

pieces of information will not be available. Such services as State Civil Defense, State Safety Patrol, many government services in Lincoln that are closely linked and dependent upon an adequate weather facility here will lose those services and a similar problem exists in the north part of this state with the loss of the Valentine weather station. The stretching out of these weather stations over the distance as projected would mean that many vital pieces of information with regards to emergencies including flood conditions, tornadoes and so on could be lost due to inadequate coverage. So I would move for the adoption of the resolution.

PRESIDENT: The Chair recognizes Senator Marsh.

SENATOR MARSH: Thank you, Mr. President. I would ask unanimous consent to have my name added to the resolution. I strongly support the resolution and the need for the resolution. Let's quickly add this to our file and move on to other business.

PRESIDENT: Senator Marsh requests unanimous consent to have her name added to LR 221. Any objection? If not, so ordered. The Chair recognizes Senator Kahle.

SENATOR KAHLE: Mr. Speaker, members, I also support this resolution. I think Nebraska is noted for its diversity of weather and we have very quick changes and very drastic changes at times so I think it is very necessary that we keep these facilities in our state. Thank you.

PRESIDENT: Any further discussion? Senator Fowler or Senator Lamb, do you wish to close? No close. Closing is waived. The motion before the House is the subject of adoption of LR 221. All those in favor vote aye, opposed nay. Record the vote.

CLERK: 30 ayes, 0 nays, Mr. President, on the adoption of the resolution.

PRESIDENT: Motion carries. LR 221 is adopted. Anything further to read in, Mr. Clerk? Would you read some things in and then we will or maybe we could get the committee appointed first. The Chair recognizes Speaker Marvel at this point for purposes of a motion.

SPEAKER MARVEL: The motion is that a committee of five be appointed to escort the Chief Justice for purposes of delivering the State of the Judiciary Address. This will be the second in the history of, at least modern history of Nebraska. So I so move the committee of five, Mr. President.
