### ATTORNEY GENERAL'S OPINION

Opinion No. 68  
March 27, 1979

Re: LB 42, Eighty-Sixth Legislature,  
First Session

Dear Senator DeCamp:

You have asked for a review of the above legislative bill from the standpoint of constitutionality, questioning whether payment of money can be forced without agreement on the part of the payor or following due process procedures.

The bill, as amended, gives the Department of Roads authority to determine that (1) a railroad crossing shall be eliminated, (2) automatic railroad grade crossing protection devices shall be installed, modified, or improved, or (3) other measures are necessary to improve public safety at railroad crossings.

The bill further provides for establishing a safety improvement priority list and for the allocation of funds to pay the costs of safety improvements.

The initial authority apparently conferred in Sec. 2 of the act is modified, however, by Sec. 8, sub paragraphs (1) and (5), by requiring agreements regarding grade crossing eliminations or the Grade Crossing Protection Fund "as well as the supervision of the construction, installation, substantial modification or improvement, and the maintenance of such automatic safety devices for which any part of the cost is borne from the Grade Crossing Protection Fund, and the auditing and collection of the bills covering the cost thereof. The Department of Roads is further authorized to enter into such contracts with any railroad companies and political subdivisions affected which are necessary to carry out the provisions of sections 39-6,194 and 39-6,195."

The conclusion is, that under Sec. 2, the Department has the authority to "determine" but not to "eliminate", "install", "modify", etc.

Such being the case, no one is being forced to undertake any crossing safety measure without agreement, and with agreement there is no constitutional issue, no party being required to pay involuntarily. If agreement is reached, then proportionate amounts are set by the act.

Very truly yours,  
 PAUL L. DOUGLAS  
 Attorney General

### ATTORNEY GENERAL'S OPINION

Opinion No. 69  
 March 27, 1979

Re: LB 164

Dear Senator Johnson:

This is in reply to your inquiry concerning the constitutionality of  
 LB 164 as it would amend the Bingo Act in the following respects:

- (a) Forbid a licensed organization to conduct bingo outside the  
 county in which the organization has its principal office.
- (b) Forbid a licensed organization to hold more than fourteen  
 bingo occasions per month.
- (c) Forbid more than three bingo occasions per week within the  
 same structure or building, with the exception of allowing an  
 additional two limited period bingos per year. If it is shown  
 that there are no other suitable structures available, the local

governing unit which the structure is in may allow more than three bingo occasions per week.

- (d) Declare that profits from the sale of food or beverage must be paid to the licensed organizations conducting the bingo occasion. No compensation shall be paid to any persons for the operation of concessions.
- (e) Allow for the hiring of custodial personnel for bingo occasions, and also the hiring of security personnel.
- (f) Eliminate the requirement of bingoing immediately on the last number.
- (g) Provide for the payment of the tax on gross receipts to the Clerk of the political subdivision in which the occasion is held.
- (h) Delete from section 9-126 of the Act the provision that lawful purpose shall not include: The erection, acquisition, improvement, maintenance, or repair of any real property, unless the license issuing authority specifically authorizes such expenditures after finding that the property will be used exclusively for charitable purposes or one or more of the purposes.
- (i) Delete from section 9-158 the provision that: The person who accounts for bingo gross receipts and profits shall be a different person than the person who accounts for other revenue of an organization.
- (j) Provide for a civil action in the event of violations.
- (k) Declare an emergency.

In 1958, Section 24 of Article III of the Nebraska Constitution was amended to authorize the Legislature to provide for the licensing and regulation of bingo games conducted by non-profit associations which have been in existence for a period of five years immediately preceding the application for license.

From our examination of the provisions of LB 164, as it would amend the existing Bingo Act, it is our opinion that it does not violate the provisions of Article III, Section 24 of the Constitution, and we see no apparent violation of any other provisions of the Constitution.

Very truly yours,  
PAUL L. DOUGLAS  
Attorney General  
Bernard L. Packett  
Assistant Attorney General

13 preserve the health or safety of the people within such

#### ATTORNEY GENERAL'S OPINION

Opinion No. 70  
March 28, 1979

Dear Senator Maresh:

You stated that LB 506 of the Eighty-sixth Legislature, First Session (1979), was introduced to amend the Nebraska Medical Student Assistance Act, Neb.Rev.Stat. sections 71-5613 to 71-5645 (Supp. 1978). In connection therewith you state that a question has arisen as to whether loans authorized by LB 506, supra, can constitutionally be made to students attending medical school at a private institution in Nebraska, such as Creighton University. You state that you are aware of the provisions contained in Article XIII, section 3 of the Constitution of Nebraska which seemingly allows such loans. You also state that you are aware of Article VII, section 11 of the Constitution of Nebraska and the cases construing it which seem to lead to the opposite result. The same is hereinafter discussed.

If it were to become operative law, LB 506 would amend or repeal fourteen (14) sections of the Nebraska Medical Student Assistance Act. For example, section 6 of LB 506 would amend Neb.Rev.Stat. section 71-5628 (Supp. 1978) to read as follows:

"Loan applicants and recipients must be enrolled or accepted for enrollment in an accredited medical education program in ~~the United States~~ Nebraska."

Thus it seems clear to us that section 6 of LB 506 is in conformity with section 3 of Article XIII of the Constitution of Nebraska. Consequently the fact that loan applicants and recipients are enrolled or accepted for enrollment in an accredited medical education program at Creighton University would not, in our opinion, render LB 506 unconstitutional.

The distinction between section 11 of Article VII of the Constitution of Nebraska and section 3 of Article XIII of the Constitution of Nebraska is that the former prohibits, inter alia, tuition grants of public funds to Nebraska residents enrolled in an "institution of learning not owned or controlled by the state or a political subdivision thereof" whereas the latter permits "loans to Nebraska residents seeking adult or post high school education at any public or private institution in this state." See and compare Gaffney v. State Department of Education, 192 Neb. 358, N.W.2d 550 (1974) with the exception stated in section 3 of Article XIII of the Constitution of Nebraska.

Very truly yours,  
PAUL L. DOUGLAS  
Attorney General

We know, our Father, that there is a time to speak and a time to keep silent. Help us to tell the one from the other. When we should speak, give us the courage of our convictions. 1       1. Strike the original sections and insert:

3 energy crisis and the resultant increase in demand for  
4 coal has caused increased rail traffic in the state.  
5       Such increased rail traffic transporting coal  
6 creates hazards to the citizens of the state because of  
7 increased potential for derailments and car-train  
8 accidents at highway crossings.  
9       The rail traffic also causes inconvenience to  
10 citizens because of time lost while waiting at rail  
11 crossings. In addition, a large amount of gasoline is  
12 wasted by people who are forced to wait for trains at  
13 railroad crossings.  
14       To offset the impact of the coal hauling trains  
15 in Nebraska, it is the intent of the Legislature to  
16 enact a tax on the transportation of coal by rail as set

17 forth in sections 1 to 6 of this act.

18 Sec. 2. As used in this act unless the context  
19 otherwise requires:

20 (1) Railroad carrier shall have the meaning  
21 provided by section 75-402, Reissue Revised Statutes  
22 of Nebraska, 1943.

23 (2) Railroad shall have the meaning provided  
24 by section 75-402, Reissue Revised Statutes of Nebraska,  
25 1943.

26 Sec. 3. Every railroad carrier engaged in trans-  
27 porting coal in interstate commerce through the state  
1 shall pay to the Tax Commissioner a tax of one cent on  
2 each ton of coal transported. Such tax shall be paid in  
3 addition to all other taxes.

4 Sec. 4. Every railroad carrier transporting coal  
5 in interstate commerce through the state shall file with  
6 the Tax Commissioner on blanks furnished by the commissioner,  
7 reports for the preceding calendar quarter setting forth  
8 the total amount of coal transported in interstate commerce  
9 through the state by such railroad. The report shall  
10 also set forth the amount of tax due for the transporta-  
11 tion of coal. Payment of the amount due shall be made  
12 at the time such report is filed.

13 Sec. 5. The proceeds of the tax provided by  
14 section 3 of this act shall be credited to the Coal  
15 Transportation Tax Fund which is hereby created.

16 Sec. 6. Money in the Coal Transportation Tax  
17 Fund shall be distributed to the counties, cities and  
18 villages of the state to be used for construction of  
19 railroad crossings, overpasses, and safety devices.  
20 Distribution shall be as follows:

21 (1) Fifty per cent of such money shall be  
22 distributed to the various counties, cities and villages  
23 in the same proportion that the total miles of railroad  
24 track used for interstate coal transportation in the state  
25 bears to the number of miles of such track within a  
26 county, city, or village.

27 (2) Fifty per cent of such money shall be dis-  
1 tributed to the various counties, cities, and villages  
2 on the basis of the ratio of the population of the par-  
3 ticular county, city, or village to the population of the  
4 entire state as determined by the latest federal census.”.

**LEGISLATIVE JOURNAL**

**EIGHTY-SIXTH LEGISLATURE  
FIRST SESSION**

**FIFTY-EIGHTH DAY**

Legislative Chamber, Lincoln, Nebraska  
Monday, April 2, 1979

Pursuant to adjournment, the Legislature met at 9:31 a.m., President Luedtke presiding.

**PRAYER**

The prayer was offered by the Chaplain.

O Lord, our God: By now it seems so very familiar to us all - the dash back to the Statehouse for the tasks of another week; the rap of the Speaker's gavel; the prayer of the Chaplain; the pile of unopened letters on our desks from those who see so clearly what we should be doing here; the guests in the gallery who are trying to see what we are doing here; the reporters who will tell the folks back home what they believe we have been doing here; and beyond all these, the things which we have convinced ourselves that we are in fact doing here; by now it seems so very familiar to us all - we've been down this road so many times before.

But the more familiar the way, the more treacherous the detours. Keep us on our course, we pray!

Save us from the sin of over-familiarity with public trust.

May our accomplishment for Nebraska be so significant that even we, when we describe it, may not be guilty of bragging - nor when we accept our checks, of sponging. Amen.

**ROLL CALL**

The roll was called and all members were present except Messrs. Schmit and Wagner who were excused; and Mrs. Marsh, Messrs. Dworak, George, Lewis, Merz, and Venditte who were excused until they arrive.

Strike the original sections and insert:

Section 1. The Legislature hereby recognizes the impact of interstate transportation by common carriers on the public highways and lines of this state. The intent and purpose of this act is to collect a special tax to be used by all political subdivisions to insure the continued health, safety and welfare of all citizens.

Section 2. For the purpose of this act, unless the context otherwise requires, the definitions and requirements found in sections 2 to 15 of this act shall be used. Section 2. For the purpose of this act unless the text otherwise requires:

(1) Person shall have the meaning provided by section 75-302, Reissue Revised Statutes of Nebraska, 1943;

(2) Commissioner shall mean the Tax Commissioner;

(3) Permit shall mean the interstate tax transport permit to be issued and administered under the provisions of this article to all interstate common transport carriers as defined;

(4) Commerce shall mean all products or goods, of any kind or form which are transported for public use;

(5) Public highways shall mean all roads, highways or highway system, railways, and all other ways of transport throughout this state;

(6) Motor vehicle shall mean any vehicle, machine, tractor, trailer, or semitrailer propelled or drawn by mechanical power and used upon

the public highways of this state in the interstate transportation of all property and commerce;

(7) Motor carrier shall mean any person owning, controlling, managing, operating or causing to be operated any motor-propelled vehicle, of any kind, used in the interstate transport of all property and commerce over any public highways in this state.

(8) Common carrier shall mean any person who or which undertakes to transport property or commerce for or to the general public in interstate commerce by motor vehicle for hire, whether over regular or irregular routes, upon the highways of this state; and

(9) Contract carriers shall have the meaning provided by section 75-302, Reissue Revised Statutes of Nebraska, 1943.

Section 3. Every common and contract carrier engaged in interstate commerce through the state of Nebraska shall pay to the Tax Commissioner the tax of one cent on each ton per mile of commerce, transported across this state. Such tax shall be paid in addition to all other taxes.

Section 4. The person responsible for the operation of any such motor vehicle for the purpose of interstate commerce in Nebraska shall make application in writing in advance to the commissioner for such permit, or make application at the port of entry. The application shall be signed by the applicant and shall contain his post office address and shall contain such other information as the commissioner may reasonably require, including an estimate of the number of miles the motor vehicle will be operated monthly in Nebraska. A separate application shall be required for each such motor vehicle. The application shall be accompanied by a fee of five dollars to be paid to the commissioner or port of entry to cover the expense of issuing permit. The commissioner is authorized whenever it is deemed necessary to require the applicant before or after issuance of the permit to furnish security for the payment of any ton/mileage tax which may become due under the provisions of this act either by cash deposit or surety bond to be approved by the commissioner, the amount thereof to be determined in each case by the commissioner but not to exceed three times the estimated monthly mileage tax liability of the applicant. The commissioner is authorized to suspend any permit upon failure of the permittee to provide such security within five days after written demand therefor by the United States mail addressed to the permittee at the address shown on the application. If the application is made at the port of entry, the permit shall be issued upon payment of the fee and if security is required, the port of entry may accept a cash bond in lieu thereof.

Section 5. The commissioner shall issue such permit to the applicant if the application is properly executed, contains the required

information and security, if any required is deposited and the required fee paid.

Section 6. The commissioner shall date and sign or cause to be dated and signed each permit issued and the seal of the department shall be attached thereto. The commissioner shall retain a copy of each permit. The permit shall state the name and address of the permittee, describe the motor vehicle for which it is issued, with such details as the commissioner shall deem necessary, together with such other information as may be considered by the commissioner to be necessary. No permit shall be transferable. If the motor vehicle for which permit is issued shall be transferred, destroyed or its operation through Nebraska discontinued for one year, the permit therefor shall be surrendered and the same cancelled and up on satisfaction of all liability for ton/mileage tax under the provisions of this act incurred by the operation of such motor vehicle any security deposited with the department shall be released. The motor vehicle may be operated by a lessee of the permittee, in which event the permittee shall continue to be responsible for compliance with all the provisions of this act, including the keeping of records, making of returns and payment of tax.

Section 7. Every permittee shall keep or cause to be kept by the person operating the motor vehicle covered by the permit a record kept and maintained in the vehicle in which shall be entered each day the number of miles, tons hauled and the places between which the motor vehicle was operated in Nebraska. Each day's entry shall be signed by the person making same. Such daily record shall be maintained for each calendar month and said record shall be carried on the vehicle during the calendar month for which it is being kept. The commissioner may describe forms for such record and may require recording thereon of any additional information the commissioner deems necessary for the administration and enforcement of the provisions by the permittee for not less than two years and may be thereafter destroyed if the commissioner notifies the permittee in writing that the record for any months need no longer be preserved. The commissioner may, if deemed necessary, require that the daily record be kept in duplicate and one copy thereof filed with the permittee's ton/mileage tax return provided for by this act. Such daily record shall be subject to inspection at any time by the commissioner and enforcement officers and agents.

Section 8. Every person to whom a permit is issued under the provisions of this act shall quarterly file with the department on forms prescribed by it a ton mile tax return stating as to the motor vehicle covered by the permit such information as the department may require, including the name and address of the permittee, the number

of the permit and such identification as the department may require of the motor vehicle, the number of miles operated and number of tons hauled during the calendar month covered by the return. Such return shall be filed on or before the fifteenth day of the month following the month covered by the return. If the filing date falls on a Saturday or legal holiday, the filing date shall be extended to the first following day not a holiday. For good cause the commissioner may grant reasonable extensions for filing the tax return but not to exceed ten days for any one return. The return shall be signed by the permittee who shall declare the return and the statements therein to be true and correct.

Section 9. The tax for the ton/mileage operated by the motor vehicle for which the return is made during the month covered by the return shall be computed and stated in the return and shall be due and payable at the time the return is required to be filed and the permittee shall pay and remit the amount thereof to the commissioner with the return. Such return and the amount of tax liability under any permit shall be subject to review and audit by the commissioner and if any additional tax is due the same shall be due and payable ten days after written notice to the permittee by United States mail.

Section 10. Any permittee shall pay an additional tax of five dollars for each day such permittee is in default of payment of any tax due under the provisions of this act, and any such permittee shall further pay an additional tax of five dollars for each day such permittee is in default in making the tax return required by the provisions of this act in addition to the ton/mileage tax due from such permittee.

Section 11. Any permittee shall give notice in writing to the commissioner at the time of payment of any tax demanded by the commissioner of any over assessment of such tax. Such notice shall specify and identify the license and vehicle on account of which demand is made and shall set forth in detail the basis of the taxpayer's claim. The commissioner shall determine such claim and shall refund any over assessment within sixty days. If the taxpayer is dissatisfied with the decision, or if no decision is rendered by the commissioner within sixty days, the taxpayer may institute an action against the commissioner within sixty days thereafter in the district court of Lancaster County, Nebraska, to recover his claim. In such action, the taxpayer shall have the burden of proving the correctness of his claim. The commissioner shall issue voucher for any refund finally determined to be due.

Section 12. The commissioner shall enforce the provisions of this act and may prescribe, adopt, and enforce reasonable rules and regulations for the administration and enforcement thereof.

Section 13. The commissioner may examine the records of permittees at all reasonable times and make such other investigation as it may deem necessary for the proper and efficient administration and enforcement of the provisions of this act. All records of a permittee material to the tax provided by this act shall at the request of the commissioner be examined, audited and investigated by the Auditor of Public Accounts, the cost and expense thereof to be paid from the revenues provided by this act.

Section 14. The revenue from the ton/mileage tax collected under the provisions of this act shall be remitted by the Tax Commissioner into the Highway Allocation Fund as provided in section 39-2401, and 39-2402, Reissue Revised Statutes of Nebraska, 1943. A fair proportion of the cost and expense of the department chargeable to the administration and enforcement of the provisions of this act shall be determined by the department and charged to and paid from the Highway Allocation Fund, but not more than five percent thereof.

Section 15. Any person, as defined by this act, by himself or by his agent, employee or lessee, or any agent, employee or lessee of such person, operating any motor vehicle in this state, who intentionally violates any of the provisions of this act, who makes any false entry or statement in any record required to be kept and maintained, who evades or attempts to evade the ton/mileage tax on the operation of any motor vehicle, or who operates or causes any motor vehicle to be operated on any highway in this state without the permit required by the provisions of this act, with the intention of violating the provisions of this act, shall be guilty of a misdemeanor and shall, upon conviction thereof, be fined in a sum not less than two hundred fifty dollars nor more than five thousand dollars. All motor vehicles used in violation thereof shall be seized upon the arrest of the person so using or owning such motor vehicle and upon the conviction of such person for the violation of the provisions of this act such motor vehicle shall, as a part of the element of such violation, at the discretion of the court, be forfeited to the state, and delivered to the Tax Commissioner to be disposed of as provided by law; the sale of such property shall be subject to any liens of record. ### RESOLUTION

**LEGISLATIVE RESOLUTION 46.**

Introduced by Keyes, 3rd District; Wesely, 26th District.

WHEREAS, the high cost of food is a great concern to all Nebraskans; and

WHEREAS, more and more citizens are using food coupons to supplement their food dollar; and

WHEREAS, retail food stores must honor all food coupons to maintain the requested cost-benefit services to their customers; and

WHEREAS, the grocer, particularly the privately-owned grocery stores of this state, are experiencing considerable expense and profit losses due to unredeemable coupons; and

WHEREAS, if such problems continue they will add to the already increasing number of financial problems which effect the small grocer and forecast a collapse of the small grocery stores throughout this state; and

WHEREAS, the coupon problem ultimately affects all Nebraskans in higher food prices and the loss of needed profit to the privately-owned grocery store.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That an interim study be conducted by a special subcommittee of the Legislature's Business and Labor Committee.

### ATTORNEY GENERAL'S OPINION

Opinion No. 71  
March 29, 1979

Dear Senator Lewis:

In your letter of March 26, 1979, you called to our attention the adoption by the Nebraska Legislature of Legislative Resolution 30, generally calling upon the Ninety-fifth Congress of the United States of America to reject a proposed amendment to the United States Constitution, generally affording the District of Columbia status as a state.

Specifically, you ask whether or not it is within the legal and procedural bounds of the Nebraska Legislature to make such a request of Congress. It is our opinion that the Nebraska Legislature may do so but we question the timeliness of Legislative Resolution 30.

It appears to us from an examination of the language of the resolution that the Ninety-fifth Congress of the United States of America has already proposed such an amendment to the United

States Constitution. If such is the case, then it simply remains to be determined whether or not the legislatures of three-fourths of the several states shall, within seven years of the date of the action of Congress, ratify this proposed amendment. If the amendment has already been proposed by Congress, we question the purpose of informing Congress of the Nebraska Legislature's opinion upon a resolution already adopted by that body.

It may be that it would be more appropriate for the Nebraska Legislature to consider this proposed amendment pursuant to Rule 4, Section 2 of the Rules of the Nebraska Legislature and either ratify the proposed amendment or not, depending upon the vote of the Legislature.

You also ask whether or not Legislative Resolution 30 should be handled according to the processes outlined in Rule 4, Section 2, of the Legislative Rules. As set forth above, it may be that it would be more appropriate for the Legislature to make known its opinion as to this matter by the form of either ratifying or not ratifying this measure under Rule 4, Section 2. However, as you are aware, Article III, section 10 of the Constitution of the State of Nebraska, specifies that the Legislature shall create its own rules for proceeding and we are not prepared to say that the manner in which Legislative Resolution 30 has been adopted is beyond the limits of those rules, or that the Legislature's only course of action is to proceed under Rule 4, Section 2. We only point out as we did above that the United States Congress appears to have already taken the action opposed by Legislative Resolution 30 and suggested it may be more appropriate to proceed under Rule 4, section 2.

In conclusion, we are of the opinion that the Nebraska Legislature may, as a matter of law and within its rules of procedure, adopt such a resolution as Legislative Resolution 30 and may forward the same on to the parties designated. We are also of the opinion that Rule 4, Section 2, is not controlling but rather might provide a more timely and appropriate means of expressing the opinion of the Nebraska Legislature on this matter.

If we can be of further assistance to you in this regard, please let us know.

Sincerely,  
PAUL L. DOUGLAS  
Attorney General  
Terry R. Schaaf  
Assistant Attorney General

**ATTORNEY GENERAL'S OPINION**

Opinion No. 72  
April 3, 1979

Dear Senator Murphy:

In your letter of March 28, 1979, you express concern about the constitutionality of LB 105, and its companion bill, LB 103. You question the constitutional propriety of assessing real property of railroads as personal property. We believe there is no constitutional problem with respect to these bills in the area you mention.

We point out that the provision about appraising and assessing some of the real estate of railroads the same as personal property did not originate with LB 105, but is found in the present law. Section 2 of LB 105 amends section 77-602, R.R.S. 1943. That section now provides for ascertainment by the State Board of Equalization and Assessment of various itemized types of property belonging to railroads, including real property, and orders the board to “appraise and assess the same as personal property.” LB 105 does not change the general scheme of the statute, so what you are asking, in effect, is whether the present statute is valid.

This provision has been in section 77-602 since its enactment in 1903. As a matter of fact, its predecessor had a similar provision. The Nebraska Supreme Court has considered the system of taxing railroad property a number of times, and has not questioned this provision. The purpose is to permit a unified valuation of the property of the

railroad, which would be very difficult to value piecemeal. In Chicago, B. & Q. R. Co. v. Box Butte County, 99 Neb. 208, 155 N.W. 881 (1915), we find this explanation of the system:

“ . . . The general purpose of this legislation is stated in State v. Savage, 65 Neb. 714, 750, as follows: ‘It seems reasonably clear that in assessing railroad and telegraph property, as contemplated by sections 39 and 40, the whole property belonging to any one corporation, and subject to assessment in this state, should be valued for tax purposes in its entirety, and that in such valuation should be included all elements going to make up the entire property, whether consisting of franchises or other intangible property, or physical property, be it real, personal or mixed.’ . . .”

The court has, therefore, not felt that assessment of real property as personal property, in this situation, violates the uniformity requirement of Article VIII, Section 1, of the Nebraska Constitution. We point out that, whether it is regarded as real property or personal property, it is required to be valued at actual value, and assessed at 35 percent of that value. So long as that is done, we do not believe the provision you inquire about violates uniformity of taxation.

Very truly yours,  
PAUL L. DOUGLAS  
Attorney General

**SIXTY-FIRST DAY**

Legislative Chamber, Lincoln, Nebraska  
Thursday, April 5, 1979

Pursuant to adjournment, the Legislature met at 9:03 a.m., Speaker Marvel presiding.

**PRAYER**

The prayer was offered by the Chaplain.

Father in Heaven, we labor unceasingly to learn more about our job; to stay up with trends; to please our constituents, and to pass better laws in order to better people.

Sometimes we suffer disappointment, sometimes we become downright unhappy over projects gone awry.

When we are successful, we sometimes act as if we created the phenomenon of success.

In either case, let us recall the words of the Psalmist: "Unless the Lord build the house, they labor in vain who build it. Unless the Lord guard the city, in vain does the guard keep vigil. It is vain for you to rise early, or put off your rest, you that eat hard-earned bread, for He gives to His beloved in sleep." Amen.

**SIXTY-SECOND DAY**

Legislative Chamber, Lincoln, Nebraska  
Friday, April 6, 1979

Pursuant to adjournment, the Legislature met at 9:02 a.m., President Luedtke presiding.

**PRAYER**

The prayer was offered by the Chaplain.

Meet with us as we meet once more, O Lord our God, for we do need help. Even our small mistakes become obvious, and our proudest accomplishment but temporary. . .

Our little bills seem so trivial beside the great, breaking events of these times, and so uncertain in response to voices which urge: "Do something about this," "Do nothing about that". . .

And those which complain: "Too little;" "Too much;" "Too soon;" "Too late."

We need help. Lobby within our hearts and minds, O God, for everything that is right, lest we give in to anything that is easy. Amen.

**ROLL CALL**

The roll was called and all members were present except Messrs. DeCamp, Kelly, and Merz who were excused; and Messrs. Haberman, Johnson, Lewis, Venditte, Wagner, and Wesely who were excused until they arrivē.

**ATTORNEY GENERAL'S OPINIONS**

Opinion No. 73  
April 4, 1979

Dear Senator George:

In your letter of April 2, 1979, you call our attention to the provisions of Legislative Bill 176 and Legislative Bill 250 and raise two specific questions. Your first question is whether or not the Legislature can create two classes of persons, one group being owners of property located within a city's limits who actually reside within

those same city limits and the other group being owners of property located within a city's limits who do not reside within those same city limits, and can these two groups be treated differently by the laws pertaining to street improvements.

It has long been the rule in this state that a legislative classification such as that described in your question must rest upon real differences of situation and circumstances surrounding the members of the class relative to the subject of legislation which render appropriate its enactment. United States Cold Storage Corp. v. Stolinski, 168 Neb. 513, 96 N.W.2d 408 (1959).

As early as 1913 the Nebraska Supreme Court stated the rule that while it is competent for the Legislature to classify, the classification to be valid must rest upon some reason of public policy or some substantial difference of situation or circumstances that would naturally suggest the justice or expediency of diverse legislation with respect to the objects classified. Althouse v. State, 94 Neb. 780, 144 N.W. 799 (1913).

Finally, the Nebraska Supreme Court has stated that the Legislature may legislate with regard to a class of persons but they cannot take what may be termed a natural class of persons, split that class in two, and then arbitrarily designate the dissevered fractions of the original unit as two classes and enact different rules for the government of each. See, for example, in this regard, United Community Services v. The Omaha National Bank, 162 Neb. 786, 77 N.W.2d 576 (1956).

Therefore, it is difficult to answer with certainty whether or not the Legislature may create a classification such as you describe in your question. If, as set out above, there is a rational basis for doing so, then most likely the Supreme Court would rule the classification proper. If, on the other hand, the distinction is merely an arbitrary one, the court would no doubt be of a contrary opinion. We would suggest in passing that if the Legislature is intent upon creating such a classification, that it establish in the form of legislative history the reason why it feels such a classification resulting in dissimilarity of, as in this case, the treatment of resident or nonresident landowners, is necessary. It may be that a valid basis can be established for treating resident landowners differently than nonresident landowners within the context of the establishment of street improvement districts and the assessment of costs therefor.

Inasmuch as you have not furnished us any specific legislative intent in this regard, it is most difficult for us to determine with any degree of finality the acceptability or nonacceptability of such a distinction. We are generally, however, of the opinion that such a classification and distinction can be drawn lawfully by the Legislature if the requirements set out above are met.

You also ask whether or not a city, after making such street improvement, must establish that an adjacent property owner has been benefited by the improvement before an assessment can be made against him for that improvement. We are aware of no principle of law which requires a municipality to prove by some quantum of evidence that an improvement such as a street improvement "benefits" the adjacent landowners. In fact, we believe that opposite would be a more correct statement of the law, i.e., that an "improvement" would be presumed to be beneficial to adjacent landowners and that to avoid an assessment for such, the landowner would have the burden of conclusively establishing the contrary. See in this regard, generally, Chicago St. P., M. & O. Ry. Co. v. City of Randolph, 163 Neb. 687, 81 N.W.2d 159 (1957).

If we can be of further assistance to you on these matters, please let us know.

Sincerely,  
PAUL L. DOUGLAS

Opinion No. 74  
April 6, 1979

Dear Senator Johnson:

You have asked the following question, "Is it conceivable that the enactment of either type of limit described above might cause the public schools of this state to reduce program and course offerings to the degree that the limitation itself might run afoul of the provisions of Article VII, Section 1, or other constitutional prescriptions? To wit, might not a lid, ipso facto, insofar as it applies to the public schools, be unconstitutional?"

The types of limits that you had described above in your letter were a 7 percent annual growth limitation on receipts from the tax a governing body is authorized to levy as embodied in Request 2685 (Legislative Journal, pp. 836, et seq.) and a second limitation to be placed on the combined receipts of both local and property tax funds and funds received from state tax sources. You, of course, in your question postulate a worse case situation. We take your question to be that if the limit in effect caused public schools to fail to be in a

position to provide free public instruction, might constitutional problems under Article VII arise. While there is no doubt that the Legislature is required by the constitutional provision you cite to provide free instruction in common schools, the method and means adopted to furnish that free instruction is for the Legislature to determine. See *Affholder v. State*, 51 Neb. 91, 70 N.W. 544. That case discussed the necessity of providing text books to children attending the public schools. While your fundamental proposition may be correct, that is that if acts of the Legislature cause the cessation of the provision of free public instruction in the schools to the citizens of this state, the action of the Legislature in that regard would be unconstitutional. However, we believe that such an extreme case does not form a rational basis for us to conclude that particular acts of the Legislature here under consideration are therefore unconstitutional.

We discern no evidence nor have we been informed of any evidence before the Legislature that a requirement limiting expenditure increases by some percentage of an existing budget will cause such hardships on schools that they will cease to be able to provide the necessary services to educate children within the state. As an example, a variety of services are presently provided by schools which from a strictly utilitarian viewpoint would not be required for the purpose of providing free public instruction. For instance, the expenditure of money on athletic programs and other similar extracurricular activities are unlikely to be found to be necessary to provide free public instruction as required by the Constitution.

The mere act of the Legislature in requiring school districts to allocate the funds they are authorized to raise in a manner different than a school board may determine desirable we do not believe would be constitutional violative of either the Nebraska or the federal Constitution. Thus, it can be said that notwithstanding your postulate in the question you have raised unless there were some evidence or some reason to believe that a limitation of 7 percent on an annual increase in budget allotments to school districts would require the cessation of the fundamental requisites of education, we could not say that such a limitation is or potentially might be unconstitutional.

Absent such a showing we believe that the Legislature is vested with adequate constitutional authority to determine the level at which educational services will be delivered to the citizens of this state under the mandate of Article VII, Section 1.

The leading federal case in this area, *San Antonio Independent School District v. Rodriguez*, 411 U.S. 1 (1973), held that education was not a fundamental right for purposes of equal protection. Among other things the court held that the states were free to determine the method and manner in which schools were to be funded. The

Legislature, except as limited by the Constitution of this state, is free to select that method which it sees fit in determining not only how schools are to be financed but to limit the amount of money that may be expended by local school districts in providing such educational services. For these reasons it is our opinion that absent some showing to support the assumptions made in your question, the limitation currently in existence under LB 1, Eighty-Fifth Legislature, First Special Session, 1978, and those potential limitations which you have discussed in your question do not violate the the Constitution of the State of Nebraska, Article VII, Section 1.

Very truly yours,  
PAUL L. DOUGLAS

Opinion No. 75  
April 6, 1979

Dear Senator Johnson:

You have asked us two questions with respect to Amendment No. 6 appearing on page 1264 of the Legislative Journal, Eighty-sixth Legislature, First Session, 1979. You point out that the amendment exempts from the limitation imposed by LB 285 the increased costs of electricity and other fuels purchased by elementary and secondary schools.

In you first question you ask whether or not this violates the Equal Protection Clause of the Fourteenth Amendment to the United States Constitution as being an unreasonable classification. We refer you to our Opinion No. 262, June 29, 1978, a copy of which is attached to this letter. In that opinion we discussed the question of whether or not classification problems arise where statutes affect geographic or governmental entities in different ways. We concluded in that opinion that such discrimination by the Legislature does not rise to constitutional proportions. We adhere to the sentiments expressed in that opinion.

In the second part of your query regarding the amendment, you ask whether or not it might violate the prohibition against local or special laws in Article III, Section 18, of the Constitution of the State of Nebraska. That section generally prohibits the Legislature from

passing a special or local law. However, that section does not prohibit classifications based upon differences perceived by the Legislature. For instance, in Campbell v. City of Lincoln, 182 Neb. 459, 155 N.W.2d 444 (1968), the court approved an act authorizing primary class cities to annex land. It may well be that there is a valid reason to exempt school districts from the operation of the lid on such items. For instance, such expenditure might be a larger percentage of school budgets.

In any event, the classification of subdivisions for the purposes of different treatment is well recognized. A number of statutory enactments classify various subdivisions for purposes of different treatment. Cities are classified as metropolitan, primary, etc. Counties are classified according to population with certain powers granted some classes not granted others. Different types of subdivisions are granted different powers. None of these types of classifications are held to be improper or in violation of Article III, Section 18, unless the court can clearly see that the Legislature has by artificial and baseless classification attempted to evade and violate the provisions of the Constitution prohibiting local or special legislation. See, Dwyer v. Omaha-Douglas Public Building Commission, 188 Neb. 30, 195 N.W.2d 236 (1972). We do not perceive that the grant of the authority here under consideration is so baseless or arbitrary as to be in violation of Article III, Section 18.

Sincerely,

PAUL L. DOUGLAS

Opinion No. 76

April 6, 1979

Dear Senator Carsten:

You ask that we review Req. 2796, pp. 1159, et seq., Legislative Journal, 1979, which are committee amendments to LB 285 now on general file. You have asked that we review the amendments to see if there are any constitutional or technical problems with the bill. In addition, you ask us to review the bill for language which seems unclear or confusing.

We have reviewed the proposed amendments as you have requested. With respect to any constitutional problems, the amendments to LB 285 are simply an expanded version of LB 1, Eighty-fifth Legislature, First Special Session, 1977. As you are aware, we have previously issued opinions stating that the Legislature is acting within its constitutional authority when it adopts legislation imposing a limitation upon budget increases by local political subdivisions. To that extent we adhere to the views expressed in those previous opinions.

However, there is an apparent problem in section 16 on page 1162, lines 16 through 19. That section generally deals with situations in which a political subdivision may exceed the percentage limitation generally established for the bill. The particular language to which we refer authorizes the local political subdivision governing board and the Auditor of Public Accounts to approve the method of determining population increase. The provision to which we point provides:

“ . . . [P]opulation shall be determined by census or population projections approved by the governing body of the political subdivision and the Auditor of Public Accounts. . . . ”

No guidelines are established by that language upon which the local governing body or the Auditor of Public Accounts should act. There are a variety of population projections, a variety of census data, and any number of statistical approaches that may be utilized in projecting or determining the current population of a political subdivision. While we do not believe that the language utilized is clearly unconstitutional, it would seem that the better practice would be to establish some standards by which the governing body and the Auditor of Public Accounts are to make the determinations which are required under this provision. If such standards are not established in the act, we would envision the possibility of similarly situated political subdivisions adopting different standards for determining current population increases which would, of course, authorize different levels of budget increase in excess of the limitation provided by the act.

In section 18 on page 1163(2), lines 20-21, the amendments provide that an election authorized by section 18 to exceed the limitation imposed by the act may be held upon resolution of the governing board. The election to exceed the limitation is required to be held prior to August 1 preceding the year in which the taxes will be levied to fund such budget. Section 77-1601, R.R.S. 1943, in part provides that:

“ . . . [T]he county board of equalization shall each year, on or before September 1, levy the necessary taxes for the current year. . . . ”

As we read the language of section 18 the election to exceed the budget limitation would have to be held before August 1 of the calendar year preceding the date of levy. In addition, a variety of definitions are provided within the act with respect to the meaning of particular phrases. Section 5 defines current fiscal year, section 6, prior fiscal years, section 7, ensuing fiscal year. Nowhere is "the prior year" defined. Since that is the case, it must be given its normal meaning; that is, going before in time, order or arrangement. For instance, under this provision, should a political subdivision wish to hold an election to exceed its budget for the fiscal year 1980-81, the election to exceed that budget would be required to be held during the calendar year 1979 prior to August 1. The problem in the language here arises because of the fact that taxes are levied in September of each calendar year and become due and payable on January 1 of the following calendar year and fund both the current fiscal year and the ensuing fiscal year budgets. Thus, as a practical matter, it would appear that this section is inoperative as a method for exceeding the fiscal year budget limit established by the act.

While we do not purport to have exhaustively reviewed every possible problem with the language contained in the proposed amendments to LB 285, it is our opinion that in all other respects it is constitutionally proper and contains no glaring technical errors.

Sincerely,

PAUL L. DOUGLAS

### ATTORNEY GENERAL'S OPINIONS

Opinion No. 77  
April 6, 1979

Dear Senator Johnson:

You have asked that we respond to certain questions regarding the proposed amendments to LB 285 appearing in the Legislative Journal, pp. 1159, et seq., Eighty-sixth Legislature, First Session, 1979.

In your first question you in part ask: If two school districts merge and form a new district, would the combined receipts for the fiscal year following merger be the budget base? We believe a negative answer to your question is required. The specific issue which you address within question 1 is not addressed in the amendments contained in the Legislative Journal, pp. 1159, et seq. The creation of a new subdivision of government with taxing authority is not

considered. There is no base budget defined for the creation of a new entity.

The second part of your question is whether or not, under the authority granted to the State Auditor, rules and regulations could be adopted to take care of this situation. Generally, where statutes require the adoption of rules and regulations by executive officers specific guidelines must be set by the Legislature. No such standards are set out in the amendment. We suggest you consult our opinion to Senator Carstens of this date for a further discussion of this point.

In your second question you ask whether a merger of a smaller into a larger district will allow the combination of the base budgets of the two districts. You point out that section 15 of the amendments on page 1641 allows a political subdivision acquiring increased taxing authority to increase the receipts during the first year above the base budget. In answer to the first part of your question, the same considerations apply as in your first question. However, under section 16 of the proposed amendments on page 1162, line 3, et seq., political subdivisions, and specifically schools, are allowed to increase their budget by an amount equal to the increase in student population occurring in any one year. It would seem probable that if a merger occurs of a small school district into a larger school district, there will be an increase in student population. That would allow some flexibility in the increase allowed under the limitation imposed by the proposed amendments. We do not know whether or not that increase would be of the same magnitude as a simple combination of the budget bases of the two school districts. In any event, the question is simply not addressed in this amendment, or any other statutory scheme that we are aware of.

In the second part of this question you refer to subsection 15 which in part provides:

“Any political subdivision that is authorized by state law to levy a tax or cause a tax to be levied, which tax or portion thereof is in addition to the tax such political subdivision is authorized to levy or cause to be levied on the effective date of this act, shall not include as a receipt from local tax sources the anticipated receipts from such newly authorized levy during the first fiscal year for which such newly authorized levy generates tax receipts, . . .”

However, the consolidation of school districts or the merger of school districts or the creation of new school districts does not increase the authority of the school district as a political subdivision to levy tax. Specifically, school districts have an established limitation or lack thereof under state law. The exact district boundaries and the alteration of those boundaries does not change that preexisting

authority. The authority preexisting, therefore, would apply. Generally the aggregate school tax levied for general school purposes for Class III, IV, and V school districts are without restriction. See sections 79-432 and 79-1007.01, R.R.S. 1943. Class I and II districts have a 12 mill limit. See section 79-432, R.R.S. 1943. Class VI school districts provide high school education in special circumstances and are limited in their expenses. While a Class I or II district merging with a III, IV or V district would then be able to exceed their mill limit, they as an entity have ceased to exist. The change would alter the tax base—not the authority to levy of the larger district. The remaining district always had the ability to levy a higher tax.

Thus, in our view, section 15 would be inapplicable. We do not read that portion of section 15 which says “. . . which tax . . . is in addition to the tax such political subdivision is authorized to levy . . . on the effective date of this act” to mean that a political subdivision such as a school which has changed its character is in a new situation with respect to the application of the limitation provided in the act. Rather, we believe that the section must be read to comprehend action by the Legislature to increase the authorized tax levy of the particular type of subdivision rather than as a situation in which a permutation of preexisting subdivisions into a new or different subdivision occurs.

In your third question you ask whether a merger of a Class I district into a higher district which provides high school education for Class I students would authorize the larger district to recoup the tuition money previously paid. We find no provision in the bill which would authorize such recoupment. We believe the analysis applicable to your previous questions is also applicable to this question.

In your fourth question you ask about the creation of a new political subdivision. The creation of a new political subdivision is simply not contemplated by the amendments proposed to LB 285. We believe that the creation of a new political subdivision would require specific authorization by the Legislature as to the budget requirement for the first year of operation. While a court faced with such problems might imply authority to tax unrestricted the first year, the Legislature should make clear such authority either in the limitation legislation or the legislation creating the new entity.

Opinion No. 78  
April 9, 1979

Dear Senator DeCamp:

You have submitted to us proposed amendments to LB 103, and have asked our opinion as to their validity. We are confident that, in their present form, these amendments would not pass constitutional muster.

The amendments would provide for a tax on railroad carriers transporting coal in interstate commerce through this state in the amount of one cent per ton of coal transported. Fifty percent of the proceeds of the tax would be distributed to the various counties, cities, and villages in the proportion that the total miles of track in such counties, cities, and villages bears to the total amount of track in the state. The balance of the tax would be distributed to the various counties, cities, and villages on a population basis.

Until recently, we would have said that this was a tax on interstate commerce, and was forbidden by the commerce clause of the Federal Constitution, as interpreted in Spector Motor Service v. O'Connor, 340 U.S. 602, 95 L.Ed.573, 71 S.Ct. 508 (1951). However, the Supreme Court overruled Spector in Complete Auto Transit, Inc. v. Brady, 430 U.S. 274, 51 L.Ed.2d 326, 97 S.Ct. 1076 (1977). It now appears that some state taxation of interstate commerce is permissible. The Court further discussed the question in Washington Revenue Department v. Stevedoring Assn., 435 U.S. 734, 55 L.Ed.2d 682, 98 S.Ct. \_\_\_\_ (1978). In that case the court permitted state taxation of stevedoring, in spite of its being a vital part of interstate commerce. We cannot therefore say that a tax on the transportation of goods across the state is automatically forbidden.

However, all of the cases emphasize that the tax cannot discriminate against interstate commerce. The tax we are examining applies only to carriers transporting coal in interstate commerce. This is clearly discriminatory, so we need not decide the very complex question of whether a nondiscriminatory tax could be upheld.

Even if the bill were amended to make it nondiscriminatory against interstate commerce, a classification problem would remain. It applies only to the railroad carriers of coal. The first section of the bill recites that the energy crisis has increased the demand for coal, and hence the rail traffic hauling it, with several undesirable side effects. However, we are unable to perceive that the hauling of coal creates any problem unique to that commodity. Mentioned in section 1 are hazards of increased derailments and car-train accidents and inconvenience to citizens and loss of time and gasoline while waiting at railroad

crossings. None of these problems are different with respect to coal than with respect to other freight.

As a matter of fact, because of its compactness and weight, a case could probably be made that a train carrying a given weight of coal would require fewer cars, and hence, cause less inconvenience to the public, than a train hauling the same number of tons of most other freight.

Article III, Section 18, of the Nebraska Constitution requires classifications to rest upon real differences in situation or circumstances which naturally suggest the justice and expediency of diverse treatment of members of the classes created. We are unable to see such differences here, and believe the bill would be held discriminatory in singling out coal carriers for this tax.

Very truly yours,

Opinion No. 79  
April 6, 1979

Dear Senator Chambers:

You have requested the opinion of this office concerning LR 30 which rejects the proposed amendment to the United States Constitution granting certain representation to the District of Columbia. Specifically you have inquired: ". . . should LR 30 receive enough affirmative votes to be 'passed' by the Legislature, will it have any legal effect in terms of foreclosing future consideration of ratification by the Nebraska Legislature?"

The question you pose has been considered by several courts in the context of the "Child Labor Amendment" proposed by Congress in 1924. In 1925, the Legislature of Kentucky adopted a resolution rejecting this proposed amendment. In 1937, the Kentucky Legislature adopted a resolution ratifying the amendment. In Chandler v. Wise, 270 Ky. 1, 108 S.W.2d 1024 (1937), the Kentucky Supreme Court determined that the first action taken by the legislature of a state is conclusive and exhausts the power of future legislatures to act upon that amendment.

However, in Coleman v. Miller, 146 Kan. 390, 71 P2d 518 (1937), the Kansas Supreme Court reached the opposite conclusion. In 1925 the Legislature of Kansas adopted a resolution rejecting the proposed amendment. Then in 1937 a resolution ratifying the amendment was adopted by the Kansas Legislature. The Kansas Supreme Court reasoned that Article V of the Constitution of the United States gives the legislature only the power to ratify a proposed amendment. Since a rejection has no constitutional effect, the Kansas Supreme Court concluded that a legislature may ratify a proposed amendment regardless of prior acts of rejection. This rationale appears to be supported by most commentators.

The United States Supreme Court granted certiorari in both of the above cases. The case of Chandler v. Wise, 307 U.S. 474 (1938), was dismissed as moot, for the reason that the Governor of Kentucky had already forwarded a certification of ratification to the Secretary of State of the United States.

In Coleman v. Miller, 307 U.S. 435 (1938), the opinion of the Court affirmed the result of the decision by the Kansas Supreme Court, but it employed a different rationale. The opinion of the court discusses historical instances in which Congress adopted resolutions to the effect that certain amendments had been duly ratified and included in the list of ratifying states those which had rejected the amendment prior to ratification. The Court concluded:

“We think that in accordance with this historic precedent the question of the efficacy of ratifications by state legislatures, in the light of previous rejection or attempted withdrawal, should be regarded as a political question pertaining to the political departments, with the ultimate authority in the Congress in the exercise of its control over the promulgation of the adoption of the amendment.” Id. at 450.

Although some commentators question the continued validity of the Court's holding in Coleman, the Supreme Court has not yet confronted the issue again. Thus the resolution of your inquiry still appears to lie with Congress. In the past Congress has apparently concluded that the adoption by a state legislature of a resolution rejecting a proposed amendment does not affect the legislature's power to subsequently ratify a proposed amendment. While in our opinion this result rests on sound constitutional interpretation, assuming Coleman, supra, remains valid law, there can be no guarantee that Congress would resolve the question in the same manner in the future.

Legislative Chamber, Lincoln, Nebraska  
Tuesday, April 10, 1979

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Luedtke presiding.

**PRAYER**

The prayer was offered by the Chaplain.

Father in Heaven, when we ponder the problems of Nebraska, the country, and the world, we get the feeling sometimes that we ought to quit and go sit under a tree.

The road seems endless, the hills insurmountable and the streams uncrossable.

It seems that no one really cares but a few of us; and we don't really trust most of them.

But somehow we go on. And when we consider that every generation in the memory of man has felt the same way, we get some consolation. Then we consider why we stayed - which is to do Your will and to serve Your people - the struggle makes sense.

Then we remember that You have promised us to be with us to guide and guard us; that your Son's victory over death is the basis for our hope; that we live not for ourselves, but for You; all our troubles come into perspective and our day makes sense. Amen.

**ROLL CALL**

The roll was called and all members were present except Messrs. DeCamp and Vickers who were excused; and Messrs. Fowler, Goodrich, Kremer, Lewis, and Venditte who were excused until they arrive.

**LEGISLATIVE JOURNAL**

**EIGHTY-SIXTH LEGISLATURE  
FIRST SESSION**

**SIXTY-FIFTH DAY**

Legislative Chamber, Lincoln, Nebraska  
Wednesday, April 11, 1979

Pursuant to adjournment, the Legislature met at 9:00 a.m., Speaker Marvel presiding.

**PRAYER**

The prayer was offered by the Chaplain.

Hurried affairs of the day with all the demands and pressures that come upon us we forget Thee, and in our forgetfulness we are successful in denying Thy will.

Watch over us then, we pray, especially in these sessions of our legislative session. Guide us through each day as pressures increase, as obligations multiply, as voices conflict with voices, urging us to do this or that, and grant that somehow inside each of our lives there shall be a central place of calm and quietness where we can turn and listen to a voice which is like a sound of gentle stillness a still, small voice that guides and directs our lives, infallibly.

Help us to do Thy will in this house and in this Legislature through this and every year, we ask in Jesus' name. Amen.

**ROLL CALL**

The roll was called and all members were present except Messrs. DeCamp and Vickers who were excused; and Messrs. Hoagland, Johnson, Lewis, and Venditte who were excused until they arrive.

7 time after attaining the age of sixty. An employee may  
8 retire as a result of disability at any age. An employee  
9 may be required to retire under rules adopted by the

11 except that such rules shall not require retirement  
12 before the end of the month in which an employee's  
13 ~~sixty-fifth~~ seventieth birthday occurs, which rules shall  
14 require retirement no later than the end of the month in  
15 which an employee's seventy-second birthday occurs, and

10 payment of this amount, the board shall forthwith pay to  
11 the system a like amount whereupon the member shall be

Legislative Chamber, Lincoln, Nebraska  
Thursday, April 12, 1979

Pursuant to adjournment, the Legislature met at 8:30 a.m., President Luedtke presiding.

**PRAYER**

The prayer was offered by Rev. Wallace E. Easter, Associate Pastor, Westminster Presbyterian Church, Lincoln, Nebraska.

God our Father, history and experience have given us so many evidences of Your guidance to nations and to individuals that we wonder at our ability to doubt Your power and Your willingness to guide us. Give us the faith to believe that whenever You want us to do or not to do any particular thing, You always find a way of letting us know it.

We thank You for the special meaning of this day to so many of us. Help us each one to see it - regardless of our religious training - as a sign of Your presence with us and Your desire to work in and through us.

May we not make it more difficult for You to guide us, but may we be willing to be led of You, that Your will may be done in us and through us for the good of Nebraska, and of America, and of all mankind. All praise be Yours, O God. Amen.

#### RESOLUTION

##### LEGISLATIVE RESOLUTION 53.

Introduced by Cullan, 49th District; Schmit, 23rd District; Kremer, 34th District.

WHEREAS, a critical economic problem is facing the grain farmers of Nebraska due to the shortage of railroad grain cars and locomotives; and

WHEREAS, farmers are continuously forced to absorb the penalty of late delivery of grain because of such shortages; and

WHEREAS, it is apparent the export elevators at shipping ports that are served only by rail are short of grain and are operating only eight hours daily while those elevators served by barges are loading ships 24 hours a day, seven days a week; and

WHEREAS, exporters have to cancel sales or buy back grain sold because they cannot deliver it to their export points, while inland elevators are paying penalties as high as \$600 a week for late delivery in addition to interest on loans on grain purchased from farmers which they cannot deliver to their foreign customers; and

WHEREAS, there are reports that there are between 400-500 locomotives scheduled to be exported to foreign countries in the next 12 months while domestic railroads are facing long delays in getting ordered locomotives delivered.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That President Carter be respectfully requested to order an embargo on the export of locomotives and railroad switch engines until all outstanding orders for locomotives from domestic railroads are filled.

2. That President Carter also be respectfully requested to persuade the Interstate Commerce Commission to order Eastern railroads to return hopper cars, fertilizer cars and box cars to the Midwestern railroads who desperately need the equipment to move grain from country elevators and fertilizer to rural areas as the spring planting season is upon us.

3. That the Clerk of the Legislature be directed to send copies of this resolution to the President of the United States and to each member of the Nebraska Congressional delegation.

Laid over.

Teach us, O God, that only Your "Well done", will bring us peace and lasting happiness.

May we work for that this day, rather than the approval of men, which lasts only a little while. Bless our lives, and work in us that our lives may bless the lives of others. Amen.

## ATTORNEY GENERAL'S OPINIONS

Opinion No. 80April 12, 1979

Dear Senator Hoagland:

You have asked that we review amendments that may be offered to LB 558, Section 19, Eighty-sixth Legislature, First Session, 1979. You have provided us with two alternative amendments. The only difference in the wording of the two amendments is in the amount of money to be appropriated. For purposes of this review, we will treat them as though one proposal existed. The language you propose is as follows:

“The Game and Parks Commission is hereby authorized to continue aid to political subdivisions. There is hereby appropriated \$550,000 from the State Building Fund and any federal funds for the fiscal year ending June 30, 1980. The Game and Parks Commission is hereby authorized to provide aid to political subdivisions. There is hereby appropriated \$350,000 from the State Building Fund and any federal funds and private donations available for the fiscal year ending June 30, 1980. There is hereby appropriated \$350,000 from the State Building Fund and any available federal funds and private donations available for the fiscal year ending June 30, 1981.”

As an initial matter, clear authority exists in the Game and Parks Commission under sections 37-427, 37-428, and 81-815.53, R.R.S. 1943, to administer, maintain, operate, and replace land and water areas for recreation or fish and wildlife purposes or for both of such purposes in cooperation with the federal government.

The appropriation proposed by the two amendments appears to fall within the authority granted to the agency.

Additionally, it would appear that all requirements of law relating to the appropriation of money will be met by LB 558 and the amendment under review here. We find no technical defect with respect to the proposed provision under these guidelines. Therefore, the sole remaining question to be analyzed is whether or not any provision of the Constitution is violated by such an appropriation.

Our review indicates that the only possible area in which a constitutional violation might arise is under Article III, Section 18. That provision of the Constitution prohibits local and special legislation. The prescription of this provision of the Constitution runs to whether or not legislation acts alike on all areas which it purports to

affect. Generally, the Game and Parks Commission is authorized broad areas of discretion in determining what projects shall be funded through the money available from legislative appropriations, federal grants, and other revenue sources. No limitation is expressed within the appropriation we are considering, with respect to that discretionary authority in the Game and Parks Commission. Generally, the Legislature is not limited by this section on the subject involved. That is, the Legislature may legislate upon the subjects prescribed under this section, but it is the manner of the exercise of this power which is limited. See, Smiley v. MacDonald, 42 Neb. 5, 60 N.W.2d 355.

Where the manner selected by the Legislature is to establish a law that is general in its terms, then that power is vested in the Legislature under our Constitution. Here it is clear that the Legislature may act upon the specific subject under consideration. The question is whether or not the method selected violates any such provision. Under Bauer v. State Game, Forestation and Parks Commission, 138 Neb. 436, 293 N.W.2d 282, a law that operates uniformly and equally on all brought within its provisions is not a local or special law in a constitutional sense. Therefore, the proposed amendment is valid under Article III, Section 18 of the Constitution.

Sincerely yours,

Opinion No. 81  
April 10, 1979

Dear Senator Newell:

You have called to our attention Legislative Bill 484 and raised certain questions about its constitutionality. Legislative Bill 484 originally repealed the entirety of section 23-1736, R.R.S. 1943. However, after a number of amendments the measure now amends that section and if we have followed the various amendments correctly that section, if amended as proposed, would read:

“(1) No person serving in the classified service under sections 23-1721 to 23-1737 shall actively participate in any campaign conducted by any candidate for public office while on duty;

while in uniform; or if such person identifies himself or herself as a member of the sheriff's department except that a person who is a candidate for public office may identify himself or herself as a member of the sheriff's department.

"(2) No deputy sheriff shall participate by contributing funds, personal services, or otherwise, in any campaign conducted by any candidate for sheriff in the county in which the deputy is employed, unless such deputy sheriff is a candidate for sheriff."

Your first question concerns whether or not the Legislature may constitutionally create a class of persons, i.e., deputy sheriffs who may not participate fully in the political processes while at the same time impose no such restriction upon members of the general public or other law enforcement officers.

We are aware of no decision from a court in this jurisdiction addressing this subject specifically. Generally speaking with few exceptions, courts have consistently upheld the authority of a state or the federal government to limit the political activity of public employees. See for example, United States Public Workers of America v. Mitchell, 330 U.S. 75; Oklahoma v. United States Civil Service Commission, 330 U.S. 127; National Association of Letter Carriers, AFL-CIO v. United States Civil Service Commission, 413 U.S. 548; and, Broadrick v. Oklahoma, 413 U.S. 601.

The Supreme Court of Nebraska did consider a challenge to section 53-194.01, R.R.S. 1943, which prohibited law enforcement officers from having an interest in establishments or businesses possessing liquor licenses. The court there held that it was constitutional for the Legislature to prohibit law enforcement officers from having a beneficial interest in such an establishment rationalizing that law enforcement officers had a duty and obligation to enforce all laws including liquor laws and that the Legislature's attempt there to eliminate any possible conflict of interest was not so discriminatory so as to be violative of the Equal Protection Clause of the Fourteenth Amendment to the United States Constitution. Fraternal Order of Police v. Nebraska Liquor Control Commission, 199 Neb. 712, 261 N.S.2d 106 (1978).

More directly on point the City of Cleveland had an ordinance essentially the same as section 23-1736, R.R.S. 1943, prior to the proposed amendment and the federal court in McNea v. Carey, 434 F.Supp. 95, after recognizing the City of Cleveland's interest in restricting political conduct of its police officers and recognizing the necessity of maintaining the practice and appearance of impartial law enforcement found such a restriction to be constitutional. It does not appear that there was an issue in that case concerning whether or not some kinds of police officers could be restricted while others were not.

It is difficult to say with certainty how the Nebraska Supreme Court would rule in this case but we can say that such a prohibition would be more easily defended against a constitutional attack if it applied to all law enforcement officers rather than to just deputy sheriffs. This would be true of course unless there is some rational basis for distinguishing deputy sheriffs from all other law enforcement officers. With respect to legislative classification generally, the Supreme Court of Nebraska has ruled that such classifications must rest upon real differences of situation and circumstances and must effect the purpose for which their enactment was deemed appropriate. United States Cold Storage Corporation v. Stolinski, 168 Neb. 513, 96 N.W.2d 408 (1959).

Our court is also consistently been of the opinion that the Legislature may classify but to validly do so, such classifications must rest upon public policy or some substantial difference of situation such as would naturally suggest such diverse treatment of otherwise similar groups. Althaus v. State, 94 Neb. 780, 144 N.W. 799 (1913).

Finally our court has held that the Legislature may legislate classes of persons but they cannot take what may be termed a natural class of persons split that class in two and then arbitrarily enact different rules for the government of each. United Community Services v. The Omaha National Bank, 162 Neb. 786, 77 N.W.2d 576 (1956).

With regard to your question concerning the validity of such a classification therefor, we are of the opinion that the Legislature most certainly can treat those persons charged with the responsibility of enforcing the laws differently than ordinary citizens where general rights to participate in the electoral process and, specifically, to campaign are concerned. We are not prepared to say without reservation however that our Supreme Court would find valid a distinction which would treat deputy sheriffs differently from all other types of law enforcement officers.

You also ask whether or not the provisions of this bill would infringe upon a deputy's freedom to associate and to contribute to campaigns of their choice. There is no question that the language as proposed would infringe upon deputy sheriffs' ability to do those things. It is not so clear that deputy sheriffs have an absolute or fundamental right to do such however or that prohibiting such activity is unconstitutional.

Many activities and types of conduct have become associated with freedom, i.e., freedom of speech, freedom of the press, etc. Most of these freedoms are derived from the First Amendment to the United States Constitution. However as you know, none of these rights or freedoms are absolute or are without limitations. The classic example which comes to mind is a person being prohibited from yelling "fire"

in a crowded theater in spite of his First Amendment "right" to free speech.

Therefore, while we are of the opinion that the provisions of this measure would most certainly infringe upon a deputy's ability to do certain things, we are not of the opinion that limiting a law enforcement officer from so associating or so contributing is unreasonable or arbitrary or is therefore violative of any constitutionally protected right. We do however, qualify this conclusion to the extent we were apprehensive with respect to your first question that is apprehensive about this constitutionality where it is applicable only to certain categories of law enforcement officers.

If we can be of further assistance to you in your deliberation of this matter, please let us know.

Sincerely,  
PAUL L. DOUGLAS

Opinion No. 83  
April 11, 1979

Dear Senator Haberman:

In your letter of April 10, 1979, you ask whether a proposed amendment to LB 103 would be constitutional. We conclude that it would not.

LB 103 would amend sections 77-602 to 77-604, 77-606, and 77-621, R.R.S. 1943. These sections deal with the central assessment of railroad property by the State Board of Equalization and Assessment. LB 103 would make some changes in the formula for determining the value of the property to be assessed by the state board. We do not believe that it is necessary for the purposes of this opinion to analyze the changes which would be made by sections 1 to 5 of LB 103. The proposed amendment would add a sixth section which would provide:

"Notwithstanding any other provision of this act no governmental subdivision shall receive less revenue pursuant to sections 77-602 to 77-604, 77-606, and 77-621, after the effective date of this act than it did in 1978."

If we understand this proposed amendment correctly it would provide that any railroad company paying taxes pursuant to the

enumerated sections of the statute would be required to pay at least as much to every political subdivision as it did in 1978, irrespective of what the specified formulas would indicate was due from it. In other words, despite any possible lowering of budgets or mill levies, decreases in assessed valuations, or even sale of the railroad property subject to the tax, the railroad would be obligated to each political subdivision in an amount at least as great as that paid in 1978. We do not see how such a provision could survive constitutional attack.

Article VIII, Section 1, of the Nebraska Constitution requires taxes to be levied by valuation uniformly and proportionately. A requirement that a railroad pay more than the statutory formula would indicate could hardly be said to provide for uniformity of taxation. Such a provision would also appear to be in violation of the equal protection clause of the Fourteenth Amendment to the Federal Constitution, and would constitute unreasonable classification in violation of Article III, Section 18, of the Nebraska Constitution. The amount of taxes a railroad paid to a particular subdivision in 1978 could hardly constitute the basis for a classification which would permanently saddle that railroad with a minimum tax.

We are therefore of the opinion that such a provision could not be successfully defended against constitutional attack.

Very truly yours,  
PAUL L. DOUGLAS

Opinion No. 85  
April 12, 1979

Dear Senator Duis:

You have asked us for an interpretation of section 2-1213, R.S.Supp., 1978, which section was amended in 1979 by LB 867. It now provides in part:

“No racing under sections 2-1201 to 2-1218 shall be permitted on Sunday except when approved by a majority of the State Racing Commission. If the State Racing Commission permits racing on Sunday the voters may prohibit such racing in the manner prescribed in section 2-1213.01. If such approval is granted, no racing shall occur on Sunday until after 1:00 p.m. . . .”

Normally we would not be able to answer any questions calling for an interpretation of existing statutes, as it would be in violation of the policy set out in our letter to the Clerk of the Legislature dated December 28, 1972, found on page 36 of Volume I of the 1973 Legislative Journal.

However, you request our opinion in your capacity as Chairman of the Administrative Rules and Regulations Review Committee. An interpretation may be necessary for that Committee in determining whether the administration of the act is consistent with legislative intent, and whether new legislation is necessary, which are some of the matters the Committee is required to determine pursuant to section 84-901.02, R.S.Supp., 1978. We will therefore depart from our usual policy in this instance.

Your question with respect to section 2-1213 is whether the approval of Sunday racing by the Racing Commission is to be on a statewide basis, or on a case-by-case basis for each track. We conclude that it should be on a statewide basis.

The statute itself is ambiguous, and certainly could be interpreted either way. We have read the Committee hearing and the floor debates on LB 867, and have found no discussion of the matter. There is one statement in the floor debates by Senator Maxey which appears to assume that the approval would be as to individual tracks, but it is too vague to be of any real assistance. The reason we believe it should be interpreted to provide for statewide approval is that this would be somewhat less subject to constitutional attack.

The determination of whether or not there should be racing on Sunday is properly a legislative one. Under Lincoln Dairy Company v. Finigan, 170 Neb. 777, 104 N.W.2d 227 (1960), when the power to make such determinations is granted to an administrative agency, the power must be limited to the expressed legislative purpose and administered in accordance with standards prescribed in the legislative act.

You will note the absence of any such standards in the provisions of section 2-1213 relating to Sunday racing. This raises some question as to the validity of these provisions, under any interpretation.

However, an interpretation that would permit the Racing Commission to approve Sunday racing at some tracks, while denying it at others, with absolutely no statutory guidelines, would be quite clearly invalid. It would permit purely arbitrary decisions on the part of the Commission. A court would, we believe, be more likely to permit the Commission to make the general decision to permit or not permit Sunday racing throughout the state than it would to let the Commission create, without any legislative standards, classes of licensees, some of which could race on Sunday, and some of which could not.

We therefore adopt the interpretation most likely to be upheld, without, of course, any assurance that it will be.

Very truly yours,

Opinion No. 86  
April 13, 1979

Dear Senator Simon:

You have asked our opinion as to the constitutional validity of a proposed amendment to LB 175. LB 175, as now amended, would submit to the voters a proposed amendment to Article VIII, section 2 of the Nebraska Constitution. This amendment would add this language to that section:

“The Legislature, by general law and upon any terms, conditions, and restrictions as prescribed, may provide, for a period not to exceed five years, relief from taxation of the increase in the assessed valuation of existing structures due to improvements to such structures.”

You have asked us no questions concerning the validity of the above-quoted language, so we express no opinion on the subject. You state, however, that you propose to introduce an amendment which would make the exemption available as a local option. It is as to such amendment that you solicit our opinion.

Since, if adopted by the voters, this will become a part of the Nebraska Constitution, we are unable to say that it would be in violation of that Constitution. A similar situation was involved in State v. Chicago, B. & Q. R. Company, 195 Mo. 228, 93 S.W. 784 (1906), in which a constitutional amendment attempted to exempt certain cities from a particular tax. The court said that it could not declare it to be in violation of the state Constitution, since the provision in question was just as much a part of the Constitution as the provision requiring uniformity of taxation. The court held, however, that the amendment violated the Fourteenth Amendment to the Federal Constitution by denying all persons in the state the equal protection of the laws.

We believe that a state constitutional amendment must comport with the federal Constitution just as a statute would. In Hillsborough Township v. Cromwell, 326 U.S. 620, 90 L.Ed. 358, 66 S. Ct. 445 (1945), the court said:

“The equal protection clause of the Fourteenth Amendment protects the individual from state action which selects him out for discriminatory treatment by subjecting him to taxes not imposed on others of the same class. The right is the right to equal treatment. . . .”

You have not, of course, given us the exact text of your proposed local option amendment, so we don't know exactly what it would say. It could make it a county-wide option or perhaps, a city-wide one. If it is a county-wide option, we do not see how it could escape providing unequal treatment of taxpayers in taxing districts lying in two or more counties. For example, suppose a school district lies in two counties, one of which has elected to allow the exemption, and the other of which has not. A property owner in that part of the district lying in the first county, who had made improvements on his building would have an exemption of the value of such improvements. A property owner in the adjoining county, in identical circumstances, would not. The second taxpayer would be paying more for the support of the school than the first. We believe this would be in clear violation of the equal protection clause.

Similar problems will occur if the local option is on a city-wide basis. City dwellers are subjected to county levies as well as those of other taxing districts covering a wider area than the city. If the exemption is allowed in the areas of the district outside the city, but not in the city, or vice versa, unequal treatment is inevitable. We therefore believe the proposed local option amendment would be difficult to sustain against constitutional attack.

Very truly yours,  
PAUL L. DOUGLAS

April 12, 1979

Re: LB 164

Dear Senator Koch:

In reply to your inquiry concerning the constitutionality of the provisions of LB 164, this is to advise that we have recently examined the bill, as amended through March 26, and concluded that there were no apparent violations of any provisions of the Constitution.

With regard to your concern of the effect the bill, as amended, might have on the use of individual property, consideration must be given to the following rule stated by the Supreme Court in Kuester v. State, 191 Neb. 680, 217 N.W.2d 180:

“The right of an owner to use his property is subject to reasonable regulations, restrictions, and control by the State in the legislative exercise of the police power of the State.”

With regard to your concern of the effect the bill, as amended, might have on existing contracts for the use of property for the conduct of bingo, consideration must be given to the following rules stated by our Supreme Court in Placek v. Edstrom, 151 Neb. 225, 37 N.W.2d 203:

“Private rights must yield to the public welfare, and one whose rights are appropriately declared and defined by a valid legislative enactment under the police power of the state cannot, by purported contractual authority or otherwise, avoid observance thereof or make such legislation ineffectual.”

Per your request we have reexamined the provisions of LB 164 as amended through the E & R amendments of April 3, and considering the above rules stated by our Supreme Court we again conclude that the bill, as amended, would withstand a challenge on constitutional grounds.

Very truly yours,

## RESOLUTIONS

### LEGISLATIVE RESOLUTION 56.

Introduced by DeCamp, 40th District.

WHEREAS, legislative oversight is a necessary and proper function of the legislative body to (a) determine adequacy of existing laws; (b) necessity of new legislation; (c) determination of other problems and solutions thereto if laws are adequate but enforcement is not able to be obtained using other branches of government; and

WHEREAS, the property tax system in Nebraska is an area in which the following determinations should be made because there is a strong belief that the tax system as it is being enforced or not enforced now is functioning in an unfair and in an arbitrary and capricious manner; and

WHEREAS, legislative enactments such as LB 131 have been put into abeyance by actions of the very officials delegated to enforce the sanctions of LB 131 and other elements of the comprehensive Nebraska tax program of which LB 131 was and is an integral part; and

WHEREAS, many county assessors and other county officials are publishing information in the media and in official tax statements which falsely allege various things including the effects of LB 131 and related tax laws in an apparent attempt to shift blame for their failure to follow existing tax laws and the problems emanating from that failure upon the Legislature; and

WHEREAS, resolution of the multitudes of problems of enforcement and possibly alteration of the entire Nebraska tax system cannot and will not be adequately dealt with during this regular session of the Legislature but also cannot be responsibly delayed until the 1980 regular session; and

WHEREAS, litigation in the Nebraska Supreme Court for which an opinion has not yet been rendered by the Court, specifically DeCamp vs. Board of Equalization, which will probably have a major impact upon any actions the Legislature will take or may be compelled to take in dealing with both enforcement of existing tax laws and/or development of any new tax legislation.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION THAT THIS LEGISLATURE:

- (1) Reaffirms LB 131 and solicits enforcement from proper public officials and failing this seeks whatever higher legal remedies are necessary to force compliance;
- (2) Makes publicly known its intent to have a special session of the Legislature to commence and deal with the following subjects;
  - (a) Compelling enforcement of the tax laws of this state through whatever means are necessary;
  - (b) Enacting any tax or tax related legislation deemed necessary to insure an effective and fair tax system;
  - (c) Said session to commence on October 15, 1979.
- (3) shall obtain adequate legal and tax counsel so as to have a detailed understanding and ability to deal with tax laws independent of other branches of government;
- (4) Directs the Committee Chairpeople functioning through the special legislative oversight committee to meet in an interim study following the adjournment of this session of the legislature for the purpose of preparing for the special session;
- (5) Directs that the interim study specifically involve as active participants for the purpose of providing counseling, information,

their needs and suggested legislation such delegates as the Governor may request;

(6) That any legislative member be allowed to sit in on the study;

(7) That the scheduling and programming of the special session and its subject matter is endorsed at this time for the specific purpose of providing a systematic, comprehensive and predictable approach on a known timetable to resolution of this state's tax problems.

Laid over.

WHEREAS, the cost of the average hospital stay in 1965 was \$311 while in 1975 it increased to \$1,017 in the United States (according to the National Council on Wage and Price Stability); and

WHEREAS, 40.6% of all Nebraska beds are empty on any given day; and

WHEREAS, the average semiprivate hospital room rate in Nebraska is higher than in Missouri, South Dakota, Kansas or Wyoming; and

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That rapidly rising health care costs to Nebraskans contribute to the inflationary cycle.

2. That Nebraska counties are required by State law to provide funds for health care of the indigent before making other allocations, the rapid increases in health care costs mean that counties have had to cut back funds for other projects to pay health care costs.

3. That the Unicameral, recognizing the problems that rapidly rising health care costs bring to the State, the counties, and the people of Nebraska, resolve to endorse legislation which will help to contain these rapidly rising health care costs.

**EIGHTY-SIXTH LEGISLATURE  
FIRST SESSION**

**SIXTY-EIGHTH DAY**

Legislative Chamber, Lincoln, Nebraska  
Wednesday, April 18, 1979

Pursuant to adjournment, the Legislature met at 9:03 a.m., President Luedtke presiding.

**PRAYER**

The prayer was offered by Rev. James M. Cunningham, Florence Christian Church, Omaha, Nebraska.

Our Heavenly Father, we thank you for the opportunities of responsibilities! We approach you for guidance in this task with the spirit of humility. As our Creator and Sustainer, we acknowledge our dependence upon you as God, and our need for understanding and wisdom to apply that understanding.

We thank you for our great State! We thank you for those who have committed themselves to form her laws, and thereby lead us as citizens in the continued good life. Give to them alert spirits, discerning judgments, concerned hearts and willing co-operation. May the results of thy blessings enrich not only those of our own state, but be a penetrating shaft of light for the darkness of our entire nation - - even our entire world.

We look beyond ourselves to you, beyond ourselves to all people. We are grateful that you have given us a perfect example of concern for all people in all walks of life, by letting your Son walk among the peoples of the world and minister to them. Open our eyes to see peoples needs; our ears to hear always their needs, and our lives to act upon them for their behalf. Grant us courage to act in consistency and impartiality in our convictions.

Bless our national leaders this day, especially our President. Lead America to increased justice and righteousness.

Be thou, O Lord, our ever-present guide, and our ever-present strength. We ask that when we fall, you would lift

us up; when we are hurting, you give us your healing; when we search, you would lead us; when we call that you would hear us and answer—Even now.

We pray in petition and gratitude through Jesus Christ your Son. Amen.

#### **LEGISLATIVE RESOLUTION 59.**

Introduced by DeCamp, 40th District.

WHEREAS, the Nebraska Legislature has previously considered legislation which would extend a limited power of eminent domain to coal slurry pipelines; and

WHEREAS, the issues to be addressed regarding coal slurry pipeline legislation are numerous and often complex; and

WHEREAS, the full resolution of such issues demands comprehensive study and examination:

(c) A determination as to whether the State of Nebraska can devise an effective system of control over a coal slurry pipeline transportation system if economic or natural resources of the state are adversely affected;

(d) A determination of the short term and long term impacts of the construction and operation of one or more coal slurry pipelines upon the overall Nebraska economy and in particular, any impacts upon this state's agricultural, energy and tax sectors.

## RESOLUTION

### LEGISLATIVE RESOLUTION 60.

Introduced by Maresh, 32nd District; George, 16th District; Carsten, 2nd District; Schmit, 23rd District.

WHEREAS, a significant portion of Nebraska's economy is based on agriculture and agricultural industry; and

WHEREAS, a major problem currently faced by the agricultural industry is the difficulty and cost of transporting grain to market; and

WHEREAS, delays in transporting grain to market which formerly occurred during the harvest season, are now a year around problem and result in an overall loss of revenue to Nebraska farmers and to the State of Nebraska; and

WHEREAS, the establishment of additional grain terminals on the Missouri River and the possible increase in the use of grain barges in transporting grain to market has generated interest by the Department of Agriculture, Nebraska farmers and grain companies as a profitable alternative to the shipping of grain by rail; and

WHEREAS, the greater utilization of barges for the transportation of grain could result in a significant conservation of energy resources.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Agricultural and Environment Committee conduct an interim study to determine the feasibility of increasing the use of barges in Nebraska for the shipment of grain; such study to include, but not be limited to:

(a) The feasibility of increasing the existing number of grain terminals;

(b) The feasibility of increasing the number of grain barges in use by the direct purchase of barges, by an increase in the number of contracted barges, and/or by an increase in two-way river traffic;

(c) The capability of the Missouri River to handle present grain barge traffic as well as any future increase in such traffic;

(d) The effects of increased barge transportation of grain upon Nebraska's traditional boxcar shortage and upon the condition of Nebraska branch rail lines; and

(e) The availability of federal funds to assist in the development of barge traffic.

### ATTORNEY GENERAL'S OPINIONS

Opinion No. 89  
 April 17, 1979

Dear Senator Kelly:

We are in receipt of your letter of April 11, 1979, in which you inform us that you intend to amend Legislative Bill 221 by adding a fourth and fifth section, the effect of which would be to require any minor convicted of being in possession of any alcoholic beverage to inform the appropriate county attorney of the name of the person who sold, gave or otherwise supplied the alcoholic beverage to the minor. Refusal to disclose such would result in the person being guilty of a Class IV misdemeanor.

You ask whether or not in our opinion the amendment would be constitutional. While we express no opinion as to such a provision's

desirability we find nothing within its contents which would render it constitutionally void.

Sincerely,  
PAUL L. DOUGLAS  
Attorney General

Opinion No. 90  
April 18, 1979

Dear Senator Kelly:

We are in receipt of your letter of April 11, 1979, in which you inform us of your intent to amend Legislative Bill 221. In another letter of that same date you also informed us of an intent to provide a different section 4 to Legislative Bill 221 and we commented on your question with regard to that amendment in a separate letter.

We do note in passing however that the amendment referred to in your second letter of April 11th would also provide a section 4 to Legislative Bill 221. We are not certain if these requests concern alternative amendments to Legislative Bill 221 but we call this fact to your attention in the event you are desirous of offering both amendments.

Specifically this amendment would alter the language of section 53-180.05, R.R.S. 1943 which is generally the punishment section concerning minors and minors in possession and would include in addition to the other punishments the provision that a court of competent jurisdiction might impose the sanction of a prohibition against operating a motor vehicle for a period of one month for a first offense, three months for a second offense, and up to one year for a third offense. You ask whether or not in our opinion such punishments would be constitutional.

While we wish to express no opinion as to the desirability of such an amendment which would create such punishments we cannot say that such punishments would violate any constitutionally protected right or be therefore constitutionally invalid.

Sincerely,  
PAUL L. DOUGLAS  
Attorney General

God our Father, by Your Spirit breathe upon this company of Senators and others associated with them, and give them Your power to do their work wisely and well. We thank you for good health, good friends, and all the things we so often take for granted. We thank You for the challenges of this hour, and for work to do that demands the best we have to offer. When we find ourselves inadequate, may we then seek Your help, for we know that in partnership with You and in asking You for guidance in our problems we will find that there are no problems beyond solution. Bless us, O God, and help us to be right and to do right, for Your sake and the sakes of those who look to us for leadership. Amen.

## RESOLUTION

### LEGISLATIVE RESOLUTION 62.

Introduced by Clark, 47th District.

WHEREAS, wilderness studies are now being conducted on over 300 million acres of public land in Alaska and the Lower 48 states by Congress, the Forest Service, Bureau of Land Management, Fish and Wildlife Service and National Park Service; and

WHEREAS, wilderness study status and wilderness designation prohibit or severely restrict grazing, timber cutting, construction of temporary and permanent roads, exploration for and production of oil, gas and other valuable minerals, water projects, permanent campsites, sanitary and other facilities, the use of vehicles and power machinery of all kinds, and access by the elderly and physically handicapped; and

WHEREAS, under current management guidelines, these multiple uses will be prohibited indefinitely, as long as the wilderness and other land management planning studies are being conducted; and

WHEREAS, these prohibitions and restrictions are causing continued impairment of farming and ranching operations, imports of fuel and nonfuel minerals known or thought to be present in many wilderness study areas, timber shortages to local mills, an absence of critically needed information on mineral resources, increased balance of payment deficits, higher inflation, unemployment and continued erosion of dollar values abroad;

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION, that the Congress of the United States be urged to act immediately to:

1. Resolve the uncertainties surrounding the future of these public lands;
2. Prohibit lawsuits and other legal and administrative delays regarding these wilderness studies;
3. Avoid overly restrictive federal requirements which can prohibit the most environmentally responsible development of valuable resource commodities;

4. Provide reasonable access across federal lands to state and private lands;

5. Provide the mechanism for future reevaluation of all federal lands as the needs of the nation and changes in technology dictate;

6. The Clerk of the Legislature is directed to send copies of this resolution to the President of the United States, the Secretary of Agriculture, the Secretary of the Interior and to each member of the Nebraska Congressional delegation.

Laid over.

**ATTORNEY GENERAL'S OPINION**

Opinion No. 91

April 17, 1979

Dear Senator Burrows:

In your letter of April 4, 1979, you requested our opinion on the question of whether LB 14 exceeds certain limitations of the Nebraska Constitution. Specifically, you noted in your letter that:

“Questions have risen in my mind as to the constitutionality of this issue, especially in view of the opinion regarding LB 369 and also opinions that have related to the use of the credit of the state.”

LB 14, a bill known as the Nebraska Dry Bean Resources Act, can be generally described as legislation establishing a commodity program to be administered by certain elected members of a commodity board. Similar legislation relating to other agricultural commodities has been adopted in the past by the Nebraska Legislature. Examples include the Nebraska Potato Development Act, section 2-1801 et seq., Neb.Rev.Stat. (Reissue 1977) and the Nebraska Wheat Resources Act, section 2-2301 et seq., Neb.Rev.Stat. (Reissue 1977). Similar to these earlier enactments, LB 14 creates an advisory commission to be known as the Nebraska Dry Bean Commission, which is empowered at section 18 of the proposed legislation to perform such duties as devising educational and publicity programs in the promotion of total consumption of dry beans, to establish informational programs and services for Nebraska dry bean growers,

and to employ personnel for the operation of necessary services under the program. At subsection 10 of section 18, the bill expressly prohibits any funds collected by the commission or the commodity program from being expended to influence legislation or to promote or oppose candidates for public office.

Funding for the program is addressed at section 20 of the bill, which provides for fees or excise taxes upon all dry beans sold in Nebraska and sold through commercial channels.

Our office has previously issued an opinion in which we addressed the question of whether a similar commodity program could be construed to encompass a public purpose. See 1975-76 Report of Attorney General, No. 46 at 51, a copy of which is enclosed herewith. As we noted in that opinion, a program designed to encourage and promote a particular aspect of Nebraska's agricultural economy would probably be construed by the courts to carry out a public purpose.

In your letter, you stated a concern that LB 14 may be classified as legislation extending the credit of the state to private individuals or associations in contravention of Article XIII, section 3 of the Nebraska Constitution. In view of our earlier opinion, and our understanding of the stated objectives of LB 14, we do not believe the legislation on its face exceeds the constitutional limitations of Article XIII, section 3 of the state constitution.

You also referenced a recent opinion of our office on LB 369, issued as Opinion No. 55 on March 13, 1979. That opinion addressed the question of whether legislation which authorizes a service fee to be paid by all employees in a bargaining unit would violate the Nebraska "right to work" provision set out at Article XV, section 13 of the Nebraska Constitution. Frankly, it is quite unclear to us how our opinion on LB 369, addressing a labor law question, relates to the provisions of LB 14. Suffice it to say that we find nothing in the provisions of LB 14 which would exceed the constitutional perimeters of the Nebraska "right to work" law.

Sincerely yours,  
PAUL L. DOUGLAS  
Attorney General  
Robert F. Bartle  
Assistant Attorney General

FIRST SESSION**

**SEVENTY-FIRST DAY**

Legislative Chamber, Lincoln, Nebraska  
Tuesday, April 24, 1979

Pursuant to adjournment, the Legislature met at 9:05 a.m., Speaker Marvel presiding.

**PRAYER**

The prayer was offered by Rev. Wallace E. Easter, Associate Pastor, Westminster Presbyterian Church, Lincoln, Nebraska.

God our Father, as we pray for the members of this Legislature, its officers, and all those who share in its labors, we would remember that Your Son was never in a hurry and never lost His inner peace even under pressure greater than we shall ever know. But we are only human. We grow tired. We feel the strain of meeting deadlines, and we grow impatient in the pressure of daily responsibility. Give us poise and peace of mind, for only You can supply the deepest needs of tired bodies, frayed nerves, and timid spirits. Give us Your peace, we pray, that this may be a good day with much good accomplished; and then we can say with Your servant of old: "I can do all things through God, who gives me strength." Amen.

### BILL ON FIRST READING

The following bill was read for the first time by title:

**LEGISLATIVE BILL 363A.** By Koch, 12th District.

A BILL FOR AN ACT to appropriate funds to aid in carrying out the provisions of Legislative Bill 363, Eighty-sixth Legislature, First Session, 1979; and to declare an emergency.

**ATTORNEY GENERAL'S OPINION**

Opinion No. 94

April 19, 1979

Dear Senator Marvel:

You have requested the opinion of this office concerning the legal effect of certain legislative proceedings which you described as follows:

“On Thursday, April 5, 1979, at the conclusion of the morning business, the Chair recognized Senator Howard Lamb for the express purpose of moving that the Legislature recess until 1:30 p.m. of the same day. Senator Lamb, upon being recognized, made a motion that the Legislature adjourn until 1:30 p.m. of that day.

“The tape of the legislative proceedings indicates that the Speaker asked Senator Lamb to move for recess. The Legislative Journal for April 5, 1979, reflects the intent of the Legislature to recess and not to adjourn over the noon hour. Upon the motion, as posed by Senator Lamb, the vote was taken and the Chair declared the Legislature to be recessed. Senator Lamb, upon reconvening of the Legislature at 1:30 p.m. on April 5, 1979, indicated his intent to recess and not to adjourn.”

Your request for an opinion poses two specific inquiries:

1. Did Senator Lamb's motion to adjourn on April 5, 1979, use up one additional legislative day?

2. Has the Legislature used the proper procedure in stating the intent to recess and not adjourn at noon on April 5, 1979?

Article III, section 10 of the Nebraska Constitution provides in part that the duration of regular sessions of the Legislature shall not exceed ninety “legislative days” in odd-numbered years. The phrase, “legislative days” is not constitutionally or judicially defined, however, Rule 7, section 1, Rules of the Nebraska Unicameral (1979), provides in part: Each day the Legislature convenes shall be considered a legislative day.” (Emphasis added.)

This definition by the Legislature of the phrase, “legislative day,” is not necessarily controlling on an issue of constitutional interpretation, however courts are hesitant to depart from settled

legislative construction. Knapp v. O'Brien, 288 Minn. 103, 179 N.W.2d 88, 95, n.1 (1970). Legislative construction of a constitutional provision is entitled to great weight. Stahmer v. State, 192 Neb. 63, 218 N.W.2d 893 (1974).

It is an accepted principle of legal construction that language employed should be interpreted in its plain, ordinary and popular sense. Pettigrew v. Home Ins. Co., 191 Neb. 312, 214 N.W.2d 920 (1974). Applying this tool of interpretation to the above-quoted definition of "legislative day," in our opinion, numerous legislative meetings separated by temporary cessations of business, may be held on one "day," i.e. one twenty-four hour period, as it is commonly understood, without constituting more than one legislative day.

Further, in our opinion, the fact that the temporary interruption of the legislative session at issue herein was initiated by a motion to adjourn rather than a motion to recess is of no legal consequence. Technically, a "recess" applies to an intermission taken by a body from time to time during a day and an "adjournment" means a suspension over a day or to some definite time in the future which may end a meeting, but not a session. Intermela v. Perkins, 205 F. 603, 611 (9th Cir. 1913). However, the meaning of the words "recess" and "adjourn" varies with the context in which the words are used. The two words have been defined as being interchangeable. Black's Law Dictionary, (4th Ed. 1968), p. 62, citing Byrd v. Byrd, 193 Miss. 249, 8 So.2d 510, 512 (1942).

In People v. Martin, 5 N.Y. 1 (Seld) 22, 26, (Cited in 36 Words and Phrases, Recess, p. 762), a town meeting adopted a resolution to adjourn to another location to continue the business of the meeting. The validity of the proceeding was contested on the ground that it was improper to continue a meeting on the same day after a motion to adjourn. In rejecting this argument, the court stated:

"It cannot be very material whether the formal suspension of or putting off of business of the town meeting for a sufficient length of time to enable the presiding officer to go to the place selected was an 'adjournment' or a 'recess' or whether it was called in the motion made and carried either the one or the other."

See also, Beate v. Roberts, 156 Ia. 720, 137 N.W. 1006, 1008 (1912).

In our opinion, the motion to temporarily suspend business until 1:30 p.m. whether it was articulated by the moving party as a motion to recess or a motion to adjourn, did not render the reconvening after the interruption an addition legislative day.

Regarding your second inquiry, we note that the Legislative Journal for April 5, 1979, the sixty-first legislative day, at p. 1329, states: "At 11:55 a.m., on a motion by Mr. Lamb, the Legislature recessed until

1:30 p.m.” The Legislative Journal for April 6, 1979, the sixty-second day, at p. 1340, states: “The Journal for the Sixty-First Day was approved.”

The journal entry of April 5, 1979, and its approval on April 6, 1979, conclusively establish that the legislative body did in fact recess from 11:55 a.m. to 1:30 p.m. on April 5. The Legislature has the inherent power to cause the record to reflect the true history of its proceedings. 81 A CJS, States, section 54(b), p. 403. In our opinion the legislative procedure in this context was not improper.

Sincerely,  
PAUL L. DOUGLAS  
Attorney General

3 mentally disordered sex offender. The entire proceeding  
4 to determine whether the defendant is a mentally  
5 disordered sex offender and treatable and each annual  
6 review as provided by this act shall be deemed a critical  
7 stage of a criminal prosecution at which the defendant  
8 shall be accorded all the rights a criminal defendant has  
9 in sentencing proceedings. The defendant may appeal the  
10 findings and sentence made pursuant to this act.

11 Sec. 3. To conduct the evaluation the court  
12 shall appoint a panel of two physicians, licensed to  
13 practice medicine and surgery who have had at least three  
14 years special training in the treatment of mental  
15 disorders or one such physician and one clinical  
16 psychologist who has had at least three years special  
17 training in treatment of mental disorders, to conduct  
18 individual psychiatric examinations of the defendant.  
19 The panel shall file with the court a written report, as  
20 to whether in their opinion the defendant is a mentally  
21 disordered sex offender, at least ten days prior to the  
22 date set for the sentencing of the defendant. Copies of  
23 the report shall be furnished to all counsel. If the  
24 defendant, or counsel for the defendant, disagree with  
25 the report of the court appointed panel, he or she may  
26 file a motion with the court requesting an additional  
27 evaluation by two other physicians, or one other  
1 physician and one other psychologist, of the defendant's  
2 choice, qualified as described in this section. Such  
3 additional evaluation shall be reduced to writing and  
4 filed with the court at least ten days prior to the date  
5 set for the sentencing of the defendant. Copies of the  
6 report shall be furnished to all counsel.

7 Sec. 4. If the court determines, based on all  
8 the evidence, that the defendant is not a mentally  
9 disordered sex offender, is a mentally disordered sex  
10 offender whose disorder is not treatable, or that

11 treatment is not available in this state, the court shall  
12 sentence the defendant as provided by law for the offense  
13 of which he or she has been convicted.

14 Sec. 5. If the court determines that: (1) The  
15 defendant is a mentally disordered sex offender; (2) the  
16 mental disorder is treatable; and (3) such treatment is  
17 available in this state, the court shall, after first  
18 sentencing the defendant as provided by law for the  
19 offense of which he or she has been convicted, remand the  
20 defendant for treatment to one of the regional centers  
21 until such time as the court determines that the  
22 defendant is no longer mentally disordered or until the  
23 defendant has received the maximum benefit of treatment,  
24 except that no sentence to treatment shall exceed the  
25 maximum length of such offender's sentence.

26 Sec. 6. (1) The regional center with custody of  
27 a mentally disordered sex offender shall, at least  
1 annually from the date of sentence, assess whether the  
2 defendant still has a mental disorder and whether the  
3 defendant has received the maximum benefit of treatment.  
4 Such assessment shall be in writing, including all data  
5 and test results, and shall be filed in the sentencing  
6 court. Copies of such assessment shall be furnished to  
7 all counsel. Defendants shall have the right of mandamus  
8 to compel compliance with this section. An assessment  
9 that is more than thirty days late shall be prima facie  
10 evidence that the director of such regional center has  
11 without just excuse refused or neglected to perform the  
12 requirements of this section.

13 (2) If after hearing upon the assessment the  
14 sentencing court shall determine that the defendant no  
15 longer has a mental disorder or that the defendant has  
16 received the maximum benefit of treatment, the court may  
17 remand the defendant to the Nebraska Penal and  
18 Correctional Complex or release the defendant on  
19 probation for the remainder of his or her sentence.  
20 Credit shall be given for the time spent in treatment.

21 Sec. 7. Ninety days prior to the final release  
22 from custody of any mentally disordered sex offender who  
23 has (1) previously been adjudged untreatable and  
24 sentenced pursuant to section 4 of this act, (2) been  
25 determined to have received the maximum benefit of  
26 treatment pursuant to section 6 of this act, or (3) been  
27 sentenced to treatment pursuant to section 5 of this act,  
1 but whose time in treatment will, within ninety days,  
2 exceed the maximum length of such offender's sentence on  
3 the underlying criminal conviction, the Board of Parole,  
4 Department of Correctional Services, regional center, or  
5 other unit of government having final release authority,  
6 shall give notice to the county attorney who prosecuted

7 the underlying criminal charge that the release of such  
 8 offender is so pending. Upon receipt of such notice from  
 9 the releasing authority, the county attorney shall cause  
 10 mental health commitment proceedings to be commenced on  
 11 behalf of such offender pursuant to the Nebraska Mental  
 12 Health Commitment Act.

13 Sec. 8. This act is retrospective. All persons  
 14 now committed under the Nebraska Sexual Sociopath Act  
 15 shall be forthwith returned to the district court which  
 16 committed them for sentencing pursuant to this act.  
 17 Psychiatric evaluations conducted within eighteen months  
 18 prior to sentencing shall be admissible in lieu of the  
 19 panel reports required by section 3 of this act. No  
 20 person now committed shall be released until the  
 21 requirements of section 7 of this act have been  
 22 fulfilled.

23 Sec. 9. If any section in this act or any part  
 24 of any section shall be declared invalid or  
 25 unconstitutional, such declaration shall not affect the  
 26 validity or constitutionality of the remaining portions  
 27 thereof.

1 Sec. 10. Since an emergency exists, this act  
 2 shall be in full force and take effect, from and after  
 3 its passage and approval, according to law.”.

As your servants here sincerely seek to do right, make it plain to them. Knowing that criticism will come, help them to take from it what is helpful, and to forgive what is unjust and unkind. In the face of all the pressures brought upon them, may they always seek to know and to do Your will. ## RESOLUTIONS

### LEGISLATIVE RESOLUTION 64.

Introduced by Johnson, 8th District; Hoagland, 6th District; Landis, 46th District.

WHEREAS, certain members of the Nebraska Legislature have sought changes in existing statutory and constitutional restrictions on full recovery by an injured person for harm done to him when at the hands of another, specifically:

(1) Repeal of the guest passenger statute;  
(2) Adoption of a comparative negligence standard as contained in LB 511; and

(3) Allowance of punitive damages in private civil actions; and  
WHEREAS, representations have been made to the legislative committees considering such changes that the proposed changes would have a measurable effect in insurance rates; and

WHEREAS, no local studies have been undertaken to determine the correctness of such representations; and

WHEREAS, the Legislature needs to know the effect, if any, each such change could have on insurance rates to Nebraskans; and

WHEREAS, the Legislature's Banking, Commerce and Insurance Committee and the state's Department of Insurance would best be able to gather evidence, statistics, and facts to determine whether any of such changes would have a measurable effect on insurance rates and to qualify those effects, if any.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Nebraska Department of Insurance, in cooperation with the Banking, Commerce and Insurance Committee of the Legislature undertake an interim study to determine the effect, if any, upon liability insurance rates resulting from:

(b) Adoption of a comparative negligence standard as contained in LB 511; and

(c) Allowance for punitive damages in private civil suits.

2. That, each such change be separately studied.

3. That, the Department of Insurance and the Banking, Commerce and Insurance Committee draw upon any private and/or public source for information and assistance in completing the study as they, in their discretion, deem fit.

WHEREAS, such sales could effectively preclude any recovery for insured loss due to unnecessary and expensive overlapping coverages; and

WHEREAS, the insurance industry has developed a model act to deal with supplemental insurance policy sales in recognition of a need for legislative action among the various states; and

WHEREAS, the Legislature should review the subject area of Medicare supplemental insurance sales to senior citizens of Nebraska to determine the need for additional consumer protection legislation in this segment of the insurance market.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Legislature's Banking, Commerce and Insurance Committee and representatives of the Department of Insurance conduct a hearing prior to the end of this regular session to review the question of Medicare supplemental insurance sales in Nebraska to senior citizens and determine whether or not an extended in-depth study should be made after adjournment.

2. That in the event the Committee determines the need for extended study, an interim study shall be conducted by the Committee in cooperation with representatives of the Department of Insurance to determine the need, if any, for legislative action. The Committee may employ such staff as may be necessary to effectively carry out such an interim study.

Pursuant to adjournment, the Legislature met at 9:01 a.m., President Luedtke presiding.

**PRAYER**

The prayer was offered by Rev. Wallace E., Easter, Associate Pastor, Westminster Presbyterian Church, Lincoln, Nebraska.

God our Father, in the midst of the complicated situations of life and the many unsolved problems of the world and of our society, keep these Your servants from any sense of futility. Let them feel the support of the prayers of our citizens across the State, and above all the power of Your strong arm of righteousness and truth. Help us all to understand that God's power has never been obstructed by difficulties, nor His love limited by the confusion of human plans. May the very failure of man's best resources drive us toward the resources of our God. Grant, we pray, that all questions immediately before this Body may be made so plain that there shall be no fear as decisions are made, nor any regrets after they are made. Lead us, heavenly Father, in the paths of justice, truth and peace, for Your Name's sake. Amen.

### ATTORNEY GENERAL'S OPINION

Opinion No. 95  
April 25, 1979

Dear Senator DeCamp:

You have submitted to us proposed amendments to LB 42, and have asked our opinion as to their constitutional validity. As we understand it, the amendments you are concerned about are those contained in new sections 12, 13, and 14.

Section 12 would impose a tax on the transportation of freight by railroad in this state at the rate of three thousandths of a cent per ton-mile. Section 13 provides that the revenue derived shall be placed in the Grade Crossing Protection Fund. Section 14 provides penalty for failing to file reports or to pay the tax.

The amendments are similar to those we discussed in our opinion no. 78, dated April 9, 1979, but the two features we found suspect in the amendments considered in that opinion, discrimination against interstate commerce and unreasonable classification, have been

eliminated. The present amendments impose the tax on intrastate as well as interstate transportation, so there is no discrimination, and it applies to all freight, not just coal.

In Complete Auto Transit, Inc., v. Brady, 43 U.S. 274, 51 L.Ed.2d 326, 97 S.Ct. 1076 (1977), the court upheld a tax on the privilege of operating a pipeline, railroad, airplane, bus, truck or any other transportation business between points within the state. The court said a tax would be valid which applied to an activity with a substantial nexus with the taxing state, was fairly apportioned, did not discriminate against interstate commerce, and was fairly related to the services provided by the state.

In Washington Revenue Department v. Stevedoring Association, 435 U.S. 734, 55 L.Ed.2d 682, 98 S.Ct. 1388 (1978), the court permitted a state tax on stevedoring. Citing Complete Auto, the court said that a state has a significant interest in exacting from interstate commerce its fair share of the costs of state government, and that the Commerce Clause balance tips against the tax only when it unfairly burdens interstate commerce by exacting more than a just share from the interstate activity. The court also discussed and rejected an argument that the tax was in violation of the Import-Export Clause of the Constitution.

It is our conclusion that the proposed tax meets the tests imposed by the above cases. Certainly passage through the state establishes nexus. The tax is on a ton-mile basis, which seems fair apportionment. It does not discriminate against interstate commerce. The proceeds are placed in the Grade Crossing Protection Fund created by section 39-6,194, R.R.S. 1978, so it is fairly, and directly, related to the services provided by the state. We therefore are of the opinion that such a tax could be successfully defended.

Very truly yours,  
PAUL L. DOUGLAS  
Attorney General

## ATTORNEY GENERAL'S OPINION

Opinion No. 96  
April 25, 1979

Re: Constitutionality of a Provision in LB 172

Dear Senator Cullan:

You have asked whether a provision in LB 172 requiring a certificate of need before a health care facility can be leased or sold to a new owner is constitutional. We have concluded it probably is constitutional.

You point out that if such a certificate were denied, the owner would have to continue to operate the facility although it may not wish to do so, close the facility, or sell it for use other than as a health care facility. You suggest that the owner could thus be kept from realizing the increased value of its property, depriving it of property without adequate compensation.

The Nebraska Supreme Court dealt with a similar problem in Beisner v. Cochran, 138 Neb. 445, 293 N.W. 289 (1940). The suit was brought by persons who had specially equipped their garages to inspect motor vehicles as required by law. They claimed the state had destroyed the value of that equipment, thus taking their property without just compensation and in violation of due process, by passing a new law with more rigorous requirements for the vehicles and providing that inspections were to be made in authorized official inspection stations. The court held that no one has a vested right to be protected against consequential injuries arising from a proper exercise of public powers:

“ . . . The applicable rule is well stated in Mugler v. Kansas, 123 U.S. 623, 8 S.Ct. 273, 31 L.Ed. 205, as follows: ‘A prohibition simply upon the use of property for purposes that are declared, by valid legislation, to be injurious to the health, morals, or safety of the community, cannot, in any just sense, be deemed a taking or an appropriation of property for the public benefit. Such legislation does not disturb the owner in the control or use of his property for lawful purposes, nor restrict his right to dispose of it, but is only a declaration by the state that its use by any one, for certain forbidden purposes, is prejudicial to the public interests. Nor can legislation of that character come within the Fourteenth Amendment, in any case, unless it is apparent that its real object is not to protect the community, or to promote the general well-being, but, under the guise of police regulation, to deprive the owner of his liberty and

property, without due process of law. The power which the states have of prohibiting such use by individuals of their property as will be prejudicial to the health, the morals, or the safety of the public, is not—and, consistently with the existence and safety of organized society, cannot be—burdened with the condition that the state must compensate such individual owners for pecuniary losses they may sustain, by reason of their not being permitted, by a noxious use of their property, to inflict injury upon the community. . . .” (138 Neb. at 448.)

One objective of LB 172 is to maximize the effectiveness of expenditures made for health care. To require review of the proposed transfer of a health care facility seems reasonably related to this purpose when, as we are advised, the public pays for depreciation costs, such costs begin anew when(sic) a facility is transferred and the greater the transfer price the greater the depreciation allowable to the new owner. Accordingly, we have concluded that requiring a certificate of need before a health care facility can be transferred to a new owner for use as such a facility is a proper exercise of the police power of the state. It is not a denial of due process or a taking of private property without just compensation.

Sincerely yours,  
PAUL L. DOUGLAS  
Attorney General

**SEVENTY-FOURTH DAY**

Legislative Chamber, Lincoln, Nebraska  
Friday, April 27, 1979

Pursuant to adjournment, the Legislature met at 9:03 a.m., Speaker Marvel presiding.

**PRAYER**

The prayer was offered by Rev. Wallace E. Easter, Associate Pastor, Westminster Presbyterian Church, Lincoln, Nebraska.

Almighty God, our Creator, our Father and our Lord, unite us in recognizing that Hand which has made and preserved us a Nation. As we are now united in our praying, so may we be united in our working, that, as a team, we may be together doing Your will. You are not a God of any one party, of any one nation, or of any one race. So open our eyes that we may understand what You are trying to do for all the people, and open our ears so that we may hear what You are trying to say to all Your children. And once we have seen and heard, then grant that we in this State called Nebraska may take due notice and govern ourselves accordingly. Bless our senators in their work this day, and may they believe that only in Your plan is our peace and the prosperity and success of our land. Amen.

**ATTORNEY GENERAL'S OPINION**

Opinion No. 99  
April 26, 1979

Dear Senator Wesely:

This is in reply to your inquiry concerning the Warner-Wesely amendment found on page 1252 of the Legislative Journal of April 2, 1979 to LB 327. Said amendment is very limited in scope, merely changing the word "five" to "ten" in the present sections 15-901, R.R.S. 1943, and 23-174.03, R.S.Supp., 1978. The effect of this change is to raise the present statute from five acres to ten acres that may be contained in the smallest parcel created in a division of land without subjecting said division to regulation by a city of the primary class or county planning commissions. Otherwise both statutes remain the same. We see nothing in these changes which has any bearing on the constitutionality of the statutes or of LB 327 so long as the changes in the title, as hereinbelow mentioned, are made to conform.

The amendment also renumbers the original sections 1 to 4 and 5 to 8.

We call your attention to the fact that on page 1007 of the Legislative Journal for March 20, 1979, an amendment was proposed to LB 327 which strikes the original sections 1 through 6 and inserts in its place the material there found, composed of two paragraphs. This amendment was adopted by the Legislature at page 1215 of the Legislative Journal for March 30, 1979. This latter amendment also relates to subdivisions of real estate and zoning and adjustment boards but applies to cities of the first and second class and villages only.

The title to the original bill mentions only second class cities and villages as being affected. This title does not accurately describe the contents of the bill as proposed and is probably constitutionally defective. However, since the amendment which has been adopted and your proposed amendment both relate to the general subject of zoning and subdivision of real estate a title could unquestionably be devised which would cover both amendments adequately.

Respectfully submitted,

PAUL L. DOUGLAS

It is the intent of the Legislature that all state agencies, departments, boards, and commissions closely monitor actual revenue receipts from non-general fund sources and limit expenditures to actual receipts available. No request shall be submitted to the Legislature for additional general funds for fiscal year 1979-80 to replace non-general funds which are not available for expenditure due to a decrease in actual receipt of such funds, nor shall the continuation budget requests for 1980-81 reflect additional general fund support to replace non-general fund sources which are reduced or are no longer available.”

In order to facilitate the production of alcohol, this act authorizes the State of Nebraska to enter into agreements with municipalities or counties to build, develop, maintain, lease, and operate an alcohol plant or plants or facilities related to the production, storage or distribution of alcohol.

Sec. 2. That section 39-2215, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

39-2215. There is hereby created in the state treasury a special fund to be known as the Highway Trust Fund. All motor fuel taxes and special fuel taxes related to highway use retained by the state, all motor vehicle registration fees retained by the state, and such other highway-user taxes which may be imposed by state law and allocated to the fund are hereby irrevocably pledged, except as otherwise specified herein, for the terms of the bonds to the payment of the principal, interest, and redemption premium, if any, of such bonds as they mature and become due at maturity or prior redemption, and for any reserves therefor and shall, as received by the State Treasurer, be deposited in the fund for such purpose. Of the money in the fund, (1) an amount equivalent to one cent per gallon of the money collected pursuant to sections 66-410, 66-428, and 66-605 shall be placed in the Alcohol Plant Fund and disbursed only

when calls or demands are made on such fund pursuant to lease agreements entered into under this act, and (2) the remaining money in the Highway Trust Fund may be used for the purchase for retirement of the bonds in the open market or for any other lawful purpose and the balance shall be transferred monthly to the Highway Allocation Fund, established by section 39-2401, for such use as may be provided by law. Any amounts in the Alcohol Plant Fund not utilized for purposes stated in section 8 may, in the discretion of the Governor, be used for the purchase for retirement of bonds authorized herein or by section 9 in the open market or for any other lawful purpose, including transfer to the Highway Allocation Fund established by section 39-2401. The State Treasurer shall disburse the money in the Highway Trust Fund as directed by resolution of the commission. The money deposited in the Highway Trust Fund shall be invested in the manner provided by law. The earnings therefrom, if any, shall be credited to the fund. All disbursements for the Highway Trust Fund shall be made upon warrants drawn by the Director of Administrative Services. Any money in the Highway Trust Fund available for investment shall be invested by the state investment officer pursuant to the provisions of sections 72-1237 to 72-1259.

Sec. 3. That section 66-410, Revised Statutes Supplement, 1978, be amended to read as follows:

66-410. At the time of filing the statement, required by section 66-409, such dealer shall, in addition to the other taxes provided for by law, pay a tax of ten and one half cents per gallon upon all motor vehicle fuels as shown by such statement. Effective January 1, 1978, gasoline sold in Nebraska which contains a minimum of ten percent blend of an agricultural ethyl alcohol whose purity shall be at least ninety-nine percent alcohol shall be subject to a state motor fuel tax which is five cents per gallon less than gasoline which does not contain such a blend, except that commencing July 1, 1982, such five cent per gallon reduction shall apply only to such a blend which contains agricultural ethyl alcohol produced in the State of Nebraska by an alcohol plant in operation or under construction prior to July 1, 1982. When the sale in Nebraska of gasoline containing such a blend exceeds twenty million gallons per year, an adjustment in the tax may be considered by the Legislature. Such dealers shall remit such tax to the Tax Commissioner.

Sec. 4. That section 66-428, Revised Statutes Supplement, 1978, be amended to read as follows:

66-428. There is hereby levied and imposed an excise tax of ten and one half cents per gallon upon the use of all motor vehicle fuels, as defined by section 66-401, used in this state, and due the State of Nebraska under the provisions of section 66-410 or Chapter 66, article 6; Provided, that such excise tax after the effective date of this act shall be five and one half cents per gallon on motor fuel containing a minimum of ten percent blend of agricultural ethyl alcohol whose purity shall be at least ninety-nine percent alcohol, and ten and one half cents per gallon on gasoline which does not contain such a blend. Users of motor vehicle fuels subject to taxation under this section shall be allowed the same exemptions, deductions, and rights of reimbursement as are authorized and permitted by sections 66-413 and 66-414. For purposes of this section and section 66-429, use shall mean the purchase or consumption of motor vehicle fuels in this state.

Sec. 5. That section 66-605, Revised Statutes Supplement, 1978, be amended to read as follows:

The tax, with respect to all special fuel delivered by a special fund dealer into supply tanks of motor vehicles in this state, shall attach at the time of such delivery and shall be collected by such dealer and be paid over to the motor fuel tax administrator as provided by sections 66-601 to 66-640.

Sec. 6. Any municipality or county or any combination thereof is hereby empowered to enter into an agreement with the State of Nebraska to build or other wise provide an alcohol plant or facility for the State of Nebraska, provided such agreement shall lease, for a term not to exceed fifty (50) years, the plant to the State for rental periods of twelve months or less. All such leases shall be subject to the condition that there is in effect a yearly appropriation for the payment of any rentals and other sums due and payable on the first day of each rental period, and in the event there is no yearly appropriation the lease terminates. Any agreement entered into pursuant to this section may contain provisions similar to those customarily found in a lease between private parties or customarily found in a lease between parties for buildings or facilities similar to the type of building or facility to which the agreement between the state and municipality or county shall pertain.

Sec. 7. Each lease entered into pursuant to section 6 of this act shall require that the profits of such alcohol plant be paid to the Alcohol

Plant Fund. For the purposes of this section profits shall mean the gain made after deducting the value of the labor, materials, rents, and all expenses.

Sec. 8. There is hereby created a fund to be known as the Alcohol Plant Fund, to consist of funds received pursuant to section 7 of the act, such funds as may be transferred from the Highway Trust Fund pursuant to sections 39-2215, and such funds as may be appropriated by the Legislature. The Alcohol Plant Fund shall be used to make lease payments, if necessary, in an amount sufficient to pay the principal of, interest on, and premium, if any, on the bonds issued pursuant to this act to finance alcohol plants and to maintain amounts in any bond and bond reserve funds.

Sec. 9. Any municipality or county or any combination thereof which enters into an agreement pursuant to section 6 of this act may issue bonds pledging revenue of any such municipality or county to finance alcohol plants and to provide working capital for the operation of such plants. The powers granted to municipalities in section 72-1403 are hereby granted to municipalities and counties as though such powers concerned and were used in carrying out the purposes of this act. At such time as all payments have been made pursuant to any agreement, the plant or facility may become the property of the State of Nebraska upon the exercise by the state of any option to purchase.

Sec. 10. In the event that the state shall be the sole lessee of any plant furnished pursuant to section 6, the municipality or county shall not be liable in tort, contract or otherwise for actions by the state solely by reason of the fact that legal ownership, or title, to such building or facility may be in such municipality or county; Provided, that the provisions of this section shall not be deemed or construed in any way to affect any rights of holders of bonds of a municipality or county issued to finance such plant or the obligations of the municipality or county to the holders of such bonds.

Sec. 11. The State of Nebraska is hereby empowered to enter into a lease or sublease, as lessor, lessee or sublessor, with any public body corporate or any political subdivision of the State of Nebraska and to enter into a management services, operating or other contract or agreement with any person to the extent permitted by law relating to any plant, building or other facility which is or has been the subject of an agreement pursuant to the provisions of section 6.

Sec. 12. Any municipality or county or any combination thereof may apply to construct, maintain and operate or otherwise provide an alcohol plant or a facility related to the production, storage or distribution of alcohol for lease to the State of Nebraska.

Sec. 13. The Governor shall establish the criteria or guidelines for the applications to be submitted for the contracts available under this act within thirty days after the effective date of this act. Applications for such contracts shall be submitted within sixty days after announcement by the Governor that applications are being accepted, but only after the guidelines or criteria governing such submissions have been publicly announced. The Governor may announce successive periods during which applications will be accepted for consideration if, in his discretion, it will further the purposes of the act.

Sec. 14. Any application made under section 12 of this act shall be filed with the Governor. The Governor shall establish application review procedures which may include the Legislative Fiscal Analyst and other agencies as may be necessary.

Sec. 15. A resource statement shall be filed with the application. The resource statement, as prescribed by the Governor, shall show in summary form plans, working drawings, and specifications prepared for the construction and equipping of the alcohol plant or a facility related to the production, storage or distribution of alcohol. The resource statement shall provide the total project cost and financing available from any source. The resource statement shall also include a projection of costs and profits, the manner in which the project will be accomplished, and a proposed marketing program for the finished product. In projecting profits, the applicant may take into account any available subsidies.

Sec. 16. In determining which applicants shall receive contracts, the Governor shall examine the proposed plans for the plant or a facility related to the production, storage or distribution of alcohol. The plans shall show an ability to complete construction and be in operation within twenty-four months from the date of approval.

Sec. 17. Within sixty days after the last day upon which an application may be submitted under section 13 of this act, the Governor shall determine whether a municipality or county, or any combination thereof, shall receive a contract. The Governor shall provide to each applicant, whose application was denied, a report in writing setting forth the findings and conclusions upon which such denial was based.

Sec. 18. The Department of Economic Development shall serve in an advisory capacity to the Governor for the purposes of carrying out the Governor's duties under this act. The department shall consult with the Governor regarding guidelines for applications, requirements relative to resource statements, and the criteria and findings upon which contracts are awarded.

Sec. 19. Bonds issued pursuant to section 9 may be sold in such manner and for such price as the municipality or county may determine, at par, below par, or above par, at private sale or at public sale after notice published prior to such public sale in a newspaper having general circulation in the municipality or county, or in such other medium of publication as may be deemed appropriate.

Sec. 20. The powers conferred by this act shall be in addition and supplemental to the powers conferred by any other law and shall be independent of and in addition to any other provision of the laws of the State of Nebraska with reference to the matters covered hereby. **EIGHTY-SIXTH LEGISLATURE  
FIRST SESSION**

**SEVENTY-FIFTH DAY**

Legislative Chamber, Lincoln, Nebraska  
Monday, April 30, 1979

Pursuant to adjournment, the Legislature met at 9:35 a.m., Speaker Marvel presiding.

**PRAYER**

The prayer was offered by Rev. Wallace E. Easter, Associate Pastor, Westminster Presbyterian Church, Lincoln, Nebraska.

God of our Fathers and our God, fill this moment of prayer with meaning for each one assembled here before You, and make it a time of refreshing for our souls, of new insight for the tasks before us, and of new power for our spirits. Forbid that we should walk through your beautiful world with unseeing eyes, and forgive us for so often taking the gifts You have given us for granted. May we never lose the fine art of appreciation, nor the skill to know when to say "thanks." With such dire need in every other part of the world, make us so grateful for what we have that we shall try, by Your help, to deserve it the more.

Keep us from the error of asking and expecting Your blessing and guidance in our public life while we close the door to You in our private living. You know what we are wherever we are. Help us to be the best we can be, today and always, for Your sake and the sakes of those we represent. Amen.

**PURPOSE:** To clarify intent language that requires the University of Nebraska to avoid intermingling revolving fund accounts with General Funds.

#### **AMENDMENTS:**

On page 30, strike subsection (1) of section 22 and insert new subsection (1) "It is the intent of the Legislature that the University of Nebraska campuses, in establishing the state-aided portion of their operating budgets for fiscal year 1979-80, do not intermingle revolving fund accounts with any other source of funding."

On page 30, in line 10, strike "shall" and insert "may".

Mr. Kremer asked unanimous consent to print the following amendments to LB 595 in the Journal. No objections. So ordered.

Delete section 2 in its entirety and insert the following:

Sec. 2. Agency No. 55 - Nebraska Natural Resources Commission.

Program 310 - Accelerated State Water Planning Process.

The appropriation to this program is to be utilized by the commission and other state agencies for the acceleration of the state water planning and review process. The funding provided in this program for the acceleration of the process is in addition to the approximately \$82,000, which the agencies involved in the process indicate can be redirected from their fiscal year 1979-80 budgets.

The State Budget Administrator shall create a separate budget program within each agency receiving funds from the appropriation to this program to properly account for such funds. Expenditures for personal services in such new budget programs shall not be limited.

The commission shall seek any federal funds which may be available for the state water planning and review process. To the extent possible, such federal funds shall be utilized to replace General Funds appropriated to this program.

It is the intent of the Legislature that the commission continue to be the agency responsible for the state water planning and review process. The Legislature hereby acknowledges and confirms the intent of LR 300, 1978, and the basic work plan as stated in the November 15, 1978, report to the Legislature and Governor on the State Water Planning and Review Process. The commission shall be assisted in the process by an Interagency Water Coordinating Committee, and a Public Advisory Board.

The Interagency Water Coordinating Committee shall consist of such members as are appointed by the Governor. The committee shall not have authority over individual agency activities, but shall coordinate activities, including but not limited to the development of recommended annual plans of work and annual budgets. The committee may at its option also review all studies and reports resulting from the state water planning and review process, and provide comments and recommended changes as deemed necessary. Final reports on Policy Issue Analyses shall be submitted to the Legislature and Governor in such form and with such content as shall be approved by the Commission. Such reports shall also be accompanied by the comments, if any, of the Interagency Water Coordinating Committee and the Public Advisory Board. Recommendations or findings contained in such reports or attachments thereto shall be construed as being those of the commission unless otherwise noted. The general guidance and supervision of studies and related work shall be the responsibility of the commission.

The Public Advisory Board shall be appointed by the Natural Resources Commission no later than July 1, 1979.

The Board shall include representatives of local units of government, specific water interests, and the general public. The local units of government which are eligible for membership on the Board include: natural resources districts, municipalities, counties, irrigation districts, reclamation districts, rural water districts, and public power districts. Specific water interests eligible for representation on the board include: groundwater irrigation, surface water irrigation, rural domestic use, livestock production, non-irrigated agriculture, outdoor recreation, environmental, commercial and industrial use, and fish and wildlife.

The Commission shall determine the size of the Board except that in the initial creation of the Board, the Commission shall attempt to

name at least one representative for each of the interests mentioned above.

All members of the Board shall be chosen from those nominated therefore in the manner specified by the Commission. The Commission shall develop nomination forms for such purposes and shall distribute them to appropriate state-wide organizations and as may otherwise be requested. The general public shall be notified of the availability of such forms through press releases issued on a statewide basis. The time for nominations shall not close less than 30 days after such notice is provided. Vacancies shall be filled in the same manner.

The board shall have no specific authority in the planning process but shall provide the input of the general public and various water interests in the state. It is the intent of the Legislature that the board consider the different opinions of the individual members but, as a body, shall provide input to and comments on the water planning and review activities as they relate to the overall use of Nebraska water resources by all water interests.

The functions to be performed by the Board are to advise and assist the Natural Resources Commission in: (1) reviewing alternative solutions for legislative and administrative policy problems, including impact assessment; (2) disseminating information and materials generated by the planning process to interest groups represented and the public generally; and (3) determining the conditions under which and the methods by which additional public input is to be obtained.

Members of the Public Advisory Board will receive no expenses or per diem for participation in the planning and review process. Input will be provided through the Natural Resources Commission. Meetings of the Board will be held at the request of the Chairman or the Natural Resources Commission.

It is the intent of the Legislature that the public having maximum input into the formulation of state water policy and that in addition to the input from the Public Advisory Board, the Commission is also encouraged to conduct public hearings on issues being studied as part of the Policy Issue Analyses.

All materials produced by the state water planning and review process shall be available to interested persons and groups upon request; provided, that the Commission or other agency providing such material may make a charge therefore which does not exceed the actual cost to the agency.

It is the intent of the Legislature that the state water planning and review process continue studies relating to instream flows, groundwater reservoir management, water quality, and surface and groundwater rights, and initiate a study relating to supplemental water supplies. A preliminary report on instream flows should be completed

by June 30, 1980. Such studies are in addition to the continuing base activities, state initiated problem analysis, and project and program reviews.

It is intended that the policy issue analyses should follow a staged approach, that is they should be designed so that the information presented to the Legislature in the yearly reports required on September 15 of each year is sufficient for the Legislature to decide whether to continue to fund the study or to make decisions based on the findings of the analyses to date.

The study designs for analysis of the various policy issues should include the following information:

- (1) Short summary of what the study is intended to accomplish;
- (2) Work elements needed to provide the information to be included in the yearly and final reports;
- (3) Information acquisition and interpretation needs;
- (4) Schedule for completion of the analysis;
- (5) Cost estimates to accomplish the analysis;
- (6) Sources of funding; and
- (7) Specific agency responsibilities.

It is the intent of the Legislature that the final reports for the policy issue analyses follow the general outline below:

- (1) Brief statement of the issue;
- (2) Background on the issue in Nebraska;
- (3) Relationship of this issue to the other policy issues;
- (4) Identification of alternative approaches to the issue;
- (5) Legislative and administrative mechanisms or changes necessary to implement the alternative approaches in Nebraska; and
- (6) Evaluation of the immediate and long-term impacts, potential problems, and opportunities related to the implementation of the alternatives.

The commission shall submit to the Legislature and Governor, on or before September 15 of each year, a report on the progress of the state water planning and review process. Such report shall include a listing of expenditures to date and estimated future expenditures within the appropriation authority, a summary and analysis of work completed to date, and a summary of future work to be conducted. These items should be addressed for all areas of the state water planning and review process including state initiated problem analysis, project and program review, base activities, and policy issue analysis.

Also on or before September 15 of each year, the commission shall submit a budget request for the succeeding fiscal year for the funding of the state water planning and review process. Such request shall identify the amount of additional funding required, an estimate of the amount to be re-directed, a detailed explanation of the proposed use

of such funds, and anticipated results and accomplishments to be obtained from the expenditure of such funds. Such information should, to the greatest extent possible, be identified for each agency which would receive funds.

**SEVENTY-SIXTH DAY**

Legislative Chamber, Lincoln, Nebraska  
Tuesday, May 1, 1979

Pursuant to adjournment, the Legislature met at 9:03 a.m., Speaker Marvel presiding.

**PRAYER**

The prayer was offered by Rev. Wallace E. Easter, Associate Pastor, Westminster Presbyterian Church, Lincoln, Nebraska.

Lord our God, Creator, Sustainer, Judge, Father and Friend; may this moment not be the last thought we give to You today, but in the midst of the busy-ness of life we ask You to remind us often of Your presence - invisible, yet real. Bless the work of our Senators today. Even as they labor for a better, stronger State, may they also see their efforts in the context of the needs of the Nation and of the world. Only if Your Spirit guides our leaders and their work can America regain the respect of the world and merit Your blessing. So for each of them may winning peace in the world become more important than winning votes at home.

Teach us to number our days that we may apply our hearts unto wisdom, for Your sake who loved us into life and loves us still. Amen.

**RESOLUTION****LEGISLATIVE RESOLUTION 72.**

Introduced by Warner, 25th District.

WHEREAS, the Legislature has recognized through various actions such as the establishment of the special committee on tax problems and equalization problems and statements and pronouncements from various legislators that equalization and equity in distribution and collection of taxes is of the highest importance to the State of Nebraska; and

WHEREAS, equitable and legal distribution of hundreds of millions of dollars of state money collected through the sales and income tax process to local subdivisions of government to grant various types of property tax relief is dependent upon accurate information and compliance with existing laws by local and state taxing authorities; and

WHEREAS, litigation filed by Senator John W. DeCamp against the State Board of Equalization now pending before the Supreme Court of the State of Nebraska would undoubtedly answer questions which the Legislature must have answered before it can adequately deal with such things as: (1) any proposed or necessary changes in present laws; (2) proper, adequate and fair distribution of sales and income tax monies to subdivisions of government such as state aid, personal property tax relief money, homestead exemption money, natural resource district money, etc.; and

WHEREAS, this particular case, according to Section 77-510, Reissue Revised Statutes of Nebraska, 1943, has precedence over all other civil cases of this state; and

WHEREAS, if the Legislature is to have the ability to take fair and proper action this session, it is imperative that a decision and answers to the questions raised in that litigation be provided to the Legislature; and

WHEREAS, this case has now been pending before the Supreme Court since it was filed on August 10, 1978; and

WHEREAS, said case was argued on February 9, 1979, and no decision has yet been rendered.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF THE STATE OF NEBRASKA:**

1. That the Legislature hereby respectfully requests and wishes to implore the Supreme Court of this state to render a definitive decision in this case as quickly as possible and in time for this Legislature to address matters raised by that decision yet this session of the Legislature, and

2. That this Legislature hereby respectfully requests that said decision provide as many definitive answers as is possible so that any legislative action to achieve fairness and equity in taxation and fairness and equity in distribution of state funds collected through the sales and income tax method and fairness and equity to all citizens of Nebraska in the areas of taxation and expenditures of funds may be accomplished and that if the decision raises such substantive questions that a special legislative session might be necessary to address any matters raised by the decision that this decision be handed down prior to the termination of this regular session of the Legislature so that arrangements might be made to take any proper steps for any special legislative sessions that might be occasioned or prompted by the court decision.

Laid over.

The funds, over the three year period, were to be expended for such purposes as faculty recruitment, visits to the University by performance review teams, and data collection as it related to the program. The 1974 budget explicitly stated that the funding for the Areas of Excellence should not be considered as permanent funding. The Legislature presently provides \$93,582.00 to UNL and \$43,020.00 to UNO for costs associated with the Areas of Excellence project. If enacted the amendment would delete from the University budget a total of \$136,602.00.

## ATTORNEY GENERAL'S OPINION

Opinion No. 100  
April 27, 1979

Re: Proposed amendments to LB 571

Dear Senator Koch:

In your letter of April 20, 1979, you requested our opinion in respect to the constitutionality of two proposed amendments to LB 571. LB 571, as currently amended, is set out in the Legislative Journal, Eighty-Sixth Legislature, first session at pages 1423 through 1426, inclusive.

Two separate amendments were attached to your correspondence of April 20th, denominated amendment "A" and amendment "B." Amendment "A" would change the proposed legislation, LB 571, as follows: the term "private industry" would be inserted before the word "municipalities" at section 1 of the bill, and also before the word "municipality" at section 6 and section 9 of the bill. The same term, "private industry" would also be inserted before the word "city" at section 11 and section 16 of the bill as proposed by your amendment "A."

Amendment "B" would add the following language at section 18 of LB 571:

"Sec. 18. Nothing in this act shall prohibit the State of Nebraska or any county or municipality from entering into an agreement with private industry for the operation of an alcohol plant or plants or facilities related to the production or storage of alcohol."

The practical effect of both amendment A and amendment B is to allow the state to enter into agreements with private enterprise, as well as municipal and county governments, in respect to the construction and leasing of gasohol production facilities. You have asked us to comment separately upon the constitutional implications of proposed amendments A and B, but because we believe the same constitutional problems would arise in the adoption of either amendment, we will treat them together in our ensuing discussion.

In an earlier opinion this year, we addressed constitutional questions relating to LB 571 by letter opinion of March 15, 1979, addressed to Senator Jerome Warner. (A copy of that opinion, 1979, Report of the Attorney General, No. 61 is enclosed herewith.) In that opinion, we reviewed the provisions of LB 571 which, at that time, authorized the Department of Economic Development to enter into agreements with counties and municipalities to develop grain alcohol

plants and production facilities. We opined that the bill, on its face, did not appear to lend the credit of the state to private individuals, associations or corporations as proscribed by Article XIII, section 3 of the Nebraska Constitution. However, we cautioned that simply because legislation appeared constitutional on its face, such an observation did not mean that the legislation would be constitutional in all of its possible applications. Citing from an earlier opinion we had prepared for former Governor Exon, in respect to the constitutionality of LB 424, enacted by the 1978 Legislature and codified at section 66-801 et. seq., R.S.Supp. 1978, we noted the following constitutional problem which could arise in the implementation of laws intended to promote gasohol production:

“ . . . Serious constitutional questions under Article XIII, section 3, would arise, for instance, if the grant would be made to a city, county, or village so that it could construct a plant . . . whereby the benefit of the grant would directly benefit a private corporation leasing or purchasing the plant from the city, county or village. In such a case, it could be argued the state is indirectly lending its credit to the private corporation.”

Consistent with our earlier opinions, we believe proposed amendments A and B, if adopted, would make LB 571 very difficult to defend against a constitutional challenge that LB 571 extends the credit of the state to a private party in contravention of Article XIII, section 3 of the Nebraska Constitution.

In our opinion, the Nebraska Supreme Court case of State ex rel. Beck v. City of York, 164 Neb. 223, 82 N.W.2d 269 (1957) is controlling here. In that case, the court found that the building of industrial plants by the City of York, for subsequent leasing to private concerns, violated Article XIII, section 3 of the Constitution. In considering how the city's involvement extended the credit of the state to aid a private enterprise, the court noted:

“It seems clear to us that the revenue bonds are issued by the city in its own name to give them a marketability and value which they would otherwise not possess. If their issuance by the city is an inducement to industry, some benefits must be conferred, or it would be no inducement at all. Such benefits, whatever form they may take, necessarily must be based on the credit of the city. The loan of its name by a city to bring about a benefit to a private project, even though general liability does not exist, is nothing short of a loan of its credit.” (Emphasis added.) 164 Neb. at 227.

Applying this reasoning to the statutory changes proposed under amendments A and B, it seems clear to us that LB 571 could be construed as a direct inducement to private industry to enter into

agreements with the state for the construction of alcohol plants. The state's guarantee of lease payments, as set out at section 6, albeit limited to periods of 12 months, or from appropriation to appropriation, appears to us to constitute an extension of the state's credit under the reasoning of the York case.

We are certainly not unmindful of the Legislature's expressed interest in the promotion of gasohol production. However, it is one thing for the state, in a proprietary capacity, to become directly involved in gasohol production as a public business, potentially competing with private enterprise. It is quite another matter for the state to utilize public funds, as are generated under LB 571 by additional motor fuel taxes, to provide an incentive to particular types of private businesses working, for all practical purposes, as a partner with the state. As the court noted in Oxnard Sugar Beet Co. v. State, 73 Neb. 66, 68, 105 N.W. 716 (1905):

“ . . . The legislature cannot appropriate the public moneys of the state to encourage private enterprises. The manufacturing of sugar and chicory is a private enterprise, and the public money or credit cannot be given or loaned in aid of any individual, association or corporation carrying on such enterprises. . . . ”

The production of gasohol and other alcohol products is also a private enterprise. While Article XIII of the Constitution provides certain limited guidelines for counties and cities to become involved in industrial development, such as set out at section 2 of Article XIII, these separate provisions are not at issue here. Rather, the proposed amendments A and B would allow the state to contract directly with private industries and would, in our opinion, depreciate the risk involved in private gasohol production at the expense of the state's credit.

In accordance with the judicial precedent we have cited above, we believe proposed amendments A and B would render LB 571 unconstitutional in light of the prohibitions of Article XIII, section 3 of the Nebraska Constitution.

Very truly yours,  
 PAUL L. DOUGLAS  
 Attorney General

### ATTORNEY GENERAL'S OPINIONS

#### Opinion No. 101

May 1, 1979

Dear Senator Chambers:

You have asked that we review the provisions of LB 319. Since your questions specifically concern the provisions of this bill relating to the allocation of an inmate's wages; we will confine our remarks on LB 319 to this section.

This bill provides, in part, that the wages of an inmate employed in some capacity at the Penal Complex or in a work release program shall be distributed pursuant to section 7 of this act.

Section 7 provides for a system of dividing an inmate's income (after payroll deductions and payment of necessary work related incidental expenses) for the following purposes (in this order):

- (1) 10% retained by inmate;
- (2) 50% for support of legal dependents, if any;
- (3) 25% to 75% to the state as restitution for the amount of compensation awarded a victim of a crime for which the inmate is sentenced (until paid in full);

- (4) costs of confinement;
- (5) 10% to inmate release fund;
- (6) remainder to pay any judgment for costs, fines or other lawful claims.

The allocation of prisoner funds to the prisoner or his legal dependants does not on its face raise constitutional issues. However, the system of allocating an inmate's funds to the state as restitution is, we believe, objectionable for several reasons.

First, it may be considered an enhancement of a criminal penalty, without notice, in excess of the penalty authorized by law and previously imposed by the court.

Second, it is a violation of the equal protection clause of both the United States and Nebraska Constitutions because only those individuals who are imprisoned are required to make payments to the state. The United States Supreme Court in Rinaldi v. Yeager, 484 U.S. 305, 86 S.Ct. 1497, 16 L.Ed.2d 577 (1966), held that a New Jersey statute which imposed a duty only on imprisoned indigents to reimburse the county for the cost of a transcript in case of an unsuccessful appeal out of any institutional wages and did not impose the same financial burden on persons who received a suspended sentence, were placed on probation or who were sentenced only to pay a fine, constituted a discriminatory classification violative of the equal protection clause. Since individuals who receive a suspended sentence, probation or only a fine are not required to pay restitution to the state under LB 319, allocations to this fund are violative of the equal protection clause based on the rationale of Rindali, supra.

Finally, due process issues are also raised by the requirement to pay restitution since under the present procedure inmates do not receive notice of the hearing before the Crime Victim's Reparation Board. It is this board which actually determines whether money would be deducted from an inmate's wage fund since no restitution is required unless the victim of a crime for which he is sentenced has previously received money from the board.

We will not discuss your questions concerning victimless crimes or the equal protection issues raised by the fact that an inmate may or may not have dependents because under the present system the allocation of money from any inmate should be stricken.

With regard to your questions concerning charges made against an inmate's wage fund for costs of confinement, in our opinion there is nothing constitutionally wrong with the state requiring inmates to contribute toward the expenses of their incarceration. As the court stated in Rindali, supra, at 309, 86 S.Ct. at 1500: "We may assume that a legislature could validly provide for replenishing a county treasury from the pockets of those who have directly benefited from county expenditures." However, in so doing the Legislature may not choose indiscriminately to seek reimbursement from some and not from others. The distinctions which are drawn must have some relevance to the purpose for which the classifications are made.

Here the Legislature has elected not to make those distinctions itself but to allow the Director to choose who shall pay and who shall not pay. Under paragraph (4) “[T]he director may authorize the chief executive officer to reimburse the state from a person’s wage fund. . .”(Emphasis added.) This discretionary power without more stringent guidelines is, we think, impermissible.

It should be pointed out that rules could be adopted by the Director, as is required by section 7, which might conceivably cure these constitutional defects. However, this result is not required by the language of LB 319. The Director could just as easily adopt rules which would create constitutionally improper classifications.

Determination of costs of confinement is not such a problem. The term “costs of confinement”, while it may be interpreted broadly, is subject to limitation. Assuming rules are adopted as specified in section 7, criteria would be provided for determining costs of confinement.

Under the Administrative Procedures Act, an inmate could challenge an unrealistic determination of costs or any determination made by the Director under a rule implemented pursuant to this act.

Finally, you question the provision of this bill concerning deductions for “judgments for costs, fines or other lawful claims.” As presently written, a deduction may be made from an inmate’s wage fund for all judgments for costs, fines and claims. We would question on due process grounds any judgment for costs, fine or claim not the result of a procedure which would comply with basic due process requirements. Admittedly, judgments are generally the product of a judicial determination but this is not always so with fines or lawful claims (a claim may be lawful and not the product of a procedure complying with due process) which could be made from an inmate’s fund. Unless this provision is further clarified by amendment, it too should fall on due process grounds.

In conclusion, paragraph number (3), is clearly, in our opinion, unconstitutional as written. Purposes number (4) and (6) are so loosely written as to permit unconstitutional application. While it is true that these potential defects could be cured by rule and regulation, without more stringent legislative guidelines requiring compliance with constitutional provisions as discussed herein we feel that numbers (4) and (6) must be identified as having grave constitutional deficiencies.

Very truly yours,  
PAUL L. DOUGLAS

Opinion No. 102

May 1, 1979

Dear Senator DeCamp:

In your letter of April 30th you take note of a newspaper article which reports that sales assessment ratios compiled by the Tax Commissioner show that real estate throughout the state was assessed at only about half the 35% of actual values specified by law. You ask a number of questions about the implications of this.

You ask whether this raises constitutional problems about the distribution of the Personal Property Tax Relief Fund. Your analysis is that the low assessment of real estate resulted in a higher mill levy. This, in turn, resulted in an apparently greater loss of personal property tax than actually occurred, since, had real estate been assessed properly, the lower mill levy applied against exempt personal property would have shown a smaller loss of revenue. You ask whether this is a denial of due process to "certain citizens" because of the supposed over-reimbursement.

We are unable to see any constitutional problems in this respect. First, even if we were to assume the basic premise, we do not see what citizens could claim denial of due process. The determination to pay money to the political subdivisions, and the amount of that payment, are legislative ones, and we don't see how any citizen could shown that he had been especially damaged to the extent that he was denied due process.

Further than that, of course, is the fact that your question rests on two basic assumptions which have not been judicially determined. First, it assumes that the sales assessment ratios referred to in the newspaper article reflect the ratio between actual values and assessed values. Our court has repeatedly pointed out the inadequacies and inaccuracies of sales assessment ratios. In County of Kearney v. State Board of Equalization and Assessment, 183 Neb. 329, 160 N.W.2d 179 (1968), the court discussed a number of factors which cast doubt on the validity of such ratios, and sustained the board in refusing to use them. In Carpenter v. State Board of Equalization and Assessment, 178 Neb. 611, 134 N.W.2d 272 (1965), the court discussed at length the inaccuracies of sales assessment ratios, and said that the ratios compiled in that case were nothing more than the application of a statistical method to a mass of raw, unchecked, and uncertain information. See also Hanna v. State Board of Equalization and Assessment, 181 Neb. 725, 150 N.W.2d 878 (1967), and County of Sioux v. State Board of Equalization and Assessment, 185 Neb. 741, 178 N.W.2d 754 (1970).

Furthermore, your question assumes that personal property has been assessed at 35% of actual value, although real estate has not been. While this may or may not be true, it has not been judicially established, and the presumption is that real estate and personal property have been equalized. It is the duty of the County Board of Equalization to equalize assessments

in the county. If no appeal is taken from the action of the board, the court would probably say the presumption is conclusive, unless action was taken by the State Board. If no appeal is taken from either board, we suspect no one is in a position to claim there has not been equalization.

You also ask whether personal property taxpayers would have a claim against the state or county because they paid on a higher assessed value than real estate taxpayers did. While this may not be a proper question to answer for you, since it does not involve pending or proposed legislation, the answer is very simple. Such taxpayers had a right to appeal from the action of the County Board of Equalization, and also from the action of the State Board of Equalization and Assessment. Having failed to do so, their rights, if any, are lost.

You ask whether the Legislature has an obligation or duty "to provide any funding for this reimbursement since they apparently are involved to some degree in causing this problem?" We are not sure what you mean. If you are asking whether the Legislature should furnish money to the counties to reimburse personal property taxpayers who must be repaid, our answer to the previous question eliminates that problem. If you are asking whether the Legislature should provide reimbursement to the counties by way of the Personal Property Tax Relief Fund, that, of course, is a legislative question, and not a legal one.

Your last question is whether it would be proper to hold up any payments or reimbursements on personal property until such time as these questions are resolved. If you are asking whether it would be proper for the Tax Commissioner or the State Treasurer to fail to follow the mandate of section 77-202.42, R.S.Supp. 1978, which provides for distribution of the Personal Property Tax Relief Fund, obviously it would not be proper. They must follow the law until the law is changed or a court rules otherwise.

If you are asking whether it would be proper for the Legislature to take some action in this regard, by amendment of the statutes or by failing to appropriate the money, again, we cannot answer that question, which is purely a legislative one.

Very truly yours,

## RESOLUTION

### LEGISLATIVE RESOLUTION 74.

Introduced by Newell, 13th District.

WHEREAS, alcohol abuse among Nebraska's youth is a serious problem confronting the people of the State of Nebraska; and

WHEREAS, the availability and abuse of alcohol by young people is of great concern presently and in the future to the State of Nebraska; and

WHEREAS, drinking habits developed during youth carry on through later life; and

WHEREAS, alcohol education programs, where they exist, are of limited scope; and

WHEREAS, studies indicate that simply raising the drinking age may actually increase alcohol consumption and potential for abuse among the young; and

WHEREAS, alcohol abuse is a complex problem which does not lend itself to quick and simple solutions; and

WHEREAS, the State of Nebraska should employ reasonable and effective means to curb the growing problem of alcohol abuse among Nebraska's youth; and

WHEREAS, any solution to alcohol abuse problems among Nebraska's youth should not be a capricious one which deprives a certain group of Nebraska citizens of their rights and privileges.

THEREFORE, be it resolved by the Eighty Sixth Legislature, First Session

1. That the Legislature's Miscellaneous Subjects Committee conduct an interim study of the problem of alcohol abuse among the young people of Nebraska. This study shall examine the effect adjustment of existing penalties would have on the teenage alcohol problem. ## UNANIMOUS CONSENT - Print in Journal

Mr. DeCamp asked unanimous consent to print the following letter in the Journal. No objections. So ordered.

April 30, 1979

Senator John W. DeCamp  
State Capitol  
Lincoln, Nebraska

Dear Senator DeCamp,

You have introduced an amendment to LB 42 that establishes a ton mile tax on all freight transported in Nebraska by rail. This amendment will increase funds available for distribution under the Nebraska Grade Crossing Protection Fund, and allows the Fund to be used for construction of overpasses and underpasses.

The railroads acknowledge the existence of the problems caused by the intersection of rail lines and highways, and that this problem is likely to increase. Moreover, the railroads recognize an obligation to participate in developing solutions to this problem. Your amendment to LB 42, however, results in a tax that will ultimately increase the rates charged to our Nebraska customers, and more acceptable methods may exist.

We urge you to consider more public involvement by means of an interim study designed to investigate alternative means of addressing the problem. Of course, the railroads will fully cooperate in any such study.

In this regard, you have asked whether the railroads would oppose a repeal of LB 103, recently passed by the Nebraska Legislature. You will recall that the railroad's position on LB 103 was one of neutrality. We, therefore, would not oppose a repeal of LB 103 just as we did not support LB 103 in the first instance.

**UNANIMOUS CONSENT - Print in Journal**

Mr. Hoagland asked unanimous consent to print the following amendment to LB 378 in the Journal. No objections. So ordered.

Req. No. 2937

- 2       1. Strike all amendments to such bill and insert  
3 the following:  
4       "Section 1. As used in sections 1 to 8 of this  
5 act, unless the context otherwise requires:  
6       (1) Sexual offense shall mean:  
7       (a) Any of the felonies set forth in section  
8 28-319, 28-320, or 28-805; or  
9       (b) The commission of any felony as defined by  
10 law in which the sexual excitement of the person  
11 committing the crime is a substantial motivational  
12 factor;  
13       (2) Mentally disordered sex offender shall mean  
14 any person who has been convicted of a sexual offense and  
15 who has been determined, by the procedures set forth in  
16 this act, to have a mental disorder which causes him or  
17 her to commit repetitive sexual crimes likely to cause  
18 substantial injury to the health of others; and  
19       (3) Treatment shall mean the application of  
20 scientifically accepted principles with the object of  
21 improving the defendant's mental disorder and decreasing  
22 the likelihood of his or her commission of repetitive  
23 sexual crimes.  
24       Sec. 2. After a person is convicted of a sexual  
25 offense, the court, prior to sentencing, shall order a  
1 presentence investigation which shall include an  
2 evaluation to determine whether the defendant is a  
3 mentally disordered sex offender. The entire proceeding  
4 to determine whether the defendant is a mentally  
5 disordered sex offender and treatable shall be deemed a  
6 critical stage of a criminal prosecution at which the

7 defendant shall be accorded all the rights a criminal  
8 defendant has in sentencing proceedings. The defendant  
9 may appeal the findings and sentence made pursuant to  
10 sections 1 to 8 of this act. On appeal the presentence  
11 investigation shall be made a part of the appeal record.

12 Sec. 3. To conduct the evaluation the court  
13 shall appoint a panel of two physicians, licensed to  
14 practice medicine and surgery who have had at least three  
15 years special training in the treatment of mental  
16 disorders or one such physician and one clinical  
17 psychologist who has had at least three years special  
18 training in treatment of mental disorders, to conduct  
19 individual psychiatric examinations of the defendant.  
20 The panel shall file with the court a written report, as  
21 to whether in their opinion the defendant is a mentally  
22 disordered sex offender, at least ten days prior to the  
23 date set for the sentencing of the defendant. Copies of  
24 the report shall be furnished to all counsel. If the  
25 defendant, or counsel for the defendant, disagrees with  
26 the report of the court appointed panel, he or she may  
27 file a motion with the court requesting an additional  
1 evaluation by two other physicians, or one other  
2 physician and one other psychologist, of the defendant's  
3 choice, qualified as described in this section. Such  
4 additional evaluation shall be reduced to writing and  
5 filed with the court at least ten days prior to the date  
6 set for the sentencing of the defendant. Copies of the  
7 report shall be furnished to all counsel.

8 Sec. 4. If the court determines, based on all  
9 the evidence, that the defendant is not a mentally  
10 disordered sex offender, is a mentally disordered sex  
11 offender whose disorder is not treatable, or that  
12 treatment is not available in this state, the court shall  
13 sentence the defendant as provided by law for the offense  
14 of which he or she has been convicted.

15 Sec. 5. If the court determines that: (1) The  
16 defendant is a mentally disordered sex offender; (2) the  
17 mental disorder is treatable; and (3) such treatment is  
18 available in this state, the court shall, after first  
19 sentencing the defendant as provided by law for the  
20 offense of which he or she has been convicted, return the  
21 defendant for treatment to one of the regional centers  
22 until such time as the court determines that the  
23 defendant is no longer mentally disordered or until the  
24 defendant has received the maximum benefit of treatment,  
25 except that no sentence to treatment shall exceed the  
26 maximum length of such offender's sentence.

1           Sec. 6. (1) The regional center with custody of  
2 a mentally disordered sex offender shall, at least  
3 annually from the date of sentence, assess whether the  
4 defendant still has a mental disorder and whether the  
5 defendant has received the maximum benefit of treatment.  
6 Such assessment shall be in writing, including all data  
7 and test results, and shall be filed in the sentencing  
8 court. Copies of such assessment shall be furnished to  
9 all counsel. Defendants shall have the right of mandamus  
10 to compel compliance with this section. After reviewing  
11 the annual assessment of the defendant made by the  
12 regional center, the court may hold a hearing if it  
13 determines that such a hearing is desirable. The court  
14 shall hold such a hearing if requested by either the  
15 defendant or the county attorney.

16           (2) If after hearing upon the assessment the  
17 sentencing court shall determine that the defendant no  
18 longer has a mental disorder or that the defendant has  
19 received the maximum benefit of treatment, the court may  
20 return the defendant to the Nebraska Penal and  
21 Correctional Complex or release the defendant on  
22 probation for the remainder of his or her sentence.  
23 Credit shall be given for the time spent in treatment.

24           Sec. 7. Ninety days prior to the release, from  
25 any regional center or any institution under the control  
26 of the Department of Correctional Services, of any  
27 mentally disordered sex offender who has (1) previously  
1 been adjudged untreatable and sentenced pursuant to  
2 section 4 of this act, (2) been determined to have  
3 received the maximum benefit of treatment pursuant to  
4 section 6 of this act, or (3) been sentenced to treatment  
5 pursuant to section 5 of this act, but whose time in  
6 treatment will, within ninety days, exceed the maximum  
7 length of such offender's sentence on the underlying  
8 criminal conviction, the Board of Parole, Department of  
9 Correctional Services, regional center, or other unit of  
10 government having final release authority, shall give  
11 notice to the county attorney who prosecuted the  
12 underlying criminal charge that the release of such  
13 offender is so pending. Upon receipt of such notice from  
14 the releasing authority, the county attorney shall cause  
15 mental health commitment proceedings to be commenced on  
16 behalf of such offender pursuant to the Nebraska Mental  
17 Health Commitment Act.

18           Sec. 8. Sections 1 to 8 of this act are  
19 retroactive. All persons now committed under Chapter 29,

20 article 29, as either a sexual psychopath or a sexual  
 21 sociopath, shall be forthwith returned to the district  
 22 court which committed them for sentencing pursuant to  
 23 sections 1 to 8 of this act. If a person was found to be  
 24 a sexual psychopath or sexual sociopath pursuant to  
 25 Chapter 29, article 29, such finding shall constitute a  
 26 finding of a mentally disordered sex offender under  
 27 sections 1 to 8 of this act. Psychiatric evaluations  
 1 conducted within eighteen months prior to sentencing  
 2 shall be admissible in lieu of the panel reports required  
 3 by section 3 of this act. No person now committed,  
 4 voluntarily or involuntarily, shall be released until the  
 5 requirements of section 7 of this act have been  
 6 fulfilled.

7       Sec. 9. Sections 1 to 8 of this act shall be  
 8 known and may be cited as the Mentally Disordered Sex  
 9 Offender Act.

10       Sec. 11. If any section in this act or any part  
 11 of any section shall be declared invalid or  
 12 unconstitutional, such declaration shall not affect the  
 13 validity or constitutionality of the remaining portions  
 14 thereof.

15       Sec. 13. Since an emergency exists, this act  
 16 shall be in full force and take effect, from and after  
 17 its passage and approval, according to law.”.

18       2. Renumber original sections 1 and 2 as  
 19 sections 10 and 12 respectively.

20 and other litigation costs reasonably incurred by the  
21 complainant.

22 Sec. 8. If it is determined that any provision

**LEGISLATIVE JOURNAL**

**EIGHTY-SIXTH LEGISLATURE  
FIRST SESSION**

**SEVENTY-EIGHTH DAY**

Legislative Chamber, Lincoln, Nebraska  
Thursday, May 3, 1979

Pursuant to adjournment, the Legislature met at 8:31 a.m., President Luedtke presiding.

**PRAYER**

The prayer was offered by Rev. Wallace E. Easter, Associate Pastor, Westminster Presbyterian Church, Lincoln, Nebraska.

Heavenly Father, in the numerous times of confusion, when people doubt their beliefs and believe their doubts, and are victims of an imprisonment that is worse than that occasioned by bars and brick walls, give to the people of this State and Nation a true appreciation of the truths we hold in common. Help us to appreciate our agreements and to have the conviction and courage to stand together in them, for there are so many forces in the world today that would seek to divide and conquer. Bless the lawmakers of our land, that they may make it as hard as possible for the people to do wrong, and as easy as possible for them to do right. And may they ever draw upon the wisdom of the past, which You have revealed in the Bible and in Your prophets and teachers of old. You have shown us the way; help us to walk in it. Amen.

**ROLL CALL**

### **RESOLUTION**

**LEGISLATIVE RESOLUTION 75.**

Introduced by Lewis, 45th District.

WHEREAS, the relationship between the Nebraska Unicameral Legislature and the University of Nebraska plays a key role in meeting the demands of future generations; and

WHEREAS, improving the effectiveness of the University of Nebraska without curtailing necessary services requires careful examination; and

WHEREAS, information related to the financial status of the University of Nebraska at times lacks specificity; and

WHEREAS, the Legislature must have accurate and current detailed information about the University of Nebraska in order to reach sound decisions about funding, provisions for new facilities, and related fiscal and budgetary matters; and

WHEREAS, the Legislature bears a continuing responsibility to the citizens of Nebraska for insuring the achievement of educational goals and objectives.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a special committee be appointed by the Executive Board of the Legislative Council to study, in-depth, the fiscal and budgetary aspects of the University of Nebraska.

2. That such study shall include, but not be limited to:

(a) A complete analysis of University of Nebraska funding and expenditures;

(b) Current and proposed actions relating to capital construction projects; and

(c) A review of the manner fiscal and budgetary information is provided to the Legislature.

#### **MOTION - Rule Change**

Messrs. Vickers, Fitzgerald, Cullan, and Mrs. Marsh offered the following rule change:

Whereby our seats would be equipped with seat belts which when engaged would register our presence. In order to be released the chair would have a button to electronically release each seat belt. Thereby when we are under Call the only way a senator could get out of his seat would be by calling the Chair and getting the Chair's permission by being released.

Referred to the Rules Committee.

**RESOLUTION****LEGISLATIVE RESOLUTION 76.**

Introduced by Newell, 13th District.

WHEREAS, the University of Nebraska has gained, due to a recent Supreme Court decision, the right to determine its internal spending priorities; and

WHEREAS, the Legislature has no control of the spending priorities adopted by the University of Nebraska; and

WHEREAS, the ability of the Legislature to coordinate higher education is gravely weakened by many competing funding requests generated by various elements within the higher education system; and

WHEREAS, the cost of higher education in the State of Nebraska has been escalating at an excessive rate due to duplication of programs and lack of coordination; and

WHEREAS, the community technical college system is supported primarily by state funds but is locally controlled and is thus difficult to coordinate; and

WHEREAS, the taxpayers of Nebraska cannot be expected to continually fund a higher education system that contains duplicative elements and condons wasteful spending; and

WHEREAS, there exists a great need for the coordination of higher education in the State of Nebraska; and

WHEREAS, it is necessary to create a board of regents for the entire system of higher education so as to end wasteful duplication and increase coordination of the system while also eliminating the need for coordinating councils and commissions.

**NOW, THEREFORE BE IT RESOLVED BY THE EIGHTY-SIXTH LEGISLATURE, FIRST SESSION**

1. That the Legislature's Constitutional Revision and Recreation Committee is hereby directed to conduct an interim study of a constitutional amendment to provide for the statewide coordination of the higher education system including the University of Nebraska, community technical colleges, and the state colleges, and to provide for the creation of a board of regents appointed by the Governor and confirmed by the Legislature to supplant all existing higher education governing bodies.

Referred to the Executive Board.

**EIGHTIETH DAY - MAY 7, 1979****LEGISLATIVE JOURNAL****EIGHTY-SIXTH LEGISLATURE  
FIRST SESSION****EIGHTIETH DAY**

Legislative Chamber, Lincoln, Nebraska  
Monday, May 7, 1979

Pursuant to adjournment, the Legislature met at 9:01 a.m., President Luedtke presiding.

**PRAYER**

The prayer was offered by the Chaplain.

Dear God and Father, someone once said, "Democracy is the worst form of government, except for all the others." Sometimes we only perceive the truth of that statement when we view our country in relationship to others, and our government in relationship to that of other lands. Help us, therefore, this day, despite past mistakes, present problems, or uncertain tomorrows, to appreciate anew the genius of our government of the people, by the people, and for the people. In these closing days of this session, help us to see that our government depends upon our efforts, that justice depends upon our wisdom, and that equality depends upon our perseverance in furthering the values which we hold highest. So may we work together through our compromises and solutions, through our discussions and decisions, toward a successful conclusion of our business, that when we have finished, we may be able to look back and say, we're not perfect, we did our best, and accomplished the most, by Your strength. Amen.

**RESOLUTION**

**LEGISLATIVE RESOLUTION 84.**

Introduced by Pirsch, 10th District.

WHEREAS, there are ninety-three counties in the State of Nebraska which have all experienced population growth; and

WHEREAS, the primary numbers on Nebraska license plates were originally designed to identify each of the ninety-three counties in order by population size; and

WHEREAS, due to unequal population growth in the counties, this numbering system no longer reflects the current order of counties by population; and

WHEREAS, each county deserves its full name recognition rather than a meaningless number designation.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the primary number on Nebraska license plates designating the county identity be eliminated and the name of the issuing county be printed clearly across the bottom of each license plate.

2. That the Public Works Committee study appropriate and necessary measures to incorporate the county name on Nebraska

license plates according to the terms of this resolution on the first opportunity that new license plates are designed and issued.

Referred to the Executive Board.

### ATTORNEY GENERAL'S OPINIONS

Opinion No. 104  
May 3, 1979

Dear Senator Carsten:

You have asked two questions concerning LB 285. In your first question you ask whether or not home rule charter cities would be exempt from budget limitation such as that contained in LB 285.

In this question you direct our attention to the case of Eppley Hotels Co. v. City of Lincoln, 133 Neb. 550, 276 N.W. 196 (1937). In the Eppley case the contention was that the Legislature, by enacting a statute with a lower limit, precluded imposition of a higher limit authorized by the charter. However, the Supreme Court held a city adopting a home rule charter, under the provisions of the Constitution allowing such action, was authorized to exceed such limitations.

The argument now being made is that that case extends to the proposition that the Legislature may not limit a home rule charter city's ability to tax the inhabitants of that city by statute. However, we believe that that argument is incorrect.

In the first instance, the Supreme Court said concerning the limitation on the amount of taxes that may be levied:

“ . . . This particular section of the statute had no particular sanctity beyond any other section of the statutory charter. It was no part of any general revenue statute. It provided for the levying of no taxes for any purposes other than for the uses and purposes of the city and upon no other property except that within the physical limits and jurisdiction of the city. If a home rule charter means what the words imply, why were not the people of Lincoln authorized by the Constitution to hold a charter convention or to have a local constitutional convention of their own and to vote upon the amendments to any charter by which they were formerly governed and make the charter thereby formed supersede the charter formerly existing, so long as they did not thereby violate the Constitution or general laws of the state?” (Emphasis added.) 133 Neb. at 554-555.

The court went on later to state that:

“ . . . While a home rule charter adopted pursuant to the constitutional provision may not contravene any provisions of

the Constitution or of any general statute enacted by the legislature, it is, in all other respects, binding and controlling. . . ." (Emphasis added.) 133 Neb. at 555.

The specific act under attack in Eppley was a limitation on the power to tax of cities the size of Lincoln. LB 285 is a general statute that regulates the authority of all taxing entities within the State of Nebraska. As such, it is a law of general character and not one specifically directed at particular classes of cities or other subdivisions. A city charter which authorized actions which were inconsistent with the Constitution of the State of Nebraska or the general laws of the State of Nebraska would be a nullity. It is, therefore, our conclusion that LB 285 would be applicable to and effective in limiting home rule charter cities.

In your second question you ask whether LB 285 would be effective for fiscal year 1979-80 budget if it is adopted without the emergency clause. You point out that the Legislature will adjourn sometime toward the end of May of 1979 which would place the effective date of LB 285, if adopted without the emergency clause, sometime in August of 1979.

As you know, LB 285 amends LB 1, Eighty-fifth Legislature, First Special Session, 1978. It generally refers to the Uniform Budget Act contained in Chapter 23, article 9. The prohibition of LB 285 is contained in section 12. It provides in part:

" . . . [N]o governing body of any political subdivision shall adopt a budget statement pursuant to section 23-925, Reissue Revised Statutes of Nebraska, 1943, or pursuant to the charter ordinance of a city with a home rule charter, in which the anticipated combined receipts for the ensuring fiscal year exceeds an increase of more than seven per cent above the combined receipts budget base." (Emphasis added.)

Section 23-925 requires a governing body to adopt a proposed budget after holding a public hearing upon the proposed budget. Governing bodies are required by section 23-923, R.R.S. 1943, not later than the first day of August of each year, to prepare and file a proposed budget. This is the budget subject to a public hearing under section 23-925. Section 23-927 requires that the governing body shall file and certify with the levying board before September 1 a copy of the adopted budget statement.

Under the Constitution, Article III, Section 27, bills become effective three calendar months after adjournment of the legislative session. Generally a statute will not be given retroactive effect unless it is clearly and unequivocally ascertainable that the Legislature so intended. See Brown v. Sullivan, 195 Neb. 729, 240 N.W.2d 51 (1976), and Retired City Civilian Employees Club of the City of Omaha v.

The City of Omaha Employee Retirement System, 199 Neb. 507, 260 N.W.2d 472 (1977). If the action of a governing body in adopting a budget statement were to occur after the effective date of LB 285, LB 285 would govern the adoption of the budget statement. If, on the other hand, the adoption of the budget statement occurs prior to the effective date of LB 285, the constraints upon the adopting body would be those existing under LB 1.

Such results are not unprecedented in Nebraska law. In the case of Wheaton v. Aetna Life Ins. Co., 128 Neb. 585, 259 N.W. 753 (1935), the interest rate on judgments was changed from seven to six percent. Interest accrued on a judgment after adoption of an amendment but before its effective date. The Legislature had adopted the act and adjourned in May and the judgment arose as of June 1. The Supreme Court held that the applicable interest rate was seven percent.

Here the act controlled by LB 285 is the adoption of the budget statement. That act will not be controlled until the effective date of LB 285. In all probability most budget statements will have been adopted prior to the effective date of LB 285 if it is adopted without the emergency clause.

We have reviewed LB 285 to find any expression of an intention for retroactive operation. We find none. Furthermore, we do not believe such an intention, if expressed, would be legally effective.

Sincerely,

PAUL L. DOUGLAS

Opinion No. 105

May 4, 1979

Dear Senator Beutler:

You have supplied this office with a copy of a proposed amendment to LB 44 of the Eighty-sixth Legislature, First Session, 1979, and a memorandum brief in connection therewith. The proposed amendment, among other things, would add a new section to LB 44 as follows:

“Sec. 2. For tax year 1979 there shall be allowed a food sales tax credit of twenty-three dollars. For each year thereafter the Tax Commissioner shall adjust the previous year's credit by a

percentage equal to the percentage change in the cost of living for the most recent twelve-month period. For purposes of this section, the Tax Commissioner shall compute the cost of living change for the state based on: (1) data from the federal government including that published in the form of consumer price indexes, and (2) any other information the Tax Commission deems relevant."

You then ask if the proposed amendment, which is quoted above, would suffice to create a constitutional and workable food sales tax credit arrangement. The same is hereinafter discussed.

LB 44, as originally introduced, would amend Neb.Rev.Stat. section 79-2715 (Supp. 1978) and thereby increase the food sales tax credit from twenty to twenty-three dollars multiplied by the number of legally allowable personal exemptions. Your amendment would strike that portion of LB 44 and grant a food sales tax credit based upon the "cost of living" as quoted above. Specifically, the Tax Commissioner would have the duty to compute the cost of living change for the state based on: (1) data from the federal government including that published in the form of consumer price indexes, and (2) any other information the Tax Commissioner deems relevant.

As you know, the Consumer Price Index is established by the United States Department of Labor. In connection therewith, the Supreme Court of Nebraska has recently held that a resolution of a county board fixing the salaries of elected county officers at an amount plus an annual adjustment for changes in the cost of living as determined by an independent federal agency does not violate Article III, Section 19, of the Constitution of Nebraska. Shepoka v. Knopik, 201 Neb. 780, 272 N.W.2d 364 (1978). Prior thereto we had expressed our opinion that the Legislature may limit the current general fund expenditures of a governmental subdivision over its expenditures for the preceding year to an amount which is based on the Consumer Price Index. In other words, the Legislature may lawfully enact a statute in which it adopts by reference an existing law or regulation of another jurisdiction, including the United States. We then stated:

" . . . It is also settled law that the Legislature, except as expressly authorized by the Constitution of Nebraska, may not lawfully enact a statute in which it adopts (1) administrative rules of a federal agency to be promulgated in the future or (2) an act of Congress of the United States to be passed in the future. . . . Consequently, the critical legal problem associated with Neb.Rev.Stat. section 79-4,164 (Supp. 1974) is the possibility that the United States Department of Labor or the United States Department of Commerce, or both, may establish certain criteria to determine the above stated indices different

from the criteria which was established to determine these indices at the time Neb. Rev.Stat. section 79-4,164 (Supp. 1974) became operative law. If that were to occur, Neb.Rev.Stat. section 79-4,164 (Supp. 1974) would obviously be rendered inoperative and the constitutionality of LB 984, Eighty-Third Legislature, Second Session, would be placed in jeopardy. . . . " 1975-76 Neb.Rep. Atty. General, p. 82 (April 23, 1975).

We adhere thereto. Thus as we see it, there is no legal problem per se with the sales tax credit being based on the Consumer Price Index (although that could create a problem as discussed in our prior opinion which is quoted above). Rather, the legal problem is that the Tax Commissioner would be given the authority to select "any other information the Tax Commissioner deems relevant" in computing the cost of living. In other words, there are no limitations, standards, or criterion for the guidance of the Tax Commissioner in computing the cost of living index.

In School District No. 39 v. Decker, 159 Neb. 693, 68 N.W. 2d 354 (1955), the court stated:

" . . . A statute which in effect reposes an absolute, unregulated, and undefined discretion in an administrative body bestows arbitrary powers and is an unlawful delgation of legislative powers." (159 Neb. at 700.)

It would therefore appear, and it is our opinion, that the propsed amendment to LB 44 would violate Article II, Section 1, Article III, Section 1, and Article XVII, Section 6, of the Constitution of Nebraska.

Very truly yours,

Opinion No. 106  
May 7, 1979

Dear Senator Reutzel:

You have requested the opinion of this office concerning LB 99, a proposal for a constitutional amendment to create a Compensation Review Commission. As amended, LB 99 provides for the

appointment of Commission members by the Governor, subject to the approval of the Legislature. The bill authorizes the Commission to review salaries and expenses of members of the Legislature, members of the judiciary, and certain executive officers. The Commission would make compensation recommendations to the Legislature before the beginning of each regular legislative session held in an odd-numbered year, such recommendations, if approved by the Legislature, would become effective at the beginning of the next regular session of the Legislature.

Section 3 of LB 99 provides that if the proposed amendment is adopted, it shall be in force and take effect immediately upon the completion of the canvass of the votes. Bases on the standards articulated by the Nebraska Supreme Court, the proposed amendment, if adopted, would be self-executing. *State ex rel. Walker v. Board of Educational Lands and Funds*, 141 Neb. 172, 3 N.W.2d 196, 200 (1942), quoting 16 C.J.S., *Constitutional Law*, section 48, p. 142; *State v. Odd Fellows Hall*, 123 Neb. 440, 243 N.W. 616, 620-621 (1932).

Your request for an opinion dated May 1, 1979, specifically poses the following inquiry:

“If the constitutional amendment proposed by LB 99 is adopted at either the primary or general election of 1980, may the Governor make temporary appointments to the commission so that it may meet prior to the start of the 1981 legislative session? In other words, would the positions in the commission be ‘vacated’ as contemplated by Article IV, section 12 of the Nebraska Constitution?”

Article IV, Section 12, of the Nebraska Constitution provides in pertinent part:

“If any nonelective state office, except offices provided for in Article V of this Constitution, shall be vacated by death, resignation or otherwise, it shall be the duty of the Governor to fill that office by appointment. If the Legislature is in session, such appointment shall be subject to the approval of a majority of the members of the Legislature. If the Legislature is not in session, the Governor shall make a temporary appointment until the next session of the Legislature, at which time a majority of the members of the Legislature shall have the right to approve or disapprove the appointment. . . .”

A vacancy in office occurs whenever it is unoccupied by a legally qualified incumbent. An existing office without an incumbent is considered vacant whether it is a newly created or an old office. 67 C.J.S., *Officers*, section 74, p. 386; *Garrotto v. McManus*, 185 Neb. 644, 648, 177 N.W.2d 570 (1970).

In our opinion, if LB 99 is adopted by the voters in 1980 when the Legislature is not in session, the provisions of Article IV, Section 12, would be applicable and the Governor could make temporary appointments until the next session of the Legislature.

Your request for an opinion dated May 2, 1979, additionally poses the following inquiry:

“1. Assuming that the commission will be able to meet prior to the beginning of 1981 regular legislative session, could the Legislature act upon its recommendations during a special session so that the new compensation rates would go into effect when the Legislature convenes in January 1981?”

LB 99, as amended, provides in pertinent part:

“ . . . Compensation recommended by the commission shall not become effective until approved by the Legislature and when so approved shall become effective at the beginning of the next regular session of the Legislature following the session in which such compensation was approved.” (Emphasis added.)

A special session of the Legislature is deemed to be a “session” of the legislative assembly. 81A C.J.S., States, section 49, p. 395. We note, in the above-quoted language of LB 99, that the phrase, “regular session,” is employed in the context of the effective date of the compensation, while the word, “session,” is used in the context of the Legislature’s act of approval. In our opinion, the specific omission of the adjective, “regular,” in the latter instance indicates that legislative action on the Commission’s recommendations may occur during a special session, assuming compliance with the constitutional and statutory requirements regarding such sessions. If the Legislature approved the Commission’s recommendations at a special session convened for that purpose in 1980, the approved compensation would become effective at the beginning of the regular legislative session in 1981.

You have further inquired whether the Legislature could act upon the Commission’s recommendations by resolution or whether a legislative bill would be required.

Article III, Section 25, of the Nebraska Constitution provides in pertinent part:

“ . . . No money shall be drawn from the treasury except in pursuance of a specific appropriation made by law, and on the presentation of a warrant issued as the Legislature may direct, and no money shall be diverted from any appropriation made for any purpose or taken from any fund whatever by resolution.” (Emphasis added).

In *State v. Weston*, 6 Neb. 16 (1877), the court, in considering the constitutional prohibition similar to that quoted above, stated:

“It will be observed that this provision does not require the appropriation to be made by act of the legislature, but merely that it be ‘made by law,’ so that it may be done either by direction of the constitution itself, that being the supreme law in the state, or by the legislature through the forms prescribed for drawing money from the public treasury. . . .”

The language was quoted with approval in Weston v. Herdman, 64 Neb. 24, 89 N.W. 384 (1902), wherein the Clerk of the Supreme Court was allowed to collect his salary as fixed by the Constitution, despite the failure of the Legislature to appropriate sufficient funds. See also, Att’y Gen Op., 1957-58, No. 57, p. 88.

LB 99 would establish a constitutional procedure to fix the salaries for certain state officers. Such salaries would be appropriated through the operation of the Constitution, itself. In our opinion the legislative action on the Commission’s recommendation required pursuant to LB 99 is not limited by the provisions of Article III, Section 25, of the Nebraska Constitution. Therefore, in our opinion, the Legislature could act on such recommendation by resolution.

Sincerely,  
PAUL L. DOUGLAS

**LEGISLATIVE RESOLUTION 85.**

Introduced by Chambers, 11th District.

WHEREAS, law enforcement officers commonly use radar devices for clocking the speed of automobiles; and

WHEREAS, such radar clockings by law enforcement officers are often used as evidence in court proceedings against drivers charged with speeding offenses; and

WHEREAS, information which calls into question the accuracy and consistency of such radar clockings has recently been brought to the attention of the general population; and

WHEREAS, the public has an interest in being protected against possible inconvenience and expense resulting from charges based on inaccurate evidence; and

WHEREAS, the courts and public should have an opportunity to have information available to them regarding the accuracy and consistency of radar clockings which could be used as possible evidence.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Legislature's Judiciary Committee perform an interim study on the use of radar in clocking speeds of automobiles and the use of such radar clockings as evidence against defendants. Such study shall include the following elements:

a. The Committee shall investigate contingencies which could contribute to inaccurate readings of radar clocking devices.

b. The Committee shall investigate devices which could be used by law enforcement officers to alter the speed registered by radar devices.

c. The Committee shall consider and evaluate techniques followed by law enforcement officers in preparing and setting of radar machine for operation.

d. The Committee shall consider and investigate alternative methods which could be used by law enforcement officers in detecting speed violations.

e. The Committee shall consider and evaluate whether the accuracy of such radar devices is valid enough to allow the readings of such devices to be offered as evidence against defendants.

2. That the Committee research the laws of other states to determine whether such states have, by legislation, prohibited the admission of radar readings into evidence to be used against a defendant.

3. That the Committee make a report of its findings together with any drafts of possible legislation it may develop to the next regular session of the Legislature.

Referred to the Executive Board.

**ATTORNEY GENERAL'S OPINION**

Opinion No. 107

May 8, 1979

Dear Senator Lamb:

You have submitted to us a proposed amendment to LB 445, and have asked our opinion as to its constitutional validity. We believe the provisions of the amendment are constitutionally suspect.

LB 445, as originally introduced, would submit to the electors a proposed amendment to Article VIII, Section 11, of the Nebraska Constitution. We need not discuss the original bill, because the

amendment you inquire about would substitute for it five new sections. Instead of a constitutional amendment, LB 445 would simply be a statutory enactment.

Summarized, the bill, under the amendment, would provide that when either parent of at least ten percent of the students or 35 students, whichever was lesser, attending school in any school district, is employed in the construction of an electric generating facility, the public power district, public power and irrigation district, municipality, electric cooperative, electric membership cooperative, or other entity constructing the facility shall make certain payments to the school district. The payments specified are, briefly, the average per pupil ad valorem tax levy for the previous year times the number of children of such employees.

The problem is that there seems to be a conflict with Article VIII, Section 11, of the Constitution, which provides that every public corporation and political subdivision organized primarily to provide electricity or irrigation and electricity shall annually make the same payment in lieu of taxes as it made in 1957. That constitutional provision also authorizes the Legislature to require such public corporations to make certain other specified payments in lieu of taxes.

The constitutional provision then says that, with certain exceptions not pertinent here, such payments in lieu of taxes shall be in lieu of all other taxes, payments in lieu of taxes, franchise taxes, occupation and excise taxes. It appears to us that the payments specified in the amendment in question fly directly in face of this latter provision, and constitute an additional payment in lieu of taxes, prohibited by the above constitutional provision.

Section 3 of the amendment would authorize the political subdivisions to make such payments to school districts for school years commencing with the 1977-78 school year which had begun or been completed prior to the effective date of the act. No guidelines are laid out to determine when the subdivision should do so. In Lincoln Dairy Company v. Finnigan, 170 Neb. 777, 104 N.W.2d 227 (1960), the court said that the Legislature could not delegate legislative authority to an administrative authority without standards prescribed in the legislative act. We find no such standards in the proposed amendment. The payment, or nonpayment of sums for past school years seems to be in the absolute, unfettered, and unguided discretion of the entity constructing the electrical facilities. We believe this may be an unconstitutional delegation of legislative power.

Very truly yours,  
PAUL L. DOUGLAS  
Attorney General

Assistant Attorney General

O God of us all, may the members of this Legislative Body keep ever before them the high responsibility which is theirs. Give this body the vision to have courage for greatness. May they respond to their challenges, living neither in their vacuum of futility or the gold fish bowl of exhibitionism. Introduced by Judiciary Committee: Nichol, 48th District, Chairman; Stoney, 4th District; Venditte, 7th District; Haberman, 44th District; Pirsch, 10th District; Reutzel, 15th District.

WHEREAS, the divorce rate in the United States has greatly increased over the last decade and it is now estimated that there is one divorce for every two marriages; and

WHEREAS, children are often the "victims" of divorces; and

WHEREAS, the courts have generally dictated that the non-custodial parents share in the financial obligations of raising minor children; and

WHEREAS, the award of such child support to the custodial parent is entirely in the court's discretion and there is no standard to follow in making such awards and the awards that are made are not based on the actual cost of raising a child or on the cost of raising a child in a manner which is possible according to the financial means of the parent; and

WHEREAS, there is no available data or computerized records which compile figures on child support awards and collection; and

WHEREAS, persons who are ordered to pay child support often are sporadic in such payments or are deficient in the amounts paid and the custodial parent is unable to plan financially for the minor children; and

WHEREAS, the Nebraska Legislative Council's Committee on the Judiciary did a study on child support collection methods in 1974, and that study should be updated.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Legislature's Judiciary Committee perform an interim study on the availability of statistics regarding the amount of child support awarded in divorces and the availability of similar statistics nationwide.

2. That the Committee investigate possible means of collecting data regarding child support awards, emphasizing channels which are already in existence.

3. The Committee shall determine the actual cost of raising a child from birth to the age of majority with special attention given to the information available from the Institute of Agriculture and Natural Resources.

4. That the Committee review methods for enforcing child support obligations. Such review shall include the following:

a. The Committee shall examine methods currently being used across the state to effect collection of child support and shall also examine the effectiveness of such methods.

b. The Committee shall examine methods used in other states to effect collection of child support and shall also examine the effectiveness of such methods.

c. The Committee shall examine methods available for locating absent parents who are obligated to pay child support, but who are delinquent in their obligation.

d. The Committee shall investigate available procedures for cooperating with other states in collecting child support and effectiveness of such effort.

e. The Committee shall investigate any alternative methods for collecting child support which are not currently being used or which are not presently available.

5. The Committee shall hold public hearings throughout the state on the question of the amount of child support and collection methods for enforcing child support obligation. Such public hearings shall be for the purpose of gathering citizen input on matters germane to this study.

6. The Committee shall make a report of its findings together with any recommendations for legislative action to the next regular session of the Legislature.

Referred to the Executive Board.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE, FIRST SESSION:

1. That the Legislature's Judiciary Committee perform an interim study of the workability and feasibility of rewriting Nebraska juvenile laws and direct its attention to the preliminary redrafting of such laws.

O God, who has given to all persons talents and varying capacities, Thou dost only require of us that we utilize Thy gifts to the maximum. In this Legislature to which Thou has entrusted special abilities and opportunities, may each recognize his stewardship for the people of the State. Through the perplexing problems and needed decisions give them calmness and wisdom. Section 14 of Article III provides in pertinent part:

“. . . No bill shall contain more than one subject, and the same shall be clearly expressed in the title. . . .”

The title of LB 344 provides:

“FOR AN ACT to adopt the Nebraska Clean Indoor Air Act; to provide for severability; to provide an operative date; and to repeal sections 28-1327 and 28-1328, Revised Statutes Supplement, 1978.”

The legal standard by which the title of a legislative bill is to be evaluated under Article III, Section 14, of the Nebraska Constitution was reiterated in Duerfeldt v. State, 184 Neb. 242, 166 N.W.2d 737 (1969), wherein the court stated:

“ . . . Where the title of an act fairly gives expression to the general subject-matter contained in the act, such act will not be held invalid as being broader than its title. . . . The provisions of the Constitution relating to titles are to be liberally construed so as to admit the insertion in a legislative act of all provisions which, although not specifically expressed in the title, are comprehended within the objects and purposes of the act as expressed in the title, . . . ”

Also in Rein v. Johnson, 149 Neb. 67, 81, 30 N.W.2d 548 (1947), the court stated:

“That provision does not require that the title to an act should be a synopsis of a law. Its purpose was to prevent surreptitious legislation by advising legislators of the nature of the measures they are called upon to support or oppose. If, by a fair and reasonable construction, the title calls their attention to the subject matter of the proposed act, it may be said that the object is clearly expressed in the title. . . . ” See also, Blackledge v. Richards, 194 Neb. 188, 231 N.W.2d 391 (1975).

Your specific inquiry is whether the title of LB 344 is sufficiently clear to allow the prohibition against smoking in public places in section 7 and the criminal penalty for violation of section 7 found in section 12. The object and purpose of this act is the regulation of indoor air pollutants. In our opinion, the above mentioned sections of the act are germane to its general purpose. Based on the liberal interpretations historically given Article III, Section 14, it is our opinion that the title, “Nebraska Clean Indoor Air Act” sufficiently expresses the purpose of the act so as to withstand constitutional scrutiny.

Further, you have inquired whether the provisions of LB 344 improperly delegate legislative authority to the Department of Health in violation of Article II, Section 1, of the Nebraska Constitution.

The Nebraska Supreme Court considered this issue in Gillette Dairy, Inc. v. Nebraska Dairy Products Board, 192 Neb. 89, 219 N.W.2d 214, 221 (1974), wherein it was stated:

“It is fundamental that the Legislature may not delegate legislative authority to an administrative or executive authority. It does, however, have power to authorize an administrative or executive department to make rules and regulations to carry out an express legislative purpose or for the complete operation and enforcement of a law within designated limitations. It is fundamental, however, that in the legislative grant of power to an administrative agency, such power must be limited to the express legislative purpose and administered in accordance with standards described in the legislative act. [Citing *Lincoln Dairy Co. v. Finigan*, 170 Neb. 777, 104 N.W.2d 227 (1960).] ‘The limitations of the power granted and the standards by which the granted powers are to be administered must, however, be clearly and definitely stated. They may not rest on indefinite, obscure, or vague generalities, or upon extrinsic evidence not readily available.’”

Section 10 of LB 344 provides:

“The Department of Health shall, not later than January 1, 1980, adopt and promulgate rules and regulations necessary and reasonable to implement the provisions of this act. The Department of Health shall consult with interested persons and professional organizations before promulgating such rules and regulations.” (Emphasis added.)

Section 11 of LB 344 provides:

“The Department of Health may, upon request, waive the provisions of this act if it determines there are compelling reasons to do so and a waiver will not significantly affect the health and comfort of nonsmokers.” (Emphasis added.)

Section 1 expresses the legislative purpose to “protect the public health, comfort and environment.”

Based on the court’s pronouncement in *Gillette*, *supra*, the question to be resolved is whether sections 10 and 11 of LB 344 contain sufficiently clear and definite standards so as to guide the agency in determining how to administer the power which it is granted. In our opinion, the act does not meet this requirement. Section 11 appears to be particularly defective as it is void of any indication concerning what factors may be considered “compelling reasons.” The Legislature may not vest an agency with uncontrolled discretion to determine when and on whom a law shall take effect. 73 C.J.S., Public Administrative Bodies and Procedure, section 29, p. 324.

Therefore in our opinion, LB 344 improperly delegates legislative authority and is constitutionally suspect.

Sincerely,  
 PAUL L. DOUGLAS  
 Attorney General

## RESOLUTION

### LEGISLATIVE RESOLUTION 99.

Introduced by George, 16th District.

WHEREAS, the Nebraska Legislature has found and declared that high rates of interest on mortgage loans seriously restrict existing housing transfers and new housing starts and that there exists in the urban and rural areas of this state an inadequate supply of, and a pressing need for, sanitary, safe and uncrowded housing at prices which persons of low and moderate income can afford; and

WHEREAS, the Nebraska Legislature has found that such problems can be alleviated through the creation of a governmental body to encourage the investment of private capital and stimulate the construction of sanitary, safe and uncrowded housing for low and moderate income persons through the use of public financing as provided by the Nebraska Mortgage Finance Fund Act, Section 76-1601, et seq., R.S. Supp. 1978; and

WHEREAS, the Nebraska Legislature has found that alleviating such conditions and problems through such encouragement of private investment and stimulation of construction by a governmental body is a public purpose and use for which public money provided by the sale of revenue bonds may be borrowed, expended, advanced, loaned or granted, where such activities are not conducted for profit, and that such activities are proper governmental functions and can best be accomplished by the creation of a governmental body vested with the powers and duties specified in the Nebraska Mortgage Finance Fund Act; and

WHEREAS, the constitutionality of the Nebraska Mortgage Finance Fund Act has been upheld by an Order of the District Court of Lancaster County on April 30, 1979, for which a Notice of Appeal to the Nebraska Supreme Court was given on May 3, 1979; and

WHEREAS, on April 25, 1979, the Chairman of the Ways and Means Committee of the United States House of Representatives and several other Congressmen introduced H.R. 3712, which removes the tax-exempt status of bonds issued to provide financing of owner-occupied housing, except for such bonds sold prior to April 25, 1979, and general obligation bonds issued by states for veterans' housing; and

WHEREAS, the introduction of H.R. 3712 prevents the Nebraska Mortgage Finance Fund from issuing tax-exempt housing revenue bonds and thereby from carrying out the purposes of the Nebraska Mortgage Finance Fund Act; and

WHEREAS, by restricting the issuance of tax-exempt general obligation bonds of states for housing, to bonds to provide veterans' housing, H.R. 3712 raises issues of constitutional import under the Tenth Amendment of the United States Constitution as to the power of the federal government to restrict states in the pledge of their full faith and credit in the incurrence of indebtedness; and

WHEREAS, the restriction in H.R. 3712 on the issuance of general obligation housing bonds is a dangerous precedent which, if constitutional, would permit the federal government to dictate the purposes for which the states can issue general obligation bonds.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Nebraska Legislature opposes H.R. 3712 insofar as it prevents the Nebraska Mortgage Finance Fund from issuing tax-exempt housing bonds as of April 25, 1979.

2. That the Nebraska Legislature urges that H.R. 3712 should immediately be amended to provide that its provisions shall become effective only after it is duly enacted into law.

3. That the Nebraska Legislature further urges that H.R. 3712 be amended to provide state housing finance agencies such as the Nebraska Mortgage Finance Fund be permitted to issue tax-exempt housing bonds without restriction or, in the alternative, with responsible guidelines with respect to income limits of home buyers and maximum mortgage loans.

4. That the Nebraska Legislature hereby disapproves any restriction by the federal government of the inherent power of the Nebraska Legislature, under the United States Constitution, to pledge the full faith and credit of the State as the people of the State may determine.

Laid over.

Mr. Cullan asked unanimous consent to be excused until he returns. No objections. So ordered.

#### **RULING OF THE CHAIR**

Mr. Dworak requested a ruling of the Chair regarding the vote on the DeCamp amendment to LB 585 that was incorrectly recorded and announced on May 8 with Dworak voting aye instead of nay.

Mr. Brennan asked unanimous consent to be excused for a short time. No objections. So ordered.

### ATTORNEY GENERAL'S OPINION

Opinion No. 111

May 9, 1979

Dear Senator Haberman:

In your recent correspondence to this office, you advise us that you are considering a bill to change Section 2-3225, R.R.S. 1943. In that connection, you state that you need to know: "What does 'headquarters' and 'administration' mean? Are they the same or different?"

The specific sentence within section 2-3225 to which you are apparently referring states:

"The proceeds of such tax shall be used together with any other funds which the district may receive from any source, for the operation of the district, but no funds may be used for constructing or purchasing a headquarters or administration building."

Our research indicates that the particular language which troubles you was included via LB 540 in 1972. We have searched the legislative

history of LB 540 and find but one reference to the particular terms which trouble you. That reference was made by Senator Whitney who stated:

“If they can inherit something then they wouldn’t have to construct something new or to buy it. Therefore, this would remain as is. No funds would be used for construction or purchasing a headquarters. So if they inherit it, they could still own it. But they couldn’t purchase it.”

As can be seen from the foregoing, only the word “headquarters” was referred to during debate. Your uncertainty as to whether the word “headquarters” and “administration” mean the same thing appears to be well-founded. It further appears, that the most certain and appropriate way of clarifying terms, would be through legislative action.

We hope the foregoing has been of some assistance.

Sincerely yours,  
PAUL L. DOUGLAS

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE, FIRST SESSION:

### LEGISLATIVE RESOLUTION 101.

Introduced by Nichol, 48th District.

WHEREAS, since 1913, Nebraska law has provided for a system of indeterminate sentencing of criminal offenders; and

WHEREAS, an essential element of fairness in criminal sentencing is certainty about the time when any given sentence has been served and the offender is entitled to release; and

WHEREAS, the combined application of Nebraska's indeterminate sentencing law along with good time laws and the powers of the Parole Board precludes a criminal offender from having knowledge concerning the date of release from detention; and

WHEREAS, indeterminate sentencing systems have recently come under attack for many reasons; and

WHEREAS, six states have recently abandoned their indeterminate sentencing system for a form of determinate sentencing; and

WHEREAS, adoption of any alternative form of sentencing should be considered with knowledge of the effects such alternative would have on Nebraska criminal law and procedure.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE, FIRST SESSION:

1. That the Legislature's Judiciary Committee undertake a comprehensive interim study and evaluation of Nebraska law and procedure relating to criminal sentencing.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

### **LEGISLATIVE RESOLUTION 103.**

Introduced by DeCamp, 40th District.

WHEREAS, Legislative Resolution 64 was introduced April 25, 1979; and

WHEREAS, Legislative Resolution 64 directed that an interim study be conducted to determine the effects that certain legislative bills will have on liability insurance rates within the state; and

WHEREAS, the legislative bills which (1) repeal the guest passenger statute, (2) adopt comparative negligence standards, and (3) permit the recovery of punitive damages in private civil actions have been introduced in this session of the Legislature; and

WHEREAS, such legislation has been killed by various legislative committees; and

WHEREAS, each of the foregoing proposals is calculated to permit more people to collect more damages from others more easily; and

WHEREAS, many studies have been made by respected individuals, groups and government agencies which have concluded that this objective can be attained more effectively, more fairly, more economically and with less litigation by the adoption of no fault automobile insurance; and

WHEREAS, some sixteen states have in fact accepted this approach and adopted no fault automobile insurance legislation in various forms in recent years; and

WHEREAS, experience has now been developed in these sixteen states and further data compiled in other more recent studies as to the cost of and the benefits derived from this innovative concept of compensating injured persons; and

WHEREAS, the Congress of the United States has had legislation under consideration for a number of years which would impose federal no fault insurance on each state which has not adopted no fault laws which meet federal standards.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Banking, Commerce and Insurance Committee in cooperation with the Nebraska Department of Insurance, in connection with and as a part of any interim study conducted pursuant to Legislative Resolution 64, include in said study and any report resulting therefrom, the effect, if any, of the adoption of a no fault automobile reparations plan on liability insurance costs and the benefits, if any, which would flow therefrom.

Req. #2954

- 2 1. Strike the original sections and insert new
- 3 sections as follows:
- 4 "Section 1. Sections 1 to 15 of this act shall
- 5 be known and may be cited as the Therapeutic Research
- 6 Act.
- 7 Sec. 2. The Legislature finds that recent
- 8 research has shown the use of marijuana may alleviate the
- 9 nausea and ill effects of cancer chemotherapy and may
- 10 alleviate the ill effects of glaucoma.
- 11 It is the intent of the Legislature that passage
- 12 of this act shall not constitute an endorsement of the
- 13 efficacy of laetrile in the treatment of cancer, but
- 14 represents only the Legislature's endorsement of a
- 15 patient's freedom of choice.
- 16 The health of the people is a major goal of

17 legislation. The Legislature finds that there is a need  
18 for further investigation of a therapeutic nature  
19 regarding marijuana's and laetrile's effects on such  
20 illnesses. The Legislature further finds that such  
21 investigation should be carefully regulated. It is for  
22 this purpose that the Therapeutic Research Act is hereby  
23 enacted.

24 Sec. 3. For purposes of this act, unless the  
25 context otherwise requires:

1 (1) Committee shall mean the Patient  
2 Qualification Review Committee created by this act;

3 (2) Department shall mean the Department of  
4 Health;

5 (3) Director shall mean the Director of Health;

6 (4) Laetrile shall mean amygdalin, a substance  
7 derived from the pits of apricots and other fruits; and

8 (5) Program shall mean the Therapeutic Research  
9 Program created by this act.

10 Sec. 4. (1) There is hereby established within  
11 the Department of Health, the Therapeutic Research  
12 Program. The program shall be administered by the  
13 director or his or her designee. The department shall  
14 adopt and promulgate rules and regulations necessary for  
15 proper administration of this act.

16 (2) The program shall be limited to cancer  
17 patients and glaucoma patients who are certified to the  
18 committee by a physician as being involved in a  
19 life-threatening situation and patients on whom  
20 conventional therapies have proven effective but expose  
21 the patient to intolerable side effects.

22 (3) The director is authorized to protect the  
23 privacy of individuals who are participants in the  
24 program by withholding from all persons not directly  
25 connected with the conduct of the program the names and  
26 other identifying characteristics of such participants.

27 Persons who are given this authorization shall not be  
1 compelled in any civil, criminal, administrative,  
2 legislative, or other proceeding to identify the  
3 individuals who are participants in the program, except  
4 to the extent necessary to permit the director to  
5 determine whether the program is being conducted in  
6 accordance with the authorization.

7 Sec. 5. (1) The director, upon the  
8 recommendation of the State Board of Health, shall  
9 appoint a committee to serve at his or her pleasure. The  
10 board shall consist of four members including:

11 (a) A physician licensed to practice medicine in  
12 the state and certified by the American Board of  
13 Ophthalmology;

14 (b) A physician licensed to practice medicine in

15 the state and certified by the American Board of Internal  
16 Medicine and also certified in the subspecialty of  
17 medical oncology;

18 (c) A physician licensed to practice medicine in  
19 the state and certified by the American Board of  
20 Psychiatry; and

21 (d) A pharmacist licensed by the state and  
22 certified by the American Board of Pharmacy.

23 Members of the committee shall be reimbursed for  
24 their attendance at meetings at the rate of thirty  
25 dollars per day.

26 (2) Only three members of the committee shall  
27 vote on certification of any one patient. The physician  
1 certified in psychiatry and the pharmacist shall have a  
2 vote on each patient. The physician certified in  
3 ophthamology shall have a vote only in those cases  
4 involving a patient to be treated for glaucoma and the  
5 physician certified in oncology shall have a vote in all  
6 cases not involving a patient to be treated for glaucoma.

7 (3) The committee shall review the medical  
8 records of all applicants for the program and their  
9 licensed physicians and shall certify those patients for  
10 participation in the program who meet the requirements of  
11 subsection (2) of section 4 of this act. At the time of  
12 such certification the committee shall also authorize the  
13 patient's physician of record to prescribe either  
14 marijuana or laetrile, or both, to the certified patient.  
15 Licensed pharmacies may apply for and be approved to  
16 participate in the distribution of marijuana or laetrile  
17 pursuant to this act. The committee shall approve a  
18 sufficient number of pharmacies for participation in the  
19 program to provide reasonable access for certified  
20 patients.

21 Sec. 6. (1) The committee shall review the  
22 medical records of all applicants and shall certify those  
23 patients who meet the requirements of subsection (2) of  
24 section 4 of this act for participation in the program.  
25 At the time of such certification the committee shall  
26 also authorize the patient's physician of record to  
27 prescribe either marijuana or laetrile, or both, to the  
1 certified patient.

2 (2) The committee shall prepare a list of all  
3 certified patients and their authorized physicians. Such  
4 list shall be updated on a regular basis and shall be  
5 distributed to all approved pharmacies within the state.

6 Sec. 7. The production and use of marijuana and  
7 laetrile should be carefully regulated. While the need  
8 to prevent diversion of marijuana supplies and the abuse  
9 of laetrile is clear and in keeping with present  
10 statutes, such regulation should not prevent access for

11 health purposes as outlined in this act. The director is  
12 authorized to use the following methods to acquire  
13 marijuana and laetrile for the program:

14 (1) The director shall authorize the committee to  
15 contract with the National Institute on Drug Abuse for  
16 receipt of marijuana pursuant to regulations promulgated  
17 by the National Institute on Drug Abuse, the Food and  
18 Drug Administration, and the Drug Enforcement  
19 Administration, and pursuant to this act. The  
20 manufacture and distribution of laetrile within the state  
21 shall be carried out pursuant to the rules and  
22 regulations of the Food and Drug Administration and this  
23 act;

24 (2) The director shall authorize the manufacture  
25 of marijuana and laetrile within the state, prescribe  
26 rules and regulations and charge reasonable fees relating  
27 to the registration and regulation of marijuana and  
1 laetrile production. The department may inspect the  
2 records and establishment of a registrant or applicant  
3 for registration to enforce compliance with this section.  
4 All registrants shall keep and maintain such records as  
5 may be deemed necessary by the department to enforce this  
6 section. Registrants shall also comply with regulations  
7 promulgated by the department to prevent diversion and  
8 misuse of the drugs; and

9 (3) The director shall cause marijuana, under  
10 subdivisions (1) and (2) of this section, and laetrile,  
11 under subdivision (2) of this section, to be transferred  
12 to those pharmacies which require such drugs for  
13 distribution to certified patients upon the written  
14 prescription of an authorized physician, pursuant to this  
15 act.

16 Sec. 8. Any person or corporation approved by  
17 the committee may sell laetrile in this state for  
18 prescription or administration by licensed physicians.

19 Sec. 9. The Department of Health shall adopt  
20 and promulgate rules and regulations to provide for (1)  
21 the certification as to the identity and quality of  
22 marijuana and laetrile, (2) the certification as to the  
23 distribution of marijuana and laetrile, and (3)  
24 limitations of the use of marijuana and laetrile under  
25 section 4 of this act.

26 Sec. 10. Any authorized physician licensed to  
27 practice in this state may prescribe or administer  
1 laetrile or marijuana in the treatment of cancer or  
2 glaucoma subject to section 11 of this act.

3 Sec. 11. Any physician before prescribing or  
4 administering laetrile or marijuana shall inform the  
5 patient that such drug has not been approved as a  
6 treatment or cure by the Food and Drug Administration of

7 the United States Department of Health, Education and  
8 Welfare and the patient shall sign a statement that he or  
9 she has received and understands the information set out  
10 in this section.

11 Sec. 12. No physician may be subject to  
12 disciplinary action for prescribing or administering  
13 laetrile to a patient when the patient has given his or  
14 her informed consent and the physician has complied with  
15 the limitations established by sections 4 and 9 of this  
16 act. Nothing in this section shall limit disciplinary  
17 action for the malpractice of a physician.

18 Sec. 13. The director, in conjunction with the  
19 committee, shall report his or her findings and  
20 recommendations regarding the effectiveness of the  
21 program to the Governor and the Legislature on an annual  
22 basis.

23 Sec. 14. Marijuana, when used in accordance  
24 with the provisions of this act, shall, for the purposes  
25 of recordkeeping and prescriptions, be treated in the  
26 same manner as Schedule II controlled substances are  
27 treated pursuant to Chapter 28, article 4.

1 Sec. 15. Any person violating the provisions of  
2 this act shall be guilty of a Class II misdemeanor.

3 Sec. 16. That section 28-416, Revised Statutes  
4 Supplement, 1978, be amended to read as follows:

6 and this act, it shall be unlawful for any person

12 controlled substance.

13 (2) Any person who violates subsection (1) of

#### LEGISLATIVE RESOLUTION 119.

Introduced by Vickers, 38th District; Chambers, 11th District; Kennedy, 21st District; Beutler, 28th District; Lewis, 45th District; Wesely, 26th District; Marvel, 33rd District; Cullan, 49th District; Schmit, 23rd District; Kremer, 34th District; Landis, 46th District; Hoagland, 6th District; Clark, 47th District; Haberman, 44th District; Fowler, 27th District; Warner, 25th District; Lamb, 43rd District; DeCamp, 40th District.

Whereas, the Nebraska Legislature has historically accepted responsibility for oversight of the public power industry, and

Whereas, public power districts and other Nebraska public power entities are governed by statutes enacted by the legislature, and

Whereas, recommendations for improvement of these statutes are often proposed to the legislature by public power industry employees,

Whereas, questions concerning power plant construction projects, and contracts awarded for those projects, have been brought to the attention of the legislature and the public by public power industry employees,

Whereas, these questions involve the awarding and management of power plant construction contracts by public power districts, and the oversight of such contracts by the elected board members and the public, and

Whereas, the Nebraska Power Industry Task Force, in agenda Item No. 10 of its final report to the legislature identified some state statutes governing public power bidding and awarding of construction contracts which need review.

Now, therefore be it resolved by the members of the Eighty-Sixth Legislature, First Session:

1. That the Legislature's Executive Board appoint a special interim study committee to examine these questions, such committee to consist of four members of the Executive Board, four members of the Public Works Committee and the Speaker of the Legislature.

2. That the committee conduct such hearings and hire such staff as are necessary to thoroughly conduct such study, and that the committee is hereby given the authority to obtain information by subpoena and administration of oath if deemed necessary by the committee.

A. The right of public power employees to contact any elected official and the policies of the public power industry regarding those rights.

C. Determination of any need for increased oversight of the public power industry by state agencies or local elected boards.

D. Other related issues which the committee determines deserve consideration as a result of their inquiry into the previously mentioned allegations and questions.

4. That such committee report its findings to the full legislature upon convening of the next regular session of this body.

Referred to the Executive Board.

Mr. George asked unanimous consent to be excused until he returns. No objections. So ordered.

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Luedtke presiding.

**PRAYER**

The prayer was offered by the Chaplain.

The most consoling assurance that any of us could possibly have, Lord, is Your promise that we can come to You any hour of the day or night with any kind of problem at all, and know that You are willing, even anxious to help us. What a shame it is, then that often we give You really serious thought only when we are in some kind of desperate scrape. Actually, there isn't a moment in our lives when we don't need You. It's like our need for food. . .we don't usually think much about it until we're hungry. In view of how much we depend on You, and how very much you have so willingly done for us all our lives, Lord, please give us the wisdom and determination to raise our minds and hearts to You daily. Continue to guide our actions always, so that everything we do may give You glory and bring us eternal salvation. Amen.

**ATTORNEY GENERAL'S OPINION**

Opinion No. 112  
May 10, 1979

Re: LB 262

Dear Senator Pirsch:

You have requested our opinion on whether section 3 of LB 262, currently before the Legislature, poses any constitutional problems due to the fact that section would limit the application of sections 83-1,107 and 83-1,107.01 to persons convicted of first degree murder. In our opinion, the provisions of section 3 of LB 262 here called into question would not violate a citizen's constitutionally protected rights.

Article IV, Section 13, of the Constitution of the State of Nebraska states in part:

“The Legislature shall provide by law for the establishment of a Board of Parole and the qualification of its members. Said board, or a majority thereof, shall have power to grant paroles after conviction and judgment, under such conditions as may be prescribed by law, for any offenses committed against the criminal laws of this state except treason and cases of impeachment. . . .” (Emphasis added.)

Thus, our Constitution grants the Legislature the right to establish criteria by which a person incarcerated in this state may become entitled to parole.

Section 3 of LB 262 would amend section 28-303 of our statutes which defines the offense of "murder in the first degree" and provides a penalty. The portion of section 3 of LB 262 relevant here states:

" . . . The laws affecting both eligibility for release on parole and the date when an inmate's discharge from the custody of the state becomes mandatory pursuant to sections 83-1,107 and 83-1,107.01, Reissue Revised Statutes of Nebraska, 1943, shall not apply to reduce the sentence of a person convicted of first degree murder to less than thirty years, but shall otherwise be applicable."

The creation of penalties for criminal offenses is properly a part of the legislative function and the Legislature may, by specific language, exempt certain classes of individuals from the application of more general statutes.

Sections 83-1,107 and 83-1,107.01 are applicable to all offenders committed to the Department of Correctional Services. Section 3 of LB 262 simply limits the applicability of those statutes in the instance of a particular class of offender. That class consists of offenders convicted of murder in the first degree.

The Legislature may properly distinguish between the treatment of particular classes of persons so long as the basis for the distinction is reasonable. In this instance, the basis for limiting the applicability of sections 83-1,107 and 83-1,107.01 is the fact that the persons in question have been convicted of the offense of murder in the first degree. We do not believe that classification to be objectionable from a constitutional standpoint.

Yours truly,  
PAUL L. DOUGLAS  
Attorney General

Assistant Attorney General

**ATTORNEY GENERAL'S OPINION**

Opinion No. 114  
May 15, 1979

Dear Senator Clark:

You have called our attention to amendments to LB 363 found on page 1973 of the Legislative Journal, and have asked our opinion as to their constitutional validity. The amendment you are concerned with would amend section 79-2650, R.S.Supp., 1978. This section now permits the board of a technical community college to certify to the County Board of Equalization of each county in the area a mill levy of not to exceed 2 mills for operating expenditures and 1 mill for capital improvements, the operating levy being authorized by subsection (1) and the capital improvements levy by subsection (2).

The amendment in question would add this language:

“The levy provided in subsection (1) of this section may be exceeded (a) with prior approval by a majority vote of the qualified electors of the area voting in an election called for such purpose pursuant to section 79-2650.03, Revised Statutes Supplement, 1978, or (b) by a two-thirds vote of the area board of any area having less than seven citizens per square mile except

that such increase shall not exceed that amount necessary to generate the maximum amount of receipts from local tax sources permitted under the Political Subdivision Budget Limit Act of 1979.”

You have asked whether this violates the Equal Protection Clauses of the federal and state Constitutions. We prefer to discuss this matter in terms of whether it creates unreasonable classification, in violation of Article III, section 18 of the Nebraska Constitution, although frequently a violation of that section is also a violation of the Equal Protection Clause.

The amendment would create a separate classification consisting of those technical community college areas having a population of less than seven persons per square mile. The citizens of such an area would not have a right to vote on the question of whether the levy in question would exceed 2 mills, although citizens in other areas would have that right.

The Supreme Court of Nebraska has frequently said that while it is competent for the Legislature to classify for purposes of legislation, such classification must rest on some reason of public policy, some substantial difference of situation or circumstance, that would naturally suggest the justice or expediency of diverse legislation with respect to the objects to be classified. See Taylor v. Karrer, 196 Neb. 581, 244 N.W.2d 201 (1976).

There must be some rational relationship between the basis of classification and the difference in treatment. Difference in population, or even density of population, could, of course, be a valid basis for classification for certain purposes. We have considerable difficulty in perceiving what relationship density of population bears to the question of whether or not the electors will be permitted to vote on the issue of exceeding the mill levy limitation fixed by section 79-2650(1). There may be some justification for the classification, but it is not readily apparent, and has not been disclosed in the amendment. We therefore believe the amendment to be constitutionally suspect in this regard.

You also ask whether the provision in question conflicts with the uniformity clause of Article VIII, section 1 of the Nebraska Constitution. We conclude that it does not. So far as a provision of this sort is concerned, uniformity is achieved if the taxation is uniform within the district in which the tax is imposed. There is no requirement that all technical community college areas be taxed uniformly, but only that all property within each area be taxed uniformly. We therefore conclude that the provision in question poses no problems in that respect.

Very truly yours,  
PAUL L. DOUGLAS

#### **LEGISLATIVE RESOLUTION 169.**

WHEREAS, growth has been a constant factor in the history of Nebraska's cities of the primary and metropolitan class; and

WHEREAS, such urban growth has many obvious and not so obvious costs in human, economic, and ecological terms; and

WHEREAS, urban growth often impinges negatively on the amount of land available for agricultural use; and

WHEREAS, urban growth can place excessive demands, and costs, on the services provided by the effected municipalities; and

WHEREAS, uncontrolled and unplanned urban growth often places unnecessary and costly reliance on methods of transportation that are not highly energy efficient; and

WHEREAS, urban growth most often occurs in areas that are not covered by commonly agreed upon comprehensive plans.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. The Executive Board of the Legislature is hereby directed and authorized to form a special interim study committee on urban growth comprised of eight senators from cities of the primary and metropolitan class; and

### **LEGISLATIVE RESOLUTION 170.**

Introduced by Newell, 13th District; Fitzgerald, 14th District.

WHEREAS, cities of the metropolitan class in the State of Nebraska face problems and difficulties not generally experienced by other municipalities of the state; and

WHEREAS, cities of the metropolitan class must rely on the Nebraska Legislature for much of their authority and ability to deal with the problems and difficulties with which they are confronted; and WHEREAS, the vast majority of the problems and difficulties faced by cities of the metropolitan class are outside of the experience of many residents of smaller communities and rural areas; and

WHEREAS, reliance on annualized funding and authority from the Legislature makes it difficult for cities of the metropolitan class to successfully make and implement long-term plans and strategies; and WHEREAS, many of the problems of cities of the metropolitan class require long-term, strategic planning if they are to be eliminated; and WHEREAS, residents of cities of the metropolitan class have a right to direct the actions of municipal governments of such cities by electing officials responsive to their wants, needs, and desires.

citizens is best served by an adequate, safe and efficient transportation system; and

WHEREAS, it is the duty of the State of Nebraska to provide its citizens with such a transportation system in the most cost efficient manner possible; and

WHEREAS, the State of Nebraska currently provides transportation services and facilities to its citizens through a variety of departments and commissions; and

WHEREAS, the existence of these various departments and commissions may result in higher than necessary administrative costs, duplication of services, less than optimum cooperation and communication, and less efficiency in State transportation systems than what might be possible; and

WHEREAS, combining the Nebraska Department of Roads, Department of Motor Vehicles, Department of Aeronautics, and other appropriate agencies or branches of government into such a Department of Transportation may increase the efficiency and quality of transportation services in the State of Nebraska; and

WHEREAS, such a reorganization and creation of a Department of Transportation has been done in other states and achieved the deserved goals of more efficient delivery of services.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

**RESOLUTIONS****LEGISLATIVE RESOLUTION 172.**

Introduced by Haberman, 44th District; DeCamp, 40th District.

WHEREAS, property tax mill levies set by local authorities at the local level are able to be significantly decreased as a result of the amount of revenue provided by state sales and income tax, personal property tax relief, state aid to education, homestead exemptions, and various non tax revenue; and

WHEREAS, in computing the budget requirements for the multitudes of local subdivisions of governments, it is necessary for purposes of accuracy to compute as amounts to be received these amounts of relief provided by the state; and

WHEREAS, in 1978 an error was apparently committed in instructions to local subdivisions of government from the State Auditors office in that there was no provision made to calculate these amounts into their budget statements; and

WHEREAS, as a result of this error it appears, from evidence turned in to a number of state senators, that these amounts to be received from the state were not calculated into the budget statements of many subdivisions of local government; and

WHEREAS, as a direct result of this error, many subdivisions of local government may have thereby caused massive over taxation on real property; and

WHEREAS, as a result of this there may develop considerable surpluses from over taxation of property; and

WHEREAS, property taxes of themselves are in many cases in the State of Nebraska an overwhelming heavy burden; and

WHEREAS, excess property taxation only creates an additional burden.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Oversight Committee of the Nebraska Legislature perform an interim study to investigate and analyze the system and methods and procedures for the reporting, application and receipt of state relief monies.

That such committee determine what errors have occurred to cause this problem and what remedies need to be taken to correct them, and that such committee take testimony and prepare legislation, if necessary, to correct the inequities that might have occurred or may occur and advise the public on the extent to which this over taxation has occurred.

Pursuant to adjournment, the Legislature met at 9:02 a.m., President Luedtke presiding.

The prayer was offered by the Chaplain.

In this, the day that the Lord hath made, help us to appreciate its beauty and to use aright its opportunities.

Deliver us from the tyranny of trifles during these closing days of the Legislature. May we give our best thought and attention to what is important, that we may continue to accomplish those things which are worthwhile. Teach us how to listen to the prompting of Thy Spirit, and thus save us from floundering in indecision that wastes time, subtracts from our peace, divides our efficiency, and multiplies our troubles. In the name of Christ. Amen.

Dear Mr. President and Senators:

I hereby return LB 579 with my signature but with one line item reduction veto.

I have reduced the amount appropriated to pay Claim No. 078 to Major Robert J. Van Valkenburg from \$10,708.00 to \$5,000. This reduction is being made because I have been advised by representatives of Mr. Van Valkenburg that after negotiation with his attorneys, an attorney fee in the amount of \$5,000 has been agreed to by the attorneys and Mr. Van Valkenburg. It is my understanding that the initial bill for attorney fees received by Mr. Van Valkenburg was \$10,708.00.

## ATTORNEY GENERAL'S OPINION

Opinion No. 116  
May 15, 1979

Dear Senator Carsten:

In your letter of May 10, 1979, you call to our attention Legislative Bill 281 which you introduced and certain amendments suggested by the Urban Affairs Committee which as you point out are found on page 801 of the Legislative Journal. You ask whether or not the enactment of Legislative Bill 281 as it is proposed to be amended would cause vacancies in the city commission from the effective date of the act until the next regular city election in Nebraska City in May, 1980.

The effect of Legislative Bill 281 as amended would be to increase the number of city commissioners in this class of cities from 3 to 5. This would be done by adding a commissioner of the department of public works and a commissioner of the department of parks and recreation. A commission form of government in cities of this size would then become identical to those in cities of the primary class.

The practical effect of Legislative Bill 281 would be to authorize the two additional commissioners in a city of this class as of the effective date of Legislative Bill 281 but at the same time, provide for the filling of those two additional commission positions in 1980. Apparently one of the reasons it is desired to wait until 1980 to fill these positions is so that all of the commissioners will not be up for election at the same time but rather will be staggered in the terms in which they serve.

Your specific question was whether or not this bill would create a vacancy. While it is true that positions which will have been authorized will not be filled, we do not believe that it would be appropriate to categorize this occurrence as the creation of a vacancy. As we stated above the Legislature in 1978, by the enactment of Legislative Bill 281 will create two additional commissioners who will not be selected until 1980. We find nothing wrong with this procedure however likewise we would see nothing wrong with the Legislature making provisions for these positions to be filled in a temporary manner until 1980 if that were the Legislature's desire.

In conclusion then specifically we find nothing legally objectionable about the Legislature creating a position in 1979 which will not be filled until 1980. We hope this adequately responds to your concern over the effect of the enactment of this legislation and we would of course be most willing to visit with you further if you have other specific questions.

Sincerely,

**ATTORNEY GENERAL'S OPINION**Opinion No. 117May 16, 1979

Dear Senator Wesely:

You have asked our opinion as to the applicability of certain provisions of LB 161 to the University of Nebraska. The first provision you inquire about is the amendatory language of section 3 of the bill. This section amends section 84-1317, R.R.S. 1943, by adding this language:

“No faculty member of the University of Nebraska, the Nebraska State Colleges, or the technical community colleges shall be forced to retire before age seventy without due process, nor shall any faculty member have tenure status revoked due to age.”

There are two matters we wish to call to your attention before discussing the effect of this amendment on the University. Section 84-1317 is a part of the State Employees Retirement Act. Section 84-1301, R.R.S. 1943, specifically excludes from the definition of “employee,” as used in that act, employees of the University of Nebraska, employees of the state colleges, and employees of technical community colleges. While it does not, we presume, affect the validity of the legislation, we believe a provision dealing with employees of these institutions is rather inappropriately placed in an act which does not purport to cover them.

Second, we are in considerable doubt as to the meaning of the amendment. It forbids forced retirement before age 70 “without due process,” but does not specifically forbid forced retirement solely because of age. Due process is a constitutional concept, far too complex to be discussed at any length in this opinion. It has two general aspects, substantive and procedural. Procedural due process usually is thought of as requiring notice and hearing. You inform us that the University has a bylaw which provides for mandatory retirement of tenured employees at the age of 65.

If the amendment we are concerned with is intended simply to require procedural due process, the employee could be given notice of a hearing to determine whether he had passed the mandatory retirement age of 65. If he had, he could be retired on that basis alone. We are confident that that was not the intention of the amendment, but the vague language of “due process” leaves that interpretation open.

We now turn to the question of whether the amendment would violate Article VII, section 10 of the Nebraska Constitution, which

provides that the general government of the University of Nebraska shall, under the direction of the Legislature, be vested in the Board of Regents. Our court construed that constitutional provision in Board of Regents v. Exon, 199 Neb. 146, 256 N.W.2d 330 (1977). The court said that although the Legislature could add to or subtract from the powers and duties of the Board of Regents, the general government of the University must remain vested in the Board. In elaboration of that proposition, the court said that the Legislature was without authority to direct employees of the University, and held that the Legislature could not fix and determine the manner in which raises were given to employees of the University, saying that the determination of salary schedules and the compensation to be paid employees was an integral part of the general government of the University.

We believe the court would probably reach the same conclusion with respect to mandatory retirement and loss of tenure due to age. In light of Board of Regents v. Exon, we believe it would be difficult to sustain the amendment in so far as it applies to the University.

You also ask whether the amendment contained in section 2 of LB 161 would apply to the University. Section 2 would amend section 48-1003, R.R.S. 1943, which now limits the prohibitions of sections 48-1001 to 48-1009 to the employment of persons between 40 and 65 years of age. The amendment would raise the upper limit to 70 years.

We will not discuss this amendment in terms of Article VII, section 10, because we are not confident that it applies. Despite what Board of Regents v. Exon says, the Board of Regents is probably not totally insulated from the impact of general laws passed by the Legislature. When the Legislature attempts to specifically direct or control actions of the Board, the legislation is suspect. But we do not believe the court intended to say that the Board could ignore laws of general application. It is not, after all, a separate, independent sovereignty.

However, we believe there is some doubt that sections 48-1001 to 48-1009 apply to the University, or to any other state agencies. State agencies and political subdivisions are not specifically included in the definition of "person" in section 48-1002. One might draw an inference that they might be included in the definition of "employer," since political entities acting with respect to any peace officer or firefighter are excluded. It can be argued that this shows an intention to include other political entities.

However, this is a very tenuous basis for reaching such a conclusion. We believe a provision controlling state agencies and political subdivisions should be reasonably specific in that regard. We note that 29 U.S.C. section 630, a part of the federal Age Discrimination Act, specifically includes in the definition of "employer" a state or political subdivision and any agency or

instrumentality of a state or political subdivision. The failure of section 48-1002 to include them makes it doubtful that the act was intended to apply to state agencies, including the University. If it does not, of course the amendment of that act by LB 161 would have no effect on the University.

Very truly yours,

Mr. President, Mr. Speaker  
and Members of the Legislature  
State Capitol  
Lincoln, Nebraska 68509

Dear Mr. President and Senators:

Legislative Bill 596 will neither be signed or vetoed. As you know,  
LB 596 provides Legislative "intent" regarding the use of  
appropriations provided in other bills.

It is my understanding that a bill such as this does not have the force  
of law in any event. It is primarily for that reason that I find it  
inappropriate to act favorably or unfavorably concerning LB 596.

Let me add, however, that there are several items therein that are of  
concern. I will briefly point out but two examples.

Section 23 expresses intent of committing future Legislatures to  
future increased funding of \$1,000,000 for fiscal year 1980-81 and an  
additional \$2,000,000 for fiscal year 1981-82 for soil and water  
conservation projects. This amounts to an unfunded appropriation by  
giving the Natural Resources Commission a clear signal to, in effect,  
obligate the State beyond the current appropriation year. As vitally  
important and necessary as our land and water resources are, given the  
uncertain economic conditions, it seems unwise to encourage such  
commitments at this point in time without measuring these against  
other future needs.

Section 13 provides that the Department of Welfare utilize federal welfare guidelines. There was a bill in the Legislature this Session, LB 35, addressing such a concept and that bill was not passed. In my opinion it is not now appropriate to address this issue positively in a document such as LB 596.

Respectfully,  
(Signed) CHARLES THONE  
Governor

Be it enacted by the people of the State of Nebraska,

Section 1. That at the primary election in May, 1980, there shall be submitted to the electors of the State of Nebraska for approval the following amendment to Article III, sections 7 and 19, of the Constitution of Nebraska, and the further amendment to Article XV of the Constitution of Nebraska, by adding a new section 19 thereto, which is hereby proposed by the Legislature:

“Article III Sec. 7. At the general election to be held in November, 1964, one half the members of the Legislature, or as nearly thereto as may be practicable, shall be elected for a term of four years, and the remainder for a term of two years, and thereafter all members shall be elected for a term of four years, with the manner of such election to be

determined by the Legislature; Provided, that when the Legislature is redistricted the members elected prior to the redistricting shall continue in office, and the law providing for such redistricting shall where necessary specify the newly established district which they shall represent for the balance of their term. Each member shall be nominated and elected in a nonpartisan manner and without any indication on the ballot that he is affiliated with or endorsed by any political party or organization. Each member of the Legislature shall receive compensation to be established in the manner provided by Article XV, section 19.

Article III Sec. 19. The Legislature shall never grant any extra compensation to any public officer, agent, or servant after the services have been rendered nor to any contractor after the contract has been entered into, except that retirement benefits of retired public officers and employees may be adjusted to reflect changes in the cost of living and wage levels that have occurred subsequent to the date of retirement. Except as provided in Article XV, section 19, the compensation of any public officer, including any officer whose compensation is fixed by the Legislature, shall not be increased or diminished during his term of office; Provided, when there are members elected or appointed to a board or commission having more than one member and the terms of one or more members commence and end at different times, the compensation of all members of such board or commission may be increased or diminished at the beginning of the full term of any member thereof. Nothing in this section shall prevent local governing bodies from reviewing and adjusting vested pension benefits periodically as prescribed by ordinance.

The surviving spouse of any retired public officer, agent, or servant, who has retired under a pension plan or system, shall be considered as having pensionable status and shall be entitled to the same benefits which may, at any time, be provided for or available to spouses of other public officers, agents, or servants who have retired under such pension plan or system at a later date, and such benefits shall not be prohibited by the restrictions of this section or of Article XIII, section 3 of the Constitution of Nebraska.

Article XV Sec. 19. There is hereby created a commission to be known as the Compensation Review Commission. The members of the commission shall be appointed by the Governor and shall be subject to the approval of the Legislature. There shall be two members appointed from each congressional district and one member shall be appointed from the citizenry at large. Members shall serve for terms of four years, except that of the members first appointed, one member from each congressional district shall be appointed for a term of two years. If the number of congressional districts changes the Governor

shall, within sixty days after such change, appoint two members from each congressional district for staggered terms and one member from the citizenry at large. The terms of all existing members shall terminate on the date the new members are appointed, but existing members may be reappointed. The members of such commission shall receive no compensation for the performance of their duties, but may be reimbursed for their actual and necessary expenses. The commission shall review salaries and expenses for members of the Legislature, members of the judiciary, the Governor, Lieutenant Governor, Attorney General, Secretary of State, Auditor of Public Accounts, and Treasurer and before the beginning of each regular session of the Legislature held in an odd-numbered year recommend to the Legislature any adjustments in compensation it deems appropriate. The Legislature may approve, reject, or reduce any recommendation of the commission. Compensation recommended by the commission shall not become effective until approved by the Legislature and when so approved shall become effective at the beginning of the next regular session of the Legislature following the session in which such compensation was approved.

Sec. 2. The proposed amendment shall be submitted to the electors in the manner prescribed by Article XVI, section 1, of the Constitution of Nebraska. The proposition for the submission of the proposed amendment shall be placed upon the ballot in the following form:

**LEGISLATIVE JOURNAL**

**EIGHTY-SIXTH LEGISLATURE  
FIRST SESSION**

**EIGHTY-NINTH DAY**

Legislative Chamber, Lincoln, Nebraska  
Wednesday, May 23, 1979

Pursuant to adjournment, the Legislature met at 9:03 a.m., President Luedtke presiding.

**PRAYER**

The prayer was offered by the Chaplain.

Dear Lord, an honest prayer some of us might make this morning is simply, "Thank God its over." These many weeks have been such a drain on so many of us, taking us away from responsibilities and loved ones elsewhere, and demanding so much of us.

Lord, we are also grateful for these past months and for all the good that has been accomplished. May our decisions be for the benefit of the people of this State. Continue during the interim to give vision, courage, and integrity to each of the Senators. Bless them, their families and loved ones, till we meet again. Be with our Governor and Lieutenant Governor, the various officers and servants of this Legislature.

May the people of this State, who often hear only the unusual things which occur in this room, appreciate the ability and dedication of this Legislature. Implant again upon our minds the truth that greatness is found in serving, and success in helpfulness. May this Legislature continue to love You, their God, and serve all the people. In our Lord's name. Amen.

**ROLL CALL**

The roll was called and all members were present except Mr. Lewis and Mrs. Pirsch who were excused until they arrive.

**CORRECTIONS FOR THE JOURNAL**

**STANDING COMMITTEE REPORT****Revenue**

**LEGISLATIVE BILL 71.** Placed on General File as amended.

Standing Committee amendments to LB 71:

- 1 1. Strike original section 1.
- 2 2. Insert new sections as follows:
- 3 "Section 1. This act shall be known and may be cited as the
- 4 Property Tax Levy Limitation Adjustment Act of 1979.

5 Section 2. The legislature hereby finds and declares that  
6 statutory property tax levy limitations expressed as tax levies do  
7 not adequately limit the tax revenues available to the various taxing  
8 districts for which they were created. While property tax levy  
9 limitations imposed a limit at the time of their enactment, increases  
10 in the value of property over time distort the intent and effect of  
11 the limitation. It is the intent of the Legislature that statutory  
12 property tax levy limitations be adjusted to reflect increases in the  
13 value of the property which is subject to taxation.

14 Section 3. The county assessor shall, for each taxing district  
15 within the county, annually determine the change in assessed valuations  
16 for real property, other than centrally assessed property, from the  
17 previous year's assessed valuations for such district and which are  
18 not due to improvements made during the preceding calendar year. At  
19 the time that the county assessor certifies new valuations, he or she  
20 shall report changes in assessed valuations to the Department of Revenue  
21 by class and type of taxing authority subject to a statutory property  
22 tax levy limitation as identified by the Department of Revenue.

23 Section 4. The Department of Revenue shall compile the changes  
24 in assessed valuations by class and type of taxing district subject to  
25 a statutory property tax limitation on a statewide basis and shall  
26 report the average percentage increase or decrease for each class and  
27 type of taxing district subject to a statutory property tax limitation  
1 to the State Board of Equalization and Assessment.

2 Section 5. At its annual meeting, the State Board of  
3 Equalization and Assessment shall adjust the statutory tax levy  
4 limitation for each class and type of taxing district subject to  
5 a statutory property tax levy limitation proportionately to the  
6 change in assessed valuations for such class and type. The board  
7 shall notify, by mail, the county clerk, county assessor, and  
8 chairman of the county board at least five days prior to such  
9 meeting of any proposed changes in any statutory property tax levy  
10 limitation. The legal representative of any taxing district may  
11 appear and show cause why the property tax levy limitation should  
12 not be adjusted. After a full hearing but not later than August  
13 15, the State Board of Equalization and Assessment shall certify the  
14 new levy limitations to each county assessor and county treasurer.  
15 The county assessor or county treasurer in each county shall notify  
16 each taxing district of the new tax levy limitations and shall notify  
17 such districts if its levy must be decreased to comply with such  
18 limitation.

19 Section 6. The State Board of Equalization and Assessment  
20 shall also file a report of the new tax levy limitations, together with  
21 any protests heard before the board, with the Clerk of the Legislature.  
22 At the next regular session of the Legislature, the Legislature may  
23 review the new property tax levy limitations. If the Legislature  
24 finds that the limitations create an undue hardship upon one or  
25 more of any class or type of taxing district, it may, by statute,  
26 adjust the levy limitation to alleviate such hardship.

27 Section 7. Following the certification of the new property  
1 tax levy limitation, if any taxing district in the state finds  
2 that its property tax levy exceeds the new levy limitation, it  
3 shall adjust such levy so as not to exceed the new levy limitation.  
4 In the event that any property tax is collected based upon a levy  
5 which exceeds the levy limitation as adjusted under the provisions  
6 of this act, that portion of the tax collected which exceeds the  
7 new levy limitation shall be deemed to be an illegal tax collection  
8 and shall be subject to refund under the authority of chapter 77,  
9 article 17."

### MESSAGES FROM THE GOVERNOR

May 23, 1979

Mr. President, Mr. Speaker,  
and Members of the Legislature  
State Capitol Building  
Lincoln, Nebraska 68509

Dear Mr. President and Senators:

I hereby return LB 594 with my signature but with three line item veto reductions.

Section 38 of LB 594 authorizes the Board of Regents of the University of Nebraska to undertake two projects on the Lincoln Campus - the restoration of the Temple Building and the construction of a Theatre Arts facility. The total cost of the two projects is limited to \$3,436,000 "plus any private donations which may be available...."

Section 38 also schedules the two projects in such a way that during FY 1980/1981 both projects will be under construction. Clearly, if private donations are not forthcoming for either or both projects, neither can be completed within the total dollars allocated. Thus, the possibility of large future deficits necessary to bring the two projects to completion is very real and distinct. Such deficits would require the reallocation of State dollars from other areas of need at a time of troubling economic prospects including the almost assured loss of federal revenue sharing funds.

Therefore, I have stricken the item of appropriation for the Theatre Arts facility project and have reduced accordingly the total project cost and the FY 1979/1980 appropriation by \$36,000 each. The remaining State funds will be ample to provide for the complete renovation of the Temple Building, which will include what are necessary life-safety modifications.

It is not, however, my intention to foreclose the possibility of constructing a Theatre Arts facility from any private donations which may become available to the Board of Regents for that purpose. It is my intent through this veto to limit the use of State monies to the restoration of the Temple Building and to ensure its completion within the limits of the appropriation.

Planning funds for the addition to the Calvin T. Ryan Library at Kearney State College were included in my budget recommendation. However, section 28 of LB 594 sets a total cost of \$4,069,500 for the project. I have reduced this total cost to \$3,669,500, which is ample for meeting the legitimate library space needs at Kearney. Initial planning can proceed as scheduled.

Planning funds for the renovation of the Education and Humanities Building at Wayne State College were included in my budget recommendation. I have left the total cost of the project at my recommended figure of \$1,514,290. However, I have reduced the FY 1980/1981 project allocation to \$60,000 in section 32 of LB 594. This amount together with the \$25,000 of planning money for FY 1979/1980 will be sufficient to finish all plans and construction documents so that initial renovation may begin in FY 1981/1982 and may be completed in early FY 1982/1983.

In closing, you are commended one and all for your restraint and careful deliberation in the preparation of the budget bills you have presented me. While our priorities have not in all instances been the same, we have nevertheless devised a budget which meets Nebraska's most pressing needs within an overall seven per cent limitation and existing tax rates.

(Signed) Respectfully,  
CHARLES THONE  
Governor

Mr. President, Mr. Speaker,  
and Members of the Legislature  
State Capitol Building  
Lincoln, Nebraska 68509

Dear Mr. President and Senators:

I return herewith LB 569 without my signature and with my objections.

LB 569, passed by a vote of 41 to 6, would allow the National Democratic Party to return the selection of national convention delegates to the smoke-filled room - to take this important choice from the Nebraska voters and give it to the Democratic Party hierarchy.

While it may even be that this can be accomplished without the aid of legislation, I for one will not lend my support to this step backward. "Open up the system" was the cry of the 1960's. It was a noble goal then. It is a good policy for today.

The selection of delegates who will nominate candidates for the Presidency of the United States should be made by the people.

If the Legislatures of the several states reject these efforts by the national Democratic Party hierarchy to subvert the election process, perhaps in time they will feel compelled to divert from their present course.

I urge you to vote for the democratic process and respectfully request your support of my veto of LB 569.

(Signed) Respectfully,  
CHARLES THONE  
Governor

State Capitol Building

Dear Mr. President and Senators:

I hereby return LB 262 without my signature and with my objections.

As you know, LB 262 repeals Nebraska's death penalty. Nebraska's current death penalty law is considered a model for the nation. It provides all possible safeguards.

The decision to veto LB 262 has been the most difficult decision I have made as your Governor. The proponents of LB 262, and particularly Senator Chambers, have made reasoned and forceful arguments in support of the bill.

In final analysis, the death penalty can only be justified if it serves as a deterrent to murder and thereby saves the lives of some innocent persons who would otherwise become murder victims.

While the evidence is not completely clear, it appears to me that the death penalty serves as a deterrent in some cases.

I respectfully request that the Legislature sustain this veto of LB 262.

Respectfully,  
(Signed) CHARLES THONE  
Governor

and Members of the Legislature

Dear Mr. President and Senators:

I return herewith LB 11 without my signature and with my objections.

LB 11 provides that a taxpayer may designate on his income tax return up to \$10 as a contribution to the Nongame and Endangered Species Conservation Fund.

This is a truly noble purpose but a bad policy. If we have a checkoff for this purpose why not for many, many other truly worthy causes.

The Department of Revenue should not become a collection agency for private donations even though it be for a public agency. If the Legislature wishes to support a project, the better procedure is to appropriate funds.

Respectfully,

Governor

Mr. President, Mr. Speaker  
and Members of the Legislature  
State Capitol  
Lincoln, Nebraska 68509

Dear Mr. President and Senators:

In keeping with my position as stated to you previously on LB 596, I am neither signing nor vetoing LB 595. LB 595 expresses legislative intent as regards the Accelerated State Water Planning Process and does not have the force of law.

I wholeheartedly concur with your body that water planning needs to be accelerated and have stated so in my Statehood Day Address and Budget Message. On March 23, 1979, I appointed the 11 member Interagency Water Coordinating Committee. Mr. Dayle Williamson, Executive Director of the Natural Resources Commission serves as secretary of the IWCC.

I am confident that the activities of the Accelerated State Water Planning Process and the Interagency Water Coordinating Committee will complement each other as we address the critically important area of water policy.

**ATTORNEY GENERAL'S OPINIONS**

Opinion No. 119  
May 18, 1979

Dear Senator Goodrich:

You have requested the opinion of this office as to whether section 30-2814, R.R.S. 1943, requires the trustee of a marital trust to inform other possible heirs of the trust property, when the spouse makes a valid gift of all or part of that trust property to one of these heirs. Your letter indicates that you were contemplating proposed legislation in regard to the confidentiality of such a gift.

Section 30-2814, R.R.S. 1943, provides only that the trustee shall keep the beneficiaries of a trust reasonably informed of the trust and its administration. Generally, the spouse is the sole beneficiary of a marital trust and while the children of the grantor and spouse may be beneficiaries of a second trust known as a family trust, they would not be beneficiaries under the marital trust. Therefore, if the spouse exercises an authorized power of appointment under the marital trust and thereby makes a gift of the principal and interest to one of these children, there is no requirement under section 30-2814, R.R.S. 1943, that the trustee notify anyone other than the beneficiary of the marital

trust of its present status. The spouse of course being the sole beneficiary of this trust would already be aware of the transfer.

While there may be provisions within a particular trust instrument that would require such disclosure to be made, there is no statutory requirement under section 30-2814, R.R.S. 1943, that would prohibit maintaining the confidentiality of such a gift.

Very truly yours,  
PAUL L. DOUGLAS  
Attorney General

May 18, 1979

Dear Senator Sieck:

You have requested an opinion from this office with regard to the administration of the Groundwater Management Act (Section 46-601, et seq., R.R.S. 1943). More specifically, you set forth four situations and asked whether any or all of them are in compliance with the existing law and rules and regulations of the Department of Water Resources and if not, whether under any other existing law the described wells can be given permits.

The situations you describe are these:

- (1) Persons constructing replacement wells in the control area with greater pumping capacity without first obtaining a permit.
- (2) Persons constructing replacement wells in the control area when the original well was not registered.
- (3) Persons constructing new wells in the control area without a permit.
- (4) Persons replacing parts, improving or increasing the pumping capacity of existing wells in a control area (not abandoned or replacement wells).

Presently, the Nebraska Groundwater Management Act in section 46-657 (8) R.S.Supp., 1978 defines an "illegal well" as:

“. . . (a) any well operated or constructed without, or in violation of, a permit required by the provisions of this act, (b) any well completed at any time before or after August 24, 1975 but not properly registered in accordance with the provisions of sections 46-602 to 46-605, or (c) any well not in compliance with any other applicable laws of the State of Nebraska or with rules and regulations adopted pursuant to this act; . . .”

The situations described in your letter clearly fall within the definition of "illegal well" as defined by section 46-657 (8) set forth above.

As to the second part of your inquiry, we were unable to find any provision in the Groundwater Management Act which provided for an exception to the foregoing definition of an "illegal well" under the Nebraska Groundwater Management Act. Similarly, we were unable to find anything in the rules and regulations which would provide for an exception.

Accordingly, we must conclude that the examples set forth in your letter are "illegal wells" as defined by the Nebraska Groundwater Management Act and that there are no exceptions under existing laws, rules or regulations by which these "illegal wells" can be made legal.

We note parenthetically, that on the fact of your request, you did not indicate that your question related to pending legislation. It is the policy of this office to provide legal opinions only in such instances. However, inasmuch as you advised us in a telephone conversation that your question does relate to proposed legislation, we have responded to your question. We hope that in so doing, we have been of some assistance to you.

Sincerely yours,  
PAUL L. DOUGLAS

Further I hereby certify that the Governor exercised his authority with one line item veto in the Bill; that is Claim No. 078 — Major Robert J. Van Valkenburg was reduced from \$10,708.00 to \$5,000.00. Further I hereby certify that in as much as the Legislature did not override the line item veto by Governor Thone and in as much as the Bill has been filed in the office of the Secretary of State in the form and amounts as approved by the Governor, I hereby certify that said Bill 579 became law on the 24th day of May, 1979.

In Testimony Whereof, I have hereunto set my hand and affixed the Great Seal of the State of Nebraska. Done at Lincoln this Twenty-fifth day of May in the year of our Lord, one thousand nine hundred and Seventy-Nine.
