**MESSAGE FROM THE GOVERNOR**

The following constitutes Governor Kerrey's message, Economic Development Policies For A More Productive Nebraska, as delivered to the Legislature on March 24, 1983, referred to on page 1108, Fifty-First Day's Journal.

Today, I want to review with you Nebraska's economic health, our strengths with regard to economic development, the philosophy which guides me in this area, actions and proposals to date, and finally, new proposals.

The Nebraska economy has been shaped and strained by a wide variety of national and international influences. It exhibits a number of peculiar weaknesses; these are factors we must come to terms with.

The international community, for example, has been laboring under tremendous pressure since last fall. Consequently, the market for

U.S. exports has decreased, adversely affecting Nebraska agriculture and manufacturing.

Equally significant is the national recession, which has brought us to the highest level of unemployment and business failure rate since the Great Depression. Families with little income cannot afford to purchase Nebraska food and products. Instead of being supply-sided, we have been broad-sided by national economic policies.

This is readily apparent when we examine the burgeoning federal debt. The sale of federal bonds to cover the debt forces U.S. interest rates to remain higher than in other countries. As a result, the cost of the American dollar makes it more expensive to purchase U.S. goods with foreign currency.

The run-away federal debt also places Nebraska farmers and business people in a difficult situation. They must compete with their counterparts in other states and with the federal government for funds.

Needless to say, these forces have produced a serious economic picture for Nebraska. In February of this year, for example, our unemployment rate was 7.9%. It had decreased incrementally from an all-time high of 8.0% in January. However, Nebraska's February unemployment rate was still 1.7 points higher than February, 1982; 2.8 points higher than February, 1981; and 3.8 points higher than February, 1980.

Not surprisingly, Nebraska paid out over \$8.6 million in unemployment benefits during January, as compared with \$6 million in December and \$6.3 million in January, 1982. The human costs of unemployment are, of course, equally staggering.

Nebraska's agricultural sector has also taken a number of crushing blows. Trading terms for farm products have deteriorated. Increases in prices paid by farmers have been met by decreases in the prices they receive.

Today, total net farm income has fallen to the lowest levels recorded since 1962. Reverberations have been felt in every portion of Nebraska's economy. A key example involves the number of workers employed in farm machinery and equipment. That number dropped an overwhelming 39% from February, 1982 to February, 1983. I've remarked on numerous occasions that one out of three Nebraskans owes his or her job to agriculture. It should therefore be abundantly clear that when agriculture suffers, we all suffer.

Forecasts of the near future underscore the need for a concerted, cooperative public/private partnership. The USDA now projects a 5% reduction in 1983 farm exports. It seems certain that Nebraska farms and business will continue to fail at record rates, and that land values will continue their steady decline.

As we address these issues, we must bear in mind that past efforts have often been inadequate. For Nebraska, this is especially true in terms of our state programs for small-to-medium sized businesses.

In a nationally-distributed study published last October by INC.

magazine, states were rated on their efforts to assist in the establishment and retention of small, growing businesses. Nebraska was recognized for having a high quality labor force, with a high percentage of high school graduates and value added per worker greater than the average of all states.

However, the study also reported some serious disadvantages for small businesses in the state. Three factors were emphasized: Our lack of Small Business Investment Corporations, our lack of state programs to assist small businesses in securing long-term loans and equity financing, and a lack of technical aid.

The states in which small businesses are thriving are those who have developed financing programs similar to those I will advocate for Nebraska.

While it is true that our economic situation is compelling in its gravity, we must not be overwhelmed. Our people have developed a willingness to confront our economic shortcomings objectively and without flinching. I believe such candor is necessary if we are to truly assess our needs. However, let's assess our assets with the same vigor - the same candor. There is absolutely nothing wrong with the unabashed enthusiasm this state's resources warrant.

Nebraska is, relatively speaking, a young state. But we have already accomplished a great deal. And we've made tremendous strides in very recent history. Remember that active, wide-scale irrigation has existed for only one generation. Remember that many parts of the state were not serviced by electricity 50 years ago.

Remember that there was no East-West Interstate Highway to bind the state together 30 years ago.

Today, Nebraska has a bounty of attractions and accomplishments to offer prospective businesses and industries. Our state and community colleges, universities, and vocational-technical schools consistently produce highly-qualified workers. Our primary and secondary schools provide a firm foundation for Nebraska's youth, as seen in our students SAT scores - which rose while the national average fell.

Our citizens are productive, highly-motivated, and hard-working. We have been blessed by many gifted individuals, now and in the past, who have used their ideas and talents to benefit Nebraska. At present, for example, we have a whole new generation of highly-technically competent farmers and ranchers who possess a very contemporary world view. Their vision is commendable.

Furthermore, the citizens of this state constantly seek ways to improve the quality of life in Nebraska. They belong to volunteer organizations. They donate their time and resources to advocate for the causes to which they are committed.

They are equally effective in professional capacities.

The people in the State Department of Economic Development, are always prepared to aid new businesses in securing high-quality labor, good locations, and potential financing.

The people in our area Chambers of Commerce represent an outstanding resource whose complete potential has not yet been realized. Given additional tools to offer industry, these Chambers can improve their now-excellent record of attracting vital new industries.

The Nebraska Diplomats are a veritable army of Nebraska business leaders, ready and willing to undertake a variety of important tasks.

These include selling the state to other businesses, contacting alumni of our state colleges and universities who are now in key national and international business community positions, and to attest to the state's excellent business potential.

Add to these human resources, such attractions as our central location, well-maintained transportation networks, tremendous recreational system, quality environment, and a natural resource base with the potential for increased agricultural and industrial activities. I think it is very clear that Nebraska has a wealth of diverse resources and potentials of which we can all be proud. But let me emphasize again that our people are the key factor - people who build the roads, maintain the parks, teach our students, produce the quality products. No program or proposal can create or replace the individuals who make this state strong. No program or proposal will work without the people to make it work.

Having discussed the current state of Nebraska's economy and economic development strengths, I would like to discuss the philosophical underpinnings of my approach to economic development.

Obviously, successful economic development is a tremendously broad, complex undertaking. I believe that a number of factors must be present in order for development to truly succeed.

A healthy and productive labor force must be available; technical assistance must be provided, commensurate with the rate of technological expansion; the environment, upon which we depend for precious resources and for personal enjoyment, must be protected; a social infrastructure of smoothly-functioning institutions, such as government agencies and financial institutions, must be available; the citizenry must be well-educated, in order that they can be productive, confident, and active in the community decisions which are necessary to enhance economic development.

This philosophy suggests a number of specifics. First, economic development projects must be scrutinized in terms of long-range sustainability of the resource base, job opportunity, tax revenues, and income flow.

Second, greater attention must be given to small businesses, where new employment is currently created. Although attraction of outside businesses is important, we cannot afford to neglect existing Nebraska businesses and small businesses. Indeed, an MIT study has demonstrated that small firms (those with fewer than 20 employees) generated 66% of all new jobs in the U.S. in the 70's.

Third, we must recognize the role of technology. Technological advancements have become an integral part of dynamic businesses and industries. We must develop the ability to respond to these advancements. Similarly, our learning institutions must prepare future employees with the requisite technical skills.

Fourth, we need to objectively assess various financing mechanisms for housing, industry, and agriculture to determine their viability for the 1980's.

Fifth, we must bear in mind that the quality of life in a state can be either an incentive or disincentive to prospective businesses. This includes a spectrum of concerns, ranging from availability of recreation to quality of education and from availability of the arts to concern for the environment.

With current state economic conditions and this philosophy in mind, we have already taken a number of important steps in the appropriate direction.

First, as I took office, I indicated to you that economic development would be pursued aggressively by my administration.

I said I would work toward this goal in part by targetting and recruiting food processing and communications industries. I told you that I would also recognize and respond to the crucial elements of any relocation or expansion decision - elements including financing, growth potential, and state quality of life.

Second, one month later, I took my budget message to the State Legislature. That budget included an increase of funding to the industrial development division of the Department of Economic Development. It also provided \$50,000 for a Food Research Center, to assist us in advancing the food processing industry in Nebraska. I called for appointment of the new Director of Economic Development; since that time, the position has been filled by the very capable Don Dworak.

Third I announced earlier this month, the creation of the Small Business Revitalization Program. This program will put \$80,000 in federal funds to work promoting the development of permanent, private sector jobs in the state.

Four business financing offices have been established across Nebraska to assist in the development of long-term small business financing packages. Clearly, loans will not be provided to rescue un-profitable ventures. Rather, loans will be channeled toward sound capital investments in new plants and equipment.

Let me add here that I supported LB 71, which has been passed and signed. We will be moving forward to carry out the intent of this bill which is to free block grant monies for use in economic development projects.

Fourth, the Nebraska Energy Office has identified the energy needs of the various sectors of our economy. Special attention is being paid to our agricultural industries recognizing our dependence on energy and the projected increases for energy in agriculture. Numerous things are being done, such as peak load management studies and the

promotion of conservation and weatherization programs, particularly low-income weatherization.

Because a measure of predictability in energy costs is necessary for farmers and businessmen alike, the office is working towards stabilizing the energy environment at the local level. This is being done chiefly through financial support of both the load management and community energy management programs.

The office is injecting over \$3.8 million into the important construction industry through weatherization programs. These programs simultaneously benefit government, schools, hospitals, the elderly, the low income, and the construction industry. In fact, a new energy conservation industry is emerging, thanks to demand for insulation, energy-efficient windows, and new energy systems.

Fifth, earlier in my administration, I indicated that I was considering the possibility of public works expenditures to assist in resolving the problem of unemployment. I have decided against that because of the spending constraint on the budget and because of the introduction of the Federal Jobs Partnership Training Act. I identified the Federal Jobs Partnership Training Act as an important measure for the well-being of our economy and labor force. Since I presented my budget message, I have appointed the Nebraska State Job Training Council. The council is composed of 13 representatives from business, and eight representatives each from state agencies and organizations, local government, and the general public.

I am pleased to report that the Council met for purposes of orientation on March 11th. Criteria for Service Delivery area designation were selected and distributed throughout the state. At present, hearings are being conducted in the various state regions concerning this process.

Sixth, the Nebraska Department of Labor will serve an estimated 1,400 youth this summer through the 1983 Summer Youth Employment Program. This CETA program provides economically disadvantaged teenagers with summer jobs at the minimum wage.

These teenagers will be working with a variety of non-profit public and private organizations. The organizations provide training and supervision, CETA provides job funding.

Seventh, I have approved LB 114, which repeals the July 1, 1984 termination date of the Nebraska Visitors' Development Act. It contained an additional sales tax of 1% on lodging, with proceeds used to encourage tourism in the state, and allowed counties the opportunity to continue an additional sales tax of up to 2% to encourage area tourism.

I am pleased to report the 20 counties have already adopted the local tax. We should not underestimate the importance of these promotional monies. They allow us to paint for the rest of the nation a word picture of tourist opportunities in Nebraska.

Eighth, I want to recognize the Unicameral for its prompt action on the multi-bank bill. Successful passage of this multi-bank holding

company legislation is a major and commendable step toward developing a modern, responsive banking system. Removal of this divisive issue from the legislative agenda paves the way for consideration of other important efforts to structure a financial system which can successfully address today's capital demands.

I would like to pause here to thank Senator John DeCamp for his efforts in securing passage of this important banking bill as well as his work on the lodging tax bill.

Ninth, we established a public/private cooperative effort to assist recession-plagued farmers and ranchers in the state.

The Agricultural Recovery Program Task Force announced earlier this year is, I believe, a potent force in the battle to restore prosperity and stability to Nebraska farms and ranches.

The Task Force has already determined that immediate efforts should concentrate on working closely with the Farmers Home Administration in processing requests for financial assistance from our farmers and ranchers. The Task Force is convinced that the FmHA guarantee loan program offers the greatest short term potential.

Furthermore, Nebraska Bankers and ag-related industries are currently engaged in the development of a new method of financial support. This method would place on the state payroll loan processing specialists who would be available to the Farmers Home Administration. A contractual agreement between the state and the FHA will formalize the process. Final details are now being ironed out; April 1 of this year has been established as the operational target date.

The actions we have taken to date, coupled with the great strengths of this state, represent a positive, feasible response.

Now for my new proposals.

I am first of all proposing the creation of a statewide financing authority called the Nebraska Investment Finance Authority. It will be a publicly chartered, public purpose privately funded organization.

It will require that we consolidate the boards of the Mortgage Finance Fund, the Development Finance Fund, and the Agricultural Development Finance Fund. The new authority will have three divisions:

1. The Mortgage Finance Fund Division
2. The Development Finance Fund Division
3. The Agricultural Finance Fund Division

NIFA would retain the power to issue bonds for purposes of housing, agriculture, and development, but would be capable of doing so in a more efficient, less duplicative manner. The staff will no longer be accountable to three bosses; rather there will be one central board.

In addition, consolidation will provide economies of scale with respect to staffing. It will also eliminate accounting problems staff has encountered in dealing with three discrete bodies.

NIFA will have a significant state view; it will insure that investment occurs throughout the state. NIFA staff will also provide technical assistance to local governments and small companies which

often cannot afford the cost of industrial revenue bond use.

IDA bond financing is far too concentrated. In the past 20 years, none of these bonds have been issued for 42 counties, and only one issue has been made in 15 counties. NIFA will increase the volume of financing throughout the state.

My proposal includes a blanket authority to issue large blocks of development bonds which can be used to finance a number of diverse projects. This will reduce the risk of the bond issue which will increase the overall rating and lower the interest rate.

It is also time for us to expand the use of the Nebraska Development Finance Fund to commercial projects. My proposal includes this request. For too long we have been subsidizing other states' activities by worrying about the abuse of commercial bonds. The NIFA board can and will develop guidelines to minimize abuse.

The establishment of NIFA will allow us to target businesses which are critical to the infrastructure of a region. We can identify entrepreneurs who will make use of loanable funds for productive capacities.

NIFA will allow more businesses to access low interest loans, and more importantly, to access long-term fixed interest rates. It will allow us to bring in more funds from outside the state into our economy.

In addition to the establishment of the Nebraska Investment Finance Authority I intend to provide leadership to strengthen the Nebraska Business Development Corporation.

The Nebraska Business Development Corporation is a wholly private organization directed by its own Board of Directors, representing many major private businesses. It holds enormous potential as a development financing tool. It is clear that the NBDC needs to broaden its capital base. At present it is undercapitalized by about \$300,000. I believe that it can reach a more realistic objective by implementing the following measures.

First, the borrowing base needs to be expanded. This would entail moving quickly and aggressively after loans, and enlisting the assistance of more financial institutions, banks, savings and loans, and insurance companies.

Second, NBDC should explore equity financing opportunities for small businesses, possibly under the auspices of Small Business Development Corporations. Third, I will suggest the Economic Development Advisory Committee serve as a steering committee to assist in a leadership role.

I will establish three task forces by April 15, 1983 to conduct inquiry into additional financial concerns which are of importance to Nebraska.

The first task will be to deal with how to increase equity financing for new and expanding small businesses. Small businesses, especially young firms have difficulty in Nebraska obtaining the equity capital necessary until they are making sales sufficient to be able to depend more exclusively on borrowed funds. The task force report will be due

to me by August 30, 1983.

The second task will be to study state pension fund investments. At present, pension funds account for approximately 50 percent of the equity capital in the United States. State pension funds account for a sizable portion of that total.

Recognizing the importance of these funds, more and more states have regarded their own pension funds as a means to finance internal development. As a result, those funds are no longer available for business in other states, meaning that an automatic credit shortage exists in the states that continue to send most of their pension funds out.

Kansas, Ohio, California, and Massachusetts are among the most active states in this regard. Kansas, for example, has a number of in-state funds for pension investment, including the Kansas Equity Fund, the Kansas Debt Fund, and the Kansas Liquidity Fund. Other states, such as Ohio, invest in risky endeavors to secure a high rate of return.

At present, Ohio invests 5 percent of its funds in venture capital, and is now providing \$20 million of a \$30 million dollar fund for promotion of high technology development.

I certainly do not advocate the use of high risk investments for the state pension funds of Nebraska. Therefore, so that we can know how to target pension funds of Nebraska entrepreneurs in a manner consistent with both the prudent man rule and the greater return on investment ideal, I propose formation of the Pension Investment Study Group.

I intend that the study group will offer recommendations to achieve the following objectives. First, to increase the rate of return on pension funds in order to lower the cost to participants. Second, to minimize risk while at the same time enhancing job opportunities in Nebraska.

This can be accomplished by establishing rules which provide secured mortgage loans to vital, growing businesses with clear records of good management. Third, to use pension funds for purposes of establishing Small Business Investment Corporations which are Nebraska-oriented. Forth, to increase the economic multiplier in the economy through the return of pension funds to Nebraska. And finally, to direct funds to in-state residential mortgages. The pension report will be due to me by August 30, 1983.

The Third Task Force, the Communications Industry Development Task Force, will also be appointed by April 15, 1983 and will present its report to me by August 30, 1983. It will be directed to study two general areas: development and regulation. In the area of Development, we will need to assess the technical and scientific personnel needs and the institutional resources to meet those needs.

We must evaluate the potential and abilities of our institutions of learning to educate future scientists and engineers, to engage in programs of research, and to serve the development process.

We must ascertain the most effective ways to develop and retain

productive people. Nebraska, with its tremendous quality of life, should have a great advantage in this regard.

We should not doubt our ability to compete in research and development. Nebraska has already gained an international reputation in the field of videodisc technology. The Videodisc Production Group, housed at our own Educational Television Network, has emerged as a national research center on educational and computer applications of disc technology. This is a strong base upon which we can and must build.

Nebraska has substantial potential for becoming a more important national communication center. Part of the Communications Development task force's function will be to assess our strengths in this growing field, and to target the specific areas where we should direct our efforts.

On the regulation side, we must assess our current regulation of the telecommunications industry in light of the new federal deregulation. There may be opportunities here which would not jeopardize service or price to Nebraska consumers.

I am also proposing legislation to revise and expand the scope of our current agricultural products marketing act. My intent is to continue to provide an aggressive marketing program for Nebraska products and commodities, directed particularly at foreign markets.

To this end there will be a consolidation of marketing efforts into a Marketing Division in the Department of Economic Development. Specialists in the export of both agricultural and non-agricultural products will be used, as well as individuals with general marketing expertise.

Constant contact between the DED and the Department of Agriculture will be maintained in order to provide input from those most intimately involved with our state's number one industry.

The purpose of this effort is clearly one of education and outreach. We must make producers of agricultural and non-agricultural products and commodities in Nebraska aware of potential domestic and international markets. We must link producers with potential financing arrangements for export ventures.

We are beginning work in other areas which have great potential.

One is to establish a program of loan guarantees and reinsurance for export agreements. Currently the Foreign Credit Insurance Association does not fully cover small export businesses.

Another is to look seriously at constitutional limitations which are preventing us from using all the opportunities available. For example, Iowa has received \$18 million in Urban Development Action Grant Funds while Nebraska has received only \$825,000. Massachusetts received approximately 25% of the UDAG funds in the nation. Senator Vard Johnson should be congratulated for raising this issue and I will cooperate with the Senators as they proceed to review this issue.

We will also begin a commodity flow study to explain where our

agricultural products are raised and shipped, where they are processed, and where they are retailed. Without this knowledge we will not be able to assess the impact of policies regarding agriculture, energy, or the establishment of food processing industries.

We will work with the Institute of Agriculture and Natural Resources to strengthen agricultural production and utilization. This will include broadening the number of commercial crops and agricultural products.

In addition to our concern with financial issues, I propose to strengthen research and development in the state. Ability to use the most modern, cost-efficient technology has become the key to survival for virtually all contemporary industries. It is government's responsibility to make certain that the research and development institutions are sufficiently equipped to maintain a thriving economy.

We must remember that our colleges and universities play a pivotal role in any framework of economic development. Technological advancements are a key factor in growing and dynamic economic processes. In fact, there is a mounting perception that high technology industries are the impetus for maintaining and improving an effective economy at home and abroad. Consequently, our colleges and universities become integral components of economic development, particularly in terms of basic research and technical assistance.

A survey by the Joint Economic Committee of the U.S. Congress further attests to the importance of higher education. The survey revealed that the availability of highly skilled workers, scientists, and technical professionals has been the most significant influence on the location of high technology companies. Because nearly all of our companies will have a strong science component in the future, this will become an even more decisive factor. As the survey suggested: "The roll of the university is important because universities are the major source of new ideas upon which high technology companies so heavily depend to remain competitive."

For these reasons, I will increase and strengthen the link between the University and the economy.

I will direct the Department of Economic Development to establish a liaison with the expertise and research facilities of our colleges and universities. This liaison can be used to aid businesses in addressing product development problems.

I believe that these proposals, the actions we have taken to date, and the tremendous strengths of this state constitute a powerful, three-pronged approach to Nebraska's economic development. Frankly, I have grown tired of hearing economic developers bemoan that it is impossible to make progress. The reality is that we have a great deal to work with right now. Our task is to build on it wisely.

3 "Section 1. Every county board or, in  
4 counties which have established such, the county board  
5 of corrections may establish a community work force  
6 program in which prisoners in the county jails may work  
7 on community service projects within that county. As  
8 used in this act, community service project shall mean  
9 work for a city or county, or any agency, department, or  
10 subdivision thereof, except that such projects shall not  
11 include projects which other government employees

13 regularly contracts with private industry to perform.  
14 The board is encouraged to include established volunteer  
15 activities which benefit the general public as  
16 acceptable projects. Work by a prisoner on a community  
17 service project shall not confer a private benefit on  
18 any person except as may be incidental to the public

20 Sec. 2. Inmate participation in community  
21 service projects shall be voluntary and no extra good  
22 time credit shall be given to inmates who participate in

4 Sec. 3. (1) In counties which have a county  
5 board of corrections, that board shall administer the  
6 community work force program and shall adopt and

14 for such county.

15 (2) Such rules and regulations shall address,

18 project. Included among these factors shall be (1) the  
19 physical and mental abilities of the inmate, (2) the  
20 benefit to the public of having the inmate work on the  
21 community service project, (3) the security of the jail,  
22 (4) the safety of the general public, (5) the number and  
23 type of supervisory personnel necessary, and (6) the  
24 likelihood of an attempted escape. No inmate shall be

25 asked to perform unreasonably hazardous work that would  
26 endanger the life or health of the inmate or others.

1 Sec. 4. That section 23-2810, Revised

**ATTORNEY GENERAL'S OPINION**

Opinion No. 56  
March 22, 1983

Dear Senator Vickers:

This is in reply to your inquiry concerning the amendment to LB 465 adopted by the Education Committee, copy of which was attached to your letter.

You inquire as to the constitutionality of LB 465, as amended, as it relates to merger ordinances that may be passed and particularly as to the effective dates of such ordinances.

Ordinances of cities of the primary, first class, second class, and villages do not become effective until they have been published, which must be done within 15 days after they are passed. Neb.Rev.Stat. §§17-613, 16-405, and 15-403 (Reissue 1977).

This does not mean that the ordinance itself could not have a provision making the ordinance effective at a later date than above set forth.

In metropolitan class cities the procedure is provided by rules and regulations of the city but ordinances cannot become effective sooner

than within a week of introduction. Neb.Rev.Stat. §14-137 (Reissue 1977).

Under Neb.Rev.Stat. §79-801.02 (Reissue 1981), a merger of an existing school district into a Class III school district under the provisions of §79-801 becomes effective on June 15 of the year following the first full school year after such merger. In School District of Bellevue v. Strawn, 185 Neb. 392, the Supreme Court of Nebraska determined that this meant June 15, 1968, as to annexing ordinances of the City of Bellevue which became effective in April and May of 1967.

The proposed subsection (2) of LB 465 provides in part:

Notwithstanding subsection (1) of this section (subsection 1 is identical to §79-801 except for an inserted reference to subsection (2)) or section 79-801.02, any annexation by a city or village encompassed within a Class III school district which annexation shall become effective after the effective date of this act, shall not result in the change of any school district boundaries until September 1, 1984, . . . ."

Subsection (2) then contains a provision that such boundary changes may become effective sooner upon agreement of all boards affected within 90 days following the effective date of the annexing ordinance.

Obviously, the provisions of §79-801.02 relative to the effective date of mergers under §79-801, being June 15 of the year following the first school year after the merger, would be rendered inoperative by the passage of LB 465.

Also, subsection (2) of LB 465, above quoted, applies only to annexations which shall become effective after the effective date of LB 465. Therefore, any proposed annexation ordinance before a city council or village board which becomes effective before the effective date of LB 465 would not be affected by LB 465. One would have to look at the effective date as contained in the ordinance or, if none, at the date of its passage and publication, if required, as set forth above. Any annexing ordinances encompassed within a Class III school district becoming effective after LB 465 would not result in a change of boundaries until September 1, 1984, unless by vote of the boards as mentioned above.

The effective dates of ordinances and annexations are all matters which have been passed by legislative acts and may be modified by the Legislature. Any ordinances which are pending before a body are of no legal effect until passed and made effective according to law as outlined above. We therefore see no constitutional problems as to LB 465 as contained in the attachment to your letter.

You also ask questions concerning an annexation ordinance with an effective date this spring or summer. As mentioned earlier, if it became effective before the effective date of LB 465 as now written, it would not be affected by LB 465, and changes in boundaries would become effective according to §79-801 which may require agreement of the boards or an election; or §79-801.02 which would be June 15, 1984, assuming a full school year elapsed after the merger.

You then ask what would be the result should the Legislature pass LB 465 in such a way as to change the date when school district boundary changes already passed would become effective, from June 15, 1984, to a different date. As mentioned above, since the Legislature originally established these various dates, we can see no problem with them changing them as long as they do not purport to affect rights which have become vested. In your example, the city council would still have the opportunity to repeal the annexing ordinance before any rights became vested. In School District of Bellevue v. Strawn, *supra*, the plaintiff contended that the merger was complete on the effective date of the ordinance but merely did not become "operative" until June 15, 1968. The Supreme Court disagreed and held that the status of the districts affected remained unchanged until the effective date of June 15, 1968.

Very truly yours,  
PAUL L. DOUGLAS  
Attorney General

**ATTORNEY GENERAL'S OPINION**

Opinion No. 57  
March 24, 1983

Re: LB 431

Dear Senator Schmit:

We are responding to your letter in which you inquire whether LB 431, which you introduced, is constitutional based upon the provisions of Initiative 300 which has now been incorporated in the Nebraska Constitution at Article XII, Section 8.

Legislative Bill 431 seeks to amend the Nebraska Groundwater Management Act at Neb.Rev.Stat. §46-666 (Cum.Supp. 1982). Among the powers of a district in a groundwater control area in subdivision (5) of that section in restricting use of groundwater, you proposed to add the following sentence:

A district may also adopt different allocations pursuant to subdivision (1) (a) of that section for family farm and ranch corporations, as defined in Article XII, Section 8, of the Nebraska Constitution, and nonfamily farm and ranch corporations.

You would add the following underlined phrase in the sentence following this addition:

The provisions of all controls for different categories of ground water use and types of farming or ranching corporations shall be uniform for all portions of the area which have substantially similar climatic, hydrologic, geologic, and soil conditions.

It is true that water rights are subject to subsequently adopted restrictions under the police power of the state. In Re Water Application No. 442A, 210 Neb. 161, 313 N.W.2d 271, 274 (1981); In Re Birdwood Irrigation District, 154 Neb. 52, 46 N.W.2d 884, 887 (1951). Article XII, Section 8 gives authority for the Legislative classification between family and nonfamily farm and ranch corporations as is created in this bill, and further authorizes the Legislature to "prohibit certain agricultural operations that the Legislature deems contrary to the intent of this section." However, Article XII, Section 8(1)(D) specifically recognizes an exception for present operations creating grandfather rights for nonfamily farm or ranch operations. Legislative Bill 431 does not recognize this exception. Therefore, the restrictions of this bill exceed the restrictions permissible under the Nebraska Constitution, and are inconsistent with Article XII, Section 8(1)(D).

We also examine this proposal under the Equal Protection Clause of the Fourteenth Amendment of the United States Constitution. This provides: ". . . nor [shall any State] deny to any person within its jurisdiction the equal protection of the laws." Generally this requires equal treatment of persons similarly situated. Pyler v. Doe, \_\_\_ U.S. \_\_\_, 72 L.Ed.2d 786, 798 (1982). Corporations are persons covered by the Equal Protection Clause. Quaker City Cab Company v. Pennsylvania, 277 U.S. 389, 400 (1927). A law may be held unconstitutional for violation of the Equal Protection Clause if it discriminates between different corporations or between corporations and natural persons engaged in the same business without a rational basis. Frost v. Corporation Commission of the State of Oklahoma, 278 U.S. 515; 16A Am.Jur.2d, Constitutional Law, §778, Note 78, 80, at 914-915 and cases cited therein.

The courts, in determining whether a state-created classification is consistent with the Equal Protection Clause, look at this classification to see "whether the legislative classification. . . is rationally related to achievement of the [legitimate state] statutory purposes." Minnesota v. Clover Leaf Creamery Co., 449 U.S. 456, 463 (1981). The Legislature must have some legitimate state purpose in mind when promulgating the legislation and the enactment must be rationally related to achievement of that purpose. The Legislature's avowed purpose will be accepted unless the court determines from the circumstances that this purpose could not have been the goal of the Legislature. *Id.* at 463, Note 7. The court "will not overturn such a statute unless the varying treatment of different groups or persons is so unrelated to the achievement of any combination of legitimate purposes that [it] can only conclude that the Legislature's actions were irrational." Vance v. Bradley, 440 U.S. 93, 97 (1979). The Legislature's judgments need not be correct as long as the court can conclude upon consideration of the evidence before the Legislature and that of which it can take judicial notice "that the question is at least debatable." Minnesota v. Clover Leaf Creamery Co., *supra* at 464.

The purpose of your proposed legislation is not entirely clear to us at this time. We can surmise that it is to protect the state's land and water resources from unreasonable exploitation. This, we believe, could be found to be a legitimate state purpose.

We are not convinced without knowing more information that the allocation of different amounts of water to farm and ranch operations based solely upon whether the ownership of the farm or ranch operation was by family or nonfamily corporation, could be found to be at all rationally related to the purpose of preventing unreasonable exploitation of the state's valuable natural resources. Without knowing more, we do not believe the court could conclude that the Legislature could believe that the classifications created in this bill would actually serve this purpose.

We therefore question whether this legislation could be sustained if challenged. With more information before the Legislature than that of which we are now aware, possibly the conclusion might be different. We cannot say at this time.

In conclusion, the provisions of LB 431 appear to be inconsistent with Article XII, Section 8 of the Nebraska Consitution and the Equal Protection Clause of the Fourteenth Amendment of the United States Constitution.

Very truly yours,

**ATTORNEY GENERAL'S OPINION**

Opinion No. 59  
March 29, 1983

Dear Senator Fowler:

You have called our attention to LB 220, which would authorize any first or second class city or village having a volunteer fire department or rescue squad to establish an annuity plan for the personnel of such squads. You ask whether enabling legislation is needed to permit a municipality to purchase such annuities. We conclude that it is.

We point out that enabling legislation has been adopted to authorize retirement systems for various types of state employees, for school employees, and for county employees. Neb.Rev.Stat. §19-3501

(Reissue 1977) authorizes cities of the first and second class and villages to establish pension plans for the benefit of regularly employed or appointed full-time employees of the city. That section further provides that the employee shall contribute an amount at least equal to the city's contribution.

The statutory authorization for the establishment of a retirement system which would exclude volunteer firemen, who are not "full-time employees," or, as we understand it, even part-time employees, would, we believe, manifest an intent on the part of the Legislature not to authorize a retirement system for them. Since the Legislature has authorized so many different retirement systems, we believe the authority to establish such a system should not be implied, in the absence of specific statutory authority.

You also ask whether fire protection districts and municipalities may authorize other benefits or reimbursements for services, such as paying a fixed dollar amount to each volunteer for each call to which he responds, as reimbursement for expenses such as gasoline, loss of work time, etc. We conclude that such payments can be made.

Neb.Rev.Stat. §17-718 authorizes the city council in cities and villages having only voluntary fire departments or companies to levy a tax for the maintenance and benefit of such fire departments or companies. It appears to us that the payments you describe could be considered to be ordinary expenses of the voluntary fire department or company. We find nothing which limits payment of the proceeds of the tax to purchase of physical equipment or supplies. In the absence of such limitation, we believe the expenditures you describe would not be prohibited.

You also ask about payments for insurance premiums for loss of income in the case of disability while serving as a volunteer. We find nothing specific on this matter either with respect to cities or villages or rural and suburban fire protection districts organized pursuant to Neb.Rev.Stat. §35-501, *et seq.* (Reissue 1978). However, we do note that Neb.Rev.Stat. §44-742 (Reissue 1978) does speak of blanket sickness and accident insurance covering all the members of any volunteer fire department, first aid, or other such volunteer group. If such groups were not authorized to have such coverage, it would appear that §44-742 would not have referred to such a policy. We therefore conclude that such coverage can be furnished.

Very truly yours,  
PAUL L. DOUGLAS

### MESSAGE FROM THE GOVERNOR

March 30, 1983

Mr. President, Mr. Speaker  
and Members of the Legislature  
State Capitol  
Lincoln, Nebraska 68509

Dear Mr. President and Senators:

I am hereby returning L.B. 134 without my signature and with my objections.

Standing by itself, L.B. 134 is not a “bad” piece of legislation. The concern behind the bill is legitimate. Unfortunately, however, we do not have the luxury of viewing individual pieces of legislation in isolation without regard to the overall fiscal problems this State is currently facing.

The passage of this legislation will have an adverse impact on the cost of the State Health Insurance Program. Although there can be some debate as to the extent of this cost there is no doubt that it will increase the expense to both existing State employees and potentially to the State as well at a time when we are facing a serious problem with the overall cost of the State's Health Insurance Program.

Additionally, it is this type of legislation, passed without regard to the potential future costs, which has gotten us into the existing fiscal problem we are jointly facing. We can no longer afford to look at these individual pieces of legislation in isolation but rather must continually be cognizant of the aggregate impact these bills will have on the State's fiscal picture in the future.

I urge you strongly to support and sustain this veto because now is the time to reduce not increase the cost of the State's Health Insurance Program for the benefit of both the taxpayers and current State employees themselves.

Sincerely,  
(Signed) ROBERT KERREY  
Governor

**ATTORNEY GENERAL'S OPINIONS**

Opinion No. 60  
 March 29, 1983

Dear Senator Wiitala:

You have asked what authority currently exists for a parent to commit a child to a mental hospital. The Nebraska Mental Health Commitment Act, Neb.Rev.Stat. §§83-1001 et seq. (Reissue 1981), provides procedures for the voluntary and involuntary commitment of individuals.

Under this Act, a parent could initiate commitment proceedings by

communicating a belief to the county attorney that his or her child is a mentally ill dangerous person. If the county attorney concurs in such a belief, he could institute proceedings to commit the child through the filing of a formal petition. This would result in a hearing before the local mental health board. Under such a procedure, the child would be treated as any other subject of a mental health proceeding including entitlement to those rights enumerated in Neb.Rev.Stat. §§83-1048 to 83-1064 (Reissue 1981). These rights would include the right to a hearing, the right to be advised of the reasons alleged for believing he is a mentally ill dangerous person, the right to counsel or to have counsel appointed if the subject is an indigent, the right to an independent evaluation, the right to present witnesses and testimony, including his own testimony, and the right to confront and cross examine adverse witnesses and evidence. A subject may voluntarily waive these rights if the waiver is made "personally, intelligently, knowingly, understandingly and voluntarily by the subject, and such subject's parent or legal guardian if he or she is a minor or legally incompetent." Neb.Rev.Stat. §83-1064 (Reissue 1981) (Emphasis added).

You have also asked specifically if section 83-1019 allows parents to commit children to mental hospitals. Neb.Rev.Stat. §83-1019 (Reissue 1981), states that "Any individual may apply for his own voluntary admission to any public or private hospital. . . ." Thus a parent's application on behalf of a child would not qualify as a voluntary admission of the subject under this statute.

We have attempted to briefly condense the Nebraska laws on mental health commitment of minors. If we have not adequately addressed your concerns, please let us know.

Very truly yours,  
PAUL L. DOUGLAS  
Attorney General

Opinion No. 61  
March 30, 1983

Dear Senator L. Johnson;

You have asked for comments on a Grand Jury report and recommendations for remedial legislation. Both requests dealing with Neb.Rev.Stat. §23-146 (Reissue 1977).

With respect to your first question, we have reviewed Neb.Rev.Stat. §23-146 and, frankly, are unable to say that it is so ambiguous or difficult to interpret as to be useless. In fact, the section

has been before the Nebraska Supreme Court on three separate occasions—Woods v. Brown County, 125 Neb. 256, 249 N.W. 601 (1933); Pethoud v. Gage County, 83 Neb. 497, 120 N.W. 254 (1909); Wilson v. Otoe County, 71 Neb. 435, 98 N.W. 1050 (1904). Additionally, the statute and its predecessors have been in effect since 1879 with very few amendments. Furthermore, this office has issued at least 20 opinions discussing the perimeters and effect of this statute including Opinion No. 184, Report of the Attorney General 1981-1982, to Senator Kahle in the last legislative session. In that opinion we stated:

We are appreciative of the fact that you may wish to clarify what is meant by pecuniary interest and attempt to define those relationships which would result in an impermissible pecuniary interest, however we believe that it would be extremely difficult to itemize in statutory language a list of such factors, relationships or circumstances. While it appears extremely difficult to generalize in this area, it is usually possible when examining a particular set of facts to render a legal judgment as to whether or not such an arrangement would be impermissible under the statute. Therefore it may be that county officials would benefit from presenting such potential factual circumstances to their county attorney in advance of taking any action in an attempt to obtain from him his best judgment as to the acceptability of those particular facts.

Thus, we believe it is accurate to say that this statute is susceptible of interpretation and, indeed, has been interpreted over time without great difficulty.

With respect to your second question, we would at this time not have any comments or suggestions for remedial legislative action. Should you wish to develop such language or to work with a view toward amending the statute, we will be happy to work with you in this regard at that time.

Very truly yours,  
PAUL L. DOUGLAS  
Attorney General

Opinion No. 62  
March 30, 1983

Dear Senator V. Johnson:

You have asked for our opinion on the constitutionality of Neb.Rev.Stat. §§77-913 and 77-914 (Reissue 1981). As you point out in your letter, there is currently no legislative action pending in these

matters. Your request also calls for an opinion relating to the constitutionality of existing legislation.

Ordinarily in such circumstances we would decline to respond to your request for an opinion. We believe, however, you advanced a valid reason as to why we should respond to your request. That is, that these particular sections are matters pertinent to the Revenue Committee's consideration of LB 586, and secondly, it is possible to introduce corrective legislation this session prior to the distribution set for this fiscal year, June 1. For these reasons we believe an answer in this case is appropriate.

Neb.Rev.Stat. §77-913 (Reissue 1981) establishes the insurance tax fund and allocates 50 percent of the total collected to the counties based upon their proportionate share of the total population of the state.

Neb.Rev.Stat. §77-914 (Reissue 1981) directs the counties to allocate the funds they receive pursuant to §77-913 to school districts and cities and villages. In the first instance, the distribution to school districts is to be made on a per pupil basis in the relationship each school district bears an average daily attendance to the entire county. The portion allocable to cities and villages is based on the population of each such city and village as its proportionate share of the entire county's population.

As we said in our Opinion No. 41, Report of the Attorney General 1983-84, March 3, 1983, the Legislature may grant aid to governmental subdivisions where the formula granting such aid treats similar subdivisions in a similar manner. In Opinion No. 41 we expressed reservations as the constitutionality of a distributional formula which would result in cities having similar populations located in counties have differing populations receiving vastly different amounts from a state distributional formula. We believe that the same questions arise in the context of the distributional formulas as they relate to cities and villages and school districts under §77-913.

The distributional amounts given to the counties are obviously appropriate in that they are based on proportionate population calculations. However, cities or school districts of similar sizes located in different counties, having different populations, would receive different amounts under this formula. The constitutionality of that sort of differentiation is doubtful in light of Opinion 41 and the cases cited therein.

Very truly yours,

#### ATTORNEY GENERAL'S OPINIONS

Opinion No. 64  
March 30, 1983

Dear Senator Cullan:

This is in reply to your inquiry concerning LB 505 in which you

inquire whether or not it violates Article III, Section 18, of the Nebraska Constitution. You specifically ask if the authorization to grant mandatory tax check-off funds for the purposes set forth in the bill is the granting of a special privilege in derogation of a common right within the meaning of the above constitutional provision.

Specifically, LB 505 authorizes the Nebraska Wheat Development, Utilization and Marketing Board to grant from their fund to individuals, firms, companies and other persons for the encouragement and construction of alcohol plants.

Other sections make similar provisions for the boards relating to soybeans, corn, and grain sorghum.

The bill is not limited to any specific individuals or companies or classes of individuals or companies but purports to be general and uniform throughout the class engaged in the construction of alcohol plants.

In the case of Bauer v. Game, Forestation & Parks Commission, 138 Neb. 436, 293 N.W. 282 (1940), the Supreme Court of Nebraska was called upon to determine whether a legislative bill setting aside a certain area as a game refuge was a local or special law in violation of the above constitutional provision. In interpreting that provision the court stated:

A law is not local or special in a constitutional sense that operates in the same manner upon all persons in like circumstances. "General laws are those which relate to or bind all within the jurisdiction of the law-making power, and if a law is general and operates uniformly and equally upon all brought within the relation and circumstance for which it provides it is not a local or special law in the constitutional sense." [Citations omitted.]

More recently, the Supreme Court of Nebraska again interpreted this provision of the Constitution as it related to the Nebraska Mortgage Finance Fund. The court there held that the act applied equally to all persons within the class and that it was permissible for the Legislature to make classifications, provided they were made upon some reasonable basis. The court then stated:

We have many times said that the power of classification rests with the Legislature and cannot be interfered with by the courts unless it is clearly apparent the Legislature has by artificial and baseless classification attempted to evade and violate provisions of the Constitution prohibiting local and special legislation. Dwyer v. Omaha-Douglas Public Building Commission, 188 Neb. 30, 195 N.W.2d 236; City of Scottsbluff v. Tiemann, 185 Neb. 256, 175 N.W.2d 74.

Statutes which are reasonably designed to protect the health, morals, and general welfare do not violate the Constitution where they operate uniformly on all within a class which is reasonable.

This is so even if a statute grants special or exclusive privileges where the primary purpose of the grant is not the private benefit of the grantees but the promotion of the public interest. *State ex rel. Meyer v. Knutson*, 178 Neb. 375, 133 N.W.2d 577. The Act does not impermissibly grant to the Fund privileges, immunities, or exclusive franchises because of classification. The classification is constitutionally reasonable and proper.

The court had previously determined in the same case that the purpose of the act was to assist private mortgage lenders in providing mortgage financing for single family residences at reduced interest rates for low and moderate income families and this was a public purpose. *State ex rel. Douglas v. Nebraska Mortgage Finance Fund*, 204 Neb. 445, 283 N.W. 2d 12 (1979).

As you know, in that case, as in the present instance, the fund was administered by what the court determined to be a governmental body related to state government.

The declared purpose of the laws setting up the various grain boards and funds is the promotion of these industries in Nebraska for the general welfare. The encouragement of alcohol plants falls within this general purpose even though their is also a benefit to individuals and companies.

While this declaration is not binding on the courts, we feel the purpose here is as much of a public purpose as was present in the *Nebraska Mortgage Finance Fund* case.

For the foregoing reasons, it is our opinion that the amendments to LB 505 are not in violation of Article III, Section 18, of the Constitution of Nebraska.

This opinion is limited to an evaluation of LB 505 in its relation to Article III, Section 18, of the Nebraska Constitution about which you specifically inquired.

Very truly yours,  
PAUL L. DOUGLAS  
Attorney General

Opinion No. 65  
March 31, 1983

Dear Senator Cullan:

In your letter of March 25, 1983, you call to our attention

Legislative Bill 319 and inform us that an amendment has been offered to this Legislative Bill and ask our opinion as to whether or not this amendment would render this bill violative of Article III, Section 18 of the Constitution of the State of Nebraska.

Generally speaking, Legislative Bill 319 relates to unemployment insurance and the amendment specifically would provide: "... and (r) service performed by an individual for a business engaged in compilation of marketing data bases if such service consists only of the processing of data and is performed in the residence of the individual."

Article III, Section 18 of the Constitution of the State of Nebraska prohibits special legislation. You inform us that the floor debate concerning this amendment indicates that it was specifically drawn for the benefit of one particular existing corporation operating in Nebraska. You then inquire as to whether or not in our opinion this fact would render the entirety of the Legislative Bill special legislation and therefore unconstitutional in violation of Article III, Section 18 of the Constitution of the State of Nebraska.

While it is true as you suggest, legislative debate is of value in determining questions of constitutionality, the actual wording and the import of the actual words used is of primary concern.

From our reading of this amendment, it does not appear by its actual words to be so restrictive as to limit its application to a particular corporation, even though at the present time in the minds of its proponents only one beneficiary may be envisioned. Even if as a matter of fact this amendment would apply at the present time to only one corporation such would, in our opinion, still not render this provision unconstitutional so long as the language creating the classification would admit additions to that class. Campbell v. City of Lincoln, 182 Neb. 459, 155 N.W.2d 444, Axberg v. City of Lincoln, 141 Neb. 55, 2 N.W.2d 613.

Therefore, in conclusion, while the proponents of this particular amendment may believe that it will benefit a single corporation, the language used appears to us to be broad enough to admit an unlimited number of additions to the class and as such, we do not believe the amendment would be violative of Article III, Section 18 of the Constitution of the State of Nebraska.

Sincerely,  
PAUL L. DOUGLAS  
Attorney General

**ATTORNEY GENERAL'S OPINIONS**

Opinion No. 66  
April 5, 1983

Dear Senator DeCamp:

You have asked relative to pending legislation, whether public funds may be used for the erection of official logo signs (on State highways), citing 23 U.S.C. §131 (f) (Cum. Supp.) as authority for such action.

Additionally, Neb.Rev.Stat. §39-634.01 (Reissue 1978) contains similar and more specific language.

In the absence of constitutional restrictions, these statutory sections would be considered to be adequate authorization for the erection of logo signs as and how indicated therein. However, there is a constitutional restriction in Nebraska preventing the State from extending its credit to private enterprise. Art. XIII, Sec. 3 of the Constitution of Nebraska states as follows:

“The credit of the state shall never be given or loaned in aid of any individual, association, or corporation, except that the state may guarantee or make long-term, low-interest loans to Nebraska residents seeking adult or post high school education at any public or private institution in this state. Qualifications for and the repayment of such loans shall be as prescribed by the Legislature. (Amended, 1968.)”

While it is not argued that logo signs would not be of assistance to the traveling public, it is considered that the entity being advertised would be receiving a direct monetary benefit from the State, plainly in violation of the constitutional provision cited. Therefore, your question is answered in the negative.

This matter has been raised once before with a similar answer being given in Opinion No. 217 of the Attorney General dated April 5, 1976, citing Opinion No. 8 dated January 22, 1973. Copies of both are attached.

You have further asked, by letter of March 29, 1983, whether public funds can be used to erect an official highway sign authorized and approved by the U.S. Department of Transportation's Federal Highway Administration.

In answer, we know of no restriction on the use of public funds for such purpose, assuming funds have been appropriated for highway expenditures. Such signs are considered an integral, and also necessary, part of the highway system. Neb.Rev.Stat. §39-1320 (2) (k) (Reissue 1978) lists as one state highway purpose, “The erection and maintenance of marking and warning signs and traffic signals”.

If the thrust of your inquiry is to question the following of Federal Highway Administration authorization and approval of official highway signs you are referred to Neb.Rev.Stat. §39-1305 (Reissue

1978), which states:

"The department shall have the authority to make all contracts and do all things necessary to cooperate with the United States government in matters relating to the cooperative construction or improvement of the state highway system, or any road or street of any political or governmental subdivision or any public corporation of this state, or of any road necessary to be constructed for national defense, national forests and scenic purposes, for which federal funds or aid are secured and for maintenance of roads constructed for the United States government. Such contracts or acts shall be carried out in the manner required by the provisions of the acts of Congress and the rules and regulations made by an agent of the United States in pursuance of such acts."

Dear Senator H. Peterson:

This is in response to your inquiry of March 31, 1983, with a proposed bill attached entitled the Industrial Financing Corporation Act. You inquire whether any parts of the enclosed bill are unconstitutional.

We have examined the bill generally and it appears to contain the identical or near identical provisions of the legislation approved by the Supreme Court of Nebraska in State ex rel. Douglas v. Nebraska Mortgage Finance Fund, 204 Neb. 445, 283 N.W.2d 12 (1979).

The only obvious difference in the two pieces of legislation is that the Nebraska Mortgage Finance Fund Act was established to provide lower interest mortgages for low and moderate income persons to obtain housing while this act has as its purpose the financing of industrial facilities under the same procedures as the other act.

Legislative declarations as to unemployment, loss of jobs and industry in the state, poverty and other problems are recited in the bill similar to that in the Nebraska Mortgage Finance Fund Act.

From a general examination of this act we find no unconstitutional provisions under the present state of the law in Nebraska.

Should you have any specific provision about which you have a question, please let us know.

Re: LB 618

Dear Senator Haberman:

This is in response to your inquiry concerning the constitutionality of LB 618 from the standpoint of whether or not the bill contains more than one subject, in violation of the provisions of Article III, Section 14 of the Constitution.

Article III, Section 14 of the Constitution of Nebraska provides in part: "No bill shall contain more than one subject, and the same shall be clearly expressed in the title."

As stated in two recent opinions of this Office, it is well established that:

[I]f an act has but one general object, and contains no matter not germane thereto, and the title fairly expresses the subject of the bill, it does not violate Article III, Section 14, of the Constitution. Anderson v. Tiemann, 182 Neb. 393, 155 N.W.2d 322 (1967); Yellow Cab Co. v. Nebraska, 175 Neb. 150, 120 N.W.2d 922 (1963); Rein v. Johnson, 149 Neb. 67, 30 N.W.2d 548 (1947); Beisner v. Cochran, 138 Neb. 445, 293 N.W. 289 (1940).

Opinions of the Attorney General, No. 34 and No. 35, Dated March 3, 1983.

In examining the provisions of LB 618 we find that it deals with a variety of subjects, including the control of noxious weeds; licensing and inspection of dairy farms; grants by the State Department of Education for special education programs; disposition of animals found to have reacted to tuberculin tests; compensation of farmers for brucellosis tests; interest rates on loans to medical students; University and college tuition of members of the National Guard; and a number of

others.

In addition, it appears to us that the provisions of §§15, 18, 25, 26, and 27 are not included in the title of the bill, and, that the title of LB 618 contains reference to providing the Director of Institutions with additional powers; the elimination of a state fair premium; elimination of predator control; elimination of certain student personnel services; and the elimination of bedding services, none of which are included in the bill proper.

In addition to the very glaring conflicts between the title and the content of LB 618 we are unable to find a single common purpose of the bill upon which we could safely base a conclusion that the bill meets the requirements of Article III, Section 14 of our Constitution.

Very truly yours,

Opinion No. 69  
April 6, 1983

Dear Senator DeCamp:

You have informed us that you have introduced LB 619 to attempt to correct the franchise tax problem, and state that there is speculation that the Tax Commissioner intends to apply the provisions of the bill retroactively. You ask whether a retroactive application of the provisions of the bill would be legal, possible, or constitutionally sound. You say that it appears to you that it would be applying an ex post facto law.

The prohibition of Article I, Section 16 of the Nebraska Constitution and Article I, Section 9 of the Federal Constitution against ex post facto laws is clearly not applicable to your question. In the case of In re Estate of Rogers, 147 Neb. 1, 22 N.W.2d 297 (1946) our court, citing a number of authorities, including the United States Supreme Court, held that the prohibition against the passage of ex post facto laws applied only to penal or criminal matters, and not to civil matters.

As to the passage of a retroactive income tax law, this appears to be constitutionally possible, within limits. In 71 Am.Jur.2d 764, State and Local Taxation, §460 we find:

In the absence of an express constitutional prohibition on

retroactive laws, income tax statutes may be constitutional although they have some retroactive effect. However, where they are based on a constitutional amendment, it seems that income tax statutes may not be given a retroactive effect beyond the time when the amendment became effective. And a retroactive income tax must be based on the income of a year sufficiently recent that such income may reasonably be supposed to have some bearing on the present ability of the taxpayer to pay the tax. Aside from these limitations, there is no definite and fixed period beyond which an income tax statute cannot be given a retroactive effect, since whether such a statute results in a denial of due process of law because of its retroactive operation depends on the circumstances in which the particular tax is imposed.

A tax may be imposed on the income of the entire current year, although part of the year has elapsed when the statute is passed. And an income tax statute may be constitutional although it measures the tax by the income of the year of the last legislative session preceding that of its enactment, by the income of the most recent year for which returns are available furnishing data upon which to estimate the total amount to be collected from the tax, or by the income of a year sufficiently recent so that the income of that year may reasonably be supposed to have some bearing upon the present ability of the taxpayer to pay the tax.

In the case of LB 619, there would appear to be no question about any interpretation by the Tax Commissioner. Section 3 of the bill provides that the act shall be operative for all taxable years commencing on or after January 1, 1983, or deemed to begin on or after January 1, 1983, under the Internal Revenue Code of 1954, as amended. Clearly, the provisions of the bill could not be applied to taxable years beginning before that date, and would be required to be applied to taxable years beginning after that date.

Clerk of the Legislature

Opinion No. 70  
April 4, 1983

Dear Senator Chambers:

You have forwarded to us a second final reading copy of Legislative Bill 155. Legislative Bill 155 enumerates certain consumer rights and remedies in cases where new motor vehicles do not conform to the terms of an express warranty provided by the manufacturer.

You indicate in your letter of referral that you have some concerns in regard to the construction and application of the bill's language. Your questions (your first question has been modified pursuant to your instructions in our telephone conversation on March 31, 1983) and corresponding answers are as follows:

1. Would provisions of an existing statute covering the same or similar subject matter as LB 155 which are more liberal toward the consumer than the provisions of LB 155 supplant the stricter provisions of the bill on account of section 8, which provides, "Nothing in this act shall in any way limit the rights or remedies which are otherwise available to a consumer under any other law."?

Although it is difficult to fully address this question without being able to apply the question to a specific example, we do not believe that section 8 would have the effect of liberalizing the provisions of LB 155 in cases where other laws had less stringent provisions. The wording of section 8 is merely an expression of intent to leave undisturbed any rights and remedies which may be available to the consumer under existing laws. That is not to say, however, that a consumer could pick out the more favorable elements of other laws in bringing an action under LB 155.

2. Because of section 8, must LB 155 be taken in pari materia with other statutes before its true scope and import may be determined?

In pari materia means "upon the same matter or subject." Blacks Law Dictionary, Fourth Edition, 1968. The rule of in pari materia construction is that "all statutes relating to the same subject are considered parts of an homogeneous system; so, too, all statutes in pari materia must be taken together and construed as if they were one law and effect given to every provision." (citation omitted). Sun Insurance Company v. Aetna Insurance Company, 169 Neb. 94, 106, 107 (1959); Matzke v. City of Seward, 193 Neb. 211 (1975). Although there may be instances where the rule of in pari materia would apply to the construction of certain provisions of LB 155, Section 8 would seem to limit the rule's applicability since the statute purports to establish rights and remedies which are completely independent from those otherwise provided by law. "The rule of in pari materia construction does not permit the use of a previous statute to control the plain language of a subsequent statute or to add a restriction not included in or expressly excluded from the later statute." Sanitary and Improvement District No. 222 v. Metropolitan Life & Insurance Company, 201 Neb. 10, 15 (1978).

However, as before, it is difficult to fully address this question

without a particular example in mind. Our initial impression is that due to the independent nature of LB 155 and its applicability to a narrow group of cases involving nonconformity to warranty, there may be few cases where it could be found that there was a preexisting law on the same subject. Nevertheless, one cannot rule out entirely the possibility that in *pari materia* construction may be used at some time in the future to assist in the interpretation of some portion of the bill, as that portion may be on the same subject as the portion of a preexisting act. For instance, in First Federal Savings & Loan Association v. Department of Banking, 187 Neb. 562 (1971), the rule was used to consolidate the provisions of the Administrative Procedures Act with statutes relating to the regulation of savings and loan institutions. Should you have any specific instances in mind regarding this or your other questions, please advise our office if you would like a further consideration of the matter based upon those specifics.

3. Does the statutory scheme created by LB 155 create unacceptable uncertainty and vagueness?

"The established test for vagueness in a statute is whether it either forbids or requires that doing of an action in terms so vague that men of common intelligence must necessarily guess at its meaning and differ as to its application." State ex rel. Douglas v. Herrington, 206 Neb. 517, 521 (1980). We are of the opinion that LB 155, taken as a whole, would not be found unconstitutionally vague.

4. A. May other provisions of law (e.g., the Uniform Commercial Code) dealing with defective products, warranties and statutes of limitation be construed together with LB 155 and result in a basis for recovery which is broader than either LB 155 or other such provision(s) standing alone?

When you say "basis for recovery" we presume you mean the elements which will need to be proven in order to prevail on an action brought under LB 155. We can foresee of no cases where any of the necessary elements set forth in LB 155 could be eliminated by reference to preexisting statutory provisions. The definition of some of the less well-defined elements of proof under LB 155 or other statutory provisions, such as the Uniform Commercial Code (UCC), could conceivably be clarified by reference to the other, but the basis for recovery under either would not be altered.

B. Has a "statutory circle" been created? E.g., if the UCC were to provide that other pertinent laws apply in a given instance (including LB 155), and LB 155 (section 8) specifically disclaims limiting "any other law" bearing on consumer "rights or remedies", does LB 155, then, by its own terms render itself broader than its terms?

To answer your hypothetical question, if the UCC were to provide that LB 155 would apply in a given instance then it would have been enacted subsequent to LB 155. Consequently, there would be a

presumption that the Legislature was aware of the language of section 8 (School Dist. No. 17 v. State, 210 Neb. 762 (1982)), and intended to provide for an exclusive cause of action under LB 155 in cases where both the UCC and LB 155 might have otherwise applied but for the limiting provision.

If on the other hand the UCC were to provide that its provisions did not apply in cases where there was a more specific law relating to the rights and remedies of purchasers of certain goods not conforming to warranty, then one would be required to determine the order of adoption of the UCC limitation and Section 8 of LB 155. If the UCC provision was the later, then LB 155 would likely be the exclusive remedy (assuming no other rights and remedies were available to the consumer.) If Section 8 was more recent, then the purchaser would have a cause of action under both acts since the language of Section 8 clearly indicates that all preexisting rights and remedies are to remain intact.

5. The phrase "reasonable number of attempts" to repair a defect, without more, appears in section 3 on page 3, line 8. It also appears in section 4 on page 4, lines 1 and 2 dealing with the establishment of a presumption, but sets a number of "four or more" repair attempts. Section 3 is independent of section 4. Is it possible that the naked phrase as used in section 3 (considering particular factual circumstances, case law and "any other law") may be construed in such fashion as to require fewer than "four or more" repair attempts in order to cross the reasonable number of attempts" threshold?

Yes.

6. Don't the general terms of section 3 permit the making of a case without resort to the straitjacket provisions of section 4? In other words, if a consumer chooses not to rely on the presumption provision, isn't possible to make a case without establishing the specific items relative to number of repair attempts and number of days a vehicle may be out of service?

Yes.

7. A. Section 4, being a self-contained statutory scheme dealing exclusively with requirements for establishing a presumption, can its terms be applied to cancel out or supercede the less stringent notice requirements specified in section 2?

We do not believe so. Section 2 sets forth a duty to repair on the part of the manufacturer, its agent or its authorized dealer after the consumer "reports" the nonconformity to him. Section 4 addresses the creation of a presumption that a reasonable number of repair attempts have been made. It requires that written notice by certified mail be given to the manufacturer. Although the statute does not specify at what point in the chain of attempts to have one's motor vehicle repaired the consumer must furnish this notification, this giving of notice is clearly distinct from the reporting requirement of section 2.

B. Would such a restricting application be prohibited by section 8?  
Section 8 has nothing to do with the foregoing determination.

8. That the consumer must allege "an opportunity to cure the defect" is found only in section 4 on page 4, line 21. Does the failure to mention it anywhere else in LB 155 mean that it need not be alleged if section 4 is not relied upon?

As you have pointed out, actions brought under section 2 and section 3 of LB 155 do not specifically require the consumer to allege that the manufacturer, its agent or its authorized dealer has been given "an opportunity to cure the defect." However, one of the allegations required for actions brought under section 3 is that the manufacturer, agent or dealer has been unable to repair the motor vehicle "after a reasonable number of attempts." This allegation would appear to include within its terms that at least one opportunity to cure the defect has been given. Although a consumer would be well advised to include an allegation that an opportunity to cure the defect was given as this is certainly implied in the statute, it is not expressly required by that section and it possibly could be left up to the defendant to prove that no opportunity to repair was given.

9. Section 5 purports to establish a procedure for "informal dispute settlement" the use of which is optional for manufacturers but mandatory for consumers. In other words, if a manufacturer decides to participate in the scheme, the aggrieved consumer is compelled, under pain of losing all right to sue, to resort to it.

Is such a requirement constitutional — especially when, if taken in conjunction with the specified statute of limitations, a person may be foreclosed from suing as a direct result of complying with mandatory provisions of the law itself?

We see no constitutional problems with the requirement that a consumer first resort to the informal dispute settlement procedure prior to proceeding under the provisions of LB 155. First, the consumer does not lose all rights to sue, as your question indicates. Provisions of other laws on the subject would still be available to the consumer. Additionally, no right arises under section 3 of LB 155 until the consumer resorts to the settlement procedure. The fact that a manufacturer is not required to establish or participate in such a procedure would only result in a consumer with that manufacturer's product not having to resort to the procedure before bringing an action under section 3 of LB 155. In this way the law encourages manufacturers to bear the expense of establishing or participating in informal settlement procedures, without going so far as mandating that settlement procedures be adopted.

Additionally, we do not believe a statute of limitations problem would be created on account of the requirement that a consumer first resort to an informal settlement mechanism, if available. It is not

necessary to consider the question of whether the problem you perceive would rise to constitutional magnitude since we are of the opinion that the statute of limitations would not run during the time the consumer was resorting to the mandatory informal settlement procedures.

Statutes of limitations are statutes of repose and they are enacted upon the presumption that one having a well-founded claim will not delay enforcing it beyond a reasonable time if he has the right to proceed. But the basis of the presumption is gone whenever the ability to resort to the courts has been taken away. The appellee having been restrained from proceeding further by a paramount authority, the period thereof should not be considered in computing the time for the statute of limitations to run and therefore none of its rights have been barred thereby.

Lincoln Joint Stock Land Bank v. Barnes, 143 Neb. 58, 65 (1943), cert.denied 320 U.S. 781.

Therefore, if the case should ever arise where the consumer had exceeded the time for bringing actions set by section 6 of LB 155 on account of being involved in the required settlement proceeding, the court would most likely allow additional time for the consumer to file.

10. If "any other law" relative to statutes of limitation were to provide a longer period of time in which to bring action for recovery under express warranties than does LB 155 — i.e., page 2, lines 21 - 24, for example — would that longer period prevail, in the light of section 8 which declares, "Nothing in this act shall in any way limit the rights or remedies which are otherwise available to a consumer under any other law?"

We assume by this that you are asking whether a law providing a longer statute of limitations may be applicable to actions brought pursuant to the provisions of LB 155 on account of the language of section 8. We think not. As we previously indicated, section 8 is merely an expression of an intent to leave intact consumer rights and remedies provided by the other laws. It does not give a consumer the ability to pick and chose from various statutes those sections which are beneficial while disregarding the rest. Section 6 of LB 155 makes it clear that actions brought under the act are subject to the Statute of Limitations contained therein.

Very truly yours,

- 2 2. Insert the following new sections:
- 3 "Section 1. The Legislature finds that the
- 4 duties and responsibilities of volunteer fire
- 5 departments and rescue squads in the State of Nebraska
- 6 have become increasingly complex and that the needs of
- 7 the various departments and squads across the state are
- 8 dramatically different.
- 9 The Legislature recognizes that volunteer fire
- 10 departments and rescue squads must encourage a high
- 11 level of training and professionalism among their

12 volunteer personnel in order to respond to their  
13 increasingly complex responsibilities.

14 The Legislature recognizes the significant  
15 savings to taxpayers of the State of Nebraska due to  
16 volunteer fire departments and volunteer rescue squads  
17 and further recognizes that such volunteer public safety  
18 programs should be encouraged in communities which  
19 choose to have such programs.

20 The Legislature further finds that cities of  
21 the first and second class, villages, and rural and  
22 suburban fire protection districts should be permitted  
23 to analyze the needs of their local communities,  
1 specifically related to the recruiting, training, and  
2 retention of fire safety and rescue squad volunteers to  
3 serve such municipality or district, and should be  
4 granted the authority to design local option incentive  
5 programs specifically tailored to the needs of that  
6 community.

7 Sec. 2. The governing body of any city of the  
8 first or second class or village or of any fire  
9 protection district may establish incentive programs by  
10 ordinance or resolution for active volunteer members of  
11 a volunteer fire department or rescue squad. The  
12 incentive programs may include, but shall not be limited  
13 to, payment of deferred annuities which reward length of  
14 service and active participation; health, disability,  
15 and life insurance; reimbursement of costs incurred by  
16 volunteers during the line of duty; and other similar  
17 financial incentives for the volunteer members.

18 Sec. 3. Any incentive program which may be  
19 established pursuant to sections 1 to 5 of this act  
20 shall be wholly funded by the city, village, or district  
21 adopting such plan.

22 Sec. 4. No city with a paid fire department  
23 shall implement any incentive program for volunteer fire

### ATTORNEY GENERAL'S OPINION

Opinion No. 71  
April 6, 1983

Dear Senator Fowler:

This is in response to your letter concerning the provisions of LB 78 which is currently before the Legislature. LB 78 requires that the prosecuting attorney in certain cases consult with the victim prior to entering a plea agreement. The proposed legislation would also require that statements of the victim be included in the presentence report.

First, you have asked whether the mandatory inclusion of statements of the victim in the presentence report without affording the defendant the opportunity to cross-examine the victim concerning the statements could constitute a denial of due process. The sentencing judge has broad discretion concerning the evidence that he can consider in imposing a sentence. In fact, the latitude allowed a sentencing judge in such instances is almost without limitation as long as it is relevant to the issue. State v. Porter, 209 Neb. 772, 310 N.W.2d 926 (1981). By the

very nature of a presentence investigation report, it is necessary to rely to a great extent upon hearsay information. State v. Porter, *supra*. Therefore, under the current law, the judge would be entitled to consider statements by the victim or to have them included in the presentence report. The Nebraska Supreme Court has previously determined that since the presentence investigation has nothing to do with the issue of guilt, the rules governing due process with respect to the admissibility of evidence are not the same in a presentence hearing as in a trial in which guilt or innocence is the issue, and that the due process clauses of the state and federal Constitutions do not require that a person be given the opportunity to confront and cross-examine witnesses concerning statements contained in the presentence report considered by the judge in accordance with a state statute in determining the sentence to impose pursuant to the wide discretion vested in the judge under the law. State v. Rose, 183 Neb. 809, 164 N.W.2d 646 (1969). The mandatory requirement that statements of the victim be included in the presentence report would not alter these previous decisions and the inclusion of such statements without the opportunity to confront and cross-examine the victim concerning the statements would not be a denial of due process.

Your second question is whether the statements of a victim included in a presentence report would be discoverable under the rules of civil procedure for use in a subsequent civil trial. As amended by LB 78, §29-2261(6) would provide:

Any presentence report or psychiatric examination shall be privileged and shall not be disclosed directly or indirectly to anyone other than a judge, probation officers to whom an offender's file is duly transferred, or others entitled by law to receive such information. The court may permit inspection of the report or examination of parts thereof by the offender or his or her attorney, or other person having a proper interest therein, whenever the court finds it is in the best interest of a particular offender. The court may allow fair opportunity for an offender to provide additional information for the court's consideration.

Under this portion of the act, the contents of the presentence investigation are privileged. It would, therefore, appear that a statement of the victim would not be discoverable for use in a subsequent civil action under the discovery rules promulgated by the Nebraska Supreme Court. Rule 26(b)(1). However, the release of such information is left to the trial court's discretion, and in a proper situation the trial court may allow the offender to inspect the report. Hence, the offender might have an opportunity to be aware of the statements made by the victim and their contents.

Your final question is whether the restriction placed on plea bargaining and the mandatory inclusion of statements by the victim in the presentence report violate the separation of powers doctrine. Section 2 of LB 78 requires that the county attorney consult with the victim of specified crimes prior to reaching a plea agreement. This does

not place any restrictions on the county attorney's ability to exercise his discretion. The county attorney, in his discretion, may enter a plea agreement on terms he considers appropriate, after the required consultation with the victim, even though such action might be contrary to the victim's wishes. The same is true of Section 3 of LB 78 in regard to prosecutions of a violation of a city or village ordinance enacted in conformance with §39-699.07 or §39-699.08. Section 4 of LB 78 establishes the requirements that a statement by the victim be included or that the victim be given an opportunity to submit a statement to be included in the presentence report submitted to the sentencing judge. This does not affect the judge's ability to rely on the victim's statement to the extent that the judge feels is appropriate, or to rely on whatever other information the judge feels is relevant in making the sentence determination. Hence, the mere requirement that a certain item be included in the presentence report would not infringe upon the exercise of the power of the judiciary to impose sentences. Therefore, the provisions of LB 78 do not violate the separation of powers doctrine.

Very truly yours,

### ATTORNEY GENERAL'S OPINION

Opinion No. 72  
April 8, 1983

Dear Senator Hannibal:

You have directed our attention to LB 586, and have asked whether that bill violates Article III, Section 14, of the Nebraska Constitution, which provides that no bill shall contain more than one subject, which shall be clearly expressed in the title. In view of the very broad interpretation our court has given to this constitutional provision, we are unable to say that LB 586 violates it, although it admittedly stretches it to its limits.

The title of the bill recites that it is an act relating to revenue and taxation, to create certain funds, to provide for a distribution of funds to political subdivisions, to change provisions relating to sales and use tax, to provide funding and procedures for managing certain natural resources, to provide for loans and grants, to create a board, to direct the Legislature to annually appropriate certain general funds, to provide priorities, and to eliminate local sales and use taxes in funding procedures.

We start with the premise that the raising of revenue by taxation and the disposition of funds so raised is a single subject which may properly be provided for in one bill. The bill amends the sales tax act, by imposing a tax on the sale of bingo cards, lottery tickets, and pickle cards, and the gross receipt from rendering brokerage service. It also provides a fund for aid to counties, municipalities, and school districts.

Section 6 amends §77-3705, dealing with the homestead exemption, by limiting it to veterans over 70 years of age. Section 77-3523 provides for reimbursement to the taxing agencies of the state of tax revenue lost because of the homestead exemption, so section 6 deals with the disbursement of funds raised by the state by taxation.

Sections 5 through 20 of the bill create the Water Management and Development Board, and the Water Management and Development Fund. Section 11 provides for crediting and appropriating state funds to that Fund. Section 12 provides that the Board shall apportion the funds in the Water Management and Development Fund in a prescribed manner. We believe these sections deal with the disposition of state funds raised by taxation.

Sections 21 and 22 of the bill deal with the disposition of the

Nebraska Resources Development Fund. Again, we cannot say that this is wholly unrelated to revenue and taxation.

The bill also repeals §§77-27,136 to 77-27,140, dealing with the Governmental Subdivision Fund, and §§77-27,142 to 77-27,148, the Local Option Revenue Act. Presumably, the rationale behind such repeals is that the Legislature has made provision for state aid to political subdivisions in sections 1 through 3 of LB 586, and that the Governmental Subdivision Fund and the Local Option Revenue Act are no longer necessary.

The thread tying all of the different parts of the bill together is admittedly tenuous, but in view of the history of our court's broad interpretation of Article III, Section 14, we are not prepared to say that it would find a violation in this case.

3 in metropolitan class cities is heavy and contributes to  
4 many traffic problems, including the lack of adequate  
5 parking facilities, and that finding a solution to such  
6 problems is a matter of statewide concern. Metropolitan  
7 class cities serve many students attending institutions  
8 of higher education and such students must travel  
9 regularly to and from classes thereby severely  
10 increasing the traffic problems within a concentrated  
11 area surrounding such institutions. Limited  
12 availability of space which contributes to the high cost  
13 of property and rising construction costs and increasing  
14 transportation expenses all add to the economic  
15 difficulties encountered in solving such problems.

16 Sec. 9. There is hereby appropriated  
17 twenty-five thousand dollars from the General Fund for  
18 the period July 1, 1983, to June 30, 1984, to the  
19 University of Nebraska for consulting planning services  
20 to study space requirements and future expansion options  
21 of the University of Nebraska at Omaha. The study shall  
22 be conducted by the firm selected pursuant to section 10  
23 of this act and shall utilize existing data regarding  
1 the University of Nebraska at Omaha's current and  
2 projected space requirements including classroom,  
3 laboratory, office, study, special and general use  
4 space, and parking. The study shall determine whether  
5 the University of Nebraska at Omaha's current and  
6 projected needs can be met without further land  
7 acquisition by more efficient utilization of the  
8 existing campus, including the Peter Kiewit Conference  
9 Center, and shall document the costs of the options.

10 Sec. 10. There is hereby created a  
11 five-member commission for the purpose of hiring an  
12 architectural or engineering firm to undertake the study  
13 described in section 9 of this act. The commission

14 shall be composed of (1) two representatives from the  
15 University of Nebraska at Omaha appointed by the  
16 chancellor; (2) two representatives of the neighborhood  
17 located in the areas of potential expansion adjacent to  
18 the University of Nebraska at Omaha appointed by the  
19 state senator of the district in which the University of  
20 Nebraska at Omaha is located, and (3) the state senator  
21 of the district in which the University of Nebraska at  
22 Omaha is located. For purposes of hiring such  
23 architectural or engineering firm pursuant to this  
24 section, the public letting requirements of Chapter 73,  
25 article 1, shall not apply.

26 Sec. 11. The commission created in section 10  
1 of this act shall conduct a study to determine the  
2 effectiveness of the reduced fares offered by Metro Area  
3 Transit and report the results of such study to the  
4 Legislature by June 30, 1984.

5 Sec. 12. The University of Nebraska at Omaha  
6 is hereby prohibited from further expansion of its  
7 westward campus boundaries by the acquisition or  
8 purchase of residential or park land until the study  
9 provided for in sections 9 and 10 of this act is  
10 completed."

## **RESOLUTIONS**

### **LEGISLATIVE RESOLUTION 61.**

Introduced by Wesely, 26th District.

WHEREAS, Morrill Hall houses the State's primary natural history museum, including Nebraska's most prized historical exhibits; and

WHEREAS, Morrill Hall has served as an educational focal point for generations of Nebraska's citizens and students, housing the second-largest collection of fossil mammals in the world; and

WHEREAS, Morrill Hall is in great need of a climate control

system to halt the deterioration of its valuable and irreplaceable displays; and

WHEREAS, the Greek fraternities and sororities at the University of Nebraska-Lincoln have adopted the Morrill Hall cause by including the "Mastodon Marathon" to raise funds for the museum as part of their annual "Greek Week" observance.

NOW, THEREFORE BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-EIGHTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Legislature hereby commend the members of the University's Greek system for taking the initiative to raise money to support their campus and one of its most significant treasures by giving of their time, their concern and their labors.

2. That the Legislature take notice not only of the noble efforts of these students but also of the need to maintain a building which preserves, houses and represents such an important part of our great State and its great heritage.

Laid over.

#### **LEGISLATIVE RESOLUTION 62.**

Introduced by Jacobson, 33rd District.

WHEREAS, President Ronald Reagan on Saturday, February 26, 1983 announced that he is planning to ask the U.S. Congress to enact federal legislation to provide for the immediate decontrol of the natural gas industry;

WHEREAS, Nebraska is a natural gas importing state and would stand to be harmed by this action;

WHEREAS, immediate decontrol by the federal government of natural gas would add next year about 24¢ per bushel to the cost of production for corn and about 19¢ per bushel for the cost of production for wheat according to the U.S. Congressional Research Service;

WHEREAS, immediate decontrol of natural gas would cost all Nebraska natural gas consumers over \$1.5 Billion in higher gas prices than we are expected to pay during the next five years - over \$300 million more per year than would probably occur under the current federal policy;

WHEREAS, the current problem with "take or pay contracts" often cited as a major reason for immediate decontrol can be resolved by the U.S. Congress without immediate decontrol and through alterations in the current Natural Gas Policy Act of 1978;

NOW, THEREFORE BE IT RESOLVED, BY THE MEMBERS OF THE NEBRASKA LEGISLATURE, 88TH LEGISLATIVE SESSION:

1. That this Legislature finds the immediate decontrol of natural gas as proposed by President Reagan would unduly cause natural gas prices to rise without the benefits of enhanced supplies or the development of a free market;

2. That this Legislature is opposed to the Congressional enactment of the immediate decontrol of natural gas as proposed by the Reagan administration;

3. That the regulation of old gas should remain under the NGPA, but that the deregulation of new gas is essential and should take place on a gradual basis as scheduled;

4. That there should be a reduction in take-or-pay requirements that call for a pipeline company to pay for a specific portion of gas from a well whether or not that gas is actually used, and that pipelines are allowed to blend more of their older, less expensive supplies with the new higher cost gas;

5. That gas contracted for after enactment of NGPA modifications should be deregulated and classified as "new new" gas;

6. That a price cap, based on an annual national average price paid for "new new" gas, should be placed on all gas currently controlled under the NGPA and which is scheduled for decontrol by the Act;

7. That there should be provided a one-time "market-out" for any gas purchased which is presently decontrolled or subject to special pricing, and that this one-time termination option by either the pipeline or the producer would allow for the renegotiation of the price by the pipeline or the sale of this high priced gas by the product to another purchaser; and

8. That the Clerk of the Legislature send copies of this resolution to the President of the United States, the Nebraska Congressional Delegation, and the Speaker of the United States House of Representatives, and the President of the United States Senate.

Laid over.

### ATTORNEY GENERAL'S OPINIONS

Opinion No. 76  
April 8, 1983

Dear Senator Goodrich:

You have asked whether Section 1 of L.B. 96 permits reimbursement only for federal aid road projects such as an interstate project, urban extensions thereof, or any interstate segment which has been removed from the interstate system. We assume that because line 16 of L.B. 96 makes reference to "any federal aid project", your question is directed at the possibility of reimbursement for utility relocation on those federal aid projects that are not specifically "road" projects. We are of the opinion that L.B. 96 permits reimbursement only for federal aid road projects and that any non-road project would not qualify for such reimbursement.

Our opinion is controlled by what we believe to be the plain meaning of lines 4, 5, and 6 of L.B. 96, which limits reimbursement of "projects undertaken by virtue of the legislative assent given by Section

39-1304.01.”

Neb.Rev.Stat. §39-1304.01 (Reissue 1978), a statute dealing exclusively with assent to the Federal Aid Highway Act, provides as follows:

“The Legislature hereby reaffirms its continuing assent to the federal acts set forth in section 39-1304.”

Neb.Rev.Stat. §39-1304 (Reissue 1978), again a statute dealing exclusively with assent to the Federal Aid Highway Act, provides as follows:

“The legislative assent required by section 1 of the Act of Congress approved July 11, 1916, Public Law 156, entitled An Act to provide that the United States shall aid the states in the construction of rural post roads, and for other purposes, is hereby given. The Legislature likewise assents to the Congressional Federal Aid Acts, Federal Highway Acts, and Federal Aid Highway Acts approved subsequent to July 11, 1916. In the absence of contrary legislative action regarding the assent hereby given, the Legislature shall be deemed to have given a continuing assent to subsequent acts, rules, and regulations which either amend or supplement the above-mentioned acts or otherwise provide funds for the same or similar purposes.”

It would seem beyond question that the plain meaning of the language of L.B. 96 restricting reimbursement to “projects undertaken by virtue of the assent given by Section 39-1304.01” is to restrict reimbursement to “road” projects.

We would add parenthetically that we are also of the opinion that the restrictive language of L.B. 96 quoted above limits any prospective applications of reimbursement. Inasmuch as there is presently no project “undertaken by virtue of the legislative assent given by section 39-1304.01”, and because such assent is no longer required for future road projects (see Attorney General Opinion No. 240, dated April 2, 1982), no present or future projects can qualify for reimbursement provided for in L.B. 96.

Very truly yours,  
PAUL L. DOUGLAS  
Attorney General

Opinion No. 77  
April 12, 1983

Dear Senator DeCamp:

This is in reply to your inquiry which pertains to LB 465 of the Eighty-eighth Legislature, First Session (1983). That legislative bill, as amended, is an act to amend Neb.Rev.Stat. §79-801 (Reissue 1981). In connection therewith, you have asked two questions, each of which is hereinafter discussed.

1. Does the decision for determination of school district boundary changes and school property disposition lie solely with the school boards of the districts in which there lies territory included in a municipal annexation?

LB 465, as amended, provides, in part, that the territory within the corporate limits of each incorporated city or village in the State of Nebraska, together with such additional territory and additions to such city or village as may be added thereto, as declared by ordinances to be boundaries of such city or village, having a population of more than one thousand and less than one hundred thousand inhabitants, including such adjacent territory as now is or hereinafter may be attached for school purposes, shall constitute a school district of the third class;

Provided, that where the territory annexed by a change of boundaries of such city has been part of a Class IV, V, or VI school district for more than one year prior thereto, having been annexed by petition, the question as to which district the annexed territory shall be part of shall be negotiated by the school boards of the school districts involved. If the majority of the members of each school board cannot reach agreement on such question within ninety days after the effective date of the city annexation ordinance, the question of which school district the annexed territory shall be a part of shall be placed on the ballot for the next general election.

Thus, it appears that the determination of school district boundary changes and school property disposition pursuant to LB 465, as amended, would not lie solely with the school boards of the districts in which there lies territory included in a municipal annexation, but in a proper case, would lie with the electorate.

2. In the case of annexation into a Class VI school district, would all Class I districts making up the Class VI district have a voice on changes that district's boundaries or in the disposition of property belonging to the Class VI district?

No. In cases where the question is placed on the ballot for a determination as to which school district the annexed territory shall be a part of, LB 465, as amended, provides "The registered voters of all Class I districts which form the annexed territory shall then vote on the question at such election."

Very truly yours,

### ATTORNEY GENERAL'S OPINION

Opinion No. 78  
April 14, 1983

Dear Senator DeCamp:

You have requested that we review some proposed amendments to LB 336. The amendments that you have provided to us do not carry a number assigned by the revisor of statutes. They appear to be a draft copy. In substance, the amendment imposes a 7 percent tax on all lotteries conducted within the State of Nebraska; vests in the regulatory commission to be established in Section 58 of LB 259 rule making power and authority to regulate, control and supervise conduct of lotteries. You ask us to review these proposed amendments to determine whether they are constitutional.

Since you have indicated that there is an extreme urgency with respect to your request, substantial research has not been possible. We may, however, generally state that an amendment which intends to impose a tax on the gross proceeds of lotteries conducted within the state would be constitutional. See, *State v. Smith*, 135 Neb. 423, 281 N.W.2d 851 (1938) and *Thorin v. Burke*, 146 Neb. 94, 18 N.W.2d 664 (1945).

The second matter that we wish to discuss with respect to your request relates to granting the rule making power to the regulatory commission established by LB 259. While the proposed amendment lists four areas in which the commission is to act, we have some difficulty with the provision which states that the commission shall "Develop procedures and techniques to insure that no improper elements or

operators of any lottery activity are operating with the State". We are unable to determine what would constitute an "improper element" or an "improper operator."

Arguably, we are able to determine what an improper lottery activity would be by referring to the general lottery statute which sets forth the elements of a lottery. We have been unable to find any definition of "improper elements" or "improper operators." We believe that this particular provision violates the restrictions on delegating legislative authority. It appears to us to be vague and perhaps overbroad.

The Nebraska Supreme Court in dealing with a statute which provided that the erection or maintenance of an advertising sign visible from the main travel portion of the interstate system was vague.

"It is a basic principle of due process that an enactment is void for vagueness if its prohibitions are not clearly defined. Vague laws offend several important values. First, because we assume that man is free to steer between lawful and unlawful conduct, we insist that laws give the person of ordinary intelligence a reasonable opportunity to know what is prohibited, so that he may act accordingly. Vague laws may trap the innocent by not providing fair warning. Second, if arbitrary and discriminatory enforcement is to be prevented, laws must provide explicit standards for those who apply them. A vague law impermissibly delegates basic policy matters to policemen, judges, and juries for resolution on an ad hoc and subjective basis, with the attendant dangers of arbitrary and discriminatory application."

State v. Mayhew Products Corp., 211 Neb. 300, 305, 318 N.W.2d 280 (1982).

In addition to the vagueness associated with the use of the term "improper elements or operators," we can conceive of a situation in which a rule would be adopted which would be so broad as to sweep within its net totally innocent people. We therefore are constrained to say that the proposed amendments granting the authority to adopt rules and regulations to ensure that "improper elements or operators" is an improper delegation of legislative authority in that no standards or criteria are laid down to guide the administrative agency.

Very truly yours,  
PAUL L. DOUGLAS  
Attorney General

- 9 studies, English, and especially mathematics and
- 10 science. A major factor in such shortage is the greater
- 11 salaries of other jobs and careers which exist for both
- 12 current and future teachers. Beginning salaries in
- 13 other areas for technically trained people have risen
- 14 sharply relative to teacher salaries. In addition,
- 15 support for teacher training, equipment, and supplies
- 16 has dwindled. Thus, the quality of the teaching corps
- 17 throughout the state has declined and can be expected to
- 18 worsen as such teachers continue to leave teaching for
- 19 other jobs or retirement. In recognition of the
- 20 declining quality of the teaching corps and the greater
- 21 demand for educated students and teachers in
- 22 mathematics, science, social studies, and English, the
- 23 Legislature needs to insure that adequate training in
- 1 such subjects is provided to all students and to insure
- 2 that such training is provided by qualified individuals.

3       Sec. 2. (1) Beginning on August 1, 1984,  
4 each high school student in the state enrolled in the  
5 ninth, tenth, eleventh, and twelfth grades shall be  
6 required to annually complete at least ten credit hours  
7 in each of the areas of mathematics, science, social  
8 studies, and English which shall be taught by persons  
9 specifically certified to teach mathematics, science,  
10 social studies, or English. No high school student  
11 shall graduate until such requirements have been  
12 successfully completed. In order to fulfill the  
13 requirements of this section, a local school board may  
14 employ teachers specifically certified to teach such  
15 subjects at a greater salary than other teachers. The  
16 requirements of this section shall not be construed to  
17 require the completion of any specific subjects prior to  
18 August 1, 1984.

19       (2) Any high school which does not offer the  
20 instruction required by subsection (1) of this section  
21 to its students shall lose its accreditation status.  
22 The State Department of Education shall make the  
23 determination of whether a teacher is specifically  
24 certified to teach the subjects listed in subsection (1)  
25 of this section and shall also determine if a high  
26 school is in violation of this act.

1       Sec. 3. This act shall become operative on  
2 August 1, 1984."

Mr. DeCamp asked unanimous consent to print the following amendment to LB 585 in the Journal. No objections. So ordered.

AM1162

1       1. Strike the original sections and all  
2 amendments thereto and insert the following new  
3 sections:  
4       "Section 1. The Legislature hereby recognizes  
5 and declares that education in mathematics, science,  
6 social studies, and English is important to the welfare  
7 of the state. The Legislature further recognizes that  
8 there is a shortage of teachers in the areas of social  
9 studies, English, and especially mathematics and  
10 science. A major factor in such shortage is the greater  
11 salaries of other jobs and careers which exist for both

3 Sec. 2. (1) Beginning on August 1, 1984,

5 ninth, tenth, eleventh, and twelfth grades shall be  
6 required to annually complete at least ten credit hours

9 specifically certified to teach mathematics, science,  
10 social studies, or English, except as otherwise provided  
11 by subsection (3) of this section. No high school  
12 student shall graduate until such requirements have been  
13 successfully completed. The requirements of this  
14 section shall not be construed to require the completion  
15 of any specific subjects prior to August 1, 1984.

16 (2) Any high school which does not offer the  
17 instruction required by subsection (1) of this section  
18 to its students shall lose its accreditation status.  
19 The State Department of Education shall make the  
20 determination of whether a teacher is specifically  
21 certified to teach the subjects listed in subsection (1)  
22 of this section and shall also determine if a high  
23 school is in violation of this act.

24 (3) Instead of the certified individuals  
25 required in subsection (1) of this section, a school  
26 board may employ persons to fill such positions who are  
1 not certified to teach if such persons have  
2 satisfactorily completed a test developed and  
3 administered by the State Department of Education which  
4 demonstrates that such persons possess expertise in  
5 mathematics, science, social studies, or English.

6 (4) If noncertified individuals are hired  
7 pursuant to subsection (3) of this section, the local  
8 school board may employ such persons on contracts and at  
9 salaries which differ from certified teachers. Such  
10 contracts may provide for benefits, other than salary,  
11 different from those received by certified individuals

12 or for no benefits.

13 Sec. 3. That section 79-1233, Reissue Revised  
14 Statutes of Nebraska, 1943, be amended to read as  
15 follows:

16 79-1233. (1) No person shall be employed to  
17 teach in any public, private, denominational, or  
18 parochial school in this state who does not hold a valid  
19 Nebraska certificate or permit issued by the  
20 Commissioner of Education legalizing him or her to teach  
21 the grade or subjects to which elected, except as  
22 provided in section 2 of this act and except that no  
23 Nebraska certificate or permit shall be required of  
24 persons teaching exclusively in junior colleges  
25 organized as part of the public school system.

26 (2) Public, private, denominational, or  
1 parochial schools in the state may employ persons who do  
2 not hold a valid Nebraska teaching certificate or permit  
3 issued by the Commissioner of Education to serve as  
4 aides to a teacher or teachers. Such teacher aides may  
5 not assume any teaching responsibilities. A teacher  
6 aide may be assigned duties which are nonteaching in  
7 nature, if the employing school has assured itself that  
8 the aide has been specifically prepared for such duties,  
9 including the handling of emergency situations which  
10 might arise in the course of his or her work.

11 Sec. 4. This act shall become operative on  
12 August 1, 1984.

13 Sec. 5. That original section 79-1233,  
14 Reissue Revised Statutes of Nebraska, 1943, is  
15 repealed.”.

### ATTORNEY GENERAL'S OPINION

Opinion No. 79  
April 15, 1983

Dear Senator Pirsch:

You have asked whether or not there are any constitutional problems with LB 77. We do perceive a constitutional problem.

Section 2 makes the effectiveness of the act dependent upon a constitutional amendment. The section does not specify what constitutional amendment must be adopted, nor does it identify the intent or purpose of the constitutional amendment. Statutes which are unconstitutional at the time they are adopted are a nullity. See, Board of Educational Lands and Funds v. Gillett, 158 Neb. 558, 64 N.W.2d 105 (1954); and State v. Bardsley, 185 Neb. 629, 177 N.W.2d 599 (1970).

Ordinarily, an unconstitutional statute cannot become valid where the reason for its invalidity has been removed without reenactment. See, Snyder v. Woxo, Inc., 185 Neb. 545, 177 N.W.2d 281 (1970). Thus, a statute which was unconstitutional when passed is a nullity, and the fact that the constitution is changed to authorize the particular statute which was enacted at a time that it was not possible, does not revive the statute. The statute would have to be repassed and reenacted after the cause of its invalidity, in this case a constitutional provision, was removed. Therefore, the bill, should it be passed, would clearly be unconstitutional assuming it is in violation of the constitution.

Part of the analysis of this question is whether or not the statute offends the constitutional provision. It does. Article VII, Section 5 of the Constitution of the State of Nebraska generally provides that fines, penalties, and license money should be appropriated exclusively for the use and support of the common schools and respective subdivisions where the same may accrue. The nature of the forfeiture which would be proposed under LB 77 would be within the categories which the

constitution requires to go to the support of the local school district. It therefore is in violation of this constitutional provision.

Very truly yours,  
PAUL L. DOUGLAS

**ATTORNEY GENERAL'S OPINION**

Opinion No. 80  
April 15, 1983

Dear Senator Jacobson:

This is in reply to your inquiry as to the constitutionality of LB 503, Eighty-Eighth Legislature, First Session.

This bill, among other things, authorizes the State of Nebraska to appropriate funds and make grants therefrom to private railroad companies for improvement of their roadbeds. A companion bill, LB 503A, appropriates money for this purpose.

Article XIII, section 3, of the Nebraska Constitution provides in part: "The credit of the state shall never be given or loaned in aid of any individual, association, or corporation." Chase v. County of Douglas, 195 Neb. 838, 241 N.W.2d 334 (1976).

The Supreme Court of Nebraska held a portion of a Nebraska statute unconstitutional which authorized governmental subdivisions to expend tax money to acquire real estate for the purpose of promoting industrial development. In speaking of the industrial development

amendment to the Nebraska Constitution, which is Article XIII, section 3, the court stated: "Article XIII, section 3, remains in the Constitution and under its terms any loan of credit made by the state, by a county, or by a municipality to a private individual, association, or corporation is unconstitutional. State ex rel. Beck v. City of York, supra."

Since the above case of Chase v. County of Douglas, supra, the Supreme Court of Nebraska held that the Nebraska Mortgage Finance Fund did not violate this article of the Constitution on the ground that none of the funds involved in that case were state funds and the state was specifically exempted in the bonds from any obligation.

LB 503, however, clearly authorizes the use of state tax funds.

From the foregoing, it is our opinion that LB 503, if passed, would be in violation of Article VIII, section 3, of the Nebraska Constitution.

Very truly yours,  
PAUL L. DOUGLAS  
Attorney General  
Mel Kammerlohr  
Assistant Attorney General

- 11 following requirements:
- 12 (1) An employer's rate shall be two and

**ATTORNEY GENERAL'S OPINIONS**

Opinion No. 81  
April 13, 1983

Dear Senator Cullan:

This is in reply to your inquiry which pertains to LB 126 of the Eighty-eighth Legislature, First Session 1983. That legislative bill is an act to provide a work-study program for students at certain postsecondary educational institutions. You ask if the amendment thereto of March 1, 1983, which would limit the benefits of this act to eligible Nebraska students who are enrolled in either a public or private postsecondary institutions in this state which offer courses of instruction leading to a bachelor's, master's, or professional degree, violates the Nebraska Constitution which prohibits special legislation.

Neither the United States Constitution nor the Nebraska Constitution deprive the Legislature of any right to classify objects for legitimate governmental purposes. Thus, it is well settled law that the Legislature may classify objects of legislation, and if the classification is reasonable and not arbitrary, it is a legitimate exercise of legislative power and not violative of the Nebraska Constitution. City of Scottsbluff v. Tiemann, 185 Neb. 256, 266, 175 N.W.2d 74 (1970). Likewise, it is well settled law that nonfundamental rights classifications are not violative of the Equal Protection Clause of the United States Constitution "if any state of facts reasonably can be conceived that would sustain it." State v. Sprague, 213 Neb. 581, 591, \_\_\_\_ N.W.2d \_\_\_\_ (1983); Lindsey v. National Carbonic Gas Co., 220 U.S. 61, 78 (1911).

Section 1 of LB 126 states that "The Legislature hereby finds and declares that there exists an urgent need to provide financial assistance to eligible Nebraska students enrolled, or accepted, or accepted for enrollment, in eligible postsecondary institutions within this state." However, LB 126, as amended, does not state the circumstances which give rise to that "need" and consequently we are unable to discern from the language of this legislative bill why students enrolled in certain institutions which offer courses of instruction leading to a bachelor's, master's, or professional degree would be eligible for financial assistance but students enrolled in other types of postsecondary institutions are not. Moreover, since the language used in this legislative bill seems clear, a court, in construing it, could find that the language used cannot be amplified or contracted by legislative proceedings pertaining thereto. *Sun Insurance Co. v. Aetna Insurance Co.*, 169 Neb. 94, 112, 98 N.W.2d 692 (1959). Thus, on its face, the classification created by LB 126, as amended, is arbitrary and arguably unconstitutional.

On the chance that it would somehow be proper for a court to examine the legislative history of LB 126, we have examined the floor debate thereon to ascertain if it sheds any light on your question. Upon doing so we find that at least some members of the Legislature were of the opinion that the state could not, realistically, appropriate sufficient funds to cover the entire student population and therefore it should target the appropriations that could be made available to those programs that clearly lead to those degrees which serve a certain need in our society. What are those degrees? The floor debate discloses the following:

We are not graduating enough people in mathematics. We are not graduating enough people in sciences. We are not graduating enough people in genetics. We are not graduating enough people in computer sciences. We are not graduating enough people in medicine. We are not graduating enough people who are knowledgeable of foreign languages. We are not graduating enough people who can teach those subjects.

The above quoted floor debate is commendable. Unfortunately, there is nothing in the language used in LB 126 which would limit or target any appropriation made to implement this legislative bill to students enrolled in courses of study which leads to one of the above stated degrees. Nor is there anything in LB 126 which would limit the number of years a student could participate in the work-study program while pursuing a course of study leading to one of the above stated degrees. In short, we find nothing in the language used in LB 126 that would tend to insure that the above quoted needs would ever be met.

Upon giving due consideration to the above, we hesitate to say that LB 126, as amended, is unconstitutional. On the other hand, we can

tell you that a court could find it to be special legislation. At the very least, the constitutionality of this legislative bill would be very difficult to defend.

Very truly yours,

Opinion No. 82  
April 18, 1983

Dear Senator Beutler:

This is in response to your letter of April 5, 1983, concerning language in LB 371 which would allow courts to enter ex parte restraining orders which, in effect, enjoin a party in a divorce proceeding from molesting or disturbing the peace of the other party or any minor children affected by the action.

Neb.Rev.Stat. §42-357 (Reissue 1978) without the amendment presently provides for the issuance of ex parte orders enjoining any party from molesting or disturbing the other party. The inclusion of minor children within the scope of ex parte orders was of concern to you from a constitutional standpoint in view of parent-child relationships.

The courts have held that parental rights are a basic right and cannot be terminated without the parents being fully protected by due process. A natural parent has the right to maintain custody of his or her children subject only to the paramount interest which the public has in the protection of the rights of the child. State v. Metteer, 203 Neb. 515, 279 N.W.2d 374; State v. A.H., 198 Neb. 444, 253 N.W.2d 283; Linn v. Linn, 205 Neb. 218, 286 N.W.2d 765. We feel that the Fourteenth Amendment guarantees would apply to a suspension of such rights which would be the result in the case of an ex parte restraining order as to the children involved in the divorce. The parent against whom the order is issued must have that protection, yet that parent's immediate interest must be considered and balanced against the welfare of the children. Children involved in divorce actions are wards of the court, and the ultimate decision as to children must be made from the standpoint of their best interest. Wassung v. Wassung, 136 Neb. 440, 286

N.W. 340; Ford v. Ford, 191 Neb. 448, 216 N.W.2d 176; Weber v. Weber, 200 Neb. 659, 265 N.W.2d 436. We can readily visualize that in many instances the requesting party has possession of and is caring for the children. In such a situation, the need for peaceful environs by the requesting parent is inextricably tied to a similar need by the children. It could be in the best interest of the children to include them within the scope of the restraining order on an ex parte basis.

However, in view of State v. Metteer, *supra*, and the other cases cited, we feel that the relationship between parent and child is such that any order should be for a limited time pending notice and a hearing on the merits of the allegations of the requesting party. Thus, it is our opinion that an ex parte order involving children should be issued according to a reasonable statutory time frame that would provide for notice and hearing compatible with standard of due process. It is, therefore, our opinion that Section 1 of LB 371 is constitutionally suspect.

Very truly yours,

Opinion No. 83  
April 19, 1983

Dear Senator Morehead:

You have submitted to us a proposed amendment to LB 363, and have asked our opinion as to its constitutional validity. It appears to us to violate Article III, Section 18, of the Nebraska Constitution by creating a permanently closed class.

LB 363 would exempt certain food from liability for the sales tax. Your proposed amendment would provide that an incorporated municipality imposing a sales tax on the effective date of the act could increase that sales tax by an amount not to exceed one-fourth of one percent, to compensate for revenue lost because of the removal of the sales tax on food.

The general limitations on city sales taxes are found in Neb.Rev.Stat. §77-27,142 (Reissue 1981). Any municipality which does not now impose a sales tax, but which may wish to do so in the future, will be bound by the limitations contained in §77-27,142. On the other hand, municipalities imposing such a tax on the effective date of the act

would be able to exceed those limits by one-fourth of one percent. Other municipalities would never be able to do so.

In State ex rel. Douglas v. Marsh, 207 Neb. 598, 300 N.W.2d 181 (1980), the court said:

The Kelso rule remains the law of this state and was reaffirmed by this court in City of Scottsbluff v. Tiemann, 185 Neb. 256, 261, 175 N.W.2d 74, 79 (1970), wherein we said: "The law is unmistakably clear that a statute classifying cities for legislative purposes in such a way that no other city may ever be added to the class violates the constitutional provision forbidding special laws where general laws can be applicable." See, also, Axberg v. City of Lincoln, 141 Neb. 55, 2 N.W.2d 613 (1942). No matter what may happen in the future with regard to the location of exempt property, once the amount to be paid by the state to each of the several counties is determined, no change with regard to that basic formula may thereafter be made. Such provision clearly flies in the face of the prohibition contained in Neb.Const. art. III, §18.

This language appears clearly applicable to the amendment you have submitted to us, so we believe our court would strike it down, as creating a closed class.

Very truly yours,

Opinion No. 84  
April 19, 1983

Dear Senator Jacobson:

This is in response to your letter of April 12, 1983, concerning the constitutionality of a Sanitary Improvement District (SID) operating a cable television system.

We see no obvious problem with violation of any specific provision of the constitution by such action. Rather, it would appear that such action is outside the scope of the present specific authority granted to SID's by statute. The Nebraska Supreme Court has indicated that SID's

are municipal corporations, and has further stated that:

The rule has long been established in this state that a municipal corporation "possesses, and can exercise, the following powers, and no others: First, those granted in express words; second, those necessarily or fairly implied in or incident to the powers expressly granted; third, those essential to the declared objects and purposes of the corporation—not simply convenient, but indispensable."

Lang v. Sanitary District, 160 Neb. 754 at 763-764, 71 N.W.2d 608 (1955).

Neb.Rev.Stat. §31-727 (Reissue 1978), sets out the specific authority granted to SID's. Operation of a cable television system would not appear to be within the authority granted by this provision or a power necessarily or fairly implied by these express powers. However, without the opportunity to examine the specific proposed legislation involved in this matter, it would be difficult to give a more precise answer to your question.

AM1214

- 1 1. Insert the following new sections:
- 2 "Sec. 7. That section 46-229.04, Reissue
- 3 Revised Statutes of Nebraska, 1943, as amended by
- 4 section 3, Legislative Bill 380, Eighty-eighth
- 5 Legislature, First Session, 1983, be amended to read as
- 6 follows:
- 7 46-229.04. At such hearing the verified
- 8 report of the water commissioner or engineers of the
- 9 department shall be prima facie evidence for the

10 forfeiture and annulment of such water appropriation.  
11 If no one appears at the hearing, such water  
12 appropriation or unused part thereof shall be declared  
13 forfeited and annulled. If someone interested appears  
14 and contests the same, the department shall hear  
15 evidence, and if it appears that such water has not been  
16 put to a beneficial use, or has ceased to be used for  
17 such purpose for more than three consecutive years, the  
18 same shall be declared canceled and annulled unless the  
19 department finds that there has been sufficient cause  
20 for such nonuse. Sufficient cause shall be deemed to  
21 exist if during the period of nonuse:

22 (1) The land subject to the appropriation was  
23 placed under an acreage reserve or production quota  
1 program or otherwise withdrawn from use as required for  
2 participation in any federal or state program;

3 (2) Federal, state, or local laws, rules, or  
4 regulations temporarily prevented or restricted such  
5 use;

6 (3) The available water supply was inadequate  
7 to enable the owner to use the water for a beneficial or  
8 useful purpose;

9 (4) Use of the water was unnecessary because  
10 of climatic conditions;

11 (5) Circumstances were such that a prudent  
12 person, following the dictates of good husbandry, would  
13 not have been expected to use the water;

14 (6) The works, diversions, or other facilities  
15 essential to use of the water were destroyed by a cause  
16 not within the control of the owner of the  
17 appropriation, and good faith efforts to repair or  
18 replace the works, diversions, or facilities have been  
19 and are being made;

20 (7) The owner of the appropriation was in  
21 active involuntary service in the armed forces of the  
22 United States or was in active voluntary service during  
23 a time of crisis; or

24 (8) Legal proceedings prevented or restricted  
25 use of the water.

26 Sufficient cause for nonuse shall also be  
1 deemed to exist if the owner of an appropriation has  
2 obtained recognition of incidental underground water  
3 storage associated with such appropriation pursuant to  
4 section 5 of this act and such owner demonstrates that  
5 such water stored incidentally underground is being used

6 by one or more persons who (1) at any time signed a  
7 contract for delivery of surface water from such owner  
8 and (2) either are no longer parties to such a contract  
9 or have contracted for delivery of less surface water  
10 than they contracted for at a previous time. The  
11 director may declare such appropriation canceled and  
12 annulled for any other valid reason.

13 The department may specify by rule and  
14 regulation other circumstances which shall be deemed to  
15 constitute sufficient cause.

16 Sec. 13. The director may approve an  
17 application filed pursuant to section 12 of this act  
18 subject to the following conditions:

19 (1) The rate, quantity or time of surface  
20 water diversion shall not be increased from that  
21 approved for the original appropriation;

22 (2) If the water to be stored underground will  
23 be used for irrigation purposes, the director may  
24 approve the service of additional amounts of land or  
25 different lands not identified to be served with  
26 facilities included under the original appropriation if  
1 the director determines that the change is in the public  
2 interest and that any interference with the rights of  
3 senior appropriators as a result of such change is  
4 unavoidable and not material; and

5 (3) The priority date shall remain the same as  
6 that of the original appropriation.

7 The director may grant the application in a  
8 modified or reduced form if required by the public  
9 interest and may impose such other reasonable conditions

WHEREAS, the budget deficit, when this third phase tax cut occurs and current federal policy is left unchanged, is projected by the Congressional Budget Office for fiscal years 1983, 1984, and 1985, at \$194.6 billion, \$200.9 billion, and \$210.5 billion respectively, or if one uses the President's more optimistic deficit figures of \$208 billion, \$189 billion, and \$194 billion in those respective years; and

WHEREAS, the interest on the federal deficit as calculated by the Congressional Budget Office for fiscal years 1983, 1984, and 1985, at \$87.3 billion, \$96 billion, and \$106.9 billion, respectively, or as projected by President Reagan's staff at \$87.3 billion, \$96 billion, and \$105 billion in those respective years; and

WHEREAS, the most recent estimate by the Nebraska Department of Revenue as to the effect of federal tax cuts on Nebraska was in 1982 and was then projected to decrease state revenue by approximately \$60 million; and

WHEREAS, there is a need to balance the federal budget and the Nebraska Constitution requires a balanced budget; and

WHEREAS, the proposed tax cuts are financed through deficit spending and force future generations to pay for these cuts for years to come; and

WHEREAS, the tax cuts will primarily go to those individuals and corporations in the higher income tax brackets; and

WHEREAS, the premise of supply-side economics has been unsupported by actual experience.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-EIGHTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That this Legislature go on record urging our Representatives in Washington to delay the implementation of the third phase tax cuts as authorized by the Economic Recovery Act of 1981 and scheduled for July 1, 1983.

2. That this Legislature go on record urging our Representatives in Washington to renew efforts to balance the federal budget and/or decrease the rate of increase of the federal budget deficit.

3. That this Legislature go on record urging our Representatives in Washington to cut back on defense spending and freeze domestic spending so that we can move toward a more balanced budget.

4. That a copy of this Resolution be sent to the President of the United States and Nebraska's Congressional Delegation.

WHEREAS, 12,600 railroad employees in Nebraska are now working with the expectation of reasonable protection of their retirement benefits; and

WHEREAS, any reduction in the amount of benefits received by beneficiaries under the railroad retirement system would have a drastic affect on the ability of these beneficiaries to meet normal living expenses; and

### **MOTION - Escort Governor**

Mr. Landis moved that a committee of 5 be appointed to escort the Governor.

The motion prevailed.

The Chair appointed Miss Kilgarin, Messrs. Wagner, R. Peterson, Withem, and Hannibal to serve on said committee.

The committee returned and escorted Governor Robert Kerrey to the Rostrum where he delivered the following message:

Mr. Speaker, Members of the Unicameral, as I pondered and considered how to present the state's current financial condition something about the event had a ring of familiarity. When Tax Commissioner Karnes gave me the news that despite the sharp increase of gross revenues in January, February and March, the Seventy Day Report to the Unicameral would still show \$20 million less available in 1983-84 for expenditures than we had originally predicted; when Commissioner Karnes gave me this news the feeling I had reminded me of a similar feeling I had fourteen years ago.

I was in charge of a joint command patrol - (STORY) - and though I feel like I've doubled back on myself with this budget, we are still in control; we know what has to be done.

First of all let me say that in the aftermath of yesterday's historic passage of LB 169, the leadership of both political parties made some very direct remarks about this body being highly partisan. And though political parties are important and though I was warned that I would see partisan politics dominate this legislative body, what I have seen in my first 100 days as your Governor is quite different. I have seen 49 independent thinking Nebraskans struggling to make decisions based upon what you believe is best for Nebraska. And while we do not always agree, I commend you for your service.

Let me begin today with a careful review of this state's revenue situation. On February 1st, I came before you with my budget proposal and promised to return this month with any necessary additional proposals. Our current revenue picture demands such proposals. We literally cannot afford to shirk the responsibility for enacting these proposals. First, we cannot shirk it because there are specific things that we ask of our state government.

We want prisons. We want a University. We want community-based mental retardation and alcoholism programs. We want our regional centers. We want departments of state government which enhance the quality of life in Nebraska. And, if we want all of these things we must fund them. It is true that we are spending a great deal of money. But it is also true that we spend with justification and the certitude that legitimate demands on state government must be met.

Second, we cannot shirk the responsibility because, to be perfectly candid, this state is broke. One year ago, \$810 million dollars were committed for the 1983-84 budget; at the start of this fiscal year, we were experiencing a General Fund deficit of \$16 million. Contrary to some very optimistic hopes, we have not grown out of the problem. At present, we are witnessing committed obligations which far exceed any reasonable revenue expectations. Quite simply, we are not generating July 1 or today revenue sufficient to pay our bills. Furthermore, the funds to do so will not appear as if by magic. It is incumbent upon us to make the difficult decisions required to restore solvency and stability to this state government.

If the foregoing generalities are not adequately compelling, let me delineate the revenue situation with exactitude. The revenue figures I am providing are to fulfill Nebraska's Day 70 projection requirement. You will find a thorough discussion of our revenue picture in your briefing book. I might add that this is one of the most extensive analyses of this state's revenue picture ever compiled. I think the staffs of Donna Karnes and Jack Sexton are to be commended for their efforts.

These figures represent the finest professional judgements available. There is no reason to believe that revenue has been underestimated. There is danger in underestimation. While it may be politically prudent to overestimate revenue and "hope for the best",

that too is dangerous. It is truly prudent to remain realistic.

The assumptions on which these projections are based indicate the Nebraska economy will show zero real growth for the remainder of 1983 and slow growth for 1984. Although current hopes are high for a strong economic recovery, they are primarily based on promising January economic statistics which were offset by disappointing February figures. The Nebraska Department of Revenue expects the real growth in the national economy to average 1.5% on a yearly basis for 1983 and 3.0% for 1984 on a yearly basis. The real growth rates for the Nebraska economy will be lower due to its traditional recovery lag. Inflation is projected to be 4.0% for 1983 and 4.7% for 1984. The assumption for unemployment in Nebraska will be 6.2%.

The payment-in-kind program (PIK) is projected to increase net farm income by 3.0 to 10.0% for 1983. This rise will come from an increase in savings on production expenses rather than an increase in cash receipts. The expected effect of PIK on unemployment in agriculturally related businesses is a 2.0 to 3.0% increase.

Although actual tax receipt figures have shown growth above previous projections, and are considered in these new figures, they are largely offset by increased refund projections. The new, much higher, refund figures are due to adjustments resulting from stronger consideration of the impact of several factors, such as last year's delaying of refunds, the purchase of IRA's by many taxpayers just prior to filing income tax returns, the marital tax rate adjustment, unemployment and the impending impact of the changes in taxability of income from government securities.

Specifically, January estimates projected a net revenue total of \$771.2 million for FY 1983 and \$757.8 million in FY 1984. More recent information has necessitated a revision in those figures, placing the net totals at \$757.5 million and \$754.7 million for FY 1983 and FY 1984, respectively. After adjustments for estimated lapses, deficiencies, and a 3% reserve, the total funds available for expenditure in FY 1984 amount to \$727.3 million.

The implications are clear. Based on these projections and adjustments, revenues will be \$21.6 million less than the amount needed to support my original FY 1984 budget recommendations of \$748.9 million. Given the current status of the appropriations bill, the gap becomes greater.

The budget as it currently stands amounts to \$752.5 million, even after the amendment to cut the university's budget by \$6 million. In addition, \$1.3 million must be made available for the Medicaid deficit, as well as \$4.5 million for the increased costs of state employee health insurance. These additions bring the total appropriation figure to \$758.4 million, \$31 million more than available revenues.

It should be obvious that the fiscal crisis is no longer an impending

one. It has arrived. And with it has arrived the absolute necessity to make and stand behind some tough decisions. The proposals I bring to you now are grounded in the disconcerting knowledge that the state is broke, and in the firm conviction that prompt, decisive action can and will address the problem.

I also make the following critical judgement: Businesses and individuals are still making difficult and sometimes painful reductions in their expenditures. Although we appear to be in recovery, this government must be as careful with its expenditures as the citizens for whom this government is created. Accordingly it is my opinion that we should not spend \$758 million. It is my opinion that we should not spend the original \$748 million I recommended. It is my strong opinion that we should reduce spending even further. And it is my strong opinion these reductions will not reduce the quality of this government.

With this in mind, I propose the following measures:

First, upon advise of business leaders, who operate businesses of this size, I am proposing a separate cash reserve fund must be created to provide for the cash flow requirements of the State and to preclude the need for future interfund borrowing. As you can see from the chart on page B8 of your briefing book, at present there is no cash reserve.

I suggest the amount of this reserve be set to eliminate the need for Interfund borrowing after June 30, 1984. This fund is to be created by the amendment to LB 59 which creates a special reserve funded by the institution of a 1/2% sales and use tax for a nine month period beginning July 1, 1983. I ask that you lay partisan considerations aside and pass this measure with the emergency clause.

Your failure to do so could further jeopardize this state's fiscal situation. Last year, because of the investigation of bid rigging within the state, highway projects were postponed. This permitted a large balance in the Highway Trust Fund which provided a pool for interfund borrowing. This pool is no longer there. In June and July of this year, the Department of Administrative Services estimates that cash funds available for interfund transfers will fall dangerously close to being inadequate for General Fund borrowing needs, as shown on page B27.

Second, interfund borrowing authority must be extended through July 1, 1984, if we are to meet our obligations for next year. The present aid payment schedule must also be retained.

Third, the Income Tax Rate for FY 1984 must be set at 20%. You will note that this is a renewed request for implementation of this Unicameral's Plan, formulated during the November, 1982 Special Session.

Fourth, I suggest the following budget cuts:

1. Reduction of the deficit bill by \$69,566.
2. Adoption of a number of my original budget proposals that have been rejected by the Legislature. These include Drivers Education

Aid, the Scottsbluff Vet Home addition and the Legislative Council, for a total reduction of \$3,112,332.

3. Reductions to the Capital Construction projects proposed by the Appropriations Committee in the amount of \$1,913,524. My proposal would however make \$275,000 available for the planning stage of the Vet College.

4. Reduction of the specific committee additions over my recommendation in the amount of \$610,666.

5. Reduction of state operations expenditures by \$13,592,233. This involves eliminating the salary increase for state employees and the operations increased for FY 83/84. A corresponding reduction is also made in the Tech Colleges budget. This area is one of the most difficult and risky areas to recommend cuts. State government works because state employees work. The people who are staffing our prisons, providing mental health services, educating our children, providing health and welfare services, designing and building our roads, meeting our judicial and legal needs are working, and working hard for us. We need good people in State Government and we are fortunate to have them. We must keep in mind the conscientious and dedicated work these employees perform and we should not expect them to shoulder all of the burden of restoring our state finances to a solvent position. They are willing to do their share as long as others sacrifice as well. Yet hard choices must be made if we are to provide an increase to these employees. After a review of options it is clear to me that we cannot fund this increase by simply adding even further tax increases. Such an increase must be funded through reductions in other programs. It is for that reason that I have concluded that we could fund a salary increase of 3%, contingent upon legislative enactment of the concept contained in LB 577 - that is, to fund our State Patrol road operations from Highway Cash Funds rather than the General Fund. I would urge the Appropriations Committee to revive and advance this concept which was sponsored this year by thirteen legislators. Enactment of this proposal still allows for a 8% increase in support for highway programs. This provides us substantial funds to achieve our highway goals. Enactment of such a funding shift can be short term and reversed when our state General Fund is restored to health.

So we've reduced the budget \$19,298,321. These reductions spare many necessary programs and services. We do not, as some have proposed, cut below the aid levels established for cities, counties, and schools in LB 1 of the Special Session.

We continue to provide an additional \$6 million for special education. Our commitment to economic development is maintained. The new correctional facility in Omaha will open to relieve the

overcrowding in our prisons. The additional \$400,000 for soil conservation in my budget is left intact. The demands on our public assistance programs are being met. These are all priorities that I believe must be met.

In addition, I have identified two new revenue measures to generate approximately \$6.8 million. These measures are LB 571, which selectively decreases the sales tax collection fee, and LB 17, which provides a sales tax on computer software. These measures could potentially generate \$5.3 million and \$1.5 million in revenue, respectively.

Further adjustments require using my original cash lapse figure and keeping \$1.4 million in parimutuel monies in the General Fund rather than going to the Fair Board.

Finally, I think it is critical that we take two specific actions with regard to Medicaid. First, you will recall that in my February First budget address I called for formation of a special task force to "develop a funding plan for LB 522 (State assumption of County Welfare) other than raising sales and income tax rates."

At the time I indicated that if a responsible funding plan could not be developed by March 15 of this year, I would seek repeal of LB 522. While the task force, under the very able leadership of our new Director of Public Institutions, Ron Jensen, and whose membership included representatives from state government, the general public, county government, and the Legislature, did report by my March 15 deadline, I am very disappointed by the fact that a legislative compromise could not be reached based upon the alternatives outlined by the Task Force. In February I stated that "it is impossible to fund state assumption of county welfare in the 1983-84 budget year" - that statement is even more true today. I am now calling for the repeal of LB 522 and recommend that it be accomplished by amending legislation that is currently before the Legislature.

Second, concern has grown over the escalating cost of the Medicaid program. In 1978-79, for example, the cost was \$93 million; the cost for 1982-83 is \$150 million - representing a 61% increase. This \$150 million is also \$11.7 million, or 8.4% more than the 1982 Legislature intended to be spent for this program.

The 1982 Legislature was already sufficiently concerned with this phenomenon that it acted to cap the increase in payments to individual health care providers at 3.75%, and you now are considering the continuance of that limitation in LB 618.

The 1982 Legislature further required the Department of Social Services to reduce payments when Medicaid expenditures are being made at a rate that would exceed legislative appropriations.

However, U.S. District Court Judge Warren Urbom has enjoined the Department of Social Services from implementing this state law,

which is cause for the Medicaid deficit appropriation I am requesting. Continuation of the 3.75% cap is also being challenged in the U.S. District Court.

Because of these escalating Medicaid costs and despite the challenges being presented by health care providers to changes in the Medicaid program, we must now go further. If we are to adequately control Medicaid costs and still provide for the needs of our poor and elderly citizens's, this Legislature must grant the Department of Social Services the control over the scope of optional services to be offered. This is not a *carte blanche* for the Director of Social Services. Mechanisms for public input in the decision making process exist and must be followed under existing state law.

It is not lost on me that a great deal of concern and even stronger lobbying has to be dealt with when considering changes to the scope of services for which nursing homes, doctors, hospitals, pharmacists and other medical practitioners are to be reimbursed for under the government-financed medicaid program. The health care industry has tremendous power.

The practitioners can come over and lobby, and lobby hard for increased optional services. All you have to do is look back four years. Unless some action is taken, in two years we will be at a point where we will be spending more on medicaid care than on post secondary education. Prudent reductions in optional services can, and must, be addressed. I have chosen a very capable administrator in Gina Dunning as Director of the Department of Social Services, and she has already demonstrated the willingness to make the tough decisions that bringing this Medicaid program under control will require.

I would urge you to grant her further discretion, understanding that all changes require administrative hearings and an opportunity for legislative review. The Department is capable, and willing to make recommendations on services. We have dedicated, professional people in this department. We should permit them to do the job that they were hired to do. I would also recommend that you favorably consider amendments offered on LB 618 by Senator Warner that outline initiatives that will be pursued by the Director of Social Services as the Medicaid program undergoes extensive review. If we do not act, and act decisively now, the budget deficit will be 10 to 11 million dollars bigger in 1983-84 than it is now.

As I told you in February, the budget process is not one of facile answers, easy maneuvers, or evasions. Instead, it is a process of learning, searching, and realistically evaluating. That statement is no less true today than it was two months ago. As the foregoing proposals were being developed, I considered and rejected a number of options. These included deeper cuts in state operations and personal services as well as a request that a portion of Health and Accident Insurance costs

be borne by state employees.

I rejected such options, fearful that they were inequitable or that they might undermine the quality of state government.

Thus, after much consideration, I present you today with a revised budget of \$739 million and a package of proposals to meet that amount. It is, I believe, an optimal mix of reductions and revenue raisers.

It is a proposal which allows us to bridge the gap between obligations and revenues. It is not a false solution based upon manipulated figures. It is not an attempt at unfair, across-the-board cuts. It is not a deferral which could trigger an automatic special session of this body.

Not since the Great Depression have the executive and legislative branches of this government faced such a grim fiscal picture. My predecessor had a \$70 million reserve on the first day of his first fiscal year. His predecessor had a \$60 million reserve. On the first day of my first full fiscal year we will be \$6 - 7 million in debt. Never before has the need for courage, candor, and cooperation devoid of partisanship been greater. I implore you to recognize this.

To serve the legitimate needs of Nebraska requires the expenditure and investment of our tax dollars. Adoption of the proposals I have outlined today will allow us to do that job. Delays and temporary, stop-gap measures are certainly not the answer. We must face this fiscal crisis squarely and we must do so now - before irreparable damage is done to the state.

The proposals I have made today have not adversely affected our state's needs. It provides for commerce, economic development, a new prison, educational opportunities and a good strong solid government. But I must also advise that the projections I make today could be wrong. They could be on the short side. We could need to make additional changes as our economic picture changes. We can do this together. We all work for the same employer, the citizens of the state of Nebraska. It is our duty, our obligation, to lay aside partisan attitudes and policies, to discover and define the road that leads us out of the financial problems that confront us. We must, as I said upon assuming this office, either find a way or make one.

The committee escorted Governor Kerrey from the Chamber.

## RESOLUTION

### LEGISLATIVE RESOLUTION 72.

Introduced by Von Minden, 17th District; Pirsch, 10th District; Hefner, 19th District; H. Peterson, 35th District; L. Johnson, 15th District; Haberman, 44th District; Jacobson, 33rd District; Clark, 47th District; Remmers, 1st District; DeCamp, 40th District; R. Peterson, 21st District; Pappas, 42nd District.

WHEREAS, the only possible means for ending the age of thermonuclear terror is the development of the beam-weapon technology to destroy nuclear missiles in midflight with more than 99 percent effectiveness, and

WHEREAS, the science and technology for such weapons system deployment exist as the established or early potential capacity of both superpowers, and

WHEREAS, crash effort to develop beam weapons would incur no net cost to the U.S. economy since the civilian by-products would stimulate a higher technology economic boom, and

WHEREAS, the weakening of the West through the present world depression combined with regional conventional warfare in the developing sector makes thermonuclear war an increasing possibility in the immediate years ahead, and

WHEREAS, a commitment to such development mandates the direction of medium-to-long term credit for rapid technological progress of U.S. agriculture and other goods-producing and transportation industries, in an increasingly energy-intensive mode, thereby providing employment for millions of unemployed U.S. workers and providing the basis for world economic recovery.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-EIGHTH LEGISLATURE OF NEBRASKA, FIRST SESSION, that this body, motivated by the best interests of the

population for which it is responsible, hereby calls upon the Congress of the United States to:

1. Relaunch the NASA program on an expanded scale, including the Mars Landing program, the manned space lab, and an accelerated space shuttle program as the necessary elements of the capability to launch a space-based anti-ballistic missile system;

2. Double the thermonuclear fusion research appropriation, now at under half a billion dollars per year, to ensure the broad-based fusion program necessary to lay the scientific foundation for developing directed particle-beam systems. The goal established in the McCormack bill passed by Congress in 1980 for an operative fusion test reactor by 1990, and a commercial reactor by 2000 must be reached.

3. Immediately accelerate the high-energy laser program, with the goal of achieving a defense capability against a small number of ICBMs within the next five years;

4. Immediately accelerate the short-wavelength laser and particle-beam program, with the goal of determining the optimum research and development path for immediate and succeeding generations of beam weapons designed to provide complete protection against nuclear war by the middle of the next decade;

5. Encourage from the federal level the shifts in the area of educational policy which will be necessary to create a whole generation capable of carrying out the tasks of a fusion-based economy.

Laid over.

1 continue to conduct such lottery.

2 Sec. 3. There is hereby imposed a tax of five  
3 per cent on the gross proceeds of any lottery conducted  
4 by a city, village, or county pursuant to section  
5 28-1116. The governing body of the city, village, or  
6 county shall establish the procedures necessary to  
7 accurately determine the gross proceeds actually  
8 involved in the lottery activity so that the proper tax  
9 can be collected. Such tax shall be credited to the

### ATTORNEY GENERAL'S OPINIONS

Opinion No. 85  
April 18, 1983

Dear Senator V. Johnson:

You have asked for our opinion in regard to the following matter: "whether or not LB 285 requires county governments to reduce their expenditure budgets by the amount of dollars they are relieved from paying when the state takes over the former county medicaid function."

You ask this question because of LB 212, now pending, which will require counties to reduce their combined receipts budget base by an amount equal to the sum to be picked up by the state in welfare costs.

LB 285 was passed by the Eighty-Sixth Legislature, First Session 1979. It is now codified as Neb.Rev.Stat. §§77-3412 through 77-3430 (Reissue 1981). As you point out in your letter, during the 1982 legislative session, LB 522 was passed by the Legislature. That bill, which will become effective July 1, 1983, eliminates county responsibility for contribution to the medicaid costs for county inhabitants. At the current time counties are required to provide 14

percent of such costs by statute.

You indicate in your letter that certain county officials have told you that they interpret the political subdivision's Budget Limitation Act of 1979 to require counties to reduce its budget by an amount equal to the money it will no longer be required to pay by virtue of the provisions of LB 522. They point to the last sentence of Neb.Rev.Stat. §77-3426 (Reissue 1981) which provides:

Any political subdivision that has its authority to levy a tax or cause a tax to be levied reduced by operation of state law shall reduce the combined receipts base for the ensuing year by the amount of the reduced receipts.

We do not believe that this provision is applicable to this sort of situation.

In interpreting statutes, several rules are applicable. Among those are that a statute is not to be read as if open to construction as a matter of course, Douglas County v. The Board of Regents of the University of Nebraska, 210 Neb. 573, 316 N.W.2d 62 (1982). In the absence of anything to indicate the contrary, words in statute must be given their ordinary meaning. Ragland v. Norris Public Power District, 208 Neb. 492, 304 N.W.2d 55 (1981). And, of course, statutes that are in parimateria are to be read together.

Receipts from local tax sources, receipts from state tax sources, and combined receipts are defined respectfully in Neb.Rev.Stat. §§77-3419, 77-3420, and 77-3421 (Reissue 1981). Respective local tax sources include funds received from taxes the governing body is authorized to levy. State tax sources are defined to include funds received, the original source of which is a tax or taxes imposed or levied by the State of Nebraska, and combined receipts include the total of funds received by political subdivision from local, state, and federal tax sources. Federal tax sources are defined in §77-3435 as funds received from the federal government for use for general and noncategorical purposes. The combined receipts base budget defined in Neb.Rev.Stat. §77-3422 is defined as

[T]hat amount that is the anticipated combined receipts of a political subdivision for the current fiscal year, or that amount that would have been the anticipated combined receipts of a political subdivision for the current fiscal year if the current fiscal year's anticipated receipts would have been increased by seven percent above the anticipated combined receipts of the political subdivision for the prior fiscal year.

Neb.Rev.Stat. §§77-1601 and 77-1627 (Reissue 1981) provide the basis of taxing authority for counties for general welfare purposes. Section 77-1601 in part provides: "each county shall first levy a tax sufficient to enable the county board to provide medical, surgical, and hospital care for needy persons of the county." Section 77-1627

provides: "The county boards of the various counties in this case may, at their option, levy an annual tax of not to exceed three and five-tenths cents on each one hundred dollars upon the actual value of all taxable property in such county, except intangible property, for the relief of unemployed and indigent persons." And finally, §68-104 as amended by LB 522 and LB 602, Eighty-Seventh Legislature, Second Session 1982, now appearing in the 1982 Supplement, in part provides: "except that the county board of each county shall furnish such medical service as may be required for the poor of the county who are not eligible for other medical assistance programs.

As we are required to do in reading these statutes together, we believe the following conclusions apply:

1. The county continues to have authority to tax for welfare purposes.

2. Neither LB 602 nor LB 522 have in any way affected the county's authority to levy a tax or cause a tax to be levied for these purposes.

3. The funds for such purposes are funds derived from local tax sources.

In applying these conclusions to the statutory language existing in Neb.Rev.Stat. §77-3426 cited above, we believe that the Legislature has not caused the authority to levy a tax or cause a tax to be levied to be reduced by virtue of LB 602 or LB 522. It is thus, at least arguable that counties in calculating their 7 percent increase, could utilize the combined receipts base budget including the sums which were levied for purposes of paying the 14 percent portion required of counties prior to the effective date of LB 522, as a part of that calculation. The net effect of this authority would be to allow the counties to continue to raise the same number of dollars from local tax sources after the assumption by the state of these expenses as they had previously raised, but to apply those sums to other functions. The requirement of §77-3426 is a change in the authority to levy or cause a tax to be levied before a county must reduce its combined receipts base. That is not the case here since the ability to levy still exists. It is therefore our opinion that the Budget Limitation Act would not require the counties to reduce their expenditures by the amount of dollars they will be relieved from paying when the state takes over the medicaid function.

Very truly yours,

Opinion No. 86  
April 19, 1983

Dear Senator DeCamp:

You have inquired as to the constitutionality of a portion of an amendment which you propose to offer which would amend the standing committee amendments to L.B. 120. The proposed amendment has two sections, the first dealing with that portion of L.B. 120 dealing with logo signs, and the second dealing with that portion of L.B. 120 which concerns itself with payment for advertising signs. You specifically ask about the constitutionality of the second part only, therefore, we make no comment at this time whether paragraph 1 of your amendment dealing with logo signs would be constitutional or unconstitutional.

The second portion of your amendment, deals with a definition of "just compensation" for specific kinds of signs. It amends paragraph 3 of the committee amendment, which paragraph deals with nonconforming signs erected between April 16, 1982, and the effective date of L.B. 120 as amended. Your proposed amendment would add that "just compensation" would include severance damage and damage to the remainder of the owner's business or property rights and interests. We interpret this language to be broader than that contained in Neb.Rev.Stat. §76-710.01 (Reissue 1981), which provides for severance damages. Section 76-710.01 limits severance damages to those caused by the severance of property from the whole of such property, in light of the operation of the property as a going concern after the taking. This provision is often referred to as the one providing damages for the economic effect upon the property. But it still does relate to property.

We believe that your language providing for severance damage and damage to the remainder of the owner's business or property rights and interests is much broader than that, since it can include matters other than tangible property. The value of a going business is often based on how good its management has been. Therefore, we believe that the definition in your amendment can be construed to entitle those whom it is designed to benefit to greater compensation than other condemnees who are not covered thereby.

For example, this amendment only applies to nonconforming signs erected between April 16, 1982, and the effective date of this act. But Neb.Rev.Stat. §39-1320.01 (Reissue 1978) which is affected by L.B. 120, also provides for acquisition of nonconforming signs erected prior to March 27, 1972, and signs erected after March 27, 1972, which become nonconforming after being erected. Your amendment,

therefore, gives a different and broader "just compensation" to certain owners of nonconforming signs, but not to others. This would appear to violate Neb. Const., art. III, §18, dealing with local and special laws. We are unable to see any basis for a classification which would grant an exclusive privilege, immunity or franchise to the one, but not the other. In State ex rel. Rogers v. Swanson, 192 Neb. 125, 219 N.W.2d 796 (1974), the court said at page 137:

"The legislature may make a reasonable classification of persons, corporations, and property for purposes of legislation concerning them, but the classification must rest upon real differences of situation and circumstance surrounding the members of the class relative to the subject of legislation which render appropriate its enactment.

The legislature may legislate in regard to class of persons, but it cannot take what may be termed a natural class of persons, split that class into, and then arbitrarily designate the dis severed fractions of the original unit as two classes and enact different rules for the government of each."

We are unable to perceive any distinction between the classes which this amendment would create and, therefore, believe that it would constitute local or special legislation.

Opinion No. 87  
April 20, 1983

Dear Senator Warner:

This is in response to your letter of March 31, 1983, in which you have set forth a hypothetical fact situation, and then asked a number of questions with reference to that hypothetical situation.

We note that the hypothetical, and questions asked with reference thereto, are in anticipation of your introducing an amendment to LB 373.

The fact situation, or hypothetical, which you have submitted for our consideration involves a petition being filed with the county court for a conservator which is to be appointed for person A, an adult. On the same day, a supplemental petition is filed by the same person,

seeking to have a guardian ad litem appointed for person A. The following day, the court appoints a guardian ad litem. The appointment of the guardian ad litem is made without a hearing and without serving a summons upon person A (the ward). The guardian ad litem then waives the notice of the conservatorship hearing for person A, and then, pursuant to hearing, the court appoints a conservator for person A. At no time has person A been personally served with any notice of the conservatorship appointment proceedings.

The first question you ask, with reference to the above hypothetical, is whether the court ever had jurisdiction, conferred under Neb.Rev.Stat. §30-2631 (Reissue 1979), to hear the original petition for appointment of a conservator.

You also ask whether the court made a valid appointment, within the facts of the hypothetical, of a guardian ad litem under Neb.Rev.Stat. §30-2636(b) (Reissue 1979).

After examining the statutes in question, with reference to the hypothetical you have posed, we conclude that the court did have jurisdiction to hear the original petition for appointment of a conservator, and the appointment of the guardian ad litem was valid.

The jurisdiction of the court to consider the appointment of a conservator for an adult would attach upon the filing of the petition seeking such appointment. Neb.Rev.Stat. §§30-2601, 30-2602 (Reissue 1979).

The court would be required to conduct a hearing, upon notice to all interested persons, before appointing a conservator or making any other protective order (Neb.Rev.Stat. §30-2630 (Reissue 1979); and the extent of the court's jurisdiction, after notice, would include complete continuing administration of the estate (Neb.Rev.Stat. §30-2631 (Reissue 1979)).

Although there is a notice requirement prior to appointing a conservator, or making any other protective order, there would not appear to be any notice requirement prior to the appointment of a guardian ad litem.

Specifically, a guardian ad litem may be appointed under circumstances as set forth by Neb.Rev.Stat. §30-2636(b), which states, in part, that:

Upon receipt of a petition for appointment of a conservator or other protective order for reasons other than minority, the court shall set a date for hearing. Unless the person to be protected has counsel of his own choice, the court may appoint a lawyer to represent him who then has the powers and duties of a guardian ad litem.

Section 30-2636(b), does not require notice prior to appointment of the guardian ad litem.

A guardian ad litem so appointed may then waive the notice which

would otherwise be required by §30-2634(b), so that a conservator for an adult could then be appointed pursuant to hearing, as provided by §30-2630(2).

You also ask whether §30-2634, "even allows a guardian ad litem to waive notice of a conservatorship hearing to an adult [because subsection (b)] . . . apparently sets out the requirements for notice to minors," rather than adults. (Emphasis added.)

Section 30-2634(b) provides, insofar as relevant here, that "[w]aiver of notice by the person alleged to be incapacitated is not effective unless he attends the hearing or his waiver of notice is confirmed in an interview with the visitor or such notice is waived by a guardian ad litem."

The language of the subsection is not expressly limited to waiver of notice to "minors". In fact, the sentence in question expressly provides for waiver of notice to persons "alleged to be incapacitated."

"Incapacitated person" is defined by Neb.Rev.Stat. §30-2601(1) to mean any person who may be the subject of a protective proceeding as the result of any cause set forth in that section, except minority.

Clearly, then, when read in light of §30-2601(1), §30-2634(b) would refer to a waiver by a guardian ad litem of notice to adults.

Finally, you ask whether §30-2634, allowing waiver of notice by a guardian ad litem, is constitutional.

It is the general rule of law, recognized in Nebraska, that notice to an attorney is notice to the attorney's clients. Marshall v. Rowe, 126 Neb. 817, 254 N.W. 480 (1934); Goergen v. Department of Public Works, 123 Neb. 648, 243 N.W. 886 (1932). And cases have generally recognized that an attorney's authority would include the right to waive any notice required to be served on the client (in this case, the ward). 7A C.J.S., Attorney and Client, §196, p. 323.

The law just stated, generally applicable to attorneys, is also applicable to the guardian ad litem appointed pursuant to §30-2636 because said guardian ad litem is required to be a lawyer and, under the rules just cited, acts on behalf of his client. (Neb.Rev.Stat. §30-2636(b) (Reissue 1979)).

Waiver of notice by a guardian ad litem appointed under §30-2636(b) would probably not be unconstitutional because said waiver would, under the general rule cited, be regarded as a waiver of notice by the ward. Of course, the final determination of whether the statute contravenes provisions of the Constitution is a judicial function. Davis v. General Motors, 176 Neb. 865, 127 N.W.2d 907 (1964).

In conclusion, under the hypothetical which you have posed, the court did have jurisdiction to hear the original petition for appointment of a conservator of an adult; the appointment of the guardian ad litem would be valid under §30-2636(b); §30-2634 would allow a guardian ad

item to waive notice of a conservatorship hearing to an adult; and §30-2634 is probably constitutional.

Opinion No. 88  
April 21, 1983

Dear Senator Beutler:

You have asked our opinion as to the constitutional validity of LB 599, which would undertake to regulate takeover bids. In our opinion, it violates the Commerce Clause of the United States Constitution, Article I, Section 8, giving Congress the power to regulate commerce among the several states, and it may be held to have been pre-empted by a federal act on the same subject.

We will not attempt to set forth in detail the provisions of LB 599, but it is an attempt to regulate so-called "takeover bids," by which an offeror attempts to acquire more than ten percent of the stock of a "target company," by making an offer to purchase such stock at a specified price. At the time of making such an offer the offeror is required to file with the Department of Banking and Finance and with the target company certain specified information.

Section 8 of the bill forbids a solicitation or recommendation to the stockholders to accept or reject a takeover bid unless, at the time such solicitation or recommendation is first published or sent to such stockholders, copies of such solicitation or recommendation have been filed with the department. Section 11 authorizes an injunction to prevent a violation of the act.

A target company is defined as a corporation whose equity securities are the subject of a takeover bid, and which has 35 or more shareholders residing in Nebraska. No other connection with Nebraska is required, and the bill would purport to prohibit transactions not involving Nebraska residents or corporations, and taking place wholly outside Nebraska.

Congress has undertaken to regulate takeover bids by the passage of the Williams Act, 15 U.S.C. §§78m(d)-(e) and 78n(d)-(f). We have not attempted to compare the provisions of LB 599 and those of the Williams Act, to see if there is an irreconcilable conflict, because there

appears to be a clear violation of the Commerce Clause. We will, however, call your attention to the fact that the United States District Court for the District of Nebraska has held on a number of occasions that the present Nebraska takeover statute, Neb.Rev.Stat. §§21-2401 to 21-2417 (Reissue 1977) is unconstitutional as being in conflict with the Williams Act, and has routinely enjoined its enforcement.

In Edgar v. Mite Corporation, \_\_\_\_ U.S. \_\_\_\_, 73 L. Ed 2d 269, 102 S. Ct. 2629 (1982) the court struck down the Illinois takeover statute. The court found, first, that it was pre-empted by the Williams Act, because Congress, in passing the Williams Act, had attempted to strike a balance between management of the target corporation and the bidder, to the advantage of the stockholder, and that the Illinois Act, in making additional delays possible, tipped the balance more in favor of incumbent management. The court reached this conclusion despite finding that it was not impossible to comply with both the Williams Act and the Illinois Act.

While the court did not specifically so hold, a logical extension of the above holding might be that the Williams Act had entirely occupied the field, and that any additional requirements by a state would operate to the advantage of incumbent management, in violation of the Williams Act. That may be an extreme interpretation, but it is possible. In authorizing injunctions for violation of LB 599, the bill may be subject to the same fatal conflict with the Williams Act as was the case with the Illinois Act.

Even more clearly, however, the court's language in Edgar would invalidate LB 599 as being in violation of the Commerce Clause. The court distinguished the state "blue-sky laws," which had been upheld on the grounds that they involved intrastate transactions, saying that the Illinois Act differed from such laws in that it directly regulated transactions which took place across state lines, even if wholly outside the state of Illinois.

The Illinois Act was applicable if two of the following three conditions were met: The corporation had its principal executive office in Illinois, was organized under the laws of Illinois, or had at least ten percent of its stated capital and paid-in surplus represented in the state. LB 599, in contrast, would require much less state nexus, in making its provisions applicable whenever the target company has 35 or more shareholders residing in Nebraska. Virtually any publicly-traded corporation would meet that requirement.

The court thoroughly discussed the Commerce Clause question, pointing out that trading in securities is by means of interstate commerce, but that the Illinois Act would prohibit transactions not only with Illinois residents, but also with those living in other states and having no connection with Illinois. Clearly, LB 599 would do the same.

We therefore conclude that, in light of Edgar v. Mite Corporation, it

would be difficult to defend LB 599 against constitutional attack.

Very truly yours,  
PAUL L. DOUGLAS

#### ATTORNEY GENERAL'S OPINION

Opinion No. 89  
April 20, 1983

Dear Senator Beutler:

This is in response to your letter of April 11, 1983, in which you request our opinion as to the constitutionality of a proposed amendment to LB 371 which provides that a divorce decree will contain a notice provision that a warrant be issued for the arrest of a respondent or petitioner who fails to pay child support or fails to appear on a date set by the court.

An arrest can be made with or without a warrant, but in either case it has to be based on probable cause. State v. Graves, 193 Neb. 797, 229 N.W.2d 538. Probable cause in the context of arrest warrants depends on the presence of two criteria: 1) the warrant and supporting documents must justify a finding of probable cause to believe that the offense has been committed; and 2) that the warrant and documents supporting it must demonstrate a sufficient basis for a finding of probable cause that the party named in the warrant committed the offense charged. U.S. ex rel. Grano v. Anderson, 446 F.2d 272 (3rd Cir. 1971).

Our first concern in reviewing the language of the "Notice" is that it does not specify how it will be determined that the respondent or petitioner has, in fact, not paid. It should be noted that the language states only, "In the event (respondent or petitioner) fails to pay any child support payment . . ." There is no procedure as to who will determine that payment has not been paid nor is there procedure set out as to how that information will be brought before the court on affirmation. Does the clerk of the district court make such an affirmation to the court? Or does an employee of the clerk of the district court? Or does the court merely take notice of the records of the clerk of the district court? These are questions which cannot be answered or determined by a reading of the notice provision of the bill.

We are aware that Neb.Rev.Stat. §42-358 (Reissue 1978) which is not amended by this Legislative Bill provides that the clerks of the district courts shall maintain delinquency records in which child support arrearages are certified to the court each month with provisions for contempt proceedings by an appointed attorney. It is not clear whether this notice provision in the divorce decree is meant to be a remedy in addition to that set out in §42-358 or whether it is to be in conjunction with that statute.

The proposed amendment to LB 371 with its notice provision appears to lack even the general procedure set out in §42-358 and is absent any specific criteria for determining that there is probable cause that there has been a failure to pay considered by a neutral and detached magistrate as required in Aguilar v. Texas, 378 U.S. 108 (1964).

We do not see a problem with the provisions providing for issuance of a warrant for failing to appear on a date set by the court. Where an

accused on whom a summons has been served fails to appear as directed by the summons, a court may issue a warrant for his arrest.

However, since the notice provision lacks a method to affirm that there has been a failure to pay, we are concerned as to whether the proposed amendment provides a procedural standard that comports with the Fourth and Fourteenth Amendments of the Constitution of the United States and Article I, Section 7 of the Constitution of the State of Nebraska.

Very truly yours,  
PAUL L. DOUGLAS  
Attorney General

### MESSAGE FROM THE GOVERNOR

April 26, 1983

Mr. President, Mr. Speaker and  
Members of the Legislature  
State Capitol  
Lincoln, Nebraska 68509

Dear Mr. President and Senators:

I hereby return LB 64 without my signature and with my objections.

LB 64 places significant restrictions on the Governor's discretion in the future as to the use of block grant monies that come to the state through a contract between its executive branch and the federal government. By limiting gubernatorial discretion, this Act would, in effect, limit the ability of the state to respond to the most pressing human needs in a timely manner and utilize the available resources in the most effective manner allowed by the federal legislation.

The Department of Public Welfare (soon to be the Department of Social Services [DSS]) currently has the responsibility to administer many programs that assist the low-income population of the state. Transferring from the DDS to the Energy Office the administration of LIEAP block grant funds that assist the disadvantaged and needy people to pay their heating bills would create confusion among the clients served, duplication in client intake activities and inefficient use of existing organizational and staff resources.

I therefore urge you to sustain my veto.

Sincerely,  
(Signed) ROBERT KERREY  
Governor

### ATTORNEY GENERAL'S OPINION

Opinion No. 90  
April 19, 1983

Dear Senator Beutler:

This is in response to your letter of April 14, 1983, in which you request our opinion pertaining to legislation which is currently pending.

Specifically, you ask whether a proposed amendment to LB 371 would effectively waive the state's sovereign immunity and allow the state to answer interrogatories which are issued in child support proceedings pursuant to Neb.Rev.Stat. §§42-364.01 et seq. (Reissue 1978).

The general rule in Nebraska is that no suit can be maintained against the state unless authorized by specific legislative provision, nor can the state be made a party to any suit absent express statutory authority pertaining to the manner by which service is to be obtained upon the state. Anstine v. State, 137 Neb. 148, 288 N.W. 525 (1939);

Offutt Housing Company v. County of Sarpy, 160 Neb. 320, 70 N.W.2d 382 (1955).

Neb.Rev.Stat. §42-364.05 (Reissue 1978) provides that the court entering the child support payment order "shall have jurisdiction of any employer who transacts any business in the state."

"Employer" is then defined by Neb.Rev.Stat. §42-364.11 (Reissue 1978) to include any "political subdivision, or department of the state in possession of earnings."

It is apparent, then that §§42-364.05 and 42-364.11 are specific legislative provisions which would authorize a suit against the state, all within the meaning of the cases just cited. However, there must also be express statutory authority pertaining to the manner by which service is to be obtained upon the state in order for the waiver of sovereign immunity to be complete within the meaning of the cases cited.

The amendment to LB 371, which is directed towards satisfying the service of process requirements of Anstine, supra, and Offutt Housing Company, supra, would apparently be sufficient, in light of the cases and statutory provisions just cited, to complete the waiver of the state's sovereign immunity pertaining to child support proceedings.

That amendment states, insofar as relevant here, that: "When the employer is the State of Nebraska or a Department of the state, service shall be had upon said employer by causing to be served upon the Director of Administrative Services a copy of the application, notice of hearing, and interrogatories."

The language employed in said proposed amendment is sufficiently clear so that construction of the provision is unnecessary (Gibson v. Peterson, 118 Neb. 218, 224 N.W. 272 (1929) ); and, when read in light of §§42-364.05 and 42-364.11, it would be sufficient to require the state to respond to interrogatories propounded by the district court having jurisdiction over the child support matter.

Very truly yours,  
PAUL L. DOUGLAS  
Attorney General

**ANNOUNCEMENT**

TO: All Committee Chairpersons  
FROM: Vard R. Johnson, Chairman  
Legislative Council Executive Board  
SUBJECT: Interim Study Resolutions  
DATE: April 25, 1983

In keeping with the procedure followed during the 1982 legislative session, the Committees are being asked to develop a priority listing of all Resolutions initially referred to them. At this point we are not setting any limitations on the number of studies a Committee may undertake but, given the economic situation and the Governor's recommendation to cut \$1.2 million from the Legislative Council budget, I would ask you

to group and eliminate any studies that have been undertaken in the immediate past. Any expenditures of Legislative Council funds for items outside the normal expense must be submitted to the Board for approval prior to the expenditure of those funds.

The following timetable has been established for the processing of the interim studies:

1. The deadline for introduction of Study Resolutions will be Friday, May 6, 1983.

2. The Executive Board will make a preliminary reference recommendation of all interim study resolutions by Monday, May 9, 1983, based on the reference report recommendation of Dr. Rogers.

3. Following the preliminary references of the Executive Board to the Committees, the Committees are to rank the Resolutions by priority and submit the listing to the Board by May 16, 1983. The Executive Board will then consider the priority listing and submit a final reference report to the Legislature by May 18, 1983.

The Board will have to take into account legislative appropriations in its final assessment of interim study resolutions. The Board will also consider the workload of each Committee in assessing the number and kinds of studies undertaken.

**RESOLUTION****LEGISLATIVE RESOLUTION 76.**

Introduced by R. Johnson, 34th District; Landis, 46th District.

**PURPOSE:** Twenty-eight of Nebraska's ninety-three counties are currently organized under the township system. Several of these counties have experienced difficulties with the township system because

of changes over time in the nature of the tasks executed by townships and other governmental subdivisions. Offices have gone unfilled for lack of candidates, the duties and authorities of those holding office are not always clear, and the statutory procedure required to adopt another form of administration acts as a deterrent to reorganization. The purpose of this study is to assess the advisability of legislation in this area. In order to accomplish this purpose the following topics shall be studied:

- (1) The current township system including, but not limited to:
  - (a) Election procedures and the counties' recent experience in filling elective offices;
  - (b) The scope of authority and distribution of powers within the township system;
  - (c) The relationship between townships and other governmental subdivisions within counties;
  - (d) Current procedural requirements for dissolution of a township system; and
  - (e) The transfer of duties, assets, and obligations upon dissolution of a township system;
- (2) Alternative systems of county organizations, including:
  - (a) The county commissioner system; and
  - (b) Systems used in other states;
  - (3) The advantages and disadvantages of alternative systems; and
  - (4) Any other matters necessary for a complete analysis of the issue.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-EIGHTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study and to hold any public hearings necessary to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council prior to the commencement of the 1984 legislative session.

Referred to the Executive Board.

### **ATTORNEY GENERAL'S OPINION**

Opinion No. 91  
April 26, 1983

Dear Senators Haberman and DeCamp:

This is in reply to your inquiry concerning the constitutionality of the transfer of two million dollars from the Department of Banking and Financial Securities Act Cash Fund and five hundred and fifty thousand dollars from the interest earnings in the Social Security Contributions Fund, as provided in section 81 of LB 628, to the General Fund.

With regard to the Securities Act Cash Fund, Neb.Rev.Stat. §8-1120 (Reissue 1977) provides that all fees paid to the Director of Banking under the provisions of §§8-1101 to 8-1124, shall be paid to the State Treasurer and by the State Treasurer credited to the Securities Act Cash Fund, and that such fund, "shall be used for the purpose of administering and enforcing the provisions of §§8-1101 to 8-1124, and all of such money is appropriated and shall be appropriated for such purposes."

From our examination of LB 628, it does not appear to repeal §8-1120.

Article III, Section 12 of the Nebraska Constitution provides in part: "and no law shall be amended unless the new act contain the section or sections as amended and the section or sections so amended shall be repealed ..."

It is our opinion that since LB 628 does not repeal §8-1120 the provision of section 81 of LB 628 transferring two million dollars from

the Securities Act Cash Fund to the General Fund could not be enforced.

With regard to the provision dealing with the transfer of interest earnings in the Social Security Contribution Fund, Neb.Rev.Stat. §68-613 (Reissue 1981) presently provides that the interest earnings from that fund "may be transferred to the General Fund at the direction of the Legislature."

You have also asked if the Governor may, under Program 519 of his 1983-84 budget, transfer the unexpended balance of the Veterans' Home Building Fund to the Department of Public Institutions Cash Fund.

In 1978 the Legislature enacted Neb.Rev.Stat. §80-301.01 (Reissue 1981), which transferred \$500,000.00 from the short term investment pool maintained by the Department of Public Institutions, to the Veterans Home Building Fund and, by enacting §80-301.02, provided that the fund shall, "be used for the specific purpose of adding nursing facilities when needed."

In our opinion the \$500,000.00 appropriated in 1978 was earmarked for the purpose stated and, for the reasons stated above with regard to the provisions of LB 628, cannot be transferred to any other fund for any other purpose without amendment or repeal of §§80-301.01 and 80-301.02.

It is our understanding that since the \$500,000.00 was transferred to the Veterans' Home Building Fund in 1978, it has been invested pursuant to the provisions of subsection (2) of Neb.Rev.Stat. §72-1244, and has accumulated in excess of \$350,000.00 interest. In this regard we point out that §72-1248 (Reissue 1981) provides in part: "All interest, premium and other income received from investments pursuant to subsection (2) of section 72-1244 shall be credited to the fund from which the investment was made."

It is therefore our opinion that the interest accrued to the \$500,000.00 is also a part of the Veterans' Home Building Fund.

Very truly yours,  
PAUL L. DOUGLAS  
Attorney General

Assistant Attorney General

### **ATTORNEY GENERAL'S OPINIONS**

Opinion No. 92  
April 27, 1983

Dear Senator DeCamp:

Following the enactment of LB 19, the Nebraska Beef Industry Development Act, you have asked that we consider its constitutionality in order that any problems there might be may yet be corrected during the present legislative session.

In response we have compared the provisions of LB 19 with those of Neb.Rev.Stat. §§2-2302 to 2-2321 (Cum. Supp. 1982), the Wheat Development Act, enacted into law during the 1981 session of the Legislature. From our examination of the provisions of the two acts we find that their essential provisions, particularly the method and assessment of the fee or tax for the support of the purposes of the act, are similar, if not identical.

When the provisions of the Wheat Development Act was before the Legislature, as LB 11, we were asked to examine its provisions as to constitutionality and we concluded that it was constitutional, with one exception not present in LB 19.

We enclose herewith a copy of our Opinion No. 88 dated April 30, 1981, concerning the Wheat Development Act, which we believe cover the questions that have thus far been raised concerning the provisions of LB 19.

Very truly yours,  
PAUL L. DOUGLAS  
Attorney General

Opinion No. 93  
April 27, 1983

Dear Senator Beutler:

You have asked whether the exemption of persons 65 years of age or over from the mandatory continuing education requirements of LB 225 violates constitutional provisions relating to due process, equal protection or the granting of a special privilege. We have concluded that it does as discussed below.

The general rule in LB 225 is that to renew a license as an embalmer or funeral director the licensee must submit proof of satisfactorily completing 16 hours of approved continuing education courses within the two-year period preceding the license renewal date. The purpose is to "maintain and improve" the quality of the services of embalmers and funeral directors to the public.

There are five exemptions to that rule, including persons 65 years of age and over. The others are for persons not practicing in Nebraska at any time within the preceding two-year period, for persons suffering from a serious or disabling illness or physical disability which prevented him or her from completing the continuing education requirement, for persons serving in the regular armed forces of the United States during any part of the immediately preceding two-year period, and any person receiving an initial license in Nebraska after the first day of February of the second year of the biennium.

For each exemption to be constitutionally valid, it must meet several tests. The class must have some reasonable distinction from other subjects of a like general character which distinction bears some reasonable relation to the legitimate object and purpose of the legislation. Grossman v. State Employees Retirement System, 177 Neb. 326 (1964). The class must suggest such a difference in situation or circumstances as to disclose the necessity or propriety of different legislation in respect to them. Galloway v. Wolfe, 117 Neb. 824 (1929). The class must rest on some reason of public policy. Wittler v. Baumgartner, 180 Neb. 446 (1966). A reasonable classification under the federal equal protection guarantee is one that includes all persons in a similar situation with respect to the purpose of the law. Norden Laboratories, Inc. v. County Board of Equalization, 189 Neb. 437 (1973). To forbid an individual the right of property in such manner as should

be permitted for the community at large would be to deny them of liberty. Low v. Rees Printing Co., 41 Neb. 127 (1894). Thus those covered by the general rule in LB 225 have constitutional rights to expect that no one else will be exempted from the rule unless the above tests are met.

None of the exemptions in LB 225 bear any reasonable relation to the object of LB 225 unless it is the exemption for those receiving an initial license shortly before all licenses must be renewed. Such a person is apt to be recently out of school and less in need of a refresher course. The fact that one has not practiced in Nebraska the preceding two years will not protect the public here if such person decides to move to Nebraska during the next two years. The same is true of one serving in the army for any part of the preceding two years. However, the public policy in support of the armed forces and the likelihood that such service will be outside the state may form a reasonable basis for treating that class differently. One too ill to attend classes may not otherwise be able even to maintain the quality of his or her services, let alone improve them. One 65 or over and not suffering from such illness should be able not only to maintain but to improve the quality of his or her services by continuing education as much as a younger person could.

We have concluded that the exemption for persons 65 years and older is probably unconstitutional. Since the bill contains no savings clause and it is not clear that LB 225 would have been passed by the Legislature without that exemption (or without any of the others that are questioned above), the whole bill is subject to constitutional attack.

Very truly yours,  
PAUL L. DOUGLAS  
Attorney General

**ATTORNEY GENERAL'S OPINION**

Opinion No. 95  
April 28, 1983

Re: Class C and Class CC Operator's Licenses

Dear Senator Wagner:

You have requested an opinion from this Office concerning a possible conflict between Neb.Rev.Stat. §60-403.06 (1982 Supp.) and §60-403.07 (Reissue 1978). Section 60-403.06 (1) provides as follows:

Except as provided in subsection (2) of this section, no person shall operate a truck or truck-tractor as defined in section 60-301, which is registered for more than twenty-four thousand pounds gross vehicle weight until such person shall have obtained a class C or a class CC operator's license. Such license will not be necessary if a person has a valid motor vehicle operator's license that has not been required to be renewed since July 1, 1976.

Section 60-403.07 provides that:

For the the purposes of sections 60-403.06 to 60-403.10, a class C license shall mean a license required for trucks as defined in subdivision (3) of section 60-301, registered for more than twenty-four thousand pounds gross vehicle weight and carrying cargo, and a class CC license shall mean a license required for a truck-tractor as defined in subdivision (7) of section 60-301, registered for more than twenty-four thousand pounds of gross vehicle weight and drawing another vehicle or vehicles that are carrying cargo.

Your specific question is whether or not the prohibition contained in §60-403.06 that: "No person shall operate a truck or truck-tractor . . . until such person shall have obtained a class C or a class CC operator's license." On the other hand, from a cursory reading of §60-403.07 it would appear that these licenses are only necessary if a truck or truck-tractor is carrying cargo.

It is well established that in determining legislative intent, the

entire act must be considered with regard to the particular topic in question. The intent thus found from a general consideration will prevail over the intent found by a separate consideration of a particular part. Bickels v. State Department of Roads, 178 Neb. 825, 135 N.W.2d 872 (1965). Therefore, it is important to place emphasis on the first phrase of the sentence in §60-403.07 which provides that: "For the purposes of section 60-403.06 to 60-403.10 . . ." This section obviously then defines class C and class CC licenses for the purpose §60-403.06, it becomes apparent that the blanket prohibition in that section would contain the qualification that these trucks or truck-tractors are carrying cargo.

While we would submit that the language is perhaps not as clear and concise as it could be, we do not perceive a conflict between these two sections.

Very truly yours,

#### **ATTORNEY GENERAL'S OPINION**

Opinion No. 94  
April 27, 1983

Dear Senator DeCamp:

You have submitted to us a copy of a proposed amendment to LB 586, under which all of the original sections of that bill would be stricken, and new sections substituted. You ask our opinion as to the constitutionality of the amendment.

This amendment is, except for updating and one insignificant change, an exact copy of sections 7 to 11 of LB 284, passed by the Legislature in 1981 and codified as Neb.Rev.Stat. §§77-3611 to 77-3615 (Supp. 1981). In our opinion No. 78, issued April 14, 1981, we reached the conclusion that sections 7 to 11 of LB 284 were unconstitutional. After passage of the bill we brought an action in the District Court of Lancaster County to have those sections declared unconstitutional. The

district court agreed with us, and declared them unconstitutional.

In your letter you suggest that the recent case of County of Antelope v. Stenberg, in which the Supreme Court upheld a distribution based upon the ratio of taxes levied by each county to the total taxes levied by all counties, as specified in Neb.Rev.Stat. §77-27,137 (Supp. 1982), somehow changed the picture. You state that this case "clarified and apparently vastly expanded the rights and ability of the Legislature to provide property tax relief."

We completely disagree with that analysis of the effect of that case. The rule is, and always has been, that a legislative classification will be upheld if it has a rational basis. The court felt, as we did, that distribution of state aid to counties on the basis of the ratio of the amount of taxes levied had a rational basis. That is all that the court has ever required of legislative classifications, and is not an "expansion" of the rights of the Legislature, nor a retreat from any of its previous requirements.

Your proposed amendment, however, would make the distribution on the basis of the ratio of assessed valuations of taxable property in each county. We felt in 1981 that such a distribution was irrational, because it gave the most money to counties which needed it least, since a county with the same population as another county, but higher valuation of taxable property, could raise the same amount of taxes as the other county with a proportionately lower mill levy, and would, at the same time, get more state aid. That seemed irrational to us, and to the District Court of Lancaster County. It still seems so to us.

Very truly yours,

### ATTORNEY GENERAL'S OPINION

Opinion No. 96  
April 26, 1983

Re: LB 170

Dear Senator V. Johnson:

We are responding to your letter in which you request an opinion about whether LB 170 as amended is in violation of Article III, Section 18 of the Nebraska Constitution prohibiting special legislation regarding the protection of game and fish. You specifically ask: “Is it constitutionally permissible for the Legislature to establish a different permit system for the hunting of game which distinguishes landowners from non-land-owners?”

The Nebraska Constitution, Article III, Section 18 reads in pertinent part: “The Legislature shall not pass local or special laws in

any of the following cases, that is to say: . . . The protection of game or fish." The Nebraska Supreme Court in interpreting this section has stated:

The applicable principles which must guide us are: "The Legislature may classify the subjects, persons, or objects as to which it legislates if such classification rests upon differences in situations or circumstances between things dealt with in one class and those dealt with in another.

The power of classification rests with the Legislature and it will not be interfered with by the courts if real and substantial differences exist which afford a rational basis for classification." Fougeron v. County of Seward [174 Neb. 753, 119 N.W.2d 298 (1963).]

State ex rel. Douglas v. Gradwohl, 194 Neb. 745, 235 N.W.2d 854, 858 (1975). In Fougeron vs. County of Seward, supra, the Court stated: "The act is not special if it operates uniformly upon a classification reasonably made." Id. at 119 N.W.2d 302.

Legislative Bill 170 at Final Reading authorizes limited permits to farmers and ranchers for hunting antelope, deer or wild turkey upon land which they own or lease if they reside upon such land. It further exempts them from payment of the fee for habitat stamp as required by Neb.Rev.Stat. §37-216.01, and amends Neb.Rev.Stat. §37-201 exempting any bona fide farmer or rancher from permit requirements for hunting upland game on land which they own or lease.

It is undisputed that wildlife in Nebraska, whether upland game or turkey, deer or antelope, occur on private lands and are supported by the woodlands, brush, and agricultural products which are grown upon that land. The farmer and rancher whose private property and agricultural products support these creatures, contributes to the propagation and well being of the wildlife. This contribution is distinct from any contribution which a nonlandowner makes to the wildlife of this State, and is therefore a rational basis for a classification of hunters. It appears to us that this is a classification resting upon "differences in situations or circumstances" which are "real and substantial differences . . . which afford a rational basis for classification." The classifications are open, do not create a closed class of persons, and operates uniformly upon the classifications. It is our conclusion, that LB 170 by distinguishing between landowning and non-landowning hunters, does not violate Article III, Section 18, of the Nebraska Constitution.

However, the Act divides the class of landowning hunters into two subclassifications: resident and non resident landowners. We discern no factual or rational basis for making such a distinction. An Act must operate uniformly upon the legislatively created classification. Fougeron v. County of Seward, supra. We therefore question whether the

restrictions of this Act to residential landowners only could sustain a constitutional challenge pursuant to Article III, Section 18, of the Nebraska Constitution.

**ATTORNEY GENERAL'S OPINION**

Opinion No. 97  
April 29, 1983

Re: Exempt vehicles, Neb.Rev.Stat. §60-335 (1982 Supp)

Dear Senator Beyer:

You have indicated in your recent letter that you are contemplating legislation which would allow American Red Cross vehicles to obtain license plates pursuant to Neb.Rev.Stat. §60-335 (1982 Supp.). In particular you have asked whether or not such a provision would be constitutional. Section 60-335 provides as follows:

No registration fee shall be charged for any motor vehicle

owned by any city or village of this state used in connection with police, street, public transportation, park, library, or fire prevention activities, fire trucks owned and used by any rural fire protection district, a motor vehicle owned and operated by the Civil Air Patrol, nor for any motor vehicle owned and used by any public school district, county, state or United States government, nor any motor vehicles of any municipal public body or authority used in operating a public passenger transportation system. Any motor vehicle owned by this state or any political subdivision as set forth in this section, and exempt from a distinct marking as provided in section 60-1001, may carry number plates the same design and size as provided in section 60-1003.

The question you raise is whether or not vehicles owned by the American Red Cross could be constitutionally exempted from registration fees. It would appear that the American National Red Cross is a particularly unique organization. The United States Supreme Court has held that the American National Red Cross is an instrumentality of the United States for purposes of immunity from State taxation levied on its operation.

Although there is no simple test for ascertaining whether an institution is so closely related to governmental activity as to become a tax-immune instrumentality, the Red Cross is clearly such an instrumentality. . . . Its principal officer is appointed by the President, . . . . By statute and Executive Order there devolved upon the Red Cross the right and the obligation to meet this Nation's commitments under various Geneva Conventions, to perform a wide variety of functions indispensable to the workings of our Armed Forces around the globe, and to assist the Federal Government in providing disaster assistance to the States in time of need. Although its operations are financed primarily from voluntary private contributions, the Red Cross does receive substantial material assistance from the Federal Government. And time and time again, both the President and the Congress have recognized and acted in reliance upon the Red Cross' status virtually as an arm of the Government.

Department of Employment v. United States, 385 U.S. 355 (1966).

Consequently, it is our opinion that because of the unique character of the American Red Cross, and its close affiliation with the United States government, it is a federal instrumentality that is entitled to exempt status under §60-335. Therefore, we do not perceive any constitutional infirmity in specifically granting to the American Red Cross such an exemption.

Very truly yours,  
PAUL L. DOUGLAS

### MESSAGE FROM THE GOVERNOR

April 29, 1983

Mr. President, Mr. Speaker and  
Members of the Legislature  
State Capitol  
Lincoln, Nebraska 68509

Dear Mr. President and Senators:

I am returning herewith LB 602 with my specific line-item reductions and with my signature.

It should come as no surprise to the members of the Legislature that the State faces major financial problems. The actions that I have taken will have the effect of making \$602,099 available to support the FY 83-84 budget.

The first reduction is to the Workmen's Compensation Court in the amount of \$34,566. These funds were to be used to pay data processing charges that have been owed for several years. I see no pressing need to proceed at this time.

The second reduction is for a \$35,000 increase in Aid to Crime Victims. While this is perhaps a worthy increase, it is nonetheless one that cannot be afforded.

The final action that I have taken is to strike the transfer of \$532,533 from the General Fund to the Highway Cash Fund. Nebraska's road program has been funded very well over the past few years and my budget recommendation for FY 83-84 continues that policy. I cannot, however, approve this transfer when the State's general fund faces such significant shortfalls.

Sincerely,  
(Signed) ROBERT KERREY  
Governor

3 the court for good cause shown may allow, the county  
4 shall prepare and transmit to the court a certified  
5 transcript of the proceedings had before it, which  
6 transcript shall include the county's standards and all  
7 amendments regarding eligibility and assistance for  
8 general assistance, the transcribed hearing record, all  
9 exhibits offered at the hearing, and the final decision  
10 sought to be reversed, vacated, or modified.

11 (4) The review shall be conducted by the court  
12 without a jury on the record of the county.

13 (5) The court may affirm the decision, remand  
14 the case for further proceedings, or reverse or modify  
15 the decision if any substantial rights of the petitioner  
16 may have been prejudiced because the decision is:

17 (a) In violation of constitutional provisions;

18 (b) In excess of the statutory authority or  
19 jurisdiction of the county;

20 (c) Made upon unlawful procedure;

21 (d) Unsupported by competent, material, and  
22 substantial evidence in view of the entire record as  
23 made on review; or

24 (e) Arbitrary, capricious, an abuse of  
25 discretion, or otherwise not in accordance with the law.

26 Sec. 13. Any person becoming chargeable as a  
1 poor person in this state shall be chargeable as such in  
2 the county in which he or she has established a legal  
3 settlement as defined in section 16 of this act.

4 Sec. 14. If any person shall become  
5 chargeable in any county in which he or she has not  
6 established a legal settlement at the time of applying  
7 for aid, he or she shall be duly taken care of by the  
8 proper authority of the county where he or she may be  
9 found. It shall be the duty of the clerk of the county  
10 board to send a notice by mail to the clerk of the  
11 county board of the county in which such poor person has  
12 a legal settlement that such person has become  
13 chargeable as a poor person, and requesting the  
14 authorities of such county to promptly remove such poor  
15 person and to pay the expense accrued in taking care of  
16 him or her.

17 Sec. 15. If a poor person, by reason of

18 sickness or disease, or by neglect of the authorities of  
19 the county in which he or she has a legal settlement, or  
20 for any other sufficient cause, cannot be removed, then  
21 the county taking charge of such individual may sue for,  
22 and recover from the county to which such individual  
23 belongs, the amount expended for and in behalf of such  
24 poor person and in taking care of such person.

25 Sec. 16. (1) For purposes of sections 1 to 19  
26 of this act legal settlement shall mean: Every person,  
1 except as limited in subsections (2) to (4) of this  
2 section, who has resided one year continuously in any  
3 county shall be deemed to have a legal settlement  
4 therein, except that every person who has resided one  
5 year continuously within the state, but not in any one  
6 county, shall have a legal settlement in the county in  
7 which he or she has resided six months continuously.

8 (2) The time during which a person has been an  
9 inmate of any public or private charitable or penal  
10 institution, or has received care at public expense in  
11 any type of care home, nursing home, or board and room  
12 facility licensed as such and caring for more than one  
13 patient or guest, and each month during which he or she  
14 has received relief from private charity or the poor  
15 fund of any county shall be excluded in determining the  
16 time of residence as referred to in subsection (1) of  
17 this section.

18 (3) Every minor, who is not emancipated and  
19 settled in his or her own right, shall have the same  
20 legal settlement as the parent with whom he or she has  
21 resided.

22 (4) A legal settlement in this state shall be  
23 terminated and lost by (a) acquiring a new one in  
24 another state or (b) by voluntary and uninterrupted  
25 absence from this state for the period of one year with  
26 intent to abandon residence in Nebraska.

1 Sec. 17. Whenever any poor person without a  
2 legal settlement in this state shall become sick in any  
3 county in this state, not having income and assets  
4 available to pay for medical services, or whenever any  
5 poor person without a legal settlement in this state is  
6 found in distress in any county in this state and is  
7 without income and assets to preclude suffering, it  
8 shall be the duty of the county board to furnish such  
9 temporary assistance to such person as it shall deem  
10 necessary. If any such person shall die the county

11 board shall provide all necessary means for a decent  
12 burial of such person. If such poor person has a legal  
13 settlement in another state, the county board may  
14 furnish such person in addition to temporary assistance,  
15 transportation, and the requisite expenses incurred  
16 thereby and may return such poor person to the state in  
17 which he or she has legal settlement. The  
18 representation by a poor person of a legal settlement  
19 shall be verified by the county board, and assurance be  
20 given the board that such poor person will be received  
21 and given care in the place of his or her legal  
22 settlement. If any poor person without a legal  
23 settlement in this state shall apply for general  
24 assistance in any county in which he or she is situated,  
25 the county board may proceed at its discretion to  
26 provide for such poor person in the same manner as it  
1 would provide for a poor person with legal settlement in  
2 the county.

3     Sec. 18. Even though a poor person may be  
4 eligible for general assistance, the county board shall  
5 have no liability to such person until the county board  
6 or the person to whom it has delegated responsibility  
7 for administration of general assistance shall have  
8 passed upon a written application for assistance or  
9 shall have failed to act upon the written application  
10 within the appropriate time prescribed in section 3 of  
11 this act. If a poor person is incapable, for any cause,  
12 of completing a written application for assistance, it  
13 may be completed by another acting in the interest of  
14 such poor person.

15     Sec. 19. No general assistance shall be  
16 alienable by assignment or transfer, or be subject to  
17 attachment, garnishment, or any other legal process,  
18 except that a county may pay general assistance directly  
19 to any person, corporation, or other legal entity  
20 providing goods or services, as described in section 3  
21 of this act, to the poor person.

22     Sec. 20. That section 68-104, Revised  
23 Statutes Supplement, 1982, be amended to read as  
24 follows:

25     68-104. The Department of Public Welfare  
26 shall be the overseer of the poor and shall be vested  
1 with the entire and exclusive superintendence of the  
2 poor in this state, except that subject to the  
3 limitations of section 68- 1022 the county board of each

4 county shall furnish such medical service as may be  
5 required for the poor of the county who are not eligible  
6 for other medical assistance programs and general  
7 assistance for the poor of the county. In providing  
8 medical and hospital care for the poor, the county board  
9 shall make use of any existing facilities, including ~~tax~~  
10 ~~supported tax-~~ supported hospitals and charitable clinics  
11 so far as the same may be available and shall use the  
12 financial eligibility criteria established for the  
13 standard of need developed by the Department of Public

### ATTORNEY GENERAL'S OPINIONS

Opinion No. 98

April 28, 1983

Re: LB 234, Title Security and Vehicle Theft Prevention Act

Dear Senator DeCamp:

You have requested an opinion from this Office concerning several portions of LB 234, which is described as the Title Security and Vehicle Theft Prevention Act. This particular Act deals with applications for title made on foreign titles which are brought into the State of Nebraska. The bill requires that a physical inspection be made on these vehicles to compare the vehicle identification numbers with the number listed on the ownership documents.

This legislation requires that the inspection be made by the county sheriff of the county in which application is made, "or his or her designee." You have asked in particular whether the language concerning the sheriff's "designee" would render this legislation unconstitutional because of an impermissible delegation of authority.

We would direct your attention also to section 3 of LB 234 which provides that:

There is hereby created the Title Security and Vehicle Theft Prevention Fund which shall be maintained by the State Treasurer as a cash fund and shall be administered by the Director of Motor Vehicles.

The funds shall be used to defray the expenses of training personnel, as determined by the Department of Motor Vehicles, in title document examination, vehicle identification, and fraud and theft investigation. Such personnel may include, but shall not be limited to county clerks, investigative personnel of the Nebraska Motor Vehicle Industry Licensing Board, and peace officers mentioned in section 39-6,192.

It is well established that under the doctrine of separation of powers, legislative power governing the rights and duties of persons is conferred entirely on the elected legislative body. Terry Carpenter, Inc. v. Nebraska Liquor Control Commission, 175 Neb. 26, 120 N.W.2d 374 (1963). It is fundamental however that "in the legislative grant of power to an administrative agency such power must be limited to the express legislative purpose and administered in accordance with standards prescribed in the legislative act." Lincoln Dairy Company v. Finigan, 170 Neb. 777, 104 N.W.2d 227 (1960). From a reading of the language contained in LB 234, it would appear that the grant of authority to both the Department of Motor Vehicles and the county sheriffs is an impermissible delegation of authority to an administrative agency. Limitations of the power granted and the standards by which the granted powers are to be administered must be clearly and definitely stated in the authorizing act. Id. In this particular bill, there is no limitation as to the class of individuals who could be designated by the sheriff to perform inspections. Neither is there any language which expressly requires that these individuals to be trained and certified by the Department.

Secondly, you have directed our attention to a complete exemption in the Act. The proposed amendment requires that "an application for a certificate of title shall include a statement that an identification inspection has been conducted on the vehicle unless . . . the application for a certificate of title contains a statement that such vehicle is to be registered under section 60-305.09, or unless otherwise exempted by the Department of Motor Vehicles." It is our opinion that the language "or unless otherwise exempted by the Department of Motor Vehicles" is constitutionally suspect for the same reason set forth above concerning an impermissible delegation of legislative power to an administrative agency.

The exemption for vehicles registered under §60-305.09 presents a slightly different problem. Article III, Section 18, of the Constitution of the State of Nebraska provides that "The Legislature shall not pass local or special laws in any of the following cases, that is to say: ". . .

Granting to any corporation, association, or individual any special or exclusive privileges, immunity, or franchise whatever; . . .” As a general rule, exemptions contained in a legislative act cannot be justified if the exception made has no reasonable relation to the purpose of the act in which it is found. United States Cold Storage Corporation v. Stolinski, 168 Neb. 513, 96 N.W.2d 408 (1959). It would appear that the general purpose of LB 234 is to require a physical inspection on all vehicles which are brought in from a foreign state when application for title is made. In order for a statute to be general and uniform throughout the state, it must operate alike on all persons of a class with reference to relations and circumstances provided for. State Securities Company v. Ley, 177 Neb. 251, 128 N.W.2d 766 (1964). Vehicles registered under §60-305.09 are vehicles operated in interstate commerce pursuant to proportional registration. We can find no rational basis for excluding these vehicles from the operation of LB 234. Similar statutory exemptions were addressed in State v. Edmunds, 211 Neb. 380, 318 N.W.2d 859 (1982). There, the Supreme Court addressed the constitutionality of the motor vehicle inspection statute. While the Court found that the exemption contained for vehicles registered under §60-305.09 was rationally based on a substantial change in circumstance, we do not feel that this rationale applies to the instant situation. Basically, these vehicles are subject to federal regulations on safety and maintenance under the Department of Transportation regulations. Therefore, the exemption from inspection was considered to be valid. We find no rationale which would support an exemption from the requirements of LB 234 regarding physical inspection of foreign vehicles when application for title is made.

It should be noted, however, that the vehicles registered under §60-305.09 are operating in interstate commerce. As such, individual vehicles forming part of a fleet operation may or may not be in the State of Nebraska at any given time. Consequently, it could be argued that to require these vehicles to be brought to the State of Nebraska for a physical inspection prior to titling and registration would constitute an impermissible burden on interstate commerce. While it might be constitutionally valid to provide an alternative method for dealing with these vehicles, we feel that their total exemption from LB 234 is constitutionally suspect.

Your other questions deal with the administration of the cash fund which is created to defray the expenses of training personnel as well as the use of the fund for fraud and theft investigation. You have asked whether or not the sheriff or any designee would have to be trained before they would be authorized to meet the requirements of the inspection certification. We would point out several ambiguities. The amendment to subsection 7 of §60-102 provides that: “An application for a certificate of title shall include a statement. . .” It further

provides that: "Such statement shall be furnished by the county sheriff of the county in which application is made, or his or her designee, . . ." We do not find specific language indicating that the inspection must be done by the sheriff or his or her designee. It may be inferred, but it is not clear. Additionally, it is not apparent whether or not these individuals must be trained prior to performing the inspections. Section 3 of the bill provides that the fund will be used to defray the expenses of training personnel "as determined by the Department of Motor Vehicles." It further provides that "Such training program shall be administered by the department." However, the Department's responsibility for providing training does not commence until June 30, 1984. Therefore, it is not clear whether or not these individuals must be trained prior to inspection.

You have also posed a question concerning claims which may be made on this cash fund. The applicable language concerning this is as follows: "The fund shall be used to defray the expenses in training personnel, as determined by the Department of Motor Vehicles, in title document examination, vehicle identification, and fraud and theft investigation. . . . The department may make expenditures from the fund necessary to implement such training." It is our opinion that the fund may only be used for the purposes of training personnel in the areas of title document examination, vehicle identification, and fraud and theft investigation. We do not feel that claims could be made from county sheriffs, county clerks, or members of the Industry Licensing Board for fraud and theft investigation. Rather, the express language limits the use of the fund to the training of personnel by the Department of Motor Vehicles.

Opinion No. 99  
April 28, 1983

Dear Senator Beutler:

This is in response to your letter of April 26, 1983, in which you ask our opinion pertaining to current legislation.

Specifically, you ask whether section 27 of amendments to LB 447, when combined with additional language to be added to

§42-364.11, would circumvent the requirement of transcribing all child support garnishment judgments obtained against employees of the State of Nebraska to the District Court of Lancaster County.

We conclude that the language in section 27 of the amendments to LB 447 pertaining to service of process on the state is sufficient, without more, to require the state to respond to interrogatories propounded by the district court having jurisdiction of the child support matter without first transcribing the child support proceedings in Lancaster County.

As we pointed out in our Opinion No. 90 of April 26, 1983, the cases in this jurisdiction apparently require that two conditions be met before the state will be regarded as having waived its sovereign immunity from suit: (1) there must be a statute authorizing suit; and (2) there must be statutory authority defining the manner of service upon the state. Anstine v. State, 137 Neb. 148, 288 N.W. 525 (1939); Offutt Housing Company v. County of Sarpy, 160 Neb. 320, 70 N.W.2d 382 (1955).

As we further stated in our Opinion No. 90, Neb.Rev.Stat. §42-364.05 (Reissue 1978) and Neb.Rev.Stat. §42-364.11 (Reissue 1978) would authorize suit against the state, and would keep jurisdiction in the court in which the child support payment order was entered. The first requirement of Anstine and Offutt, *supra*, is therefore satisfied; but we can find no statutory authority which would satisfy the second requirement (defining the manner of service).

The amendment to LB 447, like the amendment to LB 331 which we have already discussed, is also apparently directed towards satisfying the service of process requirements of Anstine, *supra*, and Offutt, *supra*, and would apparently be sufficient to complete the waiver of the state's sovereign immunity with regard to child support proceedings.

Section 27 of the amendments to LB 447 states that:

The State of Nebraska, any state agency as defined in section 81-8,210, and any employee of the state as defined in section 81-8,210 sued in an official capacity may be served by leaving the summons at the office of the Attorney General with the Attorney General, deputy attorney general, or someone designated in writing by the Attorney General, or by certified mail service to the office of the Attorney General.

Consequently, we view section 27 of the amendments to LB 447 as an alternative to the amendment to LB 371 which was discussed in our Opinion No. 90.

But the proposed amendment to §42-364.11, which would define "court" as "any district court where the garnishment application is filed," would have little, if any, impact on the state's obligation to answer interrogatories from any district court in the state which might

be propounded pursuant to child support proceedings.

As we have pointed out previously in this opinion, as well as in our Opinion No. 90, §42-364.05 provides that "The court that entered the order requiring the parent to pay any amount for the support of a minor child and in which the application to withhold and transmit earnings is filed shall have jurisdiction of any employer [including the state] . . ." (Emphasis added.)

The definition proposed for §42-364.11 would, perhaps, add some clarification to the meaning of the term "court" as used in §42-364.03, and would be beneficial in that regard.

Nevertheless, given the language of §42-364.05, *supra*, said proposed definition may be unnecessary, and would have no effect on the state's waiver of sovereign immunity, or obligation to answer interrogatories pursuant to child support proceedings in district courts other than the Lancaster County District Court.

In conclusion, section 27 of the amendments to LB 447, like amendments to LB 371 already discussed, would complete the waiver of the state's sovereign immunity with regard to child support proceedings. Section 42-364.03 and §42-364.05 would require the state to respond to interrogatories propounded by the district court having jurisdiction over the child support matter. And the definition proposed for §42-364.11 would have no effect upon the conclusion just stated, but would, perhaps, have some beneficial value by defining the term "court" in §42-364.03.

## ATTORNEY GENERAL'S OPINION

Opinion No. 101

April 29, 1983

Dear Senator DeCamp:

You direct our attention to LB 469 and the Warner amendment, No. 1298, adopted April 27, 1983. You ask two questions.

In your first question you ask, "Does the bill, as amended violate Article III, Section 14, of the Constitution of Nebraska by containing more than one subject?"

The amendment adopted amended §§8-1120, 44-116, 77-2602, 79-1346, 81-8, 129.01, and §81-1010. These statutes deal with fees generated by the Department of Banking and Finance, the Department of Insurance, The Motor Vehicle Cycle Safety Education Fund, certain monies raised from cigarette taxation, State Department of Education Cash Fund, State Athletic Committee Cash Fund, and The Transportation Services Bureau Revolving Fund. In each instance the amendments authorize the transfer of monies from funds to the General Fund of the state.

The question to be answered in situations such as the present one, is whether or not the bill under consideration contains one subject. As our Supreme Court said in Anderson v. Tiemann, 182 Neb. 383, 155 N.W.2d 322 (1967):

If an act has but one general object, no matter how broad that object might be, and contains no matter not germane thereto, and the title fairly expresses the subject of the bill, it does not violate Article III, section 14 of the Constitution.

In Anderson v. Tiemann the court was considering the Nebraska Revenue Act of 1967. They held that the Revenue Act did not violate the proscription of Article III, Section 14 by containing more than one subject.

As we read amendment No. 1298, it relates to the permissible purposes for which monies in specified funds may be utilized. It seems to us to be one general object. The fact that the funds are in many areas does not change the fundamental object of the bill to expand the permissible uses of particular funds. For that reason we believe that amendment No. 1298 does not violate Article III, Section 14 of the Nebraska Constitution.

In your second question you ask, "Does the bill, as amended cure any possible constitutional defects in the transfer of funds provided for in Section 27 of LB 602?"

As you indicate in your letter, LB 469 as now amended by amendment No. 1298, provides that certain cash funds may be transferred to the General Fund at the direction of the Legislature. We

have previously issued Opinion No. 91, Report of the Attorney General 1983-1984, April 27, 1983, responding to a question posed by you and Senator Haberman. In that opinion we indicated that the attempted transfer in an appropriations bill of monies from certain cash funds to the General Fund violated Article III, Section 12 of the Nebraska Constitution. That section, of course, prohibits the amendment of statutes unless the amending act contains the sections to be amended. LB 628 did not do that.

LB 469, as amended by amendment No. 1298, specifically amends the statutes which set forth the allowable uses of the monies derived and deposited in specific and segregated funds of the State of Nebraska. Obviously, the amendment of these sections would overcome the objection to the appropriation bill referred to in Opinion No. 91. The effect of the amendment is to include as an authorized use the transfer, upon direction by the Legislature, of such monies to the General Fund.

As a final matter you point to Section 27 of LB 602. LB 602 is a deficiency appropriations bill for the current session. Section 27 directs the State Treasurer to transfer monies from certain named funds: Securities Act Cash Fund, Department of Insurance Cash Fund, Social Security Contributions Fund, State Athletic Commission Cash Fund, State Office Building Fund, and the Downtown Education Center and Office Rental Fund, to the Nebraska Capital Construction Fund.

We see no direct connection between LB 469 and the provisions of LB 602. As amended, LB 469 authorizes the Legislature to transfer those funds to the General Fund. Once they are in the General Fund they may be allocated as the Legislature sees fit.

We do, however, believe that the attempted allocation in LB 602 is probably invalid for the reasons set forth in Opinion No. 91. Obviously, the use of those funds in the Nebraska Capital Construction Fund is not a use authorized by the particular statutes relating to specific funds. However, it is also clear that the authority provided by LB 469 may be exercised in a subsequent appropriation bill in this legislative session and, thus, any perceived difficulty with the purported action in LB 602, Section 27 is curable by subsequent legislative action this session. It would not be necessary to mention the Nebraska Capital Construction Fund in any particular bill if the money is transferred to the General Fund, and an appropriation is made to the Nebraska Capital Construction Fund out of the General Fund.

Very truly yours,  
PAUL L. DOUGLAS  
Attorney General

Laid over.

**RESOLUTION****LEGISLATIVE RESOLUTION 87.**

Introduced by Haberman, 44th District.

WHEREAS, the Merchant Marine Act of 1936 as amended by the Cargo Preference Act of 1954 requires that 50% of government-sponsored commodity shipments (PL480 cargoes) move in U.S. vessels; and

WHEREAS, such requirement has cost \$337 million since fiscal year 1980; and

WHEREAS, had those shipments moved on the most competitive and cost efficient vessels available, the savings could have financed approximately 62 million bushels of additional wheat exports, an amount equal to 60% of Nebraska's annual wheat crop; and

WHEREAS, the increased cost of subsidizing the maritime industry came out of the pockets of Nebraska farmers and the state's economy as a result of reduced foreign demand, lower commodity prices and negative economic spinoffs to the state; and

WHEREAS, maritime subsidies amounted to \$21,853 per maritime employee in 1981 and were more damaging to the U.S. agricultural economy than they were beneficial to other sectors; and

WHEREAS, the required use of U.S. vessels increases the freight cost of exporting U.S. agricultural commodities by as much as \$2.12 per bushel over world freight rates, making U.S. commodities less competitive in world markets.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-EIGHTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Legislature of Nebraska opposes cargo preference laws that require 50% of all "concessional" export credit sales be carried on U.S. ships.

2. That the Legislature of Nebraska is concerned with the effectiveness of present governmental policies and programs relating to cargo preference.

3. That a copy of this resolution be sent to the President of the United States, the Secretary of Agriculture, the Secretary of Commerce, and the Nebraska Congressional Delegation.

**ATTORNEY GENERAL'S OPINION**

Opinion No. 102  
April 28, 1983

Dear Senator Beyer:

This is in response to your letter regarding whether a county board of commissioners has the statutory authority to negotiate and enter into a labor contract with an organization of county employees employed in the offices of elected county officials.

Labor negotiations between public employers and public employees are governed by Neb.Rev.Stat. §§48-801 et seq. (1982 Supp.). Neb.Rev.Stat. §48-816(2) (1982 Supp.) provides:

Public employers are hereby authorized to recognize employee organizations for the purpose of negotiating collectively in the determination of, and administration of grievances arising under, the terms and conditions of employment of their public employees as provided in this act, and to negotiate and enter into written agreements with such employee organizations in determining such terms and conditions of employment. (Emphasis added.)

Neb.Rev.Stat. §48-816(4) states:

When an employee organization has been certified as an exclusive collective bargaining agent or recognized pursuant to any other provisions of this act, the appropriate public employer shall be and is hereby authorized to negotiate collectively with such employee organization in the settlement of grievances arising under the terms and conditions of employment of the public employees as provided in this act, and to negotiate and enter into written agreements with such employee organizations in determining such terms and conditions of employment, including wages and hours. (Emphasis added.)

In order to determine which governmental entity is authorized to negotiate with a public employees' organization, it is necessary to determine whether the employer is, in fact, the county board or the elected county official. Neb.Rev.Stat. §48-801(4) (1982 Supp.) provides: "Employer shall mean the State of Nebraska or any political or governmental subdivision of the the State of Nebraska, except the Nebraska National Guard or state militia, any municipal corporation or any public power district or public power and irrigation district." While making clear that the employer is a governmental entity or subdivision, this definition does not provide much guidance in determining exactly which entity is the employer. This is especially true in state and county governments where the responsibility for establishing an employee's terms and conditions of employment are by law distributed among several entities.

The definition of employer and when an employer-employee relationship exists has been examined by the courts in other situations. In *Gardner v. Kothe*, 172 Neb. 364, 109 N.W.2d 405 (1961), the Nebraska Supreme Court stated: "The primary test in determining whether the relationship of employer-employee exists is whether the alleged employer has the right of control and supervision over the work of the alleged employee and the right to direct the manner in which the work is to be done as well as the result which is to be accomplished." In *Shamburg v. Shamburg*, 153 Neb. 495, 45 N.W.2d 446 (1950), it is stated: "Generally most courts agree that the main test is the right of control, and that right, in the actual exercise of that control, governs. . . Other factors are looked to only to aid in determining whether such relationship existed in a given case."

The Supreme Court of Michigan was faced with a similar situation in *Civil Serv. Com'n for Co. of Wayne v. Board of Sup'rs.*, 384 Mich. 363, 184 N.W.2d 201 (1971). In this case, the County Civil Service Commission, the County Board of Road Commissioners, and the County Board of Supervisors all contended that they were the appropriate and the exclusive party to bargain with an employee association representing employees of the Road Commissioners. The

court stated:

From as far back as 1909 P.A. 283, section 10 of the county road law has authorized each board of county road commissioners to "employ" its necessary "servants and laborors." The section leaves no doubt of original and present intent that each board of county road commissioners shall be the employer of its employees, and that such employees shall be employees of that same board.

The Michigan Supreme Court concluded that the road commission was the "public employer" for purposes of bargaining with the representative of its employers and that the road commission alone was the employer obligated to negotiate under Michigan law. The Michigan Supreme Court relied on the test established by the Michigan Court of Appeals in Civil Service Com'n v. Wayne County Board of Super., 22 Mich.App. 287, 177 N.W.2d 449 (1970), where it is stated:

[W]e find the general characteristics of identification of an employer are: 1) that they select and engage the employee; 2) that they pay the wages; 3) that they have the power of dismissal; 4) that they have the power and control over the employee's conduct (35 Am.Jur., Master & Servant, §3, p. 445). A most significant requisite of one who is an employer is his right to exercise control over the method by which the employee carries out his work. Hence, before we can reach a proper conclusion to this controversy it is necessary to determine what authority and power each of the parties to this litigation have with regard to the employment relationship.

Under Nebraska law, the elected county officials have the power to select and engage the employees in their respective offices. The elected county officials, not the county board, have the power to establish the salaries for persons working in their offices. Neb.Rev.Stat. §23-1111 (Reissue 1977). The elected officials of a county have the power to terminate their employees. Most importantly, the elected county officials have the right of control and supervision over the work, the power to direct the manner in which the work is to be done, and to determine the result to be accomplished by the people working in their office. Therefore, the elected county officials, not the county board, are the employers of the persons working in their respective offices and would be the appropriate employer to engage in negotiations with an organization representing the employees in their office.

This is not to say that this solution is without problems. While the elected county officials do have extensive control over their employees' salaries and conditions of employment, certain aspects of an employee's conditions of employment are by law specifically established by the county board or by a civil service commission, and the negotiations between the elected county official and his employees must comply with these limitations upon the official's discretion.

A contract negotiated by a county board that attempts to establish terms and conditions of the employment for the employees in the office of an elected official would not be binding on the elected official if the terms of the contract infringe upon areas where the power to make the decision has been left to the discretion of the elected official. A very important aspect of any labor negotiations is the setting of wages, and we will use this as an example. Neb.Rev.Stat. §23-1111 (Reissue 1977) provides: "The county officers in all counties shall have the necessary clerks and assistants for such periods and at such salaries as they may determine with the approval of the county board, whose salaries shall be paid out of the general fund of the county." The roles of a county officer and the county board in setting salaries for employees of the county officer were discussed in Bass v. County of Saline, 171 Neb. 538, 106 N.W.2d 860 (1960). The plaintiff in this case was the clerk of the Saline County Court. The county judge had fixed her salary at \$225 per month but the county board would pay her only \$190 per month in accordance with a salary schedule established by the county board. The sole question presented by the case was whether the county board was required to pay the plaintiff the salary established by the county judge. After noting that county commissioners possess no powers except such as are expressly granted or are incidentally necessary to carry such powers into effect, the court stated:

We conclude from the foregoing authorities that the statute authorizes the county judge to fix the salary of the clerk of the county court. In so doing he must not act arbitrarily, capriciously, or unreasonably. The limitation placed upon the authority of the judge in fixing the salary of the clerk of the county court to the effect that it should be done "with the approval of the county board" authorizes the county board to approve or disapprove the act of the county judge, but in so acting the county board may not act arbitrarily, capriciously, or unreasonably. In the absence of evidence that the salary fixed by the county judge is unreasonable, capricious or arbitrary, the county board is without authority to disapprove it.

From this case, it is clear that the county official and not the county board has the power to establish the salaries of the official's employees. Therefore, if the county board attempted to or did, in fact, negotiate a contract with employees of an elected county official concerning wages, this portion of the contract would not be binding on the elected official because the county board has no power to set wages for such employees and would be acting outside of its statutory authority. The same would be true of any terms of a contract negotiated by the county board when the determination of such terms is specifically left to the discretion of the elected county official.

Very truly yours,

**LEGISLATIVE RESOLUTION 93.**

Introduced by Newell, 13th District.

WHEREAS, a compromise between the National League of Cities and the National Cable Television Association containing a "compromise" on Senate Bill 66 was approved by a majority of the Board of Directors of the National League of Cities on March 6, 1983; and

WHEREAS, that compromise would purport to substantially impair the ability of municipalities to enforce and benefit from mutually acceptable contractual obligations currently committed by all operators of cable television systems; and

WHEREAS, Nebraska municipalities have expressed concern on the effect the compromise, if enacted, would have on the contracts presently in force and the operation of the cable television systems in Nebraska municipalities; and

WHEREAS, on April 4, 1983 the Executive Council of the Nebraska League of Municipalities went on record against the proposed "compromise".

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-EIGHTH LEGISLATURE OF NEBRASKA,

Laid over.

**LEGISLATIVE RESOLUTION 94.**

Introduced by Vickers, 38th District; Pappas, 42nd District.

**PURPOSE:**

To study the insanity defense to a criminal charge as it exists today in Nebraska, especially in regard to modifying or eliminating the affirmative defense of insanity and eliminating the annual review hearings that are presently required.

There has been a great public outcry concerning the insanity defense the past two years. The public is concerned about possible abuse of the insanity defense in criminal actions. The Legislature should respond to this public concern by making a thorough study of the defense of insanity, possible changes or elimination of the defense, and possible abuses of the defense. This study should include input from and conducted with the cooperation of psychiatrists, psychologists, courts, prosecutors, criminal defense attorneys, corrections personnel, personnel from the Department of Public Institutions and the public.

The Legislature currently has pending in the Judiciary Committee LB-441 introduced by Senators Vickers and Pappas. LB-441 should be taken into consideration in the study.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-EIGHTH NEBRASKA LEGISLATURE, FIRST SESSION, THAT:**

1. The Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. The committee shall upon conclusion of the study make an official report of its findings and recommendations to the Legislative Council or the Legislature.

Referred to the Executive Board.

### **LEGISLATIVE RESOLUTION 95.**

Introduced by DeCamp, 40th District; Landis, 46th District.

**PURPOSE:** The second largest consumers of energy in Nebraska are residential users. Heating constitutes the majority of home energy use. Local and national data show that existing residences can be improved 40-60 per cent in heating efficiency through energy conservation measures. Currently, energy building codes apply only to new construction. However, existing housing stock consumes the majority of residential energy used and will for a substantial period into the future. Since Nebraskans import in excess of 90 per cent of the energy sources used to heat their homes and these energy sources continue to rise in cost (some dramatically), residential energy consumption represents a substantial drain on the economy of the State.

The purpose of this study is to assess the advisability of legislation to address this problem. In order to accomplish the purpose of this resolution, the following topics shall be studied:

1. Assess alternate methods of improving energy efficiency in existing housing stock. Specifically, study the feasibility of granting local governments the authority to adopt and enforce a minimum standards weatherization ordinance through adopting and enforcing energy audits, inspections, investigations or other enforcement procedures.

2. Any other matters necessary to accomplish a complete analysis of this issue.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-EIGHTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That a committee of the Legislature shall be designated to conduct an interim study and to hold any public hearings as necessary to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of the study make a report of its finding, together with its recommendations, to the Legislative Council prior to the commencement of the 1984 legislative session.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 96.**

Introduced by Fowler, 27th District.

**PURPOSE:** The purpose of this resolution is to study the impact of the federal budget cuts on elementary, secondary, and post-secondary educational services in the State of Nebraska.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-EIGHTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Education Committee of the Legislature shall be designated to conduct an interim study to carry out the purpose of this resolution.

2. That the Education Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 97.**

Introduced by Fowler, 27th District.

**PURPOSE:** The purpose of this resolution is to study the impact of the federal budget cuts on human services across the State of Nebraska.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-EIGHTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Public Health and Welfare Committee of the Legislature shall be designated to conduct an interim study to carry out the purpose of this resolution.

2. That the Public Health and Welfare Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

## RESOLUTION

### LEGISLATIVE RESOLUTION 104.

Introduced by Fenger, 45th District; R. Peterson, 21st District; Barrett, 39th District.

**PURPOSE:** The purpose of this resolution is to review optional Medicaid services paid by the state and investigate eligibility requirements.

A study is needed because (1) the annual increase in health care costs is rising in excess of the rate of increase in the consumer price index, (2) Medicaid costs for the State of Nebraska have shown a fifty per cent increase in expenditures during the four year period from 1978 to 1981, (3) the economy, both nationally and in the State of Nebraska,

has put health care costs out of the financial reach of certain segments of the population and has imposed a tremendous burden on the taxpayer, and (4) the State of Nebraska has a statutory duty to provide health care for the dependent child, the elderly adult, the blind, and the disabled.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-EIGHTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Public Health and Welfare Committee shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall review all optional Medicaid services currently provided by the state and determine which, if any, may be eliminated.

3. That the committee shall investigate the eligibility requirements for individuals qualified for the state Medicaid program to assure that only those truly in need are recipients.

Referred to the Executive Board.

**UNANIMOUS CONSENT - Print in Journal**

Mr. DeCamp asked unanimous consent to print the following amendment to LB 628 in the Journal. No objections. So ordered.

AM1411

- 1 1. Insert the following new sections:
- 2 "Sec. 92. (1) The Legislature hereby finds
- 3 that (a) in some instances political subdivisions have
- 4 added programs or services as a result of state action
- 5 and have not received any additional assistance from the
- 6 state to aid them in meeting these new responsibilities,
- 7 and (b) the limitation placed on the budgets of
- 8 political subdivisions has made it difficult for the
- 9 political subdivisions to continue to provide all the
- 10 necessary programs and services.
- 11 (2) It is the responsibility of the
- 12 Legislature to provide laws which promote uniform and
- 13 equitable taxation. The Legislature is responsible for
- 14 providing a state tax system and has the right to
- 15 apportion the impact of such tax system in any manner
- 16 that is consistent with the application of appropriate
- 17 laws which reflect property values, personal income, and
- 18 other economic activities. The Legislature hereby finds
- 19 that the best interests of the state are served by
- 20 providing uniform property tax relief based on the value
- 21 of all property and the Legislature's choice to provide
- 22 a shift in tax burden from property to sales and income
- 23 is a legitimate and proper function of the Legislature.
- 1 (3) Sections 92 to 96 of this act do not
- 2 purport to reimburse political subdivisions for losses
- 3 due to certain personal property tax exemptions, but
- 4 provide state financial assistance through property tax
- 5 relief to various political subdivisions of the State of
- 6 Nebraska.
- 7 Sec. 93. For fiscal year 1983-84 and each
- 8 fiscal year thereafter the Legislature shall appropriate
- 9 one thousand dollars from the General Fund to a special

10 fund, to be known as the Political Subdivision Property  
11 Tax Relief Fund, which fund is hereby created. Any  
12 money in such fund available for investment shall be  
13 invested by the state investment officer pursuant to  
14 sections 72-1237 to 72-1269.

15 Sec. 94. For fiscal year 1983-84 and each  
16 fiscal year thereafter each county shall receive an  
17 amount from the Political Subdivision Property Tax  
18 Relief Fund based on the percentage figure obtained by  
19 dividing the actual valuation of real and personal  
20 property in the county by the actual valuation of real  
21 and personal property in the state based on the values  
22 stated in the most recent certificate of taxes levied  
23 pursuant to section 77-628. The Tax Commissioner shall  
24 determine the amount to be distributed to the various  
25 counties for distribution to the political subdivisions  
26 within such county and shall certify such amounts to the  
1 Director of Administrative Services. Each amount shall  
2 be distributed in seven as nearly as possible equal  
3 monthly payments between the fifth and twentieth day of  
4 each month beginning December 5, 1983, and each December  
5 5 thereafter. The State Treasurer shall, between the  
6 fifth and twentieth day of each month, notify the  
7 Director of Administrative Services of the amount of  
8 funds available in the General Fund for payment  
9 purposes. The Director of Administrative Services  
10 shall, upon receipt of such notification, draw warrants  
11 against funds appropriated.

12 Out of the amount of funds distributed to a  
13 county under this section, the county treasurer shall  
14 retain one per cent thereof and then shall distribute the  
15 remainder to each of the political subdivisions within  
16 his or her county as set forth in section 95 of this  
17 act.

18 Sec. 95. Each political subdivision or  
19 portion of a political subdivision within a county,  
20 including the county itself, with authority to levy a  
21 tax or cause a tax to be levied shall receive a share of  
22 the funds distributed to the county in an amount  
23 equivalent to the percentage figure obtained by dividing  
24 the amount of property tax levied within the county by  
25 the political subdivision during the prior calendar year  
26 by the total amount of property tax levied within the  
1 county by all political subdivisions during the prior  
2 calendar year. Such amount shall be distributed by the

3 county treasurer in seven as nearly as possible equal  
4 monthly payments beginning December 5, 1983, and each  
5 December 5 thereafter.

6 Sec. 96. (1) If two or more political  
7 subdivisions within a county are merged, the share such  
8 newly merged political subdivision shall receive shall  
9 be the sum of the receipts each individual political  
10 subdivision would have received had there been no  
11 merger.

12 (2) If a political subdivision authorized to  
13 levy a tax or cause a tax to be levied is newly created,  
14 such political subdivision shall receive, commencing the  
15 first year such levy generates tax receipts, a share of  
16 the funds distributed to political subdivisions within a  
17 county computed pursuant to sections 92 to 96 of this  
18 act.

19 Sec. 97. There is hereby appropriated one  
20 thousand dollars from the General Fund for the period  
21 July 1, 1983, to June 30, 1984, to the Political  
22 Subdivision Property Tax Relief Fund.

23 No expenditures for permanent and temporary  
24 salaries and per diems for state employees shall be made  
25 from funds appropriated in this section.”.

26 2. Renumber remaining sections accordingly.

to LB 628 in the Journal. No objections. So ordered.

AM1401

1 1. Insert the following new section:

4 other public bodies other than the University of  
5 Nebraska the equivalent of an average salary increase of  
6 two and one half per cent for state employees effective  
7 July 1, 1983.”.

8 2. Motion: The E & R attorney in cooperation  
9 with the Legislative Fiscal Office shall adjust  
10 appropriate numbers in LB 628 for all agencies, boards,  
11 commissions, and other public bodies other than the  
12 University of Nebraska to reflect this amendment.

2       and insert "to"; and in line 6 after the semicolon  
3       insert "to change the location of certain filings; to  
4       provide duties for the Director of Agriculture;".  
5       2. Insert a new section as follows:  
6       "Sec. 12. That section 9-402, Uniform  
7       Commercial Code, be amended to read as follows: Uniform  
8       Commercial Code, Cumulative Supplement 1982.  
9       9-402. Formal requisites of financing statement;  
10      amendments; mortgage as financing statement.  
11      (1) A financing statement may be in a form  
12      prescribed by the Secretary of State Director of  
13      Agriculture and is sufficient if it gives the names of  
14      the debtor and the secured party, is signed by the  
15      debtor, gives an address of the secured party from which  
16      information concerning the security interest may be  
17      obtained, gives a mailing address of the debtor and  
18      contains a statement indicating the types, or describing  
19      the items, of collateral. A financing statement may be  
20      filed before a security agreement is made or a security  
21      interest otherwise attaches. When the financing  
22      statement covers crops growing or to be grown, the  
1      statement must also contain a description of the real  
2      estate concerned. When the financing statement covers  
3      timber to be cut or covers minerals or the like  
4      (including oil and gas) or accounts subject to  
5      subsection (5) of section 9-103, or when the financing  
6      statement is filed as a fixture filing (section 9-313)  
7      and the collateral is goods which are or are to become  
8      fixtures, the statement must also comply with subsection  
9      (5). A copy of the security agreement is sufficient as  
10     a financing statement if it contains the above  
11     information and is signed by the debtor. A carbon,  
12     photographic or other reproduction of a security  
13     agreement or a financing statement is sufficient as a  
14     financing statement if the security agreement so  
15     provides or if the original has been filed in this  
16     state.  
17     (2) A financing statement which otherwise  
18     complies with subsection (1) is sufficient when it is  
19     signed by the secured party instead of the debtor when  
20     it is filed to perfect a security interest in  
21     (a) collateral already subject to a security

- 22 interest in another jurisdiction when it is brought into  
23 this state, or when the debtor's location is changed to  
24 this state. Such a financing statement must state that  
25 the collateral was brought into this state or that the  
26 debtor's location was changed to this state under such  
1 circumstances; or  
2 (b) proceeds under section 9-306 if the  
3 security interest in the original collateral was  
4 perfected. Such a financing statement must describe the  
5 original collateral; or  
6 (c) collateral as to which the filing has  
7 lapsed; or  
8 (d) collateral acquired after a change of  
9 name, identity or corporate structure of the debtor  
10 (subsection (7)).
- 11 (3) The Secretary of State Director of  
12 Agriculture shall prescribe a form substantially as  
13 follows to comply with subsection (1):
- 14 Name of debtor (or assignor) .....
- 15 Address.....
- 16 Name of secured party (or assignee) .....
- 17 Address.....
- 18 1. This financing statement covers the  
19 following types (or items) of property:  
20 (Describe)  
21 .....
- 22 2. (If collateral is crops) The above  
23 described crops are growing or are to be  
24 grown on:  
25 (Describe real estate) .....
- 26 3. (If applicable) The above goods are to  
1 become fixtures on (Describe real estate)  
2 ..... and this financing  
3 statement is to be filed for record in the  
4 real estate records. (If the debtor does  
5 not have an interest of record) The name  
6 of a record owner is .....
- 7 4. (If products of collateral are claimed)  
8 Products of the collateral are also covered. Signature  
9 of debtor (or assignor) ..... Signature of  
10 secured party (or assignee) .....
- 11 (4) A financing statement may be amended by  
12 filing a writing signed by both the debtor and the  
13 secured party. An amendment does not extend the period  
14 of effectiveness of a financing statement. If any

15 amendment adds collateral, it is effective as to the  
16 added collateral only from the filing date of the  
17 amendment. The uniform fee for filing and indexing and  
18 for stamping a copy furnished by the secured party to  
19 show the date and place of filing for an amendment shall  
20 be three dollars plus in each case an additional fee of  
21 three dollars for each name more than one against which  
22 the amendment is required to be indexed. In this  
23 article, unless the context otherwise requires, the term  
24 "financing statement" means the original financing  
25 statement and any amendments.

26 (5) A financing statement covering timber to  
1 be cut or covering minerals or the like (including oil  
2 and gas) or accounts subject to subsection (5) of  
3 section 9-103, or a financing statement filed as a  
4 fixture filing (section 9-313) where the debtor is not  
5 a transmitting utility, must show that it covers this  
6 type of collateral, must recite that it is to be filed  
7 for record in the real estate records, and the financing  
8 statement must contain a description of the real estate  
9 sufficient if it were contained in a mortgage of real  
10 estate to give constructive notice of the mortgage under  
11 the law of this state. If the debtor does not have an  
12 interest of record in the real estate, the financing  
13 statement must show the name of a record owner.

14 (6) A mortgage is effective as a financing  
15 statement filed as a fixture filing from the date of its  
16 recording if (a) the goods are described in the mortgage  
17 by item or type, (b) the goods are or are to become  
18 fixtures related to the real estate described in the  
19 mortgage, (c) the mortgage complies with the  
20 requirements for a financing statement in this section  
21 other than a recital that it is to be filed in the real  
22 estate records, and (d) the mortgage is duly recorded.  
23 No fee with reference to the financing statement is  
24 required other than the regular recording and  
25 satisfaction fees with respect to the mortgage.

26 (7) A financing statement sufficiently shows  
1 the name of the debtor if it gives the individual,  
2 partnership or corporate name of the debtor, whether or  
3 not it adds other trade names or the names of the  
4 partners. Where the debtor so changes his or her name  
5 or in the case of an organization its name, identity or  
6 corporate structure that a filed financing statement  
7 becomes seriously misleading, the filing is not

8 effective to perfect a security interest in collateral  
9 acquired by the debtor more than four months after the  
10 change, unless a new appropriate financing statement is  
11 filed before the expiration of that time. A filed  
12 financing statement remains effective with respect to  
13 collateral transferred by the debtor even though the  
14 secured party knows of or consents to the transfer.

15 (8) A financing statement substantially  
16 complying with the requirements of this section is  
17 effective even though it contains minor errors which are  
18 not seriously misleading.”.

## **RESOLUTIONS**

### **LEGISLATIVE RESOLUTION 105.**

Introduced by Beyer, 3rd District.

WHEREAS, America's lifeline is its transportation system, allowing the unfettered movement of persons and property; and

WHEREAS, the quality of transportation services available in the United States from highways, rail, air, and water is unequalled elsewhere; and

WHEREAS, May 15-21 is National Transportation Week, an annual observance marking the role transportation plays in the lives of Americans; and

WHEREAS, Governor Robert Kerrey has proclaimed the week of May 15 as Transportation Week.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-EIGHTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Legislature honors the transportation industry and encourages all Nebraskans to honor the transportation industry by observing Transportation Week from May 15-21, 1983.

Laid over.

### **LEGISLATIVE RESOLUTION 106.**

Introduced by Beutler, 28th District.

Purpose:

The Nebraska Soil and Water Conservation Fund was created to provide funding for conservation practices to be put in place by individual landowners. The state provides 75% of the funds for putting the projects and practices in place and the landowner provides 25%. This program is administered by the Natural Resources Commission through the 24 Natural Resource Districts.

The purpose of this study is to determine the effectiveness of this program since the enactment of the Nebraska Water Conservation Act in 1977. In order to accomplish this purpose the following topics shall be studied:

(1) The nature and terms of the contractual agreements between the state and landowners.

(2) Compliance with the contractual agreements by landowners.

(3) The necessity of the 75% - 25% cost share formula.

(4) The nature and extent of conservation practices put in place by landowners with private funds.

(5) The extent to which the legal obligations to the contractual agreements run with the land.

(6) Administrative impediments to utilization of this fund.

(7) Differences in utilization of this fund by the various Natural Resource Districts.

(8) Any other matters necessary for a complete analysis of this issue.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-EIGHTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

#### **LEGISLATIVE RESOLUTION 107.**

Introduced by Beutler, 28th District.

**PURPOSE:** Our society is increasingly experiencing the impact of electronic computing devices. Science, industry and commerce have experienced an exponential growth in the use of high technology and these devices have made great changes in the lives of individual citizens. Further, much of our national defense system is dependent on sophisticated technological methods.

Our nation has long been a leader in science, industry and commerce. If this nation is to continue to experience leadership in these areas its citizens must be properly trained in the use and development of these technologies.

The National Commission on Excellence in Education has recommended that at least one half year of computer education be required by the school systems of the nation. This study stated that all graduates should be capable of understanding and using computers for personal and vocational functions.

There is a need to determine the status of computer education in the public schools of the state of Nebraska. The purpose of this study is to assess the advisability of legislation in this area. In order to

accomplish this purpose the following topics shall be studied:

(1) Computer education curriculum in the primary and secondary schools of the state.

(2) The effectiveness of this curriculum in developing student proficiency in the use of this technology.

(3) Variances in computer curriculum based on geographical location in the state.

(4) Alternative systems of computer education, including:

(a) Systems used in other states; and

(b) Private sector training systems.

(5) The advantages and disadvantages of alternate systems.

(6) Cost of establishing effective computer science education in the state of Nebraska.

(7) The potential consequences on commerce and industry by enhancing computer education in the state.

(8) Any other matters necessary for a complete analysis of the issue.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-EIGHTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

### **LEGISLATIVE RESOLUTION 108.**

Introduced by Goll, 16th District.

**PURPOSE:** The problem of the expansion of cult activity is one which affects Nebraska and the United States. Several cults are active in Nebraska. These cults exercise mind control over their recruits causing radical personality changes, as well as physiological changes. In response to cult activities, parents of recruits in Nebraska have undertaken rescue operations often at a tremendous financial cost and some risk of injury. Even after such a rescue, parents face a tremendously costly deprogramming effort which may or may not be successful and the possibility of lawsuits filed by the cult or their own child if the deprogramming effort fails.

The Norfolk Enrichment Center, Inc., located in Norfolk, Nebraska, is one of only three deprogramming centers in the United States. Yet, this center faces financial ruin because of lawsuits totaling millions of dollars filed against it.

The law in this area is very uncertain, because the rights of the family, the power and duties of the deprogramming center, the power of the State and the First Amendment Rights of the cult and its membership collide when a cult member is captured and deprogrammed.

This resolution is to study the problem of cults to determine:

- (1) How widespread cult activity is in Nebraska?
- (2) What rights the parents of cult members have to rescue their children for deprogramming under Nebraska law?
- (3) What duties law enforcement personnel have respecting the capture and deprogramming of cult members?
- (4) What civil liabilities parents and deprogrammers face respecting deprogramming activity?
- (5) What First Amendment rights cults and cult members have?

**ATTORNEY GENERAL'S OPINION**

Opinion No. 103  
May 4, 1983

Dear Senator Hoagland:

You have submitted to us proposed amendments to LB 599, and have asked our opinion as to the constitutional validity of that bill, as so amended, "at your earliest convenience." In view of the complexity of the whole subject of the federal regulation of takeover bids, we can only give our general impressions in any reasonably prompt opinion. In a suit involving LB 599, as so amended, we would expect to spend several weeks researching the subject.

In our Opinion No. 88, issued April 25, 1983, we concluded that the original version of LB 599 was invalid under the Commerce Clause, and cited *Edgar v. Mite Corporation*, \_\_\_\_ U.S. \_\_\_\_, 73 L.Ed.2d 269, 102 S.Ct. 2629 (1982). In that case the Court held that the Illinois takeover statute violated the Commerce Clause because it attempted to regulate transactions not only with Illinois residents, but also with those living in other states and having no connection with Illinois.

Your proposed amendment would attempt to eliminate this objection by providing that any injunction issued under the act could enjoin only offers to or purchases from Nebraska residents pursuant to a takeover bid. The question is whether this makes the bill comparable to the "blue-sky laws," which the Court distinguished in *Edgar*, on the grounds that such laws regulated only transactions occurring within the regulating states.

This proposed amendment would certainly eliminate the clear violation of the Commerce Clause present in the original version of the bill, but we would not be prepared, without a great deal of research, to give it a clean bill of health with respect to the Commerce Clause. The offer by an out-of-state company to purchase the stock of a Nebraska resident is an interstate commerce transaction, and we are not

confident that Nebraska can prohibit it. We point out that in Edgar the Court noted that Congress had inserted 15 U.S.C. §78bb(a) into the Securities Exchange Act, a provision designed to save state blue-sky laws from preemption. We find no such saving provision in the federal takeover statute.

In our previous opinion we pointed out that Congress may have preempted the entire field in the takeover area. Some language in Edgar points in that direction. In discussing the federal takeover statute, the Court pointed out that Congress intended to protect investors, by furnishing them with necessary information, and by withholding from incumbent management and the bidder any undue advantage which could frustrate the exercise of an informed choice.

The Court discussed at some length the attempt of Congress to strike a balance between management and the takeover bidder. Presumably, Congress has achieved the balance it wants in the Williams Act. A takeover bid is an attempt by the bidder to gain control of the target company. Theoretically, at least, an injunction against the acquisition of shares from Nebraska residents might be just enough to frustrate this effort, and to tip the balance in favor of incumbent management.

Furthermore, an injunction against the purchase of the shares of Nebraska residents might deny to such residents the advantage, given to all other shareholders, of selling their stock at a bonus price. If the purpose of the federal takeover statute is to protect investors, such an injunction might be held to frustrate the purposes of the federal act.

The answers to your questions are far from crystal clear, but our opinion is that there is a strong likelihood that the Court will ultimately say that Congress has occupied the field, and that there is no room for state regulation, at least where anything other than entirely intrastate transactions are involved.

Very truly yours,  
PAUL L. DOUGLAS  
Attorney General

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-EIGHTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Government, Military and Veterans Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

### ATTORNEY GENERAL'S OPINION

Opinion No. 105

May 4, 1983

Dear Senators Haberman, DeCamp, and Beutler:

You have jointly requested our opinion on Sections 59 and 60 of LB 1, Eighty-Seventh Legislature, Second Special Session 1982. You refer to our Opinions No. 91 and 101, Report of the Attorney General 1983-84, dealing with matters involving the transfer of monies from particular funds to either the General Fund or particular funds. By way of background, in Opinion No. 91, we stated that Neb.Rev.Stat. §8-1120 (Reissue 1977) and Article III, Section 12, of the Constitution, prohibited the Legislature from transferring in an appropriations bill money in the Social Security Contribution Fund to the General Fund. We further indicated in that opinion that Neb.Rev.Stat. §68-613 (Reissue 1981) authorized the transfer to the General Fund of interest income from the Social Security Contribution Fund. In Opinion No. 101 the question was whether LB 469, as amended by Amendment No. 1298, cured any constitutional problems relating to the transfer of monies from the particular funds to the general or other fund. We responded that it did cure such problems.

You now ask the following four questions:

1. It would appear that from your opinions No. 91 and 101 that many of the transfers listed above were made in an unconstitutional manner. Which of these transfers, in your opinion, are in fact constitutionally suspect?

2. LB 1 provided that the above transfers were to take place on or before June 1, 1983. If any of these transfers are suspect and have already occurred, must the money transferred be returned to the originating fund?

3. Who is the proper party to see that any illegally transferred funds are properly returned to their originating fund, and who may compel this party to take this action?

4. On any funds that were transferred illegally, upon their return to their originating source, is there any requirement that interest be paid on such funds for the period of time they were held

in the General Fund, or Nebraska Capital Construction Fund, and how is that interest to be computed?

We should point out of the \$8,955,000 directed to be transferred in LB 1, Sections 59 and 60, to the Nebraska Capital Construction Fund and to the General Fund, all but \$300,000 has been transferred. We will answer your questions in the order they were asked.

Each of the transfers directed to be made in Sections 59 and 60 are constitutionally suspect. See, Opinions No. 91 and 101.

The Legislature in directory language in LB 1, required the State Treasurer to transfer this money. The State Treasurer transferred the money pursuant to this directive. The Treasurer could not now reverse those transfers since there is neither statutory authority nor legislative direction to do so.

A proper party could commence a lawsuit to restore the monies transferred and we feel that the court would order restoration of unspent monies; we are unable to predict what the court would do about the portion of the transferred monies that has been spent. We have found no statute that imposes a duty on any state officer to act in this circumstance nor any that grant authority to do so. The question of the legality of the funds was not raised at the time the transfers were made nor was it a matter considered when the Legislature adopted LB 1. While a legislative act is void from its inception if it is unconstitutional, we are faced here with a fait accompli. That is, the Legislature ordered that a particular action be taken. The administrative officers responsible took the action as ordered by the Legislature. While the Legislature did not have the authority to transfer the monies in the manner followed in LB 1, nonetheless, the administrative officers were neither on notice nor should they have had any reason to know of the impropriety of the legislative action. Hence, they did as directed by the Legislature. We are now ten-twelfths through the fiscal year concerned, the money which was transferred has presumably been used in the manner directed by the Legislature for state activities. If this transfer is to be corrected, it is a matter for the Legislature to address and not any executive officer.

The Legislature appears ready to respond to these problems by the adoption of LB 469 in the current legislative session. As we indicated in Opinion No. 101, "However, it is also clear that the authority provided in LB 469 may be exercised in a subsequent appropriation bill in this legislative session and, thus, any perceived difficulty with the purported action in LB 602, Section 27 is curable by subsequent legislative action this session." We believe that the same reasoning holds true in this case. That is, that the Legislature is now aware of the problem presented by the transfers ordered in LB 1 of the special session. The Legislature is well aware of those problems as they relate to the transfers of money from specified funds to other funds in the

current session. The Legislature has plenary power over the funds of the state for most purposes. Thus, any problem which exists is to be addressed by the Legislature and not by the executive officers.

These same comments are applicable to your questions with respect to the crediting of interest.

Very truly yours,  
PAUL L. DOUGLAS  
Attorney General

## RESOLUTIONS

### LEGISLATIVE RESOLUTION 134.

Introduced by Pirsch, 10th District.

**PURPOSE:** In most cases, unless the natural parent consents, the only grounds in Nebraska for a stepparent to adopt the child of his or her spouse is when it can be shown that the child has been abandoned by the noncustodial parent. It is often difficult to prove abandonment because the term is not defined in statute. The purpose of this study is to consider whether defining in statute what constitutes abandonment is necessary and whether additional grounds should be added to the adoption statutes to provide for stepparent adoption. In order to accomplish this purpose, the following topics shall be studied:

- (1) Whether abandonment should be defined in statute;
- (2) The additional grounds for adoption found in the Model Adoption Statute recommended by the American Bar Association;
- (3) How adoption proceedings can be simplified to prevent unnecessary expenditure of time and legal fees; and
- (4) Any other matters necessary for a complete analysis of the issue.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-EIGHTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council prior to the commencement of the 1984 legislative session.

Referred to the Executive Board.

### **LEGISLATIVE RESOLUTION 135.**

Introduced by Pirsch, 10th District.

**PURPOSE:** Many persons charged with traffic violations fail to appear in court when their case is scheduled. This is especially true of persons arrested in a county which is a long distance from their county of residence. The purpose of this study is to consider methods of solving the time consuming and expensive process of issuing warrants for those drivers who fail to appear in court for traffic violations. In order to accomplish this purpose, the following topics shall be studied:

- (1) The feasibility of creating a state-wide waiver system under which traffic offenders would be allowed to waive court appearances by paying fines listed on the back of the citation;
- (2) The procedure found in Legislative Bill 167, Eighty-eighth Legislature, First Session, 1983, which allows an officer issuing a traffic citation to collect the person's motor vehicle operator's license which would be suspended if the driver fails to appear on the court date;

and

(3) Any other matters necessary for a complete analysis of the issue.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-EIGHTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council prior to the commencement of the 1984 legislative session.

Referred to the Executive Board.

## RESOLUTIONS

### LEGISLATIVE RESOLUTION 136.

Introduced by Cullan, 49th District; Goll, 16th District; Hefner, 19th District; Fenger, 45th District; R. Peterson, 21st District; Von Minden, 17th District; Chronister, 18th District.

**PURPOSE:** The purpose of this resolution is to study community action agencies.

This study is necessary because:

(1) Community action agencies are private nonprofit organizations designed to plan, administer, and deliver programs for the benefit of low-income persons in Nebraska;

(2) Community action agencies operate by virtue of federal and state aid through contracts with the State of Nebraska and the federal Community Service Block Grant Act;

(3) These agencies operate as private nonprofit organizations and there exists no coordinating mechanism between the state and the agencies regarding program and budgetary considerations, despite the state funding;

(4) Serious criticisms of these agencies by agency employees and Nebraska citizens have attracted statewide press coverage questioning the adequacy and efficiency of the community action agencies; and

(5) Any state legislation on the subject of community action agencies and all facets of these organizations can only be intelligently written and proposed once the program is fully reviewed and researched to clearly identify all relevant facts.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-EIGHTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Public Health and Welfare Committee of the Nebraska Legislature be authorized to conduct an interim study of community action agencies in Nebraska, including their financial structure and program responsibilities.

2. That the staff of the Administrative Rules and Regulations Review Committee of the Nebraska Legislature assist the Public Health and Welfare Committee in conducting the review and compiling a report to the Legislature.

3. That this review of community action agencies commence as

soon as possible after the end of the First Session, and that a full reporting of all findings be submitted to the Legislature at the beginning of the Second Session, January 1984.

4. That the Public Health and Welfare Committee of the Nebraska Legislature be given all necessary powers to review community action agencies and compile this report including suppoena power.

Referred to the Executive Board.

#### **LEGISLATIVE RESOLUTION 137.**

Introduced by Fenger, 45th District.

**PURPOSE:** The purpose of this resolution is to examine the current status of the Bureau of Examining Boards to determine whether restructuring of the bureau is needed to bring its statutory purpose in conjunction with its actual operation.

A study is needed because (1) the scope of authority of professional boards has grown beyond the examining process and the additional areas of control have required excessive legislation, (2) recent deficiencies in the operation of the issuance of licenses has created a severe hardship on an individual board, (3) the request by newly established areas of health care professionals for certification or licensure will have the ultimate effect of creating additional boards, (4) the peer review process of professionals in areas outside of health care has proven effective in policing the ethics of these areas and could be a model for health care professionals, and (5) it is questionable whether the Board of Examiners in Cosmetology is properly placed under a bureau whose total function would appear to be state overview of medical personnel.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-EIGHTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Public Health and Welfare Committee shall be designated to conduct an interim study to carry out the purpose of this resolution.

2. That the committee shall consider the wide diversity and the number of health care professionals covered by the various boards and determine whether a restructuring of the Bureau of Examining Boards is needed.

3. That if the committee determines that a restructuring is needed the necessary legislation will be drafted to effect such restructure.

Referred to the Executive Board.

#### **LEGISLATIVE RESOLUTION 138.**

Introduced by Fenger, 45th District.

**PURPOSE:** The purpose of this resolution is to study the expanded role of nursing in obstetrics and gynecology in Nebraska.

A study is needed because (1) the Legislature enacted the Practice of Nursing in Expanded Roles Act in 1981, (2) a task force appointed by Senator Sam Cullan studied the expanded role of nursing and as a result statutes were enacted in 1981 to provide for the nurse practitioner-anesthetist, (3) the same task force has proposed legislation providing for the expanded role of nursing in obstetrics and gynecology, and (4) a study has been proposed to determine the need for nurse-midwives in Nebraska by Senator Shirley Marsh in Legislative Resolution 67.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-EIGHTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Public Health and Welfare Committee shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall investigate the expanded role of nursing in obstetrics and gynecology, determine whether there is a need for legislation, and if legislation is needed, have such legislation drafted.

Referred to the Executive Board.

### **LEGISLATIVE RESOLUTION 139.**

Introduced by Banking, Commerce and Insurance Committee: DeCamp, 40th District, Chairperson; Schmit, 23rd District; Haberman, 44th District; Clark, 47th District; Remmers, 1st District; Beyer, 3rd District.

**PURPOSE:**

The purpose of this resolution is to study the desirability of enacting legislation which permits reciprocity with adjacent states regarding the ownership of banks by banking institutions and specifically to study (a) the ownership structures between and among banks and banking institutions in this state and adjacent states (b) the restrictions on the concentration of deposits in any single bank or banking institution and (c) the impact of such reciprocity agreements or legislation on the consumers of banking services.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-EIGHTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Banking, Commerce and Insurance Committee of the

Legislature be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the Committee shall upon the conclusion of its study, make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

### **ATTORNEY GENERAL'S OPINION**

Opinion No. 106  
May 6, 1983

Dear Senator Haberman:

You have inquired whether amendment No. 1368 to LB 356 conforms with the conflict of interest requirements set forth in section 304 (h)(2)(D) of the Federal Water Pollution Control Act, in reference to the selection of a director for the Department of Environmental Control.

Section 304 (h)(2)(D) provides that prior employment with a state department or agency or by a municipality, which includes cities and counties, does not disqualify such an individual for purposes of

approval of the state permit program. The proposed amendment to LB 356 would add language to the effect that the restrictions regarding the receipt of income from permit holders does not apply to employees of any agency of the State of Nebraska or any political subdivision which may be a permit holder under the Environmental Protection Act. The additional language contained in the amendment would thus seem to conform this act with the provisions of section 304 (h)(2)(D) of the Federal Water Pollution Control Act and thus permit a former state or municipal employee to be employed as the Director of the Department of Environmental Control.

Very truly yours,  
PAUL L. DOUGLAS  
Attorney General

### RESOLUTIONS

#### LEGISLATIVE RESOLUTION 149.

Introduced by Pirsch, 10th District.

**PURPOSE:** Mental health experts and lay persons are concerned about the role of psychiatric testimony in criminal cases when the defendant has entered a plea of not responsible by reason of insanity. Confusion over conflicting expert testimony causes jurors to disregard psychiatrists and rely on their own ideas about insanity. The purpose of this study is to consider the proper role of psychiatric testimony on the question of insanity in criminal cases. In order to accomplish this purpose, the following topics shall be studied:

(1) Minimum standards for the psychological and medical examinations on which expert testimony is based;

### **LEGISLATIVE RESOLUTION 150.**

Introduced by Hoagland, 6th District.

**PURPOSE:** The purpose of this resolution is to study and evaluate the current method of handling child custody and child support cases within our state court system and study the feasibility of creating an alternative system that allows psychologists, social workers, or others trained in child development to make child support and child custody decisions, subject to judicial review.

Specifically, the study shall include:

(1) Whether the large backlog of child support and child custody cases currently existing in our courts creates a strain on the judges handling such cases;

(2) Whether, due to the backlog, coupled with the need for the

expeditious settlements of such cases, a child's best interests are truly served;

(3) Whether creating an alternative system which allows psychologists, social workers, and others trained in child development to make decisions, subject to judicial review, regarding child support and child custody would ease the backlog of court cases, serve the best interests of the child, and be economically feasible; and

(4) Whether any similar alternative systems exist in other states, are successful, and can be incorporated or adopted by the State of Nebraska.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-EIGHTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

### **LEGISLATIVE RESOLUTION 151.**

### RESOLUTIONS

#### LEGISLATIVE RESOLUTION 170.

Introduced by Kilgarin, 7th District.

#### PURPOSE:

In 1980, the Nebraska Legislature, through adoption of LB 646, found and declared alcoholism to be a disease "highly disruptive of family life" and that insurance coverage for treatment should be offered to group subscribers and insureds. Questions have since arisen whether optional insurance coverage for alcoholism has in fact fully allowed all opportunities for treatment of alcoholism when treatment is desired by group subscribers and insureds. The subsequent purpose of this resolution is to study the fulfillment of legislative findings by reviewing the issue of mandating insurance coverage for alcoholism, and, such a study should address:

1. Requiring insurance coverage for treatment of alcoholism.
2. Treatment services which should be included under mandatory coverage.
3. The extent and costs of alcoholism remaining untreated under optional coverage, and, those costs as compared to costs of requiring insurance coverage for treatment of alcoholism.

**PURPOSE:** The purpose of this resolution is to study the adequacy of current retirement plans for county law enforcement personnel and to develop legislation for a retirement plan which is more appropriate for public safety personnel.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-EIGHTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Nebraska Retirement Systems Committee of the Legislature shall be designated to conduct an interim study and hold any public hearings necessary to carry out the purposes of this resolution.

### LEGISLATIVE RESOLUTION 173.

Introduced by Nebraska Retirement Systems Committee: Fowler, 27th District, Chairperson; Warner, 25th District; Vickers, 38th District; Goodrich, 20th District; Schmit, 23rd District; Wesely, 26th District.

**PURPOSE:** During the 1980 Interim, the Retirement Systems Committee, in round-table discussions involving both employer and employee groups in public employment, reviewed and revised the General Principles of Sound Retirement Planning. These principles served as guidelines for legislation to promote consistency among the state's retirement plans.

Since that time significant changes in both Social Security and the

various statutory retirement plans have occurred. This study should further review the General Principles of Sound Retirement Planning in light of these changes and should encourage the involvement and participation of all interested parties using the round-table discussion format. Among the areas to be addressed are survivor's benefits, disability benefits, and the equitable division of retirement benefits in divorce cases. All pending legislation held in committee at the end of the 1983 legislative session should be evaluated in accordance with the revised principles.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-EIGHTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Nebraska Retirement Systems Committee of the legislature shall be designated to conduct an interim study and hold any public hearings necessary to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council prior to the commencement of the 1984 legislative session.

## RESOLUTIONS

### LEGISLATIVE RESOLUTION 175.

Introduced by Wesely, 26th District.

#### PURPOSE:

A severance tax is a unique tax when compared to Nebraska's other taxes, and there has been considerable legislation related to severance taxes proposed in the Nebraska Legislature in 1980, 1981, 1982, and 1983.

The proposed severance tax legislation has created considerable controversy and confusion among the members of the legislature, the oil and natural gas industry, and members of the general public. Numerous questions and disputed points remain related to the issue of

severance tax.

It is in the interest of the State of Nebraska to develop a fair and workable severance tax policy that is consistent with the original intent of LB 216 (1955) that created Nebraska's severance tax policy. It is also in the interest of all Nebraskans to have an independent and objective identification of pertinent issues, and the development of detailed information concerning these issues.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-EIGHTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Revenue Committee of the Nebraska Legislature be designated to conduct an interim study into the questions surrounding Nebraska's severance tax policy.

2. That the Revenue Committee create a study task force composed of representative(s) from the oil exploration, development, and production industry; the natural gas exploration, development, and production industry; the general public; primary and secondary education system; the Oil and Gas Conservation Commission; Nebraska Energy Office; Department of Revenue; Legislative Research Office; and other interested parties deemed appropriate.

3. That the Revenue Committee shall upon conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council and the Nebraska Legislature.

Referred to the Executive Board.

### **LEGISLATIVE RESOLUTION 176.**

Introduced by Wesely, 26th District.

**PURPOSE:** The purpose of this resolution is to study the differences between financing by mortgage and financing by trust deed. With the current trend toward the use of trust deeds, rather than mortgages, it is necessary to compare these two forms of financing available for homeowners and other purchasers of real estate. Topics should include:

(1) Protections provided to the purchaser of property by the mortgage agreement and the trust deed.

(2) Foreclosure procedures of trust deeds and mortgages.

(3) The disclosure of differences between mortgages and trust by financial institutions, realtors, and sellers of property.

(4) Proposals for solution of any problems identified by the study.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-EIGHTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Banking, Commerce, and Insurance Committee of the Legislature shall be designated to conduct an interim study to carry out

the purpose of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

### **LEGISLATIVE RESOLUTION 177.**

Introduced by Wesely, 26th District.

**PURPOSE:** Since 1970 the wellhead price of natural gas in Nebraska has increased by about 1,350 percent, representing a rate of increase that was six times greater than the general inflation rate. The pipeline cost for natural gas in Nebraska has increased by nearly 400 percent since 1970, twice the inflation rate. The local gas utility cost for providing natural gas to consumers has increased by nearly 160 percent in that same time, an increase about 10 percent greater than inflation.

Nebraska is currently the only state in the union that does not have any form of state level natural gas industry regulation, and one of the few states that does not represent its gas consumers before the Federal Energy Regulatory Commission.

Since the issues created by the introduction of LB122, the Public Service Intervenor Act, have not been resolved, this bill will carry over into the next session. An interim study involving consumers, the natural gas industry, the Administration, and other interested persons should be undertaken.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-EIGHTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Public Works Committee be designated to conduct an interim study into the issues involved in LB122.

2. That the Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations to the Legislative Council and the Legislature.

Referred to the Executive Board.

### **LEGISLATIVE RESOLUTION 178.**

Introduced by Wesely, 26th District.

**PURPOSE:** Following the Arab oil embargo in 1973 the Nebraska Legislature began enacting programs to promote energy conservation, develop alcohol fuels, promote alternative energy sources, and to reduce Nebraska's vulnerability to supply disruptions and energy cost

inflation. Nearly two dozen different energy programs, and numerous new sections of law have been enacted since 1973.

Since 1973 the U.S. Government has contracted with Nebraska to provide energy programs designed to protect the poor from inflationary fuels, promote energy efficiency, and enhance the development of alternative energy resources.

Since 1980, the Research Division of the Legislative Council has reviewed these programs and prepared analysis on their performance which has resulted in recommendations that some programs be terminated, others expanded, and some changed to enhance their workability. This oversight of these energy programs administered by the state should continue.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-EIGHTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the study be conducted by the Research Division of the Legislative Council in cooperation with interested parties.

3. That the committee shall upon the conclusion of its study make a report of its findings and recommendations to the Legislative Council and the Legislature.

Referred to the Executive Board.

### **LEGISLATIVE RESOLUTION 179.**

Introduced by Wesely, 26th District.

#### **PURPOSE:**

The Permanent School Fund was created for the purpose of providing a perpetual endowment for Nebraska's public primary and secondary schools. Since 1976 the investments made on behalf of the Permanent School Fund have not kept pace with the general inflation rate.

As of December 31, 1983 the original value of the funds in the Permanent School Fund totalled \$71,547,979 and the current market value for this Fund was valued at \$59,984,616, indicating this endowment has depreciated by approximately \$12 million or 17 percent. It is not in the interest of Nebraska's schools to allow this perpetual endowment to continue this depreciation.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-EIGHTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Revenue Committee be designated to conduct an interim study into the management of the Permanent School Fund.

2. That the Revenue Committee work with interested parties in studying this issue, including the Nebraska Investment Council, representatives of the primary and secondary public school system, and other interested parties.

3. That the committee shall upon conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council and the Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 180.**

Introduced by Wesely, 26th District.

**PURPOSE:**

To undertake a study of the costs and benefits of health care in Nebraska, to examine why the annual increase in health care costs in Nebraska exceeds the rate of increase in the Gross State Product and the average personal income, and to identify approaches to reduce the rate of increase in the cost of health care.

NOW, THEREFORE BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-EIGHTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Public Health and Welfare Committee of the Legislature be designated to work with the Nebraskans for Quality and Affordable Health Care to examine issues related to the containment of rising health care costs.

2. That the task force examine:

(a) The system of reimbursement to health care providers, including cost shifting from public assistance to private pay patients.

(b) Consumer awareness of health care costs, including preventive health programs, third party payment of health care costs, and consumer access to health care cost data.

(c) The cost effectiveness of the health care system, including the structure and scope of practice of the health care system, the impact of state and federal regulation, and the use of alternative delivery systems.

3. That the task force submit a report of its findings, together with its recommendations, to the Public Health and Welfare Committee and the Legislative Council.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 181.**

Introduced by Wesely, 26th District.

**PURPOSE:** The purpose of this study is two-fold. First, the Legislature needs to study the impact of state-aid on local subdivisions, including the impact on property taxes, on subdivision budgets, on local services provided by the subdivisions, and on the growth in local government in the state. State-aid now amounts to over half of all general fund expenditures, and its impact on local government should be studied closely.

Second, in order to accomplish the first goal and accurately measure the growth of local government in Nebraska, sound data needs to be developed on the budgets of the various subdivisions in the state — the counties, cities, school districts, and other subdivision. This data should include the total budgets for each class of subdivision as well as the revenue sources for these expenditures.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-EIGHTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That a committee of the Legislature be designated to conduct an interim study to carry out the purposes of this Resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council and the Legislature.

Referred to the Executive Board.

### **LEGISLATIVE RESOLUTION 182.**

Introduced by Wesely, 26th District.

**PURPOSE:**

The huge federal deficit places Nebraska farmers and businessmen in competition with the federal government and people in other states for needed capital. This capital is essential for the growth of Nebraska's economy, to keep existing firms in the state, and to encourage new firms to locate here.

Currently state pension funds account for a sizable portion of the state's available capital. Many other states are now investing increasing portions of their state's pension funds in in-state venture capital. Such a program in Nebraska could result in higher returns on state pension fund investments, as well as more capital available to Nebraska businesses. However, such a program should present a minimum risk to the beneficiaries of those pension fund investments.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-EIGHTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That a committee of the Legislature shall be designated to conduct an interim study on the feasibility, return, safety, and economic

advantages and disadvantages of directing more state pension fund investments into businesses within Nebraska.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council and the Legislature.

Referred to the Executive Board.

### **LEGISLATIVE RESOLUTION 183.**

Introduced by Vickers, 38th District.

#### **Purpose:**

To review the role and mission of state-supported postsecondary institutions in light of current data and future projections regarding enrollments, student characteristics and degrees granted and also to review current methods and formulas for allocation of state funds to various postsecondary institutions in light of such data and projections. The initial role and missions statement adopted in 1978 and current funding methods should be re-examined focusing on, but not limited to, the following issues:

1. The relationship between postsecondary institutions and the secondary schools in the establishment of secondary school graduation requirements and postsecondary entrance requirements;

2. The appropriate role and relationship of the secondary schools and Technical Community Colleges in regard to vocational education program responsibilities.

3. The extent and sufficiency of cooperative arrangements among postsecondary institutions and between such institutions and the secondary schools;

4. The equity and cost efficiency of formulas for allocation of state funds to postsecondary institutions in relation to factors such as per pupil costs, program offerings and responsibilities, size of institution, as well as historical and geographical considerations;

5. The responsibility for the retraining of adults by postsecondary institutions and cooperative arrangements with business, industry, and labor groups for retraining programs.

**NOW, THEREFORE BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-EIGHTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Education Committee shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the Committee shall upon conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

**NOW, THEREFORE BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-EIGHTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Banking, Commerce and Insurance Committee of the Legislature shall be designated to conduct an interim study to carry out the purpose of this resolution.

2. That the Banking, Commerce and Insurance Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 185.**

Introduced by Haberman, 44th District.

**PURPOSE:**

The purpose of this interim study resolution is to examine the procedures and guidelines utilized by the Department of Roads in selecting locations where railroad crossing guards are to be placed.

The study should focus upon the amount of funds available annually for the installation of crossing guards across the state, and the order of priority given to municipalities by the Department of Roads in selecting locations for the placement of railroad crossing guards.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-EIGHTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That a committee of the Legislature be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 186.**

Introduced by Warner, 25th District; DeCamp, 40th District; Lamb,

43rd District; Schmit 23rd District.

WHEREAS, the Eighty-seventh Legislature, First Session, passed LB 132 which provides for joint financing for municipalities; and

WHEREAS, such legislation was not designed to create a new competitive situation such as the Legislature has dealt with in the past and which was eliminated through the restructuring of certain power districts in 1970; and

WHEREAS, the Nebraska Municipal Power Pool continues to solicit membership of communities in the Pool and its agency created pursuant to the provisions of LB 132, the Municipal Energy Agency of Nebraska (MEAN); and

WHEREAS, some of these communities already are served by other power entities; and

WHEREAS, the Statement of Legislative Intent on LB 132 stated that LB 132 was designed to allow those communities who have historically generated or purchased a major portion of their electric power and energy from other sources than public power districts to supply such municipalities' customers; and

WHEREAS, Nebraska is an all-public power state and it is the intention of the Legislature not to create duplication and competition among the various power districts; and

WHEREAS, by resolution of the Executive Board, a study of these issues proposed for last year (LR 379) was postponed in order to allow the parties involved more time to reach an agreement, on the condition that if an agreement had not been reached, this study should be introduced; and

WHEREAS, the Executive Board of the Legislature agreed to allow the Nebraska Power Association to mediate this dispute between members of the NPA and has been advised that such mediation has resulted to date in a compromise agreement in principal and has been advised by the NPA that, in all likelihood, such matter only requires additional time for final resolution.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-EIGHTH LEGISLATURE, FIRST SESSION:

1. That in the absence of a compromise agreement being reached between the parties by September 1, 1983, the Legislature's Executive Board is hereby authorized to conduct a study to examine the functioning of the Municipal Power Pool and the Municipal Energy Agency of Nebraska (MEAN).

2. That such study shall be limited to the following:

(a) An investigation of whether the Municipal Power Pool, or its agency (MEAN), is violating the intentions of LB 132.

(b) Whether the actions of the Municipal Power Pool, or the Municipal Energy Agency of Nebraska (MEAN), in soliciting and/or

obtaining membership of cities who purchase their power elsewhere constitutes competition.

(c) Whether the operations of the Municipal Power Pool and its agency the Municipal Energy Agency of Nebraska (MEAN) should be included under all provisions of Chapter 70.

2. That if a compromise agreement is reached by September 1, 1983, the provisions of such agreement, signed by representatives of all parties, shall be immediately reported to the Executive Board.

3. That the Executive Board shall make a full report of its findings, together with any recommendations for legislative action, to the next regular session of the Legislature.

Referred to the Executive Board.

### **LEGISLATIVE RESOLUTION 187.**

Introduced by Warner, 25th District; Pappas, 42nd District; Vickers, 38th District.

**PURPOSE:** Trends already established indicate that postsecondary education in Nebraska as well as in the nation as a whole will experience dramatic changes during the remainder of the 20th century. Enrollments will decrease markedly during the 80's followed by a gradual increase in the 90's. Society and students will demand a shifting mix of programs at the same time that financial support for education will be strained. Developments in telecommunications and computerization will make new delivery systems possible. Changes affecting education, however, will not impact on various educational institutions evenly. Many institutions will be called on to meet new challenges; others will find former roles less needed. Overall, society will demand more and more of its educational institutions. Thus postsecondary education will need to be organized in the most efficient ways possible if it is to fill the role required of it.

To prepare for most effective use of its postsecondary educational institutions in the years ahead, Nebraska must now review how these institutions are governed and administered.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-EIGHTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That a committee, composed of the Chairman and three members of the Education Committee and the Chairman and three members of the Appropriations Committee, be designated to carry out the purpose of this resolution. In addition, this committee shall utilize, at no cost to the Legislative Council, such other individuals as may be necessary to assist in this review.

2. That the committee shall upon the conclusion of its study make a

report of its findings, together with its recommendations, to the Legislature.

Referred to the Executive Board.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Introduced by Abboud, 12th District.

**PURPOSE:** The purpose of this resolution is to study the present and future development of health maintenance organizations in Nebraska in order to provide Nebraskans with quality health care at reasonable costs. The study shall include, but not be limited to, (1) the success of current health maintenance organizations in the state, (2) whether the creation of additional health maintenance organizations would be beneficial to the state, and (3) whether health maintenance organizations introduce an element of competition in the health care field and significantly affect health care costs.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-EIGHTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

Introduced by Abboud, 12 District.

**PURPOSE:** The purpose of this resolution shall be to study electric utilities and electric rates in Nebraska. The study shall encompass an investigation into the dramatic electrical utility rate increases in the past few years in this state and the reasons and explanations for such rate increases. The study shall also include, but not be limited to, the facilitating or the improving of any present exchanges of services, facilities, and property between electric public utilities in order to provide more effective, efficient, and economical electrical services to citizens of this state.

**ATTORNEY GENERAL'S OPINION**

Opinion No. 108

May 6, 1983

Dear Senator Warner:

You have asked three questions concerning the constitutionality of pending amendments to L.B. 120. The first is whether amendment 1293 would allow the use by the State of either state, federal, or even private (the fees provided for in section 3 of the bill) funds for the erection or maintenance of logo signs. Logo signs are interpreted to be signs advertising goods or services provided by specifically named private entities as distinguished from official highway signs giving general information.

In answer, insofar as private individuals, associations, or corporation would be the primary or sole financial beneficiaries of such erection or maintenance, and it is believed that they would be, it would be considered a violation of both Neb. Const. art. XIII, §3 and art. III, §18 to use state funds, including federal funds paid into the state treasury and disbursed by the state, for such purposes. However, it is not considered that there would be any restriction on the use of private funds for such purposes (as commented on in Attorney General's Opinion No. 217 of April 5, 1976, which you indicate you have read).

The crucial question regarding expenditure of state funds is whether it is for a public purpose. Such determination is admittedly often difficult. The Nebraska Supreme Court in dealing with the problem in the case of State ex rel. Douglas v. Nebraska Mortgage Finance Fund, 204 Neb. 445, 283 N.W.2d 12 (1979) said:

"No hard and fast rule can be laid down for determining whether a proposed expenditure of public funds is valid as devoted to a public use or purpose. Each case must be decided with reference to the object sought to be accomplished and to the degree and manner in which that object affects the public welfare."

In this case, it is believed that the court would find that although the legislature has a very wide discretion to determine what constitutes a public purpose, this "act" appears to be obviously designed to expend public funds and permit the use of public property for private purposes or benefit.

Secondly you ask can the State even allow the erection of these logo signs in the highway right-of-way?

In answer, only the State (Department of Roads) can erect signs within the right-of-way of any portion of the State highway system. See Neb.Rev.Stat. §1320.06(2)(b)(iv), (Reissue 1978). Authorization for logo signs, as you know, is contained in Neb.Rev.Stat. §39-634.01, however, the use of state funds for such purpose has already been ruled out by Attorney General's Opinion No. 66 of April 5, 1983, and that opinion is not herein reversed.

Lastly, you ask, is the new subsection (4) of section 39-1320.01 (page 35, lines 1 through 17 of the Final Reading Copy of L.B. 120) constitutional in light of our Opinion No. 86, April 19, 1983?

Essentially, Opinion No. 86 declared proposed legislation which would give different and broader "just compensation" to owners of non-conforming signs erected between certain dates to be in violation of Neb. Const. art. III, §18 as being special legislation. Insofar as lines 1 through 17 contain provisions that afford different and broader compensation to owners of non-conforming signs erected between April 16, 1982 and the effective date of the act, they too would be considered unconstitutional as being special legislation. In this regard, subsection (4)(b) and (c) are considered to be different and broader and, as such, unconstitutional. Subsection (4)(a) does not appear to contain anything new as regards either amount or method of payment and therefore, is not found objectionable.

Very truly yours,  
PAUL L. DOUGLAS  
Attorney General

### MESSAGE FROM THE GOVERNOR

May 10, 1983

Mr. President, Mr. Speaker and  
Members of the Legislature  
State Capitol  
Lincoln, Nebraska 68509

Dear Senators:

Up to this point in time, I have refrained from reacting to specific debate on the floor of the Legislature. But, the failure of the Unicameral to even consider the Medicaid cost containment proposals of Senators Warner and Wesely has convinced me to begin.

The Medicaid program began in 1966-67 at a cost of \$17 million. In 1982-83 it will cost \$150 million (a 782% increase). In the last four years it has grown in cost by 61%, from \$93 million in 1978-79 to \$150 million in 1982-83. This program increased by 10% in 1982-83 alone, a year that many State programs and State employees' salaries were restricted to less than half that increase. The point is: continued obligation of the State's resources for Medicaid at this rate will require other needs to go unmet.

The Nebraska Legislature must recognize that the escalating costs under the Medicaid program is a problem now. To even suggest that we can afford to wait and study this problem next year is folly at best.

Last year, the Legislature enacted Legislative Bill 942 (sponsored by the Appropriations Committee) providing for 1. a pro rata reduction in Medicaid payments when available appropriations are insufficient to meet the rate of expenditure, and 2. a 3.75% cap over the April 1, 1982 payment rate to health care providers. The United States District Court, at the request of the Nebraska Health Care Association, Inc., has enjoined the Department of Social Services from implementing the pro rata reduction that you enacted into State law. As a result, you are currently considering a deficit appropriation for the Medicaid program. In addition, the loss of this suit by the State could result in a State financial obligation of anywhere from \$5.5 million to \$8.1

million.

Serious analysis of this problem can only lead to the conclusion that the long term solution to the escalating cost of the Medicaid program lies not in the "capping" of payments but requires more fundamental decisions regarding who will be eligible and the extent of program coverage.

I trust that sometime during the remaining ten days of the Eighty-eighth Legislature, First Session you will have an opportunity to reconsider the issue of Medicaid cost containment.

Sincerely,  
(Signed) ROBERT KERREY  
Governor

**UNANIMOUS CONSENT - Print in Journal**

Mr. DeCamp asked unanimous consent to print the following amendment to LB 629 in the Journal. No objections. So ordered.

AM1465

- 1 1. On page 1, line 2, after the second
- 2 semicolon insert "to creat a fund;"
- 3 2. Insert the following new sections:
- 4 "Sec. 13. (1) The Legislature hereby finds
- 5 that (a) in some instances political subdivisions have
- 6 added programs or services as a result of state action
- 7 and have not received any additional assistance from the
- 8 state to aid them in meeting these new responsibilities,
- 9 and (b) the limitation placed on the budgets of
- 10 political subdivisions has made it difficult for the
- 11 political subdivisions to continue to provide all the
- 12 necessary programs and services.
- 13 (2) It is the responsibility of the
- 14 Legislature to provide laws which promote uniform and
- 15 equitable taxation. The Legislature is responsible for
- 16 providing a state tax system and has the right to
- 17 apportion the impact of such tax system in any manner
- 18 that is consistent with the application of appropriate
- 19 laws which reflect property values, personal income, and
- 20 other economic activities. The Legislature hereby finds
- 21 that the best interests of the state are served by
- 22 providing uniform property tax relief based on the value
- 23 of all property and the Legislature's choice to provide
- 1 a shift in tax burden from property to sales and income
- 2 is a legitimate and proper function of the Legislature.
- 3 (3) Sections 13 to 17 of this act do not
- 4 purport to reimburse political subdivisions for losses

5 due to certain personal property tax exemptions, but  
6 provide state financial assistance through property tax  
7 relief to various political subdivisions of the State of  
8 Nebraska.

9 Sec. 14. For fiscal year 1983-84 and each  
10 fiscal year thereafter the Legislature shall appropriate  
11 one thousand dollars from the General Fund to a special  
12 fund, to be known as the Political Subdivision Property  
13 Tax Relief Fund, which fund is hereby created. Any  
14 money in such fund available for investment shall be  
15 invested by the state investment officer pursuant to  
16 sections 72-1237 to 72-1269.

17 Sec. 15. For fiscal year 1983-84 and each  
18 fiscal year thereafter each county shall receive an  
19 amount from the Political Subdivision Property Tax  
20 Relief Fund based on the percentage figure obtained by  
21 dividing the actual valuation of real and personal  
22 property in the county by the actual valuation of real  
23 and personal property in the state based on the values  
24 stated in the most recent certificate of taxes levied  
25 pursuant to section 77-628. The Tax Commissioner shall  
26 determine the amount to be distributed to the various  
1 counties for distribution to the political subdivisions  
2 within such county and shall certify such amounts to the  
3 Director of Administrative Services. Each amount shall  
4 be distributed in seven as nearly as possible equal  
5 monthly payments between the fifth and twentieth day of  
6 each month beginning December 5, 1983, and each December  
7 5 thereafter. The State Treasurer shall, between the  
8 fifth and twentieth day of each month, notify the  
9 Director of Administrative Services of the amount of  
10 funds available in the General Fund for payment  
11 purposes. The Director of Administrative Services  
12 shall, upon receipt of such notification, draw warrants  
13 against funds appropriated.

14 Out of the amount of funds distributed to a  
15 county under this section, the county treasurer shall  
16 retain one per cent thereof and then shall distribute the  
17 remainder to each of the political subdivisions within  
18 his or her county as set forth in section 16 of this  
19 act.

20 Sec. 16. Each political subdivision or  
21 portion of a political subdivision within a county,  
22 including the county itself, with authority to levy a  
23 tax or cause a tax to be levied shall receive a share of

24 the funds distributed to the county in an amount  
25 equivalent to the percentage figure obtained by dividing  
26 the amount of property tax levied within the county by  
1 the political subdivision during the prior calendar year  
2 by the total amount of property tax levied within the  
3 county by all political subdivisions during the prior  
4 calendar year. Such amount shall be distributed by the  
5 county treasurer in seven as nearly as possible equal  
6 monthly payments beginning December 5, 1983, and each  
7 December 5 thereafter.

8 Sec. 17. (1) If two or more political  
9 subdivisions within a county are merged, the share such  
10 newly merged political subdivision shall receive shall  
11 be the sum of the receipts each individual political  
12 subdivision would have received had there been no  
13 merger.

14 (2) If a political subdivision authorized to  
15 levy a tax or cause a tax to be levied is newly created,  
16 such political subdivision shall receive, commencing the  
17 first year such levy generates tax receipts, a share of  
18 the funds distributed to political subdivisions within a  
19 county computed pursuant to sections 13 to 17 of this  
20 act.

21 Sec. 18. There is hereby appropriated one  
22 thousand dollars from the General Fund for the period  
23 July 1, 1983, to June 30, 1984, to the Political

### ATTORNEY GENERAL'S OPINION

Opinion No. 109  
May 9, 1983

Dear Senator Chambers:

You have asked us several questions about LB 59, as amended. The amendment to which you refer is denoted as the Morehead-DeCamp amendment adopted May 3, 1983. Several of your questions concern the role of the State Board of Equalization and Assessment in the establishment of the sales and use tax rate. You ask whether the board functions as an entity or as individuals in their individual capacity, whether members may be compelled to accept economic projections with which they disagree, whether if there is an equally divided board, a particular member can be required to change his vote, and assuming that a board member may be ordered to change his vote, what penalty would attach for failure to so vote. We will answer your questions concerning the general character of the board before proceeding to your further questions with respect to LB 59.

The Nebraska Supreme Court in Anderson v. Tiemann, 182 Neb. 393, 155 N.W. 2d 322 (1967), recognized that the Board of Equalization with respect to setting the tax rates acts in a quasi-judicial capacity. In this quasi-judicial capacity the board acts to determine the facts and

enters orders based thereon. In this respect, the board acts as an entity in that the majority vote of the board determines what action the board will order with respect to tax rates. That entity concept, however, extends only to the final result. Each individual member possesses the capacity to make their own determination of the facts.

Each of the individual members acts in a quasi-judicial capacity and thus must determine for themselves what they believe the facts to be. To that extent, they can accept one version of the facts rather than another and cast their vote in accordance therewith. They cannot be compelled to accept one set of projections rather than another.

We will combine your following two questions in one discussion. In the first instance we would have to assume that one of the members of the board was not in attendance at such a meeting. Under normal judicial rules a tie vote would leave intact the existing situation. In this instance, however, we find it difficult to determine how a tie vote could occur absent the death or resignation or extended illness or incapacity of a board member. Absent such factors, if a tie vote occurred, the logical step to take would be to adjourn the meeting until the absent member could attend and cast a tie breaking vote. In any event, we know of no remedy which could require an individual member to make a particular vote.

To the extent they act in a quasi-judicial capacity, the members of the Board of Equalization perform the same function as any collegial court performs. That is, as a body, they reach a decision based on the required majority vote. While it is not free of doubt, we believe that Neb.Rev.Stat. §77-27,127 (Reissue 1981) provides the appeal procedure should some party wish to appeal the State Board action setting the tax rate. That would be an appeal to the district court. If the board as a whole fails to fulfill its legal responsibilities as set forth in the statute, mandamus would lie to compel them to act as required by the statute. Should the board refuse to follow properly entered orders of a court of competent jurisdiction, the members could be held in contempt.

Finally, you ask whether the Legislature may, if they have not succeeded through the passage of LB 59 in compelling the Board of Equalization to set the tax rates at the level deemed necessary by the Legislature, yet at this session enact legislation raising the sales and use tax to the level deemed necessary by the Legislature. It is obvious that the answer to this question is yes. The Legislature has plenary power over taxation and may establish the tax rate for sales and use tax at such rate as it deems necessary, at any time they can within the legislative rules. The Legislature has not compelled the Board of Equalization in LB 59 to set the sales and use tax rate at any particular level. LB 59 does nothing more than require the Board of Equalization to set the sales and use tax rates pursuant to Neb.Rev.Stat. §77-2715.01 (Supp.

1982). In previous opinions of the Attorney General we have specified the considerations which they must look to in this regard. See, Opinion No. 286, November 12, 1982. In that opinion we indicated that the board must follow the steps set out in subsections (1) (a) through (h) of Neb.Rev.Stat. §77-2715.01 in setting the tax rate. That result will still be required under LB 59. The only effect of LB 59 is that once the board has established the basic rate required under §77-2715.01, they must then add to it one-half of one percent as required by section 7 of LB 59. Conceivably the Board of Equalization could determine that the basic sales and use tax rate should be three percent. Under LB 59 they would have to add one-half of one percent to that rate for an effective rate of three and one-half percent.

Very truly yours,  
 PAUL L. DOUGLAS  
 Attorney General

23 coverage under the provisions of sections 35-204 to

25 this act, whenever such firefighters shall have first

25 35-216, as they exist immediately prior to the effective  
26 date of this act, to receive such pension or other

3 Sec. 23. In the event that after four or more  
4 years of employment a firefighter terminates his or her  
5 employment for the purpose of becoming a firefighter  
6 employed by another first-class city in Nebraska, and  
7 such new employment commences within ninety days, such  
8 firefighter shall be entitled to transfer to the  
9 Firefighters' Retirement System Fund of the city by  
10 which he or she is newly employed, the full amount of  
11 his or her contribution and his or her vested portion of

13 together with regular interest accrued thereon. The  
14 transferred funds shall be administered by the  
15 retirement committee of the city to which transferred.  
16 For the purpose of applying the vesting schedule in  
17 section 14 of this act to contributions made following  
18 the commencement of new employment, such firefighter  
19 shall be deemed a new employee.".

20 Sec. 14. Renumber remaining sections

#### ATTORNEY GENERAL'S OPINION

Opinion No. 110  
May 10, 1983

Dear Senator Haberman:

In your letter of May 6, 1983, you direct our attention to LB 626, the purpose of which would be to generally merge the Nebraska Mortgage Finance Fund, the Agricultural Development Corporation, and the Nebraska Development Finance Fund into one common Nebraska Investment Finance Authority. You then ask us to review the entirety of LB 626 and to inform you of any aspects of it which we consider to be unconstitutional.

Our review of this measure has been limited, first by the shortness of time left in this legislative session, and second by the fact that the bill itself is over fifty pages long with over ten pages of amendments. It appears from our review that essentially what is proposed is simply that the functions previously authorized under several separate enabling

acts be combined in one overall act.

Many of the possible questions we might have once raised about the overall constitutionality of these acts have been answered by the Nebraska Supreme Court in State ex rel. Douglas v. Mortgage Finance Fund, 204 Neb. 445, 283 N.W.2d 12 (1979). We therefore in a general sense, given the length of the bill and the time in which we have had to review it, and the holding of the Nebraska Supreme Court in the case cited above, see nothing about this effort to combine these functions which would be glaringly unconstitutional.

Perhaps if you could be more specific as to your constitutional concerns or to the provisions of the act about which you have questions, we could be more precise in our response. We generally believe, however, that the basic concept has been held constitutional by the Nebraska Supreme Court in State ex rel. Douglas v. Mortgage Finance Fund, supra.

Very truly yours,  
PAUL L. DOUGLAS  
Attorney General

### ATTORNEY GENERAL'S OPINION

Opinion No. 111  
May 11, 1983

Re: LB 198

Dear Senator Vickers:

We are writing to respond to your letter dated April 21, 1983, requesting our opinion on certain sections of LB 198. We will respond to the six questions in the order asked.

First, you inquire whether the fee authorized is in the nature of a severance tax, special assessment or a charge for services or commodity provides.

The differentiation between a tax and an assessment has been stated:

While taxes for revenue . . . are the exactions placed upon the citizen for the support of the government, paid to the state as a state, the consideration of which is protection or public service by the state, special or local assessments . . . are imposed upon property within a limited area for the payment for a local improvement supposed to enhance the value of all property within that area.

70 Am. Jur.2d, Special or Local Assessments, §1 at 842-843.

The Supreme Court has recognized that "a tax is not an assessment of benefits. It is, as we have said, a means of distributing the burden of the cost of government." Carmichael v. Southern Coal & Coke Co., 301 U.S. 495, 521-523 (1937), as quoted in Commonwealth Edison Co. v. Montana, 453 U.S. 609, 622-623 (1981). In Commonwealth Edison Co., supra, the court recognized that a state's imposition of a severance tax on each ton of coal extracted in the state, the tax being levied at varying rates depending upon the value, may be characterized as a general tax. Id. at 624.

The distinction between fees for services or goods provided and

special assessments is not so easily made. Tolls and fees for goods or services provided are not taxes. 71 Am.Jur.2d, State and Local Taxation, §§10 through 18 at 350-354. Our Supreme Court in City of Ord v. Biemond, 175 Neb. 333, 122 N.W.2d 6, 10 (1963), held that the use charge or rental fee that is imposed for use by commercial aerial sprayer of the city airport is not a tax but a fee for use of the city facilities.

It is our conclusion that the fee authorized by Section 12 of LB 198 is neither a severance tax nor a special assessment, but a charge for the service of providing the water storage for the landowner.

You next inquire whether there is any constitutional difficulty because landowners may be charged a fee for the incidental underground water storage even though they are outside of the boundaries of the irrigation district or do not have a contract with the district for delivery of water. The Due Process Clause of the United States Constitution "mandate that some kind of hearing is required sometime before a state finally deprives a person of his property interests. The fundamental requirement of due process is the opportunity to be heard and it is an 'opportunity which must be granted at a meaningful time and in a meaningful manner.' Armstrong v. Manzo, 380 U.S. 545, 552 (1965)." Parratt v. Taylor, 451 U.S. 527, 540 (1981).

LB 198, Section 15, provides that the levying of such fees shall be in accordance with the rules of the Department of Water Resources adopted pursuant to Neb.Rev.Stat. §46-209 (Reissue 1978). That statute and the rules adopted pursuant thereto provide for hearings before the Director of Water Resources concerning contested applications. Orders of the Director of Water Resources are appealable to the Nebraska Supreme Court directly pursuant to Neb.Rev.Stat. §46-210 (Reissue 1978). We are satisfied that a landowner subject to charge for incidental ground water storage has a meaningful opportunity to be heard prior to imposition of such a charge in conformity with due process of law.

Third, you ask whether the procedures for recognition of incidental underground storage are adequate to define the scope of the storage in terms of the specific acres covered and whether those potentially subject to the fee have an adequate opportunity to challenge designation of the area. The requirements of due process of law are set out in answer to the previous question. We note no violation in either respect.

Lastly, you inquire whether there are any constitutional problems with charging the same fee of 50 cents to a landowner benefiting by the incidental storage of ground water irrespective of the amount of benefit. There is no doubt that the Legislature may create certain classifications, treating them differently as long as the discrimination is founded upon a reasonable distinction or difference in state policy. State v. Sprague, 213 Neb. 581, 591, \_\_\_\_ N.W.2d \_\_\_\_ (1983). Our

Supreme Court in County of Antelope v. Stenberg, 214 Neb. 150, 151-152, \_\_\_\_ N.W.2d \_\_\_\_ (1983), has recognized:

The standard by which the classification is to be measured against a claim of a violation of the U.S. Constitution was set forth in Dandridge v. Williams, 397 U.S. 471, 485, 90 S.Ct. 1153, 25 L.Ed.2d 491 (1970): "In the area of economics and social welfare, a State does not violate the Equal Protection Clause merely because the classifications made by its laws are imperfect. If the classification has some "reasonable basis," it does not offend the Constitution simply because the classification "is not made with mathematical nicety or because in practice it results in some inequality." Lindsley v. Natural Carbonic Gas Company, 220 U.S. 61, 78. "The problems of government are practical ones and may justify, if they do not require, rough accommodations—illogical, it may be, and unscientific." Metropolis Theatre Co. v. City of Chicago, 228 U.S. 61, 69-70.

It is our conclusion that LB 198 does not violate the Equal Protection Clause of the United States Constitution by failing to subdivide the classification which it has created.

In conclusion, in answer to the questions you have asked, we perceive no constitutional problems.

Very truly yours,  
PAUL L. DOUGLAS  
Attorney General

Peterson, 35th District; Goodrich, 20th District; Hefner, 19th District; Chronister, 18th District; Beyer, 3rd District; R. Johnson, 34th District; Clark, 47th District; Schmit, 23rd District; Pappas, 42nd District; Nichol, 48th District; Kahle, 37th District; DeCamp, 40th District; Lamb, 43rd District; Vickers, 38th District; Wagner, 41st District; R. Peterson, 21st District; Jacobson, 33rd District; L. Johnson, 15th District; Von Minden, 17th District; Barrett, 39th District; Sieck, 24th District; Eret, 32nd District; Goll, 16th District; Haberman, 44th District; Remmers, 1st District.

WHEREAS, the U.S. Department of Interior in 1978 designated a 50-mile reach of the Platte River in central Nebraska as a "critical habitat area" for the endangered whooping crane; and

WHEREAS, this action followed a rejection by Nebraska and federal entities of proposed national wildlife refuge designation for the same area; and

WHEREAS, the critical habitat designation was made on the basis that the Platte River was crucial to the future survival of the whooping crane; and

WHEREAS, the designation of the Platte River as a critical habitat area for the whooping crane threatened any future water resources development or beneficial use of the Platte River and its water for agriculture and other human necessities; and

WHEREAS, the critical habitat area is by definition an area which if lost would appreciably decrease the likelihood of the survival and recovery of an endangered species (Federal Register rulemaking notice, May 15, 1978, U.S. Fish and Wildlife Service, 4310-55); and

WHEREAS, no scientific evidence has been put forward to establish that the Platte River and maintenance of its environment as it is today is necessary for the survival of the whooping crane, and evidence does exist to the contrary; and

WHEREAS, the endangered whooping crane that has a small known population is a close relative of the highly abundant Sand Hill crane; and

WHEREAS, the earliest known records of cranes include a fossil find of the Sand Hill crane in northeast Nebraska that is known to have lived 9 million years ago; and

WHEREAS, the earliest records of the U.S. Fish and Wildlife Service on the migration patterns of the whooping crane indicate that it

existed and migrated across a vast breadth of the United States from Illinois to the west coast; and

WHEREAS, whooping crane fossils have been found in the Pleistocene formation which dates from 10,000 to 2 million years ago, in the States of California, Idaho, Michigan, Virginia, Florida, and Arizona; and

WHEREAS, whooping crane fossils in a 1977 Kansas find dated back 25,000 to 30,000 years ago; and

WHEREAS, the last ice age across Nebraska and the Plains States, was the Wisconsinan period from about 70,000 to 100,000 years ago, and the present breeding areas of the whooping crane were under the Continental ice sheet of that period; and

WHEREAS, the geologic records indicate the adaptability of the whooping crane to climatic changes for migration and breeding purposes, and as such a single area such as the Platte River could not and should not be considered crucial or vital to the survival of the species; and

WHEREAS, the Platte River as it is today is a very young river, and it and the Great Bend area of the Platte did not exist before 25,000 years ago; and

WHEREAS, in the last 50 years (1933 through 1982) there have been only seven confirmed sightings of whooping cranes anywhere in the designated critical habitat reach of the Platte River, and only five of those seven sightings were actually on the Platte River; and

WHEREAS, one of those seven sightings involved five whooping cranes that were physically hazed off a lagoon infected with fowl cholera 13 miles from the Platte River, to the Platte River; and

WHEREAS, the U.S. Fish and Wildlife Service report authored by Curt Johnson and Stan Temple states "We have no evidence that whooping cranes converge on the Platte River during both migrations...", and further, "that the Platte River between Gothenburg and 10 miles east of Grand Island may have had many sightings in years past, but have been altered to the extent that they are either marginal or unsuitable for roosting;" and

WHEREAS, proposed designations by the U.S. Fish and Wildlife Service in August, 1978, of critical habitat areas for the whooping crane included man-made dams and reservoirs, among them: Kirwin Reservoir in Kansas, Medicine Lake in Montana, Oahe Dam in South Dakota and Oahe Reservoir in South Dakota and North Dakota, and Garrison Dam and Lake Sakakawea in North Dakota; and

WHEREAS, the Fish and Wildlife Service proposal indicates that man-made reservoirs in irrigation and other multiple purpose water projects can and do provide desirable habitat for the whooping crane; and

WHEREAS, conclusive evidence should either be established for

the need of the Platte River as crucial to the survival and preservation of the whooping crane, or critical habitat designation of the Platte River should be removed;

NOW THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-EIGHTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the U.S. Department of Interior is urged to reevaluate the reasons for designation of a portion of the Platte River in Nebraska as a critical habitat area for the whooping crane; and

2. That the Interior Department is urged to evaluate the evidence presented in this resolution, and any and all other scientific evidence relative to the designation and maintenance of an area of the Platte River in Nebraska for critical habitat for the whooping crane; and

3. That if there is conclusive evidence to establish scientifically the absolute need for critical habitat designation of the Platte River to ensure the survivability of the whooping crane, such evidence and conclusions should be put forward for public information, understanding, and scrutiny; and

4. That if there is no conclusive evidence to prove the necessity of a critical habitat area designation in the Platte River for the future survivability of the whooping crane, the Department of Interior is urged to remove such designation.

Laid over.

### ATTORNEY GENERAL'S OPINION

Opinion No. 113  
April 27, 1983

Dear Senator Sieck:

You have requested our opinion concerning certain aspects of LB 233. You first ask whether the language contained in lines 18, 24 and 25 all on page 4 would allow for the ordering of general damages. Line 18 states, ". . . destroyed the property of another." We cannot conceive of a situation in which that language could be used to award general damages. Line 24 and 25 state, "Make such other restitution as the court deems appropriate." The term "restitution" is loosely defined in the law. We believe that it is arguable that a judge could seize upon the questioned language to justify an award of general damages. If such is not the intent of the Legislature then we suggest that the language be clarified.

Your remaining questions concern Section 1(6) of LB 233 which provides:

The court shall not order restitution as to any victim who is bound by a judgment entered in, or a settlement of, a civil proceeding involving the same injury, obtaining of property, damage, or destruction. Any amount paid to a person pursuant to an order of restitution shall be set off against an amount otherwise recoverable by such person in any civil proceeding or insurance settlement. The fact that restitution was ordered or paid shall not be admissible in evidence in the trial of any civil proceeding.

Regarding this Section you ask, "First, there is some question as to whether or not a judge can reduce a jury award?" The apparent intent of LB 233 is to have the jury consider liability and damages without knowledge of an order of restitution, and then, have the judge determine in a separate proceeding the amount previous paid under the order of restitution and credit such amount against the verdict. We conclude that such a procedure would be constitutionally suspect.

Article I, Section 6, of the Constitution of the State of Nebraska provides:

The right of trial by jury shall remain inviolate, but the Legislature may authorize trial by jury of a less number than twelve in courts inferior to the District Court, and may by general law authorize a verdict in civil cases in any court by not less than five-sixths of the jury.

It has been held that this Section of the Constitution preserves the right to jury trial as it existed at common law and under statutes in force

when the Constitution was adopted. State v. Hauser, 137 Neb. 138, 288 N.W. 518 (1939); In Re Guardianship of Warner, 137 Neb. 25, 288 N.W. 39 (1939).

The foregoing authorities cast a shadow upon the constitutionality of LB 233. Assume that a person committed acts which gave rise to criminal responsibility, probation and an order of restitution. Also assume that a civil proceeding was brought against the defendant involving the same acts. If the parties would have been entitled to a civil jury trial at the time the constitution was adopted, such a right would continue to exist today. It is axiomatic that the right to a civil jury trial includes the right to have the jury determine damages. A determination of the amount to which the plaintiff stands damaged at the time of trial necessarily includes a determination of the amount the plaintiff has already received from the defendant. We therefore conclude that to deprive the parties of a jury determination of the amount paid in such circumstances would be constitutionally suspect.

You next ask whether the language of Section 1(6) of LB 233 give rise to a possibility of high restitution being awarded in order to preclude parole. In that regard we note that Section 1(7) of the bill requires that restitution ordered by the court be a condition of parole, violation of which is grounds for revocation. Assuming that such a condition can be imposed upon the Board of Parole by the Legislature, then it is possible that under certain conditions the practical effect of an order of restitution would be to preclude parole. For instance, if an order of parole must include restitution, and if failure to comply with an order of restitution is grounds for revocation of parole, and if a person being considered for parole has no means by which to pay restitution, then it is possible that the Board would not consider such a person to be a good condidate for parole.

Finally, you have asked whether additional language is needed in Section 1(6) of LB 233 to be certain that the issue of whether restitution was ordered or paid does not become part of a civil proceeding. Section 1(6) provides, "The fact that restitution was ordered or paid shall not be admissible in evidence in the trial of any civil proceeding." We believe that such language is adequate to express your purpose but note that your purpose may be constitutionally suspect as previously stated in this opinion.

Very truly yours,  
PAUL L. DOUGLAS  
Attorney General

May 17, 1983

Mr. President, Mr. Speaker  
and Members of the Legislature  
State Capitol  
Lincoln, Nebraska 68509

Dear Senators:

I have received engrossed bill LB 363 and have signed the measure into law this date.

The repeal of the sales tax on food is a policy step which I can enthusiastically embrace. It is an issue the Legislature has dealt with since the inception of the sales tax in Nebraska and I am pleased that the matter can be resolved once and for all this session.

Although I have signed LB 363, I must strongly reject the decision made by the Legislature to spend the "windfall" of some eleven million dollars which will occur in fiscal year 83-84 because of the repeal of the sales tax on food and the failure to provide any food tax credit. I urge in the strongest of terms that the Unicameral immediately proceed to adopt an amendment to an available and appropriate bill to provide a food sales tax credit of \$7 per person to return the eleven million dollar windfall.

We have come a long way in a remarkable joint effort to solve what was an almost overwhelming problem confronting us at the beginning of the session. It would be a shame to be tempted in the last few days of the Legislature to succumb to the habits of the past years. These habits lead us to reaching for an accepting "stopgap" remedies for ongoing problems. We found that the "band-aid" approach does not work and we must therefore resist spending this one-time windfall revenue thereby adding it to the spending base and creating an even larger problem for us next year.

We all recognize that the eleven million dollars is a "windfall". Let us do the appropriate and right thing by returning this windfall to the taxpayers of this State and resist the temptation to keep it in the State's coffers to spend.

(Signed) Sincerely,  
ROBERT KERREY  
Governor

5 77-2734. (1) A tax is hereby imposed for each  
6 taxable year on the taxable income derived from sources  
7 within this state of any corporation or any other entity  
8 taxed as a corporation under the Internal Revenue Code  
9 whose business within this state during the taxable year  
10 consists exclusively of foreign commerce, interstate  
11 commerce, or both, at a rate equal to twenty-five per  
12 cent of the rate imposed on individuals under section  
13 77-2715 on the first fifty thousand dollars of taxable

17 shall be four and one half per cent on the first fifty  
18 thousand dollars of taxable income and six and  
19 three-tenths per cent on all taxable income in excess of  
20 fifty thousand dollars. For any taxpayer subject to  
21 this section whose fiscal year does not coincide with  
22 the calendar year, the rate initially set shall also  
23 apply for the period from January 1, 1968, to the last

6 each corporation or any other entity taxed as a  
7 corporation under the Internal Revenue Code according to  
8 or measured by its entire net income derived from all  
9 sources within this state for the taxable year at the  
10 rates imposed under subsection (1) of this section. For  
11 the purposes of this subsection the taxpayer's entire  
12 net income shall be its federal taxable income derived  
13 from sources within this state as determined pursuant to  
14 sections 77-2735 to 77-2749 without regard to the  
15 modification referred to in section 77-2741, the State  
16 of Nebraska hereby adopting method numbered (4)  
17 authorized by section 5219, United States Revised  
18 Statutes, as amended, 12 USC 548, for state taxation of  
19 national banking associations. The tax imposed by this  
20 subsection on national banking associations shall be in  
21 lieu of all taxes imposed by this state on national

25 in this section, the net income of cooperative  
26 organizations shall be the entire net income derived  
1 from all sources within this state, excluding

4 stock, nonpatronage income allocated to patrons, or  
5 patronage dividends attributable to this state as shall  
6 be excludable or deductible by such corporation for  
7 federal income tax purposes. All provisions of sections

4 Revenue Code shall not be subject to the Nebraska income  
5 tax or franchise tax on corporations.

22 connected with sources in this state, and such agreement  
23 shall be attached to the corporation's Nebraska return  
24 for such taxable year.

25 (d) In the absence of the nonresident

1 Nebraska corporate return, the corporation shall remit a  
2 portion of his or her share of the corporation's taxable  
3 income which was derived from or attributable to this  
4 state, which portion shall be ten per cent of the  
5 nonresident shareholder's share of the corporation's  
6 income which was derived from or attributable to sources  
7 within this state.

8 (e) The Tax Commissioner may require a  
9 nonresident shareholder to file a Nebraska income tax  
10 return even though his or her only source of Nebraska  
11 income was his or her share of the corporation's income

**ATTORNEY GENERAL'S OPINION**

Opinion No. 114  
May 17, 1983

Dear Senator Hoagland:

This letter is in response to your inquiry of May 12, 1983 regarding the amended version of LB 371.

The bill, as amended, appears to cure due process problems caused by the previously indefinite hearing time frame. Section Three of the amendment provides for an expeditious determination of the case, which is particularly important when children are involved.

The notice problems raised by Opinion 89 have been addressed by the subsequent amendment as well. The phrase "as such failure is

certified to the court..." appears to solve previously voiced notice concerns. Adequate provisions seem to be made for the determination of nonpayment of child support and the transmittal of that information to the court, therefore, probable cause for the issuance of a warrant could be found under the provisions of the measure. This is particularly true in light of the hearing provisions of the bill.

Section Five of the amendment borrows its certification language from Neb.Rev.Stat. §42-358 (Reissue 1978). Does this language imply that the two provisions, §42-358 and §42-358.02, are to be read together in determining remedies? Or will the two measures provide separate and independent remedies for contempt? These questions, raised by Opinion 89, remain unanswered by the amended version of the bill. Since the contempt proceedings in §42-358 are to be filed and heard in accordance with rules applicable to other civil contempt proceedings, most, if not all procedural gaps would be filled by a concurrent reading.

As for the administrative workability of the measure, it would appear that since the mechanical parts of the process are already in place, workability would entail only a reallocation of resources, rather than a total reorganization of the program. This is for the most part an unresearched opinion, due to the time constraints placed on us by the final reading date. In talking with counsel at the Department of Welfare who have had practical experience in the administration of child support, this view of minimal change was affirmed. The only changes that could conceivably cause problems would be those that allow the County Attorney to appoint an attorney from outside his or her office to process child support cases, a tailoring of Neb. Rev.Stat. §43-512. Again, it was stressed that such changes would not be major or cause problems other than those of administrative reallocation.

We do not foresee problems with due process or notice issues that were raised in Opinions 82 and 89. LB 371, as amended, provides a framework of procedure that fulfills basic constitutional requirements and is for that reason constitutionally sound.

Very truly yours,  
PAUL L. DOUGLAS  
Attorney General  
Royce N. Harper  
Assistant Attorney General

### **MESSAGE FROM THE GOVERNOR**

May 18, 1983

Mr. President, Mr. Speaker and  
Members of the Legislature  
State Capitol  
Lincoln, Nebraska 68509

Dear Senators:

I am herewith returning L.B. 628 and L.B. 630 with my signature but with certain line-item veto reductions.

In total, I am vetoing 13 million dollars from both of the measures

reducing the General Fund budget to 744 million dollars. To accomplish this I have eliminated funds for an employee salary increase as well as reduced the operations increase included by the Appropriations Committee. These two items alone account for 9.6 million dollars of the reduction. A summary of the specific reductions is attached.

Although I expect and welcome thorough debate of these vetoes, I ask that we not lose sight of what is included in this budget. The adoption of my budget recommendations at this point will require Nebraska's taxpayers to invest 744 million dollars in their State Government for fiscal year 83-84. That is a sizeable commitment. We can be confident that this commitment will provide substantial resources to carry out the legitimate functions of this State Government.

By accepting these recommendations, we will have accomplished the goal set out at the beginning of the session to solve our budget problems this year. With very few exceptions, we have not postponed the difficult decisions until next year. As a result we have laid a firm foundation and base for serious and legitimate policy discussions next year in a non-crisis and sound financial atmosphere.

While these reductions may be viewed by some as harsh, they are necessary and consistent with a prudent and sound fiscal policy, and they deserve to be sustained by the Unicameral.

Sincerely,  
(Signed) ROBERT KERREY  
Governor

### ATTORNEY GENERAL'S OPINION

Opinion No. 115  
May 18, 1983

Dear Senator Warner:

On previous occasions we have responded to questions you have had concerning currently pending legislation involving the placement of logo signs upon the state highway right-of-way. On those previous occasions we have been of the opinion that it would be violative of provisions of the Nebraska Constitution to expend public funds for these purposes. On those occasions we were not called upon to address the question of whether or not even absent the expenditure of public funds there would be a constitutional impediment to the Legislature authorizing the placement of these signs on the state highway right-of-way, a question you now raise.

On those previous occasions we concerned ourself with the question of whether or not the expenditure of these funds was for a

public purpose and generally concluded that it was not thereby creating the unconstitutionality. Absent the expenditure of public funds, we are still faced with the question of whether or not such an activity would constitute the granting to any corporation, association or individual any special or exclusive privilege in violation of Article III, Section 19 of the Constitution of the State of Nebraska. It would appear to us that permitting some purveyors of gasoline lodging, etc. to essentially advertise in the state right-of-way to the exclusion of others would clearly violate this section even if doing so arguably could advance a valid public purpose.

With respect to the concept of attempting to accomplish this without the expenditure of public funds we also generally question how such in reality could be actually accomplished. In addressing the question of expenditure of public funds we do not mean to limit our concerns to factual situations wherein public funds are spent directly, but we are also concerned with the constitutionality of a plan wherein state employees would be utilized directly or indirectly in accomplishing this task or where existing signs paid for at public expense would be utilized.

Therefore in conclusion, we fail to see how the placement of private logos in the state highway right-of-way could be accomplished without at least the indirect expenditure of public funds, a situation we have previously found to be constitutionally objectionable and further we believe that even if such could be accomplished, the mere fact that only those companies located near the highway would be permitted to participate would cause such a statute to be invalid as being violative of the prohibitions of Article III, Section 18 discussed above.

Very truly yours,  
PAUL L. DOUGLAS  
Attorney General

**MESSAGE FROM THE GOVERNOR**

May 18, 1983

Mr. President, Mr. Speaker and  
Members of the Legislature  
State Capitol  
Lincoln, Nebraska 68509

Dear Mr. President and Senators:

I hereby return LB 62 and LB 62A without my signature and with my objections.

My first concern is with establishing new funding for a program when we are cutting back on existing programs.

I am also concerned about setting curriculum priorities at the state level by targeting funds for specific educational programs without an assessment of overall state educational needs. Without this overall assessment, such decisions are best left to the local school boards.

I urge you to support and sustain my veto and, in the months ahead, to join in the common task of further improving public education in Nebraska.

Sincerely,  
(Signed) ROBERT KERREY  
Governor

**RESOLUTION****LEGISLATIVE RESOLUTION 203.**

Introduced by Fowler, 27th District; Landis, 46th District; Marsh, 29th

WHEREAS, Helen Boosalis' leadership and commitments have contributed significantly to the quality of life for the citizens of Lincoln.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-EIGHTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

### **ATTORNEY GENERAL'S OPINION**

Opinion No. 117  
May 19, 1983

Dear Senator Hoagland:

You have submitted to us another amendment to LB 599, and have asked our opinion as to whether it cures the problems we pointed out in our Opinion No. 103, and its predecessor, Opinion No. 88. In our opinion, it does not materially change the bill, as amended, which we discussed in our Opinion No. 103.

In Opinion No. 103 we discussed an amendment which provided that any injunction issued under the act could enjoin only offers to or purchases from Nebraska residents pursuant to a takeover offer. The amendments you now submit would provide that the liabilities, penalties, and remedies provided for by §§8-1117 and 8-1118 should apply only in respect to offers to or purchases from residents of the State of Nebraska. It further provides that the Department of Banking and Finance shall have, with respect to takeover offers, the powers set forth in §§8-1115 and 8-1116 only with respect to transactions in the State of Nebraska.

Sections 8-1117 and 8-1118 provide for certain liabilities and penalties for violation of the Securities Act of Nebraska, and provide remedies for persons injured by such violation. Sections 8-1115 and 8-1116 give the Director of Banking and Finance certain investigatory powers, and the right to bring an action for injunction to prevent violation of the Securities Act of Nebraska.

In our Opinion No. 103 we pointed out the possibility that LB 599, as then amended, might still be held to violate the Commerce Clause of the Federal Constitution, and we also pointed out the distinct possibility that the courts may ultimately say that Congress has completely occupied the field with respect to takeover offers, leaving no room for state regulation.

As we said in that opinion, the answer is not crystal clear, but there is a strong likelihood that this legislation will be held to be invalid, either as being in violation of the Commerce Clause, or as having been preempted by the Williams Act. The amendment you have submitted to us does nothing to change that conclusion.

Very truly yours,  
PAUL L. DOUGLAS  
Attorney General

#### **ATTORNEY GENERAL'S OPINION**

Opinion No. 118  
May 19, 1983

Dear Senator Nichol:

This is in response to your request of May 13, 1983, which pertains to LB 126 of the Eighty-Eighth Legislature, First Session (1983). That legislative bill is an act to provide a work-study program for certain students at certain postsecondary educational institutions. Section 5 of LB 126 requires the Nebraska Coordinating Commission for Postsecondary Education to allocate any appropriation made to implement this legislative bill as follows:

The commission shall allocate the appropriation for the

program among all eligible postsecondary institutions as defined in subdivision (4) of section 2 of this act in the ratio that the total full-time enrollment of Nebraska residents in each eligible individual institution multiplied by the average cost of attendance, as defined by 34 CFR section 675, for the various institutional budget categories, of a single dependent resident at the eligible postsecondary institution, bears to the sum of all eligible individuals multiplied by the average cost of attendance at their respective eligible institutions.

You have inquired, if basing the above-quoted allocations upon the average cost of attendance as defined by 34 C.F.R. §675, violates any provisions of the Nebraska Constitution.

The latest edition of Title 34 of the Code of Federal Regulations that we have access to was revised as of July 1, 1982. There is no section 675 published therein. Thus, unless there is a later edition of Title 34 of the Code of Federal Regulations which contains a section 675, it would appear that the citation thereto in Section 5 of LB 126 renders this section ambiguous. Consequently, it would also appear that there is no legal way in which the Nebraska Coordinating Commission for Postsecondary Education could allocate any appropriation made to implement this legislative bill in the event it became law.

Very truly yours,  
PAUL L. DOUGLAS

**ATTORNEY GENERAL'S OPINIONS**

Opinion No. 119

May 19, 1983

Dear Senator Wesely:

You have asked for our opinion on whether or not you may amend LB 371A to provide for a salary increase for state employees.

Due to the time constraints under which we operate in responding to your letter, extensive research and citation is not possible. We may, however, set out certain points. LB 371A is entitled the bill to fund the provisions of LB 371. LB 371 is entitled an act relating to the support and protection of certain parties and to amend enumerated statutes to authorize ex parte orders and to modify the provisions relating to temporary child support, and define and redefine terms to authorize attorneys to enforce child support efforts as prescribed and to provide severability and to repeal the original sections. Substantially LB 371 deals with child support enforcement.

We believe that LB 371A would not be a proper vehicle for a raise for state employees for several reasons. They are: (1) that such an amendment would not be germane to the title or purpose of LB 371A or LB 371; (2) LB 371A is not an appropriations bill as contemplated by the Constitution for the purpose of funding state government operations; and (3) "A" bills traditionally have served a function in the legislative process of funding new programs or duties that were not in existence prior to their adoption in the companion bill.

For all of the above reasons, we believe that an amendment to LB 371A which has as its purpose the appropriation of money to the various state departments for the purpose of granting salary increases would be unconstitutional.

Very truly yours,  
PAUL L. DOUGLAS

Attorney General

Clerk of the Legislature

May 19, 1983

Dear Senator Warner:

You ask for our advice on certain questions relating to the legislative authority in overriding line item vetoes made by the Governor. You post the following question: "Is the Legislature authorized to override a portion of the \$173,392 reduction by moving

to override item No. 17 and restore only \$125,000 of the amount reduced?" In connection with your question you refer to Agency 72, the Department of Economic Development, Program No. 604, which appears in Section 66 of LB 628. In that bill, the Legislature had appropriated \$2,099,016. The Governor struck that amount and inserted the amount \$1,925,624, a reduction of \$173,392. Further, in your letter you state that "the Governor's line item veto of the \$173,392, included the following items: No. 1 - Eliminate Salary Increase; No. 2 - Eliminate Appropriations Committee Percentage Operating Increases; and No. 17 - Economic Development Addition of \$125,000." The numbers to which you refer (1, 2 and 17) are contained in an attachment to the Governor's veto message. In that connection, you have provided to us a copy of the Governor's veto message and the listing of cuts made.

The first item shown on the attachment shows the total salary increases eliminated by the Governor through the line item veto. The second entry shows the total operating increases eliminated through the line item veto. In both cases, these are the total sums separately reduced in the bill for various state agencies and the University and State Colleges. There follows a listing of 14 separate line item vetoes. The last item is the Economic Development Addition veto. With this background, we examine the provisions of the Constitution. Article IV, Section 15 provides in part:

Every bill passed by the Legislature, before it becomes a law, shall be presented to the Governor. If he approves he shall sign it, and thereupon it shall become a law, but if he does not approve or reduces any item or items of appropriations, he shall return it with his objections to the Legislature, which shall enter the objections at large upon its journal, and proceed to reconsider the bill with the objections as a whole, or proceed to reconsider individually the item or items disapproved or reduced.

Article III, Section 25, in part provides: "No allowance shall be made for the incidental expenses of any state officer except the same be made by general appropriation and upon an account specifying each item. No money shall be drawn from the treasury except in pursuance of a specific appropriation made by law, . . ." Article IV, Section 7, requires the Governor to present a complete and itemized budget of the financial conditions of all departments, institutions and agencies of the state.

The Legislature has seen fit to adopt an appropriations bill format which appropriates money by programs. At earlier times, the Legislature has adopted an appropriations bill having specific items listed for each agency rather than program totals. For example, see LB 455, Seventy-Third Legislature (1963), Chapter 330, page 995 of the session laws. In that bill, for example, in providing for the

Governor's Office, there are 11 separate entries appropriating various sums for various purposes. In contrast, LB 628 in Section 5, Program No. 21, the Governor's Office has one entry appropriating \$375,425.

Going back then to the provisions of the Constitution, the question which faces us is what constitutes an "item or items." It is our opinion that an item or items must refer to the appropriations bill. As such, we believe that the Legislature can look only to the appropriations bill itself. Thus, each separate entry is an item. This interpretation accords with the definition of "item" in many cases. See, for example, Green v. Rawls, 122 So.2d 10 (Fla. 1960). The election is for the Legislature. It can go into as much detail as it desires. We then look to the terms of LB 628 and the example to which you have directed us on page 99 of LB 628, \$52,099,016 is appropriated for Program No. 604. That is lined out and \$1,925,624 is written in along with the initials of the Governor. Other items in this program were left unchanged. The program total, \$2,732,579 is lined out by the Governor. Written in along with his initials is \$2,559,187. The difference in both instances is the amount \$173,392.

The line item veto provision of Article IV, Section 15, authorizes the Legislature to consider the bill with objections as a whole or proceed to reconsider individually the item or items disapproved or reduced. We take this language to mean that the Legislature has two methods of overriding the Governor's veto. One is to vote on the question shall LB 628 be passed over the Governor's veto with all stricken amounts restored. The other is for the Legislature to go through the bill and determine whether each, some or any of the lined out amounts should be restored.

While there may be separate amounts set forth for any particular program, to the extent that a single number has been changed by the Governor, we do not believe that the Legislature may break down such single entries into the various components which may make up that particular entry in LB 628 or other appropriations bills. Thus, our answer to your question with respect to Program No. 604, is that the Legislature may restore all of the \$173,392 by the constitutionally required vote or the item remains as vetoed by the Governor at \$1,925,624.

Very truly yours,

### **ATTORNEY GENERAL'S OPINION**

Opinion No. 121  
May 19, 1983

Dear Senator Pirsch:

You have asked whether it is necessary for the Legislature to pass an appropriations bill to fund LB 269.

LB 269 is a bill which amends Neb.Rev.Stat. §24-201.01 (Reissue 1979). In this bill, the salary of the judges of the Supreme Court is increased as soon as the same may be paid by five percent. It also increases annually in January of 1984, 1985 and 1986, the salary of the Supreme Court judges by five percent. The companion bill to LB 269A by virtue of receiving an insufficient number of votes failed to pass. That bill was an appropriation from the general fund of the funds necessary to provide for the increases mandated in LB 269. In your letter you have referred to two previous opinions regarding similar questions issued by this office. Opinion No. 251, dated April 16, 1982; and Opinion No. 57, Report of the Attorney General 1957-58. You indicate your belief that these opinions do not answer the question you pose.

We adhere to the views expressed in those prior opinions. As you correctly point out, those opinions were dealing with salaries of the Commissioner of Education in case of Opinion No. 57, and in the case of Opinion No. 251 judges salaries. You attempt to draw the distinction between the fact that the Commissioner of Education salary is set by the Board of Education and the cases relied upon in our earlier opinions dealt with officers whose salary was set at a specific amount by the Constitution itself. Indeed, Weston v. Herdman, 64 Neb. 24, 89 N.W. 384 cited in our opinion, dealt with the salary of the Clerk of the Supreme Court. In that case, the constitutional provision provided that the official salary shall be fixed by law not to exceed \$1,500 per annum. The Legislature failed to fix any salary for that office. The Supreme Court held in that case that by virtue of their failure to act the Legislature had acquiesced in the salary of \$1,500 for the clerk. In the current instance the constitutional provision simply states that the judges shall be paid in an amount to be determined by the Legislature. See, Article V, Section 13.

By adopting LB 269, the Legislature has determined the amount to be paid to the Supreme Court judges. In addition, the Legislature adopted LB 111, Eighty-Seventh Legislature, First Session (1981). In that bill, the Legislature established the rates of salary for judges of the district court, the county court, the municipal court, and the workmen's compensation court. This bill established those judges salaries at a percentage of that set for the Supreme Court. Having enacted a statute which sets the level at which judges are to be paid, the Legislature thereby met the constitutional command. The reasoning of the cases cited in our earlier opinions and the Supreme court cases cited therein, make clear that once this is done then even though there is a failure of the Legislature to appropriate funds, those salaries must be paid by virtue of their constitutional status.

It is therefore our opinion that the Legislature is not required to adopt an appropriations bill before the salaries for these judges as set forth in LB 269 and LB 111 of 1981 may be paid.

Very truly yours,  
PAUL L. DOUGLAS

## **RESOLUTION**

### **LEGISLATIVE RESOLUTION 207.**

Introduced by Haberman, 44th District.

WHEREAS, the Merchant Marine Act of 1936 as amended by the Cargo Preference Act of 1954 requires that 50% of government-sponsored commodity shipments (PL480 cargoes) move in U.S. vessels; and

WHEREAS, such requirement has cost \$337 million since fiscal year 1980; and

WHEREAS, had those shipments moved on the most competitive and cost efficient vessels available, the savings could have financed approximately 61 million bushels of additional wheat exports, an amount equal to 60% of Nebraska's annual wheat crop; and

WHEREAS, the increased cost of subsidizing the maritime industry came out of the pockets of Nebraska farmers and the state's economy as a result of reduced foreign demand, lower commodity prices and negative economic spinoffs to the state; and

WHEREAS, maritime subsidies amounted to \$21,853 per maritime employee in 1981 and were more damaging to the U.S. agricultural economy than they were beneficial to other sectors; and

WHEREAS, the required use of U.S. vessels increases the freight cost of exporting U.S. agricultural commodities by as much as \$2.12 per bushel over world freight rates, making U.S. commodities less competitive in world markets.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-EIGHTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Legislature of Nebraska opposes cargo preference laws that require 50% of all "concessional" export credit sales be carried on U.S. ships.

2. That the Legislature of Nebraska is concerned with the effectiveness of present governmental policies and programs relating to cargo preference.

3. That a copy of this resolution be sent to the President of the United States, the Secretary of Agriculture, the Secretary of Commerce, and the Nebraska Congressional Delegation.

Laid over.

### MESSAGE FROM THE GOVERNOR

May 25, 1983

Mr. President, Mr. Speaker and  
Members of the Legislature  
State Capitol  
Lincoln, Nebraska 68509

Dear Mr. President and Senators:

I am herewith returning LB 615 with my signature but with line-item veto reductions.

Contained in this bill is an increase in the budget of the Foster Care Review Board of \$19,000. When the Legislature passed LB 714 last year the second year funding for this new agency was anticipated to be \$83,000 which would have been a 9.1% increase over the current year appropriation. The general fund budget for FY 83/84 if the \$19,000 were left intact would be \$92,665 or an increase of 21.9%. If the anticipated federal and cash funds are added, this agency would have experienced a 125.7% growth in its first year.

I have therefore eliminated the \$19,000 increase leaving a total estimated budget of \$152,665 or a 100.8% increase over the current year. Considering the increases that are being granted to other agencies, this would seem to be more than adequate.

Sincerely,  
(Signed) ROBERT KERREY  
Governor

Mr. President, Mr. Speaker and  
Members of the Legislature  
State Capitol Building

Lincoln, Nebraska 68509

Dear Mr. President and Senators:

I hereby return LB 126 and LB 126A without my signature and with my objections.

First of all, I commend Senator Cullan and others who supported this bill for two things:

1. Recognizing the need for aid assistance for Nebraska's postsecondary students and for recognizing the importance of work-study programs.

2. Engaging in the discussion of the philosophy of funding for postsecondary education. There is little doubt that much courage will be required of us as we approach this issue in the future. At the current level of funding (nearly \$200 million) simple mathematics forces us to this conclusion.

While I applaud your efforts my objections are as follows:

1. There remains a serious flaw in the legislation relating to its tendency to favor private institutions, potential for worker displacement, and difficulty in policing.

2. Under no circumstances could I recommend funding this program this year and there remains serious doubt about my ability to do so next year. Adopting a new unfunded student aid program when a previous one - the State Student Scholarship Program - remains unfunded, and when several legislative studies of higher education are pending, is not a sound approach to making long-term improvements.

While the restoration of some federal cuts does provide relief to Nebraska students and postsecondary institutions, some state assistance does appear appropriate. The types of programs and the proper mix should be established at the outset on the basis of a comprehensive review of state higher education needs and existing policy. Such a review should address the aid implications of below cost tuition levels, the relationship of need and merit, the state's responsibility to assist the various types of postsecondary education, and the relationship of higher education to other top public priorities in Nebraska.

In the meantime, I urge you to support and sustain my veto of this substantial future spending program.

Sincerely,  
(Signed) ROBERT KERREY  
Governor

**MESSAGE FROM THE GOVERNOR**

May 26, 1983

Mr. President, Mr. Speaker and  
Members of the Legislature  
State Capitol Building  
Lincoln, Nebraska 68509

Dear Mr. President and Senators:

I hereby return LB 490 without my signature and with my objections.

The purpose of LB 490 is to establish community action agencies as subdivisions of Nebraska state government and to provide a source of funding. While this is a noble intention, there are several practical flaws in LB 490.

First, the State is required to assume all existing community action agencies which are independent, private non-profit corporations. No

provisions are made in LB 490 for an assessment of obligations or for an analysis of an agency's financial condition. In fact, no oversight of these agencies by state government is allowed for.

Second, the state is required to maintain a governance structure that is not consistent with Nebraska tradition. The Legislature has previously created a system of interlocal governing boards for mental health, mental retardation and alcoholism services that depends upon oversight by local elected officials. LB 490 prescribes a local governing board in which elected officials have a minority role. This is not acceptable for a public agency dispensing public monies.

Finally, LB 490 seriously impairs the Governor's flexibility to distribute federal community service block grant funds. My veto of LB 64 was based substantially on this point, and my position has not changed.

The future of federal funds for community service agencies is unclear, especially as a separate block grant. The State of Nebraska cannot afford the additional responsibilities included in LB 490 if federal funds are lost. Therefore, I am returning the bill without my signature.

Sincerely,  
(Signed) ROBERT KERREY  
Governor

### **MESSAGE FROM THE GOVERNOR**

May 26, 1983

Mr. President, Mr. Speaker and  
Members of the Legislature  
State Capitol Building  
Lincoln, Nebraska 68509

Dear Mr. President and Senators:

I hereby return LB 27 without my signature and with my objections.

When we began the 1983 Legislative Session, we were faced with a fiscal crisis of enormous proportions. During the course of the session,

we reached what was, under the circumstances, a very reasonable solution. New revenue measures and the budget documents were processed and adopted in a very timely manner. Unfortunately, LB 27 was approved by the Legislature on the final day of the session, jeopardizing the tenuous revenue/budget package that had earlier been approved.

A freeze on the corporate income tax rate at this point in time is not in the interest of fair and equitable tax policy. Nebraska corporations are still receiving substantial benefits from the Economic Recovery Tax Act of 1981. These benefits have reduced federal taxable income, which directly reduces the state corporate tax liability.

A review of the proportion of total net general fund receipts represented by the corporate income tax over the past six years clearly illustrates this point. During the period from FY 1977-1978 through FY 1980-81, the corporate tax made up between 8.9% and 9.4% of total net general fund receipts. During FY 81-82, this figure dropped to 7.4%, and is projected to drop even further, to 5.7% for the current fiscal year.

Assuming a 20% individual rate for FY 83-84 and the adjustment in corporate rates that would occur without LB 27, the proportion of corporate taxes to total receipts is projected to be 5.5%, roughly maintaining the status quo. The effect of LB 27 would be a reduction in net general fund receipts of \$5.2 million, reducing the corporate share to 4.8%. This is not justifiable in my opinion.

During this past session, we have come a long way toward resolving the fiscal crisis that faced us last January. We left no stone unturned in the budget process. We have asked individual Nebraska taxpayers to remit a temporary 1/2¢ sales tax to enable the state to implement a sound fiscal management tool, the cash reserve. Enactment of LB 27 would amount to abandonment of the fair and equitable fiscal solution we have reached.

Sincerely,  
(Signed) ROBERT KERREY  
Governor

Mr. President, Mr. Speaker and  
Members of the Legislature  
State Capitol Building  
Lincoln, Nebraska 68509

Dear Senators:

I am herewith returning LB 629 with my signature but with certain line-item veto reductions.

This bill would, among other things, increase the appropriation for Community Based Mental Retardation by \$200,000 over the amount contained in the main budget bill, LB 628, of \$18,279,515.

In preparing my vetoes of LB 628, I avoided reducing the recommendation for this important program. However, I cannot support this "after-the-fact" attempt to further increase the appropriation. I have therefore stricken that \$200,000 additional increase.

The \$139,936 additional appropriation for the Technical Community Colleges has also been stricken. With my veto of LB 628 I indicated the level of funding which I could support and my position has not changed.

ROBERT KERREY
