having done something which is a service to the state. When we talk about principles and we can compromise them to the point of enacting legislation which we know has a good chance of being stricken down as being unconstitutional, I say that the worst type of game is being played because the legislative process itself is being made suspect in the minds of the citizens. Regardless of how many deals and bargains are made, when something comes up on this floor on an issue that I think is not proper, I must speak against it and, Senator Kremer, you will understand this. May my tongue cleave to the roof of my mouth and my right arm lose her cunning if I sit in silence when I ought to speak. SPEAKER MARVEL: The Chair recognizes Senator Hoagland.
