program 843 at Chadron State.

(C) The calculation for summer school faculty at Kearney State College was not included when the Committee amendment was drafted. Program 845 at Kearney should be increased by \$394,898 General Fund to accurately reflect the Committee decision.

(D) The Kearney State "Program Improvement" calculation was double-funded in staff calculations. The calculation can be reduced by \$126,709 General Funds, \$53,725 from Program 845 and \$72,984 from Program 846.

(E) The word "Extension" needs to be added to the title of Program 711 at UN-L.

Recognizing that the technical community college areas are locally governed and financed, but that: (1) the mill levy ceiling imposed by 79-2651 R.R.S. Nebr., 1943, R.S.S., 1975 seriously limits available revenue, and (2) there is a reasonable limit to the increase in tuition that a

student can be expected to absorb, \$1.4 million shall only be distributed among those technical community college areas meeting both the following conditions: (a) that the area has certified to their respective county boards of equalization the maximum mill levy authorized in 79-2650 R.R.S. Nebr., 1943, R.S.S. 1975 for fiscal 1976-77 and (b) that the area has increased its per hour tuition rates by at least 10% over the rates in effect during fiscal 1975-76. This additional \$1.4 million shall be distributed among those areas so qualifying according to the provisions of 79-2651 R.R.S., Nebr. 1943, R.S.S. 1975. It is the express intent of the eighty-fourth Legislature, Second Session that this \$1.4 million is being provided in recognition of the mill levy ceiling and reasonableness of tuition increases, and is not provided as a requirement that any technical community college area assess a certain mill levy in order to receive state aid."

**EIGHTY-FOURTH LEGISLATURE
SECOND SESSION**

FIFTIETH DAY

Legislative Chamber, Lincoln, Nebraska
Wednesday, March 17, 1976

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Whelan presiding.

PRAYER

The prayer was offered by the Chaplain.

Eternal God, give us the ability to be patient with people and with issues. For if we don't understand people, with their variety of inconsistencies, how can we think clearly of laws which will be helpful to all? May we have the ability to bridle our emotions when dealing with people who appear to be prejudiced, unjust and annoying. Help us to be objective and realize that the faults we see in others are usually mirrors of our own inadequacies. So we pray for strength to be honest with ourselves, with others and with Thee. Amen.

ROLL CALL

The roll was called and all members were present except Messrs. Kennedy and Rasmussen who were excused.

ATTORNEY GENERAL'S OPINION

Opinion No. 201
March 16, 1976

Dear Senator Syas:

We have reviewed the proposed amendment to L.B. 691, Section 30(4), page 35, lines 1 through 5 which reads:

"The expenditure of funds from this program for historical research, restoration, or interpretation at State Historical Parks shall require the concurrence of the Nebraska State Historical Society, unless the Governor shall otherwise direct."

This language is a part of the appropriation for Program No. 549—Parks—Administration and Operation.

You ask what the effect of this language is on the Game and Parks Program No. 549, specifically whether or not this language is appropriate to be incorporated in an appropriations bill.

Several constitutional provisions raise substantial questions with regard to such language in appropriations bills. We have, in earlier opinions, discussed these difficulties. See Opinion of the Attorney General, March 25, 1974, to Governor Exon, printed on page 1313 of the Session Laws 1974. The following provisions of the Constitution relate to this area. Article III, section 14 of the Constitution in part provides:

“ . . . No bill shall contain more than one subject, and the same shall be clearly expressed in the title. And no law shall be amended unless the new act contain the section or sections as amended and the section or sections so amended shall be repealed. . . .”

And Article III, section 22, which provides in part:

“ . . . Bills making appropriations for the pay of members and officers of the Legislature, and for the salaries of the officers of the Government, shall contain no provision on any other subject.”

Under Article III, section 22 it is very questionable whether an appropriations bill may contain language which does not relate to the appropriate purpose of the act. Arguably language in an appropriations bill which is intended to direct or control the method or manner expenditure decisions may be made is not within the subject of appropriations as required under Article III, section 14 and therefore would be ineffective and unconstitutional.

Even were this not so a very practical difficulty exists. Appropriations are temporary laws. They are effective only for the period of time for which appropriations are made and they lapse at the end of that period of time. Language in appropriations bills which is intended to be effective for a longer period of time will be ineffective. Appropriations bills are not to be made a part of the permanent statutes by the Revisor of Statutes. Thus, the officers required to follow such enactments may not be appraised of their existence. This difficulty was mentioned in Stahmer v. State, 192 Neb. 63, 218 N.W.2d 893 (1974). In Stahmer, the constitutionality of the agricultural exemption statute has been challenged. It was argued that the act was an appropriation of state funds in violation of Article III, section 22 because the appropriation extended beyond the first fiscal quarter after the adjournment of the next legislative session. The court said:

“ . . . It is evident that the directions given are intended to remain in effect through ensuing years but the basic question is whether or not this is an appropriation bill or act. If it is, the act may well be unconstitutional. . . .”
(Emphasis add.) 192 Neb. at 66.

Here the act is unquestionably an appropriations bill. The language apparently may be intended to continue in effect after the expiration of this appropriation and therefore would be directly in violation of Article III, section 22, and thus ineffective. Even though Article III, section 22 was amended after the Stahmer case, we believe the position expressed by the court is still valid.

The language of the amendment appears to alter existing methods of administrative control. This may not be done in an appropriations bill. Often such language is amendatory in nature without complying with the requirement of Article III, section 14 on amendatory language.

The proposed amendment also violates the provisions of Article III, section 22 since it makes appropriations in that it contains more than one subject. It appropriates money then gives administrative direction which must be included in a separate act.

Furthermore, the Governor has both line item veto power, and normal veto power, Article IV, section 15. If an appropriations bill is used to enact language to restrict administrative action or compel such action as a subterfuge to avoid exercise of the line item or a normal veto, it could be held to violate Article IV, section 15.

Construing all these sections of the Constitution together it is clear that the Constitution was intended to limit appropriations bills to making appropriations. It is our opinion that appropriations bills which contain language not relating to appropriations or intended to be of continuing effect is unconstitutional. The language of the amendment referred to above in our opinion would be ineffective with respect to expenditures by the Games and Parks Commission from Fund No. 549.

Sincerely yours,

(Signed) PAUL L. DOUGLAS
Attorney General

MESSAGE FROM THE GOVERNOR

March 17, 1976

Mr. President, Mr. Speaker
and Members of the Legislature
State Capitol Building
Lincoln, Nebraska

Dear Mr. President and Senators:

I am hereby returning Legislative Resolution 115 without taking any action.

In 1974, the people of this state through a constitutional amendment, eliminated the constitutional provision which provided for the sending of legislative resolutions to the Governor for his action. It seems to me that your action in sending this resolution violates the spirit of this constitutional amendment.

This is the first time a legislative resolution has been sent to the Governor since the adoption of the constitutional amendment in 1974.

Since my approval or disapproval of this resolution would have no legal effect whatsoever, I am returning it without taking any action. I would suggest that in the future the Legislature should return to its previous policy of adopting resolutions on its own without sending them to the Governor.

Sincerely,

(Signed) J. James Exon
Governor

FIFTY-FIRST DAY

Legislative Chamber, Lincoln, Nebraska
Thursday, March 18, 1976

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Whelan presiding.

PRAYER

The prayer was offered by the Chaplain.

Eternal God, at the outset of this new day may our decisions, our deeds, and our actions have integrity. Although our motives often become cloudy during the course of a day, may we strive to do the right so they may be transparent and in the right. May we be generous in our judgments of others and as concerned about their views as our own, so we may have objectivity in crucial issues. Guide us that we may face knotty problems with courage. And may our diverse views finally culminate in the best possible program, in the light of our available resources, for all the people in our State. In our Master's name. Amen.

ATTORNEY GENERAL'S OPINIONS

Opinion No. 202

March 17, 1976

Dear Senator Goodrich:

You have requested our opinion on a proposed amendment to LB 690. The proposed amendment provides for a fund of 1.4 million dollars to aid technical community colleges. It provides that once a technical community college has certified the maximum mill levy authorized by sec. 79-2650 to the county boards of equalization and have increased their per hour tuition rate by at least 10 percent over fiscal year 1975-76, they shall be entitled to share in the 1.4 million dollar fund.

The provisions of this amendment raise two questions. First, is such language in violation of Article III, section 14 or section 22 of the Constitution of the State of Nebraska. Second, is such language in violation of Article VIII, section 1A of the Constitution.

We have in the past responded to questions regarding language contained in appropriations bills which does not deal with appropriations. See, opinion of the Attorney General, March 25, 1974, to Governor Exon, printed on page 1313 of the Legislative Journal, 1974, and opinion of the Attorney General dated March 16, 1976, to Senator Syas. In each of these opinions we have discussed problems which arise when language is inserted in appropriations bills which does not relate to the appropriative purpose, are an attempt to direct or control the method or manner of expenditure decisions, are intended to be of continuing effect, or are amendatory of existing legislation.

While it may be argued that the proposed amendment to LB 690 relating to technical community colleges does relate to an appropriation, it is our opinion that it is not sufficiently related to properly be placed in an appropriation bill. Secondly, it violates the provisions of Article III, sections 14 and 22 which require that bills in general and appropriations bills in particular contain only one subject and no provision on any other subject. In addition, the language of the proposed amendment amends provisions of Chapter 79, article 26, relating to the method of distributing state funds to technical community colleges. Such language fails to amend, repeal or include the sections amended or repealed and therefore violates the Constitution.

A further question is raised by the terms of this amendment with regard to Article VIII, section 1A of the Constitution which provides:

“The state shall be prohibited from levying a property tax for state purposes.”

The amendment requires that in order to share in the fund of 1.4 million dollars, technical community colleges must certify the maximum mill levy to the respective county boards of their area and increase their tuition by

at least 10 percent over the prior fiscal year. The effect of the constitutional provision prohibiting a state income tax has been considered in several cases. In State ex rel. Western Nebraska Technical Community College Area v. Tallon, 192 Neb. 201, 219 N.W.2d 454 (1974), the Supreme Court found the original Technical Community College Act to be in violation of this section. At that time the budget of a community college in effect required the imposition of at least a one mill levy in order to secure state funds. The court held that the State Technical Community College Act, viewed as a whole, had a dominant state purpose and stated:

“We hold that where the State assumes the control and the primary burden of financial support of a statewide system of technical community college areas under the provisions of the Technical Community College Area Act, the property tax levy provided for in section 79-2626, R.S.Supp., 1973, is for a state purpose within the meaning of Article VIII, section 1A, of the Nebraska Constitution.”

While the proposed amendment to LB 690 does not require technical community colleges to certify the maximum mill levy it is a strong incentive for such action. Were it to be construed identically to the provisions of the act found invalid in Tallon, supra, it would clearly be invalid. The amendments to the Technical Community College Act since the above decision, does not affect application of that decision. For these reasons it is our opinion that the provisions of the proposed amendment are constitutionally questionable.

Very truly yours,
PAUL L. DOUGLAS
Attorney General

Opinion No. 203
March 17, 1976

Dear Senator Clark:

You have asked us to review the language on page 11 of the amendments to LB 691 and to determine whether or not they are constitutional. Those provisions you refer to are found on page 11, lines 2 through 21.

They provide that the Public Service Commission shall submit to the Governor and the Executive Board a report identifying policies and

procedures in service and rate cases before the Commission. The report is to include certain items such as criteria, factors, or formulas for the determination of components constituting the rate base, the rate of return, and criteria or factors in evaluating a rate determination with relation to the level and adequacy of service provided. In addition, a statement of adequate or reasonable service as defined by the Commission is required.

Recently we have addressed similar issues. See, Opinion of the Attorney General, March 25, 1974, to Governor Exon, printed on page 1313 of the Session Laws, 1974, and Opinion of the Attorney General to Senator George Syas, March 16, 1976. In each of these opinions we have essentially stated that language in appropriation bills which does not relate to the appropriation, amend or alter existing administrative procedures or is intended to continue into effect after the expiration of the appropriation is unconstitutional.

In the case of the particular language here, it is our opinion that it is in effect only directory in nature and would not be compulsory upon the Public Service Commission to submit the requested reports. There is no relationship between the language of the proposed amendments and the appropriation for the operation of the Public Service Commission. Such direction is inappropriate for an appropriation bill and is therefore ineffective in its present proposed form.

Sincerely yours,

PAUL L. DOUGLAS
Attorney General

MESSAGE FROM THE GOVERNOR

March 18, 1976

Mr. President, Mr. Speaker,
and Members of the Legislature
State Capitol Building
Lincoln, Nebraska

Dear Mr. President and Senators:

I am hereby returning LB 752 with partial line item vetoes. The line item vetoes total \$546,273.

The purpose and objective of all funding in LB 752 is certainly commendable and worthy of serious consideration, but cannot be viewed in isolation.

By making sizeable appropriations in a piecemeal fashion, the Legislature has thrown all spending caution to the wind. It is obvious that a strong spending coalition on the floor of the Legislature is unconcerned with budget priorities, and, therefore, indifferent to the tax rates which the citizens of the state will be forced to pay.

In my budget message in January of this year, I strongly recommended the Legislature to adopt the checkpoint prudence figure and urged your body to restrict your total General Fund appropriations to that level. If my recommendations would have been followed, a 2% reduction in the state income tax rate next year could have been possible and is still my goal.

By your proposed spending actions to date, however, any chance to reduce taxes has been eliminated unless you will recant on your action or sustain the many vetoes that apparently will be necessary. The big question now is whether your current intended level of appropriations will force an increase in the state sales and income tax rates.

Since your total budget authorizations are not before me, and I do not have the option of reducing other appropriations which may be of lesser priority, I have no alternative but to veto \$546,273 from this measure.

There was appropriated \$8,170 for the Ponca Public Schools which is unconstitutional as per the Attorney General's opinion attached. This amount, along with \$524,103 for special education aid is eliminated for reasons stated above. Also, you are familiar with my opinions on the waste of belonging to the Education Commission of the States, and that figure of \$14,000 is also struck.

FIFTY-FIRST DAY—MARCH 18, 1976

1233

I have approved the \$35,272 for the school lunch program for the current school year, and \$167,042 for the wards of the Court program. These two items, in my opinion, are critical enough to receive approval now, notwithstanding the fact that they should properly have been viewed also along with your total spending appropriations.

Yours very truly,

(Signed) J. James Exon

ATTORNEY GENERAL'S OPINION ATTACHMENT

DEPARTMENT OF JUSTICE STATE OF NEBRASKA

March 18, 1976

Mr. Stan Matzke, Director
Department of Administrative Services
State Capitol
Lincoln, Nebraska

Dear Mr. Matzke:

Receipt of your letter of 17 March 1976 is hereby acknowledged. In that letter you have inquired if the \$8,170 to be paid the Ponca Public School, pursuant to section 2 of LB 752 of the Eighty-Fourth Legislature, Second Session, is in violation of the Constitution of Nebraska. The same is hereinafter discussed.

The section you refer to above states in part as follows:

"There is included in the amount shown \$8,170 General Funds to be paid to School District No. 1 in Dixon County, Ponca Public School, for reimbursement of claims submitted by Ponca School District to the State Department of Education under the provisions of section 79-445, Revised Statutes Supplement, 1974."

The legislative history of that statute, Neb. Rev. Stat. Section 79-445 (Supp. 1974), discloses that it was the intent of the Legislature that when a pupil has, as a ward of the State of Nebraska or as a ward of any court of the State of Nebraska, been placed in a public school district other than the district in which he resided at the time he became a ward, the cost of his education shall be paid by the State of Nebraska under rules and regulations prescribed by the State Board of Education.

Obviously the claims submitted by the Ponca School District can and should be processed under Neb. Rev. Stat. Section 79-445 (Supp. 1974)

uniformly and in the same manner as claims submitted by every other school district in this state. It is equally obvious that an appropriation can be made to cover all school districts who submit claims under Neb. Rev. Stat. Section 79-445 (Supp. 1974). However, the above quoted appropriation in section 2 of LB 752 does not operate uniformly and alike upon all school districts in this state but operates solely upon the Ponca School District and therefore, in our opinion, violates section 18 of Article III of the Constitution of Nebraska.

Very truly yours,
PAUL L. DOUGLAS
Attorney General

ATTORNEY GENERAL'S OPINION

Opinion No. 204

March 18, 1976

Dear Senator Nichol:

Receipt of your letter of 16 March 1976 is hereby acknowledged. In that letter you have inquired if the following proposed amendment to LB 690 of the Eighty-Fourth Legislature, Second Session, is constitutional:

“1. On page 17 of LB 690, white copy, after line 18 insert:

“There is hereby appropriated an additional \$225,000 from the General Fund for the purpose of renovation and repair of physical facilities of the Western Technical Community College Area.”

We have previously offered our opinion that the Technical Community College Act, Neb. Rev. Stat. Sections 79-2636 to 79-2662 (Supp. 1975), serves a local purpose and not a state purpose and therefore does not violate Section 1A of Article VIII of the Constitution of Nebraska. Nebraska Legislative Journal, Eighty-Fourth Legislature, First Session, pp.1004 to 1006 (March 18, 1975). We have also previously offered our opinion that a specific appropriation to a specific technical community college area is special legislation which is prohibited by Section 18 of Article III of the Constitution of Nebraska. Nebraska Legislative Journal, Eighty-Fourth Legislature, First Session, pp. 2066 to 2067 (May 22, 1975). We hereby affirm both of those opinions.

We wish to make it clear that “[t]he legislature may make a reasonable classification of persons, corporations and property for purposes of legislation concerning them, but the classification must rest upon real differences in situation and circumstances surrounding the members of the class, relative to the subject of the legislation, which render appropriate its enactment; and to be valid the law must operate uniformly and alike upon

every member of the class so designated." Cox v. State, 134 Neb. 751, 279 N.W. 482 (1938). The proposed amendment to LB 690, which is quoted above, obviously does not operate uniformly and alike upon each of the six (6) technical community college areas. It operates solely upon the Western Technical Community College Area. We are therefore of the opinion that the proposed amendment to LB 690, which is quoted above, violates Section 18 of Article III of the Constitution of Nebraska.

RESOLUTION

LEGISLATIVE RESOLUTION 143.

Introduced by Maresh, 32nd District.

WHEREAS, the costs of highway construction and maintenance have more than doubled in the past five years seriously affecting Nebraska's highway construction program; and

WHEREAS, the Department of Roads is experiencing difficulty in carrying out its long-range plan in highway construction and repair; and

WHEREAS, the State Highway Commission has become concerned over a lack of funds to carry out its duties, responsibilities, and programs; and

WHEREAS, there is a need to consult with the Department of Roads to determine if highway construction standards may be altered or lowered as a result of the mandated lower speed limit; and

WHEREAS, a sound highway system is important to keep Nebraska's economy strong and viable because the timely and efficient movement of its industrial and agricultural products is so dependent on such system; and

WHEREAS, there has been several bills before the Legislature to generate more highway revenue and such bills were not adequately discussed and considered at the hearings on such bills.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-FOURTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Legislature direct the Revenue Committee to study the problems in this area and hold hearings statewide to determine whether a state income tax could be used to generate additional revenue.
2. That the committee at the conclusion of its study submit a report of its findings together with any recommendations to the Legislature.

Referred to the Executive Board.

ATTORNEY GENERAL'S OPINIONS

Opinion No. 205
March 19, 1976

Dear Senators Dickinson and George:

This is in response to your inquiry of March 17, 1976, concerning the proposed amendment to LB 779 which is printed on page 1144 of the Legislative Journal. We would refer you to Opinion of the Attorney General, No. 196, which is found on page 1038 - 1040 of the Legislative Journal wherein we concluded that a similar proposed amendment would comply with the applicable constitutional provisions if modified in certain respects. The amendment herein considered appears to have incorporated our suggested modification in the phrase:

"...Said Commission is further authorized to execute an agreement, the performance of which shall be contingent upon funds being made available therefor, . . ."

Thus we conclude that this amendment would probably be constitutionally acceptable.

Very truly yours,
PAUL L. DOUGLAS
Attorney General

Opinion No. 206
March 19, 1976

Dear Senator Duis:

In your letter of March 16, 1976, you call our attention to LB 958, which makes provision for the deposit by the State Investment Officer of funds in his hands in banks in this state. You point out that section 2(3) of the bill makes provision for a time deposit in the sum of \$100,000, and a demand deposit in the sum of \$40,000. You inquire whether the Federal Deposit Insurance Corporation insures deposits of one depositor in excess of \$100,000. We conclude that it does.

Section 330.8(a)(2) of the F.D.I.C. Rules and Regulations provides:

“Each official custodian of funds of any State of the United States or any county, municipality, or political subdivision thereof depositing the same in time or savings deposits in an insured bank in the same State shall be separately insured up to \$100,000.”

Subsection (a)(5) of that section provides:

“Each official custodian referred to in paragraphs (a)(2), (3), and (4) of this section lawfully depositing such funds in demand deposits in an insured bank within the same State, District of Columbia, Commonwealth, possession or territory comprising the public unit or wherein the public unit is located, or in any form of deposit, whether time, savings or demand, in an insured bank outside such jurisdiction, shall be separately insured up to \$40,000.”

It appears to us clear that the use of the word “separately” in each of the above subparagraphs indicates that there are separate insurance

provisions for time or savings deposits and demand deposits. We would therefore construe these regulations as providing for a total of \$140,000 insurance of public funds deposited by the State Investment Officer, assuming that he deposited \$100,000 in a time or savings deposit, and \$40,000 in a demand deposit.

Very truly yours,

PAUL L. DOUGLAS
Attorney General

MESSAGE FROM THE GOVERNOR

March 23, 1976

RE: LB 972

Mr. President, Mr. Speaker
and Members of the Legislature
State Capitol Building
Lincoln, Nebraska

Dear Mr. President and Senators:

I am informed that the Legislature today has voted to delete my request of \$29,888 for the payment of expenses incurred, through June 30, 1976, by the Mental Retardation Panel. After your action I took the matter up with the Attorney General who has been advising and representing the Governor on the lawsuit brought against the state. The Attorney General agrees completely and has approved this letter to your honorable body.

While I am aware that there is some disagreement concerning the actions of the Panel, some of which as you know I have expressed myself, I nevertheless believe that the mentally retarded citizens of our state are entitled to the preparation of a plan of evaluation which the Mental Retardation Panel is required to develop.

It is for that reason that I urge the Legislature to reconsider its action in this matter and to approve the appropriation in the amount of \$29,888 which I requested.

I recognize that the Legislature was not a party to this action at the choice of the plaintiffs and is not in any manner bound by that agreement. Nevertheless, believing that much good can come from a properly prepared plan I am urging you to reconsider your action.

Sincerely,

(Signed) J. James Exon
Governor

EIGHTY-FOURTH LEGISLATURE
SECOND SESSION

FIFTY-FIFTH DAY

Legislative Chamber, Lincoln, Nebraska
Wednesday, March 24, 1976

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Whelan presiding.

PRAYER

The prayer was offered by Father James Dawson, Lincoln, Nebraska, Superintendent of Schools for Southern Nebraska.

Heavenly Father, we pray that Your Wisdom and Understanding will come upon the members of this law-making body as they set about their work this day.

They are aware, as a legislative group that in order to develop fruitful action and to gain esteem and confidence, they must be men of intellectual ability and firmness of character. They realize they are representatives of the whole people and not agents of a group to whose particular interests the true needs and requirements of the common welfare may be sacrificed. (Pius XII)

We ask, gracious Lord, that these legislators will speak and express thoughts worthy of your gifts. They trust in your Strength realizing the government of the earth is in Your Hands, and You set the right man over it at the right time. (Eccl. 10:4)

May the Lord show kindness and bless you today and make His Face smile upon you. We ask this in His Name. Amen.

ROLL CALL

The roll was called and all members were present except Mr. Marvel who was excused.

RESOLUTIONS

LEGISLATIVE RESOLUTION 162.

Introduced by Cavanaugh, 9th District.

WHEREAS, extensive and prolonged review procedures and regulatory requirements for completion of plans, specifications, and rights-of-way for federal highway projects may cause problems of obsolescence by the time final approval for such projects is granted; and

WHEREAS, a September 14, 1974 survey of all states, the District of Columbia, and Puerto Rico by the Federal Highway Administration established that one hundred design stage projects with an estimated cost of 3.242 billion dollars had been delayed six months or more because of environmental impact law suits; and

WHEREAS, the above mentioned survey disclosed that thirty-seven highway construction projects with an estimated total cost of 202.5 million dollars were reported to be delayed because of environment related law suits; and

WHEREAS, street and highway projects as well as other public projects such as water resource development, power plants, and energy and fuel programs have seemingly been unduly delayed by slow moving procedures of the federal bureaucracy at great expense to the public.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-FOURTH LEGISLATURE, OF NEBRASKA, SECOND SESSION:

1. That the Nebraska Congressional delegation be urged to aid in amending federal laws which could be made to require time tables and simplified procedures for review of applications, plans, and specifications for Federal highway programs and other public works.

2. That each member of the Nebraska Congressional delegation be urged to lend their complete support to attempt to modify laws which impose rigid requirements for protection of the environment in public work construction without adequate concern for the economic impact and corresponding costs of resulting delay.

3. That the Clerk of the Legislature forward a copy of this resolution to each Nebraska member of the United States House of Representatives and United States Senate.

Laid over.

LEGISLATIVE RESOLUTION 163.

Introduced by Schmit, 23rd District; DeCamp, 40th District; Rumery, 42nd District; Maresh, 32nd District; Kennedy, 21st District.

WHEREAS, the air, land, and water of Nebraska are the principal assets of the state and guarantee to the state a sound economy; and

WHEREAS, the use of land in Nebraska is of paramount importance to all citizens having an interest in the future growth and development of our state; and

WHEREAS, zoning and other land use laws have a substantial impact upon the economic destiny of our state in terms of private development of real property as well as Nebraska's land tax structure.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-FOURTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Legislature's Agriculture and Environment Committee conduct an interim study of the zoning and land use laws in Nebraska.

2. That the committee shall hold hearings across the state to gather information as it deems necessary but the primary objective of such study shall be research and recodification of existing Nebraska zoning and land use laws.

3. That the committee make a report of its findings together with its recommendations for possible legislation to the next regular session of the Legislature.

4. That the Executive Board of the Legislative Council provide sufficient funds to enable the committee and its personnel to carry out the duties imposed by this resolution.

ATTORNEY GENERAL'S OPINION

Opinion No. 211
March 22, 1976

Dear Senator Dworak:

You have asked if section 8 of the amendment to L.B. 631 of the Eighty-fourth Legislature, Second Session, is constitutional. That section declares:

"Any funds which may be appropriated to the School Finance and Transportation Fund, shall be distributed such that every district in the state receives the same amount of funds per unit of average daily membership as every other district, which distribution shall be based upon average daily membership as defined by the State Department of Education for the regular

school year. Such definition shall include all resident and nonresident students and all students attending schools in Nebraska whether private or public. The distributions shall be based upon average daily membership for the previous school year. The State Department of Education shall determine the amount to be distributed to the various school districts and certify such amounts to the Director of Administrative Services. Each amount shall be distributed in ten, as nearly as possible, equal monthly payments, beginning in September, 1976, and each September thereafter. The Director of Administrative Services shall, upon notification by the State Treasurer that sufficient funds are available (sic) for payment, draw warrants against funds appropriated."

In connection with the section quoted above it is to be noted that the State Department of Education has adopted an administrative rule which defines average daily membership in connection with school district budget limitations in order to carry out the provisions of Neb.Rev.Stat. Sections 79-4,160 to 79-4,169 (Supp. 1974). That definition, however, does not include students attending private schools. Indeed, the State Department of Education has no record from which it could determine the names of students attending private schools or the county or school district of their residence. Thus the above quoted amendment is not only vague in the constitutional sense it is also unworkable per se.

Very truly yours,

PAUL L. DOUGLAS
Attorney General

SECOND SESSION

FIFTY-SIXTH DAY

Legislative Chamber, Lincoln, Nebraska
Thursday, March 25, 1976

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Whelan presiding.

PRAYER

The prayer was offered by The Very Rev. V. Dosenovich, St. Nicholas Serbian Orthodox Church, Omaha, Nebraska.

We thank Thee, Our Heavenly Father, that this Land is governed by the peoples representatives at our time. Let democratic process be seen at their best in this period of testing.

O Lord, teach us to number our days that we may apply our hearts in wisdom. Time of our life is short, and no one knows how little time he has left. Teach us O Lord, to use our time wisely, our strength, and our talents.

Save us from thinking, even for a moment, that we can feed our souls on material things and vanity. Save us from prevailing delusion of our present day, that the piling up of wealth or comforts can satisfy our inner life.

Save these, Thy servants, the chosen of the people of Nebraska, from the tyranny of the nonessential, from the weary round of that which saps strength ruins nerves, shortens life, and adds nothing to their usefulness to Thee, and to this Nation. Help them to give themselves to the important, and to recognize the trivial when they see it. Let Thy truth be their law. Embrace them, O Lord, and their dear ones at home with Thy love.

This we ask in Jesus name. Amen!

The prayer was chanted.

ROLL CALL

ATTORNEY'S GENERAL OPINIONS

Opinion No. 213

March 25, 1976

Dear Senator Clark:

You have asked our opinion on the validity of sec. 85-111.01 and further ask whether or not the section should be amended to be valid. The

section was enacted as a part of L.B. 1059, Eighty-third Legislative Session, Second Session, 1974, as Section 19. In answering your question we would refer you to our letters dated March 25, 1974, Opinion of the Attorney General to Governor Exon, printed on page 1313 of the Legislative Journal in 1974; letter to Senator George Syas, March 16, 1976; letter to Senator Glenn A. Goodrich, dated March 17, 1976; letter to Senator Robert L. Clark, dated March 17, 1976; and letter to Robert L. Clark of an even date with this letter. In each of those letters we have stated our opinion that substantive legislation included within an appropriations bill violates Article III, section 14 and section 22.

The provision to which you have reference was enacted as part of appropriations bill. It does not bear a relationship to appropriations and constitutes separate subjects within one bill. In addition it is intended by its terms to be effective beyond the expiration of the appropriation bill within which it is contained. The provision for that reason, in our opinion, is constitutionally defective. It, at most, may be construed as directory of the action required under the bill. In order to be effective, sec. 81-111.02 would need to be reenacted by the Legislature in the normal manner for enactment of bills.

It is our further opinion that the Revisor of Statutes was incorrect in placing this section in the permanent volumes of the statutes by the terms of L.B. 1059, 1974 Session. That bill expired at the end of the fiscal year 1974-1975. Section 19 would not remain in effect after that time, even if it were in effect during the fiscal year.

Sincerely yours,

PAUL L. DOUGLAS
Attorney General

Clerk of the Legislature

Opinion No. 214
March 26, 1976

Dear Senator Clark:

In your letter of March 23, 1976 you ask whether the Revisor of Statutes should include provisions contained in an appropriations bill in the permanent statutes. You specifically direct your question to matters that appear in appropriations bills that are not related to the appropriation bill itself, such as language that by its terms direct or control administrative action; matter which by its terms is intended to be effective from the time

of enactment until repealed or amended; or amends or repeals existing legislation without complying with the provisions of Article III, section 14.

It is our opinion that the constitutional provisions relating to appropriations bills read together point to a clear conclusion that appropriations bills shall be restricted to making appropriations. Article III, section 14 provides in part:

“ . . . No bill shall contain more than one subject, and the same shall be clearly expressed in the titled (sic). And no law shall be amended unless the new act contain the section or sections as amended and the section or sections so amended shall be repealed. . . . ”

These two sentences proscribe two acts which occur when language is inserted in appropriations bills which do not deal with appropriations. First, more than one subject is contained within the appropriation. Language that is not clearly appropriative in character violates that provision which states that no more than one subject shall be contained in a bill. Secondly, if the provisions inserted in appropriations bills relate to sections previously enacted in such a manner that they amend the section or change the manner under which action is to be taken they violate the provision that sections amended must be contained within the act, nor is the prior act repealed, in violation of this constitutional provision.

Similar thoughts are contained in Article III, section 22 of the Constitution which specifically relates to appropriations. It provides:

“Each Legislature shall make appropriations for the expenses of the Government. And whenever it is deemed necessary to make further appropriations for deficiencies, the same shall require a two-thirds vote of all the members elected to the Legislature. Bills making appropriations for the pay of members and officers of the Legislature, and for salaries of the officers of the Government shall contain no provision on any other subject.”

The last sentence of section 22 specifically provides that bills which make appropriations for the officers of government shall contain no provision on any other subject. Where language is included which effects matters other than appropriations that language is in violation of Article III, section 22. In addition, Article III, section 22, prior to the amendment in 1972, provided:

“Each Legislature shall make appropriations for the expenses of the Government until the expiration of the first fiscal quarter after the adjournment of the next regular session, and all appropriations shall end with such fiscal quarter. . . . ”

Each Legislature must appropriate for the expenses of government. The Supreme Court has held that the language quoted prohibited continuing legislative appropriations. Rein v. Johnson, 149, Neb. 67, 30 N.W.2d 548; State v. Moore, 50 Neb. 88, 69 N.W. 373; and Stahmer v. State, 192 Neb. 63, 218 N.W. 2d 893. In Stahmer, decided after the amendment, the Supreme Court indicated that although the particular act under consideration was not an appropriation if it was it might well have been unconstitutional as violating this provision. The court stated:

“... It is evident that the directions given are intended to remain in effect through ensuing years but the basic question is whether or not this is an appropriation bill or act. If it is, the act may well be unconstitutional. . . .” (Emphasis added.) 192 Neb. at 66.

Where an act is unquestionably an appropriations bill and the language contained in the act is intended to continue in effect after the expiration of the appropriation it would in our opinion violate Article III, section 22.

The Governor is given certain powers in relationship to the introduction of bills in the Legislature. Article IV, section 7 provides:

“The Governor may, at the commencement of each session, and at the close of his term of office and whenever the Legislature may require, give by message to the Legislature information of the condition of the state, and shall recommend such measures as he shall deem expedient. At a time fixed by law, he shall present, by message, a complete itemized budget of the financial requirements of all departments, institutions and agencies of the state and a budget bill to be introduced by the Speaker of the Legislature at the request of the Governor. Said budget bill shall be prepared with such expert assistance and under such regulations as may be required by the Governor. No appropriations shall be made in excess of the recommendation contained in such budget including any amendment the Governor may make thereto unless by three-fifths vote of the Legislature, and such excess so approved shall be subject to veto by the Governor.”

Under the section quoted above the Governor may introduce both bills and separately a budget bill clearly setting forth the distinction between the appropriative process and the legislative process by which bills are enacted to provide for the general laws of the state. Again in Article IV, section 15 this separation is recognized. Article IV, section 15 provides in part:

“Every bill passed by the Legislature, before it becomes a law, shall be presented to the Governor. If he approves he shall sign it, and thereupon it shall become a law, but if he does not approve or reduces any item or items of appropriations, he shall return it with his objections to the Legislature, . . . The Governor may disapprove or reduce any item or items of appropriation contained in bills passed by the Legislature, and the item or items so disapproved shall be stricken therefrom (sic), and the items reduced shall remain as reduced unless repassed in the manner herein prescribed in cases of disapproval of bills.” (Emphasis added.)

Thus the line item veto power is separately recognized for appropriations purposes and for other legislative enactments, thus reinforcing the separation of legislative duties between appropriations acts and substantive legislation.

Construing each of the constitutional provisions above cited together we believe that it is clear that the legislative process must be divided between bills to appropriate money for the expenses of government and the pay of officers of government and bills to create substantive laws. Therefore language contained in appropriations bill which is not appropriative but substantive is ineffective and should not be included by the Revisor of Statutes in the permanent volume of the statutes.

Sincerely yours,

PAUL L. DOUGLAS

FIFTY-EIGHTH DAY—MARCH 30, 1976

LEGISLATIVE JOURNAL

EIGHTY-FOURTH LEGISLATURE
SECOND SESSION

FIFTY-EIGHTH DAY

Legislative Chamber, Lincoln, Nebraska
Tuesday, March 30, 1976

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Whelan presiding.

PRAYER

The prayer was offered by the Chaplain.

O God, who has given to all persons talents and varying capacities, Thou dost only require of us that we utilize Thy gifts to the maximum. In this Legislature to which Thou hast entrusted special abilities and opportunities, may each recognize his stewardship for the people of this State. Through the perplexing problems and needed decisions give them calmness and wisdom. May heated debates always be on the issues and not develop into personal jealousies which only defeat the purpose of our representative government. May we at the beginning of a new morning say, "This is the day that the Lord hath made, let us rejoice and be glad in it." Amen.

ROLL CALL

The roll was called and all members were present except Mr. Koch who was excused until he arrives; and Mr. Schmit who was absent until 9:30 a.m.

**EIGHTY-FOURTH LEGISLATURE
SECOND SESSION**

SIXTIETH DAY

Legislative Chamber, Lincoln, Nebraska
Wednesday, April 7, 1976

Pursuant to adjournment, the Legislature met at 9:30 a.m., President Whelan presiding.

PRAYER

The prayer was offered by the Chaplain.

Eternal Father, we ask Thy divine guidance, strength, and sense of purpose be given to the members of this Legislature. Although they have great diversity within themselves and the people they represent, may they not strive to be individualistic comets flashing across the sky, but stars which are united into a constellation which gives a pattern and unity in the midst of diversity. While amplifying their individual convictions, may they ever remember they are part of the team working together to win the game for the benefit of the people of this State. In our Lord's name. Amen.

ROLL CALL

The roll was called and all members were present.

CORRECTIONS FOR THE JOURNAL

EXPLANATION OF VOTE CORRECTION

Page 1547 should read 984 rather than 934.

(Signed) Jerome Warner

Mr. Chambers asked unanimous consent to correct the Journal as follows:
TO CORRECT THE JOURNAL AT PAGE 1530 (MARCH 31, 1976)

Without the complete reading of a bill prior to a final vote, there can be no Constitutional enactment into law. Since a drone or mumble not

consisting of intelligible words is not reading, LB 434 which was droned and mumbled through on March 31, 1976 was not read; hence the Constitution was not complied with; hence LB 434 was not legally passed by the Legislature, therefore, I move to correct the Journal at page 1530 by correcting the President's statement on LB 434 to read: "All provisions of law relative to procedure have NOT been complied with . . .".

Mrs. Marsh objected.

Mr. Chambers moved to correct the Journal with the above.

Mr. Dickinson moved the previous question. The question is, "Shall the debate now close?" The motion prevailed with 32 ayes, 0 nays and 17 not voting.

The Chambers motion lost with 3 ayes, 39 nays and 7 not voting.

The Journal for the Fifty-ninth Day was approved as corrected.

Dear Mr. President and Senators:

I hereby return LB 863 without my signature and with my objections.

The attached copy of a letter unanimously agreed to by the Highway Advisory Commission adequately explains my primary reasons for vetoing this legislation.

To further tax Nebraska citizens to the tune of approximately \$10,000,000 per year while ignoring a necessary accompanying amendment that could have eliminated millions of dollars in waste in building some state highways to more reasonable and less costly standards would be fiscally irresponsible.

Yours very truly,

SIXTIETH DAY—APRIL 7, 1976

1559

March 29, 1976

The Honorable J. James Exon
Governor of the State of Nebraska
Lincoln, Nebraska

Dear Governor Exon:

The State Highway Commission has been struggling very hard to ensure that the best possible use is made of Nebraska's highway revenues in maintaining and upgrading the State Highway System.

On February 27, the Commission officially went on record in support of a one cent increase in the State gasoline tax, provided that at the same time Nebraska Highway Law would be amended to permit certain highways to be improved to a more realistic standard. It is the position of the Commission that over-building of certain roads is a gross waste of scarce highway revenues as we struggle to improve our highways, particularly those remaining miles of lightly traveled gravel roads.

The Department of Roads has worked hard with other interested parties to attempt to arrive at agreed language to be included in LB 863, which would permit the adoption of reasonable standards for lightly traveled roads. However, in spite of the numerous commitments that were previously obtained from the interested parties to those agreements, LB 863 as it presently stands at 9:00 A.M. on Monday, March 29, 1976, does not contain that language.

It is therefore apparent that the parties interested in increasing the gasoline tax have shown only a willingness to spend more dollars, without at the same time agreeing to the adoption of reasonable standards which would ensure that that same tax increase would not be largely(sic) wasted on unnecessarily expensive over-construction of certain roads.

Therefore, the Highway Commission, notwithstanding the dire need for the one cent gas tax increase, respectfully urges that you veto LB 863 if it reaches your desk without the specific corrective amendment recommended by the State Highway Commission on February 27.

Sincerely,

(Signed) Joe Lipton, Chairman

Dear Mr. President and Senators:

Re: Governor's Message to Legislature on Vetoes
and Line Item Vetoes

I am returning to you without my signature and with my objections Legislative Bills Nos. 687, 687A, 826, 826A, 1011, 761, 761A, 1007, 454, 454A, 794, and 794A.

I am also returning with my line item reductions Legislative Bills Nos. 984, 691, 690, and 972.

The total reductions from your authorized spending level is a record veto decrease of \$30,002,117. Should you not heed my vetoes, you will force an increase in state taxes certainly for next year and possibly an immediate increase in the sales tax when the State Board of Equalization meets within 15 days after adjournment, as directed by the Legislature in the last session.

On the other hand, should you sustain my carefully considered reductions, which I appeal to you to do, we can anticipate a 2% reduction from 15% to 13% of Federal liability next calendar year, and holding the line at 2 1/2% on sales, if the economy and anticipated revenues hold.

Some in very high and influential places have shuddered at the Governor's concept that we should reduce taxes. A few seem to consider such action revolutionary and un-American. By recent contemporary thought and action, that may be true. Those with that line of thought seem to reject that Nebraska can reduce taxes and thereby return more to the people for their individual decisions on spending rather than to take it from them on the theory that "Government knows best," and that reasonable restraint in state spending shows a lack of "progress."

A look at the record destroys any concept that this administration has not supported appropriations to meet the legitimate and most pressing need.

Because of an on-going variety of "built-in" expenditures in each year's budget, many of them passed over the Governor's vetoes, we are reaching, even by my recommendations, a record of \$439 million from the general fund for the next fiscal year. That represents an additional \$64 million over this year for a 17% increase, even though we can do this while reducing taxes.

Compared with that figure, the Legislature has authorized \$94 million more, for a 25% increase in one year.

The question must come, where is it all going to end? I repeat again that I firmly believe this session has been one where the majority and coalitions within your body have failed to exercise restraint in appropriations and have failed to recognize any limit in total dollars expended or the effect of your actions on the taxpayers.

In some instances, I have been able to increase my previous recommendations in an attempt at compromise with the Legislature, while still providing the opportunity for a tax reduction. This has been essentially possible because, subsequent to my budget message, the Legislature has reduced the required minimum reserve from 5% to 3%.

You will find attached a detailed breakdown on the individual bills and the amounts reduced, increased, or eliminated from what I view as your excessive proposals.

I request that you sustain all of my recommendations for the reasons stated above and as outlined in my individual letters of veto.

Yours very truly,

(Signed) J. James Exon
Governor

Mr. President, Mr. Speaker,
and Members of the Legislature
State Capitol Building
Lincoln, Nebraska

Dear Mr. President and Senators:

I am returning LB 690 with my signature but with specific line-item exceptions as noted.

My original recommendation for the Office of the Secretary of the Board of Trustees was \$98,574. Following the veto, the General Fund figures will be \$98,507. My original recommendation provided for an 11% increase over FY 75-76, primarily to allow for additional rent payments for space in the new state office building, and additional funds for projects on management information systems and upgrading of the accounting systems of the State Colleges. The decision has been made recently to have the Office of the Secretary remain in the Capitol Building.

My line-item reduction simply reduces the appropriation to the Office of the Secretary to my original recommendation minus the additional rent monies and adjusts for the Legislature's salary policy.

My original recommendation for the State Colleges provided for an increase of 10.7% in General Fund over FY 75-76. Following my line item reductions, the State Colleges will obtain \$13,852,454 of State General Fund as opposed to the \$13,445,624 I originally recommended. This represents an increase of 14.1% over FY 75-76. Included in the \$13.8 million is the Legislature's salary policy, the new and expanded program request of the Board of Trustees, 2% unbudgeted monies in the instructional programs at the Colleges and funds to allow the Board of Trustees to obtain additional space for classroom, instruction related, or programmatic activities at Peru.

My reductions allow for the addition of approximately 11 new full-time staff for the state colleges. However, the major portion of my reduction is for the additional 40 staff requested by the State Colleges. At a time of stable enrollments, an increase in total of over 51 staff at the State Colleges would be irresponsible. The \$13.8 million in General Fund monies will fully fund the continuation base of the State Colleges and allow for needed new programs.

For the University of Nebraska, I have increased my original budget recommendation from \$84.1 million to \$87.6 million of General Fund dollars. The major additions in this \$3.5 million increase are \$400,000 for improvements at the Institute of Agriculture, \$300,000 for improvement of instruction at UNL, \$100,000 of improvements at UNO, \$1.7 million for replacement of federal funds at the Medical Center, \$1.0 million at all campuses to fund the 7% salary policy of the Legislature.

The University budget I am recommending herewith is a 13.8% increase over the current year. This is a larger percentage increase than the Legislatures in Colorado, Kansas, and Missouri will be giving their Big Eight Universities, and approximately the same as Iowa. I believe this is a more realistic figure than the 23% increase proposed by your body.

I have reduced from your proposed budget \$6.8 million of General Fund, most of which would have gone for continued University expansion, and which would require more and more General Fund monies in the years ahead. Much of this expansion is ill-advised at a time when enrollments are stable or declining. However, I have not further reduced the amounts for plant operations or administration from the figures already established by the action of your body.

If you accept the vetoes I am offering, the General Fund percentage increase over the current year will be approximately 10.3% at UNL, 10% at UNO, and 25.1% at the Medical Center.

I am pleased, however, that you have moved toward accepting two of my recommendations in the University budget. Faculty salary increases will, in 1976-77, be granted on performance, not according to a formula which rewarded excellence and mediocrity alike. You have also granted more flexibility to the Board of Regents, and I will look forward to the time when you provide even more flexibility to the Regents to focus University management responsibility where it belongs. I believe there has been some progress made toward that end this year.

Last year, I chose not to exercise my line-item veto authority on the \$11,600,000 State aid appropriation for the Technical Community College Areas in order to ensure that the Area Boards had the necessary tools to deal with the cash flow problems resulting from the Supreme Court's decision on property tax support and the passage of LB 344. My original recommendation for fiscal 1976-77 included a State aid recommendation of \$13,422,934 coupled with a reduction of 1/2 mill in the mill levy ceiling for operations. My original recommendation would have provided a two-year increase in total State and local tax support of approximately 34% or an average of roughly 17% per year.

The appropriation of \$13,000,000 to the Technical Community Colleges for fiscal 1976-77 would provide a maximum two-year increase of approximately 51% in total State and local tax support or approximately 25% per year for the two-year period. My line item reduction will allow a \$12,000,000 appropriation for State Aid for the Technical Community Colleges. It represents a maximum two-year increase of approximately 44% in total State and local tax support for the Technical Community Colleges or approximately 22% per year for fiscal year 1975-76 and fiscal year 1976-77.

If the Area Boards exercise fiscal responsibility, the increases may be less than the maximum two-year figure of 44% and closer to my original recommendation of approximately 34%. Following my reductions, the Technical Community Colleges have ample resources to meet the needs of Nebraska generally and their students particularly.

Dear Mr. President and Senators:

I hereby return LB 972 with my signature, but with line-item reductions as outlined.

I have disapproved only two items in LB 972. One of these is the replacement of \$906,688 of federal special projects funds at the Medical Center. I am recommending the replacement amount of \$406,688 for the current fiscal year and no replacement funds in 1976-77. These funds are awarded by the Public Health Service on a competitive basis and not on a formula basis. Congress has not cut the appropriation of special project funds and the Medical Center is eligible to receive a greater share of these funds if it makes competitive proposals to the federal government.

The other item I have not approved is the raising of the cash fund ceiling by \$773,000 at the Lincoln Campus. The rationale for the University's request was that this amount must be expended during the current year in order that a like amount may be saved in some future year. Our projection of expenditures based on three-fourths of the year already gone by show that the Lincoln campus does not need the increase in this fiscal year and that it should carry the excess funds over into 1976-77.

Yours truly,

Dear Mr. President and Senators:

I am returning LB 1007 without my signature and with my objections. LB 1007 would fund the proposed Health, Physical Education, and Recreation Building at UNO. I have stated previously that the construction of this building is necessary when it can be fit in with overall budget considerations. Possibly this can be accomplished next year.

I would not object to the construction of the HPER Building if the funding could be accommodated within the fiscal plan I have set forth. It is my judgement, however, that other operational and capital construction demands must be funded first.

Furthermore, we should not proceed on the assumption that each campus must have a new building each and every year. Our record at UNO is already a good one, both in terms of operational support and capital construction.

One of our prime problems as we address each year the total appropriations for the University system is that all too many expect all things at once. The taxpayers just cannot afford the unreasonable demands by University officials for millions for everything.

Dear Mr. President and Senators:

I return herewith LB 454 without my signature and with my objections.

LB 454 amends the state law which establishes eligibility for assistance to disabled individuals by striking the requirement that the disability "be expected to be permanent" and requiring, instead, that the disability "be expected to have a duration of not less than one hundred eighty days from the date of onset."

In so doing, LB 454 inaugurates a wholly state-financed program of financial assistance and a wholly state-county financed system of medical benefits for individuals who because of "medically determinable physical or mental impairment" cannot work for between six months and one year.

SIXTIETH DAY—APRIL 7, 1976

This program of additional assistance to the temporarily disabled is worthy of serious consideration. However, the implications for future sizeable costs are significant and potentially much more than the initial \$1.5 million appropriation. This fact cannot be ignored.

Dear Mr. President and Senators:

I hereby return LB 687 without my signature and with my objections. LB 687 would establish an official position of "Deputy Public Counsel for Corrections" under the office of the Ombudsman. This legislation would appear to give special status to an Ombudsman specifically directed to the Department of Correctional Services.

The present Ombudsman has done an outstanding job of responding to citizen complaints and resolving those particular problems. In addition, the Ombudsman has responded promptly and effectively to legislative requests for investigation and information.

When such investigations and searches for information are directed towards the Department of Corrections, the Ombudsman has received

nothing but the utmost cooperation from the Corrections' officials. This cooperation, I assure you, will continue.

At best, LB 687 is unnecessary legislation. Any legitimate inquiry, investigation or information search into the Department of Corrections can be completely and satisfactorily handled through the existing Ombudsman's office.

At worst, LB 687 is an attempt by the Legislature to establish a legislative officer to oversee the operations of an administrative agency of state government. The job of the legislative branch is not to administer the ongoing operations of state government. That is the responsibility of the executive branch.

Dear Mr. President and Senators:

I am returning herewith LB 691, with my signature and my specific line item vetoes.

In total, my reductions in this bill are \$15,917,236, and are detailed below.

Supreme Court, Agency 05 -- I have reduced the Supreme Court's budget by \$125,279 to a level comparable to my original recommendation but allowing additional funds for the salary policy adopted by your body.

Secretary of State, Agency 09 -- I have reduced the appropriation to the Secretary of State by \$15,200 from the General Fund. The reductions include: \$3,600 for expenses of the Association of Secretaries of State; \$1,500 for hospitality expenses; \$700 for a mobile phone; and \$9,400 for retention of a CETA position. After these reductions, the appropriation still exceeds my original recommendation.

State Treasurer, Agency 12 -- I have reduced the budget of the State Treasurer by \$6,200 to bring the budget back to a level more comparable to my original recommendation yet allowing additional funding for salaries and temporary help.

Department of Education, Agency 13 -- I have reduced by \$15,099,962 the recommended appropriation for the State Department of Education. This reduction includes a proposed \$15,000,000 increase in State aid, funding for additional staff, and General Fund support for teacher certification. The remaining total, a \$1,794,162 increase over my original recommendation, includes \$1,058,925 for vocational rehabilitation and \$159,016 for fire service trainees. Neither of these programs were included in my original recommendation for the Department, but were provided for in other state agencies. Also, the three state schools will be provided a 30% increase in general fund support as a result of LB 691. Since this increase will benefit local education agencies, I have chosen not to make reductions in this area.

With regard to the \$15,000,000 in so-called state aid, I cite my statement to you in the budget address of this year. Your approval of this measure over my veto will certainly mandate increases in taxes. Please note that while the Legislature is using this vehicle as a sales pitch to "give the taxpayer a break" to the tune of \$15,000,000, you would simultaneously be extracting from him with this and your other approved appropriations approximately \$50,000,000 in increased state taxes. This in no way is a good deal for the taxpayer and must be recognized as such.

Department of Health, Agency 20 -- I have reduced the Department of Health's 1976-77 General Fund appropriation authority by \$33,673. This will allow the Department a 17.7% General Fund increase over the 1975-76 appropriation contained in LB 6. The resulting General Fund appropriation is still \$97,686 above my original recommendation; included in this amount is funding for the Legislature's salary policy and the \$25,000 earmarked for cystic fibrosis research and counseling.

Department of Public Welfare, Agency 26 -- I have reduced the General Fund appropriation to the Department of Public Welfare by \$200,000. The appropriation to Program Number 347--Public Assistance was reduced by \$100,000. This reduced appropriation remains \$379,000 higher than my original recommendation and allows for additional flexibility in meeting the uncertain requirements of the new federally required Nursing Home payment system. Also, Program Number 424--Nebraska Center for

Children and Youth is reduced by \$100,000 from the General Fund to a level comparable to my original recommendation yet recognizing the salary policy you have adopted.

Military Department, Agency 31 -- I have reduced the Military Department's General Fund appropriation by \$220,000. The Governor's Emergency Fund was reduced by \$200,000 to a total of \$300,000, a figure found in my original recommendation. The Civil Defense program was reduced by \$20,000 which still allows an eighteen percent increase over their FY 1976 appropriation.

Game and Parks Commission, Agency 33 -- I have reduced the Game and Parks Commission's administrative program by \$100,000 from the General Fund. To preclude any funding deficiencies for the Commission, \$100,000 in Cash Funds has been made available by eliminating the requirement that those funds be used only for the hiring of five regional managers. Authority has been made available for the filling of those positions for the past two years, but the Commission has chosen not to do so.

Board of Agriculture, Agency 52 -- I have reduced the budget for the State Fair Board by \$3,600 to bring it to a level comparable to my original recommendation but allowing funding for the salary policy you have adopted.

State Patrol, Agency 64 -- I have reduced the General Fund from the Nebraska State Patrol's operating budget by a total of \$68,820. This money was intended to be used as a clothing expense and cleaning allowance for Patrol personnel. Those funds were not included in my original recommendation, and LB 849, which would have allowed those expenditures, has been left on General File.

Equal Opportunity Commission, Agency 67 -- The 1976-77 appropriations authority for the Equal Opportunity Commission has been reduced by \$13,392 which represented funding for one new full-time equivalent position. The remaining appropriations authority will provide for full funding of the Legislature's salary policy as well as replacing expired federal funding for three other full-time positions. This appropriation level is a 21% increase over that authorized for 1975-76.

Nebraska Arts Council, Agency 69 -- I have reduced by \$25,000 in program aid the recommended appropriation for the Nebraska Arts Council; the agency, however, will still receive a 27% increase in general fund support over the current fiscal year.

Bicentennial Commission, Agency 90 -- My original recommendation provided for financing the operation of the Bicentennial Commission for eight months of FY 76/77. Since my recommendations were made, the Commission has become involved in planning a number of additional activities for the fall of 1976. Therefore, my line item reduction of \$6,110 which provides for an increase in General Fund support of approximately 44% over FY 75/76, allows the Commission to operate for nine months in FY 76/77. The difference between my original recommendation and the appropriation remaining after my line item reductions is the additional one month's operation and the Legislature's salary policy.

I urge your sustaining my vetoes as outlined.

Yours very truly,

Dear Mr. President & Senators:

I am returning LB 761 without my signature and with my objections.

LB 761 makes several small changes to existing special education legislation to which I have no objection. One portion of this bill, however, represents a major and substantial change in both philosophy and funding. This bill, if allowed to become law, would shift the responsibility for initial diagnosis of children in special education programs from the local school district to the state.

The special education legislation your body passed and I signed in 1973 left the responsibility for initial diagnosis with the school district. The major reason for this was that if the state began to pay for all diagnosis, there would be a very real danger of over-classification of children, since the children would have to be categorized as handicapped in order to receive state reimbursement. No state should ever give its local school districts financial incentives to classify children as handicapped. These decisions should be left to the local school without federal or state strings attached to the outcome of the diagnosis.

The amount of funding provided in LB 761A could be a minimum amount if the state began to pay for initial diagnoses. Local funding of this service will provide more effective cost control than the state can provide. Some financial effort for special education programs should be left at the local level.

I urge your rejection of LB 761.

Sincerely,

(Signed) J. James Exon

Dear Mr. President and Senators:

I return herewith LB 794 without my signature and with my objections.

LB 794 extends the responsibility of the State of Nebraska for those employees who have been transferred, by legislative action, from state control to control of a mental health region or a community mental health center under a political subdivision of the State of Nebraska. In addition to the retirement benefits extended to these employees by LB 189, passed by the Eighty-Fourth Legislature, First Session, LB 794 would require the State to provide funds for the costs of sick leave and annual leave benefits for time accrued in excess of that allowed by the subdivisions to its other employees.

Since this legislation would affect only those employees who might be transferred after its effective date, it has the impact of discriminating against those employees who have been transferred in the past from state control to control of political subdivisions. Additionally, the provisions of this legislation would require the State to provide funds for this excess accrued leave for up to five years. This would allow continued discrimination among employees within the subdivision, as employees

transferred from state control would be treated differently than those who were never under state control. A substantial personnel management problem would thus be created for those political subdivisions affected.

Yours truly,

Dear Mr. President and Senators:

I am returning herewith without my signature and with my objections LB 826.

Legislative Bill 826 and its accompanying funding measure LB 826A in the amount of \$10,000 would expand and change the previous direction of the Agriculture Use Products Industrial Utilization Committee which has accomplished a great deal with Nebraska's Gasohol research program.

The committee was created and appointed with no consideration as to its expertise in coal research.

The \$10,000 appropriation is obviously a foot in the door approach to further extensive general fund expenditures if we are to be successful in this far-ranging field of research in the use of coal.

I question whether Nebraska state government can or should take on such a project by itself. If we subsequently decide such an adventure is appropriate, it should properly be handled directly through the University of Nebraska total research facilities.

If such research is needed, it would more properly be funded through the extensive Federal resources of the Old West Regional Commission which has such funds available. We also must first determine what similar and perhaps duplicating research has already been undertaken or planned elsewhere.

Dear Mr. President and Senators:

I am returning herewith LB 984 with my line-item reductions.

I have stricken \$10,000 for a study to determine present and future land uses and land-use regulations and ownership patterns around federal airports in Nebraska. This is a bill designed to solve only one particular problem of local concern which should be addressed without state study money.

I have also struck \$25,000 designed to "develop a program statement and preliminary plans for a facility to provide cardiovascular treatment, research, and education." Too many times start-up money such as this \$25,000 has developed into a multi-million dollar project. Since we have already incurred a future construction commitment of more than \$100 million, it is time to use restraint and to say no!! Cost estimates for this facility have ranged to \$15 million. All of this for a facility not even on the construction request of the Board of Regents.

The last item affected by my veto is a reduction in the project cost of the swine and beef facility at Curtis. I have reduced your appropriation of \$145,000 to my original recommendation of \$75,000. This \$75,000 will build a most adequate facility.

I respectfully request your concurrence in these line-item reductions.

Very truly yours,

Dear Mr. President and Senators:

I return herewith without my signature and with my objections LB 1011.

My feelings are, as pointedly confirmed by the Attorney General's opinion, copy attached, this measure is patently unconstitutional and also unenforceable because of contrary and preceding law passed by your body.

I well recognize the difficulties faced unfortunately by the Board of Trustees and the administration of Peru College.

However, this \$450,000 appropriation is a legislative attempt to thwart the Constitution and the law, and is an unconscionable act.

We believe that the Board may have sufficient leeway in their overall budget as approved to lease limited space in some dormitories.

The key question here is not just the future of the one Peru facility financed by "revenue bonds" and specifically issued on the pretense of no tax dollars being employed ever or the credit of the state being pledged, directly or indirectly, but rather whether this measure is not the stalking horse for possible and probable later legislative action of piecemeal or perhaps wholesale nature by saddling the taxpayers of this state with multi-millions of so-called "revenue bonds."

In the areas of higher education dormitories and related facilities, there is currently approximately \$45 million outstanding, considering such non-tax supported or pledged obligations of the state colleges and the University.

Indeed, the Legislature knowingly proceeded without hardly a blink of the eye when they were informed that this action would lead to similar other requests in the future.

In legislative debate on March 15, 1976, Senator Stull, the principal (sic) sponsor and floor leader of LB 1011, in responding to a question from Senator Cavanaugh, conceded that his measure might well be considered the forerunner of subsequent similar legislative action.

The Legislature might will be interested in a thorough review of this whole "revenue bond" area. We must not find ourselves in a position of asking the taxpayer to bail out the individual private bond holders who knew full well the risk they were exposed to when they voluntarily purchased the "revenue bonds."

Members of the Legislature have been opposed to the bail out of private New York City bondholders. It is inconsistent and certainly unconstitutional to approve the same with regard to private bond holders in Nebraska.

Your very truly,

ATTORNEY GENERAL'S LETTER

April 5, 1976

The Honorable J. James Exon
Governor
Capitol Building
Lincoln, Nebraska

Dear Governor Exon:

You request our advice on L.B. 1011 which was passed by the Legislature and is now in your hands for approval or disapproval. You ask if L.B. 1011 violates the provisions of Article XIII, Section 1, Constitution of Nebraska or Nebraska Revised Statutes section 85-403.

L.B. 1011 is quite simple. It authorizes the Board of Trustees of the Nebraska State Colleges to acquire Majors Hall, a dormitory, on the Peru State College Campus free and clear of all encumbrances. The bill then appropriates \$450,000.00 for this purpose. There is no indication in the bill nor reference to section 85-403, R.R.S. 1943, nor any reference to Section 1, Article 13, Constitution of Nebraska.

Since 1955, there have been a series of revenue bonds issued for the purpose of providing dormitory facilities at Peru State College. The authority for the issuance of such revenue bonds is generally found in Chapter 85, Article 4 of the Nebraska Statutes. In 1955 L.B. 138 was enacted which gave general authority to the state colleges to issue revenue bonds for the purpose of furnishing dormitories which law gave expanded authority and was supplemental to some existing provisions. Laws 1955, c. 352, Sec. 1, p. 1075. Section 1 of that act which is the forerunner to present section 85-403 indicated that the purpose of the law was to authorize the issuance of revenue bonds "and pay the cost thereof, . . . by issuing revenue bonds payable solely out of their revenue other than funds derived from taxation; . . ." This was emphasized as a part of the same section by the following language:

"Bonds issued under the provisions of sections 85-403 to 85-411 are not an obligation of the State of Nebraska, and no tax shall ever be levied to raise funds for the payment thereof or interest thereon. The bonds shall not constitute a debt of the board issuing the same, and shall be paid solely out of money derived from their revenue and earning as provided in sections 85-403 to 85-411. . . ."

Bonds were issued under the provisions of these sections, and as subsequent bond issues were made it apparently has been the practice to pledge the revenues of all like buildings for the payment of the later revenue bonds. Thus, as additional dormitories were built and financed by this method of financing, the revenues from the older dormitories were also pledged for the purpose of paying off the debt. We note that this section of the statute has not been amended nor eliminated from the law. L.B. 1011 in no way purports to amend section 85-403, though it attempts to authorize the expenditure of different funds not contemplated by section 85-403.

In 1968 the case of State ex rel. Meyer v. Steen, 183 Neb. 297, 160 N.W.2d 164, and the companion case of State ex rel. Meyer v. Duxbury,

183 Neb. 302, 160 N.W.2d 88, were decided. These cases cast a doubt as to the validity of the law which authorized the issuance of revenue bonds for the financing of dormitories. Apparently because of this, the 1969 Legislature proposed a constitutional amendment to Section 1 of Article XIII to specifically authorize the issuance of revenue bonds for this purpose and to validate revenue bonds previously issued by the state colleges and other. See L.B. 810, Laws 1969, c. 428, p. 1448. The ballot title to this particular constitutional amendment authorized the Board of Trustees of the State Colleges, and other boards, to issue revenue bonds for this purpose "payable solely from revenues, fees and other payments derived therefrom." (sic) This amendment was adopted in 1970. Thus, there was written into the Constitution a restriction of the Legislature which restriction had theretofore been placed upon the various boards authorized to issue such revenue bonds by statute. We will assume that the revenue bonds issued under these provisions are valid, though the holding of the court in State ex rel. Rogers v. Swanson, 192 Neb. 125, that an act of the Legislature which is forbidden by the Constitution at the time of its passage is absolutely null and void, and is not validated by a subsequent amendment to the Constitution authorizing it to pass such an act, could cast some doubt on the validity of such. The 1970 constitutional amendment then incorporated the statutory restriction into the Constitution as an inhibition against the Legislature in the following language:

"Which bonds shall be payable solely out of the revenue fees and other payments derived from the use of the buildings and facilities constructed or acquired including buildings and facilities heretofore or hereafter constructed or acquired and paid for out of the proceeds of other issues of revenue bonds and the revenue fees and payments so pledged need not be appropriated by the Legislature, . . ."

In State ex rel. Rogers v. Swanson, *supra*, our court said that the Legislature cannot circumvent an express provision of the Constitution by doing indirectly what it may not do directly. In United Community Services v. Omaha National Bank, 162 Neb. 786, 77 N.W.2d 576, the court pointed out that in construing a constitutional provision for the purpose of ascertaining the intent of the people in adopting it when its language is explicit, the courts are bound to seek for the intention in the words of the provisions itself, and they are not to suppose or hold that the people intended anything different from what the meaning of the language imports. The key language appears to be "which bonds shall be payable solely out of the revenues, fees and other payments derived from the use of the buildings and facilities constructed or acquired." Solely has been defined to mean a synonym of the term exclusively, In re Anderson's Estate, 3 Cal. 697 (1960). In Bergsvick v. Bergsvick, 205 Or. 670, 291 P.2d

724 (1955), the word "solely" was defined to mean without another; singly; alone; exclusively; to the exclusion of other purposes, persons, etc.: Merely; entirely; and wholly. Thus, within the terms of the constitutional provision the payment for the bonds is to come from only the revenue fees and other payments derived from the use of the building and not from general fund tax dollars. The attempted appropriation by the Legislature would certainly appear to violate this provision of the Constitution.

In addition, we would question the authority of the State Board of College Trustees to use these funds in the manner indicated. Section 85-403, R.R.S. 1943, is a legislative restriction on the manner in which these revenue bonds may be retired. While they apparently appropriated the money in L.B. 1011 and authorized the acquisition of the building, no amendment was made to section 85-403. Before funds may be expended there must be both authority and an appropriation. Yet, it must be obvious, that the proceeds from L.B. 1011 would be used for paying the interest or principal on these bonds from different funds than those specified in section 85-403. This, in effect, would be an amendment to section 85-403 and might well bring the bill within the provision of Section 14, Article III, of the Constitution of Nebraska which provides that no law shall be amended unless the new act contained the section or sections as amended and the section or sections so amended shall be repealed.

There is one other questionable area to which your attention should be directed. Section 19, Article III, Constitution of Nebraska provides that the Legislature shall never grant any extra compensation to any contractor after the contract has been entered into. Arguably the most recent bond issue involving this dormitory is a contract which has been entered into and undoubtedly incorporates the various restrictions on payment within the terms of the statute. Certainly the bond holders should be aware that tax money cannot be looked to for payment. Yet, it would appear that the state is giving an additional consideration on a unilateral basis which is over and above that originally contemplated by these revenue bond issues. In any event, when we read these various provisions of the Constitution together, we feel that it is clear that this approach to the payment of these revenuebonds is invalid.

Yours very truly,

PAUL L. DOUGLAS
Attorney General

Legislative Chamber, Lincoln, Nebraska
Thursday, April 8, 1976

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Whelan presiding.

PRAYER

The prayer was offered by the Chaplain.

Eternal Father of our souls, grant to the members and officers of this Legislature a sacred moment of quiet before we take up the duties of the day. Turn our thoughts to Thee, and open our hearts to Thy spirit that we may have wisdom in our decisions, understanding in our thinking, love in our attitudes, and mercy in our judgment. Let us not think, when this prayer is said, that our dependence upon Thee is over, and forget thy counsels for the rest of the day. Rather from these moments of hard searching may there come such a sweetness of disposition that all may know that thou art in this place. From this holy interlude may there flow light and joy and power that will remain with us until night shall bring thy whispered benediction, "Well done, good and faithful servant." So help us all this day, through Jesus Christ our Lord. Amen.

PRAYER

The prayer was offered by the Chaplain.

For the infinite variety of circumstances and situations, of issues and events, of joys and sorrows, which have marked the pathway from where we were at the start of this Session, to the place where we find ourselves this morning . . .

-- for the sheer privilege of having been brought together from our widely differing backgrounds and areas as members of one family in this House . . .

-- for those occasions when we have been able to see beyond our differences of opinion and political philosophy, and unite behind purposes which are larger than we are, and advance causes which are destined to outlive us . . .

-- for whatever use You have been able to make of us in serving the needs of others . . .

-- for the courage we have experienced in moments of heat and tension really to believe that what helps people is always right, and for anything and everything that has happened during this Session to translate that conviction into action . . .

-- for the record, good and not so good, to which we now point with satisfaction, or criticize as less than satisfactory . . .

-- for those who have worked among us in committee and caucus, or quietly behind the scenes in less obvious roles to help the machinery of this House and this State to move on, as for families back home who have continued to support us when things have not gone smoothly here . . .

-- for the inner satisfaction we feel that we have been part of some things happening for good in our time, as for the penitence we feel that we could not have done more, that we did not do better . . .

-- for friendships we have formed here with each other, and with others, which will continue to have meaning and memory far beyond our associations here . . .

-- for the uncertain future which lies beyond today's Session, and the continuing crises with which it will confront all of us, and for the continuing dedication and devotion it will inspire from all men of good will . . .

-- for such things as these we pray in special thanksgiving at this day's beginning, which marks this Session's ending.

O Lord our God.

Your love divine has led us in the past;

In this free land, by You our lot is cast.

Still be our Ruler, Guardian, Guide and Stay,

Your word our law, Your paths our chosen way.

MESSAGE FROM THE GOVERNOR

April 8, 1976

Mr. President, Mr. Speaker
and Members of the Legislature
State Capitol
Lincoln, Nebraska

Dear Mr. President and Senators:

I return herewith LB 781 without my signature and with my objections.

This measure would further penalize Nebraskans by extracting from them an additional \$300,000 per year for driver's license renewals and new licenses.

The license holders would be forced to have their pictures on their driver's licenses which certainly would be of little benefit to them.

That, in my opinion, would be an expensive and unnecessary picture of one's self and is vetoed primarily for that reason.

Yours very truly,

(Signed) J. James Exon
Governor

ATTORNEY GENERAL'S OPINION

Opinion No. 218
April 8, 1976

Dear Mr. Stull:

You pose two questions which have arisen as a result of our letter to the Governor, dated April 5, 1976, concerning LB 1011. We will answer your second question first.

You wish to know how LB 1011 can be amended to be in compliance with Section 14, Article III, Constitution of Nebraska. LB 1011 states that the Board of Trustees of the Nebraska State Colleges is authorized to

acquire Major's Hall. The appropriation is from the general fund for that purpose. Though the bill does not say so, we assume the appropriation is to the Board. Sec. 85-403, R.R.S. 1943, states what funds may be expended by the Board to pay off the bonds and specifically excludes "funds derived from taxation." So, if we forget for this question the constitutional restriction and consider only the statute, this section would need to be amended to permit the Board to expend these funds for the purpose specified.

You also wish to know if the State may purchase a building for a legitimate state purpose even though it is a revenue bond facility and such purchase would have the indirect effect of retiring bonded indebtedness. Our court has repeatedly held that the Legislature may not circumvent an express provision of the Constitution by doing indirectly that which it may not do directly, see State ex rel Rogers v. Swanson, 192 Neb. 195. Your question is overly broad. We cannot possibly envision all of the possible circumstances which might arise. In addition, the actual factual circumstances might need to be considered if acquisition of such a facility were contemplated to make sure that Section 1, Article XIII, of our Constitution was not being violated directly or indirectly.

Very truly yours,

PAUL L. DOUGLAS
