LB 822

sure that Senator Sieck did not mean it that way, but if you count these little small amendments here and there, it smells a little bit like supporting what is known by other terms as a police state. I think if somebody wants to buy that instrument let them go ahead. I don't need it. I don't need a CB radio. If somebody wants to spend three hundred bucks, I don't think we should spend our time on it, and I hope we defeat the amendment and go on.

SPEAKER MARVEL: Senator Sieck, do you wish to close on your amendment?

SENATOR SIECK: Yes. I...Senator DeCamp says I am playing with his life. I really am. If he is disobeying the law that much, we could be playing with your life, and you could be breaking the speed limit and...which you should not. And I know that these things are used in this manner. Now, if this is written so that we don't quite have it written clear enough so we are talking about fuzzbusters, we can sure change that in Select File. But I encourage you to support this amendment. I think this is needed, and I don't think our populace needs to have a gadget of this type to break the law. That's what they are doing. Thank you.

SPEAKER MARVEL: The motion is the adoption of the Sieck amendment to LB 822. All those in favor vote aye, opposed no. Have you all voted? We are voting on the Sieck amendment to LB 822. Have you all voted? Senator Sieck, what is your pleasure? Call of the House has been requested. All those in favor of placing the House under Call vote aye, opposed vote no.
