LB 290

SENATOR WAGNER: Mr. Speaker and members, last week I asked our local radio station to do a survey on this LB 290 in relation to the one and two license plates. In twenty minutes we had 46 calls and out of that 46 calls 31 were for two plates and 15 were the other way. So really what it did it indicated that people out in my district anyway want two plates and they voted two to one to do this. I thank you. Thank you, Senator Maresh, for yielding your time to me.

SENATOR NICHOL: Were you through, Senator Maresh?

SENATOR MARESH: I move that LB 290 be returned to Select File for the specific amendment to strike the Haberman amendment.

SENATOR NICHOL: We are now voting on the Maresh motion to return LB 290 for consideration. All those in favor vote aye, opposed vote nay. Have you all voted please?

CLERK: Senator Nichol voting aye.

SENATOR NICHOL: Have you all voted? Record.

CLERK: 25 ayes, 20 nays, Mr. President, on a motion to return the bill.

SENATOR NICHOL: The motion carried the bill is returned. Senator Maresh.

SENATOR MARESH: Mr. President, I move the Haberman amendment be stricken.

SENATOR NICHOL: There are still some lights on from last time. Will those of you who do not wish to speak on this please turn them out and I will go from there. Senator DeCamp.

SENATOR DeCAMP: Mr. President, members of the Legislature, I am truly on the horns of a dilemma and I'll explain why because my good friend Senator Sieck, Senator Kahle, Senator Hefner and Senator Maresh have put me there and they have really put all of us there, if you think about it. Now let's go back a little while. License plates. Reason for the change. Reason for beads on paint or whatever, I repeat it is in their record repeatedly, two million dollar savings. Two million dollar savings. They accepted the notion that they were sacrificing some safety but they pointed out that safety wasn't the purpose of license plates. My good friend
