

to be able to speak again but he has spoke twice and that is enough. I've got a light on and I would like to talk and if I am not next, at least let me be in line and I do come once in a while before some of the others that speak two and three times on the bill. So when you get the opportunity and have all the lights out up there that are ahead of me, ask me if I have something to say if my light is on and if it isn't, but don't start over again the second time...

SPEAKER MARVEL: Okay, your light is on but it will be a minute. First of all we will recognize, according to the sheet which the young man is keeping we will recognize Senator Schmit and then, Senator Keyes, after Senator Murphy you will be recognized. You are on the list. Pardon me? Okay, the motion is to overrule the Chair. You have to speak to that motion or the Chair will indicate you are not germane.

SENATOR NEWELL: (Mike not turned on immediately.) ...middle of a vote. There is none of my amendments pending and or being introduced at this time so I just think this whole thing is out of order. I think that Senator DeCamp's point may, in fact, be germane at some point in time but not in the middle of a vote. I think it would be germane at the best when my next amendment comes up.

SPEAKER MARVEL: Senator Newell, we are not in the middle of a vote so the request for a point of order is in order. We are not in the middle of a vote.

SENATOR NEWELL: Mr. Speaker, I just finished by closing. Now, Senator DeCamp I would think his point would be in order if, in fact, one of my amendments was being introduced. Then he could talk about the germaneness but this has clearly been germane till now. We have discussed it. We are now preparing to vote on this issue. I don't see how that could be germane at this time. Now it might be germane on the next amendment but at this time that point of order seems to be out of place since there is nothing up there that has been ruled out, that has been in question.

SPEAKER MARVEL: The Chair declares you out of order. The Chair declares that a point of order is in order as long as we aren't in the middle of a debate, therefore, Senator DeCamp was in order. Now, Senator Schmit. Yes.

SENATOR NEWELL: I would like to make a motion to overrule...

SPEAKER MARVEL: There is already a motion. We have to wait
