public property.

PRESIDENT: Any further discussion? A motion on the desk,
I believe, Mr. Clerk.

CLERK: Mr. President, Senator Beutler moves to amend the
bill. (Read Beutler amendment found on page 485, Legislative
Journal.)

PRESIDENT: The Chair recognizes Senator Beutler.

SENATOR BEUTLER: Mr. Speaker, members of the Legislature,
very quickly, this is a small technical amendment which
has Senator Vickers' approval. The notice requirement in
the bill says that the notice has to be published three
consecutive weeks in a legal newspaper, published, et cetera,
et cetera. I am putting in published once each week for
three consecutive weeks because it is not Senator Vickers'
intent, for example, if you have a daily paper that you
publish it twenty-one times. So this just clarifies that
we are doing it once each week for three consecutive weeks
which is the general provision with regard to notices on a
lot of items in our law. Thank you.

PRESIDENT: The Chair recognizes Senator Vickers on speaking
to the Beutler amendment.

SENATOR VICKERS: Yes, Mr. President, members, I thoroughly
agree with Senator Beutler in this amendment. It is a very
good amendment and it does clarify, as Senator Beutler indi-
cated, that exactly what we are talking about. I might
also point out for the body's general information that the
rest of the language stricken, from my observacion, at least,
I think most all those small cities and villages are well
aware of what newspaper is published in their area and that
stricken language seemed to be very unnecessary. I would
urge the body's adoption of Senator Beutler's amendment.

PRESIDENT: Any further discussion of the Beutler amendment?
Senator Beutler, anything further on your amendment? The
question then is the adoption of the Beutler amendment to
LB 33. All those in favor signify by voting aye, opposed nay.
Record the vote.

CLERK: 31 ayes, 2 nays, Mr. President.

PRESIDENT: Motion carries. The Beutler amendment is adopted.
Senator Vickers, anything further on LB 33?

SENATOR VICKERS: Mr. President, I'd just move that LB 33 be
