SENATOR SCHMIT: I would like now to recommend that the Legislature approve the recommendation of the committee on Agriculture and Environment, the Governor's appointment of Patricia Hoffman to the Environment Control Council. It is a reappointment. She presently serves as the chairman of that Council. She was active in the drafting of the original legislation which I introduced in 1971. She has been a very active participant prior to her appointment to the Council. She has performed excellently on the Council. She is performing a very fine job as chairperson of that committee and I would recommend her approval by this body. We also recommend the approval of the reappointment of Mr. Bill Krejci to the Environmental Control Council. He has represented the livestock industry on that Council for a long period of time. He also was active in the drafting of the original legislation and cooperated with me back in 1971 and many times in succeeding years as we made improvements in that legislation. I recommend that the Legislature approve those appointments.
