

March 9, 1979

LR 22

SENATOR DeCAMP: Okay, Davy, all I am saying is that we are making really kind of a major decision here as to how this should or shouldn't occur and we are doing it almost instantaneously. I am just kind of guessing but I will bet you there aren't 20 people here that maybe because of so much other business had a chance to read this or really understand all the implications. So even if we only ran it through a committee, talked about it and got the arguments on both sides as to whether it should be this way, should be that way. Like I say, I am not opposed to the concept of deregulation. I sure strongly support it.

SENATOR NEWELL: I am not asking for deregulation. John, wait a minute, I am not asking for deregulation.

PRESIDENT: This kind of debate is not very conducive to understanding what is going on. Why don't you just make statements or make motions.

SENATOR DeCAMP: I would make a motion that the resolution go to...have you got any particular committee.

SENATOR NEWELL: Miscellaneous Subjects.

SENATOR DeCAMP: Miscellaneous Subjects Committee and then have them handle it and, of course, I am sure they will process it and put it out on the floor. I ask unanimous consent to have the resolution referred to the Miscellaneous Subjects Committee. Is that okay?

PRESIDENT: Why don't we put it in a motion form?

SENATOR DeCAMP: Well, I am asking unanimous consent first.

PRESIDENT: All right. Is there an objection? Senator Wesely objects.

SENATOR DeCAMP: Then I would move.

PRESIDENT: The motion will be prepared and the motion is to refer LR 22 to the Miscellaneous Subjects Committee. Mr. Clerk, is the motion before us?

CLERK: Mr. President, the motion is to refer LR 22 to the Miscellaneous Subjects Committee.

PRESIDENT: Senator DeCamp, do you have anything further on the motion to refer to committee?
