SENATOR CLARK: These are motions up here. I have no....

SENATOR NICHOL: I know but what my question is we just got through with some of these bills (interruption.)

SENATOR CLARK: That may be but you can return a bill at any time, anyone...

SENATOR NICHOL: Okay, now I want to know this because I'm going to pull something I've never pulled in my life. If we're going to continue over these same things over and over, then I'm going to start putting on amendments. I have nothing further to lose. So I just want to clear the air as to whether we're going to keep going over these same things again and again.

SENATOR CLARK: Well, Senator Nichol, are you worried about 568?

SENATOR NICHOL: Yes, that is just for an example.

SENATOR CLARK: That is the last bill. If we get to that thing I'm going to be the most surprised person here.

SENATOR NICHOL: Well, is that going to be the play though, the game from now on, because we just got through with that a few minutes ago...

SENATOR CLARK: Senator Nichol, I don't play their games. Everyone is playing a game in here. My only purpose up here is to try to keep the games straight and I am attempting to do that but it is getting harder and harder to do.

SENATOR NICHOL: I don't mean to give you a hard time at all because I appreciate your position. I just wanted to know what we're going to do.

SENATOR CLARK: I don't know what we are going to do and if anybody does I'd like to know who it is. Senator Chambers, for what purpose do you arise?

SENATOR CHAMBERS: Mr. Croupier, I would just like to comment on these that are coming up now. The bill may have been considered but there were motions on these bills which, in fact, were not considered because the fifteen minutes ran out. So it won't be a repeat of the same motion.

SENATOR CLARK: Senator Vickers, did you have a little something you wanted to say? Is there any more orators in the crowd? If not, we will continue. Put another orator over here. Senator Hefner.
