LB 365

gosh, I can't stand another half cent of sales tax nor a cent of sales tax and we can stand here until we are blue in the face talking about the need for additional revenues in the State of Nebraska but you know as well as I do we are not very often going to get that because those people will say I don't want any more sales tax. I have already got enough in Omaha. If you add another penny on, it immediately becomes five and a half and that is where you are going to get your great static and those people are going to forget that this body gave them that privilege of a painless tax. Now then I submit to you and they haven't shown me any figures yet where they indeed cannot come up with their money from their property tax. Douglas County has undergone reappraisal. They have increased their valuation significantly. That will be on the books in 1980 and there is where I think they should get most of it. I am not going to take away the penny but they ought to have the political courage to take it from the property tax where it should be like almost all other cities do in this state, and let the state rely upon the sales tax to take care of the problems of the state and the citizens at large. Thank you.

SPEAKER MARVEL: Senator Keyes, do you wish to speak on the DeCamp amendment? Senator Dworak, do you wish to speak on the DeCamp amendment?

SENATOR DWORAK: Mr. President, colleagues, I would like to ask Senator Carsten a question please. Senator Carsten, the DeCamp amendment changes the date of the election from what date to what date please?

SENATOR CARSTEN: No, it is my understanding, Senator Dworak, the election is not changed at all.

SENATOR DWORAK: What does the DeCamp amendment do specifically, Senator Carsten?

SENATOR CARSTEN: It puts the date of the cut off to 1983, December 31, 1983.

SENATOR DWORAK: And what does the committee, how did the committee put the bill out?

SENATOR CARSTEN: '81.

SENATOR DWORAK: And so he is extending that two more years, the cut off date?
