public hearing requirements that when certain issues are to be resolved public hearings have to be held. Last of all it requires that an annual report and a plan of work that has been prepared and to be submitted comes to the legislature. There are other somewhat less aspects of the planning and review process but this basically covers the intent of the bill and now Mr. Chairman, I think we should take up the amendments unless there are questions relative to the bill itself.

SPEAKER MARVEL: Senator Kremer, do you wish to take up your two amendments now? Okay, the Clerk will read.

CLERK: Read Kremer amendment.
