

April 11, 1979

LB 572

SENATOR NICHOL: As I understood from Treasurer Marsh, the previous law should not have said what it said and should say what our proposed bill says now but since it was apparently not of much consequence, perhaps this is the reason why it was never changed in the past.

SENATOR KAHLE: Well, I don't want to pursue this any further. I haven't heard a thing from the county officials about it so I am assuming that they are satisfied with it but it does seem like a strange arrangement.

SENATOR NICHOL: Senator Kahle, I believe that the county officials are satisfied with it the way it is now because they get to keep the money in the county treasury and certainly I don't recall hearing anything from any county official wanting it changed. The county officials that we did hear from, I believe all of them, wanted it left the way it is now.

SENATOR KAHLE: Well just one more point, it would seem to me that if the money is collected locally and distributed locally it is kind of stupid to send it into the State Treasurer and then have him disburse it back out either to the counties or to the subdivisions of government.

SENATOR NICHOL: That is correct.

SENATOR KAHLE: Thank you.

SPEAKER MARVEL: We are going to have to cut off discussion on this because several have to leave and I will read the list that are going to the Karthaus funeral and then, Senator Nichol, we will take this bill up when you get back. Senator Clark, Senator Hasebroock, Senator Duis, Senator Schmit, Senator Marsh, Senator Warner, Senator Nichol, Senator Kremer, Senator Carsten, Senator Wagner, Senator Goodrich. You can meet... Senator Clark will be out in the rotunda. You will go by automobile and the automobiles will be down at the North entrance. While that group is leaving, underneath the North balcony it is my pleasure to introduce nine girls from F.H.A., ages fifteen and sixteen, and four adults from Big Springs and Bayard, Nebraska and their F.H.A. advisor is Jean Francisca. Would you stand so, let us see where you are. Are you up there? Okay. Now we are going to have to move around on this list a little bit so I hope you will bear with me. Will you please take the consent calendar and II, where you see 580, write in 329 and LB 39. Those two bills were dropped and now they are back on the calendar and we will
