anyone else has no means of identification for this very
specialized piece of equipment. As you will note from the
amendment that there is a penalty section, Section 3. "Any
person using a vehicle registered pursuant to Section 2 of
this act for any purpose not specifically authorized shall
be guilty of a Class IV misdemeanor..." and so that section
was put in there so that if by some chance some well driller
does use this equipment for commercial purposes, then it
can be curtailed. That in a nutshell is the crux of the
amendment which then it becomes the bill. I ask that the
amendment be adopted.

SENATOR CLARK: Senator Carsten on the amendment.

SENATOR CARSTEN: Mr. President, members, just a question
of Senator Lamb, how did you arrive at 1/12th?

SENATOR LAMB: We looked at the statutes and there is a
provision in there where semi-trucks using farm licenses
have a 1/12th rate so that looked like as good a place to
start as any.

SENATOR CLARK: Senator Nichol.

SENATOR NICHOL: Mr. Chairman, I would just have a question
of Senator Lamb. When I see this bill I think of oil
drilling equipment. Would this relate to water drilling
equipment or not or is that necessary to put in the bill?

SENATOR LAMB: Well, that is a good question, Senator Nichol.

SENATOR NICHOL: I didn't mean to ask a difficult one but
I just thought maybe you would want to say something in your
amendment in case that it would apply to water well drilling.

SENATOR LAMB: I think that is a good suggestion. I guess
what I would say at this point is that I would ask that we
adopt the amendment and advance the bill and I will get
with you on that and we may have to do something about
that. I had not prepared that.

SENATOR NICHOL: That is fine.

SENATOR CLARK: Senator Wesely.

SENATOR WESELY: Mr. President, members of the Legislature,
I would just like to rise in support of this amendment
from Senator Lamb. I have talked to Senator Lamb and others
supporting this bill and I thought one of the concerns was
that there is no fee charged and that there might be some
