LR 186

parrelling in the industry itself. I think it is time for this to stop. I think if we approve this resolution with a good vote I think it is going to bring some results. So I strongly support this particular resolution. Thank you.

SPEAKER MARVEL: Senator Wagner, do you want to close?

SENATOR WAGNER: I would like to speak on this resolution. Mr. Speaker and members...

SPEAKER MARVEL: I will recognize you to speak and also to close.

SENATOR WAGNER: All right, will do. I think I have the concerns of Senator Kremer, Senator Vickers, Senator Kahle and Senator Haberman...

SPEAKER MARVEL: I'm sorry. Go ahead.

SENATOR WAGNER: ...this state and our nation is getting in kind of a serious energy problem. We do have some sites in the State of Nebraska where we can put in hydro facilities. This one here is a very unique one. The dam is in place. The penstock is in place and basically this unit would support about 8% of one of those six hundred and fifty megawatt units sitting out there at Gerald Gentlemen and we need to develop things like this in the State of Nebraska and it is really kind of frustrating to me to think that we have two of our political subdivisions fighting back and forth who cannot kind of get together and resolve this crisis as far as these negotiations are concerned. I think it is a good resolution. I support it and hope we can resolve this problem.

SPEAKER MARVEL: Senator Vickers, do you wish to be recognized?

CLERK: Mr. President, Senator Vickers has a second amendment that is on page 2119.

SENATOR VICKERS: Mr. President and members, this amendment I am offering to this resolution in a little more serious vein than the last one although the last one I was deadly serious with also because of the fact that a point needed to be made. The point needs to be made here also I think. The problem with public power in the State of Nebraska as many of us are well aware of and as many members of the public are well aware of, is the fact that one entity cannot get along with another entity. We have lawsuits between entities when, in fact, they are all working for the same people, all trying to provide the same goals. Now, the proposed hydro plant at Lake McConaughy
