Section 1, as amended.  All those in favor of that
motion vote aye, opposed vote no.  Have you all voted?
Record the vote.

CLERK:  32 ayes, 0 nays on adoption of amended Rule 7,
Section 1, Mr. President.

SPEAKER MARVEL:  Okay, the motion is carried.  What is
the next order of business?

CLERK:  The second division.

SPEAKER MARVEL:  Excuse me?  Senator Wesely.

SENATOR WESELY:  I move the adoption of Rule 3, Section
11.  Can I go ahead and speak on it, Mr. Speaker?

SPEAKER MARVEL:  Right.

SENATOR WESELY:  Rule 3, Section 11, deals with the adoption
of the committee Procedural Rules.  This is a point that
I think has been discussed by a number of committee chair-
men.  Essentially, what this section would allow, it's a
new requirement that we adopted during the 1980 Session
applicable to the start of this session, each committee
will now have to adopt comprehensive committee rules
governing committee procedures.  These rules will be filed
in the Clerk's office.  It does not state, that section
does not state what rules exactly have to be adopted.
They suggest some model committee rules that a committee
can adopt, or a committee is free to adopt any rules that
they find appropriate.  So there is a great deal of
flexibility left the committees and the committee chair-
men to adopt whatever they feel is most appropriate for
the committee, but at least some committee rules would
have to be adopted and put on file with the Clerk's office.
That is the motion and that is the issue.

SPEAKER MARVEL:  The Chair recognizes Senator Beutler.

SENATOR BEUTLER:  Mr. Speaker and members of the Legis-
lature, again just for background I would point out again
that these were adopted by the last Legislature and were
to go into effect December 31st of this year and tech-
nically are every bit as much our rules as the old permanent rules
were.  Again just for your information this came from
the LR 168 Committee and from the Rules Committee, both
of which committees have approved of it, and so it has
been through the same elaborate procedure which I won't
go to the trouble of repeating.  I would say that this
is another item where the Nebraska public asked for some
