RULE 7–PROCEEDINGS AND MOTIONS

(A) Order of Business

Section 1. Meeting Time, Restrictions. (a) The Legislature shall meet annually at 10:00 a.m. on the first Wednesday after the first Monday in January of each year and thereafter on each legislative day at 9:00 a.m., and adjourn not later than 1:00 p.m., unless otherwise ordered by a majority vote of its members present and voting thereon. The Legislature shall remain in session until it shall adjourn sine die, but in no event shall it remain in session for longer than ninety (90) legislative days in odd-numbered years or sixty (60) legislative days in even-numbered years. This limitation may be suspended by a four-fifths vote of the elected senators.

Const. Art. III, Sec. 10.

Each day the Legislature convenes shall be considered a legislative day.

(b) The order of business of the Legislature shall be as follows; except as otherwise provided by the Speaker.

a. Prayer by the Chaplain
b. Roll call
c. Call for correction of the Journal
d. Petitions and memorials
e. Notice of committee hearings and reports
f. Bills on Final Reading
g. Resolutions
h. Introduction of bills and reading by title
i. Consideration of bills on Select File
j. Motions to reconsider
k. Motions to advance bills from committee
l. Other pending motions
m. Unfinished business, including messages on President's desk
n. Consideration of bills on General File
o. Miscellaneous business

(c) Messages from the Governor may be received at any stage of the proceedings.

(d) When a bill shall have been made a special order for a definite time and an adjournment shall intervene for a time beyond the time fixed for such special order, then in that event the bill so made a special order shall be placed in its order on General File. The unfinished business in which the

Legislature was engaged at the adjournment of the last preceding sitting shall have preference in the special order of the day.

(e) Upon call for the introduction of bills, any member or any standing committee to which bills are referred for consideration may introduce one or more bills.

Introduction of bills. Rule 6, Sec. 1.

(B) Voting Machine

Sec. 2. Voting, Electric Roll Call. (a) All votes shall be taken viva voca unless otherwise provided for herein. Questions shall be distinctly put in this form, to wit: "Those who are in favor of the question say 'aye'; those who are opposed to the question say 'nay'."

(b) If a machine vote is called for or if the presiding officer is in doubt, he shall cause the result to be obtained by means of the electric roll call system, and in such event shall accept only machine tallied votes except that voice votes shall be accepted on a motion before the House while the House is under Call. The presiding officer may vote by voice. Only the totals shall be printed in the Journal. Once having voted aye or nay, senators may call in a change to not voting prior to the locking of the voting board.

(c) Upon the final passage of a bill, or of a resolution if the same required the same consideration as a bill, the vote shall be by yeas and nays, and the electric roll call system shall be used. Voice votes shall be accepted on Final Reading.

(d) Whenever the "ayes" and "nays" are taken by machine vote no member shall be permitted to vote after the decision is announced by the presiding officer or the clerk. Votes not registered on the electric roll call system shall not be counted for or against a proposition. In announcing such vote the clerk shall announce the ayes, the nays, those present and not voting, those absent and not voting, and those excused and not voting, and on any action to advance or amend bills, these totals shall be set forth in the Journal. Voice votes shall be accepted on roll call or record votes.

(C) Motions

Sec. 3. Motion, in Writing, Withdrawal. (a) A motion shall be either stated

by the presiding officer or read by the Clerk before a vote is taken. All motions shall be submitted in writing if requested by the presiding officer or any senator.

Once motions are stated they may be withdrawn or modified by the mover before a decision, amendment, or ordering of a vote has been made. A motion to reconsider may be withdrawn only with unanimous consent or a majority vote of the elected members.

When a question is under debate no motion shall be considered except one of the following, which motions shall take precedence in the order stated.

a. To adjourn
b. For the previous question
c. To postpone to a time certain
d. To recommit to a committee
e. To amend
f. To postpone indefinitely

Such motions shall have precedence in the order in which they are arranged, except that motions to postpone indefinitely and amend do not yield to each other.

When any of the following motions shall be made, any action on such motion shall be delayed at least one legislative day and the motion shall be printed in the Legislative Journal:

a. Motion to postpone indefinitely on Select File
b. Motion to advance bills from committee
c. Motion to place bills on General File, notwithstanding the action of a standing committee

(b) When a motion or other proposition is under consideration, a motion to amend and a motion to amend that amendment shall be in order.

(c) Amendments to the title shall be made by the Enrollment and Review Committee.

(d) No motion, proposition, or subject, different from that under consideration, shall be admitted under color of amendment.

(e) Any member may call for the division of a question, which shall be divided if it comprehends propositions in substance so distinct that, one

being taken away, a substantive proposition shall remain for the decision of the Legislature. A motion to strike out and insert shall be deemed indivisible, but a motion to strike out being lost, shall not preclude an amendment or a motion to strike out or insert.

(f) When motions are made for reference of the same subject to a select committee and to a standing committee, the question on reference to the standing committee shall be considered first.

Sec. 4. Shall the Debate Cease. The previous question shall be in this form, "Shall the debate now close?"

The previous question shall be in order when demanded by five or more members and must be sustained by the vote of a majority of the elected members, and until decided shall, except as provided in this section of this rule, preclude further debate and all amendments and motions, except one motion to adjourn.

On a previous question there shall be no debate. All incidental questions of order, arising after a motion is made for a previous question, and pending such motion, shall be decided, whether on appeal or otherwise, without debate.

When the previous question shall have been ordered on a proposition under debate, the mover, proponent, or introducer of such proposition shall be given the right to close the debate thereon.

Sec. 5. Call of the Legislature. A Call of the Legislature may be made by any member in the manner following: "I move for a Call of the Legislature." The presiding officer shall direct that the board be cleared and the members shall then vote on placing themselves under Call. If a majority of the senators present and voting vote in favor of such a motion then the Legislature shall be deemed to be under Call. Each member present shall indicate his presence upon the electric roll call system and shall remain in his seat during the Call. After the Clerk shall note the names of the absentees, proceedings under the Call may be suspended at any time by a majority vote of the members then present, and when so suspended shall not again be ordered on the proposition pending, except by a majority vote of the members elected. If all absentees were to vote on one side of the question, and if their combined vote would be insufficient to change the result of the vote, the President shall declare the Call raised.

Lieutenant Governor votes only when Legislature equally divided. Rule 1, Sec. 14.
Voice vote while House under Call. Rule 7, Sec. 2b.

Sec. 6. Postpone to Time Certain. No motion to postpone to a time certain, to commit, or to postpone indefinitely being decided, shall again be allowed on the same day at the same stage of the bill or proposition.

Sec. 7. Reconsideration. (a) When a question has been decided, it shall be in order for any member voting with the prevailing side, or not voting, to move for a reconsideration thereof. A motion to reconsider must be made on the same day the original question was decided or on the next legislative day, except when it be to reconsider the vote on a bill which lacked the constitutional majority on a Final Reading. In such case, it must be made on the same day the original question was decided or on one of the next three legislative days. A motion to reconsider must be disposed of by the Legislature within five legislative days after making the same or it shall be deemed defeated. If the Legislature shall refuse to reconsider, or upon reconsideration shall affirm its first decision, no further motion to reconsider shall be in order unless by unanimous consent.

Motion to reconsider cannot be withdrawn without leave. Rule 7, Sec. 3.

(b) Every motion to reconsider shall take preference over all other questions, except a motion to adjourn.

(c) For its adoption, a motion to reconsider shall require the vote of a majority of the elected members, except:

i Where such motion be to reconsider the vote on a bill which lacked the constitutional majority on a Final Reading, then a three-fifths vote shall be required for adoption.

ii Where such motion be to reconsider the vote on a bill which lacked the constitutional majority on a Final Reading with the emergency clause attached, but which received the constitutional majority with the emergency clause stricken and the purpose of the motion is to again add the emergency clause, then a two-thirds vote of the elected members shall be required for adoption.

Sec. 8. Strike the Enacting Clause. A motion to strike the enacting clause if adopted, is equivalent to rejection of the bill. It shall not have

precedence over a motion to amend nor a motion to indefinitely postpone.

Sec. 9. Motion to Adjourn. A motion to adjourn shall be in order, except:

a. While a member is speaking.
b. When a motion to adjourn has just been defeated.
c. After the Final Reading of a bill and during roll call thereon.

A motion to adjourn to a time certain shall have precedence over a motion to adjourn. A motion to recess shall take precedence over either of such motions.

When a motion to adjourn has been made, the Speaker shall be privileged to speak to the motion prior to any vote on such motion, otherwise a motion to adjourn is not debatable.

FIRST DAY - JANUARY 4, 1978

LEGISLATIVE JOURNAL

EIGHTY-FIFTH LEGISLATURE
SECOND SESSION

FIRST DAY

Legislative Chamber, Lincoln, Nebraska
Wednesday, January 4, 1978

Pursuant to the provisions of Section 10, Article III of the Constitution of Nebraska, the Eighty-Fifth Legislature, Second Session of the Legislature of Nebraska assembled in Legislative Hall of the Capitol Building at the hour of 10:00 o'clock on Wednesday, January 4, 1978, and was called to order by President Whelan.

Presentation of Colors by the Nebraska National Guard Ceremonial Unit.

PRAYER

The prayer was offered by Chaplain Robert Palmer, Westminster Presbyterian Church, Lincoln, Nebraska.

> Eternal God, who makes all things new, we ask your guidance as we begin another session together as leaders of this State. We remember others who have served with us in the past and who are gone from us now; we welcome other new faces on the scene and pray that they and we may work together well; and we are always grateful for the familiar faces which have returned, and ask that you'll continue to work through us all. Give us courage for the great challenges which face us, and endurance for the trivia that clogs our calendars, and the wisdom to tell the difference from the two. Instruct each one of us, the officers of this body, each Senator, each secretary, each aide, each one involved in the enactment of legislation for the people of the State this year, that together we may "do justly, love mercy, and walk humbly with our God" and with one another all the days of our lives. Amen.

MESSAGE FROM THE GOVERNOR

January 4, 1977

Mr. President, Mr. Speaker,
and Members of the Legislature
State Capitol Building
Lincoln, Nebraska

Dear Mr. President and Senators:

Because of the meeting in South Sioux City in an attempt to get negotiations resumed for hopeful settlement of the Iowa Beef Processors' strike, followed by a Governors' meeting in Minnesota on the agriculture strike and possible solutions, I cannot personally be in the Chambers to welcome you back. I apologize for my necessary absence, and appreciate your notification that the Legislature has reconvened. Nevertheless I welcome you back to your important deliberations.

We all recognize the time restraints of the sixty legislative day sessions in even-numbered years. I pledge my cooperation in helping to expedite our decisions. As usual, when any of you feel a conference would be helpful, you will find me available. Even during previously scheduled meetings in my office, Senators are afforded priority considerations.

I will be presenting my recommended budget and a state of the state address earlier than customary to help expedite the work of your appropriations committee and the final actions by the body on the fiscal 1978-79 budget. My final recommendation and presentation to you will be ready by the end of this month or by no later than approximately February 10. My budget will be based on maintaining the reduced state tax rates that became effective four days ago.

Pat and I are looking forward to greeting and sharing an evening with each of you and your spouses during the annual dinner at the Executive Mansion next Monday evening. 'Til then I wish you God speed in your efforts and a Happy New Year.

Sincerely,
(Signed) J. James Exon
Governor

ATTORNEY GENERAL'S OPINIONS

Opinion No. 115
July 13, 1977

Dear Senator DeCamp:

Mr. Coolidge, Director of the State Department of Roads, has forwarded to this office a copy of your letter to him dated July 5, 1977, in which you request his attorney to advise you concerning the constitutionality and legality of the Legislature directing the issuance of bonds for specific projects and providing for the retirement of the bonds from a gasoline tax of one cent per gallon. Pursuant to that request, we are providing you with the following information under the assumption you are contemplating legislation.

Section 1, Article XIII, of the Nebraska Constitution generally prohibits the State of Nebraska from contracting debts in excess of $100,000. The following exception is provided for in that section, however, which is applicable to the situation at hand:

> ". . .Provided, that if the Legislature determines by a three-fifths vote of the members elected thereto that the need for construction of highways in this state requires such action, it may authorize the issuance of bonds for such construction, and for the payment of the interest and the retirement of such bonds it may pledge any tolls to be received from such highways or it may irrevocably pledge for the term of the bonds all or a part of any state revenue

closely related to the use of such highways, such as motor vehicle fuel taxes or motor vehicle license fees;. . ."

Pursuant to such authorization, the Legislature enacted the Nebraska Highway Bond Act in 1969, section 39-2201, et seq., R.R.S. 1943. Section 39-2202 provides for the creation of the Nebraska Highway Bond Commission which, under section 39-2203, is granted the authority to issue bonds in such principal amount to defray a part or all of the cost of construction of highways, limited to the total principal amount authorized by the Legislature. The amount authorized to be issued is further limited by section 39-2205 so that the total payment of principal and interest in any one year may not exceed fifty per cent of the money deposited in the Highway Trust Fund during the year preceding issuance. Section 39-2213 provides that the bonds which are issued are special obligations of the state payable only from the Highway Trust Fund.

Section 39-2215 provides that all motor fuel taxes and special fuel taxes, as well as several other types of revenue, are "irrevocably pledged for the terms of the bonds to the payment of the principal, interest, and redemption premium, if any, of such bonds" and shall be deposited in the Highway Trust Fund as received by the State Treasurer. Furthermore, section 39-2216 provides that the Legislature "irrevocably pledges and agrees" that it will not repeal, diminish, or apply to any other purpose those taxes mentioned above so long as the bonds remain outstanding, "if to do so would result in fifty per cent of the amount deposited in the fund in each year being less than the amount equal to the maximum annual principal and interest requirement of such bonds.".

From the foregoing, it appears that although your contemplated legislation could be drafted so as to be constitutional, it may be very difficult to draft so as to be consistent with the provisions of section 39-2201, et seq., and particularly the sections cited above.

Opinion No. 119
August 1, 1977

Re: Section 28-1031.01, R.R.S. 1943

Dear Senator Stoney:

You have requested our opinion as to whether, under the present language of section 28-1031.01, R.R.S. 1943, smoking is prohibited in "auditoriums" used by and open to the public. Section 28-1031.01 states in part as follows:

> ". . . whereas such smoking if done in any hospital patient room or patient area, elevator, indoor theater, library, art museum, concert hall, or bus which is used by or open to the public is harmful to the public health, smoking of tobacco in any form in any area specified in this section is prohibited, . . ."

It is important to note that a violation of section 28-1031.01 is made a misdemeanor punishable by a fine of from $10 to $100 by section 28-1031.02, R.R.S. 1943.

Several maxims of statutory interpretation must be considered in reaching an answer to your question. First, penal statutes must be strictly construed while placing a sensible interpretation upon the plain language of the statute. State v. Holtan, 197 Neb. 544, 250 N.W.2d 876 (1977). Next, where a statute enumerates certain objects upon which it is to operate, it is to be considered as excluding from its effect all those objects not expressly included within its operation unless the Legislature has plainly indicated a contrary purpose or intention. Galston v. School District of Omaha, 177 Neb. 319, 128 N.W.2d 790 (1964). A review of the legislative history of section 28-1031.01 indicates a conscious effort

on the part of the Legislature to initially prohibit smoking in only those areas specifically noted in the statute. The terms "auditorium" and "concert hall" are not synonymous. To say that by mentioning concert halls the Legislature intended to exclude from the operation of this statute auditoriums, in view of the legislative history of this enactment, appears a sensible interpretation.

Finally, the purpose of section 28-1031.01 appears to have been to identify certain structures in which smoking was to be regulated. We do not feel that a change of activity within a structure can bring about the operation of section 28-1031.01 where it would not otherwise apply.

Thus, performing a concert in what would otherwise be termed an "auditorium" would not create a "concert hall" for that performance requiring smoking restrictions.

Dear Mr. Brown:

You have asked several questions regarding provisions relating to lobbying and lobbyists in LB 987 (1976) and LB 4 (1977).

Your first question is whether lobbyists who filed registrations under the old lobbyist statutes are required to file anew under LB 987. Section 50-313, R.R.S. 1943, repealed by LB 987, provided that you were to charge a fee of $25 for application and registration by a lobbyist for each different principal. The section further provided that a certificate should be issued for each lobbyist and that the certificate would continue in affect until the commencement of the next legislative session in an odd numbered year. Thus, under this section a lobbyist, in effect, is registered for two years at the commencement of the legislative session in the odd numbered year until the commencement of the subsequent legislative session in the subsequent odd numbered year.

This provision resulted in lobbyists registering prior to or after the commencement of the legislative session in January of 1977. At

that time their registration was to be effective for two years under the terms of section 50-313. LB 987 in section 49-1486, Eighty-fifth Legislature, First Session, Section 2, provided that the registration of all lobbyists was to terminate on December 31 of the year in which the registration was noted in the journal. LB 4 altered that provision so that the registration shall be valid for the period commencing with each regular session of the Legislature which convened in an odd numbered year and terminated at the convening of a regular session in the next odd numbered year reinstating, in effect, the provisions of section 50-313. A further difficulty is encountered because LB 987 became effective July 1, 1977, whereas LB 4 does not become effective until September 2, 1977. Thus, during the intervening period the provisions of LB 987 apply to registration for lobbyists.

As to the first question, it is our opinion that those lobbyists who registered under the provisions of section 50-513, R.R.S. 1943, are entitled to the terms of that provision in that their registration under that act and their payment of a registration fee shall be effective for the two-year period of the Legislature. As such, it is our opinion that they would not be required to pay a subsequent registration fee. However, we find no impediment to requiring that they comply with the terms of LB 987 with respect to the disclosure of information called for therein by lobbyists. Thus, you may request that the lobbyists reregister on forms newly developed by the executive board of the Legislature for compliance with LB 987, but you would not be entitled to require an additional fee from the lobbyists. We believe that this conclusion is justified because under LB 987 lobbyists are required to file monthly reports. In addition, they are required to file an application prior to commencing any lobbying activity with the Clerk of the Legislature. See, section 49-1480. The nature of these requirements are, of course, new under LB 987.

In your second question you ask whether a lobbyist, not previously registered seeking to register between July 1 and September 2, would be required to pay a $5 registration fee or some other fee. This question arises because section 49-1482 of LB 987 required a fee of $5 while section 49-1482 as amended by LB 4 requires a fee of $25. The second part of your question is whether such persons would then have to pay an additional $25 registration fee for new registrations prior to the commencement of the 1978 legislative session. During the interval, as you have set forth in your question, the terms of LB 987 are effective. The appropriate

fee for persons newly registering during that period is $5. Subsequent to September 2, 1977, LB 4 becomes effective and amends that provision to change the fee to $25. From and after September 2, 1977, the fee for registrations by lobbyists will be governed by LB 4 and be at a rate of $25.

Your next question is under section 49-1483, are the interim reports required therein applicable to activities occurring from and after July 1, 1977, to the commencement of the next session of the Legislature. Section 49-1483 provides that lobbyists shall file a report for each principal for each month the Legislature is in session and shall file a separate statement once during each interim period between regular sessions of the Legislature. Obviously, the Legislature has not met during the period of July 1, 1977, to date. It would appear unlikely, although unknown, that the Legislature will meet between the present date and the commencement of the next regular session in January of 1978. Thus, the only report required by this section is the interim report to be filed prior to the commencement of the next regular session. Thus, only those matters subject to be reported that occurred after the effective date of LB 987 would be required to be reported in the interim report required by section 49-1483.

The final question you have raised is whether section 49-1488 applies to the Eighty-fifth Legislature, First Session, which adjourned June 1, 1977. LB 987 was not effective during the 1977 session of the Legislature. Section 49-1488 requires that within 30 days of the completion of a regular session of the Legislature a lobbyist shall submit a report to the Clerk listing the legislation upon which he acted and identify bills, resolutions, and the position taken by such lobbyists. There is no indication in LB 987 that it was intended to have retroactive effect. Thus, in our opinion section 49-1488, R.S.Supp., 1976, is not applicable to actions taken by lobbyists during the Eighty-fifth Legislature's First Session. It will, of course, be applicable and effective from and after the next legislative session.

Opinion No. 124
August 19, 1977

Dear Senator Labedz:

You have requested our opinion on the constitutionality of proposed amendments to L.B. 407, Eighty-Fifth Legislature, First Session, 1977. The draft you have provided would amend section 77-202.12 by adding a new section which provides:

> "(5) Homestead improvement shall mean any improvement to an existing structure of a homestead."

The second proposed amendment would amend section 77-202.13 to add a new subsection which provides:

> "(5) 100% of the actual value of any improvement to the structure of the Homestead, provided that the structure is more than 25 years old and that the exemption shall expire five years after such improvements are made."

The third amendment would amend section 77-202.15(3) to provide:

> "Exemption as provided in Subdivision (5) of Section 77-202.13, shall not be transferred to the new owner or purchaser."

The effect of these three amendments would be exempt 100% of the actual value of any improvement to the structure of a homestead, where the homestead is more than 25 years old for a period of five years. Such an exemption would not be transferable.

The Legislature, by virtue of Art. VIII, sec. 2, is authorized to exempt a portion of the value of any residence actually occupied by an owner. Pursuant to that provision of the Constitution, the Legislature has enacted the homestead exemption provisions generally found in sections 77-202.12 through 77-202.22, R.R.S. 1943. The actual value of any improvement to a homestead qualifying for the exemption under the proposed amendments would be available without regard to the value of the improvement.

The Legislature has classified homeowners into different classes for purposes of granting an exemption. Section 77-202.13 exempts 25% of the actual value of any homestead having a value of $1,500.00 or less, 20% of the first $4,000.00 of any homestead having a value in excess of $1,500.00, the first 90% of the actual value of any homestead of a veteran, as defined by statute, and 100% of the first $15,000.00 of value for any homestead of persons qualifying under section 77-202.12 which generally require that the claimant meet certain income limitations. We perceive a problem

with respect to the latter classification under the terms of your proposed amendment.

The following possibility might exist. A person in all respects entitled to the homestead exemption, provided by statute, owning a home of $30,000.00 value would have an exemption on the first $15,000.00, and thus pay taxes on the remaining $15,000.00, while a similar person in the same circumstance would have a home of a similar value to which improvements of $5,000.00 might be made. The second person would, for at least a five-year period, have an exemption of an additional $5,000.00. This would create a subclass within a class established by statute. It is our opinion that the class itself, provided for by statute, has a rational relationship to legitimate legislative purposes. We have more difficulty where persons in the same circumstances would be entitled to a different exemption rate solely due to an improvement. In Stahmer v. State, 192 Neb. 63, 218 N.W.2d 893 (1974), the Supreme Court stated:

> "'The Legislature may make a reasonable classification of persons, corporations, and property for purposes of legislation concerning them, but the classification must rest upon real differences in situations and circumstances surrounding the members of the class, relative to the subject of the legislation, which render appropriate its enactment; and to be valid the law must operate uniformly and alike upon every member of the class so designated.' Rehkopf v. Board of Equalization, 180 Neb. 90, 141 N.W.2d 462."

In the hypothetical situation we have posed in this letter, two houses of equal value and two persons of similar circumstances could exist, one having an exemption of 100% of $15,000.00 and the other having an exemption of $20,000.00. We believe that this would be a difficult classification to defend and, therefore, it is our opinion that the proposed amendment would be constitutionally suspect.

Sincerely,
PAUL L. DOUGLAS

Opinion No. 130
September 20, 1977

Dear Senator Duis:

In your letter of September 6, 1977, you ask whether natural resources districts are required to comply with the filing requirement of the Administrative Procedures Act with respect to the filing of their rules. We conclude that they are not.

Section 84-902, R.S.Supp., 1976, contains the filing requirements for "agencies." Section 84-901, R.S.Supp., 1976, defines agency to mean each board, commission, department, officer, division, or other administrative office or unit of the state government authorized by law to make rules, with certain exceptions. The case of Harnett v. City of Omaha, 188 Neb. 449, 197 N.W.2d 375 (1972), held that the Administrative Procedure Act is applicable only to agencies of the state and that it did not apply to the Personnel Board of the City of Omaha. In State ex rel. Southeast Rural Fire Protection District v. Grossman, 188 Neb. 424, 197 N.W.2d 398 (1972), while the Supreme Court did not directly decide the issue, it referred to the fact that the District Court of Lancaster County had held that the Board of County Commissioners was not a state agency under the provisions of the Administrative Procedures Act.

We are quite convinced that natural resources districts are not state agencies, as contemplated by section 84-901. Under the provisions of Chapter 2, Article 32 of the statutes, the entire state is divided into a number of natural resources districts. These districts are governed by boards elected by the voters, and have taxing powers. It is clear that they are therefore political subdivisions of the state, rather than state agencies. They would not, therefore, be governed by the Administrative Procedures Act.

We have not overlooked the provisions of section 2-3204, R.R.S. 1943, which provides in part:

> "(1) The commission shall establish appropriate rules and regulations for all hearings and other procedures authorized by this act. All such hearings and procedures shall be subject to the provisions of Chapter 84, article 9."

We do not, however, construe this as applying the filing requirements of section 84-902 to the natural resources districts. It only requires hearings and procedures to comply with that Act. In section 2-3244 to section 2-3450 provision is made for the adoption

of land-use rules and regulations. These sections set forth rather fully the method of adoption of such rules and regulations, and we find nothing in these sections which suggests that they are to be filed as required by the Administrative Procedures Act.

As you know, we render legal opinions to senators only when such opinions are necessary to the senators in the performance of their legislative duties. We have rendered this opinion to you as Chairman of the Legislature's Committee on Administrative Rules and Regulations with the understanding that such opinion is necessary to you and the Committee in the performance of the Committee's functions.

Honorable Ralph Slocum
Secretary, Nebraska Political
Accountability and Disclosure Commission
3900 Sheridan Blvd.
Lincoln, Nebraska 68506

Dear Judge Slocum:

You have requested on behalf of the Political Accountability and Disclosure Commission the answer to certain questions. The first question which you have requested that we answer is when do the terms of the members of the Political Accountability and Disclosure Commission begin and end? LB 987, section 139, provides:

> "Sections 106 to 122 of this act shall become operative on their effective date or as specified therein. The other sections of this act shall become operative on July 1, 1977."

LB 987 was passed by the 1976 legislative session, Eighty-fourth Legislature, second session. It became effective three months after the Legislature adjourned. It however had an operative date of July 1, 1977.

Section 105 of LB 987 provided that three members should be appointed by the Governor, three members by the Secretary of State and that the Governor and the Secretary of State should also be on the Board. Section 110 required that the persons nominated for appointments should be submitted not later than March 15, 1977 to the Legislature. The Legislature then had 60 days in which to act or the person was to be seated as an acting member of the Commission until the Legislature did act. The Legislature received the names within the times specified and acted within the time specified confirming the individuals who were appointed. The individuals were referred to the Legislature by the Governor and the Secretary of State on different dates. The Legislature confirmed the individuals whose names had been submitted on several different days during the legislative proceedings. The Governor's appointment notification indicated that the members of the Commission were appointed to serve for terms commencing July 1, 1977. The Secretary of State's appointments indicated that the Commission members were appointed to serve terms commencing as provided by law.

It is clear from reading the sections regarding the initial appointment and initial acts of the Commission members that the Legislature envisioned the Commission establishing operations prior to July 1, 1977, the operative date of the act. In the 1977 legislative session a number of amendments were proposed to LB 987, some of which would have substantially altered the law. During the period in which substantial question existed as to the final form of LB 97, no work was commenced upon by the Political Accountability and Disclosure Commission.

A general discussion of terms of office may be found at Report of the Attorney General, 1959-1960, Opinion No. 4, page 10. In that opinion we indicated that a term of office may be fixed by law though not stated in express terms. Where one may infer a date from a construction of the statute as a whole, the commencement of the terms should operate from and after that date. In LB 987 we can find no date that can be firmly inferred as a date for the commencement of terms of the members of the Commission. In fact, the only document to which we can refer that gives a specific date for the commencement of terms of members of the Commission is the appointment of the Governor. It is our opinion that the appointment by the Governor in the absence of some other firm guide as to a date for the commencement of the terms should be controlling. While it is clear that the executive may not alter

terms established by the Legislature where the terms are not clearly established by the Legislature it is within the authority of the executive to establish the commencement of the term. Thereafter, of course, the terms must conform to the legislative dictates. In LB 987 the specific members of the Commission have terms clearly set forth and those terms shall control.

Your second question is whether the Nebraska Political Accountability and Disclosure Commission is responsible for receiving federal campaign reports. The section of federal law that relates to this particular requirement is found at 2 U.S.C.A. Section 439. It provides in part:

> "(a) A copy of each statement required to be filed with the Commission by this subchapter shall be filed with the Secretary of State (or, if there is no office of Secretary of State, the equivalent State officer) of the appropriate State. . . ."

The specific language of this section appears to mandate that the Secretary of State be the appropriate filing officer. It is our opinion that the specific language herein contained would control, thus the Secretary of State should be the person to whom such reports are tendered by candidates and not to the Political Accountability and Disclosure Commission.

A further question that you have raised is whether the records of the Conflicts of Interest Committee under section 49-101, et seq., R.R.S. 1943, now repealed should be held by the Political Accountability and Disclosure Commission, the State Historical Society or the Secretary of State. Section 82-104, R.R.S. 1943, states:

> "The Nebraska State Historical Society shall be the custodian of all public records, documents, relics, and other material which this society may consider to be of historic value or interest, and which may be in any of the offices of vaults of the several departments of the state, . . ."

Section 82-105, R.R.S. 1943, provides:

> "The Nebraska State Historical Society shall obtain possession of the historical material mentioned in section 82-104 whenever it is not in active use in any department, institution or building, . . ."

Furthermore, it is unlawful for anyone to destroy or dispose of records without complying with the terms of the Record Management Act. Thus in answering your question it would appear that the Historical Society initially may determine whether or not

they wish to be the custodian of the Conflict of Interest Committee records. Assuming they do not then the terms of the records management preservation statute should be complied with prior to the destruction or alteration of any of the documents held by the Conflicts of Interest Committee. There is no particular statutory authority clearly assigning a custodial function to any particular body. It is an issue that should be decided by consultation between the Political Accountability Commission, the State Historical Society and the Secretary of State.

The final question to be addressed in this letter raised by the Commission is your request for our opinion on the duty of the Commission arising under section 49-1484, R.S.Supp., 1976. That section provides:

> "The Clerk of the Legislature shall monthly while the Legislature is in session, and at least once while the Legislature is not in session, refer all such statements to the commission which may require the lobbyist or the principal to furnish additional details with respect to the matters which are or should be included in such statements. The Legislature itself may at any time require the furnishing of such additional details."

Your question is more specifically directed to the phrase, refer all such statements to the Commission. What then is the Commission's responsibility or authority under this section?

The provisions relating to lobbying in LB 987 are primarily directed toward informing lobbyists of their duties and responsibilitites in registering and disclosing the activities in which they engage. The principal officer with whom they are directed to file the required reports and information is the Clerk of the Legislature. The Clerk of the Legislature in conjunction with legislative committees has particular responsibility relating to these requirements. No particular duty or responsibility is placed upon the Commission. However, section 49-1484, does authorize the Commission to require the furnishing of additional details regarding matters which are or should have been included in reports filed by lobbyists. This in our view amounts to an oversight authority granted by this section. This obviously creates some latitude within which the Commission may act respecting lobbying. This is an area in which the judgment of the Commission must be exercised to determine the extent to which it wishes to be involved in these matters. It does not appear however to grant the Commission any authority over the Clerk of the Legislature regarding his duties or responsibilities under LB 987.

Very truly yours,

Dear Senator Bereuter:

You have requested our views on an office arrangement for the Seward County Extension Service. In connection therewith you have furnished us with a copy of an August 8, 1977 letter to you from the Seward County Extension Agent, wherein he explains that formerly the Extension Service occupied offices in the Seward County Courthouse, with all utility services and maintenance being provided by the county; that near the end of the year 1976 the Extension Service offices were moved to the new Seward County Courthouse Annex; that under the present arrangement with the County Board, the Extension Service is required to pay "utilities and maintenance" for the building, notwithstanding the fact the building also is used by others such as "drivers' license examiners, county officials, county official boards and groups." You have also furnished us with a copy of a July 12, 1976 letter from the Deputy Seward County Attorney to the County Board, wherein it is stated:

> "While the County Board is responsible for providing a suitable building or office for the County Agricultural Agent and for repair of the same, pursuant to Section 23-120, R.R.S. 1943, it is this writer's opinion, which is concurred in by Mr. Sheldon, of the Attorney General's office, that the utilities and maintenance for the new building are subject to the restriction of Section 2-1604, R.R.S. 1943, and thus must be included in the budgets submitted by the Agricultural Agent."

Normally, in keeping with our policy concerning non-legislative questions, we might have some reluctance to express an opinion to an individual senator on a matter such as this. However, in this instance we shall not invoke that rule — for two reasons. First, conceivably the question might relate to possible clarifying legislation; but more especially because it does involve a matter in connection with which we have advised and consulted with the County Attorney's Office.

The County Extension Service is not a county office, in the usual sense of that term. County Extension programs are authorized by virtue of and pursuant to sections 2-1601, et seq., R.R.S. 1943. The statutes authorize the institution within the several counties of the state of extension work to be carried on in cooperation with the University of Nebraska College of Agriculture and the United States Department of Agriculture. Extension Service is not organized or established by any action of the County Board or, for that matter, the Legislature. The service is initiated in the first instance by action of farm operators within the county. The only real connection between the County Extension Service and the county itself arises by reason of section 2-1604 which provides that the county must appropriate funds to help support the work when there is an affirmative vote authorizing an appropriation for that purpose. In fact, the County Board does not even possess discretion as to the amount of tax money to be appropriated for the Extension Service. The work of the Extension Service in each county is carried on under the direction of an Executive Board in cooperation with the University. The County Board simply acts ministerially in making an appropriation and levying a tax sufficient to raise the amount called for by the County Extension budget.

Hence, although the Deputy County Attorney's letter basically reflects our discussion with that office, it is doubtful that section 23-120, R.R.S. 1943, imposes any obligation upon the county to provide a building in which the Extension Service may office. However, interpretation of that section of the statutes does not seem to be an issue in the present setting; and, in any event, the County Board clearly has authority to provide office space for the County Extension Service. But it does not necessarily follow that if the county does furnish an office it must do so wholly without cost or expense to the Extension Service. Rather, we believe the entire matter of office facilities is something for free negotiation and mutual agreement as to terms and conditions. If a county is willing to provide office space in a county building — but only upon the condition that the Extension Service assume responsibility for certain costs or expenses, such as utilities and maintenance — the Service may either accept such a proposal or it may make such other arrangements as it may choose.

Opinion No. 137
October 13, 1977

Dear Senators Koch and DeCamp:

You have requested our opinion on certain matters relating to LB 33 and LB 532, Eighty-Fifth Legislature, First Session, 1977. LB 33 has been made the subject of referendum petition pursuant to Article III, Section 3. LB 33 is suspended from taking effect until it has been approved by the electors of the state. We enclose a copy of a letter to the Commissioner of Education which answers this question.

In your second question you ask whether the Legislature is precluded from acting when a referendum is pending against an act of the Legislature? In Schreifer v. City of Auburn, 110 Neb. 179, 193 N.W. 350 (1923), the court considered a referendum on a city issue. This case does not specifically deal with the constitutional provisions although it does indicate generally that the court may allow some latitude to a legislative body in enacting legislation on matters that have been referred to the voters. In Schreifer, the referendum had been initiated against a paving ordinance enacted by the city. A statute in effect at that time provided that the mayor and city council could not alter, amend, modify, impair or render negatory ordinances enacted by direct vote of the voters. This of course referred to the initiative proceedings. The court there indicated that such a provision did not relate or purport to cover ordinances enacted by the legislative body and referred to the voters

for rejection. Therefore an amendment to that provision was authorized.

Similarly in Klosterman v. Marsh, 180 Neb. 506, 143 N.W.2d 744, the court did not directly discuss whether or not the Legislature could amend a referred bill. However in Klosterman the basic bill enacted an income tax. The bill was adopted on June 22, 1965 and became law July 1, 1965 without the Governor's signature. On July 23rd, a referendum petition was filed with the Secretary of State and on July 27th, while the Legislature was still in session, another bill was introduced that amended one section of the referred bill. This bill was passed and approved by the Governor. Subsequently the referendum petition drive was successful and the law suspended.

The amendment did not significantly alter the prior act. It simply changed one aspect of the proposed income tax code. The court said:

> "In this case we are not faced with the problem of a referendum petition against a specific legislative act in which changes or amendments made by the Legislature in a subsequent amending act might be such as to make them inseverable. Nor is this a case where the later amendment was so major and extensive as to make the issue to be presented to the voters unintelligible or so misleading as to be unfair or constitute fraud. Neither is this a case in which rejection of the act under referral by the voters would create confusion or upset the orderly process of legislation."

In part the court seemed to hold that the amendment was so minor that the fact that it was not part of the referendum did not make any difference. It did not of course deal with the specific issue as to the extent of the authority of the Legislature to act in a session subsequent to the successful initiation of a referendum petition. That question is unresolved in Nebraska case law.

One of the points argued in Klosterman was that referendum petition could not be commenced during the session at which a bill was enacted. The contention being that the act was not final until three months after the adjournment of the legislative session. The court in rejecting this argument said:

> ". . .To the extent this conclusion implies that the legislative power of initiative and referendum reserved to the people and the legislative authority granted to the Legislature may not be exercised concurrently, we disagree. Both the initiative and referendum involve the exercise of

> legislative power reserved to the people by the Constitution. The initiative is in no sense limited as to the time of its exercise. Neither are initiated laws limited to matters on which the Legislature has not acted. By the initiative process, the people may amend or even expressly repeal laws already enacted by the Legislature. By the referendum, the people may also reinstate an act which the Legislature has expressly repealed."

It may generally be said that most of the cases in which this issue has been considered, there is unanimous agreement that the legislative body may not act in such a manner as to make ineffective the exercise of the right of the people to vote on the referred bill. In, Re Referenda Petition No. 1, 1950, 203 Okl. 298, 220 P.2d 454, the Oklahoma court held that city councils did not have the power to amend or repeal an ordinance while referendum was proceeding against that ordinance. However, a contrary result was reached in Ex Parte Haley, 202 Okl. 101, 210 P.2d 653, in which the court held that where a referendum election had been held but was invalid and the Legislature reenacted the statute subject to referendum that the reenactment was valid. This holding was based upon a clause of the Oklahoma Constitution which provided that the utilization of the powers of initiative and referendum did not deprive the Legislature of the right to repeal any law or propose or pass any measure that was consistent with the constitution of the state.

Missouri in State ex rel. Drain v. Becker, 240 S.W.2d 229, held that the Legislature was unable to repeal a statute or to legislate on the same subject while a referendum was pending. Arizona adopted a similar rule with the exception that legislation on the same subject which conflicted with the referred matter could be enacted. Several other states may be cited in which the issue has been litigated.

Almost uniformly these cases repeat the admonition of the Nebraska Supreme Court in Klosterman v. Marsh, supra, to the effect that the initiative and referendum provisions of the Constitution should be liberally construed to make effective the powers therein reserved. Thus, we believe that the Legislature is not precluded from acting in the area of school aid. However, any action taken by the Legislature which may interfere or make ineffective the referendum power reserved to the people would undoubtedly be found to be invalid and in violation of the Constitution. It also, of course, may be assumed that an attempt to substantially amend or repeal LB 33 prior to the referendum vote, would be of very questionable validity.

Very truly yours,

Re: Possible revision of section 71-1333(2)(c)

Dear Senator Fowler:

You have asked whether the language in section 71-1333(2)(c), R.R.S. 1943, is constitutional under the Supreme Court decision in Bates, et al. v. State Bar of Arizona, ___ U.S. ___ (June 27, 1977). If it is not, you have indicated that you want to introduce legislation to correct it at the next session of the Legislature.

Section 71-1333(2)(c) authorizes the Department of Health, upon recommendation and findings of the Board of Examiners in Embalming, to deny a license or to take disciplinary action against the license of a funeral establishment or a funeral director if the applicant or licensee is found guilty of unprofessional conduct including "circulating or causing to be circulated, via newspapers, pamphlets, circulars or by any other means, advertising containing photographs or any reproduction thereof of funeral service merchandise, or prices relating thereto."

Prior to the decision in Bates, above, the Supreme Court had held in Virginia State Board of Pharmacy, et al. v. Virginia Citizens' Consumer Council, Inc., 425 U.S. 748 (1976), that a state could not make all advertising of prescription drug prices a ground for disciplinary action against the license of a pharmacist. Such commercial speech is protected under the First Amendment. Thus it cannot be completely suppressed by the state even though the state can prohibit false or misleading advertising. Some restrictions on time, place and manner of advertising are also possible. In a footnote to that opinion, the court stressed that it was expressing

no opinion as to other professions, for example, physicians and lawyers, professionals who render services of infinite variety and scope.

In Bates, above, the Court did express an opinion about advertising of prices by lawyers. Two lawyers had placed an advertisement in a newspaper, stating the prices at which they would perform certain routine services. The Court held that "advertising by attorneys may not be subjected to blanket suppression, and that the advertisement at issue is protected." False, deceptive or misleading advertising, it said, may still be restrained. There may also be reasonable restrictions on the time, place and manner of advertising, for example, on in-person solicitation or on the use of electronic broadcast media.

The practice of embalming is a "profession" as defined in section 71-101(3) and 71-102, R.R.S. 1943. However, those licensed to do so not only render services of less infinite variety and scope than attorneys, but in addition to those services they also dispense products as a pharmacist does. Therefore it seems reasonable to assume that blanket suppression by the state of advertising of prices by such licensees was already prohibited by Virginia State Board of Pharmacy, above. If not, it surely is now by Bates, above. As you have indicated, the Legislature may want to eliminate a provision in the statute which is probably unconstitutional.

For your information, we are attaching a copy of Attorney General Opinion No. 114 (June 28, 1977) in which we discussed several other aspects of advertising by funeral establishments and funeral directors.

Sincerely yours,

Dear Senator DeCamp:

You have informed us that the Agriculture and Banking Committees of the Legislature intend to hold a hearing on the subject of Nebraska's economy, at which the Federal Reserve authorities will present information. You state that you expect a large crowd, and need more space than is available in the Capitol Building. You state that the Nebraska Bankers Association has agreed to rent facilities in the Cornhusker Hotel for this hearing. You ask whether this presents any problem of conflict of interest.

We have examined the Constitution and the statutes, and have been unable to find anything which would prohibit this procedure. We have particularly examined Chapter 49, article 11 of the statutes dealing with conflicts of interest. We do not believe that this article contains anything dealing with the situation you inquire about. Section 49-1103 prohibits a member of the Legislature from receiving any compensation for his services as a Legislator, but obviously this does not apply. The Bankers Association would, in efect, be making a contribution to the Legislature itself, or to the State of Nebraska, in the form of the rent they would pay for these facilities, but we find no prohibition against that. No individual member of the Legislature would profit from such contribution.

So far as we can ascertain from your letter, the Bankers Association would be doing this without having anything in particular to gain, and certainly not for the purpose of promoting or opposing any particular legislation. So far as we have been able to determine, there is nothing illegal or improper about the association's furnishing the facilities for such hearing.

Opinion No. 140
October 20, 1977

Dear Senator Kremer:

You have called our attention to LB 373, now pending before the Legislature, which would increase the permissible length of mobile

home loans, and have asked some questions about the effect of the present law, as having some bearing on the necessity for the passage of LB 373.

You ask what effect section 45-335(5) has on the validity of mobile home loans which are guaranteed by VA or FHA. This section provides that an installment sale contract must be payable within 145 months. On the other hand, federal statutes authorize VA and FHA to guarantee loans for longer periods than this. For example, 38 U.S.C. Section 1819 (d)(2) authorizes the VA to insure loans on mobile homes for periods up to 20 years and 32 days.

Under these circumstances, you ask whether section 45-335(5) can limit such loans to periods less than those for which VA or FHA guarantees are authorized. We conclude that it can.

Presumably, the question is whether the federal government has preempted the field with respect to the terms of loan contracts guaranteed by VA and FHA. Congress did preempt the field with respect to interest rates on federally insured loans by the passage of 12 U.S.C. Section 1709-1a, which provided that state constitutional or statutory provisions as to interest should not apply to such loans. This was, however, only on a temporary basis, and we find no such preemption with respect to the length of such loans. We have checked with attorneys for both VA and FHA, and they are aware of no such preemption either by congressional act or administrative regulation. We therefore conclude that section 45-335(5) operates to limit the length of such loans.

You ask whether the guarantee would be good, if the length of the loan was beyond the 145 month limitation. While this is a question which probably should be addressed to federal authorities, we believe it is doubtful. Section 45-344, R.R.S. 1943 provides that if a seller or sales finance company violates any provision of section 45-334 to section 45-353, other than interest violations, the contract shall be void and uncollectable as to the first $500.00 of the time price differential and the first $1,000.00 of the principal of the contract. This would apply to a mobile home loan covering more than 145 months.

24 C.F.R. 201.575, dealing with guaranteed loans, provides that the obligation must be valid and enforceable against the borrower. A loan such as you describe would certainly be invalid and unenforceable, to the extent specified in section 45-344. Therefore it would not qualify for federal guarantee. While we do not undertake to give an opinion as to the effect of a guarantee made in violation of federal regulations, we would assume that the guarantee was void.

Opinion No. 142
October 26, 1977

Dear Senator DeCamp:

You have asked for further explanation of our letters of October 13, 1977 to Dr. M. Anne Campbell, Senator Koch, and yourself. Your first question is, did L.B. 532 appropriate 75 million dollars or 55 million dollars to the School Foundation and Equalization Fund. L.B. 532, in the first paragraph of section 45, appropriated 55 million dollars to the School Foundation and Equalization Fund. As you know, during the course of the debates on L.B. 33, a determination was made that the language of L.B. 33 did not constitute an appropriations act. Therefore, language was added which was intended to appropriate 20 million dollars to the School Foundation and Equalization Fund. However, the language utilized simply appropriated any money allocated by L.B. 33. Since L.B. 33 was suspended from operation by a successful petition drive calling for a referendum election upon the Legislature's passage of L.B. 33, no money was allocated by L.B. 33 to the School Foundation and Equalization Fund for the fiscal year 1977-78.

The cases in Nebraska are quite clear in holding that the right of initiative and referendum reserved to the people must be construed to make effective the powers reserved. It is clear from the successful completion of the referendum petition drive that there is an intention that the people vote upon the enactment of L.B. 33. Part of L.B. 33 allocated specific sums of money to the School Foundation and Equalization Fund. Although these allocations were not an appropriation, they did allocate money to a particular fund. The fact that the Legislature in L.B. 532 appropriated the sums allocated by L.B. 33 in section 45 does not affect the right of the people to vote on the allocation in L.B. 33.

This rationale is clearly set out by the Supreme Court of the State of Nebraska in Lawrence v. Beerman, 192 Neb. 507, 220 N.W.2d 809 (1974). In Lawrence, L.B. 772, Eighty-third Legislature, Second Session, 1974, was under consideration. L.B. 772 was entitled "AN ACT to adopt the public school support act of 1974." L.B. 772 was made subject to a referendum which was successful. The court made several pertinent observations in that case which are applicable to the current situation involving L.B. 33. The court, in part, there held:

> ". . . Legislative Bill 772 does not appropriate or set apart from the public revenue a certain sum of money and is not a specific appropriation, as required by our Constitution, but on the other hand sets up a new scheme for local public school district taxation and financing. Our decisions in these matters are clear that such an act does not constitute an appropriation measure, within the meaning of the Constitution. [Citations omitted.] It appears on the face of Legislative Bill 772 that no appropriation in the constitutional sense was intended because the act, by its terms, sets up a funding provision, providing for contributions, and provides that the act shall not become operative until September 1, 1976."

The court also held that the portion of the initiative and referendum provisions of the Constitution which except appropriations must be strictly construed to mean the ordinary expenses of operating of state government and existing state institutions and not money or appropriations or funds created which have as their end a new or different method of financing of state delegated or created local units of self-government.

Obviously, a part of L.B. 33 was the increased funding of local units by the state. In order to make effective the referendum power that part of L.B. 33, as well as its other portions must be subject to the people's vote. Additionally, the suspension of L.B. 33, as noted above, suspends the operation of the entire act. See Article III, section 3 of the Constitution. Thus, there is left nothing upon which the language of the second sentence of L.B. 532 section 45 could operate.

In your second question you ask whether "the restoration of ten million dollars to be distributed under section 79-4,160 through 79-4,169 would constitute a substantial amendment of L.B. 33." We do not understand precisely the issue which you raised by this question. L.B. 33 did not affect any sum of ten million dollars

with respect to the provisions of sections cited in your question. In previous years the Legislature, in appropriating sums to be distributed to the local school systems, has made two separate appropriations. The first appropriation has been 45 million dollars to the School Foundation and Equalization Fund. Sections 79-1330 through 1344 control the distribution of funds to local school districts under the School Foundation and Equalization Fund. A separate appropriation, of ten million dollars, has been made to a separate program. This sum has been distributed under the terms of section 79-4,160 through 4,169, R.R.S. 1943.

In the latter sections it is expressly recognized that a separate sum may be appropriated for distribution under the formula contained in those sections. If your question is, may the Legislature now amend L.B. 532 to provide that 45 million shall be distributed under sections 79-1330 through 1344 and 10 million shall be distributed under sections 79-4,160 through 4,169, it is our opinion the Legislature may.

L.B. 33, although it would have altered the formulas contained in both of the above sets of statutes, does not directly relate to the distributional problem posed by the method in which money was appropriated this year. Nor, does it seem to us that a return to the preexisting status quo adversely affect the power of referendum. In Klosterman v. Marsh, 180 Neb. 506, 143 N.W.2d 744, as pointed out in our letter to you October 13, 1977, the Supreme Court has indicated that actions by the Legislature that are not inconsistent with the exercise of the referendum power do not violate the Constitution. It may be argued that amending L.B. 532 will not be a major or extensive change in the law so as to make the issue presented to the voters unintelligible nor is it likely the rejection of the referred act by the voters is likely to cause confusion.

Our comments are somewhat speculative because we do not have the precise proposal that may be introduced. Any proposal should be examined in light of Klosterman, supra, and other relevant cases prior to its adaption.

Sincerely,
PAUL L. DOUGLAS

Opinion No. 143
November 3, 1977

Dear Senator Warner:

You have requested the opinion of this office concerning legal representation of state agencies in a situation in which one state agency proposes to take legal action against another state agency. In addition, you inquire as to what responsibility the Legislature has to provide general fund support for state agencies requesting funds for legal services.

In regard to your first question you have posed two hypothetical examples of problems which you are concerned with. The first is a situation in which a state college brings suit against a state agency, and the second is a situation in which one state agency takes legal action against another state agency for violation of the first agency's regulations.

The first hypothetical situation does not pose a problem concerning legal representation. This office, pursuant to authority contained in section 84-205, R.R.S. 1943, and pursuant to its common law powers, is authorized to represent the state and its agencies in legal matters. This office, however, does not represent a state college or the Board of Trustees of the Nebraska State Colleges. The Legislature, in section 85-302, R.R.S. 1943, has designated the Board of Trustees of Nebraska State Colleges as a body corporate which may sue and be sued. As such, it is a separate legal entity from the State of Nebraska in much the same way that a county or a city is a separate legal entity. Therefore, this office is not authorized to give the Board of Trustees of the Nebraska State Colleges legal advice or representation, and the Board of Trustees traditionally has employed its own legal counsel just as has the University of Nebraska Board of Regents. Therefore, in your hypothetical example in which a state college brings a suit against a state agency the state college would be

represented by its own legal counsel while this office would represent the state agency.

The second hypothetical question you pose also normally does not present a problem. Section 84-205(4) states that the Attorney General is only required to prosecute or defend for a state agency when he is convinced that there is sufficient legal merit to justify the proceeding. Therefore, normally when a dispute would arise between two agencies, the Attorney General could determine which position has legal merit and decide the question without the necessity of filing a lawsuit. However, in those situations in which, becauseof their nature, it appears that formal litigation is required, the Atorney General could elect which of the agencies he wishes to represent in the action and pursuant to authority contained in section 84-205(4) authorize the other state agency to retain special attorneys or counselors at law to represent it for purposes of that action. Historically, however, this has been an unusual occurrence.

Your second question deals with the responsibility of the Legislature to provide general fund support for state agencies requesting funds for legal services. An example which you cite is a request by the Board of Trustees of the State Colleges for a certain amount of money for attorneys' fees. The concern you express is that in some instances the Board of Trustees has used this money to sue the state or state agencies. As a general principle the Legislature has absolute control over the monies contained in the general fund of the State of Nebraska. Along with this authority, however, is the obligation to make provision for the expenses of government as is provided in Section 22, Article III, of the Nebraska Constitution. The State Constitution specific (Section 25, Article III); but it may not be so specific so as to invade the constitutional rights and powers of other boards or agencies. State ex rel. Meyer v. State Board of Equalization and Assessment, 185 Neb. 490; Board of Regents v. Exon, 199 Neb. 146. In general, the Legislature does not have an obligation to appropriate money to state agencies or to the Board of Trustees of State Colleges for legal services. However, it should be remembered that the Board of Trustees of State Colleges may then be without any legal advice since this office is not authorized to render legal services to it. Assuming that some appropriation needs to be made for legal services for the Board of Trustees of State Colleges, the Legislature cannot, via the appropriations bill, give directions to the Board of Trustees as to how the appropriated funds for legal fees may or may not be used. And was stated in
Board of Regents v. Exon, supra, at page 149:

"The Legislature can not use an appropriation bill to usurp the powers or duties of the Board of Regents and to give directions to the employees of the University. The general government of the University must remain vested in the Board of Regents. In prescribing the powers and duties of the Regents a legislative act must not be so detailed and specific in nature as to eliminate all discretion and authority on the part of the Regents as to how a duty shall be performed."

We have attempted to answer your questions in a general manner, looking particularly at the hypothetical situations which you have presented. If you have further questions concerning specific situations, we will attempt to give you more specific answers. Hopefully, however, this letter will provide you with the general information you need.

Yours very truly,

Opinion No. 145
November 18, 1977

Dear Senator DeCamp:

You have called to our attention the fact that punchboards and other types of lotteries have been determined to be lawful if used in conjunction with certain activities and you ask if slot machines if used for these same purposes would also be legal.

In Opinion No. 48 dated February 17, 1977, we were of the opinion that punchboards are lotteries and are lawful if utilized in conjunction with activities specifically outlined in sections 28-964.01 to 28-965.05, R.R.S. 1943. A copy of that opinion is included for your reference.

The question whether or not slot machines would also be legal as logical extensions of the reasoning applicable to punchboards is a

difficult one. We are of the opinion that it would be extremely difficult to predict how the Nebraska Supreme Court would rule on this question and would be reluctant to speculate on how far the court would go in permitting gambling and the use of gambling devices for the purpose of business promotion or community betterment.

In your letter you indicate that you are considering legislation on the subject of gambling generally and we believe that a legislative statement in the form of legislation specifically allowing slot machines or specifically prohibiting them would be of great value in any litigation attempting to define the limits of the use of gambling devices for the purposes declared to be lawful by the Nebraska Supreme Court.

You have also asked our opinion as to the constitutionality of Rule No. 8 of the Nebraska Liquor Control Commission. Rule 8 provides:

> "No licensee holding a license covering premises open to the public for the sale of intoxicating liquor or beer shall directly or indirectly permit gambling on or in the licensed premises; nor shall he permit the operation or possession of any payoff gambling device, slot machine, or punchboard, mechanical or otherwise, whether payoff is in cash or merchandise, in, on or about the licensed premises."

The Nebraska Supreme Court has held that the power to regulate all phases of the control, manufacture, distribution, sale and traffic of intoxicating liquors is vested exclusively in the Liquor Control Commission. City of Lincoln v. Nebraska Liquor Control Commission, 181 Neb. 277, 147 N.W.2d 803.

The Nebraska Supreme Court has also held that the Liquor Commission may promulgate such reasonable rules and regulations as it may deem necessary to carry out the purposes of the Liquor Control Act. State ex rel. Nebraska Beer Wholesales Assoc. v. Young, 153 Neb. 395, 44 N.W.2d 806.

With respect to the control of the liquor industry, the Nebraska Supreme Court held:

> ". . . The control of the licensed liquor business is different than the ordinary exercise of the police power of an unlicensed business for the protection of the health, safety, morals, and welfare of the public. The engaging in the sale of intoxicating liquors is a mere privilege; and restrictive regulations or even a suppression of the traffic does not violate provisions of the state and federal

> Constitutions relating to the due process, privileges or immunities, uniformity, nor, unless wholly arbitrary in their discr between persons, the equal protection of the law. . . ."

Tom & Jerry, Inc. v. Nebraska Liquor Control Commission, 183 Neb. 410, 160 N.W.2d 232.

Many phases of the liquor industry are highly regulated and many aspects of the conduct of this business are prohibited outright where such practices would be common to other types of businesses. For example the extension of credit to purchasers of liquor is strictly forbidden whereas most all other types of business activity relies heavily upon credit practices. Retailers of liquor are also forbidden to sell to certain persons whereas most other businesses are not so restricted.

We are therefore of the opinion that Rule 8 of the Nebraska Liquor Control Commission would most likely survive close constitutional scrutiny by a court of competent jurisdiction.

Sincerely,
PAUL L. DOUGLAS

Opinion No. 148
November 29, 1977

Dear Senator Simon:

Legislative Bill 1201, enacted at the 1972 Session of the Legislature and now appearing as sec. 18-416, R.R.S. 1943, provides:

> "No public or private utility company furnishing water, natural gas, or electricity at retail in this state shall discontinue service to any domestic subscriber for nonpayment of any due account unless the utility company shall first give written notice by mail to any subscriber whose service is proposed to be terminated at least seven days prior to termination. As to any subscriber who has previously been identified as a welfare recipient to the

> company by the county welfare department, such notice shall be by certified mail and notice of such proposed termination shall be given to the county welfare department."

You have requested our opinion as to whether the last sentence of the statute is unconstitutional, as being an invasion of privacy.

As a preliminary matter, it will be noted that the statute requires that ermination notices be given by the utility to the Welfare Deprtment only with respect to subscribers whom the Department has previously "identified" to the utility supplier as being a welfare recipient. It appears, therefore, that the Department has discretion as to whether such identification shall be made in any given case. Be that as it may, even in those instances where the Welfare Department does elect to notify the utility supplier, we see nothing in such an arrangement which would constitute an unlawful infringement upon the constitutional right to privacy of the individual welfare recipient assuming that no other information were divulged.

Actually your specific question has to do only with the constitutional matter of right to privacy; and what we have already said is probably sufficient in that regard. However, it occurs to us that the position which you indicate has been taken by some county welfare departments may be based upon or related to the fact that Title IV, Sections 402(a) of the Federal Social Security Act provides:

> "A state plan for aid and services to needy families with children must . . . (9) provide safeguards which restrict the use or disclosure of information concerning applicants and recipients to purposes directly connected with the administration of aid to families with dependent children."

Similar state plan requirements appear in other titles of the federal act with respect to assistance for the aged, blind or disabled.

In order to comply with those provisions relative to the safeguarding of information, the Legislature enacted what is now sections 68-312 to 68-314, R.R.S. 1943. Section 68-313 contains the general prohibition against disclosure of information, and reads as follows:

> "It shall be unlawful, except as permitted by section 68-313.01 and except for purposes directly connected with the administration of general assistance, old age assistance, aid to the blind, or aid to dependent children, and in accordance with the rules and regulations of the Department

> of Public Welfare, for any person or persons to solicit, disclose, receive, make use of, authorize, knowingly permit, participate in, or acquiesce in the use of, any list of or names of, any information concerning, or persons applying for or receiving such aid or assistance, directly or indirectly derived from the records, papers, files, or communications of the state or county, or subdivisions or agencies thereof, or acquired in the course of the performance of official duties." (Emphasis added.)

The obvious main thrust of both the federal and state restrictions is to prevent the misuse of welfare roles and related information for undesirable commercial purposes; and toward that end unauthorized disclosure of information is made unlawful. However, both the federal and state laws expressly contemplate authorized disclosure of information for purposes "connected with the administration" of the various public welfare assistance programs.

Deprivation of any of the essential utility services, such as water, gas or electricity, can cause extreme hardship of varying degree depending upon the particular circumstances and conditions existing in any given situation. The purpose of section 18-416, of course, is to give advance notice of the impending discontinuation of utility service and afford and opportunity for prompt action to avoid such consequences. In the case of utility services being furnished to welfare recipients, the Legislature has recognized the proposition that the state, through its county welfare departments, has a direct and legitimate interest in the preservation of an uninterrupted supply of necessary utility services. Certainly, a requirement that county welfare departments be notified of any impending interruption or termination of service is a means well calculated to protect the state's interest in the matter; and such protection is best effectuated by informing the utility suppliers of the identity of such welfare receipients with respect to whom the county welfare department desires to be given notice of poposed termination of service.

We believe that the notice provided for in section 18-416 reflects a purpose directly connected with the administration of public assistance and that the statute is inno way repugnant to other existing federal or state restrictions upon disclosure of information concerning recipients of public welfare.

You also raise a question with respect to the matter of utilities requiring a deposit as security for the payment of service bills;and you ask "if a law were established which stated that all persons

who did not have a good credit record would pay a deposit, would this be discriminatory and therefore unconstitutional?''

It is generally recognized that a public utility may require a deposit from its customers, provided that the amount is reasonable and the requirement is not applied in a discriminatory fashion. The objective of any security deposit requirement, of course, is to reduce the bad debt losses of the public utility and is justifiable by reason of the fact that in order to insure a fair return to the utility the bad debt incidence necessarily results in an increase in utility rates passed on to all customers.

The constitutional guarantees of equal protection of the law is afforded to public utility users if the utility credit requirements and classifications adopted are reasonably related to protection against bad-debt losses. 64 Am.Jur.2d Public Utilities Section 46, p. 583.

Requirement of a security deposit by all subscribers having a bad credit record, in our judgment, would not be unconstitutionally discriminatory if applied equally and uniformly to all persons falling within that classification. Whether a similar requirement would be valid with respect to persons who, although not having a bad credit record, simply have no established credit record or history presents a somewhat closer question; but we are inclined to believe that such a rule also would be lawful. The application of this principle, although in a somewhat reverse fashion, was approved by the court in Wood v. Public Utilities Commrs. (Cal.), 481 P.2d 823. In that case a credit rule whereby there was excepted from the requirement of a security deposit any subscriber able to establish credit ''to the satisfaction'' of the utility company was found not to be a denial of equal protection to persons unable to do so.

We cannot give a categorical opinion as to when the amount of a security deposit requirement may become so unreasonably high as to be unlawful. As a general proposition, it is probably safe to say, the deposit should be such an amount as is reasonably commensurate with the charges which might be expected to be incurred by the subscriber.

Opinion No. 147
November 25, 1977

Dear Senator DeCamp:

In your letter of November 16, 1977, you state that you have drafted legislation to add another dollar to the present one dollar collected as court costs in criminal cases pursuant to section 84-1429, R.R.S. 1943. The money so collected is paid into the State Treasury and credited to the Law Enforcement Improvement Fund. You have asked whether your proposed bill would be constitutional, which, or course, raises the question of the validity of the present provisions.

The answer to your question is far from certain. It has not, so far as we have found, been answered by our court, and the courts of other jurisdictions have split on the issue, and those that have held such provisions invalid have done so on various inconsistent grounds.

The Oklahoma court, in Ex parte Coffelt, 228 P.2d 199, 93 Okla. Crim. 343 (1951), struck down a statute providing for a one dollar charge to be added to costs in criminal cases, and transmitted to the State Treasurer, to be used to defray the expenses of the Pardon and Parole Officer. The court held the charge was not properly "costs" but a tax, and that the Legislature had attempted to make the court a tax-gathering agency, in violation of the doctrine of the separation of powers.

The same court reached the same conclusion in a similar situation in Ex parte Miller, 263 P.2d 522, 97 Okla. Crim. 351 (1953), in which the money was to be used to fund the Pension and Retirement Fund for Policemen.

In People v. Barber, 14 Mich. App. 395, 165 N.W.2d 608 (1968), the court struck down a statute providing for additional costs of ten percent of the fines for criminal offenses, with some exceptions.

The charges collected were to be used for the training of law enforcement officers. The court did not hold it to be a tax, but an additional fine, and held that the statute conflicted with a constitutional provision that all fines collected should be used to support public libraries and county law libraries. If the Nebraska court were to follow the same path, it could hold that such additional charges were fines, and were required to be used in support of the common schools, as provided by Article VII, Section 5 of the Nebraska Constitution.

Our court has not spoken on the subject. In State ex rel. Douglas v. Gradwohl, 194 Neb. 745, 235 N.W.2d 854 (1975), the court took note of both section 84-1429 and section 24-703(3), (which provides for the taxation of costs of one dollar for the Nebraska Retirement Fund for Judges). However, the constitutionality of these sections was not challenged in that case, and the case cannot be considered a holding as to the validity of these sections.

Some courts, however, have specifically upheld provisions very similar to ours. In State v. Young, 238 So.2d 589 (Fla. 1970), a statute was involved which provided for the assessment of one dollar as court costs against every person convicted of violation of a state criminal statute or a municipal or county ordinance, with the money to be deposited in the state general fund. The court upheld the statute, saying:

> "The assessment contemplated by section 14 is levied only after a conviction has been secured in cases not civil in nature. It is not unreasonable that one who stands convicted of such an offense should be made to share in the improvement of the agencies that society has had to employ in defense against the very acts for which he has been convicted."

The above case would appear to overrule Flood v. State, 117 So. 385 (Fla. 1928), which had invalidated a charge as costs to establish and maintain a law library in the courthouse, holding it was a tax, and repugnant to the right to free and reasonable access to the courts.

In Carter v. City of Norfolk, 206 Va. 872, 147 S.E.2d 139 (1966), the court upheld a statute providing that five dollars should be added to the costs of a person convicted of an offense which was required to be reported to the Division of Motor Vehicles, to be used to partially defray the costs of administration of the Division. It is therefore apparent that there is no unanimity among

the jurisdictions as to the validity of such provisions. We normally start with a presumption of the validity of acts passed by the Legislature. While we cannot say with any degree of certainty that our court would uphold such a provision, in view of the super majority required by Article V, Section 2 of our Constitution to invalidate a legislative act, it is our opinion that the present law, and your proposed amendment thereto, could probably be successfully defended.

Very truly yours,

Opinion No. 150
December 6, 1977

Dear Senator DeCamp:

You have requested the opinion of this office concerning whether an amendment to LB 38, which you are considering, would be constitutional. The amendment you are considering would amend LB 38 so as to be substantially the same as the law is now. That amendment is:

> "If a person is convicted of a violation under this section, as a part of the sentence he shall be required during the period of confinement to complete a confidential interview on drug abuse conducted by one of the community mental health facilities as provided by Chapter 71, article 50, or other licensed drug treatment facility for the purpose of obtaining information on the extent of drug misuse and, when appropriate, to discuss possible rehabilitation."

This provision presents a constitutional question as to whether compulsory self-incrimination would be required. Although the provision is questionable, we believe that the provision on its face could be defended against constitutional attack so long as the provision's interpretation is limited so as to merely require the

convicted person's attendance at such an interview session and so as not to require the individual to divulge information which may tend to incriminate him concerning either the crime for which he was convicted or other crimes. If, on the other hand, the provision were interpreted so as to require divulgence of incriminating information, then it would probably run afoul of the Fifth Amendment to the United States Constitution. The language of the provision itself is not clear as to whether mere attendance at the interview is required or, conversely, whether divulgence of such information is required. Perhaps the provision could be worded in such a way as to make clear that the person convicted is not required under that section to divulge information which may incriminate him.

Natural Resources Commission

September 2, 1977

Mr. Vincent D. Brown
Clerk of the Legislature
Room 2018, State Capitol
Lincoln, Nebraska 68509

Dear Vince:

Section 2-3295 of the Nebraska Resources Development Fund Act (Legislative Bill 975), requires that the Natural Resources Commission submit an annual report to the Governor and the Legislature describing the work accomplished by the Development Fund.

The Development Fund has been in existence just over three years as a state program. During that time there have been twenty-five project requests for financial assistance through the Development Fund. Those twenty-five projects have requested in excess of 15.7 million dollars as seventy-five percent of the local share of the project. The local share would be another 3.9 million dollars. Federal sources of funding make up the remainder which ranges up to fifty percent of the total project cost. Not all of the project proposals have been funded, however, about 13 million dollars are requested for viable projects under the Fund.

Project fund requests and fund disbursements are now proceeding according to project readiness. The Fund has become more than "just another state program;" it is a highly functional, working program involving local, state and federal people in the proper development, conservation and maintenance of our land and water resources.

Project proposals and applications submitted under the Fund and the status thereof are submitted in the enclosed report. I sincerely believe that this third annual report will aid you in monitoring the progress of the Nebraska Resources Development Fund in its role of resource development.

I have also taken the liberty of providing each of Nebraska's Senators with a copy of the 1977 Report. If you have further questions relative to the Development Fund, please do not hesitate requesting assistance from this office.

Sincerely,
(Signed) Dayle E. Williamson
Executive Secretary

The Honorable J. James Exon
Governor, State of Nebreaska
and

Members of the Legislature

We take pleasure in submitting the report of the Advisory Board on the Nebraska Water Conservation Act of 1977 (L.B.450). The Act created the "Nebraska Water Conservation Fund" to be administered by the Nebraska Natural Resources Commission. The Act further provided for appointment of an advisory board to prepare recommendations for the Governor and the Legislature on how the Nebraska Water Conservation Fund should be administered, funded, and distributed.

In carrying out this assignment, the Advisory Board held six meetings from August through November. Considerable assistance was also provided to the Advisory Board by the Agricultural Conservation and Stabilization Committee, the Soil Conservation Service, the Department of Water Resources, the Department of Environmental Control, the Game & Parks Commission, the University of Nebraska's Institute of Agriculture and Natural Resources, the Department of Agriculture, the State Office of Planning & Programming, the Department of Health, the Department of Economic Development, the Department of Revenue, and the Conservation and Survey Division of UNL. Special recognition is given to the staff members of the Natural Resources Commission for their assistance and input.

The Advisory Board also carried out a 30-day public comment period during the month of October. A number of excellent suggestions were received from agencies, political subdivisions, groups and individuals during the comment period. A number of the suggestions were incorporated in the Advisory Board report.

Prior to preparing the recommendations, the Advisory Board determined that the development of a program outline was necessary. That outline is found as Exhibit A in the report and entitled, "The Nebraska Water Conservation Program". That program establishes the purpose, provides administrative details, and establishes practices that are eligible for cost-sharing under the Act.

Exhibit B outlines the detailed recommendations of the Advisory Board as required in Section 7 of the Act. Exhibit C suggests certain legislative modifications that should be considered by the 1978 Legislature.

In conclusion, the Advisory Board feels that the establishment of the "Nebraska Water Conservation Program" is feasible and in the interest of citizens of the State. The Board further recommends that the initial funding level be established at $1,000,000.

As provided by the Act, the Board remains in existence until July 1, 1978. If the need arises for additional input, we stand ready to respond.

Respectfully submitted,

(Signed) Mr. Gene Smith; Mr. James Dickinson; Mr. Harold Ledingham; Mr. James Barr; Mr. Milton Fricke; Mr. Raymond Burke; Mrs. Judith Walsh; Mr. Harold Stevens; Mrs. Dolores Christensen; Dayle E. Williamson, Secretary, Advisory Board.

Department of Public Institutions

Mr. Vincent D. Brown, Clerk
Nebraska State Legislature
State Capitol
Room 2018
Lincoln, NE 68509

Dear Mr. Brown:

Pursuant to the Legislative Fiscal Office letter of July 20, 1977, with reference to the Legislative intent per LB532, page 17, "Funding is provided for 24 patient care staff in male security, 21 patient care staff-comprehensive care, and for a Lincoln Regional Center superintendent and business manager or hospital administrator."

Male security staff - the additional staff provided has allowed us to accomplish the following: Provide one complete ward (S-4) of 22 beds for Penal Complex referrals; isolate all of the sexual sociopathic commitments in one ward (S-1) which is in keeping with State Statutes; opening a part of another ward of 12 beds; and also allowed us to improve the staff on the other wards.

Comprehensive care - the additional staff was used to take care of lack of staff to meet both ICF-MR Certification and JCAH Accreditation for ACFMR-DD. In so doing, we have also developed a center for prevocational skills. The center's staff also will help out on the Living Unit in cases of emergency.

We presently have a Chief Executive Officer and we are recruiting a Board Certified Psychiatrist for Clinical Director. Until

the position is filled, Dr. Hartmann, our Director of Medical Services, is spending part of his time providing this service. Our present top administrative structure for the three Regional Centers is to either have a Board Certified Psychiatrist as the Superintendent supported by a Hospital Administrator, or a Chief Executive Officer supported by a Board Certified Psychiatrist as the Clinical Director.

Mr. Vincent D. Brown, Clerk
Nebraska State Legislature
State Capitol
Room 2018
Lincoln, NE 68509

Dear Mr. Brown:

Pursuant to the Legislative Fiscal Office letter of July 20, 1977, with reference to the Legislative intent per LB532, page 18, "Community-Based Mental Retardation Governing Boards should follow FY 77-78 budget recommendations of the State Office, except special consideration for Region IV."

Two major problems are apparent concerning compliance by the Community-Based Mental Retardation Regions with the Legislative intent provisions of LB532 and LB539. Since the Department of Public Institutions does not have authority to require regional compliance with Legislative intent, these noncompliance issues are presented for informational purposes only, subject to any remedial action the Legislature may take.

Salary Adjustments

LB532, Section 10(5) page 12, paragraph 1. This section stated the intent of the Legislature is that the Mental Retardation Regions should provide for a maximum of a six percent salary policy increase in FY 77-78.

An on-site review of CBMR regional payroll records conducted by DPI staff in November, 1977, concluded the following salary policies had been implemented by the mental retardation regions:

Region 1 - The average salary increase given was 7 percent. The raises varied from no increase for two employees whose wages were "frozen" to 15.72 percent for employees with "special consideration." The highest paid position in the region was given an 8.02 percent salary increase.

Region II - The average salary increase was 6.45 percent. Two payrolls are used in Region II - one for the North Platte area and one for the rest of the region. The average raise in the North Platte area was 7.11 percent. The average raise in the remainder of the region was 6.22 percent. The raises given ranged from 3.33 percent to 20.57 percent.

Region III - The average salary increase was 5.36 percent. Increases ranged from zero for employees who had not completed their probationary period to 42.11 percent for two employees who had received promotions to higher classifications on the pay plan.

Region IV - Region IV was exempted in this section of LB532 so it could attempt to increase salaries to a level approaching the other five regions. The average salary in Region IV was increased by approximately 11.1 percent during the first four months of FY 77-78.

Region V is in substantial noncompliance with six percent average salary increase provision of LB532. Average salary increases over a year earlier were approximately ten percent. This violation is particularly severe in our opinion since Region V is already substantially higher paid than the other mental retardation regions. The salary disparity between Region V and the other regions has been increased due to the noncompliance with LB532 by Region V. The other regions, with minor exceptions as noted, seemed to have complied with the salary increase limit which the Legislature intended in FY 77-78.

Region VI - The region gave no salary overall increases during the first four months of the fiscal year. The agency's policy is to give 3% salary increases on the employee's anniversary date thereafter. The raises given in FY 77-78 will therefore be either 3%, 6% or both a 3% and 6% (totaling 9%) raise depending on the employee's initial date of employment. The average raise should be approximately 6% per employee. Two exceptions were noted: First, some revisions to the agency pay plan are awaiting approval of the governing board and if approved, some

classifications will be moved to increased ranges on the pay plan effective January 1, 1978. The exact number of these proposed increases is unknown at this time. Second, it was noted that the new agency director was hired at a beginning salary rate which exceeds the rate paid to the previous acting director by slightly more than 25 percent.

Program Expansion

Region VI is in substantial noncompliance with the requirement in LB539 that funds were appropriated for deinstitutionalization in FY 77-78. The Region has maintained that no funds are available for expansion in FY 77-78. The annual independent CPA audit of Region VI indicates otherwise. Region VI has a fund balance on June 30, 1977 of $883,963 up from the balance of $496,831 a year earlier on June 30, 1977. Region VI changed accounting policies during FY 76-77 and had the Region followed accounting procedures consistent with previous fiscal years, the fund balance on June 30, 1977 would have been $1,022,571.

The CPA audit for Region VI indicates that total expenses for ENCOR during FY 76-77 were $5,139,661. For FY 77-78 the Governing Board has approved an operating budget with revenues totaling $6,239,722, and increase of $1,100,061 or 21.4% over actual expenses incurred during FY 76-77.

Due to the massive fund balance present in Region VI on June 30, 1977 and the tremendous increase in revenues available to the Region in FY 77-78, we feel their contention that no funds are available for expansion this fiscal year is totally unfounded. The Region has moved only five clients out of the BSDC during the first five months of this fiscal year.

We feel it is appropriate to reiterate part of the budget narrative concerning Region VI which we submitted with out budget recommendations last September: "It is clear from recent experience, that on a dollar for dollar basis, additional funding for Region VI (ENCOR) purchases considerably less deinstitutionalization than the results obtained by the other five regions."

Pursuant to the Legislature Fiscal Office letter of July 20, 1977, with reference to the Legislative intent per LB532, page 18, "Federal funds for Beatrice Developmental Center reflect an increase in such funds for children's medical services pursuant to LB311, 1977."

The receipts from the above were estimated by the Department to be just over $1,000,000.00.

As of this date we have realized no receipts from this new source of revenue. We will be keeping the Legislative Appropriations informed on any developments, in as much as the Beatrice Developmental Center operating budget will be short for FY77-78 if all these funds are not realized.

Dear Mr. Brown:

Pursuant to the Legislative Fiscal Office letter of July 20, 1977, with reference to the Legislative intent per LB532, page 15, "Department shall submit a report detailing improvements in the billing system due to additional funding."

The system as presently planned will provide these additional benefits over our present system:

Provide the counties with balances forward receipts, plus other information that they have been requesting.

Provide an itemized billing showing room rate charges, drug charges, physician charges, and ancillary charges.

Provide a more auditable system that has been approved by the Auditor's Office.

Eliminate the need of hand billing when there is more than one guarantor.

Speed up the time frame in getting out statements.

Improve the system of billings to Welfare for Title XIX patients.

Emphasis was made to design the system so as to eliminate all possible errors.

The system will eliminate many manual records.

Once the system is implemented and operating, we hope it will eliminate some of the clerical staff. Program costs are running

over the $24,500. We hope to have the system in full operation by July 1, 1978. Some delay was caused by the need to set up interest-bearing accounts for all M.R. patients because of the court decree.

Dear Mr. Brown:

Pursuant to the Legislative Fiscal Office letter of July 20, 1977, with reference to the Legislative intent per LB539, page 3, "Funds are provided for movement of residents from the Beatrice State Developmental Center to community-based programs."

Page (1) and the top of page (2) tells by Regions the number of residents the Regions stated they plan to place in the community and the amount of funds they plan to devote for this during FY 77-78.

Page (2) supplements and compares the number they stated they would take to the number they have taken through November of FY 77-78. With 43% of the year gone they have taken only 33% of their stated number.

Supplemental (B) and (C) compares balances on July 1, 1977, and the amount of increased revenue for FY 77-78 to the numbers the Region proposed to take.

Page (4) is of interest as it shows how the Region Fund Balances have steadily increased at the end of each Fiscal Year for the last four years.

Sincerely,

LB539, Section 5(2). This section states that an unspecified amount of the Program 424 State General Funds allocated to each region were appropriated to ensure that the CBMR regions have funds available to move clients from the Beatrice State Developmental Center to community-based programs during FY77-78.

The Regional Operating Budgets and supplemental request for information made to each region establish that the regions plan to expend funds for deinstitutionalization and move clients out of the BSDC as follows:

Region I - The region expects to spend approximately $53,000 during FY77-78 to move nine clients from the BSDC into community-based programs. Four of these clients are to be moved due to startup costs paid to the region by DPI ($12,000) during FY76/77 and the other five clients are funded out of funds appropriated for FY77/78.

Region II - The region plans to take eleven clients out of the BSDC during FY77/78. No data is available from the region concerning the amount of funds to be used to take these eleven clients. Three new residential facilities will be started in FY77/78 with expansion funds appropriated in LB532. One client was moved out of the BSDC during FY77/78 due to startup costs ($2,000) paid during FY76/77. The other ten clients are to be financed exclusively out of funds in the FY77/78 appropriation.

Region III - The region plans to expend about $109,000 on deinstitutionalization in FY77/78 and according to verbal assurances by the region, at least fifteen clients will be moved from the BSDC into community programs during FY77/78. Six of these clients will be moved with startup costs ($9,000) paid during FY76/77.

Region IV - During July, the region submitted an operating budget indicating that it would move 17 clients from the BSDC into CBMR programs during FY77/78. In September the region submitted updated plans listing the names of 25 clients it plans to move from the BSDC during FY77/78. The region plans to expend about $295,000 to expand programs to move clients from the BSDC during FY77/78. Nine of these clients will be placed due to startup costs ($21,820) paid during FY76/77, the remaining 16 clients will be financed exclusively out of funds in the FY77/78 appropriation.

Region V - In June the region submitted an operating budget which stated it would take a total of 29 clients out of the BSDC

during FY77/78. In October it submited updated plans which said the region would take 33 clients out of the BSDC this fiscal year. Of the 33 clients, 17 will be placed due to startup costs ($25,943) which were paid to the region during FY76/77. The remaining 16 clients will be financed exclusively out of funds in the FY77/78 appropriation. The region stated that it plans to spend $334,699 for programs to accommodate BSDC residents during FY77/78.

Region VI - The region has consistently maintained that in spite of the language in this section of LB539, there is no funding available in FY77/78 for expansion. In October, however, the region did commit itself to return 22 BSDC clients in FY77/78. It did not indicate how much of their FY77/78 budget was being allocated to the placement into the community of these 22 BSDC residents.

Supplemental Analysis

A. The following chart gives the number of clients each region says it will take during FY77/78 and compares this goal to the number of clients actually taken during the first five months (July through November) of this fiscal year:

	No. of BSDC Clients to be Placed by the Region	No. of BSDC Clients Taken in July Through Nov.
Region I	9	4
Region II	11	2
Region III	15	8
Region IV	25	8
Region V	33	11
Region VI	22	5
Total	115	38

At this point in time, with 41.7% of the fiscal year elapsed, the regions have taken only 33% of the clients they have plans to move out of the BSDC during FY77/78.

B. The following chart compares the amount of funds the regions had in their balances (according to their CPA annual audits on June 30, 1977) to the number of clients they plan to move out of the BSDC during FY77/78:

	Amount of General Fund Balance on June 30, 1977 According to CPA Audit	No. of BSDC Clients the Region Plans to Take during FY77/78
Region I	$129,791	9
Region II	436,066	11
Region III	210,134	15
Region IV	378,717*	25
Region V	349,750	33
Region VI	883,963**	22
	$2,388,421	115

*Represents net current assets

**Utilizing the accounting method consistent with prior fiscal years by Region VI, the fund balance on June 30, 1977, would be $1,022,571.

C. The following chart compares the amount of dollar increase in revenue available to each region for FY77/78 compared to actual expenses in the CPA audits for FY76/77 and the number of clients each region plans to move out of the BSDC during FY77/78:

	Amount of Increased Revenue for FY77/78 Over Actual Expenses in FY76/77	No. of BSDC Clients the Region Plans to Take During FY77/78
Region I	$237,611	9
Region II	283,095	11
Region III	164,688	15
Region IV	510,486	25
Region V	681,745	33
Region VI	1,100,061	22
Total	$2,977,686	115

*Does not include $21,920 balance of the separate client payroll fund kept by the North Platte Opportunity Center.

**Region IV adopted an accrual accounting system in the year ending June 30, 1976 but did not take the usual additional steps of dividing their fund balance into a General Fund and a Fixed Asset and Equipment Fund. Thus the balance given includes the estimated value of property and equipment. As of June 30, 1977, Region IV had net current assets of $378,717, which is comparable to the General Fund balances in the other Regions.

***Region VI (ENCOR) changed its accounting method during FY76/77 and counted accrued vacation as a libility item on June 30,1977. Had Region VI (ENCOR) followed the procedures used in prior fiscal years and the procedure used by the other mental retardation regions, its fund balance on June 30, 1977 would be $1,022,571.

Dear Mr. Brown:

Pursuant to the Legislative Fiscal Office letter of July 20, 1977, with reference to the Legislative intent per LB539, page 3, "Department shall strengthen its monitoring of the Community-Based Mental Retardation Regions' operations and expenditures."

While the Touche Ross study recommended the enlarging of the Office of Mental Retardation staff, other interests have recommended the reduction of the Office's staff. As a result, the Central Office budget was funded for nine less staff members. In order to comply with the Legislative intent, other positions in the Central Office were held vacant in order to at least staff the Office of Mental Retardation with nine staff persons.

In addition, the following steps have been taken to comply with the Legislative intent:

The Office of Mental Retardation was reorganized at the beginning of FY 77-78. Monitoring of the CBMR programs has

been improved through the use of a combination of survey personnel from National Accreditation Agencies and on-site, follow-up and concurrent visitations from OMR personnel. The DPI client data system will be implemented during this fiscal year and will enable the state to better measure areas such as client movement, program quality, and success of the community programs in placing recipients of services into independent living and competitive employment situations.

Creation of the position of State Coordinator of Mental Retardation as a Deputy Director of DPI is expected to streamline monitoring of both community-based and institutional services funded by the state.

RESOLUTIONS

LEGISLATIVE RESOLUTION 145.

Introduced by Barnett, 26th District.

WHEREAS, the right of the accused to a public trial has long been recognized in this country as one of the fundamental constitutional safeguards; and

WHEREAS, most judicial proceedings are currently open to the public; and

WHEREAS, every person has a need to be aware of and understand how issues, many of which may personally effect him, are settled by the judicial system; and

WHEREAS, technology has now produced audio and visual recording and broadcasting equipment which can be used in a silent and unobtrusive manner.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Legislature favors the use of audio and visual recording and broadcasting coverage from within the courtroom and its surroundings.

LEGISLATIVE RESOLUTION 146.

Introduced by Rasmussen, 41st District.

WHEREAS, American agriculture produces abundant food not only for the American public but also for the world food market; and

WHEREAS, American agriculture has made the greatest productivity gains of any sector of the American economy in the last 50 years; and

WHEREAS, net profits in the production of raw food products are vital to the American economy; and

WHEREAS, current prices for raw agricultural products are below the cost of production; and

WHEREAS, processed food prices have not declined when the prices of raw food products have dropped; and

WHEREAS, the portion of processed food prices representing the cost of raw agricultural products is small; and

WHEREAS, the cost of machinery, equipment, repairs, supplies and fuel continue to increase; and

WHEREAS, the federal government encourages maximum production by American agriculture and at the same time fails to take action either through price supports or increase export of raw food products which would maintain reasonable price levels and adequate returns on investment and labor in American agriculture; and

WHEREAS, reports from Washington on increases in the cost of living continue to attribute increases to increased food prices which are not based on increases in returns to the producers in American agriculture.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Legislature requests a hearing with the President's Council of Economic Advisors to discuss these serious matters.

ATTORNEY GENERAL'S OPINION

Opinion No. 156
January 4, 1978

Dear Senator Barnett:

You have requested the opinion of this office concerning a proposed amendment to LB 121. That amendment would delete the present subsection (7) and replace it with the following:

> "(7) If a landlord's failure to comply with this section is willful and not in good faith, the aggrieved tenant may recover from such landlord the balance of the property and money due such tenant under (2) and, as liquidated special damages for loss of use of the property and money, an amount on one month's periodic rent, plus reasonable attorney fees."

That amendment is essentially the same as an amendment addressed earlier by this office in Opinion No. 79, except that this amendment specifies that the special damages are for the purpose of compensating for the loss of use of the property or money withheld. As was pointed out in the earlier opinion, Abel v. Conover, 170 Neb. 926, 104 N.W.2d 684 (1960), states the applicable test to be applied as follows on page 931:

> "It is clearly within the province of the Legislature to provide for liquidated damages in favor of a private person, although in form a penalty, if the amount provided bears a reasonable relation to the actual damages which might be sustained and which damages are not susceptible of measurement by ordinary pecuniary standards. But where it appears that the provision provides for the payment of an amount clearly in excess of compensatory damages, it is a penalty and violates the due process clause of the Constitution when considered with Article VII, section 5, thereof. . . ."

Therefore, the question faced is whether the liquidated damages provided herein bears a reasonable relationship to actual damages which may be sustained, or conversely whether they are clearly in excess of the amount necessary to make the injured party whole.

The courts will give great deference to reasoned decisions made by the Legislature in the course of enacting legislation. In the instant case, if the Legislature clearly and purposefully determines that liquidated damages are provided herein because damages are not

susceptible of measurement by ordinary pecuniary standards, and that the amount of liquidated damages provided bears a reasonable relationship to the actual damages which might be sustained, then the courts would certainly give great deference to that decision. However, in light of the fact that under subsection (1) of LB 121 the maximum amount of money or property that could be unjustifiably withheld is 125% of one month's periodic rent (one month security deposit plus an additional 1/4 for pets), it is questionable whether returning not only the amount unjustifiably withheld and attorney fees, but also giving the tenant an additional one month's rent for loss of use would be considered to bear a relationship to the actual damages sustained by the tenant. For instance, assume monthly rent of $100.00 so that the maximum security deposit allowable is $125.00. If the landlord unjustifiably withholds the entire $125.00, the tenant would be allowed to recover $225.00 (the amount due plus one month's periodic rent) plus his attorneys' fees. This, at least on the surface, would appear to be in excess of the tenants's damage. Therefore, it may be considerd to be a penalty against the landlord which, under Abel v. Conover, would be unconstitutional. Therefore, it is our opinion that a substantial constitutional question would still exist.

Yours very truly,
PAUL L. DOUGLAS
Attorney General

> Oh God, our Father, we know that our laws can be no better than those who make the laws and administer the laws, and the people who follow the laws.

>
> We pray that Thou wouldst allow other qualities, which may be buried, to rise again in our lives - decency, consideration, unselfishness, and hard thinking with a warm heart.
>
> In our Lord's name. Amen.

ATTORNEY GENERAL'S OPINION

Opinion No. 158
January 5, 1978

Dear Senator Lamb:

You have asked for our opinion on LB 638 which you have introduced in this legislative session. LB 638 amends LB 532, section

45, Eighty-fifth Legislature, First Session, 1977. Your amendment, in effect, reestablishes the former method of appropriation of state aid for local schools.

In Section 1(3) your amendment proposes the following language:

> "There is included in the amount shown $45,000,000 General Funds which are appropriated to the School Foundation and Equalization Fund, which fund is hereby appropriated and $10,000,000 General Funds for distribution under sections 79-4,160 to 79-4,168."

This is the identical language that has been used in the recent past in approriating state aid money for distribution to local school districts. The School Foundation and Equalization Fund is distributed under a formula established by sections 79-1330 through 79-1344, R.R.S. 1943. Section 79-4,160 through section 79-4,168 provide for a distribution of sums appropriated for their purposes. By the enactment of LB 33 last year, the Legislature sought to amend the provisions of both of the above sets of statutes concerning the distribution of state aid money to local school districts. In addition, LB 33 contemplated an increase in state support for local school districts of $20,000,000 for the fiscal year 1977-1978. As you know, a referendum petition was circulated successfully thereby suspending LB 33 pursuant to Article III, section 3 of the Constitution. In LB 532, the appropriations bill of the last session intended to fund state aid to local school districts, the Legislature appropriated $55,000,000 in General Funds to the School Foundation and Equalization Fund. The further language of that section appropriating the money which you propose to amend appropriated the amounts allocated under LB 33 and, of course, that appropriation was ineffective as set forth in our prior opinions to Senators Koch and DeCamp.

The question that arises by virtue of the attempt to correct the problems introducted into the distribution of state aid by the method of appropriation utilized by the Legislature last year is the extent of the power of the Legislature to act where a referendum

vote is pending. In Nebraska the case that offers the most guidance in this area is Klosterman v. Marsh, 180 Neb. 506, 143 N.W.2d 744 (1966). In that case a referendum action had been initiated against the enactment of an income tax law. The general income tax law was first enacted during the session, passed and became law without the Governor's signature. Later in the session an additional bill was enacted which amended section 1 of the income tax law. The only affect of the amendment was to change the definition of income for cooperatives in the State of Nebraska. The question presented to the court was whether the referendum and initiative provisions and the legislative power were concurrent or consecutive. The court held that the power of the people and the Legislature to enact legislation could be exercised concurrently. In addition, the court stated the often repeated rule that:

> "Constitutional provisions with respect to the right of initiative and referendum reserved to the people should be construed to make effective the powers reserved. . . ."

However, the court also recognized that legislative power to act still existed. They stated:

> "In this case we are not faced with the problem of a referendum petition against a specific legislative act in which changes or amendments made by the Legislature in a subsequent amending act might be such as to make them inseverable. Nor is this a case where the later amendment was so major and extensive as to make the issue to be presented to the voters unintelligible or so misleading as to be unfair or constitute fraud. Neither is this a case in which rejection of the act under referral by the voters would create confusion or upset the orderly process of legislation."

There is a very similar situation in Klosterman to that which is proposed under your amendment in that the amendment you propose does not affect LB 33 directly. Your amendment is of an appropriations bill which has the effect of appropriating money to be distributed under the legislation that would have been repealed or amended by LB 33. In effect, your bill maintains the status quo as it had existed prior to the adoption of LB 33. It is also corrective in that it authorizes the Department of Education in subsection 2 to distribute the money under the existing statutes regulating the distribution of state aid to school districts essentially in the same manner that the distributions have been made in previous years. For these reasons as well as for the reasons pointed out in our letter to Senator DeCamp of October 26, 1977, it is our opinion that your

proposed amendment is not in violation of the power of initiative or referendum reserved to the people by Article III, section 3 of the Constitution.

Sincerely,
PAUL L. DOUGLAS
Attorney General

ATTORNEY GENERAL'S OPINION

Opinion No. 160
January 5, 1978

Re: Sections 55-135, 55-136, 55-138, and 55-143

Dear Senator Rasmussen:

This is in reply to your inquiry concerning the constitutionality of the above sections of the Nebraska statutes as they are proposed to be amended. In arriving at our conclusion we have considered a rule stated in Smithberger v. Banning, 129 Neb. 651, wherein our Supreme Court held:

> "The state legislature has no power to delegate any of its legislative powers to any outside agency such as the congress of the United States."

With this rule in mind we call to your attention that section 55-135 provides that National Guard officers may hold their commissions until separated, and section 55-136 that staff officers may hold their positions until retired, "pursuant to regulation issued by the Department of Army or the Department of Air Force" ; that section 55-138 provides for the selection and separation of National Guard Officers "as prescribed in regulations issued by the Department of the Army or the Department of the Air Force"; and that section 55-143 provides that the "general fitness for the service of a National Guard officer may be determined by an efficiency board as provided by the United States."

Considering the rule in the Smithberger case, if regulations issued by the Department of Army or the Department of Air Force, or any law adopted by the United States affecting the above provisions of our statutes are unchanged after the enactment or amendment of the above statutes, it is doubtful that their constitutionality would be affected. However, if federal regulations or laws affecting the above sections were to be adopted or amended subsequent to the amendment of these statutes, there would be a serious question as to their constitutionality.

Very truly yours,
PAUL L. DOUGLAS
Attorney General

LEGISLATIVE RESOLUTION 149.

Introduced by DeCamp, 40th District; F. Lewis, 45th District.

WHEREAS, responsible individuals in key positions on all sides of the issues of state aid to education and the financing of education in Nebraska have unanimously concluded that equalization of property throughout the State of Nebraska is one of the biggest, if not the biggest, stumbling block to a resolution of both the state aid question in general and the question of how to finance education in Nebraska; and

WHEREAS, the efficiency of the equalization system has deteriorated radically in the last seven years; and WHEREAS, questions have arisen as to whether public officials are performing their jobs as dictated by the statutes of this state in regard to accomplishing equalization; and

WHEREAS, any resolution of the questions of state aid and the financing of public education involves a resolution, first, of the equalization problem; and

WHEREAS, the Legislature has in 1977 passed special legislation including but not limited to LB 131 designed to begin to resolve the problem of equalization; and

WHEREAS, the integrity of the entire property tax system at all levels of government is predicated upon a just and efficient equalization system in which like items are treated in a like manner; and

WHEREAS, it is the duty of the Legislature to insure integrity of this system.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a special legislative committee, invested with subpoena power and staffed by the Executive Board with whatever aid and assistance is reasonably required to accomplish its task, be set up immediately by the Executive Board to accomplish the following:

(a) Analysis and study of what the equalization situation in Nebraska is now;

(b) Determine the effects of the present system of equalization upon public education and the financing of education;

(c) Determine the effects of the present system of equalization upon the state aid question; and

(d) Determine whether public officials are resolving the existing problems and are complying with the laws and fulfilling their duties under such laws.

2. That this special committee should begin work immediately and should conclude and report back to the Legislature its findings on a continuing basis including any legislative recommendations and a final report of this committee should be presented to the Legislature prior to April 15, 1978, unless such deadline is extended by this Legislature.

3. That this special committee shall consist of the chairman of all committees of the Nebraska Legislature who shall among themselves elect a chairman for this special committee.

4. That this special committee shall in addition to issuing a legislative report make specific recommendations as to whether any misfeasance or malfeasance in office is being or has been committed by public officials and shall if such misfeasance or malfeasance is reported make appropriate recommendations to resolve the matter.

ATTORNEY GENERAL'S OPINION

Opinion No. 162
January 9, 1978

Dear Senator DeCamp:

You have asked for our opinion on three amendments that you might offer this session for the purpose of amending LB 532, section 45, Eighty-fifth Legislature, Second Session, 1977.

In your first proposed bill amendatory language in section 1 is:

> "No school district shall receive less state financial assistance per pupil under section 2 of this act for the 1977-1978 school year than such district received pursuant to sections 79-1330 to 79-1344 and 79-4,160 to 79-4,168 for the 1976-1977 school year."

In section 2, subsection (3), your amendment contains the following new language:

> "There is included in the amount shown $49,600,000 General Funds which are appropriated to the School Foundation and Equalization Fund, which fund is hereby appropriated and $8,900,000 General Funds for distribution by the State Department of Education to meet the requirements of section 1 of this act."

In your second proposal section 1 contains the following new language:

> "No school district shall receive less state financial assistance per pupil for the 1977-1978 school year than such district received on a per pupil basis for the 1976-1977 school year."

In section 2(3) you include the following language:

> "There is included in the amount shown $45,000,000 General Funds which are appropriated to the School Foundation and Equalization Fund, which fund is hereby appropriated and $12,500,000 General Funds for distribution under sections 79-4,160 to 79-4,168, Reissue Revised Statutes of Nebraska, 1943, and amendments thereto."

Section 3 of both proposals allows the Department of Education to recompute payments to be made this fiscal year. We will treat each of your proposals together for purposes of this discussion.

In both cases the proposed bill contains an emergency clause.

Your third proposed draft is identical to a bill introduced by Senator Lamb, LB 638. We refer you to the copy of our opinion to Senator Lamb enclosed with this letter in answer to that question.

You ask that we review your proposals with a view toward any constitutional problems that may exist.

By way of general explanation, the problem arises by virtue of the fact that the Legislature adopted LB 33 last year which was intended to amend the sections of law currently controlling the distribution of state aid to local school districts. In addition, LB 33 increased the amount of state aid to be given to local school districts by $20,000,000 for fiscal year 1977-1978. Of course that portion of LB 33 dealing with the amount of money to be provided for state aid was not an appropriation but simply an allocation. LB 532, in section 45, then appropriated $55,000,000 to the School Foundation and Equalization Fund and additionally appropriated $20,000,000 for the purposes of LB 33. Those purposes were for distribution under the School Foundation and Equalization Fund under the formulas contained in LB 33. Subsequently the referendum petition was circulated successfully and LB 33 was suspended pursuant to Article III, section 3 of the Nebraska Constitution. That resulted in the existing statutes remaining in effect during the interim period between the filing of the referendum petition and the general election to be held in November of 1978. Those statutes provided for distribution of state aid to school districts under two formulas -- those contained in sections 79-1330 through 79-1344 and those contained in sections 79-4,160 through 79-4,168.

By previous opinions we have made clear that no appropriation was made for the purposes of sections 79-4,160 through 79-4,168. Subsequently the Department of Education in determinating the allocations to be made discerned that $49,600,000 would fully fund the provisions of section 79-1330 through 79-1344 thereby leaving an excess not to be expended during the current fiscal year of $5,400,000. In addition, several school systems as a result in part of not having any funds appropriated for the purposes of sections 79-4,160 through 79-4,168 have received or will receive less money from the State Department of Education this year than they have in the past years. Of course, that same prospect would exist even if money had been appropriated for the purposes of section 79-4,160 through 79-4,168, in that a variety of factors under the formulas existing affect the amount of money to be received by any school

district including such things as reevaluation of property values within the district, decreases or increases in the size of the student enrollment and the qualifications of the faculty and income received from other sources than state aid. In fact, it may be said safely that the amount of money any school district will receive in any particular year will vary under any formula that may be established. At least in part the proposals that you have provided our office for review would establish a new formula for the distribution of state aid. To a limited extent this raised some question about whether or not this alteration substantially affects the referendum vote on LB 33 which also contains a new formula.

In your proposal number one, $49,600,000 is appropriated to the Foundation and Equalization Fund and $8,900,000 to be distributed under the "hold harmless provision" of section 1. In your second proposal $45,000,000 and $12,500,000 are appropriated for the same purposes. Thus, the proposals result in an expenditure of $3,500,000 and $2,500,000 respectively above the $55,000,000 presently appropriated by LB 532. To this extent the appropriations take the character of a deficit appropriation and require the appropriate majority for passage. These increases over the $55,000,000 presently appropriated raise the question of whether or not they violate Article III, section 3 of the Constitution of the State of Nebraska in that at least a portion of the referendum on LB 33 involves the question of increased state aid to local school districts.

It is our opinion that both of these questions may be analyzed by reference to the prohibitions set forth by the Nebraska Supreme Court in Klosterman v. Marsh, 180 Neb. 506, 143 N.W.2d 744 (1966).

> "In this case we are not faced with the problem of a referendum petition against a specific legislative act in which changes or amendments made by the Legislature in a subsequent amending act might be such as to make them inseverable. Nor is this a case where the later amendment was so major and extensive as to make the issue to be presented to the voters unintelligible or so misleading as to be unfair or constitute fraud. Neither is this a case in which rejection of the act under referral by the voters would create confusion or upset the orderly process of legislation."

In addition to these prohibitions announced in Klosterman v. Marsh, the court in that case did recognize that the legislative power and the referendum power may be concurrently exercised by

the Legislature and the people. The court also recognized that the Legislature is not precluded from acting in an area while that particular subject matter is awaiting a referendum vote. Therefore, recognizing the undoubted legislative power to take some actions we must analysze the particular proposals that you put forward to see if they run afoul of any of the prohibitions set forth in Klosterman.

Neither draft directly amends LB 33. They do, however, alter the amount of money available for distribution to school systems by the Department of Education for this fiscal year, 1977-1978. To that extent they change, amend or affect that portion of LB 33 dealing with the amount of state aid to be provided to local school systems. Proposed increases of $3,500,000 and $2,500,000 are inserverable from the provisions of LB 33 authorizing an increase of $20,000,000. The proposals you have presented are not a situation where the Legislature is acting to overcome the objections raised by the referendum petition by altering the amount of increase. Where that is the case, different considerations might apply. However, at least in part the vote of the people is concerned with increasing state aid from $55,000,000 to some greater figure. To the extent that the Legislature attempts retroactively to authorize an increase of a lesser amount there can be little question but that there is an effect on the referendum.

To the extent that the proposals alter this formula they are questionable. Of course, your proposals also alter the distributional formula and to that extent do in some measure affect the power of the people to express their will by way of referendum.

The second prong of the analysis set forth in Klosterman requires a determination of whether the change is so major or extensive as to make the issue presented unintelligible or so misleading as to be unfair or fradulent. This analysis is different from that required above in that any change made must be analyzed in terms of the extent of the effect the change will have on the matter subject to referendum. Here there is some change, to the extent of 2.5 or 3.5 million dollars. For purposes of this portion of the analysis set forth in Klosterman we simply point out that the change does exist and that the extent of the change, although difficult to characterize, is a change.

The final prong of the test we believe is not offered by your proposals in that it would not upset the orderly processes of legislation or create confusion.

For the reasons set forth above, it is therefore our opinion that both of your proposals would be in violation of Article III, section

3 of the Constitution. Under the test set out in Klosterman v. Marsh, the proposals would offend the right of the people to vote upon the method to be utilized in distributing state aid to education and the amount of state aid to education to be provided local school districts.

Very truly yours,

ATTORNEY GENERAL'S OPINION

Opinion No. 163
January 9, 1977

Re: LB 556

Dear Senator Chambers:

This is in reply to your inquiry concerning the constitutionality of a provision in LB 556 which mandates that a person accused of a certain sexual offense post 100 percent of any bond set.

As you know, there is no provision in either the Nebraska or United States Constitutions which requires that a person be placed

on bail upon paying a deposit or percentage of the amount set. The provision in the Nebraska Constitution, Article I, section 9, merely states that the bail shall be by sufficient sureties and that excessive bail shall not be required. The United States Constitution merely states that excessive bail shall not be required. Article VIII.

It cannot be said that the requirement of a deposit of the full amount set necessarily violates such provision. Some courts may set the bail low enough in the cases under consideration that 100 percent thereof would be less than 10 percent of the total bail set for other crimes.

A more serious constitutional question than that of excessive bail is the question of whether or not singling out of special treatment for this one crime denies to persons accused of committing that crime a denial of the equal protection of the law as required by the Fourteenth Amendment to the United States Constitution. As mentioned by you, classifications created by statute must not be arbitrary but must have a reasonable and sound basis logically related to the public interest intended to be protected.

Insofar as setting the amount of bail, 8 Am. Jur.2d, Bail and Recognizance Section 72, summarizes the matters generally accepted to be important as follows:

> "In setting the amount of bail, the principal factor considered, to the determination of which most other factors are directed, is the probability of the appearance of the accused, or of his flight to avoid punishment. Hence, the possible penalty that may be imposed is a major factor to be considered in determining the amount of bail. And the severity of the penalty, of course, generally depends on the seriousness of the crime with which the defendant is charged. Therefore, the seriousness of the offense is a valid consideration."

There are other factors which may also be taken into consideration by the courts in setting the amount but these are not the subject of this legislation.

This legislation applies only to persons charged with the commission of any degree of sexual assault. As you know, conviction of these crimes varies from a possible penalty of from one to twenty-five years in the penitentiary for a conviction of sexual assault in the first degree to a penalty of a maximum of one year imprisonment for sexual assault in the second degree without serious personal injury to the victim.

This compares with other crimes presently on the statutes such as robbery which carries a penalty of not less than three nor more

than fifty years in the penitentiary (28-414), train robbery - ten years to life in the penitentiary (28-415, kidnapping - from three to fifty years in the penitentiary (28-417), shooting, stabbing, etc. with intent to kill, wound or maim - one to fifty years in the penitentiary (28-410). We have not attempted to list all of the crimes carrying larger penalties than sexual assault crimes but there are others.

The avowed purpose of bail is an attempt to assure that the accused will appear for trial. The possible penalty for the crime with which an accused is charged is a major factor in determining whether or not an accused is likely to jump bail. Since the sexual crimes carry a lesser penalty than many of the other serious crimes which are bailable, it would be difficult, in our opinion, to defend the constitutionality of such a classification by the Legislature. This does not mean that the judge setting bail, in his discretion, may not take into consideration in each particular case the character and reputation of the accused, the seriousness of the particular crime, the strength of the evidence and other factors.

MESSAGE FROM THE GOVERNOR

January 10, 1977

Mr. President, Mr. Speaker
and Members of the Legislature
State Capitol Building
Lincoln, Nebraska 68509

Dear Mr. President and Senators:

Attached, herewith, is a bill that deletes language in LB539, 85th Legislature, First Session relating to rebates and reduction of charges made by the Department of Administrative Services. Because of the limitations put on these programs by LB539 the State is faced with losing substantial amounts of federal funds for those costs. I urge that this language be stricken and all amounts collected above actual costs be remitted to the agency paying them. I am attaching my latest correspondence from William Parks of the Department of Health, Education and Welfare and would urge you to give this bill prompt consideration.

Sincerely,
(Signed) J. James Exon

The Honorable J. James Exon
Governor of Nebraska
State Capitol
Lincoln, Nebraska 68509

Dear Governor Exon:

Thank you for your prompt attention to the problems our offices have encountered with LB 539.

The proposed resolution of this matter, as stated in your letter of August 2, 1977, is agreeable with this office. As a matter of record, I restate the stipulations agreed to:

1. You, as Governor of the State of Nebraska, have agreed to present to the Legislature, and urge passage, corrective legislation as soon as the Legislature convenes next January. In the interim, my office will be available, as deemed necessary by Nebraska officials, to consult in arriving at acceptable corrective language.
2. In consideration of the above, I, representing the Department of HEW and the Federal Government as a whole, agree not to terminate approval for federal funding of those costs adversely affected by LB 539 at this time.
3. That if corrective action is not taken by the Legislature by February 1, 1978, pursuant to this understanding, I must withdraw approval for federal funding of those costs adversely affected by LB 539. This provision shall not be construed to relieve federal agencies of their rights and responsibilities to ensure that federal programs are charged not in excess of actual costs for allowable services during the interim period.

Thank you again for your enlightened assistance in this matter. I am hopeful that a complete and timely resolution will be achieved. Please contact me if I may be of further assistance in this endeavor.

Sincerely,

RESOLUTIONS

LEGISLATIVE RESOLUTION 154.

Introduced by Keyes, 3rd District; Simon, 31st District; Hefner, 19th District; Burrows, 30th District; Newell, 13th District.

WHEREAS, the State of Nebraska ceded exclusive jurisdiction over certain lands in Nebraska to the United States; and

WHEREAS, such action has resulted in a tax exempt status for certain properties acquired by the United States; and

WHEREAS, such tax exempt status has apparently exempted properties of private individuals and corporations and has resulted in a loss of millions of dollars to local government entities because such property has escaped taxation; and

WHEREAS, individuals and corporations have avoided the payment of personal property taxes because such property is located within lands ceded to the United States; and

WHEREAS, the legislative Revenue Committee performed an interim study determining what property, which otherwise would be subject to personal property taxation, is located within the jurisdiction of the United States is now, and has been, excaping such taxation; and

WHEREAS, such study could not be properly completed because of certain companies failing to cooperate.

NOW, THEREFORE BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Revenue Committee hold a public hearing to determine the exact amount of personal property located at Offutt Air Force Base and the tax value of such property if such property were subject to local property taxes. Failure to report the amount and value of personal property located at Offutt Air Force Base, by individuals and corporations, to the Revenue Committee, will result in the subpoena of such information.

2. That the U. S. Department of Defense explain to the Revenue Committee their present position on support of retrocession procedures at such public hearing.

3. That the fiscal impact of retrocession of the Offutt lands be determined.

4. That this resolution serve as an indication of acceptance by the Legislature of Nebraska of federal retrocession action.

Introduced by Keyes, 3rd District; Simon, 31st District; Hefner, 19th District; Burrows, 30th District; Newell, 13th District.

WHEREAS, the State of Nebraska ceded exclusive jurisdiction over certain lands in Nebraska to the United States; and

WHEREAS, such action has resulted in a tax exempt status for properties of private individuals and corporations and has resulted in a loss in millions of dollars to local government entities because of such property being located on ceded land; and

WHEREAS, President Eisenhower was concerned with the gross inequities of the tax exemption due to exclusive jurisdiction and appointed a committee to study such problems; and

WHEREAS, the conclusion of such study indicated that the Federal government should no longer accept this measure of jurisdiction and this injustice; and

WHEREAS, the elements of confidentiality and security would not be jeopardized by allowing concurrent jurisdiction; and

WHEREAS, the retention of this exclusive jurisdiction by the federal government appears to be discriminatory to the State of Nebraska.

NOW, THEREFORE BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

Strike the original language and insert the following:

WHEREAS, responsible individuals in key positions on all sides of the issues of state aid to education and the financing of education in Nebraska have unanimously concluded that equalization of property throughout the State of Nebraska is one of the biggest, if not the biggest, stumbling block to a resolution of both the state aid question in general and the question of how to finance education in Nebraska; and

WHEREAS, the efficiency of the equalization system has deteriorated radically in the last seven years; and

WHEREAS, questions have arisen as to whether public officials are performing their jobs as dictated by the statutes of this state in regard to accomplishing equalization; and

WHEREAS, any resolution of the questions of state aid and the financing of public education involves a resolution, first, of the equalization problem; and

WHEREAS, the Legislature has in 1977 passed special legislation including but not limited to LB 131 designed to begin to resolve the problem of equalization; and

WHEREAS, the integrity of the entire property tax system at all levels of government is predicated upon a just and efficient equalization system in which like items are treated in a like manner; and

WHEREAS, it is the duty of the Legislature to insure integrity of this system.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a special legislative oversight committee staffed by the Executive Board with whatever aid and assistance and legislative authority is legal and reasonably necessary to accomplish its task, be set up immediately by the Executive Board to accomplish the following:

(b) Determine the effects of the present system of equalization upon public education, the financing of education, and our property tax system in general;

(c) Determine the effects of the present system of equalization upon the state aid question;

(d) Determine whether existing problems are being addressed and whether equalization laws are being complied with and whether officials are performing their duties under such laws.

2. That this special committee should begin work immediately and should conclude and report back to the Legislature its findings on a continuing basis including any legislative recommendations and a final report of this committee should be presented to the Legislature prior to April 15, 1978, unless such deadline is extended by this Legislature.

3. That this special committee shall consist of the chairman of all committees of the Nebraska Legislature who shall among themselves elect a chairman for this special committee.

> Eternal God, our loving Father, may we become more aware of the immediate concerns of our state - the minute problems confronting the various districts and the pleading of our constituents. But keep ever before this significant body the eternal and all-encompassing goals upon which smaller issues must be measured: to love mercy; to right wrongs; to live for justice, and to serve Thee, our God, and our fellowman as we would serve ourselves. ATTORNEY GENERAL'S OPINIONS

Opinion No. 164
January 11, 1978

Dear Mr. O'Donnell:

In your letter of January 10, 1978, you inform us that the Nebraska Legislature intends to recess for two weeks beginning approximately January 17, 1978. During this time that they will be in recess certain committee meetings will be held in Lincoln.

You ask if Senators returning for these committee meetings may constitutionally be paid for the expense of traveling to and from Lincoln to attend these meetings. Section 7 of Article III of the Constitution of the State of Nebraska provides as follows:

> "At the general election to be held in November, 1964, one half the members of the Legislature, or as nearly thereto as may be practicable, shall be elected for a term of four years, and the remainder for a term of two years, and the remainder for a term of two years, and thereafter all members ahll be elected for a term of four years, with the manner of such election to be determined by the Legislature; Provided, that when the Legislature is redistricted the members elected prior to the redistricting shall continue in office, and the law providing for such redistricting shall where necessary specify the newly established district which they shall represent for the balance of their term. Each member shall be nominated and elected in a non-partisan manner and without any indication on the ballot that he is affiliated with or endorsed by any political party or organization. Each member of the Legislature shall receive a salary of not to exceed four hundred dollars per month during the term of his office. In addition to his salary, each member shall receive an amount equal to his actual expenses in traveling by the most usual route once to and returning from each regular or special session of the Legislature. Members of the Legislature shall receive no pay or perquisites other than said salary and expenses, and employees of the Legislature shall receive no compensation other than their salary or per diem."

We have previously been asked if legislators may be reimbursed for expenses incurred in traveling to committee meetings during interims between sessions and meetings of the Legislative Council

held between sessions. In each instance we have been of the opinion that reimbursement for such has been established by statute and that this statute was not violative of the constitutional provision set out above. (See Opinion No. 60, April 8, 1977, and Opinions Nos. 60 and 63, Report of the Attorney General, 1959-60, attached.)

However, in Opinion No. 60 dated April 13, 1959, we concluded with regard to the specific question you ask:

> ". . . However, in view of the previous construction placed upon this section, it would be a violation of the above provision for the Legislature to provide for the payment of their personal expenses during regular and special sessions of the Legislature."

We believe this statement to be correct and reaffirm it at this time. We are therefore of the opinion that Senators returning to Lincoln for committee meetings during this recess may not be compensated for the travel expense incurred.

Sincerely,
PAUL L. DOUGLAS
Attorney General

Opinion No. 165
January 11, 1978

Dear Senator DeCamp:

You have requested our opinion on another draft proposal to amend LB 532, Eighty-fifth Legislature, First Session, 1977, section 45. In the latest draft that you have provided to us section 1 provides:

> "No school district shall receive less state financial assistance per pupil for the 1977-1978 school year than such district received on a per pupil basis for the 1976-1977 school year."

Section 2 (3) in part provides:

> "There is included in the amount shown $40,000,000 General Funds which are appropriated to the School Foundation and Equalization Fund, which fund is hereby appropriated and $15,000,000 General Funds for distribution by the State

Department of Education to meet the requirements of section 1 of this act."

Section 3 allows the Department of Education to recompute distributions to local school districts pursuant to the proposed amendment.

In previous opinions to Senator Lamb, dated January 5, 1978, and to yourself, dated January 9, 1978, we have discussed other draft amendments to section 45 of LB 532. In those previous opinions we have delineated the guidelines that must be followed in enacting legislation where a referendum is pending against an act of the Legislature. We will not reiterate in this letter our previous opinions.

In the present draft, section 1 is a hold-harmless clause providing that school districts shall not recieve less per pupil aid this year than they would have received last year. Subsection (3) of section 2 reallocates the $55,000,000 appropriated last year to the School Foundation and Equalization Fund for distribution under section 79-1330 through section 79-1344, R.R.S. 1943, and provides for a different distributional method. Forty million dollars would be distributed under those sections, and $15,000,000 would be used to maintain school districts in no worse position on a per pupil basis than the 1976-1977 year.

Once again, the three questions that must be answered are whether or not the changes or amendments are such as to make the act subject to referendum and subsequent changes inseverable; whether the latter amendment is so major or extensive as to make the issue unintelligible or so misleading as to be unfair or to constitute fraud; or whether rejection of the act under referral would create confusion or upset the orderly processes of legislation.

In making these determinations, we first point out that there is no change in the amount to be distributed from the appropriation not part of the referendum. We also point out that the distributional formula left intact by the suspension of LB 33 is not changed by the proposed amendment that you have provided for our inspection. However, the amount of money to be distributed under the formula provided by sections 79-1330 to 79-1344 has been reduced. Under the sections that remain in existence because of the suspension of LB 33, the school districts would have received 49.6 million dollars under sections 79-1330 to 79-1344. They would have received no money under the provisions of section 79-4,160 to 79-4,168; but it does appropriate a portion of the previously appropriated money for distribution in a manner that the school districts would receive

the same amount of money as they received in the 1976-1977 school year, which, of course, would by reference include distribution under both of the above statutory schemes. Therefore, the change proposed by the amendment is severable from the matter referred to the voters.

We do not believe that this distributional approach would upset orderly legislative processes or create confusion in the legislative process. Any confusion that may result can be limited by rapid calculation of the amount of money to be paid to local school districts under this distributional scheme.

The final question that must be answered is whether this scheme is so major or extensive as to make the issue to be presented to the voters unintelligible or so misleading as to be unfair to constitute fraud. It is our view that the change will not have any effect on the issue to be presented to the voter under LB 33. For this reason, it is our view that this provision is not offended by the proposed amendment.

Therefore, it is our opinion that your most recent proposed amendment to LB 532, section 45, Eight-fifth Legislature, First Session, 1977, is not in violation of Article III, Section 3 of the Constitution. The amendment amounts to a reallocation of funds previously appropriated by the Legislature for similar purposes to those existing at the time the appropriation was made. The net effect will be to maintain the status quo pending the outcome of the referendum. Thus, not affecting the rights of the voters.

Very truly yours,
PAUL L. DOUGLAS

Friday, January 13, 1978

Pursuant to adjournment, the Legislature met at 9:10 a.m., Speaker Luedtke presiding.

PRAYER

The prayer was offered by the Chaplain.

> With all the resources of an Infinite God available to them that ask Thee, forgive us, O Lord, for our lack of faith that begs for pennies when we could write checks for millions; that strikes a match when we could have the sun. Give to us the faith to believe that there is no problem before us that Thy wisdom cannot solve. As Thou guided men in the past, so guide these men and women today. At every desk may there be the whisper of Thy counsel. Help our leaders to weigh their words, that their words may carry weight and, what is more, the echo of Thy will; for Jesus' sake. Amen.

ATTORNEY GENERAL'S OPINION

Opinion No. 166
January 12, 1978

Re: Req. 1187

Dear Senator DeCamp:

We have reviewed the above proposal as requested by you and are of the opinion that it would effectively give the Director of the Department of Insurance the authority to cause a refund of taxes on premiums collected on a regular or retaliatory basis paid when not required by law or paid in excess of the amount legally chargeable. The refund would come from the special fund set up by said bill after certification by the Director to the State Treasurer, subject to appropriation.

It is further our opinion that such refund could be made for erroneously paid taxes retroactively up to six years immediately preceding the effective date of the act.

Respectfully submitted,
PAUL L. DOUGLAS
Attorney General

Assistant Attorney General

RESOLUTION

LEGISLATIVE RESOLUTION 156.

Introduced by DeCamp and F. Lewis

WHEREAS, responsible individuals in key positions on all sides of the issues of state aid to education and the financing of education in Nebraska have unanimously concluded that equalization of property throughout the State of Nebraska is one of the biggest, if not the biggest, stumbling block to a resolution of both the state aid question in general and the question of how to finance education in Nebraska; and

WHEREAS, the efficiency of the equalization system has deteriorated radically in the last seven years; and

WHEREAS, questions have arisen as to whether public officials are performing their jobs as dictated by the statutes of this state in regard to accomplishing equalization; and

WHEREAS, any resolution of the questions of state aid and the financing of public education involves a resolution, first, of the equalization problem; and

WHEREAS, the Legislature has in 1977 passed legislation including but not limited to LB 131 designed to begin to resolve the problem of equalization and which legislation properly deserves close Legislative oversight; and

WHEREAS, the integrity of the entire property tax system at all levels of government is predicated upon a just and efficient equalization system in which like items are treated in a like manner; and

WHEREAS, it is the duty of the Legislature to insure integrity of this system.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a special legislative "OVERSIGHT" committee staffed by the Executive Board with whatever aid and assistance and legislative authority is LEGAL and REASONABLY NECESSARY to accomplish its task, be set up immediately by the Executive Board to accomplish the following:

(a) ANALYSIS and STUDY of what the equalization situation in Nebraska is now;

(b) Determine the effects of the present system of equalization upon public education, the financing of education, and our property tax system in general;

(c) Determine the effects of the present system of equalization upon the state aid question;

(d) Determine whether existing problems are being addressed and whether equalization laws are being complied with and whether officials are performing their duties under such laws.

2. That this special committee should begin work immediately and should conclude and report back to the Legislature its findings on a continuing basis including any legislative recommendations and a final report of this committee should be presented to the Legislature prior to April 15, 1978, unless such deadline is extended by this Legislature.

3. That this special committee SHALL CONSIST OF THE CHAIRMAN OF ALL COMMITTEES OF THE NEBRASKA LEGISLATURE who shall among themselves elect a chairman for this special committee.

4. That this special committee shall in addition to issuing a Legislative report make specific recommendations as to whether special legislation or other affirmative action is necessary to accomplish the goals of equity in equalization and equity in the property tax system.

ATTORNEY GENERAL'S OPINION

Opinion No. 167
January 13, 1978

Dear Senator Koch:

In your letter of January 5, 1978, you inform us of the introduction of Legislative Bill 105 generally providing for the submission to the voters the question of altering the method of selecting our legislators from a nonpartisan basis to a partisan basis.

You specifically inquire whether this would thereby unconstitutionally disenfranchise voters registered as Independents from voting and/or whether this would deprive independent, nonpartisan candidates from running for a seat in the Legislature. We do not believe that either would result.

As you may know, independent voters do not presently participate in the partisan primary races and we are of the opinion that they constitutionally need not in that they may vote for the partisan candidate of their choice or an independent petition candidate of their choice in the general election. Therefore, the Nebraska independent voter would be no more disenfranchised by this change

than a voter of any other state electing its legislators on a partisan basis.

As to independent candidates running for a seat in the Legislature under a partisan selection system, such a change would not prohibit them from running as petition candidates as presently provided for in section 32-504, R.R.S. 1943.

Enclosed for your added information is a copy of Opinion of the Attorney General, No. 157, dated March 18, 1974, found on page 209 of the Report of the Attorney General, 1973-1974. This opinion also dealt with a change such as is proposed in Legislative Bill 105 and may be of use to you in your consideration of this proposal.

Sincerely,
PAUL L. DOUGLAS
Attorney General

MESSAGE FROM THE GOVERNOR

January 16, 1978

Mr. President, Mr. Speaker,
and Members of the Legislature
State Capitol Building
Lincoln, NE 68509

Dear Mr. President and Senators:

Last Friday, needless confusion was generated by a few on the floor of the Legislature regarding my talk to the County Officials convention on December 1, 1977. Clarification of my position was requested, and I am please to furnish the same herewith.

My address to the county officials was given completely in the open with many members of the Legislature present, as opposed to any clandestine setting implied by some. My suggestions to the county officials had to do essentially with seeking cooperation to simultaneously resolve matters of joint concern.

A key issue in my address was the possible gradual state assumption of county medicaid obligations, coupled with a meaningful property tax spending lid bill.

I proposed this action to help provide possible relief for hard-pressed property taxpayers by shackling the property tax spenders.

Unless a sound spending lid bill is introduced by legislative initiative, it will be introduced by gubernatorial initiative.

The critical point is that it is political buffoonery and the highest level of fiscal irresponsibility to pump any more millions of State dollars to local political subdivisions without any property tax spending controls, because such action will merely fuel increased spending rather than provide any real property tax relief. Since 1967 we should have learned this lesson well.

I believe most concerned elected local officials agree with this position, and are asking our assistance in coupling any additional state aid with spending limitations in hopes of providing property tax relief.

This was simply the basis of my address to the County Officials Association, and it was made without any secret understanding with any one or any group.

Yours very truly,
(Signed) J. James Exon
Governor

ATTORNEY GENERAL'S OPINIONS

Opinion No. 169
January 16, 1978

Dear Senator Barnett:

In a letter dated January 9, 1978, you ask this office whether or not the Chambers' amendment to LB 64, found on pages 193 and 194 of the Legislative Journal, are constitutional and secondly, whether or not the language in that amendment insures that one convicted of a Class I felony would serve at least a minimum of thirty years. In a letter addressed to Senator Chambers this day, we have opined that his amendment would accomplish the goal of insuring that one convicted of a Class I felony would serve at least a minimum of thirty years, subject to the power of the Pardon Board to pardon or commute. A copy of that opinion is attached hereto.

Your second question is whether or not the language of the amendment to LB 64, found on page 194 and relating to the restrictions on parole and mandatory discharge from custody, is constitutional. We believe that that amendment and its language is constitutional. In Official Opinion No. 65, dated April 11, 1977, this office indicated in an opinion addressed to Senator Ernest Chambers that a substantially similar amendment to that which you now question was constitutionally defensible. We indicated in that letter, as we do now, that while we cannot reach the categorical conclusion, we do feel that such a condition prescribed by the Legislature would be constitutionally defensible and would not violate Article IV, Section 13, of the Constitution of Nebraska.

To sum up the above, we believe that if the purpose and intent of Senator Chambers' amendment to LB 64, found on pages 193 and 194 of the Legislative Journal, is to guarantee that a person convicted of a Class I felony serve a minimum of thirty years in prison that that purpose and intent is accomplished by that amendment. Secondly, we believe that an attempt by the Legislature to restrict eligibility for parole and final discharge in the case of persons convicted of a Class I felony would be constitutionally defensible.

Very truly yours,
PAUL L. DOUGLAS
Attorney General

Opinion No. 170
January 16, 1978

Dear Senator Chambers:

In a letter dated January 9, 1978, you ask this office to review your amendment to LB 64, which is printed on pages 193 and 194 of the 1978 Legislative Journal, and indicate to you whether or not this amendment makes certain that a person convicted of first degree murder will serve at least a minimum of a thirty year sentence. It is our opinon that your amendment would accomplish that intent.

On April 15, 1977, this office, in an official opinion addressed to Senator Neil Simon, discussed a nearly identical amendment to LB 64. In that opinion we said:

> We believe that this proposed amendment would guarantee, subject to the power of the Pardon Board to commute sentences, that no person convicted of first degree murder would be paroled or discharged from prison in less than thirty years regardless of the good time provisions, but would at the same time allow the good time provisions to apply to a person once he had completed the thirty year sentence."

In that same opinion (No. 74) several hypothetical situations were discussed to more clearly demonstrate the effect of the amendment proposed at that time. Those same hypotheticals would apply with equal effect if your amendment to LB 64 was adopted.

In sum, we believe that your amendment to LB 64 would provide that a person convicted of first degree murder would serve at least a minimum of thirty years. We have, this date, in a letter to Senator Wally Barnett, opined that your amendment to LB 64 is constitutional. A copy of that opinion is attached hereto.

Very truly yours,
PAUL L. DOUGLAS
Attorney General

TENTH DAY - JANUARY 17, 1978

LEGISLATIVE JOURNAL

EIGHTH-FIFTH LEGISLATURE
SECOND SESSION

TENTH DAY

Legislative Chamber, Lincoln, Nebraska
Tuesday, January 17, 1978

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Whelan presiding.

PRAYER

The prayer was offered by the Chaplain.

> Eternal God, at the beginning of a new and busy day we close our eyes, not to shut out the world but to look beyond it to Thy boundless horizon, so we may be more relevant in the things we do and say. Give to this strategic body poise and a right sense of timing. There is that tide in life which, when taken, leads to victory, but when missed, leaves us in the shallows of defeat. Guide these leaders of our State that they may discern the signs of the times and lead us in the paths of fullness and peace. In our Lord's name. Amen.

ROLL CALL

The roll was called and all members were present except Messrs. Fowler and Nichol who were excused; and Mrs. Marsh, Messrs. Burrows, George, Kelly, Kremer, Mills, and Venditte who were excused until they arrive.

UNANIMOUS CONSENT - Print in Journal

Mr. F. Lewis asked unanimous consent to print the following news article in the Journal. No objections. So ordered.

Omaha World-Herald, Saturday, December 3, 1977
Exon to Counties: Let's Make a Deal
By David Thompson

Gov. J. J. Exon offered Thursday night to help phase out Nebraska counties' 20 percent share of Medicaid payments, something he has opposed in the past.

In return, he asked the Nebraska Association of County Officials to support a tax spending lid bill and to follow through on countywide real estate revaluations.

County Medicaid payments - $15 million this year - have been a burden to local governments, according to county officials. In Douglas County, payments of $5.3 million were cited as one of the big reasons for the county's financial crisis in 1975-76.

"Your proposals previously for state takeover (of Medicaid payments) have not met with my approval because of state budget restraints," Exon told the association banquet crowd of about 500 at the Holiday Inn, 72nd and Grover streets.

'Still Tight'

"We are still tight, but a plan might be developed as part of a joint solution to a number of issues by phasing out this historical county obligation on a six-or seven-year phased basis."

Exon suggested that the county share might be reduced to 17 percent for 1978-79 and similar reductions made in subsequent years. The payment would cost the state $2.2 million the first year, he said. The change would require approval of the Legislature.

Several bills shifting county Medicaid payments to the state have been introduced in the Legislature during Exon's two terms as governor, but none has passed. The Exon administration has made no secret of its opposition to the bills.

The state now pays 25 percent of the Medicaid payments, and the federal government pays 55 percent.

For supporting the Medicaid change, Exon asked that county officials back a bill setting a firm limit on increases that property-taxing bodies could make from year to year.

Property Revaluation

The present spending limit contained in a real estate revaluation bill is "meaningless," the governor said in an interview after his talk. The law limits spending increases to 7 percent more from one year to the next but it provides that the limit may be exceeded if the taxing body holds a public hearing on the budget.

Under Exon's proposal a taxing body, such as a county board, city council or school board, would have to get voter approval to exceed the spending limit.

The governor said he has not determined what the limit should be.

Exon also asked county officials to stick with their real estate revaluation efforts. A majority of counties already have revalued property and are ready to put those values on the tax books next year, he said.

"But a few are balking at the last minute for a number of reasons," he said.

If counties do not follow through with the revaluation, he hinted that the state might take over assessment work from the counties. He said he does not favor state takeover but it may occur with the passage of LB 170, which is pending in the Legislature.

On another subject, Exon urged county officials to join in fighting "an unreasonable federal proposal to institute national health insurance which will certainly escalate already high medical cost."

ELEVENTH DAY

Legislative Chamber, Lincoln, Nebraska
Thursday, February 2, 1978

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Whelan presiding.

PRAYER

The prayer was offered by the Chaplain.

> O Lord our God: By now it seems so very familiar to us all - the dash back to the Statehouse for the tasks of another week; the rap of the Speaker's gavel; the prayer of the Chaplain; the pile of unopened letters on our desks from those who see so clearly what we should be doing here; the guests in the gallery who are trying to see what we are doing here; the reporters who will tell the folks back home what they believe we have been doing here; and beyond all these, the things which we have convinced ourselves that we are in fact doing here; by now it seems so very familiar to us all - we've been down this road so many times before.
>
> But the more familiar the way, the more treacherous the detours. Keep us on our course, we pray.
>
> Save us from the sin of over-familiarity with public trust.
>
> May our accomplishment for Nebraska be so significant that even we, when we describe it, may not be guilty of bragging nor when we accept our checks, of sponging. Amen.

ATTORNEY GENERAL'S OPINIONS

Opinion No. 172
January 20, 1978

Dear Senator Schmit:

In your letter of January 19, 1978, you requested our opinion on LB 728, a bill which generally provides that no corporations shall engage in farming operations in this state except as specifically provided by law. We are assuming that you are requesting our opinion as to the constitutionality of this proposed legislation, as you mention that this bill is similar to ones previously reviewed by this office.

LB 728 would prohibit any corporation to engage in farming or ranching in this state, or to acquire any interest in Nebraska real estate used for farming or ranching except as specifically provided in the bill. The only corporations allowed to engage in farming or to own farm property under this legislation are denominated as "family farm or ranch corporations," which are limited to corporations where the majority of the voting stock is held by members of a family related one to another within the third degree of kindred, and where at least one of the stockholders is a person residing on, or actively engaged in the day-to-day management of a farm or ranch. The bill provides other exceptions allowing for corporate farming or corporate ownership of farm property which are not pertinent to this particular discussion.

Our office has previously discussed this type of legislation in light of certain Nebraska constitutional provisions. We issued an opinion on January 23, 1975, which dealt with legislation nearly identical to LB 728. See Report of the Attorney General, 1975-1976, No. 5 at p. 5, a copy of which is attached hereto. We must adhere to the constitutional concerns which we expressed in our previous opinion. We believe LB 728 grants special privileges to select corporations, and, consequently, would be found to contravene certain provisions of the Nebraska Constitution.

At Article XII, section 1, our Constitution provides, in pertinent part:

"The Legislature shall provide by general law for the organization, regulation, supervision, and general control of all corporation, ... No corporation shall be created by special law,. . . "

The Nebraska Constitution further provides, at Article III, section 18, that the Legislature should not pass local or special laws which grant ". . . to any corporation, association, or individual any special or exclusive privileges."

The legislation under consideration, LB 728, expressly distinguishes between farm corporations which are controlled by members of a family, or related individuals, and farm corporations which are controlled by unrelated stockholders. Taking this single example of the classifications made by this bill, we are unable to discern any legitimate legislative purpose in granting a special privilege to family members which cannot be enjoyed by unrelated individuals.

We certainly appreciate that agriculture is a vital Nebraska industry, and we are not oblivious to the underlying concerns implicit in this legislation. Nevertheless, we cannot ignore the clear constitutional provisions which prohibit the Legislature from granting a special privilege to one group at the expense of another group which is similarly situated.

For the reasons stated above, we believe that the Nebraska Supreme Court would find the classifications involved in this legislation unreasonable.

Sincerely yours,
PAUL L. DOUGLAS
Attorney General

Opinion No. 173
January 18, 1978

Dear Senator F. Lewis:

In your letter of January 10, 1978, you asked whether the State Board of Equalization and Assessment is following the statutes in the performance of its duties, and if not, what recourses are available to bring it into full compliance.

Ordinarily we would not be able to respond to such a question, since we can only give opinions to senators which pertain to their legislative duties, and enforcement of state statutes is not a legislative function. However, Legislative Resolution 156 was introduced on January 13, 1978, and adopted on January 17, 1978. This resolution creates a special Legislative Committee to study the present system of equalization, and, among other things, determine whether equalization laws are being complied with and whether officials are performing their duties under such laws. You are a member of this Committee. We will therefore attempt to answer your questions, as an aid to the investigative function of the Committee.

While your letter does not spell out exactly what function of the State Board you are inquiring about, we gather that what you are asking is whether the Board has complied with the law in its equalization function, which is imposed upon it by Article III, section 28 of the Constitution and by Chapter 77, article 5 of the Nebraska Statutes.

We can answer your question only in a strictly legal sense. In other words, we must look at the statutes to see what duties are imposed upon the Board, and determine whether they have followed procedures mandated therein. As to the actions the Board takes, in the exercise of its quasi-judicial function, those actions are dictated by the evidence adduced at the hearings held by the Board, and there is no way that we can evaluate that evidence and conclude that the Board did or did not act correctly.

On this basis, we cannot say that the Board has not complied with the law. Section 77-505, R.R.S. 1943, requires the Board to meet for the purpose of equalizing real and personal property as soon as the abstracts of assessment have been received from the county assessors. The minutes of the Board show that the Board met for that purpose on July 19, 1977. The minutes show that following a lengthy discussion, the Board voted 3 to 2 to accept the abstracts of assessment submitted by the County Assessors for 1977. There is no basis upon which we could say that that action was unlawful, or even erroneous.

Certainly some members of the Legislature, private citizens, or taxpayers may feel that even approximate equalization has not been achieved, and that the Board should have taken some other action. This, however, is a question of evidence which could only be resolved by a court in a proper action (in this case, a direct appeal from the State Board of Equalization and Assessment to the Supreme Court), and which we cannot resolve by concluding that the Board's action was or was not proper.

Section 77-507, R.R.S. 1943, provides that the Board shall direct the Tax Commissioner to hold such hearings as are necessary to enable him to advise and assist the Board in its equalization function. We are informed that no such hearings were held before the 1977 meeting. Again, however, we are not in a position to say that any such hearings were "necessary" so we cannot say that the Board acted unlawfully in failing to instruct the Tax Commissioner to hold them.

As you probably know, in 1969 the Board attempted to equalize assessments by increasing the valuations of a number of counties. Twenty-eight of the counties appealed. With only minor exceptions, the actions of the Board were reversed, and the valuations in the abstracts of assessment restored. The Board had attempted that year to use a sales assessment ratio to support its actions, but the court held that an insufficient record had been made to sustain the Board's orders. See, cases against the State Board of Equalization and Assessment in 185 Neb. pp. 741 to 775.

In Carpenter v. State Board of Equalization and Assessment, 178 Neb. 611, 134 N.W.2d 272 (1965), the Board called in all 93 counties for the hearing. A sales assessment ratio study had been prepared. After hearing all the counties, the Board accepted the abstracts of assessment submitted by the counties. Terry Carpenter, as a taxpayer, appealed. The Supreme Court affirmed the action of the Board, saying:

> ". . . The original determination as to actual value under the statutory standard is the function of a county board of equalization. The determination of each individual county as to actual value within its county is clothed with a presumption of validity and, in the absence of evidence to the countrary, may be accepted by the Board as conforming to the law. . . ."

The court further observed that the primary function of the Board was to equalize valuations among counties, even if that required a departure from a statutorily required standard of true value, and said that the court would not pass upon the probative force of the evidence before the Board, but reviewed the record only to see if the Board had complied with the statutes in exercising its powers. It was only where the action of the Board was illegal, contrary to law, arbitrary and capricious that the court had authority to review the finding and order of the Board. The court then analyzed the sales assessment ratio relied upon by the appellants, and held that in that case the ratios were nothing more than the application of a statistical method to a mass of raw, unchecked and uncertain information, that they did not reflect the truth, and that they could not be used as a basis for any calculation as to disproportionate valuations between counties.

At the hearing last July the Board had before it the abstracts of assessment and a sales assessment study. No oral testimony was adduced. In the state of the record made at that hearing, there is no way, in view of the Carpenter case, that the Supreme Court could have reversed the Board, had an appeal been taken from its action. Obviously, no legal action is now possible with respect to that action. Section 77-510, R.R.S. 1943, provides for appeal from any final decision of the Board by filing notice of appeal within ten days from the date of entry of the decision. No such appeal was taken, and the decision is not subject to collateral attack.

It is not for us to say whether or not the decision reached by the Board was the correct one. In order for it to have taken any affirmative action which could have been sustained in the court, it would, of course, have been necessary to have developed a very extensive record which would have required months of work, study, and investigation before the formal hearing of the Board. If affirmative action is to be taken on the 1978 valuations, obviously such a record must be developed before the next equalization meeting of the Board. What should have been done, or what should be done in the future, are policy decisions for the Board, and we express no opinion about them.

All we are saying in this opinion is that, so far as we can see, there has been no violation of the law by the Board, and, in answer to your question about what recourses are available to bring it into compliance, certainly nothing can be done about the action taken in July of last year.

As to the future, an interested county or taxpayer could, theoretically, appear before the Board and present evidence that the assessments of the various counties were not equalized. If the Board failed to take corrective action, an appeal could be taken. As a practical matter, to make a record dealing, as it must, with all or a large portion of all of the counties of the state, would be a monumental task beyond the capabilities and resources of any taxpayer or county, since it would have to be so conclusive as to cause the Supreme Court to hold a refusal by the Board to accept it to be arbitrary and capricious.

If the Board refuses to order the Tax Commissioner to hold hearings as contemplated by section 77-507, or to take other preliminary actions contemplated by sections 77-507.01, 77-508, 77-508.01 and 77-509, the only recourse the Legislature has, if it feels equalization ;has not and will not be achieved, is to make such actions by the Tax Commissioner mandatory, or to make provision for some

other method of accumulating the necessary evidence. As the Supreme Court said in Carpenter v. State Board of Equalization and Assessment, the county abstracts of assessment are presumed to be correct, and the court will not reverse a decision of the Board accepting such abstracts in the absence of a very convincing evidentiary record.

Opinion No. 174
January 20, 1978

Dear Senator DeCamp:

You have submitted to us a copy of LB 192, and have asked our opinion as to its constitutionality. You have not pinpointed any particular areas or provisions which you want us to examine, but ask for a general opinion as to the entire bill. Since this bill, while not very lengthy, is quite complex, we cannot, under the circumstances, focus very clearly on the subjects which may be troubling you.

The general purpose of the bill is to provide for a separate income tax to finance public education. We believe it is constitutionally permissible to have such a tax for such purpose. In Nebraska Mid-State Reclamation District v. Hall County, 152 Neb. 410, 41 N.W.2d 397 (1950), the court said:

> "The court has affirmed that the power of taxation for public purposes is an attribute of sovereignty, having its source in the necessities of organized society, and the limits of its exercise depend, in the absence of express constitutional limitations, upon the exigencies of the public. . . ."

We are aware of no constitutional provision prohibiting a special income tax to finance public education, and in the absence of such provision we conclude that the Legislature could, in its discretion, provide for such a tax.

LB 192 bases the tax therein provided for on adjusted gross income, as defined in the Internal Revenue Code of 1954, as amended. We

believe this is authorized by Article VIII, Section 1B of the Constitution, which provides that the Legislature may adopt an income tax law based upon the laws of the United States. There is nothing to indicate that this authorization is limited to the general state income tax.

Section 3 of the bill uses "adjusted gross income," as defined by section 62 of the Internal Revenue Code of 1954, as amended, as the starting point for the computation of the tax. It then provides for exemptions for the taxpayer and his spouse (but none for dependents), with additional exemptions for blind or disabled persons. The section then provides that to "this figure" shall be added the amount of certain deductions taken. Although it is not entirely clear, we take "this figure" to mean adjusted gross income less allowable exemptions. The deductions itemized, which are added to "this figure" include charitable contributions and gifts. As we read the bill, together with section 62 of the Internal Revenue Code, this appears to be clearly unconstitutional.

The problem is that "adjusted gross income" as defined by section 62 of the Internal Revenue Code is computed prior to the taking of regular deductions, including charitable contributions and gifts. Therefore, a taxpayer who itemizes his deductions for federal income tax purposes, and who made charitable contributions, not only does not have his tax liability under this income tax decreased, but has it increased. In other words, by adding the charitable contribution to adjusted gross income, from which it had not been previously deducted, the taxpayer would be paying a tax on a contribution, rather than on income. Obviously this is not what the introducer of the bill intended, and it is clearly unreasonable and arbitrary classification.

The other deductions mentioned in section 3 which are to be added back in have, we believe, already been deducted in the federal return for determination of adjusted gross income, so requiring them to be added back does not present the constitutional problem that charitable contributions do.

Section 3(4) provides that adjusted gross income for non-residents shall be limited to income derived from sources within the State of Nebraska. We assume, therefore, that deductions to be added back in under section 3(1) should not, for a non-resident, include deductions taken in connection with income derived outside the state. We find nothing in the bill, however, which clearly expresses this idea.

Section 5 establishes the Corporate and Nonresident School District Income Tax Fund, into which goes all of the tax collected from

nonresident individuals, corporations, trusts, estates, and any resident individuals who fail to designate the school district in which they reside. If the taxpayer designates the school district he lives in, his tax is collected by the Revenue Department and paid to the school district. See section 9. Section 8(5) provides that the rate for a resident taxpayer who fails to designate the school district he resides in shall be the highest rate computed for any school district under the act.

While it would seldom be to the advantage of a taxpayer to deliberately fail to designate his school district, we question the propriety of permitting a taxpayer, by any means, to control where his tax money shall go, and divert it from the school district which should receive it. Furthermore, there might be situations where it was to the taxpayer's advantage to fail to designate his school district, if he happens to reside in more than one district, and the combined tax of both districts exceeded the highest rate for any single district. In any event, it would operate to divert tax revenues from a school district into a separate fund, to the disadvantage of the school district and the taxpayers therein. We think it is improper.

Section 13 of the bill requires the treasurer or the county clerk to report to the Department of Revenue the names and addresses of all persons residing in the county who are or may be subject to the provisions of the act. This seems to be unconstitutionally vague and uncertain, because it fails to specify who has the ultimate responsibility. Each may fail to comply, saying the other should do it. One or the other, or both, should be required to comply.

Further, the bill is unclear as to how the list shall be compiled. Neither the treasurer nor the clerk has any comprehensive list of residents of the county. The names of persons filing personal property tax returns might be furnished, and perhaps those paying real estate taxes. The two officials involved might have some other lists, also, but we believe that the bill should specify what sources are to be used, so as not to leave an impression that the treasurer and clerk are to make an annual census of the county.

Section 18 of the bill provides that the act shall become operative on January 1, 1978. This, we suppose, is a way of saying that it shall be retroactive to that date. It obviously cannot be in effect before it passes. The bill contains no emergency clause, so, as it presently reads, cannot become effective until three months after the adjournment of the Legislature. However, section 13 requires the treasurer or county clerk to report the names and addresses of potential taxpayers by March 30, 1978, long before the bill will be effective.

Section 14 requires the first payment of tax be made on October 15, 1978. As we understand sections 3 and 4 of the bill, the tax is to be calculated on the basis of income received during a calendar year, or perhaps a fiscal year, although we find no mention of fiscal year in the act. If the tax is to be calculated on 1977 income, we find no provision so informing us. If it is calculated on 1978 income, how can a return be prepared and filed in October 1978? There is no indication that the required October 15 filing is to be for an estimated tax. We are unable to tell what is intended and required.

Section 13(2) provides that all persons or legal entities shall file a return, including those who do not file an income tax return under other provisions of law. Since the tax is calculated on the basis of federal law, and adjusted gross income is the starting point for completion of the tax, it will be difficult, at least, for persons who do not file federal income tax returns to prepare a return under the bill. At the very least, the Revenue Department will have to furnish all of the preliminary schedules, comparable to schedules B, C, D, E, etc. of the federal return, in order to enable such a person to determine his adjusted gross income.

Furthermore, "all persons" would include those with no income at all, and even children. Children with incomes are required to file income tax returns, and presumably, under the literal language of the bill, those without incomes would also be required to do so.

We have made only a somewhat cursory examination of the bill. The method of determining tax rates, the distributiion of the Corporate and Nonresident School District Income Tax Fund, and other provisions of the bill are complex, and will require detailed study by budgetary and accounting experts. We have not attempted to fully analyze these fields to determine whether there are problems of uncertainty or inconsistency therein.

There are, in any event, numerous areas of uncertainty and inconsistency in the bill, and some provisions which would be difficult to sustain against constitutional attack.

Very truly yours,
PAUL L. DOUGLAS

Opinion No. 175
January 20, 1978

Re: Effect of LB 325 on drug counselors for state agencies.

Dear Senator DeCamp:

You have asked whether drug counselors employed by a state agency to give psychological treatment come within the exceptions from licensing as a psychologist in subsections (1), (2) or (8) of the proposed amendments to section 71-3802 in LB 325. You have indicated that you are considering legislation, if needed, to clarify whether such counselors need to be licensed psychologists.

In LB 325 section 71-3802 sets out the general rule that no person may represent himself to be a psychologist or engage in the practice of psychology unless he is licensed to do so. It then sets out the exceptions, including:

> "(1) Qualified members of other professions such as, but not limited to, physicians, social workers, or pastoral counselors, . . .
>
> "(2) The activities, services, and use of an official title incorporating the words psychologist, psychological, or psychology on the part of a person in the employ of an accredited institution of higher education within the confines of such an institution and provided such persons are performing those duties for which they are employed by such an institution;
>
> ". . . .
>
> "(8) Until July 1, 1978, the activities, services, and use of an official title on the part of a person in the employ of a . . . state . . . agency . . . when such activities and services are a part of the duties of such person's office or position with such agency or institution."

The dividing line between those who must be licensed and those who are exempt from licensing should be clearly drawn by the Legislature. See Seignious v. Rice, 273 N.Y. 44, 6 N.E.2d 91, 92, 93 (1936). In the proposed subsection (1) it is not clear whether drug counselors are exempted because it is not clear what is a profession. Drug counselors are not among the examples listed. Physicians and pastoral counselors are, but they are members of the traditional professions. Drug counselors and psychologists are not. Neither are social workers which are listed. See Ocean Accident & Guarantee

Corp., Inc. v. Herberg's, 100 F.2d 171 (8th Cir. 1938), cert. denied, 306 U.S. 645, 83 L.Ed. 1044, 59 S.Ct. 584 (1939).

Physicians are also designated a profession by statute. See section 71-101, R.R.S. 1943. Drug counselors, pastoral counselors and social workers are not. Neither are psychologists although there is a reference in proposed subsection (1) above to "other professions," implying that psychologists are a professional group. Also the Board of Examiners of Psychologists is to formulate a "code of professional conduct for the practice of psychology." See section 71-3807, R.R.S. 1943.

Physicians are required by law to be licensed. See section 71-101, et seq., R.R.S. 1943. So are psychologists. Section 71-3802, R.R.S. 1943. Pastoral counselors and social workers may practice their occupations without a license from the state.

From such varied facts we can infer that a broader definition of profession is intended that the traditional professions or those designated as professions by statute or those for which a license is required. A broader definiton(sic) was given by the court in Marx v. Hartford Accident & Indemnity Co., 183 Neb. 12, 157 N.W.2d 870 (1968):

> ". . . A 'professional' act or service is one arising out of a vocation, calling, occupation, or employment involving specialized knowledge, labor, or skill, and the labor or skill involved is predominantly mental or intellectual, rather than physical or manual. [Citations omitted.] In determining whether a particular act is of a professional nature or a 'professional service' we must look not to the title or character of the party performing the act, but to the act itself. [Citations omitted.]" Supra at 14.

If the above definition of a profession were applied to drug counselors for a state agency, they might come within the exception from licensing as a psychologist under proposed subsection (1). However, it is not clear from the statute that such a definition should be applied. A drug counselor would come within the exception in proposed subsection (2) if he or she was employed to do drug counseling by a state institution of higher learning which was accredited.

A drug counselor for a state agency would come within the exception in proposed subsection (8). However, that exception applies only until July 1, 1978. Also proposed subsection (8) is essentially the text to be deleted from the present law by proposed subsection (2). We have previously questioned the constitutionality of that exception.

See the copies of our letters to the Board of Examiners of Psychologists which are attached.

Sincerely yours,

Opinion No. 176
January 23, 1978

Dear Senator Maresh:

In your letter of December 20, 1977, you have referred to a recent change in the method of taxing mobile homes, and have inquired as to the constitutionality of such change. Your inquiry is based upon the fact that you now have a bill dealing with this matter which is being held in committee. We believe there has been no such change in the method of taxing mobile homes, but only a change in the method used by the Tax Commissioner in determining actual value of such homes. So far as we can determine, it presents no constitutional problems.

The change was not the result of any recent statutory amendment. Cabin trailers and mobile homes have been included in the definition of motor vehicles, and taxed as such, since the amendment of section 77-1238, R.R.S. 1943, by LB 1100 in 1972. Section 77-1239, R.R.S. 1943, which requires the Tax Commission to prepare a schedule of values of motor vehicles, has not been amended since 1972. The change in the method of valuing mobile homes came about as a result of new procedures adopted by the Tax Commissioner.

Before he instituted this change the Tax Commissioner had received a number of complaints that mobile homes were grossly undervalued, and that their owners were not paying their fair share of taxes. On investigation of these complaints, he concluded that they were well founded.

As a consequence, at the last hearing he held to fix the value of motor vehicles, he adopted a new method of determining actual values of mobile homes. He determined that there were different classes of mobile homes, in terms of quality. He therefore established four

classes, denominated A, B, C, and D, with Class A being below average quality, Class B average quality, Class C above average quality, and Class D top grade quality. Each model by each manufacturer was assigned to a certain class, pursuant to evidence adduced, and was valued at a certain amount per square foot. We assume that the evidence adduced at the hearing supported the Tax Commissioner's findings, since no appeal has been taken from his action, as authorized by section 77-1239.01, R.R.S. 1943.

The schedules, showing the classification of the various models, and the value per square foot of such models for year of manufacture are then sent to the county assessors, who get the value of the particular model home by determining the model (and hence, the class), the year of manufacture, and the square footage, and then multiplying the square footage by the appropriate figure furnished by the Tax Commissioner.

Section 77-1239 requires motor vehicles to be valued in accordance with section 77-201, which in turn requires all taxable property to be valued at its actual value. No particular procedure for determining actual value is prescribed in section 77-1239, and any procedure calculated to arrive at actual value would be acceptable, in the absence of constitutional or statutory provisions to the contrary. We are aware of none, and we can see no reason why the method used by the Tax Commissioner should not arrive at correct values. If it did not, injured taxpayers had a remedy in the form of appeal, which was not utilized. Article VIII, Section 1 requires taxes to be levied by valuation uniformly and proportionately, but there is no requirement of uniformity in the method of arriving at actual value.

You also inquire whether a distinction could constitutionally be made between the method of taxing permanent family dwellings and that of taxing mobile homes. The answer is that there could constitutionally be such a difference. Mobile homes are classified as motor vehicles. Article VIII, Section 1 specifically authorizes the Legislature to provide a different method of taxing motor vehicles. While we do not think the practice of the Tax Commissioner in fixing value constitutes a difference in treatment of mobile homes and real estate, since actual value is to be arrived at for both, the Legislature could, if it chose, provide for different treatment in that respect.

Your last question is whether a distinction can constitutionally be made in the method of taxing mobile homes affixed to a foundation and the method of taxing those not so affixed. If you are speaking about a mobile home on a foundation on real extate owned by the owner of the mobile home, such a home might become a part of the

real estate, and lose its character as a mobile home. The discussion in the previous paragraph would then answer your question.

If, on the other hand, the mobile home is placed on a foundation on leased ground, with no intention that it become permanently affixed to the real estate, it would retain its character as personal property, and would remain a mobile home, and a motor vehicle, as contemplated by section 77-1238. In that situation it is doubtful that a distinction could properly be made between the mobile home so affixed and one not so affixed.

In State ex rel. Meyer v. Story, 173 Neb. 741, 114 N.W. 2d 769 (1962), the court struck down a statute which attempted to treat automobile dealers differently from other owners of motor vehicles in the taxation of their motor vehicles. The court said that the amendment of Article VIII, Section 1 authorizing a different method of taxing motor vehicles did not authorize a different method of taxing motor vehicle dealers. Although the Constitution has now been amended to authorize different treatment in the taxation of motor vehicles owned by motor vehicle dealers, the reasoning of State ex rel. Meyer v. Story still applies. So long as a mobile home has not become attached to real estate, we would assume that it remains a mobile home. It would probably be unreasonable classification, in violation of Article III, Section 18 of the Constitution, and a violation of the uniformity requirements of Article VIII, Section 1, to classify mobile homes on the basis of whether they were, or were not, sitting on a foundation, so long as they were not so affixed as to become a part of the real estate.

Opinion No. 177
January 24, 1978

Dear Senator DeCamp:

You have requested this office to review LB 654 for possible constitutional defects. Essentially, that bill directs the Director of

Personnel to create two new classes of bank examiners within the Department of Banking, and set specified pay grades for all classes of bank examiners.

It appears to this office that one constitutional question is presented by the proposed legislation, that being a question involving the separation of powers among the three branches of government, Article II, section 1. That section provides as follows:

> "The powers of the government of this state are divided into three distinct departments, the Legislative, Executive and Judicial, and no person or collection of persons being one of these departments, shall exercise any power properly belonging to either of the others, except as hereinafter expressly directed or permitted."

Perhaps the best discussion of the problem involved is found in State ex rel. Meyer v. State Board of Equalization and Assessment, 185 Neb. 490, 176 N.W.2d 920 (1970). In that case, the question was whether, when the Legislature was meeting only biennially, an annual limitation on spending for personnel services could be utilized by the Legislature. The court stated as follows beginning on page 499:

> "The Legislature has plenary or absolute power over appropriations. It may make them upon such conditions and with such restrictions as it pleases within constitutional limits. There is one thing, however, which it cannot do, and this is inherent in Article II, section 1, Constitution of Nebraska. It cannot through the power of appropriation exercise or invade the constitutional rights and powers of the executive branch of the government. It cannot administer the appropriation once it has been made. When the appropriation is made, its work is complete and the executive authority takes over to administer the appropriation to accomplish its purpose, subject to the limitations imposed. . . ."

The court then continued by stating that it is "impossible to fix exact limits in the area of constitutional separation of powers," and further stating that the problem can only be approached on a case-by-case basis. The court then held that in that particular case, the restriction was reasonable and did not violate the constitutional separation of powers.

The situation presented by LB 654 involves a more substantial restriction upon the executive department of government in an area more often considered as being within the inherent powers of the executive branch — that of classifying and paying their employees within the appropriation made by the Legislature. It is difficult to

predict, however, where a court, if presented with this problem, would draw the line as to when such a restriction becomes an invasion of the constitutional rights and powers of the executive branch of government.

Some direction may be found in Board of Regents v. Exon, 199 Neb. 146, ___N.W.2d___ (1977), which was recently decided by the Supreme Court. Although dealing with the University of Nebraska as opposed to the executive branch of government, and with Article VII, section 10 of the Constitution as opposed to Article II, section 1, many of the same considerations are applicable. In that case, the court stated as follows on page 153:

> "We believe the finding by the trial court that the Legislature may fix and determine the manner in which raises are to be given to employees of the Board of Regents was erroneous. The determination of salary schedules and the compensation to be paid to the employees of the Board of Regents is an integral part of the general government of the University. . . ."

Since a court only approaches a problem such as the one presented herein on a case-by-case basis, it is very difficult for this office to make a determination as to constitutionality. However, a strong argument could be made that LB 654 is unconstitutional as violative of the separation of powers required by Article II, section 1 of the Constitution. Therefore, we cannot say that LB 654 is definitely constitutional nor can we say that it is definitely unconstitutional. We feel, however, that you should be made aware of the problem involved and should further be advised that it could be held unconstitutional if passed in its present form.

Yours very truly,

Opinion No. 178
January 30, 1978

Dear Mr. O'Donnell:

In your letter of January 27, 1978, you ask the following question:

> "May a member of the Legislature be reimbursed for his/her actual expenses incurred as a member of the Legislative Council while engaged on official business of the committee, the purpose of which was approved in writing prior to the incurring of such actual expenses, and whether or not such actual expenses are incurred during a regular or special session of the Legislature, or during interim period between sessions?"

In this regard we have previously been of the opinion that the members of the Legislature may not be compensated for personal expenses incurred during regular or special sessions of the Legislature. (Opinion no. 60, dated April 13, 1959.) Additionally, we have recently been of the opinion that during a two week recess of a regular session of the Legislature, senators may not be compensated for their personal expenses incurred traveling to and from their residences for the purpose of attending legislative committee meetings held during this recess. (Opinion no. 164, dated January 12, 1978.)

However, we have been of the opinion that senators who are members of the Legislative Council may be compensated for expenses incurred while attending meetings of that council held between sessions of the Legislature. (Opinion no. 60, dated April 8, 1977.)

It does not appear that we have previously been called upon to answer the direct question raised here—that is whether or not a legislator, during a session of the Legislature, may be reimbursed for his actual expenses while traveling at the express direction of the Legislative Council and on purely legislative business.

In our opinion of October 11, 1937, wherein we held that members of the Legislature might constitutionally be compensated for actual expenses incurred while attending sessions of the Legislative Council held between sessions of the Legislature, we stated after reviewing the Applicable Case Law:

> ". . . The general rule followed is that legislative or official expenses may be paid but that personal expenses may not. . . ."

It would appear that the expenses referred to in your question which have been incurred are most certainly official expenses and are legislative expenses rather than personal, in that the senator is incurring these expenses at the express direction of the Legislative Council and on behalf of the Legislature as a whole.

Section 7 of Article III of the Constitution of the State of Nebraska states in pertinent part that:

". . . Members of the Legislature shall receive no pay nor perquisites other than [salary] and expenses [of traveling to and from the Legislature],. . ."

This prohibition does not concern "expenses" of the Legislature itself. Of course, the Legislature being an inanimate legal entity is not capable itself of traveling on official business and, therefore, this function must be accomplished by one or more of its members.

We are of the opinion that where a senator is traveling on official legislative business, such travel having been expressly authorized by the Legislature or the Legislative Council and such travel being at the direction of the Legislature, the expenses incurred, while incurred by an individual, are in actuality expenses of the Legislature and reimbursement of the expenses to the particular senator does not violate Section 7 of Article III of the Constitution of the State of Nebraska. Copies of the previous Attorney General's Opinions referred to above are enclosed for your information.

MR. MARVEL PRESIDING

ATTORNEY GENERAL'S OPINION

Opinion No. 179
January 31, 1978

Dear Senator Labedz:

You have asked our opinion as to the constitutional validity of LB 640, which alters somewhat the present homestead exemption given by section 77-202.13, R.R.S. 1943, to low-income homeowners over 65 years of age, and which gives a credit against income tax to renters of similar ages and incomes. We believe that the general concept and purpose of the bill can be sustained, but as presently drafted it contains some inconsistencies and vague provisions that

might be hard to defend against constitutional attack, as well as some failures to set standards for the exercise of administrative duties.

The bill provides for two separate and distinct types of relief. One is a homestead exemption for the designated class of homeowners. As we have said, this is simply a modification of the exemption now provided by section 77-202.13, and is authorized by Article VIII, Section 2, of the Nebraska Constitution, which provides in part:

> ". . . The Legislature may by general law provide that a portion of the value of any residence actually occupied as a homestead by any classification of owners as determined by the Legislature shall be exempt from taxation."

This provision gives the Legislature broad discretion in providing for homestead exemptions, limited only by the requirement that the classifications made be rational and reasonably related to some legislative purpose. Surely no serious argument could be made that the class of homeowners created by the present law and by LB 640 is not a reasonable one to which to give tax relief.

The provisions relating to renters are of an entirely different nature from the exemption given to homeowners. Renters are not given an exemption, but a credit against income tax. This credit is not given by authority of Article VIII, Section 2, which does not apply to it. The question with respect to the credit given to renters is whether the classification of over-65, low income renters is a reasonable one to which to give such a credit. We conclude that it is.

The rationale for giving a tax credit to renters is that a lessor increases the amount of rent he charges to cover the amount of real estate taxes he must pay, and that therefore a renter is indirectly paying real estate taxes. Since relief is given to a homeowner of the required age and income, it is not unreasonable to give some relief to a renter of the same age and income. We therefore believe this provision could be successfully defended against a classification attack.

Although LB 640 provides for two distinctly different types of tax relief, the bill does not keep them separate as much as might be desirable, and as a consequence some of the provisions are confusing and unclear. The bill would, we believe, be much more comprehensible if the provisions dealing with each class were set out in separate divisions of the act. As it is, it is sometimes difficult to tell which type of "claimant" is involved in a particular section of the act.

Section 4 provides that when two or more persons in a household meet the definition of "claimant," they may determine among themselves who the claimant shall be. If they are unable to agree,

"the matter shall be referred to the Tax Commissioner whose decision shall be final." Several constitutional defects appear in this provision. First, there is no specific provision for notice, hearing, or judicial review, and the statement that the Tax Commissioner's decision shall be final seems to specifically exclude judicial review. There may be a denial of due process, in violation of the Fourteenth Amendment to the Federal Constitution and Article I, Section 3, of the Nebraska Constitution.

There is also a complete absence of standards by which the Tax Commissioner is to make this final decision. In Gillette Dairy, Inc. v. Nebraska Dairy Products Board, 192 Neb. 89, 219 N.W.2d 214 (1974), the court said that in a legislative grant of power to an administrative body, such power must be administered in accordance with standards described in the legislative act. Section 4 of the bill would authorize the Tax Commissioner to adjudicate the rights of contesting parties on any basis he chose. We believe this is prohibited by Gillette Dairy, Inc. and by a long line of other cases to the same effect.

In section 6 the Tax Commissioner is authorized to determine that the gross rent paid by a renter-claimant is excessive, in which case he shall determine a reasonable rent. We find no provision for notice and hearing, and if none is afforded, this may violate due process.

Section 8 defines a homestead. As to owned dwellings, it defines a homestead as one occupied as a residency on the levy date. This seems to conflict with section 39 (section 77-202.12, R.R.S. 1943), which defines a homestead as a residence occupied by a natural person who is the owner thereof as of January 1.

Section 11 defines income as the adjusted gross income under the Internal Revenue Code plus other enumerated items. We have not checked all of the enumerated items, but some of them, notably alimony and the taxable portions of pensions and annuities, are already included in the adjusted gross income under the Internal Revenue Code, so they appear to be counted twice. Furthermore, there seems to be some uncertainty as to the inclusion of gifts. Nowhere do we find any language which includes gifts as income, but the last sentence of section 11 says that income does not include gifts of $300 or less from nongovernmental sources, which seems to imply that gifts of over $300 are to be included as income. If so, we do not know whether the excess over $300 is to be included, or the entire gift, if it is over $300. Also we do not know whether the $300 limitation is for all gifts, or whether several people could give the claimant $300 each without having the gifts counted towards income. These matters should be clarified.

Section 12 says that for the purpose of that section, property taxes are levied when the tax roll is delivered to the county treasurer for collection. While a statute may define a term, for purposes of that statute, differently than it is used in other statutes, the term "levy date" is a very commonly used one, and it seems unnecessarily confusing to make it a different date from that contemplated by section 77-1601, which describes a levy of taxes as being an action taken by the county board of equalization.

Section 17 provides that if a claimant dies after having filed a timely claim, the amount of the claim shall be transferred to another member of the household as determined by the Tax Commissioner. We assume "claimant" here means a renter claimant, as the amount of the claim of an owner claimant simply results in a reduction or cancellation of the real estate taxes, which would not be subject to transfer. Also, if the Tax Commissioner is to determine to whom a renter claimant's claim is to be transferred, standards must be laid down to guide him in his determination.

Section 21 provides that the real estate taxes of a claimant under the act shall not become delinquent until the date set for the second half of real estate taxes as provided in section 77-202. It should be made clear that "claimant" as used in section 21 refers to an owner claimant, and not to a renter claimant, and that the taxes referred to are taxes on the homestead, and not all real estate owned by the claimant.

Section 30 provides that "every claimant" shall furnish proof of certain facts to the Tax Commissioner. Some of these matters are applicable to renter claimants, and some to owner claimants, and some are in doubt. For example, the claimant must make a statement that the property taxes accrued and used for purposes of the act have been or will be paid by the claimant and that there are no delinquent taxes on the homestead. This should not apply to a renter claimant, since he would not pay the taxes, and he should not be penalized by failure of his landlord to pay the real estate taxes, which can, if not paid, be collected by foreclosure. The section should differentiate between the two types of claimant, and state what is expected of each.

Section 37 provides that a person can claim relief under the act by filing an amended claim within two years of the date the property taxes were paid. This seems to be in conflict with section 27, which requires the claim to be filed with the Department of Revenue on or before April 15. Furthermore, section 37 seems to give the relief to owner claimants, but not to renter claimants, since the payment of the taxes seems to be an irrelevant event, so far as the renter claimant's claim is concerned.

Section 39 amends section 77-202.12, R.R.S. 1943, by, among other things, amending the definition of "owner." It strikes the language including one of the joint tenants or tenants in common or surviving spouse as an owner, for the purposes of the act. We are not sure exactly what the intention is in this respect, but if it is intended to make the homestead exemption unavailable to joint tenants or tenants in common who occupy the premises as their homestead, we suspect this constitutes unreasonable classification.

In summary, the general purpose of the bill could, we believe, be successfully defended, but the bill contains numerous areas of uncertainty or outright constitutional violations, the more obvious ones of which we have pointed out.

Very truly yours,
PAUL L. DOUGLAS
Attorney General

1. Insert a new section to read:

"Sec. 4. That section 81-8,285, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

81-8,285. (1) The commission may, upon its own motion, and shall, upon the written complaint of any aggrieved person, investigate the action of any licensed real estate appraiser and shall have the power to suspend or revoke any license issued under the provisions of sections 81-8,276 to 81-8,287 at any time when, after notice and hearing as provided for in this section, it finds that such licensee has made any false statement in his application for a real estate appraiser's license, knowingly violated any of the provisions of sections 81-8,276 to 81-8,287 or regulations of the commission, or has done any act which constitutes dishonest, fraudulent, or improper conduct.

(2) (a) If a public hearing is requested by an applicant in accordance with section 81-8,283, or if information brought to the attention of the commission is such that, in the commission's discretion, it would be proper to suspend or revoke the license of a licensee, the commission shall forthwith set the matter for hearing and, at least twenty days prior to the hearing date, it shall notify in writing the applicant or licensee of the reasons for the denial or of the charges made and shall afford such applicant or licensee an opportunity to be heard in person or through counsel in reference thereto. Such written notice shall be served by delivery of same personally to the applicant or license holder or by mailing the same by registered mail to the last-known business address of such applicant or license holder. The hearing on such charges shall be at such time and place as the commission shall prescribe; Provided, that in cases involving revocation of the license of a nonresident of this state licensed under sections 81-8,276 to 81-8,287 by the real estate commission of the state or district in which such nonresident licensee is a resident, or when there is a conviction by a court of competent jurisdiction of any licensee under sections 81-8,276 to 81-8,287 which constitutes a violation of sections 81-8,276 to 81-8,287 or similar act of another state and the order of such commission or court of

competent jurisdiction is certified to the commission, any nonresident real estate license may be revoked by the commission without hearing. Any member of the commission or its director shall have power to administer oaths and to subpoena and bring before the commission any person in this state or take testimony of any such person by deposition upon allowance of fees and mileage as in civil cases in district court. Any party to any hearing before the commission shall have the right to the attendance of witnesses in his behalf at such hearing upon making request therefor to the commission and designating the person or persons to be subpoenaed.

(b) Any subpoena so issued shall be served by the county sheriff or his deputies. Nonresidents may be served by registered mail. If any witness so subpoenaed shall refuse or neglect to attend, or attending, refuse to testify, such official issuing the subpoena shall report the fact to the appropriate court and such court shall proceed against such witness in all respects as if such neglect or refusal had been by a witness subpoenaed to appear in such court in a case pending before it.

(c) After such hearing, the commission shall state in writing, officially signed by the chairman and attested to by the director, its findings and determination and its order in the matter. If the commission shall determine that the license holder has been guilty of any violation of the provisions of sections 81-8,276 to 81-8,287, his license shall be revoked or suspended forthwith, or the commission may enter an order censoring the license holder. The execution of a penalty of suspension may be stayed by the commission and the licensee may be placed on probation for any portion of the suspension period, after satisfactory completion of which the license shall be fully reinstated.

Within ten days after an order of the commission has become final, the applicant for a license or a license holder may obtain judicial review thereof by serving upon the director a written notice of appeal and a demand in writing for certified transcript of all the papers on file in his office affecting or relating to such order, together with a transcript of the evidence and the payment of the fee therefor, and he shall, within thirty days from the entry of such order, file a petition for review in the district court for the county where the cause of action or some part thereof arose, together with a bond to the State of Nebraska in the sum of two hundred

dollars, with sufficient surety to be approved by the clerk of the district court to which such appeal is taken and conditioned that the applicant for a license or license holder shall pay all costs taxed against him which may accrue to the commission by reason of taking such appeal. In lieu of such bond, a cash deposit of two hundred dollars may be made with the clerk for the same purpose. The petition for review need not be verified but shall state the grounds upon which such review is sought. The commission shall be deemed to be a party to any such review proceedings. The petition for review shall be served upon the director by leaving with him a copy of the petition and the commission shall file its answer within ten days from the date of service of the petition for review.

In any judicial proceeding under sections 81-8,276 to 81-8,287, the court shall consider the matter de novo upon the record. The court may on its own motion order additional evidence to be taken before it. In addition, any party to such review may offer additional evidence before the court if such party shall have served written notice of such offer on the other parties at least ten days prior to the hearing. Such notice shall set out the nature of the evidence which he so desires to offer and the names of the witnesses whom he intends to call. In such event the other parties may without advance notice offer evidence in rebuttal. Such proceedings shall be heard in a summary manner.

(d) Whenever the commission revokes the license of any person, and no appeal to the proper court has been filed within the time specified for such appeals, the commission shall mail a written notice of such revocation to all real estate appraisers licensed under sections 81-8,276 to 81-8,287.

(e) When the license of a nonresident is so suspended or revoked, the commission shall also send written notice, stating the cause for such revocation or suspension, to the real estate commission or licensing authority in the state or district of which such nonresident licensee is a resident.

(3) Grounds for suspension or revocation shall be:

(a) Proof that the licensee is doing business in violation of sections 81-8,276 to 81-8,287;

(b) Proof that the license has been obtained by fraud or misrepresentation;

(c) Proof that the licensee is falsely

impersonating a practitioner or is practicing under an assumed, fictitious or corporate name;

(d) Proof that the licensee has been found guilty of a felony;

(e) Proof that the licensee is guilty of perjury, fraud, deceit, or of gross negligence, incompetency or misconduct in the practice of real property appraising;

(f) Proof that the licensee permitted his signature to be affixed to any appraisal report if such report was not prepared by him or under his personal supervision by his regularly employed subordinates;

(g) Proof that the licensee accepted an engagement to appraise a property where his employment or fee is contingent upon his reporting a predetermined or specified value, or is otherwise contingent upon a finding to be reported;

(h) In cases when monetary damages are involved, the licensee has made his compensation contingent upon the amount of or as a percentage of the damages which may be agreed upon or finally decreed; or

(i) For other causes that the commission may deem proper.''.

Pursuant to adjournment, the Legislature met at 9:01 a.m., President Whelan presiding.

PRAYER

The prayer was offered by the Chaplain.

> O God of us all, may the members of this legislative body keep ever before them the high responsibility which is theirs.
>
> They have an unprecedented challenge; may they make appropriate responses and continually to develop into statemen. May their debates ever be upon issues, rather than upon human personalities. Give this body the vision to have courage for greatness. May they respond to their challenges, living neither in their vacuum of futility or the gold fish bowl of exhibitionism. Guide them to live as responsible, elected officials, with courage, integrity, vision, cool minds and compassionate hearts. In our Lord's name. Amen.

ATTORNEY GENERAL'S OPINION

Opinion No. 180
February 1, 1978

Re: LB 653

Dear Senator Duis:

This is in reply to your inquiry concerning LB 653 which is intended to revise portions of the Nebraska statutes relating to the bonding of state officials and employees.

You first inquire if subsection (1) of section 8 applies to the bond referred to in subsection (5) of section 8. In our opinion, it does. Section 8 is an amendment of section 11-201, R.R.S. 1943. As section 11-201, as amended, is set forth in the bill, it begins: "It shall be the duty of the Director of Insurance:" It then lists five numbered subsections, each of which begins with a directory such as "to prescribe, to pass, to arrange" etc. It is our opinion that each of said subsections must be construed as a separate duty of the Director of Insurance as prescribed at the beginning of the section which was quoted above.

You next inquire whether or not permitting the Director of Insurance to set the amount of the blanket bond up to a limit of one million dollars, provided in subsection (5) of section 8, constitutes an unconstitutional delegation of legislative power.

As you know, the Legislature may constitutionally delegate power or authority to other bodies to carry out certain functions, provided the Legislature provides a sufficiently definite standard or criteria to guide the body in the exercise of the power. It is frequently extremely difficult to determine whether or not the Legislature has set forth

sufficient standards to guide the body which is to exercise the power so that one may predict whether or not the Supreme Court of Nebraska will determine that it is a constitutional delegation.

In City of Lincoln v. Nebraska Public Power Dist., 191 Neb. 556, the court had to consider whether or not the following was sufficient standard to guide the Power Review Board in making a determination:

> ". . . 'Board shall consider whether or not the proposed agreement or amendment can be reasonably expected to provide a reliable wholesale power supply at a reasonable cost for the area.' . . ."

In that case the appellant argued that the term "reasonable cost" could not supply an understandable fact standard. There was no similar attack made on the term "a reliable" wholesale power supply.

The court placed considerable weight upon the fact that the statute in that case further provided that the board may make "such investigation as it determines is necessary." The court construed this to mean that the Legislature contemplated that the board would not approve an agreement in the absence of some evidence either gathered as a result of its own investigation or produced at a public hearing, which evidence would enable it to find affirmatively that the criteria above quoted are met. The court also considered the fact that an appeal to the Supreme Court provided in such statute indicated that the Legislature did not intend to delegate to the court the authority to make a determination without sufficient evidence to consider.

The court then considered the question whether "reasonable cost" was sufficiently definite. It stated that in the context it was used it was not as vague or indefinite as to amount to a complete absence of a standard. In this regard it emphasized that there are well-established general principles as to the manner in which charges for electrical energy and utility rates were determined.

The court pointed out that in State ex rel. Wright v. Lancaster County Rural P.P. Dist., 130 Neb. 677, it had approved a delegation of administrative authority determining "feasibility" of the formation of public power districts and that in the present context the words "reasonable costs" acquire certainty from the "technical knowledge or sense and experience of men."

In LB 653, section 8 now under consideration, the Director of Insurance is required to "prescribe the amount, terms, and conditions of any bond where the amount or terms are not fixed by any specific statute." (See subsection (1).)

Subsection (5) of the same statute requires all state employees who are not specifically bonded under section 11-119 to be bonded under a blanket bond in an amount not to exceed one million dollars.

In making the determination as to the amount, terms, and conditions, subsection (1) specifically states:

> ". . . The director, in prescribing the terms, shall consider the type of risks to be bonded, relationship of the bond premium to risks involved, past and projected trends for bond premiums, and any other factors the director may, in his discretion, deem necessary in order to accomplish the provisions of this act."

Subsection (2) requires the director to pass upon the sufficiency of and approve the surety on the bonds of all officers and employees of the state, where approval is not otherwise prescribed.

Subsection (4) requires the director to arrange for the writing of the blanket corporate surety bond required in subsection (5) above mentioned.

It appears to us that the standards to guide the director are more definite and comprehensive in this bill than in the two Supreme Court cases mentioned above. In addition, using the reasoning of the Supreme Court in the first case above mentioned, it can reasonably be assumed that the Legislature intended the director to make an investigation into the type of risks to be bonded, etc., not to mention that he and his department would possess the technical knowledge and experience to make said standards more definite.

While it does not alter our opinion, we point out that the amendment to subsection (1) of section 8 orders the director "in prescribing terms" to consider the risks, etc. The preceding wording is "prescribe the amount, terms, and conditions." Since the amount of the bond is one of the most important "terms" of the bond, we do not think it could be successfully argued that the only standards in the paragraph do not relate to the amount of the bond but only to the terms. However, this change in wording in the new addition to subsection (1) could cause trouble.

In light of previous Supreme Court opinions on the delegation of legislative authority, it is our opinion that the setting of the amount of the blanket bond by the Director of Insurance can be successfully defended, if challenged.

Respectfully submitted,
PAUL L. DOUGLAS

ATTORNEY GENERAL'S OPINION

Opinion No. 183
February 6, 1978

Dear Senator Barnett:

You have asked our opinion as to the constitutional validity of LB 109, as amended. You have indicated that your primary concern is whether it violates Article III, Section 14, of the Nebraska Constitution, which provides in part that no bill shall contain more than one subject, and the same shall be clearly expressed in the title. We will therefore limit our discussion to that issue.

By amendment proposed by Senator Mills, the original sections of LB 109 were stricken, and new sections substituted. These sections create the Nebraska Outdoor Recreation Development Cash Fund, and provide that certain portions of the cigarette tax imposed by section 77-2602 shall be placed into the fund. Section 5 of the bill, as amended, provides for the use of this fund by the Game and Parks Commission, and section 6 provides for the investment of excess money in the fund by the State Investment Officer.

Another amendment has been proposed which retains the Mills' amendment substantially unchanged, but adds twenty-nine new sections. These new sections provide for a tax on tobacco products other than cigarettes, the tax to be fifteen percent of the wholesale sales price of such tobbaco(sic) products, to be paid by the wholesale dealer and passed on to the ultimate consumer. The proceeds of this tax are to be placed by the State Treasurer into the Nebraska Capital Construction Fund. Naturally, these twenty-nine new sections contain numerous provisions about reports, methods of collection, hearings, etc., which are not necessary to repeat herein.

We believe the bill, with both amendments, could be successfully defended against an attack based on its containing more than one subject. Our court has been very liberal in its construction of Article III, Section 14, so far as the question of multiple subjects is concerned. We believe the court has never invalidated a bill on the basis of its having contained more than one subject. It has, from time to time, found that a bill was broader than its title, but when the attack was based upon alleged multiple subjects, the court has found that it contained only one.

In Anderson v. Tiemann, 182 Neb. 393, 155 N.W.2d 322 (1967), the bill contained three sections, one dealing with a sales and use tax, one an income and franchise tax and one containing general provisions. The court said:

> "The various taxes provided for in L.B. 377, designated as the Nebraska Revenue Act of 1967, are closely related and germane to each other and are all to be administered by the Tax Commissioner. The various taxes are clearly stated in both the title as well as the body of the act and together comprise and constitute components of the tax structure of this state. This court holds that the provisions of L.B. 377 contain but one general subject, taxation, and that it does not violate the Constitution of Nebraska.

While the sections proposed by Senator Mills do not create the cigarette tax, they deal with use of a part of the proceeds of that tax. The use of the proceeds of a tax is a matter dealing with taxation. Sections 7 to 35 of the bill, as amended, provide for a tax on tobacco products not covered by the cigarette tax. It appears to us that the court would say that the entire bill deals with the taxation of tobacco products, including cigarettes, and the disposition and use of the proceeds of such taxes, and that it therefore contains only one subject.

The original title to the bill has not yet been amended. It still describes the bill as an act: "to adopt the Nebraska Outdoor Recreation Development Act; to amend sections 37-216.07 and 37-216.08, Revised Statutes Supplement, 1976; to provide an operative date; and to repeal the original sections."

Obviously, this title is not adequate for the bill as amended. The two sections of the existing statutes to be amended, according to the title, are not mentioned in the amended version of the bill, and section 77-2602, which is now to be amended, is not mentioned in the title. The recitation that the bill is for the purpose of adopting the Nebraska Outdoor Recreation Development Act would not be broad enough to cover the imposition of the new tax on tobacco products, which tax has nothing to do with that act, as defined in section 1.

However, the normal procedure when amendments of this sort are adopted is to amend the title of the bill to conform to the amendments of the body of the bill just before the final reading bill is printed. We assume that a title covering the subject of the bill will have been prepared before the bill is adopted. We are confident that such a valid title can be drafted to cover this bill.

Very truly yours,
PAUL L. DOUGLAS
Attorney General

EIGHTY-FIFTH LEGISLATURE
SECOND SESSION

FIFTEENTH DAY

Legislative Chamber, Lincoln, Nebraska
Wednesday, February 8, 1978

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Whelan presiding.

PRAYER

The prayer was offered by the Chaplain.

Much of yesterday's snow is still left on the ground, Lord. It boggles the mind to realize that, of the billions of snow flakes that fell, no two are exactly alike. What a tremendous testimony to Your creative powers!

Yet, fantastic though it is, it's even more mind-boggling to realize that you made each human being different from every other. Every human person is a unique product of your marvelous creation.

Certainly, Lord, this has some very important implications for each of us present here this morning. If we let them, these differences can spell out division and discord, conflict and confusion.

But we're also capable of using these differences in another way, Lord. We can let Your love knit us together in a beautiful patchwork quilt that reaches out to cover and transform the many problems that confront our State today.

It is only when we allow your gracious love and mercy to unite us, that we become capable of achieving anything worthwhile.

Like the individual snow flakes, only when they permit themselves to be pressed together do they form the jolly, fun-filled snowman. Apart, they remain just a solitary snow flake.

So, too, with us, Lord, Press us together today so that we may become a united community, capable of resolving, with your help, the myriad problems that lay before us.

We ask this with the full confidence that nothing sought in your name will ever go unanswered. Amen.

ROLL CALL

The roll was called and all members were present except Messrs. Duis and Murphy who were excused; and Messrs. Burrows, Newell, and Mrs. Marsh who were excused until they arrive.

ATTORNEY GENERAL'S OPINION

Opinion No. 186
February 7, 1978

Dear Senator Kremer:

You have asked our opinion as to the constitutional validity of a proposed amendment to LB 587. Your question is directed particularly to the question of whether the amendment would constitute special legislation. We conclude that if such amendment is adopted, it may be difficult to defend the bill against a constitutional attack based on such grounds. In this discussion we are confining ourselves to the amendment, and are not considering at all LB 587, as originally introduced.

The amendment would strike section 1 of the original bill, and substitute therefor two new sections. Section 1 of the amendment provides:

> "Any natural resources district which contains within its boundaries an unincorporated community located in a flood plain and located in a county in which there is a city of the metropolitan class may construct flood control protection for such community."

The remaining sections of the act, as amended, deal with financing the cost of such projects by special assessments or bond issues. It will not be necessary to discuss those sections herein.

The question of special legislation has been frequently considered by our court, and certain general principles have evolved. It is proper to classify cities by size, and pass legislation applicable only to cities of specified classes, so long as the size of the city has some reasonable relevance to the legislation. It would also be proper to classify counties according to whether they did, or did not, have cities of certain classes within their boundaries, if, again, the size of the city had relevance to the legislation. An example of a permissible type of legislation of this sort is found in Omaha Parking Authority v. City of Omaha, 163 Neb. 97, 77 N.W.2d 862 (1956), where legislation dealing only with Omaha, as the only city of the metropolitan class, and the County of Douglas, as the only county containing such a city, was sustained as not being special legislation, because the size of the city was germane to the problem to be solved by the legislation, and the class was not frozen, as other cities could grow to the required size. In

City of Scottsbluff v. Tieman, 185 Neb. 256, 175 N.W.2d 74 (1970), the court struck down a complicated classification consisting of first class cities having populations of more than 13,000 located in counties having populations of more than 33,000. After holding that the classification was bad because it was closed, since it was to be based on the 1960 census, so that no new cities could come into the class, the court held that, in any event, the classification was unreasonable, saying:

> ". . .A legislative classification, in order to be valid, must be based upon some reason of public policy, some substantial difference of situation or circumstances, that would naturally suggest the justice or expediency of diverse legislation with respect to the objects to be classified. Classifications for the purpose of legislation must be real and not illusive; they cannot be based on distinctions without a substantial difference. . . ."

Perhaps there is some reason why a natural resources district located in a county containing a city of the metropolitan class should have the powers which would be given to it by the amendment, whereas other natural resoucessic districts should not. This reason, however, is not apparent to us. On the surface, at least, it appears that this is a special situation involving some particular unincorporated community in Douglas County which wants the benefits of this amendment. It is precisely that sort of situation which Article III, Section 18 of the Nebraska Constitution prohibits. We therefore have grave doubts as to the constitutional validity of the amendment.

Very truly yours,
PAUL L. DOUGLAS
Attorney General

STANDING COMMITTEE REPORT
Miscellaneous Subjects

LEGISLATIVE BILL 604. Placed on General File as amended.
Standing Committee amendments to LB 604:

1. Strike the original sections and insert the following:

"Section 1. That section 18-416, Reissue Revised

Statutes of Nebraska, 1943, be amended to read as follows:

18-416. No public or private utility company furnishing water, natural gas, or electricity at retail in this state shall discontinue service to any domestic subscriber for nonpayment of any due account unless the utility company shall first give written notice as provided in section 2 of this act by certified mail or notice delivered in person to any subscriber whose service is proposed to be terminated. Service shall not be discontinued for at least seven days ~~prior to termination~~ following notification. Service by certified mail is complete upon mailing. Holidays and weekends shall be excluded from the seven days. As to any subscriber who has previously been identified as a welfare recipient to the company by the county welfare department, such notice shall be by certified mail and notice of such proposed termination shall be given to the county welfare department.

Sec. 2. The notice required by section 18-416 shall contain the following information:

(1) The reason for the proposed disconnection;

(2) A statement of intention to disconnect; unless the customer either pays the bill or reaches an agreement with the utility regarding payment of the bill;

(3) The date upon which service will be disconnected, if the customer does not take appropriate action;

(4) The name, address, and telephone number of the utility's officer or employee to whom the ratepayer may address any inquiry or complaint;

(5) The ratepayer's right, prior to the disconnection date, to appeal the matter to the utility review board, and the board's address and telephone number;

(6) A statement which specifies the locations where forms used to file an appeal may be obtained, and a telephone number to call to request the mailing of a form to a subscriber. The forms shall specify the types of disputes which the board may hear in accordance with section 4 of this act.

(7) A statement that the utility may not disconnect service pending the decision by the board on appeal;

(8) A statement to the effect that disconnection may be postponed or prevented upon presentation of a duly licensed physician's certificate which shall certify that

a ratepayer or resident within the ratepayer's household would suffer an immediate and serious health hazard by the disconnection of the utility's service to that household. Such certificate shall be filed with the utility within five days of receiving notice under this section and will prevent the disconnection of the utility's service for a period of thirty days from such filing. Only one postponement of disconnection shall be allowed under this subdivision for each incidence of nonpayment of any due account;

(9) The cost that will be borne by the ratepayer for restoration of service;

(10) A statement that the customer may arrange with the utility for an installment payment plan;

(11) A statement to the effect that those customers who are welfare recipients may qualify for assistance in payment of their utility bill and that they should contact their caseworker in that regard; and

(12) Any additional information not inconsistent with the above and which has received prior approval from the board.

Sec. 3. A utility review board shall be established by each public or private utility company furnishing water, natural gas, or electricity at retail in this state. Each billing office of a utility company may establish a separate utility review board. The board shall consist of at least three people, two of whom shall be domestic subscribers of the particular company.

Sec. 4. The board shall hear and decide all matters appealed by domestic subscribers pursuant to the provisions of this act. Such subjects to be appealed shall include matters of factual dispute relating to billings, billing practice, and whether proper notice of disconnection was given, but shall not include matters relating to the setting of rates or other operating policies of the utility. The board shall design and approve the form of all notices or forms required by this act, to insure that the information contained thereon is set forth in as simple forthright, and comprehensible a manner as may be practicable.

Sec. 5. A domestic subscriber may appeal the proposed discontinuance of water, natural gas, or electricity by filing with the utility a written statement on a form provided by the board setting forth the reasons for the appeal and the relief requested. If notice of appeal has been filed by the subscriber a hearing shall be held before the utility review board

established under section 3 of this act before the service can be discontinued.

Sec. 6. The appealing ratepayer shall have the right to:

(1) Be represented by legal counsel or other representative or spokesperson;

(2) Examine and copy, not less than three business days prior to the hearing on his or her appeal, the utility's file and records pertaining to all matters directly relevant to the dispute or utilized in any way by the utility in reaching the decision to propose termination or to take other action which is the subject of the appeal;

(3) Present witnesses and offer evidence;

(4) Confront and cross-examine such other witnesses as may appear and testify at the hearing;

(5) Recieve a written record of the proceedings at the ratepayer's expense, except that if the board finds in favor of the ratepayer the utility shall reimburse the ratepayer for such expense; and

(6) Receive a written decision from the board on the appeal, based solely on the evidence presented to the board, stating the reasons for the decision and including a statement of the board's specific findings of fact on which it relied.

Sec. 7. Upon notice to the board of any appeal by a domestic subscriber, the board shall:

(1) Notify the ratepayer, in writing, of the time, place, and date scheduled for hearing of the matter by the board. Such notice shall also advise the ratepayer of his or her rights under section 6 of this act;

(2) Hold a hearing within fourteen days of the receipt of a notice of appeal by the board. Such hearings shall be informal and not governed by the Nebraska Rules of Evidence. If the board determines at the hearing that the ratepayer did not receive proper notice or was denied any other right afforded under this act, the board shall recess and continue the hearing at such time as the ratepayer has been afforded his or her rights; and

(3) Render its decision in writing, accompanied by the reasons for such decision as soon as practicable after the hearing. A copy of such decision shall be sent to each party to the appeal, by certified mail, return receipt requested.

Sec. 8. (1) The board shall have power to

affirm, reverse, or modify any utility's decision which involves a utility bill, deposit, charge, or any dispute which results in a threatened termination or refusal of utility service to a residential ratepayer. The board shall allow termination of utility service only as a measure of last resort after the utility shall have exhausted all other remedies less drastic than termination.

(2) The decision of the board shall become final three business days after it has been rendered and mailed.

Sec. 9. The provisions of this act shall not apply to any disconnections or interruptions of services made necessary by the utility for reasons of repair or maintenance or to protect the health or safety of the ratepayer or of the general public.

Sec. 10. If any section in this act or any part of any section shall be declared invalid or unconstitutional, such declaration shall not affect the validity or constitutionality of the remaining portions thereof.

Sec. 11. That original section 18-416, Reissue Revised Statutes of Nebraska, 1943, is repealed.''.

ATTORNEY GENERAL'S OPINION

Opinion No. 187
February 7, 1978

Dear Senator Murphy:

You have requested the opinion of this office regarding the constitutionality of the concept contained in LB 843. Our research into that question has not disclosed a constitutional defect in the proposed legislation. As you have indicated in your letter, however, LB 843 would have a very broad impact upon law enforcement activities of other state law enforcement agencies within this state. Although section 5 of LB 843 provides an exception for ''hot pursuit'' situations there are numerous other law enforcement activities otherwise thought to be legitimate which would be prohibited by this legislation. For example, suppose a crime was committed in Kansas and the suspect fled to Nebraska where he was arrested. LB 843 would prohibit a Kansas law enforcement officer from entering Nebraska for the purpose of questioning the suspect. LB 843 appears also to prohibit the questioning in Nebraska of any witness to a crime

by law enforcement officers from another state. Further, the broad language of LB 843 would appear to prohibit cooperative law enforcement activities in Nebraska between Nebraska officers and officers from another state. The extent of such impact upon law enforcement cannot at this point be known. Certainly there are other legitimate law enforcement activities which may also be prohibited by LB 843. The possibilities are too numerous to list and it is impossible to conceive of all situations upon which this bill may have an impact.

You have asked if there is any way in which the bill could be narrowed so as not to have an adverse impact upon legitimate law enforcement activities while preserving the intent of the bill. It is our understanding that the purpose of this legislation was to prohibit the surveillance of the liquor stores in Nebraska by Iowa law enforcement officers. As we have stated the bill unquestionably is far broader than that intent. LB 843 could be narrowed in numerous ways. The problem which must be dealt with however, in narrowing the scope of the legislation is in doing so without using improper classifications which constitute a constitutional violation. In other words, classifications may only be created by the Legislature where real differences exist.

You have indicated that the intent of this bill is to outlaw "near entrapment processes" from being used in this state by our neighboring states. Entrapment is legally defined as an act by law enforcement officers which induces a person to commit a crime which he had not otherwise contemplated for the purpose of instituting a criminal prosecution against him. Black's Law Dictionary, Fourth Edition 1968. We are not sure how far it is intended that this bill go; however we would be willing to discuss possible changes with you at your convenience.

Yours very truly,
PAUL L. DOUGLAS

29-2903. (1) In any case where the court determines that the defendant is a sexual sociopath, such defendant shall be temporarily committed to one of the state regional centers for treatment of the mentally ill for not to exceed ninety days for observation and diagnosis. The person in charge of such center shall take all necessary precautions to adequately protect the public and patients at such center. The court shall attach to the temporary commitment a written report of the court-appointed psychiatrists and such other information as the court determines to be relevant in the proceeding. No person shall be committed for an indeterminate period of time as a sexual sociopath unless a temporary commitment for observation has been made and a report is filed with the court setting forth the diagnosis and treatment recommended as provided by this section.

The person in charge of the state regional center for the treatment of the mentally ill to which such defendant is temporarily committed shall within ninety days of the temporary order of commitment, cause the

person to be examined by at least one psychiatrist who has not previously examined the defendant and who shall forward to the court his opinion as to whether the defendant is a sexual sociopath, and whether the defendant will benefit by care and treatment in a state regional center for treatment of the mentally ill, in which event the report shall include diagnosis and recommendation concerning the defendant's future care, supervision and treatment.

(2) If the person in charge of the center reports to the court that in his oinion the defendant is not a sexual sociopath, the defendant may be returned to the court for sentencing for the sexual offense of which he has been convicted, or if the court is still of the opinion that the defendant is a sexual sociopath the court may proceed with further proceedings for determination of that issue in the manner provided in this section.

If the person in charge of such center reports to the court that in his opinion the defendant is a sexual sociopath, or if the court determines that the defendant is a sexual sociopath, the court shall cause a further hearing to be held on the issues of whether the defendant is a sexual sociopath and whether the defendant can benefit by care and treatment. Such hearing shall be held before a jury unless waived by the defendant.

(3) If, after such further hearing, at least ten of the twelve jurors find that beyond a reasonable doubt the defendant is not a sexual sociopath, the court shall thereupon dismiss the proceedings under sections 29-2901 to 29-2910, and shall reconvene the criminal proceedings and proceed to sentence the defendant for the sexual offense of which he has been convicted.

If, after such further hearing, at least ten of the twelve jurors find that beyond a reasonable doubt the defendant is a sexual sociopath and the court determines on the basis of evidence submitted at such hearing that the defendant can benefit by treatment, the court shall commit the defendant for an indefinite period of time to a state regional center for the treatment of the mentally ill which shall make adequate provision at such center separate from the criminally insane to detain, house, care for and treat such persons while at such center consistent with protection of patients at such center and the general public. Provision shall be made for detention, housing, care, and treatment of sexual sociopaths under eighteen years of age separately from

those over that age. The person in charge of a state regional center for the treatment of the mentally ill may extend to any defendant confined therein pursuant to sections 29-2901 to 29-2910 such privileges affecting successful treatment as are consistent with protecting the public interest.

If, after such further hearing at least ten of the twelve jurors find that beyond a reasonable doubt the defendant is a sexual sociopath and the court finds from the evidence offered at such hearing that the defendant cannot be benefited by treatment, the court shall commit the defendant for an indefinite period in the Nebraska Penal and Correctional Complex which shall make adequate provisions to separate such defendant from the regular prison population, and to detain, house, and care for him while he is in the complex. Reexamination shall be made at least annually by qualified professional personnel to determine whether the defendant could currently benefit by care and treatment. Provision shall be made for the detention, housing, and care of sexual sociopaths under eighteen years of age separately from those over that age.

The person in charge of the Nebraska Penal and Correctional Complex may extend to any defendant confined therein pursuant to sections 29-2901 to 29-2910 such privileges as are consistent with protecting the public interest.

(4) After such commitment as a sexual sociopath either to the Nebraska Penal and Correctional Complex or to a state regional center for the treatment of the mentally ill, the defendant shall remain in the place to which he is committed until the courts have determined on appeal or review that he is not a sexual sociopath. The court shall retain jurisdiction over each case wherein the defendant was convicted of a sexual offense so long as the defendant is committed either to the Nebraska Penal and Correctional Complex or to a state regional center for the treatment of the mentally ill. If, upon application of the person in whose custody the defendant is committed to the district court that ordered the commitment, it appears to the court that the defendant will not benefit by further treatment in the regional center, the court may order the defendant transferred to the Nebraska Penal and Correctional Complex as provided in subsection (3) of section 29-2903.

(5) Any defendant committed as a sexual sociopath shall not be permitted to be at large on the premises of

a state regional center for the treatment of the mentally ill without being under continuous personal supervision by personnel of such center, which personnel shall be charged with the responsibility of protecting the defendant so committed and of preventing the defendant from leaving the premises. The person in charge of the institution shall be responsible for the activities of the supervisory personnel of the institution. In making such commitment, the court shall determine the legal status of the defendant found to be a sexual sociopath.

(6) When any person committed to one of the regional centers or to the Nebraska Penal and Correctional Complex escapes, the person in charge of such facility shall immediately notify the clerk of the district court of the county from which such person was committed, and the clerk shall forthwith issue the warrant of the court, directed to the sheriff of the county, for the arrest and detention of such person. Such warrant may be executed by the sheriff or any other peace officer. The powers of arrest provided in this section shall be in addition to powers otherwise provided. The person in charge of the facility to which the escaped defendant is committed shall also notify immediately the Nebraska State Patrol, the county attorney of the county from which the defendant was committed, and the sheriff of the county in which the escape occurred. Information about the escape shall be public information available to all communications media. Such escape notification shall also apply in cases where any person is committed to one of the regional treatment centers pursuant to section 83-328 or 83-328.03.

Sec. 4. That section 29-2906, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

29-2906. (1) Whenever a defendant has been adjudicated a sexual sociopath and committed for an indefinite period to either the Nebraska Penal and Correctional Complex or a state regional center for the treatment of the mentally ill, he may appeal such commitment directly to the Supreme Court. If the court determines that the finding that the defendant is a sexual sociopath (a) is not supported by the evidence, it shall return the defendant to the trial court for sentencing for the sexual offense of which he has been convicted, or (b) is supported by the evidence, the defendant shall be retained in custody under the indeterminate sentence.

(2) A motion for a hearing to determine whether the defendant is a sexual sociopath ~~may~~ shall be made by or on behalf of the defendant at one-year intervals after initial commitment. The motion shall be heard by the district court from which such individual was originally committed. Such a motion can also be made by the district court that ordered the commitment at any time. If the court determines that there is probable cause to believe that the defendant is no longer a sexual sociopath, a hearing shall be held in accordance with the provisions of subsections (2) to (7) of section 29-2902.

(3) No person who has been committed as a sexual sociopath may be released in any event until he has been given a complete psychiatric evaluation by the staff of the state regional center for the treatment of the mentally ill and one licensed psychiatrist in the general practice in the state and such evaluation shows that such person is a fit subject for discharge. Before such evaluation is conducted, the county attorney of the county from which the defendant was committed shall be notified of the time and place thereof by certified mail by the person in charge of the state institution in which the defendant is confined. The county attorney or his deputy shall be present at such evaluation and upon its subsequent presentment to the district court. Such evaluation shall be presented to the court from which the defendant was committed. Such court after considering such evaluation may at its discretion sentence the defendant on the original sex offense or release the defendant on probation or may schedule a hearing in the manner provided in section 29-2902 for a jury determination of the issue of whether the defendant is still a sexual sociopath.".

UNANIMOUS CONSENT - Print in Journal

Mr. Simon asked unanimous consent to print the following in the Journal. No objections. So ordered.

Statement of Clarification. On Feb. 8 the Legislature adopted my amendment to LB 574 which is found on page 565 of the Journal. The

amendment states that in Section 3, subsection 2 strike the language after the word shall and insert the following words "pay the costs for the photo and the forms furnished with the balance credited to the General Fund." RESOLUTION

LEGISLATIVE RESOLUTION 161.

Introduced by Simon, 31st District; Burrows, 30th District; Fowler, 27th District; Merz, 1st District; Newell, 13th District; Cullan, 49th District; Rumery, 42nd District; Keyes, 3rd District.

WHEREAS, the State of Nebraska has long recognized that supplying low-cost electricity to all Nebraskans is a fundamental and essential need; and

WHEREAS, rates for electric energy have increased dramatically in recent years, creating severe hardships for many elderly Nebraskans on low and fixed incomes sometimes necessitating that they choose between electricity and other essential items; and

WHEREAS, it is in the public interest to conserve electricity and the natural resources used to generate electricity; and

WHEREAS, many existing electric rate schedules include quantity discount rates and declining block rates which result in large-scale consumers paying less than others for the service they receive; and

WHEREAS, the energy crisis has created numerous complex issues relative to rates which need to be addressed; and

WHEREAS, the Legislature has a major part of the responsibility to ultimately see that each citizen is provided with the most efficient and economical energy rates.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of eight members be appointed by the Executive Board of the Legislative Council to conduct an interim study of electrical rates and rate-setting procedures within the state. Such committee shall consist of two members from each of the following standing committees: Revenue; Public Works; Appropriations; and Miscellaneous Subjects.

2. That the focus of such study be directed toward providing a subsistence amount of electricity at low cost to all Nebraskans.

3. That the committee study alternatives to the declining block rate structures currently used by Nebraska's electric utilities.

4. That the committee make a report of its findings together with its recommendations for possible legislative action to the next regular session of the Legislature.

Referred to the Executive Board.

ANNOUNCEMENT

Mr. Marvel announced an Executive Board meeting at 3:30 p.m. in Room 2102 today.

Budget Address
State of the State Message
Legislative Chambers
Lincoln, Nebraska
February 10, 1978
Governor J. James Exon

Mr. President, Mr. Speaker and Members of the Legislature, Guests, Ladies and Gentlemen:

Thank you for interrupting your deliberations to allow me the opportunity for the eighth and last time to present my budget recommendations and State of the State Address to you and the people of Nebraska.

Seven years ago, I stood here for the first time. My philosophy of government has not changed, nor has my approach to our most important annual duty...the development of a workable and balanced state budget that meets the real needs of our state and its proud and progessive people.

Seven years ago on February 4, 1971, at this same place, I said "in the preparation of a budget we must define our goals. We want to provide leadership to reality, leadership with vision, leadership that asks, 'How much do we get from our tax dollars rather than how many tax dollars can we get.' "

Once again I am back with a budget that, if generally accepted by your body with its restraints and constraints, will allow us to...yes, you hear it once again and I hope the message, if not the identical phrase, will follow from the next administration...to hold the line on existing state tax rates, which were reduced effective the first of January.

Before I proceed with my specific comments on the budget recommendations, let me address the State of the State.

I am pleased to report that it is good despite serious difficulties with agriculture prices. This condition portends slower economic growth

than we could otherwise expect. We are hopeful that we are on the road to at least partially correcting low farm prices brought about by years of less than realistic planning at the national level. However, this will not be a good income year for our farmers and ranchers which is another reason for extreme prudence in spending and the launching of any susbtantial new programs that fuel expenditures.

The positive side of the agricultural ledger is the change to limited returns generally on investment in cattle operations, some stability in swine prices, and the generally abundant harvest, except in the drought area in southeast Nebraska and scattered snow damage elsewhere. With ever-increasing expansion of irrigation we produced a record crop of corn last year, raising nearly 80% of that crop on irrigated acres. This effectively makes most of the annual Nebraska corn crop drought proof. Wise use of our water resources, which I will address later, is of course important to insure this asset.

Another good news side of the picture is that, despite nagging unemployment in some specific areas, we have reduced unemployment from 5.0% in 1976 to 4.1% last year. We currently have a record 686,700 people employed in Nebraska, 16,000 more than a year earlier. While it is little solace to those without work, we are healthily below the national average of over 6.0% unemployment. 584,200 are now employed in the direct non-agricultural sector of Nebraska's economy, another new record. We experienced still another good year in industrial expansion with the opening of 54 new plants, the expansion of 83 existing ones, and the creation as a result thereof of an estimated 3,776 new jobs.

Nebraska employers, because of our administration's efforts to insure only proper claims payment through the creation of a special statewide audit team and with the improvement in the economy, will recognize a cost savings for unemployment insurance rate reductions of $5 million for 1977 and an additional $4.6 million in 1978.

Population-wise we continue to expand at a steady but healthy pace with a percentage increase of 4.5% over the 1970 census, outstripping the rate of growth of all our neighbors except those impacted primarily by energy related expansion.

By careful and prudent management of the state's financial resources, we are in a sound position. The General Fund balance as of January 31 was $44 million, some $39 million in excess of the same figure a year ago of only $5 million.

The overall State of the State therefore is good. Let's now look to the future and how we can work together to best insure continued success.

The Department of Revenue projections of receipts for the first seven months of this fiscal year are right on target. Despite protestations by some to the size of the state tax rate reductions effective January 1, 1978, that decision made last November was obviously correct in the interest of taxpayers.

We anticipate, as predicted in November, no cash flow difficulties or state tax rate increases provided you accept my recommendations and restrictions presented today.

The Legislature, of course, can exercise, in your exclusive appropriation authority, realignment of these recommendations. My suggestions allow you minimal additional expenditures without state tax rate increases which I shall do all in my authority to prevent. My call is for a minimum of a 5% reserve and if this can be increased by legislative action, while not crippling vital functions, it would be commendable.

Nebraska's sound fiscal health then is assured if you will agree to follow the blueprint for restrained spending and action outlined today.

In my recommendations you will find $2.4 million to begin phased assumption of county medicaid costs which, if coupled with my proposed LB 899 to place an effective lid on spending, would begin to assure some property tax relief. It is my request that you reach your decision first on LB 899. If you fail to pass this measure, than I suggest that pouring further millions of state-collected dollars to subdivisions without seriously addressing the probability of real estate tax relief is meaningless and fiscally irresponsible. Over half of all state collected funds are already flowing back directly to aid subdivisions or individuals. Since state aid was instituted ten years ago, with the advent of the sales and income taxes, supposedly for real property tax relief, we have seen no reductions, in property taxes, only substantial increases.

LB 899 is further needed to assist local officials in holding down real estate taxes especially in view of the current reappraisals which will have the effect, in some jurisdictions, of escaping present ceilings designed to control spending.

It is appropriate to point out here a fact that still seemingly is not universally known or understood. The State of Nebraska does not assess, collect or receive a single penny from real or personal property tax collections. Those taxes are all local and are expended there in addition to the multimillions that the state sends back at ever-increasing amounts each year.

I note the legislative interest in the difficult task of property tax equalization. Your input and constructive suggestions are welcome. As you ponder this new initiative, perhaps you should first shoulder the responsibility assumed by your colleagues in all other legislative bodies in all other states and exercise the duties of setting the sales and income tax rates each year after you discharge your sole authority for authorizing expenditures, which directly establish those rates.

The five member state board of equalization must deal again with equalization of real property values. Unfortunately, the board does not have all the tools, facts or figures to accomplish that difficult job fairly and equitably. In the first place, when the Legislature mandated county-wide reappraisals it built in inequities and guaranteed unfairness in overlapping taxing districts when the law directed reappraisals take place in different counties in different years. Board action in attempting to equalize and change county assessments have been overturned three times in the courts. There is also the current problem in at least one county where it is apparent that the same value and class of property in one part of the county is assessed differently from that in another part of the county. In this instance the board is powerless under the law to act. Attempting equalization between counties under such circumstances presents the problem of compounding unfairness. We continue to work cooperatively with county boards and assessors who have the first responsibility to resolve this difficult assignment.

Last year the Legislature attempted to be helpful by the passage of LB 131 which mandated all counties meet re-evaluation requirements simultaneously by January 1, 1978, with the proviso that those failing compliance lose 10% of personal property tax reimbursement as a penalty. There now seems some confusion as to the interpretation of that act, whether the wording requires actual reappraisal by January 1 or only the finalization of plans for same, and whether or not the measure allowed sufficient time for the counties to comply. There is speculation that some may only be awaiting the imposition of the penalty provisions of LB 131 to initiate expensive court action again.

In its deliberations in this area, the Legislature might wish to consider amending and clarifying its intent on LB 131, in an effort to be helpful to the Legislature in this regard and because of your interest, the Tax Commissioner has requested an Attorney General's Opinion on LB 131 which will be made available to your committee studying equalization.

Turning to the budget itself, you will find that I have reduced agency requests by $62 million from the total requests of $577 million to hold

the line on the just reduced tax rates. Yet inflation takes its toll on state government as well.

Despite the $62 million reductions I have made from agency and department requests for operations and state aid next year, total General Fund expenditures including $15 million from the Revenue Sharing Trust Fund are recommended at $515 million. To that recommended expenditure, we must add $26.3 million for a 5% reserve, $6 million for new capital expenditure items, $6 million for building maintenance as provided for by LB 309 of the previous Legislative Session, and $13.7 million for second and third year funding of capital items previously approved by your body. This brings total General Fund obligations and reserves to $552 million.

Again, it should be recognized that of each dollar collected by the state 52.3 cents goes directly back to aid subdivisions and individuals, 24.4 cents to higher eduction, and only 23.3 cents for all other customary functions of state government.

The overall largest dollar increase in expenditures is the amount needed to compensate our dedicated state employees to meet their personal budget and inflation problems. My recommendation is to provide funds for an average increase of 6 1/2% in state salaries with a return to a realistic and structured pay plan that was adopted under my suggestions in 1973, but abandoned since. Good personnel management as practiced in private industry cannot survive with a piecemeal, change-every-year approach. Additional funds are provided to cover increased costs for the standard hospitalization insurance, and I propose rewarding especially deserving employees with merit increases through vacancy savings.

In order to further assist that portion of our people, the senior citizens, who are hardest hit by inflationary pressures because of their general reliance on fixed incomes, I am providing an additional appropriation of $5 million for homestead exemptions. This will raise total state homestead contributions to local government to $26 million yearly and will include credits to those qualified also for mobile home tax relief. In my opinion this program can best be accomplished through enactment of LB 407 now before the Legislature. Should you not enact my proposition to begin providing real estate tax relief by phased addumption of county medicaid costs, I recommend increasing homestead exemptions in LB 407 further by that $2.4 million figure, to a total of $7.4 million.

My budget includes maintaining $55 million for state aid to local education which is the proper appropriation until the voters act on the referendum of LB 33 in November. I strongly urge that your only

action on school aid this session should be to correct inequities with regard to distribution which is grossly unfair to the majority of school districts as presently structured.

Higher education is important to Nebraska and to Nebraskans. We have always funded it well by any realistic regional or national yardsticks. In fact, we have been leaders in most key barometers of General Fund appropriations. The university and state college systems have been treated similarly with combined increased funding over the current year of 7.1%. While far short of their requests, I have provided increased General Fund support for the university from $101 million to $107.7 million, and for the state colleges from $16.0 million to $17.6 million. You will note the lump sum state General Fund appropriations recommendations in my budget document for the university are in keeping with the recent Nebraska Supreme Court decision.

The state's contribution to the community technical college structure will increase to $15.1 million from the current fiscal year level of $14.1 million.

The increasing probation population is causing severe strains on our court and probations systems. In an effort to alleviate this situation, I am recommending that pilot, pre-trial diversionary programs be established in selected counties for the purpose of providing the judiciary with alternative placement programs.

Maintaining this administration's opposition to employ unneeded and expensive bonded debt financing for roads, we still had another good year in 1977 including $105.4 million in construction and improvements. This was accomplished again with a pay as you go approach. In addition to a record road improvement and construction program since 1971, by November of 1978 we will have reduced the inherited $19 million bonded debt for roads per schedule by $8 million to $11 million. In addition, we will have also unfortunately expended $7.4 million during the same period for interest.

To solve the strength problem that exists in our national guard, I am introducing a bill that will provide the Nebraska National Guard with $500,000 and the tools they need to maintain adequate strength. I am recommending that the Adjutant General be given the authority to make incentive payments to individuals only when the strength of a particular unit is low enough to adversely affect its state or federal mission.

The continued manageable development and protection of our natural resources and environment is and must continue to be a prime priority for Nebraska.

Our fish, wild life, and state parks systems are further provided for by an increase of 15% or $680 thousand over last year in General Funds and total additional $1.2 million in the all funds budget of the Game and Parks Commission.

We have worked closely with and coordinated activities of the Department of Water Resources and the Natural Resources Commission. Again I am providing another $1 million contribution to the Natural Resources Development Fund, second year funding of our expanded steam gauging program and to maximize the benefits from the data gathered therefrom, you will find created a new position of State Hydrologist.

In the area of water development and conservation, I am proposing two relatively new programs. First, under the Natural Resources Commission and in cooperation with the Department of Water Resources is provided $100 thousand in 1978-79 for a comprehensive state water plan which will require continued funding hereafter. This approach will give Nebraska the needed information and guidelines for continued sound water management and is preferable to hasty decisions without proper information which we may later regret in groundwater ownership and trans-basin diversion.

Second, I am suggesting your approval of $185 thousand in new funds for a technology transfer program under the Department of Water Resources. By marshalling the combined talents of several individuals and agencies, Nebraska has become a leader in this vital area by bringing the capacity of our statehouse computer to the aid and assistance of family farmers in a very wide field. Through agnet, among its many workable and useful concepts, is the major technology breakthrough in irrigation scheduling. Estimates based on actual operations by the Institute of Agriculture and Natural Resources shows that full development of this process could save yearly over $47 million in energy, $38 million in nitrogen, and up to one and a half billion gallons of water. I am sure that the Legislature will join with us in the sponsorship of this program.

I was hopeful that my detailed recommendations on penal matters could be included in today's discussion. That subject necessarily must be delayed and will be sent to you later in a special message. My decisions are dependent upon the outcome of our continued negotiations with Omaha city officials on the medium-minimum facilities.

Allow me to turn now to the highly important subject of human services and the delivery system of this state responsibility which has not only significant budget impact but even more importantly is critical to our state's needy and less fortunate.

As Nebraskans we can be proud of our commitment in this field and certainly our progressive policies are no more apparent than in mental retardation. We shall continue our policies to improve facilities and programs at the Beatrice State Home while continuing our strong, unprecedented, and national leadership role for community-based facilities. The community-based programs have seen the largest percentage increase in state funding of any on-going state activity. Since 1970 we have dramatically increased state funding here from only $280 thousand in fiscal 1970-71 to $6.9 million recommended for the next fiscal year. In total funds, during the same period, we have gone from $2.1 million to $18.7 million.

For the next fiscal year we have maintained on-going support for the basic or continuing community-based programs and authorized additional expenditures of $840 thousand unexpended accumulated cash balances. If written agreements can be worked out with a few regions to expedite the transfer of Beatrice clients in sufficient numbers of individuals beyond what has now been agreed to, I may make subsequent requests to the Legislature for this specific purpose.

My recommendation for the next fiscal year for the mentally retarded through the Department of Public Institutions includes an additional $1.5 million earmarked for improvement and expansion at Beatrice and the regional programs, distributed on the basis of number of clients that can be successfully transferred to the local services which is a fundamental goal. In addition, $1.5 million will be required over the next two years for capital construction, remodeling and meeting federal standards at the Beatrice campus. Further, two-year funding in the amount of $1.4 million is necessary for 5 new cottages there.

The Veterans Aid Trust Fund stands at $10 million. Despite my suggestions last year, the Legislature failed to raise this to $11 million. Therefore, I am again requesting $1 million additional be funded for fiscal 1978-79 and plans for a like addition the following year to keep our commitments to our Nebraska veterans in need.

There is no more important area of human services than our health delivery systems, still deficient in some rural areas, especially medical professionals.

Last year, among other successful action initiatives, we established a Commission on Rural Health Manpower to provide recommendations on how to get more doctors to areas where they are needed. The Commission has made progress and further sound recommendations which should be implemented. I ask you this year to enact the following four measures:

1. Establishment of a state student loan program to assist those students who will pursue a career in rural medicine in Nebraska.

2. Creation of a position in the Department of Economic Development to assist rural communities in developing health services, and to act as a small community advocate among state, federal, and local agencies.

3. Provision of additional funds to the State Health Department for an expanded educational effort about career opportunities in rural medicine.

4. Creation of a state-reimbursed residency program to familiarize doctors-in-training in Nebraska with our rural communities.

We seem to have the needed attention and cooperation now of the medical school and your action as requested will best assure continued progress.

Despite federal dictates that dramatically increase costs, we are again faced with declining federal match in our aid for dependent children and medicaid programs. Since F/Y 1973, federal match has declined from 58.5% to 53.5%. In dollar terms, in excess of $2 million State General Fund dollars must be added to maintain current service levels in these programs. Further, the recent increase in federal minimum wage will add approximately $4 million dollars to nursing home costs under the medicaid program. Under pressure of declining federal match, changing federal regulations and requirements, increasing medical costs, and increasing income support levels and numbers of recipients - in part also due to the action of your body over my vetoes on A.F.D.C. - the public assistance budget of the Department of Public Welfare shows a necessary increase of $8.6 million. As startling as that figure is, and as much as I struggled to reduce the increase, it is my opinion that to act responsibly to those Nebraskans, young and elderly alike, we have no alternative but to proceed as recommended.

I direct your special attention and request essentially new funding in the amount of $320,000 for expanded service programs for very young children with special problems. Over the years, I have supported funding children's programs for special education, mental retardation and crippled children. But some of the children have gone unserved because their disability has a label different from what was funded. These $320,000 will help to develop services for children who have infant disorders such as cerebral palsy, chronic asthma, and other problems that require early intense stimulation of the motor, reflex and neurological systems, thereby thwarting the crippling effects of some diseases. We feel that providing these needed expanded services

through the existing facilities of the Department of Welfare is wise at this time rather than saddling such responsibilities on the school districts.

Two of the Legislative proposals I share with you today directly affect the Department of Public Welfare. One of these bills would improve the definition of a crippled child, making the statutory definition consistent with federal guidelines and removing the specific labels of crippling diseases.

The other bill would change the name of public welfare to the Department of Human Services, which is a more descriptive term of this agency's current functions.

The capital construction budget is essentially limited to previously authorized construction and necessary renovation and required safety improvements with no major new starts.

The deferred building renewal act of last year provided $4.4 million to begin a deferred maintenance program for all state-owned buildings. To insure the continued success of that program, my capital construction budget recommends that appropriation be increased to $6 million. I am also recommending that $750,000 of that amount be used specifically to initiate the funding of projects designed for the removal of barriers to the handicapped in state buildings. In this regard, I am pleased to report that the State Building Commission approved final plans last month to solve the handicapped entry problem to the Capital Building by renovation of the ground level north entrance.

In closing, I would like to emphasize that once again I have presented a carefully considered and balanced state budget that allows us to meet legitimate needs without increased taxes. The document is now in your hands for whatever changes or amendments your body deems proper as the exclusive final authority on appropriations. I shall be reviewing your efforts and certainly wish to cooperate.

Once again your recognition is urged of the necessary constraints under which we must proceed. In budget making the parts and how they fit together are the integral portion of the whole. Caution should be exercised on early passage of so-called "A" bills, other spending or appropriation measures that could later "break the bank" and force state tax increases which I assume we will want to avoid. Good luck and God speed in your deliberations. Thank you!

The committee escorted the Governor from the Chamber.

LEGISLATIVE BILL 611. Placed on General File as amended.
Standing Committee amendments to LB 611:

1. Strike the original sections and insert:

"Section 1. There is hereby created within the Department of Roads a Railroad Crossing Safety Division to be headed by a Railroad Crossing Safety Administrator. The Director-State Engineer for the Department of Roads shall appoint as the Railroad Crossing Safety Administrator a person who is familiar with railroad crossing safety measures and the construction and maintenance of railroad crossing protection devices. The division shall be responsible for improving the safety of railroad crossings in Nebraska, and may eliminate a crossing, install, modify, or improve automatic railroad grade crossing protection devices, or take whatever

similar measures as are necessary to improve public safety at railroad crossings.

Sec. 2. As used in this act unless the context otherwise requires, division shall mean Railroad Crossing Safety Division.

Sec. 3. The division shall establish and update as needed a priority list for improving the safety of railroad crossings in Nebraska. The list shall identify all crossings in need of safety improvements, the safety measures proposed for each such crossing, and an estimate of the cost of such measures. Available funds shall be utilized to improve crossings in the order they appear on the list. If the political subdivision with jurisdiction over a crossing to be improved is unable to furnish its share of the funds necessary for such improvement, the division may disregard the priority position of such crossing until funds are obtained.

Sec. 4. In establishing the priority list under section 3 of this act, the division shall consult with railroad officials and governmental subdivisions to determine where railroad crossing safety measures are needed. The division shall consider the accident history of the crossings, any information provided by notices filed with the commission under section 8 of this act, the amount of traffic, traffic speed limits, population density, visibility of the crossing, the cost of installation, and similar factors.

Sec. 5. If a political subdivision of this state determines that a railroad crossing over which it has jurisdiction should occupy a different position on the priority list estabished(sic) by the division, or should be improved in a manner different than that specified in the priority list, it shall give notice of such determination, and the justification therefore, to the division. The division shall consider the information provided on such crossings in updating the priority list established under section 3 of this act.

Sec. 6. The division on or before January 1, 1979, and on or before such date each year thereafter shall submit the priority list established under section 3 of this act to the chairperson of the Legislature's Public Works Committee. If any amendments are made to the list they shall also be filed with the chairperson.

Sec. 7. The division shall utilize any federal funds available in the construction of railroad grade crossing protection devices or other safety improvements. If funds are needed to match any federal funds the

political subdivision in which the crossing is located shall contribute half of the funds needed but shall not be required to provide more than five per cent of the total cost. The balance of any funds needed shall be paid by the division from the Grade Crossing Protection Fund.

Sec. 8. When an accident occurs at any railroad crossing within the State of Nebraska which results in loss of life, the railroad which was involved in the accident shall immediately furnish to the division a copy of the same notice that it is required to furnish to the Nebraska Public Service Commission and the Federal Railroad Administration.

Sec. 9. That section 39-6,195, Revised Statutes Supplement, 1976, be amended to read as follows:

39-6,195. The ~~Department of Roads~~ Railroad Crossing Safety Division is hereby empowered to administer the funds deposited in the Grade Crossing Protection Fund as follows:

~~(1) When any political subdivision of this state determines that public safety will be improved by eliminating a crossing or by the installation, substantial modification, or improvement of automatic railroad grade crossing protection where a street, road, or highway intersects with a line of the railroad company within its jurisdiction, and demand is made upon the railroad company concerned, either the railroad company or the political subdivision shall inform the Department of Roads of such fact;~~

~~(2) Upon receiving such notice, or upon its own determination, the Department of Raods shall forthwith examine the crossing concerned, in conjunction with representatives of the political subdivision and the particular railroad company involved, to arrive at an estimate of the cost and the type of automatic railroad grade crossing protection that should be reuired, and the justification of the expenditure for such protection; and, if it is agreed by the Department of Roads, the railroad, and the political subdivision involved that such~~

(1) If the division determines that a grade crossing should be eliminated by closing the street, road, or highway, ~~such~~ the political subdivision with jurisdiction over the crossing ~~as shall make such closing~~ shall receive two thousand dollars or the actual cost ~~thereof~~ but not to exceed twelve thousand dollars from the Grade Crossing Protection Fund or, if pursuant to

section 74-1305, it is agreed by the ~~Department of Roads~~ division, the railroad, and the political subdivision involved that such crossing should be eliminated by the removal of such rail line, the political subdivision paying for such removal, if any, shall receive two thousand dollars or the actual cost thereof but not to exceed twelve thousand dollars from the Grade Crossing Protection Fund;

~~(3)~~ (2) In order to facilitate and protect the interest of the public as a whole, and to compensate for the statewide use of such crossings by the public, the ~~Department of Roads~~ division shall pay ~~eighty~~ eighty-five per cent of the cost of such ~~automatic~~ railroad grade crossing protection measures or devices from the Grade Crossing Protection Fund, and the balance of the cost shall be borne ten per cent by the railroad company and ~~ten~~ five per cent by the political subdivision involved, except that in any county in which a Railroad Transportation Safety District has been formed, such balance shall be borne entirely by the political subdivision involved;

~~(4)~~ (3) It shall be the sole responsibility of the railroad company involved to maintain all automatic railroad grade crossing protection devices existing in this state as of August 24, 1975. ~~(6)~~ (5) The ~~Department of Roads~~ division shall enter into and enforce agreements involving such Grade Crossing Protection Fund as well as the supervision of the construction, installation, substantial modification or improvement, and the maintenance of such automatic safety devices for which any part of the cost is borne

from the Grade Crossing Protection Fund, and the auditing and collection of the bills covering the cost thereof. The ~~Department of Roads~~ division is further authorized to enter into such contracts with any railroad companies and political subdivisions affected which are necessary to carry out the provisions of sections 39-6,194 and 39-6,195.

SECOND SESSION

NINETEENTH DAY

Legislative Chamber, Lincoln, Nebraska
Tuesday, February 14, 1978

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Whelan presiding.

PRAYER

The prayer was offered by the Chaplain.

> O God, we consider our resources in money, men and land, yet forget the spiritual resources without which we dare not and cannot prosper. Forgive us for all our indifference to the means of grace thou hast appointed. Thy Word, the best seller of all books, remains among the great unread, the great unbelieved, the great ignored. Turn our thoughts again to that book which alone reveals what man is to believe concerning God and what duty God requires of man. Thus informed, thus directed, we shall understand the spiritual laws by which alone peace can be secured, learn what is the righteousness that alone exalteth a nation. For the sake of the world's peace and our own salvation, we pray in the name of Christ, thy revelation. Amen.

ATTORNEY GENERAL'S OPINION

Opinion No. 188
February 10, 1978

Dear Senator Hasebroock:

In your letter of February 6, 1978, you have called our attention to the provision in section 2 of LB 348 which would amend section 84-1308, R.R.S. 1943, by changing the contribution of state employees to the Retirement System from the present 3 percent of the first $4800.00 of compensation and 6 percent of the excess over $4800.00 to a flat 4 1/2 percent of the annual salary. You have asked whether this presents any constitutional problems, on the basis that this change would be a violation of the employment agreement. We conclude that there would be no constitutional problem with this matter except with respect to officers of state government serving fixed terms.

Article III, Section 19, of the Nebraska Constitution provides that the compensation of a public officer may not be increased or diminished during his term of office. Wilson v. Marsh, 162 Neb. 237, 75 N.W.2d 723 (1956), held that the contributions made by a judge to a retirement system were a diminution of his salary, and the right to receive benefits in the future was an increase in his salary, and that therefore an officer serving a fixed term, in that case a judge, could not be brought into a retirement system during his term of office.

The same principle would apply to a change in the amount of withholdings from an officer's salary as a contribution to a retirement system, and to changes in benefits. We believe that such changes cannot be made to apply to officers serving fixed terms during their terms of office, but must be delayed, so far as such officers are concerned, until the beginning of a new term.

The same is not true with respect to ordinary employees, however. When one enters into state employment, he does not enter into a contract to serve for a fixed period of time, or under unchangeable terms and conditions. The Legislature has plenary power over the terms and conditions of state employment, and the only recourse an employee has, so far as the Constitution is concerned, if he is dissatisfied with changes in those terms and conditions, is to terminate his employment. If this were not true, it would have been impossible to have validly enacted a state employees retirement act in the first place, as this obviously affected the terms and conditions of persons who were state employees at the time of its enactment.

Very truly yours,
PAUL L. DOUGLAS
Attorney General

SECOND SESSION

TWENTIETH DAY

Legislative Chamber, Lincoln, Nebraska
Wednesday, February 15, 1978

Pursuant to adjournment, the Legislature met at 9:02 a.m., President Whelan presiding.

PRAYER

The prayer was offered by the Chaplain.

> Eternal Father of our souls, grant to the members and officers of this Legislature a sacred moment of quiet before we take up the duties of the day. Turn our thoughts to Thee, and open our hearts to Thy spirit that we may have wisdom in our decisions, understanding in our thinking, love in our attitudes, and mercy in our judgment. Let us not think, when this prayer is said, that our dependence upon Thee is over, and forget thy counsels for the rest of the day. Rather from these moments of hard searching may there come such a sweetness of disposition that all may know that thou art in this place. From this holy interlude may there flow light and joy and power that will remain with us until night shall bring thy whispered benediction, "Well done, good and faithful servant." So help us all this day, through Jesus Christ our Lord. Amen.

Pursuant to adjournment, the Legislature met at 9:02 a.m., Speaker Luedtke presiding.

PRAYER

The prayer was offered by the Chaplain.

> O Father in Heaven, ere we become involved in the routine of the day, we pause to seek Thy help. Experienced in the ways of men, we know all too little of the ways of God. But thou knowest us, each one of us, by name and by our needs. Turn our wayward minds and hearts to Thee. Forgive the faults and failures of the past and set us free from them. Forgive, O Lord, our failure to apply to ourselves the standards of conduct we demand of others. Forgive our slowness to see the good in our fellows and to see the evil in ourselves. In our differences may we be kind; in our agreements may we be humble, that thy will may be done in us, and thru us in our beloved State. Amen.

LEGISLATIVE BILL 375. Placed on General File as amended.
Standing Committee amendments to LB 375:

1. Strike original sections 1 to 7 and insert the following:

"Section 1. Every board of education or governing board of any educational institution in Nebraska covered by the provisions of sections 79-1254 to 79-1262, Reissue Revised Statutes of Nebraska, 1943, and amendments thereto, shall adopt a reduction in force policy covering employees subject to such statutory provisions. In any such institution, where a recognized bargaining unit of instructional, administrative, or both instructional and administrative employees exists, the board shall negotiate the reduction in force policy with the employee organization, except that no such policy shall allow the reduction of a permanent or tenured employee while a probationary employee is retained to render a service which such permanent employee is qualified by reason of certification and endorsement to perform or where certification is not applicable, by reason of college credits in the teaching area. If employee evaluation is to be included as a criterion to be used for reduction in force, specific criteria, such as frequency of evaluation, evaluation forms, and number and length of classroom observations shall be included as part of the reduction in force policy and where a recognized bargaining unit of instructional, administrative, or both instructional and administrative employees exists, such evaluation procedures and forms shall be subject to the negotiations process.

Sec. 2. Before a reduction in force shall occur, it

shall be the responsibility of the board of education and school district administration to present competent evidence demonstrating that a change in circumstances has occurred necessitating a reduction in force. Any alleged change in circumstances must be specifically related to the teacher or teachers to be reduced in force, and the board, based upon evidence produced at the hearing required by sections 79-1254 to 79-1262, Reissue Revised Statutes of Nebraska, 1943, and amendments thereto, shall be required to specifically find that there are no other vacancies on the staff for which the employee to be reduced is qualified by endorsement or professional training to perform.

Sec. 3. Any employee whose contract shall be terminated because of reduction in force shall be considered to have been dismissed with honor and shall upon request be provided a letter to that effect. Such employee shall have preferred rights to reemployment for a period of twenty-four months commencing at the end of the contract year and the employee shall be recalled on the basis of length of service to the school to any position for which he or she is qualified by endorsement or college preparation to teach. The employee shall, upon reappointment, retain any benefits which had accrued to said employee prior to termination, but such leave of absence shall not be considered as a year of employment by the district. An employee under contract to another educational institution may waive recall but such waiver shall not deprive the employee of his or her right to subsequent recall.

Sec. 4. Notwithstanding sections 1 to 3 of this act, if the reduction of an employee based upon the provisions of this act would place a district in noncompliance of any federal or state law or regulations requiring affirmative action employment practices, the district may vary from these provisions as necessary to comply with such laws or regulations.

Re: Proposed amendment to LB 757.

Dear Senator DeCamp:

Your proposed amendment would insert three new sections. The first section appropriates $20,000,000 to a new fund created by the section called the State Assistance to Education Fund. This appropriation is stated to be equal to the appropriation under subsection 4 of section 7 of LB 33 for the period July 1, 1978 to June 30, 1979. The $20,000,000 is then appropriated to the State Department of Education, Agency No. 13 for Program 143. Your second section in the amendment provides that if the referendum is unsuccessful, the funds appropriated to the State Assistance to Education Fund are to be expended for the purpose of providing state aid to education during the 1978-79 school years pursuant to LB 33. The other section of your amendment provides for investment by the State Investment Officer.

You state in your letter to us that LB 33 was funded in the amount of $20,000,000. You further stated that this funding would lapse on July 1, as unexpended money. You state that you are interested in this sum

of money as a fund for local aid to education. You indicate the purpose of your amendment is to accomplish this objective in a constitutional manner.

You have made one erroneous assumption with respect to your statements. There is no sum of $20,000,000 which will lapse on July 1 back into the General Fund pursuant to any action taken in appropriating money for the purposes of state aid to education in the last legislative session. While it is clear that the Legislature did intend and did in fact appropriate a total of $75,000,000 to be expended for state aid to education during the fiscal year 1977-78, it is also clear that by the initiation of a successful referendum drive, $20,000,000 of that $75,000,000 was suspended along with those provisions of LB 33 against which the referendum was directed. Since all authority to expend that $20,000,000 existed only during the fiscal year 1977-1978 and no election could be held on the referendum until November of 1978 after the expiration of the fiscal year there was no statutory authority for the state to expend in excess of $55,000,000 for state aid to education during fiscal year 1977-78. Since this was the situation that existed, the $20,000,000 in addition to the $55,000,000 appropriated by section 45 of LB 532, Eighty-Fifth Legislature, First Session, 1977, was not considered in setting the tax rate. Therefore, there is not an amount of $20,000,000 that will lapse back into the General Fund on July 1, 1978; no such sum was ever raised by taxation during this year.

We understand the intent of your bill is to maintain the authority to expend the $20,000,000 that would have been expended had the referendum not superseded the authority granted to the Department of Education under LB 33 and the appropriation attempted to be made under LB 532 for the fiscal year 1977-78. In essence, your proposed amendment is an attempt to appropriate, in addition to any other sums that may be appropriated for state aid to education, $20,000,000. If that is your intent, any amendments that specify a particular amount of money to be expended under the provisions of LB 33, should they become effective after the referendum election in November of 1978, would be effective. It would require a clear expression of the intention to authorize twenty million dollars over any other sum appropriated. At this time it would be pure speculation to attempt to determine what amount of money the Legislature may appropriate for expenditure during the 1978-79 school year should the referendum against LB 33 be unsuccessful.

An additional problem that should be pointed out to you is that under the terms of LB 33, it would appear that the Department of

Education will be authorized to expend no more than $95,000,000 during fiscal 1978-79. While this statement is not free from doubt under the terms of LB 33, subsection 7, the intent of the Legislature is expressed to be to appropriate $95,000,000 for implementation of LB 33 for the school year 1978-79. Therefore if an additional amount is appropriated it would be necessary to grant authority to expend any additional amount over $95,000,000.

Sincerely,
PAUL L. DOUGLAS

Opinion No. 190
February 16, 1978

Dear Senator Fowler:

This is in response to your request for an opinion as to the constitutionality of LB 372, as amended. You state that you are particularly concerned about the provisions of the bill which exempt child care from licensing requirements by the welfare Department in counties whose population is less than 55,000.

LB 372 is to amend section 71-1901, R.R.S. 1943, and adds to the definition of child care the qualification of being "regularly" engaged in the care, supervision, custody, and control over children under sixteen years for compensation or hire. It exempts from the definition child care which is not publicly solicited, is operated within the individual's own home, does not require the hiring of additional personnel, does not last for more than a period of twelve continuous hours, is not provided for more than five children except for the individual's own children in any twelve continuous hours, and is located in a county whose population is less than 55,000.

To put it simply, the effect of the bill is to maintain licensing requirement for day care in the home in Lancaster and Douglas Counties, but to eliminate such requirements elsewhere. Section 71-1902, R.R.S. 1943, reads as follows:

> "No person shall furnish, or offer to furnish, child care for two or more children from different families without having in full force and effect a written license. . . ."

As a result, a resident of a less populated county could provide services for five children in the home for twelve continuous hours a day without a license, but a resident of Lancaster County could not do so, and would be subject to section 71-1902, supra, and subject to investigation as to personal character and to home inspection for purposes of safety.

In City of Scottsbluff v. Tiemann, 185 Neb. 257, a case involving classification by population, the Supreme Court of Nebraska held that a legislative classification, in order to be valid, must be based upon some reason of public policy, some substantial difference of situation or circumstance that would naturally suggest the justice or expediency of diverse legislation with respect to the objects to be classified. Classification for the purpose of legislation must be real and not illusive; it cannot be based on distinctions without a substantial difference.

Proponents of LB 372 apparently believe that the parents of a child in outstate counties can more readily determine the character of the operator of the child care business and the condition of the facility from the standpoint of safety than such parents in Lancaster or Douglas Counties. We suggest that such a position is illusory, particularly in cities such as Columbus, Hastings and Grand Island which are all relatively industrialized with the accompanying commuting, mobile populations.

To further emphasize the fact that such classification is suspect, let us compare the situation in the small town in a highly populated county to a relatively large city in a less populated county. A person who wanted to provide day care services for children in Raymond, Nebraska (Lancaster County) (population under 500) would be subject to licensing, yet a person from Grand Island (Hall County) (population 35,000) would be exempt.

For the reasons set out above, it is our opinion that the constitutionality of LB 372 is suspect.

You also ask for our opinion as to whether, if the population distinction is unconstitutional, the severability clause protects the remaining elements of the bill.

The rule is that where invalid portions of a statute are so interwoven with the rest of the act so that the act may not be operative with the void portions eliminated or where it is obvious from an inspection of the act that the invalid portion formed the inducement for the passage of the act, the whole act fails. City of Scottsbluff v. Tiemann, supra; Terry Carpenter, Inc. v. Wood, 177 Neb. 515, 129 N.W.2d 475 (1964). An inspection of the bill shows that if the population classification

should fail, the other provisions of the bill could not be operative since other remaining exemptions are inextricably tied to the classification by population.

In summary, it is the opinion of this office that LB 372 is suspect for the reason that the population classification is an artificial and baseless classification and this violates the provisions of the constitution prohibiting local and special legislation.

Very truly yours,
PAUL L. DOUGLAS

Opinion No. 192
February 15, 1978

Dear Senators Warner and Koch:

You have asked that we review LB 663, Eighty-fifth Legislature, Second Session, 1978. Lb 663 in general is intended to create a fund and to appropriate money to a particular fund for expenditure should the referendum pending against LB 33 be unsuccessful. You ask us three questions. we will discuss them in the order in which you ask them in the letter.

Your first question is whether the state would be immediately obligated to pay the money specified in LB 33 if the referendum against LB 33 is unsuccessful. As we have pointed out in previous letters to members of the Legislature, LB 33 is not an appropriations measure and as such no money may be drawn from the treasury under authority conferred by LB 33. See, Opinion of the Attorney General, November 3, 1977, to Senator DeCamp. As such, the language of LB 33 would only be effective to the extent that the Legislature otherwise appropriated money to be expended for the purposes and in the amount specified by LB 33. Therefore, absent an express appropriation by the Legislature of some sum, no obligation would arise to raise 40 million dollars for distribution under LB 33 for the current fiscal year. We use current fiscal year advisedly. It is our assumption that you intend to refer to the fiscal year 1978-1979 and not the fiscal year 1977-1978.

In your second question you ask, if LB 33 is sustained and the state is obligated to make the payments referred to above, does the state have sufficient revenue set aside to make such payments? This question is substantially answered by our answer to the above question. The state is not obligated to make any payments under LB 33 absent an appropriation by the Legislature. Due to the fact that LB 33 was suspended by the successful referendum drive, no authority existed on behalf of the state to expend money during the fiscal year 1977-1978 pursuant to the authorizations of LB 33. It is our understanding since that was the case no consideration was given in setting the tax rate to raising the 20 million dollars that was authorized to be spent during 1977-1978 under LB 33. In addition, there is no current appropriation that we are aware of for expenditure during the fiscal year 1978-1979 in any amount. In addition, the tax rate will not be set for that fiscal year until after the adjournment of the current legislative session. At that time the Board will have sufficient information upon which it may set a rate of taxation and will raise the revenue necessary to fund all of the obligations of state government authorized by the Legislature. As such the actual determination must await the November election. If LB 33 is sustained any appropriation would be an express obligation.

The State Board of Equalization and Assessment meets at least twice a year; within fifteen days after a regular session and on or before November 15. The Board may set tax rates at either session. Section 77-2715.01 (1) (h) defines an express obligation as "an obligation which has fiscal impact identifiable by a sum certain or by an established percentage or other determinative factor or factors." Until the election it is at least arguable that no such sum is certain. Thus while the Board may consider any appropriation for LB 33 at its meeting after the session, it is also arguable that it may wait until its November meeting after the election. At that time the need or lack of need to raise money will be more readily capable of determination.

To a certain extent the appropriation you propose is speculative. It seeks to appropriate money to be expended for a purpose that may or may not exist dependent upon a contingent future event, the success or failure of LB 33 at the polls in November.

In your final question you ask, if LB 33 is sustained and the state does not have sufficient funds to make, in effect, "back payments" will LB 663 be self-implementing to provide funds to make the payments referred to above or will additional appropriation measures be required? LB 663 is not an appropriations measure. It establishes a fund and provides the authority to distribute money out of that fund

for particular purposes; as such it is substantive in character and is not related solely to the appropriation function specified in Article III, section 22, and Article III, Section 14 of the Constitution of the State of Nebraska. As such it appears to be in the same category as LB 33 of the last session was. Therefore, it would be necessary to enact as a part of an appropriations bill an appropriation of money from the General Fund or from whatever sources from which the money is to be derived to fund the provisions of LB 663. We note that LB 663 in section 1 provides:

> "There is hereby created in the state treasury a special fund to be known as the State Assistance to Education Fund. Such fund shall consist of one-seventh of all revenue derived from the sales tax on sales for the period July 1, 1977 to December 31, 1977, and such other amounts as may be appropriated thereto."

It is our information that that sum would amount to between 14.6 million and 16.9 million dollars. However, the sums received during that period of time went into the General Fund, were commingled with all other funds of the state and were expended for programs authorized by the last legislative session. No such sum of money will exist in the General Fund that may be identified and set aside at the time LB 663 would become effective. Therefore, there would be no money from which this appropriation contemplated by section 1 could be made and it would therefore be ineffective to appropriate the sums authorized.

There is an additional difficulty presented by LB 663 in that it would appear to appropriate in section 1 and section 2 money in excess of that authorized to be distributed under the terms of LB 33 and therefore some of the money appropriated if this bill were enacted would not be expended since there would be an absence of authority to expend the sums set out.

Sincerely yours,
PAUL L. DOUGLAS

PRESIDENT WHELAN PRESIDING

LEGISLATIVE BILL 717. Mr. Savage offered the following amendment to LB 717:

1. Strike original section 2 and insert 6 new sections as follows:

"Section 1. That section 8-302, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

8-302. Any association of not less than five persons, which shall be organized within this state for the purpose of raising money to be loaned among its members, shall be authorized and empowered to levy, assess and collect from its members such sums of money by rates of stated dues, fines, interest and premiums on loans, as the corporation may provide in its ~~constitution~~ articles of incorporation or by-laws, and to exercise such other powers as are hereinafter conferred. Every such corporation may, however, receive payments from its members in any amount, which together with the balance, if any, formerly to the credit of the member thus paying, upon the books of the corporation, shall not exceed the par value of the shares of stock held by him.

Sec. 2. That section 8-315, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

8-315. The ~~constitution~~ by-laws shall also contain equitable provisions permitting the payment of loans before maturity, as follows: The borrower shall be charged with the full amount of his loan, together with all arrearages due thereon or on the shares pledged, or appertaining to the security given, and shall thereupon be allowed, as a credit, the withdrawal value of the shares pledged as security together with an equitable share of the premium, if any, paid in advance, and such other credits as may be returnable on account thereof, and the balance shall be received by the association in full settlement and discharge of such loan. The credits on shares pledged in connection with a loan secured by mortgage on real estate, may at any time, and in whole or in part, be appropriated by any association and applied in reduction of such loan. The withdrawal value of shares pledged as a part of a loan transaction, where such loan is secured by mortgage on real estate, shall be the total amount of the payments on such shares as shown

by the books of the association, together with such proportionate share of the earnings as the borrower may be entitled to under the by-laws of the association, less the amounts of previous appropriations and applications on the loan and withdrawals, if any. The association shall not directly or indirectly charge any membership, admission, withdrawal, or any other fee or sum of money for the privilege of becoming, remaining, or ceasing to be a member of the association, except charges upon the making or modification of a loan authorized by section 8-330. Except as authorized by this section and section 8-316, the association shall not charge any member any sum of money by way of fine or penalty for any cause. Payments on real estate loans shall be applied first to the payment of interest on the unpaid balance of the loan and the remainder on the reduction of principal. Any delinquent real estate taxes, both regular and special, which become a prior lien to the association's mortgage, may be paid by the association and added to the unpaid balance of the loan.

Sec. 3. That section 8-316, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

8-316. The ~~constitution~~ by-laws shall further provide that if any member has become delinquent in his payment on any shares pledged for the security of any loan from the association, which delinquency shall include delinquent real estate taxes both regular or special irrespective of whether paid by the association and charged to principal or unpaid and a prior lien on the property, and such delinquency represents more than two monthly payments, such shares may be canceled, and he shall, as to such shares, cease to be a member of the association, and the withdrawal value, if any, of such shares at the date of cancellation, shall be credited on his loan. If, after the aforesaid credits, or other credits, a balance remains due the association on account of said loan, it may recover the balance either by the foreclosure and sale of the security given or by an action at law upon the evidence of indebtedness. The withdrawal value of shares pledged as a part of a loan transaction, where such loan is secured by mortgage on real estate, shall be the total amount of the payments on such shares as shown by the books of the association, together with such proportionate share of earnings as the borrower may be entitled to under the by-laws of the association, less the amounts of previous appropriations

and applications on the loan and withdrawals, if any.

Sec. 4. That section 8-317, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

8-317. Certificates of stock or other written evidence thereof shall be issued for each account in conformity with sections 8-301 to 8-345 and the ~~constitution and~~ by-laws. Every stockholder shall receive credit on the books of the association for all amounts paid by him upon his subscription for stock, together with his pro rata share of all dividends declared, as hereinafter provided, and when the sum of such payments and dividends, less all fines or other charges, shall equal the par value of the shares of stock held by him, he shall be entitled to receive such par value, with such interest not exceeding the legal rate, as the directors may determine, from the time of maturity until paid. Holders of stock thus matured and members desiring to withdraw before such maturity shall be paid the value of their stock in the order of the maturity of or notice of withdrawal of such stock. At no time shall more than two-thirds of the unloaned funds in the treasury of the association, inclusive of such funds applicable to the demands of withdrawing stockholders, as hereinbefore provided, be applicable to the demands of holders of matured stock without the consent of the board of directors.

Sec. 5. That section 8-331, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

8-331. Every association shall adopt articles of incorporation and by-laws. A copy of the articles of incorporation~~, constitution,~~ and by-laws of every such association shall be filed in the office of the Department of Banking and Finance, together with an application for a certificate of approval and payment of the examination fee prescribed by section 8-602. The application shall furnish and set forth facts and information desired by the Department of Banking and Finance. The department upon completion of its investigations and its examination of said articles, ~~constitution,~~ by-laws, and application for certificate of approval shall issue a certificate of its approval of such organization and ariticles of incorporation~~,~~ ~~constitution,~~ and by-laws; Provided, that no such certificate of approval shall be issued unless and until the department shall have determined:

(1) That said articles of incorporation, ~~constitution,~~ and by-laws conform to the requirements of sections 8-301 to 8-349, and contain a just and equitable plan for the management of the association's business;

(2) That the persons organizing such association are of good character and responsibility;

(3) That in its judgment a need exists for such an institution in the community to be served;

(4) That there is a reasonable probability of its usefulness and sucess; and

(5) That the same can be established without undue injury to properly conducted existing local building and loan associations.

No such association shall transact any business, except the execution of its articles of incorporation, the adoption of ~~a constitution and~~ by-laws, and the election of directors and officers, until it shall have procured the certificate of approval above provided for. No amendment of the articles of incorporation, ~~constitution,~~ or by-laws of any such association shall become operative until a copy of the same has been filed and a certificate of approval obtained as is above provided in regard to original articles of incorporation, ~~constitution,~~ and by-laws.

Sec. 7. That original sections 8-302, 8-315 to 8-317, 8-331, and 8-355, Reissue Revised Statutes of Nebraska, 1943, and also section 8-307, Reissue Revised Statutes of Nebraska, 1943, are repealed.''.

TWENTY-THIRD DAY

Monday, February 20, 1978

Pursuant to adjournment, the Legislature met at 9:30 a.m., President Whelan presiding.

PRAYER

The prayer was offered by the Chaplain.

O God of Abraham, of Isaac, and of Jacob, raise our minds and hearts to You so that we may know your greatness and pay tribute to Your glory.

You who created us by an act of Your will, sustain us by the same process. Our every action, our every thought, our every word, is foreknown by You and yet remains free.

When we contemplate Your nature, we are delving into mystery sublime and unfathomable. It is only at such moments that we can get a fair appraisal of ourselves in relation to reality. In comparison, we are nothing, insignificant, practically non-existent.

But we are of infinite value because You made it possible to call you Father.

We can only recite with The Apostle, "Oh, the depths of the riches and the wisdom and the knowledge of God! How inscrutible His judgment, how unsearchable His ways!"

ROLL CALL

The roll was called and all members were present except Messrs. Hefner, F. Lewis, and Warner who were excused; and Messrs. George, Goodrich, Venditte, and Mrs. Labedz who were excused until they arrive.

"Sec. 3. That section 77-202.14, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

77-202.14. On or before January 1 of each year, the Tax Commissioner shall prescribe suitable blank forms to be used by all claimants for homestead exemption. Such forms shall contain provisions for the showing of all information which the Tax Commissioner may deem necessary to (1) enable the proper county officials to determine whether each claim for exemption under ~~subdivisions~~ subdivision (1) ~~to (3)~~ of section 77-202.13 should be allowed, and (2) enable the Tax Commissioner to determine whether each claim for exemption under subdivision ~~(1)~~ (2) of section 77-202.13 should be allowed. It shall be the duty of the county assessor of each county in this state to furnish such forms, upon request, to each person desiring to make application for homestead exemption on property located within that county. The forms so prescribed shall be used uniformly throughout the state and no application for exemption shall be allowed unless the applicant uses the regularly prescribed form in making his application.

Sec. 4. That section 77-202.15, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

77-202.15. (1) The application for homestead exemption shall be signed and sworn to by the owner of record of the property unless the owner is an incompetent, in which case it shall be signed and sworn to by the guardian. The county assessor, his duly appointed deputies, and notaries public are authorized to administer such oaths.

(2) (a) It shall be the duty of each owner who

applies for the homestead exemption provided in subdivisions (1) and (2) ~~to (4)~~ of section 77-202.13, to file an application therefor with the county assessor of the county in which the real estate is located on or before April 1, and failure to do so shall constitute a waiver of the exemption for that year.

If an owner is granted a homestead exemption as provided in ~~subdivisions (1) to (3)~~ subdivision (1) of section 77-202.13, the homestead exemption as to such property shall remain in full force and effect for each succeeding year without reapplication; Provided, the owner is in all respects entitled to the exemption granted under the provisions of sections 77-202.12 to 77-202.22; and provided further, that once a qualified claimant has filed an application for homestead exemption and the exemption has been granted for that year, no reapplication need be filed for succeeding years in which case the county assessor and Tax Commissioner shall determine whether the claimant shall qualify for the homestead exemption in such succeeding years as otherwise provided in sections 77-202.12 to 77-202.22 as though a claim were made. It shall be the duty of each veteran who wants the homestead exemption provided in subdivision ~~(4)~~ (2) of section 77-202.13 to file an application therefor with the county assessor on or before April 1 of each year, and failure to do so shall constitute a waiver of the exemption for such year.

(b) The owner of a homestead which has been granted an exemption under ~~subdivisions~~ subdivision (1) ~~to (3)~~ of section 77-202.13 and each qualified claimant who has been granted an exemption under subdivision ~~(4)~~ (2) of section 77-202.13 shall notify the county assessor by March 15 of each year of any change in the homestead exemption status occurring in the preceding year. If, by his failure to give such notice, any such property owner permits the allowance of the homestead exemption for any succeeding year after the homestead exemption status of such property has changed, an amount equal to the amount of the taxes lawfully due but not paid by reason of such unlawful and improper allowance of homestead exemption, together with penalty and interest on such total sum as provided by statute on delinquent ad valorem taxes, shall be due and shall, upon entry of the amount thereof on the books of the county treasurer, be a lien on such property while unpaid. Such lien may be enforced in the manner provided for liens for other delinquent taxes. Any person who has permitted the improper and unlawful

allowance of such homestead exemption on his property shall, as an additional penalty, also forfeit his right to a homestead exemption on any other property in this state for the two succeeding years.

(3) Any purchaser or new owner of property must claim a homestead exemption as provided in this section before the allowance thereof to him on such property shall be lawful.

Sec. 5. That section 77-202.16, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

77-202.16. (1) The county assessor shall examine each application for homestead exemption filed with him for an exemption pursuant to ~~subdivisions~~ subdivision (1) ~~to (3)~~ of section 77-202.13 and shall determine whether or not such application should be approved or rejected and if approved, determine the amount of the exemption. In case he finds that the exemption should not be allowed by reason of not being in conformity to law, he shall mark the application rejected and state thereon the reason for such rejection. In any case where the county assessor disallows or reduces an application for exemption, he shall notify the applicant of his action by mailing written notice to him at the address shown in the application, which notice shall be mailed not later than the fourth Monday in April and shall be on forms prescribed by the Tax Commissioner. All applications for exemption, showing thereon the action of the county assessor, shall be delivered to the county board of equalization on or before the fourth Monday of April of each year.

(2) The county assessor shall examine all applications for an exemption pursuant to subdivision ~~(4)~~ (2) of section 77-202.13 to determine, except for the income test, if the application should be approved or rejected. On or before the third Monday in April the county assessor shall forward the application to the Tax Commissioner who shall determine from the records of the Department of Revenue whether or not the applicant meets the required income standards. The Tax Commissioner shall, on or before August 1, certify his determinations to the county assessor. If the county assessor's and Tax Commissioner's determination is that the application should be accepted, then the county assessor shall

process the application in the same manner as an approved application under subsection (1) of this section. If the Tax Commissioner's determination is that the application does not meet the required income test or if the county assessor finds that the exemption should not be allowed or should be reduced, the county assessor shall proceed as in the case of a rejected or reduced application under subsection (1) of this section.

Sec. 6. That section 77-202.20, Revised Statutes Supplement, 1977, be amended to read as follows:

77-202.20. (1) Any person who makes any false or fraudulent claim for exemption, or any false statement or false representation of a material fact in support of such claim, or any person who assists another in the preparation of any such false or fraudulent claim, or enters into any collusion with another by the execution of a ficitious deed or other instrument for the purpose of obtaining unlawful exemption under the provisions of sections 77-202.12 to 77-202.22, shall be guilty of a Class II misdemeanor and shall be subject to a forfeiture of the exemption herein granted for a period of two years from date of conviction. Any person who shall make oath to any false or fraudulent application for homestead exemption, knowing the same to be false or fraudulent, shall be guilty of a Class I misdemeanor.

(2) In addition to the penalty provided in subsection (1) of this section, if any person files a claim for exemption as provided in subdivision ~~(1)~~ (2) of section 77-202.13 which is excessive due to misstatements by the owner filing such claim, the claim may be disallowed in full, and, if the claim has been allowed, an amount equal to the amount of taxes lawfully due but not paid by reason of such unlawful and improper allowance of homestead exemption shall be due and shall, upon entry of the amount thereof on the books of the county treasurer, be a lien on such property until paid and a penalty equal to the amount of taxes lawfully due but claimed for exemption shall be assessed.

LEGISLATIVE JOURNAL

EIGHTY-FIFTH LEGISLATURE
SECOND SESSION

TWENTY-FOURTH DAY

Legislative Chamber, Lincoln, Nebraska
Tuesday, February 21, 1978

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Whelan presiding.

PRAYER

The prayer was offered by the Chaplain.

> Eternal God, while working with bills and procedures of an objective nature, may we try to be objectively honest with ourselves and with others. We pray for strength to harness our unruly tongues; to carry our responsibilities; to have the same criteria for judging ourselves that we apply to others. Forgive us for often wearing a friendly mask which hides a sullen heart, and using fine words which conceal shabby thoughts. May we strive to develop an identity between our outward and our inner person, that we may see ourselves as persons of integrity. In our Lord's name. Amen.

ROLL CALL

The roll was called and all members were present except Mrs. Marsh, Messrs. E. Dvorak, Hefner, and Reutzel who were excused; Mrs. Labedz, Messrs. F. Lewis, Schmit, Kremer, and Burrows who were excused until they arrive.

81-1506. (1) It shall be unlawful for any person:

(a) To cause pollution of any air, waters or land of the state or to place or cause to be placed any wastes in a location where they are likely to cause pollution of any air, waters or land of the state; or

(b) To discharge or emit any wastes into any air, waters or land of the state which reduce the quality of such air, waters or land below the air, water or land quality standards established therefor by the council. Any such action is hereby declared to be a public nuisance. It shall be prima facie evidence that a livestock operation is not a nuisance if:

(i) Reasonable techniques are employed to keep dust, noise, insects, and odor at a minimum;

(ii) It is in compliance with applicable regulations adopted by the council and zoning regulations of the local governing body having jurisdiction; and

(iii) The action is brought by or on behalf of a person whose date of lawful possession of the land claimed to be affected by a livestock operation is subsequent either to the issuance of an appropriate permit by the department for such operation, or to the operation of the feedlot and an on-site inspection by the department is made, before or after filing of the suit, and the inspection reveals that no permit is required for such operation.

(2) It shall be unlawful for any person to carry on any of the following activities unless he holds a current permit or certification therefor from the department, as is required by it, for the disposal of all wastes which are or may be discharged or emitted thereby into the air, waters or land of the state:

(a) Discharges for which a permit is required under the National Pollutant Discharge Elimination System created by the ~~Federal~~ federal Water Pollution Control Act Amendments of 1972 in which case the issuance of such permits shall be according to rules and regulations adopted by the council pursuant to subsection (11) of section 81-1505 and to which other provisions of this section shall not apply;

(b) The construction, installation, modification or operation of any disposal system or part thereof or any extension or addition thereto;

(c) The increase in volume or strength of any wastes in excess of the permissive discharges specified under any existing permit;

(d) The construction, installation, or operation of any industrial, commercial, or other establishment or any extension or modification thereof or addition thereto, the operation of which would cause an increase in the discharge or emission of wastes into the air, waters or land of the state or would otherwise alter the physical, chemical or biological properties of any air, waters or land of the state in any manner not already lawfully authorized; ~~or~~

(e) The construction or use of any new outlet for the discharge of any wastes into the air, waters or land of the state; or

(f) The conduct of any activity including the construction or operation of facilities which may result in any discharge into the waters of the state and for which a federal license or permit is required pursuant to the federal Water Pollution Control Act Amendments of 1972, Public Law 92-500.

The department, under such conditions as it may prescribe, shall for the review, recommendations and written approval of the director require the submission of such plans, specifications and other information as it deems necessary to carry out the provisions of sections 81-1501 to 81-1532 or to carry out the rules and regulations adopted pursuant to the provisions of sections 81-1501 to 81-1532. When deemed necessary by the director, such plans and specifications shall be prepared and submitted by a professional engineer duly registered to practice in the State of Nebraska.

(3) If within thirty days of the receipt of plans, specifications or other information required pursuant to this section the department determines that the proposed construction, installation or establishment will not be in accordance with the requirements of sections 81-1501 to 81-1532 or applicable rules and regulations, it shall issue a preliminary order prohibiting the construction, installation or establishment of the air, water or land contaminant source or sources. Failure of such an order to issue within the time prescribed in this subsection shall be deemed a determination that the construction, installation or establishment may proceed, if it is in accordance with the plans, specifications or other information, if any, required to be submitted.

(4) In addition to any other remedies available on account of the issuance of a preliminary order disapproving construction, installation, or establishment

and prior to invoking any such remedies, the person aggrieved thereby shall, upon request and in accordance with rules of practice and procedure of the department, be entitled to a hearing on the order. Following such hearing, the preliminary order may be affirmed, modified or withdrawn by a final order of the director which order shall be subject to review as provided in section 81-1509.

(5) Nothing in this section shall be construed to authorize the department to specify the type, design, method of installation or type of construction of any equipment of manufacturing processes, or the kind or composition of fuels permitted to be sold, stored or used.

(6) Failure by the department to issue an order pursuant to this section shall not relieve any person from compliance with any emission or discharge control requirements or with any other provision of law.

Sec. 7. That original sections 19-2107, 81-1505, 81-1509, 81-1518, and 81-1528, Reissue Revised Statutes of Nebraska, 1943, and section 81-1506, Revised Statutes Supplement, 1977, are repealed.".

MESSAGE FROM THE GOVERNOR

February 23, 1978

Mr. President, Mr.Speaker,
and Members of the Legislature
State Capitol Building
Lincoln, Nebraska

Dear Mr. President and Senators:

I am returning LB 526 with my veto and my objections thereto.

In LB 526, you change the date when the Governor must submit his budget message and recommendations to you from the 30th legislative day to January 15th of each year. For a new Governor, you have provided until February 1 to submit his message and budget recommendations.

In making such provisions, the Legislature is unnecessarily and unwisely further attempting to invade executive authority and responsibility. These new provisions in effect remove any connection between the presentation of the budget message and the conduct of legislative business - unless, of course, the Legislature itself would also agree to meet on a calendar day basis rather than a legislative day schedule.

The history of the presentation of the executive budget message shows no instance when the date such message and recommendation was delivered has hindered its thorough and timely consideration by the Legislature. Rather, the effect of these provisions would hamstring any governor as he attempts to assess budgetary needs and anticipated revenues, collect information, and prepare his budget bills.

In my estimation, after eight years of budget messages and recommendations to your body, such additional time is essential to preserve sound and conservative budgeting. I cannot accept this disregard on your part for one of any governor's most important duties and responsibilities. This is a bill for which there was absolutely no demonstrated need or demand, but which would have serious consequences for Nebraska governors far into the future.

Because of the size of the vote on passage of this bill, I assume that most will consider it easy to override this veto. In what I assume will be haste on the part of some to override with vengeance, I urge your study and debate on this matter which is not routine.

Hopefully there are one or two Senators who would care enough to investigate the negative effects of this measure on future governors before the juggernaut of the appropriations committee rolls over the body with assurances that this is a good bill. For what it is worth from the only person who has had eight years of experience in this particular area, it is a bad and ill-conceived measure.

Very truly yours,
(Signed) J. James Exon
Governor

ATTORNEY GENERAL'S OPINION

Opinion No. 196
February 22, 1978

Dear Senator Goodrich:

You have asked our opinion as to the amendment to LB 407 added by Senator Lewis on February 21, 1978. This amendment is in two parts. The first part simply increases the amount of the ordinary homestead exemptions, and we see no constitutional difficulties with

that part, and as we understand it, your question is not directed to that portion of the amendment.

The second portion of the amendment adds a new section to LB 407, which provides:

> "The provisions of this amendment shall apply to those counties that have re-evaluated the taxable property in their counties since July 1975."

With respect to this new section, we see several difficulties. First, we are not sure what it means. When it speaks of "this amendment" is it referring to the changes of section 77-202.13 which would be made by the first part of the amendment? If so, it will certainly be obscure when incorporated as a new section in the statutes, as a determination of what changes were made by "this amendment" will require an extensive search back through the legislative history of the sections in question. The same is true if "this amendment" is construed to refer to all of the changes made by LB 407, as finally passed.

It may be that the intention was to deny homestead exemptions to residents of counties which have not revalued their taxable property since July, 1975. This intention has not been expressed clearly enough so that any court could so construe it, and if it had been, it would be of very doubtful constitutionality.

Article III, Section 18 of the Nebraska Constitution forbids unreasonable classification, and this would appear to be a clear example of such classification. Presumably the purpose of such a provision would be to penalize a county for not having reevaluated its taxable property since July, 1975. This penalty, however, is not imposed upon the county, as such, or even all the taxpayers of the county, but only upon an arbitrarily selected portion of the taxpayers, being those who would otherwise be entitled to a homestead exemption. We can see no rational justification for penalizing this particular class of taxpayers, so if that is what the amendment was intended to do, we have grave doubts as to its constitutional validity.

Very truly yours,
PAUL L. DOUGLAS

Committee Vote: For: (7) Senators Savage, Burrows, Koch, Moylan, Murphy, Cope, and Mills. Against: None. Excused and Not Voting: (5) Senators Marsh, F. Lewis, Labedz, Dworak, and Rasmussen. Absent and Not Voting: (1) Senator DeCamp.

*Explanation of advancement of Dr. A. B. Pittman's name for confirmation by the full Legislature.

Dr. A. B. Pittman failed to submit a Statement of Financial Interest as required by the Nebraska Political Accountability Act.

On a motion by Senator Koch, seconded by Senator Mills it was recommended that all persons names, including Dr. Pittman's should be submitted to the full Legislature for consideration.

This motion was amended to state that clarification of the requirements for filing a Statement of Financial Interest be requested from the Political Accountability Commission.

The motion as amended was approved by all committee members in attendance.

We then sent a letter to the Commission and received the following reply which will be quoted:

> "Even though his refusal or failure to so file may constitute a violation of the Act, it is submitted that the body having the power of confirmation is not prohibited from confirming the appointment. However, there may be other legal issues upon his attempting to assume the duties of his office, with or without confirmation under such circumstances, such as whether any governmental actions he takes or participates in as such officer are valid."

After receiving this opinion from the Political Accountability Commission, I canvassed the entire committee and was authorized to submit Dr. Pittman's name to the Legislature, 11 in support to 2 opposed.

Dr. Pittman was reappointed to the Board of Health on July 27, 1977 for a term scheduled to expire on September 14, 1978, he has been serving on the Board without legislative confirmation of his reappointment since July 1977.

ATTORNEY GENERAL'S OPINION

Opinion No. 197
February 23, 1978

Dear Senator Maresh:

This letter is in response to your inquiry concerning whether the Department of Roads pursuant to section 60-1308, R.R.S. 1943, has the authority to require any truck to deviate from its normal route to be weighed at a state scale. If the Department does have this power, you have asked at what distance would trucks not be required to deviate from their normal course.

Weighing stations were created by the Legislature for the expressed purpose of promoting public safety, preserving and protecting the state highways and bridges, preventing immoderate and destructive use of the same, and to enforce the motor vehicle registration laws. Department of Roads' personnel designated as peace officers to operate weigh stations have the authority to enforce the laws relating to size, weight, load, and registration of said vehicles, buses, motor trucks, truck-tractors, and trailers.

Section 60-1308, states:

> "The driver of any towed vehicle, motor truck, truck-tractor, or trailer, who shall fail to stop at or who shall knowingly pass or by-pass any state weighing station, when the same is open and being operated by peace officers,. . . .shall be deemed guilty of a misdemeanor. . . ."

The question then becomes whether failure to deviate from a normal route constitutes knowingly passing or bypassing a state weigh station. This question has never been addressed by the Legislature in adopting or amending this section. General rules of construction require words and phrases be construed according to the common and approved usage of the language.

Webster's Dictionary defines bypass as: "moving by an indirect or side path, or to go around." Knowingly implies a cognitive act. Therefore, applying those definitions, it would appear to be a violation of this section to travel around or by an indirect path and in so doing, purposefully, bypass or avoid a state weigh station.

As long as the driver of a specified vehicle does not plot his course so as to take a path which he knows will bypass the state weigh station he may plan his business course and it is not required that he deviate

from his intended route, nor can the Department of Roads require him to deviate from his route. Whether a driver has intentionally avoided a weigh station is a subjective determination, to be made by the peace officer, based on the facts in each case.

Sincerely,
PAUL L. DOUGLAS
Attorney General

Sec. 7. It is the legislative intent that funds made available by this act shall be used to supplement and not replace existing funding for the same purposes and that the money in the fund be expended in each year adhering as closely as possible to the percentages specified below:

(1) Eighty per cent of the fund shall be allocated to counties and municipalities equally and shall be distributed based on the same criteria as distributions made under

the Highway Allocation Fund; and

(2) Twenty per cent of the fund shall be allocated to eligible public agencies that apply either grants or loans for (a) the planning, design, construction, operation, and maintenance or recycling projects, and (b) research, study, and the exploration of new techniques aimed at reducing littering and encouraging recycling.

The Department of Revenue shall establish guidelines relative to the eligibility of such agencies, which guidelines shall be consistent with the policy and purposes of this act.

Sec. 8. This act shall become operative on January 1, 1979, and shall cease to exist on December 31, 1982.".

TWENTY-EIGHTH DAY

Legislative Chamber, Lincoln, Nebraska
Monday, February 27, 1978

Pursuant to adjournment, the Legislature met at 9:30 a.m., Mr. Marvel presiding.

PRAYER

The prayer was offered by the Chaplain.

Father in Heaven, there are 49 people gathered here from various and sundry reasons. In each of them, there is a variety of motivation. Each of them represents a variety of people with a variety of needs.

Help these 49 to clarify in their own minds their chief motivating force.

Let them come to grips with the will to power, financial enchantment, a feeling of fulfillment, prominence, and service. Help them to admit to themselves when their motivation is selfish. Help them see that while all of these motives may well be there, their genuine concern for their neighbors must be paramount.

And let their Chaplain keep in mind that it may well be that these 49 are the good sheep that the Good Shepherd left to go in search of the one, the 50th member. Amen.

The roll was called and all members were present except Messrs. Hefner and Luedtke who were excused; and Messrs. Burrows, F. Lewis, and Newell who were excused until they arrive.

February 23, 1978

Dear Senator Maxey:

You have asked whether LB 407, as amended, would extend the homestead exemption to mobile homes. We conclude that it would. Section 1 of LB 407 would amend section 77-202.12, R.R.S. 1943, to read in part as follows:

> "As used in sections 77-202.12 to 77-202.22, unless the context otherwise requires:
>
> "(1) Homestead shall mean either (a) a residence or mobile homes and the land surrounding it, not exceeding one acre, in this state actually occupied as such by a natural person who is the owner of record thereof as of January 1 in each year, or (b) a residence or mobile homes permanently affixed to land leased by the owner of the residence which lease extends for at least the entire year for which the exemption is claimed, which is located within this state and is actually occupied by the person who is the owner of record as of January 1 in each year, or is so occupied by the surviving spouse and minor children, if any, of such owner of record, or so much thereof as shall be so occupied: . . ."

The language of the act clearly extends the homestead exemption to mobile homes. (We note, incidentally, that in the above quoted section of LB 407, the term "mobile homes" should be put in the singular, to conform to the rest of the sentence.) The question arises as to whether Article VIII, Section 2, of the Nebraska Constitution authorizes the homestead exemption to mobile homes. This section provides in part:

> ". . . The Legislature may by general law provide that a portion of the value of any residence actually occupied as a homestead by any classification of owners as determined by the Legislature shall be exempt from taxation."

A discussion of the type of property to which a homestead may attach is found in 40 Am.Jur.2d 135, Homestead, Section 30, where we find:

"The question whether the homestead right may be asserted with respect to a building, independent of the land upon which it is erected, has produced conflicting decisions. Some authorities hold that the claim of homestead is not sustainable in such circumstances; other have adopted the view that if the head of a family owns a house and occupies it with his family, although he owns no interest or estate in the land on which it stands, it is the home of the family, and is embraced in the spirit and purpose of the homestead law. It has been held, though not without exception, that in view of the policy of the homestead laws to secure to the householder a home, a homestead may be claimed in a dwelling house owned by the claimant and located on property leased by him.

"A house trailer is a sufficient type of property to support a homestead where it is affixed to the ground but not where it rests on land but is not attached thereto."

It may be argued that the voters, in approving the constitutional provision quoted above, had in mind the ordinary meaning of "homestead," and intended it to apply only to real estate, or, at least, intended the limitations discussed in American Jurisprudence to apply. However, we need not decide that question, because another provision of Article VIII, Section 2, of the Constitution would clearly cover mobile homes, even if they do not strictly come within the ordinary meaning of "homesteads." This provision is:

". . . The Legislature may classify personal property in such manner as it sees fit, and may exempt any of such classes, or may exempt all personal property from taxation. . . ."

It certainly would be reasonable classification to provide the same exemption to mobile homes occupied as residences as is given to ordinary residences, and the exemption can be sustained under the last-quoted constitutional provision, even if there is some doubt as to the applicability of the first.

The same considerations apply to your question concerning dwellings occupied on leased land, but we wish to point out one area which might cause some difficulties, with respect to both mobile homes and other residences located on leased grounds. The amendatory language of LB 407 requires both the residences and the mobile homes to be "permanently" affixed to the land (even though the lease may be for only a year). The general law is that anything permanently affixed to land becomes a part of the land, and becomes the property of the owner of the land. The theory by which the owner of a mobile home or other residence can retain an ownership interest in the mobile home

or residence is that they are not permanently affixed to the land, but can be removed at the expiration of the lease.

Therefore, if the bill is passed with the word "permanently" in the language we have quoted, it may be successfully argued that the mobile home or residence does not qualify, because it is not permanently affixed to the land, and that if it is permanently affixed to the land, the leasee who affixed it is no longer the owner, and that it now belongs to the lessor, and, again, does not qualify for the exemption.

Very truly yours,
PAUL L. DOUGLAS

(c) The date of expiration of the monthly period for which premiums were paid in the event of a nonpayment of premium; or

(d) The date the terminated employee exercises the privilege provided under the group policy or contract for conversion to an individual or family policy or contract;

(2) The monthly premium rate charged for such coverage shall be the same as the total rate which would have been charged had the terminated employee still been employed. The experience of such coverage shall be charged to the group policy or contract which is in force; and

(3) The interruption of employment due to a labor dispute shall not be considered to be an involuntary termination of employment.

Sec. 2. Not later than ten days following the date of termination of employment of the employee, the employer shall send a notice by certified mail with return receipt requested to the terminated employee at his or her home address as shown on the records of the employer. Such notice shall set forth: (1) The right of the terminated employee to elect to continue coverage in accordance with

section 1 of this act and the election form to be used in exercising such right; (2) the amount of monthly premiums; and (3) the manner and time in which the election form must be completed and returned and the premiums must be paid.

Sec. 3. If the terminated employee elects to continue such coverage, the election form and the first monthly premium shall be sent by certified mail with return receipt requested to the employer within ten days after the date of receipt of the notice. Premiums shall be paid to the employer unless the group policy or contracts is terminated after the termination date of the terminated employee and is not replaced by another group policy or contract, or by a self-insured plan. In such event, premiums shall be submitted by the terminated employee to the insurance company or health maintenance organization after receipt of notice from such company or organization. The employer shall notify the insurance company or health maintenance organization of the names, addresses, and premium payments of all terminated employees within ten days after termination of the group policy or contract.''.

ATTORNEY GENERAL'S OPINION

Opinion No. 201
February 27, 1978

Dear Senator DeCamp:

We are in receipt of your letter of February 7, 1978, wherein the Banking, Commerce & Insurance Committee requests an opinion setting forth authority for creation of a "Consumer Protection Agency" within the office of the Attorney General. We first wish to state that the term "agency" has never been utilized by this office either formally or informally. We do have a "Division of Consumer Protection" to which certain staff members have been assigned and whose duties are to enforce those laws dealing with the purchase and sale of goods and services to Nebraska residents.

Article 4, Section 1 of the Nebraska Constitution reads in part as follows:

> "The executive officers of the state shall be the Governor, Lieutenant Governor, Secretary of State, Auditor of Public Accounts, Treasurer, Attorney General and the heads of such other executive departments as set forth herein or as may be established by law. . . . Officers in the executive department of the state shall perform such duties as may be provided by law." (Emphasis added)

The Division of Consumer Protection has as its primary function enforcement of the Nebraska Consumer Protection Act, Section 59-1601, et seq., R.S.Supp., 1976, (hereinafter referred to as the N.C.P.A.), and the Uniform Deceptive Trade Practices Act, Section 87-301 et seq., R.S.Supp., 1976, (hereinafter referred to as the U.D.T.P.A.). This office has placed special emphasis on enforcement of the N.C.P.A. and in particular Section 1602 which reads:

"Unfair methods of competition and unfair or deceptive acts or practices in the conduct of any trade or commerce shall be unlawful."

Section 1608 of the N.C.P.A. authorizes the attorney general to initiate legal actions to restrain prohibited acts. That section reads as follows:

"(1) The Attorney General may bring an action in the name of the state against any person to restrain and prevent the doing of any act prohibited by sections 59-1601 to 59-1622; and the prevailing party may, in the discretion of the court, recover the costs of such action including a reasonable attorney's fee.

(2) The court may make such additional order or judgments as may be necessary to restore to any person in interest any money or property, real or personal, which may have been acquired by means of any act prohibited in sections 59-1601 to 59-1622."

Sections 59-1610 and 1611 of the N.C.P.A. additionally and specifically authorizes action by the attorney general.

The U.D.T.P.A. also authorizes action by the attorney general. Section 87-303.05 of that act provides:

"Whenever the Attorney General has cause to believe that a person has engaged in or is engaging in any deceptive trade practice or unconscionable act listed in section 87-302 or 87-303.01, he may apply for and obtain, in an action in any district court of this state, a temporary restraining order, or injunction, or both, pursuant to the rules of civil procedure, prohibiting such person from continuing such practices, or engaging therein, or doing any act in furtherance thereof. The court may make such orders or judgments as may be necessary to prevent the use or employment by such person of any such deceptive trade practice, or which may be necessary to restore to any other person any money or real or personal property which may have been acquired by means of any such practice.

When the Attorney General has authority to institute a civil action or other proceeding pursuant to the provisions of sections 87-301 to 87-306, in lieu thereof, he may accept an assurance of

discontinuance of any deceptive trade practice or unconscionable act listed in section 87-302 or 87-303.01. Such assurance may include a stipulation for the voluntary payment by the alleged violator of the costs of investigation by the Attorney General and of any amount or amounts necessary to restore to any person any money or real or personal property which may have been acquired by such alleged violator by means of any such practice. Proof by a preponderance of evidence of a violation of such assurance shall constitute prima facie evidence of a deceptive practice as listed in section 87-302 or 87-303.01 in any civil action or proceeding thereafter commenced by the Attorney General."

Additional authority is specifically granted to the attorney general in Sections 87-303.02 through 303.04 of the U.D.T.P.A.

In faithful performance of the constitutional duties imposed by Article 4, Section 1, members of the staff have been directed to investigate and prosecute violations of the N.C.P.A. and the U.D.T.P.A. For the sole purpose of office organization, three staff members are assigned to the "Division of Consumer Protection." They are: (1) An attorney who spends approximately 60% of his time on consumer protection matters; (2) a parttime investigator; and, (3) a parttime secretary.

While the U.D.T.P.A. was substantially amended in 1974 by LB 327, which bill was part of a package of consumer protection legislation offered by Senator Waldron, it does not in any manner create a consumer protection agency. Neither does the N.C.P.A. which was also passed in 1974. Both of these Acts, however, authorize the attorney general to investigate and prosecute unfair and deceptive practices.

We thus would state in response to your letter that it is our belief that you have erroneously presumed that this office has "created a Consumer Protection Agency." Staffing and designation of a "Division of Consumer Protection" was done with intent to faithfully and vigorously enforce statutes enacted by the Legislature prohibiting certain acts and practices in the purchase and sale of goods and services.

We trust this is in full response to your request. Please advise if we can be of further assistance.

Very truly yours,

EIGHTY-FIFTH LEGISLATURE
SECOND SESSION

THIRTIETH DAY

Legislative Chamber, Lincoln, Nebraska
Wednesday, March 1, 1978

Pursuant to adjournment, the Legislature met at 9:03 a.m., Speaker Luedtke presiding.

PRAYER

The prayer was offered by the Chaplain.

> Almighty God, before whose face the generations of men rise and pass away, we thank you for this day for the opportunity of celebrating the birthday of our State. We remember in gratitude this native land—and all who have sacrificed so much to keep her strong and right.
>
> We are thankful that our land was born and nurtured in liberty, and that those who settled on these plains were men and women who desired the opportunity to build here a better place in which all could live together in harmony and justice.
>
> We are thankful that when there have been dangers before our State there have been those who have risen to defend her—placing their State's welfare above private gain.
>
> So may this Nebraska celebration remind us anew of the importance of a continuing heritage, served by the Senators here and those who assist them, and by all the people of the State, that together we may have a sense that this land is not only our land, but Your land, of the people, for the people, and by the people. BILL ON FIRST READING

The following bill was read for the first time by title:

LEGISLATIVE BILL 691A. By George, 16th District.

A BILL FOR AN ACT to appropriate funds to aid in carrying out the provisions of Legislative Bill 691, Eighty-fifth Legislature, Second Session, 1978.

UNANIMOUS CONSENT - Print in Journal

Speaker Luedtke asked unanimous consent to print the following on Statehood Day in the Journal. No objections. So ordered.

"FOCUS ON NEBRASKA"
A photographic essay
by James Denney

This is a photo show about Nebraska — it's people and places.

There are 56 photographs, each measuring 11 inches by 14 inches and each is contained in a 16 inches by 20 inches frame. Each photograph has a title. The community where or near where the photograph was taken is listed along with the date.

The show is Nebraska as it appears and has appeared over the past 20 years. Most of the photographs — taken in color and black and white — were published in The Omaha World-Herald's Sunday Magazine of the Midlands. They were used to illustrate stories about Nebraska and Nebraskans.

The lone exception is a black and white shot of Nebraska-born movie actor Henry Fonda talking to Director George Marshall on the set of "How The West Was Won". This picture was shot in South Dakota's Black Hills during the filming of the movie.

All of the rest were taken in Nebraska. They range from the reflection of lights on the Missouri River at South Sioux City during Rivercade to a game in Memorial Stadium in Lincoln to high clouds over Chimney Rock near Bayard. You see Johnny Carson back home. There's a meadow lark on a fence post at Fort Robinson and a "Big Red Machine" — a combine — rolling through a wheat field near McCook. There's the peace and quiet of a lazy fall day at Santee.

The show opened in the Stuhr Museum of the Prairie Pioneer in March 1976, as a bicentennial project. It then was put on the road, sponsored by Stuhr, for exhibiting in other museums, libraries and locales across the state.

Last year on Statehood Day (March 1, 1977) in recognition of Nebraska's 110th anniversary of Statehood, the exhibit was shown in the National Visitors Center in Washington, D.C., with members of the Nebraska Congressional delegation and other Nebraskans present for the showing.

Later, it was moved to the National Heritage Theatre near the White House for a special two-week showing.

The exhibit has been showing in Nebraska at the following places: Gage County Museum, Beatrice; Holdrege Public Library; Plainsmen

Museum, Aurora; Ralston Public Library; Imperial Public Schools; The Mall Shopping Center, North Platte; First National Bank, Fairbury; Gene Eppley Library, University of Nebraska - Omaha; Scottsbluff Public Library; Thayer County Museum, Belvidere; Art Gallery, Doane College, Crete; Lincoln Public Library; University of Nebraska - Lincoln East Campus Student Union; Westroads Shopping Center, Omaha; Student Union, Kearney State College; Art Gallery, Dana College, Blair, Nebraska; Palisade Public Library; Dawson County Museum, Lexington; Art Gallery, Brownvillve.

The exhibit in the Statehouse on March 1, 1978, in honor of the State's 111th Anniversary, will mark the end of the exhibit's tour.

VISITORS

The President introduced Mary Raff and Marie Cook from Omaha; 47 1st grade students, teachers and parents from Meadow Lane Elementary School, Lincoln; 23 pre-school students, teachers and parents from Waverly; 15 senior students and instructor from the Modern Problems Class, Giltner Public School, Giltner.

Thursday, March 2, 1978

Pursuant to adjournment, the Legislature met at 9:03 a.m., President Whelan presiding.

PRAYER

The prayer was offered by the Chaplain.

> Our Father, into the calm and confidence of Thy presence we would bring our drained and driven souls that the benediction of Thy peace may fall upon our restless lives. In this difficult year of many decisions, be Thou our pillar of cloud by day and our fire by night, as patiently and obediently we strive to follow the light which Thou hast placed within each of us.
>
> Save us from living on a small scale in a great day, from toying with the tiny when we ought to be lured by the titanic. In these days of decision, be swift our souls to answer Thee, be jubilant our feet! So through our actions may Thy purposes be furthered. In Thy name. Amen.

LEGISLATIVE JOURNAL

LEGISLATIVE JOURNAL

EIGHTY-FIFTH LEGISLATURE
SECOND SESSION

THIRTY-SECOND DAY

Legislative Chamber, Lincoln, Nebraska
Monday, March 6, 1978

Pursuant to adjournment, the Legislature met at 9:30 a.m., President Whelan presiding.

PRAYER

The prayer was offered by the Chaplain.

> Dear Lord, we thank you for the leisure time which has been ours during this past weekend, the time we have spent with families and friends, the opportunity to be away from the busy-ness and the business of this chamber. We pray that such weekends can be opportunities for lifting our eyes above the immediate and seeing the larger horizons of tomorrow. Day by day, for these past weeks, just as our state has been deluged by snow and ice, by cold and fog, and it seems at times that winter might never end, so also in our lives as Senators we are deluged by bills and decisions, by conversations and pressures, so that it seems the end will never come.
>
> Yet, here we are, in the second half of this session. May we find in it not just the down-hill time of our dedication, but a heightening of our sensitivities to the issues that are before us, an enlarging of the friendships with one another, a formulating of the decisions that are required of us, and a fulfilling of the dreams that brought us to this place: to serve you and the people of this state to the best of our abilities. In our Master's name. Amen.

ROLL CALL

The roll was called and all members were present except Mr. Barnett who was excused; and Messrs. Chambers, F. Lewis, Merz, Murphy, and Schmit who were excused until they arrive.

(b) Dewatering of an aquifer, resulting in a deterioration of the quality of such ground water sufficient to make such ground water unsuitable for the present purposes for which it is being utilized;

(c) A reduction in the flow of any natural stream to the extent that then vested surface water appropriations or other beneficial uses of water recognized by state law would be significantly and adversely affected; or

(d) Other conditions exist which require that the area be designated as a control area for the protection of the public welfare.

In making such determinations the director's considerations shall include, but not be limited to, a finding ~~of the existence of any of the following conditions: (a) Conflicts~~ that conflicts between users are occurring or may be reasonably anticipated, ~~;~~ or that substantial ~~(b) Substantial~~ economic hardships exist or are foreseeable as a direct result of current or anticipated ground water development or utilization. ~~decline; or~~

The board of directors shall report such information to the director with a request that a hearing be held to determine if a control area should be established. The request shall be accompanied by a general description of the area proposed for inclusion in such control area.

Such additional area shall not be included in the control area unless any such other district consents in writing to such inclusion within sixty days of such notification by the director. THIRTY-THIRD DAY - MARCH 7, 1978

LEGISLATIVE JOURNAL

EIGHTY-FIFTH LEGISLATURE
SECOND SESSION

THIRTY-THIRD DAY

Legislative Chamber, Lincoln, Nebraska
Tuesday, March 7, 1978

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Whelan presiding.

PRAYER

The prayer was offered by the Chaplain.

> Dear Lord, just as a turtle never makes progress until it sticks it's neck out, so may we realize that we often have to stick out our necks: in standing up to the pressure groups, in resisting the temptation always to side with our friends, in wanting to take the easy way, or trying to be popular. May our vision of what this state can yet become make us more willing to be vulnerable to criticism when we know our beliefs to be right, so that when this session may end, though we may not have always sided with the majority, we may know that we have done our best, and stuck to our guns, have stood for our convictions, and thus merited your benediction: "Well done, good and faithful servant." Amen.

COMMUNICATION

Department of Agriculture

March 2, 1978

Mr. Patrick J. O'Donnell
Clerk of the Legislature
Legislature of Nebraska
State Capitol
Lincoln, NE 68509

RE: LR 168

Dear Mr. O'Donnell:

Pursuant to the provisions of the above-entitled Legislative Resolution, the following report is hereby presented to the Nebraska State Legislature:

A. Only surveillance procedures have been taken by the Department of Agriculture to implement LB 335, First Session, Eighty-Fourth Legislature of Nebraska, 1975. This surveillance is done at the time of regular grocery store inspection.
B. During the Legislature's consideration of LB 335, the Department was asked to submit a fiscal note advising the Legislature of the potential cost involved in implementing LB 335. This was done, and an approriations bill was introduced by Senator Burrows. Subsequently, on April 8, 1975, Senator Burrows asked to withdraw the "A" bill. This was done by a vote of 30/0/19. (See Legislative Journal, 1975, at page 1187.)

The primary effect of the above-described action was to render our Department unable to proceed with implementation of LB 335, inasmuch as funding was essential to implementation of the intent and purposes of the bill. Secondly, such action indicated a legislative intent not to proceed at that time with implementation of the bill. Certainly, no intent to the contrary was ever forthcoming from the Legislature. No appropriations have subsequently been made to the Department.

While consideration of the constitutionality of LB 335 was rendered unnecessary by the lack of needed funding, should funding become available in the future, due consideration should be given to this aspect of the bill, since it involves an effect on interstate commerce in an area regulated federally.

Should further information be desired regarding this matter, please advise.

Sincerely,
Department of Agriculture
(Signed) Roger Sandman,
Director

RESOLUTION

LEGISLATIVE RESOLUTION 177.

Introduced by George, 16th District; Rasmussen, 41st District; Stoney, 4th District; Nichol, 48th District.

WHEREAS, the statutes of Nebraska appear to contain discrepancies relating to election laws as well as the requirements and restrictions of the candidacy of persons holding more than one office; and

WHEREAS, these apparent discrepancies raise the question of whether an elected official may hold more than one office concurrently; and

WHEREAS, state election laws would appear to be unclear as to how many times the name of a candidate may appear on a single ballot; and

WHEREAS, apparent lack of clarity in Nebraska law controlling these situations might foster conflicts of personal interest by office holders.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Legislature's Committee on Government, Military and Veterans Affairs perform an interim study of Nebraska statutes relating to elections and other provisions relevant to members of boards, commissions and other public officers holding more than one office at any given time.

2. That the committee examine the possibilities for conflicts of interest by any public officer serving on more than one board or commission concurrently.

3. That the committee make a report of its findings together with its recommendations for statutory revision to the next regular session of the Legislature.

Referred to the Executive Board.
