

questions I asked you. I said how does the meat get into the United States? I said do you order individually down there at the Hinky Dinky? They have got their office in Sacramento, their main, does it come into Sacramento, then they truck it to Nebraska?

SENATOR DeCAMP: It comes through ports. It has been inspected down there and it has to be certified when it comes to the ports and then it has distributors here.

SENATOR FITZGERALD: Don't you think it should be a federal mandate then or federal....

SENATOR DeCAMP: Now you are into the interstate commerce clause and that is what some of the courts have said on this particular subject I guess.

SENATOR FITZGERALD: Because you recall when I was a freshman Senator, I put that bill in there for suits, you had to label suits if they are foreign made, American made, Union made?

SENATOR DeCAMP: Yes, I remember that.

SENATOR FITZGERALD: Uh huh, thank you, John.

SPEAKER MARVEL: Senator Hefner.

SENATOR HEFNER: Mr. President, members of the body, I believe that I will have to oppose this bill. One of the reasons is because it is a whole new different bill and I was wondering, Nelson or Senator Merz, if you would be willing to send it back to the committee. Otherwise it doesn't look like there'd be enough support to pass the bill or to advance it.

SPEAKER MARVEL: Senator Merz, do you want to answer the question?

SENATOR MERZ: Well, you are the first one to ask that part of it but I don't know. We have researched it a lot this summer and I don't know what a committee could do to it outside of they amended it from one end to the....would you send it to a different committee?

SENATOR HEFNER: Mr. Chairman, I would like to ask (interruption).

SENATOR MERZ: Where do you want to send it?
