ATTORNEY GENERAL'S OPINIONS

Opinion No. 203
March 9, 1978

Dear Senator DeCamp:

You have asked us several questions with regard to the operation of the Nebraska State Patrol. We will answer those questions in the order in which you have asked them.

Your first question is: are civilian employees of the Nebraska State Patrol required to be bonded under section 60-432. Section 60-432 provides:

> "The superintendent, also designated as colonel, shall, with the approval of the Governor, appoint such subordinate officers of the Nebraska State Patrol as lieutenant colonel, majors, captains, lieutenants, sergeants, corporals, patrolmen, and such other employees as may be necessary to carry out the provisions of this act. The salaries of all such appointees shall be fixed by the superintendent, with the approval of the Governor. All such appointees shall give bond in the penal sum of two thousand dollars for the faithful performance of their duties; and bonds shall be approved and filed in the same manner as bonds of other state officers. Premiums on all of such bonds shall be paid from the fund appropriated to the Nebraska State Patrol."

In reading this section it would seem clear that all employees of the patrol are required to be bonded, since the superintendent is authorized to appoint them with the approval of the Governor and they are appointees under the terms of this particular provision. The sentence which provides that all appointees shall give bond would appear to apply to civilian employees of the Nebraska State Patrol.

This provision has been in the statutes of the State of Nebraska since at least the 1943 revision of the statutes in its present form. During that entire period of time no civilian employee of the Nebraska State Patrol has been covered by an individual $2000 bond. Under other provisions of the statute such employees are covered by a blanket bond covering all state employees in the penal sum of one million

dollars. There is authority for such a blanket bond for state employees. See section 11-201, 35 seq.

It is clear then that the Nebraska State Patrol has taken the position that the only persons required to be bonded under section 60-432 are those persons who are actually commissioned as state deputy sheriffs and thus effectively are law enforcement officers within the State of Nebraska. This definition by the agency over an extended period of time excludes as a matter of course all persons who are not so commissioned. This would include legal counsel, secretaries, professional persons working in the state laboratory and other associated persons employed in any respect by the Nebraska State Patrol but not commissioned as deputy state sheriffs.

While a strict reading of the statute would seem to indicate that this is not a proper result, the Nebraska Supreme Court has recognized in several cases that a construction placed on the statute which has prevailed over a long period of time and been recognized will not be disregarded. In Kennedy v. Royal Highlanders, 109 Neb. 24, 189 N.W. 613, and State v. Sheldon, 79 Neb. 455, 113 N.W. 208, the Nebraska Supreme Court has indicated that a construction placed upon a statute contemporaneously, uniformly and over a long period of time will generally be upheld. We believe that that is a situation that pertains in this particular instance at a minimum. The intent of this particular statute as we view it was that a penal bond be available for the faithful execution of the office of the state deputy sheriff commissioned as such under the authority of the state. The other bonding provisions of the statutes clearly encompass the idea that persons other than those specifically required to be bonded should be covered by a similar bond. Those individuals including members of the Nebraska State Patrol are covered under the Nebraska blanket bond, thus while strict compliance may arguably be absent, it is clear that employees are covered by a bond. It is also likely that should the issue ever arise, the courts would recognize the long continued construction of this statute as it regards noncommissioned employees of the Nebraska State Patrol.

Your second question is: does any other statutory authorization for hiring civilian employees exist? If so, are such employees exempted from the bonding requirements found in section 60-432. Section 81-101 provides that the civil administration of the laws is vested in the Governor who may execute those laws under the various departments of state government including the Department of Roads. The Nebraska State Patrol is under the Department of Roads. Section 81-107, R.R.S. 1943, authorizes the Governor to appoint in each

department deputies, assistants, employees and clerical help. The general power authorizes the employment of such persons as may be necessary to the functioning of the various departments. No specific bonding requirement is set forth within this statute, although under the general bonding provisions of Chapter 11 referred to above, a bond would undoubtedly be required of these individuals.

In your next question you ask whether an agreement signed by cooperating indivuduals employed by the Nebraska State Patrol has been approved by our office as to form and substance. Our office has not approved the agreement referred to above as to form or substance. Nor is the agreement referred to above one which is required by statute to be provided to our office for approval.

You have asked a following question which in general asks whether the particular agreement referred to above offers the state complete legal protection from suit or other legal actions arising out of:

a. Physical injury to a cooperating individual while on duty

b. Injury to person or property due to negligence or illegal acts on the part of a cooperating individual while on duty, or

c. Tax liability of the state for wages paid to the cooperating individual while under state employment.

As an initial matter of course no agreement of any sort will ever protect any person or any entity from a suit or other legal action. A lawsuit may be filed for any reason or no reason. The question which must be addressed is whether or not under the particular facts of a particular lawsuit is there a complete defense to that lawsuit precluding the possibility of putting on any evidence. That question, of course, can only be answered in the context of a particular factual situation. As such, it would be impossible for us to tell you whether any physical injury might give rise to a cause of action against the state, either to a cooperating individual or to another person because of acts of a cooperating individual.

In the final part of your question, you ask whether or not the state is liable for withholding on wages paid to cooperating individuals while under employment by the state. As you are aware at this time, the Nebraska State Patrol has requested an advisory opinion from the Internal Revenue Service on this specific question. It is my understanding that you have received a copy of the letter requesting the opinion of the Internal Revenue Service dated January 17, 1978, from Steven J. Shaw, legal counsel for the Nebraska State Patrol, to the District Director of the Internal Revenue Service and the reply of the District Director dated January 26, 1978. That letter sets forth an official ruling on the part of the District Director of the Internal

Revenue Service that Nebraka State Patrol cooperating individuals and informants are not employees for purposes of social security taxes under the Internal Revenue Code, unemployment taxes under the Internal Revenue Code or withholding taxes under the Internal Revenue Code. That, of course, is the office which is under law charged with making that determination. We fully concur in their determination in this regard.

Very truly yours,

Opinion No. 204
March 9, 1978

Dear Senator Goodrich:

LB 436 of the Eighty-fifth Legislature, as presently drafted on final reading, would establish a Nebraska Legal Information Center. It would prepare legal research and answer questions submitted by judges, prosecutors, and public defenders under a contract with the Department of Administrative Services who would also supervise its operation. An appropriation would be made from the General Fund in the amount of $130,000 to carryout its provisions. You have asked if it is constitutionally sound for the State of Nebraska, through the Department of Adminstrative(sic) Services, to contract, perhaps with a private entity, for the services enumerated.

The Department of Administrative Services performs many invaluable services and performs them well. But it is difficult, if not impossible, to imagine that it has the competency and the expertise to supervise the operation of providing legal research to judges, prosecutors, and public defenders across the State of Nebraska. However, even if it were assumed that it possessed the necessary competency and expertise to do so, LB 436 produces some very serious conflict of interest questions. For example, on what basis would the Nebraska Legal Information Center provide the services enumerated in section 3 thereof. If it provided the services on a first come first serve basis and a county attorney first contacted the Nebraska Legal

Information Center regarding a case, then neither the court nor the public defender could be serviced by the Center on the same question. In effect, the state may thus be providing very considerable support for one side or the other based only on which side requests the assistance first.

There is the propriety of third-party contracts to judges during the course of a judicial proceeding. It is not at all clear if it would be proper for a judge to receive such research under Canon 3(a) (4) of the Code of Judicial Conduct. It is acknowledged that the Amercian(sic) Bar Association's Ethics Committee has suggested that the judiciary should not be prohibited from using such a service, as long as the judge informs the parties that such research is being done. But if the judge may use the service, then neither the county attorney nor the prosecutor could be serviced by the Center on the same question.

There are undoubtedly other important issues but because of the very limited time afforded us to research this matter the same can only be dealt with at another time. However, we believe that the matters herein discussed are sufficient to warrant a finding that LB 436 may violate the doctrine of separation of powers which is quaranteed by the Constitution of the United States and the Constitution of Nebraska. If not, it would at the very least produce some very serious conflict of interest questions and thereby create unnecessary problems of insuring that the accused is provided with a fair trial.

Very truly yours,
PAUL L. DOUGLAS

UNANIMOUS CONSENT - Print in Journal

Mr. Carsten asked unanimous consent to print the following in the Journal. No objections. So ordered.

The attached document constitutes the final report of the special committee created by LR 87. This Resolution sought a comprehensive study of the Unicameral committee system with special emphasis on efficiency and workload.

The Committee on LR 87, in order to aid its deliberations, requested a detailed report be prepared analyzing workload of each Select and Standing Committee during the years 1974 through 1977. This report was presented to the Committee on November 18, 1977. At this time, members were requested to draft ideas to be discussed at the December meeting. Several members responded to this request and on December 22, 1977, a committee working draft was prepared.

The membership of the Committee on LR 87 found it extremely difficult to meet due to other committee conflicts. As a result of this a subcommittee of four was appointed to draft recommendations to be presented to the full committee. The members of the subcommittee drafted the attached report which the Committee now presents for your consideration.

I do want to make this statement relative to our Committee, that all those that supported bringing it to the Floor for consideration are not necessarily in support of the recommendations, but were willing to vote to bring it to the Floor for consideration.

The vote to refer this report to the Floor for consideration was seven ayes, two nays and one not voting.

(Signed) Calvin Carsten, Chairman

ATTORNEY GENERAL'S OPINION

Opinion No. 205
March 9, 1978

Dear Senator Keyes:

You have asked whether a local school board may levy .04 of a mill over the authorized mill levy under section 79-548.01 to allow for payment of the collection fee assessed by the county for purposes of collecting the taxes levied by the school district. You state that you wish to make clear any problems that might exist in this area during this session.

Section 79-548.01 authorizes boards of education to establish special funds for the purposes of acquiring sites for school buildings and other purposes. The levy to raise money for this fund is not to exceed 4 mills. It is clear that taxing bodies are restricted to levying taxes by statute or Constitution to specified limits in most cases. Here, for the purpose of section 79-548.01, R.R.S. 1943, a school board in a Class III, IV, V or VI school district may levy no more than 4 mills for this purpose. Notwithstanding the fact that the county is entitled to a collection fee for purposes of collecting the tax levied by the school district, no authority exists in the school board to levy an excess over 4 mills for payment of that sum.

Any levy over 4 mills would be void. The Nebraska Supreme Court since at least 1902 has pointed out that taxes levied in excess of the constitutional limit are illegal and void. See Dakota County v. Chicago, St. P., M. & O. R. Co., 63 Neb. 405, 88 N.W. 663 (1902). It is also clear under Union Pacific Railroad Co. V. Howard County, 66 Neb. 663, 92 N.W. 579 (1902), that the void portion is only that over the levy authorized by statute.

It would appear to us that no statutory clarification is necessary in that any levy over 4 mills would be in violation of the statutory authority of the school board and void.

Very truly yours,
PAUL L. DOUGLAS

ATTORNEY GENERAL'S OPINION

Opinion No. 206
March 10, 1978

Dear Senator Rasmussen:

In a note to this office addressed March 3, 1978, you ask us "please give an opinion on LB 711." LB 711, as it originally appeared, contained a section 7. Section 7 of the original LB 711 would, in our opinion, have rendered the entire bill unconstitutional. Article IV, Section 13, of the Constitution of Nebraska provides that the Board of Pardons has the exclusive power to remit fines and forfeitures and to grant respites, reprieves, pardons, or commutations except in cases of treason and of impeachment. This power rests exclusively with the executive branch of government under our state Constitution. Section 7 of the original LB 711 would be an unconstitutional attempt to shift these powers from the executive branch of government to the legislative branch of government. This cannot be done under our current Constitution.

Our records of the Legislature indicate that section 7 of LB 711 was stricken on March 1, 1978. Such being the case, the above constitutional infirmity mentioned above would have no application to LB 711.

Our review of the remainder of LB 711 reveals no other constitutional infirmities. This conclusion is based upon what we feel is legislatively intended to be accomplished by the passage of LB 711. As we read section 2 of LB 711, that section would require the supreme court to review and analyze all cases involving criminal homicides committed on or after April 20, 1973, but does not authorize the supreme court to do anything other than review and analyze those cases. Section 3, however, does authorize the supreme court to determine the propriety of a sentence in each case involving a criminal homicide when that case is appealed to the Supreme Court of Nebraska. This section would authorize the supreme court to either affirm or modify sentences which were appealed to the supreme court only after the effective date of LB 711. Section 3 would not authorize the supreme court to modify sentences received for criminal homicides committed on or after April 20, 1973, and for which an appeal had already been completed.

If our interpretation of sections 2 and 3 of LB 711 is in accord with the legislative intent, then we see no constitutional problems with LB 711 as it has been amended.

Very truly yours,
PAUL L. DOUGLAS
Attorney General

LEGISLATIVE JOURNAL

EIGHTY-FIFTH LEGISLATURE
SECOND SESSION

THIRTY-EIGHTH DAY

Legislative Chamber, Lincoln, Nebraska
Tuesday, March 14, 1978

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Whelan presiding.

PRAYER

The prayer was offered by the Chaplain.

> God our Father, You know our needs and our ability to cope with them. You have not destined Your people or Your world for disaster or destruction. In these complex times we pray that each legislator will realize that he or she has a contribution to make. Great or small, significant or insignificant, it is a contribution without which we will be the poorer. Do not let us try to impose our morality on others but keep us always reminded that there are ideals spelled out in Your Commandments. Give us understanding for those who, in good conscience, differently interpret their scope and meaning, and for those who are unable to reach ideal standards of behaviour. However, never let us forget that there are ideals nor cease in our legislation to motivate people to higher standards. In this new day inspire us with a new confidence in ourselves and in each other and an optimism born of trust in You, God, and the basic goodness of human beings. Amen.

WHEREAS, the National Highway Traffic Safety Administration has proposed fuel economy standards for model years 1980 to 1981 light trucks below 8,500 pounds, gross vehicle weight rating; and

WHEREAS, testimony given at public hearings on these proposed standards indicates that the standards are not now technologically feasible or economically practical; and

LEGISLATIVE JOURNAL

EIGHTY-FIFTH LEGISLATURE
SECOND SESSION

THIRTY-NINTH DAY

Legislative Chamber, Lincoln, Nebraska
Wednesday, March 15, 1978

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Whelan presiding.

PRAYER

The prayer was offered by the Chaplain.

Our God and our Father, we have come to the beginning of this day burdened, bewildered, and even smothered by the many contradictory images of who we are: the supporters of this legislation or the opponents of that school of thought, representatives of our constituency or ones entrusted with leadership for our communities and state, wise beyond all human wisdom or fools without parallel in the history of legislators. The voices around us and within us say we are good or we are bad, loving or selfish, competent or powerless. We feel misunderstood by others and mocked by our own deepest convictions. How can we make wise decisions for the people of this state when we doubt our capacity to plan and act constructively for ourselves?

Help us in this moment to regain our own most basic identity, to allow You, our Creator, to tell us who we are: Your loved children, the heirs of Your eternal purposes of love, co-workers with Your Son who calls us His brothers and sisters, as well as the brothers and sisters to all the rest of humanity. In that understanding of ourselves may we find the confidence to think clearly, to decide justly, to lead courageously, and to act with loving compassion. Whoever and whatever else we may be, we are Yours. May we live in that truth this day.

In the Name of Jesus Christ, our Lord and Savior, we pray. Amen.

ROLL CALL

The roll was called and all members were present except Mr. Marvel who was excused; and Messrs. Brennan, George, Koch, F. Lewis, and Mrs. Labedz who were excused until they arrive.

CORRECTIONS FOR THE JOURNAL

The Journal for the Thirty-Eighth Day was approved.

ATTORNEY GENERAL'S OPINION

Opinion No. 207
March 13, 1978

Dear Senator Chambers:

You have inquired whether the amendments to section 29-901, R.R.S. 1943, proposed by the above noted legislative bill would permit an accused person to obtain the services of a bondsman for purposes of posting the cash fund required by section 2 of LB 556. Section 2 of LB 556, we understand, presently reads as follows:

"No defendant charged with the commission of any offense under Chapter 28, article 3, which is classified as a felony or a Class I misdemeaner shall be released from custody under section 29-901 until a judge has set an appearance bond and such defendant has deposited with the clerk of the court in cash a sum equal to the amount of the bond, . . ."

We note that section 2 of LB 556 calls for a cash "appearance bond" as opposed to a "bail bond" as described in the current section 29-901(3)(b), R.R.S. 1943.

Although we will not speculate as to the sources available for the cash bond required by the amendment here in question, we see no indication under that amendment that any person may act as a surety for the defendant. Therefore, it is our opinion that section 2 of LB 556 does not provide for the posting of an appearance bond by a surety or bondsman but requires that the full amount of the bond set be deposited in cash to the clerk of the court. However, nothing in section 2 of LB 556 would prevent anyone, including a bondsman, from providing a defendant the cash required to meet the appearance bond set by the court.

In answer to your second inquiry, we are aware of no statutory limits upon the discretion to be exercised by a bondsman in determining to whom they will provide bonding services.

Very truly yours,
PAUL L. DOUGLAS
Attorney General

MESSAGE FROM THE GOVERNOR

March 15, 1978

Mr. President, Mr. Speaker, and
Members of the Legislature
State Capitol Building
Lincoln, Nebraska 68509

Dear Mr. President and Senators:

Yesterday, as you know, LB 902, the Omaha city sales tax bill, was amended on a motion by Senator Schmit adopting an amendment proposed by Senator DeCamp to provide for a vote by the people of the City of Omaha on the increased sales tax issue unless the right to vote was taken away by a three-fourths vote of the City Council and with the approval of the Mayor.

There was a great deal of rhetoric on the floor of the Legislature concerning the "compromise" nature of this amendment.

Considerable discussion ensued maintaining that the right of the people of the City of Omaha to vote was maintained but that an escape mechanism for the City Council and the Mayor should still be provided. As I stated to you in a previous letter, I seriously question the compromise nature of this proposal.

In any event, in analyzing the Schmit-DeCamp amendment, it becomes clear that the people of the City of Omaha might not have the opportunity to vote on this issue in May even if the City Council and the Mayor agreed since the amendment requires the City Council to submit a resolution to the Election Commissioner calling for the election 50 days prior to the Primary, which would be March 20. This probably does not allow the City Council enough time to submit the question to the voters even if they desired to. We also need to work together to obtain 33 votes to enact the emergency clause.

I would suggest that if the discussion on the floor of the Legislature was truthful and the Legislature does want to at least provide the opportunity for the people of the City of Omaha to vote on this issue if the City Council and Mayor concur, LB 902 should be sent back to Select File and the 50-day provision amended to a 45-day provision, as the Dworak amendments of Monday would have done, or even to a 40-day provision which would allow plenty of time for the submission of the resolution by the City Council to the Election Commissioner.

Yours very truly,
(Signed) J. James Exon
Governor

STANDING COMMITTEE REPORT
Revenue

LEGISLATIVE RESOLUTION 155. Placed on General File.

LR 155
REVENUE COMMITTEE STATEMENT

Pursuant to LR 154 introduced by Senators Keyes, Simon, Hefner, Burrows and Newell, the Revenue Committee held a public hearing on the subject of taxation of private personal property located onteh lands of Offutt Air Force Base in Sarpy County.

Currently, privately owned personal property located on Offutt is exempt from local property taxes because exclusive federal jurisdiction over Offutt prohibits such taxation. In order for local governments to tax the personal property, the Congress would have to recede jurisdiction to the State of Nebraska.

In an effort to gather information about how much private personal property might be located at Offutt, the Committee sent a letter to 22 companies that have contracts with Offutt requesting that they provide a total accounting for property located at Offutt. Twelve of the 22 companies replied by letter to the request indicating a total of $7,790,387 worth of private personal proper;ty at Offutt. A mill levy of .08144 would apply to proper;ty at Offutt yielding potential tax revenue of $222,037. Since ten companies did not reply and since there may be other companies with property at OFfutt, the total potential tax loss can be assumed to definitely exceed $222 thousand dollars, but the exact amount is undeterminable.

In addition, the Committee requested a number of individuals and agencies to inform the Committee as to their position on retrocession

of federal exclusive jurisdiction over Offutt lands. The requests were made of Senators Curtis and Zorinsky, Congressmen Cavanaugh and Thone and Congresswoman Smith, the President, the SAC Commander, the Department of Defense and the Department of Air Force.

With the exception of Congressman Thone, who did not reply, the Nebraska Congressional delegation all indicated interest in the retrocession question. Senators Zorinsky and Curtis and Congressman Cavanaugh expressed a willingness to pursue retrocession if the information gathered suggested Nebraska is treated differently than other states.

The Department of Air Force responded to the Committee in writing for the SAC Commander, the President, the Department of Defense and the Air Force. Mr. Joe Meis, the acting Assistant Secretary, responded saying that the governments that would realize increased revenue from the retrocession action would provide no additional services to the base. Consequently, the Federal Government is opposed to retrocession because in effect the federal government would end up paying the tax, not the owners of private personal property, but gain nothingk. He further pointed out that retrocession has not taken place in any other state for the sole purpose of taxation.

The only people testifying at the public hearing were Dan Meyer, Research Assistant for Senator DeCamp, and Al Dvorak, Sarphy County Assessor.

Mr. Meyer pointed out to the Committee that in preliminary research in the spring of 1977, estimates of private personal property at Offutt exceeded $10,000,000 which would equate to almost $285 thousand of potentialtax revenue.

Both Mr. Meyer and Mr. Dvorak indicated that there are other military installations in the country that do not have exclusive jurisdiction. They further indicate that in some "spot" checking, the lease price the federal government pays for equipment at Offutt (where the equipment is not taxed) is the same as places where the equipment is taxed. They suggest that the government's arguments that "higher costs" would be passed on to them bythe private owners of the property is not true.

On a vote of 5 yeas, 0 nays, 2 passing and 1 absent, the Revenue Committee advanced LR 155 which calls on the Congress to recede jurisdiction over Offutt to the State of Nebraska for approval by the Legislature.

PRAYER

The prayer was offered by the Chaplain.

> Eternal God, Accept our thanks for this day and for the challenges and opportunities it provides. Grant that we may so live this precious bit of eternity that progress and not retrogression may result. Help us to stand fast in our convictions without being cemented in stubbornness; to be people of our word and not just wordy people; to have high hopes without being empty dreamers; and to be determined that the affairs of our state never become a sorry state of affairs. In short, O God, enable us to find solutions instead of creating problems, produce answers instead of ask questions, and provide action instead of a lot of small talk. To this end, lead and strengthen us, O Lord, our God. Amen.

WHEREAS, the Federal Energy Regulatory Commission is now the only body which has the power to regulate rates of retail suppliers of natural gas and to which Nebraska customers of natural gas suppliers may effectively address service and rate grievances; and

ATTORNEY GENERAL'S OPINION

Opinion No. 208
March 15, 1978

Dear Senator Lewis:

You have asked us the following question: Since specific dates were used in LB 33, is not the Legislature required to appropriate forty million dollars for fiscal year 1978-1979 in order to make effective the vote of the people on LB 33 in the pending referendum?

You state in your letter that the Legislature, in adopting LB 33, provided that the Legislature was to appropriate forty million dollars for the period July 1, 1978, to June 30, 1979. See, section 7(4) of LB 33. You also state that should the referendum uphold the implementation of LB 33, isn't that act of upholding LB 33 made ineffective if the Legislature fails to appropriate forty million dollars for that purpose.

You have referred to our Opinion No. 137, dated October 13, 1977, to Senators Koch and DeCamp. As we pointed out in that opinion, a general statement of the rule of law is that:

> ". . . [T]he Legislature is not precluded from acting in the area of school aid. However, any action taken by the Legislature which may interfere or make ineffective the referendum power reserved to the people would undoubtedly be found to be invalid and in violation of the Constitution."

As that opinion and other opinions of our office have pointed out, it is the prohibition against attempting to enact, amend, repeal or alter the substance of the matter to be voted upon by the people that is prohibited.

You ask whether the Legislature must appropriate the sum provided for in LB 33 for the 1978-79 year to avoid these prohibitions. The Constitution of the State of Nebraska provides in Article III, Section 22:

> "Each Legislature shall make appropriations for the expenses of the Government. . . ."

The Supreme Court, in construing this section, has held in Rein v. Johnson, 149 Neb. 67, 30 N.W.2d 548 (1947), that continuing appropriations are improper. In light of the principles set forth above, it is clear that LB 33 cannot be read to require the appropriation of a specific sum. Such a reading would violate Article III, Section 22, and

Rein. Each Legislature, within constitutional limitations, is free to fund or not fund programs established by prior Legislatures. Conversely, a subsequent Legislature can undo that which has been done by a prior Legislature in the absence of any constitutional prohibition. Here we have no such constitutional prohibition.

The Legislature is neither required nor prohibited from appropriating forty million dollars for LB 33. Such an appropriation must, of course, be contingent upon approval of LB 33 by the voters. You are, of course, correct in saying that the failure to appropriate forty million dollars as called for in LB 33 should it be approved would make the act ineffective to that extent.

The vote cannot be characterized as a referendum on the specific level of state aid to schools. Rather, it is cast in terms of the method of distribution to school districts and the propriety of increasing the level of state aid. The specific level is a question to be addressed by each Legislature annually during the process of adopting a budget. Thus, even though LB 33 envisions the expenditure of ninety-five million dollars during 1978-79, it does not act as a guarantee that such sum will be appropriated.

If no referendum had been successfully mounted, the Legislature this year would have been free to establish any level of state aid it desired. The pending referendum cannot change that fact. It simply suspends the legislative authority with respect to the particular issue subject to referendum until the vote of the people has been held. Thus, the referendum only prohibits the expenditure, prior to vote, of funds above the preexisting and unchallenged level. Thus, the referendum defers legislative authority--it does not eliminate that authority.

Sincerely,
PAUL L. DOUGLAS
Attorney General

Opinion No. 209
March 15, 1978

Dear Senator DeCamp:

You have asked us whether LB 663, which appropriates forty million dollars to be held in escrow for the purposes of LB 33 if the voters in November approve LB 33, violates any constitutional prohibitions or whether this bill would interfere with the outcome of the election in any way. We have substantially addressed the constitutional question that you have raised in our opinion to Senator Frank Lewis, dated March 15, 1978. We attach a copy of that opinion to this letter in response to that portion of your question.

The second part of your question is whether or not this bill would interefere(sic) with the outcome of the election in any way. That question is essentially political in nature. We will not address the political aspects of that question. However, we point out to you that there is no constitutional prohibition that precludes attempts to influence the outcome of a referendum. Legislators individually or the Legislature as a group may attempt to influence the outcome.

The prohibition on legislative measures with respect to the referendum power is simply that the Legislature may not do anything that makes ineffective the right of the people to vote or makes the matter presented to the voters unintelligible or so misleading as to be unfair or where the act under referral, if rejected, would create confusion or upset the orderly processes of legislation.

As we pointed out in our opinion to Senator Gerald D. Koch and yourself in Opinion No. 137, October 13, 1977, the court in Klosterman v. Marsh, 180 Neb. 506, 143 N.W.2d 744, has said:

> ". . . To the extent that this conclusion implies that the legislative power of initiative and referendum reserved to the people and the legislative authority granted to the Legislature may not be exercised concurrently, we disagree. . . ."

Thus, it is clear that the Legislature may concurrently with the exercise of the referendum power act in the same area. The prohibition goes to nullifying the right of the people to express their choice in an election.

Sincerely,
PAUL L. DOUGLAS

ATTORNEY GENERAL LETTER

March 16, 1978

Mr. Patrick J. O'Donnell
Clerk of the Legislature
State Capitol
Lincoln, NE 68509

Dear Mr. O'Donnell:

This is in reply to your letter of March 10, 1978. In that letter you state that Attorney General's Opinion No. 204 was received by the Legislature on Friday, March 10, 1978. You also state that a letter was received by Senator Chambers of March 9, 1978, from Mr. Larry L. Ruth, Counsel to the Nebraska State Bar Association. In addition, you state that attached to that letter were comments and portions of language which were identical to that contained in the Attorney General's Opinion No. 204 which was delivered to the Legislature on March 10, 1978. You then ask three questions, each of which is hereinafter discussed.

I.

Did the Attorney General's Office release the opinion to the Bar Association prior to delivery to the Legislature?

Absolutely not.

II.

Could you offer an explanation as to how the identical language appears in the two documents in question?

You did not supply us with a copy of the letter that Senator Chambers received from Mr. Larry L. Ruth. Consequently we have no way to compare our opinion with the letter that Senator Chambers received from Mr. Larry Ruth. We can tell you that we, like everyone else in a free society, are exposed to information from many different sources. For example, prior to March 9, 1978, we received in the mail a letter purportedly signed by Dean Rodney Shkolnick, Creighton University, requesting our support of LB 436. Prior to March 9, 1978, we also received in the mail the Nebraska State Bar Association Newsletter, volume 78-1. Page 5 of the Newsletter contains the following report on LB 436:

"The Nebraska Legal Information Center would be established and funded under this proposal. The Center would probably be patterned, in part, after the Creighton Legal Information Center (CLIC) which recently ran out of funding. The NSBA House of

Delegates voted to oppose this bill for several reasons: the NLIC would be administered by the Department of Administrative Services, excessive funding in the amount of $130,000 would be required, concern about the propriety of third-party contacts to judges, and concern about the potential for conflict of interests. The Center would provide legal research to requesting judges, appointed counsel and prosecuting attorneys."

On March 8, 1978, we received from Senator Goodrich a request for an opinion on LB 436. Because we were engaged in other activities, Senator Goodrich's request was laid over until March 9, 1978. At that time we reviewed LB 436 and started our own independent research. During the course of our research it became readily apparent that LB 436 could produce some very serious conflict of interest questions. As we continued to press our research we remembered the letter we had previously received from Dean Rodney Shkolnick, Creighton University, and the Nebraska State Bar Association Newsletter. Each was read again and because the Newsletter appeared to express the same concern about the potential for conflict of interests that we had discovered in our research we telephoned the Nebraska State Bar Association and asked if we could be supplied with any additional information which might shed further light on the position taken by the House of Delegates on this matter. That afternoon we were supplied with a copy of a letter allegedly drafted by Mr. Larry Ruth to the Nebraska State Bar Association's Legislative Liaison Attorneys, its House of Delegates, and its Legislative Committee, together with a summary of the bill and the reasons for the opposition.

Mr. Ruth's letter and summary confirmed our own independent research. Time became a factor. Our opinion had to be drafted, edited, typed, reviewed, and delivered to Senator Goodrich and to the Acting Clerk of the Legislature before 9:00 a.m. the next day, March 10, 1978, as LB 436 was scheduled for debate that morning. To expedite the same, our notes and portions of Mr. Ruth's summary of LB 436 were used in drafting our Opinion No. 204.

III.

Did the Nebraska State Bar Association have any role in the rendering of Attorney General's Opinion 204?

The above question is somewhat ambiguous. As discussed above, we had received unsolicited literature in the mail discussing LB 436, both pro and con, before we offered our opinion thereon. We also requested additional information about LB 436 from the Nebraska State Bar Association before we wrote our opinion thereon. On the other hand, we were never subjected to any economic, political, or

social pressure of any kind by the Nebraska State Bar Association, or by any of its members, or by anyone else, in forming our opinion on LB 436. While some of the language in that opinion may be identical to the language used by someone else, it nevertheless represents our own independent professional judgment.

Very truly yours,
PAUL L. DOUGLAS
Attorney General

FORTY-SECOND DAY

Legislative Chamber, Lincoln, Nebraska
Monday, March 20, 1978

Pursuant to adjournment, the Legislature met at 9:31 a.m., President Whelan presiding.

PRAYER

The prayer was offered by the Chaplain.

Father in heaven, the suffering and death of your son brought life to the whole world moving our hearts to praise your glory. The power of the cross reveals your concern for the world and the wonder of Christ crucified.

The days of his life-giving death and glorious resurrection are approaching. This is the hour when he triumphed over Satan's pride; the time when we celebrate the great event of our redemption.

We are reminded of the price he paid when we pray with the Psalmist:

"My God, my God, why have you forsaken me, far from my prayer, from the words of my cry?

O my God, I cry out by day, and you answer not; by night, and there is no relief for me.

Yet you are enthroned in the Holy Place, O glory of Israel!

In you our fathers trusted; they trusted, and you delivered them.

To you they cried, and they escaped; in you they trusted, and they were not put to shame.

But I am a worm, not a man; the scorn of men, despised by the people.

All who see me scoff at me; they mock me with parted lips, they wag their heads:

He relied on the Lord; let Him deliver him, let Him rescue him, if He loves him." Amen.

ROLL CALL

MESSAGE FROM THE GOVERNOR

March 20, 1978

Members of the Legislature
State Capitol Building
Lincoln, Nebraska

Dear Senators:

I find it necessary to send you two messages today, both affecting spending and my attempt to hold the line on the reduction of the state sales and income taxes which were reduced January 1, 1978.

We are faced with a new unanticipated multimillion dollar expenditure to meet the state's legal obligation for the emergency created by the present extensive flooding. We need to give serious

consideration to the possible impact on our uncoming state budget. I request that you temporarily bracket all bills dealing with new state expenditures.

We shall have our revised recommendations to you as quickly as possible, in a few days at the most. This serious flood emergency and its tremendous likely costs must be given high priority. As soon as supported figures are available to me, I will request the President to declare a Federal disaster in addition to the state disaster I have already declared.

Last year, you will remember you rejected my request for a $500,000 appropriation for the emergency fund and reduced this to only $300,000. Therefore we were in serious difficulties in adequate financial emergency resources even before the current flood. Your action in this area last session was short sighted and as of now we have only $10,000 on hand, all of which is already seriously over-extended. Please proceed with all possible dispatch on the $200,000 deficiency for the emergency fund previously agreed to which necessarily must be passed with the emergency clause. I shall advise you further on any additional deficit needs.

Yours very truly,
(Signed) J. James Exon
Governor

ATTORNEY GENERAL'S OPINION

Opinion No. 212
March 17, 1978

Dear Senator Bereuter:

This is in response to your letters of March 9th and March 13th, making two inquiries pursuant to determining whether to introduce legislation. The first question was whether the county might enter into an agreement with a city located within that county to expend funds for road improvements within that city under authority of Section 23-340, R.R.S. 1943. Our conclusion is that it may not.

It should be noted that Section 23-340, R.R.S. 1943, commences with the proposition that the county contemplates an improvement project outside the limits of the city. Under the proviso contained in the section, if the road lies along the city limits boundary line, the county is specifically limited to payment of two-thirds of half of the road outside the city only. Thus, instead of county money being spent inside the city, the statute provides for the city to spend city money inside or adjacent to the city and to also pay one-third of the cost of that portion outside the city, said one-third to come from special assessment against the abutting property within the city.

Your second question was whether, as a cooperative project, a county may spend tax money assessed under Section 77-1605.01, R.R.S. 1943, to pave a street within a city located within the county. Again, we believe it may not.

Section 77-1605.01 R.R.S. 1943, authorizes property tax moneys of the county to be used for the construction or improvement of county roads within the counties and authorizes such funds to be used independently or cooperatively with other governmental agencies.

Since the section specifically limits the use of these funds to county roads within the county, it would appear not to authorize the use of such funds on city streets within the city. It could be used for the share of the county in such cooperative projects as those contemplated by Section 23-340, discussed above.

Very truly yours,
PAUL L. DOUGLAS

MESSAGE FROM THE GOVERNOR

March 20, 1978

Mr. President, Mr. Speaker
and Members of the Legislature
State Capitol Building

Lincoln, NE 68509

Dear Mr. President and Senators:

I am sending you two necessary messages today both affecting spending and my attempt to hold the line on the sales and income taxes which were reduced January 1, 1978.

I hereby return LB's 108, 582, and 586, totaling nearly a half million dollars, without my signature and with my objections.

These are not priority spending measures, however well intentioned, and as outlined in another message to you as of this date on the general subject of appropriations over my recommendations, it is mandatory that you curtail your intended spending if we are to preserve the state sales and income tax reduction that went into effect January 1, 1978.

LB 108 appropriates $100,000 to the Game and Parks Commission for campgrounds and recreational projects at the Red Willow and Strunk Lake State Recreation Areas. As was indicated in the original fiscal note accompanying LB 108, the appropriation for these projects is a partial duplication of those found in LB 549 of last year. Additionally, the Game and Parks Commission did not request funds for either project for fiscal year 1978/1979 and did not identify them as priorities.

LB 582 appropriates $150,000 for the expansion of the North Platte Fish Hatchery, and LB 586 appropriates $150,000 for modernization of the Rock Creek Fish Hatchery. Both projects were requested by the Game and Parks Commission for FY 1979/1980, not FY 1978/1979 as you propose. Furthermore, funds were requested from the Commission's Cash Fund, not the State General Fund. Therefore, you have not only advanced the projects one year, but have also appropriated General Funds when Cash Funds had been requested.

Although the news media has been carrying stories that indicate your appropriations are similar to my recommendations, the facts are that you are now proceeding down the spending road to exceeding those by $6 million at a minimum, and there is in addition thereto some $85.5 million in spending proposals at general file or beyond, as reflected on your daily budget sheet.

The spending course you are riding on must be altered if we are to work together to maintain our lower tax rates. Otherwise you will be presented with a series of gubernatorial vetoes in an attempt to turn off the spending machine.

I also call to your attention that General Fund revenues as projected by the Department of Revenue are right on target as of this date. This is the good news. However, the revenue estimates as currently shown on your daily finanical status report are $8.6 million in excess of General Fund revenue projections. This was an amount that existed at the time of the November Board of Equalization meeting and was shown as being an amount over estimates at that time. This amount no longer exists, and it should not be shown as available revenue for appropriation.

In addition, the secondary effects of the prolonged national coal strike and the unusually cold winter weather are further uncertainties, not previously contemplated, that could adversely affect Nebraska's economy and therefore the state revenues.

I urge your facing those conditions squarely by sustaining my vetoes delivered herewith and furthermore by voting down all but only the most reasonable and obviously necessary bills authorizing new and increased expenditures.

Yours very truly,
(Signed) J. James Exon
Governor

MESSAGE FROM THE GOVERNOR

March 21, 1978

Mr. President, Mr. Speaker
and Members of the Legislature
State Capitol Building
Lincoln, NE 68509

Dear Mr. President and Senators:

One week ago you accepted the Schmit-DeCamp so-called "compromise" amendment to LB 902 to allow a vote of the people of Omaha on the 1/2¢ increase in the city sales tax unless the Mayor and City Council by a three-fourths vote eliminated the people's right to vote.

By design or accident, the Legislature adopted language that would have prevented a May primary vote by the people because of a poorly worded amendment.

I immediately called this to your attention, and you have stalled action for reasons that should be explained to the public.

Unless the Legislature is acting in complete bad faith, and unless you wish to take the responsibility for preventing a sales tax increase by the

vote of the taxpayers of Omaha, you must act now on a corrective amendment that has been laying idle over there for days.

If the proponents will not proceed as they majestically proclaimed as their intent, then I ask others to employ whatever legitimate parliamentary procedure is necessary to correct the Schmit-DeCamp amendment to allow for a vote of the people and then move LB 902 ahead rapidly by 33 votes for enactment with the emergency clause. To do otherwise you are ignoring completely the requests of Omaha officials. I am sure Omaha officials would concur in this request although they may not have communicated this to their lobbyists.

Yours truly,
(Signed) J. James Exon
Governor

PRAYER

The prayer was offered by the Chaplain.

Father in heaven, the season of Lent is well into its course; this Assembly is months into its work; our country is past its 200th year and most of us here are middle aged or beyond.

Time is a treacherous thing when there's not enough of it. It can cause panic as it ticks away. It can seem a mortal enemy as it drags through a long and sleepless night.

But time is the framework within which we live and breathe and have our being. It is the fluid in which we swim. It's to be used and enjoyed and even challenged.

For in it we know, love and serve you. We pray that when it ceases we may be happy with you for all eternity. Amen.

ATTORNEY GENERAL'S OPINION

Opinion No. 213
March 21, 1978

Dear Senator Maxey:

You have asked for an interpretation of the effect of one of the Select File amendments of LB 407. The amendment would amend section 77-202.12, R.R.S. 1943 (which would already be amended by other amendments of LB 407 to include mobile homes as possible homestead), by adding the following language:

> "For the purposes of this subdivision mobile homes shall include a cabin trailer or mobile home which has become attached to real estate and a mobile home or cabin trailer whose owner is required to obtain a permit pursuant to section 60-1602 for such cabin trailer or mobile home."

We are not positive exactly what is intended by the reference to cabin trailers or mobile homes which have become attached to real estate. If they have become attached to real estate in a legal sense, they have become a part of the real estate. In other words, if the owner of real estate owns a mobile home and moves it on to the real estate and "attaches" it, the mobile home has become a part of the real estate. If it is occupied by the owner as a residence, it would qualify as a homestead under the present law, like any other residence. We point out that section 60-1602 specifically excludes such mobile homes from registration.

On the other hand, if the mobile home is not owned by the owner of the real estate, there is ordinarily an understanding or specific agreement that the mobile home can be removed at the expiration of the rental period. Under those circumstances, in legal theory it has not become "attached" to the real estate, even though the physical connections are the same as if the owner of the mobile home were the owner of the real estate. We are therefore somewhat at a loss to explain the exact significance of the reference to mobile homes attached to real estate.

As to mobile homes not attached to real estate, you ask whether the above-quoted amendment would make the homestead exemption applicable to mobile home owners having a one-year lease on the lots on which the homes are located. It clearly would. Such mobile homes are required by section 60-1602 to obtain a permit for them, and section 70-1240.02 requires payment of the motor vehicle tax at the time of registration. The amendment you inquire about would qualify mobile homes as homesteads, so the taxpayers would be entitled to the homestead exemption.

In discussing your questions with us, you also indicated that you wonder about the effect of the amendment on mobile homes temporarily in the state. Section 60-1602 requires every cabin trailer or mobile home which is located in any county in this state for a period of thirty days or more to obtain the permit required by that section, and, again, section 77-1240.02 requires the payment of taxes at the time of obtaining the permit. The amendment you inquire about clearly qualifies such cabin trailers and mobile homes for the homestead exemption. Of course, those not kept in the county for more than thirty days are not required to obtain the permit, and therefore do not pay the tax. As to them, the amendment you inquire about would have no application.

Very truly yours,
PAUL L. DOUGLAS
Attorney General

Any political subdivision of the state which experiences a growth in population in excess of five per cent during the preceding calendar year, by annual official estimates, may increase its budget by the same percentage as the percentage increase in the population growth. School districts' populations shall be measured by student enrollment.

Sec. 3. If the governing body of any political subdivision authorized to levy a tax or cause a tax to be levied determines that a budget higher than that permitted in section 1 or 2 of this act is needed, it shall by resolution call for a special election of such

political subdivision for that purpose. The budget increase above the limit permitted in section 1 or 2 of this act may be adopted if approved by a majority of those voting in such special election or as provided in section 7 of this act.

Sec. 4. The resolution calling for the election and the election notice shall refer to section 1 or 2 of this act and state that the limitation contained therein is proposed to be exceeded and show the proposed increase in the budget amount in terms of dollars and percentages over the limitation as computed in section 1 or 2 of this act, in terms of dollars and the per cent of increase over the current budget, and shall give the date of the election. All such elections shall be held on the third Tuesday in July, during the year in which taxes will be levied to fund the budget.

Sec. 5. Notice of the election shall state the date on which the election is to be held, the location, and the hours the polls will be open. Such notice shall be published in a newspaper of general circulation in such taxing district at least fifteen days prior to such election. If no newspaper is in general circulation in the taxing district, notice of the election shall be posted in each of three public places in the taxing district.

Sec. 6. The governing body of the taxing district shall prescribe the form of the ballot to be used at the election, and the proposition appearing on such ballot shall state the percentage and dollar increase which is proposed to be substituted for the percentage limitation imposed by this act. The form of submission upon the ballot shall be as follows:

FOR exceeding the statutory budget limit.

AGAINST exceeding the statutory budget limit.

Sec. 7. As an alternative to submitting the question of increasing the budget to a vote of the people, as provided in sections 3 to 6 of this act, such budget may be increased by the governing body of the political subdivision if it finds that the political subdivision would be benefited by expeditious action and that a vote by the electors of such political subdivision is not needed. If the governing body by a three-fourths vote determines that a vote of the people is not needed the budget may be increased by a majority vote of such governing body.

Sec. 8. If any budget category or revenue source is beyond the control of a political subdivision

as a result of a final judgment by the United States Supreme Court, the budget limit for that category shall be adjusted accordingly; but the budget limit shall remain in full force and effect with regard to all other budget categories and revenue sources.

Sec. 9. That section 77-1355, Revised Statutes Supplement, 1977, be amended to read as follows:

77-1355. Every political subdivision authorized to levy a tax shall adjust its budget for the upcoming fiscal year so as not to exceed an increase of more than ~~seven~~ five per cent of the previous year's budget funded by ad valorem taxes. ~~or the average increase by percentage for the three such preceding budgets, whichever is greater.~~ When determining the budget to be funded by ad valorem taxes pursuant to this section, every such political subdivision (1) may increase such budget limit otherwise established pursuant to this section by the amount of receipts lost or to be lost from any state sources and (2) shall reduce such budget limitation established pursuant to this section by the amount of increased receipts from state sources.

Sec. 12. That original section 77-1355, Revised Statutes Supplement, 1977, and also section 77-1356, Revised Statutes Supplement, 1977, are repealed.".

MESSAGE FROM THE GOVERNOR

March 22, 1978

Mr. President, Mr. Speaker,
and Members of the Legislature
State Capitol Building
Lincoln, Nebraska 68509

Dear Mr. President and Senators:

I hereby return LB 98 without my signature and with my objections. I would preface my objections to LB 98 with the comment that I am vetoing the bill because of my concern for the balance of powers between the three branches of state government, recognizing that I will only be serving a short remaining time as Governor. This bill will not affect the Exon administration, but will create serious problems for administrations to come.

LB 98 is an obvious attempt by the Legislature to increase its power and authority at the expense of the other branches of government. It, in effect, tells the Executive to ignore the Constitution of the State of Nebraska, even though each executive officer has taken an oath to uphold that same Constitution.

Discussion on the floor of the Legislature has characterized this bill as one directed at the Governor. That characterization is erroneous. This bill is an attack on the Constitution of this state, nothing more, nothing less.

In my veto of LB 45 last year, which the Legislature sustained, I made the following statement: "The Constitution of the State of Nebraska, to be an effective, living document, must govern the actions of the Legislature and the Executive prospectively as well restrospectively. It is true that the Supreme Court is the final arbiter of the Constitution, but that does not mean the Legislature should do whatever it wishes until the Court says nobefore legislation is passed as well as when the Supreme Court slaps the Unicameral's hands." This statement applies to LB 98 as well.

Whatever action the Legislature takes on this veto, I submit that no Governor can in good conscience be able to adhere to a legislative directive which requires the Governor to violate his oath to uphold the Constitution as he honestly views it and with the advice of his official legal counsel, the elected Attorney General. By so requiring the Governor, at the risk of the penalty of impeachment, the Unicameral is setting the stage at some point in the future for the worst executive-legislative confrontation this state has ever experienced.

The Attorney General, while holding LB 98 technically constitutional, points out in his opinion attached, that the measure is fraught with unworkable verbage and conflicts with existing statutes.

An example would be that if the Legislature passed a measure calling for some specific action, but fails to provide funds to accomplish same, the governor could potentially be fined or even impeached for something over which he has no control. There have been many such instances in the past few years were the legislature has dictated action but provided no funding.

I urge you to search your conscience and prevent LB 92 from becoming law because of its obvious abortion of sound principles of government and separation of powers.

Yours truly,
(Signed) J. James Exon
Governor

MESSAGE FROM THE GOVERNOR

March 20, 1978

Mr. President, Mr. Speaker
and Members of the Legislature
State Capitol Building
Lincoln, Nebraska 68509

Dear Mr. President and Senators:

Pursuant to my budget message of February 10, 1978, I am sending your body the following proposals to expedite the movement of residents of the Beatrice State Developmental Center into community programs. These requests for additional funds for the remainder of the current fiscal year and for next fiscal year are the direct result of meetings held at my request by DPI Officials with the directors of the mental retardation regions. Not all mental retardation regions responded to my request, and not all responses were reasonable in terms of dollars and numbers of individuals involved. Nevertheless, in my judgement these meetings were successful and informative overall, and will lead to real progress in this area.

My recommendation for additional funds includes $238,000 from the State general fund for start-up and operating costs to provide openings in community programs for 58 residents from Beatrice this fiscal year over and above the 100+ residents already scheduled for community placement from current available funds. The cost of maintaining these persons in community programs next year is $378,000. This money would be under the control of the Department of Public Institutions and would be expended solely for placement of Beatrice residents in community programs pursuant to written agreements.

This recommendation will have a dramatic effect on the ability of the Beatrice facility to meet federal certification standards for the July, 1978, deadline. The movement of over 100 residents in each of the last two years should reduce the expected cost of remodeling at Beatrice considerably. In addition the number of employees anticipated to be added to meet stringent staffing ratios can be reduced. This recommendation will also have the effect of making more funds available for further movement from Beatrice in fiscal year 1978-79 from the $1.5 million I recommended and the Appropriations Committee substantially concurred with for that purpose. It is now possible to anticipate a population of about 750 at that facility by the end of next fiscal year.

My recommendation presented to you today is a reasonable and necessary alternative to the recommendation placed before you by the Appropiations Committee in LB 953 and LB 957. The proposals of the Appropriations Committee provide community retardation agencies with $8,191,276 from the general fund - over $1 million higher than my recommendation to you of February 10, 1978. Furthermore, the 20 per cent increase in general fund monies

proposed by the Appropriations Committee is not tied to written agreements specifing the services to be performed, the initial and continuing cost of such services, the number of Beatrice residents to be served, and does not take sufficiently into account the large accumlative cash balances community programs now have available.

My recommendations would target funds to specific objectives based on written agreements, and would reward actual performance in meeting those agreed upon objections. With these recommendations, you will be able to effect a savings of over $500,000 from the Apprpriations Committee's proposals as found in LB 953. This is $500,000 which can be used for more pressing matters such as the damage inflicted by the recent floods without jeopardizing progress in mental retardation or the current sales and income tax rates.

Nebraskans can be proud of their progressive policies and national leadership in the area of mental retardation. However, we can still be assured of continued progress without writing a blank check for community mental retardation programs or any other program.

I have included with this letter the necessary amendments to facilitate these recommendations. I urge their adoption with all deliberate speed. It is important that the funds targeted for the remainder of this fiscal year be made available by this month's end in order to have maximum effect.

Sincerely,
(Signed) J. James Exon
Governor

ATTORNEY GENERAL'S OPINIONS

Opinion No. 214
March 22, 1978

Dear Senator Koch:

You state that you have prepared a motion to return LB 469 for reconsideration. Before you do so, you ask for an interpretation of the bill, as presently written.

LB 469 provides for submission to the voters of a constitutional amendment which would read:

> " 'Sec. 12. For the purpose of acquiring and redeveloping substandard or blighted property in a redevelopment project as determined by law, any city or village of the state may, notwithstanding any other provision in the Constitution, and without regard to charter limitations and restrictions, incur indebtedness, whether by bond, loans, notes, advance of money, or otherwise. Such cities or villages may also pledge for and apply to the payment of the principal, interest, and any premium on such indebtedness all taxes levied by all taxing bodies, which taxes shall be at such rate for a period not to exceed fifteen years, on the assessed valuation of the property in the project area that is in excess of the assessed valuation of such property for the year prior to such acquisition and redevelopment.

" 'When such indebtedness and the interest thereon have been paid in full, such property thereafter shall be taxed as is other property in the respective taxing jurisdictions and such taxes applied as all other taxes of the respective taxing bodies.' "

As we understand the proposed constitutional amendment, there would not be a separate levy for the payment of the bonds, but the regular levies of "all taxing bodies," apparently meaning the county, school districts, city or village, etc., would be levied against the real estate. The portion of such levies represented by the difference between the assessed valuation of the property before acquisition and redevelopment and the valuation at the time of levy would, instead of being paid to the taxing entities involved, be paid into a fund for the payment of the bonds. As we understand it, then, there would be no difference in the taxation of the property, but only in the disposition of the proceeds of the tax.

You ask whether there is a conflict between the fifteen year provision of the first paragraph and the provision of the second paragraph that when the indebtedness and interest "have been paid in full" the property shall thereafter be taxed as other property. The question, of course, is what happens if the indebtedness and interest thereon have not been paid in full at the end of fifteen years.

There is, undoubtedly, a conflict, although we believe the court would resolve the conflict in favor of the fifteen year limitation. It is a rule of statutory construction, which would also apply to constitutional construction, that the court will attempt to give some meaning and effect to every word in the statute. If the court were to permit the application of the taxes to the indebtedness for a period beyond fifteen years, the fifteen year limitation would be completely meaningless. However, if the two provisions were interpreted to mean that the application could continue until the bonds were paid off, or for fifteen years, whichever occurred sooner, meaning would be given to both provisions. We are therefore of the opinion that that is the construction the court would adopt.

We also call your attention to the fact that some of the language of the proposed amendment is quite confusing. The first paragraph says that cities and villages may pledge all taxes levied by all taxing bodies on the increased valuation of the property, "which taxes shall be at such rate for a period not to exceed fifteen years." What rate is meant by "such rate?" Presumably the levies of the various taxing bodies will vary from year to year, and as we understand the plan, such varying rates would be applied to the property in question just like they are to all other property. The language we have quoted, however,

seems to imply that there is to be some sort of fixed rate applied to the excess valuation. If so, we don't understand how the system is supposed to work.

We also call your attention to the provision in the second paragraph, to the effect that after the indebtedness is paid in full, "such property thereafter shall be taxed as is other property in the respective taxing jurisdictions." Again, this is confusing to us, since, as we previously explained, under our understanding of the plan the property would be taxed as other property at all times, and it would be only the disposition of the proceeds of the tax that would be handled differently under this amendment.

These matters raise a question in our minds as to whether some other system is contemplated by the amendment which has not been articulated clearly enough for us to understand it.

Very truly yours,

Opinion No. 215
March 22, 1978

Dear Senator George:

You have asked whether the present statutes authorize a sanitary and improvement district to sell land owned by it and presently used as a park, or whether authorizing legislation would be required. While we have found no Nebraska cases specifically answering your question, it appears doubtful that such land could be sold under present statutes.

It is, of course, axiomatic that such a district may exercise only such powers as are given it by the Legislature. It could be argued that section 31-732, R.R.S. 1943, gives such district broad powers. It provides:

> "Such district shall be a body corporate and politic by name of Sanitary and Improvement District Number ——-of ———- County and shall have the power and authority to take and hold real and personal property necessary for its use, to make contracts, to sue and be sued, to have and use a corporate seal,

and to exercise any and all other powers, as a corporation, necessary to carry out the purposes of sections 31-727 to 31-762."

However, it is not clear that the sale of land devoted by the district to use as a park is "necessary to carry out the purposes of sections 31-727 to 31-762," so we cannot be sure that the court would construe this as authorization to sell this real estate.

In 56 Am.Jur. 603, Municipal Corporations, Section 550, we find this discussion:

> ". . . A municipal corporation having absolute title to property without limitation or restriction as to its alienation may dispose of such property at any time before it is dedicated to public use.
>
> "On the other hand, it is generally held that a municipal corporation has no implied power to sell property which is held for a public use, and that such power cannot be implied from general charter or statutory authority to acquire, hold, or convey property. The principle is that all such property is held by the municipality in trust for the use and benefit of its citizens and is dedicated to the use of the public, and the corporation cannot divest itself of title without specific authority from the legislature. It is only when the public use has been abandoned, or the property has become unsuitable or inadequate for the purpose to which it was dedicated, that a power of disposition is recognized in the corporation. Thus, a municipal corporation has no power to sell or convey land dedicated as a park, square, or common. . . ."

Under broad definitions, a sanitary and improvement district may be classified as a municipal corporation. There is therefore considerable doubt that there is any implied power in such a district to sell land acquired for and used as a park. We have found in the statutes no specific authority to do so, and we are of the opinion that if such land is to be sold, specific authority would be required.

Very truly yours,

MESSAGE FROM THE GOVERNOR

March 23, 1978

Mr. President, Mr. Speaker,
and Members of the Legislature
State Capitol Building
Lincoln, Nebraska

Dear Mr. President and Senators:

I am hereby returning LB 92 and LB 92A without my signature and with my objections. I have warned you repeatedly of coming vetoes unless you face up to what I believe to be a responsibility to hold the line on the recently reduced state tax rates.

LB 92 would, on a graduated basis, eliminate the counties' share of Medicaid costs, the first year cost of which would be $1,581,300 as funded by LB 92A.

In my Budget Address to you of February 10, 1978, I indicated to you that we should consider the passage of this bill IF the elimination of the county Medicaid costs were coupled with an effective lid on spending so that property tax relief would be assured. I stated that if the spending lid bill was not passed "pouring further millions of state collected dollars to subdivisions without seriously addressing the probability of real estate tax relief is meaningless and fiscally irresponsible."

That is what I believed on February 10, 1978, and that is what I believe today, and I am therefore required to veto these bills because they have the effect of fueling local spending and offer no real chance of real estate tax relief.

You should certainly recognize by the well publicized flood emergency and my letter to you in this specific regard of March 20, 1978 wherein I warned of pending multimillion dollars of unanticipated general fund obligations that will be needed for this

purpose. The $1.5 million in LB 92A must be conserved for the flood disaster as we look at priorities.

Very truly yours,
(Signed) J. James Exon

UNANIMOUS CONSENT - Print in Journal

Mr. Clark asked unanimous consent to print in the Journal the following statement on LB 800. No objections. So ordered.

Statement of Intent for LB 800 Amendment

Except for existing programs for the construction of microwave communication facilities where binding contracts have been entered into, the purpose of this amendment is to provide for Nebraska Power Review Board review and approval before a public power district can construct and operate microwave communication facilities. The term "microwave communication facilities", "microwave facilities" or "microwave system" is intended to mean all the associated structures and equipment for the transmission of information by means of radio waves in the frequency range from about 1000 megahertz and upwards.

When a public power district decides that it is advisable to construct its own microwave facilities for use in its utility operations incident or pertaining to the generation, transmission and distribution of electric power and energy, it would be required to apply to the Power Review Board for authorization of the proposed construction and the Power Review Board must consider and make certain findings with respect to whether the district will receive the required quality of service from the regulated carriers and the relative costs to the power district which would result from the power district providing its own microwave system as compared to obtaining the required quality of communication services from the regulated carriers by the same or alternate methods.

Certain power districts have already undertaken programs to construct microwave facilities and have entered into binding contracts in connection with these programs. Therefore, this amendment does not require Power Review Board approval for the construction of microwave facilities where a power district has prior to the effective date of this amendment entered into binding contractual obligations with respect to these facilities. For example, although construction is not completed, Nebraka Public Power District has entered into contracts for engineering, equipment, materials, tower sites, etc. in connection with its programs to construct certain microwave facilities, and this amendment is not intended to require Power Review Board approval or to put any limitation on the completion of construction of these planned microwave facilities. This amendment also provides that Power Review Board approval is not required for certain limited extensions to an existing microwave system and for the addition of new equipment to modernize or upgrade microwave facilities, such as, for example, increasing channel capacity.

MESSAGE FROM THE GOVERNOR

March 23, 1978

Mr. President, Mr. Speaker,
and Members of the Legislature
State Capitol Building
Lincoln, Nebraska

Dear Mr. President and Senators:

I had not paid a great deal of attention to LB 184 until advised of your debate of yesterday.

For the second consecutive day, the introducer presented more total fabrications to the Legislature.

Contrary to false allegations, I have not directed in any manner nor did I know of the Tax Commissioner's replies to requests from your body for fiscal impact statements on LB 184 or LB 902A.

However, these total misrepresentations presented by the proponents of LB 184 have served the useful purpose of directing my first serious attention to the bill which I reviewed this morning.

This bill, I discover, is essentially a rerun of the Schmit "garbage can bill" that failed last session for good reason. This time around,

however, it eliminates newspapers from the tax to be assessed. I wondered, why was that?

To possibly save the time of the more responsible members of the Legislature, let me advise that should you pass LB 184, I will return same with language similar to that which follows:

"LB 184 is a creation of a sly fox type mind in an attempt to lure and fool the unsuspecting chickens, and it won't work.

The majority of the Nebraska Legislature is not capable of coming to grips with litter until they stop wasting their time on the garbage concocted by some in leadership positions, which have been created by a vacuum."

The legislaive proponents of this bill are additionally irresponsible because they are "inventing" another tax. If this ridiculous bill becomes law, those being hit with this tax, which will be directly passed along to consumers, will rue the day when this newly discovered tax was passed since it will in all likelihood be tapped again and again by future legislators to finanace pet spending projects.

Again, I demand that you turn off the spending machine and quit fueling it.

Yours very truly,
(Signed) J. James Exon
Governor

UNANIMOUS CONSENT - Print in Journal

Messrs. Cullan and Marvel asked unanimous consent to print the following amendments to LB 793 in the Journal. No objections. So ordered.

AMENDMENTS TO LB 793

1. Strike original sections 1 to 40 and insert the following new sections:

"Section 1. Commencing on the effective date of this act, no tax levied pursuant to subsection (2) of section 79-2650, shall be used by any area which has obligations in excess of the amount to be derived under subsection (2) of section 79-2650 for (1) new capital construction, (2) site acquisition, or (3) as the consideration necessary for entering into any lease-purchase agreement or other contract in which the obligations or provisions of such agreement or contract would not be fully met prior to July 1, 1980. This section shall not apply to projects when actual construction contracts have been let prior to the effective

date of this act.

Sec. 2. Commencing on the effective date of this act, the tax levied pursuant to subsection (2) of section 79-2650, may be used by any area which does not have obligations in excess of the amount to be derived under such subsection for (1) new capital construction, (2) site acquisition, or (3) as the consideration necessary for entering into any lease-purchase agreement or other contract, if approved by a vote of the people as prescribed in section 3 of this act. Nothing in this section shall be construed to permit obligations to be incurred beyond the time allowed for the levy under subsection (2) of section 79-2650.

Sec. 3. (1) If the board in any technical community college area shall determine that it is necessary for the proper management and operation of such area to expend tax funds in a manner requiring a vote of the people as prescribed in section 2 of this act, the board may by resolution place the proposition for such expenditure on the general or primary ballot or call for a special election in such area for the purpose of approving such expenditure. The proposition appearing on the ballot in any election shall state the purpose for which such tax funds will be spent and the amount of funds to be so expended. Such proposition shall be adopted if approved by a majority of those voting in such election.

(2) The resolution calling for the election and the election notice shall show the proposed purpose for which such tax funds will be expended and the amount of money sought.

(3) Notice of the election shall state the date which the election is to be held and the hours the polls will be open. Such notice shall be published in a newspaper that is published in or of general circulation in such area at least fifteen days prior to such election. If no newspaper is published in or of general circulation in the area, notice shall be posted in at least two public places in each county in the area.

(4) If a special election is called the board shall prescribe the form of the ballot to be used.

Sec. 4. Each member of a Technical Community College Board of Governors shall be personally liable for any action taken in such member's technical community college area that is in violation of this act.

Sec. 5. That section 79-2650, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

79-2650. (1) On or before September 1 of each year, the board may certify to the county board of equalization of each county within the area a mill levy of not to exceed two mills, uniform throughout such area, for the

purpose of supporting operating expenditures of the technical community college area.

(2) In addition to the levy provided in subsection (1) of this section, the board may subject to the provisions of sections 1 and 2 of this act, also certify to the county board of equalization of each county within the area a mill levy of not to exceed one mill, uniform throughout such area, for the purpose of establishing a capital improvement fund, a bond sinking fund, or for the retirement of general obligation bonds. The power to levy such tax under this subsection shall not exist after June 30, 1980.

(3) The combined levy provided in subsections (1) and (2) of this section shall not exceed two and one half mills without prior approval by a majority vote of the qualified electors of the area voting in a primary, general, or special election called for such purpose, upon notice given by the members of the board at least twenty days prior to such election.

(4) Such tax shall be levied and assessed in the same manner as other property taxes and entered on the books of the county treasurer. The proceeds of such tax, as collected, shall be remitted to the treasurer of the board not less frequently than once each month.

Sec. 6. That original section 79-2650, Reissue Revised Statutes of Nebraska, 1943, is repealed.

Sec. 7. Since an emergency exists, this act shall be in full force and take effect, from and after its passage and approval, according to law.''.

MESSAGES FROM THE GOVERNOR

March 27, 1978

Mr. President, Mr. Speaker,
and Members of the Legislature
State Capitol Building
Lincoln, Nebraska

Dear Mr. President and Senators:

I return herewith LB 902 without my signature and with my objections.

After three letters, copies attached, numerous telephone calls, and a two-hour personal conference with Mayor Veys and five of the seven members of the Omaha City Council this morning, I could not obtain the commitment from a second Council member or the Mayor guaranteeing not to take away the peoples' right to vote on the proposed sales tax increase.

Since despite my efforts to temporarily allow a 1/2¢ Omaha sales tax increase with the peoples' approval were rejected by Omaha city officials, I reluctantly return LB 902 to the Legislature for your and/or the Mayor or City Council's subsequent disposal.

Very truly yours,
(Signed) J. James Exon
Governor

March 24, 1978

The Honorable Al Veys,
Mayor, City of Omaha
Members of the Omaha City Council
Omaha-Douglas Civic Center
1819 Farnam
Omaha, Nebraska 68102

Dear Mayor Veys and Council Members:

This is my third communication to you on LB 902, following my letters of March 15 and March 22.

With the exception of Mary K. Green, I have had no direct written communication in reply addressing the key question of whether or not

you will agree to guarantee the Omaha citizens' right to vote on whether or not they wish the sales tax increased.

As of yesterday, with my help and support, LB 902 received the required votes to pass with the emergency clause of a minimum of 33 votes. Actually the measure received 34 votes, but the last two were directly attributable to my efforts with two Senators who were opposed, but agreed to support the measure to keep all the options open but with my personal assurance that I would not sign the bill unless I was assured that the peoples' right to vote would not be taken away.

As I have said before, I will sign LB 902 if I have that commitment from just one more person, either the Mayor or at least one more member of the City Council.

Mayor Veys called me last yesterday afternoon to advise that he had the assurances of all members of the Council except Mary K. Green that none would make the commitment to guarantee the right of the people to vote on the sales tax issue.

However, the Mayor requested, and I agreed that I would, delay my final action on LB 902 until 2:00 p.m. on Monday, March 27. If none of you have changed your mind by that time, I will be forced to reluctantly assume you will not further communicate with me, and I will veto the bill because you failed to make the commitment for public approval of your contemplated action to raise the city sales tax.

The bill will then be back in legislative hands for their attempt to override my veto, and if successful, allow you the option to put the tax into effect on your action only.

You therefore have a decision to make by Monday as to whether you wish to run the risk of eliminating any chance of taking advantage of new sales tax revenue by failure of the Legislature to override the veto, probably on Tuesday, or on the other hand if you can be successful in mustering the votes necessary to override.

The decision on LB 902 therefore is in your and/or the Legislature's hands for disposition as you see fit.

I am writing this letter so that there will be no possible misunderstanding.

Yours very truly,

Governor

March 22, 1978

The Honorable Al Veys
Mayor, City of Omaha
Members of the City Council
Omaha-Douglas Civic Center
1819 Farnam
Omaha, Nebraska 68102

Dear Mayor Veys and Council Members:

You are copied herewith on my letter to you of March 15, 1978 for background. My position remains the same.

With the exception of Mary K. Green, who has guaranteed to support the peoples' vote without equivocation, I have received no written communication otherwise.

We need just one more vote or commitment from any one of you, guaranteeing that the peoples' vote will not be taken away to allow me, in good conscience, to sign LB 902 into law if presented to me in its present form by 33 members of the Legislature.

Despite untimely and unnecessary delays by the Legislature, it appears possible, unless they falter again tomorrow, on Thursday, March 23, that LB 902 can be passed. I have worked today to try to pick up a few votes to hopefully enable the measure to pass with the emergency clause by the necessary 33 votes which you have always desired. You have never had 33 votes on this issue at any stage thus far.

Time remains of every essence since by no later than next Wednesday the council must certify to the Douglas County Election Commissioner notice of the vote in the May primary if there is to be one.

I therefore respectully request that you immediately notify me by mail as to whether at least one more of you will or will not guarantee the right of the people to vote if LB 902 as presently worded does reach my desk for approval.

If that one vote accordingly is confirmed to me, I will sign LB 902 into law at once so the issue can be resolved in the May primary.

If not, I shall veto the bill promptly and immediately return same to the Legislature for any further disposition they wish to take.

There are honest differences of opinion on procedures with people of goodwill feeling strongly one way or the other.

There have been protestations that this is a local matter only. In my opinion, this is not necessarily so.

Omaha is attempting to further invade, even temporarily, what has been traditionally a state revenue source. I would assume that you would be opposed to any state reinvasion of the real and personal property tax field for revenue which was completely abandoned by the state to local governments ten years ago.

I am reluctantly willing to allow you to do this temporarily only because of the pending financial difficulties you are facing and the other options that you have are possibly more disagreeable but only by letting the people vote.

I have jealously protected the citizens' right to vote on fundamental matters on other occasions mandated by the Legislature, such as was the case with forcing pure district school board elections as opposed to elections at large. Then I was not accused of "trying to interfere in local matters."

Even if this were an entirely local matter, as some claim, that would be even another reason for public vote.

Your city charter, while it did not contemplate later developments, did have the intent of limiting city spending with a mill levy ceiling. The sales tax revenue is in effect an "end run" around what most would concur was intended as a spending limitation. Since you have not asked for a change in that city charter, I believe you have the obligation to let your voters help you decide on the means of new city financing.

It is nonsense to try and compare the Board of Equalization duties with the City Council actions on sales taxes. We don't interfere in your actions on your traditional sources of revenue. If that theory were followed completely, you could further invade the sales and income tax field at will, as could every other city and the state tax base would be completely abridged.

I hope you can see my point of view and will respond immediately. My position, right or wrong in your eyes, is clear and unchanging and I am cooperating as best I can in good conscience.

Yours very truly,
(Signed) J. James Exon
Governor

March 15, 1978

The Honorable Al Veys
Mayor, City of Omaha
Members of the City Council
Omaha-Douglas Civic Center

1819 Farnam
Omaha, NE 68102

Dear Mayor Veys and Council Members:

With the passage on second reading of LB 902 and revealing developments connected therewith, it is time for all to make their positions very clear and very public on your request for authority to raise the sales tax.

The measure should pass by next week, and decisions that will immediately follow need to be made now to avoid any confusion. Remember, we need 33 votes to make the legislation meaningful from your standpoint, and I will use whatever minimal influence I have with the Leislature to obtain that number.

Again I state publicly and without equivocation that I will be helpful to you in this endeavor, but only if the people's right to vote on this issue is preserved. From this position I will not deviate one iota, come hell or high water or both, because I am convinced it is the correct one.

I am hopeful that you will concur and will join with me in agreeing to raise the sales tax in Omaha only while protecting the people's right to vote.

All of you, and I suspect most of the people, may not be fully informed on legislation game playing.

On Monday Senator Schmit, a legislative power broker, turned from outright obstructionist and opponent of your request for sales tax authority to the leading proponent. However, in his customary unpredictable manner he did another double take and announced that if I should veto the bill for some reason, he would abandon your cause and work to sustain the veto and thereby eliminate any chance for Omaha officials to obtain a temporary sales tax increase. I warn you not to rely on him or his assistant, Senator DeCamp. They just might keep their word this time and leave you without an option.

However, if we can work together to obtain the necessary 33 votes to enact LB 902 with the emergency clause, the matter still could be satisfactorily resolved with your cooperation which I seek.

If the people of Omaha are allowed to vote, and if they approve the sales tax increase in the May Primary, the tax could go into effect July 1, 1978, and eliminate the necessity for you to make possible harder decisions on either reducing your budget expenditures or looking to other revenue sources.

I propose a direct, forthright and honest approach in full public view.

So that I can, in good conscience, sign LB 902 immediately into law when presented to me by the Legislature, there is only one commitment that I ask of you.

If all of you unanimously, or if that is not possible, individually from either the Mayor or the required members of the Council, will provide me a written guarantee that you will not allow elimination of the people's right to vote as allowed in LB 902 at your option the issue can be resolved. In this manner we could eliminate the vagrancies of the Legislature and their game playing on this issue.

I await your decision and your decision only and confirmation to me on whether or not you wish to avail yourselves of the possibility of relief from your budget difficulties through an increase sales tax, or whether you wish to preclude that option by rejecting the right of the people to vote and therefore be later forced by your decision accordingly, as painful and disagreeable as that might be for you or the Omaha citizens and taxpayers, to seek and impose other actions.

ATTORNEY GENERAL'S OPINIONS

Opinion No. 216
March 22, 1978

Dear Senator Bereuter:

In you letter of March 14, 1978, you requested our opinion on the question of whether L.B. 959 contravened any provisions of state or federal constitutional law. We have examined this legislation in light of certain constitutional questions discussed below, and we have concluded that L.B. 959, in its present form, would be difficult to defend on constitutional grounds.

L.B. 959, entitled as "an act relating to real estate [and] to prohibit ownership of agricultural land as prescribed," is composed of two sections. Section 1 provides as follows:

> "No corporation which has aliens as its stockholders nor any alien shall in any manner purchase or provide money to any person or corporation for the purpose of purchasing any agricultural land in this state."

At section 2, the legislation provides that any corporation or alien violating the provisions of section 1 shall be guilty of a class IV felony, and shall, in addition, forfeit all ownership of "all agricultural land in this state." The bill also provides that ownership of this land will revert to the state, which may sell the land at public auction and deposit the proceeds into the state General Fund.

Section 1 of L.B. 959 appears to contain two separate prohibitions applying to both an alien and a corporation having any alien as a stockholder. The first prohibition prevents the alien or corporation from purchasing any agricultural land in Nebraska. The second prohibition appears to prevent any corporation, with an alien stockholder, or any alien from providing money to anyone (person or corporation) for the purpose of purchasing any agricultural land in this state. Therefore, we will first consider whether the Legislature may prohibit a certain class of corporation (one with an alien stockholder) or an alien from lending or providing money to one wishing to purchase Nebraska agricultural land. We would note at this point that the act does not limit its reach to Nebraska corporations or, for that matter, to nonresident aliens; rather, the legislation purports to include corporations and aliens regardless of their location, residential status, or principal place of business. For example, section 1 appears to prohibit a New York bank, which has an alien as a stockholder, from lending money to a Nebraska farmer intending to

purchase agricultural land in this state. If section 1 could be interpreted to prohibit such activity, a number of constitutional problems become apparent.

Criminal and penal laws are essentially local in character. Ordinarily, no penalty should be incurred under the law of our state except for transactions occurring within our state. In other words, state law has no extraterritorial effect to prohibit activity which may be perfectly legal in the state in which the activity actually occurred. State v. Karsten, 194 Neb. 227, 231 N.W.2d 335 (1975). L.B. 959 contains no provisions to limit its territorial application, and declares illegal certain activity which may occur outside the State of Nebraska in full compliance with other states' laws.

Besides prohibiting certain financial transactions as discussed above, section 1 of L.B. 959 also proscribes the purchase, by any alien or corporation having an alien as a stockholder, of any agricultural land in this state. We are aware that an argument could be made that this was the only prohibition intended by the statute; the language relating to the money transactions being added only to prevent the formation of a "dummy corporation" in order to defeat the primary legislative purpose. However, it is a fundamental requirement of due process of law that a criminal statute be reasonably clear and definite. State v. Adams, 180 Neb. 542, 143 N.W.2d 920 (1966). As the Nebraska Supreme Court stated in State v. Adkins, 196 Neb. 76, 80, 241 N.W.2d 655 (1976):

> "A penal statute creating an offense must be sufficiently explicit to inform those who are subject to it what conduct on their part will render them liable to its penalties. Any statute which forbids the doing of an act in terms so vague that men of common intelligence must necessarily guess at its meaning, and differ as to its application, violates the first essential of due process of law. . . ."

It is our opinion, therefore, that at best, the prohibited activity defined in section 1 is ambiguous; at worst, it constitutes an attempt to extend Nebraska statutory law extraterritorily.

Finally, we would note, parenthetically, other constitutional problems apart from those discussed above. A previous opinion of our office addressed the question of whether the Legislature may treat separately corporations owning agricultural land from corporations owning other types of property. See Report of the Attorney General, 1975-1976, No. 5 at p. 5. The concerns we expressed therein may apply to this legislation to the extent the sanctions of section 1 apply only to corporations wishing to purchase "agricultural land."

It is also questionable whether it is appropriate for legislation to distinguish between corporations having no aliens as stockholders and corporations having a single alien stockholder. Lehndorff Geneva, Inc. v. Warren, 74 Wis.2d 839, 246 N.W.2d 815 (1976). Finally, legislation which provides for the seizure of an alien's property, as opposed to providing a time period for one to sell or dispose of the property, may raise certain due process considerations. Oyama v. California, 332 U.S. 633 (1948); Annot.—Alien Land Laws, 92 L.Ed. 281 (1948).

We have mentioned these further constitutional concerns, apart from the problems we noted given the ambiguity of section 1, to avoid any misunderstanding of our opinion in respect to this proposed legislation. While we appreciate the apparent legislative concerns in respect to alien ownership of Nebraska farm land, we cannot overlook certain constitutional guidelines on how such statutes may be properly enacted and enforced.

Sincerely yours,
PAUL L. DOUGLAS

Opinion No. 217
March 24, 1978

Dear Senator Venditte:

This letter is in response to your question of March 23, 1978, concerning whether or not a legislative resolution must proceed forward as would a legislative bill.

Rule 4, section 2 of the Rules of the Nebraska Unicameral (1978), specifies when a resolution is to be considered as a bill. It provides:

> "Resolutions which propose amendments to the state Constitution, propose the ratification of amendments to the federal Constitution, or memorialize Congress for the purpose of proposing amendments to the United States Constitution, or the rejection, change, alteration, amendment or modification of rules under the provisions of section 84-904, Reissue Revised Statutes of Nebraska, 1943, shall be considered and adopted in the same manner as bills."

Unless the rules are suspended by a 3/5 majority vote of the elected members, section 2 of Rule 4 is controlling.

Your question was apparently asked with regard to Legislative Resolution 152 which calls for the Legislature to petition the Congress of the United States pursuant to Article V of the United States Constitution to call a convention for the sole purpose of proposing an amendment to the Constitution of the United States. The proposed amendment is set out therein.

Since this type of resolution is specifically addressed by section 2, Rule 4, it should therefore be considered and adopted in the same manner as a bill, however, please bear in mind that pursuant to Article III, section 10 of the Nebraska Constitution, the Legislature determines the rules of its proceedings and therefore may alter them as the majority deems appropriate.

Sincerely,
PAUL L. DOUGLAS
Attorney General

"Sec. 265. Except as provided in section 77-1355 and sections 266 to 272 of this act, every political subdivision of the state authorized to levy a tax or cause a tax to be levied shall limit its budget for the 1979-80 fiscal year to an amount not to exceed seven per cent more than its budget for the previous fiscal year; and for each fiscal year thereafter its budget shall not exceed the previous fiscal year's budget by more than seven per cent. Budget shall mean all funds except such funds as are used for employer's contributions under the Federal Insurance Contributions Act and as are necessary to pay interest on or for retiring, funding, or servicing bonded indebtedness during the upcoming fiscal year. No tax shall be levied for the purpose of acquiring buildings, the erection of buildings, and additions to buildings without approval by a majority of those voting in a special election called for such purpose.

Sec. 266. Any political subdivison of the state which experiences a growth in population in excess of seven per cent during the preceding calendar year, by annual official estimates, may increase its budget by the same percentage as the percentage increase in the population growth. School districts' populations shall be measured by student enrollment.

Sec. 267. If the governing body of any political subdivision authorized to levy a tax or cause a tax to be levied determines that a budget higher than that permitted in section 265 or 266 of this act is needed, it shall by resolution call for a special election of such political subdivision for that purpose. The budget increase above the limit permitted in section 265 or 266 of this act may be adopted if approved by a

majority of those voting in such special election or as provided in section 271 of this act.

Sec. 268. The resolution calling for the election and the election notice shall refer to section 265 or 266 of this act and state that the limitation contained therein is proposed to be exceeded and show the proposed increase in the budget amount in terms of dollars and percentages over the limitation as computed in section 265 or 266 of this act, in terms of dollars and the per cent of increase over the current budget, and shall give the date of the election. All such elections shall be held on the third Tuesday, in July, during the year in which taxes will be levied to fund the budget.

Sec. 269. Notice of the election shall state the date on which the election is to be held, the location, and the hours the polls will be open. Such notice shall be published in a newspaper of general circulation in such taxing district at least fifteen days prior to such election. If no newspaper is in general circulation in the taxing district, notice of the election shall be posted in three public places in the taxing district.

Sec. 270. The governing body of the taxing district shall prescribe the form of the ballot to be used at the election, and the proposition appearing on such ballot shall state the percentage and dollar increase which is proposed to be substituted for the percentage limitation imposed by this act. The form of submission upon the ballot shall be as follows:

FOR exceeding the statutory budget limit.

AGAINST exceeding the statutory budget limit.

Sec. 271. As an alternative to submitting the question of increasing the budget to a vote of the people, as provided in sections 267 to 270 of this act, such budget may be increased by the governing body of the political subdivision if it finds that the political subdivision would be benefited by expeditious action and that a vote by the electors of such political subdivision is not needed. If the governing body by a majority vote determines that a vote of the people is not needed the budget may be increased by a two-thirds vote of such governing body. The governing body shall not vote on such issue until a hearing has been conducted on the question of the necessity of increasing the budget by more than seven per cent.

Sec. 272. If any budget category or revenue source is beyond the control of a political subdivision

as a result of a final judgment by the United States Supreme Court, the budget limit for that category shall be adjusted accordingly; but the budget limit shall remain in full force and effect with regard to all other budget categories and revenue sources.

Sec. 273. That section 77-1355, Revised Statutes Supplement, 1977, be amended to read as follows:

77-1355. Every political subdivision authorized to levy a tax shall adjust its budget for the upcoming fiscal year so as not to exceed an increase of more than seven per cent of the previous year's budget funded by ad valorem taxes. ~~or the average increase by percentage for the three such preceding budgets, whichever is greater.~~ When determining the budget to be funded by ad valorem taxes pursuant to this secton, every such political subdivision (1) may increase such budget limit otherwise established pursuant to this section by the amount of receipts lost or to be lost from any state sources and (2) shall reduce such budget limitation established pursuant to this section by the amount of increased receipts from state sources.".

2. On page 315, line 17 strike "and", and in line 23 after "1976" insert ", and section 77-1355, Revised Statutes Supplement, 1977, and also section 77-1356, Revised Statutes Supplement, 1977,".

ATTORNEY GENERAL'S OPINION

Opinion No. 220
March 22, 1978

Dear Senator Duis:

You have requested our opinion on section 2 of LB 958. You ask: "Would you please advise me if Section 2, Agency 51-University of Nebraska section of LB 958 is proper and if it can be contained in LB 958 and enforced?"

LB 958 is entitled:

> "FOR AN ACT to state legislative intent for Legislative Bill 954, Eighty-fifth Legislature, Second Session, 1978; to provide for repeal; and to declare an emergency."

Section 10 repeals sections 1 to 9 of the act effective July 1, 1979. In essence, the intent of LB 958 is to direct that certain things be done by certain entities relating to appropriations made in LB 954, an appropriation bill.

Section 2 of the bill contains five subsections. They provide as follows: Subsection (1) requires the University to report its expenditures on the NCHEMS Program Classification Structure (National Council of Higher Education Management System), it requires that the Department of Administrative Services monitor University expenses according to NCHEMS, and it requires submittal of the 1979-1980 budget on the NCHEMS model unless the DAS rules provide otherwise. Subsection (2) requires each of the campuses to establish a special count through which they are to receive and expend overhead costs associated with grants and contracts. It expresses the intent that the University be allowed to expend above the cash ceilings in an amount not to exceed $1,200,000 for the purpose of receiving and expending overhead funds and directs that any excess be used to offset General Funds. Subsection (3) provides that the University shall assure that the teaching load of teaching assistants does not increase, that classroom contact hours will not decrease, that at least 75 percent of the workload of additional faculty be related to classroom instruction of undergraduates. Subsection (4) provides that 1978-1979 is considered to be the third year of a four-year program in upgrading undergraduate instruction and requires that a continuation of this effort shall be submitted as a part of the 1979-1980 budget request. Subsection (5) recognizes a proposed tuition increase and

encourages the Board of Regents to implement a plan for the effective reallocation of existing resources prior to imposing further tuition rate increases.

The only affirmative duties required under section 2 are that a particular format be utilized in budget requests, and that campuses shall establish special accounts for grant and contract overhead monies.

In all other respects subsection (2) is directory in its terms and not mandatory. The University of Nebraska would be free to ignore all other terms of this particular bill. The bill simply expresses the intent or the desire of the Legislature and does not direct or command particular acts to be done or not done.

The bill is temporary in character in that it expires by its own terms at the end of the fiscal year 1978-1979. Conceivably no remedy would be available should the University decide not to comply with this bill in that the only action to enforce the bill would be by way of a writ of mandamus. Some actions required may be moot by the time a writ of mandamus could be had. The bill itself would cease to be operative by July 1, 1979. Thus, any act not performed prior to that date arguably would no longer be required to be performed.

To the extent that this bill is an attempt to direct executive action as a part of the appropriations process, it is undoubtedly violative of Board of Regents v. Exon, 199 Neb. 146, __N.W.2d__ (1977). In that case the Supreme Court, discussing intent language contained in appropriations bills, stated:

> ". . .The trial court held that the statements in these bills which did not constitute an appropriation of funds were advisory only and not mandatory and that the Legislature was without authority to direct employees of the University. Although the defendants did not challenge this finding in their assignments of error, we have considered it and agree that it is correct."
>
> "The Legislature cannot use an appropriation bill to usurp the powers or duties of the Board of Regents and to give directions to the employees of the University. . . ."

Thus, were the language set forth in LB 958, contained within an appropriations bill, it is clear that it would be in violation of Board of Regents v. Exon.

In some ways this bill appears to be an attempt to do that which is prohibited by Exon without enacting substantive legislation. To that extent it is arguably in violation of the Constitution. However, since the language apparently is directory in nature, in any event, it is our opinion that for the most part the bill has no effect except as an

expression of legislative intent that may or may not be followed by the persons to whom the bill is addressed.

In your last question you ask whether or not this language can be contained in LB 958. It would appear the LB 958 comports with the rules of the Legislature. To that extent the language therein contained may be adopted by the Legislature. The Legislature may enact legislation whether it has any effect or no effect as long as the appropriate rules are followed.

Very truly yours,
PAUL L. DOUGLAS

Father in heaven, sadness, suffering and pain are a part of every human being's life. Each one of us seeks to alleviate them and we as a legislative body we work together in this task.

We ask your guidance and direction in this task and ask you to bless our efforts.

But don't let us forget that part of the price of loving others is pain and suffering sometimes. Never let us love less because of the price it demands. Let us not step into a shell because of the pressure of people we love. That kind of pain we must suffer and it cannot be legislated away.

Your son showed us this way. Let us walk it. Amen.

MESSAGES FROM THE GOVERNOR

March 29, 1978

Mr. President, Mr. Speaker,
and Members of the Legislature
State Capitol Building
Lincoln, Nebraska

Dear Mr. President and Senators:

In this message I am outlining to you our estimated cash needs and request prompt action accordingly for appropriations from the general fund to meet the previously unanticipated demands of the flood emergency.

We need a total appropriation of $1.4 million as requested herewith. Were it not for the fact that President Carter promptly agreed to my request for a Federal Disaster Declaration, we could be facing a $3 to $10 million general fund outlay.

Last year, the Legislature, over my objections, provided the emergency fund only $300,000 from my total request of over $500,000. In October, I called this to the attention of the Budget Committee for early correction in the 1978 session. On March 20 I wrote you requesting immediate action on the $200,000 deficit to correct that mistake. This $200,000 deficit was to be coupled with my original 1978-79 recommendation of new appropriations for the emergency fund of $300,000 to return this needed reserve for unforeseen emergencies to the approximate figure of $500,000.

I reiterate my pleas of last October and March 20 herewith to proceed immediately with passage of the $200,000 deficit which is on final reading.

At this time there is a shortfall of approximately $132,844 in the emergency fund. This is arrived at by recognizing the present uncommitted balances of only $15,156 in the emergency fund, but recognizing the already expended obligations for the flood emergency of $64,000 for National Guard support, $54,000 for dynamiting, and $30,000 in additional expenses.

In addition thereto, we have needs for additional appropriations from the general fund to the emergency fund of $1.2 million to meet the following estimated needs:

$ 750,000	To meet state estimated requirement in grants to political subdivisions
250,000	To meet state 25% requirement of estimated $1 million in individual and family grants

200,000	To return the 1978-79 emergency fund to $500,000 in addition to the $300,000 provided in LB 953
$1,200,000	

I request that you proceed as outlined with appropriations; first, passing the $200,000 deficiency on Monday and then proceed with other recommendations as outlined.

I also request that for a number of reasons you abandon your announced unreasonable plan to adjourn next week until May 15. While we anticipate no cash-flow problems in the emergency fund immediately, a delay in the appropriations process in this area until the latter part of May could cause difficulties.

The National Guard officials have been prompt in collecting these figures. It was my direction to them of last week to give all time and priority to the immediate emergency and to meet obvious needs and to devote the necessary time to cooperate with national and local officials to get the offices open to clear claims by affected citizens. The information provided herewith was collected and provided to me and through me to the Legislature herewith as a second priority. I am sure you will agree that was the correct course.

I urge your prompt action accordingly.

Very truly yours,
(Signed J. James Exon

ATTORNEY GENERAL'S OPINION

Opinion No. 222
March 28, 1978

Dear Senator Nichol:

Legislative Bill 577 reads as follows:

> "Section 1. Any first or second-class city or village may wall, enclose, or cover over that segment of any irrigation or drainage ditch, canal, or lateral, whether on public or private property, which lies within the corporate limits of such city or village, and for this purpose may acquire and hold land or an interest in land, except this section shall not be construed to authorize the taking of property without payment of compensation when required by law. Such city or village may undertake and finance a project authorized by this section either independently or jointly with any person owning or operating such irrigation ditch, canal, or lateral."

You have requested our opinion as to whether even under present law cities may possess "the authority to make the type of expenditure being proposed by this bill." If it be the case that cities now have the power to accomplish the intended objectives of LB 577, it must be found to exist by virtue of general municipal police powers. We do not believe that to be the case.

In order for a city to legally justify, under the police power, any action by way of compulsory enclosure or coverage of drainage or irrigation system works such as ditches, canals, or laterals, first as a necessary prerequisite to such action there would need be a valid determination by the city to the effect that the mere presence of any such facility within the municipality constituted a condition inimical to the public safety, health or welfare (i.e., a public nuisance) which the proposed exercise of the police power would eliminate or alleviate. Many years ago the City of Scottsbluff sought to solve the problem of potential dangers incident to an open irrigation canal located within the city; and, for that purpose, the city enacted an ordinance declaring that "all open ditches and canals extending through any part of the city . . . are dangerous to health, life, and property of inhabitants of the city and the public generally, and are public nuisances." Upon the ostensible authority of that ordinance, the city then instituted an action against an irrigation company seeking to compel compliance with other portions of the ordinance which required either abandonment of the ditch or canal or, as an alternative, the

construction of a pipe or conduit to carry the water flow. See City of Scottsbluff v. Winters Creek Canal Co., 155 Neb. 723, 53 N.W.2d 543 (1952). However, the Nebraska Supreme Court declared the ordinance to be unconstitutional. Specifically, the court found that the mere existence of an open ditch was not a nuisance, in and of itself. Assuming that there was nothing otherwise inherently dangerous about the original construction and that there was no dangerous condition created through negligent maintenance or operation thereof, the court noted with rather blunt realism: "Nothing is harmful or dangerous aside from the fact that the people live near it and may fall into it." The opinion of the court goes on to observe that the general power of a city to declare, prevent, and abate nuisances does not include a power to declare as a nuisance anything which is not in fact a nuisance per se.

There has been no significant change in the relevant statutory law since the Scottsbluff case. Accordingly, upon the basis of the decision and opinion in that case, it is our opinion that cities do not presently, under the general municipal police power, have authority whereby a city may cause the enclosure or covering of open drainage or irrigation ditches and the like. Furthermore, in addition to and independent of that conclusion, there is another aspect involved with LB 577 which perhaps deserves some mention.

Even if it were the case that under the general police power cities could enclose or cover such drainage or irrigation works, and expend public funds for such purpose, it must be realized that a city in undertaking any such project would be exercising a measure of dominion and control over private property owned by other persons or parties. This would require (except where the owner might consent) the exercise of eminent domain. Eminent domain is not a power inherently possessed by governmental subdivisions; but, rather, it is a power which may exist only through express legislative grant.

Insofar as pertinent to the subject under consideration, the eminent domain powers of cities of the first and second class (those affected by LB 577) are contained in Chapter 19, Article 7 of the statutes; and we find nothing therein which would appear to authorize acquisition of rights in privately owned property for purposes such as that contemplated by LB 577.

For the reasons above expressed, we are of the opinion that the objects and purposes which are authorized in LB 577 could not be accomplished under existing law without further specific enabling legislation such as that for which appropriate provision appears to be made in that bill.

Very truly yours,
PAUL L. DOUGLAS

April 3, 1978

Mr. President, Mr. Speaker
and Members of the Legislature
Nebraska State Legislature
Lincoln, Nebraska

Dear Mr. President and Senators:

I appeal to you to correct your present course on proposed spending which is considerably over my recommendations.

There are important spending priority decisions which must be made now by the Legislature to protect the integrity of the sales and income tax rates just reduced January 1, 1978.

I urgently request that you return generally to my budget recommendations as outlines to you in my February 10, 1978, State of the State and Budget Address.

Nothing has significantly changed since that time either in my requests or anticipated receipts. I caution again, as I did on February 10, that the variances of the economy and the impact of same on the sales and income tax receipts are always of concern. Therefore, it is wise for us to be conservative and realistic on spending authorizations rather than to seek avenues where we can risk more spending by over anticipation of available revenues.

As of this moment, pending your scaling down your present expenditure patterns, we are in a sound fiscal position. Our general fund balance as of the latest report was $31.6 million as compared with $1.8 a year ago. The revenue projection of $420.5 million remains essentially the same, being off only approximately $7.7 million or only 1.8% for the fiscal year to date. No one could expect a closer call than that on anticipated receipts. In fact, this is the closest we have ever been to date on anticipated revenues primarily because of the extensive use of nationally recognized econometric models for guidance by the Department of Revenue coupled with their accumulated past experiences.

However, as I have advised your body on many occasions, no one can predict for certain what the future holds for collections, it is not an exact science. Since there continues to be criticism from some in the Legislature on this matter, I once again encourage your body to take over state sales and income tax rate setting and estimating as is done by all other Legislatures.

Again, no one can predict receipts within a few million dollars. The facts are that our over levy of the current year and the recommended

5% over-levy for the next fiscal year should provide the cushion needed to maintain fiscal soundness and cash flow requirements at present tax rates if you will heed my spending restraints and recommendations.

I informed you by message last month, on March 20, 1978, that State General Fund receipts are no longer running ahead of projections at the October, 1977, rate of $8.6 million. Therefore, the beginning balace shown at the top of your daily worksheet is approximately $8.6 million too high. This money, as I stated to you before, is not available. You must reduce your inflated estimate of General Fund monies available for appropriation to reflect this fact, otherwise you are not dealing with current factual information.

The following amounts are available to you in your appropriations deliberations for emergencies, deficiencies, FY 78/79 operations, state aid, capital construction, and a 5% reserve:

Estimated 7/1/78	
Beginning Balance	$ 21.7 million
Projected FY 78/79 receipts less refunds	$543.0 million
Revenue Sharing Trust Fund and Nebraska Capital Const. Fund	$ 27.8 million
Total	$592.5 million

From this amount, you have pending a deficiency bill of $10.9 million over $3 million in excess of my recommendation. In addition thereto you have before you previously unanticipated deficiencies of $2.1 million which I have approved for the ETV Tower at Angora of $.9 million and the additional $1.2 million to meet our obligation for disaster assistance due to recent flooding.

According to your March 28, 1978, General Fund Financial Status Report, you show $558.3 million in legislative appropriation proposals now pending. You have also passed $2.3 million in 'A' bills, and you have $.6 million in 'A' bills on Final Reading, $1.7 million on Select File or E & R Final, and $80.5 million estimated proposed spending on General File. This totals the awesome amount of $642.2 million. None of these proposed amounts includes my necessary previously unanticipated request of $1.2 million for the flood emergency.

I realize that many of the spending proposals before you are attractive to one group or another and are, therefore, difficult for

some of you to oppose. Nevertheless, you must start now to move away from the want list for everybody and realistically face those hard spending decisions which confront you.

You can begin by sustaining my vetoes of nearly $2.0 million on LB's 92A, 108, 582, and 586 which are before you(sic) body.

Additionally, you can pass for my signature LB 460 which would save the General Fund over $1.3 million, by providing this amount directly to the Board of Educational Lands and Funds rather than indirectly as a pass through to the Board through the General Fund.

I also again urge you to reconsider the amount of your proposed deficiencies in LB 924 of $10.9 million and to review your current State operations, State Aid, and Capital Construction proposals, and to set priorities among pending 'A' bills. If you do not do so, there are not sufficient funds to consider LB's 198A, 624A, 672A, and 897A on Final Reading and LB's 135A, 700A, 713A, 889A or 946A on Select File or E & R Final.

I request your special consideration and approval of my full recommendations of $320,000 to aid very young children with special problems and related needs as outlines in my budget request of February 10, 1978.

Attached you will find a sheet detailing revenue information and my recommended expenditures to date which remain essentially unchanged from February 10. Total available revenue is $556.2 million and my recommended expenditures to date are $553.2 million assuming the passage of LB 460. I urge you again to correct your present course on spending.

Therefore, members of the Legislature, if we are to have any chance to keep our pledge of maintaining the sales and income tax rates which were reduced effective January 1, 1978, you must realize where you are and where you are going in spending. This is a time for great restraint on your part. I strongly recommend your careful planning before you proceed with spending authorizations. I also respectfully request that you remain in session and act promptly rather than to adjourn to May as contempleted.

Yours very truly,

(Signed) J. James Exon

ATTORNEY GENERAL'S OPINIONS

Opinion No. 226
March 31, 1978

Re: LB 212

Dear Senator Barnett:

You have inquired whether having a district judge sit as a member of the Jail Standards Board proposed by LB 212 would subject the provisions of that act to constitutional attack on grounds of denying a person equal protection or due process of law. First, those legal actions which have either closed or threatened to close existing criminal detention facilities were primarily based upon grounds that confinement in such a facility amounted to cruel and unusual punishment in violation of the Eighth Amendment to the Constitution of the United States. A similar prohibition against cruel and unusual punishment appears at Article I, Section 9, of the Constitution of the State of Nebraska. Therefore, we see no basis to assume that the conflict of interest you perceive in this statute would give rise to litigation similar to that which has recently either closed or threatened to close existing criminal detention facilities.

You have also asked if it is permissible for members of the Jail Standards Board proposed by LB 212 to receive compensation in the form of reimbursement for expenses while serving upon said board. Section 1, page 3, lines 12 through 15, of LB 212 states:

"The members of the board shall serve without compensation, but they shall be reimbursed for their actual expenses while engaged in the performance of their official duties."

We are aware of no restrictions in the Nebraska Constitution which would prohibit the reimbursement of actual expenses for members of the proposed board.

Yours truly,
PAUL L. DOUGLAS

Acting Clerk of the Legislature

Opinion No. 227
April 3, 1978

Dear Senator Savage:

You have asked us certain questions regarding the provisions of the Political Accountability and Disclosure Act relating to the appointment of persons to the Nebraska Accountability and Disclosure Commission.

In your first question, you point out that the term of one member will expire on June 30, 1978. The Legislature has previously nominated and sent to the Governor a list of candidates to fill the vacancy that will occur June 30, 1978. The Governor has nominated from that list a member to fill the office. The individual nominated is the person who currently serves in the office that will become vacant at the end of the term, June 30, 1978. The Legislature is presently considering whether to confirm or not confirm that appointment.

Your first question is whether section 49-14,112, R.S.Supp., 1976, precludes the reappointment of this member at the current time.

The Political Accountability and Disclosure Act was enacted in 1976 with an operative date of July 1, 1977. Sections 49-14,105 through 49-14,114 provide the method of initial and subsequent appointments of members to the Political Accountability and Disclosure

Commission. In an abbreviated fashion, this procedure is that the Governor and the Secretary of State are to appoint three members from lists furnished to those officers, containing three names each, submitted by the Legislature, the Republican Party State Chairman, and the Democratic Party State Chairman. The Governor and Secretary of State make their selections, subject to confirmation by the Legislature. The initial appointments were to be forwarded by March 15, 1977. That provision was complied with and those persons were confirmed by the Legislature. Section 49-14,111(2) provides:

> "All succeeding appointments to the commission shall be made in the same manner as the original appointments are made and succeeding appointees shall have the same qualifications as their predecessors."

Section 49-14,112 provides:

> "(1) When a vacancy occurs by expiration of a term of office or otherwise, the lists of persons nominated for appointments to fill the vacancy on the commission shall be submitted to the Governor or Secretary of State not later than fifteen legislative days following the convening of the next regular session of the Legislature. . . ."

In construing these statutes together, it is relatively clear that they do not envision the appointment of a succesor to office prior to the expiration of the term of the office in that section 49-14,112 authorizes appointments to fill vacancies on the expiration of a term of office at the next legislative session. Thus, no statutory authority is provided for appointment to this commission until the next regular session of the Legislature after the expiration of the term of office or other act constituting a vacancy.

However, it has been held in some cases that a prospective appointment may be made where the vacancy is sure to occur. State ex rel. Koch v. Lexcen, 131 Mont. 161, 308 P.2d 974, Annotation, 75 A.L.R.2d 1277. At least one jurisdiction has adopted the rule that the Governor may fill a vacancy even though the term filled will not commence until after expiration of the Governor's term. McRae v. State, 269 Ala. 241, 112 So.2d 487.

We have found no Nebraska cases that hold that an office may be prospectively filled. However, it seems clear in construing the legislative language employed in section 49-14,112 the authority to appoint does not exist until after the vacancy by expiration of the term occurs. That authority is to be exercised by the next regular legislative session. Thus, it is our opinion that the statute must be construed to give effect to every portion thereof which would require the

conclusion that the present Legislature is not empowered to nominate persons to be referred to the Governor for appointment to the term commencing July 1, 1978.

In your second question you ask whether an incumbent office holder may continue in office where no successor has been appointed or qualified to succeed the incumbent in office. The Supreme Court has indicated in State v. Willott, 103 Neb. 798, 174 N.W. 429 (1919), that an appointee to a public office is generally entitled to the statutory benefit that officers shall hold over until their successors are elected and qualified. Currently section 32-1045, R.R.S. 1943, in part provides:

> "Every officer elected or appointed for a fixed term shall hold office until his successor is elected or appointed, and qualified, which fixed term shall end and the successor whether elected or appointed shall qualify on the day for taking office as provided by law . . ."

thus providing the right of an officer to continue to hold the office until a successor is appointed and qualified. We believe these statutes and cases apply to the Nebraska Political and Accountability Disclosure Commission. The member whose term ends June 30, 1978, may hold over until the successor is nominated, appointed and qualified by the next regular session of the Legislature commencing in January of 1979.

In your last question you ask whether the Legislature is unduly restricting the executive authority to appoint where the statute limits the executive to appointments from a list of names submitted by the Legislature.

The Supreme Court of the State of Illinois in Walker v. State Board of Elections, 65 Ill.2d 516, 359 N.E.2d 113 (1976), held that the Illinois State Board of Elections' statutory method used to select members was unconstitutional. That method is closely analogous to our statutory method for selecting members to the Nebraska Political Accountability and Disclosure Commission. In a related case, the Nebraska Supreme Court in Wittler v. Baumgartner, 180 Neb. 446, 144 N.W.2d 62 (1966), held unconstitutional a manner of selecting directors of a public power district. The court said:

> "It is contended that the Act is in violation of the Constitution in that the Act constitutes an encroachment by the Legislature upon the exclusive prerogatives of the Governor in violation of the distribution of powers section of the Constitution. Art. II, sec. 1, Constitution of Nebraska. This contention is based on the limitations imposed on the Governor in the appointment of

directors to the grid system board of directors on the establishment of the grid system. The pertinent part of section 6 of the Act provides: 'In the first instance the directors of the grid system shall be appointed by the Governor from among the directors of member districts whose management it assumes under the provisions of this act; . . .'

"Under the Constitution of Nebraska the supreme executive power is vested in the Governor. . . . The Constitution further provides that the Governor, with the advice and consent of the Legislature shall appoint all officers whose offices are established by the Constitution, or which may be created by law, and that no such officer shall be appointed or elected by the Legislature. Art. IV, sec. 10, Constitution of Nebraska. . . ."

In the Wittler case the Governor's selection was restricted in certain districts to a single individual. The court went on to hold that:

". . . The right of the Legislature to prescribe reasonable qualifications of one to be appointed to office is not disputed. But the Legislature is prohibited by constitutional provision from appointing officers whose offices are created by law, either directly or indirectly. The provisions of the Act which limit the appointment of grid system directors by the Governor to a certain unnamed individual or to a limited few, is an encroachment by the Legislature upon the powers of the Governor and is void as violative of Article IV, section 10, of the Constitution of Nebraska." (Emphasis added.)

Thus, this language certainly raises a question as to the constitutionality of the present method of selecting members to the Nebraska Political Accountability and Disclosure Commission. While we cannot say with certainty that the method currently utilized is, per se, unconstitutional, limiting the Governor's selection to a group of three candidates submitted by the Legislature, it is, at least, constitutionally suspect.

Sincerely,
PAUL L. DOUGLAS

LEGISLATIVE JOURNAL

EIGHTY-FIFTH LEGISLATURE
SECOND SESSION

FORTY-NINTH DAY

Legislative Chamber, Lincoln, Nebraska
Wednesday, April 5, 1978

Pursuant to adjournment, the Legislature met at 9:01 a.m., President Whelan presiding.

PRAYER

The prayer was offered by the Chaplain.

> Lord of our lives, wilt thou teach us true discrimination, that we may be able to discern the difference between faith and fatalism, between activity and accomplishment between humility and an inferiority complex, between a passing salute to God, and a real prayer that seeks to find out God's will. We can stand criticism. We can stand a certain amount of pressure. But we cannot stand the necessity of making grave decisions with nothing but our own poor human wisdom. Our heads are not enough and our hearts fail us. Cabbages have heads, but they have no souls. We, who are created in the image of God, are restless and unhappy until we know that we are doing thy will by thy help. This is what we pray for, through Jesus Christ our Lord. Amen.

Introduced by Rules Committee: DeCamp, 40th District, Chairman; Carsten, 2nd District; Kelly, 35th District; Mills, 44th District.

WHEREAS, the Nebraska State Legislature in recent years has seen an increased workload of an incredible nature involving dozens of major bills and issues each year which must be handled by the Nebraska Unicameral in the timely fashion, and

WHEREAS, the impact of federal government rules, regulations, and legislation in the 1970's and the 1980's is expected to be even greater upon state governments and require even closer state government supervision and attention, and

WHEREAS, the fact that the Nebraska Legislature is both unicameral and non partisan tends to create a system in which caucusing among members is not done.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Rules Committee of the Nebraska Legislature conduct an interim study with the goal being to develop a caucus or organization system which would be both accomplished through the rules of the Legislature and within the intent of the Nebraska State Constitution so as to establish some type of caucus system whether that system be along partisan lines or philosophical lines or geographical or whatever and that the Rules Committee report its findings as the first order of business to the 1979 Legislature with a view to implementing some type of caucus and organizational system.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 218.

Introduced by Cullan, 49th District; Chambers, 11th District.

WHEREAS, the State of Nebraska contains a large Native American population; and

WHEREAS, those areas of the state in which populations of Native Americans are located have special law enforcement problems; and

WHEREAS, analysis of money available for law enforcement activities in Native American population areas and the sources of such money is greatly needed; and

WHEREAS, cooperation between federal and state law enforcement officials is necessary.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Whelan presiding.

PRAYER

The prayer was offered by the Chaplain.

> Our loving Father, we are grateful for the privilege of responsibility. Often pressing decisions cause inward frustrations. We know thou hast put us here on earth not for a picnic, but for a pilgrimage. May we all endeavor to live up to our capacities. While asking for Thy guidance, may we not shun hard thought, deep resolves, high integrity, and sheer common sense. While recognizing we have feet of clay and can be shattered by frustrations, never let us lose awareness of our supreme worth, for we have been created in Thy spiritual image, and destined to live as Thy children. Amen.

reference to specific parts, fractional shares or assets thereof, by filing a written instrument within the time and at the place hereinafter provided.

(2) The instrument shall (i) describe the property or part thereof or the interest therein renounced, (ii) be signed and acknowledged by the person renouncing in the manner provided for in the execution of deeds of real estate, and (iii) declare the renunciation and the extent thereof.

(3) The appropriate court may direct or permit a trustee under a testamentary or nontestamentary instrument to renounce or deviate from any power of administration, management or allocation of benefit upon finding that exercise of such power may defeat or impair the accomplishment of the purposes of the trust whether by the imposition of tax or the allocation of beneficial interest inconsistent with such purposes. Such authority shall be exercised after hearing and upon notice to all known persons beneficially interested in such trust, in the manner directed by said court.

(b) The writing specified in (a) (1) and (a) (2) must be filed within nine months after the death of the decedent, settlor of the trust or donee of the power, or if the taker of the property is not then finally ascertained not later than nine months after the event by which the taker or the interest is finally ascertained. The writing must be filed in the court of the county where proceedings concerning the decedent's estate are pending, or where they would be pending if commenced. If an interest in real estate is renounced, a copy of the writing shall also be recorded in the office of the register of deeds in the county in which said real estate lies. A copy of the writing also shall be mailed to the personal representative of the decedent, the trustee of any trust in which the interest renouncing exists, or to such other person as has legal title to, or possession of, the property in which the interest renounced exists, and no such personal representative, trustee, or person shall be liable for any other proper distribution or other disposition made without actual notice of the renunciation.

(c) Unless the decedent or donee of the power has otherwise indicated by his will, the interest renounced, and any future interest which is to take effect in possession or enjoyment at or after the termination of the interest renounced, passes as if the person renouncing had predeceased the decedent, or if the person

renouncing is one designated to take pursuant to a power of appointment exercised by a testamentary instrument, as if the person renouncing had predeceased the donee of the power. In every case the renunciation relates back for all purposes to the date of death of the decedent or the donee, as the case may be.

(d) Any (1) assignment, conveyance, encumbrance, pledge or transfer of property therein or any contract therefor, (2) written waiver of the right to renounce or any acceptance of property by an heir, devisee, person succeeding to a renounced interest, beneficiary or person designated to take pursuant to a power of appointment exercised by testamentary instrument, or (3) sale or other disposition of property pursuant to judicial process, made before the expiration of the period in which he is permitted to renounce, bars the right to renounce as to the property.

(e) The right to renounce granted by this section exists irrespective of any limitation on the interest of the person renouncing in the nature of a spendthrift provision or similar restriction.

(f) This section does not abridge the right of any person to assign, convey, release, or renounce any property arising under any other section of this code or other statute.

(g) Any interest in property which exists on January 1, 1977, but which has not then become indefeasibly fixed both in quality and quantity, or the taker of which has not then become finally ascertained, may be renounced after January 1, 1977 as provided herein. An interest which has arisen prior to January 1, 1977 in any person other than the person renouncing is not destroyed or diminished by any action of the person renouncing taken under this section.

The rights ~~Thus~~ barred by reason of the filing of the closing statement do not include rights to recover from a personal representative for fraud, misrepresentation, or inadequate disclosure related to the settlement of the decedent's estate.

PRAYER

Father in Heaven, help us to understand and be understood. So often I misjudge others meanings or intentions and often I am misunderstood.

Help us to be candid in our communication without being overly blunt. Help us be direct in our conversation without being unkindly direct.

Help us to stand for our principles, even in the face of active disagreement.

And in dealing with others, help us to give them credit for having intentions at least as honorable as our own. Amen.

LEGISLATIVE BILL 65. Mr. Chambers offered the following amendment:

1. Strike the original sections and all amendments thereto and insert the following:

"Section 1. That section 77-2715, Revised Statutes Supplement, 1977, be amended to read as follows:

77-2715. (1) A tax is hereby imposed for each taxable year on the entire income of every resident individual of this state and on the income of every nonresident individual of this state which is derived from sources within this state. The tax shall be a flat percentage of, for each resident individual, the taxpayer's adjusted federal income tax liability for the taxable year, and for each nonresident individual, the taxpayer's adjusted federal income tax liability for the taxable year which is attributable to income derived from sources within this state.

The taxpayer's adjusted federal income tax liability shall be the amount of federal income tax, as determined under Subtitle A, Chapter I, subchapter A, Parts I, V, and VI of the Internal Revenue Code, for which the taxpayer would have been liable if such taxpayer had paid federal income tax based on federal taxable income as adjusted by the modifications provided in section 77-2716 without any allowance for credits against such tax permitted under the Internal Revenue Code.

The adjusted federal income tax liability of each nonresident individual taxpayer which is attributable to income derived from sources within this state shall be determined by multiplying his adjusted federal income tax liability by a fraction, the numerator of which is his taxable income derived from sources within this state as determined by section 77-2733, and the denominator of which is his total federal taxable income, after first subtracting from each the amounts provided in subsection

(1) of section 77-2716; Provided, that if the above determination attributes more or less federal income tax than is reasonably attributable to income derived from sources within this state, the taxpayer may petition for, or the Tax Commissioner may require, the employment of any other method to attribute an amount of federal income tax which is reasonable and equitable in the circumstances.

(2) (a) A resident of this state shall mean an individual who is domiciled in Nebraska or who maintains a permanent place of abode in this state and spends in the aggregate more than six months of the taxable year in this state; and

(b) A nonresident shall mean an individual who is not a resident of this state.

(3) (a) There shall also be allowed to resident individuals as a credit against the tax imposed by sections 77-2714 to 77-27,135, a food sales tax credit equal to ~~twenty~~ twenty-four dollars multiplied by the number of allowable personal exemptions claimed for individuals who are residents, exclusive of the extra exemptions allowable for age or blindness. In the event a dependent is claimed as an exemption on a federal return by a nonresident taxpayer who files no return in this state, such dependent resides in this state, and the support claimed by such nonresident taxpayer is substantially spent in this state, the taxpayer in this state who has legal custody of such dependent may claim such food sales tax credit for each such dependent. A refund shall be allowed to the extent that the food sales tax credit exceeds the income tax payable by the resident individual for the taxable year but no refund shall be made in any amount less than two dollars.

(b) No individual who may be claimed as a personal exemption on another individual's return shall be entitled to a food sales tax credit or refund for himself. If a food sales tax credit or refund is claimed on more than one return for the same individual, the Tax Commissioner is authorized to determine the individual entitled to claim the credit or refund provided herein.

(c) Any individual, other than a person who for more than six months of the taxable year is a resident patient or inmate of a public institution or an organization exempt from tax as a charitable institution, who maintains a permanent place of abode within this state, spending in the aggregate more than six months of the taxable year within this state, shall be conclusively

presumed to have paid or paid with respect to such personal exemptions retail sales and use taxes imposed by this state equal to the maximum food sales tax credit allowable.

(d) The credits or refunds for sales taxes allowed by this subsection shall be claimed on income tax returns or in the case of an individual not having tax liability in this state on such forms or claims for refunds as the Tax Commissioner shall prescribe.

(4) Credits to minors, including any child whose parent or guardian is a recipient of aid to dependent children, shall be claimed by the parent or guardian.

Sec. 2. This act shall become operative for all taxable years commencing on or after January 1, 1978.

Sec. 3. That original section 77-2715, Revised Statutes Supplement, 1977, is repealed.".

ATTORNEY GENERAL'S OPINION

Opinion No. 229
April 4, 1978

Re: Whether certain projects are exempt from Certificate of Need requirements in LB 795

Dear Senator Lewis:

You have asked whether section 24 of LB 795, with committee amendments found on page 840 of the Legislative Journal on February 21, 1978, could be construed to require the following projects to go through the Certificate of Need process: (1) Projects under construction prior to January 1, 1979, (2) Projects which have already undergone section 1122 review but for which construction has not commenced as of January 1, 1979, or (3) Projects which are not under construction prior to January 1, 1979, but which have undergone section 1122 review and are on appeal in the courts on January 1, 1979. We have concluded that it could. If the bill as thus amended were to become law, there are several ambiguities in it which would open it up to statutory construction.

It is a rule of statutory construction that referential and qualifying words in a statute, where no contrary intention appears, refer solely to the last antecedent. See Haiar v. Kessler, 188 Neb. 312, 196 N.W.2d 380 (1972). Even with this rule it is not clear in section 24(2) whether "of one hundred fifty thousand dollars" refers (1) to payments or commitments actually made before January 1, 1979, or (2) to the projected cost of the development or expansion of the facility or health maintenance organization on which some payments or

commitments toward that total have been made before January 1, 1979, or (3) to the value of the facility or health maintenance organization proposing to develop the new health service.

It is a rule of statutory construction that where a statute enumerates the things upon which it is to operate, it is to be construed as excluding from its effect all those not expressly mentioned unless the Legislature has plainly indicated a contrary purpose or intention. See Ledwith v. Bankers Life Insurance Company of Nebraska, 156 Neb. 107, 54 N.W.2d 409 (1952). Thus, section 24 could be construed as not exempting some projects in each of the three categories you have mentioned because they do not meet both requirements for exemption. Some examples are projects which did not require section 1122 reviews or, if they did, their developers chose to forego federal reimbursements rather than to have such a review.

It is a rule of statutory construction that a legislative act will not operate retroactively unless the legislative intent that it is to do so is clearly disclosed. See State ex rel. City of Grand Island v. Union Pacific Railroad Company, 152 Neb. 772, 788, 42 N.W.2d 867 (1950). Although LB 795 is not expressly given a retroactive application, it could be construed as not exempting projects on which the bill may have a retroactive effect because such projects are not expressly exempted. These are projects not meeting both requirements in section 24(1) but on which over $150,000.00 have been spent in planning and site construction before January 1, 1979, and/or on which construction has started before January 1, 1979. Such projects will have passed before the operative date of the bill the points at which Certificates of Need will be issued after that date.

In conclusion, all the projects you have mentioned are not clearly exempted from the Certificate of Need process. Neither are all projects on which the bill may have a retroactive effect. Such exemptions as well as the first requirement for exemption under section 24(1) could be clarified by additional amendments.

Sincerely yours,
PAUL L. DOUGLAS
Attorney General

Mr. Maresh offered the following amendments:

AMENDMENTS TO LB 128:

1. Strike original section 1 and insert:

"Section 1. That section 48-628, Revised Statutes Supplement, 1977, be amended to read as follows:

48-628. An individual shall be disqualified for benefits:

(a) For the week in which he has left work voluntarily without good cause, if so found by the Commissioner of Labor, and for not less than seven weeks nor more than ten weeks which immediately follow such week, as determined by the commissioner according to the circumstances in each case;

(b) For the week in which he has been discharged for misconduct connected with his work, if so found by the commissioner, and for not less than seven weeks nor more than ten weeks which immediately follow such week, as determined by the commissioner in each case according to the seriousness of the misconduct; Provided, that if the commissioner finds that such individual's misconduct was gross, flagrant, and willful, or was unlawful, the commissioner shall totally disqualify such individual from receiving benefits with respect to wage credits earned prior to such misconduct;

(c) For any week of unemployment in which he has failed, without good cause, either to apply for available, suitable work when so directed by the employment office or the commissioner or to accept suitable work when offered him, or to return to his customary self-employment, if any, and the commissioner so finds, and for not less than seven weeks nor more than ten weeks which immediately follow such week, as determined by the commissioner, and his total benefit amount to which he is then entitled shall be reduced by an amount equal to the number of weeks for which he has been disqualified by the commissioner. (1) In determining whether or not any work is suitable for an individual, the commissioner shall consider the degree of risk involved to his health, safety, and morals, his physical fitness and prior training, his experience and prior earnings, his length of unemployment and prospects for securing local work in his customary occupation, and the distance of the available work from his residence. (2) Notwithstanding any other provisions of sections 48-601 to 48-669, no work shall be deemed suitable and benefits shall not be denied under said sections to any otherwise eligible individual for refusing to accept new work under any of the following conditions: (i) If the position offered is vacant due directly to a strike, lockout, or other labor dispute; (ii) if the wages, hours, or other conditions of the work offered are substantially less favorable to the individual than those prevailing for similar work in the locality; or (iii) if, as a condition of being employed, the individual would be

required to join a company union or to resign from or refrain from joining any bona fide labor organization.

(3) Notwithstanding any other provisions in this subdivision, no otherwise eligible individual shall be denied benefits with respect to any week in which he is in training with the approval of the commissioner, by reason of the application of the provisions in this subdivision relating to failure to apply for or a refusal to accept suitable work;

(d) For any week with respect to which the commissioner finds that his total unemployment is due to a stoppage of work which exists because of a labor dispute at the factory, establishment, or other premises at which he is or was last employed; Provided, that this subdivision shall not apply if it is shown to the satisfaction of the commissioner that (1) he is not participating in or financing or directly interested in the labor dispute which caused the stoppage of work, and (2) he does not belong to a grade or class of workers of which, immediately before the commencement of the stoppage, there were members employed at the premises at which the stoppage occurs, any of whom are participating, financing, or directly interested in the dispute; and provided further, that if in any case separate branches of work which are commonly conducted as separate businesses in separate premises, are conducted in separate departments of the same premises, each such department shall, for the purposes of this subdivision, be deemed to be a separate factory, establishment, or other premises;

(e) For any week with respect to which he is receiving or has received remuneration in the form of (1) wages in lieu of notice, or a dismissal or separation allowance, (2) compensation for temporary partial disability under the workmen's compensation law of any state or under a similar law of the United States, (3) primary insurance benefits under Title II of the Social Security Act, as amended, or similar payments under any Act of Congress, or for which he has applied to receive such benefits or payments, or (4) retirement pension or other gratuity or bonus from an employer, paid after termination of employment, on account of prior length of service, or disability not compensated under the workmen's compensation law. If such remuneration is less than the benefits which would otherwise be due he shall be entitled to receive for such week, if otherwise eligible, benefits reduced by the amount of such

remuneration. In the case of lump sum payments as to items (1) and (4) of this subdivision, such payments shall be prorated by weeks on the basis of the most recent weekly wage of the individual; Provided, no payment by the United States to veterans (i) for service or nonservice connected disabilities, or (ii) for retirement in lieu of service connected disability compensation, shall be deemed to be disqualifying or deductible from the benefit amount; and provided further, no deduction shall be made for the part of any retirement pension which represents return of payments made by the individual;

(f) For any week with respect to which or a part of which he has received or is seeking unemployment benefits under an unemployment compensation law of any other state or of the United States; Provided, that if the appropriate agency of such other state or of the United States finally determines that he is not entitled to such unemployment benefits, this disqualification shall not apply;

(g) For any week of unemployment if such individual is a student. For the purpose of this subdivision, the term student shall mean an individual registered for full attendance at and regularly attending an established school, college, or university or who has so attended during the most recent school term, unless the major portion of his wages for insured work during his base period was for services performed while attending school; Provided, attendance for training purposes under a plan approved by the commissioner for such individual before attendance shall not be disqualifying;

(h) For any week of unemployment if benefits claimed are based on services performed (1) prior to December 31, 1977 in an instructional, research, or principal administrative capacity in an institution of higher education if such week of unemployment begins during the period between two successive academic years or during a similar period between two regular terms, whether or not successive, or during a period of paid sabbatical leave provided for in the individual's contract, if the individual has a contract or contracts to perform services in any such capacity for any institution of higher education for both such academic years or both such terms; (2) after December 31, 1977, in an instructional, research, or principal administrative capacity for an educational institution if such week of

unemployment begins during the period between two successive years, or during a similar period between two regular terms, whether or not successive, or during a period of paid sabbatical leave provided for in the individual's contract, to any individual if such individual performs such services in the first of such academic years or terms and if there is a contract or a reasonable assurance that such individual will perform services in any such capacity for any educational institution in the second of such academic years or terms; or after December 31, 1977, in any other capacity for an educational institution, other than an institution of higher education, if such week of unemployment begins during a period between two successive academic years or terms, or which consists of authorized school vacation if such individual performs such services in the first of such academic years or terms and there is a reasonable assurance that such individual will perform such services in the second of such academic years or terms or after such authorized school vacation; and

(i) For any week of unemployment benefits if the services upon which such benefits are based consist substantially of participating in sports or athletic events or training or preparing to so participate, if such week of unemployment begins during the period between two successive sport seasons or similar periods if such individual performed such services in the first of such seasons or similar periods and there is a reasonable assurance that such individual will perform such services in the later of such seasons or similar periods.''.

The governing body shall not vote on such issued until a hearing has been conducted on the question of the necessity of increasing the budget by more than seven per cent.

Sec. 272. MESSAGE FROM THE GOVERNOR

April 10, 1978

Mr. President, Mr. Speaker,
and Members of the Legislature
State Capitol Building
Lincoln, Nebraska

Dear Mr. President and Senators:

By your appropriations process you are continuing to threaten to increase state tax rates that supposedly you are pledged to maintain. I am reducing your spending authorizations by a total of $2,246,602 of general fund by this message.

I am returning herewith LB 924 with my signature and with my specific line item reduction vetoes.

I would have liked to approve some additional deficits in some of these areas, but your continued excessive spending patterns over available revenues leave me no recourse.

It is apparent that you have not heeded my messages to you of March 20, March 23, and April 3 to preserve the sales and income tax rates just reduced effective January 1, 1978. In those messages, I warned of future vetoes and urged you to show restraint in developing your budget proposals.

On Apirl 3, I urged you to sustain my vetoes on LB's 92, 92A, 108, 582, 586, and to reconsider your deficiency decisions in LB 924, and to review your current State operations, State Aid, and Capital Construction FY 1978/79 proposals.

In response, you have overridden my vetoes of LB 108 and LB 586; you have sent me LB 924 without a penny in reductions; and, you have refused to review your decisions on FY 1978/79 budgets.

I am approving $160,223 for the School Lunch Program as previously agreed and $210,240 for the School for the Deaf.

I am vetoing other items essentially for the same reasons that I vetoed them in prior years.

For the Department of Public Welfare, I must concur with the addition of $500,000 to my original recommendation of $750,000. In

my Budget Message of February 10, 1978, I informed you of the several factors - including your failure to sustain my vetoes of income support and eligibility levels - which are driving welfare costs upward. In addition, I am concerned about the reduction of $1,050,000 you have made from my recommendation for State Assistance programs next fiscal year and the additional deficit this action may portend.

The line item vetoes and reductions transmitted herewith total $2,246,602 from the General Fund. In light of your actions on other appropriations measures and their effect on the current sales andincome tax rates, I urge your sustaining of these vetoes.

I again plead with you to halt now all approval of any new spending or veto overrides until you know where you are on spending.

Before you are bills that many assume will pass, some commendable. The point is that you apparently do not have the funds available for these without state tax increases.

I renew my plea for caution and to reduce other spending if you intend to pass $.5 million in military bonuses in LB 564, $2.5 million in gasohol funding in LB 926, $2.2 million in school funding bill LB 192, $1.0 million in dike repairs in LB 965 and others.

Yours very truly,
(Signed) J. James Exon
Governor

Introduced by Keyes, 3rd District.

WHEREAS, in 1883 the State of Nebraska granted the Federal government the right to acquire lands in this State for military installations; and

WHEREAS, the State of Nebraska and its political subdivisions cannot tax PRIVATELY OWNED PROPERTY located on federally controlled land because of the federal jurisdication; and

EIGHTY-FIFTH LEGISLATURE
SECOND SESSION

FIFTY-FOURTH DAY

Legislative Chamber, Lincoln, Nebraska
Wednesday, April 12, 1978

Pursuant to adjournment, the Legislature met at 9:01 a.m., President Whelan presiding.

PRAYER

The prayer was offered by the Chaplain.

Father in Heaven, watch over the people of this house. Give them courage for their convictions and stamina to withstand criticism. Help their families who remain at home, some times lonely, always longing.

Let their desks and offices be places where people are taken care of, not factions or groups.

Let these aisles be paths leading to solutions for the need and want of others.

Let this room be the room of businessmen and artisan, professional man and poets.

Let the area behind the rail be witness to good men talking and working for others.

Let its buzzer be the voice of the people crying out "help us."

Let its gavel punctuate that work and ever be a reminder that we are not our own - we belong to you. Amen.

ROLL CALL

The roll was called and all members were present except Mrs. Marsh, Messrs. DeCamp, Koch, F. Lewis, Newell, and Reutzel who were excused until they arrive.

ATTORNEY GENERAL'S OPINION

Opinion No. 231
April 10, 1978

Dear Senator DeCamp:

You have requested the opinion of this office regarding whether the Legislature may amend a bill which has been vetoed by the Governor and returned to the Legislature. We can find no constitutional prohibition to utilizing this procedure.

Article III, Section 10, of the Nebraska Constitution provides in part that the Legislature shall determine the rules of its proceedings. This section has been construed by the Nebraska Supreme Court in State ex rel. Johnson v. Hagemeister, 161 Neb. 475, 73 N.W.2d 625 (1955), wherein it is stated:

". . . This provision does not restrict the power given to the mere formulation of standing rules, or to the proceedings of the body in ordinary legislative matters. In the absence of costitutional restraints, and when exercised by a majority of a constitutional quorum, such authority extends to the determination of the propriety and effect of any action as it is taken by the body as it proceeds in the exercise of any power, in the transaction of any business, or in the performance of any duty conferred upon it by the Constitution."

Accordingly, it would appear that the Legislature would have the authority to promulgate rules allowing for the amendment of a bill which has been vetoed. See also, Attorney General Opinion No. 113, 1973-74 (attached).

You have also questioned whether the passage of such an amended bill which previously had been vetoed would be considered as having overridden the veto. In our opinion it would not. Article IV, Section 15, of the Nebraska Constitution provides only for overriding the veto of the same bill. For purposes of this provision, it would appear that the only reasonable interpretation is that once the vetoed bill has been amended, it is no longer the same bill that has been vetoed, and therefore, it must once again be presented to the Governor.

Your very truly,
PAUL L. DOUGLAS
Attorney General

MESSAGE FROM THE GOVERNOR

April 12, 1978

Mr. President, Mr. Speaker, and
Members of the Legislature
State Capitol
Lincoln, Nebraska

Dear Mr. President and Senators:

I am sure you are as distraught at receiving these numerous veto messages as I am in preparing them. Again, by your appropriation process you are continuing to threaten to increase State tax rates that supposedly you are pledged to maintain. Herewith you will find further reduction of your spending authorization by a total of $3,710,298 affecting the General Fund.

With these vetoes I have already struck from your spending authorizations this session approximately $8,000,000.

I am returning herewith LB 953 and LB 956 with my signature and with my specific line-item reduction vetoes. As with LB 924, returned Monday, I would have liked the opportunity to approve some additional items. However, once again, you have left me no other recourse in my efforts to hold the line on the State tax rates.

These vetoes and line-item reductions in LB's 953 and 956, coupled with the $2,246,602 in vetoes and line-item reductions in LB 924 delivered to you Monday, total $5,956,900. Even this large amount will not totally serve to bring your current spending plans back into line with the existing sales and income tax rates and still maintain my original recommendation of a 5 percent reserve. To accomplish this, I again urge you to show restraint in your spending proposals.

In LB 956, I am approving $100,000 to develop preliminary plans and refine cost estimates for renovating the needed Agricultural Engineering Building at the University of Nebraska. We necessarily must approve $138,000 for land acquisition as a University obligation. With these exceptions, I am reducing Capital Construction authorization at the University of Nebraska to my original recommendation of $1.2 million with the understanding that the University will initiate installation of a chiller for the East Campus from this amount.

Among a few items I am approving are the Botany lab at Wayne State College for $60,000, the program statement for Library expansion at Kearney State College for $5,000 and first year cost of $60,000 for athletic field improvement also at the Kearney campus, and $6,000 for the soil testing for the Field House at Chadron State College.

I am vetoing $450,000 for the Legislative Council which I understand was to be used to renovate and redecorate Legislator's offices. In light of my other necessary vetoes, I do not believe this to be a priority item at this time.

I again urge you to proceed with caution on your spending proposal so as to maintain the integrity of current sales and income tax rates.

Yours very truly,

ATTORNEY GENERAL'S OPINION

Opinion No. 232
April 6, 1978

Dear Senator Mills:

You have asked for our opinion on the constitutionality of LB 743 of the Eighty-fifth Legislature, Second Session (1978). The same is hereinafter discussed.

LB 743 would establish a scholarship award program to Nebraska students based on need and who are attending postsecondary educational institutions located in Nebraska which satisfy Nebraska laws relating to approval, licensure and accreditation. Subject to certain conditions, section 15 of that legislative bill would authorize

the Nebraska Coordinating Commission for postsecondary education to annually give eligible students the lesser of the following amounts: one thousand eight hundred dollars ($1,800.00) or the actual tuition charge at the eligible postsecondary educational institution selected by the student, whichever is less. Thus, state aid would be used by the student to purchase education; it would be given to the student for educational expenses and the student would select the college.

Is LB 743 in violation of the Constitution of the United States? It appears to be similar to the "Tennessee Student Assistance Act" which was recently challenged before a three-judge United States District Court on the grounds that the Act, on its face and in its applciation, was violative of the Establishment Clause of the Constitution of the United States. That court examined the Act and found that it did not offend the values protected by the Establishment Clause, and its findings and judgment were affirmed on appeal. Americans United for Sep. of Church and State v. Blanton, 433 F.Supp. 97 (M.D.Tenn. 1977), aff'd, ___ U.S. ___, 98 S.Ct. 39, 54 L.Ed.2d 65 (1978).

Is LB 743 in violation of the Constitution of Nebraska? In answering that question it must be kept in mind that, with but one exception, since the State of Nebraska was admitted into the Union its citizens have been opposed to any state aid under any guise to any educational institution other than the public school. The separation of church and state is dramatically illustrated in the recorded proceedings of the 1919-1920 Constitutional Convention. For example, one of the delegates had this to say:

> "As far as I am personally concerned, I desire to have the Constitution prohibit any state aid under any guise to any educational institution other than the public school. It is not a difficult matter, if the Legislature sees fit to find an excuse in the interests of general welfare, to make donations under the guise of military training or normal training or what not, in a private institution. I have absolutely no hostility to those institutions, but it will invariably bring on the kind of war fare that this state should stay clear from, if you mingle the state and church even to that extent. * * *"
>
> "* * * The state might desire to adopt the policy, instead of extending its own plan for normal schools, to utilize the denominational schools. * * *"
>
> "I am opposed to that principle. * * *"
>
> "Mr. Taylor: This amendment simply does this: It prohibits the aiding by the state of any schools other than those owned and

controlled by the state or its subdivisions. It makes that matter plain and the amendment ought to be adopted." (Emphasis supplied.) Vol. II, Proceedings of the Constitutional Convention, 1919-1920, pp. 2661, 2678, 2680."

The amendment was adopted. It became section 11 of Article VII of the Constitution of Nebraska.

Somehow the values protected by section 11 of Article VII of the Constitution of Nebraska were overlooked in 1972 when the Legislature passed LB 1171. The legislative bill provided public grants to students in need of tuition aid to attend private colleges. It was declared unconstitutional by the Supreme Court. State ex rel. Rogers v. Swanson, 192 Neb. 125, 219 N.W.2d 726 (1974).

In 1976 the Legislature passed LB 666. That legislative bill provided that at the general election in November, 1976, there would be submitted to the electors of the State of Nebraska two (2) amendments to section 11 of Article VII of the Constitution of Nebraska. It further provided that the proposition for the submission of the proposed amendments would be placed upon the ballots in the following form:

(I)

"Constitutional amendment to permit contracting with institutions not wholly owned or controlled by the state or any political subdivision for nonsectarian services for handicapped children."

"For"

"Against"

(II)

"Constitutional amendment to permit financial aid for nonsectarian purposes to students attending postsecondary educational institutions not wholly owned or controlled by the state or a political subdivision thereof; and to prohibit the expenditure of public funds, added to funds received from the federal government, for sectarian purposes."

"For"

"Against"

Proposition I, which is quoted above, was approved by the electorate. However, proposition II, which is also quoted above, was disapproved by the electorate. Thus, it appears to us that the basic objectives of LB 793 were rejected by the electorate of the State of Nebraska at the last general election when a majority voted against a constitutional amendment which would have permitted financial aid for nonsectarian purposes to students attending postsecondary

educational institutions not wholly owned or controlled by the State of Nebraska or a political subdivision thereof. Hence, in our opinion, LB 743 is unconstitutional.

ATTORNEY GENERAL'S OPINIONS

Opinion No. 233
April 11, 1978

Dear Senator Venditte:

This letter is in response to your inquiry of April 6, 1978, concerning whether or not there is a distinction between the concept of a memorialization of a congressional proposal of an amendment and a petition for the calling of a constitutional convention; and if so, whether that distinction would make a difference under Rule 4, Section 2 of the Rules of the Nebraska Unicameral.

By your inquiry, you are asking this office to construe the meaning and application of rules which have been adopted by the Nebraska Legislature and which are subject to that body's interpretation and usage. We would again point out that these rules may be altered as the majority of the Legislature deems appropriate pursuant to its authority to determine the rules of its proceedings, and our interpretation is therefore not binding.

The common and ordinary usage of the word memorialize, which we are assuming was intended in Rule 4, Section 2, should be employed unless otherwise indicated. Memorialize is defined in Webster's Dictionary as follows: To present a memorial to; petition. A memorial is a statement of facts which often accompanies a petition that something be done. Neither the word petition nor the word memorialize is restricted by definition to a specific action as you suggest in your letter. If the Legislature meant to propose such a usage, we do not find reference to it in the aforementioned rule, and consequently the common definition of the word should be utilized.

If the general usage of the referenced language is followed, then Rule 4, Section 2 is directly applicable to LB 152.(sic) Rule 4, Section 2 states in pertinent part: ". . . or memorialize the Congress for the purpose of proposing amendments to the U.S. Constitution, . . ." The use of memorialize in the aforementioned section can be synonymous with the word petition. Rarely would the state simply present a statement of fact to Congress without requesting some action. LR 152 is requesting that a convention be called and not simply presenting a statement of fact. It would therefore appear that the definition most appropriate in this context is petition. LR 152 petitions Congress to call a constitutional convention for the sole purpose of proposing an amendment to the Constitution of the United States. Consequently, it is our determination that LB 152(sic) may properly fall within the scope of Rule 4, Section 2, if the Legislature so chooses.

Sincerely,
PAUL L. DOUGLAS

Opinion No. 234
April 12, 1978

Re: LB 448, Section 6

Dear Senator Bereuter:

This is in reply to your inquiry concerning the right of the Legislature to establish qualifications for the office of Auditor of Public

Accounts, more particularly that the auditor be a certified public accountant.

In State ex rel. Quinn v. Marsh, 141 Neb. 436, 3 N.W.2d 892, in upholding the constitutionality of an act establishing a minimum age of thirty years to qualify as a member of the State Railway Commission, the Supreme Court held:

> ". . . that no presumption arises from section 2, art. IV, and section 7, art. V of the Constitution, of an intent that the legislature should be without power to require that railway commissioners should possess reasonable qualifications as a condition of eligibility to hold office."

and;

> ". . . that in the light of the importance of the functions of the office as disclosed by the Constitution and the statutes, the restriction of section 75-101, Comp.St. 1929, as to minimum age of railway commissioners is not unreasonable."

Based upon the decision of the Supreme Court in the above case, it is our conclusion that the Legislature does have the power to establish reasonable qualifications for the office of State Auditor.

The prayer was offered by the Chaplain.

Father in Heaven, we acknowledge Your greatness; all Your actions show Your wisdom and love for us. You made us in Your image and likeness and placed us in the center of Your creation.

When we disobeyed You, You did not abandon us, but helped us to seek and find you.

Time after time You offered to us the means of repentance, friendship, and peace and time after time we have rejected it. We thank You for Your eternal patience and everlasting care.

Help us now to once more lift our minds and hearts to You and resolve to follow You, abandoning self seeking, prejudice and jealousy. Amen.

Introduced by Public Works Committee: Kremer, 34th District, Chairman; Mills, 44th District; Cullan, 49th District; Kelly, 35th District; Kennedy, 21st District; R. Lewis, 38th District; Merz, 1st District; Moylan, 6th District.

WHEREAS, Nebraska's water laws and related court decisions have been formulated on an ad hoc basis rather than within the framework of a comprehensive state water policy; and

WHEREAS, the water planning process in Nebraska is not currently organized and focused on consideration of water policy issues, such as conflicts among ground and surface water users, the conjunctive use of ground and surface waters, conflicts among riparian and appropriative water rights holders, groundwater management policies, water needs for municipalities, environmental and recreational demands for water, interbasin water transfers, the protection of surface and groundwater quality, the integration and

coordination of state water allocation and water quality policies, and the role of the state and its political subdivisions in financing water resources development and management; and

WHEREAS, Nebraska's water resources planning, and the availability and use of water in Nebraska, will be affected by developments at the state, regional, and federal levels of government, such as, regional energy developments, state and federal environmental and water quality policies, federal policies on wildlife, recreation, and environmental needs, Indian water rights, federal reserved water rights, the study of the Ogallala Formation, and the proposed study of the Madison Formation; and

WHEREAS, relationships within and among basins, natural resources districts, state, and nations can both complement and conflict with state water management objectives; and

WHEREAS, long-range water plans cannot be adequately developed and implemented without due consideration of many of these water policy issues; and

WHEREAS, the 1965 session of the Nebraska Legislature assigned responsibility to the agency which is now the Natural Resources Commission to: "...plan, develop, and encourage the implementing of a comprehensive program of resources development, conservation, and utilization for the soil and water resources of this state..."; and

WHEREAS, in adopting Legislative Resolution No. 5 in the 1967 session, the Nebraska Legislature directed the Commission "to prepare a comprehensive water and related land plan for the State of Nebraska, such framework plan to be completed no later than June 30, 1971, and to be known as the State Water Plan"; and

WHEREAS, the Commission did complete and transmit to the Legislature in May of 1971 the Framework Study for the State Water Plan and has since that date continued to work toward the development of remaining portions of the state water planning effort, including river basin studies for the thirteen major river basins of the state; and

WHEREAS, the development of and increased demands upon the state's water and related land resources have occurred at a faster rate than that anticipated at the commencement of the state water planning effort; and

WHEREAS, the commitment of resources, financial and otherwise, to the state water planning effort has not been sufficient to allow that effort to keep pace with such rate of development and increased demands; and

WHEREAS, the 1978 Legislature has provided additional funds for accelerating the state water planning process and has directed the Commission to develop in cooperation with other state agencies and political subdivisions a policy statement and work plan setting forth the future direction for such process; and

WHEREAS, the 1978 Legislature has also indicated its desire that the state water planning process include information and guidance on numerous water and water-related legislative and administrative policy problems, including the review and revision, where necessary, of existing Nebraska water laws; and

WHEREAS, there is a need for a review mechanism in the development and implementation of the State Water Plan to consider potential impacts of alternative state and local water management policies, federal programs and projects, and interstate and other water-related developments;

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Legislature directs the Natural Resources Commission, the Department of Water Resources, the Department of Environmental Control, the Game and Parks Commission, the University of Nebraska-Lincoln Conservation and Survey Division, the Nebraska Water Resources Center, and the State Office of Planning and Programming to cooperate in the preparation of work plan for redirecting and accelerating development of the State Water Plan, to commit personnel, time, and other resources sufficient to provide for satisfactory completion of such work plan by November 15, 1978, and to place a high priority on analysis of water policy issues.

2. That the work plan shall list the responsibilitites of each agency in developing the elements of the State Water Plan, and shall further include an identification of the order in which policy issues should be analyzed to facilitate the development of a state water policy framework, an identification of information needs for those issues to be initially evaluated, and the tentative schedule for acquiring and interpreting such information.

3. That the analysis of policy issues be developed with participation from interested resources-related organizations, locally elected officials, and the general public.

4. That the policy issues to be considered include, but not be limited to, questions concerning conflicts among ground and surface water users, the conjunctive use of ground and surface waters, conflicts

among riparian and appropriative water right holders, groundwater management policies, water needs for municipalities, environmental and recreational demands for water, interbasin water transfers, the protection of surface and groundwater quality, the integration and coordination of state water allocation and water quality policies, and the role of the state and its political subdivisions in financing water resources development and management.

5. That the Commission provide to the Legislature and the Governor no later than September 15 of each year, beginning in 1979, a progress report indicating (a) the policy issues on which work has been completed, including evaluation of relevant alternative approaches to each issue and any recommendations by the Commission of the alternatives to consider for implementation, and (b) the plan of work for the next ensuing year.

6. That the Commission develop a review mechanism for implementation of the State Water Plan to consider potential impacts of alternative state and local water management policies, federal programs and projects, and interstate and other water-related developments.

MESSAGE FROM THE GOVERNOR

April 17, 1978

Mr. President, Mr. Speaker,
and Members of the Legislature
State Captiol Building
Lincoln, Nebraska 68509

Dear Mr. President and Senators:

I hereby return LB 184 and LB 184A without my signature and with my objections.

The reasons for my veto of LB 184, the litter tax bill, are many and varied, and I will list the most important.

My major reason for vetoing this bill is that it is a tax bill, pure and simple, and not a legitimate litter bill, despite election year rhetoric extolling the virtues of fighting litter. This litter tax bill creates a new tax which ultimately the consumer will have to pay. This tax will be an easy mark for every special interest spending group in every future legislative session. As little attention as is paid by the Legislature to the sales and income tax rates as they now exist, I am frightened to think what would happen if the spenders were cut loose on the new tax created by LB 184 in the future. We do not need or want new money grabbing tax laws !

The bill, if adopted, could not be properly initiated by the Department of Revenue since the only appropriation to the Department to implement the tax comes from the litter tax fund itself. However, the litter tax fund will not receive any revenue until the tax is implemented. But the tax cannot be implemented until the Department of Revenue has the resources to implement the tax. It is a Catch 22 created either by design or inadequate consideration.

The litter tax bill is poorly drafted, ambiguous and subject to varied interpretation. In Section 6 it is stated that the tax shall not apply to "gross sales involving any animal, bird, or insect, or the milk, eggs, wool, fur, meat, honey, or other substances obtained therefrom". Does this mean that sales by farmers of their grain crops are to be taxed? This is just one example of the can of worms that would be created during any attempt to administer and implement this new tax law.

The intentions of the legislative drafters of LB 184 are interesting. Last year, LB 220 was introduced in almost identical form to LB 184. This year, LB 184 includes all of the items to be taxed as LB 220 except for newspapers. Interestingly enough, LB 184 does not include newspapers as being subject to the tax in this year's rebirth. I suspect, although the proponents will probably deny, that newspapers were eliminated this year for the specific purpose of attempting to quiet opposition from that influential segment in our society. I do not believe the newspapers of Nebraska can be so hoodwinked by legislative game players. The question though as to why newspapers were suddenly and without explanation excused should be answered by the proponents of this new tax.

LB 184 is a bad bill and creates a bad tax. The people of this state simply don't want, nor do they need, more taxation. I urge you to support my veto and eliminate this potentially monstrous tax burden from the people of this state.

Yours truly,
(Signed) J. James Exon
Governor

LEGISLATIVE JOURNAL

EIGHTY-FIFTH LEGISLATURE
SECOND SESSION

FIFTY-EIGHTH DAY

Legislative Chamber, Lincoln, Nebraska
Tuesday, April 18, 1978

Pursuant to adjournment, the Legislature met at 9:00 a.m., Speaker Luedtke presiding.

PRAYER

The prayer was offered by the Chaplain.

Father in Heaven, we pray this day for the gift of hearing.

It may be strange to pray for that when we are surrounded by sound. We are being continually spoken to by the media. Lobbyists and other representatives of specific segments of our society send their messengers regularly. Our constitutents are in contact on weekends and quite often in between.

But do we hear the voice of the poor, the lame, the halt, the down trodden, the prisoner, the institutionalized.

Father, we beg you for the power to hear them; to hear the counsel of one another; to hear your voice. Amen.

ROLL CALL

The roll was called and all members were present except Mrs. Marsh; Messrs. Newell and Schmit who were excused until they arrive.

CORRECTIONS FOR THE JOURNAL

MESSAGES FROM THE GOVERNOR

April 18, 1978

Mr. President, Mr. Speaker,
and Members of the Legislature
State Capitol Building
Lincoln, NE 68509

Dear Mr. President and Senators:

I hereby return LB 44 without my signature and with my objections.

LB 44 attempts to give to a committee of the Legislature the power to suspend rules and regulations adopted by an administrative agency of the executive branch of government.

As outlined in the Attorney General's opinion of February 22, 1977, requested by Senator Duis of your body, and as affirmed in a recent opinion to me, LB 44 is a brazen attempt to violate the separation of powers clause of the Constitution of the State of Nebraska. It is blatantly unconstitutional.

I urge you to accept the fact that under our Constitution there are three branches of government, and that the Legislature cannot and should not attempt to exercise the authority granted by our Constitution to the judicial and executive branches.

I am asking that you abide by your oath to support the Constitution of the State of Nebraska and sustain my veto.

Yours truly,
(Signed) J. James Exon
Governor

Enclosure

April 18, 1978

Mr. President, Mr. Speaker,
and Members of the Legislature
State Capitol Building
Lincoln, NE 68509

Dear Mr. President and Senators:

I hereby return LB 87 without my signature and with my objections.

LB 87 would prevent a second offense drunken driving conviction if that second offense was more than five years from the coviction for first offense drunken driving, and it would expunge a drunken driving conviction from the public court record five years after the conviction.

With regard to the latter provision, the bill talks only in terms of the public court record and does not address the driver records held by the Department of Motor Vehicles. It would appear that although the bill would expunge the public court records, it would not affect the records kept by the Department of Motor Vehicles, and they would remain public information as they are now.

Most importantly, I feel that the Legislature is wrongly embarking on a course of action that has the direct effect of softening penalties and individual responsibilities for drunk driving. It makes no sense to me to say that if a second drunken driving offense occurred four years and eleven months after the first conviction, the individual convicted should receive an enhanced penalty; but if the second offense occurred five years from the first conviction then an enhanced penalty should not be applied.

Our drunk driving laws should remain tough and firm with a second offense conviction resulting in a second offense penalty without any arbitrary time limits.

In my opinion, the Legislature would be setting a bad precedent if LB 87 was allowed to become law.

Yours very truly,
(Signed) J. James Exon
Governor

ATTORNEY GENERAL'S OPINION

Opinion No. 235
April 17, 1978

Re: Proposed amendments to Article I, Section 9, of the Nebraska Constitution

Dear Senator Duis:

You have asked whether a person charged with a sexual offense could be admitted to bail if Article I, Section 9, of the Nebraska Constitution were amended to provide:

> "All persons shall be bailable by sufficient sureties, except for treason, sexual offenses, and murder, where the proof is evident or the presumption great. . . ."

We have concluded that after such an amendment a person charged with a sexual offense could still be admitted to bail unless the court found that the proof was evident or that the presumption was great.

You have also asked whether a person charged with a sexual offense could be admitted to bail if Article I, Section 9, of the Nebraska Constitution were amended to provide:

> "All persons shall be bailable by sufficient sureties, except for treason, sexual offenses involving penetration by force or against the will of the victim, and murder, where the proof is evident or the presumption great. . . ."

We have concluded that a person charged with a sexual offense after such an amendment could still be admitted to bail unless the court found that proof was evident or the presumption was great that there had been penetration by force or against the will of the victim.

Sincerely yours,
PAUL L. DOUGLAS

MESSAGE FROM THE GOVERNOR

April 18, 1978

Mr. President, Mr. Speaker,
and Members of the Legislature
State Capitol Building
Lincoln, Nebraska

Dear Mr. President and Senators:

Since, I cannot in good conscience agree with your enactment of LB 711, the measure is returned herewith with my objections and without my signature.

LB 711 is obviously the initial step designed to repeal or at a minimum render ineffective the death penalty in Nebraska. Should the measure become law, it would create a legal monstrosity. As enacted, the bill would be a sure-fire instrument of unreasonable delay in the

hands of any attorney which would clog the deliberations of the Supreme Court with unworkable shackles and protraction of the issue in carrying out any death sentence.

The easy way out for me would be to quietly sign this bill into law since it deals with the sensitive, emotional and soul-searching issue of capital punishment. It could be argued that who could disagree with court reviews on such a subject.

The present Nebraska statute calls for the death penalty only upon conviction of the most cold-blooded types of murders and already provides for more than adequate reviews, appeals, and protections through the courts and ultimate appeals to the Board of Pardons as the instrument of last resort.

Your actions in passage of LB 711 are an exercise in duplicity. Realistically one must be called upon to stand up and be counted, for or against, without ducking, on whether or not one supports Nebraska's capital punishment statutes.

While I have no particular quarrel with the many who oppose capital punshment per se and their legitimate arguments accordingly, I do not agree. I am convinced that vicious, senseless crimes of murder of an atrocious nature are on a dramtic increase. If properly enforced, our law, in my opinion, could help.

I have publicly stated that I have some real concerns about the equal enforcement of the death penalty within Nebraska. With 93 counties, the potential exists for plea bargaining that could result in different sentences for near identical crimes of murder in different counties.

I have discussed this problem with the Attorney General and others. Possibly a legislative study committee should review this situation and consider legislation in effect in at least the state of New Hampshire where the State Attorney General is charged with the responsibility of handling all homicide cases so as to best assure state uniformity.

Possible changes in the future, however, do not justify retreating to the past for unnecessary reviews only for the sake of delays, and I ask you to sustain this veto.

Yours very truly,
(Signed) J. James Exon
Governor

MESSAGE FROM THE GOVERNOR

April 19, 1978

Mr. President, Mr. Speaker,
and Members of the Legislature
State Capitol Building
Lincoln, Nebraska

Dear Mr. President and Senators:

I am returning herewith LB 952 with my line-item reductions and with my signature.

Here is still another veto of what I consider unnecessary and non-priority spending that further threatens increases in state tax rates.

Again, I make the clear point that because of legislative authorized spending and by legislative authorized spending only, is there cause for concern on the part of Nebraska taxpayers for increased taxes.

If you would follow my detailed guidelines on spending restraint as outlined in my detailed budget address of February 10, and balanced against long-known and monthly revenue receipts reported to you, there would be no cause for alarm.

I am reducing the appropriation to the Legislative Council by $318,037 to my original recommendation of $3,763,565.

The continual overappropriation that you make to yourselves has even caused the State Auditor to bring it to your attention.

The State Auditor's report, which I have attached, shows that over the past four years the appropriations to yourselves have been unnecessarily excessive by an average of 26.9%. You are carrying an overage of 19% currently in this fiscal year.

Your proposed appropriation for operations for next fiscal year of $4,081,602 exceeds the current fiscal year appropriation of $3,515,474 by $566,128 or 16%.

While I feel that you should have sufficient funds to carry out your responsibilities, what you have done is not businesslike.

Again, I call upon you to sustain this veto and the other multi-millions in vetoes I have placed before you to protect the tax rates.

Yours very truly,
(Signed) J. James Exon
Governor

We recommend that budgetary procedures be reviewed.

THE LEGISLATIVE COUNCIL INDICATED THEY HAVE TIGHTENED UP THE FISCAL YEAR 1978 BUDGET AND THE FISCAL YEAR 1979 REQUEST.

Inadequate support for employment procedures.

The Legislative Council did not have formalized employment procedures. Namely, no minimum job qualifications were required for each position, nor were job application forms required to be filled out when an employee was interviewed or hired.

The Legislative Council allowed each Senator and Department Head to interview and select his own personnel. As a result written support for the qualifications and requirements for positions were not kept. When a position became available the Senator or Department Head used his valuable time to screen and interview prospective employees. Without job descriptions prospective employees may not become aware of all duties required and the employer may overlook a duty which would disqualify the applicant if it was discussed at the time of the interview. Screening and interviewing prospective employees is a valuable management tool which can effectively match applicants to available positions. This method can reduce turnover, improve efficiency, and save time and money.

We recommend that; job qualifications be formally documented for the various types of positions, procedures be established to uniformly process all job applicants, and all job application forms be kept.

THE LEGISLATIVE COUNCIL AGREES AND HAS BEGUN CORRECTIVE ACTION IN THIS AREA.

ATTORNEY GENERAL'S OPINIONS

Opinion No. 236
April 14, 1978

Dear Senator F. Lewis:

You have asked if LB 884 of the Eighty-Fifth Legislature, Second Session (1978), "may be invalidated on constitutional grounds should loans, as provided by the act, go to students who are enrolled at institutions which are not owned and controlled by the state or its political subdivisions." The same is hereinafter discussed.

The initial section of LB 884 states that the Legislature recognizes that postsecondary education of medical professionals is important to the welfare of the State of Nebraska. It also states that the Legislature recognizes that the State of Nebraska can help alleviate the problems of maldistribution and shortages of medical manpower through a student loan forgiveness and repayment program. Other sections of this legislative bill establish a student loan program for medical students while other sections provide financial incentive through loan forgiveness and repayment to medical students to practice their profession in a medical profession shortage area of the State of Nebraska which has been determined to be in need of such professionals.

There is, of course, a very minimum amount of time available for legal research due to the fact that this legislative session may soon adjourn. In the time available to us we have discovered very little legal precedent that can be used for guidance in answering your question.

The same becomes crucial when one attempts to analyze this legislative bill on its face and on its possible application.

For example, section 15 of LB 884 states, in part, as follows:

> "The financial assistance provided by the provisions of this act shall consist of student loans to eligible students for attendance at an accredited school, . . ."

The term "accredited school" is not defined in LB 884. On the other hand, section 16 of LB 884 states as follows:

> "Loan applicants and recipients must be enrolled or accepted for enrollment in an accredited medical education program in the United States."

Thus it appears to us that section 15 of LB 884 can and must be read to say that the financial assistance provided by the provisions of this act consists of student loans to eligible students for attendance at an accredited medical education program in the United States. So construed, LB 884, in our opinion, is unconstitutional. We call you attention to section 3 of Article XIII of the Constitution of Nebraska which provides as follows:

> "The credit of the state shall never be given or loaned in aid of any individual, association, or corporation, except that the state may guarantee or make long-term, low-interest loans to Nebraska residents seeking adult or post high school education at any public or private institution in this state. Qualifications for and the repayment of such loans shall be as prescribed by the Legislature." (Emphasis added.)

There are undoubtedly other issues, such as whether or not LB 884 is special legislation and whether or not a loan can be forgiven if the borrower upon obtaining a degree of Doctor of Medicine practices in a designated medical profession shortage area and whether or not the debt can be cancelled without repayment by other circumstances. Those issues, however, are moot at this time because the loans authorized by LB 884 are not limited to eligible students (Nebraska residents) to attend an accredited public or private medical school in the State of Nebraska.

Very truly yours,
PAUL L. DOUGLAS

Opinion No. 237
April 17, 1978

Dear Senator DeCamp:

You have asked whether the following amendment to LR 152 would constitute a legal ratification. This amendment provides as follows:

> "3. An application for a convention made under this resolution shall be conditioned on (1) Congress establishing clear procedures for such convention including a limitation of the convention to the subject matter contained within this resolution and (2) provision that if such convention departs from the subject matter of this resolution that the convention be immediately dissolved."

It is not completely clear what you mean by the phrase "constitute a legal ratification." In responding to your question, we are therfore assuming that you are inquiring about the legal effect of the language in the aforementioned amendment which purports to restrict the subject matter to be considered by a constitutional convention.

Under Article V of the United States Constitution, on the application of two-thirds of the Legislatures of the several states, Congress must call a convention for the purpose of proposing amendments. Article V also requires Congress to submit proposed amendments to the states and to determine the mode of ratification. Beyond this expressed grant of authority, the Constitution is, as some scholars have put it, tantilizingly vague. The exact extent of congressional authority in this amendment process has never been determined. Constitutional scholars have long debated this subject but many questions still remain unanswered.

What is clear, however, is that the role of the state Legislature, while certainly important, is subject to the intervening and paramount authority of Congress. Congress must determine the validity of petitions from the states, in deciding whether or not sufficient applications exist to call a constitutional convention; and then must perform the affirmative act of actually calling the convention.

The United States Supreme Court in Dillon v. Gloss, 256 U.S. 368 (1921), discussed the powers of Congress in the amendment process, in holding that Congress was authorized to impose time limits upon the ratification process. The court there recognized the close relationship between the principal congressional power conferred under Article V and the supporting or ancillary powers, conferred under the necessary and proper clause, to execute the principal power.

These ancillary powers, many constitutional scholars contend, apply not only to the procedural functions such as calling the convention, but also extend to the vital function of determining the ultimate scope of the convention.

In answer to your question of what legal effect the language in the aforementioned amendment to LR 152 will have, it simply is not clear. Congress may within its discretion choose to ignore the limitations imposed by LR 152 or they may choose to try to restrict the subject matter that the convention may consider once called. If that method of restriction fails, Congress might also refuse to submit for ratification, any proposed amendments that deal with any other issues.

Since there has never been a constitutional convention under Article V, there exists no precedence to suggest solutions to the many problems. Likewise, there are no Supreme Court cases directly on point, and very few on the amendment process generally.

In conclusion, the only answer we can give you is that the effect of the language in LR 152 will be determined by Congress and possibly the federal courts as the occasion presents itself. The Legislatures of the several states petitioning Congress for a constitutional convention may not therefore dictate the terms of the convention subsequently called and expect these restrictions to be enforced with any certainty.

Sincerely,
PAUL L. DOUGLAS

Opinion No. 238
April 18, 1978

Dear Senator Kahle:

In your letter of April 14, you asked our opinion as to the validity of LB 170, as amended. Due to the extremely short time remaining before the end of the session, we have had no time at all to research the questions we may have, and can give you only general impressions we gather from reading the bill.

We find several areas of vagueness in the bill, the first of which is in the definition of "revaluation" in section 2. It defines revaluation as the process of determining actual values by any established method. We point out that sections 77-1501 to 77-1515 require the county board of equalization to meet each year, commencing on April 1 and ending on May 30. At that time the county board of equalization hears protests concerning valuations and may also equalize assessment of omitted or undervalued property. We believe that such a process qualifies as "revaluation" under the bill's definiton(sic), but we are not confident that that is the Legislature's intention.

This vagueness carries over into section 3, which requires all counties to "implement a revaluation" of all lands and improvements effective for the 1979 assessments, and each year thereafter until such time as the values are determined by the Tax Commissioner. The counties will, no doubt, argue that they do so each year, pursuant to existing statutes.

Section 3 also provides that if a county fails to complete a revaluation to the satisfaction of the Tax Commissioner, he shall notify such county and the State Board of Equalization and Assessment, and the county assessor of such county shall appear before the state board at the annual hearing of certification of the board.

The statute does not specify what factors will or will not satisfy the Tax Commissioner, nor provides for any hearing at which the county can attempt to satisfy him. It would appear to permit the Tax Commissioner to exercise arbitrary power, and to be "satisfied" with one county's revaluation, and dissatisfied with that of another, upon any basis he sees fit, or upon no basis at all. There should be standards for his determination.

Section 3(2) provides that a county may contract for the revaluation of the county. Because of the vagueness of the definition of "revaluation," it is impossible to tell what such a contract would involve. We cannot tell whether it means to determine some percentage increase of all of the real estate in the county, or of selected classes of such real estate, or to determine actual value of individual pieces of property by some method different from a reappraisal, or something else entirely. The bill does not express the Legislature's intention in this respect, and leaves the decision in this respect in the hands of the counties, or the Tax Commissioner. The section does provide that such a contract, when entered into with the Tax Commissioner, shall be subject to the same conditions imposed under sections 77-1301.13 to 77-1301.16. This, however, gives no

satisfactory answers to our questions, since these sections deal with reappraisal contracts, and a revaluation contract is obviously supposed to be something different.

Section 8 provides that the Tax Commissioner shall cause a reappraisal to be conducted in any county "whose level of values used for assessment purposes for all or any class of real property, as determined under section 77-1327, varies by more than five percentage points from the assessed value as required under section 77-201." This seems to assume that some level of values determined under section 77-1327 is used for assessment purposes. This is not true. Section 77-1327 simply requires the Tax Commissioner to make "assessment ratio studies." We assume this means sales assessment ratio studies. In an event, such studies are not "used for assessment purposes." The level of values used for assessment purposes are those fixed pursuant to section 77-201. Section 8 is therefore very confusing.

Sections 9 and 11 are also confusing. Section 9 says that after a county has been appraised by the state, if its level of values for all or any class of real property varies by more than five percent as determined under section 11, the Tax Commissioner shall cause a reappraisal to be conducted the next year. Section 9 does not specify what the values of that county must vary from, but section 11 seems to indicate that it is from (1) the level of values used for assessment purposes for any adjoining county, or (2) the level of values used for assessment purposes for any class of real property for any adjoining county.

We can make some sense out of the second category. We suppose it refers to a variation between the same class of irrigated land in adjoining counties, for example. But what does "the level of values used for assessment purposes for real property" mean? Does it mean the total value of all real estate in the respective counties? If so, we suspect that Washington County will resent being reappraised because its total value of real estate is more than five percent below that of Douglas County.

Furthermore, section 9 would require a reappraisal of both counties involved. In other words, if county A's values are more than five percent below county B's, by the same token county B's are more than five percent above county A's. Section 9 requires a reappraisal if they vary. Therefore, both of them vary, and both must be reappraised. This is after a reappraisal by the state. We do not understand exactly what is intended.

Section 13 amends section 77-509, R.R.S. 1943, and provides that the State Board of Equalization and Assessment, in reviewing valuations of the various counties, "may certify valuations so that the values for all or any class of property for adjoining counties vary five or fewer percentage points." This seems to contain the same constitutional problem we discussed in our Opinion No. 62, dated April 6, 1977, in appearing to give legislative sanction to variations from uniformity of taxation. Article VIII, Section 1, of the Constitution requires uniformity of taxation. A five percent variation is not uniformity. We would all be happy if the board could come that close, but, theoretically, no variation is permissible. We believe there is serious doubt as to the validity of statutory sanction of lack of uniformity.

Furthermore, the goal is state-wide uniformity. Section 13 permits a five percent variation in adjoining counties, which could result in much greater variations among the counties, as that five percent was carried across the state.

In short, there is much in the bill which we find difficult or impossible to understand, and one provision which seems to violate Article VIII, Section 1, of the Constitution.

Very truly yours,
PAUL L. DOUGLAS

MESSAGES FROM THE GOVERNOR

April 19, 1978

Mr. President, Mr. Speaker,
and Members of the Legislature
State Capitol Building
Lincoln, Nebraska 68509

Dear Mr. President and Senators:

I hereby return LB 897 and LB 897A without my signature and with my objections.

The reasons for my veto of LB 897 are many and varied, and I will list the most important.

The Legislature through the passage of LB 897 and LB 756 intends to attempt to coordinate postsecondary education in Nebraska. The Legislature establishes general responsibilities for the various segments of postsecondary education in LB 756 and then establishes a Performance Review and Audit Committee (a Legislative Body) in LB 897. The Committee is to interpret the bill, implement an information system and administer it in order to insure that the responsibilities detailed in LB 756 are met and adhered to. Despite the recent Nebraska Supreme Court ruling which identified Constitutional prerogative of the Board of Regents, the Legislature is still seemingly bent on interfering with the Regents' prerogatives to administer the University. LB 897 in conjunction with LB 756 represents a continuing attempt at overregulation of the Board of Regents, the Board of Trustees and the Technical Community College Area Governing Boards by the Legislature.

As I stated in the Foreward to my Executive Budget, the Postsecondary Education Coordinating Commission, in cooperation with existing Executive Departments and utilizing existing State information reporting systems, is the proper vehicle for coordinating postsecondary education and maintaining the information based on postsecondary education in Nebraska.

It is impossible for me to comprehend how the Legislature intends to objectively review and evaluate its own handiwork. After interpreting, implementing, and administering its own legislation, an objective review and evaluation seems remote.

As I have stated before, the implementation of an information system which in large part duplicates existing systems is a gross inefficiency and another example of the Legislature's disregard for the taxpayer's dollar.

Not only are additional funds required and additional State employees but more time of existing State employees must be devoted to supplying the same information to two different systems instead of performing daily management tasks.

You have implicitly recognized the costs of this duplicate system by providing for front end deficit funding under the guise of reimbursements in Sections 10 and 11 of LB 897. At the same time you have provided only $35,000 of funding in LB 897A, even though agency estimates of the cost of implementing the bill exceeded $145,000. Again, you engage in slight of hand by understating the costs of a bill in order to gain passage and then allowing open-ending funding in the guise of reimbursements — a practice I have criticized time and time again.

In addition, the bill has several serious constitutional defects as outlined in the enclosed letter of the Attorney General.

Finally, the bill does not fulfill one of its goals of providing timely information. Annual reports are not due until July 1. Therefore, the information will not be current (probably at least one and one half years old) and will be of little use to the Governor who must present a budget message by January 15 or the Legislature in its annual deliberations. The information for the most recent completed fiscal year should be available no later than October 15 to be of use. Under current procedures budget, enrollment, financial aid, and student fee data is available by October 15.

The concept of uniform information for post-secondary education which is the basis for LB 897 is laudable and is a concept I have long espoused. Unfortunately, LB 897 is not an appropriate method to implement that concept.

Yours truly,

Dear Mr. Matzke:

You have asked if LB 897 of the Eighty-fifth Legislature, Second Session, is constitutional. At this late date in the session the time available to us will only permit a cursory review.

LB 897 is an act relating to information systems for postsecondary education. In particular, the Performance Review and Audit Committee of the Legislature would be charged with the duty to prepare a comprehensive plan for a state-level public postsecondary education information system. Several sections of this legislative bill are hereinafter discussed.

We note that section 6 of LB 897 authorizes the Performance Review and Audit Committee, with the approval of the Executive Board of the Legislative Council, to "contract with any state or private agency for assistance in carrying out this act." That section, in our opinion, is unconstitutional. "The legislature may not delegate to private individuals either legislative or judicial functions." Elliott v. Wille, 112 Neb. 86, 89, 200 N.W. 347 (1924).

We also note that section 11 of LB 897 provides that the "Legislative Performance Review and Audit Committee shall review all system and institutional information system expenditure reports and may recommend to the Executive Board of the Legislative Council that reimbursements for costs directly associated with the implementation of the committee's information system requirements be provided." That too, in our opinion, is unconstitutional. That section would permit the Legislative Performance Review and Audit Committee to create a debt in implementing this legislative bill. That it cannot do. Section 22 of Article III of the Constitution of Nebraska provides that "e]ach Legislature shall make appropriations for the expenses of the Government."

Time simply will not permit further review. We are of the opinion, however, that the sections reviewed are sufficient to warrant a finding that LB 897 is unconstitutional.

Very truly yours,
PAUL L. DOUGLAS

Mr. President, Mr. Speaker,
and Members of the Legislature
State Capitol

Lincoln, Nebraska

Dear Mr. President and Senators:

After long deliberation I have decided that LB 756 is not in the best interest of postsecondary education in Nebraska. It is returned to you vetoed.

I agree in part with the intent of this bill. We do need better coordination and long-range planning of postsecondary education in Nebraska. However, control of specific educational programs by legislation is not a feasible means to achieve the goal of coordination. It is appropriate for the Unicameral to exercise the power of the purse, but to try to use this power to shape all the programs of the various institutions is unworkable and unenforceable. Writing roles and missions into law does not allow the institutions enough flexibility to respond to changing demands such as changes in state manpower needs.

As the enclosed Attorney General's opinion outlines, the legislative attempt to control and dictate higher education programs is a violation of the state constitution.

Additionally, the roles assigned to the various sectors by this bill appear to move us ten years or more back into the past. For example, the state colleges will again become teachers colleges and some of the community colleges will again be recognized as junior colleges.

There are a number of specific provisions that are particularly troublesome. The bill provides that "all direct costs of nondegree recreational and avocational courses shall, on the average, be self-supporting." I believe that not only direct costs, but also such indirect costs as administration and overhead should be supported by tuition and fees from students in avocational and recreational programs.

The bill gives the University broad responsibilities across all fields with only a restriction on new associate degree programs. Two broad growth areas - agriculture and natural resources, nursing and allied health professions - are reserved for University control. By contrast, the role of the state colleges is narrowly confined in spite of the fact that three of them have excess capacity which should be utilized in various growth areas where the state has manpower needs.

The bill, while it does attempt to limit unnecessary duplication, also tends to preclude necessary duplication of programs where it would lead to a more efficient utilization of the taxpayer's resources, particularly at the state colleges.

Finally, the bill confers on the University the power to control the future of the state and community colleges. In many cases, the bill allows the state and community colleges to offer programs only with the cooperation of the University. If that cooperation is not forthcoming, the other sectors have to work within the narrow rolles assigned them or seek a change in the law. Control and coordination are not equivalent. In essence, the Regents become a statewide coordinating board in many instances and impose their restrictions on the other governing boards.

The postsecondary Education Coordinating Commission is a more feasible avenue for Nebraska to use in working toward coordination than is the legislative alternative contained in this bill. As an administrative agency it can be more flexible in fostering coordination and long-range planning to meet changing needs. Increased cooperation between the Unicameral and the Coordinating Commission will meet the goals of postsecondary education coordination and much more effectively than LB 756.

I urge you to sustain my veto.

Yours truly,

The Honorable J. James Exon
Governor of Nebraska
State Capitol Building
Lincoln, Nebraska

Dear Governor Exon:

You have asked if LB 756 of the Eighty-fifth Legislature, Second Session, violates any provision of the Constitution of the State of Nebraska.

LB 756 relates to postsecondary education. It provides role and mission assignments for the University of Nebraska, state colleges, and technical community colleges. It also provides certain duties of the Legislative Performance and Audit Review Committee. You have asked a number of questions but because of time limitations each cannot be answered in detail.

I.

Can the Legislature make one of the governing boards in postsecondary education subservient to another governing board?

You note that section 20 of LB 756 gives the Board of Regents statewide responsibility for public service activities while sections 34 and 44 of that legislative bill give regional responsibility to the Board of Trustees and Technical Community College Area Boards. LB 756 does divide the responsibility of public service activities as you have indicated. However, the same does not, in our opinion, violate the Constitution of Nebraska.

You note that section 23 of LB 756 gives the Board of Regents statewide responsibilities for continuing education services while section 34 gives the Board of Trustees regional responsibility. Again, LB 756 does divide the responsibility of continuing education services as you have indicated. However, the same does not, in our opinion, violate the Constitution of Nebraska.

You note that section 38 of LB 756 permits the state colleges to deliver, in cooperation with the University of Nebraska, graduate courses in business to met regional needs. The same does not, in our opinion, constitute a delegation of power. It is to be noted that section 38 of LB 756 does not require the state colleges to deliver graduate courses in business. The only requirement is if the state colleges elect to deliver graduate courses in business they must do so in cooperation with the University of Nebraska. Section 38 is somewhat vague when consideration is given to the fact that other sections refer to the power or authority of the governing board of an institution whereas section 38 refers to the colleges and the University of Nebraska.

You note that section 36 of LB 756 allows the Board of Trustees to award the associate degree, diploma, or certificate for technical vocational programs, but not independently. Section 36 of LB 756 states, in part, as follows: "The Board of Trustees shall submit for review and approval by the Legislature, all associate degree programs to be offered pursuant to this section on or before November 15, 1978." This section, in our opinion, is unconstitutional. First, there is no certainty that the Legislature will be in session on or before November 15, 1978, and therefore the section is vague inasmuch as there is no one to whom the associate degree programs can be submitted to. There is a further problem. Any attempt by the Legislature to review and approve or disapprove such programs is probably a violation of the doctrine of separation of powers.

You note that section 32 allows the Board of Trustees to establish new baccalaureate programs in the allied health professions in cooperation with the University of Nebraska. The same does not, in our opinion, constitute a delegation of power. Section 32 does not require the state colleges to develop new baccalaureate programs in the allied health professions. The only requirement is if they elect to do so they must do so in cooperation with the University of Nebraska.

II.

Can the Legislature use and mix vague terms in assigning responsibility such as statewide responsibility, primary responsibility, and regional responsibility, and then require that no State General Fund appropriations or local property tax revenue be used in conflict with the responsibilities established by the bill?

In the limited time available to us to research this legislative bill we cannot agree that the terms used are necessarily vague. To the extent that the several terms used in LB 756 correctly reflect a state purpose or a local purpose then it is entirely competent for the Legislature to require that no State General Fund appropriations or local property tax revenue be used in conflict with the responsibilities established by LB 756.

III.

Can the Legislature use Key terms which are undefined in the bill in establishing role and mission assignments such as direct costs (section 18) and avocational and recreational course (sections 18 and 46), and then require that no State General Fund appropriations or local property tax revenue be used in conflict with the act?

Yes—provided that a court of competent jurisdiction can determine from the language of LB 756 and its legislative history the meaning of key terms which are undefined in this legislative bill and provided further that the meaning so ascertained is not in conflict with Section 1A of Article VIII of the Constitution of Nebraska. See, State ex rel. Western Nebraska Technical Com. Col. Area v. Tallon, 192 Neb. 201, 219 N.W.2d 454 (1974).

IV.

Can the Legislature direct the State Board of Vocational Education to interfere with the respective governing boards' establishment of vocational education programs (section 51)?

Section 51(2) of LB 756 provides as follows: "The State Board of Vocational Education shall not allow vocational education programs to be established under section 79-1419 to 79-1423, 79-1428, 79-1429,

and 79-1435, if such programs are inconsistent with this act." The obvious problem here is whether or not the primary burden of financial support of a particular program can be traced to a local property tax. If the financial support can be so traced, the same could raise a constitutional issue as to whether or not section 51(2) of LB 756 constitutes a state purpose. Stated somewhat differently, a court of competent jurisdiction, in a proper case, could find section 51(2) of LB 756 unconstitutional.

V.

Can the Legislature, presumably in connection with the procedure set up in LB 897 set up a self-administered information system to monitor the "role and mission" statement detailed in this act (section 57)?

We have this day expressed our opinion that LB 897 is unconstitutional. Thus this question is moot.

Very truly yours,
PAUL L. DOUGLAS
Attorney General

SIXTIETH DAY

Legislative Chamber, Lincoln, Nebraska
Friday, April 21, 1978

Pursuant to adjournment, the Legislature met at 8:00 a.m., President Whelan presiding.

PRAYER

The prayer was offered by the Chaplain.

Dear Lord, An honest prayer some of us might make this morning is simply, "Thank God its over." These many weeks have been such a drain on so many of us, taking us away from responsibilities and loved ones elsewhere, and demanding so much of us. The memory of our last working day is still fresh in our minds, and some of us hope there will never be another one like it, even though it was a record day.

On the other hand, Lord, we are also grateful for these past months and for all the good that has been accomplished. May our decisions be for the benefit of the people of this state. Continue during the interim to give vision, courage, and integrity to each of the Senators. Bless them, their families and loved ones, till we meet again. Be with our Governor and Lieutenant Governor, the various officers and servants of this Legislature.

May the people of this state, who often hear only the unusual things which occur in this room, appreciate the ability and dedication of this Legislature. Implant again upon our minds the truth that greatness is found in serving, and success in helpfulness. May this Legislature continue to love you, their God, and serve all the people. In our Lord's name. Amen.

ROLL CALL

The roll was called and all members were present except Messrs. Chambers, George, Koch, and Warner who were excused until they arrive.

MESSAGES FROM THE GOVERNOR

April 21, 1978

Mr. President, Mr. Speaker,
and Members of the Legislature
State Capitol
Lincoln, NE 68509

Dear Mr. President and Senators:

With my signature of LB 937 I am taking this opportunity to outline to you the accurate situation involving correctional construction.

On January 16, 1978, I informed Senator Warner and the members of the Appropriations Committee that, due to unforeseen problems in acquiring a site for the Douglas County Medium-Minimum Correctional Facility, there was a likely possibility of a two or three year delay in initiating construction of the project. I also stated that the information I was receiving from the State's legal counsel indicated that potential legal and settlement costs would be so excessive that the project could not be let for bid without some guarantee of additional funds being made available by the Legislature.

Even though I requested some legislative guidance from the Appropriations Committee on this matter, by February 10, 1978, when I delivered the State of the State Address, I had not by that date received any indication from the Committee as to what course of action they thought the State should pursue. Since the primary problem with the Douglas County Medium-Minimum Facility dealt with the total project cost, I recommended in my budget book that $2.5 million be allocated in new expenditure authority for fiscal year 1978-79 and stated that I would address the total project cost of the facility at a later date.

Since February 10, eminent domain proceedings have been initiated and the project has been thrown into the courts with no indication being given as to when the State may proceed with the project. Due to the short session of the Legislature this year, and the need for additional correctional beds, I tried to convey the gravity of the current situation to the Appropriations Committee, but, to no avail. The problem is that should the courts enjoin the State from proceeding any further with the acquisition of the East Omaha site, the project will be delayed until either the Legislature convenes in 1979 and removes the location restriction of the project in LB 417, or, the State wins in court action. In other words, there is still no

certainty that the beds needed to alleviate our current overcrowding problem will be available in the near future.

Given some of the misrepresentations and halftruths which have been stated lately regarding the role of the Douglas County Medium-Minimum project in causing the Appropriations Committee to exceed revenue estimates, I believe it is necessary to state that my budget recommendation for total General Funds for fiscal year 1978-79 has always included $2.5 million for the Douglas County project. This has been brought to the attention of the Appropriations Committee several times; in the late night hearing on my budget bills, in staff briefings and meetings, and during the negotiation to add more funds to the total project cost for the Douglas County project. The fact that the Appropriations Committee has not been able to hold down their own spending cannot be blamed on the Douglas County project. As LB 937 shows, the Committee has recommended $2,682,000 for FY 78-79, and only $182,000 more than I have recommended. In other words, their spending problems stem from their lack of a firm commitment to hold tax rates at their current levels.

I had hoped to address the Legislature on the progress that has been made on all the capital construction projects of the Department of Corrections. But, unfortunately, the uncertainty of the Douglas County project does not allow me to state that we are totally committed on all the projects and are proceeding "full steam ahead." Until the question of the East Omaha site is resolved, there is no way anyone can guarantee that all the beds needed will be built in the shortest possible time nor that the $10.2 million for the Douglas County project will be sufficient to complete construction.

Yours truly,
(Signed) J. James Exon
Governor

April 20, 1978

Mr. President, Mr. Speaker,
and Members of the Legislature
State Capitol Building
Lincoln, Nebraska 68509

Dear Mr. President and Senators:

I return herewith LB 693 and LB 693A without my signature and with my objections.

These bills are very similar to LB 79 and LB 79A which I returned to you last session.

LB 693 authorizes the Board of Trustees of the Nebraska State Colleges to establish the Nebraska Safety Center at Kearney State College. The Center is to fulfill the functions of instruction, research, public service, and coordination. A twelve member Nebraska Safety Center Advisory Council is created. The Council may make recommendations concerning the operation and administration of the Center to the director of the Center who in turn is directly responsible to the President of Kearney State College.

Funding for the Nebraska Safety Center at Kearney State College is not part of the budget request of the Board of Trustees of the Nebraska State Colleges. It has not been deemed a priortiy item by them.

These bills contain a State General Fund impact of $54,000 for the 78/79 fiscal year for operations expenditures and a $10,000 State Building Fund expenditure for planning and design work. However, the bills also create a liability against the State Building of $340,000 for fiscal year 79/80. The total fiscal liability against the State for fiscal year 79/80 would be $402,500.

The appropriation for 78/79 includes the addition of two employees; the projected budget for 79/80 includes another additional employee.

With the millions of dollars of future liabilities which your body has chosen to place on the taxpayers of the State by overriding my vetos in the closing days of the session, I cannot approve the addition of even more liabilities to that total.

Yours truly,
(Signed) J. James Exon
Governor

April 21, 1978

Mr. President, Mr. Speaker,
and Members of the Legislature
State Capitol Building
Lincoln, NE 68509

Dear Mr. President and Senators:

I hereby return LB 624 and LB 624A without my signature and with my objections.

LB 624 would require the State to assume the costs for the 16 county probation officers that now exist throughout the state. These are probation officers which were hired by individual counties on their own, on the advice of the local county judge to solve a local problem. No one at the State level required any county to hire any of these probation officers. This local discretion and control should remain.

LB 624 has been promoted as a bill which will be a "cost savings" to the taxpayers of Nebraska. The only real cost savings to the taxpayers of this state will come when you sustain my veto of this bill and its companion appropriations measure.

If my veto is overridden, the 1979 Legislature will be faced with a need for a deficit since the fiscal impact in LB 624A is calculated incorrectly, understating the costs for FY 78-79 by $3420.00.

The major problem with LB 624 is the obvious lack of need for this legislation. There will be no service improvement if LB 624 is passed, only more expense, and there will be no loss of service if you sustain my veto.

Yours very truly,
(Signed) J. James Exon
Governor

April 21, 1978

Mr. President, Mr. Speaker,
and Members of the Legislature
State Capitol Building
Lincoln, Nebraska 68509

Dear Mr. President and Senators:

I hereby return LB 943 with my signature but with one line item reduction veto.

LB 943 contains one unnumbered claim to be paid to the Platte Valley Drainage District in the amount of $21,497.49 State General Fund.

Communication with the State Claims Board Office indicates that this claim has never been submitted to the Board, and, therefore, has not been considered nor approved. No information is on file in the State Claims Board Office detailing the nature of this claim. Whether it is a valid claim against the State General Fund cannot be ascertained.

Since this claim has not followed the statutory procedures outlined by your body in sections 81-8,209 through 81-8,239 of the Revised Statutes of Nebraska for the submission, review, and final disposition of claims, I have exercised my line item veto authority.

I urge you to sustain my veto, thereby maintaining the integrity of the State Claims procedure.

Yours truly,
(Signed) J. James Exon
Governor

April 21, 1978

Mr. President, Mr. Speaker,
and Members of the Legislature
State Capitol Building
Lincoln, NE 68509

Dear Mr. President and Senators:

I hereby return LB 576 without my signature and with my objections.

LB 576 would establish 16-foot wide mobile homes as legal load limits on all highways in the State of Nebraska. The effect of this, as outlined in the enclosed letter from the Attorney General, would allow 16-foot wide mobile homes to travel on any highway in the State of Nebraska without any restrictions and without the need for obtaining a special permit. Presently, the movement of mobile homes on state highways requires a special permit issued by the Department of Roads. This permit specifies the route to be traveled, the time when travel can be undertaken, and requires certain safety precautions such as lead cars, warning signs, etc.

LB 576 would eliminate all of these safety measures, thereby creating a substantial highway safety risk to the motoring public in this state. For this reason, it must be vetoed.

Those surrounding states which allow the movement of 16-foot wide mobile homes all require permits which specify the limited conditions and necessary safety precuations(sic) under which the movement of these mobile homes can be undertaken. We should not eliminate this permit requirement and the accompnaying safety restrictions in Nebraska.

This does not mean that 16-foot wide mobile homes will never be allowed to move on the highways of this state. It simply means that

the issue of whether or not they are allowed should be resolved through the existing Department of Roads permitting procedures. Included in this procedure would be the requirement to obtain approval from the Federal Highway Administration for their movement.

I urge you to sustain my veto in the interest of the safety of Nebraska's roadways.

Yours truly,
(Signed) J. James Exon
Governor

April 20, 1978

Mr. David O. Coolidge
Director-State Engineer
Department of Roads
Lincoln, Nebraska

Re: LB576

Dear Mr. Coolidge:

This is in response to your inquiry of April 19, 1978, whether LB576, just passed in the 1978 Legislative Session will allow mobile homes up to 16 feet in width to move on Nebraska highways without obtaining a permit from the Department of Roads. LB576 amends Section 39-6177, R.S. Supp. 1977, to read, in part, as follows:

> "No vehicle shall exceed a total outside width, including any load thereon, of 8 feet except that such prohibition shall not apply to...(9) mobile homes not exceeding 16 feet in width moving during daylight hours."

Section 39-6177, R.S. Supp. 1977, is the basic restriction and limitation on the width of vehicles allowed to be moved upon the highways of the state. Thus, this amendment, as contained in LB576, would permit mobile homes up to 16 feet wide to move on the highways under the statutory provision.

Section 39-6181, R.S. Supp. 1976, is the basic section authorizing the issuing of permits for oversized or overweight vehicles. That section provides, in part:

"The Department of Roads or the Nebraska State Patrol...and county authorities...may in their discretion upon application and good cause being shown therefore, issue a special permit in writing authorizing the applicant (a) to operate or move a vehicle...of a size or weight of vehicle or load exceeding the maximum specified by law when such permit is necessary to further the national defense or the general welfare...."

Thus, permits under Section 39-6181 need only be issued for vehicles of a size or weight exceeding the maximum specified by law, which, under the amendment, is a 16 foot width for mobile homes. A properly licensed and registered vehicle which complies with all legal requirements, does not need any other permission to move on the public highways. Therefore, since LB576 makes mobile homes up to 16 feet wide legal to operate on highways, it naturally follows that such mobile homes no longer would need permits from the Department of Roads or other agencies to so move.

Very truly yours,
PAUL L. DOUGLAS
Attorney General

Dear Mr. President and Senators:

I hereby return LB 448 without my signature and with my objections.

Section 2 of LB 448 amends the existing computer file privacy statute to allow the Auditor of Public Accounts access to all information in the computer files. This amendment appears to apply to those records which by other specific statutes are designated as confidential. Examples of these records are all income and sales tax returns and all individual welfare records.

The degree of confidentiality for these personal records kept on individuals is and should be a legislative determination. However, any change in our existing specific confidentiality statutes should be made by amendment to those specific statutes after a full public hearing.

Changes in an area so important as the privacy of personal and individual records should not be done indirectly.

Sincerely,
(Signed) J. James Exon
Governor

UNANIMOUS CONSENT - Print in Journal

Mr. Carsten asked unanimous consent to print the following letter in the Journal. No objections. So ordered.

April 21, 1978

The Honorable Paul Douglas
Attorney General
Room 2115, State Capitol
Lincoln, NE 68509

Dear Mr. Douglas:

The Legislative Ad Hoc Committee created under the authority of Legislative Resolution 156 has requested that I contact your office and convey the committee's concerns regarding the implementation of sections 77-1349 to 77-1354, Revised Statutes Supplement, 1977. As you are aware, these sections require an annual revaluation of all lands and improvements on or before January 1, 1978 and each year thereafter. Section 77-1354 specifically requires that monies available under the Personal Property Tax Relief Fund be withheld from any county which fails to revalue its lands and improvements prior to January 2, 1978.

Under the process established by this section, the Tax commissioner is required to notify the State Treasurer of each county which fails to revalue on or before January 1, 1978. Failure to revalue results in the forfeiture of 10% of that county's Personal Property Tax Relief Fund entitlement.

The committee is cognizant of the questions raised in the Department of Justice Opinion Number 198, dated February 23, 1978, regarding the constitutional validity of sections 77-1349 to 77-1354, 1977 Supplement. The committee is equally aware of the duties imposed under sections 84-215 to 84-217, Revised Statutes Supplement, 1977, and Legislative Bill 98, enacted during the 1978 legislative session.

It is in light of these requirements that the committee has requested that I contact your office. It is the expressed desire of the committee that the duties imposed under sections 77-1349 to 77-1354, sections 84-215 to 84-217, and the provisions of LB 98 of the 1978 Legislature be implemented to their fullest extent. This letter is intended to relay that concern to your office and to request that the appropriate action be undertaken.

Sincerely yours,
(Signed) Cal Carsten

REPORT OF EXECUTIVE BOARD

TO: Eighty-fifth Legislature, Second Session
FROM: Executive Board of the Legislative Council
RE: Report on Legislative Resolutions Proposing Interim Studies
DATE: April 18, 1978

The Rules of the Nebraska Unicameral (Rule 4, Sec. 3) provides that Resolutions proposing interim studies be referred to the Executive Board of the Legislative Council for review. The Board is then to submit a report on these Resolutions with recommendations that the proposed studies be made or rejected. Attached is the report of the Board on those Resolutions proposing interim studies introduced during the current session.

The Executive Board recommends the approval of all of the study Resolutions introduced, and that they be referred for study to the committees indicated. The Rules also provide that the chief introducer of a study Resolution shall, if not otherwise a member of the committee to which the Resolution is assigned, be an ex officio member of said committee during the conduct of the study.

Finally, as in past session, the Executive Board recommends that these committees determine their interim priorities and make the final determination of the actual study projects they will undertake pursuant to said Resolutions.

EASE

The Legislature was at ease from 5:07 p.m. until 5:10 p.m.

The committee returned and escorted Governor Exon to the rostrum where he delivered the following message:

Mr. President, Mr. Speaker, Members of the Legislature, Guests:

Thank you for inviting me to participate in your final day of activity. This is also my eighth and final opportunity to bid the Nebraska Legislature farewell in adjournment.

This has been a long and difficult session for all, and I will not detain you with a long message as we say goodbye and good luck.

I have signed into law or returned all bills presented me through your actions of last Wednesday as had been agreed to.

The good news, for you, is that you never again will have to listen to a veto message from this Governor. The good news, for me, is that never again will you have the opportunity to override a veto. I have some more trimming to do on appropriations passed today that are safe from your opportunity to review. I will continue to reduce spending in an effort to live within existing state tax rates.

On February 10, I presented a budget that met the needs of this progressive state as I saw them. I emphasized then, and I quote, "My suggestions allow you minimal additional expenditure without state tax increases which I shall do all within my authority to prevent."

I have remained firm and unwavering in that commitment of February 10. Since then I have sent you several messages cautioning you against excessive spending. The record is clear in that regard, despite attempts to distort it. Neither my approval of any spending bills, subsequent necessary appropriations, or lack of vetoes will lead to an increase in state tax rates. Only your override of my vetoes can lead to an increase in the state tax rates of 3 percent and 16 percent, which we pledged last winter to preserve.

The Legislature has overridden nearly $4.7 million in vetoes, while fortunately sustaining $3.8 million. In actuality you appropriated a total of $9.5 million over my ultimate recommendations; considering the $4.7 overrides, $3.8 sustained to date, and another approximate $1 million I intend to reduce from your actions today.

You have been kept strictly up to date on all revenue matters and have had exactly all the information that has been available to me. Despite allegations by some, our revenue projections have not changed since my message to you on February 10th. There is absolutely no possible chance of cash flow problems the balance of this fiscal year as we correctly forecasted and promised when reducing both the state sales and income tax rates last November, effective January 1, 1978.

The General Fund balance at the end of March was $31.6 million compared with only $1.8 million on the same date a year ago. Yesterday morning the General Fund balance was $29.8 million. The Department of Revenue has consistently maintained that we will meet our revenue projections for this fiscal year and we are well protected cash flow-wise, by the healthy over-levy of this year.

When I complete my veto reductions in the next few days, I am still going to try to maintain the currently reduced state tax rates in spite of what has been the pressure through increased appropriations and legislative pronouncements that taxes must go up. If that becomes necessary, but don't count on it, the record will show that the tax rates would have been held had the Governor's recommendation prevailed.

As I look back on eight years of working with you on law making, our accomplishments and our mistakes, I feel the system has worked as it was intended. The Executive has not ducked its responsibility and certainly it has been proven that the Legislature will not buckle to the gubernatorial direction.

I have respected the Legislature as an important member of the three branches of government. Even when I felt very strongly about any issue, even including what I considered improper and unwise invasions of the responsibilities of the Executive, I have never bargained, threatened or made any deals and my objections have been openly and publicly stated. If I have been blunt at times I felt it was necessary in taking a position I believed to be fundamental.

But eight years of law making are about over. I hold no grudges and out of differing opinions hopefully comes what is best for the people of the great state that we are proud and privileged to serve.

With over twenty of you I have served for eight sessions. It has been interesting and challenging. A special thanks is in order to retiring Senators Wally Barnett, Doug Bereuter, Jack Mills, Richard Lewis, Roland Luedtke, Harold Moylan and John Savage for their dedication and contribution. Good luck and God speed, Gentlemen.

To all of you, I seek your advice and counsel for the next eight months of my term. With the close of the session we proceed to the task of making the new and old laws workable in the best interests of our citizens.

Thank you for your considerations. Good luck in your endeavors.

The committee escorted the Governor from the Chamber.

The motion prevailed.

Mr. President, Mr. Speaker,
and Members of the Legislature
State Capitol Bulding
Lincoln, Nebraska

Dear Mr. President and Senators:

I return herewith LB 404 without my signature and with my objections. The measure is dead for now rather than its eventual victims.

This is still another piece of thoughtless legislation, ill-conceived and lobbied through the lobby-prone 85th session of the Nebraska Legislature. Special interest groups seemingly need only ask, and they shall receive.

I veto the measure with gusto and in disgust that it ever passed on a vote of 39 for and only 7 opposed.

Like LB 576, passed over my veto, unbelievably allowing up to 16' wide trailer homes to proceed on Nebraska roads without permits, permission or accompanying warning vehicles as has always been the case in Nebraska and elsewhere, LB 404 is a measure that further ignores fundamental highway safety.

While I generally have no quarrel with the fundamental concept of the low-cost transportation mopeds, this measure as passed is unacceptable because of its effect on youth.

LB 404 would reduce the age limit to 14 years for a person to obtain a driver's permit to operate a motor-driven bicylce,(sic) night or day, up to speeds of 30 mph on Nebraska streets and roads.

It does not consider the limbs or lives of young people or the additional grey hairs of their parents. I predict it will return again next year for approval. It is my hope that the next Legislature, or if necessary, the next Governor will concur with me and most thinking Nebraskans that this is bad legislation as passed when aimed directly at our youth between the ages of 14 to 16 years of age.

Yours very truly,

April 26, 1978

Mr. President, Mr. Speaker,
and Members of the Legislature
State Capitol Building
Lincoln, NE 68509

Dear Mr. President and Senators:

I hereby return LB 875 without my signature and with my objections.

LB 875, Section 2, would amend the existing state computer file privacy law to give the Legislative Fiscal Analyst complete access to all records within the state computer system. As with LB 448, this amendment would appear to give the Fiscal Analyst access to personal, individual records, such as income and sales tax returns and individual welfare records, which are designated by other specific statutes as confidential.

As with my veto of LB 448, I am vetoing LB 875 because I feel any change in our existing specific confidentiality statutes should not be done indirectly and by implication, but should be done only by specific amendments to those specific statutes after full public hearings and discussion.

The need for a full public discussion of this issue is high-lighted by the fact that Section 2 of LB 875 was not added to the bill until the 58th day of our Legislature, which was the last day to return bills from Final Reading for a specific amendment. Actions affecting individuals' rights to privacy with regard to records held by state government should not be so haphazardly and secretly changed in the last minute rush of legislative business, without prior public discussion.

Sincerely,
Signed) J. James Exon
Governor

Enclosure

April 26, 1978

Mr. President, Mr. Speaker,
and Members of the Legislature
State Capitol Building
Lincoln, Nebraska

Dear Mr. President and Senators:

I hereby return LB 965 with my signature and with my line-item veto reductions.

On April 3, 1978, I outlined to you estimated cash needs as of that date for the previously unanticipated flood emergency.

In that message, I requested the following:

A. That you act forthwith on the $200,000 then pending in LB 924 to make up the $200,000 you failed to reappropriate from the previous year.

B. That you provide $1,000,000 additional to meet the estimated State obligation due to the flood emergency.

C. That you provide an additional $200,000 to return the FY 78/79 appropriation to the Governor's Emergency Fund to the reasonable level of $500,000.

In LB 924 and LB 956 you concurred with these recommendations which were accurate estimates to the best of my knowledge at that time. Since that date, the Office of the Adjutant General has further revised downward this estimate of State obligations due to the flood emergency. (Adjutant General's letter attached.) In line with these most recent estimates, I am reducing the Governor's Emergency Fund as appropriated in LB 965 by $700,000.

Further, the Legislature saw fit to expand on the current estimates of the Adjutant General by providing an additional $1,000,000 to be used through the NRD's for dike maintenance, improvements, repairs, and renovations.

The majority of dikes damaged in the spring flood will be repaired directly by the Corps of Engineers or with Federal disaster funds. In addition, the Governor's Emergency Fund is flexible enough in usage to provide for dikes so damaged without specially earmarked appropriations. If the Legislature is interested in maintenance, improvements, and renovations, as I am, then the proper approach is through established State and local programs such as the Department of Natural Resources rather than the Governor's Emergency Fund. Therefor, in order that this program will not suffer until the Legislature acts in a more appropriate manner, I am reducing the $1,000,000 to $200,000.

With these veto actions, we will still have more than $500,000 in unencumbered balances in the Governor's emergency fund for next year which has always been adequate.

This veto action herewith reduces legislative appropriations by a total of $1.5 million which are not needed and allows assistance in my effort to keep from violating the reduction in the state tax rates effective January 1, 1978.

Very truly yours,

(Signed) J. James Exon

26 April 1978

SUBJECT: Status - Flood Emergency & Emergency Funds

Honorable J. James Exon
Governor of Nebraska
State Capitol Building
2nd Floor, N.E.
Lincoln, NE 68509

1. The Federal Disaster Program is progressing.

a. The disaster assistance centers registered 1,003 people. They were open for a reasonable period of time. Although they have closed--we retain a toll-free number--and will do so for another month--so individuals with continuing problems can call and have their needs resolved expeditiously.

b. Most of the public property damage sites have been inspected—and project applications are being prepared. This task should be virtually complete by the end of next week.

c. Dikes. We have had 29 facilities reported to the Corps of Engineers.

(1) Six of the major damaged sites will be repaired by the Corps.

(2) In a number of other instances, the dikes will be repaired by the owner with Federal disaster fund reimbursement.

(3) In some instances the Corps could not repair the dikes, because they were not viable structures. In some instances Federal disaster funds will not be available because the dikes are privately owned.

2. Public property damage. Our damage estimate was high. We estimated $10,000,000 in damage to Douglas County roads and bridges—but detailed inspections reveal all of the Douglas County damage will be less than $1,400,000. Most damage inspections are complete--and it now appears eligible damage repair funded by FDAA will be less than $5,000,000.

3. Unresolved issues. A number of items have not yet been resolved.

a. City of Valley. Inspections have been accomplished. All of the public property damage that is eligible for Federal reimbursement totals less than $100,000. The city claims much of the road system has been undermined--which will eventually cause the paved streets to settle. The Dept of Roads surveyed the streets with their DYNAFLECT (a sonar like device)--but it did not confirm the

position of the city. FDAA has agreed to keep the issue open for another month and a reinspection. The streets are not in a good condition--but this was a pre-flood condition.

b. Hanson Lake. The Corps of Engineers evaluated the river bank in question. What we term a "dike"--the spot you are familiar with--the Corps finds is not a viable dike. It is merely a pile of spoil cast aside years ago by the sand pit operator. The Corps noted that the problem was merely bank erosion. Therefore, the Corps cannot repair this site under their authority. Since the river bank site in question is privately owned--its repair is not reimbursable from Federal disaster funds.

We have discussed this with the Natural Resource District. They considered this structure a few years ago--and turned it down. Indications are that will still be the position of the NRD.

c. Game & Parks. Damage inspections have been completed and it appears they will be eligible for about $185,000 of Federal disaster reimbursement. Although there apparently was some damage to buildings at Niobrara State Park--this may not be reimbursed due to the flood insurance requirement of FDAA. This issue is still under debate.

d. The length of time required to close out a Federal disaster causes a problem. We are still involved in obtaining the reimbursements for the SE Nebraska Sleet Storm-Power Failure (March 1976) and the Omaha Tornado (May 1975). Omaha may yet claim reimbursement from the Emergency Fund due to a difference in their disaster expense and the Federal reimbursement.

4. Current appropriations to the Governor's Emergency Fund.

a. Flood control projects.

(1) Sections 1, 2 and 3 of LB 965 allocates $1,000,000 for this general purpose.

(2) Section 2 limits this million dollars to grants to NRD's for flood control projects. It speaks of dike maintenance, improvements, repair, and renovations.

(3) With the exception of Hanson Lake, it now appears that all of the major damages this flood caused to dikes will be either repaired by the Corps of Engineers or by the public owners with reimbursement from FDAA.

(4) No other program that we know of will fund improvements in maintenance of dikes (which clearly is needed--and lack of maintenance is a cause of failure of a dike).

(5) Improvements could be Federally funded--but such projects have a long lead time, a 2 or 3 year period from a plan to funding.

(6) We would propose to use the Water Resources Department and the Natural Resources Planning Commission to help adjudicate grants to the NRD's from this fund.

(7) Section 3 of LB 965 allocates $100,000 of the million to the "dike" at Hanson Lake. Probably the "grant concept" of Section 2 applies--

(8) In any event, the million dollars in Sections 1, 2 and 3 is clearly restricted to flood control projects.

b. Section 4 of LB 965 provides for $1,200,000 to the Governor's Emergency Fund--NOW--and the balance carries over to next FY.

LB 924 (deficit) added $200,000 to the Governor's Emergency Fund.

LB 953 (regular appropriations) provided $300,000 to the Governor's Emergency Fund--and reappropriates for next FY any unexpended balance as of June 30, 1978.

The total of these three bills gives us $1,400,000 of "new" money--which will carry over to next FY--and 1 July we will have another $300,000. Plus the $1,000,000 "dike" money.

5. Where do we stand--$ wise?

a. Costs and funds available:

Current fund balance	$ 135,000
Plus (Sect 4, LB 965)	1,200,000
Plus (LB 924)	200,000
Plus (LB 953)	300,000
Funds available	$ 1,835,000

b. Expected expense:

Additional operations costs	$ 100,000
Sep 77 Flood (Nuckolls & Otoe)	260,000
April Rain (Butler & Saunders)	140,000
Individual & Family grants (state share)	76,000
Mosquito operation if needed	30,000
	$ 606,000
Plus unencumbered fund for FY 79	500,000
TOTAL	$ 1,106,000

c. The million dollar "dike" fund is restrictive and I question the need for the total appropriated amount. I feel this appropriation can be significantly reduced due to the flexibility within the Governor's Emergency Fund.

d. From the above it is clear that the Emergency Fund could be reduced by $700,000 (Sec 4, LB 965).

Sincerely,
(Signed) Edward C. Binder

The Adjutant General
