one. If we cannot have discipline by voting the proper
way on each issue as it comes up, then what we ought to do
is vote out all the rules, period, and ad hoc our way
through the entire session. Capable people like Senator
DeCamp who can rally all kind of support will come to the
forefront as usual. If we make the comparison of quality
rising to the top, that's where I will be as usual, but
we don't want to just suspend the rule because two issues
that on the surface could look the same may really only
be similar, but in essence they are different. So I think
as Senator Beutler and Senator Dworak have pointed out,
we can take each issue that comes up and deal with it at
that time. But I am opposed to what Senator Marvel has
offered.

SPEAKER MARVEL: Senator Haberman.

SENATOR HABERMAN: Mr. President and members of the body,
I would like to ask the Speaker some questions to clarify
just exactly what you said, if I may. Is it your intent
of your motion that when a kill is put on a bill that we
vote right then and there to kill it or to pass it on, or
just exactly what is the intent of your motion, if I don't
understand it?

SPEAKER MARVEL: We...we...let me say this, first of all,
and if anybody is disturbed by the fact I am sitting up
here instead of down there, I will be glad to move down
there. Senator Beutler is attempting to amend the rules.
What I would suggest...(microphone not on)....the rules.
That is a general answer to your question.

SENATOR HABERMAN: You want to suspend the rules and take
up each kill motion as it comes on the bill rather than
laying it over the one day. Is that correct?

SPEAKER MARVEL: Let me read you what I....(interruption).

SENATOR HABERMAN: Well, I would rather have you just tell
me than read it to me. But you do it your way, you are
the boss.

SPEAKER MARVEL: What?

SENATOR HABERMAN: There seems to be some confusion among
the troops out here just exactly what the intent of it is.

SPEAKER MARVEL: Senator Beutler and Senator...where's
Senator....Senator Wesely, now we had a discussion on his
and we are talking about the danger in connection with a
