

February 22, 1979

construction and then there will be a different one this year which will be a single bill that will point out or appropriate all funds from all agencies that go back to aid in the form of local government and the committee in discussion and I felt it was important that we specifically identify those amounts in a single bill because of their substantial impact upon the money that is appropriated by the state. Again, as Senator Marvel indicated, I assume the committee will be completed and their work will be done so hopefully the bills can be printed and be on the board by the time that we go to all day sessions. Shortly thereafter in any event we will have the same procedure of the booklet that you will recall a copy of last year's, I have in my hand, which we will hold two or three evening sessions for those legislators who wish to attend and as always that presentation will show last year's or the current year's appropriation plus three columns, all entitled recommendations. The agency's request is a recommendation, the Governor's recommendation, the Appropriations Committee recommendation and from that point on, only the Legislature of course as a whole decides as a policy matter what those appropriations will be and all three recommendations of course will be before you and I appreciate the opportunity to clarify the procedure to the body. As a normal course I seldom comment on news stories because as a practical matter the probability of correcting incorrect impressions through a news story is not likely to happen and it is usually best not even to make that effort. But I do want the members of the body to know that you will have the recommendations from the agency, from the Governor, from the committee and we, on the committee or myself particularly, specifically consider them exactly that, as recommendations to this body and that the body as a whole then makes their decisions. Thank you, Mr. President.

PRESIDENT: Proceed then with the item #5 on the agenda, introduction of new bills, Request #815 by the Executive Board. Vice chairman DeCamp, could you present this matter? I know you are on the phone but could you...? Senator Lewis is not here to present Request #815 from the Executive Board. We will proceed then with Request #815. The Chair recognizes Senator DeCamp.

SENATOR DeCAMP: Mr. President, members of the Legislature, before I go ahead with this I would like to ask Senator Marvel a question and Senator Duis, but he is not here. Senator Marvel. As I recall, about 4:30 or 5:00 o'clock yesterday Senator Duis came in and said he had already taken care of this in another bill or some doggone thing. What was the deal there?
