

April 4, 1979

LB 285

this allows you to subtract the difference, this from your budget and start out next year at 107% and I think that is what this does. So this will let you go to a 107% for your budget the next year. This is one is something that has to be in there and so I move for the adoption of this. Now we can vote on them one at a time unless you want to discuss them.

PRESIDENT: The Chair has ruled that we are debating them all together. I want you to close all together and then we are going to vote individually.

SENATOR KEYES: Okay, I have closed.

PRESIDENT: You have closed on all of your points now?

SENATOR KEYES: Yes. There is nobody else going to talk on them. Is there?

PRESIDENT: All right, all right. Senator Koch, for what purpose do you arise?

SENATOR KOCH: A question of the procedure.

PRESIDENT: Yes, sir.

SENATOR KOCH: I have had an amendment printed in the Journal since yesterday. Yet there have been amendments come up there all morning long, taking precedent...

PRESIDENT: Amendments to the amendment.

SENATOR KOCH: The question is...

PRESIDENT: Was yours an amendment to the amendment?

SENATOR KOCH: Mine was an amendment to the amendment. That is right.

PRESIDENT: Well I will let the Clerk answer that because he is...

SENATOR KOCH: Senator Keyes got a bill there talking about the same thing. It is on utilities and what is exempt and what is not. I had that printed in the Journal yesterday and I am a little bit concerned about the process here this morning. We are always in a hurry to call the question. We have got a bill right now that I want to tell you. It is a damn mess.
