LB 348

amendment, but I have a question of Senator Fowler. I know that Senator Fowler has an amendment up too that deals with some of the same subject matter. Senator Fowler, could you explain what your amendment does, which I think is following and what the procedure ought to be? Is this in...

SENATOR FOWLER: Well, I do have, but I've not had copies... I'm just having copies made now. The bill came up kind of unexpected, an amendment that includes Senator Duis' concept and a few others.
