

January 6, 1982

Legislature to disrupt the process and to react emotionally on the moment. You have got to make good rules in the first place and to follow them in the second place and I think that the result of that will not be to hold anybody down but to provide for the orderly processing of everybody's concerns. Thank you.

SENATOR CLARK: Senator Chambers.

SENATOR CHAMBERS: Mr. Chairman and members of the Legislature, there might be a couple of senators here who are not very familiar with me so in order that they won't get the impression that I say things that I cannot confirm, I'll give an example right now on this proposition of what I said about being able to get around any rule and I need somebody. Senator DeCamp, can you take a second to answer a question or two for me so that it will be clear that I am not manufacturing rules at the moment? If this proposition passes how many votes would it take to suspend the rules?

SENATOR DeCAMP: 33, I believe. Isn't that what it is?

SENATOR CHAMBERS: Yes. Senator DeCamp, if there were 30 of us who wanted to suspend the rules and it took 33 to suspend it, could we suspend the rules with those 30?

SENATOR DeCAMP: There's ways to do it. You know that.

SENATOR CHAMBERS: But let's take this...if...

SENATOR DeCAMP: No.

SENATOR CHAMBERS: right, now how many votes does it take to amend the rules?

SENATOR DeCAMP: Today it will take 25. After this it will take 33.

SENATOR CHAMBERS: To amend them?

SENATOR DeCAMP: Yep. No, it will take 30 I think. Is it 30 you've got now? 30.

SENATOR CHAMBERS: I'm talking about just amending right now...

SENATOR DeCAMP: So you take 30 to change it that way.

SENATOR CHAMBERS: Thank you. Members of the Legislature, all I am showing you is this. If you have a rule that takes 33 for suspension and there are 30 people that want to do
