LB 134

would like to have not been here if they had known that we were going to do all this constructive sorts of things. I think it is important at this point in time at this very moment in our lives that we discharge this bill, LB 134. Adopt the Schmit amendment or don't adopt the Schmit amendment, but let's quit tinkering, messing and speeching around on this bill and get to some more important things. Thank you.

SPEAKER MARVEL: Senator Beutler, and then Senator DeCamp. Senator Beutler. We are on the Schmit amendment.

SENATOR BEUTLER: Mr. Speaker and members of the Legislature, a question for Senator DeCamp. Senator DeCamp.

SENATOR DeCAMP: Yes, sir.

SENATOR BEUTLER: Senator DeCamp, I am really tempted to support this amendment and I assume that if I do and it gets attached that you will support the bill.

SENATOR DeCAMP: Senator Beutler, if this amendment gets attached in conjunction with the other things, not only would I support the bill, I would try to do everything I could to get the bill passed, and I would ask unanimous consent to add my name because the bill finally does what you claimed it is supposed to, disclosure.

SENATOR BEUTLER: Senator Schmit, could I ask the same question of you. If this amendment gets attached, are you going to be supporting the bill?

SENATOR SCHMIT: Well, Senator Beutler, I don't know whether I will support it or not. I just think there is going to be a lot of...you know, at this stage if this is the last amendment, I think I could probably answer that more accurately. But there may be a dozen more amendments onto it, and I don't know....(interruption).

SENATOR BEUTLER: Well, let's assume that this is the last amendment, would you be supporting the bill in that case?

SENATOR SCHMIT: I will read it over and see what I would like to do about it...(interruption).

SENATOR BEUTLER: You are asking to put on all these amendments but you are not sure you are going to support the bill.

SENATOR SCHMIT: No, I am not. No, I am not.
